PROXY STATEMENT

The Board of Directors of Escalade, Incorporated (hereinafter referred to as "Escalade" or the "Company"), headquartered at 817 Maxwell Avenue, Evansville, Indiana 47711 (812) 467-4449, is soliciting proxies, the form of which is enclosed, for the Annual Meeting of Stockholders to be held on Friday, April 27, 2007, at 7:30 a.m. Central Daylight Savings Time. Each of the 13,039,568 shares of common stock outstanding on February 23, 2007 is entitled to one vote on all matters acted upon at the meeting and only stockholders of record on the books of the Company at the close of business on February 23, 2007 will be entitled to vote at the meeting, either in person or by proxy.

The shares represented by all properly executed proxies received by the Company will be voted as designated and each not designated will be voted affirmatively. Unless discretionary authority is withheld, all other matters coming before the meeting will be voted according to the best judgment of the proxies. Any proxy given by a stockholder of record may be revoked at any time before it is voted, by written notice to the Company's Secretary, by execution of a later dated proxy, or by a personal vote at the Annual Meeting. This proxy statement is being mailed to stockholders on or about March 30, 2007.

The expense of soliciting proxies will be borne by the Company. Proxies will be

Edgar Filing: ESCALADE INC - Form DEF 14A

solicited principally by mail, but may also be solicited by directors, officers, and other regular employees of the Company, who will receive no compensation in addition to their regular salaries. Bankers and others who hold stock in trust will be asked to send proxy materials to the beneficial owners of the stock, and the Company may reimburse them for their expenses.

The holders of a majority of the Company's outstanding common stock must be present or represented by proxy at the Annual Meeting to constitute a quorum.

The seven (7) nominees receiving the greatest number of votes cast at the Annual Meeting upon the presence of a quorum will be elected as directors. A properly executed proxy marked "Withhold Authority to Vote" with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum present at the Annual Meeting. The persons named as proxies in the enclosed proxy will vote for the election of the nominees named below unless authority to vote is withheld.

For each other item presented at the Annual Meeting, the affirmative vote of the holders of a majority of the Company's shares present or represented by proxy at the Annual Meeting and entitled to vote on the item will be required for approval. A properly executed proxy marked "Abstain" with respect to any such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum present at the Annual Meeting. Accordingly, an abstention will have the effect of a negative vote.

If you hold your shares in "street name" through a broker or other nominee, your broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. Thus, if you do not give your broker or nominee specific instructions, your shares may not be voted on those matters and will not be counted in determining the number of shares necessary for approval. Shares represented by such "broker non-votes" will, however, be counted in determining whether there is a quorum.

The Annual Report of the Company for its fiscal year 2006 is being mailed to you with this proxy statement, but such report and financial statements are not a part of this proxy statement.

CERTAIN BENEFICIAL OWNERS

The following table sets forth certain information regarding beneficial ownership of the Company's common stock by its Executive Officers and by the only stockholders deemed to be beneficial owners of 5% or more of the common stock of the Company as of February 23, 2007.

ITEM NO. 1 ELECTION OF DIRECTORS

The Board of Directors currently has six members and the Board has voted to increase the size of the Board to seven (7) members as of the date of the Annual Meeting. The nominees presented for election include the six individuals who are current directors and one new nominee, Daniel A. Messmer, the Company's Chief Executive Officer. Those persons whose names are set forth below are standing for election. The term of office of the directors and nominee standing for election as directors at the Annual Meeting will be until the next annual meeting of the stockholders and until their successors are elected and qualified.

Director candidates are nominated by the independent members of the Board of Directors, as the Company does not believe that it is necessary to have a separate Nominating Committee given the small size of the Board. The Board has determined that a potential candidate to be nominated to serve as a director should have the following primary attributes: high achievement expectations with regard to increasing stockholder value; uncompromising position on maintaining ethics; conservative attitude towards financial accounting and disclosure; and should be a stockholder of the Company to bring the perspective of a stockholder

to the Board. To date, the Board has not deemed it necessary to engage a third party search firm to assist in identifying suitable candidates for directors, but has the authority to do so in the future. No fees were paid to any such search firm in connection with the nominees for directors named in this proxy statement. The Board believes that the existing Board members and executive management of the Company have sufficient networks of business contacts that will likely form the candidate pool from which nominees will be identified. Once a candidate is identified, as many members of the Board as feasible will meet with such candidate and the Board as a whole subsequently will evaluate the candidates using the criteria outlined above. The independent Board members will then make the final determination of whether or not to nominate the candidate.

The Board is increasing the size of the Board by one member and is nominating Daniel A. Messmer, the Company's Chief Executive Officer, to fill that seat. Mr. Messmer was appointed to the position of Chief Executive Officer and President in August, 2006, and has participated in Board meetings since that date but has not formally been a member of the Board. The Board believes that the participation of the Company's Chief Executive Officer in Board matters is essential to the effectiveness of the Board and that Mr. Messmer should formally be elected to the Board at the Annual Meeting. The Board also believes that Mr. Messmer satisfies the criteria set forth above in selecting him as a nominee for director.

The Company does not have a formal process by which stockholders can propose nominees to serve as directors. If any stockholder would desire to submit the names and qualifications of potential candidates for directors, the Board would evaluate the possible nominee according to the above criteria and would consider such person in comparison to all other candidates and the number of directors then constituting the Board. The Company has not received any such proposals for this Annual Meeting. Accordingly, the Board has made no rejections or refusals of such candidates.

Information with respect to each of the nominees for the Board of Directors is set forth as follows:

The Board does not have a formal policy regarding director attendance at the Annual Meeting. Typically, the Board holds its annual organizational meeting directly following the Annual Meeting, which results in most directors being able to attend the Annual Meeting.

The Board has determined that all of the above named incumbent directors and nominee for director have met the independence standards of Rule 4200(a)(15) of the National Association of Securities Dealers listing standards, with the exceptions of Messrs. Griffin and Messmer who are executive officers of the Company.

BOARD OF DIRECTORS, ITS COMMITTEES, MEETINGS, AND FUNCTIONS

Edgar Filing: ESCALADE INC - Form DEF 14A

The Board of Directors of the Company currently consists of one member who is an executive officer (Robert E. Griffin) and five independent members (Blaine E. Matthews, Jr., Edward E. Williams, Richard D. White, George Savitsky and Richard F. Baalman, Jr.). If elected as a director at the Annual Meeting, Daniel A. Messmer is an executive officer of the Company and will not be considered an independent director.

