**Overview**

We are a leading provider of specialized career websites for select professional communities. We target employment categories in which there is a long-term scarcity of highly skilled, highly qualified professionals relative to market demand. Our career websites serve as online marketplaces where employers and recruiters find and recruit prospective employees, and where professionals find relevant job opportunities and information to further their careers. Each of our career websites offers job postings, content, career development and recruiting services tailored to the specific needs of the professional community that it serves. Our largest websites by revenue are Dice.com, the leading career website in the United States for technology and engineering professionals, and eFinancialCareers.com, the leading global career website for financial markets professionals.

The Dice.com service has operated for over 20 years, while eFinancialCareers.com has been in operation for over ten years. Through eFinancialCareers, we have been able to extend our operations into financial services, expand our presence internationally into Europe and Asia, and broaden our expertise in content and community features. eFinancialCareers.com operates local websites serving 18 markets and five languages for financial markets professionals primarily in the United Kingdom, Continental Europe, North America, Middle East, Southeast Asia and Australia. To expand our strategic footprint, in June 2009, we acquired AllHealthcareJobs, a leading career website in the United States for healthcare professionals. During 2010, we acquired the online and career-events business of WorldwideWorker.com ( WorldwideWorker ), a global leader in online recruitment for the energy industry, as well as Rigzone.com, Inc. ( Rigzone ), a market leader in the oil and gas industry delivering career management, information and data services.

We believe that as recruiting activities continue to migrate online and the global workforce becomes increasingly specialized, both professionals and employers are demanding access to industry and occupation-specific online recruiting services and career content. Professionals use our base level services at no cost to manage their careers by posting their resumes and searching our large collections of job opportunities. Employers, recruiters and staffing firms pay us to post jobs and to access our databases of resumes of highly experienced and qualified professionals. The majority of our revenues are derived from customers who purchase our recruitment packages, which are available through monthly or longer-term contractual arrangements and allow customers to both post jobs and search our databases of resumes.

We believe that our long operating history has enabled us to build brand recognition and a critical mass of both customers and professionals, which has given us a distinct competitive advantage in our employment categories. As the breadth and number of job postings and skilled professionals using our websites has grown, the increase of each has fostered the growth of the other, further enhancing the value and scale of our marketplaces.

### *Other*

Our Other reporting segment is comprised of Targeted Job Fairs, AllHealthcareJobs.com (beginning June 2009) and JobsintheMoney (shut down in June 2010). Revenues are mostly derived from sales of recruitment packages to recruiters and employers, which is a combination of job posting slots and access to a searchable database of candidates. Revenues are also generated from the sale of classified job postings to recruiters and employers, along with website advertising and job fair revenue.

AllHealthcareJobs.com is a leading recruiting and career development website for healthcare professionals. AllHealthcareJobs.com was acquired in June 2009. During January 2011, AllHealthcareJobs.com had approximately 300,000 unique visitors, a decrease of approximately 17% since January 2010. As of January 31, 2011, AllHealthcareJobs.com had approximately 14,000 job postings.

Targeted Job Fairs is a leading producer and host of career fairs and open houses focused primarily on technology and security-cleared candidates in the United States.

We have experienced significant revenue growth since 2005. We generated revenues from continuing operations of \$129.0 million in 2010, up from \$50.8 million in 2005, representing a CAGR of 20%, and we grew our operating income and cash flow from operations from \$9.8 million and \$24.2 million to \$32.2 million and \$47.1 million, representing a CAGR of 27% and 14%, respectively, over the same period. The significant increase in the unemployment rate and general reduction in recruitment activity negatively impacted our revenues and income during late 2008 and throughout 2009. We began to see improvement in recruitment activity during the latter half of 2009 and that improvement continued in 2010. During the year ended December 31, 2010, we experienced an increase in total revenues of 17% as compared to the same period in 2009. We saw an increase in the number of customers served at Dice.com from approximately 5,900 customers to approximately 7,000 customers during 2010.

Any slowdown in recruitment activity that occurs will negatively impact our revenues and results of operations. Alternatively, a decrease in the unemployment rate or a labor shortage generally means that employers (including our customers) are seeking to hire more individuals, which would generally lead to more job postings and database licenses and have a positive impact on our revenues and results of operations. Based on historical trends, improvements in labor markets and the need for our services generally lag behind overall economic improvements. Additionally, there has historically been a lag from the time customers begin to increase purchases of our services and the impact to our revenues due to the recognition of revenue occurring over the length of the contract, which can be several months to a year.

### *Our Industry*

We operate in the online employment advertising segment of the broader market for staffing and employment services. The worldwide market for staffing and employment advertising is large and shifting online at a rapid pace. We believe that the overall demand for employment advertising and recruiting and career development products and

## **Table of Contents**

services has significant long-term growth potential. Over the next decade, the aging labor force of the United States is expected to lead to a labor supply-demand imbalance as baby-boomers retire. We believe that international economies show similar trends, with an aging labor force in Europe and shortages of skilled professionals to meet the demand of developing economies in Asia.

We also believe that certain industries that employ highly skilled and highly paid professionals will experience particularly strong demand for effective recruiting solutions due to the scarcity of such professionals. According to the U.S. Bureau of Labor Statistics, for instance, more than half of the new jobs created will be in professional and related occupations and service occupations. Additionally, 22 of the top 30 fastest-growing occupations in the United States during the period from 2008 to 2018 are expected to be in computer-related, technology, finance, and healthcare fields. In addition, the current labor market for finance, healthcare and computer-related occupations is significantly tighter than the overall employment market in the U.S.

We believe that the market for employment advertising will continue to shift online due to:

***Expansion in the size of the Internet population and increased broadband access.*** The Internet population continues to grow and, according to International Data Corporation, the number of global Internet users is projected to grow from 1.6 billion in 2009 to over 2.2 billion in 2013. Forrester Research, US, or Forrester, projects that broadband penetration in the U.S. will have reached 91% at the end of 2010. This trend is bringing online large groups of workers from diverse industry segments and enabling employers to target them through online classified advertisements.

***Shift in media consumption and spending from offline to online media.*** Increased penetration of broadband Internet connections is fueling not only the growth in the number of Internet users but also the amount of time consumers are spending online (on an absolute basis and relative to using other media). In 2010, Forrester found that consumers spent 50% of their media consumption hours online. While U.S. online advertising budgets are large and growing, online marketing spend represents only a small fraction of total advertising spending. According to Forrester, online advertising budgets were estimated to be approximately \$25.6 billion in 2009, which was just 12% of total U.S. advertising expenditures. We believe that over time, advertisers will follow consumer behavior and invest a growing share of their marketing budgets in online advertising. Forrester projected that U.S. online advertising would reach \$55.0 billion in 2014 and represent 21% of all marketing spend, representing a CAGR of approximately 17% from 2005.

***Online job boards offer inherent benefits compared to offline methods.*** The Internet has revolutionized the hiring process for professionals as well as for recruiters and employers. Professionals experience multiple benefits from performing searches online. They are able to search for open positions that fit their qualifications and career objectives and immediately upload their resumes to apply for open positions. Prior to online offerings, recruiters and employers had a limited and relatively inflexible set of options to find employees, including newspaper classifieds and other print advertisements, traditional career fairs, on campus recruiting, internal referral programs and recruiting firms. With online solutions, recruiters and employers are able to immediately upload and update a list of open positions and can provide detailed job descriptions, along with links to relevant information for potential candidates. They can also efficiently search through online databases of resumes for candidates that fit their hiring needs.

***Relative cost advantages of online versus print employment advertising.*** Recruiters and employers using online recruiting methods can realize substantially lower cost per hire and overall sourcing costs in comparison to traditional print classified advertisements. Not only is the typical price to post a job listing lower online than in print for a comparable period of time, but we also believe that online advertising is more effective and contributes to a higher return on investment for our customers because online job postings are generally more accessible to a wider audience given the limitless geographic boundaries and 24/7 access the Internet affords. Moreover, online job postings can more easily be filtered for relevancy than print listings, allowing customers access to a more targeted audience. Further, searchable database access allows customers access to a broad and unique talent pool, immediately and cost effectively, connecting employers with highly qualified professionals.

