(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common stock, \$0.50 par value	New York Stock Exchange and the Professional Segment of
Class B common stock, \$0.50 par value	NYSE Euronext in Paris NYSE Amex

Securities registered pursuant to section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. YES NO

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. YES NO

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities and Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). YES NO

The aggregate market value of the registrant's voting stock (common stock) held by non-affiliates of the registrant as of June 30, 2011, the last business day of the registrant's most recently completed second fiscal quarter, was approximately \$1,712 million, based on the closing sale price of the registrant's common stock on that date. For purposes of determining this number all executive officers and directors of the registrant as of June 30, 2011 were considered to be affiliates of the registrant. This number is provided only for the purposes of this report on Form 10-K and does not represent an admission by either the registrant or any such person as to the status of such person.

Edgar Filing: WATSCO INC - Form 10-K

The number of shares of common stock outstanding as of February 24, 2012 was (i) 28,359,924 shares of Common stock, excluding treasury shares of 6,322,650, and (ii) 4,660,931 shares of Class B common stock, excluding treasury shares of 48,263.

DOCUMENTS INCORPORATED BY REFERENCE

Certain information required by Parts I and II is incorporated by reference from the Registrant's 2011 Annual Report, attached hereto as Exhibit 13. The information required by Part III (Items 10, 11, 12, 13 and 14) is incorporated by reference from the Registrant's definitive proxy statement for the 2012 annual meeting of shareholders (to be filed pursuant to Regulation 14A).

PART I

ITEM 1. BUSINESS

General

Watsco, Inc. and its subsidiaries (collectively, *Watsco*, or *we, us or our*) was incorporated in 1956 and is the largest distributor of air conditioning, heating and refrigeration equipment and related parts and supplies (*HVAC/R*) in the HVAC/R distribution industry. At December 31, 2011 we operated from 542 locations in 38 states, Mexico and Puerto Rico with additional market coverage on an export basis to Latin America and the Caribbean, through which we serve more than 50,000 contractors and dealers that service the replacement and new construction markets. Our revenues in HVAC/R distribution have increased from \$64.1 million in 1989 to \$2.98 billion in 2011 via a strategy of acquiring companies with established market positions and subsequently building revenues and profit through a combination of adding locations, products, services and other initiatives.

Our principal executive office is located at 2665 South Bayshore Drive, Suite 901, Miami, Florida 33133, and our telephone number is (305) 714-4100. Our website address on the Internet is www.watsco.com and e-mails may be sent to info@watsco.com. The reference to our website address does not constitute incorporation by reference of the information contained on, or linked to, the website and none of such information is part of this report.

Residential Central Air Conditioning, Heating and Refrigeration Industry

The HVAC/R distribution industry is highly fragmented with more than 2,300 distribution companies. The industry is well-established, having had its primary period of growth during the post-World War II era with the advent of affordable central air conditioning and heating systems for both residential and commercial applications.

Based on data published in 2011 by the Air Conditioning, Heating and Refrigeration Institute and other available data, we estimate the market for residential central air conditioning, heating and refrigeration equipment and related parts and supplies in the U.S. is approximately \$30.0 billion. Residential central air conditioners are manufactured primarily by seven major companies that together account for approximately 90% of all units shipped in the U.S. each year. These companies are: Carrier Corporation (*Carrier*), a subsidiary of United Technologies Corporation, Goodman Manufacturing Company, L.P. (*Goodman*), a subsidiary of Goodman Global, Inc., Rheem Manufacturing Company (*Rheem*), Trane Inc., a subsidiary of Ingersoll-Rand Company Limited, York International Corporation, a subsidiary of Johnson Controls, Inc., Lennox International, Inc. and Nordyne Corporation (*Nordyne*), a subsidiary of Nortek Corporation. These manufacturers distribute their products through a combination of factory-owned and independent distributors who, in turn, supply the equipment and related parts and supplies to contractors and dealers nationwide that sell to and install the products for consumers, businesses and other end-users.

Central air conditioning and heating equipment is sold to the residential replacement market, the commercial market and residential new construction market. The replacement market has increased in importance over the past several years as a result of the aging of the installed base of residential central air conditioners and furnaces, the introduction of new higher energy efficient models, the remodeling and expansion of existing homes, the addition of central air conditioning to homes that previously had only heating products and consumers' overall unwillingness to live without air conditioning or heating products. The mechanical life of central air conditioning and furnaces varies by geographical region due to usage and is estimated to range from 8 to 20 years. According to data published by the Energy Information Administration, there are approximately 89 million central air conditioning and heating systems installed in the U.S. that have been in service for more than 10 years. Many installed units are reaching the end of their useful lives, thus providing a growing and stable replacement market.

