QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number 0000-26251

NETSCOUT SYSTEMS, INC.
(Exact Name of Registrant as Specified in Its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)
310 Littleton Road, Westford, MA 01886
(978) 614-4000

04-2837575
(IRS Employer
Identification No.)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files.) YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

The number of shares outstanding of the registrant's common stock, par value \$0.001 per share, as of July 24, 2014 was 41,052,266.

NetScout Systems, Inc.

Notes to Consolidated Financial Statements

(Unaudited)

NOTE 1 – BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements have been prepared by NetScout Systems, Inc., or NetScout or the Company. Certain information and footnote disclosures normally included in financial statements prepared under generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). In the opinion of management, the unaudited interim consolidated financial statements include all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of the Company's financial position, results of operations and cash flows. The year-end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The results reported in these consolidated financial statements are not necessarily indicative of results that may be expected for the entire year. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements, including the notes thereto, included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2014.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606) (ASU 2014-09), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. ASU 2014-09 is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. This new guidance is effective for annual reporting periods (including interim reporting periods within those periods) beginning after December 15, 2016 (April 1, 2017 for the Company); early adoption is not permitted. Entities have the option of using either a full retrospective or a modified approach to adopt the guidance. The Company has not determined the potential effects on the consolidated financial statements.

NOTE 2 – CONCENTRATION OF CREDIT RISK AND SIGNIFICANT CUSTOMERS

Financial instruments that potentially subject us to concentration of credit risk consist primarily of investments, trade accounts receivable and accounts payable. Our cash, cash equivalents, and marketable securities are placed with financial institutions with high credit standings.

At June 30, 2014, the Company had no indirect channel partner which accounted for more than 10% of the accounts receivable balance, while one direct customer accounted for more than 10% of the accounts receivable balance. At March 31, 2014, one direct customer accounted for more than 10% of the accounts receivable balance, while no indirect channel partner accounted for more than 10% of the accounts receivable balance.

During the three months ended June 30, 2014, two direct customers accounted for more than 10% of our total revenue, while no indirect channel partner accounted for more than 10% of total revenue during the three months ended June 30, 2014. During the three months ended June 30, 2013, one direct customer accounted for more than 10% of our total revenue, while no indirect channel partner accounted for more than 10% of total revenue.

Historically, the Company has not experienced any significant failure of its customers to meet their payment obligations nor does the Company anticipate material non-performance by its customers in the future; accordingly, the Company does not require collateral from its customers. However, if the Company's assumptions are incorrect, there could be an adverse impact on its allowance for doubtful accounts.

Table of Contents

NOTE 3 – SHARE-BASED COMPENSATION

The following is a summary of share-based compensation expense including restricted stock units and employee stock purchases made under our employee stock purchase plan (ESPP) based on estimated fair values within the applicable cost and expense lines identified below (in thousands):

	Three Months Ended	
	June 30,	
	2014	2013
Cost of product revenue	\$60	\$44
Cost of service revenue	228	146
Research and development	1,026	896
Sales and marketing	963	845
General and administrative	1,025	881
	\$3,302	\$2,812

Employee Stock Purchase Plan – The Company maintains an ESPP for all eligible employees as described in the Company’s Annual Report on Form 10-K for the year ended March 31, 2014. Under the ESPP, shares of the Company’s common stock may be purchased on the last day of each bi-annual offering period at 85% of the fair value on the last day of such offering period. The offering periods run from March 1 through August 31 and from September 1 through February 28 of each year.

NOTE 4 – CASH, CASH EQUIVALENTS AND MARKETABLE SECURITIES

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents and those investments with original maturities greater than three months to be marketable securities.

Cash and cash equivalents consisted of money market instruments and cash maintained with various financial institutions at June 30, 2014 and March 31, 2014.

Marketable Securities

The following is a summary of marketable securities held by NetScout at June 30, 2014 classified as short-term and long-term (in thousands):

	Amortized Cost	Unrealized Gains (Losses)	Fair Value
Type of security:			
U.S. government and municipal obligations	\$61,764	\$37	\$61,801
Commercial paper	23,881	1	23,882
Corporate bonds	3,205	2	3,207
Total short-term marketable securities	88,850	40	88,890
U.S. government and municipal obligations	53,663	30	53,693
Corporate bonds	2,888	(1)	2,887
Total long-term marketable securities	56,551	29	56,580
Total marketable securities	\$145,401	\$69	\$145,470

Table of Contents

The following is a summary of marketable securities held by NetScout at March 31, 2014, classified as short-term and long-term (in thousands):

	Amortized Cost	Unrealized Gains (Losses)	Fair Value
Type of security:			
U.S. government and municipal obligations	\$53,854	\$26	\$53,880
Commercial paper	14,581	0	14,581
Corporate bonds	6,772	1	6,773
Total short-term marketable securities	75,207	27	75,234
U.S. government and municipal obligations	37,875	2	37,877
Corporate bonds	3,611	(4) 3,607
Total long-term marketable securities	41,486	(2) 41,484
Total marketable securities	\$116,693	\$25	\$116,718

Contractual maturities of the Company's marketable securities held at June 30, 2014 and March 31, 2014 were as follows (in thousands):

	June 30, 2014	March 31, 2014
Available-for-sale securities:		
Due in 1 year or less	\$88,890	\$75,234
Due after 1 year through 5 years	56,580	41,484
	\$145,470	\$116,718

NOTE 5 – FAIR VALUE MEASUREMENTS

The fair value hierarchy has three levels based on the reliability of the inputs used to determine fair value. Level 1 refers to fair values determined based on quoted prices in active markets for identical assets. Level 2 refers to fair values estimated using significant other observable inputs, and Level 3 includes fair values estimated using significant non-observable inputs. The following tables present the Company's financial assets and liabilities measured on a recurring basis using the fair value hierarchy as of June 30, 2014 and March 31, 2014 (in thousands).

	Fair Value Measurements at June 30, 2014			
	Level 1	Level 2	Level 3	Total
ASSETS:				
Cash and cash equivalents	\$88,974	\$—	\$—	\$88,974
U.S. government and municipal obligations	40,929	74,565	—	115,494
Commercial paper	—	23,882	—	23,882
Corporate bonds	6,094	—	—	6,094
Derivative financial instruments	—	358	—	358
	\$135,997	\$98,805	\$—	\$234,802
LIABILITIES:				
Contingent purchase consideration	\$—	\$—	\$(4,369) \$(4,369
Derivative financial instruments	—	(102) —	(102
	\$—	\$(102) \$(4,369) \$(4,471

Table of Contents

	Fair Value Measurements at March 31, 2014			
	Level 1	Level 2	Level 3	Total
ASSETS:				
Cash and cash equivalents	\$82,079	\$19,997	\$—	\$102,076
U.S. government and municipal obligations	21,992	69,765	—	91,757
Commercial paper	—	14,581	—	14,581
Corporate bonds	10,380	—	—	10,380
Derivative financial instruments	—	368	—	368
	\$114,451	\$104,711	\$—	\$219,162
LIABILITIES:				
Contingent purchase consideration	\$—	\$—	\$(4,291)	\$(4,291)
Contingent contractual non-compliance liability	—	—	(49)	(49)
Derivative financial instruments	—	(139)	—	(139)
	\$—	\$(139)	\$(4,340)	\$(4,479)

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value. On a recurring basis, the Company measures certain financial assets and liabilities at fair value, including marketable securities and derivative financial instruments.

