Cautionary Note on Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, the provisions of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements include financial projections, statements of plans and objectives for future operations, statements of future economic performance, and statements of assumptions relating thereto. Forward-looking statements may appear throughout this report, including without limitation, Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations," and are often identified by future or conditional words such as "will", "plans", "expects", "intends", "believes", "seeks", "estimates", or "anticipates", or by variations of such words or by similar expressions. There can be no assurances that forward-looking statements will be achieved. By their very nature, forward-looking statements involve known and unknown risks, uncertainties, assumptions, and other important factors that could cause our actual results or conditions to differ materially from those expressed or implied by such forward-looking statements. Important risks, uncertainties, assumptions, and other factors that could cause our actual results or conditions to differ materially from our forward-looking statements include, among others:

- uncertainties regarding the impact of general economic conditions in the United States and abroad, particularly in information technology spending and government budgets, on our business;
- risks associated with our ability to keep pace with technological changes and evolving industry standards in our product offerings and to successfully develop, launch, and drive demand for new and enhanced, innovative, high-quality products that meet or exceed customer needs;
- risks due to aggressive competition in all of our markets, including with respect to maintaining margins and sufficient levels of investment in our business;
- risks created by the continued consolidation of our competitors or the introduction of large competitors in our markets with greater resources than we have;
- risks associated with our ability to successfully compete for, consummate, and implement mergers and acquisitions, including risks associated with capital constraints, valuations, costs and expenses, maintaining profitability levels, management distraction, post-acquisition integration activities, and potential asset impairments;
- risks relating to our ability to effectively and efficiently execute on our growth strategy, including managing investments in our business and operations and enhancing and securing our internal and external operations;
- risks associated with our ability to effectively and efficiently allocate limited financial and human resources to business, development, strategic, or other opportunities that may not come to fruition or produce satisfactory returns;
- risks that we may be unable to maintain and enhance relationships with key resellers, partners, and systems integrators;
- risks associated with the mishandling or perceived mishandling of sensitive or confidential information, security lapses, or with information technology system failures or disruptions;
- risks associated with our significant international operations, including, among others, in Israel, Europe, and Asia, exposure to regions subject to political or economic instability, and fluctuations in foreign exchange rates;
  - risks associated with a significant amount of our business coming from domestic and foreign government customers, including the ability to maintain security clearances for certain projects;
- risks associated with complex and changing local and foreign regulatory environments in the jurisdictions in which we operate;
- risks associated with our ability to recruit and retain qualified personnel in regions in which we operate;
- challenges associated with selling sophisticated solutions, long sales cycles, and emphasis on larger transactions, including in assisting customers in realizing the benefits of our solutions and in accurately forecasting revenue and expenses and in maintaining profitability;
- risks that our intellectual property rights may not be adequate to protect our business or assets or that others may make claims on our intellectual property or claim infringement on their intellectual property rights;

Table of Contents

risks that our products may contain defects, which could expose us to substantial liability;

risks associated with our dependence on a limited number of suppliers or original equipment manufacturers ("OEMs") for certain components of our products, including companies that may compete with us or work with our competitors;

risks that our customers or partners delay or cancel orders or are unable to honor contractual commitments due to liquidity issues, challenges in their business, or otherwise;

risks that we may experience liquidity or working capital issues and related risks that financing sources may be unavailable to us on reasonable terms or at all;

risks associated with significant leverage resulting from our current debt position, including with respect to liquidity considerations, covenant limitations and compliance, fluctuations in interest rates, dilution considerations (with respect to our convertible notes), and our ability to maintain our credit ratings;

risks arising as a result of contingent or other obligations or liabilities assumed in our acquisition of our former parent company, Comverse Technology, Inc. ("CTI"), or associated with formerly being consolidated with, and part of a consolidated tax group with, CTI, or as a result of CTI's former subsidiary, Comverse, Inc. ("Comverse"), being unwilling or unable to provide us with certain indemnities or transition services to which we are entitled;

risks relating to our ability to successfully implement and maintain adequate systems and internal controls for our current and future operations and reporting needs and related risks of financial statement omissions, misstatements, restatements, or filing delays; and

risks associated with changing tax rates, tax laws and regulations, and the continuing availability of expected tax benefits, including those expected as a result of acquisitions.

These risks, uncertainties, assumptions, and challenges, as well as other factors, are discussed in greater detail in "Risk Factors" under Part II, Item 1A of this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended January 31, 2014. You are cautioned not to place undue reliance on forward-looking statements, which reflect our management's view only as of the date of this report. We make no commitment to revise or update any forward-looking statements in order to reflect events or circumstances after the date any such statement is made, except as otherwise required under the federal securities laws. If we were in any particular instance to update or correct a forward-looking statement, investors and others should not conclude that we would make additional updates or corrections thereafter except as otherwise required under the federal securities laws.

VERINT SYSTEMS INC. AND SUBSIDIARIES  
Notes to Condensed Consolidated Financial Statements

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Description of Business

Unless the context otherwise requires, the terms "Verint", "we", "us", and "our" in these notes to condensed consolidated financial statements refer to Verint Systems Inc. and its consolidated subsidiaries.

Verint is a global leader in Actionable Intelligence solutions. Actionable Intelligence is a necessity in a dynamic world of massive information growth because it empowers organizations with crucial insights and enables decision makers to anticipate, respond, and take action. With Verint solutions and value-added services, organizations of all sizes and across many industries can make more timely and effective decisions. Today, more than 10,000 organizations in over 180 countries, including over 80 percent of the Fortune 100, use Verint solutions to improve enterprise performance and make the world a safer place.

Our Actionable Intelligence solutions help organizations address three important challenges: Customer Engagement Optimization; Security Intelligence; and Fraud, Risk, and Compliance. We help our customers capture large amounts of information from numerous data types and sources, use analytics to glean insights from the information, and leverage the resulting Actionable Intelligence to help achieve their customer engagement, enhanced security, and risk mitigation goals.

Headquartered in Melville, New York, we support our customers around the globe directly and with an extensive network of selling and support partners.

We conduct our business through three operating segments—Enterprise Intelligence, Communications and Cyber Intelligence ("Communications Intelligence"), and Video and Situation Intelligence ("Video Intelligence"). Organizing our business through three operating segments allows us to align our resources and domain expertise to effectively address the Actionable Intelligence market. We address the Customer Engagement Optimization market opportunity through solutions from our Enterprise Intelligence segment. We address the Security Intelligence market opportunity through solutions from our Communications Intelligence segment and Video Intelligence segment, and we address the Fraud, Risk, and Compliance market opportunity through solutions from all three operating segments.

Preparation of Condensed Consolidated Financial Statements

The condensed consolidated financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and on the same basis as the audited consolidated financial statements included in our Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission ("SEC") for the year ended January 31, 2014. The condensed consolidated statements of operations, comprehensive income (loss), stockholders' equity, and cash flows for the periods ended October 31, 2014 and 2013, and the condensed consolidated balance sheet as of October 31, 2014, are not audited but reflect all adjustments that are of a normal recurring nature and that are considered necessary for a fair presentation of the results for the periods shown. The condensed consolidated balance sheet as of January 31, 2014 is derived from the audited consolidated financial statements presented in our Annual Report on Form 10-K for the year ended January 31, 2014. Certain information and disclosures normally included in annual consolidated financial statements have been omitted pursuant to the rules and regulations of the SEC. Because the condensed consolidated interim financial statements do not include all of the information and disclosures required by GAAP for a complete set of financial statements, they

should be read in conjunction with the audited consolidated financial statements and notes included in our Annual Report on Form 10-K filed with the SEC for the year ended January 31, 2014. The results for interim periods are not necessarily indicative of a full year's results.

#### Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Verint Systems Inc., our wholly owned subsidiaries, and a joint venture in which we hold a 50% equity interest. This joint venture functions as a systems integrator for Asian markets and is a variable interest entity in which we are the primary beneficiary. Investments in companies in which we have less than a 20% ownership interest and do not exercise significant influence are accounted for at cost. We include the results of operations of acquired companies from the date of acquisition. All significant intercompany transactions and balances are eliminated.

## Table of Contents

### Use of Estimates

The preparation of financial statements in conformity with GAAP requires our management to make estimates and assumptions, which may affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

### Significant Accounting Policies

Our significant accounting policies are described in Note 1 to the consolidated financial statements included in our Annual Report on Form 10-K for the year ended January 31, 2014. There were no significant changes to our significant accounting policies during the nine months ended October 31, 2014. Additional disclosures regarding our policy for calculating net income per common share attributable to Verint Systems Inc. appear below.

### Net Income Per Common Share Attributable to Verint Systems Inc.

Shares used in the calculation of basic net income per common share are based on the weighted-average number of common shares outstanding during the accounting period. Shares used in the calculation of basic net income per common share include vested but unissued shares underlying awards of restricted stock units when all necessary conditions for earning those shares have been satisfied at the award's vesting date, but exclude unvested shares of restricted stock because they are contingent upon future service conditions.

Shares used in the calculation of diluted net income per common share are based on the weighted-average number of common shares outstanding, adjusted for potentially dilutive common shares outstanding during the period. Potentially dilutive common shares from warrants and stock-based compensation plans are determined using the treasury stock method.

We have the option to pay cash, issue shares of common stock, or any combination thereof for the aggregate amount due upon conversion of our 1.50% convertible senior notes due June 1, 2021 (the "Notes"), further details for which appear in Note 6, "Long-Term Debt". We currently intend to settle the principal amount of the Notes in cash upon conversion and as a result, only the amounts payable in excess of the principal amounts of the Notes, if any, are assumed to be settled with shares of common stock for purposes of computing diluted net income per share.

Potentially dilutive common shares also included the assumed conversion of our Series A Convertible Perpetual Preferred Stock ("Preferred Stock"), if dilutive, for periods prior to cancellation of the Preferred Stock on February 4, 2013 in connection with the CTI Merger. The CTI Merger is further discussed in Note 14, "Merger with CTI".

In periods for which we report a net loss, basic net loss per common share and diluted net loss per common share are identical since the effect of potential common shares is anti-dilutive and therefore excluded.

### Recent Accounting Pronouncements

#### New Accounting Pronouncements Implemented

In March 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2013-05, Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity. This new standard is intended to resolve diversity in practice regarding the release into net income of a cumulative translation adjustment upon derecognition of a subsidiary or group of assets within a foreign entity. ASU

No. 2013-05 was effective prospectively for us on February 1, 2014. The adoption of this standard did not impact our condensed consolidated financial statements.

#### New Accounting Pronouncements To Be Implemented

In April 2014, the FASB issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. ASU No. 2014-08 raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. It is effective for annual reporting periods beginning on or after December 15, 2014. Early adoption is permitted but only for disposals that have not been reported in previously issued financial statements. We are currently reviewing this standard, but we do not expect its

Table of Contents

adoption to materially impact our condensed consolidated financial statements, absent any disposals of components or groups of components that have a material effect on our financial results in future periods.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). ASU No. 2014-09 supersedes the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific revenue recognition guidance throughout the Industry Topics of the Accounting Standards Codification. Additionally, this update supersedes some cost guidance included in Subtopic 605-35, Revenue Recognition-Construction-Type and Production-Type Contracts. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. It is effective for the first interim period within annual reporting periods beginning after December 15, 2016, and early adoption is not permitted. Entities may choose from two adoption methods, with certain practical expedients. We are currently reviewing this standard to assess the impact on our future condensed consolidated financial statements and evaluating the available adoption methods.

