Forward-Looking Statements

This report contains forward-looking statements (as that term is defined by the federal securities laws) about our financial condition, results of operations and business. You can find many of these statements by looking for words such as "may," "will," "expect," "anticipate," "believe," "estimate" and similar words used in this report.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties. Because the statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by the forward-looking statements. We caution readers not to place undue reliance on the statements, which speak only as of the date of this report.

The cautionary statements set forth above should be considered in connection with any subsequent written or oral forward-looking statements that we or persons acting on our behalf may issue. We do not undertake any obligation to review or confirm analysts' expectations or estimates or to release publicly any revisions to any forward-looking statement to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

You should carefully consider the factors discussed in Part I, Item 1A, "Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2011, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deemed to be immaterial also may materially adversely affect our business, financial position and results of operations or cash flows.

We disclose important factors that could cause our actual results to differ materially from our expectations under Part I, Item 2., "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this report. These cautionary statements qualify all forward-looking statements attributed to us or persons acting on our behalf. When we indicate that an event, condition or circumstance could or would have an adverse effect on us, we mean to include effects upon our business, financial and other condition, results of operations, prospects and ability to service our debt.

TRIMAS CORPORATION
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

1. Basis of Presentation

TriMas Corporation ("TriMas" or the "Company"), and its consolidated subsidiaries, is a global manufacturer and distributor of products for commercial, industrial and consumer markets. The Company is principally engaged in six reportable segments with diverse products and market channels: Packaging, Energy, Aerospace & Defense, Engineered Components, Cequent Asia Pacific and Cequent North America. See Note 10, "Segment Information," for further information on each of the Company's reportable segments.

The accompanying consolidated financial statements include the accounts of the Company and its subsidiaries and in the opinion of management, contain all adjustments, including adjustments of a normal and recurring nature, necessary for a fair presentation of financial position and results of operations. Results of operations for interim periods are not necessarily indicative of results for the full year. Certain prior year amounts have been reclassified to conform with the current year presentation. The accompanying consolidated financial statements and notes thereto should be read in conjunction with the Company's 2011 Annual Report on Form 10-K.

2. Discontinued Operations and Assets Held for Sale

During the third quarter of 2011, the Company committed to a plan to exit its precision tool cutting and specialty fittings lines of business, both of which were part of the Engineered Components reportable segment. The businesses were sold in December 2011 for cash proceeds of \$36.4 million and a note receivable of \$2.2 million, due in 2012, which resulted in a pre-tax gain on sale of approximately \$10.3 million. The purchase agreement also includes up to \$2.5 million of additional contingent consideration, based on achievement of certain levels of future financial performance in 2012 and 2013.

The results of the aforementioned businesses are reported as discontinued operations for all periods presented. Results of discontinued operations are summarized as follows:

	Three months ended March 31,	
	2012	2011
	(dollars in thousands)	
Net sales	\$—	\$11,110
Income from discontinued operations before income tax expense	\$—	\$1,680
Income tax expense	—	(620)
Income from discontinued operations, net of income tax expense	\$—	\$1,060

There were no discontinued operations or assets held for sale as of March 31, 2012 or December 31, 2011.

3. Acquisitions

On February 24, 2012, the Company acquired 70% of the membership interests of Arminak & Associates, LLC ("Arminak") for the purchase price of approximately \$67.4 million. The purchase price remains subject to the finalization of a net working capital adjustment, if any, which is expected to be completed by the end of the third quarter of 2012. Arminak is in the business of designing, manufacturing and supplying foamers, lotion pumps, fine mist sprayers and other packaging solutions for the cosmetic, personal care and household product markets. The acquisition of Arminak enhances the Company's highly-engineered product offering and provides access to large global customers in the cosmetic and personal care markets. Arminak is included in the Company's Packaging reportable segment.

Table of Contents

TRIMAS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(unaudited)

The purchase agreement provides the Company an option to purchase, and the Sellers an option to sell, the remaining 30% noncontrolling interest at specified dates in the future based on a multiple of future earnings, as defined. The put and call options become exercisable during the first quarters of 2014, 2015 and 2016. During the first exercise period, in 2014, TriMas and Arminak's previous owners ("Sellers") have the opportunity to call or put a 10% interest in Arminak. During the second exercise period, in 2015, TriMas and the Sellers have the opportunity to call or put an additional 10%, or up to all remaining interests held by Sellers per joint agreement, as defined in the purchase agreement. Finally, during the third exercise period, in 2016, a call or put may be exercised for all or any portions of the remaining interests held by the Sellers.

The combination of a noncontrolling interest and a redemption feature resulted in a redeemable noncontrolling interest, which is classified outside of permanent equity on the accompanying consolidated balance sheet. In order to estimate the fair value of the redeemable noncontrolling interest in Arminak, the Company utilized the Monte Carlo valuation method, using variations of estimated future discounted cash flows given certain significant assumptions including expected revenue growth, minimum and maximum estimated levels of gross profit margin, future expected cash flows, amounts transferred during each put and call exercise period and appropriate discount rates. As these assumptions are not observable in the market, the calculation represents a Level 3 fair value measurement. The Company recorded the redeemable noncontrolling interest at fair value at the date of acquisition.

Each reporting period, the Company adjusts the carrying amount of the noncontrolling interest to the greater of (1) the initial carrying amount, increased or decreased for the noncontrolling interest's share of Arminak's net income or loss and its share of comprehensive income or loss and dividends and (2) the redemption value as determined by the specified multiple of future earnings, as defined. This method views the end of the reporting period as if it were also the redemption date for the redeemable noncontrolling interest. If the fair value of the redeemable noncontrolling interest is less than the redemption value, there may be a charge to earnings per share attributable to TriMas Corporation. At March 31, 2012, the estimated fair value of the redeemable noncontrolling interest exceeded the redemption value.

Changes in the carrying amount of redeemable noncontrolling interest are summarized as follows:

	Three months ended March 31, 2012 (dollars in thousands)	
Beginning balance, February 24, 2012	\$25,630	
Net loss attributable to noncontrolling interest	(240)
Ending balance, March 31, 2012	\$25,390	

Table of Contents

TRIMAS CORPORATION
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
 (unaudited)

The following table summarizes the fair value of consideration paid for Arminak, and the assets acquired and liabilities assumed recognized at the acquisition date, as well as the fair value at the acquisition date of the noncontrolling interest in Arminak:

	February 24, 2012 (dollars in thousands)	
Consideration		
Cash paid plus initial estimate of working capital adjustment	\$58,860	
Contingent consideration ^(a)	8,490	
Total consideration	\$67,350	
Recognized amounts of identifiable assets acquired and liabilities assumed ^(b)		
Receivables	\$8,990	
Inventories	4,390	
Intangible assets other than goodwill ^(c)	48,400	
Other assets	2,450	
Accounts payable and accrued liabilities	(4,240)
Long-term liabilities	(1,610)
Total identifiable net assets	58,380	
Redeemable noncontrolling interest	(25,630)
Goodwill ^(d)	34,600	
	\$67,350	

^(a) The contingent consideration represents the Company's best estimate, based on its review of the underlying potential obligations estimated at a range of \$8 to \$9 million, of certain Seller tax-related liabilities for which the Company has indemnified the Sellers as part of the purchase agreement.

^(b) These amounts represent a preliminary allocation of the purchase price subject to finalization of post-closing procedures, which may result in further adjustments to the values presented above.

^(c) Consists of \$33.0 million of customer relationships with an estimated 10 year useful life, \$7.9 million of trademarks/tradenames with an indefinite useful life and \$7.5 million of technology and other intangible assets with an estimated 8 year useful life.

^(d) All of the preliminary goodwill was assigned to the Company's Packaging reportable segment and is expected to be deductible for tax purposes.

The results of operations of Arminak are included in the Company's results beginning February 24, 2012. The actual amounts of net sales and net income of Arminak included in the accompanying consolidated statement of operations for the three months ended March 31, 2012 were \$5.4 million and \$(0.8) million, respectively.

The following table summarizes the supplemental pro forma results of the combined entity as if the acquisition had occurred on January 1, 2011. The supplemental pro forma information presented below is for informational purposes and is not necessarily indicative of either future results of operations or results that might have been achieved had the acquisition been consummated on January 1, 2011:

	Pro forma Combined ^(a)	
	Three months ended March 31, 2012	Three months ended March 31, 2011
	(dollars in thousands, except per share amounts)	
Net sales	\$305,600	\$269,740
Net income attributable to TriMas Corporation	\$14,460	\$8,750

(a) The supplemental pro forma results reflect certain adjustments, such as adjustments for acquisition costs incurred and purchase accounting adjustments related to step-up in value and subsequent amortization of inventory and intangible assets.

10

Table of Contents

TRIMAS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(unaudited)

Acquisition costs incurred by the Company in connection with its purchase of Arminak, primarily related to third party legal, accounting and tax diligence fees, were approximately \$1.3 million, of which approximately \$1.0 million were incurred during the three months ended March 31, 2012 and are recorded in selling, general and administrative expenses in the accompanying consolidated statement of operations.

