UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the quarterly period ended September 30, 2012

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the transition period

from _____ to _____

Commission file number 1-183

THE HERSHEY COMPANY

(Exact name of registrant as specified in its charter)

Delaware

23-0691590

(State or other jurisdiction of incorporation
or organization)

(I.R.S. Employer Identification No.)

100 Crystal A Drive, Hershey, PA

17033

(Address of principal executive offices)

(Zip Code)

717-534-4200

(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting
company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Edgar Filing: HERSHEY CO - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common Stock, \$1 par value – 162,571,954 shares, as of October 19, 2012. Class B Common Stock, \$1 par value – 60,629,917 shares, as of October 19, 2012.

THE HERSHEY COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

Our unaudited consolidated financial statements provided in this report include the accounts of the Company and our majority-owned subsidiaries and entities in which we have a controlling financial interest after the elimination of intercompany accounts and transactions. We have a controlling financial interest if we own a majority of the outstanding voting common stock and the noncontrolling shareholders do not have substantive participating rights, or we have significant control over an entity through contractual or economic interests in which we are the primary beneficiary. We prepared these statements in accordance with the instructions to Form 10-Q. The financial statements were prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim reporting. These statements do not include all of the information and footnotes required by GAAP for complete financial statements. Our significant interim accounting policies include the recognition of a pro-rata share of certain estimated annual amounts primarily for raw material purchase price variances, advertising expense, incentive compensation expenses and the effective income tax rate.

We included all adjustments (consisting only of normal recurring accruals) which we believe were considered necessary for a fair presentation. We reclassified certain prior year amounts to conform to the 2012 presentation. Operating results for the nine months ended September 30, 2012 may not be indicative of the results that may be expected for the year ending December 31, 2012, because of the seasonal effects of our business. For more information, refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K.

2. BUSINESS ACQUISITIONS

Acquisitions of businesses are accounted for as purchases and, accordingly, their results of operations have been included in the consolidated financial statements since the respective dates of the acquisitions. The purchase price for each of the acquisitions is allocated to the assets acquired and liabilities assumed.

In January 2012, we acquired all of the outstanding stock of Brookside Foods Ltd. ("Brookside"), a privately held confectionery company based in Abbotsford, British Columbia, Canada. Brookside has two production facilities located in British Columbia and Quebec. The Brookside product line is primarily sold in the U.S. and Canada in a take home re-sealable pack type. At the time of the acquisition, annual net sales of the business were approximately \$90 million. The business complements our position in North America and we expect to make investments in manufacturing capabilities and conduct market research that will enable future growth.

Our financial statements reflect the preliminary accounting for the Brookside acquisition. The purchase price for the acquisition was approximately \$172.9 million. The preliminary purchase price allocation of the Brookside acquisition is as follows:

In thousands of dollars	Purchase Price Allocation ⁽¹⁾	Estimated Useful Life
Goodwill	\$65,426	Indefinite
Trademarks	60,253	25
Other intangibles ⁽²⁾	50,928	6 to 17
Other assets, net of liabilities assumed	23,468	
Non-current deferred tax liabilities	(27,219)	
Purchase Price	\$172,856	

(1) The purchase price allocation is preliminary primarily due to ongoing analysis to determine working capital adjustments. We expect to finalize the purchase price allocation by the end of 2012.

(2) Includes customer relationships, patents and covenants not to compete.

The excess purchase price over the estimated value of the net tangible and identifiable intangible assets was recorded to goodwill. The goodwill is not expected to be deductible for tax purposes.

In February 2011, we acquired a 49% interest in Tri-US, Inc. of Boulder, Colorado, a company that manufactures, markets and sells nutritional beverages under the “mix1” brand name. We invested \$5.8 million and accounted for this investment using the equity method until January 2012. In January 2012, we made an additional investment of \$6.0 million in Tri-US, Inc., resulting in a controlling ownership interest of approximately 69%. Our financial statements reflect the accounting for the acquisition of the controlling interest in Tri-US, Inc. Total liabilities recorded were \$1.3 million. The amounts of goodwill and other intangibles acquired were \$7.2 million and \$1.4 million, respectively. We included results subsequent to the acquisition dates in the consolidated financial statements. If we had included the results of the acquisitions in the consolidated financial statements for each of the periods presented, the effect would not have been material.

3. NONCONTROLLING INTERESTS IN SUBSIDIARIES

In May 2007, we entered into an agreement with Godrej Beverages and Foods, Ltd., a consumer goods, confectionery and food company, to manufacture and distribute confectionery products, snacks and beverages across India. Under the agreement, we owned a 51% controlling interest in Godrej Hershey Ltd. In September 2012, we acquired the remaining 49% interest in Godrej Hershey Ltd. for approximately \$15.9 million. Since the Company had a controlling interest in Godrej Hershey Ltd., the transaction was recorded in additional paid-in capital and the noncontrolling interest in Godrej Hershey Ltd. was eliminated as of September 30, 2012. Payments to noncontrolling interests associated with Godrej Hershey Ltd. were partially offset by equity contributions of \$2.9 million by the noncontrolling interests in Hershey do Brasil.

The decrease in noncontrolling interests in subsidiaries from \$23.6 million as of December 31, 2011 to \$15.7 million as of September 30, 2012, reflected the impact of the acquisition of the remaining 49% interest in Godrej Hershey Ltd. in September 2012 and the noncontrolling interests' share of losses of the entities, partially offset by the adjustment to record the additional investment in Tri-US, Inc. in January 2012. The noncontrolling interests' share of losses in subsidiaries increased income by \$10.4 million for the nine months ended September 30, 2012 and by \$5.0 million for the nine months ended October 2, 2011 and was included in selling, marketing and administrative expenses.

4. STOCK COMPENSATION PLANS

The Hershey Company Equity and Incentive Compensation Plan (“EICP”) is the plan under which grants using shares for compensation and incentive purposes are made. The following table summarizes our stock compensation costs:

In millions of dollars	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2012	October 2, 2011	September 30, 2012	October 2, 2011
Total compensation amount charged against income for stock options, performance stock units (“PSUs”) and restricted stock units (“RSUs”)	\$ 12.8	\$ 6.8	\$ 37.4	\$ 30.8
Total income tax benefit recognized in the Consolidated Statements of Income for share-based compensation	\$ 4.6	\$ 2.3	\$ 13.1	\$ 11.0

The increase in share-based compensation expense for the third quarter of 2012 resulted primarily from certain adjustments associated with accounting for performance stock units. The increase in share-based compensation expense for the first nine months of 2012 resulted primarily from the forfeiture of unvested awards due to participant changes during the second quarter of 2011.

Stock Options

A summary of the status of our stock options as of September 30, 2012, and the change during 2012 is presented below:

Stock Options	For the Nine Months Ended September 30, 2012		
	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term
Outstanding at beginning of the period	14,540,442	\$44.86	5.6 years
Granted	2,101,495	\$60.84	
Exercised	(5,084,493)	\$44.64	
Forfeited	(197,697)	\$52.10	
Outstanding as of September 30, 2012	11,359,747	\$47.79	6.3 years
Options exercisable as of September 30, 2012	6,059,297	\$45.51	4.5 years

	For the Nine Months Ended	
	September 30, 2012	October 2, 2011
Weighted-average fair value of options granted (per share)	\$10.59	\$9.98
Intrinsic value of options exercised (in millions of dollars)	\$108.2	\$75.3

We estimated the fair value of each stock option grant on the date of the grant using a Black-Scholes option-pricing model and the weighted-average assumptions set forth in the following table:

	For the Nine Months Ended	
	September 30, 2012	October 2, 2011
Dividend yields	2.4%	2.7%
Expected volatility	22.4%	22.6%
Risk-free interest rates	1.5%	2.8%
Expected lives in years	6.6	6.6

As of September 30, 2012, the aggregate intrinsic value of options outstanding was \$271.1 million and the aggregate intrinsic value of options exercisable was \$158.4 million.