In June 2014, the FASB issued ASU No. 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, Consolidation. ASU No. 2014-10 removes the financial reporting distinction between development stage entities and other reporting entities from GAAP and it eliminates an exception provided in the consolidation guidance for development stage enterprises. It is effective for fiscal years, and interim periods within those years, beginning after December 15, 2015, although early adoption is permitted. We are currently reviewing this standard to assess the impact on our future condensed consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, Compensation—Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period, which requires that a performance target that affects vesting, and that could be achieved after the requisite service period, be treated as a performance condition. As such, the performance target should not be reflected in estimating the grant date fair value of the award. ASU No. 2014-12 is effective for annual reporting periods beginning after December 15, 2015, including interim periods within that reporting period, although early adoption is permitted. We are currently reviewing this standard to assess the impact on our future condensed consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. This ASU defines management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. The provisions of ASU No. 2014-15 are effective for annual periods ending after December 15, 2016 and for annual and interim periods thereafter, and early adoption is permitted. The adoption of ASU No. 2014-15 is not expected to have a material effect on our future condensed consolidated financial statements.

**2. NET INCOME PER COMMON SHARE ATTRIBUTABLE TO VERINT SYSTEMS INC.**

The following table summarizes the calculation of basic and diluted net income per common share attributable to Verint Systems Inc. for the three and nine months ended October 31, 2014 and 2013:

Table of Contents

(in thousands, except per share amounts)	Three Months Ended		Nine Months Ended	
	October 31,		October 31,	
	2014	2013	2014	2013
Net income	\$11,473	\$24,054	\$29,912	\$34,622
Net income attributable to noncontrolling interest	803	1,567	3,564	3,752
Net income attributable to Verint Systems Inc.	10,670	22,487	26,348	30,870
Dividends on preferred stock	—	—	—	(174 )
Net income attributable to Verint Systems Inc. for basic net income per common share	10,670	22,487	26,348	30,696
Dilutive effect of dividends on preferred stock	—	—	—	—
Net income attributable to Verint Systems Inc. for diluted net income per common share	\$10,670	\$22,487	\$26,348	\$30,696
Weighted-average shares outstanding:				
Basic	60,644	53,374	57,222	52,781
Dilutive effect of employee equity award plans	848	572	1,110	780
Dilutive effect of 1.50% convertible senior notes	—	—	—	—
Dilutive effect of warrants	—	—	—	—
Dilutive effect of preferred stock	—	—	—	—
Diluted	61,492	53,946	58,332	53,561
Net income per common share attributable to Verint Systems Inc.:				
Basic	\$0.18	\$0.42	\$0.46	\$0.58
Diluted	\$0.17	\$0.42	\$0.45	\$0.57

We excluded the following weighted-average potential common shares from the calculations of diluted net income per common share during the applicable periods because their inclusion would have been anti-dilutive:

(in thousands)	Three Months Ended		Nine Months Ended	
	October 31,		October 31,	
	2014	2013	2014	2013
Weighted average potential common shares excluded from calculation:				
Stock options and restricted stock-based awards	464	343	403	263
1.50% convertible senior notes	6,205	—	3,091	—
Warrants	6,205	—	3,091	—
Series A Convertible Preferred Stock	—	—	—	164

The 1.50% convertible senior notes will not impact the calculation of diluted net income per share unless the average price of our common stock, as calculated in accordance with the terms of the indenture governing the 1.50% convertible senior notes, exceeds the conversion price of \$64.46 per share. Likewise, diluted net income per share will not include any effect from the warrants unless the average price of our common stock, as calculated under the terms of the warrants, exceeds the exercise price of \$75.00 per share. Further details regarding the 1.50% convertible senior notes and the warrants appear in Note 6, "Long-Term Debt".

Our Series A Convertible Preferred Stock was canceled in conjunction with the CTI Merger on February 4, 2013, as further discussed in Note 9, "Convertible Preferred Stock" and Note 14, "Merger with CTI". The weighted-average common shares underlying the assumed conversion of the Series A Convertible Preferred Stock for the nine months ended October 31, 2013 in the table above reflect the Series A Convertible Preferred Stock as outstanding for only four days during that period.

### 3. CASH, CASH EQUIVALENTS AND SHORT-TERM INVESTMENTS

The following tables summarize our cash, cash equivalents and short-term investments as of October 31, 2014 and January 31, 2014:

9

---

Table of Contents

(in thousands)	October 31, 2014			
	Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Cash and cash equivalents:				
Cash and bank time deposits	\$ 189,142	\$—	\$—	\$ 189,142
Money market funds	194	—	—	194
Commercial paper	2,999	—	—	2,999
Total cash and cash equivalents	\$ 192,335	\$—	\$—	\$ 192,335
Short-term investments:				
Commercial paper and corporate debt securities (available-for-sale)	\$ 13,774	\$ 22	\$—	\$ 13,796
Bank time deposits	26,340	—	—	26,340
Total short-term investments	\$ 40,114	\$ 22	\$—	\$ 40,136
(in thousands)	January 31, 2014			
	Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Cash and cash equivalents:				
Cash and bank time deposits	\$ 314,604	\$—	\$—	\$ 314,604
Money market funds	14,023	—	—	14,023
Commercial paper	49,986	5	—	49,991
Total cash and cash equivalents	\$ 378,613	\$ 5	\$—	\$ 378,618
Short-term investments:				
Commercial paper and corporate debt securities (available-for-sale)	\$ 9,402	\$ 4	\$—	\$ 9,406
Bank time deposits	22,643	—	—	22,643
Total short-term investments	\$ 32,045	\$ 4	\$—	\$ 32,049

Bank time deposits which are reported within short-term investments consist of deposits held outside of the U.S. with maturities of greater than three months, or without specified maturity dates which we intend to hold for periods in excess of three months. All other bank deposits are included within cash and cash equivalents.

As of October 31, 2014 and January 31, 2014, all of our available-for-sale investments had contractual maturities of less than one year. We report our available-for-sale securities at fair value, based on quoted market prices or other readily available market information. Unrealized gains and losses, net of applicable income taxes, are included in accumulated other comprehensive income (loss) within stockholders' equity on our condensed consolidated balance sheets. Realized gains or losses, if applicable, are recorded in other income (expense), net in our condensed consolidated statement of operations, using the specific identification method. Gains and losses on sales of available-for-sale securities during the nine months ended October 31, 2014 and 2013 were not significant.

During the nine months ended October 31, 2014 and 2013, proceeds from sales and maturities of available-for-sale securities were \$11.4 million and \$70.0 million, respectively.

We periodically review our investment portfolios to determine if any investment is other-than-temporarily impaired due to changes in credit risk or other potential valuation concerns. We believe that the investments we held at October 31, 2014 were not other-than-temporarily impaired. We held no available-for-sale securities with unrealized losses at

October 31, 2014. We do not intend to sell our available-for-sale securities and it is not more likely than not that we will be required to sell them before recovery at par, which may be at maturity.

#### 4. BUSINESS COMBINATIONS

Nine Months Ended October 31, 2014

10

---

Table of Contents

KANA Software, Inc.

On February 3, 2014, we completed the acquisition of KANA Software, Inc. and its subsidiaries through the merger of KANA Software, Inc.'s parent holding company, Kay Technology Holdings, Inc. (collectively, "KANA"), with an indirect, wholly owned subsidiary of Verint, with KANA continuing as the surviving company and as our wholly owned subsidiary. The purchase price consisted of \$542.4 million of cash paid at the closing, partially offset by \$25.1 million of KANA's cash received in the acquisition, and a \$0.7 million post-closing purchase price adjustment, resulting in net cash consideration of \$516.6 million. The post-closing purchase price adjustment resulted from the final determination of KANA's February 3, 2014 cash, debt, net working capital, transaction expenses and taxes, and was received in cash in May 2014.

The merger consideration was funded by a combination of cash on hand, \$300.0 million of incremental term loans incurred in connection with an amendment to our Credit Agreement, and \$125.0 million of borrowings under our 2013 Revolving Credit Facility (further details for which appear in Note 6, "Long-Term Debt").

KANA, based in Sunnyvale, California and with global operations, is a leading provider of on-premises and cloud-based solutions which create differentiated, personalized, and integrated customer experiences for large enterprises and mid-market organizations. KANA is being integrated into our Enterprise Intelligence operating segment.

Among the factors contributing to the recognition of goodwill as a component of the KANA purchase price allocation were synergies in products and technologies, and the addition of a skilled, assembled workforce. This goodwill has been assigned to our Enterprise Intelligence segment and while generally not deductible for income tax purposes, certain goodwill related to previous business combinations by KANA will be deductible for income tax purposes.

In connection with the purchase price allocation for KANA, the estimated fair value of undelivered performance obligations under customer contracts assumed in the merger was determined utilizing a cost build-up approach. The cost build-up approach calculates fair value by estimating the costs required to fulfill the obligations plus a reasonable profit margin, which approximates the amount that we believe would be required to pay a third party to assume the performance obligations. The estimated costs to fulfill the performance obligations were based on the historical direct costs for delivering similar services. As a result, in allocating the purchase price, we recorded \$7.9 million of current and long-term deferred revenue, representing the estimated fair value of undelivered performance obligations for which payment had been received, which will be recognized as revenue as the underlying performance obligations are delivered. For undelivered performance obligations for which payment had not yet been received, we recorded an \$18.6 million asset within prepaid expenses and other current assets as a component of the purchase price allocation. We are amortizing this asset over the underlying delivery periods for these obligations as a reduction to revenue, which reduces the revenue we recognize for providing these services to its estimated fair value.

As a result of the ongoing integration of KANA into our Enterprise Intelligence operating segment, including the integration of the KANA and legacy Verint global sales organizations and the resulting impact to the marketing and sales of our Enterprise Intelligence products, we are unable to provide a meaningful measure of the impact on revenue and net income attributable to KANA in our condensed consolidated statements of operations for the three and nine months ended October 31, 2014.

Transaction and related costs, consisting primarily of professional fees and integration expenses, directly related to the merger, totaled \$1.8 million and \$6.4 million for the three and nine months ended October 31, 2014, respectively, and were expensed as incurred.

UTX Technologies Limited

On March 31, 2014, we completed the acquisition of all of the outstanding shares of UTX Technologies Limited (“UTX”), a provider of certain mobile device tracking solutions for security applications, from UTX Limited. UTX Limited was our supplier of these products to our Communications Intelligence operating segment prior to the acquisition. The purchase price consisted of \$82.9 million of cash paid at closing, subject to adjustment, and \$1.3 million for the fair value of potential future contingent consideration payments to UTX Limited of up to \$1.5 million. Contingent consideration of \$1.5 million was paid to UTX Limited during the three months ended October 31, 2014, in consideration of UTX achieving certain performance targets. The cash paid to acquire UTX was funded with cash on hand.

UTX is based in the Europe, the Middle East and Africa (“EMEA”) region and is being integrated into our Communications Intelligence operating segment.

## Table of Contents

Among the factors contributing to the recognition of goodwill as a component of the UTX purchase price allocation were synergies in products and technologies, and the addition of a skilled, assembled workforce. This goodwill has been assigned to our Communications Intelligence segment and is not deductible for income tax purposes.

For the nine months ended October 31, 2014, we recorded a charge of \$0.2 million within selling, general and administrative expenses to increase the fair value of the UTX contingent consideration obligation to \$1.5 million, which reflected the achievement of the underlying performance targets. This amount was paid to UTX Limited during the three months ended October 31, 2014.

Revenue and income before provision for income taxes attributable to UTX from March 31, 2014 through October 31, 2014 were not significant to our consolidated operating results.

Transaction and related costs (or benefits) directly related to the acquisition of UTX, consisting primarily of professional fees, integration expenses and related adjustments, were a benefit of \$0.9 million and a charge of \$2.1 million for the three and nine months ended October 31, 2014. All transaction and related costs were expensed as incurred.

