Notes to Unaudited Consolidated Condensed Financial Statements

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

Organization

Marathon Patent Group, Inc.'s (the "Company") business is to acquire patents and patent rights and to monetize the value of those assets to generate revenue and profit for the Company. We acquire patents and patent rights from their owners, who range from individual inventors to Fortune 500 companies. Part of our acquisition strategy is to acquire or invest in patents and patent rights that cover a wide-range of subject matter, which allows us to achieve the benefits of a growing diversified portfolio of assets. Generally, the patents and patent rights that we acquire are characterized by having large identifiable companies who are or have been using technology that infringes our patents and patent rights. We generally monetize our portfolio of patents and patent rights by entering into license discussions, and if that is unsuccessful, initiating enforcement activities against any infringing parties with the objective of entering into a standard form of comprehensive settlement and license agreement that may include the granting of non-exclusive retroactive and future rights to use the patented technology, a covenant not to sue, a release of the party from certain claims, the dismissal of any pending litigation and other terms that are appropriate in the circumstances. Our strategy has been developed with the expectation that it will result in a long-term, diversified revenue stream for the Company.

The Company was incorporated in the State of Nevada on February 23, 2010 under the name Verve Ventures, Inc. On December 7, 2011, we changed our name to American Strategic Minerals Corporation and were engaged in the business of exploration and potential development of uranium and vanadium minerals business. In June 2012, we discontinued our minerals business and began to invest in real estate properties in Southern California. In October 2012, we discontinued our real estate business when our CEO joined the firm and we commenced our current business, at which time the Company's name was changed to Marathon Patent Group, Inc.

On October 1, 2012, the shareholders holding a majority of the Company's voting capital had voted and authorized the Company to change the name of the Company to Marathon Patent Group, Inc. (the "Name Change"). The Board of Directors approved the Name Change on October 1, 2012. The Board of Directors determined the name "Marathon Patent Group, Inc." better reflected the long-term strategy in exploring other opportunities and the identity of the Company going forward. On February 15, 2013, the Company filed the Certificate of Amendment with the Secretary of State of the State of Nevada in order to effectuate the Name Change.

On July 18, 2017, shareholders of record holding a majority of the outstanding voting capital of the Company approved a reverse stock split of the Company's issued and outstanding common stock by a ratio of not less than one-for-four and not more than one-for-twenty-five, with such ratio to be determined by the Board of Directors, in its

sole discretion. On October 25, 2017, the reverse stock split ratio of one (1) for four (4) basis was approved by the Board of Directors. On October 30, 2017, the Company filed a certificate of amendment to its Amended and Restated Articles of Incorporation with the Secretary of State of the State of Nevada in order to effectuate a reverse stock split of the Company's issued and outstanding common stock, par value \$0.0001 per share on a one (1) for four (4) basis.

On September 6, 2017, the Board of Directors approved and adopted, subject to shareholder approval on or prior to September 6, 2018, the Company's 2017 Equity Incentive Plan. The Company's 2017 Equity Incentive Plan was approved by the shareholders of the Company at a special meeting held on September 29, 2017.

All share and per share values for all periods presented in the accompanying consolidated financial statements have been retroactively adjusted to reflect the Reverse Split.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation

The accompanying consolidated condensed financial statements have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted pursuant to such rules and regulations. These consolidated condensed financial statements reflect all adjustments (consisting only of normal recurring adjustments) which, in the opinion of management, are necessary to present fairly the financial position, the results of operations and cash flows of the Company for the periods presented. It is suggested that these consolidated condensed financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's most recent Annual Report on Form 10-K. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year.

Table of Contents

Use of Estimates and Assumptions

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates made by management include, but are not limited to, estimating the useful lives of patent assets, the assumptions used to calculate fair value of warrants and options granted, goodwill impairment, realization of long-lived assets, deferred income taxes, unrealized tax positions and business combination accounting.

Cash

The Company considers all highly liquid debt instruments and other short-term investments with maturity of three months or less, when purchased, to be cash equivalents. The Company maintains cash and cash equivalent balances at one financial institution that is insured by the Federal Deposit Insurance Corporation and restricted cash, held in escrow pursuant to the terms of the Unit Purchase Agreement entered into on August 14, 2017, with another financial institution that is also insured by the Federal Deposit Insurance Corporation. The Company's accounts held at this institution, up to a limit of \$250,000, are insured by the Federal Deposit Insurance Corporation ("FDIC"). As of September 30, 2017, the Company had bank balances exceeding the FDIC insurance limit. To reduce its risk associated with the failure of such financial institution, the Company evaluates at least annually the rating of the financial institution in which it holds deposits.

Accounts Receivable

The Company has a policy of reserving for questionable accounts based on its best estimate of the amount of probable credit losses in its existing accounts receivable. The Company periodically reviews its accounts receivable to determine whether an allowance is necessary based on an analysis of past due accounts and other factors that may indicate that the realization of an account may be in doubt. Account balances deemed to be uncollectible are charged to the bad debt expense after all means of collection have been exhausted and the potential for recovery is considered remote. At each of September 30, 2017 and December 31, 2016, the Company had recorded an allowance for bad debts in the amount of \$387,976 and \$387,976, respectively. Accounts receivable, net at September 30, 2017 and December 31, 2016, amounted to \$123,630 and \$95,069, respectively.

Concentration of Revenue and Geographic Area

Revenue from the Company's patent enforcement activities is considered United States revenue as any payments for licenses included in that revenue are for United States operations irrespective of the location of the licensee's or licensee's parent home domicile.

The Company had \$0 in revenues from newly issued patent licenses for both the three months ended September 30, 2017 and the three months ended September 30, 2016. The revenue for the three months ended September 30, 2017 is attributable to a non-enforcement technology access license for one of the Company's subsidiaries and running royalties from the Company's Medtech portfolio and for the three months ended September 30, 2016, the revenue is attributable to running royalties from the Company's Medtech portfolio.

At the current time, we define customers as firms that obtain licenses to the Company's patents, either prior to or during enforcement litigation. These firms generally enter into non-recurring, non-exclusive, non-assignable license agreements with the Company, and these customers do not generally engage in ongoing, recurring business activity with the Company. The Company has historically had a small number of customers enter into such agreements, resulting in higher levels of revenue concentration.

Table of Contents

Revenue Recognition

The Company recognizes revenue in accordance with Accounting Standards Codification (“ASC”) Topic 605, “Revenue Recognition”. Revenue is recognized when (i) persuasive evidence of an arrangement exists, (ii) all obligations have been substantially performed, (iii) amounts are fixed or determinable and (iv) collectability of amounts is reasonably assured. In general, revenue arrangements provide for the payment of contractually determined fees in consideration for the grant of certain intellectual property rights for patented technologies owned or controlled by the Company.

These rights typically include some combination of the following: (i) the grant of a non-exclusive, perpetual license to use patented technologies owned or controlled by the Company, (ii) a covenant-not-to-sue, (iii) the dismissal of any pending litigation.

The intellectual property rights granted typically are perpetual in nature. Pursuant to the terms of these agreements, the Company has no further obligation with respect to the grant of the non-exclusive licenses, covenants-not-to-sue, releases, and other deliverables, including no express or implied obligation on the Company’s part to maintain or upgrade the technology, or provide future support or services. Generally, the agreements provide for the grant of the licenses, covenants-not-to-sue, releases, and other significant deliverables upon execution of the agreement. As such, the earnings process is complete and revenue is recognized upon the execution of the agreement, when collectability is reasonably assured, and when all other revenue recognition criteria have been met.

The Company also considers the revenue generated from its settlement and licensing agreements as one unit of accounting under ASC 605-25, “Multiple-Element Arrangements” as the delivered items do not have value to customers on a standalone basis, there are no undelivered elements and there is no general right of return relative to the license. Under ASC 605-25, the appropriate recognition of revenue is determined for the combined deliverables as a single unit of accounting and revenue is recognized upon delivery of the final elements, including the license for past and future use and the release.

Also, since the settlement element and license element for past and future use are the Company’s major central business, the Company presents these two elements as one revenue category in its statement of operations. The Company does not expect to provide licenses that do not provide some form of settlement or release. There was no revenue from newly issued patent licenses for the three months ended September 30, 2017 and September 30, 2016, respectively.

Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets of \$108,878 and \$202,067 at September 30, 2017 and December 31, 2016, respectively, consist primarily of costs paid for future services, which will occur within a year. Prepaid expenses include prepayments in cash and equity instruments for public relation services, business advisory, consulting, and prepaid insurance, which are being amortized over the terms of their respective agreements.

Bonds Posted with Courts

Under certain circumstances related to litigations in Germany, the Company is either required to or may decide to enter a bond with the courts. As of September 30, 2017 and December 31, 2016, the Company had no outstanding bonds posted with the German courts.

Related Party Transactions

Parties are considered related to the Company if the parties, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. The Company discloses all related party transactions.

On May 13, 2013, we entered into a nine-year advisory services agreement (the “Advisory Services Agreement”) with IP Navigation Group, LLC (“IP Nav”), of which Erich Spangenberg is founder and former Chief Executive Officer. Mr. Spangenberg is an affiliate of the Company. The terms of the Advisory Services Agreement provide that, in consideration for its services as intellectual property licensing agent, the Company will pay to IP Navigation Group, LLC between 10% and 20% of the gross proceeds of certain licensing campaigns in which IP Navigation Group, LLC acts as intellectual property licensing agent.

Table of Contents

On November 18, 2013, we entered into a consulting agreement with Jeff Feinberg (“Feinberg Agreement”), pursuant to which we agreed to grant Mr. Feinberg 25,000 shares of our restricted Common Stock, 50% of which shall vest on the one-year anniversary of the Feinberg Agreement and the remaining 50% of which shall vest on the second-year anniversary of the Feinberg Agreement. Mr. Feinberg is the trustee of The Feinberg Family Trust and holds voting and dispositive power over shares held by The Feinberg Family Trust, which is a 10% beneficial owner of our Common Stock.

On May 2, 2014, the Company completed the acquisition of certain ownership rights (the “Acquired Intellectual Property”) from TechDev, Granicus and SFF pursuant to the terms of three purchase agreements between: (i) the Company, TechDev, SFF and DA Acquisition LLC, a newly formed Texas limited liability company and wholly-owned subsidiary of the Company; (ii) the Company, Granicus, SFF and IP Liquidity Ventures Acquisition LLC, a newly formed Delaware limited liability company and wholly-owned subsidiary of the Company; and (iii) the Company, TechDev, SFF and Sarif Biomedical Acquisition LLC, a newly formed Delaware limited liability company and wholly-owned subsidiary of the Company. TechDev, SFF and Granicus are owned or controlled by Erich Spangenberg or family members or associates.

Pursuant to the DA Agreement, the Company acquired 100% of the limited liability company membership interests of Dynamic Advances, LLC, a Texas limited liability company, in consideration for: (i) two cash payments of \$2,375,000, one payment due at closing and the other payment was due on or before June 30, 2014, with such second payment being subject to increase to \$2,850,000 if not made on or before June 30, 2014; and (ii) 97,750 shares of the Company’s Series B Convertible Preferred Stock. The remaining cash payment was made on April 1, 2015 and is fully paid. Under the terms of the DA Agreement, TechDev and SFF are entitled to possible future payments for a maximum consideration of \$250,000,000 pursuant to the Pay Proceeds Agreement described below.

Pursuant to the IP Liquidity Agreement, the Company acquired 100% of the limited liability company membership interests of IP Liquidity Ventures, LLC, a Delaware limited liability company, in consideration for: (i) two cash payments of \$2,375,000, one payment due at closing and the other payment was due on or before June 30, 2014, with such second payment being subject to increase to \$2,850,000 if not made on or before June 30, 2014; and (ii) 97,750 shares of the Company’s Series B Convertible Preferred Stock. The remaining cash payment was made on April 1, 2015 and is fully paid. Under the terms of the IP Liquidity Agreement, Granicus and SFF are entitled to possible future payments for a maximum consideration of \$250,000,000 pursuant to the Pay Proceeds Agreement described below.

Pursuant to the Sarif Agreement, the Company acquired 100% of the limited liability company membership interests of Sarif Biomedical, LLC, a Delaware limited liability company, in consideration for two cash payments of \$250,000, one payment due at closing and the other payment was due on or before June 30, 2014, with such second payment being subject to increase to \$300,000 if not made on or before June 30, 2014. The remaining cash payment was made on February 24, 2015 and is fully paid. Under the terms of the Sarif Agreement, TechDev and SFF are entitled to possible future payments for a maximum consideration of \$250,000,000 pursuant to the Pay Proceeds Agreement described below.

Pursuant to the Pay Proceeds Agreement, the Company may pay the sellers a percentage of the net recoveries (gross revenues minus certain defined expenses) that the Company makes with respect to the assets held by the entities that the Company acquired pursuant to the DA Agreement, the IP Liquidity Agreement and the Sarif Agreement. Under

the terms of the Pay Proceeds Agreement, as amended in 2016, if the Company recovers \$10,000,000 or less with regard to the IP Assets, then nothing is due to the sellers; if the Company recovers between \$13,000,000 and \$40,000,000 with regard to the IP Assets, then the Company shall pay 40% of the cumulative gross proceeds of such recoveries to the sellers; and if the Company recovers over \$40,000,000 with regard to the IP Assets, the Company shall pay 50% of the cumulative gross proceeds of such recoveries to the sellers. Pursuant to the amendment to the Pay Proceeds Agreement, the Company paid TechDev, Granicus and SFF \$2.4 million. In no event will the total payments made by the Company under the Pay Proceeds Agreement exceed \$250,000,000.

Table of Contents

On May 2, 2014, we entered into an opportunity agreement (the “Marathon Opportunity Agreement”) with Erich Spangenberg, who is an affiliate of the Company. The terms of the Marathon Opportunity Agreement provide that we have ten business days after receiving notice from Mr. Spangenberg to provide up to 50% of the funding for certain opportunities relating to the licensing, intellectual property acquisitions and/or intellectual property enforcement actions in which Mr. Spangenberg, IP Nav or any entity controlled by Mr. Spangenberg, other than: (i) IP Nav or any of its affiliates, and (ii) Medtech Development, LLC or any of its affiliates.