We also sell products to the refrigeration market. These products include condensing units, compressors, evaporators, valves, refrigerant, walk-in coolers and ice machines for industrial and commercial applications. We distribute products manufactured by Copeland Compressor Corporation, a subsidiary of Emerson Electric Co. (*Emerson*), E. I. Du Pont De Nemours and Company (*DuPont*), Mueller Industries, Inc., Owens Corning Insulating Systems, LLC and The Manitowoc Company, Inc. (*Manitowoc*).

Business Strategy

We have a *buy and build* strategy that has produced substantial long-term growth in revenues and profits. The *buy* component of the strategy focuses on acquiring market leaders to either expand into new geographic areas or gain additional market share in existing markets. We employ a disciplined and conservative approach that seeks opportunities that fit well-defined financial and strategic criteria. The *build* component of the strategy focuses on implementing a growth culture at acquired companies, by adding products and locations to better serve customers,

Edgar Filing: WATSCO INC - Form 10-K

exchanging ideas and business concepts amongst the executive management teams and investing in new technologies. Newly acquired businesses have access to our capital resources and established vendor relationships to provide their customers with an expanded array of product lines on favorable terms and conditions with an intensified commitment to service.

Table of Contents

Strategy in Existing Markets

Our strategy for growth in existing markets focuses on customer service and product expansion to satisfy the needs of the higher growth, higher margin replacement market, in which customers generally demand immediate, convenient and reliable service. We respond to this need by (i) offering a broad range of product lines, including the necessary equipment, parts and supplies to enable a contractor to install or repair a central air conditioner, furnace or refrigeration system, (ii) maintaining a strong density of warehouse locations for increased customer convenience, (iii) maintaining well-stocked inventories to ensure that customer orders are filled in a timely manner, (iv) providing a high degree of technical expertise at the point of sale and (v) developing and implementing technology to further enhance customer service capabilities. We believe these concepts provide a competitive advantage over smaller, less-capitalized competitors that are unable to commit resources to open and maintain additional locations, implement technological business solutions, provide the same range of products, maintain the same inventory levels or attract the wide range of expertise that is required to support a diverse product offering. In some geographic areas, we believe we have a competitive advantage over factory-operated distributor networks that typically do not maintain inventories of parts and supplies that are as diversified as ours and which have fewer warehouse locations than we do, which makes it more difficult for these competitors to meet the time-sensitive demands of the replacement market.

In addition to the replacement market, we sell to the new construction market. We believe our reputation for reliable, high-quality service and relationships with contractors, who may serve both the replacement and new construction markets, allow us to compete effectively in these markets.

Acquisition Strategy

We focus on acquiring businesses that either complement our current presence in existing markets or establish a presence in new geographic markets. Since 1989, we have acquired 58 HVAC/R distribution businesses, five of which currently operate as primary operating subsidiaries. The other smaller acquired distributors have been integrated into or are under the management of our primary operating subsidiaries. Through a combination of sales and market share growth, opening of new locations, tuck-in acquisitions, expansion of product lines, improved pricing and programs that have resulted in higher gross profit, performance incentives and a culture of equity value for key leadership, we have produced substantial sales and earnings growth post-acquisition. We continue to pursue additional strategic acquisitions and/or joint ventures to allow further penetration in existing markets and expansion into new geographic markets.

Product Line Expansion

We actively seek new or expanded territories of distribution from our key equipment suppliers. We currently maintain significant relationships with Carrier, Rheem, Goodman and Nordyne. We continually evaluate new parts and supply products to support equipment sales and further enhance service to our customers. This initiative includes increasing the product offering with existing vendors and identifying new product opportunities through traditional and non-traditional supply channels. We have also introduced private-label products as a means to obtain market share and grow revenues. We believe that our private-label branded products complement our existing product offerings at selected locations, based on customer needs and the particular market position and price of these products.

Operating Philosophy

Our acquired subsidiaries operate in a manner that builds upon the long-term relationships they have established between their suppliers and their customers. Typically, we seek to maintain the identity and culture of acquired businesses by retaining their historical trade names, management teams and sales organizations and by continuing their product brand-name offerings. We believe this strategy allows us to build on the value of the acquired operations by creating additional sales opportunities while providing an attractive exit strategy for the owners of companies that are acquired.

We maintain a specialized functional support staff at our corporate headquarters to support our subsidiaries' strategies for growth in their respective markets. Such functional support includes specialists in finance, accounting, product procurement, treasury and working capital management, tax planning, risk management and safety. Certain general and administrative expenses are targeted for cost savings by leveraging the overall business volume and improving operating efficiencies.