## Table of Contents

While generalist job boards have improved the recruiting process compared to traditional offline alternatives, specialized career websites offer job postings, content and services tailored to the specific needs of the communities they serve. Generalist sites often do not provide as simple and as rapid an ability to match specific skills and requirements between candidates and available positions. Specialist career websites, however, not only can provide an experience relevant to candidates' specific needs, but also can remain relevant for professionals who are not currently seeking a job, but who nonetheless wish to remain apprised of market trends. We believe this leads to a better recruitment experience for both customers and professionals.

### Our Value Proposition

We have become a leading provider of specialized career websites for select professional communities by providing unique benefits to professionals and our customers. Our specialized career websites provide professionals with quick and easy access to job postings that are relevant and meet their industry-specific criteria, and provide our customers with pools of hard-to-find, highly qualified professional talent. By providing deep databases of professionals to our customers and a large number of employment opportunities for professionals, we encourage the use of our websites and continue to attract customers to our services. We believe these factors have helped us to achieve a critical mass of both customers and professionals, contributing to the attractiveness and efficiency of our online marketplaces.

### Benefits to Professionals

**Access to a large number of relevant job postings.** Our career websites provide a large number of job postings for technology and engineering, accounting and finance, financial services, energy, healthcare and U.S. government security-clearance positions. For example, as of January 31, 2011, Dice.com had 75,000 individual job postings for technology and engineering professionals, which we believe to be the largest concentration in the United States in these verticals, and eFinancialCareers had nearly 9,200 job postings for financial services professionals. ClearanceJobs.com had 7,400 job postings for individuals with U.S. government security-clearance. In addition, the specialized focus of our career websites benefits professionals by helping to ensure that the job opportunities posted by our customers are relevant and attractive to them.

**Compelling user experience.** We have designed each of our career websites with the specific needs of our target audiences of professionals in mind. Each of our specialized career websites permits professionals to search for jobs based on location and other specific variables, such as type of employment and skill set. We also offer tools such as our search agents, which provide for powerful, detailed searches of job opportunities that match desired criteria, the results of which are delivered by email. We believe this makes it easy for professionals to quickly find job opportunities that match their qualifications and expectations. Additionally, we tailor the look and feel and content of each of our websites to its intended target audience of professionals, which makes the experience more useful and relevant in their day-to-day work lives. We believe that our customized search engines and audience-tailored websites are efficient and relevant, easy to use and valuable to our users, helping us build a loyal and engaged audience.

**Targeted career development services and tools.** We provide professionals with targeted career development services and tools including content, decision support tools and relevant industry news. For example, Dice.com and ClearanceJobs.com provide professionals with market and salary information and local market trends. eFinancialCareers.com provides industry-specialized online career content, as well as print and online career guides targeted to college and graduate students. We believe our career development services and tools benefit the professionals who use our career websites by providing them with relevant information to manage and enhance their careers, and also increase the engagement of professionals with our sites.

### Benefits to our Customers

***Unique pools of qualified professionals.*** We seek to improve the efficiency of the recruiting process for our customers by providing quick and easy access to large and up-to-date pools of highly qualified and hard-to-reach professionals. Our online surveys indicate that over 78% of professionals who use Dice.com have more than five years of experience, more than half have greater than 10 years of experience, and the majority are currently employed. We believe the high number of employed, or passive, job seekers that use our websites makes our online career websites more attractive to our customers because actively employed professionals often make for more attractive candidates. Moreover, because the communities of professionals who visit our websites are highly skilled and specialized within specific industries, we believe our customers reach a more targeted and qualified pool of candidates than through generalist sites. ### Our Strategy

Our goal is to be the leading global network of specialized career websites for select professional communities. Our primary objective is to maximize the long-term potential of our career websites. We continue to pursue our goals by pursuing the following strategies:

***Continue to grow the size, quality, uniqueness and activity level of our professional communities.*** Continuing to grow the size, quality, uniqueness and activity level of our professional communities is a key success factor in maximizing the long-term potential of our career websites. By continually delivering a growing and fresh audience of qualified professionals to our customers, we will be able to satisfy and retain our existing customers as well as to meet the expectations and needs of new customers. We intend to achieve this objective by increasing loyalty and usage among professionals who currently use the site and by reaching new users through targeted marketing and online advertising campaigns.

***Continue to execute on customer acquisition.*** Our ability to achieve our long-term growth objective depends, in part, on our ability to expand our customer base and deepen the relationships we have with our existing customers. Our customer acquisition efforts are focused primarily on direct marketing combined with a targeted sales approach. We believe there are significant opportunities to sell our services to companies with whom we do not currently have a relationship and to expand the level of services we sell to our existing customers.

***Further build brand awareness.*** Brand recognition is a key differentiating factor among providers of traditional and online recruiting and career services. We believe that during the 20 years we have operated Dice.com and the ten years that eFinancialCareers has been in operation, we have fostered brands that are closely associated with ease of use and high quality sector-specific career and recruiting services within their professional communities. We will continue to invest in increasing brand awareness through targeted marketing and advertising campaigns in order to attract new customers and professionals.

***Enhance content and community features across our websites.*** We believe that both active and passive job seekers find value in the free information and services we provide, and we intend to enhance, expand and develop additional content and community features across our websites. For example, Dice.com launched a discussion board where technology professionals come together to discuss career advice and network with each other. In 2010, Dice launched Dice Talent Network™ that allows for direct interaction between technology professionals and recruiters or companies that seek to recruit them. eFinancialCareers has invested in producing significant online and offline content tailored to each of its websites and audiences. In addition, by powering the job boards of an estimated additional 80 websites in the financial services sector, including well-known, worldwide financial publications, eFinancialCareers is able to position its job postings next to high quality, third party content. We believe enhancing our community features will increase the level of engagement we have with our audience and our audience has with each other.

***Further expand our services globally.*** We believe there are significant long-term global growth opportunities for the online recruitment and employment advertising industry. As in the United States, there is increasing demand for specialized online recruiting in both emerging and established economies worldwide. Consistent with this belief, we acquired eFinancialGroup in 2006, and, as a result, we now have a strong presence in the United Kingdom, as well as a presence in important financial services centers around the world. In addition we acquired WorldwideWorker and Rigzone in 2010 which serve the energy industry worldwide. We believe the expertise and reach of our brands will provide a strong position to expand our business and brands into new markets. We will also continue to evaluate and selectively pursue other growth opportunities that will allow us to further expand our business outside of the United States.

***Selectively expand into new verticals.*** We believe other professional communities have characteristics that would support specialized career websites. We will consider entering into new verticals that meet specific criteria, primarily focusing on hard-to-find, highly skilled and highly paid professionals. We entered the healthcare vertical during 2009 with our acquisition of AllHealthcareJobs.com. We also entered the energy industry vertical in 2010 with our acquisitions of WorldwideWorker.com and Rigzone.com. We believe we can leverage our experience serving unique vertical or industry markets as we pursue opportunities in other vertical industries. For example, we have been able to increase ClearanceJobs.com's revenues more than twenty-fold since we acquired it in 2004, which demonstrates our ability to successfully leverage our experience in serving high growth communities as we expand into new verticals.

## **Table of Contents**

We offer our recruiting and career development services and tools through the following six websites, each of which focuses on different career sectors:

**Dice.com** is the leading career site for technology and engineering professionals and the companies that seek to employ them. The job postings available in the Dice.com database, from both technology and non-technology companies across many industries, include a wide variety of technology positions for software engineers, systems administrators, database specialists and project managers, and a variety of other technology and engineering professionals.

Customers have access to specific tools and resources that Dice.com provides to help recruiters and human resources managers improve the effectiveness of their recruitment processes. Through our resume database offerings, Dice.com provides customers with the ability to conduct powerful, detailed searches of candidate resumes that match desired criteria, the results of which are delivered by email to our customers. Dice.com also provides professionals with job search tools, resume posting and career-related content. In January 2011, Dice.com had over 2.3 million unique visitors and ended the month with more than 1.1 million searchable resumes. Approximately 650,000 of these resumes are more than one year old.

