Magal Security Systems Ltd. Announces 2003 Fourth Quarter and Year-End Results  
Tuesday February 10, 12:01 am ET

- 2003 Revenues Increases 38% to a Record of \$59.4 Million -
- Operating Income up 85% from the year 2002 -

YAHUD, Israel, Feb. 10 /PRNewswire-FirstCall/ -- Magal Security Systems Ltd. (Nasdaq; TASE: MAGS) today announced its consolidated financial results for the three- and twelve-month periods ended December 31, 2003.

The year 2003 was a record year for Magal both in revenues and operating income.

Total revenues for the fourth quarter of 2003 reached US\$17.7 million, operating income reached US\$1.1 million and net income reached US\$529,000, an increase of 32 percent, 142 percent and 47 percent respectively, compared to the fourth quarter of 2002.

The increase in revenues, operating income and net income, in the fourth quarter, compared with the third quarter of 2003, was 15 percent, 37 percent and 5 percent respectively.

Total revenues for the year 2003 reached US\$59.4 million, operating income was US\$4.3 million and net income reached US\$2.4 million, an increase of 38 percent, 85 percent and 27 percent respectively, compared to the year 2002.

Excluding the impact of Smart Interactive Systems, Inc (SIS), the revenues for the year 2003 were US\$58.9 million, operating income was US\$6.2 million and net income was US\$4.3 million.

Research & Development expenses for the year 2003 increased by 53 percent, an increase that was caused mainly due to expediting the R&D of three new products Magal has developed, out of which two were already announced at the beginning of 2004. These were the Fortis Integrated Command and Control System and PipeGuard Pipeline Security System. The third one will be announced shortly.

Selling and G&A expenses for the year 2003 reached US\$16.9 million, an increase of 24% compared to the year 2002.

A major increase of US\$1.2 million was in the financial expenses, compared to the year 2002. This was due to the devaluation of the US dollar against the Canadian Dollar and the Israeli New Shekel, as in both Canada and Israel we have our major operations.

Earnings per share for the fourth quarter reached US\$0.07 per fully diluted share, an increase of 40 percent compared with the same period of last year. For the total year 2003, earnings per share reached US\$0.30 per fully diluted share, an increase of 30 percent compared with the year 2002.

## Edgar Filing: MAGAL SECURITY SYSTEMS LTD - Form 6-K

Commenting on the results, Mr. Jacob Even-Ezra, Chairman of Magal, said: "Based on the backlog of orders we have in hand, as well as the advanced negotiations for new contracts and the new products we have launched, we believe that the growth in revenues and operating income will continue in 2004 as well".

Mr. Even-Ezra added: "Management has decided to cut the expenses of Smart Interactive Systems in order to reach the breakeven point as soon as possible, and not later than the end of 2004".

### About Magal Security Systems, Ltd.:

Magal Security Systems Ltd. (Magal) is engaged in the development, manufacturing and marketing of computerized security systems, which automatically detect, locate and identify the nature of unauthorized intrusions. Magal also supplies video monitoring services through Smart Interactive Systems, Inc., a subsidiary established in the U.S. in June 2001. The Company's products are currently used in more than 70 countries worldwide to protect national borders, airports, correctional facilities, nuclear power stations and other sensitive facilities from terrorism, theft and other threats.