Technology

Our technology initiatives include: (i) implementation of effective point-of-sale systems that allow timely and effective customer service, including up-to-date pricing, credit checks, credit card processing and inventory availability; (ii) enabling connectivity with our suppliers and by our customers to the relevant components of our subsidiaries' business software; and (iii) developing our website, ACDoctor.com, that educates

Edgar Filing: WATSCO INC - Form 10-K

consumers about energy efficient HVAC solutions and financial incentives related to the installation of energy efficient systems and connects them with high quality contractors.

Table of Contents

DESCRIPTION OF BUSINESS

Products

We sell an expansive line of products and maintain a diverse mix of inventory to meet our customers' immediate needs and seek to provide products a contractor would generally require when installing or repairing a central air conditioner, furnace or refrigeration system on short notice. The cooling capacity of air conditioning units is measured in tons. One ton of cooling capacity is equivalent to 12,000 British Thermal Units (BTUs) and is generally adequate to air condition approximately 500 square feet of residential space. The products we distribute consist of: (i) equipment, including residential central air conditioners ranging from 1-1/2 to 5 tons, gas, electric and oil furnaces ranging from 50,000 to 150,000 BTUs, commercial air conditioning and heating equipment and systems ranging from 1-1/2 to 25 tons and other specialized equipment, (ii) parts, including replacement compressors, evaporator coils, motors and other component parts and (iii) supplies, including thermostats, insulation material, refrigerants, ductwork, grills, registers, sheet metal, tools, copper tubing, concrete pads, tape, adhesives and other ancillary supplies.

Sales of HVAC equipment accounted for 61% and 60% of our revenues for the years ended December 31, 2011 and 2010, respectively. Sales of other HVAC products (currently sourced from more than 800 vendors) comprised 32% and 33% of our revenues for the years ended December 31, 2011 and 2010, respectively. Sales of commercial refrigeration products accounted for 7% of our revenues for both the years ended December 31, 2011 and 2010.

Distribution and Sales

At December 31, 2011, we operated from 542 locations, a vast majority of which are located in regions that we believe have favorable demographic trends. We maintain large inventories at each warehouse location and either deliver products to customers using one of our 666 trucks or a third party logistics provider, or we make products available for pick-up at the location nearest to the customer. We have approximately 725 commissioned salespeople, averaging more than 10 years of experience in the HVAC/R distribution industry.

The industry's largest markets for HVAC/R products are in the U.S. Sun Belt. Accordingly, the majority of our distribution locations are in the Sun Belt, with the highest concentrations in Florida and Texas. The Sun Belt markets have been a strategic focus of ours given the size of the markets, the reliance by homeowners and businesses on HVAC/R products to maintain a comfortable indoor environment, the population growth in the Sun Belt over the last 40 years, which has led to a substantial installed base requiring replacement, a shorter useful life for equipment given the hours of operation in the Sun Belt and the focus by utilities on consumer incentives designed to promote replacement of HVAC/R equipment in an effort to improve energy efficiency.

Joint Ventures with Carrier Corporation

In 2009, we formed a joint venture with Carrier, which we refer to as Carrier Enterprise I, in which Carrier contributed 95 of its company-owned locations in 13 U.S. Sun Belt states and Puerto Rico and its export division in Miami, Florida and we contributed 15 locations that distributed Carrier products. We have a 60% controlling interest in Carrier Enterprise I, Carrier has a 40% noncontrolling interest and we have options to purchase from Carrier up to an additional 20% interest in Carrier Enterprise I (10% in July 2012 and 10% in July 2014).

Edgar Filing: WATSCO INC - Form 10-K

In 2011, we formed a second joint venture with Carrier and completed two additional transactions. In April 2011, Carrier contributed 28 of its company-owned locations in eight Northeast U.S states and we contributed 14 locations in the Northeast U.S. In August 2011, we purchased Carrier's distribution operations in Mexico, which included seven locations (we refer to the foregoing Northeast locations and the Mexico operations together as Carrier Enterprise II). We have a 60% controlling interest in Carrier Enterprise II and Carrier has a 40% noncontrolling interest. Neither we nor Carrier have any options to purchase additional ownership interests in Carrier Enterprise II.

Table of Contents

Combined, the joint ventures with Carrier represented 55% of our revenues in 2011. Refer to Note 8 to our consolidated financial statements for a discussion of acquisitions.