Customers can purchase recruitment packages, classified postings or advertisements. Approximately 84% of Dice.com revenue is derived from recruitment packages. Recruitment packages offer our customers the ability to access the candidate resume database and post jobs in job slots. Job slots allow our customers to rotate an unlimited number of jobs through the same slots during the contract period. Our base monthly recruitment package gives our customers a single license to search our candidate resume database and the ability to post positions in up to five job slots. Customers are incentivized to purchase our recruitment packages on an annual basis. Our classified postings allow our customers to post a single job for a period of 30 days. General website advertising does not generate a significant portion of our revenue, but may be purchased separately or as part of a recruitment package.

**ClearanceJobs.com** is the leading online career website dedicated to matching candidates with active or current U.S. government security clearance to the best hiring companies searching for security-cleared employees. ClearanceJobs.com provides professionals with many of the career development tools, such as resume writing tips and salary surveys, offered on Dice.com. We believe ClearanceJobs.com has the largest and fastest-growing database of active security-cleared candidates available online, with approximately 160,000 resumes as of January 31, 2011. The majority of candidates with resumes in our database have high-level security clearance.

**eFinancialCareers.com** is the leading global recruiting and career development network of websites for financial markets professionals, including investment banking, asset management, insurance, retail banking, hedge funds and senior corporate finance professionals. eFinancialCareers was launched in the United Kingdom in 2000, and now operates career websites in 18 markets in five languages primarily in the U.K., Continental Europe, North America, the Persian Gulf States, Southeast Asia and Australia using the eFinancialCareers name. eFinancialCareers has expanded its career site network through distribution agreements by which it powers the job boards of an additional 80 websites in the finance sector, including well-known worldwide capital markets publications and organizations, such as Thomson Reuters (U.K., France, Italy, Germany, Africa and Gulf), Institutional Investor (U.S.), L Expansion and I Express (France), Milano Finanza (Italy), Finance Asia (Southeast Asia) and Financial Standard (Australia). As a result, eFinancialCareers is able to greatly enhance the reach and visibility of its job postings and has attracted an audience of cross-border customers and professionals willing to seek jobs in markets other than their own. eFinancialCareers does not generate revenues from its distribution agreements.

eFinancialCareers customers primarily post jobs targeting specific sectors within the financial services industry, and can also search the resume database of highly qualified and specialized professionals in this sector. In addition to allowing professionals to post resumes and apply for listed positions, eFinancialCareers also provides professionals with career enhancement tools and resources, such as employer profiles, newsletters, and industry surveys. eFinancialCareers also provides both professionals and graduating students with professional education and training materials. As of January 31, 2011, eFinancialCareers.com had approximately 750,000 searchable resumes.

- (1) Deferred revenue is a key metric of our business as it indicates a level of sales already made that will be recognized as revenue in the future. Deferred revenue reflects our increased ability to sign customers to long-term contracts.
- (2) Adjusted EBITDA is a metric used by management to measure operating performance. Management uses Adjusted EBITDA as a performance measure for internal monitoring and planning, including preparation of annual budgets, analyzing investment decisions and evaluating profitability and performance comparisons between us and our competitors. The Company also uses this measure to calculate amounts of performance based compensation under the senior management incentive bonus program. Adjusted EBITDA, as defined in our credit agreement, represents net income (loss) plus (to the extent deducted in calculating such net income (loss)) interest expense, income tax expense, depreciation and amortization, non-cash stock option expenses, losses resulting from certain dispositions outside the ordinary course of business, certain writeoffs in connection with indebtedness, impairment charges with respect to long-lived assets, expenses incurred in connection with an equity offering, extraordinary or non-recurring non-cash expenses or losses, transaction costs in connection with our new credit agreement up to \$250,000, deferred revenues written off in connection with acquisition purchase accounting adjustments, writeoff of non-cash stock compensation expense, and business interruption insurance proceeds, minus (to the extent included in calculating such net income (loss)) non-cash income or gains, interest income, and any income or gain resulting from certain dispositions outside the ordinary course of business.

We consider Adjusted EBITDA, as defined above, to be an important indicator to investors because it provides information related to our ability to provide cash flows to meet future debt service, capital expenditures and working capital requirements and to fund future growth as well as to monitor compliance with financial covenants. We present Adjusted EBITDA as a supplemental performance measure because we believe that this measure provides our board of directors, management and investors with additional information to measure our performance, provide comparisons from period to period and company to company by excluding potential differences caused by variations in capital structures (affecting interest expense) and tax positions (such as the impact on periods or companies of changes in effective tax rates or net operating losses), and to estimate our value.

We present Adjusted EBITDA because covenants in our credit agreement contain ratios based on this measure. Our credit agreement is material to us because it is one of our primary sources of liquidity. If our Adjusted EBITDA were to decline below certain levels, covenants in our credit agreement that are based on Adjusted

EBITDA may be violated and could cause a default and acceleration of payment obligations under our credit agreement.

Adjusted EBITDA is not a measurement of our financial performance under GAAP and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with GAAP or as an alternative to cash flow from operating activities as a measure of our profitability or liquidity.

- (3) The following table reconciles Adjusted EBITDA to net income and to net cash provided by operating activities for the periods presented:

**Risk Factors**

*An investment in our common stock involves a high degree of risk. Before deciding whether to invest in our common stock, you should consider carefully the risks described below and in the section captioned "Risk Factors" contained in our Annual Report on Form 10-K for the year ended December 31, 2010, which are incorporated by reference in this prospectus supplement and the accompanying prospectus in their entirety, together with other information in this prospectus supplement, the accompanying prospectus, the information and documents incorporated by reference, and in any free writing prospectus that we have authorized for use in connection with this offering. If any of the described events actually occur, our business, operating results, prospects or financial condition could be materially and adversely affected. This could cause the trading price of our common stock to decline and you may lose all or part of your investment. The risks described below and in the document referenced above are not the only ones that we face. Additional risks not presently known to us or that we currently deem immaterial may also affect our business operations.*

**Risks Related to this Offering and our Common Stock**

**We do not intend to pay dividends in the foreseeable future, and, because we are a holding company, we may be unable to pay dividends.**

For the foreseeable future, we intend to retain any earnings to finance the development and expansion of our business, and we do not anticipate paying any cash dividends on our common stock. Any future determination to pay dividends will be at the discretion of our board of directors and will be dependent on then-existing conditions, including our financial condition and results of operations, capital requirements, contractual restrictions, including restrictions under our credit agreement, business prospects and other factors that our board of directors considers relevant. Furthermore, because we are a holding company, any dividend payments would depend on the cash flow of our subsidiaries. Accordingly, we may not be able to pay dividends even if our board of directors would otherwise deem it appropriate. For the foregoing reasons, you will not be able to rely on dividends to receive a return on your investment.

**Provisions in our charter documents and Delaware law may delay or prevent our acquisition by a third party.**

Our amended and restated certificate of incorporation and by-laws contain several provisions that may make it more difficult or expensive for a third party to acquire control of us without the approval of our board of directors. These provisions also may delay, prevent or deter a merger, acquisition, tender offer, proxy contest or other transaction that might otherwise result in our stockholders receiving a premium over the market price for their common stock. The provisions include, among others:

provisions relating to creating a board of directors that is divided into three classes with staggered terms;

provisions relating to the number and election of directors, the appointment of directors upon an increase in the number of directors or vacancy and provisions permitting the removal of directors only for cause and with a 66 <sup>2</sup>/<sub>3</sub>% stockholder vote;

provisions requiring a 66 <sup>2</sup>/<sub>3</sub>% stockholder vote for the amendment of certain provisions of our certificate of incorporation and for the adoption, amendment and repeal of our by-laws;

provisions barring stockholders from calling a special meeting of stockholders or requiring one to be called;

elimination of the right of our stockholders to act by written consent; and

provisions that set forth advance notice procedures for stockholders' nominations of directors and proposals for consideration at meetings of stockholders.

## Edgar Filing: DICE HOLDINGS, INC. - Form 424B5

Additionally, because we are incorporated in Delaware, we are subject to the provisions of Section 203 of the Delaware General Corporation Law. In general, Section 203 prevents an interested stockholder (defined generally as a

person owning 15% or more of the corporation's outstanding voting stock) of a Delaware corporation from engaging in a business combination (as defined) for three years following the date that person became an interested stockholder unless various conditions are satisfied. For more information, see "Description of Capital Stock" in the accompanying prospectus. These provisions of our amended and restated certificate of incorporation, by-laws and Delaware law could discourage potential takeover attempts and reduce the price that investors might be willing to pay for shares of our common stock in the future which could reduce the market price of our stock.

