CBS CORPORATION AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Tabular dollars in millions, except per share amounts)

1) BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business-CBS Corporation (together with its consolidated subsidiaries unless the context otherwise requires, the “Company” or “CBS Corp.”) is comprised of the following segments: Entertainment (CBS Television, comprised of the CBS Television Network, CBS Television Studios and CBS Global Distribution Group; CBS Interactive and CBS Films), Cable Networks (Showtime Networks, CBS Sports Network and Smithsonian Networks), Publishing (Simon & Schuster) and Local Broadcasting (CBS Television Stations and CBS Radio).

Basis of Presentation-The accompanying unaudited consolidated financial statements of the Company have been prepared pursuant to the rules of the Securities and Exchange Commission. These financial statements should be read in conjunction with the more detailed financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015.

In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting only of normal and recurring adjustments, necessary for a fair statement of the financial position, results of operations and cash flows of the Company for the periods presented. Certain previously reported amounts have been reclassified to conform to the current presentation.

Use of Estimates-The preparation of the Company’s financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the reporting period. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Other Operating Items, Net-Other operating items, net for the three months ended March 31, 2016 and 2015 includes gains from the sales of businesses, and for 2016 also includes a multiyear, retroactive impact of a new operating tax.

Net Earnings per Common Share-Basic net earnings per share (“EPS”) is based upon net earnings divided by the weighted average number of common shares outstanding during the period. Diluted EPS reflects the effect of the assumed exercise of stock options and vesting of restricted stock units (“RSUs”) only in the periods in which such effect would have been dilutive. Excluded from the calculation of diluted EPS because their inclusion would have been anti-dilutive, were 8 million and 5 million stock options and RSUs for the three months ended March 31, 2016 and 2015, respectively.

The table below presents a reconciliation of weighted average shares used in the calculation of basic and diluted EPS.

	Three Months Ended March 31, 2016	2015

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Tabular dollars in millions, except per share amounts)

Other Liabilities-Other liabilities consist primarily of the noncurrent portion of residual liabilities of previously disposed businesses, participants' share and royalties payable, program rights obligations, deferred compensation and other employee benefit accruals.

Additional Paid-In Capital-For the three months ended March 31, 2016 and 2015, the Company recorded dividends of \$69 million and \$75 million, respectively, as a reduction to additional paid-in capital as the Company had an accumulated deficit balance.

Adoption of New Accounting Standards

Simplifying the Accounting for Measurement Period Adjustments

During the first quarter of 2016, the Company adopted amended Financial Accounting Standards Board ("FASB") guidance which eliminates the requirement to retrospectively account for adjustments to provisional amounts recognized in a business combination when new information is obtained during the measurement period about facts and circumstances that existed as of the acquisition date. Under the amended guidance the acquirer is required to recognize such adjustments in the reporting period in which the adjustment amounts are identified. Such adjustments also include the effect on earnings from any changes in depreciation, amortization, or other income effects resulting from the change to provisional amounts, as if the change occurred at the acquisition date. The amendment also requires disclosure or separate presentation on the face of the income statement of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. The adoption of this guidance did not have an effect on the Company's consolidated financial statements.

Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items

During the first quarter of 2016, the Company adopted amended FASB guidance which eliminates the concept of extraordinary items. This guidance removes the requirement to assess whether an event or transaction is both unusual in nature and infrequent in occurrence and to separately present any such items on the statement of operations after income from continuing operations. Rather, such items are required to be presented as a separate component of income from continuing operations or disclosed in the notes to the financial statements. The adoption of this guidance did not have an effect on the Company's consolidated financial statements.

Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period

During the first quarter of 2016, the Company adopted FASB guidance on the accounting for stock-based compensation when the terms of an award provide that a performance target that affects vesting could be achieved after the requisite service period. Under this guidance, such performance target should not be reflected in estimating the grant-date fair value of the award. The Company should begin recognizing compensation cost in the period in which it becomes probable that the performance target will be achieved, for the cumulative amount of compensation cost attributable to the period(s) for which the requisite service has already been rendered. The adoption of this guidance did not have an effect on the Company's consolidated financial statements.

Recent Pronouncements

Improvements to Employee Share-Based Payment Accounting

In March 2016, the FASB issued amended guidance which simplifies several aspects of the accounting for employee share-based payment transactions. Under this amended guidance, all excess tax benefits and tax deficiencies will be recognized as income tax expense or benefit in the income statement in the period in which the awards vest or are exercised. In the statement of cash flows, excess tax benefits should be classified with other income tax cash flows in operating activities. The amended guidance also gives the option to make a policy election to account for forfeitures as they occur and increases the threshold for awards that are partially settled in cash to qualify for equity classification. The Company expects that the adoption of this guidance will introduce volatility into the Company's income tax provision, which will be impacted by the timing of employee exercises and changes in the Company's stock price. This guidance is effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption permitted.

Leases

In February 2016, the FASB issued new guidance on the accounting for leases, which supersedes previous lease guidance. Under this guidance, for all leases with terms in excess of one year, including operating leases, the Company will be required to recognize on its balance sheet a lease liability and a right-of-use asset representing its right to use the underlying asset for the lease term. The new guidance retains a distinction between finance leases and operating leases and the classification criteria is substantially similar to previous guidance. Additionally, the recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed. The Company is currently evaluating the impact of this guidance on its consolidated balance sheets. This guidance is effective for interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted.

Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern

In August 2014, the FASB issued guidance which requires management to evaluate, for each interim and annual reporting period, whether there are conditions or events that raise substantial doubt about an entity's ability to continue as a going concern within one year after the date the financial statements are issued. If management identifies conditions or events that raise substantial doubt, disclosures are required in the financial statements, including any plans that will alleviate the substantial doubt about the entity's ability to continue as a going concern. This guidance, which is effective for the first annual period ending after December 15, 2016, is not expected to have an impact on the Company's consolidated financial statements.

