FORWARD-LOOKING STATEMENTS

The information included in this quarterly report on Form 10-Q contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may relate to the financial condition, results of operations, plans, objectives, future performance and business of OFG Bancorp (“we,” “our,” “us” or the “Company”), including, but not limited to, statements with respect to the adequacy of the allowance for loan losses, delinquency trends, market risk and the impact of interest rate changes, capital markets conditions, capital adequacy and liquidity, and the effect of legal proceedings and new accounting standards on the Company’s financial condition and results of operations. All statements contained herein that are not clearly historical in nature are forward-looking, and the words “anticipate,” “believe,” “continues,” “expect,” “estimate,” “intend,” “project” and similar expressions and future or conditional verbs such as “will,” “would,” “should,” “could,” “might,” “can,” “may,” or similar expressions are generally intended to identify forward-looking statements.

These statements are not guarantees of future performance and involve certain risks, uncertainties, estimates and assumptions by management that are difficult to predict. Various factors, some of which by their nature are beyond the Company’s control, could cause actual results to differ materially from those expressed in, or implied by, such forward-looking statements. Factors that might cause such a difference include, but are not limited to:

- the rate of growth in the economy and employment levels, as well as general business and economic conditions;
- changes in interest rates, as well as the magnitude of such changes;
- the fiscal and monetary policies of the federal government and its agencies;
- a credit default or potential restructuring by the Commonwealth of Puerto Rico or any of its agencies, municipalities or instrumentalities;
- changes in federal bank regulatory and supervisory policies, including required levels of capital;
- the impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) on the Company’s businesses, business practices and cost of operations;
- the relative strength or weakness of the consumer and commercial credit sectors and of the real estate market in Puerto Rico;
- the performance of the securities markets;
- competition in the financial services industry;
- additional Federal Deposit Insurance Corporation (“FDIC”) assessments; and
- possible legislative, tax or regulatory changes.

Other possible events or factors that could cause results or performance to differ materially from those expressed in these forward-looking statements include the following: negative economic conditions that adversely affect the general economy, housing prices, the job market, consumer confidence and spending habits which may affect, among other things, the level of non-performing assets, charge-offs and provision expense; changes in interest rates and market liquidity which may reduce interest margins, impact funding sources and affect the ability to originate and distribute financial products in the primary and secondary markets; adverse movements and volatility in debt and equity capital markets; changes in market rates and prices which may adversely impact the value of financial assets and liabilities; liabilities resulting from litigation and regulatory investigations; changes in accounting standards, rules and interpretations; increased competition; the Company's ability to grow its core businesses; decisions to downsize, sell or close units or otherwise change the Company's business mix; and management's ability to identify and manage these and other risks.

All forward-looking statements included in this quarterly report on Form 10-Q are based upon information available to the Company as of the date of this report, and other than as required by law, including the requirements of applicable securities laws, the Company assumes no obligation to update or revise any such forward-looking statements to reflect occurrences or unanticipated events or circumstances after the date of such statements.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION, CONSOLIDATION AND BASIS OF PRESENTATION

Nature of Operations

OFG Bancorp (the “Company”) is a publicly-owned financial holding company incorporated under the laws of the Commonwealth of Puerto Rico. The Company operates through various subsidiaries including, a commercial bank, Oriental Bank (or the “Bank”), a securities broker-dealer, Oriental Financial Services Corp. (“Oriental Financial Services”), an insurance agency, Oriental Insurance, Inc. (“Oriental Insurance”) and a retirement plan administrator, Caribbean Pension Consultants, Inc. (“CPC”). Through these subsidiaries and their respective divisions, the Company provides a wide range of banking and financial services such as commercial, consumer and mortgage lending, auto loans, financial planning, insurance sales, money management and investment banking and brokerage services, as well as corporate and individual trust services. On April 25, 2013, the Company changed its corporate name from Oriental Financial Group Inc. to OFG Bancorp.

On April 30, 2010, the Bank acquired certain assets and assumed certain deposits and other liabilities of Eurobank, a Puerto Rico commercial bank, in an FDIC-assisted acquisition. On December 18, 2012, the Company acquired a group of Puerto Rico based entities that included Banco Bilbao Vizcaya Argentaria Puerto Rico (“BBVAPR”), a Puerto Rico commercial bank, as well as a securities broker-dealer and an insurance agency, which is referred to herein as the “BBVAPR Acquisition.” The businesses acquired in the BBVAPR Acquisition were integrated with the Company’s existing business.

