**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

**1. Organization**

Alexander’s, Inc. (NYSE: ALX) is a real estate investment trust (“REIT”), incorporated in Delaware, engaged in leasing, managing, developing and redeveloping its properties. All references to “we,” “us,” “our,” “Company” and “Alexander’s” refer to Alexander’s, Inc. and its consolidated subsidiaries. We are managed by, and our properties are leased and developed by, Vornado Realty Trust (“Vornado”) (NYSE: VNO).

**2. Basis of Presentation**

The accompanying consolidated financial statements are unaudited and include the accounts of Alexander’s and its consolidated subsidiaries. All intercompany amounts have been eliminated. In our opinion, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and changes in cash flows have been made. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been condensed or omitted. These condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q of the Securities and Exchange Commission (the “SEC”) and should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

We have made estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. The results of operations for the three and nine months ended September 30, 2012 are not necessarily indicative of the operating results for the full year. Certain prior year balances have been reclassified in order to conform to current year presentation.

We currently operate in one business segment.

### 3. Recently Issued Accounting Literature

In May 2011, the Financial Accounting Standards Board (“FASB”) issued Update No. 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (“ASU No. 2011-04”). ASU No. 2011-04 provides a uniform framework for fair value measurements and related disclosures between GAAP and International Financial Reporting Standards (“IFRS”) and requires additional disclosures, including: (i) quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivity of the measurements to changes in the unobservable inputs, for Level 3 fair value measurements; (ii) fair value of financial instruments not measured at fair value but for which disclosure of fair value is required, based on their levels in the fair value hierarchy; and (iii) transfers between Level 1 and Level 2 of the fair value hierarchy. The adoption of this update on January 1, 2012, did not have a material impact on our consolidated financial statements, but resulted in additional fair value measurement disclosures (see Note 9 - *Fair Value Measurements*).

**4. Relationship with Vornado**

At September 30, 2012, Vornado owned 32.4% of our outstanding common stock. We are managed by, and our properties are leased and developed by, Vornado, pursuant to the agreements described below which expire in March of each year and are automatically renewable.

Management and Development Agreements

We pay Vornado an annual management fee equal to the sum of (i) \$3,000,000, (ii) 3% of gross revenue from the Kings Plaza Regional Shopping Center (see Note 5 - *Discontinued Operations*), (iii) 2% of gross revenue from the Rego Park II Shopping Center, (iv) \$0.50 per square foot of the tenant-occupied office and retail space at 731 Lexington Avenue and (v) \$264,000, escalating at 3% per annum, for managing the common area of 731 Lexington Avenue.

In addition, Vornado is entitled to a development fee of 6% of development costs, as defined.

Leasing Agreements

Vornado also provides us with leasing services for a fee of 3% of rent for the first ten years of a lease term, 2% of rent for the eleventh through the twentieth year of a lease term, and 1% of rent for the twenty-first through thirtieth year of a lease term, subject to the payment of rents by tenants. In the event third-party real estate brokers are used, the fees to Vornado increase by 1% and Vornado is responsible for the fees to the third-party real estate brokers. Vornado is also entitled to a commission upon the sale of any of our assets equal to 3% of gross proceeds, as defined, for asset sales less than \$50,000,000 and 1% of gross proceeds, as defined, for asset sales of \$50,000,000 or more. The total of these amounts is payable in annual installments in an amount not to exceed \$4,000,000, with interest on the unpaid balance at one-year LIBOR plus 1.0% (2.13% at September 30, 2012).

Other Agreements

We have also entered into agreements with Building Maintenance Services, a wholly owned subsidiary of Vornado, to (i) supervise cleaning, engineering and security services at our Lexington Avenue and Kings Plaza properties (see Note 5 – *Discontinued Operations*), and (ii) supervise security services at our Rego Park I and Rego Park II properties, for an annual fee of the cost for such services plus 6%.

**5. Discontinued Operations**

On October 21, 2012, we entered into an agreement to sell the Kings Plaza Regional Shopping Center located in Brooklyn, New York, to The Macerich Company (NYSE: MAC) ("MAC"), for \$751,000,000. We may elect to receive up to \$30,000,000 of the consideration in MAC common shares. Net proceeds from the sale will be approximately \$481,000,000, after repaying the existing loan and closing costs. The sale, which is subject to customary closing conditions, is expected to be completed in the fourth quarter. The financial statement gain will be approximately \$602,000,000. The tax gain will be approximately \$624,000,000, which is expected to be paid out to stockholders as a special long-term capital gain dividend.

