THE SHERWIN-WILLIAMS COMPANY

(Exact name of registrant as specified in its charter)

OHIO

34-0526850

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

101 West Prospect Avenue, Cleveland, Ohio

44115-1075

(Address of principal executive offices)

(Zip Code)

(216) 566-2000

(Registrant's telephone number including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Edgar Filing: SHERWIN WILLIAMS CO - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practical date.

Common Stock, \$1.00 Par Value 116,286,155 shares as of June 30, 2009.

Table of Contents

**THE SHERWIN-WILLIAMS COMPANY AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

Periods ended June 30, 2009 and 2008

Note A BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

There have been no significant changes in critical accounting policies since December 31, 2008. Accounting estimates were revised as necessary during the first six months of 2009 based on new information and changes in facts and circumstances.

The Company uses the last-in, first-out (LIFO) method of valuing inventory. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs are subject to the final year-end LIFO inventory valuation. In addition, interim inventory levels include management's estimates of annual inventory losses due to shrinkage and other factors. The final year-end valuation of inventory is based on an annual physical inventory count performed during the fourth quarter. For further information on inventory valuations and other matters, refer to the consolidated financial statements and footnotes thereto included in the Company's Form 10-K for the year ended December 31, 2008.

The consolidated results for the three and six months ended June 30, 2009 are not necessarily indicative of the results to be expected for the year ending December 31, 2009.

The Company has evaluated events and transactions occurring subsequent to June 30, 2009 through July 31, 2009, the date of the issuance of the financial statements, in accordance with Financial Accounting Standards (FAS) No. 165,

Subsequent Events. During this period, there were no recognized subsequent events requiring recognition in the financial statements, and no non-recognized subsequent events requiring disclosure.

Note B IMPACT OF RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In June 2009, the Financial Accounting Standards Board (FASB) issued FAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles. The statement makes the FASB Accounting Standards Codification (the Codification) the single source of authoritative US accounting and reporting standards, but it does not change U.S. GAAP. The statement is effective for interim and annual periods ending

Table of Contents

after September 15, 2009. The Company will adopt the statement as required, and the financial statements for the interim period ending September 30, 2009 will reflect the Codification references. The statement will have no impact on the Company's results of operations, financial condition or liquidity.

In June 2009, the FASB issued FAS No. 166, *Accounting for Transfers of Financial Assets* and FAS No. 167, *Amendments to FASB Interpretation (FIN) No. 46(R)*. FAS No. 166 removes the concept of a qualifying special-purpose entity (SPE) from FAS No. 140 and eliminates the exception for qualifying SPEs from the consolidation guidance of FIN No. 46(R). FAS No. 167 changes the analysis that must be performed to determine the primary beneficiary of a variable interest entity (VIE), amends certain guidance in FIN No. 46(R) for determining whether an entity is a VIE and requires enhanced disclosures about involvement with VIEs. Both statements are effective for periods beginning on or after January 1, 2010. The Company is currently evaluating the impact the statements will have on its results of operations, financial condition, liquidity, or disclosures. The impact or additional disclosure is not expected to be significant.

In May 2009, the FASB issued FAS No. 165, *Subsequent Events*. FAS No. 165 defines subsequent events as events or transactions that occur after the balance sheet date, but before the financial statements are issued. It defines two types of subsequent events: recognized subsequent events, which provide additional evidence about conditions that existed at the balance sheet date, and non-recognized subsequent events, which provide evidence about conditions that did not exist at the balance sheet date, but arose before the financial statements were issued. Recognized subsequent events are required to be recognized in the financial statements, and non-recognized subsequent events are required to be disclosed. The statement requires entities to disclose the date through which subsequent events have been evaluated, and the basis for that date. FAS No. 165 is consistent with current practice and does not have any impact on the Company's results of operations, financial condition or liquidity. See Note A for the required disclosure.

In April 2009, the FASB issued three fair value-related FASB Staff Positions (FSP): (i) FSP FAS No. 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments* (FSP FAS No. 115-2), (ii) FSP FAS No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset and Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP FAS No. 157-4) and (iii) FSP FAS No. 107-1 and Accounting Principles Board Opinion (APB) No. 28-1, *Interim Disclosures about Fair Value of Financial Instruments* (FSP FAS No. 107-1), which are effective for interim and annual reporting periods ending after June 15, 2009. FSP FAS No. 115-2 amends the existing accounting requirements for other-than-temporary impairment for debt securities by modifying the requirement for recognizing other-than-temporary impairments, changing the terminology used to assess the probability of cash flows and requiring additional disclosures. FSP FAS No. 157-4 amends FAS No. 157, *Fair Value Measurements* to provide additional guidance on estimating fair value when the volume and level of transaction activity for an asset or liability have significantly decreased in relation to normal activity for the asset or liability. FSP FAS No. 107-1 extends the disclosure requirements of FAS No. 107, *Disclosures About Fair Value of Financial Instruments* to interim financial statements. The Company adopted the FSPs as of June 30, 2009. They do not have a significant impact on the Company's results of operations, financial condition or liquidity.

Table of Contents

In December 2008, the FASB issued FSP FAS No. 132(R)-1, *Employers' Disclosures about Postretirement Benefit Plan Assets*. This FSP amends FAS No. 132, *Employers' Disclosures about Pensions and Other Postretirement Benefits*, to provide guidance on disclosures about plan assets of defined benefit pension and other postretirement benefit plans. The FSP requires disclosures about how investment allocation decisions are made, the major categories of plan assets, the inputs and valuation techniques used to measure the fair value of plan assets, the effect of fair value measurements using significant unobservable inputs and significant concentrations of risk within plan assets. The FSP is effective for fiscal years ending after December 31, 2009, and the provisions are not required for earlier periods presented for comparative purposes. The FSP will not have any impact on the Company's results of operations, financial condition or liquidity.

In June 2008, the FASB issued FSP Emerging Issues Task Force (EITF) No. 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*, which clarifies EITF No. 03-6, *Participating Securities and the Two-Class Method Under FAS No. 128*. Under the FSP, unvested share-based payment awards that contain rights to receive non-forfeitable dividends (whether paid or unpaid) are considered participating securities, and the two-class method of computing earnings per share is required for all periods presented. The Company adopted EITF No. 03-6-1 as of January 1, 2009, however, because the use of the two-class method does not have a significant impact on the basic and diluted earnings per share calculations for the three and six months ended June 30, 2009, the treasury stock method continues to be disclosed. See Note L. Effective January 1, 2009, the Company adopted FSP FAS No. 142-3, which amends the factors that must be considered in developing renewal or extension assumptions used to determine the useful life over which to amortize the cost of a recognized intangible asset under FAS No. 142, *Goodwill and Other Intangible Assets*. The FSP requires an entity to consider its own assumptions about renewal or extension of the term of the arrangement, consistent with its expected use of the asset, and is an attempt to improve consistency between the useful life of a recognized intangible asset under FAS No. 142 and the period of expected cash flows used to measure the fair value of the asset under FAS No. 141, *Business Combinations*. The FSP does not have a significant impact on the Company's results of operations, financial condition or liquidity.

Effective January 1, 2009, the Company adopted FAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*, an amendment of FASB Statement No. 133 *Accounting for Derivative Instruments and Hedging Activities*. FAS No. 161 requires entities to provide greater transparency about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under FAS No. 133, and how derivative instruments and related hedged items affect an entity's financial position, results of operations, and cash flows. The statement does not have an impact on the Company's results of operations, financial condition or liquidity. Effective January 1, 2009, the Company adopted FAS No. 141(R), *Applying the Acquisition Method*. FAS No. 141(R) provides guidance for the recognition of the fair values of the assets

Table of Contents

acquired upon initially obtaining control, including the elimination of the step acquisition model. The standard does not have a significant impact on the Company's results of operations, financial condition or liquidity. Effective January 1, 2009, the Company adopted FAS No. 160, Accounting for Noncontrolling Interests. FAS No. 160 clarifies the classification of noncontrolling interests in consolidated statements of financial position and the accounting for and reporting of transactions between the reporting entity and holders of such noncontrolling interests. Under the standard, noncontrolling interests are considered equity and should be reported as an element of consolidated equity, and net income will encompass the total income of all consolidated subsidiaries and there will be separate disclosure on the face of the income statement of the attribution of that income between the controlling and noncontrolling interests. FAS No. 160 does not have a significant impact on the Company's results of operations, financial condition or liquidity.

In September 2006, the FASB issued FAS No. 157, Fair Value Measurements. FAS No. 157 provides guidance for using fair value to measure assets and liabilities and only applies when other standards require or permit the fair value measurement of assets and liabilities. It does not expand the use of fair value measurements. In accordance with FSP FAS No. 157-2, Effective Date of FASB Statement No. 157, the Company adopted FAS No. 157 for its financial assets and liabilities as of January 1, 2008, and for its non-financial assets and liabilities as of January 1, 2009. FAS No. 157 does not have a significant impact on the Company's results of operations, financial condition or liquidity. See Note O.

Note C DIVIDENDS

Dividends paid on common stock during each of the first two quarters of 2009 and 2008 were \$.355 per common share and \$.35 per common share, respectively.

Table of Contents**Note D COMPREHENSIVE INCOME**

Comprehensive income is summarized as follows:

(Thousands of dollars)	Three months ended June		Six months ended June	
	2009	2008	2009	2008
Net income	\$ 158,023	\$ 171,683	\$ 195,302	\$ 249,629
Foreign currency translation adjustments	42,205	8,059	33,324	15,664
Amortization of net prior service costs and net actuarial losses, net of taxes ⁽¹⁾	4,676	461	9,315	2,035
Adjustments of marketable equity securities and derivative instruments used in cash flow hedges, net of taxes ⁽²⁾	(132)	(1,972)	(87)	(1,973)
Comprehensive income	\$ 204,772	\$ 178,231	\$ 237,854	\$ 265,355

(1) The tax effect of amortization of net prior service costs and net actuarial losses was \$(2,900) and \$(5,790) for the three and six months ended June 30, 2009 and \$(288) and \$(1,271) for the three and six months ended June 30, 2008.

(2) The tax effect of adjustments of marketable equity securities and derivative instruments used in cash flow hedges was \$69 and \$34 for the three and six months ended June 30, 2009

and \$769 and
\$770 for the
three and six
months ended
June 30, 2008.

Note E PRODUCT WARRANTIES

Changes in the Company's accrual for product warranty claims during the first six months of 2009 and 2008, including customer satisfaction settlements, were as follows:

(Thousands of dollars)	2009	2008
Balance at January 1	\$ 18,029	\$ 19,596
Charges to expense	9,191	13,033
Settlements	(10,829)	(15,032)
Balance at June 30	\$ 16,391	\$ 17,597

For further details on the Company's accrual for product warranty claims, see Note 1 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

Note F EXIT OR DISPOSAL ACTIVITIES

Liabilities associated with exit or disposal activities are recognized as incurred in accordance with FAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. Qualified

Table of Contents

exit costs primarily include post-closure rent expenses, incremental post-closure costs and costs of employee terminations. Adjustments may be made to liabilities accrued for qualified exit costs if information becomes available upon which more accurate amounts can be reasonably estimated. Concurrently, property, plant and equipment is tested for impairment in accordance with FAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, and, if impairment exists, the carrying value of the related assets is reduced to estimated fair value. Additional impairment may be recorded for subsequent revisions in estimated fair value.

In the first six months of 2009, 24 stores in the Paint Stores Group, 3 manufacturing facilities in the Consumer Group, and 1 manufacturing facility and 13 branches in the Global Finishes Group were closed due to lower demand or redundancy. Provisions of \$5.2 million for qualified exit costs resulting from the closure of these facilities were recorded in Cost of goods sold and Selling, general and administrative expenses in the first six months. Provisions of \$1 million, \$2.5 million and \$1.7 million were charged to the Paint Stores Group, Consumer Group and Global Finishes Group, respectively. In addition, there were adjustments to prior provisions related to manufacturing facilities, distribution facilities, stores and branches closed in 2008. Adjustments to prior provisions of \$4.5 million were recorded in Cost of goods sold, Selling, general and administrative expense or Other general expense-net in the first six months of 2009. Adjustments of \$3.4 million, \$0.9 million and \$0.2 million were charged to the Paint Stores Group, Consumer Group and Global Finishes Group, respectively.

During 2008, four manufacturing and three distribution facilities, five administrative offices and 92 stores and branches were closed. The closure and disposal of two manufacturing facilities and two administrative offices in the Paint Stores Group were planned at the time of acquisition. The total qualified exit costs for the acquired facilities, included as part of the purchase price allocations in accordance with FAS No. 141, were \$1.7 million. One additional manufacturing and two distribution facilities and 79 stores in the Paint Stores Group, one manufacturing and one distribution facility in the Consumer Group, and three administrative offices and 14 branches in the Global Finishes Group were closed due to excess capacity or redundancy. Provisions of \$7.1 million for qualified exit costs resulting from the closure of these facilities were recorded in Cost of goods sold or Selling, general and administrative expenses in 2008. Of the total provisions, \$5.5 million was charged to the Paint Stores Group, \$0.9 million was charged to the Consumer Group and \$0.7 million was charged to the Global Finishes Group.