During 2006, all Directors attended 100% of all meetings of the Board of Directors and the committees on which they served. The Board of Directors had four meetings. The independent directors held regular executive sessions at each of the four Board Meetings. The Board has designated Mr. Blaine Matthews as a lead or presiding director to chair those executive sessions.

The Company has a standing Audit Committee of the Board of Directors composed of Blaine E. Matthews, Jr., Chairman, Edward E. Williams and George Savitsky. Each of these members meets the requirements for independence set forth in the Listing Standards of the National Association of Securities Dealers, Inc. The Board has also determined that Blaine E. Matthews, Jr. and George Savitsky are audit committee financial experts. The Audit Committee as a whole held five meetings in 2006. At all five meetings the committee met with the independent auditors and management to review the interim financial information contained in each quarterly earnings announcement. The main functions performed by the Audit Committee are to (1) review with the independent auditors their observations on internal controls of the Company and the competency of financial accounting personnel, (2) review with the chief accounting officer and independent auditors, the accounting for specific items or transactions as well as alternative accounting treatments and their effects on earnings, (3) engage the firm of independent certified public accountants to be hired by the Company and review that firm's independence, and (4) approve all audit and non-audit services performed by the Company's independent auditors. The Board of Directors has adopted a written charter for the Audit Committee which can be found on the Company's website at:
www.escaladeinc.com/OVERVIEW/Governance/Audit_Committee_Charter.pdf

The Board of Directors has a Compensation Committee comprised entirely of independent directors; Richard D. White, Chairman, Richard F. Baalman, Jr. and George Savitsky. Prior to his retirement from the Board of Directors effective as of the Company's 2006 annual meeting, Keith P. Williams served on the Compensation Committee and also was an independent director. Following his election to the Board of Directors at the 2006 annual meeting, Mr. Baalman replaced Keith Williams on the Compensation Committee. The Compensation Committee met three times in 2006 to review salaries and compensation levels within the Company. The Compensation Committee also is responsible for awards of stock options and met one time in 2006 to review the granting of options. The Board of Directors has not adopted a written charter for the Compensation Committee.

As discussed above, the Board of Directors has no nominating committee.

6

The Board of Directors has adopted the Escalade, Incorporated Code of Business Conduct and Ethics which may be found on the Company's website at:
www.escaladeinc.com/OVERVIEW/Governance/Conduct.htm.

All employees and Directors of the Company are subject to compliance with the Code.

Stockholders may communicate directly with the Board of Directors in writing by sending a letter to the Board at: Escalade, Incorporated, 817 Maxwell Avenue, Evansville, Indiana 47711. All communications directed to the Board will be

Edgar Filing: ESCALADE INC - Form DEF 14A

received and processed by the Company's office of the Chief Financial Officer and will be transmitted to the Chairman of the Audit Committee without any editing or screening by such office.

SECTION 16 (a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

To the best of the Company's knowledge, all of the Company's directors, officers and 10% or more stockholders have timely filed with the Securities and Exchange Commission all reports required to be so filed pursuant to Section 16 of the Securities Exchange Act of 1934 for 2006.

COMPENSATION DISCUSSION AND ANALYSIS (CD&A)

Compensation Philosophy

The Company's philosophy in setting compensation policies for its named executive officers is to align pay with performance, while at the same time providing competitive compensation that allows the Company to retain and attract executive talent. The Compensation Committee, composed entirely of independent Directors, establishes, approves and evaluates the Company's compensation policies applicable to the named executive officers.

Throughout this proxy statement, all references to the "named executive officers" means Robert E. Griffin, Daniel A. Messmer, Terry D. Frandsen and C.W. "Bill" Reed, the individuals identified under "EXECUTIVE COMPENSATION - Summary Compensation Table." Mr. Reed served as the Company's Chief Executive Officer until April, 2006, after which Mr. Griffin acted as the interim Chief Executive Officer until the Board named Mr. Messmer the new Chief Executive Officer and President in August, 2006. Mr. Frandsen served as the Company's Chief Financial Officer for all of 2006

The Compensation Committee strongly believes that executive compensation should be directly linked to continuous improvements in corporate performance and increases in stockholder value. Consequently the Compensation Committee has adopted the following guidelines for use in evaluating executive compensation:

- o Provide a competitive total compensation package that enables Escalade to attract and retain key executive talent;
- o Align all pay programs with Escalade's annual and long-term business strategies and objectives; and
- o Provide a mix of base and performance-leveraged variable compensation that directly links executive compensation to the performance of Escalade and stockholder return.

Compensation Program; Mix of Pay Components

Consistent with the above philosophy, the Compensation Committee currently utilizes the following components of compensation for the Company's named executive officers:

- o Base salary;
- o Annual incentive cash bonuses;
- o Long-term equity incentives, historically in the form of stock options; and
- o Health, welfare and other benefits

Executive compensation is based on a pay-for-performance philosophy. Consequently, a significant portion of annual and long-term compensation for the named executive officers is at-risk. This provides additional upside potential and downside risk for the Company's Chief Executive Officer and Chief Financial

Edgar Filing: ESCALADE INC - Form DEF 14A

Officer, recognizing that the individuals serving in these roles have greater influence on the performance of the Company.

7

With the exception of employees working under collective bargaining agreements, all employees of the Company, including the named executive officers, are employed at will, without employment agreements, severance payment arrangements or change in control agreements.

The Role of the Compensation Committee; Method of Determining Amount of Total Compensation

The Compensation Committee is responsible for the approval and administration of compensation programs for the named executive officers. The Committee focuses on the attraction and retention of key executives and, when making decisions, considers the Company's compensation philosophy, the achievement of business goals set by the Company, relevant peer data, the competitive environment in which the Company competes for talent, how the Company is positioned for the future, and recommendations made by the Company's Chairman and Chief Executive Officer. While the Committee primarily focuses on compensation for the named executive officers, the Committee also reviews the compensation of certain other key employees, such as the subsidiary and division heads, and the appropriateness and fairness of the allocation of annual incentive compensation among the participants in such plans at the subsidiary level.

In 2006, the Committee took the following steps to ensure that it effectively carries out its responsibilities:

- o Engaged Frederic W. Cook & Co., Inc., an internationally recognized compensation consulting firm to advise on executive officer compensation, to provide the Committee with relevant market data and to advise the Committee on alternatives when making compensation decisions for the named executive officers. Except for services provided by Frederic W. Cook & Co, Inc. at the request of the Compensation Committee, there is no other affiliation between the consultant and the Company or the Company's management.
- o Conducted a review of compensation paid by companies that are similar in terms of industry, business, market capitalization, asset size and geographic footprint. The competitive market data for the study came from two recognized external compensation survey sources, and was deemed to fairly represent the labor markets in which the Company competes for executive talent. The market information served as one of the factors in determining the total compensation for the Company's executive officers.
- o Reviewed all compensation components for the Company's named executive officers.
- o Together with the Board of Directors, subjectively reviewed and evaluated the level of performance of the Company and of each executive officer, including the Chief Executive Officer and Chief Financial Officer, in order to determine current and future appropriate compensation levels.
- o Conducted an annual review of the Company's compensation philosophy to ensure that it remains appropriate given the Company's strategic objectives.

