ACADIA REALTY TRUST

ACADIA REALTY TRUST AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. THE COMPANY

Acadia Realty Trust (the Company) is a fully integrated and self-managed real estate investment trust (REIT) focused primarily on the ownership, acquisition, redevelopment and management of neighborhood and community shopping centers.

All of the Company's assets are held by, and all of its operations are conducted through, Acadia Realty Limited Partnership (the Operating Partnership or OP) and partnerships in which the OP owns a controlling interest. As of June 30, 2006, the Company controlled 98% of the Operating Partnership as the sole general partner.

In 2001, the Company formed a partnership, Acadia Strategic Opportunity Fund I, LP (Fund I), and in 2004 formed a limited liability company, Acadia Mervyn I, LLC (Mervyns I), with four institutional investors. The Company committed a total of \$20.0 million to Fund I and Mervyns I, and the four institutional shareholders committed \$70.0 million, for the purpose of acquiring a total of approximately \$300.0 million in investments. As of June 30, 2006, the Company has contributed \$16.2 million to Fund I and \$2.7 million to Mervyns I.

The Company is the sole general partner or managing member, with a 22% interest in both Fund I and Mervyns I and is also entitled to a profit participation in excess of its invested capital based on certain investment return thresholds. Decisions made by the general partner, as it relates to purchasing, financing, and disposition of properties, are subject to the unanimous disapproval of the Advisory Committee of Fund I, which is comprised of representatives from each of the four institutional investors. Cash flow is distributed pro-rata to the partners (including the Company) until they have received a 9% cumulative return, and the return of all capital contributions. Thereafter, remaining cash flow is to be distributed 80% to the partners (including the Company) and 20% to the Company as a carried interest (Promote). Through December 31, 2005, the Company also earned a fee for asset management services equal to 1.5% of the allocated equity in the remaining Fund I assets, as well as market-rate fees for property management, leasing and construction services. Effective January 1, 2006, the Company converted the asset management fee to a priority distribution of the same amount as the fee, which entitles the Company to a special allocation of income equal to the amount of the priority distribution. Thereafter, cash flow is distributed as previously mentioned and the Company continues to earn the market rate property management, leasing and construction fees. Following the recapitalization of the Brandywine Portfolio in January 2006, all capital contributions and the required 9% cumulative preferred return have been distributed to the institutional investors. Accordingly, the Company is now entitled to a Promote on all future earnings and distributions.

In June of 2004, the Company formed a limited liability company, Acadia Strategic Opportunity Fund II, LLC (Fund II), and in August 2004 formed another limited liability company, Mervyn II, LLC (Mervyns II), with the investors from Fund I as well as two additional institutional investors. With \$300.0 million of committed discretionary capital, Fund II and Mervyns II expect to be able to acquire up to \$900.0 million of investments on a leveraged basis. The Company's share of committed capital is \$60.0 million. The Company is the sole managing member with 20% interest in the limited liability companies and is also entitled to a profit participation in excess of its invested capital based on certain investment return thresholds. The terms and structure of Fund II are substantially the same as Fund I with the exceptions that the preferred return is 8%. As of June 30, 2006, the Company has contributed \$16.2 million to Fund II and \$6.7 million to Mervyns II.

2. BASIS OF PRESENTATION

The consolidated financial statements include the consolidated accounts of the Company and its controlling investments in partnerships and limited liability companies, including the Operating Partnership, and have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. Non-controlling investments in partnerships are accounted for under the equity method of accounting as the Company exercises significant influence. The information furnished in the accompanying consolidated financial statements reflects all adjustments that, in the opinion of management, are necessary for a fair presentation of the aforementioned consolidated financial statements for the interim periods.

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from these estimates. Operating results for the six months ended June 30, 2006 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2006. For further information refer to the consolidated financial statements and accompanying footnotes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

[Back to Contents](#)**ACADIA REALTY TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****2. BASIS OF PRESENTATION (continued)**

In 2005, the Emerging Issues Task Force (EITF) reached a consensus that the general partners in a limited partnership should determine whether they control a limited partnership based on the application of the framework as discussed in EITF 04-5, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights . Under EITF 04-5, the general partners in a limited partnership are presumed to control that limited partnership regardless of the extent of the general partner s ownership interest in the limited partnership. The assessment of whether the rights of the limited partners should overcome the presumption of control by the general partners is a matter of judgment that depends on facts and circumstances. If the limited partners have either (a) the substantive ability to dissolve (liquidate) the limited partnership or otherwise remove the general partners without cause or (b) substantive participating rights, the general partners do not control the limited partnership. EITF 04-5 was effective immediately for new partnerships formed and existing limited partnerships for which the partnership agreements were modified on or after June 29, 2005, and for all other partnerships, EITF 04-5 is effective no later than the beginning of the first reporting period in fiscal years beginning after December 15, 2005. The provisions of EITF 04-5 may be initially applied through either one of two methods: (1) similar to a cumulative effect of a change in accounting principle or (2) retrospective application. The Company assessed the impact of EITF 04-5 as it related to the method of accounting utilized for its equity investments and determined that its investments in Fund I, Fund II, Mervyns I and Mervyns II which were accounted for under the equity method of accounting, should be consolidated, effective upon adoption of EITF 04-5 on January 1, 2006. The Company utilized the retrospective approach in the application of EITF 04-5 and has presented all historical periods prior to 2006 on a consistent basis with 2006 and thereafter. There was no impact on net income or shareholders equity for any of the reported periods in the accompanying consolidated financial statements due to the consolidation of these investments.