On June 17, 2014, Selene Communication Technologies Acquisition LLC (“Acquisition LLC”), a Delaware limited liability company and newly formed wholly-owned subsidiary of the Company, entered into a merger agreement with Selene Communication Technologies, LLC (“Selene”). Selene owned a patent portfolio consisting of three United States patents in the field of search and network intrusion that relate to tools for intelligent searches applied to data management systems as well as global information networks such as the internet. IP Nav provided patent monetization and support services under an existing agreement with Selene prior to the return of the patents to Stanford Research Institute (“SRI”), the original owners of the patents.

On August 29, 2014, the Company entered into a patent purchase agreement to acquire a portfolio of patents from Clouding IP, LLC for an aggregate purchase price of \$2.4 million, of which \$1.4 million was paid in cash and \$1.0 million was paid in the form of a promissory note issued by the Company that matured on October 31, 2014 and was fully paid prior to the maturation date. The Company also issued 6,250 shares of its restricted common stock in connection with the acquisition. Clouding IP, LLC is also entitled to certain possible future cash payments. Clouding IP LLC is owned or controlled by Erich Spangenberg or family members or associates.

On October 10, 2014, the Company entered into an interest sale agreement with MedTech Development, LLC (“MedTech”) to acquire from MedTech 100% of the limited liability membership interests of OrthoPhoenix and TLIF as well as 100% of the shares of MedTech GmbH. In connection with the transaction, the Company is obligated to pay to MedTech \$1 million at closing and \$1 million on each of the following nine (9) month anniversary dates of the closing. On July 16, 2015, the Company entered into a forbearance agreement (the “Agreement”) with MedTech Development, the holder of a Promissory Note issued by the Company, dated October 10, 2014. Pursuant to the Agreement, the term of the Note was extended to October 1, 2015 and the Note began accruing interest starting from May 13, 2015. In addition, the Company agreed to make certain mandatory prepayments under certain circumstances and issue to MedTech Development 500,000 shares of restricted common stock of the Company. In accordance with ASC 470-50, the Company recorded this agreement as debt extinguishment and \$654,000 was recorded as loss on debt extinguishment during the year ended September 30, 2015. On October 23, 2015, the Company entered into Amendment No. 1 to the Forbearance Agreement (the “Amendment”) entered into with MedTech Development on July 16, 2015. Pursuant to the Amendment, the due date of the Promissory Note was extended to October 23, 2016 in return for which the Company made a payment of \$100,000 on October 23, 2015 and modified the terms under which the Company agreed to make mandatory prepayments under certain circumstances. The acquired subsidiaries are also obligated to make certain additional payments to MedTech from recoveries following the receipt by the acquired subsidiaries of 200% of the purchase payments, plus recovery of out of pocket expenses in connection with patent claims. The participation payments may be paid, at the election of the Company, in common stock of Marathon at the market price on the date of issuance. In connection with the transaction, the Company entered into a promissory note, common interest agreement and in the event of issuance of common stock to MedTech, will enter into a lockup and

registration rights agreement. Approximately forty-five percent (45%) of MedTech is owned or controlled by Erich Spangenberg or family members or associates.

On October 1, 2016, one of the Company's subsidiaries, PG Technologies S.a.r.l. entered into an advisory services agreement with Granicus IP, LLC, an entity owned or controlled by one of the Company's employees, whereby Granicus receives a percentage of pre-tax return from PG Technologies after certain revenue thresholds have been met.

During 2016, certain officers and directors of the Company received restricted common stock in the Company's 3D Nanocolor Corp. ("3D Nano") subsidiary.

At December 31, 2016, "Other noncurrent assets" in the Balance Sheets consists of a note receivable from an entity controlled by one of the Company's employees that is uncollateralized. The note receivable does not carry interest and is repayable to the Company at the earlier of March 31, 2022 or based on certain milestones. The note receivable balance has been classified as current assets because the Company believes that it will be collected within one year from the Balance Sheet dates.

Table of Contents

On September 29, 2017, the Company entered into an Irrevocable Stock Power whereby the Company sold the shares it owns in the Company's subsidiary, 3D Nano to Doug Croxall, the Company's Chief Executive Officer with such assignment including the assumption of all of 3D Nano's liabilities. The Company engaged a third party to value the assignment, the results of which were that the valuation and assignment were deemed to be at fair value.

Fair Value of Financial Instruments

The Company measures at fair value certain of its financial and non-financial assets and liabilities by using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, essentially an exit price, based on the highest and best use of the asset or liability. The levels of the fair value hierarchy are:

- Level 1: Observable inputs such as quoted market prices in active markets for identical assets or liabilities
- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3: Unobservable inputs for which there is little or no market data, which require the use of the reporting entity's own assumptions.

The carrying amounts reported in the consolidated condensed balance sheet for cash, accounts receivable, bonds posted with courts, accounts payable, and accrued expenses, approximate their estimated fair market value based on the short-term maturity of these instruments. The carrying value of notes payable and other long-term liabilities approximates fair value as the related interest rates approximate rates currently available to the Company.

Clouding IP earn out liability was determined as a Level 3 liability, which requires an assessment of fair value at each period end by using discounted cash flow as a valuation technique using unobservable inputs, such as revenue and expenses forecasts, timing of proceeds, and discount rate. Based on reassessment of fair value as of September 30, 2017, the Company determined that there was a reduction in the Clouding IP earn out liability during the three and nine months ended September 30, 2017 in the amounts of \$754,321 and \$754,321, respectively and a reduction in the carrying value of the Clouding IP intangible assets during the three and nine months ended September 30, 2017 in the amounts of \$723,218 and \$723,218, respectively.

The Company determined that the Warrants issued pursuant to the Unit Purchase Agreement should be treated as a Level 2 liability, which determine the value based on observable market-based inputs. In this instance, the Warrants were valued using a Monte-Carlo simulation utilizing market-based inputs for volatility and risk-free rate of interest, which resulted in the Warrants issued pursuant to the August 31, 2017 close being fair valued at \$0.0364 per share and

the Warrants issued pursuant to the September 29, 2017 close being fair valued at \$0.0877 per share.

Accounting for Acquisitions

In the normal course of its business, the Company makes acquisitions of patent assets and may also make acquisitions of businesses. With respect to each such transaction, the Company evaluates facts of the transaction and follows the guidelines prescribed in accordance with ASC 805 — Business Combinations to determine the proper accounting treatment for each such transaction and then records the transaction in accordance with the conclusions reached in such analysis. The Company performs such analysis with respect to each material acquisition within the consolidated group of entities.

Income Taxes

The Company accounts for income taxes pursuant to the provision of ASC 740-10, “Accounting for Income Taxes” which requires, among other things, an asset and liability approach to calculating deferred income taxes. The asset and liability approach requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. A valuation allowance is provided to offset any net deferred tax assets for which management believes it is more likely than not that the net deferred asset will not be realized.

The Company follows the provision of the ASC 740-10 related to Accounting for Uncertain Income Tax Position. When tax returns are filed, it is more likely than not that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. In accordance with the guidance of ASC 740-10, the benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is most likely that not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions.

Table of Contents

Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50% likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above should be reflected as a liability for uncertain tax benefits in the accompanying balance sheet along with any associated interest and penalties that would be payable to the taxing authorities upon examination. The Company believes its tax positions will more likely than not be upheld upon examination. As such, the Company has not recorded a liability for uncertain tax benefits.

The federal and state income tax returns of the Company are subject to examination by the Internal Revenue Service and state taxing authorities, generally for three years after they were filed. The Company is in the process of filing the 2016 tax returns. After review of the prior year financial statements and the results of operations through December 31, 2016, the Company has recorded a full valuation allowance on its deferred tax asset.

Basic and Diluted Net Loss per Share

Net loss per common share is calculated in accordance with ASC Topic 260: Earnings Per Share (“ASC 260”). Basic loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. The computation of diluted net loss per share does not include dilutive common stock equivalents in the weighted average shares outstanding, as they would be anti-dilutive. The Company has options to purchase 613,195 shares of Common Stock, warrants to purchase 7,487,894 shares of Common Stock, Convertible Notes convertible into up to 13,750,000 shares of Common Stock and shares of Series B Convertible Preferred Stock convertible into 195,501 shares of Common Stock outstanding at September 30, 2017, which were excluded from the computation of diluted shares outstanding, as they would have had an anti-dilutive impact on the Company’s net loss.

The following table sets forth the computation of basic and diluted loss per share:

	For the Three Months Ended	For the Three Months Ended	For the Nine Months Ended	For the Nine Months Ended
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Net income (loss) attributable to Common shareholders	\$(6,677,485)	\$(6,274,410)	\$(12,484,924)	\$(2,261,542)
Denominator				
Weighted average common shares – Basic and Diluted	6,270,299	3,761,786	5,564,465	3,736,213

Earnings (loss) per common share:				
Earnings (loss) – Basic and Diluted	\$(1.06) \$(1.67) \$(2.24) \$(0.60

Intangible Assets - Patents

Intangible assets include patents purchased and patents acquired in lieu of cash in licensing transactions. The patents purchased are recorded based on the cost to acquire them and patents acquired in lieu of cash are recorded at their fair market value. The costs of these assets are amortized over their remaining useful lives. Useful lives of intangible assets are periodically evaluated for reasonableness and the assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may no longer be recoverable. The Company recorded impairment charges to its intangible assets during the three and nine months ended September 30, 2017 in the amount of \$723,218 and \$723,218, respectively, compared to impairment charges associated with the end of life of a number of the Company’s portfolios during the three and nine months ended September 30, 2016 in the amounts of \$5,531,383 and \$6,525,273, respectively.

Table of Contents

Goodwill

Goodwill is tested for impairment at the reporting unit level at least annually in accordance with ASC 350, and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value.

When conducting its annual goodwill impairment assessment, the Company initially performs a qualitative evaluation of whether it is more likely than not that goodwill is impaired. If it is determined by a qualitative evaluation that it is more likely than not that goodwill is impaired, the Company then applies a two-step impairment test. The two-step impairment test first compares the fair value of the Company's reporting unit to its carrying or book value. If the fair value of the reporting unit exceeds its carrying value, goodwill is not impaired. If the carrying value of the reporting unit exceeds its fair value, the Company determines the implied fair value of the reporting unit's goodwill and if the carrying value of the reporting unit's goodwill exceeds its implied fair value, then an impairment loss equal to the difference is recorded in the consolidated condensed statement of operations. The Company performs the annual testing for impairment of goodwill at the reporting unit level during the quarter ended September 30.

For the three and nine months ended September 30, 2017 the Company recorded no impairment charge to its goodwill and for the three and nine months ended September 30, 2016, the Company recorded an impairment charge to its goodwill in the amount of \$0 and \$83,000, respectively.

Other Intangible Assets

In accordance with ASC 350-30, "Intangibles - Goodwill and Others", the Company assesses the impairment of identifiable intangibles whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors the Company considers to be important which could trigger an impairment review include the following: (1) significant underperformance relative to expected historical or projected future operating results; (2) significant changes in the manner of use of the acquired assets or the strategy for the overall business; and (3) significant negative industry or economic trends.

When the Company determines that the carrying value of intangibles may not be recoverable based upon the existence of one or more of the above indicators of impairment and the carrying value of the asset cannot be recovered from projected undiscounted cash flows, the Company records an impairment charge. The Company measures any impairment based on a projected discounted cash flow method using a discount rate determined by management to be commensurate with the risk inherent in the current business model.

For the three and nine months ended September 30, 2017 and September 30, 2016, the Company recorded no impairment charge to its other intangible assets.

Impairment of Long-lived Assets

The Company accounts for the impairment or disposal of long-lived assets according to the ASC 360 “Property, Plant and Equipment”. The Company continually monitors events and changes in circumstances that could indicate that the carrying amounts of long-lived assets may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated future net undiscounted cash flows expected to be generated by the asset. When necessary, impaired assets are written down to estimated fair value based on the best information available. Estimated fair value is generally based on either appraised value or measured by discounting estimated future cash flows. Considerable management judgment is necessary to estimate discounted future cash flows. Accordingly, actual results could vary significantly from such estimates. The Company recognizes an impairment loss when the sum of expected undiscounted future cash flows is less than the carrying amount of the asset.

The Company did not record any impairment charges on its long-lived assets during the three and nine months ended September 30, 2017 and September 30, 2016.

Stock-based Compensation

Stock-based compensation is accounted for based on the requirements of the Share-Based Payment Topic of ASC 718 which requires recognition in the consolidated financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively, the vesting period). The ASC also requires measurement of the cost of employee and director services received in exchange for an award based on the grant-date fair value of the award. As stock-based compensation expense is recognized based on awards expected to vest, forfeitures are also estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

Table of Contents

For the three and nine months ended September 30, 2017, the expected forfeiture rate was 12.75%, which resulted in an expense of \$60,115 and \$108,748, for the three and nine months ended September 30, 2017, respectively, recognized in the Company's compensation expenses. For the three and nine months ended September 30, 2016, the expected forfeiture rate was 11.03%, which resulted in an expense of \$9,570 and \$36,832 for the three and nine months ended September 30, 2016, respectively, recognized in the Company's compensation expenses. The Company will continue to re-assess the impact of forfeitures if actual forfeitures increase in future quarters.

Pursuant to ASC Topic 505-50, for share-based payments to consultants and other third parties, compensation expense is determined at the "measurement date." The expense is recognized over the vesting period of the award. Until the measurement date is reached, the total amount of compensation expense remains uncertain. The Company initially records compensation expense based on the fair value of the award at the reporting date.

Liquidity and Capital Resources

At September 30, 2017, we had approximately \$0.1 million in unrestricted cash and cash equivalents, \$3.9 million in restricted cash and an unrestricted working capital deficit of approximately \$20.3 million.