Table of Contents

The following table summarizes the activity and remaining liabilities associated with qualified exit costs at June 30, 2009 and for the six-month period then ended:

(Thousands of dollars)

Exit Plan	Balance at December 31, 2008	Provisions in Cost of goods sold or SG&A	Actual expenditures charged to accrual	Adjustments to prior provisions in Other general expense - net	Balance at June 30, 2009
Paint Stores Group stores shutdown in 2009:					
Other qualified exit costs		\$ 1,021	\$ (325)		\$ 696
Consumer Group manufacturing facilities shutdown in 2009:					
Severance and related costs		2,139	(30)		2,109
Other qualified exit costs		402			402
Global Finishes Group manufacturing facility and branches shutdown in 2009:					
Severance and related costs		203	(28)		175
Other qualified exit costs		1,450	(263)		1,187
Paint Stores Group manufacturing and distribution facilities, administrative offices and stores shutdown in 2008:					
Severance and related costs	\$ 324		(29)		295
Other qualified exit costs	4,450		(1,025)	\$ 3,374	6,799
Consumer Group manufacturing and distribution facilities shutdown in 2008:					
Severance and related costs	449	950	(635)	(187)	577
Other qualified exit costs	150	143	(309)		(16)
Global Finishes Group administrative offices and branches shutdown in 2008:					
Severance and related costs	397		(397)		0
Other qualified exit costs	240	156	(207)	17	206
Paint Stores Group manufacturing facility shutdown					

in 2007:

Severance and related costs	33	(9)	24
Other qualified exit costs	1,859	(283)	1,576

**Consumer Group
manufacturing facility shutdown
in 2007:**

Other qualified exit costs	2,036	(17)	2,019
-----------------------------------	--------------	-------------	--------------

Other qualified exit costs for facilities shutdown prior to 2003	11,686	(484)	11,202
---	---------------	--------------	---------------

Totals	\$ 21,624	\$ 6,464	\$ (4,041)	\$ 3,204	\$ 27,251
---------------	------------------	-----------------	-------------------	-----------------	------------------

For further details on the Company's exit or disposal activities, see Note 5 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

Table of Contents**Note G HEALTH CARE, PENSION AND OTHER BENEFITS**

Shown below are the components of the Company's net periodic benefit cost (credit) for domestic defined benefit pension plans, foreign defined benefit pension plans and postretirement benefits other than pensions:

(Thousands of dollars)	Domestic Defined		Foreign Defined		Postretirement	
	Benefit Pension Plans		Benefit Pension		Benefits	
	2009	2008	2009	2008	Other than Pensions	2008
	2009	2008	2009	2008	2009	2008
Three months ended

For further details on the Company's health care, pension and other benefits, see Note 6 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

NOTE H OTHER LONG-TERM LIABILITIES

The Company initially provides for estimated costs of environmental-related activities relating to its past operations and third-party sites for which commitments or clean-up plans have been developed and when such costs can be reasonably estimated based on industry standards and professional judgment. These estimated costs are determined based on currently available facts regarding each site. If the best estimate of costs can only be identified as a range and no specific amount within that range can be determined more likely than any other amount within the range, the minimum of the range is provided. At June 30, 2009, the unaccrued maximum of the estimated range of possible outcomes is \$112.7 million higher than the minimum.

Table of Contents

The Company continuously assesses its potential liability for investigation and remediation-related activities and adjusts its environmental-related accruals as information becomes available upon which more accurate costs can be reasonably estimated and as additional accounting guidelines are issued. Actual costs incurred may vary from these estimates due to the inherent uncertainties involved including, among others, the number and financial condition of parties involved with respect to any given site, the volumetric contribution which may be attributed to the Company relative to that attributed to other parties, the nature and magnitude of the wastes involved, the various technologies that can be used for remediation and the determination of acceptable remediation with respect to a particular site. Included in Other long-term liabilities at June 30, 2009 and 2008 were accruals for extended environmental-related activities of \$123.7 million and \$128.8 million, respectively. Estimated costs of current investigation and remediation activities of \$52.6 million and \$60.4 million are included in Other accruals at June 30, 2009 and 2008, respectively. Five of the Company's currently and formerly owned manufacturing sites account for the majority of the accrual for environmental-related activities and the unaccrued maximum of the estimated range of possible outcomes at June 30, 2009. At June 30, 2009, \$133.6 million, or 75.8 percent of the total accrual, related directly to these five sites. In the aggregate unaccrued maximum of \$112.7 million at June 30, 2009, \$75.2 million, or 66.7 percent, related to the five manufacturing sites. While environmental investigations and remedial actions are in different stages at these sites, additional investigations, remedial actions and monitoring will likely be required at each site. Management cannot presently estimate the ultimate potential loss contingencies related to these sites or other less significant sites until such time as a substantial portion of the investigation at the sites is completed and remedial action plans are developed. In the event any future loss contingency significantly exceeds the current amount accrued, the recording of the ultimate liability may result in a material impact on net income for the annual or interim period during which the additional costs are accrued. Management does not believe that any potential liability ultimately attributed to the Company for its environmental-related matters will have a material adverse effect on the Company's financial condition, liquidity, or cash flow due to the extended period of time during which environmental investigation and remediation takes place. An estimate of the potential impact on the Company's operations cannot be made due to the aforementioned uncertainties. Management expects these contingent environmental-related liabilities to be resolved over an extended period of time. Management is unable to provide a more specific time frame due to the indefinite amount of time to conduct investigation activities at any site, the indefinite amount of time to obtain environmental agency approval, as necessary, with respect to investigation and remediation activities, and the indefinite amount of time necessary to conduct remediation activities.

Table of Contents

For further details on the Company's Other long-term liabilities, see Note 8 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

Note I LITIGATION

In the course of its business, the Company is subject to a variety of claims and lawsuits, including litigation relating to product liability and warranty, personal injury, environmental, intellectual property, commercial, contractual and antitrust claims that are inherently subject to many uncertainties regarding the possibility of a loss to the Company. These uncertainties will ultimately be resolved when one or more future events occur or fail to occur confirming the inurrence of a liability or the reduction of a liability. In accordance with FAS No. 5, Accounting for Contingencies, the Company accrues for these contingencies by a charge to income when it is both probable that one or more future events will occur confirming the fact of a loss and the amount of the loss can be reasonably estimated. In the event that the Company's loss contingency is ultimately determined to be significantly higher than currently accrued, the recording of the additional liability may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such additional liability is accrued. In those cases where no accrual is recorded because it is not probable that a liability has been incurred and cannot be reasonably estimated, any potential liability ultimately determined to be attributable to the Company may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such liability is accrued. In those cases where no accrual is recorded or exposure to loss exists in excess of the amount accrued, FAS No. 5 requires disclosure of the contingency when there is a reasonable possibility that a loss or additional loss may have been incurred if even the possibility may be remote.

Lead pigment and lead-based paint litigation. The Company's past operations included the manufacture and sale of lead pigments and lead-based paints. The Company, along with other companies, is a defendant in a number of legal proceedings, including individual personal injury actions, purported class actions, and actions brought by various counties, cities, school districts and other government-related entities, arising from the manufacture and sale of lead pigments and lead-based paints. The plaintiffs are seeking recovery based upon various legal theories, including negligence, strict liability, breach of warranty, negligent misrepresentations and omissions, fraudulent misrepresentations and omissions, concert of action, civil conspiracy, violations of unfair trade practice and consumer protection laws, enterprise liability, market share liability, public nuisance, unjust enrichment and other theories. The plaintiffs seek various damages and relief, including personal injury and property damage, costs relating to the detection and abatement of lead-based paint from buildings, costs associated with a public education campaign, medical monitoring costs and others. The Company is also a defendant in legal proceedings arising from the manufacture and sale of non-lead-based paints which seek recovery based upon various legal theories, including the failure to adequately warn of potential exposure to lead during surface preparation when using non-lead-based paint on surfaces previously painted with lead-based paint. The Company believes that the litigation brought to date is without merit or subject to meritorious defenses and is vigorously defending such litigation. The Company expects that additional lead pigment and lead-based paint litigation

Table of Contents

may be filed against the Company in the future asserting similar or different legal theories and seeking similar or different types of damages and relief.

Notwithstanding the Company's views on the merits, litigation is inherently subject to many uncertainties, and the Company ultimately may not prevail. Adverse court rulings, such as the jury verdict against the Company and other defendants in the State of Rhode Island action and the Wisconsin State Supreme Court's determination that Wisconsin's risk contribution theory may apply in the lead pigment litigation (both discussed in more detail below), or determinations of liability, among other factors, could affect the lead pigment and lead-based paint litigation against the Company and encourage an increase in the number and nature of future claims and proceedings. (The jury verdict in the State of Rhode Island action was subsequently reversed by the Rhode Island Supreme Court.) In addition, from time to time, various legislation and administrative regulations have been enacted, promulgated or proposed to impose obligations on present and former manufacturers of lead pigments and lead-based paints respecting asserted health concerns associated with such products or to overturn the effect of court decisions in which the Company and other manufacturers have been successful.

Due to the uncertainties involved, management is unable to predict the outcome of the lead pigment and lead-based paint litigation, the number or nature of possible future claims and proceedings, or the effect that any legislation and/or administrative regulations may have on the litigation or against the Company. In addition, management cannot reasonably determine the scope or amount of the potential costs and liabilities related to such litigation, or resulting from any such legislation and regulations. The Company has not accrued any amounts for such litigation. Any potential liability that may result from such litigation or such legislation and regulations cannot reasonably be estimated. In the event any significant liability is determined to be attributable to the Company relating to such litigation, the recording of the liability may result in a material impact on net income for the annual or interim period during which such liability is accrued. Additionally, due to the uncertainties associated with the amount of any such liability and/or the nature of any other remedy which may be imposed in such litigation, any potential liability determined to be attributable to the Company arising out of such litigation may have a material adverse effect on the Company's results of operations, liquidity or financial condition. An estimate of the potential impact on the Company's results of operations, liquidity or financial condition cannot be made due to the aforementioned uncertainties.

Rhode Island lead pigment litigation. The State of Rhode Island initiated an action in October 1999 against the Company and other companies asserting, in part, that lead pigment in paint constitutes a public nuisance under Rhode Island law. The claim for public nuisance was originally tried to a jury in 2002 and the court declared a mistrial as the jury, which was split four to two in favor of the defendants, was unable to reach a unanimous decision. The State of Rhode Island retried the case and on February 22, 2006, the jury returned a verdict, finding that (i) the cumulative presence of lead pigment in paints and coatings on buildings in the State of Rhode Island constitutes a public nuisance, (ii) the Company, along with two other defendants, caused or substantially contributed to the creation of the public nuisance, and (iii) the Company and two other defendants should be ordered to abate the public nuisance. The Company and two other defendants appealed and, on July 1, 2008, the Rhode Island Supreme Court, among other determinations, reversed the judgment of abatement with respect to the Company and two other defendants. The Rhode Island Supreme Court's decision reversed the public nuisance liability judgment against the Company on the basis that the complaint failed to state a public nuisance

Table of Contents

claim as a matter of law. This decision concluded the case in favor of the Company and the other defendants.

Other public nuisance claim litigation. The Company and other companies are or were defendants in other legal proceedings seeking recovery based on public nuisance liability theories including claims brought by the City of St. Louis, Missouri, various cities and counties in the State of New Jersey, various cities in the State of Ohio and the State of Ohio, the County of Santa Clara, California and other public entities in the State of California, and the City of Milwaukee, Wisconsin.

The City of St. Louis proceeding was initiated in January 2000 against the Company and other companies asserting claims for strict liability, negligence, fraudulent misrepresentation, negligent misrepresentation, concert of action, conspiracy, public nuisance, restitution and indemnity. Following various pre-trial proceedings, the City alleged a single count of public nuisance. Following further pre-trial proceedings, the trial court granted the defendants' motion for summary judgment based on the City's lack of product identification evidence. The City appealed and, on June 12, 2007, the Missouri Supreme Court affirmed summary judgment for the Company and other defendants, concluding the case in favor of the Company and the other defendants.

A number of cities and counties in New Jersey individually initiated proceedings in the Superior Court of New Jersey in 2001 and 2002 against the Company and other companies asserting claims for fraud, public nuisance, civil conspiracy, unjust enrichment and indemnity. The cases were consolidated and assigned to the Superior Court in Middlesex County. The Superior Court granted the defendants' motion to dismiss all complaints. Following an appeal by the plaintiffs, the Appellate Division reinstated the public nuisance claims and affirmed the dismissal of all other claims. On June 15, 2007, the New Jersey Supreme Court reversed the Appellate Division's decision to reinstate the public nuisance claims, concluding the case in favor of the Company and the other defendants.

A number of cities in Ohio individually initiated proceedings in state court in 2006 and 2007 against the Company and other companies asserting claims for public nuisance, concert of action, unjust enrichment, indemnity and punitive damages. Also in September 2006, the Company initiated proceedings in the United States District Court, Southern District of Ohio, against those Ohio cities, John Doe cities and public officials seeking declaratory and injunctive relief to prevent the violation of the Company's federal constitutional rights in relation to such state court proceedings. All of these Ohio cities' actions have been voluntarily dismissed by the plaintiff cities. Accordingly, on August 28, 2008, the Court granted, with prejudice, the Company's motion to dismiss the remaining proceedings in the United States District Court, Southern District of Ohio.