Revenue from Contracts with Customers

In May 2014, the FASB issued guidance on the recognition of revenues which provides a single, comprehensive revenue recognition model for all contracts with customers and supersedes most existing revenue recognition guidance. The main principle under this guidance is that an entity should recognize revenue at the amount it expects to be entitled to in exchange for the transfer of goods or services to customers. The Company anticipates that this guidance will result in changes to its revenue recognition and is currently assessing the impact. This guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted for interim and annual reporting periods beginning after December 15, 2016.

2) STOCK-BASED COMPENSATION

The following table summarizes the Company's stock-based compensation expense for the three months ended March 31, 2016 and 2015.

	Three Months Ended March 31, 2016 2015	
RSUs	\$36	\$38
Stock options	7	8
Stock-based compensation expense, before income taxes	43	46
Related tax benefit	(17)	(18)
Stock-based compensation expense, net of tax benefit	\$26	\$28

During the three months ended March 31, 2016, the Company granted 3 million RSUs for CBS Corp. Class B Common Stock with a weighted average per unit grant-date fair value of \$45.74. RSUs granted during the first quarter of 2016 generally vest over a one- to four-year service period. Compensation expense for RSUs is determined based upon the market price of the shares underlying the awards on the date of grant. For certain RSU awards the number of shares an employee earns ranges from 0% to 120% of the target award, based on the outcome of established performance conditions. Compensation expense is recorded based on the probable outcome of the performance conditions. During the three months ended March 31, 2016, the Company also granted 2 million stock options with a weighted average exercise price of \$45.79. Stock options granted during the first quarter of 2016 vest over a four-year service period and expire eight years from the date of grant. Compensation expense for stock options is determined based on the grant date fair value of the award calculated using the Black-Scholes options-pricing model.

Total unrecognized compensation cost related to unvested RSUs at March 31, 2016 was \$286 million, which is expected to be recognized over a weighted average period of 2.7 years. Total unrecognized compensation cost related to unvested stock option awards at March 31, 2016 was \$65 million, which is expected to be recognized over a weighted average period of 2.7 years.

(a) At March 31, 2016 and December 31, 2015, the senior debt balances included (i) a net unamortized discount of \$44 million and \$45 million, respectively, (ii) unamortized deferred financing costs of \$43 million and \$44 million, respectively, and (iii) an increase in the carrying value of the debt relating to previously settled fair value hedges of \$13 million and \$14 million, respectively. The face value of the Company's senior debt was \$8.24 billion and \$8.44 billion at March 31, 2016 and December 31, 2015, respectively.

During January 2016, the Company repaid its \$200 million of outstanding 7.625% senior debentures upon maturity.

Commercial Paper

The Company had no outstanding commercial paper borrowings under its \$2.5 billion commercial paper program at March 31, 2016 and December 31, 2015.

Credit Facility

At March 31, 2016, the Company had a \$2.5 billion revolving credit facility (the "Credit Facility") which expires in December 2019. The Credit Facility requires the Company to maintain a maximum Consolidated Leverage Ratio of 4.5x at the end of each quarter as further described in the Credit Facility. At March 31, 2016, the Company's Consolidated Leverage Ratio was approximately 2.4x.

The Consolidated Leverage Ratio is the ratio of the Company's indebtedness from continuing operations, adjusted to exclude certain capital lease obligations, at the end of a quarter, to the Company's Consolidated EBITDA for the trailing four consecutive quarters. Consolidated EBITDA is defined in the Credit Facility as operating income plus interest income and before depreciation, amortization and certain other noncash items.

The Credit Facility is used for general corporate purposes. At March 31, 2016, the Company had no borrowings outstanding under the Credit Facility and the remaining availability under the Credit Facility, net of outstanding letters of credit, was \$2.49 billion.

The net actuarial gain (loss) and prior service cost related to pension and other postretirement benefit plans included in other comprehensive income (loss) is net of a tax provision of \$6 million for both the three months ended March 31, 2016 and 2015.

8) INCOME TAXES

The provision for income taxes represents federal, state and local, and foreign income taxes on earnings before income taxes and equity in loss of investee companies.

The provision for income taxes was \$231 million for the three months ended March 31, 2016 and \$203 million for the three months ended March 31, 2015, reflecting an effective income tax rate of 31.9% and 33.3%, respectively. The lower tax rate for the three months ended March 31, 2016 includes a higher domestic production deduction resulting from the mix of revenues during the period and a lower effective state tax rate.

9) COMMITMENTS AND CONTINGENCIES

Guarantees

The Company has indemnification obligations with respect to letters of credit and surety bonds primarily used as security against non-performance in the normal course of business. At March 31, 2016, the outstanding letters of credit and surety bonds approximated \$110 million and were not recorded on the Consolidated Balance Sheet.

In the course of its business, the Company both provides and receives indemnities which are intended to allocate certain risks associated with business transactions. Similarly, the Company may remain contingently liable for various obligations of a business that has been divested in the event that a third party does not live up to its obligations under an indemnification obligation. The Company records a liability for its indemnification obligations and other contingent liabilities when probable and reasonably estimable.

Legal Matters

General. On an ongoing basis, the Company vigorously defends itself in numerous lawsuits and proceedings and responds to various investigations and inquiries from federal, state, local and international authorities (collectively, "litigation"). Litigation may be brought against the Company without merit, is inherently uncertain and always difficult to predict. However, based on its understanding and evaluation of the relevant facts and circumstances, the Company believes that the below-described legal matters and other litigation to which it is a party are not likely, in the aggregate, to have a material adverse effect on its results of operations, financial position or cash flows. Under the Separation Agreement between the Company and Viacom Inc., the Company and Viacom Inc. have agreed to defend and indemnify the other in certain litigation in which the Company and/or Viacom Inc. is named.