Based on the Company's current revenue and profit projections, management is uncertain that the Company's existing cash and accounts receivables will be sufficient to fund its operations through at least the next twelve months from the issuance date of the financial statements, raising substantial doubt regarding the Company's ability to continue operating as a going concern. If we do not meet our revenue and profit projections or the business climate turns negative, then we will need to:

- raise additional funds to support the Company's operations; provided, however, there is no assurance that the Company will be able to raise such additional funds on acceptable terms, if at all. If the Company raises additional funds by issuing securities, existing stockholders may be diluted; and

- review strategic alternatives.

If adequate funds are not available, we may be required to curtail our operations or other business activities or obtain funds through arrangements with strategic partners or others that may require us to relinquish rights to certain technologies or potential markets. The accompanying consolidated condensed financial statements have been prepared assuming the Company will continue to operate as a going concern, which contemplates the realization of assets and settlements of liabilities in the normal course of business, and do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from uncertainty related to the Company's ability to continue as a going concern

Recent Accounting Pronouncements

In July 2017, the FASB issued ASU 2017-11, “Earnings Per Share (Topic 260) Distinguishing Liabilities from Equity (Topic 480) Derivatives and Hedging (Topic 815),” which addresses the complexity of accounting for certain financial instruments with down round features. Down round features are features of certain equity-linked instruments (or embedded features) that result in the strike price being reduced on the basis of the pricing of future equity offerings. Current accounting guidance creates cost and complexity for entities that issue financial instruments (such as warrants and convertible instruments) with down round features that require fair value measurement of the entire instrument or conversion option. For public business entities, the amendments in Part I of this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018 with early adoption permitted.

In May 2017, the FASB issued ASU No. 2017-09, *Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting*. This ASU provides clarity about which changes to the terms or conditions of a share-based payment award require the application of modification accounting. Specifically, ASU 2017-09 clarifies that changes to the terms or conditions of an award should be accounted for as a modification unless all of the following are met: 1) the fair value of the modified award is the same as the fair value of the original award immediately before the original award is modified, 2) the vesting conditions of the modified award are the same as the vesting conditions of the original award immediately before the original award is modified and 3) the classification of the modified award as an equity instrument or a liability instrument is the same as the classification of the original award immediately before the original award is modified. ASU 2017-09 is effective for annual reporting periods beginning after December 15, 2017 and early adoption is permitted. The Company does not expect the adoption of ASU 2017-09 to significantly impact its accounting for share-based payment awards, as changes to awards’ terms and conditions subsequent to the grant date are unusual and infrequent in nature.

Table of Contents

In January 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2017-04 *Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment* (“ASU 2017-04”). This guidance removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. Under the amended guidance, a goodwill impairment charge will now be recognized for the amount by which the carrying value of a reporting unit exceeds its fair value, not to exceed the carrying amount of goodwill. This guidance is effective for interim and annual period beginning after December 15, 2019, with early adoption permitted for any impairment tests performed after January 1, 2017.

In January 2017, the FASB issued ASU 2017-01 *Business Combinations (Topic 805): Clarifying the Definition of a Business* (“ASU 2017-01”), which clarifies the definition of a business and assists entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. Under this guidance, when substantially all of the fair value of gross assets acquired is concentrated in a single asset (or group of similar assets), the assets acquired would not represent a business. In addition, in order to be considered a business, an acquisition would have to include at a minimum an input and a substantive process that together significantly contribute to the ability to create an output. The amended guidance also narrows the definition of outputs by more closely aligning it with how outputs are described in FASB guidance for revenue recognition. This guidance is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted.

In November 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)*, which addresses classification and presentation of changes in restricted cash on the statement of cash flows. The standard requires an entity’s reconciliation of the beginning-of-period and end-of-period total amounts shown on the statement of cash flows to include in cash and cash equivalents amounts generally described as restricted cash and restricted cash equivalents. The ASU does not define restricted cash or restricted cash equivalents, but an entity will need to disclose the nature of the restrictions. The ASU is effective for public business entities for annual and interim periods in fiscal years beginning after December 15, 2017. Early adoption is permitted, including adoption in an interim period.

In October 2016, the FASB issued ASU 2016-16 *Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory* (“ASU 2016-16”), which eliminates the exception in existing guidance which defers the recognition of the tax effects of intra-entity asset transfers other than inventory until the transferred asset is sold to a third party. Rather, the amended guidance requires an entity to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. This guidance is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted as of the beginning of an annual reporting period. The Company is currently assessing the impact of this guidance on its consolidated condensed financial statements.

In August 2016, the FASB issued ASU 2016-15 *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments* (“ASU 2016-15”). The standard is intended to eliminate diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 will be effective for fiscal years beginning after December 15, 2017. Early adoption is permitted for all entities. The

Company is currently evaluating the impact of this guidance on its consolidated condensed financial statements.

In May 2014, the FASB Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers, as a new Topic, (ASC) Topic 606. The new revenue recognition standard provides a five-step analysis of transactions to determine when and how revenue is recognized. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers: Deferral of the Effective Date, which deferred the effective date of the new revenue standard for periods beginning after December 15, 2016 to December 15, 2017, with early adoption permitted but not earlier than the original effective date. This ASU must be applied retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. We are considering the alternatives of adoption of this ASU and we are conducting our review of the likely impact to the existing portfolio of customer contracts entered into prior to adoption. After completing our review, we will continue to evaluate the effect of adopting this guidance upon our results of operations, cash flows and financial position.

Table of Contents

In February 2016, the FASB issued ASU No. 2016-02, “*Leases (Topic 842)*” (“ASU 2016-02”). The standard requires a lessee to recognize assets and liabilities on the balance sheet for leases with lease terms greater than 12 months. ASU 2016-02 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018, and early adoption is permitted. Accordingly, the standard is effective for us on September 1, 2019 using a modified retrospective approach. We are currently evaluating the impact that the standard will have on our consolidated condensed financial statements.

There were other updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to have a material impact on the Company’s financial position, results of operations or cash flows.

NOTE 3 — ACQUISITIONS

Clouding Corp.

On August 29, 2014, the Company entered into a patent purchase agreement (the “Clouding Agreement”) between Clouding Corp., a Delaware corporation and a wholly-owned subsidiary of the Company (“Clouding”) and Clouding IP, LLC, a Delaware limited liability company (“Clouding IP”), pursuant to which Clouding acquired a portfolio of patents from Clouding IP. The Clouding Agreement included an earn out payable to Clouding IP, which was booked as an earn out liability on the balance sheet in accordance with the appraisal of the consideration and intangible value.

The Clouding IP earn out liability was determined to be a Level 3 liability, which requires assessment of fair value at each period end by using a discounted cash flow model as the valuation methodology, using unobservable inputs, such as revenue and expenses forecasts, timing of proceeds, and discount rates. Based on the reassessment of fair value as of September 30, 2017, the Company determined the Clouding IP earn out liability to be \$32,637 (current portion) and \$681,175 (long-term portion) and as of December 31, 2016, the Company determined the Clouding IP earn out liability to be \$81,930 (current portion) and \$1,400,082 (long-term portion).

Munitech IP S.a.r.l. (“Munitech”)

On June 27, 2016, Munitech S.a.r.l. (“Munitech”), a Luxembourg limited liability company and newly formed wholly-owned subsidiary of the Company, entered into two Patent Purchase Agreements (the “PPA” or together, the “PPAs”) to purchase 221 patents from Siemens Aktiengesellschaft. The patents purchased by Munitech relate to W-CDMA and GSM cellular technology and cover all the major global economies including China, France, Germany,

the United Kingdom and the United States. Significantly, many of the patent families have been declared to be Standard Essential Patents (“SEPs”) with the European Telecommunications Standard Institute (“ETSI”) and/or the Association of Radio Industries and Businesses (“ARIB”) related to Long Term Evolution (“LTE”), Universal Mobile Telecommunications System (“UMTS”), and/or General Packet Radio Service (“GPRS”).

Pursuant to the terms of the PPAs, Munitech (i) paid Siemens Aktiengesellschaft \$1,150,000 in cash upon closing and (ii) agreed to two future payments, one in the amount of \$1,000,000 payable on December 31, 2016 and the second in the amount of \$750,000 payable on September 30, 2017.

After evaluating the facts and circumstances of the purchase, the Company determined that this was an asset purchase. In coming to its conclusion, the Company reviewed the status of the assets, the historical activity and the absence of any employees, licensing activity, vendors associated with the patents, any royalties, and any other assets other than the patents.

On September 1, 2017, the Company entered into a Share Purchase Agreement with GPat Technologies, LLC (“GPat”) whereby the Company sold its 100% interest in Munitech to GPat.

Table of Contents

Magnus IP GmbH (“Magnus”)

On July 5, 2016, Marathon IP GmbH (“Marathon IP”), a German corporate entity and newly formed wholly-owned subsidiary of the Company, entered into a Patent Purchase Agreements (the “PPA”) to purchase 86 patents from Siemens Switzerland Ltd and Siemens Industry Inc., (together, “Siemens”). On September 15, 2016, the patents were assigned by Marathon IP to Magnus, both of which are wholly-owned subsidiaries of the Company. The patents purchased by Marathon IP relate to Internet-of-Things (IOT) technology. Generally, the portfolio’s subject matter is directed toward self-healing control networks for automation systems. The patents are relevant to wireless mesh or home area networks for use in IOT, or connected home devices and enable simple commissioning, application level security, simplified bridging, and end-to-end IP security. The technology can support a wide variety of IOT enabled devices including lighting, sensors, appliances, security, and more. Pursuant to the terms of the PPA, Marathon IP paid Siemens \$250,000 in cash upon closing.

Pursuant to the terms of the PPAs, Munitech (i) paid Siemens \$250,000 in cash upon closing and (ii) will pay a percentage of gross proceeds in excess of a reserve threshold on behalf of Marathon IP.

After evaluating the facts and circumstances of the purchase, the Company determined that this was an asset purchase. In coming to its conclusion, the Company reviewed the status of the assets, the historical activity and the absence of any employees, licensing activity, vendors associated with the patents, any royalties, and any other assets other than the patents.

On October 20, 2017, the Company assigned the patents held by Magnus to DBD, pursuant to the First Amendment to Amended and Restated Revenue Sharing and Securities Purchase Agreement and Restructuring Agreement (the “First Amendment and Restructuring Agreement”) entered into with DBD. In exchange for the assignment of three of the Company’s portfolios, of which Magnus was one, DBD cancelled all indebtedness owed by the Company to DBD.

Traverse Technologies Corp. (“Traverse”)

On August 3, 2016, Traverse Technologies Corp. (“Traverse”), a United States corporation and newly formed wholly-owned subsidiary of the Company, entered into a Patent Purchase Agreement (the “PPA”) to purchase 12 patents from CPT IP Holdings (“CPT”). The patents purchased by Traverse relate to batteries and principally cover various Asian and the United States markets.

Pursuant to the terms of the PPAs, Traverse (i) paid CPT \$1,300,000 in cash upon closing and (ii) will pay a percentage of net recoveries in excess of a reserve threshold on behalf of Traverse.

After evaluating the facts and circumstances of the purchase, the Company determined that this was an asset purchase. In coming to its conclusion, the Company reviewed the status of the assets, the historical activity and the absence of any employees, licensing activity, vendors associated with the patents, any royalties, and any other assets other than the patents.

On October 20, 2017, the Company assigned the patents held by Traverse to DBD, pursuant to the First Amendment and Restructuring Agreement entered into with DBD. In exchange for the assignment of three of the Company's portfolios, of which Traverse was one, DBD cancelled all indebtedness owed by the Company to DBD.

PG Technologies S.a.r.l. ("PG Tech")

On August 11, 2016, PG Technologies S.a.r.l. ("PG Tech"), a Luxembourg limited liability company jointly owned with a large litigation financing fund, entered into a Patent Funding and Exclusive License Agreement (the "ELA") to manage the monetization of greater than 10,000 patents in a single industry vertical with a Fortune 50 company. The patents cover all the major global economies including China, France, Germany, the United Kingdom and the United States. The Company determined that its ownership in PG Tech constitutes a VIE and that the Company is the primary beneficiary, as a result of which, the Company consolidated PG Tech in its financial statements.

Pursuant to the terms of the ELA, PG Tech agreed with the Fortune 50 company to pay (i) \$1,000,000 in cash upon closing, (ii) a future payment in the amount of \$1,000,000 payable on or before December 31, 2016, (iii) minimum quarterly payments of \$250,000 starting on April 1, 2017 and (iv) split 50% of the net licensing revenues.

Table of Contents

After evaluating the facts and circumstances of the purchase, the Company determined that this was an asset purchase. In coming to its conclusion, the Company reviewed the status of the assets, the historical activity and the absence of any employees, licensing activity, vendors associated with the patents, any royalties, and any other assets other than the patents.

On October 27, 2017, the Company entered into an Assignment and Confirmation Agreement (the “Assignment”) with Luxone Ventures S.a.r.l. (“Luxone”) whereby the Company assigned all of its ownership interest in PG Technologies, S.a.r.l. (“PG Tech”) to Luxone. Pursuant to the Assignment, Luxone assumed the Company’s ownership interest in PG Tech and the Company removed from its balance sheet all the liabilities and debt associated with PG Tech and received in return a revenue share associated with future earnings from the PG Tech portfolio.

NOTE 4 – INTANGIBLE ASSETS

Intangible assets include patents purchased and patents acquired in lieu of cash in licensing transactions. Patents purchased are recorded based at their acquisition cost and patents acquired in lieu of cash are recorded at their fair market value. Intangible assets consisted of the following:

	September 30, 2017	December 31, 2016
Intangible Assets	\$20,403,408	\$23,637,813
Accumulated Amortization & Impairment	(12,813,195)	(11,323,185)
Intangible assets, net	\$7,590,213	\$12,314,628

Intangible assets are comprised of patents with estimated useful lives between approximately 1 to 16 years. Once placed in service, the Company will amortize the costs of intangible assets over their estimated useful lives on a straight-line basis. During the three and nine months ended September 30, 2017, respectively, the Company capitalized a total of \$0 and \$0 in patent acquisition costs and during the three and nine months ended September 30, 2016, respectively, the Company capitalized a total of \$3,550,000 and \$6,450,000 in patent acquisition costs. Costs incurred to acquire patents, including legal costs, are also capitalized as long-lived assets and amortized on a straight-line basis with the associated patent. Amortization of patents is included as an operating expense as reflected in the accompanying consolidated condensed statements of operations. The Company assesses fair market value for any impairment to the carrying values. The Company recorded impairment charges to its intangible assets during the three and nine months ended September 30, 2017 in the amount of \$723,218 and \$723,218, respectively, compared to impairment charges associated with the end of life of a number of the Company’s portfolios during the three and nine months ended September 30, 2016 in the amounts of \$5,531,383 and \$6,525,273, respectively.