In April 2007, the State of Ohio filed an action against the Company and other companies asserting a claim for public nuisance. The State of Ohio sought compensatory and punitive damages. On February 6, 2009, the State of Ohio voluntarily dismissed this action.

The Santa Clara County, California proceeding was initiated in March 2000. The named plaintiffs are the County of Santa Clara, County of Santa Cruz, County of Solano, County of Alameda, County of Kern, City and County of San Francisco, San Francisco Housing Authority, San Francisco Unified School District, City of Oakland, Oakland Housing Authority, Oakland Redevelopment Agency and the Oakland Unified School District. The proceeding purports to be a class action on behalf of all public entities in the State of California except the State and its

Table of Contents

agencies. The plaintiffs' second amended complaint asserted claims for fraud and concealment, strict product liability/failure to warn, strict product liability/design defect, negligence, negligent breach of a special duty, public nuisance, private nuisance and violations of California's Business and Professions Code, and the third amended complaint alleges similar claims including a claim for public nuisance. Various asserted claims were resolved in favor of the defendants through pre-trial demurrers and motions to strike. In October 2003, the trial court granted the defendants' motion for summary judgment against the remaining counts on statute of limitation grounds. The plaintiffs appealed the trial court's decision and, on March 3, 2006, the Court of Appeal, Sixth Appellate District, reversed in part the demurrers and summary judgment entered in favor of the Company and the other defendants. The Court of Appeal reversed the dismissal of the public nuisance claim for abatement brought by the cities of Santa Clara and Oakland and the City and County of San Francisco, and reversed summary judgment on all of the plaintiffs' fraud claim to the extent that the plaintiffs alleged that the defendants had made fraudulent statements or omissions minimizing the risks of low-level exposure to lead. The Court of Appeal further vacated the summary judgment holding that the statute of limitations barred the plaintiffs' strict liability and negligence claims, and held that those claims had not yet accrued because physical injury to the plaintiffs' property had not been alleged. The Court of Appeal affirmed the dismissal of the public nuisance claim for damages to the plaintiffs' properties, most aspects of the fraud claim, the trespass claim and the unfair business practice claim. The plaintiffs have filed a motion for leave to file a fourth amended complaint. On April 4, 2007, the trial court entered an order granting the defendants' motion to bar payment of contingent fees to private attorneys. The plaintiffs appealed the trial court's order and, on April 8, 2008, the California Court of Appeal reversed the trial court's order. The defendants filed a petition for review with the California Supreme Court and the Supreme Court has decided to review the Court of Appeal's decision. Proceedings in the trial court are stayed pending the appeal.

The City of Milwaukee proceeding was initiated in April 2001 against Mautz Paint Co. and NL Industries, Inc. On November 7, 2001, the Company acquired certain assets of Mautz Paint Co. and agreed (under terms and conditions set forth in the purchase agreement) to defend and indemnify Mautz Paint Co. for its liability, if any, to the City of Milwaukee in this action. The City's complaint included claims for continuing public nuisance, restitution, conspiracy, negligence, strict liability, failure to warn and violation of Wisconsin's trade practices statute. Following various pre-trial proceedings during which several of the City's claims were dismissed by the court or voluntarily dismissed by the City, on August 13, 2003, the trial court granted defendants' motion for summary judgment on the remaining claims. The City appealed and, on November 9, 2004, the Wisconsin Court of Appeals reversed the trial court's decision and remanded the claims for public nuisance, conspiracy and restitution to the trial court. On February 13, 2007, the trial court entered an order severing and staying the claims against Mautz Paint Co. The action against NL Industries proceeded to trial and the jury found that the presence of lead paint in Milwaukee is a public nuisance, but that NL Industries was not at fault for the public nuisance. The City of Milwaukee appealed the jury verdict finding that NL Industries did not intentionally cause a public nuisance and the Wisconsin Court of Appeals affirmed the trial court's final judgment. The City of Milwaukee filed a petition for review with the Wisconsin Supreme Court to review the Wisconsin Court of Appeals' decision. The Wisconsin Supreme Court denied the City of Milwaukee's petition to review the Wisconsin Court of Appeals' decision.

Table of Contents

Litigation seeking damages from alleged personal injury. The Company and other companies are defendants in a number of legal proceedings seeking monetary damages and other relief from alleged personal injuries. These proceedings include claims by children allegedly injured from ingestion of lead pigment or lead-containing paint, claims for damages allegedly incurred by the children's parents or guardians, and claims for damages allegedly incurred by professional painting contractors. These proceedings generally seek compensatory and punitive damages, and seek other relief including medical monitoring costs. These proceedings include purported claims by individuals, groups of individuals and class actions.

The plaintiff in *Thomas v. Lead Industries Association, et al.*, initiated an action against the Company, other alleged former lead pigment manufacturers and the Lead Industries Association in September 1999. The claims against the Company and the other defendants include strict liability, negligence, negligent misrepresentation and omissions, fraudulent misrepresentation and omissions, concert of action, civil conspiracy and enterprise liability. Implicit within these claims is the theory of risk contribution liability (Wisconsin's theory which is similar to market share liability) due to the plaintiff's inability to identify the manufacturer of any product that allegedly injured the plaintiff. Following various pre-trial proceedings during which certain of the plaintiff's claims were dismissed by the court, on March 10, 2003, the trial court granted the defendants' motion for summary judgment, dismissing the case with prejudice and awarding costs to each defendant. The plaintiff appealed and, on June 14, 2004, the Wisconsin Court of Appeals affirmed the trial court's decision. On July 15, 2005, the Wisconsin Supreme Court reversed in part the trial court's decision and decided, assuming all of plaintiff's facts in the summary judgment record to be true, that the risk contribution theory could then apply to excuse the plaintiff's lack of evidence identifying any of the Company's or the other defendant's products as the cause of the alleged injury. The case was remanded to the trial court for further proceedings and a trial commenced on October 1, 2007. On November 5, 2007, the jury returned a defense verdict, finding that the plaintiff had ingested white lead carbonate, but was not brain damaged or injured as a result. The plaintiff filed post-trial motions for a new trial which were denied by the trial court. On March 4, 2008, final judgment was entered in favor of the Company and other defendants. The plaintiff has filed an appeal of the final judgment.

Wisconsin is the first jurisdiction to apply a theory of liability with respect to alleged personal injury (i.e.: risk contribution/market share liability) which does not require the plaintiff to identify the manufacturer of the product that allegedly injured the plaintiff in the lead pigment and lead-based paint litigation.

Insurance coverage litigation. On March 3, 2006, the Company filed a lawsuit in the Common Pleas Court, Cuyahoga County, Ohio against its liability insurers, including certain Underwriters at Lloyd's of London. The lawsuit seeks, among other things, (i) a declaration from the court that costs associated with the abatement of lead pigment in the State of Rhode Island, or any other jurisdiction, are covered under certain insurance policies issued to the Company and (ii) monetary damages for breach of contract and bad faith against the Lloyd's Underwriters for unjustified denial of coverage for the cost of complying with any final judgment requiring the Company to abate any alleged nuisance caused by the presence of lead pigment paint in buildings. This lawsuit was filed in response to a lawsuit filed by the Lloyd's Underwriters against the Company, two other defendants in the Rhode Island litigation and various insurance companies on February 23, 2006. The Lloyd's Underwriters' lawsuit asks a New York state court

Table of Contents

to determine that there is no indemnity insurance coverage for such abatement related costs, or, in the alternative, if such indemnity coverage is found to exist, the proper allocation of liability among the Lloyd's Underwriters, the defendants and the defendants' other insurance companies. An ultimate loss in the insurance coverage litigation would mean that insurance proceeds could be unavailable under the policies at issue to mitigate any ultimate abatement related costs and liabilities. The Ohio state court action has been stayed and the New York state court action has been dismissed.

Note J OTHER (INCOME) EXPENSE

Other general expense net

Included in Other general expense net were the following:

(Thousands of dollars)	Three months ended		Six months ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Provisions for environmental matters net	\$ 2,950	\$ 711	\$ 9,151	\$ 711
Loss on disposition of assets	372	569	1,101	684
Adjustments to prior provisions for qualified exit costs	(271)		3,204	
Total expense	\$ 3,051	\$ 1,280	\$ 13,456	\$ 1,395

Provisions for environmental matters net represent site-specific increases or decreases to environmental-related accruals as information becomes available upon which more accurate costs can be reasonably estimated and as additional accounting guidelines are issued. Environmental-related accruals are not recorded net of insurance proceeds in accordance with FASB Interpretation (FIN) No. 39, Offsetting of Amounts Related to Certain Contracts and an Interpretation of APB Opinion No. 10 and FASB Statement No. 105. See Note H for further details on the Company's environmental-related activities.

The loss on disposition of assets represents net realized losses associated with the disposal of fixed assets previously used in the conduct of the primary business of the Company.

The adjustments to prior provisions for qualified exit costs represent site specific increases or decreases to accrued qualified exit costs as information becomes available upon which more accurate amounts can be reasonably estimated. See Note F for further details on the Company's exit or disposal activities.

Table of Contents*Other income net*

Included in Other income net were the following:

(Thousands of dollars)	Three months ended		Six months ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Dividend and royalty income	\$ (614)	\$ (2,730)	\$ (1,571)	\$ (3,544)
Net expense from financing and investing activities	1,267	1,673	1,683	2,898
Foreign currency related gains	(868)	(164)	(969)	(1,769)
Other income	(3,604)	(2,734)	(5,516)	(3,992)
Other expense	1,289	1,255	2,737	2,207
Total income	\$ (2,530)	\$ (2,700)	\$ (3,636)	\$ (4,200)

The net expense from financing and investing activities includes the net loss relating to the change in the Company's investment in certain long-term asset funds and financing fees.

Foreign currency related gains included foreign currency transaction gains and losses and realized and unrealized net gains from foreign currency option and forward contracts. The Company had foreign currency option and forward contracts outstanding at June 30, 2009 and 2008. All of the outstanding contracts had maturity dates of less than twelve months and were undesignated hedges with changes in fair value being recognized in earnings in accordance with FAS No. 133. These derivative instrument values were included in either Other current assets or Other accruals and were insignificant at June 30, 2009.

Other income and Other expense included items of revenue, gains, expenses and losses that were unrelated to the primary business purpose of the Company. Each individual item within the other income or other expense caption was immaterial; no single category of items exceeded \$1.0 million.

Note K INCOME TAXES

The effective tax rates were 31.9 percent and 31.0 percent for the second quarter and the first six months of 2009, respectively, and 33.0 percent and 32.4 percent for the second quarter and the first six months of 2008, respectively.

The decrease in the effective tax rates for the 2009 periods compared to 2008 were due to the relative effect that various favorable adjustments had on the second quarter and the first six months of 2009 compared to 2008.

At December 31, 2008, the Company had \$38.1 million in unrecognized tax benefits, the recognition of which would have an effect of \$32.4 million on the current provision for income taxes. Included in the balance of unrecognized tax benefits at December 31, 2008 was \$7.5 million related to tax positions for which it is reasonably possible that the total amounts could significantly change during the next twelve months. This amount represents a decrease in unrecognized tax benefits comprised of items related to assessed state income tax audits, state settlement negotiations currently in progress and expiring statutes in foreign jurisdictions.

Table of Contents

The Company classifies all income tax related interest and penalties as income tax expense. At December 31, 2008, the Company had accrued \$15.6 million for the potential payment of income tax interest and penalties.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. The Internal Revenue Service (IRS) commenced an examination of the Company's U.S. income tax returns for the 2006 and 2007 tax years in the fourth quarter of 2008. Fieldwork is anticipated to be completed prior to December 31, 2009. At this time, the Company cannot determine if an additional payment may be due. The IRS substantially completed the audit of the 2004 and 2005 tax years. The Company has paid \$1.3 million to date related to the audit. The 2004 and 2005 audit remains open as it relates to the Company's ESOP. As of June 30, 2009, the Company is subject to non-U.S. income tax examinations for the tax years of 2002 through 2008. In addition, the Company is subject to state and local income tax examinations for the tax years 1992 through 2008.

There were no significant changes to any of these amounts during the second quarter of 2009.

Stock options and other contingently issuable shares (1)	1,100,634	1,296,859	839,723	1,356,162
Average common shares assuming dilution	117,294,437	118,684,720	117,487,051	120,379,140
Net income	\$ 158,023	\$ 171,683	\$ 195,302	\$ 249,629
Net income per common share	\$ 1.35	\$ 1.45	\$ 1.66	\$ 2.07

(1) Stock options and other contingently issuable shares excludes 3.1 million and 3.2 million shares for the three months

ended June 30, 2009 and June 30, 2008, respectively, and 4.9 million and 3.2 million for the six months ended June 30, 2009 and June 30, 2008, respectively, due to their anti-dilutive effect.