As of September 30, 2012, there was \$24.9 million of total unrecognized compensation cost related to non-vested stock option compensation arrangements granted under our stock option plans. That cost is expected to be recognized over a weighted-average period of 2.25 years.

Performance Stock Units and Restricted Stock Units

A summary of the status of our PSUs and RSUs as of September 30, 2012, and the change during 2012 is presented below:

Performance Stock Units and Restricted Stock Units	For the Nine Months Ended September 30, 2012	Weighted-average grant date fair value for equity awards or market value for liability awards
Outstanding at beginning of year	1,740,479	\$48.70
Granted	445,892	\$64.07
Performance assumption change	216,375	\$58.94
Vested	(589,430))\$42.80
Forfeited	(80,811))\$56.54
Outstanding as of September 30, 2012	1,732,505	\$56.06

The table above excludes PSU awards for 71,676 units as of December 31, 2011 and 42,004 units as of September 30, 2012 for which the measurement date has not yet occurred for accounting purposes.

The following table sets forth information about the fair value of the PSUs and RSUs granted for potential future distribution to employees and directors during the year. In addition, the table provides assumptions used to determine the fair value of the market-based total shareholder return component of the PSU grants using the Monte Carlo simulation model on the date of grant:

	For the Nine Months Ended	
	September 30, 2012	October 2, 2011
Units granted	445,892	508,877
Weighted-average fair value at date of grant	\$64.07	\$52.23
Monte Carlo simulation assumptions:		
Estimated values	\$35.62	\$37.79
Dividend yields	2.5	% 2.7 %
Expected volatility	20.0	% 28.8 %

As of September 30, 2012, there was \$43.1 million of unrecognized compensation cost relating to non-vested PSUs and RSUs. We expect to recognize that cost over a weighted-average period of 2.1 years.

	For the Nine Months Ended	
	September 30, 2012	October 2, 2011
Intrinsic value of share-based liabilities paid, combined with the fair value of shares vested (in millions of dollars)	\$36.2	\$34.3

Deferred performance stock units, deferred restricted stock units, and directors' fees and accumulated dividend amounts representing deferred stock units totaled 616,796 units as of September 30, 2012. Each unit is equivalent to one share of the Company's Common Stock.

No stock appreciation rights were outstanding as of September 30, 2012.

For more information on our stock compensation plans, refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K and our proxy statement for the 2012 annual meeting of stockholders.

5. INTEREST EXPENSE

Net interest expense consisted of the following:

	For the Nine Months Ended	
	September 30, 2012	October 2, 2011
In thousands of dollars		
Interest expense	\$79,893	\$78,191
Interest income	(1,935) (1,976
Capitalized interest	(5,055) (5,346
Interest expense, net	\$72,903	\$70,869

6. BUSINESS REALIGNMENT AND IMPAIRMENT CHARGES

In June 2010, we announced Project Next Century (the "Next Century program") as part of our ongoing efforts to create an advantaged supply chain and competitive cost structure. As part of the program, production was to transition from the Company's century-old facility at 19 East Chocolate Avenue in Hershey, Pennsylvania, to an expanded West Hershey facility, which was built in 1992. Production from the 19 East Chocolate Avenue plant, as well as a portion of the workforce, has transitioned to the West Hershey facility.

The forecast for the Next Century program pre-tax charges and non-recurring project implementation costs has been increased from a range of \$160 million to \$180 million to a range of \$190 million to \$200 million due to a pension settlement loss recorded during the third quarter of 2012 and an additional pension settlement loss expected to be recorded during the fourth quarter of 2012. Pension settlement losses are non-cash charges for the Company. This estimate includes \$170 million to \$180 million in pre-tax business realignment and impairment charges and approximately \$20.0 million in project implementation and start-up costs. Total costs of \$43.4 million were recorded in 2011 and \$53.9 million were recorded in 2010.

Property associated with a former manufacturing facility with a carrying value of \$4.0 million was being held for sale as of September 30, 2012. The fair value of this property was estimated based on expected sales proceeds.

Business realignment and impairment charges and credits recorded during the three-month and nine-month periods ended September 30, 2012 and October 2, 2011 were as follows:

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2012	October 2, 2011	September 30, 2012	October 2, 2011
In thousands of dollars				
Cost of sales – Next Century program	\$5,158	\$9,464	\$38,041	\$23,346
Selling, marketing and administrative – Next Century program	587	1,868	2,138	4,020
Business realignment and impairment charges (credits), net				
Next Century program				
Plant closure expenses	6,938	1,600	14,173	3,727
Pension settlement loss	13,117	—	13,117	—
Employee separation costs (credits)	—	587	914	(9,654
Total business realignment and impairment charges (credits), net	20,055	2,187	28,204	(5,927
Total business realignment and impairment charges	\$25,800	\$13,519	\$68,383	\$21,439

Next Century Program

A charge of \$5.2 million was recorded in cost of sales during the third quarter of 2012 related primarily to the accelerated depreciation of fixed assets over a reduced remaining useful life and start-up costs associated with the Next Century program. A charge of \$0.6 million was recorded in selling, marketing and administrative expenses in the third quarter of 2012 related primarily to project administration for the Next Century program. Expenses of \$6.9 million were recorded in the third quarter of 2012 primarily related to costs associated with the closure of a manufacturing facility and the relocation of production lines. The level of lump sum withdrawals during the first nine months of 2012 from one of the Company's pension plans by employees retiring or leaving the Company resulted in a non-cash pension settlement loss of \$13.1 million recorded in the third quarter of 2012.

A charge of \$38.0 million was recorded in cost of sales during the first nine months of 2012 related primarily to start-up costs associated with the Next Century program and accelerated depreciation of fixed assets over a reduced estimated remaining useful life. A charge of \$2.1 million was recorded in selling, marketing and administrative expenses in the first nine months of 2012 related primarily to project administration for the Next Century program. Expenses of \$14.2 million were recorded during the first nine months of 2012 primarily related to costs associated with the closure of a manufacturing facility and the relocation of production lines. Employee separation costs of \$0.9 million for the Next Century program in the first nine months of 2012 were related to expected voluntary and involuntary terminations.

A charge of \$9.5 million was recorded in cost of sales during the third quarter of 2011 related primarily to the accelerated depreciation of fixed assets over a reduced remaining useful life and start-up costs associated with the Next Century program. A charge of \$1.9 million was recorded in selling, marketing and administrative expenses in the third quarter of 2011 related primarily to project administration for the Next Century program. Plant closure expenses of \$1.6 million were recorded in the third quarter of 2011 primarily related to costs associated with the relocation of production lines. Employee separation costs were \$0.6 million for the Next Century program in the third quarter of 2011, reflecting expected costs related to voluntary and involuntary terminations.

A charge of \$23.3 million was recorded in cost of sales during the first nine months of 2011 related to accelerated depreciation of fixed assets over a reduced remaining useful life associated with the Next Century program. A charge of \$4.0 million was recorded in selling, marketing and administrative expenses during the first nine months of 2011 for project administration. Plant closure expenses of \$3.7 million were recorded during the first nine months of 2011 primarily related to costs associated with the relocation of production lines. Employee separation costs were reduced by \$9.7 million during the first nine months of 2011 which consisted of an \$11.3 million credit reflecting lower expected costs related to voluntary and involuntary terminations at the two manufacturing facilities and a net benefits curtailment loss of \$1.6 million also related to the employee terminations.

The September 30, 2012 liability balance relating to the Next Century program was \$10.9 million for estimated employee separation costs which were recorded in 2010 and 2011. During the first nine months of 2012, we made payments against the liabilities of \$9.4 million related to employee separation costs.