The Company's Level 1 investments are classified as such because they are valued using quoted market prices or alternative pricing sources with reasonable levels of price transparency.

The Company's Level 2 investments are classified as such because fair value is being calculated using data from similar but not identical sources, or a discounted cash flow model using the contractual interest rate as compared to the underlying interest yield curve. The Company's derivative financial instruments consist of forward foreign exchange contracts and are classified as Level 2 because the fair values of these derivatives are determined using models based on market observable inputs, including spot prices for foreign currencies and credit derivatives, as well as an interest rate factor. The Company classifies municipal obligations as level 2 because the fair values are determined using quoted prices from markets the Company considers to be inactive. Commercial paper is classified as Level 2 because the Company uses market information from similar but not identical instruments and discounted cash flow models based on interest rate yield curves to determine fair value. For further information on the Company's derivative instruments refer to Note 8.

The Company's contingent purchase consideration at June 30, 2014 and March 31, 2014 was classified as Level 3 in the fair value hierarchy. The contingent contractual non-compliance liability was also classified as Level 3 at March 31, 2014. As of June 30, 2014, the balance is \$0. The contingent contractual obligation has been reduced to zero as NetScout has either settled those liabilities or believes that because of the passage of time that the probability of a future negative settlement is essentially zero. These liabilities are valued by probability weighting expected payment scenarios and then applying a discount based on the present value of the future cash flow streams. They are classified as Level 3 because the probability weighting of future payment scenarios is based on assumptions developed by management.

The following table sets forth a reconciliation of changes in the fair value of the Company's Level 3 financial liabilities for the three months ended June 30, 2014 (in thousands):

	Contingent Purchase Consideration	Contingent Contractual Non-compliance Liability
Balance at beginning of period	\$(4,291)	\$(49)
(Increase) / decrease in fair value and accretion expense (included within research and development expense)	(78)	49
Balance at end of period	\$(4,369)	\$—

The Company has updated the probabilities used in the fair value calculation of the contingent liabilities at June 30, 2014 which reduced the liability by \$9 thousand and is included as part of earnings for the three months ended June 30, 2014. The fair value of the contingent purchase consideration was estimated by applying a probability based model, which utilizes significant inputs that are unobservable in the market. Key assumptions include a 3.3% discount rate, and a percent weighted-

8

Table of Contents

probability of the settlement of the contingent contractual non-compliance liability. Deal related compensation expense, accretion charges and changes related to settlements of contractual non-compliance liabilities for the three months ended June 30, 2014 was \$38 thousand and was included as part of earnings.

NOTE 6 – INVENTORIES

Inventories are stated at the lower of actual cost or net realizable value. Cost is determined by using the first in, first out (FIFO) method. Inventories consist of the following (in thousands):

	June 30, 2014	March 31, 2014
Raw materials	\$6,346	\$6,025
Work in process	367	161
Finished goods	4,313	6,394
	\$11,026	\$12,580

NOTE 7 – GOODWILL AND INTANGIBLE ASSETS**Goodwill**

The Company has two reporting units: (1) Unified Service Delivery and (2) Test Optimization. As of June 30, 2014 and March 31, 2014, goodwill attributable to the Unified Service Delivery reporting unit was \$200.6 million and \$201.0 million, respectively. Goodwill attributable to the Test Optimization reporting unit was \$2.4 million as of June 30, 2014 and March 31, 2014. Goodwill is tested for impairment at a reporting unit level at least annually, or on an interim basis if an event occurs or circumstances change that would, more likely than not, reduce the fair value of the reporting unit below its carrying value.

The change in the carrying amount of goodwill for the three months ended June 30, 2014 is due to the impact of foreign currency translation adjustments related to asset balances that are recorded in currencies other than the U.S. Dollar.

The changes in the carrying amount of goodwill for the three months ended June 30, 2014 are as follows (in thousands):

	Three Months Ended June 30, 2014
Balance at March 31, 2014	\$203,446
Foreign currency translation impact	(412)
Balance as of June 30, 2014	\$203,034

Intangible Assets

The net carrying amounts of intangible assets were \$56.6 million and \$58.5 million as of June 30, 2014 and March 31, 2014, respectively. Intangible assets acquired in a business combination are recorded under the acquisition method of accounting at their estimated fair values at the date of acquisition. The Company amortizes intangible assets over their estimated useful lives, except for the acquired trade name which resulted from the Network General Central Corporation (Network General) acquisition, which has an indefinite life and thus is not amortized. The carrying value of the indefinite lived trade name is evaluated for potential impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired.

During the fiscal year ended March 31, 2014, the Company acquired certain rights to Accanto Systems, S.r.l. (Accanto) software not previously purchased as part of the acquisition transaction in fiscal year 2013 for \$500 thousand. This amount is included within developed technology and is being amortized using the economic benefit period over 6.3 years.

During the fiscal year ended March 31, 2014, the Company made an agreement to acquire a technology license for \$300 thousand. This amount is included within developed technology as of March 31, 2014 and is being amortized using the economic benefit period over 3 years.

Table of Contents

Intangible assets include an indefinite lived trade name with a carrying value of \$18.6 million and the following amortizable intangible assets as of June 30, 2014 (in thousands):

	Cost	Accumulated Amortization	Net
Developed technology	\$31,872	\$(24,143)) \$7,729
Customer relationships	38,780	(14,789)) 23,991
Distributor relationships	1,984	(642)) 1,342
Core technology	7,541	(2,980)) 4,561
Non-compete agreements	350	(320)) 30
Other	840	(450)) 390
	\$81,367	\$(43,324)) \$38,043

Intangible assets include an indefinite lived trade name with a carrying value of \$18.6 million and the following amortizable intangible assets as of March 31, 2014 (in thousands):

	Cost	Accumulated Amortization	Net
Developed technology	\$31,946	\$(23,524)) \$8,422
Customer relationships	38,801	(14,046)) 24,755
Distributor relationships	2,014	(568)) 1,446
Core technology	7,572	(2,701)) 4,871
Non-compete agreements	355	(295)) 60
Other	769	(410)) 359
	\$81,457	\$(41,544)) \$39,913

Amortization of software and core technology included as cost of product revenue was \$934 thousand and \$819 thousand for the three months ended June 30, 2014 and 2013, respectively. Amortization of other intangible assets included as operating expense was \$901 thousand and \$854 thousand for the three months ended June 30, 2014 and 2013, respectively.

The following is the expected future amortization expense as of June 30, 2014 for the years ended March 31 (in thousands):

2015 (remaining nine months)	\$5,319
2016	6,644
2017	6,031
2018	5,134
2019	4,112
Thereafter	10,803
	\$38,043

The weighted average amortization period of developed technology and core technology is 6.7 years. The weighted average amortization period for customer and distributor relationships is 13.3 years. The weighted average amortization period for amortizing all intangible assets is 10.1 years.