4. Goodwill and Other Intangible Assets

Changes in the carrying amount of goodwill for the three months ended March 31, 2012 are summarized as follows:

	Packaging	Energy	Aerospace & Defense	Engineered Components	Cequent Asia Pacific	Cequent North America	Total
	(dollars in thousands)						
Balance, December 31, 2011	\$122,330	\$48,720	\$41,130	\$3,180	\$—	\$—	\$215,360
Goodwill from acquisitions	34,600	—	—	—	—	—	34,600
Foreign currency translation	1,210	160	—	—	—	—	1,370
Balance, March 31, 2012	\$158,140	\$48,880	\$41,130	\$3,180	\$—	\$—	\$251,330

The gross carrying amounts and accumulated amortization of the Company's other intangibles as of March 31, 2012 and December 31, 2011 are summarized below. The Company amortizes these assets over periods ranging from 1 to 30 years.

Intangible Category by Useful Life	As of March 31, 2012		As of December 31, 2011	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
	(dollars in thousands)			
Customer relationships:				
5 – 12 years	\$71,400	\$(24,510)	\$37,400	\$(23,410)
15 – 25 years	154,610	(79,790)	154,610	(77,730)
Total customer relationships	226,010	(104,300)	192,010	(101,140)
Technology and other:				
1 – 15 years	36,890	(24,230)	29,360	(23,710)
17 – 30 years	43,680	(21,410)	43,640	(20,860)
Total technology and other	80,570	(45,640)	73,000	(44,570)
Trademark/Trade names (indefinite life)	44,900	—	36,370	—
	\$351,480	\$(149,940)	\$301,380	\$(145,710)

Amortization expense related to intangible assets as included in the accompanying consolidated statement of operations is summarized as follows:

	Three months ended March 31,	
	2012	2011
	(dollars in thousands)	
Technology and other, included in cost of sales	\$1,070	\$820
Customer relationships, included in selling, general and administrative expenses	3,130	2,680
Total amortization expense	\$4,200	\$3,500

7. Long-term Debt

The Company's long-term debt consists of the following:

	March 31, 2012	December 31, 2011
	(dollars in thousands)	
U.S. bank debt and receivables facility	\$247,310	\$223,870
Non-U.S. bank debt and other	5,810	140
9 ³ / ₄ % senior secured notes, due December 2017	246,020	245,890
	499,140	469,900
Less: Current maturities, long-term debt	12,980	7,290
Long-term debt	\$486,160	\$462,610
U.S. Bank Debt		

The Company is a party to a credit facility consisting of a \$125.0 million revolving credit facility, which matures in June 2016 and is subject to interest at London Interbank Offered Rates ("LIBOR") plus 3.25%, and a \$225.0 million term loan facility, which matures in June 2017 and is subject to interest at LIBOR plus 3.00% (subject to a 1.25% LIBOR floor) (collectively, the "Credit Agreement").

Under the Credit Agreement, the Company may be required to prepay a portion of its term loan under an excess cash flow sweep provision, as defined, with the amount of such prepayment based on the Company's leverage ratio, as defined. At March 31, 2012, \$5.0 million was included in current maturities of long-term debt under this provision. The Company is also able to issue letters of credit, not to exceed \$50.0 million in aggregate, against its revolving credit facility commitments. At March 31, 2012 and December 31, 2011, the Company had letters of credit of approximately \$23.3 million and \$23.9 million, respectively, issued and outstanding.

At March 31, 2012 and December 31, 2011, the Company had no amounts outstanding under its revolving credit facilities and had \$101.7 million and \$101.1 million, respectively, potentially available after giving effect to approximately \$23.3 million and \$23.9 million, respectively, of letters of credit issued and outstanding. However, including availability under its accounts receivable facility and after consideration of leverage restrictions contained in the Credit Agreement, the Company had \$150.3 million and \$158.8 million, respectively, of borrowing capacity available to it for general corporate purposes.

The bank debt is an obligation of the Company and certain of its subsidiaries. Although the terms of the Credit Agreement do not restrict the Company's subsidiaries from making distributions to it in respect of its 9³/₄% senior secured notes, it does contain certain other limitations on the distribution of funds from TriMas Company LLC, the Company's principal subsidiary. The restricted net assets of the guarantor subsidiaries of approximately \$445.5 million and \$412.8 million at March 31, 2012 and December 31, 2011, respectively, are presented in Note 15, "Supplemental Guarantor Condensed Consolidating Financial Information." The Credit Agreement also contains various negative and affirmative covenants and other requirements affecting the Company and its subsidiaries. The Company was in compliance with its covenants at March 31, 2012.

The Company's term loan facility traded at approximately 99.8% and 99.0% of par value as of March 31, 2012 and December 31, 2011, respectively, and was valued based on Level 2 inputs as defined in the fair value hierarchy.

Non-U.S. Bank Debt

In Australia, the Company's subsidiary is party to a debt agreement which matures on May 31, 2012 and is secured by substantially all the assets of the subsidiary. At March 31, 2012, the balance outstanding under this agreement was approximately \$5.7 million at an average interest rate of 6.2%. At December 31, 2011, the Company's subsidiary had no amounts outstanding under this debt agreement.

Table of Contents

TRIMAS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(unaudited)

Notes

The Company's 9³/₄% senior secured notes due 2017 ("Senior Notes") indenture contains negative and affirmative covenants and other requirements that are comparable to those contained in the Credit Agreement. At March 31, 2012, the Company was in compliance with all such covenant requirements.

The Company's Senior Notes traded at approximately 109.5% and 108.5% of par value as of March 31, 2012 and December 31, 2011, respectively, and was valued based on Level 2 inputs as defined in the fair value hierarchy.

Receivables Facility

The Company is a party to an accounts receivable facility through TSPC, Inc. ("TSPC"), a wholly-owned subsidiary, to sell trade accounts receivable of substantially all of the Company's domestic business operations. Under this facility, TSPC, from time to time, may sell an undivided fractional ownership interest in the pool of receivables up to approximately \$90.0 million to a third party multi-seller receivables funding company. The net amount financed under the facility is less than the face amount of accounts receivable by an amount that approximates the purchaser's financing costs. The cost of funds under this facility consisted of a 3-month LIBOR-based rate plus a usage fee of 1.50% and 3.00% as of March 31, 2012 and 2011, respectively, and a fee on the unused portion of the facility of 0.45% and 0.75% as of March 31, 2012 and 2011, respectively.

The Company had \$24.0 million outstanding under the facility as of March 31, 2012 and had \$48.6 million available but not utilized. The Company had no amounts outstanding under the facility as of December 31, 2011 and \$57.6 million available but not utilized. Aggregate costs incurred under the facility were \$0.2 million and \$0.4 million for the three months ended March 31, 2012 and 2011, respectively, and are included in interest expense in the accompanying consolidated statement of operations. The facility expires on September 15, 2015.

The cost of funds fees incurred are determined by calculating the estimated present value of the receivables sold compared to their carrying amount. The estimated present value factor is based on historical collection experience and a discount rate based on a 3-month LIBOR-based rate plus the usage fee discussed above and is computed in accordance with the terms of the securitization agreement. As of March 31, 2012, the costs of funds under the facility was based on an average liquidation period of the portfolio of approximately 1.6 months and an average discount rate of 1.7%.

8. Derivative Instruments

In March 2012, the Company entered into an interest rate swap agreement to fix the LIBOR-based variable portion of the interest rate on a total of \$100.0 million notional amount of its term loan facility. The swap agreement fixes the LIBOR-based variable portion of the interest rate at 1.80% and expires on June 23, 2016. The Company has designated the swap agreement as a cash flow hedge.

In addition, the Company was party to a \$125.0 million notional amount interest rate swap which expired in July 2011 and a second interest rate swap with a notional amount of \$75.0 million which expired in the first quarter of 2011. Both of these swaps were associated with the Company's previous term loan facility, but during 2011 neither was designated as a hedging instrument.

As of March 31, 2012 and December 31, 2011, the fair value carrying amount of the Company's derivative instruments is recorded as follows:

Balance Sheet Caption	Asset Derivatives		Liability Derivatives		
	March 31, 2012	December 31, 2011	March 31, 2012	December 31, 2011	
	(dollars in thousands)				
Derivatives designated as hedging instruments					
Interest rate swap	Accrued liabilities	\$—	\$—	\$550	\$—
Interest rate swap		—	—	110	—

	Other long-term liabilities				
Total derivatives designated as hedging instruments		\$—	\$—	\$660	\$—

9. Commitments and Contingencies

Asbestos

As of March 31, 2012, the Company was a party to 1,121 pending cases involving an aggregate of 7,947 claimants alleging personal injury from exposure to asbestos containing materials formerly used in gaskets (both encapsulated and otherwise) manufactured or distributed by certain of the Company's subsidiaries for use primarily in the petrochemical refining and exploration industries. The following chart summarizes the number of claimants, number of claims filed, number of claims dismissed, number of claims settled, the average settlement amount per claim and the total defense costs, exclusive of amounts reimbursed under the Company's primary insurance, at the applicable date and for the applicable periods:

	Claims pending at beginning of period	Claims filed during period	Claims dismissed during period	Claims settled during period	Average settlement amount per claim during period	Total defense costs during period
Fiscal Year Ended December 31, 2011	8,200	476	607	21	\$14,300	\$2,510,000
Three Months Ended March 31, 2012	8,048	105	198	8	21,350	630,000

In addition, the Company acquired various companies to distribute its products that had distributed gaskets of other manufacturers prior to acquisition. The Company believes that many of its pending cases relate to locations at which none of its gaskets were distributed or used.