Table of Contents

Basic and diluted earnings per share are calculated in accordance with FAS No. 128, Earnings per Share. In June 2008, the FASB issued FSP Emerging Issues Task Force (EITF) No. 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities, which clarifies EITF No. 03-6,

Participating Securities and the Two-Class Method Under FAS No. 128. Under the FSP, unvested share-based payment awards that contain rights to receive non-forfeitable dividends (whether paid or unpaid) are considered participating securities, and the two-class method of computing earnings per share is required for all periods presented.

Under the Company's restricted stock award program, non-forfeitable dividends are paid on unvested shares of restricted stock. As clarified by EITF No. 03-6-1, these restricted stock grants are considered participating securities and the two-class method of computing earnings per share is required. The Company has calculated basic and diluted earnings per share under both the treasury stock method and the two-class method. For the three and six months ended June 30, 2009 and 2008, there was not a significant difference in the per share amounts calculated under the two methods, and the treasury stock method continues to be disclosed.

Table of Contents**Note M REPORTABLE SEGMENT INFORMATION**

The Company reports segment information in the same way that management internally organizes its business for assessing performance and making decisions regarding allocation of resources in accordance with FAS No. 131,

Disclosures about Segments of an Enterprise and Related Information.

* Segment profit includes \$8,575 and \$13,944 of mark-up on intersegment transfers realized as a result of external sales by the Paint Stores Group during the first six

months of 2009
and 2008,
respectively.

In the reportable segment financial information, Segment profit was total net sales and intersegment transfers less operating costs and expenses. Domestic intersegment transfers were accounted for at the approximate fully absorbed manufactured cost, based on normal capacity volumes, plus customary distribution costs. International intersegment transfers were accounted for at values comparable to normal unaffiliated customer sales. The Administrative segment includes the administrative expenses of the Company's corporate headquarters site. Also included in the Administrative segment was interest expense, interest and investment income, certain expenses related to closed facilities and environmental-related matters, and other expenses which were not directly associated with the Reportable Operating Segments. The Administrative segment did not include any significant foreign operations. Also included in the Administrative segment was a real estate management unit that is responsible for the ownership, management and leasing of non-retail properties held primarily for use by the Company, including the Company's headquarters site, and disposal of idle facilities. Sales of this segment represented external leasing revenue of excess headquarters space or leasing of facilities no longer used by the Company in its primary businesses. Gains and losses from the sale of property were not a significant operating factor in determining the performance of the Administrative segment.

Table of Contents

Net external sales and segment profit of all consolidated foreign subsidiaries were \$248.2 million and \$4.1 million, respectively, for the second quarter of 2009, and \$290.8 million and \$22.6 million, respectively, for the second quarter of 2008. Net external sales and segment profit of these subsidiaries were \$468.0 million and \$4.4 million, respectively, for the first six months of 2009, and \$568.1 million and \$43.6 million, respectively, for the first six months of 2008. Long-lived assets of these subsidiaries totaled \$245.1 million and \$202.6 million at June 30, 2009 and June 30, 2008, respectively. Domestic operations accounted for the remaining net external sales, segment profits and long-lived assets. No single geographic area outside the United States was significant relative to consolidated net external sales, income before taxes, or consolidated long-lived assets.

Export sales and sales to any individual customer were each less than 10 percent of consolidated sales to unaffiliated customers during all periods presented.

NOTE N ACQUISITIONS

During the first quarter of 2009, the Company closed a definitive agreement to acquire Altax Sp. zo.o. (Altax). Headquartered in Poznan, Poland, Altax is a leading innovator of protective woodcare coatings and serves multiple channels, including industrial, professional and DIY. Included in the Consumer Group, the acquisition provides a platform for growth in Central Europe. The aggregate consideration paid for Altax was \$11.8 million, net of cash acquired, including the assumption of certain financial obligations. The acquisition was accounted for as a purchase and the valuation resulted in the recognition of goodwill and intangible assets.

In December 2008, the Company closed a definitive agreement to acquire Euronavy-Tintas Maritimas e Industriais S.A. of Portugal (Euronavy). Headquartered in Lisbon, Portugal, Euronavy is a leading innovator of marine and protective coatings applied to ships, off shore platforms, storage tanks, steel, concrete and flooring. Included in the Global Finishes Group, the acquisition strengthens the Company's global platform of protective and marine coatings. Results of operations were included in the consolidated financial statements starting in 2009.

In September 2008, the Company purchased certain assets of the Wagman Primus Group, LP (Wagman). The acquired assets are related to imported raw materials of brushes and foreign manufactured applicators and will allow greater flexibility and control in the importation of applicators and related products for the Consumer Group. Results of operations were included in the consolidated financial statements since the date of acquisition.

In July 2008, the Company acquired the liquid coatings subsidiaries of Inchem Holdings International Limited (Inchem). Headquartered in Singapore, Inchem produces coatings applied to wood and plastic products in Asia. These waterborne, solvent-based, and ultraviolet curable coatings are applied to furniture, cabinets, flooring and electronic products. The coatings are made and sold in China, Vietnam and Malaysia and distributed to 15 other Asian countries. This acquisition strengthens the Global Finishes Group's product offering throughout Asia. Results of operations were included in the consolidated financial statements since the date of acquisition.

Table of Contents

In February 2008, the Company acquired Becker Powder Coatings, Inc. (Becker), a subsidiary of Sweden-based AB Wilh. Headquartered in Columbus, Ohio, Becker produces powder coatings applied to appliances, metal furniture, fixtures, equipment and electronic products manufactured throughout North America. This acquisition strengthens Global Finishes Group's position in the powder coatings market. Results of operations were included in the consolidated financial statements since the date of acquisition.

The aggregate consideration paid for Euronavy, Inchem, Wagman and Becker was \$64.1 million, net of cash acquired, including acquisition costs and the assumption of certain financial obligations. The acquisitions were accounted for as purchases and resulted in the recognition of intangible assets. The Euronavy, Inchem and Becker acquisitions also resulted in the recognition of goodwill.

The following unaudited pro-forma summary presents consolidated financial information as if Altax, Euronavy, Wagman Primus, Inchem and Becker had been acquired as of the beginning of each period presented. The pro-forma consolidated financial information does not necessarily reflect the actual results that would have occurred had the acquisitions taken place on January 1, 2008 or of future results of operations of the combined companies under ownership and operation of the Company.

Table of Contents**NOTE O FAIR VALUE MEASUREMENTS**

As of January 1, 2009, FAS No. 157, Fair Value Measurements, applies to both the Company's financial assets and liabilities and non-financial assets and liabilities. FAS No. 157 provides guidance for using fair value to measure assets and liabilities and only applies when other standards require or permit the fair value measurement of assets and liabilities. It does not expand the use of fair value measurements. The Company did not have any fair value measurements for its non-financial assets and liabilities during the second quarter. The following table presents the Company's financial assets and liabilities that are measured at fair value on a recurring basis, categorized using the fair value hierarchy:

(Thousands of dollars)	Fair Value at June 30, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Deferred compensation plan asset ^(A)	\$ 15,860	\$ 15,860		
Total assets at fair value	\$ 15,860	\$ 15,860		
Liabilities:				
Net currency derivative liability ^(B)	\$ 422		\$ 422	
Deferred compensation plan liability ^(C)	18,054	\$ 18,054		
Total liabilities at fair value	\$ 18,476	\$ 18,054	\$ 422	

(A) The deferred compensation plan asset consists of the investment funds maintained for the future payments under the Company's executive deferred compensation plan, which is structured as a rabbi trust. The

investments are marketable securities accounted for under FAS No. 115, Accounting for Certain Investments in Debt and Equity Securities. They are valued using quoted market prices multiplied by the number of shares.

(B) The net currency derivative liability represents the fair value of foreign currency swaps. The swaps are valued using the banks proprietary models.

(C) The deferred compensation plan liability is the Company's liability under its executive deferred compensation plan. The liability represents the fair value of the participant shadow accounts, and the value is based on quoted market prices.

Table of Contents**NOTE P FINANCIAL INSTRUMENTS**

The table below summarizes the carrying amount and fair value of the Company's publicly traded debt and non-publicly traded debt in accordance with FSP FAS No. 107-1, Interim Disclosures About Fair Value of Financial Instruments. The fair values of the Company's publicly traded debt are based on quoted market prices. The fair values of the Company's non-traded debt are estimated using discounted cash flow analyses, based on the Company's current incremental borrowing rates for similar types of borrowing arrangements.

**Item 2. MANAGEMENT'S DISCUSSION AND
ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS**

SUMMARY

The Sherwin-Williams Company, founded in 1866, and its consolidated wholly owned subsidiaries (collectively, the Company) are engaged in the development, manufacture, distribution and sale of paint, coatings and related products to professional, industrial, commercial and retail customers primarily in North and South America with additional operations in the Caribbean region, Europe and Asia. The Company is structured into three reportable operating segments Paint Stores Group, Consumer Group and Global Finishes Group (collectively, the Reportable Operating Segments) and an Administrative Segment in the same way it is internally organized for assessing performance and making decisions regarding allocation of resources. See pages 5 through 7, page 10 and Note 18, on pages 72 through 74 in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, for more information concerning the Reportable Operating Segments.

The decline in the U.S. housing market that began to reduce architectural paint sales volume in 2007 expanded into other U.S. paint markets served by the Company in 2008, reducing manufacturing volume. The economic downturn in the U.S. spread into foreign markets during the last half of 2008, contributing to an overall decline in the business of the Company. Paint sales volume remained depressed in the second quarter and first six months of 2009. In respect to the challenging global economic conditions, management of the Company continued to review and consistently perform additional valuation procedures to ensure that the values of the Company's assets and liabilities were based on the latest information available on which to base such valuations. Specifically, management determined that: the collectibility of accounts receivable was properly estimated; current estimated market values of inventories exceeded cost; fair market values of goodwill and intangible assets approximated current carrying values; the useful lives and fair market values of property, plant and equipment were established in relation to the current lower manufacturing and sales demand; adequate impairments of property, plant and equipment and accrual of qualified exit costs were recorded for all closed sites being held for disposal; and all sales allowances, returns, discounts, warranties and complaint allowances were reasonably stated in respect to the current economic conditions and declining business environment.

The Company's financial condition, liquidity and cash flow remained strong through the first six months of 2009 in spite of the continuing challenging global economic conditions that included significant reductions in demand, increased manufacturing costs related to lower volume throughput, tight credit markets and severe fluctuations in foreign currency rates. Net working capital improved \$276.5 million at June 30, 2009 compared to the end of the second quarter of 2008 due primarily to a larger proportional decrease in current liabilities than current assets. Short-term borrowings decreased \$434.4 million from June 30, 2008 and all other current liabilities decreased \$232.0 million. The Company has been able to arrange sufficient short-term borrowing capacity at reasonable rates even as credit markets remain tight and the Company has sufficient total available borrowing capacity to fund its current operating needs. Short-term

Table of Contents

borrowings decreased \$17.2 million from December 31, 2008, due to the control over working capital, and all other current liabilities decreased \$15.8 million. Since June 30, 2008, Accounts receivable and Inventories were down \$334.3 million and the remaining current assets decreased \$55.6 million. Accounts Receivable and Inventories increased only \$44.5 million from December 31, 2008 to June 30, 2009 when normal seasonal trends typically require significant growth in these categories. The use of a portion of Net operating cash to reduce Total current liabilities more than Total current assets improved the Company's current ratio to 1.04 at June 30, 2009 from .92 at June 30, 2008 and compared to .99 at December 31, 2008. Total debt at June 30, 2009 decreased \$438.8 million to \$800.7 million from \$1,239.5 million at June 30, 2008 and decreased as a percentage of total capitalization to 31.6 percent from 42.7 percent at the end of the second quarter last year. Total debt decreased \$33.0 million and decreased to 31.6 percent of total capitalization versus December 31, 2008. At June 30, 2009, the Company had remaining borrowing ability of \$1.64 billion. Net operating cash increased \$3.6 million in six months of 2009 to \$266.4 million from \$262.8 million in 2008 primarily due to a net decrease in cash used to fund working capital requirements of \$57.3 million that was partially offset by a reduction in net income of \$54.3 million. In the twelve month period from July 1, 2008 through June 30, 2009, the Company generated net operating cash of \$879.9 million and invested \$68.1 million in acquisitions, \$87.2 million in capital additions and improvements, reduced its total debt \$431.1 million, purchased \$104.9 million in treasury stock and paid \$165.1 million in cash dividends to its shareholders of common stock.

