### **Luxottica Group Announces 1Q03 Results**

#### **Group highlights for the first quarter of 2003:**

**Net sales to EUR 704.5 (US\$756.0 million)**

**Operating income to EUR 111.4 million**

**Earnings per ADS to EUR 0.15 (US\$0.16)**

**Milan, Italy, April 24, 2003** Luxottica Group S.p.A. (NYSE: LUX; MTA: LUX), worldwide leader in the eyewear sector, today announced results for the three-month period ended March 31, 2003<sup>(1)</sup>. Results for the first quarter were negatively affected by the 18 percent year-over-year devaluation of the U.S. Dollar against the Euro.

### **Consolidated Results**

#### **First quarter**

Consolidated net sales for the quarter declined year-over-year by 20.0 percent to EUR 704.5 million. Assuming constant exchange rates, consolidated net sales for the quarter would have declined by 6.6 percent.

Consolidated operating income for the quarter was EUR 111.4 million. Consequently, consolidated operating margin for the quarter was 15.8 percent.

Consolidated net income for the quarter was EUR 65.6 million. Consequently, consolidated net margin for the quarter was 9.3 percent.

Earnings per American Depositary Share (ADS) (one ADS represents one ordinary share) for the quarter were EUR 0.15. In U.S. Dollars, earnings per ADS (EPADS) for the quarter were US\$0.16.

### **Breakdown of Manufacturing/ Wholesale and Retail Results**

#### **Manufacturing/Wholesale Division**

The Group's manufacturing/wholesale sales for the first quarter declined year-over-year by 15.1 percent to EUR 275.7 million. Assuming constant exchange rates manufacturing/wholesale sales for the quarter would have declined by 7.5 percent.

Manufacturing/wholesale operating income for the quarter was EUR 64.4 million, reflecting an operating margin of 23.4 percent.

Leonardo Del Vecchio, Chairman of Luxottica Group, commented on the results of the manufacturing/wholesale division: "In January, we added two new designer brands to our portfolio, Versace and Versus, and in March we launched new Luxottica-designed and -made collections for both. We also concurrently introduced the first prescription eyewear collection for Ray-Ban, further leveraging what is

historically the world's leading sun brand by broadening the assortment of products offered under this name. Based on the more than positive feedback from opticians so far, I am fairly confident that over the coming months sales of the new lines should offset sales lost as a result of the non-renewal of the Armani licenses. At the same time, certain brands of our portfolio are gaining market share as the creative resources and manufacturing investments previously dedicated to the Armani brands were reallocated across our entire portfolio. This demonstrates our Group's ability to quickly and seamlessly adapt to changes in the market and competitive scenario."

### **Retail Division**

Retail sales declined year-over-year by 19.4 percent to EUR 469.2 million. Assuming constant exchange rates, retail sales for the quarter would have declined by 1.9 percent. Same store sales in U.S. Dollar for the quarter declined year-over-year by 3.0 percent.

Retail operating income for the first quarter was EUR 54.3 million, resulting in an operating margin of 11.6 percent.

Mr. Del Vecchio continued: "The results of our retail division for the quarter were affected by unusually bad weather in the U.S. in February, as well as overall uncertainty due to the war in Iraq. However, U.S. consumers' data since the beginning of the hostilities show that consumption levels did not decline further. In fact, this month we are already seeing signs of a reversal of the negative trend: retail sales are up by three percent, compared with a 1.9 percent decline for the first quarter. As a result, we are hopeful to see a recovery in coming quarters. At the same time, management continues to be focused on all aspects of the business, seeking to achieve improvements both in efficiency and profitability."

### **Statement from the Chairman**

Mr. Del Vecchio concluded: "The Group's consolidated results for the first quarter of this year mainly reflected the impact of three factors. Firstly, results were negatively affected by the 18 percent year-over-year devaluation of the U.S. Dollar against the Euro in the quarter. Additionally, in line with management's expectations, sales of Giorgio Armani and Emporio Armani eyewear nearly halved during the quarter. Finally, the continued weakness of the economy in the U.S., which as a market represents approximately 70 percent of the Group's consolidated sales, affected retail sales. We expect that the impact of these factors will progressively lessen during the course of the year. In particular, the loss of sales due to the non-renewal of the Armani licenses should be offset by sales from the new lines launched in March. Additionally, in light of the evolution of the Euro/U.S. Dollar exchange rate during 2002 (the average exchange rates for last year were: EUR 1.00 = US\$0.8766 for the first quarter, EUR 1.00 = US\$0.9198 for the second quarter, EUR 1.00 = US\$0.9838 for the third quarter and EUR 1.00 = US\$0.9982 for the fourth quarter) and assuming that Euro/U.S. Dollar exchange rate stabilizes at current levels, or EUR 1.00 = US\$1.10, for the balance of the year, the impact from the devaluation of the U.S. Dollar against the Euro should progressively decline to nine percent by the final quarter of this year, down from 18 percent for the quarter just ended."

"The results for the first quarter confirm that 2003 will be a year of transition for us, as well as for the global economy, and that we should expect to return to growth in sales and earnings only in 2004. We confirm our previously announced expectations of earnings per share (EPS) for fiscal year 2003 of Euro 0.69, or EPADS of US\$0.76, with an exchange rate of EUR 1.00 = US\$1.10."

**Non-GAAP Financial Measures**

Luxottica Group uses certain measures of financial performance that exclude the impact of fluctuations in currency exchange rates in the translation of operating results into Euro. The Company believes that these adjusted financial measures provide useful information to both management and investors by allowing a comparison of operating performance on a consistent basis. In addition, since the Luxottica Group has historically reported such adjusted financial measures to the investment community, the Company believes that their inclusion provides consistency in its financial reporting. Further, these adjusted financial measures are one of the primary indicators management uses for planning and forecasting in future periods. Operating measures that assume constant exchange rates between the first quarter of 2003 and the first quarter of 2002 are calculated using for each currency the average exchange rate for the three-month period ended March 31, 2002. Operating measures that exclude the impact of fluctuations in currency exchange rates are not measures of performance under accounting principles generally accepted in the United States (U.S. GAAP). These non-GAAP measures are not meant to be considered in isolation or as a substitute for results prepared in accordance with U.S. GAAP. In addition, Luxottica Group's method of calculating operating performance excluding the impact of changes in exchange rates may differ from methods used by other companies. See Table below for a reconciliation of the operating measures excluding the impact of fluctuations in currency exchange rates to their most directly comparable U.S. GAAP financial measures. The adjusted financial measures should be used as a supplement to U.S. GAAP results to assist the reader in better understanding the operational performance of the Company.