### **Our stock price may be volatile and you may lose all or part of your investment.**

The market price of our common stock could fluctuate significantly, in which case you may not be able to resell your shares at or above the offering price. The market price of our common stock may fluctuate based on a number of factors in addition to those listed in this prospectus supplement, including:

our operating performance and the performance of our competitors and other similar companies;

the public's reaction to our press releases, our other public announcements and our filings with the Securities and Exchange Commission, which we refer to as the SEC;

changes in earnings estimates or recommendations by research analysts who track our common stock or the stocks of other companies in our industry;

changes in general economic conditions;

the number of our publicly traded shares;

actions of our current stockholders, including this offering;

the arrival or departure of key personnel or personal matters affecting our principal stockholders;

acquisitions, strategic alliances or joint ventures involving us or our competitors; and

other developments affecting us, our industry or our competitors.

In addition, in recent years the stock market has experienced significant price and volume fluctuations. These fluctuations are often unrelated to the operating performance of particular companies. These broad market fluctuations may cause declines in the market price of our common stock. The price of our common stock could fluctuate based upon factors that have little or nothing to do with our company or its performance, and these fluctuations could materially reduce our stock price.

### **Future sales of shares could cause our stock price to decline.**

Sales of a substantial number of shares of our common stock, or the perception that a large number of shares will be sold, could cause the market price of our common stock to decline. As of February 10, 2011, approximately 65,115,280 shares of our common stock were outstanding. Of these shares, a significant amount will be restricted pursuant to Rule 144 under the Securities Act after giving effect to this offering. However, the holders (including the investment funds related to General Atlantic, LLC and Quadrangle Group LLC) of approximately 33,443,020 of these restricted shares of our common stock (or 27,311,544 shares after giving effect to this offering (or 26,261,544 shares if the underwriters

overallotment option is exercised in full)) have caused their shares to be registered under the registration statement of which this prospectus supplement and the accompanying prospectus are parts. In addition, the restricted shares may be sold under Rule 144 from time to time subject to the volume, manner of sale and other conditions of Rule 144. Although the selling stockholders, our directors and our executive officers who beneficially own in the aggregate 40,194,791 shares of our common stock (or 33,194,791 shares after giving effect to this offering (or 32,144,791 shares if the underwriters overallotment option is exercised in full)) have entered into 75-day underwriter lock-up agreements, the underwriters may waive the lock-up restrictions at their discretion.

In addition, we have reserved for issuance 2,658,947 shares of common stock under our stock plans. As of February 10, 2011, options to purchase 10,512,585 shares of our common stock were outstanding under our stock plans (or 9,644,061 shares after the closing of this offering) of which options to purchase 7,776,740 shares of our common stock (or 6,908,216 shares after the closing of this offering) were vested and immediately exercisable. The holders of vested options to purchase 6,849,130 shares of our common stock (options to purchase 5,980,606 shares of our common stock after giving effect to the offering) will be subject to the 75-day underwriters' lock-up period and the holders of vested options to purchase 3,663,455 shares of our common stock will not be subject to the underwriters' lock-up agreement.

**Forward-Looking Statements**

This prospectus supplement, the accompanying prospectus, the documents we have filed with the SEC that are incorporated by reference and any free writing prospectus that we have authorized for use in connection with this offering contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or Exchange Act. You should not place undue reliance on those statements because they are subject to numerous uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Forward-looking statements include information concerning our possible or assumed future results of operations, including descriptions of our business strategy. These statements often include words such as may, will, should, believe, expect, anticipate, intend, plan, and other similar expressions. These statements are based on assumptions that we have made in light of our experience in the industry as well as our perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. Although we believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual financial results or results of operations and could cause actual results to differ materially from those in the forward-looking statements. These factors include, but are not limited to, statements about:

competition from existing and future competitors in the highly competitive developing market in which we operate;

failure to adapt our business model to keep pace with rapid changes in the recruiting and career services business;

failure to maintain and develop our reputation and brand recognition;

failure to increase or maintain the number of customers who purchase recruitment packages;

cyclical or downturns in the economy or industries we serve;

the failure to attract qualified professionals to our websites or grow the number of qualified professionals who use our websites;

the failure to successfully identify or integrate acquisitions;

United States and foreign government regulation of the Internet and taxation; and

our ability to borrow funds under our revolving credit facility or refinance our indebtedness and restrictions on our current and future operations under our credit facility.

These factors and others are more fully discussed elsewhere herein and in the documents incorporated herein by reference, including our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, under the headings Risk Factors, Forward-Looking Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations. These and other risks could cause actual results to differ materially from those implied by forward-looking statements herein and therein.

**Certain U.S. Federal Income Tax Consequences for Non-U.S. Holders**

The following is a discussion of the material U.S. federal income tax consequences to a Non-U.S. Holder, as defined below, of the acquisition, ownership and disposition of shares of our common stock purchased pursuant to this offering. This discussion is based on the Internal Revenue Code of 1986, as amended (the Code), Treasury regulations promulgated under the Code (Treasury Regulations), administrative pronouncements or practices and judicial decisions, all as of the date hereof. Future legislative, judicial, or administrative modifications, revocations, or interpretations, which may or may not be retroactive, may result in U.S. federal income tax consequences significantly different from those discussed herein. This discussion is not binding on the Internal Revenue Service (IRS). No ruling has been or will be sought or obtained from the IRS with respect to any of the U.S. federal tax consequences discussed herein. There can be no assurance that the IRS will not challenge any of the conclusions discussed herein or that a U.S. court will not sustain such a challenge.

The following discussion does not purport to be a full description of all U.S. federal income tax considerations that may be relevant to any Holder, as defined below, in light of such Holder's particular circumstances and addresses only Holders who hold common stock as capital assets within the meaning of Section 1221 of the Code. This discussion does not address any (i) U.S. federal alternative minimum tax, (ii) U.S. federal estate, gift, or other non-income tax (except as set forth below) or (iii) any state, local, or non-U.S. tax consequences of the acquisition, ownership or disposition of our common stock. In addition, this discussion does not address the U.S. federal income and estate tax consequences to beneficial owners of our common stock subject to special rules, including, among others, beneficial owners that (i) are banks, financial institutions, or insurance companies, (ii) are regulated investment companies or real estate investment trusts, (iii) are brokers, dealers, or traders in securities or currencies, (iv) are tax-exempt organizations, (v) are controlled foreign corporations, (vi) are passive foreign investment companies, (vii) are U.S. expatriates, (viii) purchase or hold our common stock as part of hedges, straddles, constructive sales, conversion transactions or other integrated investments, (ix) acquire our common stock as compensation for services or through the exercise or cancellation of employee stock options or warrants or (x) have a functional currency other than the U.S. dollar.

As used herein, a Holder means a beneficial owner of our common stock unless such beneficial owner is a partnership or other entity classified as a partnership for U.S. federal income tax purposes (a Partnership) or an owner or partner in a Partnership. If a beneficial owner of our common stock is a Partnership or an owner or partner in a Partnership, the U.S. federal income tax consequences generally will depend on the activities of such Partnership and the status of such owner or partner. A beneficial owner of our common stock that is a Partnership or an owner or partner in a Partnership should consult its own tax advisor regarding the U.S. federal income tax consequences of the acquisition, ownership and disposition of our common stock.

A U.S. Holder means a Holder that is (i) an individual citizen or resident alien of the United States, (ii) a corporation or other entity taxable as a corporation for U.S. federal tax purposes created or organized in the United States, any state thereof or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income tax regardless of its source or (iv) a trust that (a) is subject to the primary jurisdiction of a court within the United States and for which one or more U.S. persons have authority to control all substantial decisions or (b) has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person. As used herein, a Non-U.S. Holder means a Holder that is not a U.S. Holder.