7. EARNINGS PER SHARE

We compute Basic and Diluted Earnings Per Share based on the weighted-average number of shares of the Common Stock and the Class B Common Stock outstanding as follows:

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2012	October 2, 2011	September 30, 2012	October 2, 2011
In thousands except per share amounts				
Net income	\$ 176,716	\$ 196,695	\$ 511,052	\$ 486,829
Weighted-average shares - Basic				
Common Stock	164,686	165,917	164,766	166,223
Class B Common Stock	60,630	60,632	60,630	60,649
Total weighted- average shares - Basic	225,316	226,549	225,396	226,872
Effect of dilutive securities:				
Employee stock options	2,641	2,580	2,641	2,564
Performance and restricted stock units	651	720	664	678
Weighted-average shares - Diluted	228,608	229,849	228,701	230,114
Earnings Per Share - Basic				
Class B Common Stock	\$ 0.73	\$ 0.81	\$ 2.11	\$ 2.00
Common Stock	\$ 0.80	\$ 0.89	\$ 2.33	\$ 2.20
Earnings Per Share - Diluted				
Class B Common Stock	\$ 0.73	\$ 0.80	\$ 2.09	\$ 1.98
Common Stock	\$ 0.77	\$ 0.86	\$ 2.23	\$ 2.12

The Class B Common Stock is convertible into Common Stock on a share for share basis at any time. The calculation of earnings per share-diluted for the Class B Common Stock was performed using the two-class method and the calculation of earnings per share-diluted for the Common Stock was performed using the if-converted method.

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2012	October 2, 2011	September 30, 2012	October 2, 2011
In millions				
Stock options excluded from diluted earnings per share calculations because the effect would have been antidilutive	—	1.6	3.5	6.9

8. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

We account for derivative instruments in accordance with Financial Accounting Standards Board accounting standards which require us to recognize all derivative instruments at fair value. We classify derivatives as assets or liabilities on the balance sheet. As of September 30, 2012 and December 31, 2011, all of our derivative instruments were classified as cash flow hedges.

The fair value of derivative instruments in the Consolidated Balance Sheet as of September 30, 2012 was as follows:

Balance Sheet Caption	Interest Rate Swap Agreements	Foreign Exchange Forward Contracts and Options	Commodities Futures and Options Contracts
In thousands of dollars			
Prepaid expense and other current assets	\$—	\$1,914	\$8,188
Other long-term assets	\$—	\$276	\$—
Accrued liabilities	\$13,113	\$2,260	\$—
Other long-term liabilities	\$2,365	\$196	\$—

The fair value of derivative instruments in the Consolidated Balance Sheet as of December 31, 2011 was as follows:

Balance Sheet Caption	Foreign Exchange Forward Contracts and Options	Commodities Futures and Options Contracts
In thousands of dollars		
Prepaid expense and other current assets	\$3,954	\$3,929
Accrued liabilities	\$5,297	\$2,103
Other long-term liabilities	\$12	\$—

The fair value of the interest rate swap agreements represents the difference in the present values of cash flows calculated at the contracted interest rates and at current market interest rates at the end of the period. We calculate the fair value of interest rate swap agreements quarterly based on the quoted market price for the same or similar financial instruments.

The fair value of foreign exchange forward contracts and options is the amount of the difference between the contracted and current market foreign currency exchange rates at the end of the period. We estimate the fair value of foreign exchange forward contracts and options on a quarterly basis by obtaining market quotes of spot and forward rates for contracts with similar terms, adjusted where necessary for maturity differences. As of September 30, 2012, the fair value of foreign exchange forward contracts with gains totaled \$2.2 million and the fair value of foreign exchange forward contracts with losses totaled \$2.5 million.

As of September 30, 2012, prepaid expense and other current assets associated with commodities futures and options contracts were associated with the fair value of commodity derivative instruments and cash transfers receivable on commodities futures contracts reflecting the change in quoted market prices on the last trading day for the period. We make or receive cash transfers to or from commodity futures brokers on a daily basis reflecting changes in the value of futures contracts on the Intercontinental Exchange or various other exchanges. These changes in value represent unrealized gains and losses.

The effect of derivative instruments on the Consolidated Statements of Income for the nine months ended September 30, 2012 was as follows:

Cash Flow Hedging Derivatives	Interest Rate Swap Agreements	Foreign Exchange Forward Contracts and Options	Commodities Futures and Options Contracts
In thousands of dollars			
Gains (losses) recognized in other comprehensive income (“OCI”) (effective portion)	\$(15,477) \$3,249	\$70,129
Gains (losses) reclassified from accumulated OCI into income (effective portion) (a)	\$(2,646) \$(2,563) \$(72,000
Gains (losses) recognized in income (ineffective portion) (b)	\$—	\$—	\$2,465

The effect of derivative instruments on the Consolidated Statements of Income for the nine months ended October 2, 2011 was as follows:

Cash Flow Hedging Derivatives	Interest Rate Swap Agreements	Foreign Exchange Forward Contracts and Options	Commodities Futures and Options Contracts
In thousands of dollars			
Gains (losses) recognized in other comprehensive income (“OCI”) (effective portion)	\$7,856	\$(21,786) \$(69,750
Gains (losses) reclassified from accumulated OCI into income (effective portion) (a)	\$1,558	\$723	\$22,400
Gains (losses) recognized in income (ineffective portion) (b)	\$—	\$—	\$(691

Gains (losses) reclassified from accumulated OCI into earnings were included in cost of sales for commodities futures and options contracts and for foreign exchange forward contracts and options designated as hedges of (a) intercompany purchases of inventory. Other gains and losses for foreign exchange forward contracts and options were included in selling, marketing and administrative expenses. Gains (losses) reclassified from accumulated OCI into earnings were included in interest expense for interest rate swap agreements.

(b) Gains (losses) recognized in earnings were included in cost of sales.

All gains (losses) recognized in earnings were related to the ineffective portion of the hedging relationship. We recognized no components of gains and losses on cash flow hedging derivatives in income due to excluding such components from the hedge effectiveness assessment.

The amount of net losses on cash flow hedging derivatives, including interest rate swap agreements, foreign exchange forward contracts and options and commodities futures and options contracts, expected to be reclassified into earnings in the next twelve months was approximately \$6.1 million after tax as of September 30, 2012. This amount was primarily associated with commodities futures and options contracts.

For more information, refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K.

9. COMPREHENSIVE INCOME

A summary of the components of comprehensive income (loss) is as follows:

	For the Three Months Ended September 30, 2012		
	Pre-Tax Amount	Tax (Expense) Benefit	After-Tax Amount
In thousands of dollars			
Net income			\$ 176,716
Other comprehensive income (loss):			
Foreign currency translation adjustments	\$ 10,815	—	10,815
Pension and post-retirement benefit plans	(1,425) 572	(853)
Cash flow hedges:			
Gains on cash flow hedging derivatives	58,797	(23,115) 35,682
Reclassification adjustments	23,233	(8,589) 14,644
Total other comprehensive income	\$ 91,420	\$ (31,132) 60,288
Comprehensive income			\$ 237,004
	For the Three Months Ended October 2, 2011		
	Pre-Tax Amount	Tax (Expense) Benefit	After-Tax Amount
In thousands of dollars			
Net income			\$ 196,695
Other comprehensive income (loss):			
Foreign currency translation adjustments	\$(37,826) \$—	(37,826)
Pension and post-retirement benefit plans	8,178	(2,993) 5,185
Cash flow hedges:			
Losses on cash flow hedging derivatives	(78,216) 31,444	(46,772)
Reclassification adjustments	(11,504) 4,479	(7,025)
Total other comprehensive loss	\$(119,368) \$ 32,930	(86,438)
Comprehensive income			\$ 110,257
	For the Nine Months Ended September 30, 2012		
	Pre-Tax Amount	Tax (Expense) Benefit	After-Tax Amount
In thousands of dollars			
Net income			\$ 511,052
Other comprehensive income (loss):			
Foreign currency translation adjustments	\$ 12,477	\$—	12,477
Pension and post-retirement benefit plans	18,958	(7,203) 11,755
Cash flow hedges:			
Gains on cash flow hedging derivatives	57,901	(22,988) 34,913
Reclassification adjustments	77,209	(29,262) 47,947
Total other comprehensive income	\$ 166,545	\$ (59,453) 107,092
Comprehensive income			\$ 618,144