As a result of the UTX acquisition, we recorded a \$2.6 million charge for the impairment of certain capitalized software development costs during the three months ended April 30, 2014, reflecting strategy changes in certain product development initiatives. This charge is reflected within cost of product revenue.

### Other Business Combination

On April 16, 2014, we completed the acquisition of certain technology and other assets for use in our Communications Intelligence operating segment in a transaction that qualified as a business combination. This business combination was not material to our condensed consolidated financial statements.

### Purchase Price Allocations

The purchase price allocations for the business combinations completed during the nine months ended October 31, 2014 have been prepared on a preliminary basis and changes to those allocations may occur as additional information becomes available during the respective measurement periods (up to one year from the respective acquisition dates). Fair values still under review include values assigned to identifiable intangible assets, deferred income taxes and reserves for uncertain income tax positions. Adjustments identified and recorded subsequent to the initial purchase price allocations for both KANA and UTX have not been material.

The purchase prices were allocated to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values on the acquisition dates, with the remaining unallocated purchase prices recorded as goodwill. The fair values assigned to identifiable intangible assets acquired were determined primarily by using the income approach, which discounts expected future cash flows to present value using estimates and assumptions determined by management.

The following table sets forth the components and the allocations of the purchase prices for our acquisitions of KANA and UTX, including adjustments identified subsequent to the respective acquisition dates:

Table of Contents

(in thousands)	KANA	UTX	
Components of Purchase Prices:			
Cash, including post-closing adjustments	\$541,685	\$82,901	
Fair value of contingent consideration	—	1,347	
Total purchase prices	\$541,685	\$84,248	
Allocation of Purchase Prices:			
Net tangible assets (liabilities):			
Accounts receivable	\$18,473	\$—	
Other current assets, including cash acquired	48,948	3,873	
Other assets	12,124	924	
Current and other liabilities	(16,509	) (263	)
Deferred revenue - current and long-term	(7,932	) (340	)
Deferred income taxes - current and long-term	(63,184	) (4,882	)
Net tangible liabilities	(8,080	) (688	)
Identifiable intangible assets:			
Customer relationships	152,700	2,000	
Developed technology	55,500	37,400	
Trademarks and trade names	11,500	—	
Other intangible assets	—	1,100	
Total identifiable intangible assets	219,700	40,500	
Goodwill	330,065	44,436	
Total purchase price allocations	\$541,685	\$84,248	

The weighted-average estimated useful life of all finite-lived identifiable intangible assets acquired during the nine months ended October 31, 2014 is 7.4 years.

For the acquisition of KANA, the acquired customer relationships, developed technology, and trademarks and trade names were assigned estimated useful lives of five to ten years, three to five years, and five years, respectively, the weighted average of which is approximately 8.1 years.

For the acquisition of UTX, the acquired customer relationships, developed technology and other intangible assets were assigned estimated useful lives of three years, four years, and four years, respectively, the weighted average of which is approximately 4.0 years.

The acquired identifiable intangible assets are being amortized on a straight-line basis, which we believe approximates the pattern in which the assets are utilized, over their estimated useful lives.

We have included the financial results of these business combinations in our condensed consolidated financial statements from their respective acquisition dates.

#### Pro Forma Information

The following table provides unaudited pro forma operating results for the three and nine months ended October 31, 2014 and 2013, as if KANA and UTX had been acquired on February 1, 2013. These unaudited pro forma results reflect certain adjustments related to these acquisitions, including amortization expense on finite-lived intangible assets acquired from KANA and UTX, interest expense and fees associated with additional long-term debt incurred to partially fund the acquisition of KANA, and adjustments to recognize the fair value of revenue associated with performance obligations assumed in the acquisition of KANA.

For purposes of the following unaudited pro forma operating results, a \$45.2 million income tax benefit resulting from a reduction of valuation allowances associated from the acquisition of KANA is reflected in the pro forma operating results for the nine months ended October 31, 2013. The actual tax benefit was recorded during the nine months ended October 31, 2014, as further described in Note 10, "Income Taxes".

Table of Contents

The unaudited pro forma results do not include any operating efficiencies or potential cost savings which may result from these business combinations. Accordingly, such unaudited pro forma amounts are not necessarily indicative of the results that actually would have occurred had the acquisitions been completed on February 1, 2013, nor are they indicative of future operating results.

(in thousands, except per share amounts)	Three Months Ended October 31,		Nine Months Ended October 31,	
	2014	2013	2014	2013
Revenue	\$288,279	\$256,879	\$842,784	\$737,706
Net income	\$17,650	\$15,826	\$15,419	\$37,146
Net income attributable to Verint Systems Inc.	\$16,847	\$14,259	\$11,855	\$33,394
Net income per common share attributable to Verint Systems Inc.:				
Basic	\$0.28	\$0.27	\$0.21	\$0.63
Diluted	\$0.27	\$0.26	\$0.20	\$0.62

**Business Combinations in Prior Periods**

In connection with certain business combinations completed in prior periods, we have agreed to make contingent cash payments to the former shareholders or asset holders of the acquired businesses based upon achievement of performance targets following the acquisition dates. These obligations are measured at fair value at each reporting date.

For the three and nine months ended October 31, 2014, we recorded charges of \$0.3 million and \$0.5 million, respectively, within selling, general and administrative expenses for changes in the fair values of these obligations, which primarily reflected the impacts of revised expectations of achieving the performance targets. For the three and nine months ended October 31, 2013, we recorded benefits of \$1.9 million and \$1.6 million, respectively, within selling, general and administrative expenses for changes in the fair values of these obligations.

Payments of contingent consideration earned under these agreements were \$1.6 million and \$8.5 million for the three and nine months ended October 31, 2014, respectively. Payments of contingent consideration earned under these agreements were \$0.9 million and \$17.1 million for the three and nine months ended October 31, 2013, respectively.

For a certain business combination completed during the year ended January 31, 2012, the purchase price allocation included liabilities for uncertain tax positions and certain other liabilities associated with pre-acquisition business activities of the acquired company. Corresponding indemnification assets were also recorded as components of the purchase price allocation for this acquisition, recognizing the selling shareholders' contractual obligation to indemnify us for these pre-acquisition liabilities and were measured on the same basis as the corresponding liabilities. As of October 31, 2014 and January 31, 2014, the combined current and long-term liabilities for these matters were \$2.9 million and \$3.4 million, respectively. The corresponding current and long-term indemnification assets associated with these liabilities were \$1.8 million and \$2.3 million at October 31, 2014 and January 31, 2014, respectively.

**5. INTANGIBLE ASSETS AND GOODWILL**

Acquisition-related intangible assets consisted of the following as of October 31, 2014 and January 31, 2014:

Table of Contents

	October 31, 2014		
(in thousands)	Cost	Accumulated Amortization	Net
Intangible assets with finite lives:			
Customer relationships	\$388,008	\$(169,745)	) \$218,263
Acquired technology	200,078	(98,097)	) 101,981
Trade names	19,801	(9,007)	) 10,794
Non-competition agreements	3,625	(2,149)	) 1,476

In-process research and development, with indefinite lives	1,700	—	1,700
Total	\$369,987	\$(237,140)	) \$132,847

The following table presents net acquisition-related intangible assets by reportable segment as of October 31, 2014 and January 31, 2014:

(in thousands)	October 31, 2014	January 31, 2014
Enterprise Intelligence	\$285,037	\$115,928
Communications Intelligence	50,050	14,856
Video Intelligence	1,210	2,063
Total	\$336,297	\$132,847

The reported amount of net acquisition-related intangible assets can fluctuate from the impact of changes in foreign exchange rates on intangible assets not denominated in U.S. dollars.

Total amortization expense recorded for acquisition-related intangible assets was \$19.5 million and \$57.1 million for the three and nine months ended October 31, 2014, respectively, and \$8.1 million and \$26.1 million for the three and nine months ended October 31, 2013, respectively.

Estimated future amortization expense on finite-lived acquisition-related intangible assets as of October 31, 2014 was as follows:

Table of Contents

(in thousands)	Amount
Years Ending January 31, 2015 (remainder of year)	\$20,921
2016	77,033
2017	73,604
2018	54,078
2019	25,107
2020 and thereafter	83,854
Total	\$334,597

Goodwill represents the excess of the purchase price in a business combination over the fair value of net tangible and identifiable intangible assets acquired. At the acquisition date, goodwill resulting from a business combination is assigned to those reporting units expected to benefit from the synergies of the combination. Reporting units may either be at, or one level below, our operating segment level.

Goodwill activity for the nine months ended October 31, 2014, in total and by reportable segment, was as follows:

(in thousands)	Total	Reportable Segment		
		Enterprise Intelligence	Communications Intelligence	Video Intelligence
Year Ended January 31, 2014:				
Goodwill, gross, at January 31, 2014	\$920,254	\$795,722	\$47,838	\$76,694
Accumulated impairment losses through January 31, 2014	(66,865)	(30,791)	—	(36,074)

Long-term debt	\$734,316	\$635,830

## 1.50% Convertible Senior Notes

On June 18, 2014, we issued \$400.0 million in aggregate principal amount of 1.50% convertible senior notes due June 1, 2021 (the "Notes"), unless earlier converted by the holders pursuant to their terms. Net proceeds from the Notes after underwriting discounts were \$391.9 million. The Notes pay interest in cash semiannually in arrears at a rate of 1.50% per annum.

The Notes were issued concurrently with our public issuance of 5,750,000 shares of common stock, the majority of the combined net proceeds of which were used to partially repay certain indebtedness under our Credit Agreement, as further described below. Additional details regarding our June 18, 2014 issuance of common stock appear in Note 8, "Stockholders' Equity".

The Notes are unsecured and rank senior in right of payment to our indebtedness that is expressly subordinated in right of payment to the Notes; equal in right of payment to our indebtedness that is not so subordinated; effectively subordinated in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally subordinated to indebtedness and other liabilities of our subsidiaries.

The Notes are convertible into, at our election, cash, shares of common stock, or a combination of both, subject to satisfaction of specified conditions and during specified periods, as described below. If converted, we currently intend to pay cash in respect of the principal amount of the Notes.

The conversion price of the Notes at any time is equal to \$1,000 divided by the then-applicable conversion rate. The Notes have an initial conversion rate of 15.5129 shares of common stock per \$1,000 principal amount of Notes, which represents an initial effective conversion price of approximately \$64.46 per share of common stock and would result in the issuance of approximately 6,205,000 shares if all of the Notes were converted. Throughout the term of the Notes, the conversion rate may be adjusted upon the occurrence of certain events.

Holders may surrender their Notes for conversion at any time prior to the close of business on the business day immediately preceding December 1, 2020, only under the following circumstances:

during any calendar quarter commencing after the calendar quarter ending on September 30, 2014, if the closing sale price of our common stock, for at least 20 trading days (whether or not consecutive) in the period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter, is more than 130% of the conversion price of the Notes in effect on each applicable trading day;

during the ten consecutive trading-day period following any five consecutive trading-day period in which the trading price for the Notes for each such trading day was less than 98% of the closing sale price of our common stock on such date multiplied by the then-current conversion rate; or

17

---

Table of Contents

upon the occurrence of specified corporate events, as described in the indenture governing the Notes, such as a consolidation, merger, or binding share exchange.

On or after December 1, 2020 until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may surrender their Notes for conversion regardless of whether any of the foregoing conditions have been satisfied.

As of October 31, 2014, the Notes were not convertible.