NOTE 8 – DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

NetScout operates internationally and, in the normal course of business, is exposed to fluctuations in foreign currency exchange rates. The exposures result from costs that are denominated in currencies other than the U.S. Dollar, primarily the Euro, British Pound, Canadian Dollar, and Indian Rupee. The Company manages its foreign cash flow risk by hedging forecasted cash flows for operating expenses denominated in foreign currencies for up to twelve months, within specified guidelines through the use of forward contracts. The Company enters into foreign currency exchange contracts to hedge cash flow exposures from costs that are denominated in currencies other than the U.S. Dollar. These hedges are designated as cash flow hedges at inception.

Table of Contents

All of the Company's derivative instruments are utilized for risk management purposes, and the Company does not use derivatives for speculative trading purposes. These contracts will mature over the next twelve months and are expected to impact earnings on or before maturity.

The notional amounts and fair values of derivative instruments in the consolidated balance sheets as of June 30, 2014 and March 31, 2014 were as follows (in thousands):

	Notional Amounts (a)		Other Current Assets		Accrued Other Liabilities	
	June 30,	March 31,	June 30,	March 31,	June 30,	March 31,
	2014	2014	2014	2014	2014	2014
Derivatives Designated as Hedging Instruments:						
Forward contracts	\$16,624	\$17,483	\$358	\$368	\$102	\$139

(a) Notional amounts represent the gross contract/notional amount of the derivatives outstanding.

The following table provides the effect foreign exchange forward contracts had on other comprehensive income (loss) (OCI) and results of operations for the three months ended June 30, 2014 and 2013 (in thousands):

Derivatives in Cash Flow Hedging Relationships	Effective Portion			Ineffective Portion				
	Gain (Loss) Recognized in OCI on Derivative (a)		Gain (Loss) Reclassified from Accumulated OCI into Income (b)	Gain (Loss) Recognized in Income Excluded from Effectiveness Testing (c)		Gain (Loss) Recognized in Income Excluded from Effectiveness Testing (c)		
	June 30, 2014	June 30, 2013		Location	June 30, 2014	June 30, 2013	Location	June 30, 2014
Forward contracts	\$(224)	\$(198)	Research and development	\$10	\$(16)	Research and development	\$63	\$68
			Sales and marketing	159	(90)	Sales and marketing	4	1
	\$(224)	\$(198)		\$169	\$(106)		\$67	\$69

(a) The amount represents the change in fair value of derivative contracts due to changes in spot rates.

(b) The amount represents reclassification from other comprehensive income to earnings that occurs when the hedged item affects earnings.

(c) The amount represents the change in fair value of derivative contracts due to changes in the difference between the spot price and forward price that is excluded from the assessment of hedge effectiveness and therefore recognized in earnings. No gains or losses were reclassified as a result of discontinuance of cash flow hedges.

NOTE 9 – LONG-TERM DEBT

On November 22, 2011, the Company entered into a credit facility (the Credit Agreement) with a syndicate of lenders led by KeyBank National Association (KeyBank) providing the Company with a \$250 million revolving credit facility, which may be increased to \$300 million at any time up to 90 days before maturity. The revolving credit facility includes a swing line loan sub-facility of up to \$10 million and a letter of credit sub-facility of up to \$10 million. The credit facility under the Credit Agreement matures on November 21, 2016. As of June 30, 2014, there were no amounts outstanding under this credit facility.

At the Company's election, revolving loans under the Credit Agreement bear interest at either (a) a rate per annum equal to the highest of (1) KeyBank's prime rate, (2) 0.50% in excess of the federal funds effective rate, or (3) one hundred (100.00) basis points in excess of the London Interbank Offered Rate (LIBOR) for one-month interest periods, or the Base Rate; or (b) the one-, two-, three-, or six-month per annum LIBOR, as selected by the Company, multiplied by the statutory reserve adjustment, or collectively, the Eurodollar Rate, in each case plus an applicable margin. Swing line loans will bear interest at the Base Rate plus the applicable Base Rate margin. The applicable margin depends on the Company's leverage ratio, ranging from 100 basis points for Base Rate loans and 200 basis points for Eurodollar Rate loans if the Company's consolidated leverage ratio is 2.50 to 1.00 or higher, down to 25

basis points for Base Rate loans and 125 basis points for Eurodollar Rate loans if the Company's consolidated leverage ratio is 1.00 to 1.00 or less.

The Company may prepay loans under the Credit Agreement at any time, without penalty, subject to certain notice requirements. Debt is recorded at the amount drawn on the revolving credit facility plus interest based on floating rates reflective of changes in the market which approximates fair value.

Table of Contents

The loans are guaranteed by each of the Company's domestic subsidiaries and are collateralized by all of the assets of the Company and its domestic subsidiaries, as well as 65% of the capital stock of the Company's foreign subsidiaries directly owned by the Company and its domestic subsidiaries. The Credit Agreement generally prohibits any other liens on the assets of the Company and its subsidiaries, subject to certain exceptions as described in the Credit Agreement. The Credit Agreement contains certain covenants applicable to the Company and its subsidiaries, including, without limitation, limitations on additional indebtedness, liens, various fundamental changes (including material mergers and dispositions of assets), dividends and distributions, capital expenditures, investments (including material acquisitions and investments in foreign subsidiaries), transactions with affiliates, sale-leaseback transactions, hedge agreements, payment of junior financing, material changes in business, and other limitations customary in senior secured credit facilities. In addition, the Company is required to maintain certain consolidated leverage and interest coverage ratios as well as a minimum liquidity amount. As of June 30, 2014, the Company was in compliance with all of these covenants.

NOTE 10 – RESTRUCTURING CHARGES

During the fiscal year ended March 31, 2013, the Company restructured part of its international sales organization related to an overlap of personnel acquired as part of the Accanto acquisition. The Company recorded \$1.2 million of restructuring charges related to severance costs.

The following table provides a summary of the activity related to these restructuring plans and the related liability included as accrued compensation on the Company's consolidated balance sheet (in thousands):

	Three Months Ended June 30, 2014
Employee Severance:	
Balance at beginning of period	\$71
Other adjustments	—
Cash payments	—
Balance as of June 30, 2014	\$71

The balance is expected to be paid in full by December 31, 2014.

NOTE 11 – COMMITMENTS AND CONTINGENCIES

Acquisition related – The Company recorded two contingent liabilities related to the acquisition of Simena, LLC (Simena), one relates to future consideration to be paid to the former owner which had an initial fair value of \$8.0 million at the time of acquisition and another relates to contractual non-compliance liabilities incurred by Simena with an initial fair value of \$1.6 million at the time of acquisition. At June 30, 2014, the present value of the future consideration was \$4.4 million and the contractual non-compliance liability was \$0. The contingent contractual obligation has been reduced to zero as NetScout has either settled those liabilities or believes that because of the passage of time that the probability of a future negative settlement is essentially zero.

