CTI Industries Corporation and Subsidiaries
Notes to Unaudited Condensed Consolidated Financial Statements

Note 1 - Basis of Presentation

The accompanying condensed consolidated financial statements are unaudited but in the opinion of management contain all the adjustments (consisting of those of a normal recurring nature) considered necessary to present fairly the consolidated financial position and the consolidated results of operations and consolidated cash flows for the periods presented in conformity with generally accepted accounting principles for interim consolidated financial information and the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. Operating results for the three and nine months ended September 30, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2011. It is suggested that these condensed financial statements be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2010.

Principles of consolidation and nature of operations:

The condensed consolidated financial statements include the accounts of CTI Industries Corporation and its wholly-owned subsidiaries, CTI Balloons Limited, CTI Helium, Inc. and CTF International S.A. de C.V., its majority-owned subsidiaries CTI Mexico S.A. de C.V., Flexo Universal, S.A. de C.V. and CTI Europe gmbH, as well as the accounts of Venture Leasing S. A. de R. L. and Venture Leasing L.L.C (the "Company"). The last two entities have been consolidated as variable interest entities. All significant intercompany transactions and accounts have been eliminated in consolidation. The Company (i) designs, manufactures and distributes balloon products throughout the world and (ii) operates systems for the production, lamination, coating and printing of films used for food packaging and other commercial uses and for conversion of films to flexible packaging containers and other products.

Variable Interest Entities ("VIE's"):

The determination of whether or not to consolidate a variable interest entity under U.S. GAAP requires a significant amount of judgment concerning the degree of control over an entity by its holders of variable interest. To make these judgments, management has conducted an analysis of the relationship of the holders of variable interest to each other, the design of the entity, the expected operations of the entity, which holder of variable interests is most "closely associated" to the entity and which holder of variable interests is the primary beneficiary required to consolidate the entity. Upon the occurrence of certain events, management reviews and reconsiders its previous conclusion regarding the status of an entity as a variable interest entity. Upon the adoption of amended accounting guidance applicable to variable interest entities on January 1, 2010, management continually reconsiders whether we are deemed to be a variable interest entity's primary beneficiary who consolidates such entity. There are two entities that have been consolidated as variable interest entities.

Use of estimates:

In preparing condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amount of revenue and expenses during the reporting period in the condensed consolidated financial statements and accompanying notes. Actual results may differ from those estimates. The Company's significant estimates include reserves for doubtful accounts, reserves for the lower of cost or market of inventory, reserves for deferred tax assets and recovery value of goodwill.

Earnings per share:

Basic earnings per share is computed by dividing net income by the weighted average number of shares of common stock outstanding during each period.

Diluted earnings per share is computed by dividing the net income by the weighted average number of shares of common stock and equivalents (stock options and warrants), unless anti-dilutive, during each period.

As of September 30, 2011 and 2010, shares to be issued upon the exercise of options aggregated 205,000 and 158,905, respectively. The number of anti-dilutive shares (not included in the determination of earnings on a diluted basis) for the three and nine months ended September 30, 2011 were 124,000 and 81,500, respectively, all of which were represented by options. The number of anti-dilutive shares (not included in the determination of earnings on a diluted basis) for the three and nine months ended September 30, 2010 were 0 and 14,000, respectively, all of which were represented by options.

New Accounting Pronouncements:

The Company's significant accounting policies are summarized in Note 2 of the Company's consolidated financial statements for the year ended December 31, 2010. There were no significant changes to these accounting policies during the three and nine months ended September 30, 2011.

In June 2011, the Financial Accounting Standards Board (FASB) issued an amendment on the presentation of other comprehensive income. Under this amendment, entities will be required to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or two separate but consecutive statements. The current option to report other comprehensive income and its components in the statement of changes in equity has been eliminated. This amendment will be effective for the Company on January 1, 2012, and retrospective application is required. The Company does not anticipate that this amendment will have a material impact on its financial statements.

In May 2011, the FASB issued amended guidance on fair value measurement and related disclosures. The new guidance clarified the concepts applicable for fair value measurement of non-financial assets and requires the disclosure of quantitative information about the unobservable inputs used in a fair value measurement. This guidance will be effective for the Company on January 1, 2012, and will be applied prospectively. The Company does not anticipate that this amendment will have a material impact on its financial statements.

Note 2 - Stock-Based Compensation; Changes in Equity

We have adopted Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 718 which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the condensed consolidated financial statements based on their grant-date fair values.