Except for the 1997 Director Stock Compensation and Option Plan which was

Edgar Filing: ESCALADE INC - Form DEF 14A

approved by stockholders at the 1997 annual meeting, the Compensation Committee does not participate in any programs which they administer.

Role of Executive Officers in Compensation Decisions

Mr. Griffin, the Company's Chairman and former Chief Executive Officer, sometimes participates in Compensation Committee meetings and the compensation of the Company's other named executive officers, but does not make any recommendations regarding his own compensation. Consistent with the Committee's past practices with Mr. Reed, the Company's Chief Executive Officer until April, 2006, Mr. Messmer, as the Company's current Chief Executive Officer, will make recommendations regarding the compensation for Mr. Frandsen, the Company's Chief Financial Officer, but will not make recommendations for either himself or Mr. Griffin. Although the Committee considers recommendations by Messrs. Griffin and Messmer along with data provided by its other advisors, the Committee retains full discretion to set all compensation for the Company's named executive officers.

8

Base Salary

The Compensation Committee seeks to compensate the named executive officers competitively within the industry while at the same time designing compensation components that base a significant portion of total compensation on performance. In general, base salary levels are set at the beginning of each year at levels believed by the Compensation Committee to be sufficient to attract and retain qualified executives when considered with the other components of the Company's compensation structure. The primary considerations in determining whether base salaries will be adjusted is the Company's income level generated in the previous year and any changes in level of responsibility. The Compensation Committee also subjectively reviews the individual performance of each named executive officer, based on the performance of the Company and the individual's level of contribution towards that performance.

Accordingly, for fiscal 2006 the Compensation Committee established base salaries for the Company's key executives with the intent to motivate performance by providing significant upside potential through incentive compensation and less on guaranteed compensation in the form of salaries. The Compensation Committee does not target any specific benchmark for base salary levels for its key executives compared to comparable companies within the Company's industries, but generally believes that base salaries should be in the lower half of such comparisons coupled with significant opportunities to achieve high incentive, performance based compensation. The Compensation Committee considered the scope of and accountability associated with each executive officer's position in addition to such factors as the performance and experience of each executive officer when setting base salary levels for fiscal 2006.

In 2006, the Compensation Committee increased the base salary for C.W. "Bill" Reed, the Company's Chief Executive Officer as of the beginning of the Company's fiscal year by 12.7% to \$275,000. The Compensation Committee also increased the base salary for Terry D. Frandsen, the Company's Chief Financial Officer, by 16.7% to \$175,000. The Compensation Committee believed that such increases were warranted for each such officer based primarily on the Company's performance and their contribution to such results.

In 2006, the Compensation Committee increased the base salary for Robert E. Griffin, the Company's Chairman of the Board, by 4% to \$52,000. This increase essentially represents a cost of living increase following several years in which the Compensation Committee has reduced significantly Mr. Griffin's base salary and overall compensation commensurate with the reduction in services that

Edgar Filing: ESCALADE INC - Form DEF 14A

Mr. Griffin provides to the Company on a regular basis. Nonetheless, the Committee recognizes that Mr. Griffin's knowledge of the Company and its industries is of great benefit and assistance to the Company's management, as evidenced by Mr. Griffin's ability and willingness to serve as the Company's interim Chief Executive Officer from April, 2006 until August, 2006. The Committee continues to believe that ongoing compensation to Mr. Griffin is appropriate.

In August, 2006, the Board of Directors appointed Daniel A. Messmer as the Company's Chief Executive Officer and President. Based upon the increased responsibilities and duties that Mr. Messmer was assuming, the Compensation Committee increased his 2006 base salary to \$240,000 at that time.

In February, 2007, the Compensation Committee established the 2007 base salary levels for Messrs. Messmer, Frandsen and Griffin, the Company's current executive officers, at \$247,500, \$181,500 and \$53,500, respectively. These increases represent less than a 4% raise in each instance and reflect the Compensation Committee's philosophy of increasing salaries modestly to keep pace with cost of living increases.

Annual Incentive Bonus

The Compensation Committee believes a large portion of each executive officer's total compensation should come from performance based results. In order to achieve this, for 2006 the Compensation Committee approved a Profit Incentive Bonus Plan (the "Bonus Plan") that was identical to the plan used in prior years. Under this Bonus Plan, individual bonus pools are generated by each business segment, Sporting Goods and Office Products, based on the financial results of that segment. At the beginning of each fiscal year, the Compensation Committee reviews, approves and/or modifies target performance levels suggested by management that dictate the factors used to generate the bonus pools. The

9

performance targets used are Earnings before Interest, Taxes and Amortization ("EBITA") return on equity and EBITA return on average total assets. As noted below the level of achievement dictates the factors used in calculating the bonus pools. The bonus pool is calculated by multiplying EBITA by the sum of the two bonus factors. Virtually all employees, including the named executive officers, are eligible to participate in the Bonus Plan.

Amounts paid under the Bonus Plan are determined and dispersed following completion of the annual audit. Amounts allocated to employees in each business segment are discretionary and determined by the senior management team in each business segment. The Compensation Committee reviews and approves these allocations. Criteria used in determining allocation amounts include the employee's level of responsibility, level of performance, and overall contribution to the success of the business segment.

If the business segment meets or exceeds its targets in one or more of the performance components, a bonus pool is created with respect to such component for payment to the employees of that segment. A bonus pool for the Company's named executive officers is created based on 20.0% of any amounts payable under the subsidiary's incentive profit sharing plan. Historically, this bonus pool for the named executive officers has been distributed 75% to the Company's Chief Executive Officer and 25% to the Company's Chief Financial Officer, although the Compensation Committee retains discretion over the actual distribution and amount of the bonus pool in any given year. Accordingly, each named executive officer's incentive compensation is directly linked to the performance of each of the Company's operating subsidiaries.