Edgar Filing: Marathon Patent Group, Inc. - Form 10-Q

Patent amortization expense for the three and nine months ended September 30, 2017 was \$457,419 and \$1,803,264, respectively, and for the three and nine months ended September 30, 2016, patent amortization expense was \$2,030,886 and \$6,018,196, respectively. All patent amortization expense figures are net of foreign currency translation adjustments. Future amortization of intangible assets, net of foreign currency translation adjustments is as follows:

2017	\$401,804
2018	1,517,219
2019	1,447,660
2020	1,154,767
2021	1,004,600
2022 and thereafter	2,064,163
Total	\$7,590,213

As of September 30, 2017, our operating subsidiaries owned 170 patents, as set forth below, and had economic rights to over 10,000 additional patents, both of which include U.S. patents and certain foreign counterparts. In the aggregate, the earliest date for expiration of a patent in the Company's patent portfolio has passed (the patent is expired, but patent rules allow for nine-year look-back for royalties), the median expiration date for patents in the Company's portfolio is September 13, 2021, and the latest expiration date for a patent in any of the Company's patent portfolios is February 27, 2033. A summary of the Company's patent portfolios is as follows:

Table of Contents

Subsidiary	Number of Patents	Earliest Expiration Date	Median Expiration Date	Latest Expiration Date	Subject Matter
Clouding Corp.	25	2/3/18	9/10/21	5/29/29	Network and data management
CRFD Research, Inc.	5	5/25/21	9/17/21	8/19/23	Web page content translator and device-to-device transfer system
Dynamic Advances, LLC	2	11/6/21	9/7/23	7/9/25	Natural language interface
Magnus IP	55	1/28/22	9/27/25	12/9/31	Network Management/Connected Home Devices
Medtech Group Acquisition Corp.	45	Expired	12/8/18	8/9/29	Medical technology
Signal IP, Inc.	2	8/28/20	8/17/21	8/6/22	Automotive
Traverse Technologies	20	2/27/22	2/25/29	2/27/33	Li-Ion Battery/High Capacity Electrodes
Soems Acquisition	16	11/11/17	4/6/19	7/18/24	N/A
		Median	09/13/21		

On October 20, 2017, the Company assigned the patent held by Dynamic Advances LLC, Magnus IP GmbH and Traverse Technologies Corp. (all wholly-owned subsidiaries of the Company) to DBD.

On October 27, 2017, the Company assigned the economic rights to its more than 10,000 patents to Luxone.

NOTE 5 - STOCKHOLDERS' EQUITY

The Company has authorized capital to 200,000,000 shares of Common Stock with par value to \$0.0001 per share, and has authorized capital of 50,000,000 shares of preferred stock, par value \$0.0001 per share.

On July 18, 2017, shareholders of record holding a majority of the outstanding voting capital of the Company approved a reverse stock split of the Company's issued and outstanding common stock by a ratio of not less than one-for-four and not more than one-for-twenty-five, with such ratio to be determined by the Board of Directors, in its sole discretion. On October 25, 2017, the reverse stock split ratio of one (1) for four (4) basis was approved by the Board of Directors. On October 30, 2017, the Company filed a certificate of amendment to its Amended and Restated Articles of Incorporation with the Secretary of State of the State of Nevada in order to effectuate a reverse stock split of the Company's issued and outstanding common stock, par value \$0.0001 per share on a one (1) for four (4) basis.

Series B Convertible Preferred Stock

The terms of the Series B Convertible Preferred Stock are summarized below:

Dividend. The holders of Series B Convertible Preferred Stock will be entitled to receive such dividends paid and distributions made to the holders of Common Stock, pro rata to the same extent as if such holders had converted the Series B Convertible Preferred Stock into Common Stock (without regard to any limitations on conversion herein or elsewhere) and had held such shares of Common Stock on the record date for such dividends and distributions.

Liquidation Preference. In the event of a liquidation, dissolution or winding up of the Company, after provision for payment of all debts and liabilities of the Company, any remaining assets of the Company shall be distributed pro rata to the holders of Common Stock and the holders of Series B Convertible Preferred Stock as if the Series B Convertible Preferred Stock had been converted into shares of Common Stock on the date of such liquidation, dissolution or winding up of the Company.

Voting Rights. The Series B Convertible Preferred Stock have no voting rights except with regard to certain customary protective provisions set forth in the Series B Convertible Preferred Stock Certificate of Designations and as otherwise provided by applicable law.

Conversion. Each share of Series B Convertible Preferred Stock may be converted at the holder's option at any time after issuance into one share of Common Stock, provided that the number of shares of Common Stock to be issued pursuant to such conversion does not exceed, when aggregated with all other shares of Common Stock owned by such holder at such time, result in such holder beneficially owning (as determined in accordance with Section 13(d) of the Securities Exchange Act of 1934, as amended, and the rules thereunder) in excess of 9.99% of all of the Common Stock outstanding at such time, unless otherwise waived in writing by the Company with ninety-one (61) days' notice.

Table of Contents

Series D Convertible Preferred Stock

The Company issued Series D Convertible Preferred Stock in exchange for the outstanding convertible note issued in October 2014 and prior to September 30, 2017, all of the Series D Convertible Preferred Stock was converted to the Company's Common Stock and no shares of the Series D Convertible Preferred Stock remain outstanding. The terms of the Series D Convertible Preferred Stock are summarized below:

Dividend. The holders of Series D Convertible Preferred Stock will be entitled to receive such dividends paid and distributions made to the holders of Common Stock, pro rata to the same extent as if such holders had converted the Series D Convertible Preferred Stock into Common Stock (without regard to any limitations on conversion herein or elsewhere) and had held such shares of Common Stock on the record date for such dividends and distributions.

Liquidation Preference. In the event of a liquidation, dissolution or winding up of the Company, after provision for payment of all debts and liabilities of the Company, any remaining assets of the Company shall be distributed pro rata to the holders of Series B Convertible Preferred Stock and Series D Convertible Preferred Stock as if the Series B Convertible Preferred Stock and Series D Convertible Preferred Stock had been converted into shares of Common Stock on the date of such liquidation, dissolution or winding up of the Company, prior to any distributions to Junior Stock, which includes the Company's Common Stock.

Voting Rights. Except as otherwise expressly required by law, each holder of Preferred Shares shall be entitled to vote on all matters submitted to shareholders of the Company and shall be entitled to the number of votes for each Preferred Share owned at the record date for the determination of shareholders entitled to vote on such matter or, if no such record date is established, at the date such vote is taken or any written consent of shareholders is solicited, equal to the number of shares of Common Stock such Preferred Shares are convertible into (voting as a class with Common Stock),

Conversion. Each share of Series D Convertible Preferred Stock may be converted at the holder's option at any time after issuance into five shares of Common Stock, provided that the number of shares of Common Stock to be issued pursuant to such conversion does not exceed, when aggregated with all other shares of Common Stock owned by such holder at such time, result in such holder beneficially owning (as determined in accordance with Section 13(d) of the Securities Exchange Act of 1934, as amended, and the rules thereunder) in excess of 9.99% of all of the Common Stock outstanding at such time, unless otherwise waived in writing by the Company with ninety-one (61) days' notice.

Common Stock

On May 11, 2016, the Company entered into a consulting agreement with the Cooper Law Firm, LLC (“Cooper”), pursuant to which the Company agreed to issue 20,000 shares of the Company’s Common Stock. In connection with this transaction, the Company valued the shares at the quoted market price on the date of grant at \$6.80 per share or \$136,000.

On December 9, 2016, the Company entered into a securities purchase agreement (the “Purchase Agreement”) with certain institutional investors for the sale of an aggregate of 870,500 shares of the Company’s common stock, at a purchase price of \$6.00 per share, and warrants to purchase 435,249 shares of common stock for a purchase price of \$0.01 per warrant, or \$17,019.95 in total. None of the warrants were purchased prior to December 31, 2016, and all were subsequently purchased prior to the date of this report.

On February 1, 2017, the Company issued 187,500 shares of common stock pursuant to an At-The-Market (“ATM”) securities offering with certain institutional investors at an average price of \$6.96 per share, yielding gross proceeds of \$1,301,923.

On April 12, 2017, pursuant to an amendment entered into on March 6, 2017 to the settlement agreement entered into on October 29, 2015 between the Company and Dominion Harbor, the Company issued 31,250 shares of common stock to Dominion Harbor. In connection with this transaction, the Company valued the shares at the quoted market price on the date of grant at \$0.83 per share or \$103,750.

On April 18, 2017, the Company entered into a securities purchase agreement (the “April Purchase Agreement”) with certain institutional investors for the sale of an aggregate of 950,000 shares of the Company’s common stock at a purchase price of \$2.80 per share and warrants to purchase 570,000 shares of common stock at a purchase price of \$3.32 per share.

Table of Contents

On April 24, 2017, the Company issued one of its vendors 7,500 shares of Common Stock in exchange for cancellation of the vendor's outstanding invoices. In connection with this transaction, the Company valued the shares at the quoted market price on the date of grant at \$3.32 per share or \$24,897.

On August 9, 2017, the Company issued 250,000 shares of the Company's Common Stock pursuant to the conversion of 200,000 shares of Series D Convertible Preferred Stock.

On August 29, 2017, the Company issued 200,000 shares in total of the Company's Common Stock to four different vendors in partial or total payment of outstanding invoices.

On September 5, 2017, the Company issued 62,500 shares of the Company's Common Stock pursuant to the conversion of 50,000 shares of Series D Convertible Preferred Stock.

On September 6, 2017, the Company issued 534,710 shares of the Company's Common Stock pursuant to the conversion of \$427,768 in principal amount invested in the Convertible Note.

On September 13, 2017, the Company issued 315,925 shares of the Company's Common Stock pursuant to the conversion of 252,750 shares of Series D Convertible Preferred Stock.

On September 29, 2017, the Company issued 598,500 shares of the Company's Common Stock to holders of the warrants issued pursuant to the April Purchase Agreement following approval by the Company's shareholders of the warrant exchange at a special meeting held on September 29, 2017.

Common Stock Warrants

Pursuant to the sales of securities underlying the Purchase Agreement entered into on December 9, 2016, the Company issued a warrant to the underwriter ("Underwriter's Warrant") to purchase 43,525 shares of Common Stock on December 9, 2016. The Underwriter's Warrant has an exercise price of \$6.92 per share. In addition, in a series of issuances in January 2017, the Company issued warrants to the investors ("Investor Warrants") pursuant to the Purchase Agreement to purchase 435,249 shares of the Company's Common Stock. The Investor Warrants have an exercise price of \$6.80 per share. The warrants were issued in a series of transaction during January 2017 and were valued based on the Black-Scholes model, using the strike price of \$6.80 per share, market prices ranging from \$7.00 to

\$8.52 per share, an expected term of 3.25 years, volatility ranging from 38% to 39%, based on the average volatility of comparable companies over the comparable prior period, and a discount rate as published by the Federal Reserve ranging from 1.50% to 1.56%. The Company reviewed the issuance of the Underwriter and Investor Warrants and determined that pursuant to ASC 480 and ASC 815, the Underwriter and Investor Warrants should be classified as a liability and marked to market every reporting period. Following acceptance by the SEC of the Company's registration statement registering these warrants, the warrants were reclassified from a liability to equity.

On January 10, 2017, pursuant to the amendment to the Fortress debt, the Company issued a five-year warrant to DBD to purchase 46,875 shares of the Company's Common Stock, exercisable at \$6.80 per share, subject to adjustment. The warrant was valued based on the Black-Scholes model, using the strike and market prices of \$6.80 and \$7.60 per share, respectively, an expected term of 3.00 years, volatility of 39% based on the average volatility of comparable companies over the comparable prior period and a discount rate as published by the Federal Reserve of 1.52%. The Company reviewed the issuance of the Underwriter and Investor Warrants and determined that pursuant to ASC 480 and ASC 815, the Underwriter and Investor Warrants met the requirement to be classified as equity and were booked as Additional Paid-in Capital.

Pursuant to the sales of securities underlying the April Purchase Agreement entered into on April 18, 2017, the Company issued a warrant to the underwriter ("Underwriter's Warrant") to purchase 14,250 shares of Common Stock. The Underwriter's Warrant has an exercise price of \$3.08 per share. In addition, also associated with the April Purchase Agreement, the Company issued warrants to the investors ("April Investor Warrants") pursuant to the Purchase Agreement to purchase 570,000 shares of the Company's Common Stock. The Investor Warrants have an exercise price of \$3.32 per share. The Investor Warrants were valued based on the Black-Scholes model, using the strike price of \$3.08 per share, an expected term of 2.5 years, volatility of 39%, based on the average volatility of comparable companies over the comparable prior period and a discount rate as published by the Federal Reserve of 1.60%. The Underwriter's Warrant was valued based on the Black-Scholes model, using the strike price of \$3.32 per share, an expected term of 3.25 years, volatility of 38%, based on the average volatility of comparable companies over the comparable prior period and a discount rate as published by the Federal Reserve of 1.72%. The Company reviewed the issuance of the Underwriter and Investor Warrants and determined that pursuant to ASC 480 and ASC 815, the Underwriter and Investor Warrants should be classified as equity.