We have applied the Black-Scholes model to value stock-based awards. That model incorporates various assumptions in the valuation of stock-based awards relating to the risk-free rate of interest to be applied, the estimated dividend yield and expected volatility of our common stock. The risk-free rate of interest is the related U.S. Treasury yield curve for periods within the expected term of the option at the time of grant. The dividend yield on our common stock is estimated to be 1.66%. The expected volatility is based on historical volatility of the Company’s common stock.

The Company’s net income for the three months ended September 30, 2011 and 2010 includes approximately \$34,000 and \$35,000, respectively of compensation costs related to share based payments. The Company’s net income for the nine months ended September 30, 2011 and 2010 includes approximately \$104,000 and \$116,000, respectively of compensation costs related to share based payments. As of September 30, 2011 there is \$227,000 of unrecognized compensation expense related to non-vested stock option grants and stock grants. We expect approximately \$30,000 to be recognized over the remainder of 2011, \$88,000 to be recognized during 2012, and \$59,000 to be recognized during 2013, \$41,000 to be recognized during 2014 and \$9,000 to be recognized during 2015.

As of September 30, 2011, the Company had four stock-based compensation plans pursuant to which stock options were, or may be, granted. The Plans provide for the award of options, which may either be incentive stock options (“ISOs”) within the meaning of Section 422A of the Internal Revenue Code of 1986, as amended (the “Code”) or non-qualified options (“NQOs”) which are not subject to special tax treatment under the Code as well as for stock grants.

On April 12, 2001, the Board of Directors approved for adoption, effective December 27, 2001, the 2001 Stock Option Plan (“2001 Plan”). The 2001 Plan authorizes the grant of options to purchase up to an aggregate of 119,050, shares of the Company’s Common Stock. As of September 30, 2011, 139,958 shares have been granted and were fully vested at the time of grant. Options to purchase 7,500 remain outstanding.

On April 24, 2002, the Board of Directors approved for adoption, effective October 12, 2002, the 2002 Stock Option Plan (“2002 Plan”). The 2002 Plan authorizes the grant of options to purchase up to an aggregate of 142,860 shares of the Company’s Common Stock. As of September 30, 2011, 123,430 shares have been granted and were fully vested at the time of grant, 27,500 remain outstanding.

On April 30, 2007, the Board of Directors approved for adoption, effective October 1, 2007, the 2007 Stock Option Plan (“2007 Plan”). The 2007 Plan authorizes the grant of options to purchase up to an aggregate of 150,000 shares of the Company’s Common Stock. As of September 30, 2011, 165,750 options had been granted and 88,500 remain outstanding.

On April 10, 2009, the Board of Directors approved for adoption, and on June 5, 2009, the shareholders of the Corporation approved, a 2009 Stock Incentive Plan (“2009 Plan”). The 2009 Plan authorizes the issuance of up to 250,000 shares of stock or options to purchase stock of the Company. As of September 30, 2011, 82,000 options had been granted and 81,500 remain outstanding.

A summary of the Company’s stock option activity and related information is as follows:

The aggregate intrinsic value in the tables above represents the total pre-tax intrinsic value (the difference between the closing price of the Company’s common stock on the last trading day of the quarter ended September 30, 2011 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all the holders exercised their options on September 30, 2011.

During 2010, the Company declared and paid dividends of five cents (\$0.05) per share on the Company's outstanding common stock to shareholders of record on June 18, 2010 and December 20, 2010. The total amount of the dividends paid on June 28, 2010 was \$156,135 and on December 28, 2010 was \$158,306. On July 8, 2011, the Company declared a dividend of five cents (\$0.05) per share on the Company's outstanding common stock to shareholders of record on July 18, 2011. The total amount of the dividends paid on July 28, 2011 was \$158,000. Under the terms of its current loan agreement, the amount of dividends the Company may pay is limited by the terms of the financial covenants of our Credit Agreement with Harris N.A.

Note 3 - Legal Proceedings

The Company is party to certain claims or actions arising in the normal course of business. The ultimate outcome of these matters is unknown but, in the opinion of management, the settlement of these matters is not expected to have a significant effect on the future financial position or results of operations of the Company.

Note 4 - Other Comprehensive Loss

In the three and nine months ended September 30, 2011 the company incurred comprehensive losses of \$718,000 and of \$323,000, respectively, all from foreign currency translation adjustments.