On January 4, 2006, Fund I recapitalized its investment in a one million square foot shopping center portfolio located in Wilmington, Delaware (Brandywine Portfolio). The recapitalization was effected through the conversion of the 77.8% interest which was previously held by the institutional investors in Fund I to an affiliate of GDC Properties (GDC) through a merger of interests in exchange for cash. The Company has retained its existing 22.2% interest in the Brandywine Portfolio in partnership with GDC and continues to operate the portfolio and earn fees for such services.

Pursuant to EITF 04-5, the Company has presented the 2005 financial statements to reflect the consolidation of Fund I, including the Brandywine Portfolio which, at the time, was a wholly-owned investment of Fund I. Following the January 2006 recapitalization of the Brandywine Portfolio, the Company no longer has a controlling interest in this investment and, accordingly, currently accounts for this investment under the equity method of accounting.

3. EARNINGS PER COMMON SHARE

Basic earnings per share was determined by dividing net income for the period by the weighted average number of common shares of beneficial interest (Common Shares) outstanding during each period consistent with Statement of Financial Accounting Standards (SFAS) No. 128

Earnings Per Share . Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue Common Shares were exercised or converted into Common Shares or resulted in the issuance of Common Shares that then shared in the earnings of the Company. The following table sets forth the computation of basic and diluted earnings per share from continuing operations for the periods indicated.

[Back to Contents](#)**ACADIA REALTY TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****3. EARNINGS PER COMMON SHARE (continued)**

The effect of the conversion of common units in the Operating Partnership (Common OP Units) is not reflected in the above table as they are exchangeable for Common Shares on a one-for-one basis. The income allocable to such units is allocated on this same basis and reflected as minority interest in the accompanying consolidated financial statements. As such, the assumed conversion of these units would have no net impact on the determination of diluted earnings per share. The effect of the conversion of Series A and B Preferred OP Units (Preferred OP Units) which would result in 337,079 and 522,679 additional Common Shares for each of the three and six months ended June 30, 2006 and 2005, respectively, is not reflected in the above table as such conversions would be anti-dilutive.

4. COMPREHENSIVE INCOME

The following table sets forth comprehensive income for the three and six months ended June 30, 2006 and 2005:

	Three months ended		Six months ended

Notes:

Minority interest in the Operating Partnership represents (i) the limited partners' interest of 642,272 and 653,360 Common OP Units at June 30, 2006 and December 31, 2005, respectively, (ii) 188 and 884 Series A Preferred OP Units at June 30, 2006 and December 31, 2005, respectively, with a nominal value of \$1,000 per unit, which are entitled to a preferred quarterly distribution of the greater of (a) \$22.50 per unit (9% annually) per Series A Preferred OP Unit or (b) the quarterly distribution attributable to a Series A Preferred OP Unit if such unit were converted into a Common OP Unit, and (iii) 4,000 Series B Preferred OP Units at June 30, 2006 and December 31, 2005, respectively, with a nominal value of \$1,000 per unit, which are entitled to a preferred quarterly distribution of the greater of (a) \$13.00 (5.2% annually) per unit or (b) the quarterly distribution attributable to a Series B Preferred OP Unit if such unit were converted into a Common OP Unit.

During the first quarter of 2006, holders of 696 Series A Preferred OP Units converted these into Common OP Units and ultimately into Common Shares.

During the second quarter of 2006, the Company redeemed 11,105 Restricted Common OP Units issued during July 2005 in connection with the purchase of 4343 Amboy Road.

