Trinity Industries, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements  
(Unaudited)

Note 1. Summary of Significant Accounting Policies

Basis of Presentation

The foregoing consolidated financial statements are unaudited and have been prepared from the books and records of Trinity Industries, Inc. and its consolidated subsidiaries (“Trinity,” “Company,” “we,” or “our”) including the accounts of its wholly-owned subsidiaries and its partially-owned subsidiaries, TRIP Rail Holdings LLC (“TRIP Holdings”) and RIV 2013 Rail Holdings LLC (“RIV 2013”), in which the Company has a controlling interest. In our opinion, all normal and recurring adjustments necessary for a fair presentation of the financial position of the Company as of June 30, 2017, and the results of operations for the three and six months ended June 30, 2017 and 2016, and cash flows for the six months ended June 30, 2017 and 2016, have been made in conformity with generally accepted accounting principles. All significant intercompany accounts and transactions have been eliminated. Because of seasonal and other factors, the results of operations for the six months ended June 30, 2017 may not be indicative of expected results of operations for the year ending December 31, 2017. These interim financial statements and notes are condensed as permitted by the instructions to Form 10-Q and should be read in conjunction with the audited consolidated financial statements of the Company included in its Form 10-K for the year ended December 31, 2016.

Stockholders' Equity

In December 2015, the Company’s Board of Directors renewed its \$250 million share repurchase program effective January 1, 2016 through December 31, 2017. Under the program, 1,942,200 shares were repurchased during the three and six months ended June 30, 2017, at a cost of approximately \$52.4 million. Certain shares of stock repurchased during June 2017, totaling \$10.5 million, were cash settled in July 2017 in accordance with normal settlement practices. During the six months ended June 30, 2016, the Company repurchased 2,070,600 shares at a cost of approximately \$34.7 million. There were no shares repurchased during the three months ended June 30, 2016. As of June 30, 2017, the remaining authorization under the program totaled \$163.0 million.

Revenue Recognition

Revenues for contracts providing for a large number of units and few deliveries are recorded as the individual units are produced, inspected, and accepted by the customer as the risk of loss passes to the customer upon delivery acceptance on these contracts. Revenues for certain customer-requested “bill and hold” arrangements, primarily in the Energy Equipment Group, are recognized when all of the following conditions have been met: the risks of ownership have passed to the customer, the customer has made a fixed commitment to purchase the goods, there is a fixed delivery schedule consistent with the customer’s business purpose, the customer’s goods have been segregated from our inventory and are not available to fill other orders, the goods are complete and ready for shipment, and no additional performance obligations exist for the Company. Revenue from rentals and operating leases, including contracts that contain non-level fixed rental payments, is recognized monthly on a straight-line basis. Revenue is recognized from the sales of railcars from the lease fleet on a gross basis in leasing revenues and cost of revenues if the railcar has been owned for one year or less at the time of sale. Sales of railcars from the lease fleet owned for more than one year are recognized as a net gain or loss from the disposal of a long-term asset. Fees for shipping and handling are recorded as revenue. For all other products, we recognize revenue when products are shipped or services are provided.

Financial Instruments

The Company considers all highly liquid debt instruments to be either cash and cash equivalents if purchased with a maturity of three months or less, or short-term marketable securities if purchased with a maturity of more than three months and less than one year. The Company intends to hold its short-term marketable securities until they are redeemed at their maturity date and believes that under the “more likely than not” criteria, the Company will not be required to sell the securities before recovery of their amortized cost bases, which may be maturity.

Financial instruments that potentially subject the Company to a concentration of credit risk are primarily cash investments including restricted cash, short-term marketable securities, and receivables. The Company places its cash investments and short-term marketable securities in bank deposits and investment grade, short-term debt instruments

and limits the amount of credit exposure to any one commercial issuer. Concentrations of credit risk with respect to receivables are limited due to control procedures that monitor the credit worthiness of customers, the large number of customers in the Company's customer base, and their dispersion across different industries and geographic areas. As receivables are generally unsecured, the Company maintains an allowance for doubtful accounts based upon the expected collectibility of all receivables. Receivable balances determined to be uncollectible are charged against the allowance. The carrying values of cash, short-term marketable securities (using level two inputs), receivables, and accounts payable are considered to be representative of their respective fair values. At June 30, 2017, one Rail Group customer's net receivable balance, all current, accounted for 13% of the consolidated net receivables balance outstanding.

## Recent Accounting Pronouncements

On January 1, 2017, the Company adopted Accounting Standards Update 2016-09, "Compensation - Stock Compensation: Improvements to Employee Share-Based Payment Accounting", ("ASU 2016-09") which changed how companies account for certain aspects of share-based payments to employees. ASU 2016-09 requires, among other things, that excess tax benefits or deficiencies related to vested awards, previously recognized in stockholders' equity, be included in income tax expense when the awards vest. The adoption of ASU 2016-09 resulted in an adjustment to retained earnings of \$0.6 million, net of tax, as of January 1, 2017 related to the cumulative effect of the standard. For the three and six months ended June 30, 2017, the effect on the provision for income taxes included in the consolidated statement of operations was an additional provision of \$2.7 million and \$2.4 million, respectively. In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2014-09, "Revenue from Contracts with Customers," ("ASU 2014-09") providing common revenue recognition guidance for U.S. GAAP. Under ASU 2014-09, an entity recognizes revenue when it transfers promised goods or services to customers in an amount that reflects what it expects in exchange for the goods or services. It also requires additional detailed disclosures to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. ASU 2014-09 will become effective for public companies during interim and annual reporting periods beginning after December 15, 2017.

The Company plans to adopt ASU 2014-09 effective January 1, 2018 using the modified retrospective method of adoption. Under this method, the guidance will be applied only to the most current period presented in the financial statements and the cumulative effect of initially applying the standard will result in an adjustment to the opening balance of retained earnings as of the date of adoption. Using both internal and external resources, the Company continues to evaluate the requirements of the standard and their application to our various business units. While our technical analysis is on-going, we anticipate a change in the timing of revenue recognition for our wind towers and utility structures product lines within our Energy Equipment Group, no longer recognizing revenue when products are delivered, but under the new guidance, recognizing revenue over time as products are manufactured. The impact of this change cannot be reasonably estimated at this time. We expect revenue recognition policies related to our other business segments to remain substantially unchanged as a result of adopting ASU 2014-09, although this could change based on our on-going analysis. Additionally, we do not anticipate significant changes in business processes or systems.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, "Leases", ("ASU 2016-02") which amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. ASU 2016-02 will become effective for public companies during interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted. The Company plans to adopt ASU 2016-02 effective January 1, 2019. We are continuing to assess the potential effects of the new standard, including its effects on our consolidated financial statements and the accounting for revenue from full service leases.

In December 2016, the FASB issued Accounting Standards Update No. 2016-18, "Restricted Cash", ("ASU 2016-18") which clarifies how entities should present restricted cash and restricted cash equivalents in the statement of cash flows. The new guidance requires a reconciliation of totals in the statement of cash flows to the related cash and cash equivalents and restricted cash captions in the balance sheet. ASU 2016-18 will become effective for public companies during interim and annual reporting periods beginning after December 15, 2017 with early adoption permitted. The Company plans to adopt ASU 2016-18 effective January 1, 2018. The effect of adopting this standard is not expected to be significant.

In March 2017, the FASB issued Accounting Standards Update No. 2017-07, "Compensation - Retirement Benefits: Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost" ("ASU 2017-07") which changes how companies that sponsor defined benefit pension plans present the related net periodic benefit cost in the income statement. The service cost component of the net periodic benefit cost will continue to be presented in the same income statement line items, however other components of the net periodic benefit cost will be presented as a component of other income and excluded from operating profit. ASU 2017-07 will become effective for public companies during interim and annual reporting periods beginning after December 15, 2017 with early adoption

permitted. The Company plans to adopt ASU 2016-18 effective January 1, 2018. The effect of adopting this standard is not expected to be significant.

## Note 2. Acquisitions and Divestitures

In May 2017, we completed the acquisition of the assets of a lightweight aggregates business in our Construction Products Group. The purchase price of the acquisition was not significant. There was no divestiture activity for the three and six months ended June 30, 2017. There was no acquisition or divestiture activity for the three and six months ended June 30, 2016.

In July 2017, we completed the acquisition of the assets of a trench shoring products business in our Construction Products Group for a total purchase price of approximately \$42 million.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for that asset or liability in an orderly transaction between market participants on the measurement date. An entity is required to establish a fair value hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are listed below:

Level 1 – This level is defined as quoted prices in active markets for identical assets or liabilities. The Company’s cash equivalents and restricted cash are instruments of the U.S. Treasury or highly-rated money market mutual funds.

Level 2 – This level is defined as observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. The Company's fuel derivative instruments, which are commodity swaps, are valued using energy and commodity market data. Interest rate hedges are valued at exit prices obtained from each counterparty. See Note 7 Derivative Instruments and Note 11 Debt. The equity instruments consist of warrants for the purchase of certain publicly-traded equity securities and are valued using the Black-Scholes-Merton option pricing model and certain assumptions regarding the exercisability of the options under the related agreement.

Level 3 – This level is defined as unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The carrying amounts and estimated fair values of our long-term debt are as follows:

Total	\$ 3,270.0	\$ 3,396.2	\$ 3,056.6	\$ 3,229.9

The estimated fair values of our senior notes and convertible subordinated notes were based on a quoted market price in a market with little activity as of June 30, 2017 and December 31, 2016 (Level 2 input). The estimated fair values of our 2006, 2009, 2010, and 2012 secured railcar equipment notes and TRIP Rail Master Funding LLC (“TRIP Master Funding”) secured railcar equipment notes are based on our estimate of their fair value as of June 30, 2017 and December 31, 2016. These values were determined by discounting their future cash flows at the current market interest rate (Level 3 inputs). The carrying value of our Trinity Industries Leasing Company (“TILC”) warehouse facility and 2017 promissory notes approximate fair value because the interest rate adjusts to the market interest rate (Level 3 input). The fair values of all other financial instruments are estimated to approximate carrying value. See Note 11 Debt for a description of the Company's long-term debt.

#### Note 4. Segment Information

The Company reports operating results in five principal business segments: (1) the Rail Group, which manufactures and sells railcars and related parts, components, and maintenance services; (2) the Construction Products Group, which manufactures and sells highway products and other primarily-steel products and services for infrastructure-related projects, and produces and sells construction aggregates; (3) the Inland Barge Group, which manufactures and sells barges and related products for inland waterway services; (4) the Energy Equipment Group, which manufactures and sells products for energy-related businesses, including structural wind towers, steel utility structures for electricity transmission and distribution, storage and distribution containers, and tank heads for pressure and non-pressure vessels; and (5) the Railcar Leasing and Management Services Group (“Leasing Group”), which owns and operates a fleet of railcars as well as provides third-party fleet leasing, management, maintenance, and

administrative services. The segment All Other includes our captive insurance and transportation companies; legal, environmental, and maintenance costs associated with non-operating facilities; and other peripheral businesses. Gains and losses from the sale of property, plant, and equipment related to manufacturing and dedicated to the specific manufacturing operations of a particular segment are included in the operating profit of that respective segment. Gains and losses from the sale of property, plant, and equipment that can be utilized by multiple segments are included in operating profit of the All Other segment.

Table of Contents

Sales and related net profits ("deferred profit") from the Rail Group to the Leasing Group are recorded in the Rail Group and eliminated in consolidation and reflected in the "Eliminations - Lease subsidiary" line in the table below. Sales between these groups are recorded at prices comparable to those charged to external customers, taking into consideration quantity, features, and production demand. Amortization of deferred profit on railcars sold to the Leasing Group is included in the operating profit of the Leasing Group, resulting in the recognition of depreciation expense based on the Company's original manufacturing cost of the railcars. Sales of railcars from the lease fleet are included in the Leasing Group, with related gains and losses computed based on the net book value of the original manufacturing cost of the railcars.

