Item 2.05. Costs Associated with Exit or Disposal Activities.

On September 6, 2018, our Board of Directors approved the following:

the extension of our current restructuring program through 2022;

an increase by \$1.3 billion in one-time costs for the program to a total of \$5.4 billion, such that total one-time costs include \$4.1 billion of cash costs and \$1.3 billion of non-cash costs; and

an increase by \$700 million in capital expenditures to a total of \$2.3 billion.

The additional \$700 million of capital expenditures to support the program is already included within our previously announced expectations for future capital expenditures. The current restructuring program, as increased and extended by these actions, will now be called the Simplify to Grow Program.

The program, which was initially approved on May 6, 2014, is intended to help us reduce our operating cost structure in both our supply chain and overhead costs and covers severance as well as asset disposals and other manufacturing and procurement-related one-time costs. The program has driven significant operating scale and cost reductions to date. The Simplify to Grow Program is part of our plan to drive continued transformational changes that increase operating effectiveness and position the company for future growth. We intend to partially reinvest the savings from the program to drive both net revenue and earnings growth. We expect to complete the program by year-end 2022.