The Company may be subjected to significant additional asbestos-related claims in the future, the cost of settling cases in which product identification can be made may increase, and the Company may be subjected to further claims in respect of the former activities of its acquired gasket distributors. The Company is unable to make a meaningful statement concerning the monetary claims made in the asbestos cases given that, among other things, claims may be initially made in some jurisdictions without specifying the amount sought or by simply stating the requisite or maximum permissible monetary relief, and may be amended to alter the amount sought. The large majority of claims do not specify the amount sought. Of the 7,947 claims pending at March 31, 2012, 69 set forth specific amounts of damages (other than those stating the statutory minimum or maximum). Below is a breakdown of the amount sought for those claims seeking specific amounts:

Range of damages sought (in millions)	Compensatory & Punitive			Compensatory Only			Punitive Only		
	\$0.4 to \$5.0	\$5.0 to \$10.0	\$10.0+	\$0.1 to \$0.6	\$0.6 to \$5.0	\$5.0+	\$0.1 to \$2.5	\$2.5 to \$5.0	\$5.0+
Number of claims	43	20	6	41	24	4	43	20	6

In addition, relatively few of the claims have reached the discovery stage and even fewer claims have gone past the discovery stage.

Total settlement costs (exclusive of defense costs) for all such cases, some of which were filed over 20 years ago, have been approximately \$6.3 million. All relief sought in the asbestos cases is monetary in nature. To date, approximately 40% of the Company's costs related to settlement and defense of asbestos litigation have been covered by its primary insurance. Effective February 14, 2006, the Company entered into a coverage-in-place agreement with its first level excess carriers regarding the coverage to be provided to the Company for asbestos-related claims when the primary insurance is exhausted. The coverage-in-place agreement makes asbestos defense costs and indemnity coverage available to the Company that might otherwise be disputed by the carriers and provides a methodology for the administration of such expenses. Nonetheless, the Company believes it is likely there will be a period within the next one or two years, prior to the commencement of coverage under this agreement and following exhaustion of the

Company's primary insurance coverage, during which the Company will be solely responsible for defense costs and indemnity payments, the duration of which would be subject to the scope of damage awards and settlements paid.

Table of Contents

TRIMAS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(unaudited)

Based on the settlements made to date and the number of claims dismissed or withdrawn for lack of product identification, the Company believes that the relief sought (when specified) does not bear a reasonable relationship to its potential liability. Based upon the Company's experience to date, including the trend in annual defense and settlement costs incurred to date, and other available information (including the availability of excess insurance), the Company does not believe these cases will have a material adverse effect on its financial position and results of operations or cash flows.

Ordinary Course Claims

The Company is subject to other claims and litigation in the ordinary course of business, but does not believe that any such claim or litigation will have a material adverse effect on its financial position and results of operations or cash flows.

10. Segment Information

TriMas groups its operating segments into reportable segments that provide similar products and services. Each operating segment has discrete financial information evaluated regularly by the Company's chief operating decision maker in determining resource allocation and assessing performance. Within these reportable segments, there are no individual products or product families for which reported net sales accounted for more than 10% of the Company's consolidated net sales. See below for more information regarding the types of products and services provided within each reportable segment:

Packaging-Highly engineered closure and dispensing systems for a range of end markets, including steel and plastic industrial and consumer packaging applications.

Energy-Metallic and non-metallic industrial sealant products and bolts and fasteners for the petroleum refining, petrochemical and other industrial markets.

Aerospace & Defense-Highly engineered specialty fasteners and screws for the commercial and military aerospace industries and military munitions components for the defense industry.

Engineered Components-High-pressure and low-pressure cylinders for the transportation, storage and dispensing of compressed gases, and natural gas engines, compressors, gas production equipment and chemical pumps engineered at well sites for the oil and gas industry.

Cequent Asia Pacific & Cequent North America-Custom-engineered towing, trailering and electrical products including trailer couplers, winches, jacks, trailer brakes and brake control solutions, lighting accessories and roof racks for the recreational vehicle, agricultural/utility, marine, automotive and commercial trailer markets, functional vehicle accessories and cargo management solutions including vehicle hitches and receivers, sway controls, weight distribution and fifth-wheel hitches, hitch-mounted accessories and other accessory components.

11. Equity Awards

The Company maintains various long-term equity incentive plans: the 2011 TriMas Corporation Omnibus Incentive Compensation Plan, the TriMas Corporation 2006 Long Term Equity Incentive Plan and the TriMas Corporation 2002 Long Term Equity Incentive Plan (collectively, the "Plans"). See below for details of awards under the Plans by type.

Stock Options

The Company did not grant any stock options during the first quarter of 2012. Information related to stock options at March 31, 2012 is as follows:

	Number of Options	Weighted Average Option Price	Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Outstanding at January 1, 2012	1,271,149	\$13.29		
Exercised	(427,570)	12.54		
Cancelled	(2,500)	23.00		
Expired	(15,308)	20.00		
Outstanding at March 31, 2012	825,771	\$13.53	5.1	\$7,573,845

As of March 31, 2012, 786,263 stock options were exercisable under the Plans. In addition, the fair value of options which vested during the three months ended March 31, 2012 and 2011 was \$0.4 million and \$0.3 million, respectively. As of March 31, 2012, there was less than \$10 thousand unrecognized compensation cost related to stock options.

Table of Contents

TRIMAS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(unaudited)

The Company recognized approximately \$40 thousand and \$80 thousand of stock based compensation expense related to options during each of the three months ended March 31, 2012 and 2011. The stock-based compensation expense is included in selling, general and administrative expenses in the accompanying statement of operations.

Restricted Shares

During the first quarter of 2012, the Company awarded multiple restricted stock grants. First, the Company granted 19,532 restricted shares of common stock to certain employees which are subject only to a service condition and vest ratably over three years so long as the employee remains with the Company.

Secondly, the Company awarded 60,665 restricted shares of common stock to certain employees which are also subject only to a service condition and vest on the first anniversary date of the award. These awards were made to participants in the Company's short-term Incentive Compensation Plan ("ICP"), where, beginning in the 2010 plan year, all ICP participants whose target ICP annual award exceeds \$20 thousand receive 80% of the value in earned cash and 20% in the form of a restricted stock award upon finalization of the award amount in the first quarter each year, following the previous plan year.

The Company awarded 206,064 restricted shares to certain Company key employees during the first quarter of 2012. Half of the restricted shares granted are service-based restricted stock units. These awards vest ratably over three years. The other half of the shares are subject to a performance condition and are earned based upon the achievement of two performance metrics over a period of three calendar years, beginning on January 1, 2012 and ending on December 31, 2014. Of this award, 75% of the awards are earned based upon the Company's earnings per share ("EPS") cumulative average growth rate ("EPS CAGR") over the performance period. The remaining 25% of the grants are earned based upon the Company's cash generation results. Cash generation is defined as the Company's cumulative three year cash flow from operating activities less capital expenditures, as publicly reported by the Company, plus or minus special items that may occur from time-to-time, divided by the Company's three-year income from continuing operations as publicly reported by the Company, plus or minus special items that may occur from time-to-time. Depending on the performance achieved for these two metrics, the amount of shares earned can vary from 30% of the target award to a maximum amount of 200% of the target award for the cash flow metric and 250% of the target award for the EPS CAGR metric. However, if these performance metrics are not achieved, no award will be earned. The performance awards vest on a "cliff" basis at the end of the three-year performance period.

The Company also awarded 166,530 restricted shares to certain Company key employees which are solely performance-based grants. Of this award, 60% are earned based on 2012 earnings per share growth, and the remaining 40% are earned based on the EPS CAGR for 2012 and 2013. Depending on the performance achieved for these two specific metrics, the amount of shares earned can vary from 30% of the target award to a maximum amount of 250% of the target award. However, if these performance metrics are not achieved, no award will be earned.

In addition, the Company granted 16,440 restricted shares of its common stock to its non-employee independent directors, which vest one year from date of grant so long as the director and/or Company does not terminate his services prior to the vesting date.

Lastly, the Company allows for its non-employee independent directors to make an annual election to defer all or a portion of their directors fees and to receive the deferred amount in cash or equity. Two directors have elected to defer certain of their directors fees and to receive the amount in Company common stock at a future date. During the first quarter of 2012, the Company issued 2,120 shares related to director fee deferrals.

Information related to restricted shares at March 31, 2012 is as follows:

	Number of Unvested Restricted Shares	Weighted Average Grant Date Fair Value	Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Outstanding at January 1, 2012	332,043	\$ 16.25		

Edgar Filing: TRIMAS CORP - Form 10-Q

Vested	(131,635) 16.20		
Cancelled	(480) 24.33		
Outstanding at March 31, 2012	671,279	\$21.83	2.24	\$15,029,937

19

Table of Contents

TRIMAS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(unaudited)

As of March 31, 2012, there was approximately \$11.0 million of unrecognized compensation cost related to unvested restricted shares that is expected to be recorded over a weighted-average period of 1.8 years.

The Company recognized approximately \$1.4 million and \$0.8 million of stock based compensation expense related to restricted shares during the three months ended March 31, 2012 and 2011, respectively. The stock-based compensation expense is included in selling, general and administrative expenses in the accompanying statement of operations.

12. Earnings per Share

Net earnings are divided by the weighted average number of shares outstanding during the period to calculate basic earnings per share. Diluted earnings per share are calculated to give effect to stock options and other stock-based awards. The calculation of diluted earnings per share included 136,988 and 132,706 restricted shares for the three months ended March 31, 2012 and 2011, respectively. The calculation of diluted earnings per share also included options to purchase 298,644 and 552,760 shares of common stock for the three months ended March 31, 2012 and 2011, respectively.