The financial information for these segments is shown in the tables below. We operate principally in North America.

Note 5. Partially-Owned Leasing Subsidiaries

The Company, through its wholly-owned subsidiary, TILC, formed two subsidiaries, TRIP Holdings and RIV 2013, for the purpose of providing railcar leasing in North America. Each of TRIP Holdings and RIV 2013 are direct, partially-owned subsidiaries of TILC in which the Company has a controlling interest. Each is governed by a seven-member board of representatives, two of whom are designated by TILC. TILC is the agent of each of TRIP Holdings and RIV 2013 and as such, has been delegated the authority, power, and discretion to take certain actions on behalf of the respective companies.

At June 30, 2017, the Company's carrying value of its investment in TRIP Holdings and RIV 2013 totaled \$217.3 million. The Company's weighted average ownership interest in TRIP Holdings and RIV 2013 is 39% while the remaining 61% weighted average interest is owned by third-party investor-owned funds. The Company's investments in its partially-owned leasing subsidiaries are eliminated in consolidation.

Each of TRIP Holdings and RIV 2013 has wholly-owned subsidiaries that are the owners of railcars acquired from the Company's Rail and Leasing Groups. These wholly-owned subsidiaries are TRIP Master Funding (wholly-owned by TRIP Holdings) and Trinity Rail Leasing 2012 LLC ("TRL 2012," wholly-owned by RIV 2013). Railcar purchases by these subsidiaries were funded by secured borrowings and capital contributions from TILC and third-party equity investors. TILC is the contractual servicer for TRIP Master Funding and TRL 2012, with the authority to manage and service each entity's owned railcars. The Company's controlling interest in each of TRIP Holdings and RIV 2013 results from its combined role as both equity member and agent/servicer. The noncontrolling interest included in the accompanying consolidated balance sheets represents the non-Trinity equity interest in these partially-owned subsidiaries.

Trinity has no obligation to guarantee performance under any of the partially-owned subsidiaries' (or their respective subsidiaries') debt agreements, guarantee any railcar residual values, shield any parties from losses, or guarantee minimum yields.

The assets of each of TRIP Master Funding and TRL 2012 may only be used to satisfy the particular subsidiary's liabilities, and the creditors of each of TRIP Master Funding and TRL 2012 have recourse only to the particular subsidiary's assets. Each of TILC and the third-party equity investors receive distributions from TRIP Holdings and RIV 2013, when available, in proportion to its respective equity interests, and has an interest in the net assets of the partially-owned subsidiaries upon a liquidation event in the same proportion. TILC is paid fees for the services it provides to TRIP Master Funding and TRL 2012 and has the potential to earn certain incentive fees. TILC and the third-party equity investors have commitments to provide additional equity funding to TRIP Holdings that expire in May 2019 contingent upon certain returns on investment in TRIP Holdings and other conditions being met. There are no remaining equity commitments with respect to RIV 2013.

See Note 11 Debt regarding the debt of TRIP Holdings and RIV 2013 and their respective subsidiaries.

<sup>(1)</sup> Depreciation, maintenance and compliance, and rent expense are components of operating profit. Amortization of deferred profit on railcars sold from the Rail Group to the Leasing Group is included in the operating profit of the Leasing Group resulting in the recognition of depreciation expense based on the Company's original manufacturing cost of the railcars. Interest expense is not a component of operating profit and includes the effect of hedges.

During the six months ended June 30, 2017 and 2016, the Company received proceeds from the sales of leased railcars as follows:

	Six Months Ended June 30,	
	2017	2016
<b>Leasing Group:</b>		
Railcars owned one year or less at the time of sale	\$7.1	\$126.1

Equipment consists primarily of railcars leased by third parties. The Leasing Group purchases equipment manufactured predominantly by the Rail Group and enters into lease contracts with third parties with terms generally ranging from one to twenty years. The Leasing Group primarily enters into operating leases. Future contractual minimum rental revenues on leases are as follows:

Debt. The Leasing Group's debt at June 30, 2017 consisted primarily of non-recourse debt. As of June 30, 2017, Trinity's wholly-owned subsidiaries included in the Leasing Group held equipment with a net book value of \$1,729.8 million which is pledged as collateral for Leasing Group debt held by those subsidiaries, including equipment with a net book value of \$41.4 million securing

Table of Contents

capital lease obligations. The net book value of unpledged equipment at June 30, 2017 was \$2,281.5 million. See Note 11 Debt for the form, maturities, and descriptions of Leasing Group debt.

Partially-owned subsidiaries. Debt owed by TRIP Holdings and RIV 2013 and their respective subsidiaries is nonrecourse to Trinity and TILC. Creditors of each of TRIP Holdings and RIV 2013 and their respective subsidiaries have recourse only to the particular subsidiary's assets. TRIP Master Funding equipment with a net book value of \$1,290.1 million is pledged as collateral for the TRIP Master Funding debt. TRL 2012 equipment with a net book value of \$560.0 million is pledged solely as collateral for the TRL 2012 secured railcar equipment notes. See Note 5 Partially-Owned Leasing Subsidiaries for a description of TRIP Holdings and RIV 2013.

Off Balance Sheet Arrangements. In prior years, the Leasing Group completed a series of financing transactions whereby railcars were sold to one or more separate independent owner trusts ("Trusts"). Each of the Trusts financed the purchase of the railcars with a combination of debt and equity. In each transaction, the equity participant in each of the respective Trusts is considered to be the primary beneficiary of the Trust and therefore, the accounts of the Trusts, including the debt related to each of the Trusts, are not included as part of the consolidated financial statements. The Leasing Group, through wholly-owned, qualified subsidiaries, leased railcars from the Trusts under operating leases with terms of 22 years, and subleased the railcars to independent third-party customers under shorter term operating rental agreements.

These Leasing Group subsidiaries had total assets as of June 30, 2017 of \$145.6 million, including cash of \$54.1 million and railcars of \$63.7 million. The subsidiaries' cash, railcars, and an interest in each sublease are pledged to collateralize the lease obligations to the Trusts and are included in the consolidated financial statements of the Company. Trinity does not guarantee the performance of the subsidiaries' lease obligations. Certain ratios and cash deposits must be maintained by the Leasing Group's subsidiaries in order for excess cash flow, as defined in the agreements, from the lease to third parties to be available to Trinity. Future operating lease obligations of the Leasing Group's subsidiaries as well as future contractual minimum rental revenues related to these leases due to the Leasing Group are as follows:

	Remaining six months of 2017 (in millions)						Total
	2018	2019	2020	2021	Thereafter		
Future operating lease obligations of Trusts' railcars	\$14.6	\$29.2	\$28.8	\$26.1	\$26.1	\$ 117.9	\$242.7
Future contractual minimum rental revenues of Trusts' railcars	\$21.6	\$34.2	\$23.5	\$14.3	\$9.5	\$ 13.7	\$116.8

Operating Lease Obligations. Future amounts due as well as future contractual minimum rental revenues related to operating leases other than leases discussed above are as follows:

	Remaining six months of 2017 (in millions)						Total
	2018	2019	2020	2021	Thereafter		
Future operating lease obligations	\$5.9	\$12.0	\$9.5	\$7.7	\$7.6	\$ 13.5	\$56.2
Future contractual minimum rental revenues	\$6.7	\$9.2	\$6.8	\$4.5	\$3.3	\$ 4.1	\$34.6

Operating lease obligations totaling \$7.4 million are guaranteed by Trinity Industries, Inc. and certain subsidiaries. See Note 6 of the December 31, 2016 Consolidated Financial Statements filed on Form 10-K for a detailed explanation of these financing transactions.

## Note 7. Derivative Instruments

We may use derivative instruments to mitigate the impact of changes in interest rates, both in anticipation of future debt issuances and to offset interest rate variability of certain floating rate debt issuances outstanding. We also may use derivative instruments to mitigate the impact of changes in natural gas and diesel fuel prices and changes in foreign currency exchange rates. Derivative instruments that are designated and qualify as cash flow hedges are accounted for in accordance with applicable accounting standards. See Note 3 Fair Value Accounting for discussion of how the Company valued its commodity hedges and interest rate swap at June 30, 2017. See Note 11 Debt for a description of the Company's debt instruments.

(1) Based on the fair value of open hedge as of June 30, 2017

During 2005 and 2006, we entered into interest rate swap derivatives in anticipation of issuing our 2006 Secured Railcar Equipment Notes. These derivative instruments, with a notional amount of \$200.0 million, were settled in 2006 and fixed the interest rate on a portion of the related debt issuance. These derivative instrument transactions are being accounted for as cash flow hedges with changes in the fair value of the instruments of \$4.5 million in income recorded in Accumulated Other Comprehensive Loss ("AOCL") through the date the related debt issuance closed in 2006. The balance is being amortized over the term of the related debt. The effect on interest expense is due to amortization of the AOCL balance.

Between 2007 and 2009, TRIP Holdings, as required by the TRIP Warehouse Loan, entered into interest rate swap derivatives, all of which qualified as cash flow hedges, to reduce the effect of changes in variable interest rates in the TRIP Warehouse Loan. In July 2011, these interest rate hedges were terminated in connection with the refinancing of

the TRIP Warehouse Loan. Balances included in AOCL at the date the hedges were terminated are being amortized over the expected life of the new debt with \$3.5 million of additional interest expense expected to be recognized during the twelve months following June 30, 2017. Also in July 2011, TRIP Holdings' wholly-owned subsidiary, TRIP Master Funding, entered into an interest rate swap derivative instrument, expiring in 2021, with an initial notional amount of \$94.1 million to reduce the effect of changes in variable interest rates associated with the Class A-1b notes of the TRIP Master Funding secured railcar equipment notes. The effect on interest expense is primarily a result of monthly interest settlements.

In May 2017, TRL 2017 purchased an interest rate cap derivative, which qualified as a cash flow hedge, to limit the Libor component of the interest rate on the 2017 promissory notes to a maximum rate of 3%. The effect on interest expense is primarily the result of amortization of the cost of the derivative and is not expected to be significant during the next twelve months.

## Other Derivatives

## Natural gas and diesel fuel

We maintain a program to mitigate the impact of fluctuations in the price of natural gas and diesel fuel. The intent of the program is to protect our operating profit from adverse price changes by entering into derivative instruments. For those instruments that do not qualify for hedge accounting treatment, any changes in their valuation are recorded directly to the consolidated statement of operations. The effect on operating income for these instruments was not significant. The amount recorded in the consolidated balance sheet as of June 30, 2017 for these instruments was not significant. The amount recorded in the consolidated balance sheet as of December 31, 2016 for these instruments was an asset of \$0.3 million.

We have a \$600.0 million unsecured corporate revolving credit facility that matures in May 2020. As of June 30, 2017, we had letters of credit issued under our revolving credit facility in an aggregate principal amount of \$92.6 million, leaving \$507.4 million available for borrowing. Other than these letters of credit, there were no borrowings under our revolving credit facility as of June 30, 2017, or during the six month period then ended. Of the outstanding letters of credit as of June 30, 2017, approximately \$3.8 million is expected to expire in 2017 and the remainder primarily in 2018. The majority of our letters of credit obligations support the Company's various insurance programs and generally renew by their terms each year. Trinity's revolving credit facility requires the maintenance of ratios related to minimum interest coverage for the leasing and manufacturing operations and maximum leverage. As of June 30, 2017, we were in compliance with all such financial covenants. Borrowings under the credit facility bear interest at a defined index rate plus a margin and are guaranteed by certain 100%-owned subsidiaries of the Company.