Edgar Filing: ESCALADE INC - Form DEF 14A

In 2006, both the sporting goods subsidiary and the office/graphic arts subsidiary exceeded their target levels for each of the incentive profit sharing components and a bonus pool was created with respect to those operations. Therefore, the 2006 bonus amounts paid to Messrs. Messmer and Frandsen were generated from both the Company's sporting goods subsidiary and office/graphic arts subsidiary. After incentive profit sharing and taxes, the Company's consolidated net income of approximately \$8.5 million generated a return on assets (average of beginning and ending assets) of 6.2% and a return on equity (prior year ending balance) of 11.1%. For 2006, the Committee distributed the 20% bonus in accordance with historical allocation ratios; 75% and 25% to Messrs. Messmer and Frandsen, respectively. In recognition of services performed during 2006, the Compensation Committee awarded Mr. Messmer an additional cash bonus of \$21,500.

The Compensation Committee also awarded Mr. Griffin an additional cash payment of \$15,000 for his services as interim Chief Executive Officer from April 2006 to August 2006, following Mr. Reed's retirement as Chief Executive Officer.

Stock Option Grants

The Compensation Committee also determines annual stock option grants to the Company's executive officers and other eligible employees. Historically, the Committee has awarded stock options and believed that such options are an effective incentive to encourage stock ownership by officers and key employees of the Company and its subsidiaries so that those persons acquire or increase their proprietary interest in the success of the Company. Stockholders approved the 1997 Incentive Stock Option Plan at the 1997 annual meeting, and that plan provided only for the grant of stock options and no other form of equity awards. Pursuant to that plan the committee felt it was appropriate to grant stock options to certain executive officers of the Company in 2006. The Committee granted 20,000 options to Mr. Reed, 25,000 options to Mr. Frandsen, and 25,000 options to Mr. Messmer prior to his appointment as Chief Executive Officer and President. No additional options were awarded to Mr. Messmer upon his promotion. The Compensation Committee has determined that stock option awards to Mr. Griffin are not necessary to incentive Mr. Griffin or to further align his interests with stockholders because Mr. Griffin is the largest stockholder of the Company as the beneficial owner of 25.0% of the Company's outstanding Common stock. All stock options are awarded with an exercise price equal to the fair market value on the date of grant.

If the stockholders approve the Company's 2007 Incentive Plan at the Annual Meeting pursuant to Proposal 2 in this proxy statement, the Compensation Committee will have a broader array of long-term incentive awards available for grant to the Company's employees, including the Chief Executive Officer and Chief Financial Officer. Such awards may be in the form of stock options, stock appreciation rights, restricted stock, restricted stock units, performance cash, performance shares, performance units and other stock-based awards as permitted by the 2007 Incentive Plan. The Compensation Committee believes that in 2007 and

beyond, equity awards other than and/or in addition to stock options will create greater incentive for its employees and executive officers and will strengthen their alignment with stockholder interests. While the Compensation Committee has not yet determined any specific awards to be made to any of the named executive officers or other Company employees under the 2007 Incentive Plan, if approved by stockholders, the Committee currently believes that grants of restricted stock units will better meet the Committee's compensation philosophy and objectives as those awards will be more directly tied to performance measures to be achieved by the Company rather than being based upon the recipient's continued employment with the Company.

Edgar Filing: ESCALADE INC - Form DEF 14A

Health, Welfare and Other Benefits

The Company provides medical, life, 401(k) plan and similar benefits to all of its salaried employees, including the named executive officers. Other than a non-qualified deferred compensation plan in which Mr. Griffin participates, none of these benefits discriminate in scope, terms or operation in favor of the named executive officers.

In 2006, with the approval of, and in the discretion of, the Compensation Committee, the Company provided each of Mr. Reed, its former Chief Executive Officer, and Mr. Frandsen, its current Chief Financial Officer, with certain one-time benefits.

In connection with Mr. Reed's retirement from the Company, the Compensation Committee determined that it was in the best interests of the Company to enter into an agreement with Mr. Reed that provided for (a) the payment of approximately \$794,000 in installments through April 16, 2009, (b) the acceleration of the vesting of all unvested stock options held by Mr. Reed as of July 17, 2006 and allowing him to exercise any or all such options within the following 90 days, (c) continuing medical coverage pursuant to COBRA for Mr. Reed and his dependents for a period of eighteen months from the date of his retirement, and (d) the payment of the total amount of his account balance in the Company's deferred compensation plan in two installments. In return, Mr. Reed agreed to (a) assist the Company with its management transition through his retirement date, and (b) enter into certain covenants in favor of the Company, including confidentiality and non-competition provisions. Mr. Reed and the Company also mutually released each other from any potential claims against the other, except as otherwise provided in the agreement.

With respect to Mr. Frandsen, the Company's Board of Directors requested that he relocate his personal residence from Wabash, Indiana to Evansville, Indiana in connection with the relocation of the Company's principal executive offices to Evansville. In recognition of the disruption that the move would cause to Mr. Frandsen and his family and the unfavorable market for the sale of homes in Wabash, the Company agreed to purchase his Wabash home at its recently appraised price and to pay him cash bonuses in the aggregate amount of \$65,000, which bonuses were designed to minimize the likelihood that Mr. Frandsen would suffer personal financial loss as a result of the move. The relocation agreement further provided that the Company's total net out-of-pocket expenses in connection with his relocation would not exceed \$120,000 and that, if Mr. Frandsen's employment with the Company would be terminated by the Company for just cause or by him without good reason, then he must reimburse the Company for all or part of such relocation payments if such termination would occur prior to the third anniversary of the agreement in accordance with the schedule set forth in the Agreement.

The Compensation Committee does not intend that such agreements will create any precedents for similar situations that may arise with executive officers in the future, and will consider each such instance on a case-by-case basis depending on the specific individual and on the particular circumstances existing at that time.

Section 162(m)

Based on the Compensation Committee's past compensation practices, the Committee does not currently believe that Section 162 (m) of the Internal Revenue Code, which limits the deductibility of executive compensation in certain events, will adversely affect the Company's ability to obtain a tax deduction for compensation paid to its named executive officers.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee has reviewed and discussed with the Company's management the preceding Compensation Discussion and Analysis ("CD&A") as well as the accompanying tables set forth below. Based on that discussion, the Committee recommended to the Board of Directors that the CD&A be included in this proxy statement and incorporated into the Company's Annual Report on Form 10-K for the Company's fiscal year ended December 30, 2006.

Richard D. White, Chairman Richard F. Baalman, Jr. George Savitsky

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

In 2006, Richard White and George Savitsky served on the Company's Compensation Committee for the entire year. Keith P. Williams served until his retirement as a director effective as of the 2006 annual meeting, at which time Richard Baalman was elected to the Board and replaced Mr. Williams on the Compensation Committee. All of the directors who served on the Compensation Committee in 2006 were independent directors at all times. No other director or executive officer of the Company serves on any board of directors or compensation committee of any entity that compensates any of Messrs. White, Baalman, Savitsky and Keith Williams.