For the Nine Months Ended
October 2, 2011

	Pre-Tax Amount)	Tax (Expense) Benefit)	After-Tax Amount
--	-------------------	---	--------------------------	---	---------------------

In thousands of dollars

Net income					\$486,829
Other comprehensive income (loss):					
Foreign currency translation adjustments	\$(24,219)	\$—		(24,219)
Pension and post-retirement benefit plans	21,670		(8,429)	13,241)
Cash flow hedges:					
Losses on cash flow hedging derivatives	(83,680)	32,622		(51,058)
Reclassification adjustments	(24,681)	9,524		(15,157)
Total other comprehensive loss	\$(110,910)	\$33,717		(77,193)
Comprehensive income					\$409,636

The components of accumulated other comprehensive income (loss) as shown on the Consolidated Balance Sheets are as follows:

	September 30, 2012)	December 31, 2011	
In thousands of dollars				
Foreign currency translation adjustments	\$ 13,936		\$ 1,459	
Pension and post-retirement benefit plans, net of tax	(344,648)	(356,403)
Cash flow hedges, net of tax	(4,527)	(87,387)
Total accumulated other comprehensive loss	\$(335,239)	\$(442,331)

10. INVENTORIES

We value the majority of our inventories under the last-in, first-out (“LIFO”) method and the remaining inventories at the lower of first-in, first-out (“FIFO”) cost or market. Inventories were as follows:

	September 30, 2012)	December 31, 2011	
In thousands of dollars				
Raw materials	\$272,372		\$241,812	
Goods in process	95,591		91,956	
Finished goods	568,579		482,095	
Inventories at FIFO	936,542		815,863	
Adjustment to LIFO	(210,050)	(166,910)
Total inventories	\$726,492		\$648,953	

The increase in raw material inventories as of September 30, 2012 reflected higher ingredient costs in 2012 and the seasonal timing of deliveries to support manufacturing requirements. Finished goods inventories were higher as of September 30, 2012 due to higher costs in 2012 and increases to support anticipated sales levels of everyday and seasonal items, in addition to the introduction of new products.

11. SHORT-TERM DEBT

As a source of short-term financing, we utilize cash on hand and commercial paper or bank loans with an original maturity of three months or less. Our five-year unsecured revolving credit agreement contains certain financial and other covenants, customary representations, warranties and events of default. As of September 30, 2012, we complied with all covenants pertaining to the credit agreement. There were no significant compensating balance agreements that legally restricted these funds. For more information, refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K.

12. LONG-TERM DEBT

In May 2009, we filed a shelf registration statement on Form S-3 that registered an indeterminate amount of debt securities. This registration statement was effective immediately upon filing under Securities and Exchange Commission regulations governing “well-known seasoned issuers” (the “WKSI Registration Statement”). In September 2011, we repaid \$250 million of 5.3% Notes due in 2011. In November 2011, we issued \$250 million of 1.5% Notes due in 2016. The Notes were issued under the WKSI Registration Statement.

The May 2009 WKSI Registration Statement expired in May 2012. Accordingly, in May 2012, we filed a new registration statement on Form S-3 to replace the May 2009 WKSI Registration Statement. The May 2012 WKSI Registration Statement registered an indeterminate amount of debt securities and was effective immediately.

13. FINANCIAL INSTRUMENTS

The carrying amounts of financial instruments including cash and cash equivalents, accounts receivable, accounts payable and short-term debt approximated fair value as of September 30, 2012 and December 31, 2011, because of the relatively short maturity of these instruments.

The carrying value of long-term debt, including the current portion, was \$1,767.5 million as of September 30, 2012, compared with a fair value of \$2,061.4 million, based on quoted market prices for the same or similar debt issues.

Interest Rate Swaps

In order to minimize financing costs and to manage interest rate exposure, the Company, from time to time, enters into interest rate swap agreements. In April 2012, the Company entered into forward starting interest rate swap agreements to hedge interest rate exposure related to the anticipated \$250 million of term financing expected to be executed during 2013 to repay \$250 million of 5.0% Notes maturing in April 2013. The weighted-average fixed rate on these forward starting swap agreements was 2.4%. In May 2012, the Company entered into forward starting interest rate swap agreements to hedge interest rate exposure related to the anticipated \$250 million of term financing expected to be executed during 2015 to repay \$250 million of 4.85% Notes maturing in August 2015. The weighted-average fixed rate on these forward starting swap agreements was 2.7%.

The fair value of interest rate swap agreements was a liability of \$15.5 million as of September 30, 2012. The Company's risk related to interest rate swap agreements is limited to the cost of replacing such agreements at prevailing market rates. For more information, see Note 8. Derivative Instruments and Hedging Activities.

Foreign Exchange Forward Contracts

The following table summarizes our foreign exchange activity:

In millions of dollars	September 30, 2012	
	Contract Amount	Primary Currencies
Foreign exchange forward contracts to purchase foreign currencies	\$25.7	Euros British pound sterling
Foreign exchange forward contracts to sell foreign currencies	\$63.9	Canadian dollars

Our foreign exchange forward contracts mature in 2012 and 2013. For more information, see Note 8. Derivative Instruments and Hedging Activities.

14. FAIR VALUE ACCOUNTING

We use certain derivative instruments, from time to time, to manage interest rate, foreign currency exchange rate and commodity market price risk exposures, all of which are recorded at fair value based on quoted market prices or rates. A summary of our cash flow hedging derivative assets and liabilities measured at fair value on a recurring basis as of September 30, 2012, is as follows:

Description	Fair Value as of September 30, 2012	Quoted Prices in Active Markets of Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
In thousands of dollars				
Assets				
Cash flow hedging derivatives	\$10,378	\$8,188	\$2,190	\$—
Liabilities				
Cash flow hedging derivatives	\$17,934	\$—	\$17,934	\$—

As of September 30, 2012, cash flow hedging derivative Level 1 assets were related to the fair value of commodity derivative instruments and cash transfers receivable on commodities futures contracts reflecting the change in quoted market prices on the last trading day for the period. We make or receive cash transfers to or from commodity futures brokers on a daily basis reflecting changes in the value of futures contracts on the IntercontinentalExchange or various other exchanges. These changes in value represent unrealized gains and losses.

As of September 30, 2012, cash flow hedging derivative Level 2 assets were related to the fair value of foreign exchange forward contracts with gains. Cash flow hedging Level 2 liabilities were related to the fair value of interest rate swap agreements and foreign exchange forward contracts with losses. The fair value of the interest rate swap agreements represents the difference in the present values of cash flows calculated at the contracted interest rates and at current market interest rates at the end of the period. We calculate the fair value of interest rate swap agreements quarterly based on the quoted market price for the same or similar financial instruments. The fair value of foreign exchange forward contracts and options is the amount of the difference between the contracted and current market foreign currency exchange rates at the end of the period. We estimate the fair value of foreign exchange forward contracts and options on a quarterly basis by obtaining market quotes of spot and forward rates for contracts with similar terms, adjusted where necessary for maturity differences. For more information, see Note 8. Derivative Instruments and Hedging Activities and refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K.