Legal – From time to time, NetScout is subject to legal proceedings and claims in the ordinary course of business. In the opinion of management, the amount of ultimate expense with respect to any current legal proceedings and claims, if determined adversely, will not have a significant adverse effect on the Company's financial condition, results of operations or cash flows.

NOTE 12 – TREASURY STOCK

On September 17, 2001, the Company announced an open market stock repurchase program to purchase up to one million shares of outstanding Company common stock, subject to market conditions and other factors. Any purchases under the Company's stock repurchase program may be made from time to time without prior notice. On July 26, 2006, the Company announced that it had expanded the existing open market stock repurchase program to enable the Company to purchase up to an additional three million shares of the Company's outstanding common stock, bringing the total number of shares authorized for repurchase to four million shares. Through June 30, 2014, the Company had repurchased a total of 4,000,000 shares of common stock through the open market stock repurchase program. The Company repurchased 243,300 shares for \$9.4 million under this program during the three months ended June 30, 2014. As of June 30, 2014, all authorized shares under this stock repurchase program have been repurchased.

On April 22, 2014, the Company's board of directors approved an additional stock repurchase program. This program authorizes management to make additional repurchases of NetScout outstanding common stock of up to \$100 million.

The share repurchase authorization does not have an expiration date and the pace and timing of repurchases will depend on factors such as cash generation from operations, cash requirements for acquisitions, economic and market conditions, stock price and

12

Table of Contents

legal and regulatory requirements. Through June 30, 2014, the Company has repurchased 6,700 shares totaling \$272 thousand in the open market under this stock repurchase plan. At June 30, 2014, \$99.7 million of common stock remained available to be purchased under the plan.

In connection with the vesting and release of the restriction on previously vested shares of restricted stock units, the Company repurchased 62,228 shares for \$2.5 million related to minimum statutory tax withholding requirements on these restricted stock units during the three months ended June 30, 2014. These repurchase transactions do not fall under the repurchase program described above, and therefore do not reduce the amount that is available for repurchase under that program.

NOTE 13 – NET INCOME PER SHARE

Calculations of the basic and diluted net income per share and potential common shares are as follows (in thousands, except for per share data):

	Three Months Ended	
	June 30, 2014	2013
Numerator:		
Net income	\$ 11,476	\$ 5,253
Denominator:		
Denominator for basic net income per share - weighted average common shares outstanding	41,081	41,405
Dilutive common equivalent shares:		
Weighted average stock options	17	85
Weighted average restricted stock units	710	578
Denominator for diluted net income per share - weighted average shares outstanding	41,808	42,068
Net income per share:		
Basic net income per share	\$ 0.28	\$ 0.13
Diluted net income per share	\$ 0.27	\$ 0.12

The following table sets forth restricted stock units excluded from the calculation of diluted net income per share, since their inclusion would be antidilutive (in thousands):

	Three Months Ended	
	June 30, 2014	2013
Restricted stock units	—	560

Basic EPS is calculated by dividing net income by the weighted average number of shares outstanding during the period. Unvested restricted shares, although legally issued and outstanding, are not considered outstanding for purposes of calculating basic earnings per share. Diluted EPS is calculated by dividing net income by the weighted average number of shares outstanding plus the dilutive effect, if any, of outstanding stock options, restricted shares and restricted stock units using the treasury stock method. The calculation of the dilutive effect of outstanding equity awards under the treasury stock method includes consideration of proceeds from the assumed exercise of stock options, unrecognized compensation expense and any tax benefits as additional proceeds.

NOTE 14 – INCOME TAXES

Our effective income tax rates were 41.1% and 36.9% for the three months ended June 30, 2014 and the fiscal year ended March 31, 2014, respectively. Generally, the effective tax rates differ from statutory rates due to the impact of the domestic production activities deduction, research and development credits if enacted, the impact of state taxes, income generated in jurisdictions that have a different tax rate than the U.S. statutory rate, and losses not benefited in certain foreign jurisdictions. The effective tax rate for the three months ended June 30, 2014 is higher than the effective rate for our fiscal year ended March 31,

Table of Contents

2014 primarily due to the expiration of the federal research and development credit and the interim accounting treatment of certain foreign losses for which no benefit can be recognized.

Our effective tax rates were 41.1% and 40.4% for the three months ended June 30, 2014 and 2013, respectively. At this time, the effective tax rate is higher than the comparable year primarily due to the expiration of the federal research and development credit and the exclusion of certain foreign losses for which a benefit cannot be realized, offset by decreases to the state tax rate.

NOTE 15 – SEGMENT AND GEOGRAPHIC INFORMATION

The Company reports revenues and income under one reportable segment. The consolidated financial information is used by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

The Company manages its business in the following geographic areas: United States, Europe, Asia and the rest of the world. In accordance with United States export control regulations, the Company does not sell or do business with countries subject to economic sanctions and export controls.

Total revenue by geography is as follows (in thousands):

	Three Months Ended	
	June 30,	
	2014	2013
United States	\$86,018	\$62,772
Europe	9,046	8,939
Asia	6,717	3,903
Rest of the world	6,071	6,191
	\$107,852	\$81,805

The United States revenue includes sales to resellers in the United States. These resellers fulfill customer orders and may subsequently ship the Company's products to international locations. The Company reports these shipments as United States revenue since the Company ships the products to a United States location. A majority of revenue attributable to locations outside of the United States is a result of export sales. Substantially all of the Company's identifiable assets are located in the United States.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

In addition to historical information, the following discussion and other parts of this Quarterly Report contain forward-looking statements under Section 21E of the Exchange Act and other federal securities laws. These forward looking statements involve risks and uncertainties. These statements relate to future events or our future financial performance and are identified by terminology such as "may," "will," "could," "should," "expects," "plans," "intends," "seeks," "anticipates," "believes," "estimates," "potential" or "continue," or the negative of such terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on these forward-looking statements. Actual events or results may differ materially due to competitive factors and other factors referred to in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for our fiscal year ended March 31, 2014 and elsewhere in this Quarterly Report. These factors may cause our actual results to differ materially from any forward-looking statement.

Overview

NetScout was founded in 1984 and is headquartered in Westford, Massachusetts. We are an industry leader for advanced network, application and service assurance solutions, providing high-quality performance analytics and operational intelligence solutions that facilitate the evolution toward new computing paradigms, such as virtualization, mobility and cloud. We design, develop, manufacture, market, license, sell and support these products focused on assuring service delivery quality, performance and availability for some of the world's largest, most demanding and complex internet protocol (IP) based service delivery environments. We manufacture and market these products in integrated hardware and software solutions that are used by commercial enterprises, large governmental agencies and telecommunication service providers worldwide. We have a single operating segment and substantially all of our identifiable assets are located in the United States.

Our operating results are influenced by a number of factors, including, but not limited to, the mix and quantity of products and services sold, pricing, costs of materials used in our products, growth in employee related costs, including commissions, and the expansion of our operations. Factors that affect our ability to maximize our operating results include, but are not limited to, our ability to introduce and enhance existing products, the marketplace acceptance of those new or enhanced products, continued expansion into international markets, development of strategic partnerships, competition, successful acquisition integration efforts, our ability to achieve expense reductions and make structural improvements and current economic conditions.