The business and affairs of the joint ventures are controlled, directed and managed exclusively by Carrier Enterprise I's and Carrier Enterprise II's board of directors (the Boards) pursuant to the related operating agreement. The Boards have full, complete and exclusive authority, power and discretion to manage and control the business, property and affairs of the joint ventures and to make all decisions regarding those matters and to perform any and all other acts or activities customary or incident to the management of the joint ventures, including approving distributions. The Boards are composed of five directors, of whom three directors represent our 60% controlling interest and two directors represent Carrier's 40% noncontrolling interest. Matters presented to the Boards for vote are considered approved or consented to upon the receipt of the affirmative vote of at least a majority of all directors entitled to vote with the exception of certain governance matters, which require joint approval.

Customers and Customer Service

Air conditioning and heating contractors and dealers that install HVAC/R products in homes and businesses must be licensed given the highly-regulated nature of the products, refrigerant, natural gas and building and zoning requirements. We currently serve more than 50,000 contractors and dealers who service the replacement and new construction markets for residential and light commercial central air conditioning, heating and refrigeration systems. No single customer in 2011, 2010 or 2009 represented more than 1% of our consolidated revenues. We focus on providing products where and when the customer needs them, technical support by phone or on site as required, and quick and efficient service at our locations. Increased customer convenience is also provided through e-commerce, which allows customers to access information online 24 hours a day, seven days a week to search for desired products, verify inventory availability, obtain pricing, place orders, check order status, schedule pickup or delivery times and make payments. We believe we compete successfully with other distributors primarily on the basis of an experienced sales organization, strong service support, maintenance of well-stocked inventories, and density of warehouse locations, high quality reputation, broad product lines and the ability to foresee customer demand for new products.

Key Suppliers

We have significant relationships with Carrier, Rheem, Goodman, Nordyne, Emerson, Manitowoc and DuPont, each of which is a leading manufacturer of HVAC/R products in the U.S. Each manufacturer has a well-established reputation of producing high-quality, competitively-priced products. The manufacturers' current product offerings, quality, serviceability and brand-name recognition allow us to operate favorably relative to our competitors. To maintain brand-name recognition, the manufacturers of air conditioning and heating equipment provide national advertising and participate with us in cooperative advertising programs and promotional incentives that are targeted to both dealers and end-users. We estimate that the replacement market for air conditioning products currently accounts for approximately 85% of industry sales in the U.S., and we expect this percentage to increase as units installed in the past 20 years wear out and get replaced or updated to more energy-efficient models.

Approximately 71%, 72% and 66% of purchases in 2011, 2010 and 2009, respectively, were made from the four key HVAC/R equipment suppliers; with the largest supplier, Carrier and its affiliates, accounting for 54%, 52% and 41% of all purchases made in 2011, 2010 and 2009, respectively. A significant interruption by Carrier, or the other suppliers, in the delivery of products could impair our ability to maintain current inventory levels and could adversely affect our financial results. Future financial results are also materially dependent upon the continued market acceptance of these manufacturers' products and their ability to continue to manufacture products that comply with laws relating to environmental and efficiency standards. See Business Risk Factors in Item 1A.

Distribution Agreements

We have entered into distribution agreements with several of our key suppliers either on an exclusive or non-exclusive basis for terms generally ranging from one to ten years. Certain of the distribution agreements contain provisions that restrict or limit the sale of competitive products in the geographic markets served. Other than in the geographic markets where such restrictions and limitations apply, we may distribute other manufacturers' lines of air conditioning or heating equipment.

We maintain separate and distinct trade name and distribution agreements with Carrier. These agreements provide us the use of various Carrier brand names and distribution rights for certain Carrier HVAC brands and products on an exclusive basis in specified territories. The trade name and distribution agreements are not subject to a stated term or expiration date. See *Supplier Concentration* in Business Risk Factors in Item 1A.

Seasonality

Edgar Filing: WATSCO INC - Form 10-K

Sales of residential central air conditioners, heating equipment and parts and supplies have historically been seasonal. See Business Risk Factors in Item 1A.

Competition

We operate in highly competitive environments. See Business Risk Factors in Item 1A.

Employees

We had approximately 4,300 employees as of December 31, 2011, substantially all of whom are non-union employees. Most of these employees are employed on a full-time basis, and our relations with employees are good.

Table of Contents

Order Backlog

Order backlog is not a material aspect of our business and no material portion of our business is subject to government contracts.