The Company's Convertible Subordinated Notes due 2036 ("Convertible Subordinated Notes") bear an interest rate of 3 7/8% per annum on the principal amount payable semi-annually in arrears on June 1 and December 1 of each year. In addition, commencing with the six-month period beginning June 1, 2018 and for each six-month period thereafter, we will pay contingent interest to the holders of the Convertible Subordinated Notes under certain circumstances. The Convertible Subordinated Notes mature on June 1, 2036, unless redeemed, repurchased, or converted earlier. We may not redeem the Convertible Subordinated Notes before June 1, 2018. On or after that date, we may redeem all or part of the Convertible Subordinated Notes for cash at 100% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest (including any contingent interest) up to, but excluding, the redemption date. Holders of the Convertible Subordinated Notes may require us to purchase all or a portion of their notes on June 1, 2018 or upon a fundamental change, in each case for cash at a price equal to 100% of the principal amount of the notes to be purchased plus any accrued and unpaid interest (including any contingent interest) up to, but excluding, the purchase date.

The Convertible Subordinated Notes are recorded net of unamortized discount to reflect their underlying economics by capturing the value of the conversion option as borrowing costs. As of June 30, 2017 and December 31, 2016, capital in excess of par value included \$92.5 million related to the estimated value of the Convertible Subordinated Notes' conversion options, in accordance with ASC 470-20. Debt discount recorded in the consolidated balance sheet is being amortized through June 1, 2018 to yield an effective annual interest rate of 8.42% based upon the estimated market interest rate for comparable non-convertible debt as of the issuance date of the Convertible Subordinated Notes. Total interest expense recognized on the Convertible Subordinated Notes for the three and six months ended June 30, 2017 and 2016 is as follows:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
	2017	2016	2017	2016
	(in millions)			
Coupon rate interest	\$4.3	\$4.3	\$8.7	\$8.7
Amortized debt discount	4.6	4.2	9.1	8.4
	\$8.9	\$8.5	\$17.8	\$17.1

Holders of the Convertible Subordinated Notes may convert their notes under the following circumstances: 1) if the daily closing price of our common stock is greater than or equal to 130% of the conversion price during 20 of the last 30 trading days of the preceding calendar quarter; 2) upon notice of redemption; or 3) upon the occurrence of specified corporate transactions pursuant to the terms of the applicable indenture. Upon conversion, the Company is required to pay cash up to the aggregate principal amount of the Convertible Subordinated Notes to be converted. Any conversion obligation in excess of the aggregate principal amount of the Convertible Subordinated Notes to be converted may be settled in cash, shares of the Company's common stock, or a combination of cash and shares of the Company's common stock, at the Company's election. The conversion price, which is subject to adjustment upon the occurrence of certain events, was \$24.43 per share as of June 30, 2017. The Convertible Subordinated Notes were not subject to conversion as of July 1, 2017. See Note 17 Earnings Per Common Share for an explanation of the effects of the Convertible Subordinated Notes on earnings per share. The Company has not entered into any derivatives transactions associated with these notes.

The \$1.0 billion TILC warehouse loan facility, established to finance railcars owned by TILC, had \$167.6 million in outstanding borrowings as of June 30, 2017. Under the facility, \$832.4 million was unused and available as of June 30, 2017 based on the amount of warehouse-eligible, unpledged equipment. The warehouse loan facility is a non-recourse obligation which expires in April 2018 and is secured by a portfolio of railcars and operating leases, certain cash reserves, and other assets acquired and owned by the warehouse loan facility trust. The principal and interest of this indebtedness are paid from the cash flows of the underlying leases. Advances under the facility bear interest at a defined index rate plus a margin, for an all-in interest rate of 2.95% at June 30, 2017. Amounts outstanding at maturity, absent renewal, are payable under the facility in April 2019.

On May 15, 2017, Trinity Rail Leasing 2017, LLC, a Delaware limited liability company ("TRL 2017") and a limited purpose, indirect wholly-owned subsidiary of the Company owned through TILC, issued \$302.4 million of promissory notes (the "2017 Promissory Notes") due May 15, 2024, of which \$301.1 million was outstanding as of June 30, 2017. The 2017 Promissory Notes are obligations of TRL 2017 and are non-recourse to Trinity. The 2017 Promissory Notes bear interest at Libor plus a margin for an all-in interest rate of 2.91% as of June 30, 2017, payable monthly. The 2017 Promissory Notes are secured by a portfolio of railcars and operating leases thereon, certain cash reserves, and other assets acquired and owned by TRL 2017.

Terms and conditions of other debt, including recourse and non-recourse provisions, are described in Note 11 of the December 31, 2016 Consolidated Financial Statements filed on Form 10-K.

Note 12. Other, Net

Other, net (income) expense consists of the following items:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
	2017	2016	2017	2016
	(in millions)

Other	0.8	(2.3)	—	(2.7)
Other, net	\$0.5	\$(4.9)	\$1.3	\$(5.6)

Other for the three and six months ended June 30, 2017 includes \$1.5 million and \$1.1 million, respectively, in expense related to the change in fair value of certain equity instruments. Other for the three and six months ended June 30, 2016 includes \$2.1 million in income related to the change in fair value of certain equity instruments.

Note 13. Income Taxes

The provision for income taxes results in effective tax rates that differ from the statutory rates. The following is a reconciliation between the statutory U.S. federal income tax rate and the Company's effective income tax rate on income before income taxes:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
	2017	2016	2017	2016
Statutory rate	35.0 %	35.0 %	35.0 %	35.0 %
State taxes	1.5	1.2	1.5	1.1
Noncontrolling interest in partially-owned subsidiaries	(0.7)	(1.0)	(0.6)	(1.1)
Settlements with tax authorities	—	—	(3.5)	—
Equity compensation	3.0	—	1.5	—

Edgar Filing: TRINITY INDUSTRIES INC - Form 10-Q

Other, net	2.1	(0.1)	1.6	0.5
Effective rate	40.9 %	35.1 %	35.5 %	35.5 %

Our effective tax rate reflects the Company's estimate for 2017 of its state income tax expense, income attributable to the noncontrolling interests in partially-owned leasing subsidiaries for which no income tax expense is provided, excess tax deficiencies related to equity compensation in accordance with ASU 2016-09, and the impact of the completion of income tax audits that resulted in a net tax benefit. See Note 5 Partially-Owned Leasing Subsidiaries for a further explanation of activities with respect to our partially-owned leasing subsidiaries.

## Taxing authority examinations

During the six months ended June 30, 2017, the Internal Revenue Service ("IRS") formally closed its audit of the 2006-2009 tax years and accordingly, we have adjusted unrecognized tax benefits and deferred tax amounts related to these tax years resulting in a \$5.8 million tax benefit. The 2013 audit has concluded and all issues have been agreed upon by us and the IRS and the revenue agent report has been sent to The Joint Committee of Taxation for final review. The statute of limitations for this tax year has been extended to June 30, 2018. The 2013-2016 tax years remain open.

We have various subsidiaries in Mexico that file separate tax returns and are subject to examination by taxing authorities at different times. The 2007 tax year of one of our Mexican subsidiaries is still under review for transfer pricing purposes only, and its statute of limitations remains open through October 2017. The remaining entities are generally open for their 2010 tax years and forward.

## Unrecognized tax benefits

The change in unrecognized tax benefits for the six months ended June 30, 2017 and 2016 was as follows:

	Six Months Ended June 30, 2017 2016 (in millions)	
Beginning balance	\$28.2	\$65.2
Additions for tax positions related to the current year	—	3.0
Additions for tax positions of prior years	0.1	1.0
Reductions for tax positions of prior years	—	(0.1 )
Settlements	(23.3 )	—
Ending balance	\$5.0	\$69.1

Additions for tax positions related to the current year in the amount of \$3.0 million recorded in the six months ended June 30, 2016 were amounts provided for tax positions that will be taken for federal and state income tax purposes when we file those tax returns. Additions for tax positions related to prior years of \$0.1 million and \$1.0 million recorded in the six months ended June 30, 2017 and 2016, respectively, are due to a state filing position. The reductions for tax positions of prior years of \$0.1 million for the six months ended June 30, 2016 were primarily related to changes in state taxes. Settlements during the six months ended June 30, 2017 were due to the resolution of our 2006-2009 income tax years.

The total amount of unrecognized tax benefits including interest and penalties at June 30, 2017 and 2016, that would affect the Company's overall effective tax rate if recognized was \$5.3 million and \$15.2 million, respectively. There is a reasonable possibility that unrecognized federal and state tax benefits will decrease by \$1.3 million by June 30, 2018, due to settlements and lapses in statutes of limitations for assessing tax for tax years in which an extension was not requested by the taxing authority.

Trinity accounts for interest expense and penalties related to income tax issues as income tax expense. Accordingly, interest expense and penalties associated with an uncertain tax position are included in the income tax provision. The total amount of accrued interest and penalties as of June 30, 2017 and December 31, 2016 was \$3.6 million and \$8.9 million, respectively. Income tax expense included an increase of \$0.1 million and a decrease of \$5.3 million in interest expense and penalties related to uncertain tax positions for the three and six months ended June 30, 2017, respectively. Income tax expense included an increase of \$0.4 million and \$0.9 million in interest expense and penalties related to uncertain tax positions for the three and six months ended June 30, 2016, respectively.

Trinity contributed \$0.9 million and \$0.9 million to the Company's defined benefit pension plans for the three and six months ended June 30, 2017, respectively. Trinity contributed \$2.4 million and \$3.1 million to the Company's defined benefit pension plans for the three and six months ended June 30, 2016, respectively. Total contributions to the Company's defined benefit pension plans in 2017 are expected to be approximately \$2.5 million. The Company participates in a multiemployer defined benefit plan under the terms of a collective-bargaining agreement that covers certain union-represented employees. The Company contributed \$0.3 million and \$0.9 million to the multiemployer plan for the three and six months ended June 30, 2017, respectively. The Company contributed \$0.6 million and \$1.1 million to the multiemployer plan for the three and six months ended June 30, 2016, respectively. Total contributions to the multiemployer plan for 2017 are expected to be approximately \$2.1 million.

## Note 15. Accumulated Other Comprehensive Loss

Changes in accumulated other comprehensive loss for the six months ended June 30, 2017 are as follows:

	Currency translation adjustments	Unrealized gain/(loss) on derivative financial instruments	Net actuarial gains/(losses) of defined benefit plans	Accumulated Other Comprehensive Loss
	(in millions)			
Balances at December 31, 2016	\$(23.7)	\$ (0.1 )	\$ (89.7 )	\$ (113.5 )
Other comprehensive income (loss), net of tax, before reclassifications	0.8	(0.2 )	—	0.6

Balances at June 30, 2017	\$(22.9)	\$ 0.4	\$ (88.2 )	\$ (110.7 )

See Note 7 Derivative Instruments for information on the reclassification of amounts in accumulated other comprehensive loss into earnings. Reclassifications of unrealized before-tax losses on derivative financial instruments are included in interest expense in the consolidated statements of operations. Approximately \$1.9 million of the before-tax reclassification of net actuarial gains/(losses) of defined benefit plans are included in cost of revenues with the remainder included in selling, engineering, and administrative expenses in the consolidated statement of

operations for the six months ended June 30, 2017.

Note 16. Stock-Based Compensation

Stock-based compensation totaled approximately \$8.6 million and \$16.2 million for the three and six months ended June 30, 2017, respectively. Stock-based compensation totaled approximately \$12.5 million and \$22.8 million for the three and six months ended June 30, 2016, respectively.