Minority interests in partially-owned partnerships represent third-party interests. During January 2006, Fund I recapitalized the Brandywine Portfolio, and as a result, \$35.5 million was distributed to the institutional investors in Fund I. During the six months ended June 30, 2006, minority interests in Mervyns I and Mervyns II received distributions of \$16.5 million and \$18.4 million, respectively. In the second quarter of 2006, minority interests in Fund II and Mervyns II made contributions of \$20.8 million and \$17.0 million, respectively. During January 2006, the Company acquired a 60% interest in the A&P Shopping Plaza located in Boonton, New Jersey, as discussed in Note 6. The remaining 40% interest is owned by a third party and is reflected as minority interest in the accompanying Consolidated Balance Sheet as of June 30, 2006.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

13. STOCK-BASED COMPENSATION

The Company adopted the fair value method of recording stock-based compensation contained in SFAS No. 123R, Accounting for Stock-Based Compensation as of January 1, 2002. As such, stock based compensation awards granted after December 31, 2001 have been expensed over the vesting period based on the fair value at the date the stock-based compensation was granted.

On January 6, 2006 (the Grant Date), the Company issued 62,630 options to officers (Officers) and employees (Employees) of the Company. The options, which have an exercise price of \$20.65, are for ten-year terms and vest one third as of the Grant Date and one third on each of the next two anniversaries thereof. The Company has determined a value of \$3.03 per option using the binomial method for valuing such options. In prior periods, the Company utilized the Black-Scholes method for valuing options granted and believes that the binomial method more accurately reflects the value of the options. This change had no material effect on the value of the unvested options or the Company's consolidated financial statements. Accordingly, compensation expense of \$12,000 and \$91,000 has been recognized in the accompanying consolidated financial statements related to the options for the three and six months ended June 30, 2006.

On the Grant Date, the Company also issued a total of 121,233 Restricted Common Shares (Restricted Shares) to Officers and 13,136 Restricted Shares (net of subsequent forfeitures) to Employees of the Company. In general, the Restricted Shares carry all the rights of Common Shares including voting and dividend rights, but may not be transferred, assigned or pledged until the recipients have a vested non-forfeitable right to such shares. Vesting with respect to the Restricted Shares issued to Officers, which is subject to the recipients' continued employment with the Company through the applicable vesting dates, is over five years with 30% vesting on the Grant Date and 17.5% vesting on each of the next four anniversaries thereafter. In addition, vesting on 50% of the unvested Restricted Shares is also subject to certain total shareholder returns on the Company's Common Shares. Vesting with respect to the Restricted Shares issued to Employees, which is subject to the recipients' continued employment with the Company through the applicable vesting dates, is over five years with 30% vesting on the Grant Date and 17.5% vesting on each of the next four anniversaries thereafter. In addition, vesting on 25% of the unvested Restricted Shares is also subject to certain total shareholder returns on the Company's Common Shares.

The total value of the above Restricted Share awards on the date of grant was \$2.7 million, of which \$2.0 million will be recognized in compensation expense over the vesting period. Compensation expense of \$0.1 million and \$0.8 million has been recognized in the accompanying consolidated financial statements related to these Restricted Shares for the three and six months ended June 30, 2006.

On the Grant Date, the Company also issued a total of 224,901 Restricted Shares to Officers and 28,706 Restricted Shares to Employees in connection with a special, one-time performance bonus recognizing management's outstanding achievements in enhancing shareholder values over the past five years, including, but not limited to, total shareholder return and the recent recapitalization of the Brandywine Portfolio. The Restricted Shares will vest over a period of five years with 50% vesting on the third anniversary and 25% vesting on the following two anniversaries of the Grant Date. The total value of this special bonus was \$5.1 million and is being recognized in compensation expense over the vesting period. Compensation expense of \$0.3 million and \$0.5 million has been recognized in the accompanying consolidated financial statements related to this special bonus for the three and six months ended June 30, 2006.

On May 15, 2006, the Company issued 18,000 options and 4,801 unrestricted shares to Trustees of the Company in connection with Trustee fees. The options vest immediately. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is based on the consolidated financial statements of the Company as of June 30, 2006 and 2005 and for the three months then ended. This information should be read in conjunction with the accompanying consolidated financial statements and notes thereto.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this report constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results performance or achievements expressed or implied by such forward-looking statements. Such factors are set forth in our Form 10-K for the year ended December 31, 2005 and include, among others, the following: general economic and business conditions, which will, among other things, affect demand for rental space, the availability and creditworthiness of prospective tenants, lease rents and the availability of financing; adverse changes in our real estate markets, including, among other things, competition with other companies; risks of real estate development and acquisition; governmental actions and initiatives; and environmental/safety requirements.

OVERVIEW

We currently operate 76 properties, which we own or have an ownership interest in, consisting of 74 neighborhood and community shopping centers and two multi-family properties, which are located primarily in the Northeast, Mid-Atlantic and Midwestern regions of the United States. We receive income primarily from the rental revenue received from tenants at our properties, including recoveries, offset by operating and overhead expenses.

Our primary business objective is to acquire and manage commercial retail properties that will provide cash for distributions to shareholders while also creating the potential for capital appreciation to enhance investor returns. We focus on the following fundamentals to achieve this objective:

- Own and operate a portfolio of community and neighborhood shopping centers and mixed-use properties with a retail component located in markets with strong demographics.