A summary of our cash flow hedging derivative assets and liabilities measured at fair value on a recurring basis as of December 31, 2011, is as follows:

Description	Fair Value as of December 31, 2011	Quoted Prices in Active Markets of Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
In thousands of dollars				
Assets				
Cash flow hedging derivatives	\$7,883	\$3,929	\$3,954	\$—
Liabilities				
Cash flow hedging derivatives	\$7,412	\$2,103	\$5,309	\$—

As of December 31, 2011, cash flow hedging derivative Level 1 assets were primarily related to cash transfers receivable on commodities futures contracts reflecting the change in quoted market prices on the last trading day for the period. As of December 31, 2011, cash flow hedging derivative Level 1 liabilities were related to the fair value of commodity derivative instruments.

As of December 31, 2011, cash flow hedging derivative Level 2 assets were related to the fair value of foreign exchange forward contracts and options with gains. Cash flow hedging Level 2 liabilities were related to foreign exchange forward contracts and options with losses.

15. INCOME TAXES

The number of years with open tax audits varies depending on the tax jurisdiction. Our major taxing jurisdictions include the United States (federal and state), Canada and Mexico. During the fourth quarter 2009, the U.S. Internal Revenue Service (“IRS”) commenced its audit of our U.S. income tax returns for 2007 and 2008 which was concluded during the second quarter of 2012. Tax examinations by various state taxing authorities could generally be conducted for years beginning in 2007. We are no longer subject to Canadian federal income tax examinations by the Canada Revenue Agency (“CRA”) and Mexican federal income tax examinations by Servicio de Administracion Tributaria (“SAT”) for years before 2004. During the third quarter of 2010, the CRA commenced its audit of our Canadian income tax returns for 2006 through 2009. U.S., Canadian and Mexican federal audit issues typically involve the timing of deductions and transfer pricing adjustments. We work with the IRS, the CRA and the SAT to resolve proposed audit adjustments and to minimize the amount of adjustments. We do not anticipate that any potential tax adjustments will have a significant impact on our financial position or results of operations.

We reasonably expect reductions in the liability for unrecognized tax benefits of approximately \$10.3 million within the next 12 months because of the expiration of statutes of limitations and settlements of tax audits.

16. PENSION AND OTHER POST-RETIREMENT BENEFIT PLANS

Components of net periodic benefit cost consisted of the following:

	Pension Benefits		Other Benefits	
	For the Three Months Ended			
	September 30, 2012	October 2, 2011	September 30, 2012	October 2, 2011
In thousands of dollars				
Service cost	\$7,576	\$7,507	\$293	\$333
Interest cost	12,665	13,147	3,316	3,744
Expected return on plan assets	(18,222) (19,640) —	—
Amortization of prior service cost (credit)	182	231	156	(63
Recognized net actuarial loss (gain)	9,895	6,693	(25) (18
Administrative expenses	137	134	22	110
Net periodic benefit cost	12,233	8,072	3,762	4,106
Settlement loss	13,117	—	—	—
Curtailement credit	—	(7) —	—
Total amount reflected in earnings	\$25,350	\$8,065	\$3,762	\$4,106

We made contributions of \$2.9 million and \$5.7 million to the pension plans and other benefits plans, respectively, during the third quarter of 2012. In the third quarter of 2011, we made contributions of \$1.3 million and \$5.4 million to our pension and other benefits plans, respectively. The \$5.4 million of contributions to other benefits plans reflected a reimbursement of \$0.2 million received during the third quarter of 2011 related to the Early Retiree Reinsurance Program, a one-time government program providing reimbursement for a portion of pre-65 healthcare benefit costs. The contributions in 2012 and 2011 also included benefit payments from our non-qualified pension plans and post-retirement benefit plans.

The pension settlement loss in 2012 and the curtailment credit recorded in the third quarter of 2011 related to the Next Century program.

Components of net periodic benefit cost consisted of the following:

	Pension Benefits		Other Benefits	
	For the Nine Months Ended			
	September 30, 2012	October 2, 2011	September 30, 2012	October 2, 2011
In thousands of dollars				
Service cost	\$22,722	\$22,544	\$879	\$1,000
Interest cost	37,980	39,752	9,942	11,232
Expected return on plan assets	(54,634) (58,675) —	—
Amortization of prior service cost (credit)	545	692	465	(190
Recognized net actuarial loss (gain)	29,673	20,779	(75) (54
Administrative expenses	437	550	117	211
Net periodic benefit cost	36,723	25,642	11,328	12,199
Settlement loss	13,117	—	—	—
Curtailment loss (credit)	—	1,826	—	(174
Total amount reflected in earnings	\$49,840	\$27,468	\$11,328	\$12,025

We made contributions of \$4.6 million and \$16.7 million to the pension plans and other benefits plans, respectively, during the first nine months of 2012. During the first nine months of 2011, we made contributions of \$3.9 million and \$15.7 million to our pension and other benefits plans, respectively. The \$15.7 million of contributions to the other benefits plans reflected a reimbursement of \$0.8 million received during 2011 relating to the Early Retiree Reinsurance Program, a one-time government program providing reimbursement for a portion of pre-65 health care benefit costs. The contributions in 2012 and 2011 also included benefit payments from our non-qualified pension plans and post-retirement benefit plans.

The pension settlement loss in 2012 and the pension curtailment loss and other benefits curtailment credit recorded in the first nine months of 2011 related to the Next Century program which is described in more detail in Note 6. Business Realignment and Impairment Charges.

For 2012, there are no significant minimum funding requirements for our pension plans and planned voluntary funding of our pension plans in 2012 is not material.

For more information, refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K.

17. SHARE REPURCHASES

Repurchases and Issuances of Common Stock

A summary of cumulative share repurchases and issuances is as follows:

	For the Nine Months Ended	
	September 30, 2012	
	Shares	Dollars
In thousands		
Shares repurchased in the open market under pre-approved share repurchase programs	2,054	\$124,931
Shares repurchased to replace Treasury Stock issued for stock options and incentive compensation	5,411	372,629
Total share repurchases	7,465	497,560
Shares issued for stock options and incentive compensation	(5,447) (184,324
Net change	2,018	\$313,236

In April 2011, our Board of Directors approved a \$250 million share repurchase program. As of September 30, 2012, \$125.1 million remained available for repurchases of our Common Stock.

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

SUMMARY OF OPERATING RESULTS

Analysis of Selected Items from Our Income Statement

	For the Three Months Ended			For the Nine Months Ended		
	September 30, 2012	October 2, 2011	Percent Change Increase (Decrease)	September 30, 2012	October 2, 2011	Percent Change Increase (Decrease)
In millions except per share amounts

Results of Operations - Third Quarter 2012 vs. Third Quarter 2011

U.S. Price Increases

In March 2011, we announced a weighted-average increase in wholesale prices of approximately 9.7% across the majority of our U.S., Puerto Rico and export portfolio, effective immediately. The price increase applied to our instant consumable, multi-pack, packaged candy and grocery lines. Direct buying customers were able to purchase transitional amounts of product into May and seasonal net price realization was not expected until Easter 2012.

Usually there is a time lag between the effective date of list price increases and the impact of the price increases on net sales. The impact of price increases is often delayed because we honor previous commitments to planned consumer and customer promotions and merchandising events that occur subsequent to the effective date of the price increases. In addition, promotional allowances may be increased subsequent to the effective date, delaying or partially offsetting the impact of price increases on net sales.

Net Sales

Net sales increased 7.5% in the third quarter of 2012 over the comparable period of 2011 due to net price realization of 3.9% and sales volume increases of 2.1%. Sales volume increases were primarily associated with incremental sales of new products, primarily in the United States. Unfavorable foreign currency exchange rates reduced net sales by 0.8%. Net sales attributable to Brookside contributed 2.3% to the increase.