We have reclassified the revenues and expenses of the Kings Plaza Regional Shopping Center to "income from discontinued operations" and the related assets and liabilities to "assets related to discontinued operations" and "liabilities related to discontinued operations" for all of the periods presented in the accompanying financial statements. The tables below set forth the assets and liabilities related to discontinued operations at September 30, 2012 and December 31, 2011 and their combined results of operations for the three and nine months ended September 30, 2012 and 2011.

No other tenant accounted for more than 10% of our consolidated revenues. If we were to lose Bloomberg as a tenant, or if Bloomberg were to fail or become unable to perform its obligations under its lease, it would adversely affect our results of operations and financial condition. We receive and evaluate certain confidential financial information and metrics from Bloomberg on a semi-annual basis. In addition, we access and evaluate financial information regarding Bloomberg from private sources, as well as publicly available data.

Our Omnibus Stock Plan (the “Plan”) provides for grants of incentive and non-qualified stock options, restricted stock, stock appreciation rights, deferred stock units (“DSUs”) and performance shares, as defined, to the directors, officers and employees of the Company and Vornado.

In May 2012, the Company granted each of the members of its Board of Directors 129 DSUs with a grant date fair value of \$37,500 per grant, or \$300,000 in the aggregate. The DSUs entitle the holder to receive shares of the Company’s common stock without the payment of any consideration. The DSUs vested immediately and accordingly were expensed on the date of grant, but the shares of common stock underlying the units are not deliverable to the grantee until the grantee is no longer serving on the Company’s Board of Directors.

**9. Fair Value Measurements**

Accounting Standards Codification Topic 820, *Fair Value Measurement and Disclosures* (“ASC 820”) defines fair value and establishes a framework for measuring fair value. The objective of fair value is to determine the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). ASC 820 establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three levels: Level 1 – quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities; Level 2 – observable prices that are based on inputs not quoted in active markets, but corroborated by market data; and Level 3 – unobservable inputs that are used when little or no market data is available. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In determining fair value, we utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as consider counterparty credit risk in our assessment of fair value.

*Financial Assets and Liabilities Measured at Fair Value*

Financial assets measured at fair value in our consolidated financial statements at December 31, 2011 consist of short-term investments (investments in Certificate of Deposit Account Registry Services “CDARS”) classified as available-for-sale and are presented in the table below based on their level in the fair value hierarchy. There were no financial assets measured at fair value at September 30, 2012 and there were no financial liabilities measured at fair value at September 30, 2012 and December 31, 2011.

(Amounts in thousands)	<b>Total</b>	<b>As of December 31, 2011</b>		
		<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>
Short-term investments	\$ 5,000	\$ 5,000	\$ -	\$ -

*Financial Assets and Liabilities not Measured at Fair Value*

Financial liabilities that are not measured at fair value in our consolidated financial statements consist of our mortgages payable. The fair value of our mortgages payable is calculated by discounting the future contractual cash flows of these instruments using current risk-adjusted rates available to borrowers with similar credit ratings, which are provided by a third-party specialist. The fair value of our mortgages payable is classified as Level 2. As of September 30, 2012 and December 31, 2011, the estimated fair value of our mortgages payable was \$1,136,000,000. Our fair value estimates, which are made at the end of the reporting period, may be different from the amounts that may ultimately be realized upon the disposition of our financial instruments. All financial assets, if any, were measured at fair value at September 30, 2012 and December 31, 2011.

Insurance

We maintain general liability insurance with limits of \$300,000,000 per occurrence and all-risk property and rental value insurance coverage with limits of \$1.7 billion per occurrence, including coverage for terrorist acts, with sub-limits for certain perils such as floods and earthquakes on each of our properties.

Fifty-Ninth Street Insurance Company, LLC (“FNSIC”), our wholly owned consolidated subsidiary, acts as a direct insurer for coverage for acts of terrorism, including nuclear, biological, chemical and radiological (“NBCR”) acts, as defined by the Terrorism Risk Insurance Program Reauthorization Act of 2007. Coverage for acts of terrorism (including NBCR acts) is up to \$1.7 billion per occurrence. Coverage for acts of terrorism (excluding NBCR acts) is fully reinsured by third party insurance companies with no exposure to FNSIC. For NBCR acts, FNSIC is responsible for a \$275,000 deductible and 15% of the balance of a covered loss and the Federal government is responsible for the remaining 85% of a covered loss. We are ultimately responsible for any loss borne by FNSIC.