Pension Benefits

Other than the Company's 401(k) defined contribution plan, the Company has no pension plans in which the named executive officers participate.

Nonqualified Deferred Compensation

The Company maintains a nonqualified deferred compensation plan that allowed Mr. Griffin, and certain other executive officers who are no longer with the Company, including Mr. Reed, to defer a portion of their incentive bonuses earned during each of the years between 1985 and 1992. The Company provided a matching contribution equal to 70% of the deferred amount. The plan is unfunded and amounts owed to participants under the plan are subject to the claims of general creditors of the Company. The Company accrues interest on the balance owed to participants at the rate of 9% compounded monthly. This plan is intended to comply with the requirements of Section 409(A) of the Internal Revenue Code.

The following table illustrates the nonqualified deferred compensation benefits provided to the named executive officers in 2006. It does not reflect matching 401(k) or discretionary contributions made under the Company's qualified retirement plan.

Potential Payments Upon Termination or Change in Control

Edgar Filing: ESCALADE INC - Form DEF 14A

The Company currently does not have employment, severance, change in control or similar agreements with any of its named executive officers. Other than benefits that are generally available to all other salaried employees of the Company, the named executive officers have no agreements that would provide them with any cash payments upon termination of employment with the Company.

Upon a change in control of the Company, as defined in the Company's 1997 Incentive Stock Option Plan (approved by the Company's stockholders at the 1997 annual meeting), the vesting of all outstanding, unvested stock options would be accelerated. This is true for all stock option recipients, not just the named executive officers. Based upon the closing stock price of the Company's common stock as of December 29, 2006 (\$10.72), Mr. Terry Frandsen is the only named executive who would potentially receive value for unexercised stock options: approximately \$14,025. The potential value of unexercised stock options is computed as the difference between the exercise price and the closing stock price multiplied by the number of shares. Options with exercise prices higher than the closing market price are not included in the calculation.

Director Compensation

The following table illustrates the 2006 compensation structure for the Company's directors. In addition to the compensation described below, each director is reimbursed for reasonable out-of-pocket expenses incurred for travel and attendance related to meetings of the Board of Directors or its committees.

16

Annual Retainer Fees	
Chairman of the Board	\$25,000
Chairman of the Audit Committee	\$ 2,000
Chairman of the Compensation Committee	\$ 2,000
Director	\$ 7,000
Meeting Attendance Fees	
In-person Board meeting attendance	\$ 4,000
Telephonic Board meeting attendance	\$ 1,000
Committee meeting attendance	\$ 1,000

The Chairman of the Board does not receive a separate retainer as a Director, but does receive any meeting attendance fees earned. Each independent director elected at the 2006 annual meeting, also received a special one time grant of 2,000 stock options, which grants were approved by stockholders at the 2006 annual meeting.

Directors can elect to receive some or all of the fees earned in shares of the Company's common stock pursuant to the 1997 Director Stock Compensation and Option Plan which was approved by stockholders at the 1997 annual meeting. Those shares and options will not be issued until April 27, 2007. The number of shares to be issued will be calculated based on the aggregate director fees deferred by the director since the 2006 Annual Meeting divided by \$11.26, the closing share price on the first business day following the 2006 annual meeting. Each director who elected to receive shares will also be granted stock options in an amount equal to one half of the shares issued to the director at an exercise price equal to the per share closing market price on April 27, 2007. In 2006 there were 10,156 shares issued and 5,076 stock options issued pursuant to the plan.

The following table summarizes the compensation earned by or awarded to each director who served on the Board of Directors during 2006. Compensation reflected for Messrs. Griffin and Reed is also reflected in the "Summary

ITEM NO. 2
PROPOSAL TO APPROVE THE 2007 INCENTIVE PLAN

Edgar Filing: ESCALADE INC - Form DEF 14A

DESCRIPTION OF THE 2007 INCENTIVE PLAN

Subject to stockholder approval, the Company's Board of Directors approved the Escalade, Incorporated 2007 Incentive Plan (the "Plan") based on recommendation of the Plan by its Compensation Committee.

The following description sets forth the material terms of the Plan. It does not purport to be complete and is qualified in its entirety by reference to the provisions of the Plan attached as Annex 1 to this Proxy Statement. All capitalized terms which are not defined herein are defined in the Plan.

19

Purpose

The Plan is intended to assist the Company and its subsidiaries in attracting and retaining selected individuals to serve as employees, directors, consultants and/or advisors of the Company and its subsidiaries who are expected to contribute to the Company's success. The Company believes that the Plan will provide flexibility in the types and amounts of incentives that can be provided to these key individuals and will promote the achievement of long-term objectives which will inure to the benefit of all stockholders of the Company.

Administration

The Compensation Committee of the Board of Directors will administer the Plan. The Compensation Committee will be composed of no fewer than two directors, each of whom must be "independent" under applicable NASDAQ Stock Market listing rules (or such other principal stock exchange on which the Company's common stock is then traded), and whom, to the extent required by Rule 16b-3 under the Securities Exchange Act of 1934 or Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), qualify as "non-employee directors" and "outside directors," respectively. The Committee has broad discretion and authority to, among other things, select the officers, employees, directors, consultants and advisors to whom awards may be granted, to determine the terms, conditions, form and amount of the awards, to establish, where deemed applicable, performance goals with respect to awards and to measure and certify the achievement thereof, and to establish guidelines and procedures relating to awards. The Committee will have full power to administer and interpret the Plan and to adopt or establish, and to modify or waive, rules, regulations, agreements, guidelines, procedures and instruments which it deems necessary or advisable for the administration and operation of the Plan. The Committee may delegate its authority to a committee of one or more directors of the Company or to one or more executive officers or a committee of executive officers the right to grant awards to employees who are not directors or executive officers of the Company and the authority to take action on behalf of the Committee pursuant to the Plan to cancel or suspend awards to employees who are not directors or executive officers of the Company.

Eligibility

Any officer, employee, director, consultant or advisor of the Company or any of its subsidiaries or affiliates is eligible to receive an award under the Plan. As of December 30, 2006 there were approximately 891 employees and six directors of the Company and its subsidiaries and affiliates. The selection of participants and the nature and size of the awards is subject to the discretion of the Committee.