## Note 17. Earnings Per Common Share

Basic net income attributable to Trinity Industries, Inc. per common share is computed by dividing net income attributable to Trinity remaining after allocation to unvested restricted shares by the weighted average number of basic common shares outstanding for the period. Except when the effect would be antidilutive, the calculation of diluted net income attributable to Trinity per common share includes 1) the net impact of unvested restricted shares and shares that could be issued under outstanding stock options and 2) the incremental shares calculated by dividing the value of the conversion obligation in excess of the Convertible Subordinated Notes' aggregate principal amount by the average price of the Company's common stock during the period. See Note 11 Debt for further explanation of the Company's Convertible Subordinated Notes. Total weighted average restricted shares and antidilutive stock options were 6.6 million shares and 6.5 million shares for the three and six months ended June 30, 2017, respectively. Total weighted average restricted shares and antidilutive stock options were 7.0 million shares for the three and six months ended June 30, 2016, respectively.

Note 18. Contingencies

Highway products litigation

We previously reported the filing of a False Claims Act (“FCA”) complaint in the United States District Court for the Eastern District of Texas, Marshall Division (“District Court”) styled Joshua Harman, on behalf of the United States of America, Plaintiff/Relator v. Trinity Industries, Inc., Defendant, Case No. 2:12-cv-00089-JRG (E.D. Tex.). In this case, in which the U.S. Government declined to intervene, the relator, Mr. Joshua Harman, alleged the Company violated the FCA pertaining to sales of the Company's ET-Plus® System, a highway guardrail end-terminal system (“ET Plus”). On October 20, 2014, a trial in this case concluded with a jury verdict stating that the Company and its subsidiary, Trinity Highway Products, LLC (“Trinity Highway Products”), “knowingly made, used or caused to be made or used, a false record or statement material to a false or fraudulent claim” and awarding \$175.0 million in damages. Following unsuccessful settlement negotiations to resolve this dispute and the District Court's denial of the Company's post-verdict motion for judgment as a matter of law, on June 9, 2015 the District Court entered judgment on the verdict in the total amount of \$682.4 million, comprised of \$175.0 million in damages, which amount is automatically trebled under the FCA to \$525.0 million plus \$138.4 million in civil penalties and \$19.0 million in costs and attorneys' fees.

On June 23, 2015, the District Court approved the Company's posting of a supersedeas bond in the amount of \$686.0 million (the “Bond”) and ordered a stay of the execution of the District Court's June 9, 2015 entry of judgment of \$682.4 million against the Company pending resolution of all appeals. The Company obtained the Bond on an unsecured basis and the annual premium is currently \$3.7 million.

On July 7, 2015, the Company filed a Motion for New Trial with the District Court and on August 3, 2015, the Motion was denied. On August 28, 2015, the Company filed a Notice of Appeal to the United States Court of Appeals for the Fifth Circuit (“Fifth Circuit”). On March 21, 2016, the Company filed its opening appellate brief. On March 28, 2016, six separate amicus curiae briefs were filed in the Fifth Circuit by the following organizations and individuals in support of Trinity's appeal seeking a reversal of the judgment: (i) Eleven states - Texas, Alabama, Arkansas, Colorado, Indiana, Louisiana, Nevada, Oklahoma, South Carolina, Utah and Wisconsin; (ii) the National Association of Manufacturers, United States Chamber of Commerce, and the American Tort Reform Association; (iii) five former United States Department of Justice Officials; (iv) Mothers Against Drunk Driving; (v) the Cato Institute; and (vi) the Washington Legal Foundation. On June 9, 2016, Mr. Joshua Harman filed his responsive appeal brief in the Fifth Circuit. On June 16, 2016, six amicus curiae briefs were filed in the Fifth Circuit by several organizations and individuals in support of Mr. Harman's opposition to the Company's appeal. On July 21, 2016, the Company filed its reply brief in this matter and on December 7, 2016, the Fifth Circuit heard the parties' oral arguments. The Fifth Circuit's ruling on the Company's appeal is pending.

Texas A&M Transportation Institute (“TTI”), a member of The Texas A&M University System, designed the technology employed in the ET Plus. The Texas A&M University System is the owner of patents issued by the U.S. Patent Office that cover the ET Plus. Trinity Highway Products manufactures and markets the ET Plus pursuant to an exclusive license granted by The Texas A&M University System. In 2005, Trinity Highway Products contracted with TTI to conduct crash testing of the ET Plus to demonstrate compliance with the governing crash test criteria set out in National Cooperative Highway Research Program Report 350 (“Report 350”). Following the 2005 crash testing, TTI prepared and provided to Trinity Highway Products the test report on the crash test performance of the ET Plus. This report was reviewed by the Federal Highway Administration (the “FHWA”) in their 2005 acceptance of the product for use on the national highway system and determination of the product's eligibility for federal-aid reimbursement. In a memorandum dated June 17, 2014, the FHWA confirmed that “The Trinity ET Plus with 4-inch guide channels became eligible for federal-aid reimbursement under FHWA letter CC-94 on September 2, 2005. In addition, the device is eligible for reimbursement under FHWA letters CC-94A and CC-120.” In this memorandum the FHWA confirmed that the reimbursement eligibility applies at guardrail heights from 27 ¾" to 31". The memorandum goes on to state that an “unbroken chain of eligibility for federal-aid reimbursement has existed since September 2, 2005 and the ET Plus continues to be eligible today.”

Preceding the October 2014 trial in this matter, the Company filed a Petition for Writ of Mandamus with the Fifth Circuit based, in part, on the District Court's failure to apply precedential case law. The Fifth Circuit denied this

petition, but expressed concern regarding the District Court's failure to issue a reasoned ruling rejecting the Company's prior motions for judgment as a matter of law. The Fifth Circuit also stated that the FHWA's authoritative memorandum of June 17, 2014 appears to compel the conclusion that the FHWA, after due consideration of all the facts, found the ET Plus sufficiently compliant with federal safety standards and therefore fully eligible, in the past, present and future, for federal-aid reimbursement claims. Additionally, the Fifth Circuit noted that a strong argument could be made that the Company's actions were neither material nor were any false claims based on false certifications presented to the government. We believe this reinforces our prospects for a successful outcome on appeal.

#### Crash testing and FHWA assessments

Following the October 20, 2014 jury verdict, the FHWA requested that the Company conduct eight separate crash tests pursuant to crash test criteria set out in Report 350. Due to the FHWA's request for additional ET Plus crash tests, on October 24, 2014 the Company announced that it would suspend shipment of the ET Plus to customers. The FHWA-requested tests were conducted in December 2014 and January 2015 at Southwest Research Institute, an FHWA-approved and independent research facility. Following

Table of Contents

completion of the first four tests at a 27 ¾" guardrail installation height, and again after completion of the second four tests at a 31" guardrail installation height, the FHWA reported that the ET Plus passed all tests. Performance results from eight successful crash tests validate Trinity Highway Products' long standing position that the ET Plus performs as tested for both guardrail installation heights when properly installed and maintained. On March 11, 2015, the FHWA and the American Association of State Highway and Transportation Officials ("AASHTO") released the findings of a joint task force ("Task Force I"), comprised of representatives from the FHWA, AASHTO, the state Departments of Transportation of South Dakota, New Hampshire, Missouri, Ohio, Delaware, and Wyoming, and the Ministry of Transportation of Ontario, Canada, that evaluated field measurement data collected by FHWA engineers from more than 1,000 4-inch ET Plus devices installed on roadways throughout the country. Task Force I concluded there is no evidence to suggest that there are multiple versions of the 4-inch ET Plus on the nation's roadways. Task Force I also concluded that the ET Plus end terminals crash tested at Southwest Research Institute in December 2014 and January 2015 were representative of the devices installed across the country.

The FHWA and AASHTO formed a second joint task force ("Task Force II") comprised of representatives from the FHWA, AASHTO, the state Departments of Transportation of Iowa, Georgia, New Hampshire, North Carolina, New York, Michigan, Missouri, Delaware, and Utah, and independent experts to further evaluate the in-service performance of the ET Plus and other guardrail end terminals through the collection and analysis of a broad array of data. In a report dated September 11, 2015, the FHWA and AASHTO released the findings, conclusions, and recommendations of Task Force II, including but not limited to, the following: there are no performance limitations unique to the ET Plus; there will be real-world accident conditions that exceed the performance expectations of all manufacturers' guardrail end terminal systems; and additional crash testing of all existing Report 350 compliant guardrail end terminals, including the ET Plus, "would not be informative" and "would be irrelevant".

The Company is vigorously pursuing a reversal of the \$682.4 million judgment before the Fifth Circuit. Appellate review will continue to result in legal expenses that are expensed as incurred. We remain confident in the performance of the product at issue in this matter, and we maintain that the allegations in the case are baseless and without merit. We believe our filing in the Fifth Circuit articulates in a clear and convincing way why the judgment should not stand. Based on information currently available to the Company, including, but not limited to the significance of the successful completion of eight post-verdict crash tests of the ET Plus and the favorable findings and conclusions published by both Task Force I and II regarding ET Plus end terminal systems installed on the nation's roadways, we do not believe that a loss is probable in this matter, therefore no accrual has been included in the accompanying consolidated financial statements.

Revenues from sales of the ET Plus, included in the Construction Products Group, totaled approximately \$0.9 million and \$2.3 million for the three and six months ended June 30, 2017, respectively. Revenues from sales of the ET Plus, included in the Construction Products Group, totaled approximately \$1.1 million and \$1.9 million for the three and six months ended June 30, 2016, respectively.

State, county, and municipal actions

Trinity is aware of 29 states and the District of Columbia that have removed the ET Plus from their respective qualified products list.

Mr. Harman has also filed nine separate state qui tam actions pursuant to: the Virginia Fraud Against Taxpayers Act (Commonwealth of Virginia ex rel. Joshua M. Harman v. Trinity Industries, Inc. and Trinity Highway Products, LLC, Case No. CL13-698, in the Circuit Court, Richmond, Virginia); the Indiana False Claims and Whistleblower Protection Act (State of Indiana ex rel. Joshua M. Harman Qui Tam v. Trinity Industries, Inc., and Trinity Highway Products, LLC, Case No. 49D06-1407-PL-024117, in the Sixth Court of Marion County, Indiana); the Delaware False Claims and Reporting Act (State of Delaware ex rel. Joshua M. Harman v. Trinity Industries, Inc., and Trinity Highway Products, LLC, Civ. No. N14C-06-227 MMJ CCLD, in the Superior Court of the State of Delaware In and For New Castle County); the Iowa False Claims Act (State of Iowa ex rel. Joshua M. Harman v. Trinity Industries, Inc., and Trinity Highway Products, LLC, Case No. CVCV048309, in the Iowa District Court for Polk County); the Rhode Island False Claims Act (State of Rhode Island ex rel. Joshua M. Harman v. Trinity Industries, Inc., and Trinity Highway Products, LLC, Case No. 14-3498, in the Superior Court for the State of Rhode Island and Providence Plantations); the Tennessee False Claims Act (State of Tennessee ex rel. Joshua M. Harman v. Trinity Industries, Inc.,

and Trinity Highway Products, LLC, Case No. 14C2652, in the Circuit Court for Davidson County, Tennessee); the Minnesota False Claims Act (State of Minnesota ex rel. Joshua M. Harman Qui Tam v. Trinity Industries, Inc., and Trinity Highway Products, LLC, Case No. 62-CV-14-3457, in the Second Judicial District Court, Ramsey County, Minnesota); the Montana False Claims Act (State of Montana ex rel. Joshua M. Harman v. Trinity Industries, Inc., and Trinity Highway Products, LLC, Case No. DV 14-0692, in the Montana Thirteenth Judicial District Court for Yellowstone County); and the Georgia Taxpayer Protection False Claims Act (State of Georgia ex rel. Joshua M. Harman v. Trinity Industries, Inc., and Trinity Highway Products, LLC, Case No. 1:15-CV-1260, in the U.S. District Court for the Northern District of Georgia). In each of these nine cases Mr. Harman is alleging the Company violated the respective states' false claims act pertaining to sales of the ET Plus, and he is seeking damages, civil penalties, attorneys' fees, costs and interest. Also, the respective states' Attorneys General filed Notices of Election to Decline Intervention in all of these matters, with the exception of the Commonwealth of Virginia Attorney General who intervened in the Virginia matter. At this time all of the above-referenced state qui tam cases are stayed.