13. Defined Benefit Plans

Net periodic pension and postretirement benefit costs for the Company's defined benefit pension plans and postretirement benefit plans cover foreign employees, union hourly employees and certain salaried employees. The components of net periodic pension and postretirement benefit costs for the three months ended March 31, 2012 and 2011 are as follows:

	Pension Plans		Other Postretirement Benefits	
	Three months ended March 31,		Three months ended March 31,	
	2012	2011	2012	2011
	(dollars in thousands)			
Service costs	\$ 150	\$ 160	\$—	\$—
Interest costs	400	400	10	10
Expected return on plan assets	(430) (400) —	—
Amortization of prior service cost	—	—	(70) (70
Amortization of net (gain)/loss	270	180	(20) (20
Net periodic benefit cost	\$ 390	\$ 340	\$ (80) \$ (80

The Company contributed approximately \$4.0 million to its defined benefit pension plans during the three months ended March 31, 2012. The Company expects to contribute approximately \$5.8 million to its defined benefit pension plans for the full year 2012.

14. New Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-5, "Presentation of Comprehensive Income" ("ASU 2011-5"). ASU 2011-5 amends guidance listed under Accounting Standards Codification ("ASC") Topic 220, "Comprehensive Income," and eliminates the option to present components of other comprehensive income as part of the statement of shareholders' equity. Under the amendments to ASC Topic 220, an entity has the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. While ASU 2011-5 also includes requirements for presentation of reclassification adjustments out of accumulated other comprehensive income, this section was subsequently deferred in December 2011, with the FASB's issuance of ASU 2011-12, "Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05." ASU 2011-5 became effective retrospectively for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company has presented the total of comprehensive income, the components of net income and the components of other comprehensive income in two separate but consecutive statements as a result of the Company's adoption of ASU 2011-5 during the first quarter of 2012.

In May 2011, the FASB issued ASU 2011-4, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." ASU 2011-4 amends guidance listed under ASC Topic 820, "Fair Value Measurement," and represents the converged guidance of the FASB and the International Accounting Standards Board on fair value measurement. The guidance clarifies how a principal market is determined, addresses the fair value measurement of instruments with offsetting market or counterparty credit risks, addresses the concept of valuation premise and highest and best use, extends the prohibition on blockage factors to all three levels of the fair value hierarchy and requires additional disclosures. ASU 2011-4 became effective prospectively for interim and annual periods beginning after December 15, 2011. There was no significant impact to the Company's consolidated financial statements as a result of the Company's adoption of ASU 2011-4 during the first quarter of 2012.

15. Supplemental Guarantor Condensed Consolidating Financial Information

Under an indenture dated December 29, 2009, TriMas Corporation, the parent company ("Parent"), issued 9³/₄% senior secured notes due 2017 in a total principal amount of \$250.0 million (face value). The outstanding Senior Notes are fully and unconditionally guaranteed on a joint and several basis by substantially all of the Company's domestic subsidiaries ("Guarantor Subsidiaries"). The Company's non-domestic subsidiaries and TSPC, Inc. have not guaranteed the Senior Notes ("Non-Guarantor Subsidiaries"). The Guarantor Subsidiaries have also guaranteed amounts outstanding under the Company's Credit Agreement.

The accompanying supplemental guarantor condensed, consolidating financial information is presented using the equity method of accounting for all periods presented. Under this method, investments in subsidiaries are recorded at cost and adjusted for the Company's share in the subsidiaries' cumulative results of operations, capital contributions and distributions and other changes in equity. Elimination entries relate primarily to the elimination of investments in subsidiaries and associated intercompany balances and transactions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition contains forward-looking statements regarding industry outlook and our expectations regarding the performance of our business. These forward-looking statements are subject to numerous risks and uncertainties, including, but not limited to, the risks and uncertainties described under the heading "Forward Looking Statements," at the beginning of this report. Our actual results may differ materially from those contained in or implied by any forward-looking statements. You should read the following discussion together with the Company's reports on file with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the year ended December 31, 2011.

Introduction

We are a global manufacturer and distributor of products for commercial, industrial and consumer markets. We are principally engaged in six reportable segments: Packaging, Energy, Aerospace & Defense, Engineered Components, Cequent Asia Pacific and Cequent North America.

Key Factors and Risks Affecting Our Reported Results. Our businesses and results of operations depend upon general economic conditions and we serve some customers in cyclical industries that are highly competitive and themselves significantly impacted by changes in economic conditions. Over the past few years, global economic conditions have cycled through significant changes. The economy was in a period of recovery during 2011, which, along with significant market share gains and new product introductions, resulted in year-over-year net sales increases in all six of our reportable segments. The economic conditions have continued into early 2012 in certain markets, which together with market share gains, new product introductions and acquisitions, resulted in first quarter year-over-year net sales increases in four of our six reportable segments.

Over the past two years, we have accelerated our growth strategies via bolt-on acquisitions and geographic expansion within our existing platforms, primarily within our Packaging, Energy and Engineered Components reportable segments. While this has helped to significantly increase our net sales levels and set the foundation for continued growth, earnings margins within these segments, particularly within Packaging and Energy, have declined at the onset of the acquisitions and new branch location openings due to acquisition/setup and diligence costs, purchase accounting adjustments (inventory revaluations and higher depreciation and amortization expense) integration costs, costs to do business in new markets (primarily for new branches, where we make pricing decisions to penetrate new markets and do not yet have the volume leverage) and from acquiring companies with historically lower margins than our legacy businesses. While further acquisitions and branch expansions may put further pressure on earnings margins based on the aforementioned factors, we believe that the margins in these businesses will moderate to historical levels over time as we integrate them into our businesses and capitalize on productivity initiatives and volume efficiencies. Critical factors affecting our ability to succeed include: our ability to create organic growth through product development, cross selling and extending product-line offerings, and our ability to quickly and cost-effectively introduce new products; our ability to acquire and integrate companies or products that supplement existing product lines, add new distribution channels, expand our geographic coverage or enable better absorption of overhead costs; our ability to manage our cost structure more efficiently via supply base management, internal sourcing and/or purchasing of materials, selective outsourcing and/or purchasing of support functions, working capital management, and greater leverage of our administrative functions. If we are unable to do any of the foregoing successfully, our financial condition and results of operations could be materially and adversely impacted.

There is some seasonality in the businesses within our Cequent reportable segments, primarily within Cequent North America, where sales of towing and trailering products are generally stronger in the second and third quarters, as trailer original equipment manufacturers ("OEMs"), distributors and retailers acquire product for the spring and summer selling seasons. No other reportable segment experiences significant seasonal fluctuation. We do not consider sales order backlog to be a material factor in our business. A growing portion of our sales is derived from international sources, which exposes us to certain risks, including currency risks.

The demand for some of our products, particularly in our two Cequent reportable segments, is heavily influenced by consumer sentiment. Despite the sales increases in the past two years, we recognize that consumer sentiment and the end market conditions remain unstable, primarily for Cequent North America, given continued uncertainties in employment levels and consumer credit availability, both of which significantly impact consumer discretionary

spending.

29

Table of Contents

We are sensitive to price movements in our raw materials supply base. Our largest material purchases are for steel, copper, aluminum, polyethylene and other resins and energy. Historically, we have experienced increasing costs of steel and resin and have worked with our suppliers to manage cost pressures and disruptions in supply. We also utilize pricing programs to pass increased steel, copper, aluminum and resin costs to customers. Although we may experience delays in our ability to implement price increases, we have been generally able to recover such increased costs, except for certain circumstances, primarily within Cequent North America during 2011, where we intentionally kept selling prices constant for certain customers despite material price increases to earn incremental sales. We may experience disruptions in supply in the future and may not be able to pass along higher costs associated with such disruptions to our customers in the form of price increases. We will continue to take actions as necessary to manage risks associated with increasing steel or other raw material costs. However, such increased costs may adversely impact our earnings. We report shipping and handling expenses associated with our Cequent North America reportable segment's distribution network as an element of selling, general and administrative expenses in our consolidated statement of operations. As such, gross margins for the Cequent North America reportable segment may not be comparable to those of our other reportable segments, which primarily rely on third party distributors, for which all costs are included in cost of sales.

Table of Contents

Results of Operations

The principal factors impacting us during the three months ended March 31, 2012, compared with the three months ended March 31, 2011, were:

- market share gains and new product introductions in the first quarter of 2012, primarily within our Energy, Engineered Components, Cequent Asia Pacific and Cequent North America reportable segments;
- the impact of our Innovative Molding and Arminak & Associates, LLC ("Arminak") acquisitions in our Packaging reportable segment;
- footprint consolidation and relocation projects within our Cequent North America and Cequent Asia Pacific reportable segments, under which we incurred approximately \$1.7 million of manufacturing inefficiency, facility move and duplicate costs during the first quarter of 2012; and
- continued economic strength in certain of the markets our businesses serve in the first quarter of 2012 compared to the first quarter of 2011, contributing to increased net sales in four of our six reportable segments.

Three Months Ended March 31, 2012 Compared with Three Months Ended March 31, 2011

Overall, net sales increased approximately \$39.0 million, or approximately 15.1%, to \$297.6 million for the three months ended March 31, 2012, as compared with \$258.6 million in the three months ended March 31, 2011. During the first quarter of 2012, net sales increased in our Packaging, Energy, Engineered Components and Cequent Asia Pacific reportable segments. Of the sales increase, approximately \$14.2 million was due to our Innovative Molding and Arminak acquisitions, both of which are included within our Packaging reportable segment. The remainder of the increase in sales levels between years was due to continued market share gains, primarily in the Energy, Engineered Components and Cequent North America reportable segments, our expansion in international markets, primarily in our Energy and Cequent Asia Pacific reportable segments, our new product introductions and related growth, primarily in our Engineered Components and Cequent Asia Pacific reportable segments and the impact of continued economic strength in certain of our end markets.