There can be no assurance that we will be able to maintain similar levels of insurance coverage in the future in amounts and on terms that are commercially reasonable. We are responsible for deductibles and losses in excess of our insurance coverage, which could be material.

Our mortgage loans are non-recourse to us, except for \$75,000,000 of the \$320,000,000 mortgage on our 731 Lexington Avenue property, in the event of a substantial casualty, as defined. Our mortgage loans contain customary covenants requiring us to maintain insurance. If lenders insist on greater coverage than we are able to obtain, it could adversely affect our ability to finance our properties.

Flushing Property

In 2002 Flushing Expo, Inc. (“Expo”) agreed to purchase the stock of the entity which owns the Flushing property from us (“Purchase of the Property”) and gave us a non-refundable deposit of \$1,875,000. Pursuant to a stipulation of settlement, we settled the action Expo brought against us regarding the Purchase of the Property and in June 2011, deposited the settlement amount with the Court, in exchange for which we received a stipulation of discontinuance, with prejudice, as well as general releases. In November 2011, Expo filed another action, this time against our tenant at the Flushing property asserting, among other things, that such tenant interfered with Expo’s Purchase of the Property from us and sought \$50,000,000 in damages from our tenant, who sought indemnification from us for such amount. In August 2012, the Court entered judgment denying Expo’s claim for damages. Expo has appealed the Court’s decision and filed a motion to re-argue the decision. We believe, after consultation with counsel, that the amount or range of reasonably possible losses, if any, cannot be estimated.

Environmental Remediation

In July 2006, we discovered an oil spill at our Kings Plaza Regional Shopping Center. We have notified the New York State Department of Environmental Conservation (“NYSDEC”) about the spill and have developed a remediation plan. The NYSDEC has approved a portion of the remediation plan and clean up is ongoing. The estimated costs

associated with the clean up will aggregate approximately \$3,000,000. We have paid \$500,000 of such amount and the remainder is covered under our insurance policy.

Paramus

In 2001, we leased 30.3 acres of land located in Paramus, New Jersey to IKEA Property, Inc. The lease has a 40-year term with a purchase option in 2021 for \$75,000,000. The property is encumbered by a \$68,000,000 interest-only mortgage loan with a fixed rate of 2.90%, which matures in October 2018. The annual triple-net rent is the sum of \$700,000 plus the amount of debt service on the mortgage loan. If the purchase option is exercised, we will receive net cash proceeds of approximately \$7,000,000 and recognize a gain on sale of land of approximately \$62,000,000. If the purchase option is not exercised, the triple-net rent for the last 20 years would include debt service sufficient to fully amortize \$68,000,000 over the remaining 20-year lease term.

Letters of Credit

Approximately \$3,998,000 of standby letters of credit were outstanding as of September 30, 2012.

Other

There are various other legal actions against us in the ordinary course of business. In our opinion, the outcome of such matters in the aggregate will not have a material effect on our financial condition, results of operations or cash flows.

**11. Earnings Per Share**

The following table sets forth the computation of basic and diluted income per share, including a reconciliation of net income and the number of shares used in computing basic and diluted earnings per share. Basic income per share is determined using the weighted average shares of common stock outstanding during the period, including deferred stock units. Diluted income per share is determined using the weighted average shares of common stock outstanding during the period, including deferred stock units, and assumes all potentially dilutive securities were converted into common shares at the earliest date possible. There were no potentially dilutive securities outstanding during the three and nine months ended September 30, 2012 and 2011.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Alexander's, Inc. and subsidiaries as of December 31, 2011, and the related consolidated statements of income, changes in equity and cash flows for the year then ended (not presented herein); and in our report dated February 27, 2012, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2011 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

We are managed by, and our properties are leased and developed by, Vornado Realty Trust ("Vornado") (NYSE: VNO). We have six properties in the greater New York City metropolitan area.

We compete with a large number of property owners and developers. Our success depends upon, among other factors, trends of national and local economies, the financial condition and operating results of current and prospective tenants, the availability and cost of capital, interest rates, construction and renovation costs, taxes, governmental regulations and legislation, population trends, zoning laws, and our ability to lease, sublease or sell our properties, at profitable levels. Our success is also subject to our ability to refinance existing debt on acceptable terms as it comes due.