## Table of Contents

The Company believes these state qui tam lawsuits are without merit and intends to vigorously defend all allegations. Other states could take similar or different actions, and could be considering similar state false claims or other litigation against the Company.

The Company is aware of three class action lawsuits involving claims pertaining to the ET Plus. The Company has been served in a lawsuit filed November 26, 2014, titled Hamilton County, Illinois and Macon County, Illinois, Individually and on behalf of all Other Counties in the State of Illinois vs. Trinity Industries, Inc. and Trinity Highway Products, LLC, Case No. 3:14-cv-1320 (Southern District of Illinois). This complaint was later amended to substitute St. Clair County, Illinois for Hamilton County as a lead plaintiff and to expand the proposed class. The case is being brought by plaintiffs for and on behalf of themselves and the other 101 counties of the State of Illinois and on behalf of cities, villages, incorporated towns, and township governments of the State of Illinois. The plaintiffs allege that the Company and Trinity Highway Products made a series of un-tested modifications to the ET Plus and falsely certified that the modified ET Plus was acceptable for use on the nation's highways based on federal testing standards and approval for federal-aid reimbursement. The plaintiffs also allege breach of implied warranties, violation of the Illinois Uniform Deceptive Trade Practices Act and unjust enrichment, for which plaintiffs seek actual damages related to purchases of the ET Plus, compensatory damages for establishing a common fund for class members, punitive damages, attorneys' fees and costs, and injunctive relief.

The Company has also been served in a lawsuit filed February 11, 2015, titled The Corporation of the City of Stratford and Trinity Industries, Inc., Trinity Highway Products, LLC, and Trinity Industries Canada, Inc., Case No. 15-2622 CP, pending in Ontario Superior Court of Justice. The alleged class in this matter has been identified as persons in Canada who purchased and/or used an ET Plus guardrail end terminal. The plaintiff alleges that Trinity Industries, Inc., Trinity Highway Products, LLC, and Trinity Industries Canada, Inc., failed to warn of dangers associated with undisclosed modifications to the ET Plus guardrail end terminals, breached an implied warranty, breached a duty of care, and were negligent. The plaintiff is seeking \$400 million in compensatory damages and \$100 million in punitive damages. Alternatively, the plaintiff claims the right to an accounting or other restitution remedy for disgorgement of the revenues generated by the sale of the modified ET Plus in Canada.

The Company has been served in a lawsuit filed November 5, 2015, titled Jackson County, Missouri, individually and on behalf of a class of others similarly situated vs. Trinity Industries, Inc. and Trinity Highway Products, LLC, Case No. 1516-CV23684 (Circuit Court of Jackson County, Missouri). The case is being brought by plaintiff for and on behalf of itself and all Missouri counties with a population of 10,000 or more persons, including the City of St. Louis, and the State of Missouri's transportation authority. The plaintiff alleges that the Company and Trinity Highway Products did not disclose design changes to the ET Plus and these allegedly undisclosed design changes made the ET Plus allegedly defective, unsafe, and unreasonably dangerous. The plaintiff alleges product liability negligence, product liability strict liability, and negligently supplying dangerous instrumentality for supplier's business purposes. The plaintiff seeks compensatory damages, interest, attorneys' fees and costs, and in the alternative plaintiff seeks a declaratory judgment that the ET Plus is defective, the Company's conduct was unlawful, and class-wide costs and expenses associated with removing and replacing the ET Plus throughout Missouri.

The Company believes each of these county and municipal class action lawsuits is without merit and intends to vigorously defend all allegations. While the financial impacts of these three county and municipal class action lawsuits are currently unknown, they could be material.

Based on the information currently available to the Company, we currently do not believe that a loss is probable in any one or more of the actions described under "State, county, and municipal actions," therefore no accrual has been included in the accompanying consolidated financial statements. Because of the complexity of these actions as well as the current status of certain of these actions, we are not able to estimate a range of possible losses with respect to any one or more of these actions.

### Product liability cases

The Company is currently defending a number of product liability lawsuits in several different states that are alleged to involve the ET Plus as well as other products manufactured by Trinity Highway Products. These cases are diverse in light of the randomness of collisions in general and the fact that each accident involving a roadside device such as an end terminal, or any other fixed object along the highway has its own unique facts and circumstances. Report 350

recognizes that performance of even the most carefully researched and tested roadside device is subject to physical laws and the crash worthiness of vehicles. The Company expects the judgment in the FCA case, coupled with the media attention such judgment has generated, will prompt the plaintiff's bar to seek out individuals involved in collisions with a Trinity Highway Products manufactured product as potential clients, which may result in additional product liability lawsuits being filed against the Company. The Company carries general liability insurance to mitigate the impact of adverse judgment exposures in these product liability cases. To the extent that the Company believes that a loss is probable with respect to these product liability cases, the accrual for such losses is included in the amounts described below under "Other matters".

Shareholder class actions

On January 11, 2016, the previously reported cases styled Thomas Nemky, Individually and On Behalf of All Other Similarly Situated v. Trinity Industries, Inc., Timothy R. Wallace, and James E. Perry, Case No. (2:15-CV-00732) ("Nemky") and Richard J. Isolde, Individually and On Behalf of All Other Similarly Situated v. Trinity Industries, Inc., Timothy R. Wallace, and James E. Perry, Case No. (3:15-CV-2093) ("Isolde"), were consolidated in the District Court for the Northern District of Texas, with all future filings to be filed in the Isolde case. On March 9, 2016, the Court appointed the Department of the Treasury of the State of New Jersey and its Division of Investment and the Plumbers and Pipefitters National Pension Fund and United Association Local Union Officers & Employees' Pension Fund as co-lead plaintiffs ("Lead Plaintiffs"). On May 11, 2016, the Lead Plaintiffs filed their Consolidated Complaint alleging defendants Trinity Industries, Inc., Timothy R. Wallace, James E. Perry, and Gregory B. Mitchell violated Section 10(b) of the Securities Exchange Act of 1934, Rule 10b-5 promulgated thereunder, and defendants Mr. Wallace and Mr. Perry violated Section 20(a) of the Securities Exchange Act of 1934 by making materially false and misleading statements and/or by failing to disclose material facts about Trinity's ET Plus and the FCA case styled Joshua Harman, on behalf of the United States of America, Plaintiff/Relator v. Trinity Industries, Inc., Defendant, Case No. 2:12-cv-00089-JRG (E.D. Tex.). On August 18, 2016, Trinity, Mr. Wallace, Mr. Perry, and Mr. Mitchell filed motions to dismiss Lead Plaintiffs Consolidated Complaint, which remain pending. On March 13, 2017, the Court granted defendant's motion to stay and administratively close proceedings pending Fifth Circuit appeal. The Isolde matter is stayed and remains administratively closed pending the conclusion of the Company's Fifth Circuit appeal of the Joshua Harman FCA judgment.

Trinity, Mr. Wallace, Mr. Perry, and Mr. Mitchell deny and intend to vigorously defend against the allegations in the Isolde case. Based on the information available to the Company, we currently do not believe that a loss is probable with respect to this shareholder class action; therefore no accrual has been included in the accompanying consolidated financial statements. Because of the complexity of these actions as well as the current status of certain of these actions, we are not able to estimate a range of possible losses with respect to these matters.

Stockholder books and records requests

The Company has received multiple requests from stockholders pursuant to the Delaware General Corporation Law to review certain of the Company's books and records related to the ET Plus and the FCA case styled Joshua Harman, on behalf of the United States of America, Plaintiff/Relator v. Trinity Industries, Inc., Defendant, Case No. 2:12-cv-00089-JRG (E.D. Tex.). The stockholders' stated purpose for seeking access to the Company's books and records is to investigate the possibility of whether the directors or officers of the Company committed breaches of fiduciary duty or other wrongdoing. In accordance with the Company's obligations under the Delaware law when such requests are properly filed, the Company has provided books and records to some of those stockholders.

Stockholder derivative complaints

The Company is named as a nominal defendant in two lawsuits captioned Bessent v. Wallace, et. al, Case No. 2017-0223, and Campi v. Wallace, et. al. Case No. 2017-0474, both in the Court of Chancery of the State of Delaware. These cases are brought by purported stockholders of the Company derivatively on behalf of nominal defendants Trinity Industries, Inc. and Trinity Highway Products, LLC, against the Company's directors and certain officers. Plaintiffs allege the individual defendants breached their fiduciary duties in connection with Trinity's ET Plus and the FCA case styled Joshua Harman, on behalf of the United States of America, Plaintiff/Relator v. Trinity Industries, Inc., Defendant, Case No. 2:12-cv-00089-JRG (E.D. Tex.) and that certain defendants made improper sales of Company stock. Plaintiffs seek a declaration that they may maintain this derivative action on behalf of the Company and that they are the adequate representatives of the Company, a declaration that the individual defendants breached their fiduciary duties, awarding the Company damages as a result of the alleged breaches of fiduciary duties, awarding restitution, disgorgement of individual defendants' profits, benefits, and other compensation, certain injunctive relief, costs and fees, and interest.

The defendants deny and intend to vigorously defend against the allegations in the Bessent and Campi cases. Based on the information available to the Company, we currently do not believe that a loss is probable with respect to these derivative cases; therefore no accrual has been included in the accompanying consolidated financial statements. Because of the complexity of these actions as well as the current status of certain of these actions, we are not able to

estimate a range of possible losses with respect to these matters.

**Other matters**

The Company is involved in claims and lawsuits incidental to our business arising from various matters including product warranty, personal injury, environmental issues, workplace laws, and various governmental regulations. The Company evaluates its exposure to such claims and suits periodically and establishes accruals for these contingencies when a range of loss can be reasonably estimated. The range of reasonably possible losses for such matters, taking into consideration our rights in indemnity and recourse to third parties is \$4.4 million to \$21.6 million. This range includes any amount related to the Highway Products litigation matters described above in the section titled “Product liability cases.” At June 30, 2017, total accruals of \$26.0 million, including environmental and workplace matters described below, are included in accrued liabilities in the accompanying

Table of Contents

consolidated balance sheet. The Company believes any additional liability would not be material to its financial position or results of operations.

Trinity is subject to remedial orders and federal, state, local, and foreign laws and regulations relating to the environment and the workplace. The Company has reserved \$3.7 million to cover our probable and estimable liabilities with respect to the investigations, assessments, and remedial responses to such matters, taking into account currently available information and our contractual rights to indemnification and recourse to third parties. However, estimates of liability arising from future proceedings, assessments, or remediation are inherently imprecise.

Accordingly, there can be no assurance that we will not become involved in future litigation or other proceedings involving the environment and the workplace or, if we are found to be responsible or liable in any such litigation or proceeding, that such costs would not be material to the Company. We believe that we are currently in substantial compliance with environmental and workplace laws and regulations.