Claims Related to Former Businesses: Asbestos. The Company is a defendant in lawsuits claiming various personal injuries related to asbestos and other materials, which allegedly occurred principally as a result of exposure caused by various products manufactured by Westinghouse, a predecessor, generally prior to the early 1970s. Westinghouse was neither a producer nor a manufacturer of asbestos. The Company is typically named as one of a large number of defendants in both state and federal cases. In the majority of asbestos lawsuits, the plaintiffs have not identified which of the Company's products is the basis of a claim. Claims against the Company in which a product has been identified principally relate to exposures allegedly caused by asbestos-containing insulating material in turbines sold for power-generation, industrial and marine use.

Claims are frequently filed and/or settled in groups, which may make the amount and timing of settlements, and the number of pending claims, subject to significant fluctuation from period to period. The Company does not report as pending those claims on inactive, stayed, deferred or similar dockets which some jurisdictions have established for claimants who allege minimal or no impairment. As of March 31, 2016, the Company had pending approximately 35,040 asbestos claims, as compared with approximately 36,030 as of December 31, 2015 and 40,090 as of March 31, 2015. During the first quarter of 2016, the Company received approximately 1,180 new claims and closed or moved to an inactive docket approximately 2,170 claims. The Company reports claims as closed when it becomes aware that a dismissal order has been entered by a court or when the Company has reached agreement with the claimants on the material terms of a settlement. Settlement costs depend on the seriousness of the injuries that form the basis of the claims, the quality of evidence supporting the claims and other factors. In 2015, as the result of an insurance settlement, insurance recoveries exceeded the Company's after tax costs for settlement and defense of asbestos claims by approximately \$5 million. In 2014, the Company's costs for settlement and defense of asbestos claims after insurance and taxes were approximately \$11 million. The Company's costs for settlement and defense of asbestos claims may vary year to year and insurance proceeds are not always recovered in the same period as the insured portion of the expenses.

The Company believes that its reserves and insurance are adequate to cover its asbestos liabilities. This belief is based upon many factors and assumptions, including the number of outstanding claims, estimated average cost per claim, the breakdown of claims by disease type, historic claim filings, costs per claim of resolution and the filing of new claims. While the number of asbestos claims filed against the Company has trended down in the past five to ten years and has remained flat in recent years, it is difficult to predict future asbestos liabilities, as events and circumstances may occur including, among others, the number and types of claims and average cost to resolve such claims, which could affect the Company's estimate of its asbestos liabilities.

Other. The Company from time to time receives claims from federal and state environmental regulatory agencies and other entities asserting that it is or may be liable for environmental cleanup costs and related damages principally relating to historical and predecessor operations of the Company. In addition, the Company from time to time receives personal injury claims including toxic tort and product liability claims (other than asbestos) arising from historical operations of the Company and its predecessors.

10) RESTRUCTURING CHARGES

During the year ended December 31, 2015, in a continued effort to reduce its cost structure, the Company initiated restructuring plans across several of its businesses, primarily for the reorganization of certain business operations. As a result, the Company recorded restructuring charges of \$81 million, reflecting \$48 million of severance costs and \$33 million of costs associated with exiting contractual obligations and other related costs. During the year ended December 31, 2014, the Company recorded restructuring charges of \$26 million reflecting \$17 million of severance costs and \$9 million of costs associated with exiting contractual obligations. As of March 31, 2016, the cumulative

settlements for the 2015 and 2014 restructuring charges were \$67 million, of which \$41 million was for

severance costs and \$26 million was for costs associated with contractual obligations. The Company expects to substantially utilize its restructuring reserves by the end of 2016.

11) FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

The Company's carrying value of financial instruments approximates fair value, except for notes and debentures, which are not recorded at fair value. At March 31, 2016 and December 31, 2015, the carrying value of the Company's senior debt was \$8.17 billion and \$8.37 billion, respectively, and the fair value, which is estimated based on quoted market prices for similar liabilities (Level 2) and includes accrued interest, was \$8.96 billion and \$8.78 billion, respectively.

The Company uses derivative financial instruments primarily to modify its exposure to market risks from fluctuations in foreign currency exchange rates. The Company does not use derivative instruments unless there is an underlying exposure and, therefore, the Company does not hold or enter into derivative financial instruments for speculative trading purposes.

Foreign Exchange Contracts

Foreign exchange forward contracts have principally been used to hedge projected cash flows, in currencies such as the British Pound, the Euro, the Canadian Dollar and the Australian Dollar, generally for periods up to 24 months. The Company designates forward contracts used to hedge committed and forecasted foreign currency transactions as cash flow hedges. Gains or losses on the effective portion of designated cash flow hedges are initially recorded in other comprehensive income ("OCI") and reclassified to the statement of operations when the hedged item is recognized. Additionally, the Company enters into non-designated forward contracts to hedge non-U.S. dollar denominated cash flows.

At March 31, 2016 and December 31, 2015, the notional amount of all foreign exchange contracts was \$340 million and \$291 million, respectively.

(a) The gain during the three months ended March 31, 2015 related to interest rate swaps that were settled during 2015.

The fair value of the Company's derivative instruments was not material to the Consolidated Balance Sheets for any of the periods presented.