On October 21, 2012, we entered into an agreement to sell the Kings Plaza Regional Shopping Center located in Brooklyn, New York, to The Macerich Company (NYSE: MAC) ("MAC"), for \$751,000,000. We may elect to receive up to \$30,000,000 of the consideration in MAC common shares. Net proceeds from the sale will be approximately \$481,000,000, after repaying the existing loan and closing costs. The sale, which is subject to customary closing conditions, is expected to be completed in the fourth quarter. The financial statement gain will be approximately \$602,000,000. The tax gain will be approximately \$624,000,000, which is expected to be paid out to stockholders as a special long-term capital gain dividend.

**Significant Tenants**

Bloomberg L.P. (“Bloomberg”) accounted for \$64,651,000 and \$63,289,000, or 45% and 46% of our Total Revenues in the nine-month periods ended September 30, 2012 and 2011, respectively. No other tenant accounted for more than 10% of our consolidated revenues. If we were to lose Bloomberg as a tenant, or if Bloomberg were to fail or become unable to perform its obligations under its lease, it would adversely affect our results of operations and financial condition. We receive and evaluate certain confidential financial information and metrics from Bloomberg on a semi-annual basis. In addition, we access and evaluate financial information regarding Bloomberg from private sources, as well as publicly available data.

**Recently Issued Accounting Literature**

In May 2011, the Financial Accounting Standards Board (“FASB”) issued Update No. 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (“ASU No. 2011-04”). ASU No. 2011-04 provides a uniform framework for fair value measurements and related disclosures between accounting principles generally accepted in the United States of America (“GAAP”) and International Financial Reporting Standards (“IFRS”) and requires additional disclosures, including: (i) quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivity of the measurements to changes in the unobservable inputs, for Level 3 fair value measurements; (ii) fair value of financial instruments not measured at fair value but for which disclosure of fair value is required, based on their levels in the fair value hierarchy; and (iii) transfers between Level 1 and Level 2 of the fair value hierarchy. The adoption of this update on January 1, 2012, did not have a material impact on our consolidated financial statements, but resulted in additional fair value measurement disclosures.

## Liquidity and Capital Resources

### *Cash Flows*

Property rental income is our primary source of cash flow and is dependent on a number of factors including the occupancy level and rental rates of our properties, as well as our tenants' ability to pay their rents. Our properties provide us with a relatively consistent stream of cash flow that enables us to pay our operating expenses, interest expense, recurring capital expenditures and cash dividends to stockholders. Other sources of liquidity to fund cash requirements include our existing cash, proceeds from financings secured by our properties, and proceeds from asset sales. We anticipate that cash from operations over the next twelve months, together with existing cash balances, will be adequate to fund our business operations, regular cash dividends to stockholders, debt amortization and maturities, and recurring capital expenditures.

On October 21, 2012, we entered into an agreement to sell the Kings Plaza Regional Shopping Center located in Brooklyn, New York for \$751,000,000. We may elect to receive up to \$30,000,000 of the consideration in MAC common shares. Net proceeds from the sale of the property will be approximately \$481,000,000 after repaying the existing loan and closing costs. The tax gain will be approximately \$624,000,000, which is expected to be paid out to stockholders as a special long-term capital gain dividend.

### *Nine Months Ended September 30, 2012*

Cash and cash equivalents were \$508,363,000 at September 30, 2012, compared to \$506,619,000 at December 31, 2011, an increase of \$1,744,000. This increase resulted from \$72,676,000 of net cash provided by operating activities, partially offset by \$69,014,000 of net cash used in financing activities and \$1,918,000 of net cash used in investing activities.

Net cash provided by operating activities was \$72,676,000, of which \$21,397,000 was related to discontinued operations. Net cash provided by operating activities was comprised of net income of \$58,010,000 and adjustments for non-cash items of \$24,964,000, partially offset by the net change in operating assets and liabilities of \$10,298,000. The adjustments for non-cash items were comprised of (i) depreciation and amortization of \$28,488,000 and (ii) stock-based compensation expense of \$300,000, partially offset by (iii) straight-lining of rental income of \$3,824,000.

Net cash used in investing activities of \$1,918,000 was comprised of (i) capital expenditures of \$6,502,000 (primarily Rego Park II) and (ii) an increase in restricted cash of \$416,000, partially offset by (iii) proceeds from maturing short-term investments of \$5,000,000.