In accordance with accounting guidance for convertible debt with a cash conversion option, we separately accounted for the debt and equity components of the Notes in a manner that reflects our estimated nonconvertible debt borrowing rate. We estimated the carrying amount of the debt component of the Notes to be \$319.9 million at the issuance date, assuming a 5.00% non-convertible borrowing rate. The carrying amount of the equity component was determined to be approximately \$80.1 million by deducting the carrying amount of the debt component from the principal amount of the Notes, and was recorded as an increase to additional paid-in capital. The excess of the principal amount of the debt component over its carrying amount (the “debt discount”) is being amortized as interest expense over the term of the Notes using the effective interest method. The equity component is not remeasured as long as it continues to meet the conditions for equity classification.

We allocated transaction costs related to the issuance of the Notes, including underwriting discounts, of \$7.6 million and \$1.9 million to the debt and equity components, respectively. Issuance costs attributable to the debt component were recorded within other assets and are being amortized as interest expense over the term of the Notes, and issuance costs attributable to the equity component were netted with the equity component in additional paid-in capital. The carrying amount of the equity component, net of issuance costs, was \$78.2 million at October 31, 2014. Including the impact of the related deferred debt issuance costs, the effective interest rate on the Notes was approximately 5.29% at October 31, 2014.

Based on the closing market price of our common stock on October 31, 2014, the if-converted value of the Notes was less than the aggregate principal amount of the Notes.

Note Hedges and Warrants

Concurrently with the issuance of the Notes, we entered into convertible note hedge transactions (the “Note Hedges”) and sold warrants (the “Warrants”). The combination of the Note Hedges and the Warrants serves to increase the effective initial conversion price for the Notes to \$75.00 per share. The Note Hedges and Warrants are each separate instruments from the Notes.

Note Hedges

Pursuant to the Note Hedges, we purchased call options on our common stock, under which we have the right to acquire from the counterparties up to approximately 6,205,000 shares of our common stock, subject to customary anti-dilution adjustments, at a price of \$64.46, which equals the initial conversion price of the Notes. Our exercise rights under the Note Hedges generally trigger upon conversion of the Notes and the Note Hedges terminate upon maturity of the Notes, or the first day the Notes are no longer outstanding. The Note Hedges may be settled in cash, shares of our common stock, or a combination thereof, at our option, and are intended to reduce our exposure to potential dilution upon conversion of the Notes. We paid \$60.8 million for the Note Hedges, which was recorded as a reduction to additional paid-in capital. As of October 31, 2014, we had not purchased any shares under the Note Hedges.

Warrants

We sold the Warrants to several counterparties. The Warrants provide the counterparties rights to acquire from us up to approximately 6,205,000 shares of our common stock at a price of \$75.00 per share. The Warrants expire

incrementally on a series of expiration dates beginning in August 2021. At expiration, if the market price per share of our common stock exceeds the strike price of the Warrants, we will be obligated to issue shares of our common stock having a value equal to such excess. The Warrants could have a dilutive effect on net income per share to the extent that the market value of our common stock exceeds the strike price of the Warrants. Proceeds from the sale of the Warrants were \$45.2 million and were recorded as additional paid-in capital. As of October 31, 2014, no Warrants had been exercised and all Warrants remained outstanding.

## Table of Contents

The Note Hedges and Warrants both meet the requirements for classification within stockholders' equity, and their respective fair values will not be subsequently remeasured and adjusted as long as these instruments continue to qualify for stockholders' equity classification.

### Credit Agreement

#### Background

In April 2011, we entered into a credit agreement (together with the subsequent amendments discussed herein, the "Credit Agreement") with our lenders and concurrently terminated a prior credit agreement. The Credit Agreement provided for \$770.0 million of secured credit facilities, comprised of \$600.0 million of term loans maturing in October 2017 (the "April 2011 Term Loans") and a \$170.0 million revolving credit facility maturing in April 2016 (the "2011 Revolving Credit Facility"), subject to increase (up to a maximum increase of \$300.0 million) and reduction from time to time.

We incurred debt issuance costs of \$14.8 million associated with the Credit Agreement, which were deferred and were classified within other assets, and were being amortized as interest expense over the term of the Credit Agreement.

### 2013 Amendment and Restatement of Credit Agreement

On March 6, 2013, we entered into an amendment and restatement agreement with our lenders, providing for the amendment and restatement of the Credit Agreement. The amendment and restatement agreement provided for \$850.0 million of senior secured credit facilities, comprised of \$650.0 million of term loans maturing in September 2019 (the "March 2013 Term Loans") and a \$200.0 million revolving credit facility maturing in March 2018 (the "2013 Revolving Credit Facility"), subject to increase (up to a maximum increase of \$300.0 million) and reduction from time to time.

The March 2013 Term Loans were subject to an original issuance discount of 0.50%, or \$3.3 million, resulting in net proceeds of \$646.7 million. The discount was being amortized as interest expense over the term of the March 2013 Term Loans using the effective interest method.

The majority of the proceeds of the March 2013 Term Loans were used to repay all \$576.0 million of outstanding April 2011 Term Loans at the March 6, 2013 closing date of the amendment and restatement agreement. There were no outstanding borrowings under the 2011 Revolving Credit Facility at the March 6, 2013 closing date.

As further described below, on March 7, 2014, the March 2013 Term Loans were extinguished and replaced with the March 2014 Term Loans, and the basis for determining the interest rate on borrowings under the 2013 Revolving Credit Facility was also amended.

From March 6, 2013 through March 6, 2014, the March 2013 Term Loans and borrowings under the 2013 Revolving Credit Facility, if any, incurred interest, payable quarterly or, in the case of Eurodollar loans with an interest period of three months or shorter, at the end of any interest period, at a per annum rate of, at our election:

in the case of Eurodollar loans, the Adjusted LIBO Rate plus 3.00% (or, if our corporate credit ratings are BB- and Ba3 or better, 2.75%). The Adjusted LIBO Rate is the greater of (i) 1.00% per annum and (ii) the product of the LIBO Rate and Statutory Reserves (both as defined in the Credit Agreement), and

in the case of Base Rate loans, the Base Rate plus 2.00% (or, if our corporate credit ratings are BB- and Ba3 or better, 1.75%). The Base Rate is the greatest of (i) the administrative agent's prime rate, (ii) the Federal Funds Effective Rate (as defined in the Credit Agreement) plus 0.50% and (iii) the Adjusted LIBO Rate for a one-month interest period plus 1.00%.

As of January 31, 2014, the interest rate on the March 2013 Term Loans was 4.00%.

At the March 6, 2013 closing date of the amendment and restatement agreement, there were \$11.0 million of unamortized deferred debt issuance costs and \$2.2 million of unamortized discount associated with the April 2011 Term Loans and the 2011 Revolving Credit Facility. Of the \$11.0 million of unamortized deferred debt issuance costs, \$3.5 million were associated with commitments under the 2011 Revolving Credit Facility provided by lenders that continued to provide revolving credit commitments under the 2013 Revolving Credit Facility and therefore continued to be deferred, and were being amortized over the remaining term of the Credit Agreement. The remaining \$7.5 million of unamortized deferred debt issuance costs and the

Table of Contents

\$2.2 million unamortized discount, all of which related to the April 2011 Term Loans, were written off as a \$9.7 million loss on early retirement of debt for the year ended January 31, 2014.

We incurred debt issuance costs of approximately \$7.5 million associated with the March 2013 Term Loans and the 2013 Revolving Credit Facility, which were deferred and classified within other assets and were being amortized as interest expense over the remaining term of the Credit Agreement. Of these deferred debt issuance costs, \$5.0 million were associated with the March 2013 Term Loans and were being amortized using the effective interest rate method, and \$2.5 million were associated with the 2013 Revolving Credit Facility and were being amortized on a straight-line basis.

We are required to pay a commitment fee equal to 0.50% per annum of the undrawn portion on the 2013 Revolving Credit Facility, payable quarterly, and customary administrative agent and letter of credit fees. These fees were unchanged from the 2011 Revolving Credit Facility.

2014 Amendments to Credit Agreement

During the nine months ended October 31, 2014, we entered into five separate amendments to the Credit Agreement as described below.

On February 3, 2014, in connection with the acquisition of KANA, we borrowed \$125.0 million under the 2013 Revolving Credit Facility and entered into Amendment No. 1 pursuant to which, on such date, we incurred \$300.0 million of incremental term loans (the "February 2014 Term Loans"). The net proceeds of these borrowings were used to fund a portion of the KANA purchase price.

The February 2014 Term Loans were subject to an original issuance discount of 0.25%, or \$0.8 million. In June 2014, we wrote off \$0.4 million of the unamortized discount in connection with the early retirement of a portion of the February 2014 Term Loans, as further described below. This discount is amortized as interest expense over the term of the February 2014 Term Loans using the effective interest method.

The February 2014 Term Loans bear interest, payable quarterly or, in the case of Eurodollar loans with an interest period of three months or less, at the end of the applicable interest period, at a per annum rate of, at our election:

in the case of Eurodollar loans, the Adjusted LIBO Rate plus 2.75%. The Adjusted LIBO Rate is the greater of (i) 0.75% per annum and (ii) the product of (x) the LIBO Rate and (y) Statutory Reserves (both as defined in the Credit Agreement), and

in the case of Base Rate loans, the Base Rate plus 1.75%. The Base Rate is the greatest of (i) the administrative agent's prime rate, (ii) the Federal Funds Effective Rate (as defined in the Credit Agreement) plus 0.50% and (iii) the Adjusted LIBO Rate for a one-month interest period plus 1.00%.

We incurred debt issuance costs of approximately \$7.1 million associated with the February 2014 Term Loans, which were deferred and classified within other assets. In June 2014, we wrote off \$3.8 million of these deferred costs in connection with the early retirement of a portion of the February 2014 Term Loans, as further described below. These deferred costs are amortized as interest expense over the term of the February 2014 Term Loans using the effective interest rate method.

On February 3, 2014, we also entered into Amendment No. 2 to, among other things, (i) permit us to increase the permitted amount of additional incremental term loans and revolving credit commitments under the Credit Agreement (beyond the February 2014 Term Loans borrowed under Amendment No. 1) by up to, in the aggregate, \$200.0 million plus an additional amount such that the First Lien Leverage Ratio (as defined in Amendment No. 2) would not exceed

the specified maximum ratio set forth therein, (ii) increase the size of certain negative covenant basket carve-outs, (iii) permit us to issue Permitted Convertible Indebtedness (as defined in Amendment No. 2), and (iv) permit us to refinance all or a portion of any existing class of term loans under the Credit Agreement with replacement term loans.

On February 3, 2014, we also entered into Amendment No. 3 to extend by one year, to January 31, 2016, the step-down date of the leverage ratio covenant applicable to our 2013 Revolving Credit Facility and, subject to the effectiveness of Amendment No. 4 (as described below), reprice the interest rate applicable to borrowings under the 2013 Revolving Credit Facility to the interest rate applicable to the February 2014 Term Loans.

On March 7, 2014, we entered into Amendment No. 4 to refinance all \$643.5 million of outstanding March 2013 Term Loans at that date with \$643.5 million of new term loans (the “March 2014 Term Loans”). The provisions for determining the interest

Table of Contents

rate on the March 2014 Term Loans are identical to such provisions for the February 2014 Term Loans. The repricing of the interest rate applicable to borrowings under the 2013 Revolving Credit Facility contemplated by Amendment No. 3 became effective on March 7, 2014, upon the effectiveness of Amendment No. 4.

The refinancing of the March 2013 Term Loans with the proceeds of the March 2014 Term Loans pursuant to Amendment No. 4 was accounted for as an extinguishment of the March 2013 Term Loans, and as a result, \$4.3 million of unamortized deferred debt issuance costs and \$2.8 million of unamortized discount associated with the March 2013 Term Loans as of the March 7, 2014 effective date of Amendment No. 4 were written off as a \$7.1 million loss on early retirement of debt for the three months ended April 30, 2014.