THE SUMMARY OF U.S. FEDERAL INCOME TAX CONSEQUENCES SET FORTH BELOW IS FOR GENERAL INFORMATION ONLY AND IT IS NOT INTENDED TO BE, NOR SHOULD IT BE CONSTRUED TO BE, LEGAL OR TAX ADVICE TO ANY HOLDER OR PROSPECTIVE HOLDER OF SHARES AND NO OPINION OR REPRESENTATION WITH RESPECT TO THE U.S. FEDERAL INCOME TAX CONSEQUENCES TO ANY SUCH HOLDER OR PROSPECTIVE HOLDER IS MADE. A HOLDER SHOULD CONSULT ITS OWN TAX ADVISOR REGARDING THE APPLICATION OF U.S. FEDERAL TAX LAWS TO ITS PARTICULAR CIRCUMSTANCES AND ANY TAX CONSEQUENCES

**Distributions on Common Stock**

As discussed under **Risk Factors** **Risks Related to this Offering and our Common Stock**, we do not anticipate making a distribution on common stock in the foreseeable future. If we make a distribution on a Non-U.S. Holder's common stock, however, then, to the extent that such distribution is paid from our current and accumulated earnings and profits as determined under U.S. federal income tax principles (a dividend), the dividend generally will be subject to withholding of U.S. federal income tax at a rate of 30% of the gross amount, or any lower rate that may be specified by an applicable tax treaty if we have received proper certification of the application of that tax treaty. If the amount of the distribution exceeds our current and accumulated earnings and profits, such excess first will be treated as a return of capital to the extent of a Non-U.S. Holder's tax basis in our common stock, and thereafter will be treated as capital gain (and treated as described below under **Sale or Other Taxable Disposition of Common Stock**). However, except to the extent that we elect (or the paying agent or other intermediary through which a Non-U.S. Holder holds its common stock elects) otherwise, we (or the intermediary) must generally withhold on the entire distribution, in which case a Non-U.S. Holder would be entitled to a refund from the IRS for the withholding tax on the portion of the distribution that exceeded our current and accumulated earnings and profits. A Non-U.S. Holder should consult its own tax advisor regarding its entitlement to benefits under an applicable tax treaty and the manner of claiming the benefits of such treaty. A Non-U.S. Holder that is eligible for a reduced rate of U.S. federal withholding tax under a tax treaty may obtain a refund or credit of any excess amounts withheld by filing an appropriate claim for a refund with the IRS.

Dividends that are effectively connected with a Non-U.S. Holder's conduct of a trade or business in the United States (and, if certain tax treaties apply, are attributable to a U.S. permanent establishment maintained by such Non-U.S. Holder) are not subject to U.S. withholding tax, but instead are taxed in the manner applicable to U.S. persons. In that case, we will not withhold U.S. federal withholding tax, provided that the Non-U.S. Holder complies with applicable certification and disclosure requirements. In addition, dividends received by a corporate Non-U.S. Holder that are effectively connected with the conduct of a trade or business in the United States may be subject to a branch profits tax at a rate of 30%, or any lower rate as may be specified in an applicable tax treaty.

**Sale or Other Taxable Disposition of Common Stock**

A Non-U.S. Holder generally will not be subject to U.S. federal income tax, including by way of withholding, on gain recognized on a sale, exchange or other taxable disposition of our common stock unless any one of the following is true:

the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States and, if an applicable tax treaty applies, is attributable to a U.S. permanent establishment (or, in the case of an individual, a fixed base) maintained by such Non-U.S. Holder in the United States, in which case the branch profits tax discussed above may also apply to a corporate Non-U.S. Holder;

the Non-U.S. Holder is an individual present in the United States for 183 or more days in the taxable year of the disposition and certain other requirements are met; or

the Foreign Investment in Real Property Tax Act, or FIRPTA, rules apply because (1) our common stock constitutes a U.S. real property interest by reason of our status as a U.S. real property holding corporation (USRPHC) for U.S. federal income tax purposes at any time during the shorter of the period during which the Non-U.S. Holder holds our common stock or the five-year period ending on the date on which the Non-U.S. Holder disposes of our common stock; and (2) assuming that our common stock constitutes a U.S. real property interest and is treated as regularly traded on an established securities market within the meaning of applicable Treasury Regulations, the Non-U.S. Holder held, directly or indirectly, at any time within the five-year period preceding the disposition, more than 5% of our common stock.

## Table of Contents

Generally, a corporation is a USRPHC only if the fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests plus its other assets used or held for use in a trade or business. We believe that we are not now, have not been in the last five years and will not become a USRPHC. There can be no assurance regarding our USRPHC status for the current year or future years, however, because USRPHC status is based on the composition of our assets from time to time and on certain rules whose application is uncertain. We may become a USRPHC in the future.

An individual Non-U.S. Holder who is subject to U.S. tax because he or she was present in the United States for 183 or more days during the year of disposition and certain other conditions were met will be taxed on his or her gains, including gains from the disposition of our common stock net of applicable U.S. losses from dispositions of other capital assets incurred during the year, at a flat rate of 30% or a reduced rate under an applicable tax treaty.

An individual Non-U.S. Holder described in the first bullet point above will be subject to tax on his or her gains under regular graduated U.S. federal income tax rates.

### U.S. Federal Estate Tax

Shares of common stock owned or treated as owned by an individual who is not a U.S. citizen or resident for U.S. federal estate tax purposes will be considered United States situs assets, will be included in that Non-U.S. Holder's estate for U.S. federal estate tax purposes, and may be subject to U.S. federal estate tax unless an applicable estate tax or other tax treaty provides otherwise.

### Backup Withholding and Information Reporting

Under Treasury Regulations, we must report annually to the IRS and to each Non-U.S. Holder the amount of dividends paid to each Non-U.S. Holder and any tax withheld with respect to those dividends. These information reporting requirements apply even if withholding was not required because the dividends were effectively connected dividends or withholding was reduced or eliminated by an applicable tax treaty. Under an applicable tax treaty, that information may also be made available to the taxing authorities in a country in which the Non-U.S. Holder resides or is established.

Backup withholding will generally not apply to payments of dividends made by us or our paying agents, in their capacities as such, to a Non-U.S. Holder if the Holder has provided the certification described above that it is not a U.S. person (generally satisfied by providing the applicable IRS Form W-8) or has otherwise established an exemption, provided we or the paying agent have no actual knowledge or reason to know that the beneficial owner is a U.S. person.

The payment of the proceeds of a disposition of our common stock by a Non-U.S. Holder to or through the U.S. office of a broker generally will be reported to the IRS and reduced by backup withholding unless the Non-U.S. Holder either certifies its status as a Non-U.S. Holder in accordance with applicable Treasury Regulations or otherwise establishes an exemption and the broker has no actual knowledge, or reason to know, to the contrary. The payment of the proceeds of a disposition of our common stock by a Non-U.S. Holder to or through a non-U.S. office of a non-U.S. broker generally will not be reduced by backup withholding or reported to the IRS unless the non-U.S. broker has certain types of relationships with the United States (a U.S. Related Financial Intermediary). In the case of the payment of proceeds from the disposition of our common stock to or through a non-U.S. office of a broker that is either a U.S. person or a U.S. Related Financial Intermediary, the Treasury Regulations require information reporting (but not backup withholding) on the payment unless the broker has documentary evidence in its files that the owner is a Non-U.S. Holder and the broker has no knowledge to the contrary.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules will be refunded or credited against the Non-U.S. Holder's U.S. federal income tax liability, if any, provided that certain

**Table of Contents**

required information is timely furnished to the IRS. Non-U.S. Holders should consult their own tax advisors regarding the application of the information reporting and backup withholding rules to them and the availability and procedure for obtaining an exemption from backup withholding under current Treasury Regulations.

Each prospective Holder is urged to consult its tax advisor with respect to the U.S. federal income and estate tax consequences of the ownership and disposition of our common stock, as well as the application and effect of the laws of any state, local, foreign or other taxing jurisdiction.