Table of Contents

Pursuant to the Unit Purchase Agreement entered into on August 14, 2017, the Company, in two closings, issued warrants to the investors (“Note Investor Warrants”) to purchase 6,875,000 shares of the Company’s Common Stock. The Note Investor Warrants have an exercise price of \$1.20 per share. The Note Investor Warrants from the first close were valued based on a Monte Carlo simulation model, using the strike price of \$1.20 per share, remaining term of 5.50 years, volatility of 100%, based on the terms of the Unit Purchase Agreement which set the volatility at the greater 100% or the 100-day volatility immediately following certain events and a discount rate as published by the Federal Reserve of 1.76%. The Note Investor Warrants from the second close were valued based on a Monte Carlo simulation model, using the strike price of \$1.20 per share, remaining term of 5.50 years, volatility of 100%, based on the methodology set forth above and a discount rate as published by the Federal Reserve of 1.98%. The Company reviewed the issuance of the Note Investor Warrants and determined that pursuant to ASC 480 and ASC 815, the Note Investor Warrants should be classified as a liability.

At September 30, 2017, the Company had warrants outstanding to purchase 7,487,894 shares of Common Stock with a weighted average remaining life of 5.35 years. A summary of the status of the Company’s outstanding stock warrants and changes during the period then ended is as follows:

	Number of Warrants	Weighted Average Exercise Price	Weighted Average Remaining Life
Balance at December 31, 2016	116,520	\$ 15.17	3.25
Granted	7,941,374	1.70	5.01
Cancelled	-	-	-
Forfeited	-	-	-
Exercised	570,000	3.32	-
Balance at September 30, 2017	7,487,894	\$ 1.86	5.35
Warrants exercisable at September 30, 2017	612,894		
Weighted average fair value of warrants granted during the period		\$ 0.09	

Warrant Amendment Letter

On March 11, 2016, the Company entered into an agreement with the remaining investor in the Company’s convertible debt issued on October 9, 2014 to revise the strike price of their warrant, which could be exercised for the purchase of 5,834 shares of Common Stock, in exchange for permanent waiver of certain consent rights held by the holder of the convertible debt. As a result of the amendment, the strike price was reduced from \$16.50 to the lower of 1) \$8.00 per share or 2) the same gross per share price as the Company sells shares of its Common Stock in any future public offering of the Company’s Common Stock.

Common Stock Options

On May 10, 2016, the Company entered into an executive employment agreement with Erich Spangenberg (“Spangenberg Agreement”) pursuant to which Mr. Spangenberg would serve as the Company’s Director of Acquisitions, Licensing and Strategy. As part of the consideration, the Company agreed to grant Mr. Spangenberg a ten-year stock option to purchase an aggregate of 125,000 shares of Common Stock, with a strike price of \$7.48 per share, vesting in twenty-four (24) equal installments on each monthly anniversary of the date of the Spangenberg Agreement. The options were valued based on the Black-Scholes model, using the strike and market prices of \$7.48 per share, an expected term of 5.75 years, volatility of 47% based on the average volatility of comparable companies over the comparable prior period and a discount rate as published by the Federal Reserve of 1.32%.

Table of Contents

On May 20, 2016, the Company entered into an employment agreement with Kathy Grubbs (“Grubbs Agreement”) pursuant to which Ms. Grubbs would serve as an analyst. As part of the consideration, the Company agreed to grant Ms. Grubbs a ten-year stock option to purchase an aggregate of 12,500 shares of Common Stock, with a strike price of \$9.00 per share, vesting in thirty-nine (36) equal installments on each monthly anniversary of the date of the Grubbs Agreement. The options were valued based on the Black-Scholes model, using the strike and market prices of \$9.00 per share, an expected term of 6.50 years, volatility of 47% based on the average volatility of comparable companies over the comparable prior period and a discount rate as published by the Federal Reserve of 1.88%.

On July 1, 2016, in conjunction with an executive employment agreement with David Liu (“Liu Agreement”) pursuant to which Mr. Liu would serve as the Company’s CTO, entered into on June 29, 2016, the Company granted Mr. Liu a ten-year stock option to purchase an aggregate of 37,500 shares of Common Stock, with a strike price of \$11.16 per share, vesting in thirty-nine (36) equal installments on each monthly anniversary of the date of the Liu Agreement. The options were valued based on the Black-Scholes model, using the strike and market prices of \$11.16 per share, an expected term of 6.50 years, volatility of 47% based on the average volatility of comparable companies over the comparable prior period and a discount rate as published by the Federal Reserve of 1.20%.

On October 13, 2016, the Company issued its independent board members ten-year options to purchase an aggregate of 20,000 shares of the Company’s Common Stock with an exercise price of \$9.64 per share, subject to adjustment, which shall vest monthly over twelve (12) months commencing on the date of grant. The options were valued based on the Black-Scholes model, using the strike and market prices of \$9.64 per share, an expected term of 5.5 years, volatility of 46% based on the average volatility of comparable companies over the comparable prior period and a discount rate as published by the Federal Reserve of 1.21%. As there were not sufficient shares in the Company’s equity incentive plans to accommodate these grants, Mr. Croxall forfeited a portion of one of his options to purchase 20,000 shares.

At September 30, 2017, there was a total of \$7,072 of unrecognized compensation expenses related to non-rested option-based compensation arrangements entered into during the year. A summary of the stock options as of September 30, 2017 and changes during the period are presented below:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Life
Balance at December 31, 2016	879,034	\$ 17.84	6.80
Granted	-	-	-

Senior Secured Term Notes

On January 29, 2015, the Company and certain of its subsidiaries entered into a series of Agreements including a Securities Purchase Agreement with DBD Credit Funding LLC, (“DBD”) an affiliate of Fortress Credit Corp., under which the terms of the notes were:

- (i) \$15,000,000 original principal amount of Fortress Notes (the “Initial Note”);
- a right to receive a portion of certain proceeds from monetization net revenues received by the Company (the
- (ii) “Revenue Stream”, after receipt by the Company of \$15,000,000 of monetization net revenues and repayment of the Fortress Notes);
- (iii) a five-year Fortress Warrant to purchase 25,000 shares of the Company’s Common Stock exercisable at \$29.76 per share, subject to adjustment; and
- (iv) 33,603 shares of the Issuer’s Common Stock (the “Fortress Shares”).

On February 12, 2015, the Company issued an additional \$5,000,000 of Notes (which increase proportionately the Revenue Stream).

The Initial Note matures on July 29, 2018. Additional Notes issued pursuant to the Fortress Purchase Agreement mature 42 months after issuance. The unpaid principal amount of the Initial Note plus the additional \$5,000,000 note (including any PIK Interest, as defined below) bear cash interest at a rate equal to LIBOR plus 9.75% per annum payable on the last business day of each month. Interest is paid in cash except that 2.75% per annum of the interest due on each Interest Payment Date shall be paid-in-kind, by increasing the principal amount of the Notes by the amount of such interest. Monthly principal payments are due commencing one year after the anniversary dates of the loans.

The terms of the Fortress Warrant provide that until January 29, 2020, the Warrant may be exercised for cash or on a cashless basis. Exercisability of the Fortress Warrant is limited if, upon exercise, the holder would beneficially own more than 4.99% of the Company’s Common Stock. The exercise price of the warrant is \$29.76 and the warrant fair value was determined to be \$318,679 utilizing the Black-Scholes model, with the fair value of the warrants recorded as additional paid-in capital and reducing the carrying value of the Notes. As of September 30, 2017 and December 31, 2016, the unamortized discount on the Notes was \$1,686,090 and \$1,425,167, respectively.

Senior Secured Term Note Amendment

On January 10, 2017 the Company and certain of its subsidiaries entered into the Amended and Restated Revenue Sharing and Securities Purchase Agreement (“ARRSSPA”) with DBD Credit Funding LLC, under which the Company and DBD amended and restated the Revenue Sharing and Securities Purchase Agreement dated January 29, 2015 (the “Original Agreement”) pursuant to which (i) Fortress purchased \$20,000,000 in promissory notes, of which \$15,881,493 is outstanding as of September 30, 2017, (ii) an interest in the Company’s revenues from certain activities and warrants to purchase 25,000 shares of the Company’s common stock. The ARRSSPA amends and restates the Original Agreement to provide for (i) the sale by the Company of a \$4,500,000 promissory note (the “New Note”) and (ii) the insurance of additional warrants to purchase 46,875 shares of common stock (the “New Warrant”). Pursuant to the ARRSSPA, Fortress acquired an increased revenue stream right to certain revenues generated by the Company through monetization of our patent portfolio (“Monetization Revenues”). The ARRSSPA increases the revenue stream basis to \$1,225,000. The ARRSSPA provides for the potential issuance of up to \$7,500,000 of additional notes (the “Additional Notes”), of which not more than \$3,750,000 shall be made prior to June 30, 2017 and of which not more than \$3,750,000 shall be made available during the period following June 30, 2017 and on or prior to December 31, 2017 and not more than two such issuances shall occur under the ARRSSPA.

The unpaid principal amount of the New Note (including any PIK Interest, as defined below) shall bear cash interest at a rate equal to LIBOR plus 9.75% per annum; provided that upon and during the continuance of an Event of Default (as defined in the Initial Note), the interest rate shall increase by an additional 2% per annum.

Interest on the Initial Note shall be paid on the last business day of each calendar month (the “Interest Payment Date”), commencing January 31, 2017. Interest shall be paid in cash except that 2.75% per annum of the interest due on each Interest Payment Date shall be paid-in-kind, by increasing the principal amount of the Notes by the amount of such interest, effective as of the applicable Interest Payment Date (“PIK Interest”). PIK Interest shall be treated as added principal of the New Note for all purposes, including interest accrual and the calculation of any prepayment premium. The Company paid a structuring fee of 2.0% of the New Note and would pay a 2.0% fee upon the issuance of any Additional Notes. The proceeds of the New Note and any Additional Notes may be used for working capital purposes, portfolio acquisitions, growth capital and other general corporate purposes.

Table of Contents

The ARRSSPA contains certain customary events of default, and also contains certain covenants including a requirement that the Company maintain minimum liquidity of \$1,250,000 in unrestricted cash and cash equivalents.

The terms of the New Warrants provide that from July 10, 2017 until January 10, 2022, the Warrant may be exercised for cash or on a cashless basis. Exercisability of the Warrant is limited if, upon exercise, the holder would beneficially own more than 4.99% of the Issuer's Common Stock.

Pursuant to the ARSSPA, as security for the payment and performance in full of the Secured Obligations (as defined in the Security Agreement entered in favor of the Note purchasers (the "Security Agreement") the Company and certain subsidiaries executed and delivered in favor of the purchasers a Security Agreement and a Patent Security Agreement, including a pledge of the Company's interests in certain of its subsidiaries. As further set forth in the Security Agreement, repayment of the Note Obligations (as defined in the Notes) is secured by a first priority lien and security interest in all the assets of the Company, subject to certain permitted liens. Certain subsidiaries of the Company also executed guarantees in favor of the purchasers (each, a "Guaranty"), guaranteeing the Note Obligations.

Amendment to Senior Secured Term Note Amendment

On August 3, 2017, the Company and certain of its operating subsidiaries entered into a First Amendment to Amended and Restated Revenue Sharing and Securities Purchase Agreement and Restructuring Agreement (the "First Amendment and Restructuring Agreement") with DBD to cancel the indebtedness and other obligations of the Company under that certain ARRSSPA, dated January 10, 2017, which was originally entered into by the Company and DBD on January 29, 2015.

Pursuant to the First Amendment and Restructuring Agreement, certain intellectual property owned by the Company (the "Designated IP") is to be assigned to one or more newly created special purpose entities (the "SPE") as elected by DBD, which to be formed SPE shall be under the management and control of an affiliate of DBD (the "IP Monetization Manager"). All intellectual property owned by the Company that will not be assigned to one or more newly created special purpose entities shall be referred to as "Non- Designated IP." The patents that are part of the Designated IP are referred to as the "Designated Patents". Until shareholder approval and the close of the First Amendment and Restructuring Agreement (the "Restructuring"), all Monetization Revenues arising from the Designated IP and Non-Designated IP shall be paid to an account that is under the sole and exclusive control of the Collateral Agent as the IP Monetization Manager. In addition, until the Restructuring, the Company shall be responsible for the expenses associated with the maintenance, prosecution and enforcement of all of the Company's intellectual property including the Designated IP and the other IP owned by the Company which is not to be transferred to the SPE, and for any expenses associated with the pursuit of monetization activities relating to both the Designated IP and the Non-Designated IP. From and after the Restructuring, the SPE shall have sole responsibility for the expenses associated with the Designated IP and the Company shall have sole responsibility for the expenses associated with the

Non-Designated IP.

On October 20, 2017, the Company and DBD satisfied all the closing conditions related to the First Amendment and Restructuring Agreement. With the close of the First Amendment and Restructuring Agreement, the Company exchanged the patent portfolios held by Dynamic Advances LLC, Magnus IP GmbH and Traverse Technologies Corp. (all wholly-owned subsidiaries of the Company) in exchange for the cancelation of all indebtedness and obligations to DBD.

As of September 30, 2017 and December 31, 2016, the outstanding balances were \$15,881,493 and \$15,620,759, respectively.

Convertible Note

In two transactions, on October 9, 2014 and October 16, 2014, the Company sold an aggregate \$5,550,000 of principal amount of convertible notes (“Convertible Notes”) along with two-year warrants to purchase 32,375 shares of the Company’s Common Stock. The Convertible Notes are convertible into shares of the Company’s Common Stock at \$30.00 per share and the Warrants have an exercise price of \$33.00 per share. The Notes mature on October 10, 2018 and bear interest at the rate of 11% per annum, payable quarterly in cash on each of the three, nine, nine and twelve-month anniversaries of the issuance date and on each conversion date. The Notes may become secured by a security interest granted to the holder in certain future assets under certain circumstances. In the event the Company’s Common Stock trades at a price of at least \$108.00 per share for four out of eight trading days, the Notes will be mandatorily converted into Common Stock of the Company at the then applicable conversion price per share. The Company repaid the Convertible Notes for all but one holder in early 2015, and exchanged the remaining balance for Series D Convertible Preferred Stock on August 7, 2017, with the Series D Convertible Preferred Stock converted in its entirety prior to September 30, 2017. The balance was \$0 and \$500,000 as of September 30, 2017 and December 31, 2016, respectively.