Net cash used in financing activities of \$69,014,000 was primarily comprised of dividends paid on common stock of \$57,458,000 and debt amortization of \$11,156,000.

Nine Months Ended September 30, 2011

Cash and cash equivalents were \$509,590,000 at September 30, 2011, compared to \$397,220,000 at December 31, 2010, an increase of \$112,370,000. This increase resulted from \$67,923,000 of net cash provided by operating activities, \$5,309,000 of net cash provided by investing activities and \$39,138,000 of net cash provided by financing activities.

Net cash provided by operating activities was \$67,923,000, of which \$19,824,000 was related to discontinued operations. Net cash provided by operating activities was comprised of net income of \$60,275,000 and adjustments for non-cash items of \$15,392,000, partially offset by the net change in operating assets and liabilities of \$7,744,000. The adjustments for non-cash items were comprised of (i) depreciation and amortization of \$27,614,000, (ii) stock-based compensation expense of \$300,000, partially offset by (iii) straight-lining of rental income of \$9,961,000 and (iv) a \$2,561,000 reversal of a portion of the liability for income taxes as a result of the expiration of the applicable statute of limitations.

Net cash provided by investing activities of \$5,309,000 was comprised of (i) proceeds from maturing short-term investments of \$23,000,000, partially offset by (ii) capital expenditures of \$10,226,000 (primarily Rego Park II), (iii) purchases of short-term investments of \$5,000,000, and (iv) an increase in restricted cash of \$2,465,000.

#### Insurance

We maintain general liability insurance with limits of \$300,000,000 per occurrence and all-risk property and rental value insurance coverage with limits of \$1.7 billion per occurrence, including coverage for terrorist acts, with sub-limits for certain perils such as floods and earthquakes on each of our properties.

Fifty-Ninth Street Insurance Company, LLC (“FNSIC”), our wholly owned consolidated subsidiary, acts as a direct insurer for coverage for acts of terrorism, including nuclear, biological, chemical and radiological (“NBCR”) acts, as defined by the Terrorism Risk Insurance Program Reauthorization Act of 2007. Coverage for acts of terrorism (including NBCR acts) is up to \$1.7 billion per occurrence. Coverage for acts of terrorism (excluding NBCR acts) is fully reinsured by third party insurance companies with no exposure to FNSIC. For NBCR acts, FNSIC is responsible for a \$275,000 deductible and 15% of the balance of a covered loss and the Federal government is responsible for the remaining 85% of a covered loss. We are ultimately responsible for any loss borne by FNSIC.

There can be no assurance that we will be able to maintain similar levels of insurance coverage in the future in amounts and on terms that are commercially reasonable. We are responsible for deductibles and losses in excess of our insurance coverage, which could be material.

Our mortgage loans are non-recourse to us, except for \$75,000,000 of the \$320,000,000 mortgage on our 731 Lexington Avenue property, in the event of a substantial casualty, as defined. Our mortgage loans contain customary covenants requiring us to maintain insurance. If lenders insist on greater coverage than we are able to obtain, it could adversely affect our ability to finance our properties.

#### Flushing Property

In 2002 Flushing Expo, Inc. (“Expo”) agreed to purchase the stock of the entity which owns the Flushing property from us (“Purchase of the Property”) and gave us a non-refundable deposit of \$1,875,000. Pursuant to a stipulation of settlement, we settled the action Expo brought against us regarding the Purchase of the Property and in June 2011, deposited the settlement amount with the Court, in exchange for which we received a stipulation of discontinuance, with prejudice, as well as general releases. In November 2011, Expo filed another action, this time against our tenant at the Flushing property asserting, among other things, that such tenant interfered with Expo’s Purchase of the Property from us and sought \$50,000,000 in damages from our tenant, who sought indemnification from us for such amount.

In August 2012, the Court entered judgment denying Expo's claim for damages. Expo has appealed the Court's decision and filed a motion to re-argue the decision. We believe, after consultation with counsel, that the amount or range of reasonably possible losses, if any, cannot be estimated.

Environmental Remediation

In July 2006, we discovered an oil spill at our Kings Plaza Regional Shopping Center. We have notified the New York State Department of Environmental Conservation ("NYSDEC") about the spill and have developed a remediation plan. The NYSDEC has approved a portion of the remediation plan and clean up is ongoing. The estimated costs associated with the clean up will aggregate approximately \$3,000,000. We have paid \$500,000 of such amount and the remainder is covered under our insurance policy.