Key Marketplace Metrics

For the twelve-week period ending October 6, 2012, consumer takeaway increased 5.9% in 2012 compared with the same period of 2011. Market share in measured channels increased by 1.1 share points in the twelve-week period ending October 6, 2012 compared with the same period of 2011. Consumer takeaway and the change in market share are provided for channels of distribution accounting for approximately 90% of our U.S. confectionery retail business. These channels of distribution primarily include food, drug, mass merchandisers, including Wal-Mart Stores, Inc., and convenience stores.

Cost of Sales and Gross Margin

Cost of sales increased by approximately 6.3% in the third quarter of 2012 due to higher input and supply chain costs, along with the impact of sales volume increases, which together increased total cost of sales by approximately 5.9%. An increase to cost of sales of 2.7% resulted from the Brookside acquisition. Supply chain productivity improvements reduced cost of sales by approximately 1.9%. Business realignment and impairment charges of \$5.2 million were included in cost of sales in the third quarter of 2012 compared with \$9.5 million in the third quarter of 2011, resulting in a reduction in cost of sales of 0.5%.

Gross margin increased by 0.6 percentage points in the third quarter of 2012 primarily as a result of price realization and supply chain productivity improvements, which together improved gross margin by 3.0 percentage points. These improvements were substantially offset by higher input, supply chain and product obsolescence costs of approximately 2.4 percentage points.

Selling, Marketing and Administrative

Selling, marketing and administrative expenses increased by 18.0% in the third quarter of 2012 primarily due to higher marketing and employee-related expenses, increased incentive compensation costs and expenses associated with business acquisitions. Selling, marketing and administrative costs in the third quarter of 2011 were reduced by a \$17.0 million gain on the sale of certain trademark licensing rights. Advertising costs in the third quarter of 2012 increased by 12.1% from the same period in 2011.

Business realignment charges of \$0.6 million were included in selling, marketing and administrative expenses in the third quarter of 2012. Business realignment charges of \$1.9 million were included in selling, marketing and administrative expenses in the third quarter of 2011.

Business Realignment and Impairment Charges

Business realignment and impairment charges of \$20.1 million associated with the Next Century program were recorded in the third quarter of 2012. The 2012 charges were associated with a non-cash pension settlement loss of \$13.1 million and charges associated with the closure of a manufacturing facility.

Business realignment and impairment charges of \$2.2 million were recorded in the third quarter of 2011 associated with the Next Century program. The 2011 charges were primarily associated with asset retirement costs and employee separation expenses.

Income Before Interest and Income Taxes and EBIT Margin

EBIT decreased in the third quarter of 2012 compared with the third quarter of 2011 as a result of higher selling, marketing and administrative expenses and business realignment charges which more than offset an increase in gross profit. Net pre-tax business realignment and impairment charges of \$25.8 million were recorded in the third quarter of 2012. Net pre-tax business realignment and impairment charges of \$13.5 million were recorded in the third quarter of 2011.

EBIT margin decreased from 19.8% for the third quarter of 2011 to 17.3% for the third quarter of 2012 due to higher selling, marketing and administrative expenses and higher business realignment charges as a percent of sales, offset partially by the increase in gross margin.

Interest Expense, Net

Net interest expense was higher in the third quarter of 2012 than the comparable period of 2011 primarily reflecting the impact of higher short-term borrowings.

Income Taxes and Effective Tax Rate

Our effective income tax rate was 36.2% for the third quarter of 2012 compared with 34.0% for the third quarter of 2011. The increase was associated with the changes to Pennsylvania state tax legislation enacted in the third quarter of 2012, the impact of other discrete tax items recognized in third quarter of 2012 compared with 2011, and the impact of the mix of income among various tax jurisdictions.

Net Income and Net Income Per Share

Earnings per share-diluted in the third quarter of 2012 decreased \$0.09 as compared with the third quarter of 2011. Net income was reduced by \$16.5 million, or \$0.07 per share-diluted, in the third quarter of 2012 as a result of business realignment and impairment charges. Closing and integration costs for the Brookside acquisition reduced net income by \$3.5 million, or \$0.02 per share-diluted, in the third quarter of 2012. Net income was reduced by \$2.7 million, or \$0.01 per share-diluted related to higher non-service related pension expenses in the third quarter of 2012 compared with 2011. Excluding the impact of business realignment and impairment charges, business acquisition costs and non-service related pension expenses, earnings per share-diluted increased \$0.03 per share, or 3.6%, in 2012 compared with 2011.

Results of Operations - First Nine Months 2012 vs. First Nine Months 2011

Net Sales

Net sales increased 8.4% for the first nine months of 2012 over the comparable period of 2011 due primarily to net price realization of 6.8% as well as sales volume increases of 0.6%. The increase was partially offset by the impact of unfavorable foreign currency exchange rates which reduced net sales by 0.8%. Net sales attributable to Brookside contributed 1.8% to the increase in net sales.

Key Marketplace Metrics

For the year-to-date period ended October 6, 2012, consumer takeaway increased 5.2% compared with the same period of 2011. Market share in measured channels increased 0.4 share points in the year-to-date period ended October 6, 2012 compared with the same period of 2011. Consumer takeaway and the change in market share are provided for measured channels of distribution accounting for approximately 90% of our U.S. confectionery retail business. These channels of distribution primarily include food, drug, mass merchandisers, including Wal-Mart Stores, Inc., and convenience stores.

Cost of Sales and Gross Margin

Cost of sales increased by approximately 6.7% in the first nine months of 2012 primarily due to higher input and supply chain costs, along with the impact of an unfavorable sales mix, which together increased total cost of sales by about 5.6%. An increase in cost of sales of 2.0% resulted from the Brookside acquisition. Supply chain productivity improvements reduced cost of sales by approximately 2.1%. Business realignment and impairment charges of \$38.0 million were included in cost of sales in the first nine months of 2012 compared with \$23.3 million included in the comparable period of 2011, resulting in an increase to cost of sales of 0.6%.

Gross margin increased by 0.9 percentage points for the first nine months of 2012 primarily as a result of price realization and supply chain productivity improvements, which together improved gross margin by 4.5 percentage points. These improvements were partially offset by higher input, supply chain and product obsolescence costs of approximately 3.2 percentage points. The impact of higher business realignment and impairment charges recorded in the first nine months of 2012 compared with the same period of 2011 reduced gross margin by 0.3 percentage points.

Selling, Marketing and Administrative

Selling, marketing and administrative expenses increased by 12.7% in the first nine months of 2012 primarily due to increased advertising and marketing research expenses, higher employee-related expenses, increased incentive compensation costs and expenses associated with business acquisitions. In addition, selling, marketing and administrative expenses in the first nine months of 2011 were reduced by a \$17.0 million gain on the sale of certain trademark licensing rights. The increases in the first nine months of 2012 were partially offset by lower costs associated with legal fees and contingencies compared with the first nine months of 2011. Advertising costs in the first nine months of 2012 increased by 12.1% from the same period in 2011.

Business realignment charges of \$2.1 million were included in selling, marketing and administrative expenses in the first nine months of 2012. Business realignment charges of \$4.0 million were included in selling, marketing and administrative expenses in the first nine months of 2011.

Business Realignment and Impairment Charges (Credits)

Business realignment and impairment charges of \$28.2 million associated with the Next Century program were recorded in the first nine months of 2012. The 2012 charges were primarily associated with the relocation and start up of production lines and the closure of a manufacturing facility, in addition to the pension settlement loss recorded in the third quarter of 2012.

Net pre-tax business realignment and impairment credits of \$5.9 million were recorded in the first nine months of 2011 associated with the Next Century program. The 2011 credits were primarily associated with a reduction of employee separation expense of \$9.7 million, partially offset by asset retirement costs.