Recent Accounting Developments

On March 14, 2014, the FASB issued guidance that amended the Master Glossary of the Accounting Standards Codification (“ASC”), including technical corrections related to glossary links, glossary term deletions, and glossary term name changes. In addition, this guidance included more substantive, limited-scope improvements to reduce instances of the same term appearing multiple times in the Master Glossary with similar, but not entirely identical, definitions. These are items that represent narrow and incremental improvements to U.S. GAAP and are not purely technical corrections and affect a wide variety of Topics in the ASC. The amendments in this guidance apply to all reporting entities within the scope of the affected accounting guidance and are effective upon issuance for both public entities and non-public entities. The Company adopted this guidance upon issuance with no impact on our financial position and results of operations.

On June 19, 2014, the FASB issued updated guidance on the accounting for share-based payments when the terms of an award provide that a performance target could be achieved after the requisite service period. This guidance seeks to resolve the diversity in practice that exists when accounting for share-based payments. In particular, this guidance requires a performance target that affects vesting and that could be achieved after the requisite service period to be treated as a performance conditions. For all entities, this guidance is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015, with earlier adoption permitted. We are currently evaluating the impact, if any, that the adoption of this guidance will have on our financial position or results of operations.

Other than the accounting pronouncement disclosed above, there were no other new accounting pronouncements issued during the three months and six months ended June 30, 2014 that could have a material impact on the Company's financial position, operating results or financials statement disclosures.

OFG BANCORP**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)****NOTE 2 – RESTRICTED CASH**

The following table includes the composition of the Company's restricted cash:

	June 30,		December 31,	
	2014		2013	
	(In thousands)			
Cash pledged as collateral to other financial institutions to secure:				
Securities sold under agreements to repurchase	\$	-	\$	67,029
Derivatives		2,980		2,980
Obligations under agreement of loans sold with recourse		12,190		12,190
	\$	15,170	\$	82,199

The Company delivers cash as collateral to meet margin calls for some long term securities sold under agreements to repurchase. At December 31, 2013, the Company had \$67.0 million in cash pledged as collateral for securities sold under agreements to repurchase. At June 30, 2014, the Company did not have cash pledged as collateral for securities sold under agreements to repurchase.

As part of its derivative activities, the Company has entered into collateral agreements with certain financial counterparties. At both June 30, 2014 and December 31, 2013, the Company had delivered \$3.0 million of cash as collateral for such derivatives activities.

As part of the BBVAPR Acquisition, the Company assumed various contracts with the Federal National Mortgage Association ("FNMA") which required collateral to guarantee the repurchase, if necessary, of certain mortgage loans sold with recourse. At June 30, 2014 and December 31, 2013, the Company had \$12.2 million of cash pledged as collateral for such recourse obligations.

NOTE 3 – INVESTMENT SECURITIES***Money Market Investments***

The Company considers as cash equivalents all money market instruments that are not pledged and that have maturities of three months or less at the date of acquisition. At June 30, 2014 and December 31, 2013, money market instruments included as part of cash and cash equivalents amounted to \$8.2 million and \$7.0 million, respectively.

Securities Purchased Under Agreements to Resell

Securities purchased under agreements to resell consist of short-term investments and are carried at the amounts at which the assets will be subsequently resold as specified in the respective agreements. At December 31, 2013, securities purchased under agreements to resell amounted to \$60.0 million. At June 30, 2014, there were no securities purchased under agreements to resell.

The amounts advanced under those agreements are reflected as assets in the consolidated statements of financial condition. It is the Company's policy to take possession of securities purchased under agreements to resell. Agreements with third parties specify the Company's right to request additional collateral based on its monitoring of the fair value of the underlying securities on a daily basis. The fair value of the collateral securities held by the Company on these transactions as of December 31, 2013 was approximately \$64.6 million.

The amortized cost and fair value of the Company's investment securities at June 30, 2014, by contractual maturity, are shown in the next table. Securities not due on a single contractual maturity date, such as collateralized mortgage obligations, are classified in the period of final contractual maturity. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without call or prepayment penalties.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

At December 31, 2013, obligations of the Puerto Rico government and its political subdivisions included a \$98.7 million principal amount, LIBOR floating rate bond with a maturity date of July 1, 2024, that was subject to mandatory tender for purchase by the end of the third year anniversary of the closing date, which was June 1, 2014. The bond was also subject to optional demand tender for purchase upon the occurrence and continuance of certain events, including (among others) the withdrawal, suspension or reduction below investment grade of the credit rating on any general obligation of the Commonwealth by any of the three major rating agencies. This bond was repaid by the issuer on March 17, 2014.