The following table sets forth the accumulated balance of other comprehensive loss and each component.

	Foreign Currency Items	Unrealized Gains (Loss) on Derivatives	Accumulated Other Comprehensive (Loss)
Beginning balance as of January 1, 2011	\$ (1,593,000)	\$ -	\$ (1,593,000)
Current period change, net of tax	(323,000)	-	(323,000)
Ending Balance as of September 30, 2011	\$ (1,916,000)	\$ -	\$ (1,916,000)

For the three and nine months ended September 30, 2011 no tax benefit for foreign currency translation adjustments has been recorded as such amounts would result in a deferred tax asset.

Note 7 - Concentration of Credit Risk

Concentration of credit risk with respect to trade accounts receivable is generally limited due to the number of entities comprising the Company's customer base. The Company performs ongoing credit evaluations and provides an allowance for potential credit losses against the portion of accounts receivable which is estimated to be uncollectible. Such losses have historically been within management's expectations. During the three and nine months ended September 30, 2011, there were three and two customers, respectively whose purchases represented more than 10% of the Company's consolidated net sales. During the three and nine months ended September 30, 2010, there were two and three customers, respectively whose purchases represented more than 10% of the Company's consolidated net sales. Sales to the top three customers for the three and nine months ended September 30, 2011 and 2010 are as follows:

Customer	Three Months Ended September 30, 2011		Three Months Ended September 30, 2010	
	Net Sales	% of Net Sales	Net Sales	% of Net Sales
Customer A	\$ 2,839,000	24.2%	\$ 2,250,000	20.5%
Customer B	\$ 1,640,000	14.0%	\$ 2,347,000	21.4%
Customer C	\$ 1,204,000	10.3%	\$ 721,000	6.6%

Customer	Nine Months Ended September 30, 2011		Nine Months Ended September 30, 2010	
	Net Sales	% of Net Sales	Net Sales	% of Net Sales
Customer A	\$ 10,272,000	28.2%	\$ 9,573,000	26.3%
Customer B	\$ 4,836,000	13.3%	\$ 5,305,000	14.6%
Customer C	\$ 3,422,000	9.4%	\$ 4,575,000	12.6%

As of September 30, 2011, the total amount owed to the Company by these customers was \$1,552,000 or 21.4% and \$1,082,000 or 14.9% of the Company's consolidated accounts receivables, respectively. There was nothing owed to the Company by the third customer as of September 30, 2011. The amounts owed at September 30, 2010 were \$1,750,000 or 23.1%, \$1,256,000 or 16.6%, and \$288,000 or 3.8% of the Company's consolidated net accounts receivables, respectively.

Note 8 - Related Party Transactions

Stephen M. Merrick, Executive Vice President, Secretary and a Director of the Company, is of counsel to the law firm of Vanasco Genelly and Miller PC which provides legal services to the Company. Legal fees paid by the Company with this firm for the three months ended September 30, 2011 and 2010, respectively, were \$14,000 and \$28,000. Legal fees paid by the Company with this firm for the nine months ended September 30, 2011 and 2010, respectively, were \$100,000 and \$112,000.

John H. Schwan, Chairman of the Company, is a principal of Shamrock Specialty Packaging and affiliated companies. The Company made payments for packaging materials, rent and temporary employees supplied by Shamrock of approximately \$643,000 during the three months ended September 30, 2011 and \$598,000 during the three months ended September 30, 2010. The Company made payments for packaging materials, rent and temporary employees supplied by Shamrock of approximately \$1,694,000 during the nine months ended September 30, 2011 and \$1,586,000 during the nine months ended September 30, 2010. At September 30, 2011 and 2010, outstanding accounts payable balances were \$330,000 and \$301,000, respectively.

Interest payments have been made to John H. Schwan and Stephen M. Merrick for loans made to the Company. During the three months ended September 30, 2011 these interest payments totaled \$25,000 and \$1,000, respectively. For the three months ended September 30, 2010 these interest payments totaled \$33,000 and \$9,000, respectively. During the nine months ended September 30, 2011 these interest payments totaled \$79,000 and \$7,000, respectively. During the nine months ended September 30, 2010 these interest payments totaled \$113,000 and \$41,000, respectively.