### Lock-up Agreements

Other than in this offering, we have agreed that we will not, directly or indirectly, offer, sell, issue, contract to sell, pledge or otherwise dispose of any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or offer, sell, issue, contract to sell, or grant any option, right or warrant to purchase any such shares, or enter into any swap, hedge or any other agreement that transfers, in whole or in part, the economic consequences of ownership of such shares, or establish or increase a put equivalent position or liquidate or decrease a call equivalent position in such shares within the meaning of Section 16 of the Exchange Act, or file with the SEC a registration statement under the Securities Act of 1933 (the Securities Act ) relating to any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock or publicly disclose the intention to take any such action, in each case without the prior written consent of Jefferies & Company, Inc., for a period of 75 days after the date of this prospectus supplement, except grants of employee stock options or restricted stock pursuant to the terms of a plan in effect on the date hereof, issuances pursuant to the exercise of such options or the exercise of any other employee stock options outstanding on the date hereof, issuances of such securities pursuant to the conversion or exchange of convertible or exchangeable securities or the exercise of warrants, the filing of any registration statements on Form S-8 in connection with an employee benefits plan in effect on the date hereof or on Form S-4 in connection with the issuances contemplated below in connection with acquisitions of businesses or assets or formation of joint ventures or other collaborations subject to limits on the number of shares to be offered thereunder, and the issuance of shares or securities convertible into or exchangeable or exercisable for any shares of our common stock as consideration for or partial consideration for acquisitions of businesses or assets or in connection with the formation of joint ventures, strategic partnerships or other collaborations, provided that such issuances are limited to 5% of our outstanding common stock outstanding immediately hereafter provided that the recipient of such shares of common stock agree to be bound by a similar lock-up agreement.

publicly disclose the intention to make any offer, sale, pledge or disposition, or to enter into any transaction, swap, hedge or other arrangement, without, in each case, the prior written consent of Jefferies & Company, Inc. for a period of 75 days after the date of this prospectus supplement. The restrictions of the lock-up agreements do not apply to the withholding of any securities by us to satisfy any withholding tax obligations in connection with the vesting of any of our restricted stock, restricted stock units, stock options or other stock-based awards pursuant to our compensation plans and the filing of any Form 4 under the Exchange Act in connection with such withholding. Certain transfers are also permitted (1) pursuant to a will, other testamentary document or applicable laws of descent, (2) as a bona fide gift or (3) to a family member or trust, provided that, in each case, the transferee agrees to be bound in writing by the terms of the agreement prior to such transfer and no filing by any party (donor, donee, transferor or transferee) under the Exchange Act shall be required or shall be voluntarily made in connection with such transfer (other than a filing on Form 5 made when required) and such transfer shall not involve a disposition for value (provided that in the case of transferees that are charitable organizations or trusts that receive securities from the General Atlantic entities or the Quadrangle entities, the lock-up agreements applicable to such entities will permit such transferees to collectively sell under Rule 144 of the Securities Act up to an aggregate number of shares through Jefferies & Company, Inc., equal to 120,000 shares of our common stock provided that no such sales are made during the first 7 days of the lock-up period). In addition, one of our directors, John Barter, will be permitted to transfer 8,000 shares to charitable institutions and trusts. Transfers are also permitted to an entity's wholly-owned subsidiary or the partners, members, stockholders or affiliates of such entity, or to a charitable or family trust, so long as the transferee agrees to be bound by the terms of a similar lock up agreement prior to such transfer and no filing by any party is required or shall be voluntarily made under the Exchange Act (other than a Form 5 filing when required and such transfer shall not involve a disposition for value). The General Atlantic Stockholders and the Quadrangle Stockholders will be permitted to make filings on Form 4 during the lock-up period in connection with transfers to specified general partners, advisory directors, managing directors or managing members and the estate planning vehicles of managing members provided that they give written notice to Jefferies & Company, Inc. at least three business days prior to such proposed transfers and such transfer will not involve a disposition for value. In addition, the establishment of Rule 10b5-1 trading plans and modification of existing Rule 10b5-1 trading plans are permitted provided that no transactions thereunder are made until after the end of the 75-day period and no public disclosure of such plans and modifications shall be required or voluntarily made until after the end of the 75-day period.

Jefferies & Company, Inc., may, in its sole discretion and at any time or from time to time before the termination of the 75-day period, without notice, release all or any portion of the securities subject to lock-up agreements.

### Price Stabilization, Short Positions and Penalty Bids

Until the distribution of the shares of common stock is completed, SEC rules may limit the underwriters from bidding for and purchasing shares of our common stock.

In connection with this offering, the underwriters may engage in transactions that stabilize, maintain or make short sales of our common stock and may purchase our common stock on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in this offering. The underwriters may close out any short position by purchasing shares in the open market or by exercising their overallotment option.

A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in this offering. A stabilizing bid is a bid for or the purchase of common stock on behalf of the underwriters in the open market prior to the completion of this offering for the purpose of fixing or maintaining the price of the shares of common stock. A syndicate covering transaction is the bid for or purchase of common stock on behalf of the underwriters to reduce a short position incurred by the underwriters in connection with the offering.

## **Table of Contents**

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our shares or preventing or retarding a decline in the market price of our shares. As a result, the price of our shares may be higher than the price that might otherwise exist in the open market.

In connection with this offering, the underwriter may also engage in passive market making transactions in our common stock on the New York Stock Exchange in accordance with Rule 103 of Regulation M during a period before the commencement of offers or sales of shares of our common stock in this offering and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded.

Neither we, the selling stockholders nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we, the selling stockholders nor the underwriters make any representation that the underwriters will engage in these transactions or that any transaction, if commenced, will not be discontinued without notice.

### Electronic Distribution

This prospectus supplement and the accompanying prospectus in electronic format may be made available on websites or through other online services maintained by the underwriters of the offering, or by its affiliates. Other than the prospectus in electronic format, the information on the underwriters' websites and any information contained in any other websites maintained by the underwriters is not part of the prospectus or the registration statement of which this prospectus supplement forms a part, has not been approved and/or endorsed by us or the underwriters in their capacity as underwriters and should not be relied upon by investors.

### Affiliations

In the future, the underwriters and their affiliates may provide various investment banking, commercial banking, financial advisory and other services to us and our affiliates for which services they have received, and may in the future receive, customary fees. **RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED STOCK DIVIDENDS**

Our ratios of earnings to fixed charges and preferred stock dividends are shown in the table below. For purposes of calculating the below ratios, earnings consist of income before taxes plus fixed charges during the period. Fixed charges means the sum of the following: (a) interest expensed, (b) amortized capitalized expenses related to indebtedness and (c) an estimate of the interest within rental expense. Preferred stock dividends represent the amount of pre-tax income required to pay the dividends on preferred shares. We have had no preferred shares outstanding since July 2007 and have not paid any dividends on preferred shares since 2007. The dividend on preferred shares in 2007 was declared and paid prior to our initial public offering.

The Company, the General Atlantic Stockholders, the Quadrangle Stockholders (and together with the General Atlantic Stockholders, the Principal Stockholders ) and certain of our executive officers, including

Thomas M. Silver, who is a selling stockholder under this prospectus and any accompanying prospectus supplement (the Management Stockholders ) are party to the Institutional and Management Shareholder Agreement, dated July 23, 2007 (the Institutional Shareholder Agreement ). The Institutional Shareholder Agreement contains restrictions on the ability of the Principal Stockholders and the Management Stockholders to transfer shares of our common stock and provisions related to registration rights granted to such stockholders.

In addition, the Institutional Shareholder Agreement contains provisions related to the composition of our board of directors and the committees of our board of directors and our corporate governance. Specifically, the Institutional Shareholder Agreement requires that the board consist of at least eight directors, one of whom must be our Chief Executive Officer. Under the Institutional Shareholder Agreement, each of the Principal Stockholders has the right to designate up to (1) three members of our board of directors if such Principal Stockholder owns 17.5% or more of our common stock, (2) two members of our board of directors if it owns less than 17.5% but at least 10% of our common stock and (3) one member of our board of directors if it owns less than 10% but at least 5% of our common stock. Each Principal Stockholder has agreed to vote its shares in favor of the directors designated by the other Principal Stockholder in accordance with the terms of the Institutional Shareholder Agreement. Initially, the Principal Stockholders each only designated two members to our board of directors. Peter Ezersky and Amanda Siegel have been designated as members of our board of directors by the Quadrangle Stockholders and H. Raymond Bingham and David Hodgson have been designated as members of our board of directors by the General Atlantic Stockholders. If both Principal Stockholders hold less than 5% of our common stock, these provisions terminate.