Income Before Interest and Income Taxes and EBIT Margin

EBIT increased in the first nine months of 2012 compared with the first nine months of 2011 as a result of higher gross profit, partially offset by higher selling, marketing and administrative expenses. Net pre-tax business realignment and impairment charges of \$68.4 million were recorded in the first nine months of 2012. Net pre-tax business realignment and impairment charges of \$21.4 million were recorded in the first nine months of 2011.

EBIT margin decreased from 18.3% for the first nine months of 2011 to 17.5% for the first nine months of 2012 as higher selling, marketing and administrative expenses and business realignment and impairment charges as a percent of sales more than offset the increase in gross margin.

Interest Expense, Net

Net interest expense was slightly higher in the first nine months of 2012 than the comparable period of 2011, primarily reflecting increased interest expense associated with higher short-term borrowings.

Income Taxes and Effective Tax Rate

Our effective income tax rate was 34.9% for the first nine months of 2012 compared with 35.5% for the first nine months of 2011. Excluding the impact of tax rates associated with business realignment and impairment charges, we expect our income tax rate for the full year 2012 to be slightly less than 35.0%.

Net Income and Net Income Per Share

Earnings per share-diluted for the first nine months of 2012 were \$2.23 compared with \$2.12 for the first nine months of 2011. Net income was reduced by \$43.5 million, or \$0.19 per share-diluted, in the first nine months of 2012 as a result of business realignment and impairment charges. Net income was reduced by \$8.3 million, or \$0.04 per share-diluted, in the first nine months of 2012 as a result of closing and integration costs for the Brookside acquisition. Net income was reduced by \$8.0 million, or \$0.04 per share-diluted, related to higher non-service related pension expenses in the first nine months of 2012 compared with 2011. Excluding the impact of business realignment and impairment charges, business acquisition costs and non-service related pension expenses, earnings per share-diluted increased \$0.37 per share, or 17.4%, in 2012 compared with 2011.

Liquidity and Capital Resources

Historically, our major source of financing has been cash generated from operations. Domestic seasonal working capital needs, which typically peak during the summer months, generally have been met by utilizing cash on hand and issuing commercial paper. Commercial paper also may be issued, from time to time, to finance ongoing business transactions such as the repayment of long-term debt, business acquisitions and for other general corporate purposes. During the first nine months of 2012, cash and cash equivalents decreased by \$227.5 million to \$466.2 million.

Cash provided from operations, cash on hand at the beginning of the period, short-term borrowings and other cash inflows, primarily associated with the exercise of stock options, during the first nine months of 2012 were sufficient to fund the repurchase of Common Stock of \$497.6 million, business acquisitions of \$172.9 million, capital additions and capitalized software expenditures of \$214.0 million and dividend payments of \$249.8 million.

Net cash provided from operating activities was \$605.9 million in 2012 and \$257.2 million in 2011. The increase was primarily the result of the change in cash provided from (used by) other assets and liabilities, the impact of business realignment and impairment charges, and higher net income in 2012. Cash provided from changes in other assets and liabilities was \$169.3 million for the first nine months of 2012 compared with cash used of \$85.3 million for the same period of 2011. The increase in the amount of cash provided from other assets and liabilities from 2011 to 2012 primarily reflected the effect of hedging transactions of \$250.0 million. Cash used by working capital was \$284.5 million in 2012 compared with \$304.3 million in 2011. The decrease in cash used by working capital was principally related to changes in raw material and finished goods inventories in 2012 compared with 2011. This was offset somewhat by an increase in accounts receivable resulting from higher sales in 2012 compared with 2011, along with a decrease in accounts payable in 2012 compared with 2011, primarily associated with capital and manufacturing expenditures.

During the first nine months of 2012, the Company acquired Brookside for approximately \$172.9 million. Also during the first nine months of 2012, the Company loaned \$16.0 million to an affiliate to finance the expansion of its manufacturing capacity.

In May 2007, we entered into an agreement with Godrej Beverages and Foods, Ltd., a consumer goods, confectionery and food company, to manufacture and distribute confectionery products, snacks and beverages across India. Under the agreement, we owned a 51% controlling interest in Godrej Hershey Ltd. In September 2012, we acquired the remaining 49% interest in Godrej Hershey Ltd. for approximately \$15.9 million reflected in net payments to noncontrolling interests. Since the Company had a controlling interest in Godrej Hershey Ltd., the transaction was recorded in additional paid-in capital and the noncontrolling interest in Godrej Hershey Ltd. was eliminated as of September 30, 2012. Payments to noncontrolling interests associated with Godrej Hershey Ltd. were partially offset by equity contributions of \$2.9 million by the noncontrolling interests in Hershey do Brasil.

During the third quarter 2011, the Company recorded an \$11.1 million gain, net of tax, on the sale of trademark licensing rights. We received net proceeds of \$20.0 million from this sale. Additionally, we entered into a sale and leasing agreement for the 19 East Chocolate Avenue manufacturing facility. Based on the leasing agreement, we are deemed to be the "owner" of the property for accounting purposes. We received net proceeds of \$47.6 million and recorded a lease financing obligation of \$50.0 million under the leasing agreement.

Interest paid was \$82.1 million during the first nine months of 2012 versus \$84.1 million for the comparable period of 2011. The decrease in interest paid in 2012 was due to timing of long-term interest payments. Income taxes paid were \$233.7 million during the first nine months of 2012 versus \$224.0 million for the comparable period of 2011. The increase in taxes paid in 2012 was primarily related to the impact of higher annualized taxable income in 2012 compared with 2011.

The ratio of current assets to current liabilities was 1.4:1.0 as of September 30, 2012 and 1.7:1.0 as of December 31, 2011. The capitalization ratio (total short-term and long-term debt as a percent of stockholders' equity, short-term and long-term debt) decreased to 67% as of September 30, 2012 from 68% as of December 31, 2011.

Generally, our short-term borrowings are in the form of commercial paper or bank loans with an original maturity of three months or less. As of September 30, 2012, we had commercial paper borrowings of \$50.0 million.

Outlook

The outlook section contains a number of forward-looking statements, all of which are based on current expectations. Actual results may differ materially. Refer to the Safe Harbor Statement below as well as Risk Factors and other information contained in our 2011 Annual Report on Form 10-K for information concerning the key risks to achieving future performance goals.

Our results for the first nine months of 2012 were strong and we expect to continue our marketplace momentum. The economic environment is expected to continue to be challenging during the remainder of 2012. We will continue to remain focused on building brands in both the U.S. and key international markets and will make incremental investments in our brands and business capabilities. We have planned merchandising and programming events during the remainder of the year and will work closely with retail customers and monitor our brand performance. We will continue with the distribution and rollout of Jolly Rancher Crunch 'N Chew candy, Rolo minis, Ice Breakers Duo mints and Hershey's Simple Pleasures candy.

Advertising expense increased 12.1% in the first nine months of 2012, compared with the first nine months of 2011. For the full year, we now expect advertising to increase 13% to 15% versus the prior year, supporting core brands in both the U.S. and key international markets, new product launches, and new advertising campaigns on the Jolly Rancher and Rolo brands.

Excluding the Brookside acquisition, we expect organic sales volume growth to continue to improve in the fourth quarter and be up for the full-year 2012. Including a 1.75 to 2.0 percentage point benefit from net sales for Brookside at current exchange rates, we now expect full-year net sales growth of about 8% to 9%, including the impact of foreign currency exchange rates.