- Maintain a strong and flexible balance sheet through conservative financial practices while ensuring access to sufficient capital to fund future growth.

- Generate internal growth within the portfolio through aggressive redevelopment, re-anchoring and leasing activities.

- Generate external growth through an opportunistic yet disciplined acquisition program. The emphasis is on targeting transactions with high inherent opportunity for the creation of additional value through redevelopment and leasing and/or transactions requiring creative capital structuring to facilitate the transactions.

CRITICAL ACCOUNTING POLICIES

Management's discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. Management bases its estimates on historical experience and assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect the significant judgments and estimates used by us in the preparation of our consolidated financial statements.

Valuation of Property Held for Use and Sale

On a quarterly basis, we review both properties held for use and for sale for indicators of impairment. We record impairment losses and reduce the carrying value of properties when indicators of impairment are present and the expected undiscounted cash flows related to those properties are less than their carrying amounts. In cases where we do not expect to recover our carrying costs on properties held for use, we reduce our carrying cost to fair value, and for properties held for sale, we reduce our carrying value to the fair value less costs to sell. Management does not believe that the value of any properties in our portfolio was impaired as of June 30, 2006.

[Back to Contents](#)**Bad Debts**

We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of tenants to make payments on arrearages in billed rents, as well as the likelihood that tenants will not have the ability to make payment on unbilled rents including estimated expense recoveries and straight-line rent. As of June 30, 2006, we have recorded an allowance for doubtful accounts of \$2.4 million. If the financial condition of our tenants were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

RESULTS OF OPERATIONS**Comparison of the three months ended June 30, 2006 (2006) to the three months ended June 30, 2005 (2005)**

Effective January 1, 2006, we account for our Funds I and II and Mervyns I and II investments on a consolidated basis pursuant to EITF 04-5. Historic results for the three and six months ended June 30, 2005 have also been presented on a consolidated basis for purposes of comparability with 2006.

In addition, the Brandywine Portfolio operations were consolidated as part of Fund I for the three and six months ended June 30, 2005. Subsequent to the recapitalization and conversion of interests from Fund I to GDC in January 2006, the Brandywine Portfolio is accounted for under the equity method of accounting for the three and six months ended June 30, 2006. In the following tables, we have excluded the Brandywine Portfolio operations for the three and six months ended June 30, 2005 for purposes of comparability with the three and six months ended June 30, 2006.

The increase in minimum rents was attributable to additional rents following our acquisition of Amboy Shopping Center, Clark and Diversey and A&P Shopping Plaza as well as Fund II acquisitions of 161st Street in New York and a leasehold interest in Chicago (2005/2006 Acquisitions).

Common area maintenance (CAM) expense reimbursement increased \$0.1 million as a result of the 2005/2006 Acquisitions. Real estate tax reimbursements increased \$0.4 million, primarily as a result of the 2005/2006 Acquisitions as well as general increases in real estate taxes.

Management fee income increased as a result of an increase in management fees related to the acquisition of the Klaff management contract rights in January 2004 and February 2005.

The increase in interest income was attributable to additional interest income on our advances and notes receivable originated in 2005 and 2006.

The increase in real estate taxes was due to general increases in real estate taxes experienced across the portfolio as well as increased real estate tax expense related to the 2005/2006 Acquisitions.

Depreciation expense increased \$0.4 million in 2006. This was principally a result of increased depreciation expense following the 2005/2006 Acquisitions. Amortization expense increased \$0.5 million which was primarily the result of the 2005/2006 Acquisitions, specifically, amortization of tenant installation costs of \$0.3 million and amortization of leasehold interest of \$0.2 million.

Funds from Operations

We consider funds from operations (FFO) as defined by the National Association of Real Estate Investment Trusts (NAREIT) to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing our performance. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (or losses) from sales of depreciated property and depreciation and amortization. However, our method of calculating FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by GAAP and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating our performance or to cash flows as a measure of liquidity.

Consistent with the NAREIT definition, we define FFO as net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. The reconciliation of net income to FFO for the three and six months ended June 30, 2006 and 2005 is as follows:

(dollars in millions)	Three months ended		Six months ended	
	June 30,		June 30,

Notes:

(1) Does not include distributions paid to Series A and B Preferred OP Unitholders.

USES OF LIQUIDITY

Our principal uses of liquidity are expected to be for distributions to our shareholders and OP unit holders, debt service and loan repayments, and property investment which include the funding of our joint venture commitments, acquisition, redevelopment, expansion and re-tenanting activities.

Reference is made to Note 1 in the Notes to Consolidated Financial Statements in Part 1, Item 1 in this Form 10-Q for an overview of Funds I and II and Mervyns I and II.