Gross profit margin (gross profit as a percentage of sales) approximated 26.5% and 27.8% for the three months ended March 31, 2012 and 2011, respectively. The gross profit margin in our Aerospace & Defense and Engineered Components reportable segments improved by 630 basis points and 250 basis points, respectively, compared to the first quarter of 2011, due primarily to operating leverage on higher sales levels and a more favorable product sales mix. Increases in gross profit margin in these two reportable segments were more than offset by declines in gross profit margins in our other reportable segments and a mix shift, as our historically lower gross profit margin reportable segments comprised a greater percentage of total Company sales in the first quarter of 2012 than in the first quarter of 2011. In addition, gross profit margin in our Packaging reportable segment declined due to approximately \$1.4 million of purchase accounting adjustments related to step-up in value and subsequent amortization of inventory and intangible assets for our Arminak acquisition. Also, our first quarter 2012 gross profit margin was negatively impacted by approximately \$1.7 million of costs incurred related to our manufacturing facility footprint consolidation and relocation projects in our Cequent Asia Pacific and Cequent North America reportable segments. While we continue to generate significant savings from capital investments, productivity projects and lean initiatives, particularly in our Packaging and Aerospace & Defense reportable segments, the savings from those projects has primarily been offset by economic cost increases and our investment in growth initiatives, as our gross profit margins, particularly in our Energy reportable segment, are lower when we open facilities in new geographies and aggressively price these products to gain market penetration plus don't gain the operating leverage on our fixed costs until projected sales volumes are achieved in the future.

Operating profit margin (operating profit as a percentage of sales) approximated 9.7% and 11.0% for the three months ended March 31, 2012 and 2011, respectively. Operating profit increased approximately \$0.4 million, or 1.4%, to \$28.7 million for the three months ended March 31, 2012, from \$28.4 million for the three months ended March 31, 2011, primarily as a result of the higher sales levels. Our operating margins declined, primarily due to the sales mix shift between our reportable segments, with our lower margin reportable segments comprising a greater percentage of total sales, costs incurred associated with our Arminak acquisition in February 2012, costs incurred associated with

our manufacturing facility footprint consolidation and relocation projects and increased selling, general and administrative expenses related to acquisitions and to support our sales growth initiatives.

32

Table of Contents

Interest expense decreased approximately \$1.4 million, to \$10.7 million, for the three months ended March 31, 2012, as compared to \$12.0 million for the three months ended March 31, 2011. The decrease in interest expense was primarily the result of a decrease in our effective weighted average interest rate on variable rate U.S. borrowings, including our accounts receivable facility, to approximately 4.0% for the three months ended March 31, 2012, from 5.6% for the three months ended March 31, 2011. In addition, we recorded approximately \$0.3 million lower interest expense related to changes in the fair value of our interest rate swaps in 2012 as compared to 2011. Partially offsetting these reductions in interest expense was an increase in our weighted-average U.S. Credit Agreement borrowings to approximately \$267.3 million in the three months ended March 31, 2012, from approximately \$253.9 million in the three months ended March 31, 2011.

Other expense, net increased approximately \$0.5 million, to \$1.6 million for the three months ended March 31, 2012, compared to \$1.2 million for the three months ended March 31, 2011. Of this increase, approximately \$0.4 million related to losses on transactions denominated in foreign currencies recorded in the three months ended March 31, 2012, compared to a nominal gain on such transactions recorded in three months ended March 31, 2011. In addition, approximately \$0.2 million was related to incremental costs attributable to a reduction of an indemnification asset related to uncertain tax positions in the three months ended March 31, 2012 as compared to the three months ended March 31, 2011.

The effective income tax rates for the three months ended March 31, 2012 and 2011 were 25.4% and 29.5%, respectively. For the three months ended March 31, 2012, we recorded a net tax benefit of approximately \$1.2 million primarily related to the change of an uncertain tax position reserve for which the statute of limitations expired during the quarter. We also benefited from an overall lower foreign effective tax rate in the three months ended March 31, 2012 as compared to the three months ended March 31, 2011.

Net income from continuing operations increased by approximately \$1.6 million, to \$12.3 million for the three months ended March 31, 2012, compared to \$10.7 million for the three months ended March 31, 2011. The increase was primarily a result of the \$1.4 million reduction in interest expense, plus the \$0.4 million increase in operating profit, plus a \$0.3 million reduction in income tax expense, less the \$0.5 million increase in other expense, net.

Net loss attributable to noncontrolling interest was \$0.2 million for the three months ended March 31, 2012, as a result of our 70% acquisition in Arminak in February 2012, which represents the 30% interest not attributed to TriMas Corporation.

See below for a discussion of operating results by segment.

Packaging. Net sales increased approximately \$10.4 million, or 23.7%, to \$54.3 million in the three months ended March 31, 2012, as compared to \$43.9 million in the three months ended March 31, 2011. Sales increased approximately \$8.8 million and \$5.4 million as a result of our acquisitions of Innovative Molding in August 2011 and Arminak in February 2012, respectively. Sales of our industrial closures, rings and levers decreased by approximately \$3.1 million in the three months ended March 31, 2012 compared to the three months ended March 31, 2011, primarily due to continued weak demand in North America and Europe from chemical companies as they manage through uncertain end-market demand. Sales of our specialty systems products decreased by approximately \$0.2 million as compared to the three months ended March 31, 2011, as declines in European sales due to the uncertain economy were mostly offset by increases in North American sales. In addition, sales decreased by approximately \$0.5 million due to unfavorable currency exchange, as our reported results in U.S. dollars were negatively impacted as a result of the weaker U.S. dollar relative to foreign currencies.

Packaging's gross profit increased approximately \$0.6 million to \$18.7 million, or 34.4% of sales, in the three months ended March 31, 2012, as compared to \$18.1 million, or 41.3% of sales, in the three months ended March 31, 2011. We incurred approximately \$1.4 million of purchase accounting-related adjustments in the first quarter of 2012 related to step-up in value and subsequent amortization of inventory and intangible assets in connection with our Arminak acquisition. Gross profit margin was further depressed by the sales product mix, as Innovative Molding and Arminak both yield lower gross margins than the legacy Packaging business. Gross profit margins in the legacy business remained flat despite the reduction in sales levels in the first quarter of 2012, primarily as a result of the savings and efficiencies generated by our continued capital investments, productivity projects and lean initiatives within this segment.

Packaging's selling, general and administrative expenses increased approximately \$2.5 million to \$8.8 million, or 16.2% of sales, in the three months ended March 31, 2012, as compared to \$6.3 million, or 14.3% of sales, in the three months ended March 31, 2011. This segment incurred approximately \$1.0 million in combined travel, legal, finance and other diligence costs associated with consummating the acquisition of Arminak and approximately \$0.4 million of intangible asset amortization costs for both Arminak and Innovative Molding. The remainder of the year-over-year increase is primarily related to operating selling, general and administrative expenses in the two acquired companies. Excluding these acquisition-related costs, selling, general and administrative expenses declined as a percentage of sales.

Table of Contents

Packaging's operating profit decreased approximately \$1.9 million to \$9.9 million, or 18.2% of sales, in the three months ended March 31, 2012, as compared to \$11.8 million, or 26.9% of sales, in three months ended March 31, 2011. The decrease in both operating profit and operating profit margin is primarily due to the aforementioned purchase accounting adjustments and acquisition costs, with the operating profit dollar decline also unfavorably impacted by the operating selling, general and administrative costs related to the acquisitions of Arminak and Innovative Molding.

Energy. Net sales for the three months ended March 31, 2012 increased approximately \$9.6 million, or 23.5%, to \$50.6 million, as compared to \$41.0 million in the three months ended March 31, 2011. Of this increase, approximately \$3.4 million was due to continued market share gains within our highly-engineered bolt product line and \$1.6 million resulted from sales generated by our new Edmonton, Canada; Grimsby, UK; Midland, Michigan; Minneapolis, Minnesota; Tarragona, Spain; and Singapore branch facilities. The remaining \$4.6 million was primarily due to increased levels of turnaround activity at refineries and petrochemical plants and increased activity with upstream/midstream customers.

Gross profit within Energy increased approximately \$1.8 million to \$13.3 million, or 26.3% of sales, in the three months ended March 31, 2012, as compared to \$11.6 million, or 28.2% of sales, in the three months ended March 31, 2011. Gross profit margins declined year-over-year mainly due to a less favorable product sales mix, as standard gaskets and bolts, which return lower margins than highly-engineered gaskets and bolts, comprised a larger percentage of net sales in the first quarter of 2012 than the first quarter of 2011. In addition, our new branch sales, which have lower margins due to aggressively pricing products to penetrate new markets in addition to incurring launch costs, including employee training of manufacturing processes, comprised a larger percentage of the total sales in the first quarter of 2012 than in the first quarter of 2011.

Selling, general and administrative expenses within Energy increased approximately \$0.7 million to \$6.9 million, or 13.7% of sales, in the three months ended March 31, 2012, as compared to \$6.2 million, or 15.2% of sales, in the three months ended March 31, 2011, as selling, general and administrative expenses increased in support of our branch facility growth initiatives. However, selling, general and administrative expenses decreased as a percentage of sales primarily due to the operating leverage gained on the higher sales levels.