In 2012, the Company expects reported earnings per share-diluted of \$2.87 to \$2.92. Reported earnings per share-diluted includes anticipated business realignment and impairment charges of \$0.23 to \$0.24 per share-diluted related to the Next Century program and non-service related pension expenses of \$0.06 per share-diluted. Reported gross margin, reported EBIT margin and reported earnings per share-diluted will be impacted by these charges and expenses in addition to closing and integration costs related to the Brookside acquisition estimated at \$0.04 to \$0.05 per share-diluted. We now expect reported gross margin to increase from 120 to 140 basis points in 2012.

We do not expect a material change to our full-year inflation outlook. We continue to expect that input costs in 2012 will be higher than last year. As a result of our strong results for the first nine months and further visibility into our full-year cost structure, we now expect adjusted gross margin expansion of 120 to 140 basis points compared with last year, driven by net price realization, strong productivity and cost savings. Therefore, considering our results for the first nine months and planned investments in advertising, market research, category management and selling capabilities during the remainder of the year, particularly in our international markets, we now expect adjusted earnings per share-diluted for 2012 to be in the range of \$3.22 to \$3.25, a 14% to 15% increase over 2011. This is greater than our previous estimate of a 12% to 14% increase.

As we look to 2013, we assume the economic environment for retailers and consumers will continue to be challenging. However, we believe the investments we've made have resulted in a business model that is more efficient and effective, enabling us to deliver predictable, consistent and achievable marketplace and financial performance. Therefore, we expect 2013 net sales growth to be within our 5% to 7% long-term target, including the impact of foreign currency exchange rates, as we continue to focus on core brands and innovation in both the U.S. and key international markets. Additionally, we will leverage Hershey's scale at retail as we launch Brookside branded products in the broader U.S. food, drug and mass merchandiser channels. We remain focused on gross margin. We have solid productivity and cost savings initiatives in place and, while early in the planning cycle, we do not expect input cost inflation next year. Therefore, we expect to achieve gross margin expansion in 2013 and growth in adjusted earnings per share-diluted in the 8% to 10% range, consistent with our long-term target, as reflected in the reconciliation of reported to adjusted projections for 2013 on page 30.

NOTE: In the Outlook above, the Company has provided income measures excluding certain items, in addition to net income determined in accordance with GAAP. These non-GAAP financial measures are used in evaluating results of operations for internal purposes. These non-GAAP measures are not intended to replace the presentation of financial results in accordance with GAAP. Rather, the Company believes exclusion of such items provides additional information to investors to facilitate the comparison of past and present operations.

In 2011, the Company recorded GAAP charges of \$49.2 million, or \$0.13 per share-diluted, attributable to the Next Century program and the global supply chain transformation program. Additionally, in the third quarter of 2011, the Company recorded a pre-tax gain of \$17.0 million, or \$0.05 per share-diluted, from the sale of trademark licensing rights. Non-service related pension expense of \$2.8 million, or \$0.01 per share-diluted, was recorded in 2011.

In 2012, the Company expects acquisition closing and integration costs related to the Brookside acquisition to be \$0.04 to \$0.05 per share-diluted. The Company also expects to record total GAAP charges of about \$80 million to \$85 million, or \$0.23 to \$0.24 per share-diluted, attributable to the Next Century program. Non-service related pension expenses are expected to be \$0.06 per share-diluted in 2012.

In 2013, the Company expects to record acquisition closing and integration costs of \$0.01 per share-diluted. The Company expects to record GAAP charges of about \$10 million to \$15 million, or \$0.02 to \$0.04 per share-diluted, attributable to the Next Century program. Non-service related pension expenses are expected to be \$0.06 per share-diluted in 2013.

Below is a reconciliation of 2011 and projected 2012 and 2013 earnings per share-diluted in accordance with GAAP to non-GAAP 2011 adjusted earnings per share-diluted and projected adjusted earnings per share-diluted for 2012 and 2013:

	2011	2012 (Projected)	2013 (Projected)
Reported EPS-Diluted	\$2.74	\$2.87 - \$2.92	\$3.37 - \$3.49
Acquisition closing and integration charges	—	0.04 - 0.05	0.01
Gain on sale of trademark licensing rights	(0.05)	—	—
Total Business Realignment and Impairment Charges	0.13	0.23 - 0.24	0.02 - 0.04
Non-service related pension expenses	0.01	0.06	0.06
Adjusted EPS-Diluted	\$2.83	\$3.22 - \$3.25	\$3.48 - \$3.58

Outlook for Project Next Century

In June 2010, we announced the Next Century program as part of our ongoing efforts to create an advantaged supply chain and competitive cost structure. We now expect total pre-tax charges and non-recurring project implementation costs for the Next Century program of \$190 million to \$200 million due to the \$13.1 million pension settlement loss recorded during the third quarter of 2012 and the pension settlement loss expected to be recorded during the fourth quarter of 2012. The pension settlement losses are non-cash charges for the Company.

During 2012, we now expect to record \$80 million to \$85 million in program charges. During 2012, we expect capital expenditures for the Next Century program to be approximately \$65 million to \$70 million. Depreciation and amortization for 2012 is estimated to be \$200 million, excluding accelerated depreciation of approximately \$20 million related to the Next Century program. The Next Century program is expected to provide annual cost savings from efficiency improvements of \$65 million to \$80 million.

Safe Harbor Statement

We are subject to changing economic, competitive, regulatory and technological risks and uncertainties because of the nature of our operations. In connection with the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, we note the following factors that, among others, could cause future results to differ materially from the forward-looking statements, expectations and assumptions that we have discussed directly or implied in this report. Many of the forward-looking statements contained in this report may be identified by the use of words such as “intend,” “believe,” “expect,” “anticipate,” “should,” “planned,” “projected,” “estimated,” and “potential,” among others. The factors that could cause our actual results to differ materially from the results projected in our forward-looking statements include, but are not limited to the following:

- Issues or concerns related to the quality and safety of our products, ingredients or packaging could cause a product recall and/or result in harm to the Company’s reputation, negatively impacting our operating results;
- Increases in raw material and energy costs, along with the availability of adequate supplies of raw materials could affect future financial results;
- Price increases may not be sufficient to offset cost increases and maintain profitability, or may result in sales volume declines associated with pricing elasticity;
- Market demand for new and existing products could decline;
- Increased marketplace competition could hurt our business;
- Disruption to our supply chain could impair our ability to produce or deliver our finished products, resulting in a negative impact on our operating results;
- Our financial results may be adversely impacted by the failure to successfully identify, execute or integrate acquisitions, divestitures and joint ventures;
- Changes in governmental laws and regulations could increase our costs and liabilities or impact demand for our products;
- Political, economic, and/or financial market conditions could negatively impact our financial results;
- Risks and uncertainties related to our international operations and related growth targets could adversely impact our business;
- Disruptions, failures or security breaches of our information technology infrastructure could have a negative impact on our operations;
- Future developments related to the investigation by government regulators of alleged pricing practices by members of the confectionery industry could impact our reputation, the regulatory environment under which we operate, and our operating results;
- Pension costs or funding requirements could increase at a higher than anticipated rate;
- Annual savings from initiatives to transform our supply chain and advance our value-enhancing strategy may be less than we expect; and
- Such other matters as discussed in our Annual Report on Form 10-K for 2011.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The potential net loss in fair value of interest rate swap agreements of ten percent resulting from a hypothetical near-term adverse change in market rates was \$10.8 million as of September 30, 2012. The potential net loss in fair value of foreign exchange forward contracts and options resulting from a hypothetical near-term adverse change in market rates of ten percent was \$9.7 million as of September 30, 2012 and was \$19.4 million as of December 31, 2011. The market risk resulting from a hypothetical adverse market price movement of ten percent associated with the estimated average fair value of net commodity positions decreased from \$41.3 million as of December 31, 2011, to \$5.3 million as of September 30, 2012. Market risk represents ten percent of the estimated average fair value of net commodity positions at four dates prior to the end of each period.

PART II - OTHER INFORMATION