Government Regulations, Environmental and Health and Safety Matters

Our business is subject to federal, state and local laws and regulations relating to the storage, handling, transportation and release of hazardous materials into the environment. These laws and regulations include the Clean Air Act, relating to minimum energy efficiency standards of HVAC systems and the production, servicing and disposal of certain ozone-depleting refrigerants used in such systems, including those established at the Montreal Protocol in 1992 concerning the phase-out of the production of CFC-based refrigerants on January 1, 2010 for use in new equipment. We are also subject to regulations concerning the transport of hazardous materials, including regulations adopted pursuant to the Motor Carrier Safety Act of 1990. Our operations are also subject to health and safety requirements including the Occupational, Safety and Health Act. We believe that the business is operated in compliance with all applicable federal, state and local provisions relating to the protection of the environment, transport of hazardous materials and health and safety requirements. In addition, we could be affected by future laws or regulations imposed in response to concerns over climate change.

Financial Information About Geographic Areas

Our operations are primarily within the U.S. and Puerto Rico. Products are sold on an export-only basis to portions of Latin America and the Caribbean Basin and export sales were approximately 4% of total revenues in 2011, 2010 and 2009. In July 2011, we acquired seven locations in Mexico that represented approximately 1% of consolidated revenues for 2011.

ADDITIONAL INFORMATION

Filings with the Securities and Exchange Commission

As a public company, we regularly file reports and proxy statements with the Securities and Exchange Commission (SEC). These reports are required by the Securities Exchange Act of 1934, as amended, and include, but are not limited to:

annual reports on Form 10-K;

quarterly reports on Form 10-Q;

current reports on Form 8-K and

proxy statements on Schedule 14A.

The public may read and copy any of the materials we file with the SEC at the SEC's Public Reference Room at 100 F. Street N.E., Washington, DC 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site at www.sec.gov that contains the reports, proxy and information statements, and other information that we file electronically.

We make available free of charge access to our SEC filings as soon as reasonably practicable after such materials are electronically filed with or furnished to the SEC through our website at www.watsco.com. Other reports filed with the SEC under the Securities Exchange Act of 1934, as amended, are also available including the proxy statements and reports filed by officers and directors under Section 16(a) of that Act. These reports may be found on our website by selecting the option entitled "SEC Filings" under the "Investor Relations" section of the website. The reference to our website address does not constitute incorporation by reference of the information contained on our website and none of such information is part of this report.

ITEM 1A. RISK FACTORS

Business Risk Factors

Supplier Concentration

Our purchases from Carrier and its affiliates comprised 54% of all purchases made during 2011. Significant relationships currently exist with four of the seven major HVAC equipment manufacturers; and purchases from these equipment suppliers, including Carrier, comprised 71% of all purchases made in 2011. Given the significant concentration of our supply chain, particularly with Carrier, any significant interruption by the manufacturers or a termination of a distribution agreement could temporarily disrupt the operations of certain subsidiaries. Additionally, our operations are also materially dependent upon the continued market acceptance of these manufacturers' products and their ability to continue to manufacture products that are competitive and that comply with laws relating to environmental and efficiency standards. Our inability to obtain products from one or more of these manufacturers or a decline in market acceptance of these manufacturers' products could have a material adverse effect on our results of operations, cash flows and liquidity.

Table of Contents

We maintain separate and distinct trade name distribution agreements with Carrier. These agreements provide us the use of various Carrier brand names and distribution rights for certain Carrier HVAC brands and products on an exclusive basis in specified territories. The trade name and distribution agreements are not subject to a stated term or expiration date.

We also maintain distribution agreements with our other key equipment suppliers, either on an exclusive or non-exclusive basis, for terms generally ranging from one to ten years. Certain of the distribution agreements contain provisions that restrict or limit the sale of competitive products in the markets served. Other than the markets where such restrictions and limitations may apply, we may distribute other manufacturers lines of air conditioning or heating equipment.

Risks Inherent in Acquisitions

As part of our strategy, we intend to pursue additional acquisitions of complementary businesses. If we complete future acquisitions and/or joint ventures, we may be required to incur or assume additional debt and/or issue additional shares of our common stock as consideration, which will dilute our existing shareholders' ownership interest in us and may affect our results of operations. Growth through acquisitions involves a number of risks, including, but not limited to, the following:

the ability to identify and consummate complementary acquisition candidates;

the successful operation and/or integration of acquired companies in an effective manner;

diversion of management's attention from other daily functions;

issuance by us of equity securities that would dilute ownership of our existing shareholders;

incurrence and/or assumption of significant debt and contingent liabilities; and

possible loss of key employees and/or customer relationships of the acquired companies.

In addition, acquired companies may have liabilities that we failed, or were unable, to discover in the course of performing due diligence investigations. We cannot assure you that the indemnification granted to us by sellers of acquired companies will be sufficient in amount, scope or duration to fully offset the possible liabilities associated with businesses or properties that we assume upon consummation of an acquisition. We may learn additional information about our acquired businesses that materially adversely affect us, such as unknown or contingent liabilities and liabilities related to compliance with applicable laws. Any such liabilities, individually or in the aggregate, could have a material adverse effect on our business.