Distributions

In order to qualify as a REIT for Federal income tax purposes, we must currently distribute at least 90% of our taxable income to our shareholders. For the quarter ended June 30, 2006, we paid a quarterly dividend of \$0.1850 per Common Share and Common OP Unit on July

14, 2006.

[Back to Contents](#)**Fund I and Mervyns I**

On January 4, 2006, Fund I recapitalized a one million square foot retail portfolio located in Wilmington Delaware (Brandywine Portfolio) through a merger of interests with affiliates of GDC Properties (GDC). The Brandywine Portfolio was recapitalized through a cash-out merger of the 77.8% interest, which was previously held by the institutional investors in Fund I to GDC at a valuation of \$164.0 million. We, through a subsidiary, retained our existing 22.2% interest and continue to operate the Brandywine Portfolio and earn fees for such services. At the closing, the Fund I investors, excluding us, received a return of all of their capital invested in Fund I and preferred return, thus triggering our Promote distribution in all future Fund I distributions. During June of 2006, the investors received \$36.0 million of additional proceeds from this transaction following the replacement of bridge financing provided by us and the investors with permanent mortgage financing.

Following the recapitalization of the Brandywine Portfolio, there are 32 assets comprising approximately 2 million square feet remaining in Fund I, in which our interest in cash flow and income has increased from 22.2% to 37.8% as a result of the Promote as follows:

In addition, we, along with the investors have invested in Mervyns as discussed further below.

Fund II and Mervyns II

To date, Fund II's primary investment focus has been in the New York Urban/Infill Redevelopment Initiative and the Retailer Controlled Property Venture.

Retailer Controlled Property Venture (RCP Venture)

On January 27, 2004, along with our investors in Funds I and II, we entered into the RCP Venture with Klaff Realty, L.P. (Klaff) and Klaff's long time capital partner Lubert-Adler Management, Inc. (Lubert-Adler) for the purpose of making investments in retailers or surplus or underutilized properties owned by retailers. The initial size of the RCP Venture is expected to be approximately \$300.0 million in equity based on anticipated investments of approximately \$1.0 billion. Each participant in the RCP Venture has the right to opt out of any potential investment. Each investment through the RCP Venture is a separate joint venture as it potentially involves different investment consortium partners. As of June 30, 2006, affiliates of Funds I and II (including us) have invested a total of \$45.8 million in the RCP Venture. Fund II anticipates investing the remaining portion of the original 20% of the equity of the RCP Venture. Cash flow is to be distributed to the partners until they have received a 10% cumulative return and a full return of all contributions. Thereafter, remaining cash flow is to be distributed 20% to Klaff and 80% to the

partners (including Klaff). We will also earn market-rate fees for property management, leasing and construction services on behalf of the RCP Venture.

Back to Contents

During September of 2004, we made our first RCP Venture investment with our participation in the acquisition of Mervyns. Affiliates of Fund I and Fund II, through separately organized, newly formed limited liability companies on a non-recourse basis, invested in the acquisition of Mervyns through the RCP Venture, which, as part of an investment consortium with Sun Capital and Cerberus, acquired Mervyns from Target Corporation. The total acquisition price was approximately \$1.2 billion subject to debt of approximately \$800.0 million. Affiliates of Funds I and II invested a total of \$24.6 million on a non-recourse basis. Our share of equity amounted to \$5.2 million. During 2005, the consortium sold a portion of the portfolio as well as refinanced existing mortgage debt and distributed cash to the investors, of which a total of \$42.7 million was distributed to affiliates of Fund I and Fund II of which our share amounted to \$10.2 million. During the six months ended June 30, 2006, the consortium distributed an additional \$3.4 million to affiliates of Fund I and Fund II of which \$1.0 million was our share.

During June of 2006, the RCP Venture made its second investment with its participation in the acquisition of Albertson's. Affiliates of Fund II, through the same limited liability companies which were formed for the investment in Mervyns, invested \$21.2 million in the acquisition of Albertson's through the RCP Venture, along with others as part of an investment consortium. Our share of the invested capital was \$4.2 million.