Table of Contents

iRunway

The Company converted a set of outstanding invoices related to work performed by one of the Company's vendors to a short-term payable whereby the Company agreed to pay iRunway over time for the open invoices, subject to a payment schedule as defined. To the extent that the Company does not make payments according to that schedule, the remaining balance accrues interest at 1.5% per month. On August 20, 2017, the Company entered into a release agreement with iRunway pursuant to which the Company made an immediate cash payment to iRunway in return for a release of the remaining amount outstanding. As of September 30, 2017 and December 31, 2016, the principal balance was \$0 and \$191,697, respectively.

Note Payable

The Company entered into a short-term advance with an officer related to funds the Company was transferring from its European subsidiaries. The advance carried no interest and as of September 30, 2017 and December 31, 2016, the outstanding balance was \$0 and \$103,000, respectively.

Siemens Purchase Payment

The Company entered into a purchase agreement to acquire ownership of certain patents. As part of the purchase agreement, the Company agreed to certain future payments of cash consideration. The payment obligation bears no interest. On September 1, 2017, the Company entered into Share Purchase Agreement with GPat whereby the Company sold its 100% interest in Munitech, the wholly-owned subsidiary holding these patents, to GPat. As of September 30, 2017 and December 31, 2016, the outstanding balances were \$0 and \$1,672,924, respectively.

Dominion Harbor Settlement Note

The Company entered into a settlement agreement with Dominion Harbor, a former licensing agent for some of the Company's subsidiaries, on October 29, 2015 whereby the Company agreed to issue 75,000 shares of the Company's Common Stock to Dominion Harbor and make eight (8) payments of \$25,000 each ending on October 15, 2017. The shares issued to Dominion Harbor were valued at the quoted market price on the date of the grant of \$6.84 per share or \$513,000. As of September 30, 2017 and December 31, 2016, \$0 and \$125,000, respectively, remained outstanding, following an agreement between the Company and Dominion wherein the Company paid \$25,000 and issued 31,250 shares of Common Stock to Dominion in full resolution of the outstanding obligation.

Oil & Gas Purchase Payment

The Company entered into a purchase agreement to acquire monetization rights to certain patents. As part of the purchase agreement, the Company agreed to certain future payments of cash consideration. The payment obligation bears no interest and as of September 30, 2017 and December 31, 2016, the Company had an outstanding obligation for purchase of certain Siemens patents in the amount of \$1,000,000 and \$944,296, respectively, with such payments expected to be made by December 31, 2017.

Convertible Note

On August 14, 2017, the Company entered into a unit purchase agreement (the “Unit Purchase Agreement”) with certain accredited investors providing for the sale of up to \$5,500,000 of 5% secured convertible promissory notes (the “Convertible Notes”), which are convertible into shares of the Corporation’s common stock, and the issuance of warrants to purchase 6,875,000 shares of the Company’s Common Stock (the “Warrants”). The Convertible Notes are convertible into shares of the Company’s Common Stock at the lesser of (i) \$0.80 per share or (ii) the closing bid price of the Company’s common stock on the day prior to conversion of the Convertible Note; provided that such conversion price may not be less than \$0.40 per share. The Warrants have an exercise price of \$1.20 per share. The Convertible Notes mature on May 31, 2018 and bear interest at the rate of 5% per annum. In two closings of the Unit Purchase Agreement, the Company issued all \$5,500,000 in Convertible Notes to the investors. As of September 30, 2017, the Company had an outstanding obligation pursuant to the Convertible Notes in the amount of \$5,072,232.

Table of Contents

3D Nano Purchase Payment

3D Nano entered into a license and purchase agreement with HP Inc. (“HP”) to acquire the rights to use if 3D Nano chooses, the right to exercise an option to acquire, ownership of certain patents, trade secrets and other intellectual property (the “Technology”). As part of the purchase agreement, the Company agreed to license the Technology for two payments of \$100,000 each, with the first payment made in April 2016 and the second payment due by January 31, 2017. Under the original agreement, the payment obligations bear no interest and as of September 30, 2017 and December 31, 2016, 3D Nano had an outstanding obligation in the amount of \$0 and \$100,000, respectively. On May 1, 2017, 3D Nano entered into an amendment with HP whereby the agreement was extended for two years. While 3D Nano does not have the obligation under the amendment to make additional payments, should 3D Nano desire to do so, payments in the amount of \$100,000 in each of 2018 and 2019 would be due to HP for the agreement to remain in effect.

Medtech Note

On May 31, 2017, the Company entered into a note payable with Medtronic, Inc. (“Medtronic”), the original owner of the patents in the Company’s Medtech portfolio, whereby the Company agreed to pay Medtronic a total of \$750,000 in ten equal monthly installments for patent enforcement related expenses incurred by Medtronic. Following two payments of \$75,000 each in May and June 2017, the Company entered into an agreement on August 29, 2017 to pay a discounted amount in return for a full release from the remaining obligations. The note payable carries no interest and since the note payable arose after December 31, 2016 and was repaid in full prior to September 30, 2016, as of September 30, 2017 and December 31, 2016, the outstanding balance, was \$0 and \$0, respectively.

Total Future Minimum Principal Payments

Future minimum principal payments for all items set forth above are as follows:

2017	\$16,881,493
2018	5,072,232
Total	\$21,953,725

Office Lease

Edgar Filing: Marathon Patent Group, Inc. - Form 10-Q

In October 2013, the Company entered into a net-lease for its current office space in Los Angeles, California. The lease will commence on May 1, 2014 and runs for seven years through April 30, 2021, with monthly lease payment escalating each year of the lease. In addition, to paying a deposit of \$7,564 and the monthly base lease cost, the Company is required to pay pro rata share of operating expenses and real estate taxes. Under the terms of the lease, the Company will not be required to pay rent for the first five months but must remain in compliance with the terms of the lease to continue to maintain that benefit. In addition, the Company has a one-time option to terminate the lease in the 42th month of the lease. Minimum future lease payments under this lease at September 30, 2017, for the next five years are as follows:

2017 (Three Months)	\$ 18,081
2018	74,540
2019	77,872
2020	81,336
2021	27,504
Total	\$297,333

Table of Contents

NOTE 7 – SUBSEQUENT EVENTS

On October 20, 2017, the Company and DBD satisfied all the closing conditions related to the First Amendment and Restructuring Agreement. With the close of the First Amendment and Restructuring Agreement, the Company exchanged the patent portfolios held by Dynamic Advances LLC, Magnus IP GmbH and Traverse Technologies Corp. (all wholly-owned subsidiaries of the Company) in exchange for the cancelation of all indebtedness and obligations to DBD.

On October 27, 2017, the Company entered into the Assignment with Luxone whereby the Company assigned all of its ownership interest in PG Tech to Luxone. Pursuant to the Assignment, Luxone assumed the Company's ownership interest in PG Tech and the Company removed from its balance sheet all the liabilities and debt associated with PG Tech and received in return a revenue share associated with future earnings from the PG Tech portfolio. Luxone is owner or controlled by a former affiliate of the Company.

On November 1, 2017, the Company entered into an agreement to acquire, through its wholly-owned subsidiary, Global Bit Ventures Acquisition Corp., a Nevada corporation ("GBVAC"), 100% of the Capital Stock of Global Bit Ventures, Inc., a Nevada corporation ("GBV"), which currently secures and powers digital asset blockchains by running specialized servers. Under the terms of the Agreement and Plan of Merger (the "Merger Agreement"), the Company will issue 126,674,557 shares of the Company's Common Stock in exchange for one-hundred (100%) percent of the shares of GBV's capital stock. At the closing of the merger, GBVAC shall be merged with and into GBV pursuant to the Merger Agreement and the separate existence of GBVAC shall cease and GBV shall be the surviving company. The closing of the acquisition is subject to certain closing conditions including approval of the Merger Agreement by the Company's Shareholders.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This report on Form 10-Q ("Report") and other written and oral statements made from time to time by us may contain so-called "forward-looking statements," all of which are subject to risks and uncertainties. Forward-looking statements can be identified by the use of words such as "expects," "plans," "will," "forecasts," "projects," "intends," "estimates," and other words of similar meaning. One can identify them by the fact that they do not relate strictly to historical or current facts. These statements are likely to address our growth strategy, financial results and product and development programs. One must carefully consider any such statement and should understand that many factors could cause actual results to differ from our forward-looking statements. These factors may include inaccurate assumptions and a broad variety of other risks and uncertainties, including some that are known and some that are not. No forward-looking statement can be guaranteed and actual future results may vary materially.

Information regarding market and industry statistics contained in this Report is included based on information available to us that we believe is accurate. It is generally based on industry and other publications that are not produced for purposes of securities offerings or economic analysis. We have not reviewed or included data from all sources, and cannot assure investors of the accuracy or completeness of the data included in this Report. Forecasts and other forward-looking information obtained from these sources are subject to the same qualifications and the additional uncertainties accompanying any estimates of future market size, revenue and market acceptance of products and services. We do not assume any obligation to update any forward-looking statement. As a result, investors should not place undue reliance on these forward-looking statements.

Overview

The Company has acquired patents and patent rights from owners or other ventures and seeks to monetize the value of the patents through litigation and licensing strategies, alone or with others. We generally monetize our portfolio of patents and patent rights by entering into license discussions, and if that is unsuccessful, initiating enforcement activities against any infringing parties with the objective of entering into comprehensive settlement and license agreements that may include the granting of non-exclusive retroactive and future rights to use the patented technology, a covenant not to sue, a release of the party from certain claims, the dismissal of any pending litigation and other terms. As of September 30, 2017, we owned 170 patents and had economic rights to over 10,000 additional patents, both of which include U.S. patents and certain foreign counterparts, covering technologies used in a wide variety of industries. The greater than 10,000 patents to which the Company has economic rights were assigned to Luxone in an agreement entered into in October 2017; the Company retained an earn-out associated with future income from this portfolio, but no longer manages or is responsible for costs associated with licensing the portfolio.

The Company previously announced that it intended to review alternative business directions with the goal of enhancing shareholder value, and on November 1, 2017, the Company announced that it will be entering into the cryptocurrency mining market pursuant to the agreement to acquire 100% ownership of GBV, a digital asset technology company that mines cryptocurrencies. GBV is a technology company that powers and secures Blockchains by operating custom hardware and software, which verify Blockchain transactions. Blockchains are decentralized digital ledgers that record and enable secure peer-to-peer transactions without third party intermediaries. With the acquisition of GBV, the Company will be supplementing its existing business with this new business opportunity. GBV currently owns 250GH/s of GPU mining servers and plans to add 14PH/s of ASIC hashing servers, with significant capability for expansion.

Table of Contents

Our principal office is located at 11100 Santa Monica Blvd., Suite 380, Los Angeles, CA 90025. Our telephone number is (703) 232-1701.

We were incorporated in the State of Nevada on February 23, 2010 under the name “Verve Ventures, Inc.” On December 7, 2011, we changed our name to “American Strategic Minerals Corporation” and were engaged in exploration and potential development of uranium and vanadium minerals business. During June 2012, we discontinued our minerals business and began to invest in real estate properties in Southern California. In November 2012, we discontinued our real estate business.

On July 18, 2017, shareholders of record holding a majority of the outstanding voting capital of the Company approved a reverse stock split of the Company’s issued and outstanding common stock by a ratio of not less than one-for-four and not more than one-for-twenty-five, with such ratio to be determined by the Board of Directors, in its sole discretion. On October 25, 2017, the reverse stock split ratio of one (1) for four (4) basis was approved by the Board of Directors. On October 30, 2017, the Company filed a certificate of amendment to its Amended and Restated Articles of Incorporation with the Secretary of State of the State of Nevada in order to effectuate a reverse stock split of the Company’s issued and outstanding common stock, par value \$0.0001 per share on a one (1) for four (4) basis.

All share and per share values for all periods presented in the accompanying condensed consolidated financial statements are retroactively adjusted as of September 30, 2017 to reflect the Reverse Split.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with US GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Management believes the following critical accounting policies affect the significant judgments and estimates used in the preparation of the financial statements.

Basis of Presentation and Principles of Consolidation

The accompanying consolidated condensed financial statements have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted pursuant to such rules and regulations. These consolidated condensed financial statements reflect all adjustments (consisting only of normal recurring adjustments) which, in the opinion of management, are necessary to present fairly the financial position, the results of operations and cash flows of the Company for the periods presented. It is suggested that these consolidated condensed financial statements be read in conjunction with the consolidated condensed financial statements and the notes thereto included in the Company's most recent Annual Report on Form 10-K. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates made by management include, but are not limited to, estimating the useful lives of patent assets, the assumptions used to calculate fair value of warrants and options granted, goodwill impairment, realization of long-lived assets, deferred income taxes, unrealized tax positions and business combination accounting.

Table of Contents

Revenue Recognition

The Company recognizes revenue in accordance with Accounting Standards Codification (“ASC”) Topic 605, “Revenue Recognition”. Revenue is recognized when (i) persuasive evidence of an arrangement exists, (ii) all obligations have been substantially performed, (iii) amounts are fixed or determinable and (iv) collectability of amounts is reasonably assured. In general, revenue arrangements provide for the payment of contractually determined fees in consideration for the grant of certain intellectual property rights for patented technologies owned or controlled by the Company.

These rights typically include some combination of the following: (i) the grant of a non-exclusive, perpetual license to use patented technologies owned or controlled by the Company, (ii) a covenant-not-to-sue, (iii) the dismissal of any pending litigation.

The intellectual property rights granted typically are perpetual in nature. Pursuant to the terms of these agreements, the Company has no further obligation with respect to the grant of the non-exclusive licenses, covenants-not-to-sue, releases, and other deliverables, including no express or implied obligation on the Company’s part to maintain or upgrade the technology, or provide future support or services. Generally, the agreements provide for the grant of the licenses, covenants-not-to-sue, releases, and other significant deliverables upon execution of the agreement. As such, the earnings process is complete and revenue is recognized upon the execution of the agreement, when collectability is reasonably assured, and when all other revenue recognition criteria have been met.