Shares Available for Issuance

The Plan provides that the total number of shares of common stock which may be

Edgar Filing: ESCALADE INC - Form DEF 14A

issued pursuant to awards under the Plan may not exceed 1,000,000, plus any shares underlying awards made under the Company's 1997 Incentive Stock Plan and 1997 Directors Stock Compensation and Option Plan (the "Prior Plans") which are subsequently forfeited or otherwise become available for issuance under the terms of the Prior Plans. As of December 30, 2006, a total of 544,586 shares previously granted options are outstanding and unexercised under the Prior Plans. Therefore, based on this information, if the Plan is approved, a total of approximately 1,544,586 shares may be available for grant under the Plan, representing approximately 11.8% of the Company's outstanding stock as of December 30, 2006. Regardless of whether the Plan is approved by the Company's stockholders, no further grants will be made under the Prior Plans which will expire by their terms on April 26, 2007. If the Plan is approved, then the shares of common stock and stock options payable to directors on April 27, 2007 pursuant to their deferral elections made with respect to their 2006 director fees will be made under this Plan rather than under the 1997 Directors Stock Compensation and Option Plan. See "New Plan Benefits," below.

To the extent that shares of common stock subject to an outstanding award under the Plan or the Prior Plans are not issued by reason of forfeiture, termination, surrender, cancellation, or expiration while unexercised of such award, by reason of the tendering or withholding of shares to pay all or a portion of the exercise price or to satisfy all or a portion of the tax withholding obligations relating to the award, by reason of being settled in cash in lieu of shares or settled in a manner that some or all of the shares covered by the award are not issued to the participant, or being exchanged for a grant under the Plan that does not involve common stock, then such shares shall immediately again be available for issuance under the Plan. The Committee may from time to time adopt and observe such procedures concerning the counting of shares against the Plan maximum as it may deem appropriate.

20

Shares of common stock issued in connection with awards that are assumed, converted or substituted pursuant to a merger, acquisition or similar transaction entered into by the Company or any of its subsidiaries shall not reduce the number of shares available to be issued under the Plan.

Of the shares authorized for issuance under the Plan, up to 90% may be issued with respect to awards which are not stock appreciation rights or stock options, and up to 1,500,000 shares may be issued pursuant to options which are incentive stock options under the Code. In addition, as required by Code Section 162(m), the Plan includes a limit of 200,000 shares of common stock as the maximum number of shares that may be subject to awards made to any one individual in any 36-month period. In addition to the foregoing, the maximum dollar value that may be earned by any participant in any 12-month period with respect to awards that are intended to comply with the performance-based exception under Code Section 162(m) and are denominated in cash is \$2,000,000.

The source of common stock issued with respect to awards may be authorized but unissued shares or treasury shares. In the event there is a change in the capital structure of the Company as a result of any stock dividend or split, recapitalization, merger, consolidation or spin-off or other corporate change affecting the common stock, the number of shares of common stock authorized for issuance, available for issuance or covered by any outstanding award and the price per share of any such award, and the various limitations described above, will be proportionately adjusted. Fractional shares will not be issued under the Plan.

(1) These plans are the Company's 1997 Incentive Stock Option Plan, the 1997 Director Stock Compensation and Option Plan and the 10,000 options to acquire common stock issued to the Company's independent directors following the 2006 annual meeting as approved by the Company's stockholders at that meeting.

Awards

A participant in the Plan is permitted to receive multiple grants of awards. The terms and provisions of a type of award with respect to any recipient need not be the same with respect to any other recipient of such award.

The following types of awards may be granted under the Plan:

Stock Options. Stock Options may be nonqualified stock options or incentive stock options that comply with Code Section 422. The exercise period for any stock option will be determined by the Committee at the time of grant. The exercise price per share for all shares of common stock issued pursuant to stock options under the Plan may not be less than 100% of the Fair Market Value of a share of common stock on the grant date. Each stock option may be exercised in whole, at any time, or in part, from time to time, after the grant becomes exercisable. The Plan limits the term of any stock option to 10 years, except in the event of death or disability. Unless otherwise approved by the Company's stockholders, the Plan prohibits repricing of options.

Stock Appreciation Rights ("SARs"). The Committee may grant SARs independently of any stock option or other award or in tandem with all or any part of a stock

option or other award granted under the Plan. Upon exercise, each SAR entitles a participant to receive an amount equal to the excess of the Fair Market Value (as defined in the Plan) of a share of common stock on the date the SAR is exercised over the Fair Market Value of a share of common stock on the date the SAR is granted. As determined by the Committee, the payment due upon exercise of an SAR may be made in shares of common stock having a Fair Market Value on the date of exercise equal to the amount due upon the exercise of the SAR, may be paid in cash, or in a combination. Upon exercise of an SAR granted in conjunction with a stock option, the option may be required to be surrendered.

Restricted Stock and Restricted Stock Units. An award of Restricted Stock is an award of shares of common stock that may not be sold or otherwise disposed of during a restricted period determined by the Committee. An award of Restricted Stock Units is an award of the right to receive a share of common stock after

Edgar Filing: ESCALADE INC - Form DEF 14A

the expiration of a restricted period determined by the Committee. Restricted Stock may be voted by the recipient. To the extent provided by the Committee in the applicable award agreement, dividends on the Restricted Stock and Restricted Stock Units may be payable to the recipient in cash or in additional Restricted Stock or Restricted Stock Units.

Other Share-Based Awards. The Committee may grant other awards of shares or other types of awards which may be based in whole or in part by reference to common stock or other property. Such awards may be payable upon the achievement of performance goals or such other terms and conditions as the Committee may prescribe.

Performance Cash, Performance Shares and Performance Units. Performance Cash, Performance Shares and Performance Units are awards of a fixed or variable number of shares or of dollar-denominated units that are earned by achievement of performance goals established by the Committee. If the applicable performance criteria are met, the shares are earned and become unrestricted with respect to Performance Shares or an amount is payable with respect to the Performance Units. The Committee may provide that a certain percentage of the number of Performance Shares or Units originally awarded may be earned based upon the attainment of the performance goals. Amounts earned under Performance Share and Performance Unit Awards may be paid in common stock, cash or a combination of both. During the applicable performance period for an award, the shares may be voted by the recipient and the recipient may be entitled to receive dividends on those shares, at the discretion of the Committee.

Performance Goals

Section 162(m) of the Code disallows federal income tax deductions for certain compensation in excess of \$1,000,000 per year paid to each of the Company's Chief Executive Officer and its other four most highly compensated executive officers (collectively, the "Covered Employees"). Under Section 162(m), compensation that qualifies as "other performance-based compensation" is not subject to the \$1,000,000 deduction limit. In addition to the annual limitations on awards described above, another condition necessary to qualify certain incentive awards (other than SARs and stock options, which are treated as "other performance-based compensation") as "other performance-based compensation" is that the material criteria relating to the performance goals under which the award is made must be disclosed to, and approved by, the stockholders of the Company before the incentive compensation is paid.