On July 1, 2011, Flexo Universal, S.A. de C.V. (“Flexo”) entered into a lease agreement with Venture Leasing S.A. de R.L. (“Venture Leasing Mexico”) for the lease of balloon production equipment financed and owned by Venture Leasing Mexico and used by Flexo for the production of latex balloons. Venture Leasing Mexico is wholly owned by entities owned by John H. Schwan, Chairman of the Company and Stephen M. Merrick, Chief Financial Officer of the Company. Venture Leasing Mexico and Venture Leasing L.L.C., also owned by entities owned by Mr. Schwan and Mr. Merrick are deemed variable interest entities and are consolidated with the accounts of the Company. During the three months ended September 30, 2011, Flexo made lease payments to Venture Leasing Mexico totaling \$39,000.

Note 9 - Derivative Instruments; Fair Value

The following table represents information about the Company’s assets and liabilities measured at fair value on a recurring basis as of September 30, 2011, and indicate the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value:

Description	Amount as of 9/30/2011	Level 1	Level 2	Level 3
Interest Rate Swap 2011	\$ 158,000		\$ 158,000	
	\$ 158,000		\$ 158,000	

The Company is exposed to certain market risks including the effect of changes in interest rates. The Company uses derivative instruments to manage financial exposures that occur in the normal course of business. It does not hold or issue derivatives for speculative trading purposes. The Company is exposed to non-performance risk from the counterparties in its derivative instruments. This risk would be limited to any unrealized gains on current positions. To help mitigate this risk, the Company transacts only with counterparties that are rated as investment grade or higher and all counterparties are monitored on a continuous basis. The fair value of the Company’s derivatives reflects this credit risk.

On July 1, 2011, we entered into a swap agreement with BMO Capital Markets with respect to \$6,780,000 of our loan balances with Harris. This swap agreement is designated as a cash flow hedge to hedge the Company’s exposure to interest rate fluctuations on the Company’s floating rate loans. The swap agreement has the effect of fixing the interest rate on the loan balances covered by the swap at 4.65% per annum. The swap agreement is a derivative financial instrument and we will determine and record the fair market value of the swap agreement each quarter. This value will be recorded on the balance sheet of the Company and the amount of the unrealized gain or loss for each period will be recorded as interest income or expense.

FORWARD-LOOKING STATEMENTS

This quarterly report includes both historical and “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. We have based these forward-looking statements on our current expectations and projections about future results. Words such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “continue,” or similar words are intended to identify forward-looking statements, although not all forward-looking statements contain these words. Although we believe that our opinions and expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements, and our actual results may differ substantially from the views and expectations set forth in this quarterly report on Form 10-Q. We disclaim any intent or obligation to update any forward-looking statements after the date of this quarterly report to conform such statements to actual results or to changes in our opinions or expectations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview. We produce film products for novelty, packaging and container applications. These products include metalized balloons, latex balloons and related latex toy products, films for packaging and custom product applications, and flexible containers for packaging and consumer storage applications. We produce all of our film products for packaging and container applications at our plant in Lake Barrington, Illinois. We produce all of our latex balloons and latex products at our facility in Guadalajara, Mexico. Substantially all of our film products for packaging and custom product applications are sold to customers in the United States. We market and sell our novelty items and flexible containers for consumer use in the United States, Mexico, Latin America, and Europe.

Results of Operations

Net Sales. For the three months ended September 30, 2011, net sales were \$11,731,000 compared to net sales of \$10,962,000 for the same period of 2010, an increase of 7.0%. For the quarters ended September 30, 2011 and 2010, net sales by product category were as follows:

Product Category	Three Months Ended			
	September 30, 2011		September 30, 2010	
	\$ (000)	% of Net Sales	\$ (000)	% of Net Sales
Metalized Balloons	4,173	36%	4,204	38%
Film Products	1,907	16%	2,538	23%

Helium/Other	266	2%	266	3%
Total	11,731	100%	10,962	100%

For the nine months ended September 30, 2011, net sales were \$36,393,000 compared to net sales of \$36,377,000 for the same period of 2010, an increase of 0.2%. For the nine months ended September 30, 2011 and 2010, net sales by product category were as follows:

Product Category	Nine Months Ended			
	September 30, 2011		September 30, 2010	
	\$	% of	\$	% of
	(000) Omitted	Net Sales	(000) Omitted	Net Sales
Metalized Balloons	16,150	44%	16,370	45%
Film Products	5,258	15%	5,811	16%
Pouches	6,284	17%	6,697	19%
Latex Balloons	7,782	21%	6,668	18%
Helium/Other	919	3%	791	2%
Total	36,393	100%	36,337	100%