The Company also considers the revenue generated from its settlement and licensing agreements as one unit of accounting under ASC 605-25, “Multiple-Element Arrangements” as the delivered items do not have value to customers on a standalone basis, there are no undelivered elements and there is no general right of return relative to the license. Under ASC 605-25, the appropriate recognition of revenue is determined for the combined deliverables as a single unit of accounting and revenue is recognized upon delivery of the final elements, including the license for past and future use and the release.

Also, due to the fact that the settlement element and license element for past and future use are the Company’s major central business, the Company presents these two elements as one revenue category in its statement of operations. The Company does not expect to provide licenses that do not provide some form of settlement or release.

Accounting for Acquisitions

In the normal course of its business, the Company makes acquisitions of patent assets and may also make acquisitions of businesses. With respect to each such transaction, the Company evaluates facts of the transaction and follows the guidelines prescribed in accordance with ASC 805 — Business Combinations to determine the proper accounting treatment for each such transaction and then records the transaction in accordance with the conclusions reached in such analysis. The Company performs such analysis with respect to each material acquisition within the consolidated group of entities.

Intangible Asset - Patents

Intangible assets include patents purchased and patents acquired in lieu of cash in licensing transactions. The patents purchased are recorded based on the cost to acquire them and patents acquired in lieu of cash are recorded at their fair market value. The costs of these assets are amortized over their remaining useful lives. Useful lives of intangible assets are periodically evaluated for reasonableness and the assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may no longer be recoverable. The Company recorded an impairment charge to its intangible assets during the three and nine months ended September 30, 2017 in the amount of \$723,218 and \$723,218, respectively, compared to an impairment charge associated with the end of life of a number of the Company's portfolios during the three and nine months ended September 30, 2016 in the amounts of \$5,531,383 and \$6,525,273, respectively.

Table of Contents

Goodwill

When conducting its annual goodwill impairment assessment, the Company initially performs a qualitative evaluation of whether it is more likely than not that goodwill is impaired. If it is determined by a qualitative evaluation that it is more likely than not that goodwill is impaired, the Company then applies a two-step impairment test. The two-step impairment test first compares the fair value of the Company's reporting unit to its carrying or book value. If the fair value of the reporting unit exceeds its carrying value, goodwill is not impaired. If the carrying value of the reporting unit exceeds its fair value, the Company determines the implied fair value of the reporting unit's goodwill and if the carrying value of the reporting unit's goodwill exceeds its implied fair value, then an impairment loss equal to the difference is recorded in the consolidated condensed statement of operations. The Company performs the annual testing for impairment of goodwill at the reporting unit level during the quarter ended September 30.

For the three and nine months ended September 30, 2017, the Company recorded no impairment charge to its goodwill and for the three and nine months ended September 30, 2016, the Company recorded an impairment to its Goodwill in the amount of \$0 and \$83,000, respectively.

Other Intangible Assets

In accordance with ASC 350-30-65, "Intangibles - Goodwill and Others", the Company assesses the impairment of identifiable intangibles whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors the Company considers to be important which could trigger an impairment review include the following: (1) significant underperformance relative to expected historical or projected future operating results; (2) significant changes in the manner of use of the acquired assets or the strategy for the overall business; and (3) significant negative industry or economic trends.

When the Company determines that the carrying value of intangibles may not be recoverable based upon the existence of one or more of the above indicators of impairment and the carrying value of the asset cannot be recovered from projected undiscounted cash flows, the Company records an impairment charge. The Company measures any impairment based on a projected discounted cash flow method using a discount rate determined by management to be commensurate with the risk inherent in the current business model.

For the three and nine months ended September 30, 2017 and September 30, 2016, the Company recorded no impairment charge to its other intangible assets.

Impairment of Long-lived Assets

The Company accounts for the impairment or disposal of long-lived assets according to the ASC 360 “Property, Plant and Equipment”. The Company continually monitors events and changes in circumstances that could indicate that the carrying amounts of long-lived assets may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated future net undiscounted cash flows expected to be generated by the asset. When necessary, impaired assets are written down to estimated fair value based on the best information available. Estimated fair value is generally based on either appraised value or measured by discounting estimated future cash flows. Considerable management judgment is necessary to estimate discounted future cash flows. Accordingly, actual results could vary significantly from such estimates. The Company recognizes an impairment loss when the sum of expected undiscounted future cash flows is less than the carrying amount of the asset.

The Company did not record any impairment charges on its long-lived assets during the three and nine months ended September 30, 2017 and September 30, 2016.

Stock-based Compensation

Stock-based compensation is accounted for based on the requirements of the Share-Based Payment Topic of ASC 718 which requires recognition in the consolidated financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively, the vesting period). The ASC also requires measurement of the cost of employee and director services received in exchange for an award based on the grant-date fair value of the award. As stock-based compensation expense is recognized based on awards expected to vest, forfeitures are also estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

Table of Contents

For the three and nine months ended September 30, 2017, the expected forfeiture rate was 12.75%, which resulted in an expense of \$60,115 and \$108,748, for the three and nine months ended September 30, 2017, respectively, recognized in the Company's compensation expenses. For the three and nine months ended September 30, 2016, the expected forfeiture rate was 11.03%, which resulted in an expense of \$9,570 and \$36,832 for the three and nine months ended September 30, 2016, respectively, recognized in the Company's compensation expenses. The Company will continue to re-assess the impact of forfeitures if actual forfeitures increase in future quarters.

Pursuant to ASC Topic 505-50, for share-based payments to consultants and other third parties, compensation expense is determined at the "measurement date." The expense is recognized over the vesting period of the award. Until the measurement date is reached, the total amount of compensation expense remains uncertain. The Company initially records compensation expense based on the fair value of the award at the reporting date.

Liquidity and Capital Resources

At September 30, 2017, we had approximately \$.1 million in unrestricted cash and cash equivalents, \$3.9 million in restricted cash and an unrestricted working capital deficit of \$20.3 million.

Based on the Company's current revenue and profit projections, management is uncertain that the Company's existing cash and accounts receivables will be sufficient to fund its operations through at least the next twelve months, raising substantial doubt regarding the Company's ability to continue operating as a going concern. If we do not meet our revenue and profit projections or the business climate turns negative, then we will need to:

raise additional funds to support the Company's operations; however, there is no assurance that the Company will be able to raise such additional funds on acceptable terms, if at all. If the Company raises additional funds by issuing securities, existing stockholders may be diluted; and

review strategic alternatives.

If adequate funds are not available, we may be required to curtail our operations or other business activities or obtain funds through arrangements with strategic partners or others that may require us to relinquish rights to certain technologies or potential markets.

Results of Operations

For the Three and Nine Months Ended September 30, 2017 and 2016

We generated revenues of \$162,713 and \$609,650 during the three and nine months ended September 30, 2017 as compared to \$43,113 and \$36,452,551 during the three and nine months ended September 30, 2016. For the three and nine months ended September 30, 2017, this represented an increase of \$119,600 or 277% and a decrease of \$35,842,901 or 98%, respectively. On an absolute basis, revenue for the three and nine months ended September 30, 2017 was derived from the issuance of a one-time technology license outside of litigation and recurring royalties from the Company's Medtech portfolio and for the three and nine months ended September 30, 2016 revenue was primarily derived from the issuance of one-time patent licenses with the remainder of the revenue derived from recurring royalties.

The Company had no revenues from the issuance of one-time patent licenses to certain of the Company's patent portfolios for the three months and nine ended September 30, 2017 and 0% and 99% for the three and nine months ended September 30, 2016, respectively. For the three months ended September 30, 2017, there were no patent settlement and license agreements, whereas revenues from the five largest settlement and license agreements accounted for 99% of the Company's revenue for the comparable period ending September 30, 2016.

Direct cost of revenues during the three and nine months ended September 30, 2017 amounted to \$64,836 and \$1,544,322, respectively and for the three and nine months ended September 30, 2016, the direct cost of revenues amounted to \$1,094,378 and \$19,202,118, respectively. For the three and nine months ended September 30, 2017, this represented a decrease of \$1,479,486 or 94% and \$18,107,740 or 92%, respectively. Direct costs of revenue include contingent payments to patent enforcement legal costs, patent enforcement advisors and inventors as well as various non-contingent costs associated with enforcing the Company's patent rights and otherwise in developing and entering into settlement and licensing agreements that generate the Company's revenue. For the three and nine months ended September 30, 2017, the Company had lower contingent fee costs associated with lower levels of revenue and fewer number of active infringement cases. Direct cost of revenues were 40% and 253%, respectively, for the three and nine months ended September 30, 2017 and direct costs of revenues were 2,538% and 53%, respectively, for the comparable periods in 2016.

Table of Contents

We incurred other operating expenses of \$4,014,856 and \$8,720,754 for the three and nine months September 30, 2017, respectively and \$9,688,527 and \$18,884,827 for the three and nine months ended September 30, 2016, respectively. For the three and nine months ended September 30, 2017, this represented a decrease in other operating expenses of \$5,669,671 or 59% and \$10,164,073 or 54%, respectively. These expenses primarily consisted of amortization of patents, general expenses, compensation to our officers, directors and employees, professional and consulting fees incurred in connection with the day-to-day operation of our business and patent and goodwill impairment charges. The year over year decline in other operating expenses for the three and nine months ended September 30, 2017 resulted from declines in patent amortization and impairment costs and consulting fees, offset by increases in compensation, professional fees and other general and administrative costs, compared to 2016. The increase in compensation expenses is related to costs associated with the cancellation of existing employment agreements between the Company and the Company's CEO, CFO and COO, as well as other termination provisions for non-executive employees.

Other operating expenses consisted of the following:

	Total Other Operating Expenses		Total Other Operating Expenses	
	For the Three Months Ended September 30, 2017	For the Three Months Ended September 30, 2016	For the Nine Months Ended September 30, 2017	For the Nine Months Ended September 30, 2016
Amortization of patents(1)	\$457,419	\$2,030,886	\$1,803,264	\$6,018,196
Compensation and related taxes (2)	1,871,946	1,252,571	3,718,034	3,406,841
Consulting fees (3)	133,018	257,420	189,819	903,032
Professional fees (4)	616,125	432,496	1,686,955	1,336,201

Table of Contents

Amortization of intangibles and depreciation: Amortization expenses associated with patents and the Company's website were \$457,419 and \$1,803,264 during the three and nine months ended September 30, 2017, respectively, a decrease of \$1,573,467 or 77% and \$4,214,932 or 70% relative to the three and nine months ended September (1)30, 2016. The decrease results from the partial or full impairment of numerous of the Company's portfolios reducing the carrying fair value and the related amortization expenses. When the Company acquires patents and patent rights, the Company capitalizes the cost of those assets and amortizes those costs over the remaining useful lives of the assets. All patent amortization expenses are non-cash expenses.

Compensation expense and related taxes: Compensation expense includes cash compensation and related payroll taxes and benefits, and non-cash equity compensation expenses. For the three and nine months ended September 30, 2017, respectively, compensation expense and related payroll taxes were \$1,871,946 and \$3,718,034, an increase of \$619,375 or 49% and 311,193 or 9% relative to the three and nine months ended September 30, 2016. (2)The increase in compensation expenses is related to costs associated with the cancellation of existing employment agreements between the Company and the Company's CEO, CFO and COO, as well as other termination provisions for non-executive employees. We recognized non-cash employee and board equity based compensation of \$1,319,629 and \$1,636,906, respectively, for the three and nine months ended September 30, 2017 and \$440,161 and \$1,306,399, respectively, for the three and nine months ended September 30, 2016.

Consulting fees: For the three and nine months ended September 30, 2017, respectively, we incurred consulting fees of \$133,018 and \$189,819. This represented decreases in the amount of \$124,402 or 48% and \$713,213 or 79% compared to the three and nine months ended September 30, 2016. Consulting fees include both cash and non-cash related consulting fees primarily for investor relations, public relations and general consulting services. The decrease in consulting fees for the three and nine months ended September 30, 2017 compared to the nine months ended September 30, 2016 reflects a reduction in activity related to the acquisition of new portfolios as well as a credit recognized during the three months ended March 31, 2017 associated with the mark to market of (3)an option grant issued to a consultant who no longer derives a majority of his compensation from the Company. As a result, the Company must mark to market his option grant on a quarterly basis. The credit for the three months ended March 31, 2017 was partially offset by a mark to market expense of the same option during the three months ended September 30, 2017. During the three ended September 30, 2017, we recognized non-cash equity based consulting expenses of \$42,910 and during the nine months ended September 30, 2017, we recognized a non-cash equity based consulting credit of \$91,228. During the three and nine months ended September 30, 2016, we recognized non-cash equity-based consulting expenses of \$30,038 and \$345,510, respectively.

Professional fees: For the three and nine months ended September 30, 2017, we incurred professional fees of \$616,125 and \$1,686,955, respectively, an increase of \$183,629 or 42% and \$350,754 or 26% over the comparable periods in 2016. Professional fees primarily reflect the costs of professional outside accounting fees, legal fees and audit fees. The increase in professional fees for the three and nine months ended September 30, 2017 over the three and nine months ended September 30, 2016 relate to higher professional outside legal, (4)accounting and audit fees resulting from the costs associated with closing the Fortress restructuring in January 2017, the equity issuance in April 2017, the Convertible Note issuance in August, the restructuring of other indebtedness and the entrance into the merger agreement with GBV. During the three and nine months ended September 30, 2017, we recognized non-cash equity-based professional expenses of \$108 and \$325, respectively, compared to non-cash equity-based professional expenses of \$8,620 and \$25,707, respectively, during the same periods in 2016.

(5)Other general and administrative expenses: For the three and nine months ended September 30, 2017, we incurred other general and administrative expenses of \$213,130 and \$599,464, respectively, an increase of \$29,359 or 16%

for the three months ended September 30, 2017 and a decrease of \$12,820 or 2% over the comparable periods in 2016. General and administrative expenses reflect the other non-categorized operating costs of the Company and include expenses related to being a public company, rent, insurance, technology and other expenses incurred to support the operations of the Company. During the three and nine months ended September 30, 2017, we recognized non-cash equity based other G&A credits of \$1,486 and \$3,072, respectively, compared to non-cash equity-based other G&A expenses of \$12,468 and \$28,448, respectively, during the same periods in 2016.