Note 19. Financial Statements for Guarantors of the Senior Notes

The Company's Senior Notes are fully and unconditionally and jointly and severally guaranteed by certain of Trinity's 100%-owned subsidiaries: Trinity Industries Leasing Company; Trinity Marine Products, Inc.; Trinity North American Freight Car, Inc.; Trinity Rail Group, LLC; Trinity Tank Car, Inc.; Trinity Meyer Utility Structures LLC. and, effective April 20, 2017, Trinity Structural Towers, Inc. (collectively, the "Combined Guarantor Subsidiaries"). Amounts previously reported have been restated to include Trinity Structural Towers, Inc. as a Guarantor Subsidiary. The Senior Notes indenture agreement includes customary provisions for the release of the guarantees by the Combined Guarantor Subsidiaries upon the occurrence of certain allowed events including the release of one or more of the Combined Guarantor Subsidiaries as guarantor under the Company's revolving credit facility. See Note 11 Debt. The Senior Notes are not guaranteed by any remaining 100%-owned subsidiaries of the Company or partially-owned subsidiaries ("Combined Non-Guarantor Subsidiaries").

As of June 30, 2017, assets held by the Combined Non-Guarantor Subsidiaries included \$165.6 million of restricted cash that was not available for distribution to Trinity Industries, Inc. ("Parent"), \$3,599.9 million of equipment securing certain non-recourse debt, \$67.5 million of equipment securing certain lease obligations held by the Combined Non-Guarantor Subsidiaries, and \$332.8 million of assets located in foreign locations. As of December 31, 2016, assets held by the Combined Non-Guarantor Subsidiaries included \$147.1 million of restricted cash that was not available for distribution to the Parent, \$3,300.9 million of equipment securing certain non-recourse debt, \$68.0 million of equipment securing certain lease obligations held by the Combined Non-Guarantor Subsidiaries, and \$349.4 million of assets located in foreign locations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to provide management's perspective on our financial condition, results of operations, liquidity, and certain other factors that may affect our future results. Our MD&A is presented in the following sections:

- Executive Summary
- Results of Operations
- Liquidity and Capital Resources
- Contractual Obligations and Commercial Commitments
- Recent Accounting Pronouncements
- Forward-Looking Statements

Our MD&A should be read in conjunction with the unaudited consolidated financial statements of Trinity Industries, Inc. and subsidiaries ("Trinity," "Company," "we," and "our") and related Notes in Part I, Item 1 of the Quarterly Report on Form 10-Q and Item 8, Financial Statements and Supplementary Data, of the Annual Report on Form 10-K for the year-ended December 31, 2016.

Executive Summary

The Company's revenues for the three and six months ended June 30, 2017 were \$905.5 million and \$1,782.8 million, respectively, representing a decrease of \$279.4 million and \$590.0 million, respectively, or 23.6% and 24.9%, respectively, compared to the same periods in 2016. Operating profit for the three and six months ended June 30, 2017 totaled \$135.2 million and \$251.8 million, respectively, compared to \$191.6 million and \$395.0 million, respectively, for the same periods in 2016. The decrease in both revenues and operating profit for the three and six months ended June 30, 2017, when compared to the prior year periods, resulted primarily from lower volumes in our Rail and Inland Barge Groups. Revenues and operating profit generated by our Energy Equipment Group decreased for the three and six months ended June 30, 2017 as higher delivery volumes in our wind towers and utility structures businesses were offset by lower delivery volumes in the Group's other product lines. When compared to the same periods in 2016, revenues produced by our Construction Products Group decreased for the three and six months ended June 30, 2017 primarily due to lower volumes in the Group's highway products business while operating profit was substantially unchanged. Revenues from the Leasing Group decreased for the three and six months ended June 30, 2017, when compared to the prior year periods, due to lower sales of leased railcars while operating profit decreased for the three months ended June 30, 2017 and increased for the six months ended June 30, 2017 as lower profit from leased railcar sales was offset by higher profit from net additions to the lease fleet and lower fleet maintenance and compliance expenses.

Selling, engineering, and administrative expenses increased by 5.7% and 5.9% for the three and six months ended June 30, 2017, respectively, when compared to the prior year periods, primarily due to higher litigation-related costs, increased insurance costs, and additional bad debt expense, partially offset by lower compensation costs. The Company's headcount, including both production and non-production personnel, decreased approximately 26% since June 30, 2016 and approximately 18% since the end of 2016 primarily due to actions taken to realign our costs with current market conditions.

Net income for the three and six months ended June 30, 2017 was \$54.0 million and \$105.7 million, respectively, compared with \$98.8 million and \$200.9 million, respectively, for the same periods in 2016. Net income attributable to Trinity Industries, Inc. common stockholders for the three and six months ended June 30, 2017 was \$51.1 million and \$97.1 million, respectively, compared with \$94.6 million and \$191.8 million, respectively, for the prior year periods.

Our Rail, Inland Barge, and Leasing Groups and our structural wind towers, utility structures, and storage and distribution containers businesses operate in cyclical industries. Additionally, results in our Construction Products Group are affected by seasonal fluctuations with the second and third quarters historically being the quarters with the highest revenues. Due to their transactional nature, railcar sales from the lease fleet are the primary driver of fluctuations in results in the Railcar Leasing and Management Services Group.

We continue to experience weak demand levels for many of the Company's products and services. The ongoing level of uncertainty in the industrial economy has continued to impact our customers' long-term capital planning processes. The oversupply of railcars and barges in the North American market has limited new order levels for these businesses. We continue to assess demand for our products and services and take steps to align our manufacturing capacity appropriately.

Table of Contents

As of June 30, 2017 and 2016 our backlog of firm orders was as follows:

	June 30, 2017	June 30, 2016
	(in millions)	
Rail Group		
External Customers	\$1,722.0	\$3,125.2
Leasing Group	992.8	1,166.2
	\$2,714.8	\$4,291.4
Inland Barge Group	\$90.7	\$251.0
Wind towers	\$945.4	\$1,112.6

For the six months ended June 30, 2017, our rail manufacturing businesses received orders for 6,675 railcars. The change in backlog as of June 30, 2017 compared with our backlog as of June 30, 2016 reflects the value of orders taken, net of cancellations, executory contract change orders and price modifications, and orders delivered during the period. The orders in our backlog from the Leasing Group are fully supported by lease commitments with external customers. The final amount dedicated to the Leasing Group may vary by the time of delivery as customers may alternatively choose to purchase railcars as external sales from the Rail Group. The Company does not report backlog from its utility structures business because certain contracts contain partial order cancellation provisions.

During the six months ended June 30, 2017 and 2016, the Company received proceeds from the sales of leased railcars as follows:

	Six Months Ended June 30, 2017 2016 (in millions)	
Leasing Group:		
Railcars owned one year or less at the time of sale	\$7.1	\$126.1
Railcars owned more than one year at the time of sale	92.4	37.7
Rail Group	—	8.1
	\$99.5	\$171.9

On May 15, 2017, Trinity Rail Leasing 2017, LLC, a Delaware limited liability company ("TRL 2017") and a limited purpose, indirect wholly-owned subsidiary of the Company owned through TILC, issued \$302.4 million of promissory notes (the "2017 Promissory Notes") due May 15, 2024, of which \$301.1 million was outstanding as of June 30, 2017. The 2017 Promissory Notes are obligations of TRL 2017 and are non-recourse to Trinity. The 2017 Promissory Notes bear interest at Libor plus a margin for an all-in interest rate of 2.91% as of June 30, 2017, payable monthly. The 2017 Promissory Notes are secured by a portfolio of railcars and operating leases thereon, certain cash reserves, and other assets acquired and owned by TRL 2017.

In May 2017, the Company declared an increase in its quarterly dividend from \$0.11 to \$0.13 per share, reflecting an 18% increase.

In December 2015, the Company's Board of Directors renewed its \$250 million share repurchase program effective January 1, 2016 through December 31, 2017. Under the program, 1,942,200 shares were repurchased during the three and six months ended June 30, 2017, at a cost of approximately \$52.4 million. Certain shares of stock repurchased during June 2017, totaling \$10.5 million, were cash settled in July 2017 in accordance with normal settlement practices. As of June 30, 2017, the remaining authorization under the program totaled \$163.0 million.

A current summary of the Company's Highway Products litigation is provided in Note 18 of the Consolidated Financial Statements.

Our revenues for the three and six months ended June 30, 2017 decreased by 24% and 25%, respectively, from the prior year periods primarily as a result of reduced volumes in our Rail and Inland Barge Groups. Revenues from our Construction Products Group decreased for the three and six months ended June 30, 2017 primarily due to lower volumes in the Group's highway products business. In our Energy Equipment Group, higher volumes in our wind towers and utility structures product lines were offset by lower volumes in the Group's other product lines resulting in lower revenues for the three and six months ended June 30, 2017 when compared to the prior year periods. Revenues from our Leasing Group decreased as a reduced volume of leased railcar sales was partially offset by higher leasing and management revenues for the three and six months ended June 30, 2017 when compared to the prior year periods.

Consolidated Total	\$770.3	\$993.3	\$1,531.0	\$1,977.8

Operating costs for the three and six months ended June 30, 2017 decreased by 22.5% and 22.6%, respectively, over the same periods in 2016 primarily due to lower shipment levels in our Rail and Inland Barge Groups. Operating costs in our Energy Equipment Group increased for the three months ended June 30, 2017 primarily due to higher volumes in our wind towers product line and decreased for the six months ended June 30, 2017 primarily due to improved manufacturing efficiencies in our wind towers product line. The reduction in operating costs was offset by additional costs associated with aligning our production footprint with demand in several of our business groups. Selling, engineering, and administrative expenses, including Corporate expenses, increased for the three and six months ended June 30, 2017, by 5.7% and 5.9%, respectively. As a percentage of revenue, selling, engineering, and administrative expenses were 12.5% and 12.1%, respectively, for the three and six months ended June 30, 2017 as compared to 9.0% and 8.6%, respectively, for the same periods in 2016 primarily due to higher litigation-related costs, increased insurance costs, and additional bad debt expense, partially offset by lower compensation costs.

Our operating profit for the three and six months ended June 30, 2017 decreased by 29.4% and 36.3%, respectively, when compared to the same periods in 2016 primarily as a result of lower shipment volumes in our Rail and Inland Barge Groups. Operating profit was affected by additional costs associated with aligning our production footprint with

demand in several of our business groups. Operating profit in the Construction Products Group was substantially unchanged for the three and six months ended June 30, 2017 when compared to the prior year periods. Operating profit in our Energy Equipment Group decreased for the three and six months ended June 30, 2017 when compared to the same periods in the prior year as a result of lower volumes from the Group's other businesses. Operating profit in our Leasing Group decreased for the three months ended June 30, 2017 and increased for the six months ended June 30, 2017 over the same periods during the prior year primarily as a result of net additions to the lease fleet and lower maintenance and compliance costs which were offset by a reduced volume of leased railcar sales. For a further discussion of revenues, costs, and the operating results of individual segments, see Segment Discussion below.

Income Taxes. The provision for income taxes results in effective tax rates that differ from the statutory rates. The following is a reconciliation between the statutory U.S. federal income tax rate and the Company's effective income tax rate on income before income taxes:

	Three Months		Six Months	
	Ended		Ended	
	June 30,		June 30,	
	2017	2016	2017	2016
Statutory rate	35.0 %	35.0 %	35.0 %	35.0 %

Noncontrolling interest in partially-owned subsidiaries	(0.7 )	(1.0 )	(0.6 )	(1.1 )
Settlements with tax authorities	—	—	(3.5 )	—
Equity compensation	3.0	—	1.5	—
Other, net	2.1	(0.1 )	1.6	0.5
Effective rate	40.9 %	35.1 %	35.5 %	35.5 %

Our effective tax rate reflects the Company's estimate for 2017 of its state income tax expense, income attributable to the noncontrolling interests in partially-owned leasing subsidiaries for which no income tax expense is provided, excess tax deficiencies related to equity compensation in accordance with ASU 2016-09, and the impact of the completion of income tax audits that resulted in a net tax benefit. See Note 5 of the Consolidated Financial Statements for a further explanation of activities with respect to our partially-owned leasing subsidiaries. Income tax payments, net of refunds received, during the six months ended June 30, 2017 totaled \$8.1 million. The total net income tax receivable position at June 30, 2017 amounted to \$182.1 million. During the six months ended June 30, 2017, the Internal Revenue Service ("IRS") formally closed its audit of the 2006-2009 tax years and, accordingly, we have adjusted unrecognized tax benefits and deferred tax amounts related to these tax years resulting in a \$5.8 million tax benefit. The 2013-2016 tax years remain open.