New York Urban Infill Redevelopment Initiative

In September of 2004, we, through Fund II, launched our New York Urban Infill Redevelopment initiative. As retailers continue to recognize that many of the nation's urban markets are underserved from a retail standpoint, Fund II's intent is to capitalize on this trend by investing in redevelopment projects in dense urban areas where retail tenant demand has effectively surpassed the supply of available sites. During 2004, Fund II, together with an unaffiliated partner, P/A Associates, LLC (P/A), formed Acadia-P/A Holding Company, LLC (Acadia-P/A) for the purpose of acquiring, constructing, developing, owning, operating, leasing and managing certain retail real estate properties in the New York City metropolitan area. P/A has agreed to invest 10% of required capital up to a maximum of \$2.0 million and Fund II, the managing member, has agreed to invest the balance to acquire assets in which Acadia-P/A agrees to invest. Operating cash flow is generally to be distributed pro-rata to Fund II and P/A until each has received a 10% cumulative return and then 60% to Fund II and 40% to P/A. Distributions of net refinancing and net sales proceeds, as defined, follow the distribution of operating cash flow except that unpaid original capital is returned before the 60%/40% split between Fund II and P/A, respectively. Upon the liquidation of the last property investment of Acadia-P/A, to the extent that Fund II has not received an 18% internal rate of return (IRR) on all of its capital contributions, P/A is obligated to return a portion of its previous distributions, as defined, until Fund II has received an 18% IRR. To date, Fund II has, in conjunction with P/A, invested in seven projects through Fund II as follows:

Other Investments

During January 2006, we closed on a 20,000 square foot retail building in the Lincoln Park district in Chicago. The property was acquired from an affiliate of Klaff for \$9.8 million. Tenants include Starbucks, Nine West, Vitamin Shoppe, The Body Shop, Papyrus and Cold Stone Creamery.

Edgar Filing: ACADIA REALTY TRUST - Form 10-Q

Also during January 2006, we acquired a 60% interest in the A&P Shopping Plaza located in Boonton, New Jersey. The property, which is 100% occupied and located in northeastern New Jersey, is a 63,000 square foot shopping center anchored by a 49,000 square foot A&P Supermarket. The remaining 40% interest is owned by a principal of P/A. Our 60% was acquired for \$3.2 million.

On June 16, 2006, we purchased 8400 and 8625 Germantown Road in Philadelphia, Pennsylvania for \$16.0 million. We assumed a \$10.1 million first mortgage loan which has a maturity date of June 11, 2013. The 40,570 square foot property is 100% occupied.

In March of 2005, we invested \$20.0 million in a preferred equity position (Preferred Equity Investment) with Levitz SL, L.L.C. (Levitz SL), the owner of fee and leasehold interests in 30 locations (the Properties), totaling 2.5 million square feet, of which the majority are currently leased to Levitz Furniture Stores. Klaff is a managing member of Levitz SL. The Preferred Equity Investment received a return of 10%, plus a minimum return of capital of \$2.0 million per annum. During March 2006, the rate of return was reset to the six-month LIBOR plus 644 basis points or 11.5%.

On June 1, 2006, we converted the Preferred Equity Investment to a mortgage loan and advanced additional proceeds bringing the total outstanding amount to \$31.3 million. The loan has a maturity date of May 31, 2008 and has an interest rate of 10.5%. The loan is secured by fee and leasehold mortgages as well as a pledge of the entities owning 19 of the above remaining locations totaling 1.8 million square feet. Although Levitz Furniture is currently operating under Chapter 11 bankruptcy protection, we believe the underlying value of the real estate is sufficient to recover the principal and interest due under the mortgage.

Property Development, Redevelopment and Expansion

Our redevelopment program focuses on selecting well-located neighborhood and community shopping centers and creating significant value through re-tenanting and property redevelopment. During the six months ended June 30, 2006, we did not undertake any significant redevelopment projects within our core portfolio.

Additionally, for the year ending December 31, 2006, we currently estimate that capital outlays of approximately \$5.0 million to \$7.0 million will be required for tenant improvements, related renovations and other property improvements.

Share Repurchase

The repurchase of our Common Shares has historically been an additional use of liquidity. We have an existing share repurchase program that authorizes management, at its discretion, to repurchase up to \$20.0 million of our outstanding Common Shares. Through May 5, 2006, we had repurchased 2.1 million Common Shares at a total cost of \$11.7 million of which 2.0 million of these Common Shares have been subsequently reissued. The program may be discontinued or extended at any time and there is no assurance that we will purchase the full amount authorized. There were no Common Shares repurchased by us during the quarter ended June 30, 2006.

SOURCES OF LIQUIDITY

We intend on using the Company and Fund II as the primary vehicles for our future acquisitions, including investments in the RCP Venture and New York Urban/Infill Redevelopment initiative. Sources of capital for funding our joint venture commitments, other property acquisitions, redevelopment, expansion and re-tenanting, as well as future repurchases of Common Shares are expected to be obtained primarily from issuance of public equity or debt instruments, cash on hand, additional debt financings and future sales of existing properties. As of June 30, 2006, we had a total of approximately \$43.0 million of additional capacity under our three existing debt facilities, \$82.1 million under two existing debt facilities in Fund II, cash and cash equivalents on hand, inclusive of balances in Funds I and II, of \$55.1 million. We anticipate that cash flow from operating activities will continue to provide adequate capital for all of our debt service payments, recurring capital expenditures and REIT distribution requirements.