Failure to successfully manage the operational challenges and risks associated with, or resulting from, acquisitions could adversely affect our results of operations, cash flows and liquidity.

Competition

We operate in highly competitive environments. We compete with a number of distributors and also with several air conditioning and heating equipment manufacturers that distribute a significant portion of their products through their own distribution organizations in certain markets. Competition within any given geographic market is based upon product availability, customer service, price and quality. Competitive pressures or other factors could cause our products or services to lose market acceptance or result in significant price erosion, all of which would have a material adverse effect on our results of operations, cash flows and liquidity.

Decline in Economic Conditions

Edgar Filing: WATSCO INC - Form 10-K

The global and U.S. economy experienced a significant contraction in 2008, including sharply reduced availability of business and consumer credit. We rely on the capital markets as well as the credit markets to meet our financial commitments and short-term liquidity needs if internal funds are not available from our operations. Disruptions in the capital and credit market, such as those that began in 2008, could adversely affect our access to liquidity needed for our business. Any long-term disruption could require us to take measures to conserve cash until the markets stabilize or until alternative credit arrangements or other funding for our business needs can be arranged. Such measures could include reducing or eliminating dividend payments, deferring capital expenditures and reducing or eliminating discretionary uses of cash.

A decline in economic conditions and lack of availability of business and consumer credit could have an adverse effect on our business. Any capital and credit market disruption could cause broader economic downturns, which may lead to reduced demand for our products and increased incidence of customers' inability to pay their accounts. Further, bankruptcies or similar events by customers may cause us to incur bad debt expense at levels higher than historically experienced. Also, our suppliers may potentially be impacted causing disruption or delay of product availability. These events would adversely impact our results of operations, cash flows and financial position. Additionally, if financial institutions that have extended credit commitments to us are adversely affected by the conditions of the capital and credit markets, they may become unable to fund borrowings under their credit commitments to us, which could have an adverse impact on our financial condition and our ability to borrow funds, if needed, for working capital, acquisitions, capital expenditures and other corporate purposes.

Table of Contents

Seasonality

Sales of residential central air conditioners, heating equipment and parts and supplies have historically been seasonal. Furthermore, profitability can be impacted favorably or unfavorably based on the severity or mildness of weather patterns during summer or winter selling seasons. Demand related to the residential central air conditioning replacement market is typically highest in the second and third quarters, and demand for heating equipment is usually highest in the fourth quarter. Demand related to the new construction sectors throughout most of the markets is fairly even during the year except for dependence on housing completions and related weather and economic conditions.

Dependence on Key Personnel

Much of our future success depends on the skills, experience and services of senior management personnel. The loss of any of our executive officers or other key senior management personnel could harm our business. We must continue to recruit, retain and motivate management and other employees sufficiently in order to both maintain our current business and to execute our strategic initiatives. Our success also depends substantially on the contributions and abilities of our store employees who we rely on to give customers a superior in-store experience. Accordingly, our performance depends on our ability to recruit and retain high quality employees to work in and manage our stores. If we are unable to recruit, retain and motivate employees sufficiently in order to maintain our current business and support our projected growth and expansion, our business and financial performance may be adversely affected.

Foreign Currency Exchange Rate Fluctuations

Our operations in Mexico generally consider their functional currency to be the U.S. dollar since the majority of their transactions are denominated in U.S dollars. Foreign currency exchange rates and fluctuations may have an impact on transactions denominated in Mexican Pesos, and therefore, could adversely affect our financial performance.

General Risk Factors

Goodwill and Intangibles

At December 31, 2011, goodwill and intangibles represented approximately 31% of our total assets. The recoverability of goodwill and indefinite lived intangibles is evaluated at least annually and when events or changes in circumstances indicate that the carrying amounts may not be recoverable. The identification and measurement of goodwill impairment involves the estimation of the fair value of our reporting unit and contains uncertainty because management must use judgment in determining appropriate assumptions to be used in the measurement of fair value. The estimates of fair value of our reporting unit and indefinite lived intangibles are based on the best information available as of the date of the assessment and incorporates management's assumptions about expected future cash flows and contemplates other valuation techniques. Future cash flows can be affected by changes in the industry, a declining economic environment or market conditions. We cannot assure you that we will not suffer material impairments to goodwill in the future.