Paramus

In 2001, we leased 30.3 acres of land located in Paramus, New Jersey to IKEA Property, Inc. The lease has a 40-year term with a purchase option in 2021 for \$75,000,000. The property is encumbered by a \$68,000,000 interest-only mortgage loan with a fixed rate of 2.90%, which matures in October 2018. The annual triple-net rent is the sum of \$700,000 plus the amount of debt service on the mortgage loan. If the purchase option is exercised, we will receive net cash proceeds of approximately \$7,000,000 and recognize a gain on sale of land of approximately \$62,000,000. If the purchase option is not exercised, the triple-net rent for the last 20 years would include debt service sufficient to fully amortize \$68,000,000 over the remaining 20-year lease term.

Letters of Credit

Approximately \$3,998,000 of standby letters of credit were outstanding as of September 30, 2012.

Other

There are various other legal actions against us in the ordinary course of business. In our opinion, the outcome of such matters in the aggregate will not have a material effect on our financial condition, results of operations or cash flows.

**Funds from Operations (“FFO”)**

FFO is computed in accordance with the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts (“NAREIT”). NAREIT defines FFO as GAAP net income or loss adjusted to exclude net gains from sales of depreciated real estate assets, real estate impairment losses, depreciation and amortization expense from real estate assets, extraordinary items and other specified non-cash items, including the pro rata share of such adjustments of unconsolidated subsidiaries. FFO and FFO per diluted share are used by management, investors and analysts to facilitate meaningful comparisons of operating performance between periods and among our peers because it excludes the effect of real estate depreciation and amortization and net gains on sales, which are based on historical costs and implicitly assume that the value of real estate diminishes predictably over time, rather than fluctuating based on existing market conditions. FFO does not represent cash generated from operating activities and is not necessarily indicative of cash available to fund cash requirements and should not be considered as an alternative to net income as a performance measure or cash flow as a liquidity measure. FFO may not be comparable to similarly titled measures employed by other companies. A reconciliation of our net income to FFO is provided below.

*FFO Attributable to Common Stockholders for the Three and Nine Months Ended September 30, 2012 and 2011*

FFO attributable to common stockholders for the quarter ended September 30, 2012 was \$27,461,000, or \$5.38 per diluted share, compared to \$28,849,000, or \$5.65 per diluted share for the prior year’s quarter. The quarter ended September 30, 2012 includes FFO from continuing operations of \$19,615,000, or \$3.84 per diluted share, compared to \$21,982,000, or \$4.30 per diluted share for the prior year’s quarter.

FFO attributable to common stockholders for the nine months ended September 30, 2012 was \$82,893,000, or \$16.23 per diluted share, compared to \$83,749,000, or \$16.40 per diluted share for the prior year’s nine months. The nine months ended September 30, 2012 includes FFO from continuing operations of \$59,453,000, or \$11.64 per diluted share, compared to \$62,318,000, or \$12.20 per diluted share for the prior year’s nine months.

The following table reconciles our net income to FFO:

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We have exposure to fluctuations in interest rates, which are sensitive to many factors that are beyond our control. Our exposure to a change in interest rates is summarized in the table below.

	September 30,	2012 Weighted Average Interest Rate	Effect of 1% Change in Base Rates	December 31,	2011 Weighted Average Interest Rate
(Amounts in thousands, except per share amounts)	Balance			Balance	
Variable Rate (including \$39,059 and \$40,728 due to Vornado, respectively)	\$ 311,960	2.07%	\$ 3,120	\$ 315,524	2.10%
Fixed Rate	796,875	4.49%	-	806,136	4.52%

Total effect on diluted earnings per share			\$ 0.61		

The fair value of our mortgages payable is calculated by discounting the future contractual cash flows of these instruments using current risk adjusted rates available to borrowers with similar credit ratings, which are provided by a third-party specialist. As of September 30, 2012 and December 31, 2011, the estimated fair value of our mortgages payable was \$1,136,000,000. Our fair value estimates, which are made at the end of the reporting period, may be different from the amounts that may ultimately be realized upon the disposition of our financial instruments.

**Item 4. Controls and Procedures**

(a) Disclosure Controls and Procedures: Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures are effective.

(b) Internal Control Over Financial Reporting: There have not been any changes in our internal control over financial reporting during the fiscal quarter to which this Quarterly Report on Form 10-Q relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