See Note 13 of the Consolidated Financial Statements for a further discussion of income taxes.

As of June 30, 2017 and 2016 our Rail Group backlog of railcars was as follows:

	As of June 30,	
	2017	2016
	(in millions)	
External Customers	\$1,722.0	\$3,125.2
Leasing Group	992.8	1,166.2
Total	\$2,714.8	\$4,291.4

The changes in the number of railcars in the Rail Group backlog are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Beginning balance	26,420	43,360	29,220	48,885
Orders received	5,705	2,910	6,675	4,530

Ending balance <sup>(1)</sup>	27,580	40,205	27,580	40,205

<sup>(1)</sup> The ending backlog figures for the three and six months ended June 30, 2017 reflect the removal of 490 railcars that have not been netted against orders.

Revenues and cost of revenues decreased for the three months ended June 30, 2017 by 32.8% and 29.5%, respectively, when compared to the prior year periods. Revenues and cost of revenues decreased for the six months ended June 30, 2017 by 38.7% and 34.3%, respectively, when compared to the prior year periods. The decreases in revenues and cost of revenues primarily resulted from a decrease in railcar unit deliveries.

Unit decreases and lower prices decreased total backlog dollars by 36.7% when comparing June 30, 2017 to the prior year period. The average selling price in the backlog at June 30, 2017 was 7.8% lower as compared to June 30, 2016 primarily due to pricing and product mix changes. The backlog dedicated to the Leasing Group is supported by lease commitments with external customers. The final amount dedicated to the Leasing Group may vary by the time of delivery as customers may alternately choose to purchase railcars as external sales from the Rail Group.

During the three months ended June 30, 2017, railcar shipments included sales to the Leasing Group of \$115.9 million with a deferred profit of \$13.6 million, representing 1,145 railcars, compared to \$252.1 million with a deferred profit of \$45.9 million representing 2,470 railcars in the comparable period in 2016. During the six months ended June 30, 2017, railcar shipments included sales to the Leasing Group of \$296.9 million with a deferred profit of \$42.5 million, representing 2,876 railcars, compared to \$535.4 million with a deferred profit of \$111.4 million, representing 4,880 railcars, in the comparable period in 2016. There were no railcar shipments of leased railcars to third parties during the

three and six months ended June 30, 2017. During the three and six months ended June 30, 2016, railcar shipments included sales of leased railcars to third parties of \$8.1 million.

Revenues and cost of revenues decreased by 9.9% and 15.8%, respectively, for the three months ended June 30, 2017, when compared to the same period in 2016. The decrease in revenues and cost of revenues resulted primarily from lower volumes in our highway products business.

Revenues and cost of revenues decreased by 6.0% and 8.9%, respectively, for the six months ended June 30, 2017, when compared to the same period in 2016. The decrease in revenues resulted primarily from lower volumes in our construction aggregates and highway products businesses, partially offset by higher volumes in our other businesses. The decrease in cost of revenues resulted from lower volumes in our construction aggregates and highway products businesses and lower costs in our highway products business from improved manufacturing efficiencies, partially offset by higher volumes in our other businesses. Selling, engineering, and administrative costs increased by 7.6% and 2.1% for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016, primarily due to increased litigation-related expenses.

Revenues and cost of revenues decreased for the three months ended June 30, 2017 by 71.7% and 70.0%, respectively, compared to the same period in 2016 primarily from lower barge deliveries and product mix changes. Revenues and cost of revenues decreased for the six months ended June 30, 2017 by 58.0% and 57.2%, respectively, compared to the same period in 2016 primarily from lower barge deliveries and product mix changes. Selling, engineering, and administrative costs decreased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily due to lower compensation costs.

As of June 30, 2017, the backlog for the Inland Barge Group was \$90.7 million compared to \$251.0 million as of June 30, 2016.

Revenues for the three months ended June 30, 2017 decreased by 0.9% when compared to the same period in 2016.

Revenues from our wind towers and utility structures product lines increased by 11.4%, primarily as a result of higher wind towers shipping volumes. Revenues from other product lines for the three months ended June 30, 2017

decreased by 21.0% when compared to the same period in 2016 primarily as a result of decreases in shipping volumes.

Other revenues include results primarily from our storage and distribution containers and tank heads product lines.

Cost of revenues increased by 3.1% for the three months ended June 30, 2017 compared to the same period in 2016, primarily as a result of higher volumes in our wind towers product line. Selling, engineering, and administrative costs increased by 14.4% for the three months ended June 30, 2017 compared to the same period in 2016, primarily due to increased bad debt expense related to a single customer.

Revenues for the six months ended June 30, 2017 decreased by 3.9% when compared to the same period in 2016.

Revenue from our wind towers and utility structures product lines increased by 3.3%, driven primarily by higher utility structure shipping volumes. Revenues from other product lines decreased by 17.6% as a result of decreases in shipping volumes. Cost of revenues decreased by 1.0% for the six months ended June 30, 2017 compared to 2016, due to improved manufacturing efficiencies in our wind towers product line. Selling, engineering, and administrative costs increased by 6.1% for the six months ended June 30, 2017 compared to the same period in 2016, primarily due to increased bad debt expense related to a single customer.

The backlog for wind towers was \$0.9 billion and \$1.1 billion at June 30, 2017 and 2016, respectively. The Company does not report backlog from its utility structures business because certain contracts contain partial order cancellation provisions.

<sup>(1)</sup> Depreciation, maintenance and compliance, and rent expense are components of operating profit. Amortization of deferred profit on railcars sold from the Rail Group to the Leasing Group is included in the operating profit of the Leasing Group resulting in the recognition of depreciation expense based on the Company's original manufacturing cost of the railcars. Interest expense is not a component of operating profit and includes the effect of hedges.

Total revenues decreased by 35.2% and 21.9% for the three and six months ended June 30, 2017, respectively, compared to 2016 due to lower volume of railcar sales owned one year or less. Leasing and management revenues for the three and six months ended June 30, 2017 increased 3.6% and 4.3%, respectively, compared to 2016 due to net fleet additions partially offset by the effect of lower average rental rates.

During the six months ended June 30, 2017 and 2016, the Company received proceeds from the sales of leased railcars as follows:

	Six Months Ended June 30,	
	2017	2016
	(in millions)	
Leasing Group:		
Railcars owned one year or less at the time of sale	\$7.1	\$126.1
Railcars owned more than one year at the time of sale	92.4	37.7
Rail Group	—	8.1
	\$99.5	\$171.9

Operating profit decreased by 5.9% for the three months ended June 30, 2017 compared to 2016 primarily due to a lower volume of railcar sales. Operating profit increased by 2.0% for the six months ended June 30, 2017 compared to 2016 primarily due to lower fleet maintenance and compliance expenses, partially offset by a lower volume of railcar sales.

The Leasing Group generally uses cash or its non-recourse warehouse loan facility to provide initial funding for a portion of the purchase price of the railcars. After initial funding, the Leasing Group may obtain long-term financing for the railcars in the lease fleet through non-recourse asset-backed securities; long-term non-recourse operating leases pursuant to sales/leaseback transactions; long-term recourse debt such as equipment trust certificates; or third-party equity. See Other Investing and Financing Activities.

## Liquidity and Capital Resources

## Cash Flows

The following table summarizes our cash flows from operating, investing, and financing activities for the six months ended June 30, 2017 and June 30, 2016:

	Six Months Ended June 30, 2017    2016 (in millions)	
Total cash provided by (required by):		
Operating activities	\$336.1	\$486.4
Investing activities	(168.9 )	(496.8 )
Financing activities	78.1	(161.6 )
Net increase (decrease) in cash and cash equivalents	\$245.3	\$(172.0)

Operating Activities. Net cash provided by operating activities for the six months ended June 30, 2017 was \$336.1 million compared to net cash provided by operating activities of \$486.4 million for the six months ended June 30, 2016. Cash flow provided by operating activities decreased primarily due to lower net income.

Receivables at June 30, 2017 increased by \$52.8 million or 11.0% since December 31, 2016 primarily due to a higher income tax receivable partially offset by lower trade receivables in our Rail Group. Raw materials inventory at June 30, 2017 decreased by \$7.8 million or 2.6% since December 31, 2016 primarily attributable to lower levels in our Construction Products and Inland Barge Groups from lower production volumes. At June 30, 2017, work in process inventory decreased by \$16.9 million or 8.9% primarily in our Rail Group while finished goods inventory decreased by \$13.8 million or 7.9% since December 31, 2016 due to higher inventory balances carried at the previous year end for scheduled shipments in early 2017 in our Energy Equipment Group. Accounts payable increased slightly by \$11.0 million, while accrued liabilities decreased by \$4.9 million from December 31, 2016 primarily due to lower compensation-related accruals. We continually review reserves related to bad debt as well as the adequacy of lower of cost or market valuations related to accounts receivable and inventory.

Investing Activities. Net cash required by investing activities for the six months ended June 30, 2017 was \$168.9 million compared to \$496.8 million for the six months ended June 30, 2016. Capital expenditures for the six months ended June 30, 2017 were \$315.0 million, which included \$277.2 million for additions to the lease fleet less \$5.6 million for the cost of sold lease fleet railcars owned one year or less. This compares to \$425.8 million of capital expenditures for the same period last year, which included \$438.0 million for additions to the lease fleet less \$92.0 million for the cost of sold lease fleet railcars owned one year or less. Proceeds from the sale of property, plant, and equipment and other assets totaled \$98.4 million for the six months ended June 30, 2017, including railcar sales from the lease fleet owned more than one year at the time of sale totaling \$92.4 million. This compares to \$41.8 million for the same period in 2016, including railcar sales from the lease fleet owned more than one year at the time of sale totaling \$37.7 million. Full-year manufacturing/corporate capital expenditures for 2017 are projected to range between \$90.0 million and \$110.0 million. For 2017, we anticipate a net investment in our wholly-owned lease fleet of between \$315.0 million and \$365.0 million, after taking into account the proceeds from sales of leased railcars. Short-term marketable securities decreased by \$55.1 million and increased by \$115.1 million for the six months ended June 30, 2017 and 2016, respectively. Net cash required related to acquisitions amounted to \$5.3 million for the six months ended June 30, 2017. There was no divestiture activity for the six months ended June 30, 2017. There was no acquisition or divestiture activity for the six months ended June 30, 2016.

Financing Activities. Net cash provided by financing activities during the six months ended June 30, 2017 was \$78.1 million compared to \$161.6 million of cash required by financing activities for the same period in 2016. During the six months ended June 30, 2017, we retired \$98.3 million in debt as scheduled and borrowed \$299.4 million, net of debt issuance costs, primarily from the issuance by TRL 2017 of promissory notes. During the six months ended June 30, 2016, we retired \$77.6 million in debt as scheduled. We intend to use our cash and committed credit facilities to fund the operations, expansions, and growth initiatives of the Company. Additionally, we may use our cash and

committed credit facilities to retire or repurchase the Company's outstanding debt prior to its stated maturity or repurchase shares of its common stock.