Financing

At June 30, 2006, mortgage notes payable aggregated \$361.9 million, including net valuation adjustment of debt at date of acquisition of \$2.3 million, and were collateralized by 33 properties and related tenant leases. Interest rates on our outstanding mortgage indebtedness ranged from 5.0% to 8.5% with maturities that ranged from July 2007 to November 2032. Taking into consideration \$91.4 million of notional principal under variable to fixed-rate swap agreements currently in effect, \$303.7 million of the portfolio, or 84%, was fixed at a 5.8% weighted average interest rate and \$55.9 million, or 16% was floating at a 6.8% weighted average interest rate. There is \$0 and \$54.9 million of debt scheduled to mature in 2006 and 2007, respectively, at weighted average interest rates of 6.3% for 2007. We will need to refinance this indebtedness or select other alternatives based on market conditions at that time.

The following summarizes the financing and refinancing transactions since December 31, 2005:

On January 12, 2006, in conjunction with the purchase of a property, we assumed a loan of \$3.8 million which bears interest at a fixed rate of 8.5%.

Edgar Filing: ACADIA REALTY TRUST - Form 10-Q

On January 18, 2006, we drew an additional \$1.8 million on an existing credit facility. On April 21, 2006, we paid down \$15.0 million on this existing credit facility. On June 1, 2006, we drew an additional \$19.2 million on this facility. On June 22, 2006 we paid off the entire existing balance of \$30.4 million .

On January 24, 2006, in conjunction with the purchase of a partnership interest, we assumed a loan of \$8.7 million which bears interest at a fixed rate of 6.4%.

On February 22, 2006, we financed a property within its existing portfolio for \$20.5 million. This loan bears interest at a fixed rate of 5.4%. A portion of the proceeds were used to pay down \$10.9 million on an existing credit facility.

On March 27, 2006, we refinanced a property for \$30.0 million. This loan bears interest at LIBOR plus 140 basis points. A portion of the proceeds were used to pay down the existing \$12.1 million of debt on this property.

On May 31, 2006, we borrowed an additional \$13.0 million on an existing \$65.0 million revolving credit facility. This additional draw was repaid on June 30, 2006. The remaining existing balance as of June 30, 2006 is \$22.0 million.

On June 16, 2006, in conjunction with the purchase of a property, we assumed a loan of \$10.1 million which bears interest at a fixed rate of 5.45%.

Financing Investments

During June of 2006, we and GDC refinanced the Brandywine Portfolio for \$166.2 million. Of the proceeds, \$30.0 million were used to repay existing mortgage debt, \$18.2 million to repay our bridge financing, \$45.3 million to repay bridge financing from the other Fund I investors and \$72.0 million distributed to us and GDC. Including the repayment of our bridge financing with interest, our distribution from this financing totaled \$34.2 million.

[Back to Contents](#)**Asset Sales**

Historically, asset sales have been an additional source of our liquidity. We continually review our portfolio to identify non-core assets. We are marketing the Soundview Marketplace and Bradford Towne Centre for sale. We intend to defer the entire taxable gain which will be realized from these transactions by utilizing the provisions of Section 1031 of the Internal Revenue Code of 1986, as amended. If we are unable to defer such gain, it is possible we would either distribute part or all of the gain to our shareholders.

CONTRACTUAL OBLIGATIONS AND OTHER COMMITMENTS

At June 30, 2006, maturities on our mortgage notes ranged from July 2007 to November 2032. In addition, we have non-cancelable ground leases at five of our shopping centers. We also lease space for our White Plains corporate office for a term expiring in 2010. The following table summarizes our debt maturities and obligations under non-cancelable operating leases of June 30, 2006:

(dollars in millions)	Payments due by period				
	Total	Less than 1 year	1 to 3 years	3 to 5 years	More than 5 years

Total	\$511.0	\$13.5	\$146.8	\$82.3	\$268.4

OFF BALANCE SHEET ARRANGEMENTS

We have investments in the following joint ventures for the purpose of investing in operating properties. We account for these investments using the equity method of accounting as we have a non-controlling interest. As such, our financial statements reflect our share of income from but not the assets and liabilities of these joint ventures.

We own a 49% interest in Crossroads. Our pro rata share of Crossroads mortgage debt as of June 30, 2006 was \$31.4 million. This fixed-rate debt bears interest at 5.4% and matures in December 2014.

We own a 22.2% investment in various entities which own the Brandywine Portfolio. Our pro-rata share of Brandywine debt as of June 30, 2006, was \$36.9 million with a fixed interest rate of 5.99%. These loans mature on July 1, 2016.

We also have 50% interests in two Fund I investments of which our pro-rata share of mortgage debt (also net of the Fund I minority interest share) as of June 30, 2006, was \$2.6 million with a weighted average interest rate of 6.99%. Both of these loans mature during August 2010.