As of October 31, 2014, the interest rate on both the February 2014 Term Loans and the March 2014 Term Loans was 3.50%. Taking into account the impact of original issuance discounts, if any, and related deferred debt issuance costs, the effective interest rates on the February 2014 Term Loans and March 2014 Term Loans were approximately 4.03% and 3.58%, respectively, at that date.

We incurred \$2.4 million of debt issuance costs in consideration of Amendment No. 4, which were deferred and classified within other assets. In June 2014, we wrote off \$1.3 million of these deferred debt issuance costs in connection with the early retirement of a portion of the March 2014 Term Loans, as further described below. These deferred costs are amortized as interest expense over the remaining term of the March 2014 Term Loans using the effective interest rate method. There was no original issuance discount on the March 2014 Term Loans.

On June 18, 2014, we entered into Amendment No. 5, which increased the commitments under the 2013 Revolving Credit Facility to \$300.0 million and extended the termination of the 2013 Revolving Credit Facility to September 2018. We incurred \$0.7 million of costs in consideration of Amendment No. 5, which were deferred and recorded within other assets, and are being amortized as interest expense on a straight-line basis over the term of the 2013 Revolving Credit Facility.

Early Partial Retirement of Term Loans - June 2014

On June 18, 2014, we utilized the majority of the combined net proceeds from the issuance of the Notes and the concurrent issuance of 5,750,000 shares of common stock to retire \$530.0 million of the February 2014 Term Loans and March 2014 Term Loans, and all \$106.0 million of then-outstanding borrowings under the 2013 Revolving Credit Facility. As a result, \$3.8 million and \$1.3 million of deferred debt issuance costs associated with the February 2014 Term Loans and March 2014 Term Loans, respectively, and \$0.4 million of unamortized discount associated with the February 2014 Term Loans, were written off as a \$5.5 million loss on early retirement of debt for the three months ended July 31, 2014.

Borrowings Under 2013 Revolving Credit Facility

There were no borrowings under the 2013 Revolving Credit Facility at October 31, 2014. The initial interest rate on the February 3, 2014 borrowings under the 2013 Revolving Credit Facility was 4.00%, but was adjusted to 3.50% on March 7, 2014, as further described above.

Other Provisions of the Credit Agreement

Loans under the Credit Agreement are subject to mandatory prepayment requirements with respect to certain asset sales, excess cash flows (as defined in the Credit Agreement), and certain other events. Optional prepayments of the term loans are permitted without premium or penalty, other than customary breakage costs associated with the prepayment of loans bearing interest based on LIBO Rates. Optional prepayments of the February 2014 Term Loans and March 2014 Term Loans are subject to a 1.0% premium applicable in the event of specified repricing transactions on or prior to September 7, 2014. Prepayments are applied first to the eight immediately following scheduled term loan principal payments, then pro rata to other remaining scheduled term loan principal payments, if any, and

thereafter as otherwise provided in the Credit Agreement.

Our obligations under the Credit Agreement are guaranteed by substantially all of our domestic subsidiaries and certain foreign subsidiaries that have elected to be disregarded for U.S. tax purposes, and are secured by security interests in substantially all of our and the aforementioned subsidiaries' assets, subject to certain exceptions detailed in the Credit Agreement and related ancillary documents.

The Credit Agreement contains certain customary affirmative and negative covenants for credit facilities of this type, which include limitations on us and our subsidiaries with respect to indebtedness, liens, nature of business, investments and loans, distributions, acquisitions, dispositions of assets, sale-leaseback transactions and transactions with affiliates. The 2013

Table of Contents

Revolving Credit Facility also contains a financial covenant that requires us to maintain a ratio of Consolidated Total Debt to Consolidated EBITDA (each as defined in the Credit Agreement) of no greater than 5.00 to 1 until January 31, 2016 (as amended on February 3, 2014 by Amendment No. 3, as described above) and no greater than 4.50 to 1 thereafter (the "Leverage Ratio Covenant"). The limitations imposed by the covenants are subject to certain exceptions as detailed in the Credit Agreement.

The Credit Agreement provides for certain customary events of default with corresponding grace periods. These events of default include failure to pay principal or interest when due under the Credit Agreement, failure to comply with covenants, any representation or warranty made by us proving to be inaccurate in any material respect, defaults under certain other indebtedness of ours or our subsidiaries, the occurrence of a Change of Control (as defined in the Credit Agreement) with respect to us and certain insolvency or receivership events affecting us or our significant subsidiaries. Upon the occurrence of an event of default resulting from a violation of the Leverage Ratio Covenant, the lenders under our 2013 Revolving Credit Facility may require us to immediately repay outstanding borrowings under the 2013 Revolving Credit Facility and may terminate their commitments to provide loans under that facility. A violation of the Leverage Ratio Covenant would not, by itself, result in an event of default under the February 2014 Term Loans or March 2014 Term Loans but may trigger a cross-default under the term loans in the event we are required to repay outstanding borrowings under the 2013 Revolving Credit Facility. Upon the occurrence of other events of default, the lenders may require us to immediately repay all outstanding borrowings under the Credit Agreement and the lenders under our 2013 Revolving Credit Facility may terminate their commitments to provide loans under the facility.

## Future Principal Payments on Term Loans

Prior to June 2014, we were required to make quarterly principal payments on the February 2014 Term Loans and March 2014 Term Loans of \$0.8 million and \$1.6 million, respectively, through August 1, 2019, with the remaining balances due in September 2019. Following the partial retirements of the February 2014 Term Loans and March 2014 Term Loans in June 2014, future scheduled principal payments on the February 2014 Term Loans and March 2014 Term Loans as of October 31, 2014 are as follows:

(in thousands)	February 2014 Term Loans	March 2014 Term Loans
Years Ending January 31, 2015 (remainder of year)	\$—	\$—
2016	—	—
2017	669	1,434
2018	1,337	2,869
2019	1,337	2,869
2020	127,386	273,241
Total	\$130,729	\$280,413
Interest Expense

Finished goods	1,671	1,858
Total inventories	\$21,502	\$10,693

## Condensed Consolidated Statements of Operations

Other income (expense), net consisted of the following for the three and nine months ended October 31, 2014 and 2013:

(in thousands)	Three Months Ended		Nine Months Ended	
	October 31, 2014	2013	October 31, 2014	2013
Foreign currency (losses) gains, net	\$(1,949)	) \$702	\$(1,035)	) \$(2,504)
Gains (losses) on derivative financial instruments, net	1,562	(721)	) 1,666	(45)
Other, net	554	(627)	) 635	(2,464)
Total other income (expense), net	\$167	) \$(646)	) \$1,266	) \$(5,013)

## Condensed Consolidated Statements of Cash Flows

The following table provides supplemental information regarding our condensed consolidated cash flows for the nine months ended October 31, 2014 and 2013:

Table of Contents

(in thousands)	Nine Months Ended	
	October 31,	
	2014	2013
Cash paid for interest	\$22,735	\$17,724
Cash payments (refunds) of income taxes, net	\$10,275	\$(6,463)
Non-cash investing and financing transactions:		
Net non-cash assets acquired in CTI Merger	\$—	\$3,727
Accrued but unpaid purchases of property and equipment	\$3,625	\$1,217
Inventory transfers to property and equipment	\$314	\$658
Liabilities for contingent consideration in business combinations	\$4,947	\$4,557
Stock options exercised, proceeds received subsequent to period end	\$140	\$—
Leasehold improvements funded by lease incentive	\$2,242	\$—

## 8. STOCKHOLDERS' EQUITY

## Issuance of Common Stock

On June 18, 2014, we completed a public offering of our common stock pursuant to which we issued and sold 5,750,000 shares of common stock at a price of \$47.75 per share. We received aggregate proceeds of \$265.6 million from the offering, net of underwriters' discounts and commissions, but before deducting approximately \$0.7 million of other offering expenses.

## Dividends on Common Stock

We did not declare or pay any dividends on our common stock during the nine months ended October 31, 2014 and 2013. Commencing in May 2007, with our issuance of Series A Convertible Preferred Stock and our entry into a prior credit agreement, and continuing under the terms of our current Credit Agreement, we are subject to certain restrictions on declaring and paying dividends on our common stock. Our Series A Convertible Preferred Stock was canceled on February 4, 2013 in connection with the CTI Merger, further details of which appear in Note 14, "Merger with CTI".

## Treasury Stock

Repurchased shares of common stock are recorded as treasury stock, at cost. At October 31, 2014, we held approximately 348,000 shares of treasury stock with a cost of \$10.3 million. At January 31, 2014, we held approximately 302,000 shares of treasury stock with a cost of \$8.0 million.

During the nine months ended October 31, 2014, we acquired approximately 46,000 shares of treasury stock at a cost of \$2.2 million. We did not acquire any treasury stock during the nine months ended October 31, 2013.

## Accumulated Other Comprehensive Income (Loss)

Accumulated other comprehensive income (loss) includes items such as foreign currency translation adjustments and unrealized gains and losses on certain marketable securities and derivative financial instruments designated as hedges. Accumulated other comprehensive income (loss) is presented as a separate line item in the stockholders' equity section of our condensed consolidated balance sheets. Accumulated other comprehensive income (loss) items have no impact on our net income as presented in our condensed consolidated statements of operations.

The following table summarizes changes in the components of our accumulated other comprehensive income (loss) by component for the nine months ended October 31, 2014:

24

---

Table of Contents

(in thousands)	Unrealized Gains (Losses) on Derivative Financial Instruments Designated as Hedges	Unrealized Gains on Available-for-Sale Investments	Foreign Currency Translation Adjustments	Total
Accumulated other comprehensive income (loss) at January 31, 2014	\$1,485	\$ 9	\$(41,219 )	\$(39,725 )
Other comprehensive (loss) income before reclassifications	(7,236 )	13	(13,290 )	(20,513 )
Amounts reclassified out of accumulated other comprehensive income (loss)	(971 )	—	—	(971 )
Net other comprehensive (loss) income, current period	(8,207 )	13	(13,290 )	(21,484 )
Accumulated other comprehensive (loss) income at October 31, 2014	\$(6,722 )	\$ 22	\$(54,509 )	\$(61,209 )

All amounts presented in the table above are net of income taxes, if applicable.

The amounts reclassified out of accumulated other comprehensive income (loss) into the condensed consolidated statements of operations, with presentation location, for the three and nine months ended October 31, 2014 and 2013 were as follows:

(in thousands)	Three Months Ended October 31,		Nine Months Ended October 31,		Affected Line Items in the Condensed Consolidated Statement of Operations
	2014	2013	2014	2013	
Unrealized losses (gains) on derivative financial instruments:					
Foreign currency forward contracts	\$80	\$(167 )	\$(65 )	\$(370 )	Cost of product revenue
	68	(178 )	(61 )	(383 )	Cost of service revenue
	499	(1,123 )	(578 )	(2,455 )	Research and development, net
	229	(516 )	(289 )	(1,140 )	Selling, general and administrative
	876	(1,984 )	(993 )	(4,348 )	Total before provision for income taxes
	(111 )	174	22	307	Provision for income taxes
	\$765	\$(1,810 )	\$(971 )	\$(4,041 )	Total, net of income taxes

## Noncontrolling Interest

The noncontrolling interest presented in our condensed consolidated financial statements reflects a 50% noncontrolling equity interest in a joint venture which functions as a systems integrator for Asian markets.

## 9.CONVERTIBLE PREFERRED STOCK

On May 25, 2007, we entered into an agreement with CTI whereby CTI purchased 293,000 shares of our Series A Convertible Preferred Stock for an aggregate cash purchase price of \$293.0 million.