Overall, operating profit within Energy increased approximately \$1.1 million to \$6.4 million, or 12.6% of sales, in the three months ended March 31, 2012, as compared to \$5.3 million, or 13.0% of sales, in the three months ended March 31, 2011, due principally to the leverage gained by higher sales levels, which was partially offset by a less favorable product sales mix, continued increases in sales in our new branches, which typically have lower margins as they penetrate new markets, and higher selling, general and administrative expenses in support of our growth initiatives.

Aerospace & Defense. Net sales for the three months ended March 31, 2012 decreased approximately \$0.6 million, or 3.5%, to \$17.9 million, as compared to \$18.5 million in the three months ended March 31, 2011. Sales in our aerospace business increased approximately \$2.4 million, primarily due to higher sales levels in our blind bolt and temporary fastener product lines to our distribution customers, as a result of new programs with airplane frame manufacturers. The increase in sales in our aerospace business was more than offset by a decrease in sales in our defense business of approximately \$3.0 million, primarily associated with managing the relocation to and establishment of the new defense facility, which is now in the final stages of completion.

Gross profit within Aerospace & Defense increased approximately \$0.9 million to \$7.5 million, or 41.8% of sales, in the three months ended March 31, 2012, from \$6.6 million, or 35.5% of sales, in the three months ended March 31, 2011, primarily due to the fact that the aerospace product sales comprise a larger percentage of the total sales for this segment, with aerospace products yielding significantly higher margins than the defense facility relocation contract. In addition, our aerospace product margins increased in the first quarter of 2012 as compared to the first quarter of 2011 due to productivity initiatives, primarily associated with implementation of additional process automation to gain labor productivity and reduce indirect production costs.

Selling, general and administrative expenses decreased approximately \$0.3 million to \$2.6 million, or 14.6% of sales, in the three months ended March 31, 2012, as compared to \$2.9 million, or 15.4% of sales, in the three months ended March 31, 2011, as this segment was able to reduce its selling, general and administrative expenses both in dollars

spent and as a percentage of sales due to additional leverage gained on the higher sales levels in our aerospace businesses, decreased sales commissions in our aerospace business, as a lower percentage of our sales in the three months ended March 31, 2012 were subject to third party commission arrangements than in the three months ended March 31, 2011 and lower wage and benefit costs incurred by our defense business as the defense facility relocation winds-down.

Operating profit within Aerospace & Defense increased approximately \$1.1 million to \$4.9 million, or 27.2% of sales, in the three months ended March 31, 2012, as compared to \$3.7 million, or 20.1% of sales, in the three months ended March 31, 2011, primarily due to the increase in sales levels, productivity and manufacturing efficiency gains and lower selling, general and administrative expenses.

Table of Contents

Engineered Components. Net sales for the three months ended March 31, 2012 increased approximately \$12.7 million, or 34.3%, to \$49.7 million, as compared to \$37.0 million in the three months ended March 31, 2011. Sales in our industrial cylinder business increased by approximately \$5.6 million mainly due to market share gains, primarily of large high pressure cylinders to existing customers and improved economic conditions. Sales of slow speed and compressor engines and related products increased by approximately \$7.1 million, as sales of engines and engine parts increased by approximately \$5.8 million due to increased oil drilling activity as compared to the first quarter of 2011. Sales of gas compression products and processing and meter run equipment increased by approximately \$1.3 million, as we continue to introduce new products to add to our well-site content.

Gross profit within Engineered Components increased approximately \$3.6 million to \$10.7 million, or 21.5% of sales, in the three months ended March 31, 2012, from \$7.0 million, or 19.0% of sales, in the three months ended March 31, 2011. Gross profit increased approximately \$2.4 million as a result of the higher sales levels. In addition, both our industrial cylinder and engine businesses increased their gross profit margins compared to the first quarter of 2011. Our industrial cylinder business experienced a more favorable product sales mix, as the growth in sales was mainly in large high pressure cylinders, which have a higher margin than small high pressure cylinders. Our engine business continues to benefit from significant operating leverage, as their sales increased without significant additional fixed cost requirements.

Selling, general and administrative expenses increased approximately \$0.8 million to \$3.3 million, or 6.6% of sales, in the three months ended March 31, 2012, as compared to \$2.5 million, or 6.6% of sales, in the three months ended March 31, 2011, primarily as a result of increased sales commissions and other selling costs incurred in support of our sales growth projects.

Operating profit within Engineered Components increased approximately \$3.1 million to \$7.7 million, or 15.5% of sales, in the three months ended March 31, 2012, as compared to operating profit of \$4.7 million, or 12.6% of sales, in the three months ended March 31, 2011, primarily due to the higher sales levels between years, a more favorable product sales mix within our industrial cylinder business and higher operating leverage, which were partially offset by higher selling, general and administrative expenses in support of our sales growth initiatives.

Cequent Asia Pacific. Net sales increased approximately \$8.4 million, or 42.4%, to \$28.2 million in the three months ended March 31, 2012, as compared to \$19.8 million in the three months ended March 31, 2011. Net sales were favorably impacted by approximately \$0.8 million of currency exchange, as our reported results in U.S. dollars were positively impacted as a result of the weaker U.S. dollar relative to foreign currencies. Excluding the impact of currency exchange, sales increased approximately \$7.6 million. Of this increase, approximately \$3.7 million was due to new business awards in Thailand and \$1.1 million was due to the BTM acquisition in South Africa, completed during the fourth quarter of 2011. The economy in this region began to stabilize during the second half of 2011 following the late 2010 / early 2011 flooding in Queensland, Australia and the tsunami in Japan, both of which negatively impacted sales levels throughout the first six months of 2011. The first quarter of 2012 has also been aided by improved consumer spending and increased vehicle availability.

Cequent Asia Pacific's gross profit increased approximately \$1.1 million to \$6.3 million, or 22.4% of sales, in the three months ended March 31, 2012, from approximately \$5.2 million, or 26.4% of sales, in the three months ended March 31, 2011, primarily due to higher sales levels. However, gross profit margins declined due to approximately \$0.7 million of manufacturing inefficiencies and duplicate costs incurred directly related to the consolidation of two existing manufacturing facilities into one new manufacturing facility in Australia, which is expected to be completed by mid 2012, and as a result of a less favorable product sales mix.

Selling, general and administrative expenses increased approximately \$0.6 million to \$3.3 million, or 11.6% of sales, in the three months ended March 31, 2012, as compared to \$2.7 million, or 13.6% of sales, in the three months ended March 31, 2011, primarily in support of our growth initiatives, including the normal operating selling, general and administrative costs related to BTM. However, selling, general and administrative expenses declined by 200 basis points year-over-year as a percentage of sales due to the operating leverage gained on the higher sales levels.

Cequent Asia Pacific's operating profit increased approximately \$0.5 million to approximately \$3.0 million, or 10.8% of sales, in the three months ended March 31, 2012 as compared to \$2.5 million, or 12.8% of net sales, in the three months ended March 31, 2011, primarily as a result of higher sales levels, which were partially offset by a less

favorable product sales mix, costs and manufacturing inefficiencies incurred related to the move to a new manufacturing facility and higher selling, general and administrative expenses in support of our sales growth initiatives.

Table of Contents

Cequent North America. Net sales decreased approximately \$1.5 million, or (1.5)%, to \$96.9 million in the three months ended March 31, 2012, as compared to \$98.4 million in the three months ended March 31, 2011, primarily due to a year-over-year decrease within our retail channel. Sales in our retail channel decreased approximately \$1.5 million in the first quarter of 2012 compared to the first quarter of 2011, primarily due to a one-time stocking order of approximately \$4.5 million for a significant customer in the first quarter of 2011 that did not recur in 2012, which was partially offset by market share gains at certain of our existing customers to whom we now provide additional products. During the first quarter of 2011, the auto OE, aftermarket, industrial and international channels combined for an increase in sales of approximately \$12.5 million. When compared to the first quarter of 2011, these channels were essentially flat during the first quarter of 2012, maintaining the market share gains made in 2011 despite the current uncertain economic environment and consumer demand.

Cequent North America's gross profit decreased approximately \$0.9 million to \$22.4 million, or 23.2% of sales, in the three months ended March 31, 2012, from approximately \$23.3 million, or 23.7% of sales, in the three months ended March 31, 2011. Of this decrease, approximately \$1.0 million is directly related to the expansion of our manufacturing capacity and footprint in our lower cost country facilities and subsequent move of certain OE production thereto. In addition, approximately \$0.4 million of the decrease was due to lower sales levels within our retail channel. These reductions in gross profit were partially offset by continued productivity and low-cost sourcing initiatives.

Selling, general and administrative expenses increased approximately \$1.7 million to \$18.3 million, or 18.9% of sales, in the three months ended March 31, 2012, as compared to \$16.6 million, or 16.9% of sales, in the three months ended March 31, 2011, primarily as a result of new sales promotions and advertising and higher employee and attorney costs.

Cequent North America's operating profit decreased approximately \$2.5 million to \$4.2 million, or 4.3% of sales, in the three months ended March 31, 2012 as compared to \$6.7 million, or 6.8% of net sales, in the three months ended March 31, 2011, primarily due to lower sales levels, costs related to the expansion of manufacturing capacity in our facilities in lower cost countries and move of certain production thereto and higher selling, general and administrative expenses.