Results of operations for the Company in the second quarter and first six months of 2009 continued to suffer from a decrease in end-market demand for coatings and other building materials caused by the effects of the expanding global economic downturn and a lingering depressed U.S. housing market. Consolidated net sales decreased 12.6 percent in the second quarter to \$1.948 billion from \$2.230 billion in the second quarter of 2008 and decreased 12.8 percent in the first six months to \$3.499 billion from \$4.011 billion in the first six months of 2008 due primarily to paint sales volume declines resulting from contracted demand in the domestic market for more than two years that expanded into the global markets beginning in the second half of 2008. Net sales in the Paint Stores Group decreased 13.7 percent in the quarter to \$1.170 billion and decreased 13.3 percent to \$2.068 billion in the first six months due primarily to weak paint sales volume that was partially offset by selling price increases initiated during the second half of 2008. Net sales in the Paint Stores Group from stores open more than twelve calendar months decreased 13.5 percent in the quarter and 13.1 percent in the first six months of 2009. Net sales in the Consumer Group decreased 4.5 percent to \$366.4 million in the quarter and 2.4 percent to \$654.6 million in the first six months due primarily to lower volume sales to most of the Group's retail customers partially offset by additional sales to existing discount customers related to new products. Net sales in the Global Finishes Group stated in U.S. dollars declined 16.2 percent in the quarter to \$409.7 million and 18.8 percent to \$772.2 million in the first six months due primarily to decreased paint volume sales and unfavorable currency translation rates partially offset by acquisitions and selling price increases. Gross profit as a percent of consolidated net sales increased in the second quarter to 46.0 percent from 43.6 percent in 2008 and increased to 45.0 percent from 43.7 percent in the first six months due primarily to lower freight and other distribution costs, reduced expenses related to cost control initiatives started eighteen months ago and favorable product sales mix partially offset by higher costs related to lower manufactured volume and unfavorable currency translation rates. Selling,

Table of Contents

general and administrative expenses (SG&A) increased as a percent of consolidated net sales to 33.5 percent from 30.4 percent in the second quarter of 2008 and increased to 36.1 percent from 33.1 percent due primarily to the sales decline as good expense control across all Reportable Operating Segments resulted in total SG&A spending that was \$24.0 million lower than in the second quarter of 2008 and \$66.8 million lower than in the first six months last year. Other general expense net increased in the second quarter and first six months of 2009 due primarily to increased accruals for environmental-related matters and exit costs related to closed properties. Interest expense decreased \$7.8 million in the first quarter and \$13.2 million in the first six months of 2009 due to lower short-term borrowings and borrowing rates. The effective income tax rate for second quarter 2009 was 31.9 percent compared to 33.0 percent in 2008 and the rate for the first six months of 2009 was 31.0 percent compared to 32.4 percent in 2008. Diluted net income per common share decreased to \$1.35 per share for second quarter 2009 from \$1.45 per share a year ago and decreased to \$1.66 per share from \$2.07 per share in the first six months.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation and fair presentation of the consolidated unaudited interim financial statements and accompanying notes included in this report are the responsibility of management. The financial statements and footnotes have been prepared in accordance with U.S. generally accepted accounting principles for interim financial statements and contain certain amounts that were based upon management's best estimates, judgments and assumptions that were believed to be reasonable under the circumstances. Management considered the impact of the current global economic recession and utilized certain outside economic sources of information when developing the bases for their estimates and assumptions. The impact of the deteriorating global economic conditions on the estimates and assumptions used by management was believed to be reasonable under the circumstances. Management used assumptions based on historical results, considering the current economic trends, and other assumptions to form the basis for determining appropriate carrying values of assets and liabilities that were not readily available from other sources. Actual results could differ from those estimates. Also, materially different amounts may result under materially different conditions, materially different economic trends or from using materially different assumptions. However, management believes that any materially different amounts resulting from materially different conditions or material changes in facts or circumstances are unlikely to significantly impact the current valuation of assets and liabilities that were not readily available from other sources.

A comprehensive discussion of the Company's critical accounting policies and management estimates and significant accounting policies followed in the preparation of the financial statements is included in Management's Discussion and Analysis of Financial Condition and Results of Operations and in Note 1, on pages 45 through 49, in the Company's Annual Report on Form 10-K for the year ended December 31, 2008. There have been no significant changes in critical accounting policies, management estimates or accounting policies followed since the year ended December 31, 2008.

Table of Contents**FINANCIAL CONDITION, LIQUIDITY AND CASH FLOW*****Overview***

The Company's financial condition, liquidity and cash flow remained strong through the first six months of 2009 in spite of continued challenging global economic conditions that included significant reductions in demand, increased manufacturing costs related to lower volume throughput, tight credit markets and significant fluctuations in foreign currency translation rates. Net working capital improved \$276.5 million at June 30, 2009 compared to the end of the second quarter of 2008 due primarily to a larger proportional decrease in current liabilities than current assets. Short-term borrowings decreased \$434.4 million from June 30, 2008 and all other current liabilities decreased \$232.0 million. The Company was able to arrange sufficient short-term borrowing capacity at reasonable rates even as credit markets remained tight and the Company has sufficient total available borrowing capacity to fund its current operating needs. Short-term borrowings decreased \$17.2 million from December 31, 2008 and all other current liabilities decreased \$15.8 million. Since June 30, 2008, Accounts receivable and Inventories were down \$334.3 million and the remaining current assets decreased \$55.6 million. Accounts Receivable and Inventories increased only \$44.5 million from December 31, 2008 to June 30, 2009 when normal seasonal trends typically require significant growth in these categories. The use of a portion of Net operating cash to reduce Total current liabilities more than Total current assets improved the Company's current ratio to 1.04 at June 30, 2009 from .92 at June 30, 2008 and compared to .99 at December 31, 2008. Total debt at June 30, 2009 decreased \$438.8 million to \$800.7 million from \$1,239.5 million at June 30, 2008 and decreased as a percentage of total capitalization to 31.6 percent from 42.7 percent at the end of the second quarter last year. Total debt decreased \$33.0 million and decreased from 34.2% of total capitalization at December 31, 2008. At June 30, 2009, the Company had remaining borrowing ability of \$1.64 billion. Net operating cash increased \$3.6 million in the second quarter of 2009 to \$266.4 million from \$262.8 million in 2008 primarily due to a net decrease in cash used to fund working capital requirements of \$57.3 million that was partially offset by a reduction in net income of \$54.3 million. In the twelve month period from July 1, 2008 through June 30, 2009, the Company generated net operating cash of \$879.9 million and invested \$68.1 million in acquisitions, \$87.2 million in capital additions and improvements, reduced its total debt \$431.1 million, purchased \$104.9 million in treasury stock and paid \$165.1 million in cash dividends to its shareholders of common stock.

Net Working Capital, Debt and Other Long-Term Assets and Liabilities

Cash and cash equivalents increased \$23.0 million during the first six months of 2009. Cash used for capital expenditures of \$40.9 million, payments of cash dividends of \$83.2 million, treasury stock purchases of \$49.4 million and reduction of \$17.2 million in short-term borrowings were funded primarily by net cash from operations. At June 30, 2009, the Company's current ratio was 1.04, an improvement from the current ratio of .99 at December 31, 2008 and from .92 a year ago. The improvements in the current ratio were primarily due to the reduction in short-term borrowings and control over Accounts receivable and Inventories.

Goodwill and intangible assets increased \$5.0 million from December 31, 2008 and decreased \$18.3 million from June 30, 2008. The net increase during the six months of 2009 was due to acquisitions and capitalization of software costs of \$11.7 million partially offset by amortization

Table of Contents

and currency translation rate changes of \$6.7 million. The net decrease over the twelve-month period from June 30, 2008 resulted from acquisitions and capitalization of software costs of \$52.4 million and other adjustments, primarily currency translation rate changes of \$5.2 million that were more than offset by impairments of \$30.7 million and amortization of \$45.2 million. See Note 3, on pages 50 to 52, in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, for more information concerning goodwill and intangible assets.

Deferred pension assets remained relatively unchanged during the first six months of 2009 and decreased \$193.2 million from June 30, 2008. The decrease in the last twelve months was due primarily to a decline in the fair market value of equity securities held by the Company's defined benefit pension plans. See Note 6, on pages 55 to 60, in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 for more information concerning the Company's benefit plan assets.

Net property, plant and equipment decreased \$17.8 million in the first six months of 2009 and decreased \$62.5 million in the twelve months since June 30, 2008. The reduction in the first half of 2009 was primarily due to capital expenditures of \$40.9 million, acquired assets of \$6.5 million and changes in currency translation rates that were more than offset by depreciation expense of \$73.2 million and the disposition of assets with remaining book value. Since June 30, 2008, capital expenditures of \$87.2 million and acquired assets of \$20.0 million were more than offset by depreciation expense of \$145.2 million and dispositions of assets with remaining net book value and changes in currency translation rates. Capital expenditures during the first six months of 2009 primarily represented expenditures associated with improvements and normal equipment replacement in manufacturing and distribution facilities in the Consumer Group and normal equipment replacement in the Paint Stores and Global Finishes Groups.

Short-term borrowings related to the Company's domestic commercial paper program outstanding were \$194.0 million at an average rate of .6 percent at June 30, 2009. Short-term borrowings under certain revolving and letter of credit agreements were \$275 million at an average rate of .6 percent at June 30, 2009. Short-term borrowings outstanding under various foreign programs at June 30, 2009 were \$30.2 million with a weighted average interest rate of 6.9 percent. The Company had unused maximum borrowing availability of \$1,635 million at June 30, 2009 under the commercial paper program that is backed by the Company's revolving credit agreement. There were no significant changes in long-term debt during the second quarter or first six months of 2009 or in the twelve months since June 30, 2008. See Note 7, on page 60, in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, for more information concerning the Company's debt.

Long-term liabilities for defined benefit pension and other postretirement benefit plans increased slightly over December 31, 2008 and decreased \$14.2 million from June 30, 2008. The changes in the liability resulted primarily from the reduction in the actuarially determined postretirement benefit obligation resulting from changes in actuarial assumptions. See Note 6, on pages 55 to 60, in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 for more information concerning the Company's benefit plan obligations.

Table of Contents

Other long-term liabilities at June 30, 2009 decreased \$48.1 million from a year ago due primarily to a decrease at the end of 2008 in non-current and deferred tax liabilities of \$31.0 million and a reduction in long-term accruals for extended environmental-related liabilities of \$5.0 million.

Environmental-Related Liabilities

The operations of the Company, like those of other companies in the same industry, are subject to various federal, state and local environmental laws and regulations. These laws and regulations not only govern current operations and products, but also impose potential liability on the Company for past operations. Management expects environmental laws and regulations to impose increasingly stringent requirements upon the Company and the industry in the future. Management believes that the Company conducts its operations in compliance with applicable environmental laws and regulations and has implemented various programs designed to protect the environment and promote continued compliance.

Depreciation of capital expenditures and other expenses related to ongoing environmental compliance measures were included in the normal operating expenses of conducting business. The Company's capital expenditures, depreciation and other expenses related to ongoing environmental compliance measures were not material to the Company's financial condition, liquidity, cash flow or results of operations during the first six months of 2009. Management does not expect that such capital expenditures, depreciation and other expenses will be material to the Company's financial condition, liquidity, cash flow or results of operations in 2009.

The Company is involved with environmental investigation and remediation activities at some of its currently and formerly owned sites (including sites which were previously owned and/or operated by businesses acquired by the Company). In addition, the Company, together with other parties, has been designated a potentially responsible party under federal and state environmental protection laws for the investigation and remediation of environmental contamination and hazardous waste at a number of third-party sites, primarily Superfund sites. The Company may be similarly designated with respect to additional third-party sites in the future.

The Company accrues for estimated costs of investigation and remediation activities at its currently and formerly owned sites and third party sites for which commitments or clean-up plans have been developed and when such costs can be reasonably estimated based on industry standards and professional judgment. These estimated costs are based on currently available facts regarding each site. The Company accrues a specific estimated amount when such an amount and a time frame in which the costs will be incurred can be reasonably determined. If the best estimate of costs can only be identified as a range and no specific amount within that range can be determined more likely than any other amount within the range, the minimum of the range is accrued by the Company in accordance with applicable accounting rules and interpretations. The Company continuously assesses its potential liability for investigation and remediation activities and adjusts its environmental-related accruals as information becomes available upon which more accurate costs can be reasonably estimated. At June 30, 2009 and 2008, the Company had accruals for environmental-related activities of \$176.3 million and \$189.2 million, respectively.

Table of Contents

Due to the uncertainties of the scope and magnitude of contamination and the degree of investigation and remediation activities that may be necessary at certain currently or formerly owned sites and third party sites, it is reasonably likely that further extensive investigations may be required and that extensive remedial actions may be necessary not only on such sites but on adjacent properties. Depending on the extent of the additional investigations and remedial actions necessary, the Company's ultimate liability may result in costs that are significantly higher than currently accrued. If the Company's future loss contingency is ultimately determined to be at the maximum of the range of possible outcomes for every site for which costs can be reasonably estimated, the Company's aggregate accruals for environmental-related activities would be \$112.7 million higher than the accruals at June 30, 2009.

Five of the Company's currently and formerly owned sites accounted for the majority of the accruals for environmental-related activities and the unaccrued maximum of the estimated range of possible outcomes at June 30, 2009. At June 30, 2009, \$133.6 million, or 75.8 percent, related directly to these five sites. Of the aggregate unaccrued exposure at June 30, 2009, \$75.2 million, or 66.7 percent, related to the five sites. While environmental investigations and remedial actions are in different stages at these sites, additional investigations, remedial actions and/or monitoring will likely be required at each site. A comprehensive description of the five currently and formerly owned sites that account for the majority of the accruals for environmental-related activities is included in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2008. There have been no significant changes in the investigative or remedial status of these five sites since the year ended December 31, 2008.