Our key objectives have been to continue to gain market share in the wireless service provider market and to accelerate our enterprise growth by extending into the application performance management segment. A common component of both initiatives has been the acceptance of our unified services delivery management strategy. This strategy has been bolstered by our acquisitions and integration of both voice/video and packet flow or monitoring switch technology.

Results Overview

We saw continued growth during the quarter ended June 30, 2014, with product revenue growth of 50% and overall revenue growth of 32% compared to the same period in the prior year.

Our business maintained strong gross profit margins. Our gross profit for the quarter ended June 30, 2014 increased by \$20.4 million, or 31%, when compared to the quarter ended June 30, 2013. The gross profit percentage remained flat at 79% during the quarters ended June 30, 2014 and 2013.

We continue to maintain strong liquidity. At June 30, 2014, we had cash, cash equivalents and marketable securities of \$234.4 million. This represents an increase of \$15.7 million from March 31, 2014.

Use of Non-GAAP Financial Measures

We supplement the generally accepted accounting principles (GAAP) financial measures we report in quarterly and annual earnings announcements, investor presentations and other investor communications by reporting the following non-GAAP measures: non-GAAP revenue, non-GAAP net income and non-GAAP net income per diluted share.

Non-GAAP revenue eliminates the GAAP effects of acquisitions by adding back revenue related to deferred revenue

revaluation. Non-GAAP net income includes the foregoing adjustment and also removes expenses related to the amortization of acquired intangible assets, share-based compensation, restructuring, certain expenses relating to acquisitions including compensation for post-combination services and business development charges, net of related income tax effects. Non-GAAP diluted net income per share also excludes these expenses as well as the related impact of all these adjustments on the provision for income taxes.

Table of Contents

These non-GAAP measures are not in accordance with GAAP, should not be considered an alternative for measures prepared in accordance with GAAP (revenue, net income and diluted net income per share), and may have limitations in that they do not reflect all our results of operations as determined in accordance with GAAP. These non-GAAP measures should only be used to evaluate our results of operations in conjunction with the corresponding GAAP measures. The presentation of non-GAAP information is not meant to be considered superior to, in isolation from, or as a substitute for results prepared in accordance with GAAP.

Management believes these non-GAAP financial measures enhance the reader's overall understanding of our current financial performance and its prospects for the future by providing a higher degree of transparency for certain financial measures and providing a level of disclosure that helps investors understand how we plan and measure our business. We believe that providing these non-GAAP measures affords investors a view of our operating results that may be more easily compared to our peer companies and also enables investors to consider our operating results on both a GAAP and non-GAAP basis during and following the integration period of our acquisitions. Presenting the GAAP measures on their own may not be indicative of our core operating results. Furthermore, management believes that the presentation of non-GAAP measures when shown in conjunction with the corresponding GAAP measures provide useful information to management and investors regarding present and future business trends relating to our financial condition and results of operations.

The following table reconciles revenue, net income and net income per share on a GAAP and non-GAAP basis for the three months ended June 30, 2014 and 2013 (in thousands, except for per share amounts):

	Three Months Ended	
	June 30,	
	2014	2013
GAAP revenue	\$ 107,852	\$ 81,805
Deferred revenue fair value adjustment	18	140
Non-GAAP revenue	\$ 107,870	\$ 81,945
GAAP net income	\$ 11,476	\$ 5,253
Deferred revenue fair value adjustment	18	140
Share based compensation expense	3,302	2,812
Amortization of acquired intangible assets	1,796	1,673
Business development and integration expense	—	170
Compensation for post combination services	536	444
Income tax adjustments	(1,910) (1,785
Non-GAAP net income	\$ 15,218	\$ 8,707
GAAP diluted net income per share	\$ 0.27	\$ 0.12
Per share impact of non-GAAP adjustments identified above	0.09	0.09
Non-GAAP diluted net income per share	\$ 0.36	\$ 0.21
Critical Accounting Policies		

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America consistently applied. The preparation of these consolidated financial statements requires us to make significant estimates and judgments that affect the amounts reported in our consolidated financial statements and the accompanying notes. These items are regularly monitored and analyzed by management for changes in facts and circumstances, and material changes in these estimates could occur in the future. Changes in estimates are recorded in the period in which they become known. We base our estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from our estimates.

Table of Contents

While all of our accounting policies impact the consolidated financial statements, certain policies are viewed to be critical. Critical accounting policies are those that are both most important to the portrayal of our financial condition and results of operations and that require management's most subjective or complex judgments and estimates. We consider the following accounting policies to be critical in fully understanding and evaluating our financial results:

- marketable securities;
- revenue recognition;
- valuation of goodwill, intangible assets and other acquisition accounting items; and
- share-based compensation.

Please refer to the critical accounting policies set forth in our Annual Report on Form 10-K for the fiscal year ended March 31, 2014, filed with the Securities and Exchange Commission (SEC) on May 20, 2014, for a description of all of our critical accounting policies.

Three Months Ended June 30, 2014 and 2013

Revenue

Product revenue consists of sales of our hardware products and licensing of our software products. Service revenue consists of customer support agreements, consulting and training. During the three months ended June 30, 2014, two direct customers accounted for more than 10% of total revenue. During the three months ended June 30, 2013, one direct customer accounted for more than 10% of total revenue.

	Three Months Ended June 30, (Dollars in Thousands) 2014		2013		Change		
		% of Revenue		% of Revenue	\$	%	
Revenue:							
Product	\$64,366	60	% \$42,977	53	% \$21,389	50	%
Service	43,486	40	38,828	47	4,658	12	%
Total revenue	\$107,852	100	% \$81,805	100	% \$26,047	32	%

Product. The 50%, or \$21.4 million, increase in product revenue was due to a \$21.0 million increase in revenue from our service provider sector and a \$367 thousand increase in our government enterprise sector. Compared to the same period in the prior year, we realized a 53% increase in units shipped, as well as a 5% increase in the average selling price per unit of our products.

We expect continued growth in our service provider sector through the year ended March 31, 2015.

Service. The 12%, or \$4.7 million, increase in service revenue was due to a \$3.7 million increase in revenue from new maintenance contracts and renewals from a growing support base and a \$1.0 million increase in premium support contracts. We expect continued service revenue growth to be generated by product revenue growth which increases our installed base and therefore our related maintenance contracts.

Total product and service revenue from direct and indirect channels are as follows:

	Three Months Ended June 30, (Dollars in Thousands) 2014		2013		Change		
		% of Revenue		% of Revenue	\$	%	
Indirect	\$42,103	39	% \$39,531	48	% \$2,572	7	%
Direct	65,749	61	42,274	52	23,475	56	%
Total revenue	\$107,852	100	% \$81,805	100	% \$26,047	32	%

Table of Contents

The 7%, or \$2.6 million, increase in indirect channel revenue is the result of the increase in sales to our general enterprise sector internationally. Sales to customers outside the United States are export sales typically through channel partners, who are generally responsible for distributing our products and providing technical support and service to customers within their territories. Our reported international revenue does not include any revenue from sales to customers outside the United States that are shipped to our United States-based indirect channel partners. These domestic resellers fulfill customer orders based upon joint selling efforts in conjunction with our direct sales force and may subsequently ship our products to international locations; however, we report these shipments as United States revenue since we ship the products to a domestic location. The 56%, or \$23.5 million, increase in direct revenue is primarily the result of increased domestic revenue from our service provider sector.