On February 4, 2013, the CTI Merger was completed and eliminated CTI's majority ownership and control of us. Each of the 293,000 outstanding shares of Series A Convertible Preferred Stock, all of which was held by CTI, was canceled upon completion of the CTI Merger. Upon cancellation of these 293,000 shares of Series A Convertible Preferred Stock, our authorized shares of preferred stock were reduced from 2,500,000 shares to 2,207,000 shares, in accordance with the certificate of designation for the Series A Convertible Preferred Stock.

Further details regarding the CTI Merger appear in Note 14, "Merger with CTI".

Table of Contents

## 10. INCOME TAXES

Our interim provision for income taxes is measured using an estimated annual effective tax rate, adjusted for discrete items that occur within the periods presented. The comparison of our effective tax rate between periods is significantly impacted by the level and mix of earnings and losses by tax jurisdiction, foreign income tax rate differentials, amount of permanent book to tax differences, the impact of unrecognized tax benefits, and the effects of valuation allowances on certain loss jurisdictions.

For the three months ended October 31, 2014, we recorded an income tax provision of \$4.8 million on pre-tax income of \$16.2 million, which represented an effective income tax rate of 29.3%. The effective income tax rate was significantly affected by the mix and levels of income and losses among taxing jurisdictions. Pre-tax income in our profitable jurisdictions, where we recorded tax provisions, was higher than our domestic losses where we maintain valuation allowances and did not record the related tax benefits.

For the three months ended October 31, 2013, we recorded a \$6.0 million provision for income taxes on pre-tax income of \$30.0 million, which represented an effective income tax rate of 19.8%. The income tax provision does not include income tax benefits on losses incurred by certain domestic operations where we maintain valuation allowances and is mainly the result of the activities of profitable jurisdictions. Our pre-tax income in profitable jurisdictions, where we record tax provisions, was higher than domestic losses where we maintain valuation allowances and do not record tax benefits.

For the nine months ended October 31, 2014, we recorded an income tax benefit of \$31.8 million on a pre-tax loss of \$1.9 million, which represented an effective income tax benefit rate of 1,694.5%. The income tax benefit was primarily attributable to the release of \$45.2 million of Verint valuation allowances in the quarter ended April 30, 2014. We maintain valuation allowances on our net U.S. deferred income tax assets related to federal and certain state jurisdictions. In connection with the acquisition of KANA during the quarter ended April 30, 2014, we recorded deferred income tax liabilities primarily attributable to acquired intangible assets to the extent the amortization will not be deductible for income tax purposes. Under accounting guidelines, because the amortization of the intangible assets in future periods provides a source of taxable income, we expect to realize a portion of our existing deferred income tax assets. As such, we reduced the valuation allowance recorded on our deferred income tax assets to the extent of the deferred income tax liabilities recorded. Because the valuation allowance related to existing Verint deferred income tax assets, the impact of the release was reflected as a discrete income tax benefit and not as a component of the KANA acquisition accounting. The effective income tax rate was also affected by the mix and levels of income and losses among taxing jurisdictions. Pre-tax income in our profitable jurisdictions, where we recorded tax provisions, was slightly less than our domestic losses where we maintain valuation allowances and did not record the related tax benefits. Excluding the income tax benefit attributable to the valuation allowance release, the result for the nine months ended October 31, 2014 was an income tax provision of \$13.4 million on a pre-tax loss \$1.9 million, resulting in a negative effective income tax rate of 713.4%.

For the nine months ended October 31, 2013, we recorded an \$11.9 million provision for income taxes on pre-tax income of \$46.5 million, which represented an effective income tax rate of 25.5%. The income tax provision does not include income tax benefit on losses incurred by certain domestic operations where we maintain valuation allowances and is mainly the result of the activities of profitable jurisdictions. The effective income tax rate was also reduced because CTI received a favorable ruling from the Internal Revenue Service which resulted in adjustments to deferred taxes and an indemnified liability. Our pre-tax income in foreign jurisdictions, where we recorded tax provisions at rates lower than the U.S. federal statutory rate, was higher than domestic losses where we maintain valuation allowances and do not record tax benefits.

As required by the authoritative guidance on accounting for income taxes, we evaluate the realizability of deferred income tax assets on a jurisdictional basis at each reporting date. Accounting for income taxes guidance requires that a valuation allowance be established when it is more-likely-than-not that all or a portion of the deferred income tax assets will not be realized. In circumstances where there is sufficient negative evidence indicating that the deferred income tax assets are not more-likely-than-not realizable, we establish a valuation allowance. We determined that there is sufficient negative evidence to maintain the valuation allowances against our federal and certain state and foreign deferred income tax assets as a result of historical losses in the most recent three-year period in the U.S. and in certain foreign jurisdictions. We intend to maintain valuation allowances until sufficient positive evidence exists to support a reversal.

We had unrecognized tax benefits of \$151.9 million and \$145.4 million (excluding interest and penalties) as of October 31, 2014 and January 31, 2014, respectively. The accrued liability for interest and penalties was \$10.3 million and \$8.7 million at October 31, 2014 and January 31, 2014, respectively. Interest and penalties are recorded as a component of the provision for income taxes in our condensed consolidated statements of operations. As of October 31, 2014 and January 31, 2014, the total amount of unrecognized tax benefits that, if recognized, would impact our effective tax rate were approximately \$146.5 million

Table of Contents

and \$139.7 million, respectively. We regularly assess the adequacy of our provisions for income tax contingencies in accordance with the applicable authoritative guidance on accounting for income taxes. As a result, we may adjust the reserves for unrecognized tax benefits for the impact of new facts and developments, such as changes to interpretations of relevant tax law, assessments from taxing authorities, settlements with taxing authorities, and lapses of statutes of limitation. Further, we believe that it is reasonably possible that the total amount of unrecognized tax benefits at October 31, 2014 could decrease by approximately \$2.9 million in the next twelve months as a result of settlement of certain tax audits or lapses of statutes of limitation. Such decreases may involve the payment of additional taxes, the adjustment of deferred income taxes including the need for additional valuation allowances, and the recognition of tax benefits. Our income tax returns are subject to ongoing tax examinations in several jurisdictions in which we operate. We also believe that it is reasonably possible that new issues may be raised by tax authorities or developments in tax audits may occur which would require increases or decreases to the balance of reserves for unrecognized tax benefits; however, an estimate of such changes cannot reasonably be made.

## 11. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, we consider the principal or most advantageous market in which we would transact and consider assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

Accounting guidance establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. An instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. This fair value hierarchy consists of three levels of inputs that may be used to measure fair value:

- Level 1: quoted prices in active markets for identical assets or liabilities;

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: unobservable inputs that are supported by little or no market activity.

We review the fair value hierarchy classification of our applicable assets and liabilities at each reporting period. Changes in the observability of valuation inputs may result in transfers within the fair value measurement hierarchy. There were no transfers between levels of the fair value measurement hierarchy during the nine months ended October 31, 2014 and 2013.

## Assets and Liabilities Measured at Fair Value on a Recurring Basis

Our assets and liabilities measured at fair value on a recurring basis consisted of the following as of October 31, 2014 and January 31, 2014:

(in thousands)	October 31, 2014		
	Fair Value Hierarchy Category		
Assets:	Level 1	Level 2	Level 3

Edgar Filing: VERINT SYSTEMS INC - Form 10-Q

Money market funds	\$194	\$—	\$—
Commercial paper (1)	—	2,999	—
Short-term investments, classified as available-for-sale	—	13,796	—
Foreign currency forward contracts	—	1,886	—
Total assets	\$194	\$18,681	\$—
Liabilities:			
Foreign currency forward contracts	\$—	\$7,530	\$—

Table of Contents

(in thousands)	January 31, 2014		
	Fair Value Hierarchy Category		
	Level 1	Level 2	Level 3
<b>Assets:</b>			
Money market funds	\$ 14,023	\$—	\$—
Commercial paper (1)	—	49,991	—
Short-term investments, classified as available for sale	—	9,406	—
Foreign currency forward contracts	—	2,466	—
<b>Total assets</b>	<b>\$ 14,023</b>	<b>\$ 61,863</b>	<b>\$—</b>
<b>Liabilities:</b>			
Foreign currency forward contracts	\$—	\$ 846	\$—
Contingent consideration - business combinations	—	—	17,307
<b>Total liabilities</b>	<b>\$—</b>	<b>\$ 846</b>	<b>\$ 17,307</b>

(1) Commercial paper investments with remaining maturities of three months or less at time of purchase, classified within cash and cash equivalents.

The following table presents the changes in the estimated fair values of our liabilities for contingent consideration measured using significant unobservable inputs (Level 3) for the nine months ended October 31, 2014 and 2013:

(in thousands)	Nine Months Ended	
	October 31, 2014	2013
Fair value measurement at beginning of period	\$ 17,307	\$ 25,041
Contingent consideration liabilities recorded for business combinations	4,947	4,557
Changes in fair values, recorded in operating expenses	618	(1,635 )
Payments of contingent consideration	(10,037 )	(17,094 )
Foreign exchange translation and other	(56 )	—
<b>Fair value measurement at end of period</b>	<b>\$ 12,779</b>	<b>\$ 10,869</b>

Our estimated liability for contingent consideration represents potential payments of additional consideration for business combinations, payable if certain defined performance goals are achieved. Changes in fair value of contingent consideration are recorded in the condensed consolidated statements of operations within selling, general and administrative expenses.

#### Fair Value Measurements

**Money Market Funds** - We value our money market funds using quoted active market prices for such funds.

**Short-term Investments** - Short-term investments represent investments in commercial paper and corporate bonds classified as available-for-sale. Investments in commercial paper with remaining maturities of three months or less at time of purchase are classified within cash and cash equivalents. The fair values of these investments are estimated using observable market prices for identical securities that are traded in less-active markets, if available. When observable market prices for identical securities are not available, we value these short-term investments using non-binding market price quotes from brokers which we review for reasonableness using observable market data; quoted market prices for similar instruments; or pricing models, such as a discounted cash flow model.

Foreign Currency Forward Contracts - The estimated fair value of foreign currency forward contracts is based on quotes received from the counterparties thereto. These quotes are reviewed for reasonableness by discounting the future estimated cash flows under the contracts, considering the terms and maturities of the contracts and market exchange rates using readily observable market prices for similar contracts.

Contingent Consideration - Business Combinations - The fair value of the contingent consideration related to business combinations is estimated using a probability-adjusted discounted cash flow model. These fair value measurements are based on significant inputs not observable in the market. The key internally developed assumptions used in these models are discount rates and the probabilities assigned to the milestones to be achieved. We remeasure the fair value of the contingent

## Table of Contents

consideration at each reporting period, and any changes in fair value resulting from either the passage of time or events occurring after the acquisition date, such as changes in discount rates, or in the expectations of achieving the performance targets, are recorded within selling, general, and administrative expenses. Increases or decreases in discount rates would have inverse impacts on the related fair value measurements, while favorable or unfavorable changes in expectations of achieving performance targets would result in corresponding increases or decreases in the related fair value measurements. We utilized discount rates ranging from 2.0% to 40.0% in our calculations of the estimated fair values of our contingent consideration liabilities as of October 31, 2014. We utilized discount rates ranging from 1.1% to 27.0% in our calculations of the estimated fair values of our contingent consideration liabilities as of January 31, 2014.

### Other Financial Instruments

The carrying amounts of accounts receivable, accounts payable, and accrued liabilities and other current liabilities approximate fair value due to their short maturities.

The estimated fair values of our term loans were approximately \$408 million and \$647 million at October 31, 2014 and January 31, 2014, respectively. The estimated fair values of our term loans are based upon indicative bid and ask prices as determined by the agent responsible for the syndication of our term loans. We consider these inputs to be within Level 3 of the fair value hierarchy because we cannot reasonably observe activity in the limited market in which participations in our term loans are traded. The indicative prices of our term loans provided to us as at each of October 31, 2014 and January 31, 2014 did not significantly differ from par value. The estimated fair value of our revolving credit borrowings, if any, is based upon indicative market values provided by one of our lenders. We had no revolving credit borrowings at October 31, 2014 and January 31, 2014.