Metalized Balloons. During the three months ended September 30, 2011 revenues from the sale of metalized balloons decreased by 0.7% compared to the prior year period from \$4,204,000 to \$4,173,000. During the nine months ended September 30, 2011 revenues from the sale of metalized balloons decreased by 1.3% compared to the prior year period from \$16,370,000 to \$16,150,000. For both the third quarter and the nine months, sales to our largest customer for metalized balloons, Dollar Tree Stores, increased over 2010 sales levels. Sales to Dollar Tree Stores were \$2,839,000 in the third quarter 2011 compared to \$2,250,000 for the third quarter 2010, and were \$10,272,000 for the nine months this year compared to \$9,573,000 for the same period last year. Sales of metalized balloons to other customers declined in these periods. For the third quarter this year, sales of metalized balloons to other customers were \$1,334,000 compared to \$1,954,000 for the same period last year, and for the nine months, sales to other customers were \$5,878,000 compared to \$6,797,000 for the same period last year. This decline is attributable in significant part to a decline in sales of metalized balloons in the United Kingdom during 2011 arising from the loss of a customer there. In the United States, sales to other customers for the nine months of 2011 were \$3,940,000 compared to \$4,000,000 for the same period of 2010. In Europe, although sales levels are still small, sales of metalized balloons have increased substantially over 2010 levels (which was our first year of operation there).

Films. During the three months ended September 30, 2011 revenues from the sale of laminated film products decreased by 24.9% compared to the prior year period from \$2,538,000 to \$1,907,000. During the nine months ended September 30, 2011 revenues from the sale of laminated film products decreased by 9.5% compared to the prior year period from \$5,811,000 to \$5,258,000. Approximately 92.0% of the sales of laminated film products during the nine months ended September 30, 2011 were to a principal customer.

Pouches. During the three months ended September 30, 2011 revenues from the sale of pouches increased by 69.4% compared to the prior year period from \$1,431,000 to \$2,424,000. During the nine months ended September 30, 2011 revenues from the sale of pouches decreased by 6.2% compared to the prior year period from \$6,697,000 to \$6,284,000. Virtually all of our pouch sales in 2010 and 2011 have been of vacuumable pouches in two categories: (i) zippered and (ii) open-top or rolls. For the third quarter and nine month periods, sales of pouch products in these categories have been as follows:

Pouches	Three Months Ended		Nine Months Ended	
	September 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
Zippered	1,326,000	911,000	3,788,000	5,830,000
Open-Top or Rolls	1,098,000	520,000	2,496,000	867,000
Total	2,424,000	1,431,000	6,284,000	6,697,000

Most of our sales of zippered pouches have been of branded products to a principal customer, although we have had limited sales of our ZipVac® pouch line as well. During 2010, we introduced a line of open-top pouches and rolls, for use with existing vacuum sealing machines. As indicated in the chart, we have experienced increasing levels of sales of that product line during 2011.

Latex Balloons. During the three months ended September 30, 2011 revenues from the sale of latex balloons increased by 17.4% compared to the prior year period from \$2,523,000 to \$2,961,000. During the nine months ended September 30, 2011 revenues from the sale of latex balloons increased by 16.7% compared to the prior year period from \$6,668,000 to \$7,782,000. The increase is attributable to increased sales in Mexico by Flexo Universal, our subsidiary there, as well as increased sales to various customers in the United States.

Sales to a limited number of customers continue to represent a large percentage of our net sales. The table below illustrates the impact on sales of our top three and ten customers for the three and nine months ended September 30, 2011 and 2010.

	Three Months Ended		Nine Months Ended	
	% of Net Sales		% of Net Sales	
	September 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
Top 3 Customers	48.4%	48.5%	50.9%	53.5%
Top 10 Customers	72.7%	67.7%	70.9%	70.1%