The Company, as part of its asset/liability management, may purchase U.S. Treasury securities and U.S. government-sponsored agency discount notes close to their maturities as alternatives to cash deposits at correspondent banks or as a short term vehicle to reinvest the proceeds of sale transactions until investment securities with attractive yields can be purchased. During the six-month period ended June 30, 2014, the Company sold \$48.1 million of available-for-sale Government National Mortgage Association (“GNMA”) certificates that were sold as part of its recurring mortgage loan origination and securitization activities. These sales did not realize any gains or losses during such period. In addition, during the six-month period ended June 30, 2014, certain available-for-sale securities were sold to realize gains and to invest the proceeds in other investment securities with attractive yields and terms that protect the Company’s net interest margin.

For the six-month period ended June 30, 2014 the Company recorded a net gain on sale of securities of \$4.4 million. The tables below present the gross realized gains by category for such period. There was no realized gain or loss for the six-month period ended June 30, 2013.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The Company performs valuations of the investment securities on a monthly basis. Moreover, the Company conducts quarterly reviews to identify and evaluate each investment in an unrealized loss position for other-than-temporary impairment. Any portion of a decline in value associated with credit loss is recognized in income with the remaining noncredit-related component recognized in other comprehensive income. A credit loss is determined by assessing whether the amortized cost basis of the security will be recovered by comparing the present value of cash flows expected to be collected from the security, discounted at the rate equal to the yield used to accrete current and prospective beneficial interest for the security. The shortfall of the present value of the cash flows expected to be collected in relation to the amortized cost basis is considered to be the “credit loss.” Other-than-temporary impairment analysis is based on estimates that depend on market conditions and are subject to further change over time. In addition, while the Company believes that the methodology used to value these exposures is reasonable, the methodology is subject to continuing refinement, including those made as a result of market developments. Consequently, it is reasonably possible that changes in estimates or conditions could result in the need to recognize additional other-than-temporary impairment charges in the future.

Most of the investments in an unrealized loss position at June 30, 2014 (\$372.3 million or 94%) consist of securities issued or guaranteed by the U.S. Treasury or U.S. government-sponsored agencies, all of which are highly liquid securities that have a large and efficient secondary market. Their aggregate losses and their variability from period to period are the result of changes in market conditions, and not due to the repayment capacity or creditworthiness of the issuers or guarantors of such securities.

The remaining investments in an unrealized loss position at June 30, 2014 (\$22.4 million or 6%) consist of obligations issued or guaranteed by the government of Puerto Rico and its political subdivisions or instrumentalities. The recent decline in the market value of these securities is mainly attributed to an increase in volatility as a result of changes in market conditions that reflect the significant economic and fiscal challenges that Puerto Rico is facing, including a protracted economic recession, sizable government debt-service obligations and structural budget deficits, high unemployment and a shrinking population. Moreover, uncertainty in regards to the impact of the recently enacted Public Corporation Debt Enforcement and Recovery Act (the “Recovery Act”) and the related subsequent negative rating decisions taken by the credit rating agencies has affected the market value of these securities. As of June 30, 2014, the Company analyzed these investments and considered several factors that, in the Company’s view, support the ability of the Commonwealth and the particular political subdivisions or instrumentalities to continue servicing their debt obligations. Such factors include (i) the collateralization and sources of repayment for such debt obligations; (ii) the government’s efforts to increase revenues and reduce expenses to tackle its recurrent budget deficits; (iii) the Commonwealth’s constitutional framework that provides that “public debt” constitutes a first claim on available Commonwealth resources; and (iv) the Commonwealth’s compliance and commitment to its contractual debt obligations. In addition, the Company believes it is probable that it will collect all amounts due according to the contractual terms of its Puerto Rico government bonds. Based on these factors, the Company expects that such bonds will be repaid in full when due, and given that the Company does not have the intent to sell any such bonds in an unrealized loss position, the Company does not consider them to be other-than-temporarily impaired as of June 30, 2014.

NOTE 4 - LOANS

The Company's loan portfolio is composed of covered loans and non-covered loans. Covered loans are subject to loss sharing agreements with the FDIC and non-covered loans are not subject to FDIC loss sharing agreements. The risks of covered loans are different from the risks of non-covered loans because of the loss protection provided by the FDIC to covered loans. Loans acquired in the BBVAPR Acquisition are included as non-covered loans in the unaudited consolidated statements of financial condition. Non-covered loans are further subdivided between originated and other loans, acquired loans accounted for under ASC 310-20 (loans with revolving feature and/or acquired at a premium), and acquired loans accounted for under ASC 310-30 (loans acquired with deteriorated credit quality, including those by analogy).

The composition of the Company's loan portfolio at June 30, 2014 and December 31, 2013 was as follows:

*Non-covered Loans*Originated and Other Loans and Leases Held for Investment

The Company's originated and other loans held for investment are encompassed within four portfolio segments: mortgage, commercial, consumer, and auto and leasing.