The following tables set forth the Company's assets and liabilities measured at fair value on a recurring basis at March 31, 2016 and December 31, 2015. These assets and liabilities have been categorized according to the three-level fair value hierarchy established by the FASB, which prioritizes the inputs used in measuring fair value. Level 1 is based on publicly quoted prices for the asset or liability in active markets. Level 2 is based on inputs that are observable other than quoted market prices in active markets, such as quoted prices for the asset or liability in inactive markets or quoted prices for similar assets or liabilities. Level 3 is based on unobservable inputs reflecting the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition.

(Tabular dollars in millions, except per share amounts)

Management's discussion and analysis of the results of operations and financial condition of CBS Corporation (the "Company" or "CBS Corp.") should be read in conjunction with the consolidated financial statements and related notes in the Company's Annual Report filed on Form 10-K for the fiscal year ended December 31, 2015.

Overview

Business overview and strategy

The Company operates businesses which span the media and entertainment industries, including the CBS Television Network, cable networks, content production and distribution, television and radio stations, Internet-based businesses, and consumer publishing. The Company's principal strategy is to create and acquire premium content that is widely accepted by audiences and generate both advertising and non-advertising revenues from the distribution of this content on multiple media platforms and to various geographic locations. The Company continues to increase its investment in both Company-owned and acquired premium content to enhance its opportunities for revenue growth, which include exhibiting the Company's content on digital and other platforms through licensing and subscription services, including the Company's owned digital streaming services; expanding the distribution of its content internationally; securing compensation from multichannel video programming distributors ("MVPDs") and television stations affiliated with the CBS Television Network; and further monetizing delayed viewing. The Company believes that its increased investment in premium content will also enable it to stay ahead of changes in the media and entertainment industry, including new distribution platforms and changes in programming packages offered to consumers.

During the first quarter of 2016 the Company announced that it will begin to explore strategic options to separate its radio business.

(a) See page 29 for reconciliations of adjusted results to the most directly comparable financial measures in accordance with accounting principles generally accepted in the United States ("GAAP").

For the three months ended March 31, 2016, the Company reported record quarterly profits, reflecting the benefit from the CBS Television Network's broadcast of Super Bowl 50, strong demand for network advertising, and continued growth in affiliate and subscription fees.

Management's Discussion and Analysis of
Results of Operations and Financial Condition (Continued)
(Tabular dollars in millions, except per share amounts)

For the three months ended March 31, 2016, the 10% increase in revenues was driven by 31% growth in advertising revenues, reflecting the broadcast of Super Bowl 50; 12% growth in underlying network advertising; and the broadcast of additional National Football League ("NFL") games on CBS as 2016 included two more regular season Sunday games and one additional playoff game compared to 2015. Affiliate and subscription fee revenues increased 15%, driven by 42% growth in station affiliation fees and retransmission revenues, as well as revenues from new digital distribution platforms. Content licensing and distribution revenues declined 29%, reflecting the timing of domestic and international television licensing sales compared to the first quarter of 2015 which included significant domestic licensing sales of NCIS and CSI.

Operating income grew 14% and diluted earnings per share ("EPS") increased 31% from the first quarter of 2015 primarily driven by the higher revenues. The EPS comparison also benefited from lower weighted average shares outstanding as a result of the Company's ongoing share repurchase program.

The Company generated operating cash flow of \$1.03 billion for the three months ended March 31, 2016 compared with \$417 million for the three months ended March 31, 2015. Free cash flow for the three months ended March 31, 2016 was \$990 million compared with \$400 million for the same prior-year period. These increases were primarily driven by growth in underlying advertising revenues and affiliate and subscription fees. The cash flow increases also reflect the benefit from additional NFL games broadcast on CBS in 2016, including Super Bowl 50, while the related programming rights are paid to the NFL in other periods. Free cash flow is a non-GAAP financial measure. See "Free Cash Flow" on page 39 for a reconciliation of net cash flow provided by (used for) operating activities, the most directly comparable GAAP financial measure, to free cash flow.

Share repurchases

During the first quarter of 2016, the Company repurchased 10.3 million shares of its Class B Common Stock under its share repurchase program for \$500 million. As of March 31, 2016, the Company had \$1.50 billion of authorization remaining on its share repurchase program.

Debt

During January 2016, the Company repaid its \$200 million of outstanding 7.625% senior debentures upon maturity.

Reconciliation of Non-GAAP Measures

The first quarter of 2016 and 2015 each included discrete items that were not part of the normal course of operations. The following tables present adjusted operating income, adjusted net earnings, and adjusted diluted EPS, which exclude the impact of these discrete items. These adjusted results are non-GAAP financial measures, which are reconciled below to the most directly comparable financial measures in accordance with GAAP. The Company believes that presenting its financial results adjusted for the impact of discrete items is relevant and useful for investors because it allows investors to view performance in a manner similar to the method used by the Company's management and provides a clearer perspective on the underlying performance of the Company.

Advertising

For the three months ended March 31, 2016, the 31% increase in advertising revenues was driven by additional NFL games broadcast on CBS in 2016 and 12% growth in underlying network advertising as a result of strong demand in the scatter market. The additional NFL games in 2016 included the Super Bowl, which is broadcast on the CBS Television Network once every three years through 2022 under the current contract; two regular season Sunday games; and one playoff game. These increases were partially offset by the impact from the sales of Internet businesses in China during 2015. In the second half of 2016 advertising revenues are expected to benefit from higher political spending associated with the U.S. presidential election. For the second quarter of 2016, advertising revenue comparisons will also be impacted by the absence of the broadcast of the finals of the NCAA Division I Men's Basketball Championship ("NCAA Tournament"), which was broadcast by Turner Broadcasting Systems ("Turner") in 2016. Under the rights agreement with the NCAA, CBS and Turner alternate broadcasting both the semifinals and finals of the NCAA Tournament, with these games being broadcast by CBS in 2017. During March 2016, the Company and Turner extended their rights agreement for the NCAA Tournament with the NCAA, which previously went through 2024, for an additional eight years through 2032.