Corporate Expenses. Corporate expenses consist of the following:

	Three months ended March 31,	
	2012	2011
	(in millions)	
Corporate operating expenses	\$3.1	\$2.5
Employee costs and related benefits	4.2	3.9
Corporate expenses	\$7.3	\$6.4

Corporate expenses increased approximately \$0.9 million to \$7.3 million for the three months ended March 31, 2012, from \$6.4 million for the three months ended March 31, 2011. The increase between years is primarily attributed to an increase in third party professional fees, primarily supporting our international growth efforts, and higher employee costs and related benefits, primarily due to bringing certain tax and legal-related functions in-house rather than outsourcing.

Discontinued Operations. The results of discontinued operations consists of our precision tool cutting and specialty fitting lines of business, which were sold in December 2011. There was no income from discontinued operations, net of income taxes, for the three months ended March 31, 2012, as compared to \$1.1 million for the three months ended March 31, 2011. See Note 2, "Discontinued Operations and Assets Held for Sale," to our consolidated financial statements included in Part I, Item 1 of this quarterly report on Form 10-Q.

Table of Contents

Liquidity and Capital Resources

Cash Flows

Cash flows used for operating activities for the three months ended March 31, 2012 and 2011 was approximately \$39.4 million and \$27.0 million, respectively. Significant changes in cash flows used for operating activities and the reasons for such changes are as follows:

For the three months ended March 31, 2012, the Company generated \$25.5 million of cash, based on the reported net income of \$12.3 million and after considering the effects of non-cash items related to gains and losses on dispositions of property and equipment, depreciation, amortization, compensation and related changes in excess tax benefits, changes in deferred income taxes, debt extinguishment costs and other, net. For the three months ended March 31, 2011, the Company generated \$32.3 million in cash flows based on the reported net income of \$11.8 million and after considering the effects of similar non-cash items.

Increases in accounts receivable resulted in a use of cash of approximately \$33.3 million and \$41.7 million for the three month periods ended March 31, 2012 and 2011, respectively. The difference in changes between periods is due primarily to the timing of sales within the quarter as compared to the previous quarter end. Our days sales outstanding of receivables were consistent in the mid 50's as of March 31, 2012 and 2011.

For the three months ended March 31, 2012 and 2011, we used approximately \$15.0 million and \$2.8 million, respectively, of cash for investment in our inventories to support our increased sales levels and to capture additional market share where other competitors are unable to fill customer orders on a timely basis.

For the three months ended March 31, 2012 and 2011, accounts payable and accrued liabilities resulted in a net use of cash of approximately \$15.6 million and \$11.6 million, respectively. The increase in cash used for accounts payable and accrued liabilities is primarily a result of the timing of payments made to suppliers, as the days of accounts payable on hand remained flat quarter over quarter.

Net cash used for investing activities for the three months ended March 31, 2012 and 2011 was approximately \$70.2 million and \$6.3 million, respectively. During the first three months of 2012, we paid approximately \$59.2 million for business acquisitions, primarily for the acquisition of Arminak in our Packaging reportable segment. We also incurred approximately \$11.4 million in capital expenditures, as we have increased our investment in growth and productivity-related capital projects due to the improved economic conditions. During the first three months of 2011, we invested approximately \$6.8 million in capital expenditures.

Net cash provided by financing activities was approximately \$35.7 million and \$1.9 million for the three months ended March 31, 2012 and 2011, respectively. The increase between years is primarily due to increased net borrowings on our receivables facility of \$24.0 million and \$5.7 million on our term loan facility in Australia. In addition, the Company received approximately \$5.3 million greater proceeds from the exercise of stock options during the first quarter of 2012 than the first quarter of 2011.

Our Debt and Other Commitments

We are party to a credit agreement consisting of a \$125.0 million revolving credit facility and a \$225.0 million term loan facility (collectively, the "Credit Agreement"). At March 31, 2012, \$223.3 million was outstanding on the term loan and no amount was outstanding on the revolving credit facility. The Credit Agreement allows issuance of letters of credit, not to exceed \$50.0 million in aggregate, against revolving credit facility commitments.

The Credit Agreement also provides for incremental term loan facility commitments, not to exceed \$200.0 million. Under the Credit Agreement, we are also able to issue unsecured indebtedness in connection with permitted acquisitions, as defined, as long as we, on a proforma basis, after giving effect to such acquisition, are in compliance with all applicable financial covenants, as defined.

Under the Credit Agreement, if, prior to June 22, 2012, we prepay the term loan (\$225.0 million) using a new term loan facility with lower interest rate margins, then we will be required to pay a 1% premium of the aggregate principal amount prepaid. In addition, we are required to make a prepayment of our term loan facility pursuant to an excess cash flow sweep provision, equal to 50% of the computed amount of excess cash flow generated during the year, as defined. At March 31, 2012, \$5.0 million was included in current maturities of long-term debt under this provision. Amounts drawn under our revolving credit facilities fluctuate daily based upon our working capital and other ordinary course needs. Availability under our revolving credit facilities depends upon, among other things, compliance with

our Credit Agreement's financial covenants. Our Credit Agreement contains negative and affirmative covenants and other requirements affecting us and our subsidiaries, including among others: restrictions on incurrence of debt (except for permitted acquisitions and subordinated indebtedness), liens, mergers, investments, loans, advances, guarantee obligations, acquisitions, asset dispositions, sale-leaseback

37

Table of Contents

transactions, hedging agreements, dividends and other restricted junior payments, stock repurchases, transactions with affiliates, restrictive agreements and amendments to charters, by-laws, and other material documents. The terms of our Credit Agreement require us and our subsidiaries to meet certain restrictive financial covenants and ratios computed quarterly, including a leverage ratio (total consolidated indebtedness plus outstanding amounts under the accounts receivable securitization facility over consolidated EBITDA, as defined), interest expense coverage ratio (consolidated EBITDA, as defined, over cash interest expense, as defined) and a capital expenditures covenant. The most restrictive of these financial covenants are the leverage ratio and interest expense coverage ratio. Our permitted leverage ratio under the Credit Agreement is 4.00 to 1.00 for July 1, 2011 to March 31, 2012, 3.75 to 1.00 for April 1, 2012 to September 30, 2012, 3.50 to 1.00 for October 1, 2012 to June 30, 2013, 3.25 to 1.00 from July 1, 2013 and thereafter. Our actual leverage ratio was 2.68 to 1.00 at March 31, 2012. Our permitted interest expense coverage ratio under the Credit Agreement is 2.50 to 1.00 for July 1, 2011 to March 31, 2012, 2.75 to 1.00 for April 1, 2012 to December 31, 2012, 3.00 to 1.00 for January 1, 2013 and thereafter. Our actual interest expense coverage ratio was 4.58 to 1.00 at March 31, 2012. At March 31, 2012, we were in compliance with our covenants under our Credit Agreement. The following is a reconciliation of net income attributable to TriMas Corporation, as reported, which is a GAAP measure of our operating results, to Consolidated Bank EBITDA, as defined in our Credit Agreement, for the twelve months ended March 31, 2012:

	Year Ended December 31, 2011 (dollars in thousands)	Less: Three Months Ended March 31, 2011	Add: Three Months Ended March 31, 2012	Twelve Months Ended March 31, 2012
Net income attributable to TriMas Corporation	\$60,360	\$11,750	\$12,490	\$61,100
Bank stipulated adjustments:				
Net loss attributable to partially-owned subsidiaries	—	—	550	550
Interest expense, net (as defined)	44,480	12,020	10,670	43,130
Income tax expense ⁽¹⁾	33,980	5,090	4,180	33,070
Depreciation and amortization	40,470	9,730	10,260	41,000
Non-cash compensation expense ⁽²⁾	3,510	860	1,410	4,060
Other non-cash expenses or losses	3,850	450	820	4,220

- (1) Amount includes tax expense associated with discontinued operations.
- (2) Non-cash expenses resulting from the grant of restricted shares of common stock and common stock options.
- (3) Non-recurring costs and expenses arising from the integration of any business acquired not to exceed \$25,000,000 in the aggregate.
- (4) Costs incurred with refinancing our credit facilities.
- (5) Not to exceed \$10.0 million in any fiscal year.
- (6) EBITDA from permitted dispositions, as defined.
- (7) EBITDA from permitted acquisitions, as defined.
- (8) Includes \$9.5 million of acquisition deferred purchase price.

In addition to our U.S. bank debt, in Australia, we are party to a debt agreement which matures on May 31, 2012. At March 31, 2012, the balance outstanding under this agreement was approximately \$5.7 million at an interest rate of 6.2%. Borrowings under this arrangement are secured by substantially all the assets of the Australia business, which is also subject to financial and reporting covenants. Financial covenants include a capital adequacy ratio (tangible net worth over total tangible assets) and an interest coverage ratio (EBIT over gross interest cost) and we were in compliance with such covenants at March 31, 2012.

Another important source of liquidity is our \$90.0 million accounts receivable facility, under which we have the ability to sell eligible accounts receivable to a third-party multi-seller receivables funding company. We had \$24.0 million outstanding under the facility as of March 31, 2012 and had \$48.6 million available but not utilized. We had no amounts outstanding under the facility as of December 31, 2011 and \$57.6 million available but not utilized.