The estimated fair value of our Notes was approximately \$447 million at October 31, 2014. The estimated fair value of the Notes is determined based on quoted bid and ask prices in the over-the-counter market in which the Notes trade. We consider these inputs to be within Level 2 of the fair value hierarchy.

### Assets and Liabilities Not Measured at Fair Value on a Recurring Basis

In addition to assets and liabilities that are measured at fair value on a recurring basis, we also measure certain assets and liabilities at fair value on a nonrecurring basis. Our non-financial assets, including goodwill, intangible assets and property, plant and equipment, are measured at fair value when there is an indication of impairment and the carrying amount exceeds the asset's projected undiscounted cash flows. These assets are recorded at fair value only when an impairment charge is recognized.

## 12. DERIVATIVE FINANCIAL INSTRUMENTS

Our primary objective for holding derivative financial instruments is to manage foreign currency exchange rate risk and interest rate risk, when deemed appropriate. We enter into these contracts in the normal course of business to mitigate risks and not for speculative purposes.

### Foreign Currency Forward Contracts

Under our risk management strategy, we periodically use derivative financial instruments to manage our short-term exposures to fluctuations in foreign currency exchange rates. We utilize foreign currency forward contracts to hedge certain operational cash flow exposures resulting from changes in foreign currency exchange rates. These cash flow exposures result from portions of our forecasted operating expenses, primarily compensation and related expenses,

which are transacted in currencies other than the U.S. dollar, primarily the Israeli shekel and the Canadian dollar. We also periodically utilize foreign currency forward contracts to manage exposures resulting from forecasted customer collections to be remitted in currencies other than the applicable functional currency, and exposures from cash, cash equivalents and short-term investments denominated in currencies other than the applicable functional currency. Our joint venture, which has a Singapore dollar functional currency, also utilizes foreign exchange forward contracts to manage its exposure to exchange rate fluctuations related to settlements of liabilities denominated in U.S. dollars. These foreign currency forward contracts are reported at fair value on our consolidated balance sheets and generally have maturities of no longer than twelve months, although occasionally we will execute a contract that extends beyond twelve months, depending upon the nature of the underlying risk.

The counterparties to our derivative financial instruments consist of several major international financial institutions. We regularly monitor the financial strength of these institutions. While the counterparties to these contracts expose us to credit-

Table of Contents

related losses in the event of a counterparty's non-performance, the risk would be limited to the unrealized gains on such affected contracts. We do not anticipate any such losses.

Certain of these foreign currency forward contracts are not designated as hedging instruments under accounting guidance for derivatives, and gains and losses from changes in their fair values are therefore reported in other income (expense), net. Changes in the fair values of foreign currency forward contracts that are designated and effective as cash flow hedges are recorded net of related tax effects in accumulated other comprehensive income (loss), and are reclassified to the condensed consolidated statements of operations when the effects of the item being hedged are recognized in the condensed consolidated statements of operations.

## Notional Amounts of Derivative Financial Instruments

Our outstanding derivative financial instruments consisted only of foreign currency forward contracts with notional amounts of \$149.1 million and \$127.6 million as of October 31, 2014 and January 31, 2014, respectively.

## Fair Values of Derivative Financial Instruments

The fair values of our derivative financial instruments as of October 31, 2014 and January 31, 2014 were as follows:

(in thousands)	October 31, 2014			
	Assets Balance Sheet Classification	Fair Value	Liabilities Balance Sheet Classification	Fair Value
Derivative financial instruments designated as hedging instruments:				
Foreign currency forward contracts	—	\$—	Accrued expenses and other liabilities	\$7,530
Total derivative financial instruments designated as hedging instruments		\$—		\$7,530
Derivative financial instruments not designated as hedging instruments:				
Foreign currency forward contracts	Prepaid expenses and other current assets	\$1,886	—	\$—
Total derivative financial instruments not designated as hedging instruments		\$1,886		\$—
(in thousands)	January 31, 2014			
	Assets Balance Sheet Classification	Fair Value	Liabilities Balance Sheet Classification	Fair Value
Derivative financial instruments designated as hedging instruments:				
Foreign currency forward contracts	Prepaid expenses and other current assets	\$2,245	Accrued expenses and other liabilities	\$769
Total derivative financial instruments designated as hedging instruments		\$2,245		\$769

Derivative financial instruments not designated as hedging instruments:

Foreign currency forward contracts	Prepaid expenses and other current assets	\$221	Accrued expenses and other liabilities	\$77
Total derivative financial instruments not designated as hedging instruments		\$221		\$77

Table of Contents

## Derivative Financial Instruments in Cash Flow Hedging Relationships

The effects of derivative financial instruments designated as cash flow hedging instruments as of October 31, 2014 and January 31, 2014, and for the three and nine months ended October 31, 2014 and 2013 were as follows:

	Net (Losses) Gains Recognized in Accumulated Other Comprehensive Income (Loss)		Classification of Net (Losses) Gains Reclassified from Other Comprehensive Loss into the Condensed Consolidated Statements of Operations	Net (Losses) Gains Reclassified from Other Comprehensive Income (Loss) into the Condensed Consolidated Statements of Operations	
	October 31, 2014	January 31, 2014		Three Months Ended October 31, 2014	Nine Months Ended October 31, 2014
(in thousands)					
Foreign currency forward contracts	\$ (6,722 )	\$ 1,485	Operating Expenses	\$ (876 ) \$ 1,984	\$ 993 \$ 4,348

There were no gains or losses from ineffectiveness of these hedges recorded for the three and nine months ended October 31, 2014 and 2013. All of the foreign currency forward contracts underlying the \$6.7 million of net unrealized losses recorded in our accumulated other comprehensive loss at October 31, 2014 mature within twelve months, and therefore we expect all such losses to be reclassified into earnings within the next twelve months.

## Derivative Financial Instruments Not Designated as Hedging Instruments

Gains (losses) recognized on derivative financial instruments not designated as hedging instruments in our condensed consolidated statements of operations for the three and nine months ended October 31, 2014 and 2013 were as follows:

(in thousands)	Classification in Condensed Consolidated Statements of Operations	Three Months Ended October 31,		Nine Months Ended October 31,	
		2014	2013	2014	2013
Foreign currency forward contracts	Other income (expense), net	\$ 1,562	\$ (721 )	1,665	(44 )
Total		\$ 1,562	\$ (721 )	\$ 1,665	\$ (44 )

## 13. STOCK-BASED COMPENSATION

We recognized stock-based compensation expense in the following line items on the condensed consolidated statements of operations for the three and nine months ended October 31, 2014 and 2013:

(in thousands)	Three Months Ended October 31,		Nine Months Ended October 31,	
	2014	2013	2014	2013
Component of condensed consolidated statements of operations:				
Cost of revenue - product	\$ 224	\$ 243	\$ 675	\$ 572
Cost of revenue - service and support	941	458	2,816	1,208

Edgar Filing: VERINT SYSTEMS INC - Form 10-Q

Research and development, net	1,271	890	3,881	2,432

Other liability-classified awards	684	1,411	3,505	3,148
Total stock-based compensation expense	\$12,626	\$9,729	\$38,553	\$25,154

The increase in stock-based compensation expense in the three and nine months ended October 31, 2014, compared to the corresponding prior-year periods, resulted primarily from the combination of an increase in the number of outstanding RSUs, higher expenses associated with performance-based RSU's, and a general increase in the price of our common stock, which is used to determine the grant-date fair value of an RSU.

Awards under our stock bonus program are accounted for as liability-classified awards because the obligations are based predominantly on fixed monetary amounts that are generally known at inception of the obligation, to be settled with a variable number of shares of our common stock. Amounts reported in the stock bonus program and other reclassifications caption in the preceding table primarily represent stock bonus expenses recognized in those periods for awards that were subsequently settled with equity during the nine months ended October 31, 2014 and 2013. Expenses associated with stock bonus program awards that remain outstanding as of October 31, 2014 and 2013 are reflected within other liability-classified awards in the preceding table. Our other liability-classified awards also include our phantom stock awards, the values of which track the market price of our common stock and are therefore subject to volatility, and which are settled with cash payments equivalent to the market value of our common stock upon vesting. Upon settlement of other liability-classified awards with equity, the current period's compensation expense associated with those awards is reported within equity-classified awards in the preceding table.

#### Shares Available for Grants Under Stock Plans

On July 27, 2014, our 2004 Stock Incentive Compensation Plan (the "2004 Plan") expired in accordance with its terms and, on that date, approximately 53,000 shares of common stock remained available under the 2004 Plan as a result of termination, forfeiture or expiration of awards previously granted under the 2004 Plan. Upon expiration of the 2004 Plan, these shares became available for issuance under our 2010 Long-Term Stock Incentive Plan (the "2010 Plan") pursuant to an amendment to the 2010 Plan which had been approved by our stockholders on June 15, 2012.

#### Stock Options

We have generally not granted stock options subsequent to January 31, 2006, other than in connection with several business combinations whereby stock options to purchase shares of the acquired companies were converted into stock options to purchase shares of our common stock.

The following table summarizes stock option activity and related information for the nine months ended October 31, 2014:

32

---

(in thousands, except per share data)	Stock Options	Weighted-Average Exercise Price
Options outstanding, January 31, 2014	516	\$ 34.60
Options exercised	(378	) \$ 34.72
Options forfeited or expired	(2	) \$ 31.28
Options outstanding, October 31, 2014	136	\$ 34.30
Options exercisable at October 31, 2014	136	\$ 34.30

Cash proceeds received from the exercise of stock options were \$13.1 million for the nine months ended October 31, 2014.

At October 31, 2014, there was no unrecognized compensation expense associated with outstanding stock options, because all outstanding stock options were fully vested at that date.

#### Restricted Stock Units and Restricted Stock Awards

We periodically award restricted stock units, as well as shares of restricted stock, to our directors, officers, and other employees. These awards contain various vesting conditions and are subject to certain restrictions and forfeiture provisions prior to vesting.

The following table summarizes restricted stock unit activity and related information for the nine months ended October 31, 2014:

(in thousands, except per share data)	RSU's	Weighted-Average Grant Date Fair Value
RSU's outstanding, January 31, 2014	2,250	\$ 33.77
RSU's granted	1,578	\$ 46.19
RSU's released	(1,020	) \$ 34.28
RSU's forfeited	(170	) \$ 38.87
RSU's outstanding, October 31, 2014	2,638	\$ 40.68

Substantially all of the restricted stock units granted during the year ended January 31, 2013 included a provision which allows those awards to be settled with cash payments upon vesting, rather than with delivery of common stock, at the discretion of our board of directors. As of October 31, 2014, for such awards that remain outstanding, settlement of these awards with cash payments was not considered probable, and therefore these awards have been accounted for as equity-classified awards.

Activity presented in the table above includes shares earned and released under our stock bonus program, further details regarding which appear below under "Stock Bonus Program".

As of October 31, 2014, there was approximately \$70.1 million of total unrecognized compensation expense, net of estimated forfeitures, related to unvested restricted stock units, which is expected to be recognized over a weighted-average period of 1.7 years. The unrecognized compensation expense does not include compensation expense related to shares for which a grant date has been established but the requisite service period has not begun.

#### Phantom Stock Units

We have periodically issued phantom stock units to certain non-officer employees that settle, or are expected to settle, with cash payments upon vesting. Like equity-settled awards, phantom stock units are awarded with vesting conditions and are subject to certain forfeiture provisions prior to vesting.