Content licensing and distribution

For the three months ended March 31, 2016, the 29% decrease in content licensing and distribution revenues reflects the timing of domestic and international television licensing sales. The first quarter of 2015 included significant domestic licensing sales of NCIS and CSI and the initial benefit from a significant multiyear licensing agreement with Bell Media in Canada for Showtime original series. For the remainder of 2016, the content and licensing distribution revenue comparison will continue to be impacted by fluctuations resulting from the timing of when Company-owned television series are made available for multiyear licensing agreements. Television license fee revenues are recognized at the beginning of the license period in which programs are made available to the licensee for exhibition.

Affiliate and subscription fees

For the three months ended March 31, 2016, the 15% increase in affiliate and subscription fees reflects growth in station affiliation fees, retransmission revenues, and revenues from new digital distribution platforms. The affiliate and subscription fees revenue comparison for the second quarter of 2016 will be impacted by the benefit to 2015 from Showtime Networks' distribution of a significant pay-per-view boxing event. Over the next few years the Company expects to renew a significant portion of its agreements with station affiliates and MVPDs. This, along with the Company's new digital distribution initiatives, including CBS All Access and Showtime's digital streaming

Management's Discussion and Analysis of

subscription offering, are expected to result in continued growth in affiliate and subscription fees over the next several years.

International Revenues

The Company generated approximately 11% and 16% of its total revenues from international regions for the three months ended March 31, 2016 and 2015, respectively.

Operating Expenses

Operating Expenses by Type	Three Months Ended March 31,						Increase/(Decrease)	
	2016	% of Operating Expenses	2015	% of Operating Expenses	\$	%		
Programming	\$1,113	47 %	\$832	39 %	\$ 281	34 %		
Production	675	29	657	31	18	3

Other	356	15	351	16	5	1		
Total Operating Expenses	\$2,356	100 %	\$2,142	100 %	\$ 214	10 %		

For the three months ended March 31, 2016, the 34% increase in programming expenses was primarily driven by increased sports programming costs associated with the previously mentioned additional NFL games broadcast on CBS in 2016, including the broadcast of Super Bowl 50. The Super Bowl is broadcast on CBS once every three years through 2022 under the current contract with the NFL. The higher sports programming costs were partially offset by lower costs for acquired television series as a result of a shift to a higher mix of internally developed television series.

For the three months ended March 31, 2016, the 3% increase in production expenses was the result of increased costs associated with the Super Bowl production in 2016 and an increased investment in internally developed television series, partially offset by lower costs associated with the timing of television licensing revenues.

For the three months ended March 31, 2016, the 30% decrease in participation, distribution and royalty costs primarily reflects lower participations and residuals associated with the timing of television licensing revenues.

Selling, General and Administrative Expenses

Selling, general and administrative expenses	Three Months Ended March 31,				Increase/(Decrease)	
	2016	% of Revenues	2015	% of Revenues	\$	%
Selling, general and administrative expenses	\$617	16 %	\$588	17 %	\$ 29	5 %

Selling, general and administrative expenses ("SG&A") include expenses incurred for selling and marketing costs, occupancy and back office support. For the three months ended March 31, 2016, the 5% increase in SG&A expenses primarily reflects higher pension and other employee-related costs as well as higher advertising costs associated with the timing of series premieres on Showtime.

Depreciation and amortization \$64 \$68 \$ (4) (6)%

For the three months ended March 31, 2016, the 6% decrease in depreciation and amortization was the result of intangibles and property and equipment that became fully amortized, as well as the sales of Internet businesses in China during 2015.

Other operating items, net

For the three months ended March 31, 2016 and 2015, other operating items, net includes gains from the sales of Internet businesses in China, and for 2016, also includes a multiyear, retroactive impact of a new operating tax.

Increase/(Decrease)

2016 2015 \$ %

Tax provision \$231 \$203 \$ 28 14 %

Effective tax rate 31.9 % 33.3 %

The provision for income taxes represents federal, state and local, and foreign taxes on earnings before income taxes and equity in loss of investee companies. The lower tax rate for the three months ended March 31, 2016 includes a higher domestic production deduction resulting from the mix of revenues during the period and a lower effective state tax rate.

Net earnings	\$473	\$394	\$ 79	20 %
Diluted EPS	\$1.02	\$.78	\$.24	31 %

For the three months ended March 31, 2016, the 20% increase in net earnings and the 31% increase in diluted EPS was driven by higher operating income. The increase in diluted EPS also reflects lower weighted average shares outstanding as a result of the Company's ongoing share repurchase program.

Segment Results of Operations

The Company presents operating income (loss) excluding restructuring charges, impairment charges, and other operating items, net, if any, ("Segment Operating Income") as the primary measure of profit and loss for its operating segments in accordance with FASB guidance for segment reporting. The Company believes the presentation of Segment Operating Income is relevant and useful for investors because it allows investors to view segment performance in a manner similar to the primary method used by the Company's management and enhances their ability to understand the Company's operating performance. The reconciliation of Segment Operating Income to the Company's consolidated Net earnings is presented in Note 12 (Reportable Segments) to the consolidated financial statements.

n/m - not meaningful

Three Months Ended March 31, 2016 and 2015

For the three months ended March 31, 2016, the 14% increase in revenues reflects 49% growth in advertising revenues for the CBS Television Network, driven by the broadcast of Super Bowl 50; 12% growth in underlying advertising; and additional NFL games broadcast on CBS, as 2016 included two more regular season Sunday games and one additional playoff game compared to 2015. Additionally, affiliate and subscription fees grew 67% for the first quarter. These increases were partially offset by lower content licensing and distribution revenues due to timing, as the first quarter of 2015 benefited from significant domestic licensing sales of NCIS and CSI. The revenue comparison was also impacted by the sales of Internet businesses in China during 2015.