Table of Contents

Goodwill impairment: For the three and nine months ended September 30, 2017, there was no impairment of goodwill. Based on the Company's decision to end of life one of its portfolios, the Company took an impairment charge during the three and nine months ended September 30, 2016 in the carrying value of the related goodwill in the amount of \$83,000.

Patent impairment: For the three and nine months ended September 30, 2017, the Company took an impairment charge of the carrying value of the Company's Clouding portfolio patents in the amount of \$723,218 and \$723,218, respectively. Based on changes in the expected timing of proceeds from the Clouding portfolio, as well as the impairment of one portfolio during the three months ended September 30, 2016 and two portfolios during the three months ended March 31, 2016, the Company took impairment charges for three and nine months September 30, 2016 in the carrying value of the Company's patents assets in the amount of \$5,531,383 and \$6,525,273, respectively.

We reported operating income (loss) of \$(3,916,979) and \$(9,655,378) for the three and nine months ended September 30, 2017 and operating income (loss) of \$(10,739,792) and \$(1,634,394) for the three and nine months ended September 30, 2016. For the three and nine months ended September 30, 2017, this represented an increase in operating income of \$6,822,813 for the three months ended September 30, 2017 and a decrease in operating income of \$8,020,984 for the three months ended September 30, 2017. The increase in operating income for the three months ended September 30, 2017 results from markedly lower expenses and the decreased income from operations in 2017 relative to 2016 was primarily attributable to lower revenue and higher direct cost of revenues as a percentage of revenue, only partially offset by lower cash and non-cash operating expenses.

Other Income (Expenses)

Total other income (expenses) was \$(2,468,316) and \$(2,675,400) for the three and nine months ended September 30, 2017, respectively, and \$1,093,278 and \$(682,040) for the three and nine months ended September 30, 2016, respectively. For the three and nine months ended September 30, 2016, this represented an increase in other expense of \$3,561,594 and \$1,993,360, respectively.

Income Tax Benefit (Expense)

For the three and nine months ended September 30, 2016, the Company recognized no income tax benefit as a result of the Company's profit. We recognized an income tax expense for the three and nine months ended September 30, 2017 in the amounts of \$(12,191) and \$(29,433), respectively and an income tax benefit in the amount of \$3,347,909 and \$26,974 for the three and nine months ended September 30, 2016, respectively.

Net Income (Loss)

We reported net income (loss) of \$(6,677,486) and \$(12,484,925) for the three and nine months ended September 30, 2017, respectively, and net income (loss) of \$(6,274,410) and \$(2,261,542) for the three and nine months ended September 30, 2016, respectively. For the three and nine months ended September 30, 2017, this represented a decrease in the net income of \$98,881 and \$10,070,751, respectively.

Non-GAAP Reconciliation

Non-GAAP earnings as presented in this Annual Report is a supplemental measure of our performance that is neither required by, nor presented in accordance with, U.S. generally accepted accounting principles (“US GAAP”). Non-GAAP earnings is not a measurement of our financial performance under US GAAP and should not be considered as alternative to net income, operating income, or any other performance measures derived in accordance with US GAAP, or as alternative to cash flow from operating activities as a measure of our liquidity. In addition, in evaluating Non-GAAP earnings, you should be aware that in the future we will incur expenses or charges such as those added back to calculate Non-GAAP earnings. Our presentation of Non-GAAP earnings should not be construed as an inference that our future results will be unaffected by unusual or nonrecurring items.

Non-GAAP earnings has limitations as an analytical tool, and you should not consider it in isolation, or as substitutes for analysis of our results as reported under US GAAP. Some of these limitations are (i) it does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments, (ii) they do not reflect changes in, or cash requirements for, our working capital needs, (iii) it does not reflect interest expense, or the cash requirements necessary to service interest or principal payments, on our debt, (iv) although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Non-GAAP earnings does not reflect any cash requirements for such replacements, (v) it does not adjust for all non-cash income or expense items that are reflected in our statements of cash flows, and (vi) other companies in our industry may calculate this measure differently than we do, limiting its usefulness as comparative measures.

Table of Contents

We compensate for these limitations by providing specific information regarding the US GAAP amounts excluded from such non-GAAP financial measures. We further compensate for the limitations in our use of Non-GAAP financial measures by presenting comparable US GAAP measures more prominently.

We believe that Non-GAAP earnings facilitates operating performance comparisons from period to period by isolating the effects of some items that vary from period to period without any correlation to core operating performance or that vary widely among similar companies. These potential differences may be caused by variations in capital structures (affecting interest expense), tax positions (such as the impact on periods or companies of changes in effective tax rates or net operating losses) and the age and book depreciation of facilities and equipment (affecting relative depreciation expense). We also present Non-GAAP earnings because (i) we believe that this measure is frequently used by securities analysts, investors and other interested parties to evaluate companies in our industry, (ii) we believe that investors will find these measures useful in assessing our ability to service or incur indebtedness, and (iii) we use Non-GAAP earnings internally as benchmark to compare our performance to that of our competitors.

The Company uses a Non-GAAP reconciliation of net income (loss) and earnings (EPS reconciliation loss) per share in the presentation of financial results here. Management believes that this presentation may be more meaningful in analyzing our income generation.

On a Non-GAAP basis, the Company's recorded a Non-GAAP loss of \$(1,448,278) and \$(6,187,993) for the three and nine months ended September 30, 2017, respectively, compared to Non-GAAP loss in the amount of \$(3,235,092) and non-GAAP income of \$10,874,080 for the three and nine months ended September 30, 2016, respectively. The details of those expenses and non-GAAP reconciliation of these non-cash items are set forth below:

	Non-GAAP Reconciliation		Non-GAAP Reconciliation

The following table sets forth the computation of basic and diluted loss per share on a Non-GAAP basis:

	Non-GAAP Reconciliation		Non-GAAP Reconciliation	
	For the Quarter Ended September 30, 2017	For the Quarter Ended September 30, 2016	For the Nine Months Ended September 30, 2017	For the Nine Months Ended September 30, 2016
Non-GAAP net income (loss)	\$(1,448,278)	\$(3,235,092)	\$(6,187,993)	\$10,874,080
Denominator				
Weighted average common shares - Basic	6,270,299	3,761,785	5,564,465	3,736,213
Weighted average common shares - Diluted	6,270,299	3,761,785	5,564,465	3,996,067
Non-GAAP earnings (loss) per common share:				
Non-GAAP earnings (loss) - Basic	\$(0.23) \$(0.86) \$(1.11) \$2.91
Non-GAAP earnings (loss) - Diluted	NA	NA	NA	2.72

Liquidity and Capital Resources

Liquidity is the ability of a company to generate funds to support its current and future operations, satisfy its obligations, and otherwise operate on an ongoing basis. At September 30, 2017, the Company's unrestricted cash balances totaled \$122,172 compared to \$4,998,314 at December 31, 2016 and the Company's restricted cash balances totaled \$3,919,718 at September 30, 2017 and \$0 at December 31, 2016. The decrease in the cash balances of \$4,876,142 resulted primarily from net cash used in operations, offset by cash received upon the issuance of the Convertible Note and equity.

The unrestricted net working capital deficit declined by \$5,323,251 to \$(20,262,835) at September 30, 2017 from \$(14,939,583) at December 31, 2016. The decrease in net working capital resulted primarily from a reduction in the Company's cash as well as the reclassification of all Fortress indebtedness into short-term liabilities in anticipation of the Restructuring.

Cash provided in operating activities was \$(14,805,103) during the nine months ended September 30, 2017 and cash provided in operating activities of was \$11,214,122 during the nine months ended September 30, 2016. The difference between the nine months ended September 30, 2016, during which the Company generated cash from operating activities, and the nine months ended September 30, 2017, during which the Company used cash in operating

activities, is largely tied to the much lower level of revenues during the nine months ended September 30, 2017 as compared to the comparable period in 2016.

Cash provided in investing activities was \$2,765,466 for the nine months ended September 30, 2017 compared to \$(3,561,043) cash used in investing activities for the nine months ended September 30, 2016. The generation of cash in investing activities during the nine months ended September 30, 2017 was primarily related to the disposition of certain patent portfolios, offset slightly by the purchases of property, equipment and other non-patent intangible assets and cash used during the nine months ended September 30, 2016 was primarily the acquisition of new patent portfolios.

Cash provided in financing activities was \$11,066,704 during the nine months ended September 30, 2017 compared to cash provided in financing activities in the amount of \$(8,911,688) during the nine months ended September 30, 2016. Cash generated by financing activities for the nine months ended September 30, 2017 resulted from the issuance of equity, issuance of Convertible Notes, offset by the repayment of some outstanding debt. Cash used in financing activities for the nine months ended September 30, 2016 resulted from the repayment of notes payable related to the acquisition of the Medtech portfolios, the repayment of principal on the Fortress debt and the repayment of other minor debt obligations.

Management is uncertain that the balance of cash and cash equivalents of \$122,172 in unrestricted cash at September 30, 2017 is sufficient to continue to fund the Company's operations through at least the next twelve months and there is no certainty that the Company will achieve the milestones to have the restricted cash released from escrow. The Company's operations are subject to various risks and there is no assurance that changes in the operations of the Company will not require the Company to raise additional cash sooner than planned in order to continue uninterrupted operations. In that event, the Company would seek to raise additional capital from the sale of the Company's securities, from borrowing or from other sources. Should the Company seek to raise capital from the issuances of its securities, such transactions would be subject to the risks of the market for the Company's securities at the time.

Table of Contents

Based on the Company's current revenue and profit projections, management is uncertain that the Company's existing cash and accounts receivables will be sufficient to fund its operations through at least the next twelve months, raising substantial doubt regarding the Company's ability to continue operating as a going concern. If we do not meet our revenue and profit projections or the business climate turns negative, then we will need to:

raise additional funds to support the Company's operations; provided, however, there is no assurance that the Company will be able to raise such additional funds on acceptable terms, if at all. If the Company raises additional funds by issuing securities, existing stockholders may be diluted; and

review strategic alternatives.

If adequate funds are not available, we may be required to curtail our operations or other business activities or obtain funds through arrangements with strategic partners or others that may require us to relinquish rights to certain technologies or potential markets.

Off-balance Sheet Arrangements

We have not entered into any other financial guarantees or other commitments to guarantee the payment obligations of any third parties. We have not entered into any derivative contracts that are indexed to our shares and classified as stockholder's equity or that are not reflected in our consolidated condensed financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not required for smaller reporting companies.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our management is also required to assess and report on the effectiveness of our internal control over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act of 2002 (“Section 404”). Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes of accounting principles generally accepted in the United States. Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2016. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control - Integrated Framework in the 2013 COSO framework.

Due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. However, to the extent possible, we will implement procedures to assure that the initiation of transactions, the custody of assets and the recording of transactions will be performed by separate individuals.

We believe that the foregoing steps if implemented, will help remediate the material weakness identified above, and we will continue to monitor the effectiveness of these steps and make any changes that our management deems appropriate. Due to the nature of this material weakness in our internal control over financial reporting, there is more than a remote likelihood that misstatements which could be material to our annual or interim financial statements could occur that would not be prevented or detected.

Table of Contents

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Changes in Internal Controls.

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

In the normal course of our business of patent monetization, it is generally necessary for us to initiate litigation in order to commence the process of protecting our patent rights. Such litigation is expected to lead to a monetization event. Accordingly, we are, and in the future, expect to become, a party to ongoing patent enforcement related litigation alleging infringement by various third parties of certain patented technologies owned and/or controlled by us. Litigation is commenced by and managed through the subsidiary that owns the related portfolio of patents or patent rights. In connection with our enforcement activities, we are currently involved in multiple patent infringement cases. As of September 30, 2017, the Company is involved into a total of 5 lawsuits against defendants in the following jurisdictions:

United States
District of Delaware 5

Marathon Patent Group, Inc. and Clouding Corp. are currently defendants in a lawsuit captioned as Symantec Corporation v. IP Navigation Group, LLC; Clouding IP, LLC, et al., Los Angeles County Superior Court, Case No.: BC640931. Symantec alleges the following causes of action against Marathon and Clouding in the First Amended Complaint: fraudulent misrepresentation; interference with contractual relations; violation of Business and Professions Code section 17200, et seq.; and accounting. A Post Mediation Status Conference is scheduled for January 24, 2018 (although the parties have not discussed mediation or any other form of alternative dispute resolution). A Final Status Conference is scheduled for March 16, 2018. Trial of the matter is scheduled to commence on March 26, 2018.

Marathon Patent Group, Inc., Doug Croxall and Francis Knuettel II are currently defendants in a lawsuit captioned as Jeffrey Feinberg v. Marathon Patent Group, Inc., Doug Croxall, Francis Knuettel II and Does 1-10, inclusive, Los Angeles County Superior Court, Case No.: BC673128. Mr. Feinberg alleges the following causes of action against Marathon, Doug Croxall and Francis Knuettel II: violation of Section 11 of the Securities Act; violation of Section 12(a)(2) of the Securities Act; violation of Section 15 of the Securities Act; fraud and fraudulent concealment; constructive fraud; and negligent misrepresentation. On November 9, 2017, Mr. Feinberg filed a request for dismissal.

Other than as disclosed herein, we know of no other material, active or pending legal proceedings against us, nor are we involved as a plaintiff in any material proceedings or pending litigation other than in the normal course of business.

Item 1A. Risk Factors.

Not required for smaller reporting companies.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On August 9, 2017, the Company issued 250,000 shares of the Company's Common Stock pursuant to the conversion of 200,000 shares of Series D Convertible Preferred Stock.

On August 29, 2017, the Company issued 200,000 shares in total of the Company's Common Stock to four different vendors in partial or total payment of outstanding invoices.

On September 5, 2017, the Company issued 62,500 shares of the Company's Common Stock pursuant to the conversion of 50,000 shares of Series D Convertible Preferred Stock.