During the three months ended September 30, 2011, there were three customers whose purchases represented more than 10% of the Company's consolidated net sales. The sales to each of these customers for the three months ended September 30, 2011 were \$2,839,000 or 24.2%, \$1,640,000 or 14.0% and \$1,204,000 or 10.3% of consolidated net sales, respectively. Sales to the top three customers in the same period of 2010 were \$2,250,000 or 20.5%, \$2,347,000 or 21.4%, and \$721,000 or 6.6% of consolidated net sales, respectively. During the nine months ended September 30, 2011, there were two customers whose purchases represented more than 10% of the Company's consolidated net sales. Sales to the top three customers for the nine months ended September 30, 2011 were \$10,272,000 or 28.2%, \$4,836,000 or 13.3% and \$3,422,000 or 9.4% of consolidated net sales, respectively. Sales to the top three customers in the same period of 2010 were \$9,573,000 or 26.3%, \$5,305,000 or 14.6%, and \$4,575,000 or 12.6% of consolidated

net sales, respectively. As of September 30, 2011, the total amount owed to the Company by these customers was \$1,552,000 or 21.4% and \$1,082,000 or 14.9% of the Company's consolidated net accounts receivables, respectively. There was nothing owed to the Company by the third customer as of September 30, 2011. The amounts owed at September 30, 2010 were \$1,750,000 or 23.1%, \$1,256,000 or 16.6%, and \$288,000 or 3.8% of the Company's consolidated net accounts receivables, respectively.

Cost of Sales. During the three months ended September 30, 2011, the cost of sales represented 80.7% of net sales compared to 79.5% for the three months ended September 30, 2010. During the nine months ended September 30, 2011, the cost of sales represented 81.3% of net sales compared to 77.5% for the nine months ended September 30, 2010. During 2011 to date, we have experienced increasing and unusually high costs of goods in relation to our revenues, which have had a significant negative effect on our income despite the fact that our sales in 2011 to date have continued at 2010 levels. This increase in cost of goods is the result of a number of factors, including the following: (i) the cost of latex over the first nine months of 2011 increased by approximately 28.8% over the cost of latex we incurred during the first nine months of 2010; while we have increased the selling prices of our latex balloons to some degree during 2011, we have not been able to increase prices to the extent necessary to offset this significant increase in latex cost, with the result that our gross margin on latex balloons has declined materially compared to 2010; (ii) the cost of plastic sheeting and resin, which are principal raw materials for our metalized balloon, pouch and laminated film products were, on average, 19% higher during the first nine months of 2011 compared to the same period of 2010; we have not been able fully to offset this increase in raw materials cost by price increases in our metalized balloon, pouch and laminated film products; (iii) shipping expenses we have paid during the first nine months of 2011 have increased by 28.3% over shipping expenses we incurred during the first nine months of 2010; we incur shipping expenses in the purchase of raw materials and for the delivery of products to certain customers; we have not been able fully to offset these increased shipping expenses by increasing the prices of the products we sell. We are endeavoring to respond to these increases in our costs of goods in several ways: (i) we are able to increase the selling prices of some of our products either because we have agreements which permit such increases based upon the increased cost of raw materials or as the market will bear price increases; we have made some increases in our selling prices and intend to effect additional increases; (ii) we are endeavoring to change the mix of products we sell to increase sales of products, and introduce new products, which have a higher gross margin; (iii) we have experienced some moderation in commodity prices in recent months and are pursuing programs under which we may be able to hedge against commodity price increases or obtain raw materials on better prices and terms. We believe we have had some success with these efforts in the third quarter 2011 as our cost of sales declined by 2.0% compared to the second quarter 2011, from 82.7% in the second quarter to 80.7% in the third quarter.

General and Administrative. During the three months ended September 30, 2011, general and administrative expenses were \$1,295,000 or 11.0% of net sales, compared to \$1,239,000 or 11.3% of net sales for the same period in 2010. During the nine months ended September 30, 2011, general and administrative expenses were \$3,975,000 or 10.9% of net sales, compared to \$3,808,000 or 10.5% of net sales for the same period in 2010. The increase in general and administrative expenses compared to the corresponding period of 2010, is attributable to an increase in administrative expenses of CTI Balloons Limited, our United Kingdom subsidiary, and CTI Europe, our Germany subsidiary.

Selling. During the three months ended September 30, 2011, selling expenses were \$234,000 or 2.0% of net sales, compared to \$113,000 or 1.0% of net sales for the same period in 2010. During the nine months ended September 30, 2011, selling expenses were \$655,000 or 1.8% of net sales, compared to \$671,000 or 1.8% of net sales for the same period in 2010.

Advertising and Marketing. During the three months ended September 30, 2011, advertising and marketing expenses were \$417,000 or 3.6% of net sales for the period, compared to \$389,000 or 3.5% of net sales for the same period of 2010. During the nine months ended September 30, 2011, advertising and marketing expenses were \$1,109,000 or 3.0% of net sales for the period, compared to \$1,330,000 or 3.7% of net sales for the same period of 2010. The decrease in advertising and marketing expense is attributable to (i) a decrease in salaries of \$41,000 and (ii) a decrease in servicing fees for in-store servicing of balloon inventories of \$198,000.