The following tables present the aging of the recorded investment in gross originated and other loans held for investment as of June 30, 2014 and December 31, 2013 by class of loans. Mortgage loans past due included delinquent loans in the GNMA buy-back option program. Servicers of loans underlying GNMA mortgage-backed securities must report as their own assets the defaulted loans that they have the option (but not the obligation) to repurchase, even when they elect not to exercise that option.

At June 30, 2014, the increase in delinquencies in the consumer and the auto and leasing portfolios compared to December 31, 2013 is mainly attributed to the fact that non-performing loans of acquired non-covered loan portfolio were accounted for under ASC 310-30. Such portfolios are increasing as new originations are ramping up the balances outstanding. More than a year from the BBVAPR Acquisition, those portfolios are beginning to reflect normal delinquency levels as seasoned portfolios. At June 30, 2014, the increase in delinquencies in the mortgage portfolio compared to December 31, 2013 is mainly attributed to local economic conditions.

At June 30, 2014 and December 31, 2013, the Company had \$476.3 million and \$515.4 million, respectively, in loans granted to the Puerto Rico government, including its instrumentalities, public corporations and municipalities as part of the institutional commercial loan segment. This entire amount was current at June 30, 2014.

Acquired Loans Accounted for under ASC 310-20 (Loans with revolving feature and/or acquired at a premium)

Credit cards, retail and commercial revolving lines of credits, floor plans and performing auto loans with FICO scores over 660 acquired at a premium as part of the non-covered portfolio are accounted for under the guidance of ASC 310-20, which requires that any contractually required loan payment receivable in excess of the Company's initial investment in the loans be accreted into interest income on a level-yield basis over the life of the loan. Loans accounted for under ASC 310-20 are placed on non-accrual status when past due in accordance with the Company's non-accrual policy, and any accretion of discount or amortization of premium is discontinued. Loans acquired in the non-covered portfolio that were accounted for under the provisions of ASC 310-20 are removed from the acquired loan category at the end of the reporting period upon refinancing, renewal or normal re-underwriting.

The following tables present the aging of the recorded investment in gross acquired loans accounted for under ASC 310-20 as of June 30, 2014 and December 31, 2013, by class of loans:

Loans accounted for under ASC 310-30 are excluded from the above table as they are considered to be performing due to the application of the accretion method, in which these loans will accrete interest income over the remaining life of the loans using estimated cash flow analyses.

Effective April 24, 2013, delinquent residential mortgage loans insured or guaranteed under applicable FHA and VA programs are placed in non-accrual when they become 18 months or more past due, since they are insured loans. Before that date, they were placed in non-accrual when they became 90 days or more past due.

At June 30, 2014 and December 31, 2013, loans whose terms have been extended and which are classified as troubled-debt restructurings that are not included in non-accrual loans amounted to \$75.4 million and \$66.5 million, respectively, as they are performing under their new terms.

Non-Covered Loans

The Company maintains an allowance for loan and lease losses at a level that management considers adequate to provide for probable losses based upon an evaluation of known and inherent risks. The Company's allowance for loan and lease losses policy provides for a detailed quarterly analysis of probable losses. The analysis includes a review of historical loan loss experience, value of underlying collateral, current economic conditions, financial condition of borrowers and other pertinent factors. While management uses available information in estimating probable loan losses, future additions to the allowance may be required based on factors beyond the Company's control. We also maintain an allowance for loan losses on acquired loans when: (i) for loans accounted for under ASC 310-30, there is deterioration in credit quality subsequent to acquisition, and (ii) for loans accounted for under ASC 310-20, the inherent losses in the loans exceed the remaining credit discount recorded at the time of acquisition. As part of the Company's continuous enhancement to the allowance for loan and lease losses methodology, during the quarter ended March 31, 2014, an assessment of the look-back period and historical loss factor was performed for auto and leasing and consumer loan portfolios based on the trends observed and their relation with the economic cycle as of the period ended March 31, 2014. Same analysis was performed for the commercial portfolio during the quarter ended June 30, 2014. As a result, the period was changed to 24 months from the previously determined 12 months for auto and leasing and consumer. For the commercial portfolio, a look back period of 12 months was maintained. In addition, during the quarter ended June 30, 2014, an assessment of environmental factors was performed for commercial, auto, and consumer portfolios. As a result, more weight is been given to the environmental factors related to the economy, taking into consideration current evolution of the portfolio and expected impact, due to recent economic developments. These changes in the allowance for loan and lease losses' look back period for the consumer and auto and leasing portfolios, and