For those types of awards under the Plan intended to meet the definition of "other performance-based compensation" the Committee will establish performance goals with respect to an award based upon one or more of the following performance criteria: net sales; revenue; revenue growth or product revenue growth; operating income (before or after taxes); pre- or after-tax income (before or after allocation of corporate overhead and bonus); earnings per share; net income (before or after taxes); return on equity; total shareholder return; return on assets or net assets; appreciation in and/or maintenance of the price of the shares or any other publicly-traded securities of the Company; market share; gross profits; earnings (including earnings before taxes, earnings before interest and taxes, earnings before interest, taxes and amortization, or earnings before interest, taxes, depreciation and amortization); economic value-added models or equivalent metrics; comparisons with various stock market indices; reductions in costs; cash flow or cash flow per share (before or after dividends); return on capital (including return on total capital or return on invested capital); cash flow return on investment; improvement in or attainment of expense levels or working capital levels; operating margins, gross margins or cash margin; year-end cash; debt reductions; shareholder equity; market share; regulatory achievements; and implementation, completion or attainment of measurable objectives with respect to research, development, products or projects, production volume levels, acquisitions and divestitures and recruiting

Edgar Filing: ESCALADE INC - Form DEF 14A

and maintaining personnel. Such performance goals also may be based solely by reference to the Company's performance or the performance of a subsidiary,

22

division, business segment or business unit of the Company, or based upon the relative performance of other companies or upon comparisons of any of the indicators of performance relative to other companies. The Committee may also exclude charges related to an event or occurrence which the Committee determines should appropriately be excluded, including (a) restructurings, discontinued operations, extraordinary items, and other unusual or non-recurring charges, (b) an event either not directly related to the operations of the Company or not within the reasonable control of the Company's management, or (c) the cumulative effects of tax or accounting changes in accordance with U.S. generally accepted accounting principles.

Such performance goals shall be set by the Committee within the time period prescribed by, and shall otherwise comply with the requirements of, Section 162(m) of the Code, and the regulations thereunder. Section 162(m) also requires that for compensation to be "performance-based, the Company must obtain stockholder approval every five years of the material terms for performance goals for such compensation. Accordingly, the Company will need to seek reapproval of the above or revised performance goals no later than the Company's annual meeting of stockholders in 2012 if the Company desires to obtain tax deductions for performance-based compensation after that date.

At the end of each performance period for an award to Covered Employees, the Committee will determine and certify the extent to which the performance goal established for the performance period has been achieved and determine the amount to be paid, vested or delivered as a result thereof, provided the Committee may, in its sole discretion, reduce or eliminate such amount to the extent permitted under the Plan and applicable law.

Termination of Employment or Services

The Committee shall determine and set forth in each award agreement whether any awards granted in such award agreement will continue to be exercisable, and the terms of such exercise, on and after the date that a participant ceases to be employed by or to provide services to the Company or any subsidiary (including as a director), whether by reason of death, disability, voluntary or involuntary termination of employment or services, or otherwise. The date of termination of a participant's employment or services will be determined by the Committee, which determination will be final.

Change in Control

Unless otherwise provided by the Committee in the applicable award agreement (including any amendment or modification thereof), upon a change in control of the Company, all awards based on the Company's common stock shall immediately vest 100% and all performance-based awards shall be deemed earned and payable, either in full or pro rata based upon the portion of the performance period then completed as of the date of the change in control.

Other Provisions

In general, except to the extent provided by the Committee in the specific terms of an award or with respect to certain transfers of nonqualified stock options to certain family members or foundations for no value or other consideration, no award will be assignable or transferable except by will, the laws of descent and distribution.

Edgar Filing: ESCALADE INC - Form DEF 14A

The Committee may impose such restrictions and limitations on any awards granted under the Plan as it may deem advisable, including, but not limited to share ownership or holding period requirements and requirements to enter into or to comply with confidentiality, non-competition and other restrictive or similar covenants.

The receipt of payment of cash or the delivery of shares that would otherwise be due to a participant under an award may be deferred at the election of the participant pursuant to an applicable deferral plan or arrangement established by the Company or a subsidiary.

Effective Date, Amendment and Termination

If approved by the stockholders, the Plan will become effective as of the date of such approval and will remain in effect until all shares subject to the Plan have been purchased and/or acquired according to the provisions of the Plan,

23

provided, however, that no awards may be granted on or after the tenth anniversary of such date. The Board of Directors may terminate the Plan at any time and may amend or modify the Plan from time to time provided that no such action shall materially adversely alter or impair any outstanding award without the consent of the participant affected thereby. In addition, unless approved by the Company's stockholders, no amendment or modification may increase the number of shares of common stock which may be issued under the Plan (except pursuant to an adjustment related to a corporate change affecting the Common stock), expand the types of awards available to participants under the Plan, materially expand the class of persons eligible to participate in the Plan, delete or limit the provisions prohibiting the repricing of options or reduce the price at which shares may be offered under options, extend the termination date for making awards under the Plan, or become effective if such amendment or modification is required under the rules and regulations of the NASDAQ Stock Market or another national exchange on which the Common stock is then listed, or other applicable law, rules or regulations, to be approved by the stockholders.

The Committee may amend or modify any outstanding awards in any manner to the extent that the Committee would have had the authority under the Plan initially to make such award as so amended or modified, provided that no amendment or modification shall materially adversely alter or impair an outstanding award without the consent of the participant affected thereby.

Federal Income Tax Considerations

The following discussion is a summary of certain federal income tax consequences to participants who may receive grants of awards under the Plan. This discussion does not purport to be complete, and does not cover, among other things, state and local tax treatment.

Incentive Stock Options. No taxable income is realized by the participant upon exercise of an incentive stock option granted under the plan, and if no disposition of those shares is made by such participant within two years after the date of grant or within one year after the transfer of those shares to the participant, then (a) upon the sale of the shares, any amount realized in excess of the exercise price will be taxed as a long-term capital gain and any loss sustained will be taxed as a long-term capital loss, and (b) no deduction will be allowed to the Company for federal income tax purposes. Upon exercise of an incentive stock option, the participant may be subject to alternative minimum tax on certain items of tax preference.