Total revenue by geography is as follows:

	Three Months Ended				Change		
	June 30, (Dollars in Thousands) 2014	% of Revenue	2013	% of Revenue	\$	%	
United States	\$86,018	80	% \$62,772	77	% \$23,246	37	%
International:							
Europe	9,046	8	8,939	11	107	1	%
Asia	6,717	6	3,903	5	2,814	72	%
Rest of the world	6,071	6	6,191	7	(120)	(2))%
Subtotal international	21,834	20	19,033	23	2,801	15	%
Total revenue	\$107,852	100	% \$81,805	100	% \$26,047	32	%

United States revenues increased 37%, or \$23.2 million, primarily due to gains within the service provider sector. The 15%, or \$2.8 million, increase in international revenue is due to increases across all sectors. We expect revenue from sales to customers outside the United States to continue to account for a significant portion of our total revenue in the future. In accordance with United States export control regulations we do not sell to, or do business with, countries subject to economic sanctions and export controls.

Cost of Revenue and Gross Profit

Cost of product revenue consists primarily of material components, manufacturing personnel expenses, manuals, packaging materials, overhead and amortization of capitalized software, acquired software and core technology. Cost of service revenue consists primarily of personnel, material, overhead and support costs.

Table of Contents

	Three Months Ended June 30, (Dollars in Thousands) 2014		2013		Change			
		% of Revenue		% of Revenue	\$	%

Service \$	\$34,656	32	% \$31,679	39	% \$2,977	9	%	
Service gross profit %	80	%	82	%				
Total gross profit \$	\$85,256		\$64,883		\$20,373	31	%	
Total gross profit %	79	%	79	%				

Product. The 41%, or \$4.0 million, increase in cost of product revenue was primarily due to the 50%, or \$21.4 million, increase in product revenue during the three months ended June 30, 2014. In addition, there was a \$115 thousand increase in amortization of software and core technology included as cost of product revenue for the three months ended June 30, 2014. The product gross profit percentage increased by two percentage points to 79% during the three months ended June 30, 2014 as compared to the three months ended June 30, 2013. The 52%, or \$17.4 million, increase in product gross profit corresponds with the 50%, or \$21.4 million, increase in product revenue, offset by the 41%, or \$4.0 million, increase in cost of product revenue. Average headcount in manufacturing was 32 for the three months ended June 30, 2014 and 2013.

Service. The 24%, or \$1.7 million, increase in cost of service revenue was primarily due to a \$1.1 million increase in employee related expenses resulting in part from headcount to support our growing installed base as well as increased incentive compensation. In addition, there was a \$530 thousand increase in cost of materials used to support customers under service contracts. The service gross profit percentage decreased by two percentage points to 80% for the three months ended June 30, 2014 as compared to the three months ended June 30, 2013, primarily related to the increases in costs mentioned above. The 9%, or \$3.0 million, increase in service gross profit corresponds with the 12%, or \$4.7 million, increase in service revenue, offset by the 24%, or \$1.7 million, increase in cost of services. Average service headcount was 161 and 142 for the three months ended June 30, 2014 and 2013, respectively.

Gross profit. Our gross profit increased 31%, or \$20.4 million. This increase is attributable to our increase in revenue of 32%, or \$26.0 million, partially offset by a 34%, or \$5.7 million, increase in cost of revenue. The gross profit percentage remained flat at 79% for the three months ended June 30, 2014 as compared to the three months ended June 30, 2013. Overall, we expect our gross profit percentage to remain relatively flat in future periods with increased sales volumes offset by corresponding increases in product and service costs.

Operating Expenses

	Three Months Ended June 30, (Dollars in Thousands) 2014		2013		Change			
		% of Revenue		% of Revenue	\$	%

19

Table of Contents

Research and development. Research and development expenses consist primarily of personnel expenses, fees for outside consultants, overhead and related expenses associated with the development of new products and the enhancement of existing products.

The 18%, or \$2.8 million, increase in research and development expenses is due to a \$2.0 million increase in employee related expenses due to increased compensation and other employee related costs, a \$280 thousand increase in allocated overhead, a \$266 thousand increase in consulting expenses, a \$218 thousand increase in depreciation expense, and a \$90 thousand increase in deal related compensation expenses. Average headcount in research and development was 354 and 357 for the three months ended June 30, 2014 and 2013, respectively.

Sales and marketing. Sales and marketing expenses consist primarily of personnel expenses and commissions, overhead and other expenses associated with selling activities and marketing programs such as trade shows, seminars, advertising, and new product launch activities.

The 16%, or \$5.1 million, increase in total sales and marketing expenses was due a \$2.4 million increase in employee related expenses due to increased headcount as well as increased incentive compensation. In addition, there was a \$1.6 million increase in commissions due to higher shipments as well as an increase in anticipated higher quota attainment, a \$558 thousand increase in allocated overhead, a \$326 thousand increase in travel expenses, a \$287 thousand increase in advertising related expenses, a \$267 thousand increase related to the NetScout user conference, and a \$193 thousand increase in recruiting costs. These increases were partially offset by a \$580 thousand decrease in depreciation expenses. Average headcount in sales and marketing was 370 and 345 for the three months ended June 30, 2014 and 2013, respectively.

General and administrative. General and administrative expenses consist primarily of personnel expenses for executive, financial, legal and human resource employees, overhead and other corporate expenditures.

The 25%, or \$1.8 million, increase in general and administrative expenses was due to a \$1.5 million increase in employee related expenses due to increased incentive compensation, a \$181 thousand increase in legal expenses, and a \$108 increase in recruiting costs. These increases were partially offset by a \$170 thousand decrease in business development expenses. Average headcount in general and administrative was 117 and 120 for the three months ended June 30, 2014 and 2013, respectively.

Amortization of acquired intangible assets. Amortization of acquired intangible assets consists primarily of amortization of customer relationships related to the acquisitions of ONPATH Technologies, Inc. (ONPATH), Accanto, Simena, LLC (Simena), Fox Replay BV (Replay), Psytechnics, Ltd (Psytechnics) and Network General. The 1%, or \$8 thousand, increase in amortization of acquired intangible assets is due to the increase of expense recorded related to the acquisitions of Replay and Accanto.

Interest and Other Income (Expense), Net. Interest and other income (expense), net includes interest earned on our cash, cash equivalents and marketable securities, interest expense and other non-operating gains or losses.

	Three Months Ended				Change	
	June 30,					
	(Dollars in Thousands)					
	2014		2013		\$	%
		% of Revenue		% of Revenue		
Interest and other income (expense), net	\$(131)	—	\$(73)	—	\$(58)	(79)%

The 79%, or \$58 thousand, increase in interest and other income (expense) was due to a \$105 thousand increase in foreign currency exchange expense. This increase to interest and other income (expense), net was partially offset by a \$24 thousand decrease in loss on the disposal of assets, and a \$17 thousand increase in interest income received on investments.