HISTORICAL CASH FLOW

The following discussion of historical cash flow compares our cash flow for the six months ended June 30, 2006 (2006) with our cash flow for the six months ended June 30, 2005 (2005).

Cash and cash equivalents were \$55.1 million and \$36.7 million at June 30, 2006 and 2005, respectively. The increase of \$18.4 million was a result of the following increases and decreases in cash flows:

(dollars in millions)	Six months ended June 30,		
	2006	2005	Change

Edgar Filing: ACADIA REALTY TRUST - Form 10-Q

Net cash provided by operating activities	\$24.1	\$10.8	\$13.3

Net cash provided by financing activities	\$13.1	\$72.4	\$(59.3)

32

[Back to Contents](#)

The variance in net cash provided by operating activities resulted from an increase of \$4.6 million in operating income in 2006, after adjustments for non-cash expenses, which was primarily due to those factors discussed within Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations. In addition, a net increase in cash of \$8.7 million resulted from changes in operating assets and liabilities.

The increase in net cash used in investing activities was primarily the result of the \$21.2 million investment in Albertson's during 2006 and a \$17.6 million increase in cash used for real estate acquisitions, development and tenant installations during 2006. These decreases were offset by a \$26.3 million of additional return of capital from unconsolidated partnerships in 2006, primarily from our investment in the Brandywine Portfolio.

The increase in net cash used in financing activities resulted primarily from \$34.2 million of distributions to minority interests in partially owned affiliates in 2006, primarily relating to the Mervyns investment, and \$26.4 million of additional cash used for the net repayment of debt in 2006.

INFLATION

Our long-term leases contain provisions designed to mitigate the adverse impact of inflation on our net income. Such provisions include clauses enabling us to receive percentage rents based on tenants' gross sales, which generally increase as prices rise, and/or, in certain cases, escalation clauses, which generally increase rental rates during the terms of the leases. Such escalation clauses are often related to increases in the consumer price index or similar inflation indexes. In addition, many of our leases are for terms of less than ten years, which permits us to seek to increase rents upon re-rental at market rates if current rents are below the then existing market rates. Most of our leases require the tenants to pay their share of operating expenses, including common area maintenance, real estate taxes, insurance and utilities, thereby reducing our exposure to increases in costs and operating expenses resulting from inflation.

[Back to Contents](#)**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Our primary market risk exposure is to changes in interest rates related to our mortgage debt. See the discussion under Item 2 for certain quantitative details related to our mortgage debt.

Currently, we manage our exposure to fluctuations in interest rates primarily through the use of fixed-rate debt and interest rate swap agreements. We are a party to current and forward-starting interest rate swap and cap transactions to hedge our exposure to changes in LIBOR with respect to \$91.4 million, \$24.5 million and \$30.0 million of notional principal, respectively.

The following table sets forth information as of June 30, 2006 concerning our long-term debt obligations, including principal cash flows by scheduled maturity and weighted average interest rates of maturing amounts:

Consolidated mortgage debt:

(dollars in millions)

Year	Scheduled			Weighted average interest rate	
	Amortization	Maturities	Total		
2006	\$ 1.3	\$	\$ 1.3	n/a	
2007	7.3	54.9	62.2	6.34	%
2008	7.2	34.9	42.1	6.73	%
2009	7.4		7.4	n/a	
2010	5.6	36.7	42.3	7.01	%
Thereafter	38.2	166.1	204.3	5.87	%
	<u>\$ 67.0</u>	<u>\$ 292.6</u>	<u>\$ 359.6</u>		

Mortgage debt in unconsolidated partnerships (at our pro rata share):

(dollars in millions)

Year	Scheduled			Weighted average interest rate	
	amortization	Maturities	Total		
2006	\$	\$	\$	n/a	
2007	0.4		0.4	n/a	
2008	0.4		0.4	n/a	
2009	0.5		0.5	n/a	
2010	0.5	2.5	3.0	6.99	%
Thereafter	2.2	64.3	66.5	5.84	%
	<u>\$ 4.0</u>	<u>\$ 66.8</u>	<u>\$ 70.8</u>		

Of our total outstanding debt, \$54.9 million will become due in 2007. As we intend on refinancing some or all of such debt at the then-existing market interest rates which may be greater than the current interest rate, our interest expense would increase by approximately \$0.5 million annually if the interest rate on the refinanced debt increased by 100 basis points. Interest expense on our variable debt as of June 30, 2006 would increase by \$0.6 million for a 100 basis point increase in LIBOR on our \$56.0 million of floating rate debt after taking into account the effect of interest rate swaps which hedge such debt. We may seek additional variable-rate financing if and when pricing and other commercial and

financial terms warrant. As such, we would consider hedging against the interest rate risk related to such additional variable-rate debt through interest rate swaps and protection agreements, or other means.