For the three months ended March 31, 2016, the 30% increase in operating income was primarily driven by the aforementioned growth in revenues.

For the second quarter of 2016, advertising revenue comparisons will also be impacted by the absence of the broadcast of the finals of the NCAA Tournament, which was broadcast by Turner in 2016. Under the rights agreement with the NCAA, CBS and Turner alternate broadcasting both the semifinals and finals of the NCAA Tournament, with these games being broadcast by CBS in 2017. During March 2016, the Company and Turner extended their rights agreement for the NCAA Tournament with the NCAA, which previously went through 2024, for an additional eight years through 2032.

Three Months Ended March 31, 2016 and 2015

For the three months ended March 31, 2016, the 3% decrease in revenues was driven by the timing of international licensing sales of Showtime original series as the first quarter of 2015 included the initial benefit from a significant multiyear licensing agreement with Bell Media in Canada. The decline was partially offset by growth in revenues from new digital distribution platforms. As of March 31, 2016 subscriptions totaled 78 million for Showtime Networks (including Showtime, The Movie Channel and Flix), 55 million for CBS Sports Network and 34 million for Smithsonian Networks.

For the three months ended March 31, 2016, the 9% decrease in operating income primarily reflects lower international licensing revenues as well as incremental costs associated with the 2016 series premiere of Billions on Showtime.

Three Months Ended March 31, 2016 and 2015

For the three months ended March 31, 2016, the 9% increase in revenues was the result of 18% growth at CBS Television Stations, reflecting the broadcast of Super Bowl 50 on CBS, higher political advertising sales, and growth in retransmission revenues. These increases were partially offset by lower radio revenues, which decreased 2%.

For the three months ended March 31, 2016, the 28% increase in operating income reflects the revenue growth and lower expenses, as a result of cost-cutting measures the Company put in place in 2015.

In the second half of 2016, local advertising revenues are expected to benefit from higher political spending associated with the U.S. presidential election.

Operating Activities. For the three months ended March 31, 2016, the increase in cash provided by operating activities primarily resulted from growth in underlying advertising revenues and affiliate and subscription fees. The increase also reflects the benefit from additional NFL games broadcast on CBS in 2016, including Super Bowl 50, while the related programming rights are paid to the NFL in other periods.

Cash paid for income taxes for the three months ended March 31, 2016 and 2015 was as follows:

Management's Discussion and Analysis of
Results of Operations and Financial Condition (Continued)
(Tabular dollars in millions, except per share amounts)

Free Cash Flow

Free cash flow is a non-GAAP financial measure. Free cash flow reflects the Company's net cash flow provided by (used for) operating activities before operating cash flow from discontinued operations and less capital expenditures. The Company's calculation of free cash flow includes capital expenditures because investment in capital expenditures is a use of cash that is directly related to the Company's operations. The Company's net cash flow provided by (used for) operating activities is the most directly comparable GAAP financial measure.

Management believes free cash flow provides investors with an important perspective on the cash available to the Company to service debt, make strategic acquisitions and investments, maintain its capital assets, satisfy its tax obligations, and fund ongoing operations and working capital needs. As a result, free cash flow is a significant measure of the Company's ability to generate long-term value. It is useful for investors to know whether this ability is being enhanced or degraded as a result of the Company's operating performance. The Company believes the presentation of free cash flow is relevant and useful for investors because it allows investors to evaluate the cash generated from the Company's underlying operations in a manner similar to the method used by management. Free cash flow is one of several components of incentive compensation targets for certain management personnel. In addition, free cash flow is a primary measure used externally by the Company's investors, analysts and industry peers for purposes of valuation and comparison of the Company's operating performance to other companies in its industry.

As free cash flow is not a measure calculated in accordance with GAAP, free cash flow should not be considered in isolation of, or as a substitute for, either net cash flow provided by (used for) operating activities as a measure of liquidity or net earnings as a measure of operating performance. Free cash flow, as the Company calculates it, may not be comparable to similarly titled measures employed by other companies. In addition, free cash flow as a measure of liquidity has certain limitations, does not necessarily represent funds available for discretionary use and is not necessarily a measure of the Company's ability to fund its cash needs. When comparing free cash flow to net cash flow provided by (used for) operating activities, the most directly comparable GAAP financial measure, users of this financial information should consider the types of events and transactions that are not reflected in free cash flow.

The following table presents a reconciliation of the Company's net cash flow provided by operating activities to free cash flow.

	Three Months Ended March 31,	
	2016	2015
Net cash flow provided by operating activities	\$1,028	\$417
Capital expenditures	(38)	(17)
Free cash flow	\$990	\$400

Repurchase of Company Stock and Cash Dividends

During the first quarter of 2016, the Company repurchased 10.3 million shares of its Class B Common Stock under its share repurchase program for \$500 million. At March 31, 2016, the Company had \$1.50 billion of authorization remaining under its share repurchase program. The Company expects to complete the share repurchase program by the end of 2016. This timing is subject to market and business conditions, and remains at the discretion of management. These repurchases are expected to be funded by cash flows from operations and, as appropriate, with short-term borrowings, including commercial paper, and/or the issuance of long-term debt.

Management's Discussion and Analysis of
Results of Operations and Financial Condition (Continued)
(Tabular dollars in millions, except per share amounts)

During the first quarter of 2016, the Company declared a quarterly cash dividend of \$.15 on its Class A and Class B Common Stock, resulting in total dividends of \$69 million, payable on April 1, 2016.