Management cannot presently estimate the ultimate potential loss contingencies related to these five sites or other less significant sites until such time as a substantial portion of the investigative activities at each site is completed and remedial action plans are developed.

In accordance with FIN No. 47, *Accounting for Conditional Asset Retirement Obligations*—an interpretation of FASB Statement No. 143, the Company has identified certain conditional asset retirement obligations at various current manufacturing, distribution and store facilities. These obligations relate primarily to asbestos abatement and closures of hazardous waste containment devices. Using investigative, remediation and disposal methods that are currently available to the Company, the estimated cost of these obligations is not significant.

In the event any future loss contingency significantly exceeds the current amount accrued, the recording of the ultimate liability may result in a material impact on net income for the annual or interim period during which the additional costs are accrued. Management does not believe that any potential liability ultimately attributed to the Company for its environmental-related matters or conditional asset retirement obligations will have a material adverse effect on the Company's financial condition, liquidity, or cash flow due to the extended period of time during which environmental investigation and remediation takes place. An estimate of the potential impact on the Company's operations cannot be made due to the aforementioned uncertainties.

Table of Contents

Management expects these contingent environmental-related liabilities and conditional asset retirement obligations to be resolved over an extended period of time. Management is unable to provide a more specific time frame due to the indefinite amount of time to conduct investigation activities at any site, the indefinite amount of time to obtain governmental agency approval, as necessary, with respect to investigation and remediation activities, and the indefinite amount of time necessary to conduct remediation activities.

Contractual Obligations, Commercial Commitments and Warranties

Short-term borrowings decreased \$17.2 million to \$499.2 million at June 30, 2009 from \$516.4 million at December 31, 2008. Total long-term debt decreased \$15.8 million to \$301.5 at June 30, 2009 from \$317.3 million at December 31, 2008. See the Financial Condition, Liquidity and Cash Flow section of this report for more information. There have been no other significant changes to the Company's contractual obligations and commercial commitments in the second quarter or first six months of 2009 as summarized in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

Changes to the Company's accrual for product warranty claims in the first three months of 2009 are disclosed in Note E.

Contingent Liabilities

Life Shield Engineered Systems, LLC (Life Shield) is a wholly-owned subsidiary of the Company. Life Shield develops and manufactures blast and fragment mitigating systems and ballistic resistant systems. The blast and fragment mitigating systems and ballistic resistant systems create a potentially higher level of product liability for the Company (as an owner of and raw material supplier to Life Shield and as the exclusive distributor of Life Shield's systems) than is normally associated with coatings and related products currently manufactured, distributed and sold by the Company.

Certain of Life Shield's technology has been designated as Qualified Anti-Terrorism Technology and granted a Designation under the Support Anti-terrorism by Fostering Effective Technologies Act of 2002 (SAFETY Act) and the regulations adopted pursuant to the SAFETY Act. Under the SAFETY Act, the potentially higher level of possible product liability for Life Shield relating to the technology granted the Designation is limited to \$6.0 million per occurrence in the event any such liability arises from an Act of Terrorism (as defined in the SAFETY Act). The limitation of liability provided for under the SAFETY Act does not apply to any technology not granted a designation or certification as a Qualified Anti-Terrorism Technology, nor in the event that any such liability arises from an act or event other than an Act of Terrorism. Life Shield maintains insurance for liabilities up to the \$6.0 million per occurrence limitation caused by failure of its products in the event of an Act of Terrorism. This commercial insurance is also expected to cover product liability claims asserted against the Company as the distributor of Life Shield's systems. The Company expects to seek Designation and Certification under the SAFETY Act for certain products supplied by the Company to Life Shield.

Management of the Company has reviewed the potential increased liabilities associated with Life Shield's systems and determined that potential liabilities arising from an Act of Terrorism that

Table of Contents

could ultimately affect the Company will be appropriately insured or limited by current regulations. However, due to the uncertainties involved in the future development, usage and application of Life Shield's systems, the number or nature of possible future claims and legal proceedings, or the affect that any change in legislation and/or administrative regulations may have on the limitations of potential liabilities, management cannot reasonably determine the scope or amount of any potential costs and liabilities for the Company related to Life Shield or to Life Shield's systems. Any potential liability for the Company that may result from Life Shield or Life Shield's systems cannot reasonably be estimated. However, based upon, among other things, the limitation of liability under the SAFETY Act in the event of an Act of Terrorism, management does not currently believe that the costs or potential liability ultimately determined to be attributable to the Company through its ownership of Life Shield, as a supplier to Life Shield or as a distributor of Life Shield's systems arising from the use of Life Shield's systems will have a material adverse effect on the Company's results of operations, liquidity or financial conditions.

Litigation

In the course of its business, the Company is subject to a variety of claims and lawsuits, including litigation relating to product liability and warranty, personal injury, environmental, intellectual property, commercial, contractual and antitrust claims that are inherently subject to many uncertainties regarding the possibility of a loss to the Company. These uncertainties will ultimately be resolved when one or more future events occur or fail to occur confirming the incurrence of a liability or the reduction of a liability. In accordance with FAS No. 5, Accounting for Contingencies, the Company accrues for these contingencies by a charge to income when it is both probable that one or more future events will occur confirming the fact of a loss and the amount of the loss can be reasonably estimated. In the event that the Company's loss contingency is ultimately determined to be significantly higher than currently accrued, the recording of the additional liability may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such additional liability is accrued. In those cases where no accrual is recorded because it is not probable that a liability has been incurred and cannot be reasonably estimated, any potential liability ultimately determined to be attributable to the Company may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such liability is accrued. In those cases where no accrual is recorded or exposure to loss exists in excess of the amount accrued, FAS No. 5 requires disclosure of the contingency when there is a reasonable possibility that a loss or additional loss may have been incurred if even the possibility may be remote.

Lead pigment and lead-based paint litigation. The Company's past operations included the manufacture and sale of lead pigments and lead-based paints. The Company, along with other companies, is a defendant in a number of legal proceedings, including individual personal injury actions, purported class actions, and actions brought by various counties, cities, school districts and other government-related entities, arising from the manufacture and sale of lead pigments and lead-based paints. The plaintiffs are seeking recovery based upon various legal theories, including negligence, strict liability, breach of warranty, negligent misrepresentations and omissions, fraudulent misrepresentations and omissions, concert of action, civil conspiracy, violations of unfair trade practice and consumer protection laws, enterprise liability, market

Table of Contents

share liability, public nuisance, unjust enrichment and other theories. The plaintiffs seek various damages and relief, including personal injury and property damage, costs relating to the detection and abatement of lead-based paint from buildings, costs associated with a public education campaign, medical monitoring costs and others. The Company is also a defendant in legal proceedings arising from the manufacture and sale of non-lead-based paints which seek recovery based upon various legal theories, including the failure to adequately warn of potential exposure to lead during surface preparation when using non-lead-based paint on surfaces previously painted with lead-based paint. The Company believes that the litigation brought to date is without merit or subject to meritorious defenses and is vigorously defending such litigation. The Company expects that additional lead pigment and lead-based paint litigation may be filed against the Company in the future asserting similar or different legal theories and seeking similar or different types of damages and relief.

Notwithstanding the Company's views on the merits, litigation is inherently subject to many uncertainties, and the Company ultimately may not prevail. Adverse court rulings, such as the jury verdict against the Company and other defendants in the State of Rhode Island action and the Wisconsin State Supreme Court's determination that Wisconsin's risk contribution theory may apply in the lead pigment litigation (both discussed in more detail below), or determinations of liability, among other factors, could affect the lead pigment and lead-based paint litigation against the Company and encourage an increase in the number and nature of future claims and proceedings. (The jury verdict in the State of Rhode Island action was subsequently reversed by the Rhode Island Supreme Court.) In addition, from time to time, various legislation and administrative regulations have been enacted, promulgated or proposed to impose obligations on present and former manufacturers of lead pigments and lead-based paints respecting asserted health concerns associated with such products or to overturn the effect of court decisions in which the Company and other manufacturers have been successful.

Due to the uncertainties involved, management is unable to predict the outcome of the lead pigment and lead-based paint litigation, the number or nature of possible future claims and proceedings, or the effect that any legislation and/or administrative regulations may have on the litigation or against the Company. In addition, management cannot reasonably determine the scope or amount of the potential costs and liabilities related to such litigation, or resulting from any such legislation and regulations. The Company has not accrued any amounts for such litigation. Any potential liability that may result from such litigation or such legislation and regulations cannot reasonably be estimated. In the event any significant liability is determined to be attributable to the Company relating to such litigation, the recording of the liability may result in a material impact on net income for the annual or interim period during which such liability is accrued. Additionally, due to the uncertainties associated with the amount of any such liability and/or the nature of any other remedy which may be imposed in such litigation, any potential liability determined to be attributable to the Company arising out of such litigation may have a material adverse effect on the Company's results of operations, liquidity or financial condition. An estimate of the potential impact on the Company's results of operations, liquidity or financial condition cannot be made due to the aforementioned uncertainties.

Rhode Island lead pigment litigation. The State of Rhode Island initiated an action in October 1999 against the Company and other companies asserting, in part, that lead pigment in paint

Table of Contents

constitutes a public nuisance under Rhode Island law. The claim for public nuisance was originally tried to a jury in 2002 and the court declared a mistrial as the jury, which was split four to two in favor of the defendants, was unable to reach a unanimous decision. The State of Rhode Island retried the case and on February 22, 2006, the jury returned a verdict, finding that (i) the cumulative presence of lead pigment in paints and coatings on buildings in the State of Rhode Island constitutes a public nuisance, (ii) the Company, along with two other defendants, caused or substantially contributed to the creation of the public nuisance, and (iii) the Company and two other defendants should be ordered to abate the public nuisance. The Company and two other defendants appealed and, on July 1, 2008, the Rhode Island Supreme Court, among other determinations, reversed the judgment of abatement with respect to the Company and two other defendants. The Rhode Island Supreme Court's decision reversed the public nuisance liability judgment against the Company on the basis that the complaint failed to state a public nuisance claim as a matter of law. This decision concluded the case in favor of the Company and the other defendants.

Other public nuisance claim litigation. The Company and other companies are or were defendants in other legal proceedings seeking recovery based on public nuisance liability theories including claims brought by the City of St. Louis, Missouri, various cities and counties in the State of New Jersey, various cities in the State of Ohio and the State of Ohio, the County of Santa Clara, California and other public entities in the State of California, and the City of Milwaukee, Wisconsin.

The City of St. Louis proceeding was initiated in January 2000 against the Company and other companies asserting claims for strict liability, negligence, fraudulent misrepresentation, negligent misrepresentation, concert of action, conspiracy, public nuisance, restitution and indemnity. Following various pre-trial proceedings, the City alleged a single count of public nuisance. Following further pre-trial proceedings, the trial court granted the defendants' motion for summary judgment based on the City's lack of product identification evidence. The City appealed and, on June 12, 2007, the Missouri Supreme Court affirmed summary judgment for the Company and other defendants, concluding the case in favor of the Company and the other defendants.

A number of cities and counties in New Jersey individually initiated proceedings in the Superior Court of New Jersey in 2001 and 2002 against the Company and other companies asserting claims for fraud, public nuisance, civil conspiracy, unjust enrichment and indemnity. The cases were consolidated and assigned to the Superior Court in Middlesex County. The Superior Court granted the defendants' motion to dismiss all complaints. Following an appeal by the plaintiffs, the Appellate Division reinstated the public nuisance claims and affirmed the dismissal of all other claims. On June 15, 2007, the New Jersey Supreme Court reversed the Appellate Division's decision to reinstate the public nuisance claims, concluding the case in favor of the Company and the other defendants.

A number of cities in Ohio individually initiated proceedings in state court in 2006 and 2007 against the Company and other companies asserting claims for public nuisance, concert of action, unjust enrichment, indemnity and punitive damages. Also in September 2006, the Company initiated proceedings in the United States District Court, Southern District of Ohio,

Table of Contents

against those Ohio cities, John Doe cities and public officials seeking declaratory and injunctive relief to prevent the violation of the Company's federal constitutional rights in relation to such state court proceedings. All of these Ohio cities' actions have been voluntarily dismissed by the plaintiff cities. Accordingly, on August 28, 2008, the Court granted, with prejudice, the Company's motion to dismiss the remaining proceedings in the United States District Court, Southern District of Ohio.

In April 2007, the State of Ohio filed an action against the Company and other companies asserting a claim for public nuisance. The State of Ohio sought compensatory and punitive damages. On February 6, 2009, the State of Ohio voluntarily dismissed this action.