Other Income (Expense). During the three months ended September 30, 2011, the Company incurred net interest expense of \$319,000, compared to net interest expense during the same period of 2010 in the amount of \$159,000. During the nine months ended September 30, 2011, the Company incurred net interest expense of \$602,000, compared to net interest expense during the same period of 2010 in the amount of \$700,000. The increase in net interest expense during the third quarter this year is attributable principally to the cost realized related to the decline in value of our swap agreement in the amount of \$158,000 during the quarter, which is recorded as interest expense.

For the three months ended September 30, 2011, the Company had a foreign currency transaction gain of \$9,000 compared to a foreign currency transaction loss of \$3,000 during the same period of 2010. For the nine months ended September 30, 2011, the Company had a foreign currency transaction gain of \$35,000 compared to a foreign currency transaction loss of \$37,000 during the same period of 2010.

Income Taxes. For the three months ended September 30, 2011, the Company reported a consolidated income tax expense of \$13,000, compared to a consolidated income tax expense of \$113,000 for the same period of 2010. For the nine months ended September 30, 2011, the Company reported a consolidated income tax expense of \$254,000, compared to a consolidated income tax expense of \$208,000 for the same period of 2010. For the three and nine months ended September 30, 2011, this income tax provision was composed of provisions for United States income tax on the Company, income tax in Mexico of Flexo Universal, our Mexican subsidiary, income tax in the United Kingdom of CTI Balloons Limited, our United Kingdom subsidiary, and income tax in Germany of CTI Europe, our Germany subsidiary.

During the first half of 2010, the Company did not record an income tax expense in the United States with regard to its income by reason of the fact that the book tax expense in that quarter was offset by a reduction in the valuation allowance against the Company's deferred tax assets, primarily operating loss carry forwards. During 2010, the Company reduced the amount of this valuation allowance to zero with the result that, during the first nine months of 2011, and thereafter in periods in which the Company realizes net income in the United States, the book tax expense realized by the Company will not be fully offset by a reduction in the valuation allowance and the Company will be required to record book tax expense, which will affect net income of the Company. As of September 30, 2011, the net operating loss carryforward balance of the Company is \$1,430,000 so the Company will not be subject to income tax on income to such amount, but the Company will be required to record income tax expense in its statement of operations.

Net Income. For the three months ended September 30, 2011, the Company had net income of \$18,000 or \$0.01 per share (basic and diluted), compared to net income of \$243,000 for the same period of 2010 or \$0.08 per share (basic and diluted). For the nine months ended September 30, 2011, the Company had net income of \$329,000 or \$0.10 per share (basic and diluted), compared to net income of \$1,449,000 for the same period of 2010 or \$0.49 per share (basic and diluted). The change in net income for the three and nine month periods ended September 30, 2011 is attributable principally to (i) the expense realized in the third quarter for the decline in value of the interest rate swap agreement and (ii) the reduction in gross margin experienced during these periods.

Financial Condition, Liquidity and Capital Resources

Cash Flow Items.

Operating Activities. During the nine months ended September 30, 2011, net cash used in operations was \$244,000, compared to net cash provided by operations during the nine months ended September 30, 2010 of \$2,924,000.

Significant changes in working capital items during the nine months ended September 30, 2011 consisted of (i) a decrease in accounts receivable of \$1,044,000, (ii) an increase in inventories of \$2,534,000, (iii) depreciation and amortization in the amount of \$1,383,000, (iv) an increase in trade payables of \$368,000, (v) a decrease in accrued liabilities of \$455,000, and (vi) an increase of \$539,000 in prepaid expenses and other assets.

Investing Activity. During the nine months ended September 30, 2011, cash used in investing activity for the purchase or improvement of equipment was \$796,000, compared to \$848,000 in the same period of 2010. Substantially all of this expense is related to equipment maintenance and upgrades, tooling and related expense.

Financing Activities. During the nine months ended September 30, 2011, cash provided by financing activities was \$712,000 compared to cash used in financing activities for the same period of 2010 in the amount of \$2,272,000. During the nine months ended September 30, 2011, financing activities included proceeds from issuance of long-term debt of \$731,000 and payment of \$481,000 on long-term debt obligations.

