KRAMONT REALTY TRUST AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) ORGANIZATION AND BUSINESS

Kramont Realty Trust, a Maryland real estate investment trust ("Kramont"), is a self-administered, self-managed equity real estate investment trust ("REIT") which is engaged in the ownership, acquisition, redevelopment, management and leasing of community and neighborhood shopping centers. Kramont does not directly own any assets other than its interest in Kramont Operating Partnership, L.P. ("Kramont OP") and conducts its business through Kramont OP and its affiliated entities, including Montgomery CV Realty, L.P. ("Montgomery

Edgar Filing: KRAMONT REALTY TRUST - Form 10-Q

OP", together with Kramont OP and their wholly-owned subsidiaries, hereinafter collectively referred to as the "OPs", which together with Kramont are hereinafter referred to as the "Company"). The OPs, directly or indirectly, own all of the Company's assets, including its interest in shopping centers. Accordingly, the Company conducts its operations through an Umbrella Partnership REIT ("UPREIT") structure. As of June 30, 2003, Kramont owned 93.49% of Kramont OP and is its sole general partner. As of June 30, 2003, Kramont OP indirectly owned 99.87% of the limited partnership interest of Montgomery OP and owned 100% of its sole general partner. As of June 30, 2003, the OPs owned and operated eighty-two shopping centers (two of which are held for sale) and three office buildings (one of which is held for sale), and managed five shopping centers for third parties, located in 15 states aggregating approximately 11.6 million square feet.

In the opinion of management, all adjustments considered necessary for a fair presentation have been included. For further information please refer to the audited financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002.

Certain 2002 balance sheet and income statement amounts have been reclassified to conform to current year presentation. These reclassifications had no impact to net income to common shareholders as previously reported.

(2) ACCOUNTING POLICIES AND PROCEDURES

New Accounting Pronouncements

In January 2003, the FASB issued FASB Interpretation No. 46, Consolidation of Variable Interest Entities ("FIN 46"). FIN 46 provides new guidance for the consolidation of variable interest entities for which the voting interest model is difficult to apply. Many variable interest entities have commonly been referred to as special-purpose entities or off-balance sheet structures. The new guidance, however, applies to a larger population of entities. The adoption of FIN 46 did not have a material impact on the Company's financial position or results of operations.

Stock Options

The Company applies APB Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations in accounting for its stock option plans. Statement of Financial Accounting Standards No. 123 ("SFAS 123"), Accounting for Stock-Based Compensation, requires the Company to provide pro forma information regarding net income and net income per common share as if compensation cost for stock options granted under the plans, if applicable, had been determined in accordance with the fair value based method prescribed in SFAS 123. The Company does not plan to adopt the fair value based method prescribed by SFAS 123.

5

Solely for the purpose of providing the pro forma information required by SFAS 123, the Company estimates the fair value of each stock option grant by using the Black-Scholes option-pricing model with the following weighted average assumptions used for grants: expected lives of ten years; dividend yield of 8.70%, volatility at 30%, risk free interest rate of 4.53% for 2002.

Under accounting provisions of SFAS 123, the Company's net income to common shareholders and net income per common share, would have been reduced to the pro forma amounts indicated below (in thousands, except per share data):

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

Three Months Ended June 30, 2003 and 2002

Net Income

For the quarter ended June 30, 2003, net income to holders of common shares of beneficial interest was \$2.9 million or \$.12 per common share compared to \$2.8 million or \$.14 per common share for the same period of

Edgar Filing: KRAMONT REALTY TRUST - Form 10-Q

2002. Net income per share was also impacted by the increased weighted average of common shares of beneficial interest.

During the quarter ended June 30, 2003, rent revenue and operating expenses increased by \$600,000 and \$618,000, respectively (a net rental income decrease of \$18,000). The rent revenue increase is primarily due to increased base rentals and recoveries of operating expense in the existing portfolio in the amount of \$276,000

8

and an increase in rental revenue of \$324,000 resulting from the acquisition of a shopping center on April 26, 2002 and the acquisition of two shopping centers and an office building on April 3, 2003. Operating expenses increased during the second quarter of 2003 primarily due to an increase in snow removal expense in the amount of \$241,000, an increase in insurance expense in the amount of \$163,000, an increase in real estate expense in the amount of \$91,000, and an increase in general maintenance expense in the amount of \$95,000.

Interest income decreased by \$127,000 during the second quarter of 2003, of which \$67,000 is attributable to scheduled repayments of mortgage notes receivable (see Note 5) which are long term and require self-amortizing payments through 2012, and lower interest earned on cash deposits in the amount of \$60,000 as a result of lower rates.

Interest expense decreased by \$354,000 during the second quarter of 2003 primarily as a result of a decrease in rates on the Company's variable rate debt and the repayment of borrowings in the amounts of approximately \$150,000 and \$300,000, respectively, offset by an increase in the amortization of deferred finance costs in the amount of approximately \$100,000.

Depreciation and amortization increased by \$373,000, primarily due to additional expense of \$307,000 as a result of capital expenditures and the additional expense of \$66,000 as a result of the acquisition of two shopping centers and an office building on April 3, 2003.

General and administrative expenses increased by \$563,000, primarily due to higher payroll related expenses in the amount of \$270,000 as a result of additional personnel, increased salaries, and higher severance expense in the amount of \$150,000 accrued for terminated employees. In addition, during the second quarter of 2003, the Company incurred increased expenses of approximately \$200,000 due to the implementation of a corporate marketing program and an increase in information technology expenses of approximately \$85,000.

Net income from discontinued operations was \$608,000 for the second quarter of 2003 compared to a net loss of \$224,000 for the second quarter of 2002. The 2003 amount included a gain from the sale of real estate in the amount of \$646,000. The 2002 amount consists of the net loss from properties sold in 2003 and 2002, as well as the properties held for sale.

Six Months Ended June 30, 2003 and 2002

For the six months ended June 30, 2003, net income to common shareholders of beneficial interest was \$6.7 million or \$.29 per common share compared to \$5.5 million or \$.28 per common share for the same period of 2002. Net income per share was also impacted by the increased weighted average of common shares of beneficial interest.

Edgar Filing: KRAMONT REALTY TRUST - Form 10-Q

During the six months ended June 30, 2003, rent revenue increased by \$2.8 million and operating expenses increased by \$3.2 million (a net rental income decrease of \$435,000). The rent revenue increase is primarily due to increased base rentals and recoveries of operating expense in the existing portfolio in the amount of \$2.5 million and an increase in rental revenue in the amount of \$618,000 due to the acquisition of a shopping center on April 26, 2002 and the acquisition of two shopping centers and an office building on April 3, 2003, offset by lost rental revenue due to tenant bankruptcies in the amount of \$297,000. Operating expenses increased during the six months ended June 30, 2002 due to an increase in snow removal costs in 2003 in the amount of \$2.2 million, an increase in general maintenance expense in the amount of \$387,000, an increase in insurance expense in the amount of \$337,000, an increase in real estate taxes in the amount of \$132,000, and additional expense of \$86,000 as a result of the acquisition of a shopping center on April 26, 2002.

Interest income decreased by \$215,000 during the first six months of 2002, of which \$131,000 is attributable to scheduled repayments of mortgage notes receivable (see Note 5), which are long term and require self-

9

amortizing payments through 2012, and lower interest earned on cash deposits in the amount of \$84,000 as a result of lower rates.

Interest expense decreased by \$1.3 million during the first six months of 2002 primarily as a result of a decrease in rates on the Company's variable rate debt and the repayment of borrowings in the amounts of approximately \$320,000 and \$950,000, respectively.

Depreciation and amortization increased by \$665,000 primarily due to additional expense of \$557,000 as a result of capital expenditures and the additional expense of \$108,000 as a result of the acquisition of a shopping center on April 26, 2002 and the acquisition of two shopping centers and an office building on April 3, 2003.

General and administrative expenses increased by \$1.1 million, primarily due to higher payroll related expenses in the amount of \$600,000 as a result of additional personnel, increased salaries, higher performance related bonuses, and severance expense in the amount of \$150,000 accrued for terminated employees. In addition, the Company incurred increased expenses of \$300,000 due to the implementation of a corporate marketing program and an increase in information technology expenses of \$130,000.

Net income from discontinued operations was \$2.2 million for the first six months of 2003 compared to a net income of \$36,000 for the same period of 2002. The 2003 amount included a gain from the sale of real estate in the amount of \$2.3 million compared to a gain from the sale of real estate in the amount of \$212,000 for the same period in 2002. The 2002 amount consists of the net loss from properties sold in 2003 and 2002, as well as the properties held for sale.

Funds From Operations

The Company believes that FFO should be considered in conjunction with net income, as presented in the statements of operations. The Company believes that FFO is an appropriate measure of operating performance because real estate depreciation and amortization charges are not meaningful in evaluating the operating results of the Company's properties and extraordinary items and the gain on the sale of income-producing real estate would distort the comparative measurement of performance and may not be relevant to ongoing operations. However, FFO does not represent cash generated from operating activities in accordance with generally accepted accounting principles and should not be considered as an alternative to either net income as a measure of the Company's operating performance or to cash flows from operating activities as an indicator of liquidity or cash available to fund all cash flow needs. Since all companies do not calculate FFO in a similar fashion, the Company's calculation, presented above, may not be comparable to similarly titled measures reported by other companies.

LIQUIDITY AND CAPITAL RESOURCES

Consolidated Statements of Cash Flows

Net cash provided by operating activities, as reported in the Consolidated Statements of Cash Flows, amounted to \$15.8 million for the six months ended June 30, 2003 compared to \$22.4 million for the same period in 2002. The decrease in cash flow is primarily due to a decrease in the net income from continuing operations in the amount of \$1.1 million in the first six months of 2003 compared the same period in 2002 , a decrease in accounts payable and other liabilities of \$3.7 million in the first six months of 2003 compared to an

Edgar Filing: KRAMONT REALTY TRUST - Form 10-Q

increase of \$2.1 million for the same period in 2002 , offset by a decrease in other assets in the amount of \$2.2 million for the first six months of 2003 compared to a decrease of \$1.6 million for the same period in 2002.

Net cash used in investing activities for the six months ended June 30, 2003 decreased to \$4.2 million from net cash used in investing activities of \$10.1 million for the same period in 2002. The 2003 amounts reflect \$9.8 million of capital improvements and \$4.3 million used for acquisitions, offset by net proceeds from the sale of real estate in the amount of \$7.9 million, \$900,000 of collections on mortgage notes receivable and a \$785,000 change in restricted cash. The 2002 amounts reflect \$8.4 million used for acquisitions and \$3.6 million of capital improvements offset by net proceeds from the sale of real estate in the amount of \$982,000 and \$803,000 of collections on mortgage notes receivable.

Net cash used in financing activities was \$18.9 million for the six months ended June 30, 2003 compared to cash provided by financing activities of \$299,000 in the same period in 2002. The 2003 amounts consist of cash distributions of \$18.6 million to shareholders, cash distributions of \$1 million to minority interests, \$2.1 million payment of deferred finance costs, and \$1.4 million of net repayment of borrowings, partially offset by \$4.2 million of proceeds from the issuance of common shares of beneficial interest. The 2002 amounts consist of \$31.9 million of proceeds from the issuance of common shares of beneficial interest, offset by cash distributions of \$16.1 million to shareholders, \$8.1 million of net repayment of borrowings, \$6.1 million used for the repurchase of preferred shares of beneficial interest and cash distributions of \$1 million to minority interests.

Borrowings

At June 30, 2003, the Company's contractual obligations are as follows:

Payments Due by Period (in millions)			
Less than 1 year	1 to 3 years	4 to 5 years	After 5 years
\$ 32.9	\$ 100.0	\$ 31.5	\$ 314.7

11

At June 30, 2003, borrowings were \$479.1 million. Scheduled principal payments over the remainder of this year and the next four years are \$164.4 million with \$314.7 million due thereafter. Borrowings consist of \$422.4 million of fixed rate indebtedness, with a weighted average interest rate of 6.80% at June 30, 2003, and \$56.7 million of variable rate indebtedness with a weighted average interest rate of 4.00% at June 30, 2003. The borrowings are collateralized by a substantial portion of the Company's real estate and three Century Village adult condominium communities in southeast Florida (collectively, the "Recreation Notes"). The Company expects to refinance certain of these borrowings, at or prior to maturity, through new mortgage loans on real estate. The ability to do so, however, is dependent upon various factors, including the income level of the properties, interest rates and credit conditions within the commercial real estate market. Accordingly, there can be no assurance that such refinancing can be achieved.

Effective June 16, 2003, the Company entered into a ten year, fixed rate loan agreement with Metropolitan Life Insurance Company (the "Metlife Loan") for a loan in the amount of \$190 million to replace a \$181.7 million fixed rate real

Edgar Filing: KRAMONT REALTY TRUST - Form 10-Q

estate mortgage loan that matured on June 20, 2003. The Metlife Loan is secured by fifteen shopping center properties (the "Mortgaged Properties") and the entire principal balance of the Metlife Loan is due in June 2013. The Metlife Loan bears an average fixed interest rate of 6.12% per annum and requires monthly payments of interest only for the first two years of the ten year term and monthly payments of interest and principal based on a 30-year amortization for the remaining term.

Effective December 20, 2002, the Company entered into a loan agreement (the "Loan Agreement") with Fleet National Bank, N.A. on its own behalf and as agent for certain other banks providing for a credit facility (the "Credit Facility"). As of December 30, 2002, the date of the initial funding, the maximum amount of the Credit Facility was \$100 million and the maximum amount the Company could borrow was \$68 million based on the current collateral. The maximum amount of the Credit Facility was increased to \$125 million on March 19, 2003, under the terms and conditions of the Loan Agreement. The Borrowing Base available to Kramont OP under the Credit Facility is subject to increase or decrease from its current amount pursuant to the terms of the Loan Agreement. The Credit Facility is a revolving line of credit with a term of three years and is secured by guarantees by the Company and those of its subsidiaries who have provided mortgages to the lenders, thirteen first mortgages on shopping centers and a first priority security interest in the membership interests and partnership interests of the subsidiary entities. The Credit Facility contains various financial covenants that must be observed. The Company was in compliance with these covenants at June 30, 2003. Credit Facility borrowings bear interest at the Borrower's election of (a) at the prime rate or the prime rate plus 25 basis points based on the leverage ratio of the Company's and Kramont OP's total debt and liabilities to its total asset value, or (b) London InterBank Offered Rate ("LIBOR") plus 175 to 225 basis points based on such ratio. Interest rates may be set for one, three or six-month periods. Advances under the Credit Facility may be used for general corporate purposes and, among other purposes, to fund acquisitions, repayment of all or part of outstanding indebtedness, expansions, renovations, financing and refinancing of real estate, closing costs and for other lawful purposes. Additional provisions include arrangement and commitment fees of up to \$1.1 million, and a fee applicable to the unused portion of the maximum Credit Facility amount. The \$68 million received on December 30, 2002, was used to pay outstanding debt, including a portion of the amount outstanding under the Company's credit facility with GMAC Commercial Mortgage which matures in August, 2003. On December 31, 2002, and January 2, 2003, \$25 million and \$4 million, respectively, received from the issuance of equity was used to decrease the outstanding balance of the Credit Facility to \$39 million.

In 1998, the Company obtained a \$65.9 million fixed rate mortgage from Salomon Brothers Realty Corp. This loan is secured by a first mortgage on nine properties acquired by the Company in September 1998. The mortgage loan bears a fixed interest rate of 7% per annum and requires monthly payments of interest and principal based on a 30-year amortization. The loan matures on October 1, 2008. The outstanding balance on the mortgage was approximately \$62.7 million as of June 30, 2003. Pursuant to the mortgage loan, the Company is required to make monthly escrow payments for the payment of tenant improvements and repair reserves.

In addition, the Company has twenty-six mortgage loans outstanding as of June 30, 2003 which were primarily assumed in connection with various acquisitions of certain shopping centers. These mortgage loans have maturity dates ranging from 2003 through 2028. Twenty of the twenty-six mortgage loans have fixed interest rates ranging from 6.08% to 9.38%. The outstanding principal balance on these mortgage loans at June 30, 2003 was approximately \$153.2 million. The remaining

Edgar Filing: KRAMONT REALTY TRUST - Form 10-Q

six mortgage loans, in the aggregate amount of \$17.7 million at June 30, 2003, have variable rates ranging from 2.72% to 7.13%.

The Company has \$16.5 million of borrowings consisting of Collateralized Mortgage Obligations, net of unamortized discount, with a fixed effective interest rate of 8.84% which are collateralized by the Recreation Notes and require self-amortizing principal and interest payments through March 2007.

On July 12, 2001, the Company established a secured line of credit in the amount of \$3.2 million with Wachovia Bank, N.A. This line is secured by a shopping center and has an interest rate payable at a rate adjusted monthly to the sum of 30 day LIBOR plus 1.8%. The line of credit matures on November 1, 2003. No amounts were outstanding at June 30, 2003 on this line of credit.

The Company has a line of credit with Wilmington Trust of Pennsylvania in the amount of \$3.5 million secured by two shopping centers with an interest rate payable at a rate adjusted monthly to the sum of 30 day LIBOR plus 1.8%. The line of credit matures on September 30, 2003. At June 30, 2003 there was no outstanding balance on this line of credit.

Capital Resources

On April 3, 2002, the Company filed a Shelf Registration Statement on Form S-3 ("Shelf Registration") to register \$150 million in common and preferred shares of beneficial interest, depository shares, warrants and debt securities. The Shelf Registration Statement became effective April 17, 2002.

On January 2, 2003, under the Shelf Registration, the Company sold 280,000 of its common shares of beneficial interest for proceeds of \$4 million to Teachers Insurance and Annuity Association of America. The Company used \$4 million to pay down the Credit Facility.

The Company's operating funds are generated from rent revenue net of operating expense from income producing properties and, to a much lesser extent, interest income on the mortgage notes receivable. The Company believes that the operating funds will be sufficient in the foreseeable future to fund operating and administrative expenses, interest expense, recurring capital expenditures and distributions to shareholders in accordance with REIT requirements. Sources of capital for non-recurring capital expenditures and scheduled principal payments, including balloon payments, on outstanding borrowings are expected to be obtained from property refinancings, scheduled principal repayments on the mortgage notes receivable, sales of non-strategic real estate, the Company's lines of credit and/or potential debt or equity financings in the public or private markets.

Subsequent Events

On July 24, 2003, the Company completed the acquisition of a 136,000 square foot shopping center in Orange, Connecticut for a purchase price of \$18.3 million including transaction costs. The center is fully occupied and is anchored by a 50,000 square foot Christmas Tree Shop store. The shopping center was purchased using cash and the assumption of approximately \$11 million in non-recourse debt.

On July 25, 2003, the Company completed the acquisition of a 161,000 square foot shopping center in Vestal, New York for a purchase price of \$13.1 million including transaction costs. The center is 94% occupied and anchored by an 82,500 square foot furniture and appliance store. The shopping center was purchased using a

Edgar Filing: KRAMONT REALTY TRUST - Form 10-Q

combination of cash, 185,018 common shares of beneficial interest and the assumption of \$7.8 million in non-recourse debt.

On July 25, 2003, the Company completed the acquisition of four shopping centers in Vestal, New York on behalf of a joint venture between the Company and Tower Fund, a commingled separate account available through annuity contracts of Metropolitan Life Insurance Company (New York, New York) and managed by SSR Realty Advisors. The four joint venture properties were purchased for total purchase price of approximately \$70 million including transaction costs. The four centers have a combined gross leasable area of 553,000 square feet and are fully occupied. The shopping centers were purchased using \$43.7 million in non-recourse debt and the balance in cash. The Company's equity interest in the four properties is twenty percent, or approximately \$5.2 million.

INFLATION

During recent years, the rate of inflation has remained at a low level and has had minimal impact on the Company's operating results. Most of the tenant leases contain provisions designed to lessen the impact of inflation. These provisions include escalation clauses which generally increase rental rates annually based on cost of living indexes (or based on stated rental increases which are currently higher than recent cost of living increases), and percentage rentals based on tenant's gross sales, which generally increase as prices rise. Many of the leases are for terms of less than ten years which increases the Company's ability to replace those leases which are below market rates with new leases at higher base and/or percentage rentals. In addition, most of the leases require the tenants to pay their proportionate share of increases in operating expenses, including common area maintenance, real estate taxes and insurance.

However, in the event of significant inflation, the Company's operating results could be adversely affected if general and administrative expenses and interest expense increases at a rate higher than rent income or if the increase in inflation exceeds rent increases for certain tenant leases which provide for stated rent increases (rather than based on cost of living indexes).

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's primary exposure to market risk is to changes in interest rates. The Company has both fixed and variable rate debt. The Company has \$479.1 million of debt outstanding as of June 30, 2003 of which \$422.4 million, or 88%, has been borrowed at fixed rates ranging from 6.08% to 9.38% with maturities through 2028. As these debt instruments mature, the Company typically refinances such debt at their existing market interest rates which may be more or less than interest rates on the maturing debt. Changes in interest rates have different impacts on the fixed and variable rate portions of the Company's debt portfolio. A change in interest rates impacts the net market value of the Company's fixed rate debt, but has no impact on interest incurred or cash flows on the Company's fixed rate debt. Interest rate changes on variable debt impacts the interest incurred and cash flows but does not impact the net market value of the debt instrument. Based on the variable rate debt of the Company as of June 30, 2003, a 100 basis point increase in interest rates would result in an additional \$567,000 in interest incurred per year and a 100 basis point decline would lower interest incurred by \$567,000. To ameliorate the risks of interest rate increases, the Company has entered into interest rate swap agreements in the notional amounts of \$32.5 million. A 100 basis point increase in interest rates would result in a \$10.7 million decrease in the fair value of the fixed rate debt and a 100 basis point decline would result in a \$9.6 million increase in the fair value.

The Company also has \$32.4 million of fixed rate mortgage notes receivable. Changes in interest rates impacts the market value of the mortgage notes receivable, but has no impact on interest earned or cash flows. A 100 basis

Edgar Filing: KRAMONT REALTY TRUST - Form 10-Q

point increase in interest rates would result in a \$1.6 million decrease in the fair value of the mortgage notes receivable and a 100 basis point decline would result in a \$2.3 million increase in the fair value.