### *Restrictions on Transfer*

Under the Institutional Shareholder Agreement, neither of the Principal Stockholders may sell or transfer shares of our capital stock (except for transfers to certain permitted transferees or certain block sale transfers) without the consent of the other Principal Stockholder. Additionally, the Principal Stockholders and the Management Stockholders have agreed not to sell any shares during the period beginning 14 days prior to the effective date of a registration statement filed in connection with the exercise of demand or piggyback registration rights by any stockholder until the earlier of: (1) 90 days after any public offering and (2) the expiration of the underwriters lock-up period for the applicable offering, provided that the Principal Stockholders and Management Stockholders have agreed that notwithstanding this provision, they will remain subject to the terms of any underwriter lock-up agreement for the applicable offering.

### *Other Provisions*

Under the Institutional Shareholder Agreement, we have agreed that the doctrine of corporate opportunity will not apply against our Principal Stockholders in a manner that would prohibit them from investing in competing businesses or doing business with our clients and customers.

The Institutional Shareholder Agreement requires us to deliver to each stockholder who is a party to the agreement and owns 5% or more of our common stock in the aggregate certain monthly financial statements as soon as practicable after they are available, subject to customary confidentiality provisions. Additionally, except to the extent available on the SEC's EDGAR system, we are required to deliver to each stockholder who is a party to the agreement and owns 5% or more of our common stock copies of all financial statements, reports, notices and proxy statements and all regular and periodic reports, and registration statements or prospectuses filed by us with the SEC.

### *Registration Rights*

Under the Institutional Shareholder Agreement, each of the Principal Stockholders is entitled to certain demand registration rights, including the right to require us to effect a shelf registration if we are eligible to file registration statements on Form S-3.

## **Table of Contents**

Under the Institutional Shareholder Agreement, in a demand registration, the non-requesting Principal Stockholder and the Management Stockholders are entitled to piggyback registration rights with respect to any registration request made by a Principal Stockholder, subject to limited exceptions. If the registration requested by a Principal Stockholder is in the form of an underwritten offering, and if the managing underwriter of the offering determines that the number of securities proposed to be offered would have an adverse affect on the offering, the number of shares included in the offering will be determined as follows:

*first*, shares offered by the Principal Stockholders and the Management Stockholders (but only to the extent such shares were not acquired pursuant to the exercise of options);

*second*, shares offered by any other stockholders (pro rata, based on the number of their respective shares requested to be included in such offering); and

*third*, shares offered by us for our own account.

The Institutional Shareholder Agreement also provides that each Principal Stockholder and Management Stockholder is entitled to piggyback registration rights with respect to any registration initiated by us, subject to certain limited exceptions. If we initiate a registration in the form of an underwritten offering, and if the managing underwriter of the offering determines that the number of securities proposed to be offered would have an adverse affect on the offering, then the number of shares included in the offering shall be determined as follows:

*first*, shares offered by us for our own account;

*second*, shares requested to be included by the Principal Stockholders and the Management Stockholders (pro rata, based on the number of their respective shares requested to be included in such offering); and

*third*, shares offered by any other stockholders (pro rata, based on the number of their respective shares requested to be included in such offering).

The Principal Stockholders and certain of the Management Stockholders are exercising registration rights in connection with the resale of the common shares owned by them in this prospectus and accompanying prospectus supplement.

In any registration, including the resale of the common shares owned by them in this prospectus and accompanying prospectus supplement, we have agreed to indemnify the participating Principal Stockholders and Management Stockholders and to pay all registration expenses (other than underwriting discounts and commissions and certain legal expenses of the selling stockholders).

The Principal Stockholders and Scot W. Melland, Michael P. Durney, Thomas M. Silver, Brian P. Campbell and Constance Melrose, each of whom is a Management Stockholder, exercised piggyback rights and sold shares in connection with our initial public offering.

In 2007, we incurred approximately \$3.2 million in expenses related to our initial public offering.

### *Block Sales*

Under the Institutional Shareholder Agreement, a Principal Stockholder may request to sell common stock in a block sale, provided that the Principal Stockholder gives written notice to us and the other Principal Stockholder. The other Principal Stockholder will then have the right to participate in the block sale on a proportional basis with the requesting Principal Stockholder. Each Principal Stockholder may make up to two block sales in any one year period, and each block sale must recognize proceeds of at least \$20 million. These provisions terminate with respect to a Principal Stockholder if it owns less than 10% of our common stock.

### **DESCRIPTION OF CAPITAL STOCK**

#### **General**

The following description of our capital stock summarizes certain terms and provisions of our common stock and preferred stock, par value \$0.01 per share, to which any prospectus supplement may relate. This section also summarizes relevant provisions of Delaware law. The following description of our common stock and preferred stock does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the applicable provisions of Delaware law and our Amended and Restated Certificate of Incorporation and our Amended and Restated Bylaws, copies of which have been filed with the SEC as exhibits to the registration statement of which this prospectus forms a part.

#### **Capital Stock**

As of the date of this prospectus, our authorized capital stock consists of 240,000,000 shares of common stock, par value \$0.01 per share, and 20,000,000 shares of preferred stock, par value \$0.01 per share. As of March 11, 2010, we had 62,418,859 outstanding shares of common stock, excluding 293,000 shares of restricted stock, and no shares of preferred stock outstanding.

As of March 11, 2010, there were approximately 54 holders of record of our common stock.

#### **Common Stock**

The holders of our common stock are entitled to one vote per share on all matters submitted to a vote of stockholders, including the election of directors. Holders of the common stock do not have any preemptive rights or cumulative voting rights, which means that the holders of a majority of the outstanding common stock voting for the election of directors can elect all directors then being elected. The holders of our common stock are entitled to receive dividends when, as, and if declared by our board out of legally available funds. Upon our liquidation or dissolution, the holders of common stock will be entitled to share ratably in those of our assets that are legally available for distribution to stockholders after payment of liabilities and subject to the prior rights of any holders of preferred stock then outstanding. All of the outstanding shares of common stock are, and the shares of common stock to be sold in this offering when issued and paid for will be, fully paid and nonassessable. The rights, preferences and privileges of holders of common stock are subject to the rights of the holders of shares of any series of preferred stock that may be issued in the future.

#### **Preferred Stock**

We are authorized to issue up to 20,000,000 shares of preferred stock. Our board of directors is authorized, subject to limitations prescribed by Delaware law and our Amended and Restated Certificate of Incorporation, to determine the terms and conditions of the preferred stock, including whether the shares of preferred stock will be issued in one or more series, the number of shares to be included in each series and the powers, designations, preferences and rights of the shares. Our board of directors is also authorized to designate any qualifications, limitations or restrictions on the shares without any further vote or action by the stockholders. The issuance of preferred stock may have the effect of delaying, deferring or preventing a change in control of our Company and may adversely affect the voting and other rights of the holders of our common stock, which could have an adverse impact on the market price of our common stock.

#### **Certain Certificate of Incorporation, By-Law and Statutory Provisions**

The provisions of our Amended and Restated Certificate of Incorporation and Amended and Restated By-laws and of the Delaware General Corporation Law summarized below may have an anti-takeover effect and may delay, defer or prevent a tender offer or takeover attempt of the Company.

## **Table of Contents**

### **Directors Liability; Indemnification of Directors and Officers**

Our Amended and Restated Certificate of Incorporation provides that a director will not be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director, except:

for any breach of the duty of loyalty;

for acts or omissions not in good faith or which involve intentional misconduct or knowing violations of law;

for liability under Section 174 of the Delaware General Corporation Law (relating to unlawful dividends, stock repurchases, or stock redemptions); or

for any transaction from which the director derived any improper personal benefit.

This provision does not limit or eliminate our rights or those of any stockholder to seek non-monetary relief such as an injunction or rescission in the event of a breach of a director's duty of care. The provisions do not alter the liability of directors under federal securities laws. In addition, our Amended and Restated Certificate of Incorporation and Amended and Restated By-laws provide that we indemnify each director and the officers, employees, and agents determined by our board of directors to the fullest extent provided by the laws of the State of Delaware.