Table of Contents

Income Tax Expense. Our effective income tax rates were 41.1% and 40.4% for the three months ended June 30, 2014 and 2013, respectively. Generally, the effective tax rates differ from statutory rates due to the impact of the domestic production activities deduction, research and development credits if enacted, the impact of state taxes, income generated in jurisdictions that have a different tax rate than the U.S. statutory rate, and losses not benefited in certain foreign jurisdictions. The effective tax rate for the three months ended June 30, 2014 is higher than the comparable prior year period primarily due to the expiration of the federal research and development credit and the exclusion of certain foreign losses for which a benefit cannot be realized, offset by decreases to the state tax rate.

	Three Months Ended				Change			
	June 30, (Dollars in Thousands) 2014	% of Revenue	2013	% of Revenue	\$	%		%
Income tax expense	\$7,995	7	% \$3,557	4	% \$4,438	125		%
Off-Balance Sheet Arrangements								

As of June 30, 2014 and 2013, we did not have any off-balance sheet arrangements as defined in Regulation S-K, Item 303(a)(4)(ii).

Commitment and Contingencies

We account for claims and contingencies in accordance with authoritative guidance that requires us to record an estimated loss from a claim or loss contingency when information available prior to issuance of our consolidated financial statements indicates that it is probable that a liability has been incurred at the date of the consolidated financial statements and the amount of the loss can be reasonably estimated. If we determine that it is reasonably possible but not probable that an asset has been impaired or a liability has been incurred or if the amount of a probable loss cannot be reasonably estimated, then in accordance with the authoritative guidance, we disclose the amount or range of estimated loss if the amount or range of estimated loss is material. Accounting for claims and contingencies requires us to use our judgment. We consult with legal counsel on those issues related to litigation and seek input from other experts and advisors with respect to matters in the ordinary course of business. For additional information with respect to legal proceedings, refer to Part II, Item 1 “Legal Proceedings.”

We recorded two contingent liabilities related to the acquisition of Simena. One relates to future consideration to be paid to the former owner which had an initial fair value of \$8.0 million at the time of acquisition and another relates to contractual non-compliance liabilities incurred by Simena with an initial fair value of \$1.6 million at the time of acquisition. At June 30, 2014, the present value of the future consideration was \$4.4 million and the contractual non-compliance liability was \$0. The contingent contractual obligation has been reduced to zero as NetScout has either settled those liabilities or believes that because of the passage of time that the probability of a future negative settlement is essentially zero.

Liquidity and Capital Resources

Cash, cash equivalents and marketable securities consist of the following (in thousands):

	June 30, 2014	March 31, 2014
Cash and cash equivalents	\$88,974	\$102,076
Short-term marketable securities	88,890	75,234
Long-term marketable securities	56,580	41,484
Cash, cash equivalents and marketable securities	\$234,444	\$218,794
Cash, cash equivalents and marketable securities		

At June 30, 2014, cash, cash equivalents and marketable securities totaled \$234.4 million, up \$15.6 million from \$218.8 million at March 31, 2014 due primarily to cash flow from operations of \$28.2 million, partially offset by \$12.2 million of cash used to repurchase shares of our common stock and \$1.9 million of cash used for capital expenditures.

Table of Contents

Substantially all of our cash, cash equivalents and marketable securities are located in the United States. At June 30, 2014, cash and short-term and long-term investments in the United States was \$232.1 million, while cash held outside the United States was approximately \$2.3 million.

Cash and cash equivalents were impacted by the following:

	Three months ended June 30, (Dollars in Thousands)	
	2014	2013
Net cash provided by operating activities	\$28,200	\$18,613
Net cash used in investing activities	\$(30,627)	\$(8,395)
Net cash used in financing activities	\$(10,748)	\$(7,371)
Net cash provided by operating activities		

Cash provided by operating activities was \$28.2 million during the three months ended June 30, 2014, compared to \$18.6 million of cash provided by operating activities during the three months ended June 30, 2013. This \$9.6 million increase was due in part to a \$5.8 million increase in cash flows from inventories related to a larger buildup of the inventory balance during the three months ended June 30, 2013 as compared to the three months ended June 30, 2014. In addition, there was a \$4.6 million favorable impact from accounts receivable in the three months ended June 30, 2014 as compared to the three months ended June 30, 2013. Days sales outstanding of 26 days as of the end of the first quarter of fiscal year 2015 compared to 47 days at March 31, 2014 and 55 days at the end of the first quarter of fiscal year 2014. Additionally, there was a \$6.2 million increase from net income, a \$1.3 million increase from prepaid expenses and other assets, a \$791 thousand increase from deferred income taxes, a \$490 thousand increase from share-based compensation, and a \$405 thousand increase from accrued compensation. These increases were partially offset by a \$6.0 million decrease from deferred revenue, a \$3.5 million decrease from accounts payable due to timing of payments, and a \$677 thousand decrease from income taxes payable.

Net cash used in investing activities

	Three months ended June 30, (Dollars in Thousands)	
	2014	2013
Cash used in investing activities included the following:		
Purchase of marketable securities	\$(42,506)	\$(18,081)
Proceeds from maturity of marketable securities	13,798	12,112
Purchase of fixed assets	(1,865)	(2,270)
Purchase of intangible assets	(71)	(110)
Decrease (increase) in deposits	17	(46)
	\$(30,627)	\$(8,395)

Cash used in investing activities was up \$22.2 million to \$30.6 million during the three months ended June 30, 2014, compared to \$8.4 million of cash used in investing activities in the three months ended June 30, 2013.

Our investments in property and equipment consist primarily of computer equipment, demonstration units, office equipment and facility improvements. We plan to continue to invest in capital expenditures to support our infrastructure through the remainder of fiscal year 2015.

The increase in outflow related to a net increase in the purchase of investments of \$22.7 million during the three months ended June 30, 2014 when compared to the three months ended June 30, 2013.

Table of Contents

Net cash used in financing activities

	Three months ended June 30, (Dollars in Thousands)	
	2014	2013
Cash used in financing activities included the following:		
Issuance of common stock under stock plans	\$8	\$213
Payment of contingent consideration	—	(841)
Treasury stock repurchases	(12,187)	(7,470)
Excess tax benefit from share-based compensation awards	1,431	727
	\$(10,748)	\$(7,371)

Cash used in financing activities was up \$3.3 million to \$10.7 million during the three months ended June 30, 2014, compared to \$7.4 million of cash used in financing activities in the three months ended June 30, 2013.

During the three months ended June 30, 2013, we paid \$0.8 million related to the contingent purchase consideration for the acquisition of Simena. For additional information with respect to the contingent purchase consideration, see Note 11 in the Notes to the Consolidated Financial Statements of this Form 10-Q.