Capital Structure

The following table sets forth the Company's debt.

	At March 31, 2016	At December 31, 2015
Senior debt (1.95% – 7.875% due 2016 – 2045)	\$ 8,166	\$ 8,365
Obligations under capital leases	83	83
Total debt	8,249	8,448
Less current portion of long-term debt	23	222
Total long-term debt, net of current portion	\$ 8,226	\$ 8,226

(a) At March 31, 2016 and December 31, 2015, the senior debt balances included (i) a net unamortized discount of \$44 million and \$45 million, respectively, (ii) unamortized deferred financing costs of \$43 million and \$44 million, respectively, and (iii) an increase in the carrying value of the debt relating to previously settled fair value hedges of \$13 million and \$14 million, respectively. The face value of the Company's senior debt was \$8.24 billion and \$8.44 billion at March 31, 2016 and December 31, 2015, respectively.

During January 2016, the Company repaid its \$200 million of outstanding 7.625% senior debentures upon maturity.

Commercial Paper

The Company had no outstanding commercial paper borrowings under its \$2.5 billion commercial paper program at March 31, 2016 and December 31, 2015. The Company's commercial paper borrowings fluctuate based on the timing of the Company's cash requirements for its operating, investing and financing needs as well as the cash flows generated to meet these needs.

Credit Facility

At March 31, 2016, the Company had a \$2.5 billion revolving credit facility (the "Credit Facility") which expires in December 2019. The Credit Facility requires the Company to maintain a maximum Consolidated Leverage Ratio of 4.5x at the end of each quarter as further described in the Credit Facility. At March 31, 2016, the Company's Consolidated Leverage Ratio was approximately 2.4x.

The Consolidated Leverage Ratio is the ratio of the Company's indebtedness from continuing operations, adjusted to exclude certain capital lease obligations, at the end of a quarter, to the Company's Consolidated EBITDA for the trailing four consecutive quarters. Consolidated EBITDA is defined in the Credit Facility as operating income plus interest income and before depreciation, amortization and certain other noncash items.

The Credit Facility is used for general corporate purposes. At March 31, 2016, the Company had no borrowings outstanding under the Credit Facility and the remaining availability under the Credit Facility, net of outstanding letters of credit, was \$2.49 billion.

Liquidity and Capital Resources

The Company continually projects anticipated cash requirements for its operating, investing and financing needs as well as cash flows generated from operating activities available to meet these needs. The Company's operating needs include, among other items, commitments for sports programming rights, television and film programming,

Management's Discussion and Analysis of
Results of Operations and Financial Condition (Continued)
(Tabular dollars in millions, except per share amounts)

talent contracts, operating leases, interest payments, and pension funding obligations. The Company's investing and financing spending includes capital expenditures, share repurchases, dividends and principal payments on its outstanding indebtedness. The Company believes that its operating cash flows; cash and cash equivalents; borrowing capacity under the Credit Facility, which had \$2.49 billion of remaining availability at March 31, 2016; and access to capital markets are sufficient to fund its operating, investing and financing requirements for the next twelve months.

The Company's funding for short-term and long-term obligations will come primarily from cash flows from operating activities. Any additional cash funding requirements are financed with short-term borrowings, including commercial paper, and long-term debt. To the extent that commercial paper is not available to the Company, the existing Credit Facility provides sufficient capacity to satisfy short-term borrowing needs. The Company routinely assesses its capital structure and opportunistically enters into transactions to lower its interest expense, which could result in a charge from the early extinguishment of debt.

Funding for the Company's long-term debt obligations due over the next five years of \$2.10 billion is expected to come from the Company's ability to refinance its debt and cash generated from operating activities.

Legal Matters

General. On an ongoing basis, the Company vigorously defends itself in numerous lawsuits and proceedings and responds to various investigations and inquiries from federal, state, local and international authorities (collectively, "litigation"). Litigation may be brought against the Company without merit, is inherently uncertain and always difficult to predict. However, based on its understanding and evaluation of the relevant facts and circumstances, the Company believes that the below-described legal matters and other litigation to which it is a party are not likely, in the aggregate, to have a material adverse effect on its results of operations, financial position or cash flows. Under the Separation Agreement between the Company and Viacom Inc., the Company and Viacom Inc. have agreed to defend and indemnify the other in certain litigation in which the Company and/or Viacom Inc. is named.

Claims Related to Former Businesses: Asbestos. The Company is a defendant in lawsuits claiming various personal injuries related to asbestos and other materials, which allegedly occurred principally as a result of exposure caused by various products manufactured by Westinghouse, a predecessor, generally prior to the early 1970s. Westinghouse was neither a producer nor a manufacturer of asbestos. The Company is typically named as one of a large number of defendants in both state and federal cases. In the majority of asbestos lawsuits, the plaintiffs have not identified which of the Company's products is the basis of a claim. Claims against the Company in which a product has been identified principally relate to exposures allegedly caused by asbestos-containing insulating material in turbines sold for power-generation, industrial and marine use.