**Other Investing and Financing Activities**

The \$1.0 billion TILC warehouse loan facility, established to finance railcars owned by TILC, had \$167.6 million in outstanding borrowings as of June 30, 2017. Under the facility, \$832.4 million was unused and available as of June 30, 2017 based on the amount of warehouse-eligible, unpledged equipment. The warehouse loan facility is a non-recourse obligation which expires in April 2018 and is secured by a portfolio of railcars and operating leases, certain cash reserves, and other assets acquired and owned by the warehouse loan facility trust. The principal and interest of this indebtedness are paid from the cash flows of the underlying leases. Advances under the facility bear interest at a defined index rate plus a margin, for an all-in interest rate of 2.95% at June 30, 2017. Amounts outstanding at maturity, absent renewal, are payable under the facility in April 2019.

On May 15, 2017, Trinity Rail Leasing 2017, LLC, a Delaware limited liability company ("TRL 2017") and a limited purpose, indirect wholly-owned subsidiary of the Company owned through TILC, issued \$302.4 million of promissory notes (the "2017 Promissory Notes") due May 15, 2024, of which \$301.1 million was outstanding as of June 30, 2017. The 2017 Promissory Notes are obligations of TRL 2017 and are non-recourse to Trinity. The 2017 Promissory Notes bear interest at Libor plus a margin for an all-in interest rate of 2.91% as of June 30, 2017, payable monthly. The 2017 Promissory Notes are secured by a portfolio of railcars and operating leases thereon, certain cash reserves, and other assets acquired and owned by TRL 2017.

In May 2017, the Company declared an increase in its quarterly dividend from \$0.11 to \$0.13 per share, reflecting an 18% increase.

As of June 30, 2017, we had letters of credit issued under our \$600 million revolving credit facility in an aggregate principal amount of \$92.6 million, leaving \$507.4 million available for borrowing. Other than these letters of credit, there were no borrowings under our revolving credit facility as of June 30, 2017, or for the six month period then ended. Borrowings under the credit facility bear interest at a defined index rate plus a margin and are guaranteed by certain 100%-owned subsidiaries of the Company.

In December 2015, the Company's Board of Directors renewed its \$250 million share repurchase program effective January 1, 2016 through December 31, 2017. Under the program, 1,942,200 shares were repurchased during the three and six months ended June 30, 2017, at a cost of approximately \$52.4 million. Certain shares of stock repurchased during June 2017, totaling \$10.5 million, were cash settled in July 2017 in accordance with normal settlement practices. As of June 30, 2017, the remaining authorization under the program totaled \$163.0 million.

During the six months ended June 30, 2017 and 2016, the Company received proceeds from the sales of leased railcars as follows:

	Six Months Ended June 30, 2017 2016 (in millions)	
Leasing Group:		
Railcars owned one year or less at the time of sale	\$7.1	\$126.1
Railcars owned more than one year at the time of sale	92.4	37.7
Rail Group	—	8.1
	\$99.5	\$171.9

We continue to experience weak demand levels for many of the Company's products and services. The ongoing level of uncertainty in the industrial economy has continued to impact our customers' long-term capital planning processes. The oversupply of railcars and barges in the North American market has limited new order levels for these businesses. We continue to assess demand for our products and services and take steps to align our manufacturing capacity appropriately.

**Equity Investment**

See Note 5 of the Notes to Consolidated Financial Statements for information about the Company's investment in partially-owned leasing subsidiaries.

**Future Operating Requirements**

We expect to finance future operating requirements with cash, cash equivalents, and short-term marketable securities; cash flows from operations; and, depending on market conditions, short-term debt, long-term debt, and equity. Debt instruments that the Company has utilized include its revolving credit facility, the TILC warehouse facility, senior notes, convertible subordinated notes, asset-backed securities, and sale-leaseback transactions. As of June 30, 2017, the Company had unrestricted cash, cash equivalents, and short-term marketable securities balances of \$988.3 million, and \$507.4 million available under its revolving credit facility. Under the TILC warehouse facility, \$832.4 million was unused and available as of June 30, 2017 based on the amount of warehouse-eligible, unpledged equipment. The Company believes it has access to adequate capital resources to fund operating requirements and is an active participant in the capital markets.

## Derivative Instruments

We may use derivative instruments to mitigate the impact of changes in interest rates, both in anticipation of future debt issuances and to offset interest rate variability of certain floating rate debt issuances outstanding. We also may use derivative instruments to mitigate the impact of changes in natural gas and diesel fuel prices and changes in foreign currency exchange rates. Derivative instruments that are designated and qualify as cash flow hedges are accounted for in accordance with applicable accounting standards. See Note 3 Fair Value Accounting of the Notes to Consolidated Financial Statements for discussion of how the Company valued its commodity hedges and interest rate swap at June 30, 2017. See Note 11 Debt of the Notes to Consolidated Financial Statements for a description of the Company's debt instruments.

(1) Based on the fair value of open hedge as of June 30, 2017

During 2005 and 2006, we entered into interest rate swap derivatives in anticipation of issuing our 2006 Secured Railcar Equipment Notes. These derivative instruments, with a notional amount of \$200.0 million, were settled in 2006 and fixed the interest rate on a portion of the related debt issuance. These derivative instrument transactions are being accounted for as cash flow hedges with changes in the fair value of the instruments of \$4.5 million in income recorded in Accumulated Other Comprehensive Loss ("AOCL") through the date the related debt issuance closed in 2006. The balance is being amortized over the term of the related debt. The effect on interest expense is due to amortization of the AOCL balance.

Between 2007 and 2009, TRIP Holdings, as required by the TRIP Warehouse Loan, entered into interest rate swap derivatives, all of which qualified as cash flow hedges, to reduce the effect of changes in variable interest rates in the

TRIP Warehouse Loan. In July 2011, these interest rate hedges were terminated in connection with the refinancing of the TRIP Warehouse Loan. Balances included in AOCL at the date the hedges were terminated are being amortized over the expected life of the new debt with \$3.5 million of additional interest expense expected to be recognized during the twelve months following June 30, 2017. Also in July 2011, TRIP Holdings' wholly-owned subsidiary, TRIP Master Funding, entered into an interest rate swap derivative instrument, expiring in 2021, with an initial notional amount of \$94.1 million to reduce the effect of changes in variable interest rates associated with the Class A-1b notes of the TRIP Master Funding secured railcar equipment notes. The effect on interest expense is primarily a result of monthly interest settlements.

In May 2017, TRL 2017 purchased an interest rate cap derivative, which qualified as a cash flow hedge, to limit the Libor component of the interest rate on the 2017 promissory notes to a maximum rate of 3%. The effect on interest expense is primarily the result of amortization of the cost of the derivative and is not expected to be significant during the next twelve months.

Other Derivatives

Natural gas and diesel fuel

We maintain a program to mitigate the impact of fluctuations in the price of natural gas and diesel fuel. The intent of the program is to protect our operating profit from adverse price changes by entering into derivative instruments. For those instruments that do not qualify for hedge accounting treatment, any changes in their valuation are recorded directly to the consolidated statement of operations. The effect on operating income for these instruments was not significant. The amount recorded in the consolidated balance sheet as of June 30, 2017 for these instruments was not significant. The amount recorded in the consolidated balance sheet as of December 31, 2016 for these instruments was an asset of \$0.3 million.

Contractual Obligation and Commercial Commitments

As of June 30, 2017, contractual obligations related to letters of credit increased to \$92.7 million from \$92.3 million at December 31, 2016. Refer to Note 11 of the Consolidated Financial Statements for changes to our outstanding debt and maturities. Contractual obligations that relate to operating leases including sale/leaseback transactions were substantially unchanged as of June 30, 2017. See Note 6 of the Consolidated Financial Statements regarding operating lease obligations.

Forward-Looking Statements

This quarterly report on Form 10-Q (or statements otherwise made by the Company or on the Company’s behalf from time to time in other reports, filings with the Securities and Exchange Commission (“SEC”), news releases, conferences, World Wide Web postings or otherwise) contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Any statements contained herein that are not historical facts are forward-looking statements and involve risks and uncertainties. These forward-looking statements include expectations, beliefs, plans, objectives, future financial performances, estimates, projections, goals, and forecasts. Trinity uses the words “anticipates,” “believes,” “estimates,” “expects,” “intends,” “forecasts,” “may,” “will,” “should,” and similar expressions to identify these forward-looking statements. Potential factors, which could cause our actual results of operations to differ materially from those in the forward-looking statements include, among others:

- market conditions and demand for our business products and services;
- the cyclical nature of industries in which we compete;
- variations in weather in areas where our construction products are sold, used, or installed;
- naturally-occurring events and disasters causing disruption to our manufacturing, product deliveries, and production capacity, thereby giving rise to an increase in expenses, loss of revenue, and property losses;
- the timing of introduction of new products;
- the timing and delivery of customer orders, sales of leased railcars, or a breach of customer contracts;
- the credit worthiness of customers and their access to capital;
- product price changes;
- changes in mix of products sold;
- the costs incurred to align manufacturing capacity with demand and the extent of its utilization;
- the operating leverage and efficiencies that can be achieved by our manufacturing businesses;
- availability and costs of steel, component parts, supplies, and other raw materials;
- competition and other competitive factors;
- changing technologies;
- surcharges and other fees added to fixed pricing agreements for steel, component parts, supplies and other raw materials;
- interest rates and capital costs;
- counter-party risks for financial instruments;
- long-term funding of our operations;
- changes in our stock price resulting in a dilutive impact on earnings per share related to conversion features in our financing instruments;
- taxes;
- the stability of the governments and political and business conditions in certain foreign countries, particularly Mexico;
- changes in import and export quotas and regulations;
- business conditions in emerging economies;
- costs and results of litigation, including trial and appellate costs and supersedeas bonding costs;
- changes in accounting standards or inaccurate estimates or assumptions in the application of accounting policies; legal, regulatory, and environmental issues, including compliance of our products with mandated specifications, standards, or testing criteria and obligations to remove and replace our products following installation or to recall our products and install different products manufactured by us or our competitors;
- actions by the executive and legislative branches of the U.S. government relative to federal government budgeting, taxation policies, government expenditures, U.S. borrowing/debt ceiling limits, and trade policies;
- the use of social or digital media to disseminate false, misleading and/or unreliable or inaccurate information; and
- the inability to sufficiently protect our intellectual property rights.

Any forward-looking statement speaks only as of the date on which such statement is made. Trinity undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made. For a discussion of risks and uncertainties which could cause actual results to differ from those contained in the forward-looking statements, see “Risk Factors” in the Company’s Annual Report on Form 10-K for the

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There has been no material change in our market risks since December 31, 2016 as set forth in Item 7A of our 2016 Form 10-K. Refer to Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations, for a discussion of debt-related activity and the impact of hedging activity for the three and six months ended June 30, 2017.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures designed to ensure that it is able to collect and record the information it is required to disclose in the reports it files with the SEC, and to process, summarize, and disclose this information within the time periods specified in the rules of the SEC. The Company's Chief Executive and Chief Financial Officers are responsible for establishing and maintaining these procedures and, as required by the rules of the SEC, evaluating their effectiveness. Based on their evaluation of the Company's disclosure controls and procedures that took place as of the end of the period covered by this report, the Chief Executive and Chief Financial Officers believe that these procedures are effective to 1) ensure that the Company is able to collect, process, and disclose the information it is required to disclose in the reports it files with the SEC within the required time periods and 2) accumulate and communicate this information to the Company's management, including its Chief Executive and Chief Financial Officers, to allow timely decisions regarding this disclosure.

Internal Controls over Financial Reporting

The Company maintains a system of internal controls designed to provide reasonable assurance that: transactions are executed in accordance with management's general or specific authorization; transactions are recorded as necessary 1) to permit preparation of financial statements in conformity with generally accepted accounting principles, and 2) to maintain accountability for assets; access to assets is permitted only in accordance with management's general or specific authorization; and the recorded accountability for assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any differences.

During the period covered by this report, there have been no changes in the Company's internal controls over financial reporting that have materially affected or are reasonably likely to materially affect the Company's internal controls over financial reporting.