### **Corporate Opportunity**

Our Amended and Restated Certificate of Incorporation also provides that the doctrine of corporate opportunity will not apply against our Principal Stockholders in a manner that would prohibit them from investing in competing businesses or doing business with our clients or customers. See Risk Factors We are controlled by two groups of principal stockholders whose interest in our business may be different than yours in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009 incorporated by reference in this prospectus.

### **Special Meetings of Stockholders**

Our Amended and Restated Certificate of Incorporation provides that special meetings of stockholders may be called only by the chairman or by a majority of the members of our board. Stockholders are not permitted to call a special meeting of stockholders, to require that the chairman call such a special meeting, or to require that our board request the calling of a special meeting of stockholders.

### **Stockholder Action; Advance Notice Requirements for Stockholder Proposals and Director Nominations**

Our Amended and Restated Certificate of Incorporation provides that stockholders may not take action by written consent, but may only take action at duly called annual or special meetings, unless the action to be effected by written consent and the taking of such action by written consent have expressly been approved in advance by the board. In addition, our Amended and Restated By-laws establish advance notice procedures for:

stockholders to nominate candidates for election as a director; and

stockholders to propose topics for consideration at stockholders' meetings.

Stockholders must notify our corporate secretary in writing prior to the meeting at which the matters are to be acted upon or directors are to be elected. The notice must contain the information specified in our by-laws. To be timely, the notice must be received at our corporate headquarters not less than 90 days nor more than 120 days prior to the first anniversary of the date of the prior year's annual meeting of stockholders. If the annual meeting is advanced by more than 30 days, or delayed by more than 70 days, from the anniversary of the preceding year's annual meeting, or if no annual meeting was held in the preceding year or for the first annual meeting following this offering, notice by the

stockholder, to be timely, must be received not earlier than the 120th day prior to the

## **Table of Contents**

annual meeting and not later than the later of the 90th day prior to the annual meeting or the 10th day following the day on which we notify stockholders of the date of the annual meeting, either by mail or other public disclosure. In the case of a special meeting of stockholders called to elect directors, the stockholder notice must be received not earlier than 120 days prior to the special meeting and not later than the later of the 90th day prior to the special meeting or 10th day following the day on which we notify stockholders of the date of the special meeting, either by mail or other public disclosure. Notwithstanding the above, in the event that the number of directors to be elected to the board at an annual meeting is increased and we do not make any public announcement naming the nominees for the additional directorships at least 100 days before the first anniversary of the preceding year's annual meeting, a stockholder notice of nomination shall also be considered timely, but only with respect to nominees for the additional directorships, if it is delivered not later than the close of business on the 10th day following the day on which such public announcement is first made. These provisions may preclude some stockholders from bringing matters before the stockholders at an annual or special meeting or from nominating candidates for director at an annual or special meeting.

### **Election and Removal of Directors**

Our board is divided into three classes. The directors in each class serve for a three-year term, one class being elected each year by our stockholders. Our stockholders may only remove directors for cause and with the vote of at least 66 <sup>2</sup>/<sub>3</sub>% of the total voting power of our issued and outstanding capital stock entitled to vote in the election of directors. Our board of directors may elect a director to fill a vacancy, including vacancies created by the expansion of the board of directors. This system of electing and removing directors may discourage a third party from making a tender offer or otherwise attempting to obtain control of us, because it generally makes it more difficult for stockholders to replace a majority of our directors.

Our Amended and Restated Certificate of Incorporation and Amended and Restated By-laws do not provide for cumulative voting in the election of directors.

### **Amendment of the Certificate of Incorporation and By-Laws**

Our Amended and Restated Certificate of Incorporation provides that the affirmative vote of the holders of at least 66 <sup>2</sup>/<sub>3</sub>% of the voting power of our issued and outstanding capital stock entitled to vote in the election of directors, is required to amend the following provisions of our Amended and Restated Certificate of Incorporation:

the provisions relating to our classified board of directors;

the provisions relating to the number and election of directors, the appointment of directors upon an increase in the number of directors or vacancy, and the provisions relating to the removal of directors;

the provisions requiring a 66 <sup>2</sup>/<sub>3</sub>% stockholder vote for the amendment of certain provisions of our articles of incorporation and for the adoption, amendment or repeal of our by-laws;

the provisions relating to the restrictions on stockholder actions by written consent; and

the provisions relating to the calling of meetings of stockholders.

In addition, the board of directors is permitted to alter our by-laws without obtaining stockholder approval and the affirmative vote of holders of at least 66 <sup>2</sup>/<sub>3</sub>% of the voting power of our issued and outstanding capital stock entitled to vote in the election of directors will be required for any amendment to our by-laws by the stockholders.

**Anti-Takeover Provisions of Delaware Law**

We are subject to the provisions of Section 203 of the Delaware General Corporation Law. In general, Section 203 prevents an interested stockholder (defined generally as a person owning 15% or more of the corporation's outstanding voting stock) of a Delaware corporation from engaging in a business combination (as defined) for three years following the date that person became an interested stockholder unless various conditions are satisfied.

**PLAN OF DISTRIBUTION**

We or the selling stockholders may offer and sell the securities in any one or more of the following ways:

to or through underwriters, brokers or dealers;

directly to one or more other purchasers;

through a block trade in which the broker or dealer engaged to handle the block trade will attempt to sell the securities as agent, but may position and resell a portion of the block as principal to facilitate the transaction;

through agents on a best-efforts basis; or

otherwise through a combination of any of the above methods of sale.

In addition, we or the selling stockholders may enter into option, share lending or other types of transactions that require us or such selling stockholders, as applicable, to deliver shares of common stock to an underwriter, broker or dealer, who will then resell or transfer the shares of common stock under this prospectus. We or the selling stockholders may also enter into hedging transactions with respect to our securities or the securities of such selling stockholders, as applicable. For example, we or the selling stockholders may:

enter into transactions involving short sales of the shares of common stock by underwriters, brokers or dealers;

sell shares of common stock short and deliver the shares to close out short positions;

enter into option or other types of transactions that require us or the selling stockholders, as applicable, to deliver shares of common stock to an underwriter, broker or dealer, who will then resell or transfer the shares of common stock under this prospectus; or

loan or pledge the shares of common stock to an underwriter, broker or dealer, who may sell the loaned shares or, in the event of default, sell the pledged shares.

Any selling stockholder will act independently of us in making decisions with respect to the timing, manner and size of each sale of shares of common stock covered by this prospectus.

We or the selling stockholders may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or such selling stockholders, as applicable, or borrowed from us, such selling stockholders or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us or selling stockholders in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment). In addition, we or the selling stockholders may otherwise loan or pledge securities to a financial institution or other third party that in turn may sell the securities short using this prospectus. Such financial institution or other third party may transfer its economic short position to investors in our securities or the securities of such selling stockholders, as applicable, or in connection with a concurrent offering of other securities.

Each time we or the selling stockholders sell securities, we will provide a prospectus supplement that will name any underwriter, dealer or agent involved in the offer and sale of the securities. The prospectus supplement will also set forth the terms of the offering, including:

the purchase price of the securities and the proceeds we and/or such selling stockholders, as applicable, will receive from the sale of the securities;

If indicated in the applicable prospectus supplement, underwriters, dealers or agents will be authorized to solicit offers by certain institutional investors to purchase securities from us pursuant to contracts providing for payment and delivery at a future date. Institutional investors with which these contracts may be made include, among others:

commercial and savings banks;

Underwriters, dealers, agents and other persons may be entitled under agreements which may be entered into with us and/or the selling stockholders to indemnification against and contribution toward certain civil liabilities, including liabilities under the Securities Act, and to be reimbursed by us and/or such selling stockholders for certain expenses.

Any securities initially sold outside the United States may be resold in the United States through underwriters, dealers or otherwise.

Any underwriters to which offered securities are sold by us or the selling stockholders for public offering and sale may make a market in such securities, but those underwriters will not be obligated to do so and may discontinue any market making at any time.

The anticipated date of delivery of the securities offered by this prospectus will be described in the applicable prospectus supplement relating to the offering.

The maximum compensation we will pay to underwriters in connection with any offering of the securities will not exceed 8% of the maximum proceeds of such offering.

To comply with the securities laws of some states, if applicable, the securities may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the securities may not be sold unless they have been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.