The Santa Clara County, California proceeding was initiated in March 2000. The named plaintiffs are the County of Santa Clara, County of Santa Cruz, County of Solano, County of Alameda, County of Kern, City and County of San Francisco, San Francisco Housing Authority, San Francisco Unified School District, City of Oakland, Oakland Housing Authority, Oakland Redevelopment Agency and the Oakland Unified School District. The proceeding purports to be a class action on behalf of all public entities in the State of California except the State and its agencies. The plaintiffs' second amended complaint asserted claims for fraud and concealment, strict product liability/failure to warn, strict product liability/design defect, negligence, negligent breach of a special duty, public nuisance, private nuisance and violations of California's Business and Professions Code, and the third amended complaint alleges similar claims including a claim for public nuisance. Various asserted claims were resolved in favor of the defendants through pre-trial demurrers and motions to strike. In October 2003, the trial court granted the defendants' motion for summary judgment against the remaining counts on statute of limitation grounds. The plaintiffs appealed the trial court's decision and, on March 3, 2006, the Court of Appeal, Sixth Appellate District, reversed in part the demurrers and summary judgment entered in favor of the Company and the other defendants. The Court of Appeal reversed the dismissal of the public nuisance claim for abatement brought by the cities of Santa Clara and Oakland and the City and County of San Francisco, and reversed summary judgment on all of the plaintiffs' fraud claim to the extent that the plaintiffs alleged that the defendants had made fraudulent statements or omissions minimizing the risks of low-level exposure to lead. The Court of Appeal further vacated the summary judgment holding that the statute of limitations barred the plaintiffs' strict liability and negligence claims, and held that those claims had not yet accrued because physical injury to the plaintiffs' property had not been alleged. The Court of Appeal affirmed the dismissal of the public nuisance claim for damages to the plaintiffs' properties, most aspects of the fraud claim, the trespass claim and the unfair business practice claim. The plaintiffs have filed a motion for leave to file a fourth amended complaint. On April 4, 2007, the trial court entered an order granting the defendants' motion to bar payment of contingent fees to private attorneys. The plaintiffs appealed the trial court's order and, on April 8, 2008, the California Court of Appeal reversed the trial court's order. The defendants filed a petition for review with the California Supreme Court and the Supreme Court has decided to review the Court of Appeal's decision. Proceedings in the trial court are stayed pending the appeal.

The City of Milwaukee proceeding was initiated in April 2001 against Mautz Paint Co. and NL Industries, Inc. On November 7, 2001, the Company acquired certain assets of Mautz Paint Co. and agreed (under terms and conditions set forth in the purchase agreement) to defend and

Table of Contents

indemnify Mautz Paint Co. for its liability, if any, to the City of Milwaukee in this action. The City's complaint included claims for continuing public nuisance, restitution, conspiracy, negligence, strict liability, failure to warn and violation of Wisconsin's trade practices statute. Following various pre-trial proceedings during which several of the City's claims were dismissed by the court or voluntarily dismissed by the City, on August 13, 2003, the trial court granted defendants' motion for summary judgment on the remaining claims. The City appealed and, on November 9, 2004, the Wisconsin Court of Appeals reversed the trial court's decision and remanded the claims for public nuisance, conspiracy and restitution to the trial court. On February 13, 2007, the trial court entered an order severing and staying the claims against Mautz Paint Co. The action against NL Industries proceeded to trial and the jury found that the presence of lead paint in Milwaukee is a public nuisance, but that NL Industries was not at fault for the public nuisance. The City of Milwaukee appealed the jury verdict finding that NL Industries did not intentionally cause a public nuisance and the Wisconsin Court of Appeals affirmed the trial court's final judgment. The City of Milwaukee filed a petition for review with the Wisconsin Supreme Court to review the Wisconsin Court of Appeals' decision. The Wisconsin Supreme Court denied the City of Milwaukee's petition to review the Wisconsin Court of Appeals' decision.

Litigation seeking damages from alleged personal injury. The Company and other companies are defendants in a number of legal proceedings seeking monetary damages and other relief from alleged personal injuries. These proceedings include claims by children allegedly injured from ingestion of lead pigment or lead-containing paint, claims for damages allegedly incurred by the children's parents or guardians, and claims for damages allegedly incurred by professional painting contractors. These proceedings generally seek compensatory and punitive damages, and seek other relief including medical monitoring costs. These proceedings include purported claims by individuals, groups of individuals and class actions.

The plaintiff in *Thomas v. Lead Industries Association, et al.*, initiated an action against the Company, other alleged former lead pigment manufacturers and the Lead Industries Association in September 1999. The claims against the Company and the other defendants include strict liability, negligence, negligent misrepresentation and omissions, fraudulent misrepresentation and omissions, concert of action, civil conspiracy and enterprise liability. Implicit within these claims is the theory of risk contribution liability (Wisconsin's theory which is similar to market share liability) due to the plaintiff's inability to identify the manufacturer of any product that allegedly injured the plaintiff. Following various pre-trial proceedings during which certain of the plaintiff's claims were dismissed by the court, on March 10, 2003, the trial court granted the defendants' motion for summary judgment, dismissing the case with prejudice and awarding costs to each defendant. The plaintiff appealed and, on June 14, 2004, the Wisconsin Court of Appeals affirmed the trial court's decision. On July 15, 2005, the Wisconsin Supreme Court reversed in part the trial court's decision and decided, assuming all of plaintiff's facts in the summary judgment record to be true, that the risk contribution theory could then apply to excuse the plaintiff's lack of evidence identifying any of the Company's or the other defendant's products as the cause of the alleged injury. The case was remanded to the trial court for further proceedings and a trial commenced on October 1, 2007. On November 5, 2007, the jury returned a defense verdict, finding that the plaintiff had ingested white lead carbonate, but was not brain damaged or injured as a result. The plaintiff filed post-trial motions for a new trial which were

Table of Contents

denied by the trial court. On March 4, 2008, final judgment was entered in favor of the Company and other defendants. The plaintiff has filed an appeal of the final judgment.

Wisconsin is the first jurisdiction to apply a theory of liability with respect to alleged personal injury (i.e.: risk contribution/market share liability) which does not require the plaintiff to identify the manufacturer of the product that allegedly injured the plaintiff in the lead pigment and lead-based paint litigation.

Insurance coverage litigation. On March 3, 2006, the Company filed a lawsuit in the Common Pleas Court, Cuyahoga County, Ohio against its liability insurers, including certain Underwriters at Lloyd's of London. The lawsuit seeks, among other things, (i) a declaration from the court that costs associated with the abatement of lead pigment in the State of Rhode Island, or any other jurisdiction, are covered under certain insurance policies issued to the Company and (ii) monetary damages for breach of contract and bad faith against the Lloyd's Underwriters for unjustified denial of coverage for the cost of complying with any final judgment requiring the Company to abate any alleged nuisance caused by the presence of lead pigment paint in buildings. This lawsuit was filed in response to a lawsuit filed by the Lloyd's Underwriters against the Company, two other defendants in the Rhode Island litigation and various insurance companies on February 23, 2006. The Lloyd's Underwriters' lawsuit asks a New York state court to determine that there is no indemnity insurance coverage for such abatement related costs, or, in the alternative, if such indemnity coverage is found to exist, the proper allocation of liability among the Lloyd's Underwriters, the defendants and the defendants' other insurance companies. An ultimate loss in the insurance coverage litigation would mean that insurance proceeds could be unavailable under the policies at issue to mitigate any ultimate abatement related costs and liabilities. The Ohio state court action has been stayed and the New York state court action has been dismissed.

Shareholders' Equity

Shareholders' equity increased \$128.4 million to \$1.734 billion at June 30, 2009 from \$1.606 billion at December 31, 2008 and increased \$68.5 million from \$1.666 billion at June 30, 2008. The increases in Shareholders' equity resulted primarily from increased retained earnings, increased common stock and other capital resulting from stock option exercises and, in the first six months of 2009, a decrease in Cumulative other comprehensive loss. Partially offsetting these increases in equity were the purchases of treasury stock for \$49.4 million in the first six months of 2009 and \$104.9 million since June 30, 2008 and an increase in Cumulative other comprehensive loss of \$185.2 million in twelve months due primarily to losses associated with Deferred pension assets, net of taxes. During the first six months of 2009, the Company purchased 1,000,000 shares of its common stock for treasury purposes through open market purchases. The Company purchased 2,150,000 shares of its common stock since June 30, 2008 for treasury. The Company acquires its common stock for general corporate purposes and, depending on its cash position and market conditions, it may acquire additional shares in the future. The Company had remaining authorization at June 30, 2009 to purchase 18.75 million shares of its common stock.

Table of Contents

Total increases in common stock and other capital of \$26.6 million during the first six months of 2009 and \$104.1 million during the last twelve months were due primarily to the recognition of stock-based compensation expense and stock option exercises. Retained earnings increased \$113.0 million during the first six months due to net income after taxes exceeding \$83.2 million in cash dividends paid and increased \$258.3 million from June 30, 2008 due to net income that was only partially offset by \$165.1 million in cash dividends paid. At a meeting held on April 15, 2009, the Board of Directors increased the quarterly cash dividend from \$.35 per common share to \$.355 per common share for the second time in 2009. This quarterly dividend, if approved in each of the remaining quarters of 2009, would result in an annual dividend for 2009 of \$1.42 per common share or a 35.5 percent payout of 2008 diluted net income per common share. The Board of Directors considered the increase in the proposed cash dividend payout for 2009 appropriate, representing a percentage payout of 2008 diluted net income per common share exceeding 30.0 percent, in respect to the Net operating cash achieved by the Company and the anticipated short-term negative impact on the Company's earnings of the current economic malaise.

Cash Flow

Net operating cash increased \$3.6 million in six months of 2009 to \$266.4 million from \$262.8 million in 2008 primarily due to a net decrease in cash used to fund working capital requirements of \$57.3 million that was partially offset by a reduction in net income of \$54.3 million. In the twelve month period from July 1, 2008 through June 30, 2009, the Company generated net operating cash of \$879.9 million and invested \$68.1 million in acquisitions, \$87.2 million in capital additions and improvements, reduced its total debt \$431.1 million, purchased \$104.9 million in treasury stock and paid \$165.1 million in cash dividends to its shareholders of common stock. Since the beginning of 2008, the Company acquired five companies that have been included in the consolidated financial results of the Company since the date of acquisition. See Note N for a full description of all acquisitions.

Market Risk

The Company is exposed to market risk associated with interest rate, foreign currency and commodity fluctuations. The Company occasionally utilizes derivative instruments as part of its overall financial risk management policy, but does not use derivative instruments for speculative or trading purposes. In the first six months of 2009, the Company entered into option and forward currency exchange contracts with maturity dates of less than twelve months to hedge against value changes in foreign currency. The Company also entered into swaps in the first six months of 2009 to partially hedge forecasted future commodity purchases. These hedging contracts were designated as cash flow hedges and were insignificant at June 30, 2009. The Company believes it may be exposed to continuing market risk from foreign currency exchange rate and commodity price fluctuations. However, the Company does not expect that foreign currency exchange rate and commodity price fluctuations or hedging contract losses will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Financial Covenant

Certain borrowings contain a consolidated leverage covenant. At June 30, 2009, the Company was in compliance with the covenant. The Company's Notes, Debentures and revolving credit agreement contain various default and cross-default provisions. In the event of default under any

Table of Contents

one of these arrangements, acceleration of the maturity of any one or more of these borrowings may result. See Note 7, on page 60, in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, for more information concerning the Company's debt and related covenant.

RESULTS OF OPERATIONS

Shown below are net sales and the percentage change for the second quarter and first six months by segment:

<i>(thousands of dollars)</i>	2009	Change	2008
Three months ended June 30:			
Paint Stores Group	\$ 1,170,039	-14%	\$ 1,355,033
Consumer Group	366,488	-5%	383,932
Global Finishes Group	409,691	-16%	488,858
Administrative	1,609	-7%	1,722
Net sales	\$ 1,947,827	-13%	\$ 2,229,545
Six months ended June 30:			
Paint Stores Group	\$ 2,068,447	-13%	\$ 2,386,184
Consumer Group	654,640	-2%	670,814
Global Finishes Group	772,202	-19%	950,773
Administrative	3,215	-7%	3,456
Net sales	\$ 3,498,504	-13%	\$ 4,011,227

Consolidated net sales decreased in the second quarter and first six months of 2009 due primarily to weak paint sales volume and unfavorable foreign currency translation rate changes partially offset by the impact of five acquisitions completed since the beginning of 2008.

Net sales of all consolidated foreign subsidiaries were down 14.6 percent to \$248.2 million in the quarter and down 17.6 percent to \$468.0 million in the first six months versus \$290.8 million and \$568.1 million in comparable periods last year. The decreases in net sales for all consolidated foreign subsidiaries in the quarter and first six months were due to an 18.1 percent negative impact of foreign currency exchange rates in the quarter and an 19.7 percent negative impact in the first six months. Acquisitions added 2.7 percent to net sales of all consolidated foreign subsidiaries in the quarter and 3.3 percent in the first six months. Net sales of all operations other than consolidated foreign subsidiaries were down 12.3 percent to \$1.70 billion in the quarter and down 12.0 percent to \$3.03 billion in six months as compared to \$1.94 billion and \$3.44 billion in the same periods last year.