On September 17, 2001, we announced an open market stock repurchase program to purchase up to one million shares of our outstanding common stock, subject to market conditions and other factors. Any purchases under this stock repurchase program may be made from time to time without prior notice. On July 26, 2006, we announced that we had expanded the existing open market stock repurchase program to enable us to purchase up to an additional three million shares of our outstanding common stock, bringing the total number of shares authorized for repurchase to four million shares. Through June 30, 2014, we had repurchased a total of 4,000,000 shares of common stock through the open market stock repurchase program. We repurchased 243,300 and 250,000 shares at a cost of \$9.4 million and \$5.9 million under this program during the three months ended June 30, 2014 and 2013, respectively. As of June 30, 2014, all authorized shares under this stock repurchase program have been repurchased.

On April 22, 2014, our board of directors approved an additional stock repurchase program. This program authorizes management to make additional repurchases of our outstanding common stock of up to \$100 million. The share repurchase authorization does not have an expiration date and the pace and timing of repurchases will depend on factors such as cash generation from operations, cash requirements for acquisitions, economic and market conditions, stock price and legal and regulatory requirements. Through June 30, 2014, we repurchased 6,700 shares totaling \$272 thousand in the open market under this stock repurchase plan. At June 30, 2014, \$99.7 million of common stock remained to be purchased under the plan.

Future repurchases of shares will reduce our cash balance. In addition, during the three months ended June 30, 2014 and 2013, we had 62,228 and 65,516 shares transferred to us from employees for tax withholding at a cost of \$2.5 million and \$1.6 million, respectively.

We generated \$1.4 million and \$727 thousand during the three months ended June 30, 2014 and 2013, respectively, of excess tax benefits from share-based compensation awards.

Credit Facility

On November 22, 2011, we entered into a credit facility with a syndicate of lenders led by KeyBank National Association (KeyBank) which provides us with a \$250 million revolving credit facility, which may be increased to \$300 million at any time up to 90 days before maturity. The revolving credit facility includes a swing line loan sub-facility of up to \$10 million and a letter of credit sub-facility of up to \$10 million. The credit facility matures on November 21, 2016 and is secured by substantially all of our assets. At June 30, 2014, there were no amounts outstanding under the credit facility.

Expectations for Fiscal Year 2015

We believe that our cash balances, short-term marketable securities classified as available-for-sale and future cash flows generated by operations will be sufficient to meet our anticipated cash needs for working capital and capital expenditures for at least the next 12 months. In addition, we expect that cash provided by operating activities will continue to increase due to an expected increase in cash collections related to anticipated higher revenues, partially offset by an anticipated increase in operating expenses that require cash outlays such as salaries and commissions. Capital expenditures in our fiscal year 2015 are currently anticipated to be in line with previous years' amounts.

Table of Contents

Additionally, a portion of our cash may be used to acquire or invest in complementary businesses or products or to obtain the right to use complementary technologies. From time to time, in the ordinary course of business, we evaluate potential acquisitions of such businesses, products or technologies. If our existing sources of liquidity are insufficient to satisfy our liquidity requirements, we may seek to sell additional equity or debt securities. The sale of additional equity or debt securities could result in additional dilution to our stockholders.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606) (ASU 2014-09), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. ASU 2014-09 is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. This new guidance is effective for annual reporting periods (including interim reporting periods within those periods) beginning after December 15, 2016 (April 1, 2017 for NetScout); early adoption is not permitted. Entities have the option of using either a full retrospective or a modified approach to adopt the guidance. We have not determined the potential effects on our consolidated financial statements.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Credit Risk. Our cash equivalents and marketable securities consist primarily of money market instruments, U.S. Treasury bills, certificates of deposit, commercial paper, corporate bonds and municipal obligations.

At June 30, 2014, we maintained cash balances in various operating accounts in excess of federally insured limits. We limit the amount of credit exposure with any one financial institution by evaluating the creditworthiness of the financial institutions with which we invest.

Foreign Currency Exchange Risk. As a result of our foreign operations, we face exposure to movements in foreign currency exchange rates, primarily the Euro, British Pound, Canadian Dollar and Indian Rupee. The current exposures arise primarily from expenses denominated in foreign currencies. We currently engage in foreign currency hedging activities in order to limit these exposures. We do not use derivative financial instruments for speculative trading purposes.

As of June 30, 2014, we had foreign currency forward contracts with notional amounts totaling \$16.6 million. The valuation of outstanding foreign currency forward contracts at June 30, 2014 resulted in an asset balance of \$358 thousand, reflecting favorable rates in comparison to current market rates and a liability balance of \$102 thousand, reflecting unfavorable contract rates in comparison to current market rates at this date. As of March 31, 2014, we had foreign currency forward contracts with notional amounts totaling \$17.5 million. The valuation of outstanding foreign currency forward contracts at March 31, 2014 resulted in a liability balance of \$139 thousand, reflecting unfavorable contract rates in comparison to current market rates at this date and an asset balance of \$368 thousand reflecting favorable rates in comparison to current market rates.

Item 4. Controls and Procedures

As of June 30, 2014, NetScout, under the supervision and with the participation of our management, including the Company's principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(b) promulgated under the Securities Exchange Act of 1934, as amended (Exchange Act). Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of June 30, 2014, our disclosure controls and procedures were effective in ensuring that material information relating to NetScout, including its consolidated subsidiaries, required to be disclosed by NetScout in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such material information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

There were no changes in our internal controls that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II: OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, NetScout is subject to legal proceedings and claims in the ordinary course of business. In the opinion of management, the amount of ultimate expense with respect to any current legal proceedings and claims, if determined adversely, will not have a significant adverse effect on our financial condition, results of operations or cash flows.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. "Risk Factors" in our Annual Report on Form 10-K for our fiscal year ended March 31, 2014. The risks discussed in our Annual Report on Form 10-K could materially affect our business, financial condition and future results. There have been no material changes to those risk factors since we filed our Annual Report on Form 10-K. The risks described in our Annual Report on Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information about purchases we made during the quarter ended June 30, 2014 of equity securities that are registered by us pursuant to Section 12 of the Exchange Act:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Approximate Dollar Value of Shares That May Yet be Purchased Under the Program (2)
4/1/2014 - 4/30/2014	25,960	\$ 38.08	18,200	
5/1/2014 - 5/31/2014	192,170	38.70	191,170	
6/1/2014 - 6/30/2014	94,098	39.97	40,630	
Total	312,228	\$ 39.03	250,000	\$99,727,733

We purchased an aggregate of 62,228 shares transferred to us from employees in satisfaction of minimum tax (1) withholding obligations associated with the vesting of restricted stock units during the period. These purchases reflected in the table do not reduce the maximum number of shares that may be purchased under the plan.

(2) During the first quarter ended June 30, 2014, the Company had a share repurchase plan that was announced in July 2006 to purchase up to four million shares of the Company's common stock. During the quarter ended June 30, 2014, share repurchases under the July 2006 plan were completed. On April 22, 2014, our board of directors approved an additional stock repurchase program. This share repurchase program authorizes us to make additional repurchases of our outstanding common stock of up to \$100 million with no pre-established end date. The Company repurchased a total of \$9.7 million under both plans during the quarter ended June 20, 2014.