Impaired Loans

The Company evaluates all loans, some individually and others as homogeneous groups, for purposes of determining impairment. The total investment in impaired commercial loans was \$29.1 million and \$28.4 million at June 30, 2014 and December 31, 2013, respectively. The impaired commercial loans were measured based on the fair value of collateral or the present value of cash flows, including those identified as troubled-debt restructurings. The valuation allowance for impaired commercial loans amounted to \$2.1 million and \$1.4 million at June 30, 2014 and December 31, 2013, respectively. The total investment in impaired mortgage loans was \$90.4 million and \$84.5 million at June 30, 2014 and December 31, 2013, respectively. Impairment on mortgage loans assessed as troubled-debt restructurings was measured using the present value of cash flows. The valuation allowance for impaired mortgage loans amounted to approximately \$7.7 million and \$8.7 million at June 30, 2014 and December 31, 2013, respectively.

The Company's recorded investment in non-covered commercial and mortgage loans categorized as originated and other loans and leases held for investment that were individually evaluated for impairment and the related allowance for loan and lease losses at June 30, 2014 and December 31, 2013 are as follows:

Credit Quality Indicators

The Company categorizes non-covered originated and other loans and acquired loans accounted for under ASC 310-20 into risk categories based on relevant information about the ability of borrowers to service their debt, such as economic conditions, portfolio risk characteristics, prior loss experience, and the results of periodic credit reviews of individual loans.

The Company uses the following definitions for risk ratings:

Pass: Loans classified as “pass” have a well defined primary source of repayment very likely to be sufficient, with no apparent risk, strong financial position, minimal operating risk, profitability, liquidity and capitalization better than industry standards.

Special Mention: Loans classified as “special mention” have a potential weakness that deserves management’s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution’s credit position at some future date.

Substandard: Loans classified as “substandard” are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful: Loans classified as “doubtful” have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, questionable and improbable.

Loss: Loans classified as “loss” are considered uncollectible and of such little value that their continuance as bankable assets is not warranted. This classification does not mean that the asset has absolutely no recovery or salvage value, but rather that it is not practical or desirable to defer writing off this worthless loan even though partial recovery may be effected in the future.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

At June 30, 2014 and December 31, 2013, we had approximately \$670.9 million and \$763.4 million, respectively, of credit facilities granted to the Puerto Rico government, including its instrumentalities, public corporations and municipalities, of which \$655.4 million and \$696.0, respectively, were outstanding as of such dates. A substantial portion of our credit exposure to the government of Puerto Rico consists of collateralized loans or obligations that have a specific source of income or revenues identified for its repayment. Some of these obligations consist of senior and subordinated loans to public corporations that obtain revenues from rates charged for services, such as water and electric power utilities. Public corporations have varying degrees of independence from the central government and many have received appropriations or are due other payments from it. We also have loans to various municipalities for which the good faith, credit and unlimited taxing power of the applicable municipality has been pledged to their repayment. These municipalities are required by law to levy special property taxes in such amounts as shall be required for the payment of all their general obligation bonds and notes. Another portion of these loans consists of special obligations of various municipalities that are payable from the basic real and personal property taxes collected within such municipalities. The good faith and credit obligations of the municipalities have a first lien on the basic property taxes.

In the second quarter of 2014, the government enacted the Puerto Rico Public Corporation Debt Enforcement and Recovery Act (the “Recovery Act”), which establishes procedures for the adjustment of certain public corporations’ debts. The Recovery Act states in its preamble that it further promotes the central government’s public policy objectives of no longer providing financial support to public corporations and promoting their economic independence. The Recovery Act, which is without precedent and is being challenged in federal court on constitutional grounds, has increased the level of uncertainty as to the rights of the affected public corporation’s creditors. As of June 30, 2014, we had approximately \$382.9 million of credit facilities granted to public corporations authorized to initiate proceedings under the Recovery Act.

Oriental Bank is part of a four bank syndicate providing a \$550 million dollar revolving line of credit to finance the purchase of fuel for the day to day power generation activities of the Puerto Rico Electric Power Authority (“PREPA”), a public corporation authorized to seek relief under the Recovery Act. The Bank’s participation in the line of credit has an unpaid principal balance of \$200.0 million as of June 30, 2014, which matures on August 14, 2014 and is currently accruing. The bank syndicate and PREPA have executed a short term forbearance agreement that expires at the maturity of the line of credit pursuant to which the bank syndicate agreed to not exercise remedies in connection with certain defaults under the loan agreement to facilitate a dialogue with PREPA, which is actively ongoing, regarding the future of the line of credit. As of June 30, 2014, this credit facility has a rating of special mention.