Table of Contents

Net sales in the Paint Stores Group decreased due primarily to weak paint sales volume in the domestic architectural new residential, residential repaint and DIY markets as well as in commercial and industrial markets and sluggish in non-paint categories. Net sales from stores open for more than twelve calendar months decreased 13.5 percent in the quarter and 13.1 percent in the first six months over last year's comparable periods. Total paint sales volume percentage decreases were in the high-teens for the quarter and first six months as compared to the second quarter and first six months last year. Sales of non-paint products decreased by 17.1 percent over last year's second quarter and decreased 16.9 percent over last year's first six months. A discussion of changes in volume versus pricing for sales of products other than paint is not pertinent due to the wide assortment of general merchandise sold.

Net sales of the Consumer Group decreased due primarily to lower volume sales to most of the Group's retail customers partially offset by additional sales to existing customers related to new products.

The Global Finishes Group's net sales decreased when stated in U.S. dollars due primarily to lower paint sales volume and unfavorable currency translation rate changes that were partially offset by acquisitions and selling price increases. Unfavorable currency translation rate changes decreased net sales of this Group in U.S. dollars by 8.5 percent in the quarter and by 9.5 percent in the first six months. Acquisitions increased net sales of the Global Finishes Group by 1.6 percent in the quarter and by 2.0 percent in the first six months.

Shown below are segment profit and the percent change for the second quarter and first six months by segment:

<i>(thousands of dollars)</i>	2009	Change	2008
Three months ended June 30:			
Paint Stores Group	\$ 193,488	-8%	\$ 210,444
Consumer Group	66,085	12%	58,848
Global Finishes Group	31,157	-35%	48,030
Administrative	(58,607)	-4%	(61,150)
Income before income taxes	\$ 232,123	-9%	\$ 256,172
Six months ended June 30:			
Paint Stores Group	\$ 250,068	-15%	\$ 293,737
Consumer Group	96,289	-5%	101,609
Global Finishes Group	36,462	-60%	91,101
Administrative	(99,803)	-15%	(117,246)
Income before income taxes	\$ 283,016	-23%	\$ 369,201

Consolidated income before income taxes was unfavorably impacted by a reduction in gross profit of \$77.6 million in the second quarter and \$177.5 million in the first six months of 2009 compared to the same periods in 2008. As a percent of sales, consolidated gross profit increased to 46.0 percent in the quarter from 43.6 percent in the second quarter of 2008 and improved to

Table of Contents

45.0 percent in the first six months of 2009 from 43.7 percent last year. The dollar decreases in consolidated gross profit relate solely to the decline in sales volume and related costs, including unfavorable currency translation rates. The increases as a percent to sales were due primarily to price increases initiated over the past eighteen months, cost control efforts primarily in the Consumer Group and improved freight and other distribution costs partially offset by incremental site closing costs. Selling, general and administrative expenses (SG&A) decreased \$24.0 million in the quarter and \$66.8 million in the first six months of 2009 versus last year due primarily to good expense control throughout the Company partially offset by incremental store closing costs. As a percent of sales, consolidated SG&A increased to 33.5 percent in the quarter and to 36.1 percent in the first six months from 30.4 percent in the second quarter and 33.1 percent in the first six months of 2008.

The Paint Stores Group's gross profit in the second quarter was lower than last year by \$51.3 million and lower than last year in the first six months by \$97.3 million due to lower paint sales volume and lower non-paint sales. The Paint Stores Group's gross profit margins in the quarter and six months were up slightly more than consolidated margins in the same periods due primarily to reductions in freight and distribution costs and a favorable product sales mix. The Consumer Group's gross profit increased from last year by \$5.4 million in the quarter due primarily to cost control efforts and reductions in freight and related distribution costs. Consumer Group's gross profit in the first six months was still lower than last year by \$5.2 million due to lower sales, lower volume throughput in the manufacturing and distribution facilities and incremental costs related to site closings. Consumer Group's gross profit margins were up compared to the comparable periods last year as cost control efforts of the past eighteen months and reduced site expenses helped overall profitability. The Global Finishes Group's gross profit decreased \$33.1 million in the second quarter and \$77.7 million in the first six months when stated in U.S. dollars due to decreased sales volume, unfavorable currency translation rates and increased manufacturing and distribution costs relating to lower production and sales volumes. The Global Finishes Group's gross profit margins in the quarter and six months were down slightly compared to the comparable periods last year. Unfavorable currency translation rate changes decreased the Group's gross profit by \$16.7 million in the quarter and \$30.8 million in the first six months.

In the Paint Stores Group, SG&A decreased \$13.3 million in the quarter and \$33.7 million in the first six months due primarily to good expense control in relation to soft sales volumes partially offset by some incremental costs related to store closings. The Consumer Group's SG&A increased \$2.2 million in the quarter and \$3.3 million in the first six months due primarily to the impact of acquisitions. The Global Finishes Group's SG&A decreased \$15.1 million in the quarter and \$24.8 million in the first six months relating primarily to unfavorable currency translation rate changes of \$11.0 million in the quarter and \$23.5 million in the first six months partially offset by acquisition expenses.

Administrative expenses in the second quarter of 2009 decreased \$2.5 million over 2008 and decreased \$17.4 million in the first six months versus 2008 due to reductions in interest expense of \$7.8 million in the quarter and \$13.2 million in the first six months, a reduction of \$7.0 million in stock based compensation expense in the first quarter of 2009 and reduced administrative spending partially offset by an increase of \$2.2 million in provisions for

Table of Contents

environmental-related matters in the second quarter of 2009 and an increase of \$8.4 million in the first six months of 2009 and increased benefit costs not directly related to the Reportable Operating Segments.

Consolidated income before income taxes decreased \$24.1 million in the second quarter and decreased \$86.2 million in the first six months of 2009 due primarily to the lower segment profits of the Reportable Operating Segments partially offset by the reduction in administrative expenses.

The effective tax rate for the second quarter of 31.9 percent and 31.0 percent for the first six months were below the effective tax rates for the second quarter and first six months of 2008 of 33.0 percent and 32.4 percent, respectively. Net income for the quarter decreased \$13.7 million to \$158.0 million from \$171.7 million in the second quarter of 2008 and decreased \$54.3 million to \$195.3 million from \$249.6 million in the first six months of 2008. Diluted net income per common share in the quarter decreased 6.9 percent to \$1.35 per share from \$1.45 per share in the second quarter of 2008 and decreased in the first six months 19.8 percent to \$1.66 per share from \$2.07 per share in the first six months of 2008 as lower net income exceeded the impact of the reduction in the diluted average shares and equivalents outstanding from the comparable periods of 2008.

Management considers a measurement that is not in accordance with U.S. generally accepted accounting principles a useful measurement of the operational profitability of the Company. Some investment professionals also utilize such a measurement as an indicator of the value of profits and cash that are generated strictly from operating activities, putting aside working capital and certain other balance sheet changes. For this measurement, management increases net income for significant non-operating and non-cash expense items to arrive at an amount known as Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA). The reader is cautioned that the following value for EBITDA should not be compared to other entities unknowingly. EBITDA should not be considered an alternative to net income or cash flows from operating activities as an indicator of operating performance or as a measure of liquidity. The reader should refer to the determination of net income and cash flows from operating activities in accordance with U. S. generally accepted accounting principles disclosed in the Statements of Consolidated Income and Statements of Consolidated Cash Flows. EBITDA as used by management is calculated as follows:

<i>(thousands of dollars)</i>	Three months ended June		Six months ended June	
	2009	2008	2009	2008
Net income	\$ 158,023	\$ 171,683	\$ 195,302	\$ 249,629
Interest expense	10,356	18,133	22,558	35,806
Income taxes	74,100	84,489	87,714	119,572
Depreciation	37,317	35,325	73,200	71,148
Amortization	5,968	5,364	12,196	10,674
EBITDA	\$ 285,764	\$ 314,994	\$ 390,970	\$ 486,829

Table of Contents**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION**

Certain statements contained in Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are based upon management's current expectations, estimates, assumptions and beliefs concerning future events and conditions and may discuss, among other things, anticipated future performance (including sales and earnings), expected growth, future business plans and the costs and potential liability for environmental-related matters and the lead pigment and lead-based paint litigation. Any statement that is not historical in nature is a forward-looking statement and may be identified by the use of words and phrases such as expects, anticipates, believes, will, result, will continue, plans to and similar expressions. Readers are cautioned not to place undue reliance on any forward-looking statements. Forward-looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of the Company, that could cause actual results to differ materially from such statements and from the Company's historical results and experience.

These risks, uncertainties and other factors include such things as: (a) continuation of the current negative global economic and financial conditions; (b) general business conditions, strengths of retail and manufacturing economies and the growth in the coatings industry; (c) competitive factors, including pricing pressures and product innovation and quality; (d) changes in raw material and energy supplies and pricing; (e) changes in the Company's relationships with customers and suppliers; (f) the Company's ability to attain cost savings from productivity initiatives; (g) the Company's ability to successfully integrate past and future acquisitions into its existing operations, as well as the performance of the businesses acquired; (h) risks and uncertainties associated with the Company's ownership of Life Shield Engineered Systems LLC; (i) changes in general domestic economic conditions such as inflation rates, interest rates, tax rates, unemployment rates, higher labor and healthcare costs, recessions, and changing governmental policies, laws and regulations; (j) risks and uncertainties associated with the Company's expansion into and its operations in Asia, Mexico and South America and other foreign markets, including general economic conditions, inflation rates, recessions, foreign currency exchange rates, foreign investment and repatriation restrictions, legal and regulatory constraints, civil unrest and other external economic and political factors; (k) the achievement of growth in developing markets, such as Asia, Mexico and South America; (l) increasingly stringent domestic and foreign governmental regulations including those affecting the environment; (m) inherent uncertainties involved in assessing the Company's potential liability for environmental-related activities; (n) other changes in governmental policies, laws and regulations, including changes in accounting policies and standards and taxation requirements (such as new tax laws and new or revised tax law interpretations); (o) the nature, cost, quantity and outcome of pending and future litigation and other claims, including the lead pigment and lead-based paint litigation, and the effect of any legislation and administrative regulations relating thereto; and (p) unusual weather conditions.

Table of Contents

Readers are cautioned that it is not possible to predict or identify all of the risks, uncertainties and other factors that may affect future results and that the above list should not be considered to be a complete list. Any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

**Item 3. QUANTITATIVE AND QUALITATIVE
DISCLOSURES ABOUT MARKET RISK**

The Company is exposed to market risk associated with interest rate, foreign currency and commodity fluctuations. The Company occasionally utilizes derivative instruments as part of its overall financial risk management policy, but does not use derivative instruments for speculative or trading purposes. The Company enters into option and forward currency exchange contracts and commodity swaps to hedge against value changes in foreign currency and commodities. The Company believes it may experience continuing losses from foreign currency translation and commodity price fluctuations. However, the Company does not expect currency translation, transaction, commodity price fluctuations or hedging contract losses to have a material adverse effect on the Company's financial condition, results of operations or cash flows. There were no material changes in the Company's exposure to market risk since the disclosure included in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

Item 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our Chairman and Chief Executive Officer and our Senior Vice President Finance and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 and Rule 15d-15 of the Securities Exchange Act of 1934, as amended (Exchange Act). Based upon that evaluation, our Chairman and Chief Executive Officer and our Senior Vice President Finance and Chief Financial Officer concluded that as of the end of the period covered by this report our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and accumulated and communicated to our management including our Chairman and Chief Executive Officer and Our Senior Vice President Finance and Chief Financial Officer, to allow timely decisions regarding required disclosure. There were no changes in our internal control over financial reporting identified in connection with the evaluation that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION**Item 1. Legal Proceedings.

For information with respect to certain environmental-related matters and legal proceedings, see the information included under the captions entitled Environmental-Related Liabilities and Litigation of Management's Discussion and Analysis of Financial Condition and Results of Operations and Notes H and I of the Notes to Condensed Consolidated Financial Statements, which is incorporated herein by reference.

Item 2. Unregistered Sales of Securities and Use of Proceeds.

A summary of the repurchase activity for the Company's second quarter is as follows:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Number of Shares Purchased as Part of Publicly Announced Plan	Number of Shares That May Yet Be Purchased Under the Plan
April 1 - April 30				
Share repurchase program ⁽¹⁾				19,250,000
Employee transactions ⁽²⁾	1,534	\$56.81		NA
May 1 - May 31				
Share repurchase program ⁽¹⁾	300,000	\$54.44	300,000	18,950,000
Employee transactions ⁽²⁾				NA
June 1 - June 30				
Share repurchase program ⁽¹⁾	200,000	\$53.62	200,000	18,750,000
Employee transactions ⁽²⁾				NA
Total				
Share repurchase program ⁽¹⁾	500,000	\$54.11	500,000	18,750,000
Employee transactions ⁽²⁾	1,534	\$56.81		NA

(1) All shares were purchased through the Company's publicly announced share repurchased program. On October 19, 2007, the Board of Directors of the Company authorized the Company to purchase, in the

aggregate, 30.0 million shares of its common stock and rescinded the previous authorization limit. The Company had remaining authorization at June 30, 2009 to purchase 18,750,000 shares. There is no expiration date specified for the program. The Company intends to repurchase stock under the program in the future.

- (2) All shares were delivered to satisfy the exercise price and/or tax withholding obligations by employees who exercised stock options or had shares of restricted stock vest.