Risks Related to Insurance Coverage

We carry general liability, comprehensive property damage, workers' compensation, health benefits and other insurance coverage that management considers adequate for the protection of its assets and operations. There can be no assurance, however, that the coverage limits of such policies will be adequate to cover losses and expenses for lawsuits brought or which may be brought against us. A loss in excess of insurance coverage could have a material adverse effect on our financial position and/or profitability. Certain self-insurance risks for casualty insurance programs and health benefits are retained and reserves are established based on claims filed and estimates of claims incurred but not yet reported. Assurance cannot be provided that actual claims will not exceed present estimates. Exposure to catastrophic losses has been limited by maintaining excess and aggregate liability coverage and implementing stop-loss control programs.

Control by Existing Shareholder

As of December 31, 2011, Albert H. Nahmad, our Chairman and Chief Executive Officer, a limited partnership and various trusts controlled by him, collectively had beneficial ownership of approximately 54% of the combined voting power of our outstanding Common and Class B common stock. Based on Mr. Nahmad's stock ownership and the stock ownership of the limited partnership and various trusts controlled by him, Mr. Nahmad has the voting power to elect all but three members of our nine-person Board of Directors and to control most corporate actions requiring shareholder approval.

Information about Forward-Looking Statements

Edgar Filing: WATSCO INC - Form 10-K

This Form 10-K contains or incorporates by reference statements that are not historical in nature and that are intended to be, and are hereby identified as, forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995, including statements regarding, among other items, (i) economic conditions, (ii) business and acquisition strategies, (iii) potential acquisitions and/or joint ventures, (iv) financing plans and (v) industry, demographic and other trends affecting

Table of Contents

our financial condition or results of operations. These forward-looking statements are based largely on management's current expectations and are subject to a number of risks, uncertainties and changes in circumstances, certain of which are beyond their control.

Actual results could differ materially from these forward-looking statements as a result of several factors, including, but not limited to:

general economic conditions;

competitive factors within the HVAC/R industry;

effects of supplier concentration;

fluctuations in certain commodity costs;

consumer spending;

consumer debt levels;

new housing starts and completions;

capital spending in the commercial construction market;

access to liquidity needed for operations;

seasonal nature of product sales;

weather conditions;

insurance coverage risks;

federal, state and local regulations impacting our industry and products;

prevailing interest rates;

refinancing of revolving credit agreements with satisfactory terms;

foreign currency exchange rate fluctuations; and

the continued viability of our business strategy.

In light of these uncertainties, there can be no assurance that the forward-looking information contained herein will be realized or, even if substantially realized, that the information will have the expected consequences or effects on us or our business or operations. A discussion of certain of these risks and uncertainties that could cause actual results to differ materially from those contained in such forward-looking statements is set forth in this Item 1A and included in our 2011 Annual Report in the section captioned Management's Discussion and Analysis of Financial Condition and Results of Operations, which section is incorporated in this Annual Report on Form 10-K by reference. Forward-looking statements speak only as of the date the statements were made. We assume no obligation to update forward-looking information or the discussion of such risks and uncertainties to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except to the extent required by applicable law.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our main properties include warehousing and distribution facilities, trucks and administrative office space.

Warehousing and Distribution Facilities

At December 31, 2011, we operated 542 warehousing and distribution facilities across 38 states, Mexico and Puerto Rico, having an aggregate of approximately 13.1 million square feet of space, of which approximately 12.7 million square feet is leased. The majority of these leases are for terms of three to five years. We believe that our facilities are generally sufficient to meet our present operating needs.

Trucks

At December 31, 2011, we operated 666 ground transport vehicles, including delivery and pick-up trucks, vans and tractors. Of this number, 352 trucks were leased and the rest were owned. We believe that the present size of our truck fleet is adequate to support our operations.

Administrative Facility

Senior management and support staff are located at our corporate headquarters in Miami, Florida in approximately 6,000 square feet of owned space.

Table of Contents

ITEM 3. LEGAL PROCEEDINGS

We are involved in litigation incidental to the operation of our business. We vigorously defend all matters in which we or our subsidiaries are named defendants and, for insurable losses, maintain significant levels of insurance to protect against adverse judgments, claims or assessments that may affect us. Although the adequacy of existing insurance coverage and the outcome of any legal proceedings cannot be predicted with certainty, based on the current information available, we do not believe the ultimate liability associated with any known claims or litigation will have a material adverse impact to our financial condition or results of operations.

ITEM 4. MINE SAFETY DISCLOSURE

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Stock Exchange Information, Common Share Price Performance and Dividends

Our Common stock is listed on the New York Stock Exchange and the Professional Segment of NYSE Euronext in Paris under the ticker symbol WSO and our Class B common stock is listed on the NYSE Amex under the ticker symbol WSOB.