Table of Contents

At March 31, 2012 and December 31, 2011, we had no amounts outstanding under our revolving credit facility and had an additional \$101.7 million and \$101.1 million, respectively, potentially available after giving effect to approximately \$23.3 million and \$23.9 million, respectively, of letters of credit issued and outstanding. The letters of credit are used for a variety of purposes, including support of certain operating lease agreements, vendor payment terms and other subsidiary operating activities, and to meet various states' requirements to self-insure workers' compensation claims, including incurred but not reported claims. Including availability under our accounts receivable facility and after consideration of leverage restrictions contained in the Credit Agreement, we had \$150.3 million and \$158.8 million, respectively, of borrowing capacity available for general corporate purposes.

Our available revolving credit capacity under the Credit Agreement, after consideration of approximately \$23.3 million in letters of credit outstanding related thereto, is approximately \$101.7 million, while our available liquidity under our accounts receivable facility ranges from \$60 million to \$70 million, depending on the level of our receivables outstanding at a given point in time during the year. We rely upon our cash flow from operations and available liquidity under our revolving credit and accounts receivable facilities to fund our debt service obligations and other contractual commitments, working capital and capital expenditure requirements. Our weighted average daily amounts outstanding under the revolving credit and accounts receivable facilities during the first three months of 2012 approximated \$43.4 million, compared to the weighted average daily amounts outstanding during the first three months of 2011 of \$44.1 million. During the three months ended 2012, we used approximately \$63.8 million more cash on capital investment into our businesses as compared to the first three months of 2011, primarily for the acquisition of Arminak & Associates, utilizing the cash received from the sale of our precision tool cutting and specialty fittings businesses in December 2011 plus additional cash on hand and borrowings on the accounts receivable facility. Generally, we use available liquidity under our revolving credit and accounts receivable facilities to fund capital expenditures and daily working capital requirements during the first half of the year, as we experience some seasonality in our two Cequent reportable segments, primarily within Cequent North America. Sales of towing and trailering products within this segment are generally stronger in the second and third quarters, as original equipment manufacturers ("OEMs"), distributors and retailers acquire product for the spring and summer selling seasons. None of our other reportable segments experiences any significant seasonal fluctuations in their respective businesses. During the second half of the year, the investment in working capital is reduced and amounts outstanding under our revolving credit and receivable facilities are paid down. At the end of each quarter, we use cash on hand from our domestic and foreign subsidiaries to pay down amounts outstanding under our revolving credit and accounts receivable facilities.

Cash management related to our revolving credit and accounts receivable facilities is centralized. We monitor our cash position and available liquidity on a daily basis and forecast our cash needs on a weekly basis within the current quarter and on a monthly basis outside the current quarter over the remainder of the year. Our business and related cash forecasts are updated monthly. Given aggregate available funding under our revolving credit and accounts receivable facilities of \$150.3 million at March 31, 2012, after consideration of the aforementioned leverage restrictions, and based on forecasted cash sources and requirements inherent in our business plans, we believe that our liquidity and capital resources, including anticipated cash flows from operations, will be sufficient to meet our debt service, capital expenditure and other short-term and long-term obligation needs for the foreseeable future.

Our exposure to interest rate risk results from the variable rates under our Credit Agreement. Borrowings under the Credit Agreement bear interest, at various rates, as more fully described in Note 7, "Long-term Debt," to the accompanying consolidated financial statements. In March 2012, we entered into an interest rate swap agreement to fix the LIBOR-based variable portion of the interest rate on a total of \$100.0 million notional amount of our term loan facility. The swap agreement fixes the LIBOR-based variable portion of the interest rate at 1.80% and expires on June 23, 2016.

At March 31, 2012, 1-Month LIBOR and 3-Month LIBOR approximated 0.24% and 0.47%, respectively. Based on our variable rate-based borrowings outstanding at March 31, 2012, a 1% increase in 3-Month LIBOR would increase our interest expense by approximately \$0.2 million annually, considering our Credit Agreement term loan is subject to a 1.25% LIBOR-floor, and a 1% increase in 1-Month LIBOR would not impact our current effective interest rate on this portion of our debt, as the resulting rate would remain below the 1.25% floor.

Principal payments required under our Credit Agreement term loan are: \$5.0 million within 95 days of December 31, 2011, or earlier, as defined in the Credit Agreement, under the aforementioned excess cash flow seep provision, \$0.6 million due each calendar quarter through March 31, 2017, and \$207.1 million due on June 21, 2017.

We also have \$250.0 million (face value) 9³/₄% senior secured notes ("Senior Notes") outstanding at March 31, 2012, due 2017. Interest on the Senior Notes accrues at the rate of 9.75% per annum and is payable semi-annually in arrears on June 15 and December 15.

Table of Contents

Prior to December 15, 2012, the Company may redeem up to 35% of the principal amount of Senior Notes at a redemption price equal to 109.750% of the principal amount, plus accrued and unpaid interest to the applicable redemption date plus additional interest, if any, with the net cash proceeds of one or more equity offerings, provided that at least 65% of the original principal amount of Senior Notes issued remains outstanding after such redemption, and provided further that each such redemption occurs within 90 days of the date of closing of each such equity offering.

In addition to our long-term debt, we have other cash commitments related to leases. We account for these lease transactions as operating leases and annual rent expense for continuing operations related thereto approximated \$18.9 million. We expect to continue to utilize leasing as a financing strategy in the future to meet capital expenditure needs and to reduce debt levels.

Market Risk

We conduct business in several locations throughout the world and are subject to market risk due to changes in the value of foreign currencies. We do not currently use derivative financial instruments to manage these risks. The functional currencies of our foreign subsidiaries are the local currency in the country of domicile. We manage these operating activities at the local level and revenues and costs are generally denominated in local currencies; however, results of operations and assets and liabilities reported in U.S. dollars will fluctuate with changes in exchange rates between such local currencies and the U.S. dollar.

Common Stock

TriMas is listed in the NASDAQ Global Select MarketSM. Our stock trades under the symbol "TRS."

Credit Rating

We and certain of our outstanding debt obligations are rated by Standard & Poor's and Moody's. On August 24, 2011, Standard & Poor's upgraded our outlook to positive and affirmed our credit facilities, senior secured notes, and corporate credit ratings of BB, B-, and B+, respectively. On June 3, 2011, Moody's assigned a Ba2 rating to our senior secured credit facilities, and affirmed our corporate family rating at B1 and our outlook as positive; our ratings on our senior secured notes remained at B2. If our credit ratings were to decline, our ability to access certain financial markets may become limited, the perception of us in the view of our customers, suppliers and security holders may worsen and as a result, we may be adversely affected.

Outlook

Over the past two years, we have accelerated our growth strategies via bolt-on acquisitions and geographic expansion, primarily within our Packaging, Energy and Engineered Components reportable segments. We also have benefited from further economic recovery, experienced significant market share gains in many of our reportable segments and continued to develop and introduce new products to our markets. Given these successful sales growth initiatives, we strategically increased our investments in inventory levels and capital projects in certain of our businesses to capture additional market share and expand upon our existing growth and productivity initiatives. While this has helped to significantly increase our net sales levels and set the foundation for continued growth, profit margins in certain of our segments and for the overall Company have declined, particularly within Packaging due to the Innovative and Arminak acquisitions, which have lower historical margins than our legacy Packaging business plus we have incurred significant diligence and purchase accounting costs, in Energy, where we make pricing decisions to penetrate new markets and do not yet have volume leverage and in the Cequent businesses, which are involved in footprint consolidation projects that are a drag on margins until complete.

While additional acquisitions and branch expansions may put further short-term pressure on profit margins based on the aforementioned factors, we believe that the margins in these businesses will moderate to historical levels over time as we integrate them into our businesses and capitalize on productivity initiatives and volume efficiencies. We believe we remain well-positioned to achieve further market share gains and generate additional operating leverage as a result of lowering our fixed cost structure with the footprint consolidation projects within the Cequent businesses. We also have the capacity to fulfill yet higher net sales levels without incurring significant incremental fixed costs.

Our priorities remain consistent with our strategic aspirations: continuing to identify and execute on cost savings and productivity initiatives that fund core growth, reduce cycle times and secure our position as best cost producer, growing revenue via new products and expanding our core products in non-U.S. markets, and continuing to reduce our

debt leverage while increasing our available liquidity.

Impact of New Accounting Standards

See Note 14, "New Accounting Pronouncements," included in Item 1, "Notes to Consolidated Financial Statements," within this Form 10-Q.

Table of Contents

Critical Accounting Policies

Certain of our accounting policies require the application of significant judgment by management in selecting the appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty. These judgments are based on our historical experience, our evaluation of business and macroeconomic trends, and information from other outside sources, as appropriate.

During the quarter ended March 31, 2012, there were no material changes to the items that we disclosed as our critical accounting policies in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in the 2011 Annual Report on Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

In the normal course of business, we are exposed to market risk associated with fluctuations in foreign currency exchange rates. We are also subject to interest risk as it relates to long-term debt. See Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations," for details about our primary market risks, and the objectives and strategies used to manage these risks. Also see Note 7, "Long-term Debt," in Part I, Item 1, "Notes to Unaudited Consolidated Financial Statements," included within this Form 10-Q for additional information.

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities and Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

Evaluation of disclosure controls and procedures

As of March 31, 2012, an evaluation was carried out by management, with the participation of the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act) pursuant to Rule 13a-15 of the Exchange Act. The Company's disclosure controls and procedures are designed only to provide reasonable assurance that they will meet their objectives. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2012, the Company's disclosure controls and procedures are effective to provide reasonable assurance that they would meet their objectives.

Changes in disclosure controls and procedures

There have been no changes in the Company's internal control over financial reporting during the quarter ended March 31, 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