If the shares of common stock acquired upon the exercise of an incentive stock

Edgar Filing: ESCALADE INC - Form DEF 14A

option are disposed of prior to the expiration of the two-years-from-grant/one-year-from-transfer holding period, generally (a) the participant will realize ordinary income in the year of disposition in an amount equal to the excess (if any) of the fair market value of the shares at exercise (or, if less, the amount realized upon disposition of the shares) over the exercise price, and (b) the Company will be entitled to deduct such amount. Any additional gain or loss realized will be taxed as short-term or long-term capital gain or loss, as the case may be, and may not be deducted by the Company.

If an incentive stock option is exercised at a time when it no longer qualifies as an incentive stock option, the option will be treated as a nonqualified stock option.

Nonqualified Stock Options. For federal income tax purposes, no income is recognized by a participant upon the grant of a nonqualified stock option. Upon exercise, the participant will realize ordinary income in an amount equal to the excess of the Fair Market Value of a share of common stock on the date of exercise over the exercise price multiplied by the number of shares received pursuant to the exercise of such options. A subsequent sale or exchange of such shares will result in gain or loss measured by the difference between (a) the exercise price, increased by any compensation reported upon the participant's exercise of the option and (b) the amount realized on such sale or exchange. Any gain or loss will be capital in nature if the shares were held as a capital asset and will be long-term if such shares were held for more than one year.

The Company is entitled to a deduction for compensation paid to a participant at the same time and in the same amount as the participant realizes compensation upon exercise of the option.

Stock Appreciation Rights. No taxable income is recognized by a participant upon the grant of a SAR under the Plan. Upon the exercise of an SAR, the participant will realize ordinary income in an amount equal to the fair market value of the

24

shares of common stock received and the amount of cash received. Shares of common stock received upon the exercise of a SAR will, upon subsequent sale, be eligible for capital gain treatment, with the capital gain holding period commencing on the date of exercise of the SAR.

The Company is entitled to a deduction for compensation paid to a participant at the same time and in the same amount as the participant realizes ordinary income upon exercise of the SAR.

Stock Awards. A recipient of Restricted Stock, Performance Shares or any other awards of shares of common stock generally will be subject to tax at ordinary income rates on the Fair Market Value of the common stock at the time the shares have been delivered and are no longer subject to forfeiture. A recipient who so elects under Section 83(b) of the Code within 30 days of the date of the grant of shares of common stock will have ordinary taxable income on the date of the grant equal to the Fair Market Value of the shares as if the shares were unrestricted or the shares were earned and could be sold immediately. If the shares subject to such election are forfeited, the recipient will not be entitled to any deduction, refund or loss for tax purposes with respect to the forfeited shares. Upon sale of the Restricted Shares or Performance Shares after the forfeiture period has expired, the holding period to determine whether the recipient has long-term or short-term capital gain or loss begins when the restriction period expires. If the recipient timely elects to be taxed as of the date of the grant, the holding period commences on the date of the grant and the tax basis will be equal to the Fair Market Value of the shares on the date of

Edgar Filing: ESCALADE INC - Form DEF 14A

the grant as if the shares were then unrestricted and could be sold immediately. The Company is entitled to a deduction for compensation paid to a participant in the amount of ordinary income recognized by the participant.

Restricted Stock Units and Performance Units. A recipient of units will generally be subject to tax at ordinary income rates on the Fair Market Value of any common stock issued or cash paid pursuant to such an award, and the Company will generally be entitled to a deduction equal to the amount of the ordinary income realized by the recipient. The Fair Market Value of any common stock received will generally be included in income (and a corresponding deduction will generally be available to the Company) at the time of receipt. The capital gain or loss holding period for any common stock distributed under an award will begin when the recipient recognizes ordinary income in respect of that distribution.

Other Awards. A participant will recognize ordinary income upon receipt of cash pursuant to a cash award and the Company will generally be entitled to a deduction equal to the amount of the ordinary income realized by the recipient. The federal income tax consequences of other incentive awards will depend on how the awards are structured. Generally, the Company will be entitled to a deduction with respect to other incentive awards only to the extent that the recipient realizes compensation income in connection with such awards.

Compliance with Section 409A of the Code. The Plan is intended to comply and be administered in a manner that is intended to comply with Section 409A of the Code. To the extent that an award or the payment, settlement or deferral of an award is subject to Section 409A of the Code, the award shall be granted, paid, settled or deferred in a manner that will comply with Section 409A, including regulations or other guidance issued with respect thereto, except as otherwise determined by the Committee. Any provision of the Plan that would cause the grant of an award or the payment, settlement or deferral of an award to fail to satisfy Section 409A shall be amended to comply with Section 409A on a timely basis, which may be made on a retroactive basis, in accordance with regulations and other guidance issued under Section 409A.

25

New Plan Benefits

In accordance with the terms of the existing 1997 Directors Stock Compensation and Option Plan, the directors of the Company are to receive awards of shares of common stock and stock options based upon deferral elections made in April, 2006 of certain director fees that would have otherwise been payable in cash. Because the 1997 plan will expire before the date that such awards are to be made, the Company will make the awards under the Plan if the stockholders approve the Plan at the Annual Meeting. The following table shows the awards that will be made to the directors if the Plan is approved.

- (2) The fair value of options granted will be calculated based on the provisions of Financial Accounting Standard No. 123R (Share-Based Payment) using the closing market price on the date the options are granted. The value recorded in this column is based on closing market price of the Company's common stock on March 16, 2007: \$9.75 per share. Assuming this price on the date of grant, the estimated fair value of the options using the Black-Scholes option-pricing model is \$3.27 per option.

If the Plan is not approved at the Annual Meeting, the Compensation Committee will consider alternative compensation to the directors including, without limitation, the payment of the cash value of the stock and option awards that would have been paid to the directors on April 27, 2007.

Other than as specified in the above table, no determination has yet been made as to the amount or terms of any stock-based incentives or any future cash awards under the Plan. The Compensation Committee currently believes that awards of restricted stock units will best meet the Company's compensation objectives for equity incentives to executive officers and directors. The Compensation Committee is considering annual grants to each of the five non-management director commencing with the 2007 Annual Meeting of 1,250 restricted stock units with a one year vesting period, but no such awards have yet been made or agreed upon. If made, based on the Fair Market Value of the Company's common stock as of March 16, 2007, such awards would have a value of \$12,188 to each such non-management director. Similarly, awards of restricted stock units for Mr. Messmer and Mr. Frandsen are being considered but no specific amounts or terms have yet been established or agreed upon by the Committee.

For additional information concerning the Company's compensation of its directors and executive officers, please see "Compensation Discussion and Analysis" and "Executive Compensation."