Liquidity and Capital Resources. At September 30, 2011 the Company had cash balances of \$438,000 compared to cash balances of \$682,000 for the same period in 2010 and there was \$1,137,000 available to advance under the Company's revolving line of credit.

At September 30, 2011, the Company had a working capital balance of \$5,012,000 compared to a working capital balance of \$3,474,000 at December 31, 2010.

Management believes that our internally generated funds coupled with the bank loan facilities will be sufficient to meet working capital requirements for the remainder of 2011 and through 2012.

The Company's liquidity is dependent significantly on its bank financing and the Company relies on its revolving line of credit to maintain liquidity. On April 29, 2010, the Company entered into a Credit Agreement with Harris N.A. ("Harris") replacing and paying off the Company's credit line with RBS Citizens N.A. (formerly Charter One Bank). Under the Credit Agreement, Harris agreed to provide loans and credits to the Company in the aggregate maximum amount of \$14,417,000. The arrangement includes:

- i. A revolving credit up to a maximum amount of \$9,000,000 based upon a borrowing base of 85% of eligible receivables and 60% of eligible inventory (up to a maximum of \$5,000,000);
- ii. A mortgage loan in the principal amount of \$2,333,350, amortized over 25 years, the principal balance due on April 29, 2013;
- iii. A term loan in the principal amount of \$583,333 maturing in monthly principal installments of \$58,333; and
- iv. An equipment loan commitment in the amount of up to \$2,500,000 providing for loan advances from time to time until April 29, 2012 based upon 100% of the purchase price of equipment purchased, the loans to be amortized on a five year basis commencing April 29, 2012, the balance due on April 29, 2013.

The Credit Agreement includes various representations, warranties and covenants of the Company, including various financial covenants.

In connection with the Credit Agreement, the Company executed and delivered to Harris, a Term Loan Note, a Mortgage Loan Note, an Equipment Note and a Revolving Note, as well as a form of Mortgage, Security Agreement, Pledge Agreement (pursuant to which shares of capital stock of the Registrant's Mexico subsidiary were pledged as security for the loans), Patent Security Agreement and Trademark Security Agreement. Two officers and principal shareholders of the Company, John H. Schwan and Stephen M. Merrick each executed Limited Guaranties of the loans and also executed Subordination Agreements with respect to obligations of the Company to them.

On April 29, 2010, Harris advanced a total of \$11,963,518 under these loans on behalf of the Company for the pay-off of all outstanding loan and lease financing balances of the Company to RBS Citizens N.A. and RBS Asset Finance.

Under the terms of the Credit Agreement, in order to obtain advances under the revolving line of credit and the equipment loan, the Company is required to meet various financial covenants including a senior leverage ratio, fixed charge coverage ratio and tangible net worth. As of September 30, 2011, we were in compliance with these covenants.

The Credit Agreement provides that the outstanding balance of all loans under the agreement will bear interest with reference to a base rate or, at the option of the Company, with reference to an adjusted LIBOR. At September 30, 2011, the effective rate on the outstanding loan balances was 3.75%.

As of September 30, 2011, the outstanding balances on the loans with Harris were: (i) revolving line of credit, \$7,445,000, (ii) mortgage loan, \$2,201,000, (iii) term loan, \$0 and equipment loan, \$1,098,000.

On July 1, 2011, we entered into a swap agreement with BMO Capital Markets with respect to \$6,780,000 of our loan balances with Harris. This swap agreement is designated as a cash flow hedge to hedge the Company's exposure to interest rate fluctuations on the Company's floating rate loans. The swap agreement has the effect of fixing the interest rate on the loan balances covered by the swap at 4.65% per annum. The swap agreement is a derivative financial instrument and we will determine and record the fair market value of the swap agreement each quarter. This value will be recorded on the balance sheet of the Company and the amount of the unrealized gain or loss for each period will be recorded as interest income or expense.

Seasonality

In recent years, sales in the metalized balloon product line have historically been seasonal with approximately 40% occurring in the period from December through March and 24% being generated in the period from July through October. The sale of latex balloons and laminated film products have not historically been seasonal.

Critical Accounting Policies

Please see pages 23-24 of our Annual Report on Form 10-K for the year ended December 31, 2010 for a description of policies that are critical to our business operations and the understanding of our results of operations. The impact and any associated risks related to these policies on our business operations is discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations where such policies affect our reported and expected financial results. No material changes to such information have occurred during the three and nine months ended September 30, 2011.