Our 2011 Annual Report contains Information on Common Stock, which identifies the markets in which our common stocks are being traded and contains the high and low sales prices and dividend information for the years ended December 31, 2011 and 2010, and is incorporated herein by reference.

Shareholder Return Performance

The following graph compares the cumulative five-year total return attained by holders of our Common stock and Class B common stock relative to the cumulative total returns of the NYSE Amex Composite index, the S&P MidCap 400 index and a customized peer group of companies, which are: Beacon Roofing Supply, Inc., Interline Brands, Inc., Lennox International Inc., Pool Corp and WESCO International, Inc. An investment of \$100 (with reinvestment of all dividends) is assumed to have been made in our common stock, in each index and in the peer group on December 31, 2006 and its relative performance is tracked through December 31, 2011.

Table of Contents**COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*****Among Watsco, Inc., the NYSE Amex Composite Index,****the S&P MidCap 400 Index and a Peer Group**

*\$100 invested on 12/31/06 in stock or index, including reinvestment of dividends.

Fiscal year ending December 31.

The stock price performance included in this graph is not necessarily indicative of future stock price performance.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

During the quarter ended December 31, 2011, there were no purchases of our equity securities made by us or on our behalf by any affiliated purchaser (as such term is defined in Rule 10b-18(a)(3) of the Securities Exchange Act of 1934, as amended). Under our current program, which began in September 1999 and which authorizes the repurchase of up to 7.5 million shares of our common stock, shares may be purchased in the open market or in privately negotiated transactions. Through December 31, 2011, 6.4 million shares of common stock have been repurchased since the inception of the program. The repurchase of the remaining 1.1 million shares authorized for repurchase is subject to certain restrictions included in our revolving credit agreements.

Dividends

Cash dividends per share of \$2.23, \$2.04 and \$1.89 for both Common and Class B common stock were paid in 2011, 2010 and 2009, respectively. Future dividends will be declared and paid at the sole discretion of the Board of Directors and will depend upon such factors as cash flow generated by operations, profitability, financial condition, cash requirements, restrictions under our revolving credit agreements, future prospects and other factors deemed relevant by our Board of Directors.

Table of Contents

ITEM 6. SELECTED FINANCIAL DATA

Our 2011 Annual Report contains Selected Consolidated Financial Data and is incorporated herein by reference.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our 2011 Annual Report contains Management's Discussion and Analysis of Financial Condition and Results of Operations and is incorporated herein by reference.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our 2011 Annual Report contains Quantitative and Qualitative Disclosures about Market Risk and is incorporated herein by reference.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Our 2011 and 2010 Consolidated Balance Sheets and other consolidated financial statements for the years ended December 31, 2011, 2010 and 2009, together with the report thereon of KPMG LLP dated February 29, 2012 in our 2011 Annual Report are incorporated herein by reference.

The 2011 and 2010 unaudited Selected Quarterly Financial Data appearing in our 2011 Annual Report is incorporated herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) that are, among other things, designed to ensure that information required to be disclosed by us under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer (CEO), Senior Vice President (SVP) and Chief Financial Officer (CFO), to allow for timely decisions regarding required disclosure and appropriate SEC filings.

Our management, with the participation of our CEO, SVP and CFO, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report, and, based on that evaluation, our CEO, SVP and CFO concluded that our disclosure controls and procedures were effective, at a reasonable assurance level, at and as of such date.

Management's Report on Internal Control over Financial Reporting

Our 2011 Annual Report contains Management's Report on Internal Control over Financial Reporting and the report thereon of KPMG LLP dated February 29, 2012, and each is incorporated herein by reference.

Changes in Internal Control over Financial Reporting

We are continuously seeking to improve the efficiency and effectiveness of our operations and of our internal controls. This results in refinements to processes throughout the Company. However, there have been no changes in internal controls over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended December 31, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. In accordance with the rules and regulations of the SEC, we have not yet assessed the internal control over financial reporting of the 35 locations added by Carrier Enterprise II, which collectively represented approximately 11% of our total consolidated assets at December 31, 2011 and approximately 6% of our consolidated

Edgar Filing: WATSCO INC - Form 10-K

revenues for the year ended December 31, 2011. From the respective acquisition dates to December 31, 2011, the processes and systems of Carrier Enterprise II did not impact the internal controls over financial reporting for our other consolidated subsidiaries.

ITEM 9B. OTHER INFORMATION

None.

Table of Contents

PART III

This part of Form 10-K, which includes Items 10 through 14, is omitted because we will file definitive proxy material pursuant to Regulation 14A not more than 120 days after the close of our most recently ended fiscal year, which proxy material will include the information required by Items 10 through 14 and is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES
