SPARK NETWORKS® REPORTS SECOND QUARTER 2017 RESULTS

LOS ANGELES, Calif., August 7, 2017 Spark Networks, Inc. (NYSE MKT: LOV) today reported results for the second quarter of 2017.

With our recent relaunch of JDate on our new technology platform we reached a major strategic milestone, and are well on our way toward completing the launch of Christian Mingle later this quarter, said Danny Rosenthal, Chief Executive Officer of Spark Networks. We expect that the release of the new platform will quickly translate into operational cost savings and increased marketing efficiency and effectiveness.

In Q2, we saw our second consecutive quarter of revenue stability within the Jewish Networks. These results, when combined with our new platform, position us to make the data-driven marketing investments necessary to drive future growth and value creation.

As previously announced on May 2, 2017, Spark Networks, Inc. entered into a definitive agreement with Affinitas GmbH (EliteSingles), which operates premium online dating platforms EliteSingles, eDarling and Attractive World to combine in a stock-for-stock merger. Spark continues to expect the transaction to close in the fourth quarter of 2017, subject to Spark shareholder approval and the satisfaction of certain other customary closing conditions.

In light of the pending merger, Spark will not host a conference call to review its second quarter 2017 results.

¹ Contribution is defined as revenue, net of credits and credit card chargebacks, less direct marketing.

² The Company reports Adjusted EBITDA as a supplemental measure to generally accepted accounting principles (GAAP). This non-GAAP measure is one of the primary metrics by which we evaluate the performance of our businesses, budget, forecast and compensate management. We believe this measure provides management and investors with a consistent view, period to period, of the core earnings generated from on-going operations and excludes the impact of: (i) non-cash items such as stock-based compensation, asset impairments, non-cash currency translation adjustments related to an inter-company loan and (ii) one-time items that have not occurred in the past two years and are not expected to recur in the next two years. Adjusted EBITDA should not be construed as a substitute for net income (loss) (as determined in accordance with GAAP) for the purpose of analyzing our operating performance or financial position, as Adjusted EBITDA is not defined by GAAP. A reconciliation of the Adjusted EBITDA for the three and six months ended June 30, 2017 can be found in the table below.

Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, amortization, stock-based compensation, impairment of intangible and long-lived assets, non-cash currency translation adjustments for an inter-company loan and non-recurring legal and acquisition costs.

³ Paying Subscribers are defined as individuals who have paid a monthly fee for access to communication and website features beyond those provided to our members. Period ending subscribers for each quarter represent the paying subscriber count as of the last day of the period. Average paying subscribers for each month are calculated as the sum of the paying subscribers at the beginning and end of the month, divided by two. Average paying subscribers for periods longer than one month are calculated as the sum of the average paying subscribers for each month, divided by the number of months in such period. The calculation excludes results from the Company's HurryDate business due to its relative size.

⁴ In accordance with Segment Reporting guidance, the Company's financial reporting includes detailed data on four separate operating segments. The Jewish Networks segment consists of JDate, JDate.co.il, JDate.fr, JDate.co.uk, and JSwipe.