Claims are frequently filed and/or settled in groups, which may make the amount and timing of settlements, and the number of pending claims, subject to significant fluctuation from period to period. The Company does not report as pending those claims on inactive, stayed, deferred or similar dockets which some jurisdictions have established for claimants who allege minimal or no impairment. As of March 31, 2016, the Company had pending approximately 35,040 asbestos claims, as compared with approximately 36,030 as of December 31, 2015 and 40,090 as of March 31, 2015. During the first quarter of 2016, the Company received approximately 1,180 new claims and closed or moved to an inactive docket approximately 2,170 claims. The Company reports claims as closed when it becomes aware that a dismissal order has been entered by a court or when the Company has reached agreement with the claimants on the material terms of a settlement. Settlement costs depend on the seriousness of the injuries that form the basis of the

claims, the quality of evidence supporting the claims and other factors. In 2015, as the result of an insurance settlement, insurance recoveries exceeded the Company's after tax costs for

-41-

Management's Discussion and Analysis of
Results of Operations and Financial Condition (Continued)
(Tabular dollars in millions, except per share amounts)

settlement and defense of asbestos claims by approximately \$5 million. In 2014, the Company's costs for settlement and defense of asbestos claims after insurance and taxes were approximately \$11 million. The Company's costs for settlement and defense of asbestos claims may vary year to year and insurance proceeds are not always recovered in the same period as the insured portion of the expenses.

Filings include claims for individuals suffering from mesothelioma, a rare cancer, the risk of which is allegedly increased by exposure to asbestos; lung cancer, a cancer which may be caused by various factors, one of which is alleged to be asbestos exposure; other cancers, and conditions that are substantially less serious, including claims brought on behalf of individuals who are asymptomatic as to an allegedly asbestos-related disease. The predominant number of claims against the Company are non-cancer claims. The Company believes that its reserves and insurance are adequate to cover its asbestos liabilities. This belief is based upon many factors and assumptions, including the number of outstanding claims, estimated average cost per claim, the breakdown of claims by disease type, historic claim filings, costs per claim of resolution and the filing of new claims. While the number of asbestos claims filed against the Company has trended down in the past five to ten years and has remained flat in recent years, it is difficult to predict future asbestos liabilities, as events and circumstances may occur including, among others, the number and types of claims and average cost to resolve such claims, which could affect the Company's estimate of its asbestos liabilities.

Other. The Company from time to time receives claims from federal and state environmental regulatory agencies and other entities asserting that it is or may be liable for environmental cleanup costs and related damages principally relating to historical and predecessor operations of the Company. In addition, the Company from time to time receives personal injury claims including toxic tort and product liability claims (other than asbestos) arising from historical operations of the Company and its predecessors.

Cautionary Statement Concerning Forward-Looking Statements

This quarterly report on Form 10-Q, including "Item 2 - Management's Discussion and Analysis of Results of Operations and Financial Condition," contains both historical and forward looking statements. All statements other than statements of historical fact are, or may be deemed to be, forward looking statements within the meaning of section 27A of the Securities Act of 1933 and section 21E of the Securities Exchange Act of 1934. These forward looking statements are not based on historical facts, but rather reflect the Company's current expectations concerning future results and events. These forward-looking statements generally can be identified by the use of statements that include phrases such as "believe," "expect," "anticipate," "intend," "plan," "foresee," "likely," "will," "may," "other similar words or phrases. Similarly, statements that describe the Company's objectives, plans or goals are or may be forward looking statements. These forward looking statements involve known and unknown risks, uncertainties and other factors that are difficult to predict and which may cause the actual results, performance or achievements of the Company to be different from any future results, performance and achievements expressed or implied by these statements. These risks, uncertainties and other factors include, among others: advertising market conditions generally; changes in the public acceptance of the Company's programming; changes in technology and its effect on competition in the Company's markets; changes in the federal communications laws and regulations; the ability to achieve the separation of the Company's radio business on terms that the Company finds acceptable; the impact of piracy on the Company's products; the impact of consolidation in the market for the Company's programming; the impact of negotiations or the loss of affiliation agreements or retransmission agreements; the impact of union activity, including possible strikes or work stoppages or the Company's inability to negotiate favorable terms for contract renewals; other domestic and global economic, business, competitive and/or regulatory factors affecting the Company's businesses generally; and other factors described in the Company's filings made under the securities laws, including, among others, those set forth under "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015 and in our Quarterly Reports on Form 10-Q. There may be additional risks, uncertainties and factors that the Company does not currently view as material or that are not necessarily known. The forward looking statements included in this document are made as of the date of this document and the Company does not have any obligation to publicly update any forward looking statements to reflect subsequent events or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no significant changes to market risk since reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

Item 4. Controls and Procedures.

The Company's chief executive officer and chief operating officer have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934, as amended) were effective, based on the evaluation of these controls and procedures required by Rule 13a-15(b) or 15d-15(b) of the Securities Exchange Act of 1934, as amended.

No change in the Company's internal control over financial reporting occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1A. Risk Factors.

The following updates the corresponding risk factor included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

The Company Could Suffer Losses Due to Asset Impairment Charges for Goodwill, Intangible Assets, FCC Licenses and Programming

As disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2015, based on the Company's most recent annual impairment tests for goodwill and FCC licenses performed during the fourth quarter of 2015, the estimated fair value of the Company's CBS Radio reporting unit exceeded its carrying value by less than 1%, the carrying value of FCC licenses in eighteen radio markets was equal to their respective fair values, and the carrying value of FCC licenses in four radio markets was within 10% of their respective estimated fair values. Any downward revisions to the estimated fair value of the CBS Radio reporting unit and/or these FCC licenses could cause the estimated fair value to fall below their respective carrying values, which could result in a noncash impairment charge. Any impairment charge for goodwill and/or FCC licenses could have a material adverse effect on the Company's reported net earnings.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Company Purchases of Equity Securities

In November 2010, the Company announced that its Board of Directors approved a program to repurchase \$1.5 billion of the Company's common stock in open market purchases or other types of transactions (including accelerated stock repurchases or privately negotiated transactions). Since then, various increases to such amount have been approved and announced, including most recently a \$3.0 billion increase to the amount available under such program on August 7, 2014. Below is a summary of CBS Corp.'s purchases of its Class B Common Stock during the three months ended March 31, 2016.