Phantom stock unit activity for the nine months ended October 31, 2014 and 2013 was not significant.

#### Stock Bonus Program

In September 2011, our board of directors approved a stock bonus program under which eligible employees may receive a portion of their bonuses in the form of discounted shares of our common stock. Executive officers have been eligible to participate in this program from and after the year ended January 31, 2014 to the extent that shares remained available for awards following the enrollment of all other participants. Shares awarded to executive officers with respect to the discount

feature of the program are subject to a one year vesting period. Obligations under this program are accounted for as liabilities, because the obligations are based predominantly on fixed monetary amounts that are generally known at inception of the obligation, to be settled with a variable number of shares of common stock determined using a discounted average price of our common stock.

For the year ended January 31, 2014, our board of directors approved up to 150,000 shares of common stock for awards under this program and a discount of 15% (the "2014 stock bonus program"). Approximately 91,000 shares of our common stock were issued to participants under the 2014 stock bonus program during the three months ended July 31, 2014, which completed our obligations for such program year under this program.

For the year ending January 31, 2015, our board of directors has approved the issuance of up to 125,000 shares of common stock, and a discount of 15%, for awards under this program (the "2015 stock bonus program"). Awards earned under the 2015 stock bonus program are expected to be determined during the first half of the year ending January 31, 2016.

Total accrued liabilities for stock bonus programs were \$3.4 million and \$4.9 million as of October 31, 2014 and January 31, 2014, respectively.

#### 14. MERGER WITH CTI

Prior to February 4, 2013, Comverse Technology, Inc. ("CTI") beneficially owned a majority of our common stock (assuming the conversion of CTI's holdings of our Series A Convertible Preferred Stock into common stock) and held a majority of the voting power of our common stock. As of January 31, 2013, shortly before the CTI Merger (as described below), CTI's beneficial ownership position in us was approximately 53.5%.

On August 12, 2012, we entered into an agreement and plan of merger agreement with CTI (the "CTI Merger Agreement"), providing for the merger of CTI with and into our new, wholly owned subsidiary (the "CTI Merger"). The CTI Merger was completed on February 4, 2013. The CTI Merger eliminated CTI's majority ownership and control of us.

At the closing of the CTI Merger, approximately 28.6 million newly issued shares of our common stock were exchanged for approximately 220.0 million issued and outstanding shares of CTI common stock. In addition, the 16.3 million shares of our common stock and all shares of our Series A Convertible Preferred Stock held by CTI at the time of the CTI Merger were canceled.

Holders of shares of our common stock immediately prior to the completion of the CTI Merger, other than CTI, continued to own their existing shares, which were not affected by the CTI Merger.

Prior to the CTI Merger, CTI had distributed to its shareholders or otherwise disposed of substantially all of its assets, other than its interests in us, including the distribution of all of the outstanding common stock of its subsidiary, Comverse, Inc. ("Comverse") to its shareholders (the "Comverse share distribution"). As a result, at the time of the CTI Merger, the net assets of CTI consisted primarily of its controlling equity interests in Verint, as well as certain residual cash and cash equivalents and other sundry net assets. In addition, CTI had net operating loss ("NOL") carryforwards for income tax reporting purposes, and other tax attributes. No CTI employees, operations or business processes moved to the combined company in the CTI Merger. As a result, our existing net assets and operations represented the vast majority of the net assets and all of the operations of the combined company.

In connection with the Comverse share distribution, CTI and Comverse entered into several agreements to govern certain ongoing relationships between CTI and Comverse after the Comverse share distribution and to provide for an

orderly transition.

In one of these agreements, Comverse agreed to indemnify CTI and its affiliates (including Verint following the CTI Merger) against certain losses arising as a result of the CTI Merger and the Comverse share distribution. Certain of Comverse's indemnification obligations are capped at \$25.0 million and certain obligations are uncapped. Pursuant to this agreement, at the closing of the CTI Merger, CTI placed \$25.0 million into an escrow account to support indemnification claims to the extent made against Comverse by CTI and its affiliates (including Verint after the CTI Merger). The balance of such escrow account was released to Comverse on August 4, 2014.

Condensed Consolidated Financial Statement Impact

34

---

Table of Contents

For financial reporting purposes, the CTI Merger was accounted for as our acquisition of CTI in a combination of entities under common control. We are the continuing reporting entity. As a result, upon completion of the CTI Merger on February 4, 2013, our consolidated stockholders' equity was adjusted to reflect the \$285.5 million carrying value of our Series A Convertible Preferred Stock, all of which was held by CTI, and the \$14.1 million carrying value of CTI's net assets (other than its equity interests in us), as increases to our additional paid-in capital. Prior to the CTI Merger, our Series A Convertible Preferred Stock had been classified as mezzanine equity on our consolidated balance sheet.

## 15. RELATED PARTY TRANSACTIONS

## Transactions with CTI

As discussed in Note 14, "Merger with CTI", on February 4, 2013 we completed the CTI Merger, which eliminated CTI's majority ownership and control of us. As of January 31, 2013, prior to the CTI Merger, CTI beneficially owned approximately 53.5%, and also held a majority of the voting power, of our common stock on an as-converted basis.

## Other Related Party Transactions

Our joint venture incurs certain operating expenses, including office rent and other administrative costs, and realizes revenue, under arrangements with one of its noncontrolling shareholders. Transactions with this noncontrolling shareholder of the joint venture during the nine months ended October 31, 2014 and 2013 were not significant.

## 16. COMMITMENTS AND CONTINGENCIES

## Warranty Liability

The following table summarizes the activity in our warranty liability, which is included in accrued expenses and other liabilities in the condensed consolidated balance sheets, for the nine months ended October 31, 2014 and 2013:

(in thousands)	Nine Months Ended	
	October 31,	
	2014	2013
Warranty liability, beginning of period	\$706	\$1,045
Provision credited against expenses	(93	) (253
Foreign currency translation and other	(5	) (2
Warranty liability, end of period	\$608	\$790

## Legal Proceedings

On March 26, 2009, legal actions were commenced by Ms. Orit Deutsch, a former employee of our subsidiary, Verint Systems Limited ("VSL"), against VSL in the Tel Aviv Regional Labor Court (Case Number 4186/09) (the "Deutsch Labor Action") and against CTI in the Tel Aviv District Court (Case Number 1335/09) (the "Deutsch District Action"). In the Deutsch Labor Action, Ms. Deutsch filed a motion to approve a class action lawsuit on the grounds that she purports to represent a class of our employees and former employees who were granted Verint and CTI stock options and were allegedly damaged as a result of the suspension of option exercises during our previous extended filing delay period. In the Deutsch District Action, in addition to a small amount of individual damages, Ms. Deutsch is seeking to certify a class of plaintiffs who were allegedly damaged due to their inability to exercise Verint and CTI stock options as a result of alleged negligence by CTI in its financial reporting. The class certification motions do not specify an

amount of damages. On February 8, 2010, the Deutsch Labor Action was dismissed for lack of material jurisdiction and was transferred to the Tel Aviv District Court and consolidated with the Deutsch District Action. On March 16, 2009 and March 26, 2009, respectively, legal actions were commenced by Ms. Roni Katriel, a former employee of CTI's former subsidiary, Comverse Limited, against Comverse Limited in the Tel Aviv Regional Labor Court (Case Number 3444/09) (the "Katriel Labor Action") and against CTI in the Tel Aviv District Court (Case Number 1334/09) (the "Katriel District Action"). In the Katriel Labor Action, Ms. Katriel is seeking to certify a class of plaintiffs who were granted CTI stock options and were allegedly damaged as a result of the suspension of option exercises during CTI's previous extended filing delay period. In the Katriel District Action, in addition to a small amount of individual damages, Ms. Katriel is seeking to certify a class of plaintiffs who were allegedly damaged due to their inability to exercise CTI stock options as a result of alleged negligence by CTI in its financial reporting. The class certification motions do not specify an amount of

Table of Contents

damages. On March 2, 2010, the Katriel Labor Action was transferred to the Tel Aviv District Court, based on an agreed motion filed by the parties requesting such transfer.

On April 4, 2012, Ms. Deutsch and Ms. Katriel filed an uncontested motion to consolidate and amend their claims and on June 7, 2012, the District Court allowed Ms. Deutsch and Ms. Katriel to file the consolidated class certification motion and an amended consolidated complaint against VSL, CTI, and Comverse Limited. Following CTI's announcement of its intention to effect the Comverse share distribution, on July 12, 2012, the plaintiffs filed a motion requesting that the District Court order CTI to set aside up to \$150 million in assets to secure any future judgment. The District Court ruled that it would not decide this motion until the Deutsch and Katriel class certification motion was heard. Plaintiffs initially filed a motion to appeal this ruling in August 2012, but subsequently withdrew it in July 2014.

Prior to the consummation of the Comverse share distribution, CTI either sold or transferred substantially all of its business operations and assets (other than its equity ownership interests in us and Comverse) to Comverse or unaffiliated third parties. On October 31, 2012, CTI completed the Comverse share distribution, in which it distributed all of the outstanding shares of common stock of Comverse to CTI's shareholders. As a result of the Comverse share distribution, Comverse became an independent public company and ceased to be a wholly owned subsidiary of CTI, and CTI ceased to have any material assets other than its equity interest in us.

On February 4, 2013, we completed the CTI Merger. As a result of the CTI Merger, we have assumed certain rights and liabilities of CTI, including any liability of CTI arising out of the Deutsch District Action and the Katriel District Action. However, under the terms of the Distribution Agreement between CTI and Comverse relating to the Comverse share distribution, we, as successor to CTI, are entitled to indemnification from Comverse for any losses we suffer in our capacity as successor-in-interest to CTI in connection with the Deutsch District Action and the Katriel District Action.

Following an attempt to mediate the dispute, on July 1, 2014, the plaintiffs filed a notice with the District Court informing it that the mediation process had been unsuccessful. As a result, the parties recently filed summations on the plaintiffs' motion to certify the suit as a class action, which will be considered by the District Court.

From time to time we or our subsidiaries may be involved in legal proceedings and/or litigation arising in the ordinary course of our business. While the outcome of these matters cannot be predicted with certainty, we do not believe that the outcome of any current claims will have a material effect on our consolidated financial position, results of operations, or cash flows.

## 17. SEGMENT INFORMATION

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the enterprise's chief operating decision maker ("CODM"), or decision making group, in deciding how to allocate resources and in assessing performance. Our Chief Executive Officer is our CODM.

We conduct our business through three operating segments—Enterprise Intelligence, Communications Intelligence, and Video Intelligence. Organizing our business through three operating segments allows us to align our resources and domain expertise to effectively address the Actionable Intelligence market. We address the Customer Engagement Optimization market opportunity through solutions from our Enterprise Intelligence segment. We address the Security Intelligence market opportunity through solutions from our Communications Intelligence segment and Video Intelligence segment, and we address the Fraud, Risk, and Compliance market opportunity through solutions from all three operating segments.

We measure the performance of our operating segments based upon operating segment revenue and operating segment contribution. Operating segment contribution includes segment revenue and expenses incurred directly by the segment, including material costs, service costs, research and development and selling, marketing, and administrative expenses. We do not allocate certain expenses, which include the majority of general and administrative expenses,

facilities and communication expenses, purchasing expenses, manufacturing support and logistic expenses, depreciation and amortization, amortization of capitalized software development costs, stock-based compensation, and special charges such as restructuring costs when calculating operating segment contribution. These expenses are included in the unallocated expenses section of the table presented below. Revenue from transactions between our operating segments is not material.

Revenue adjustments represent revenue of acquired companies which is included within segment revenue reviewed by the CODM, but not recognizable within GAAP revenue. These adjustments primarily relate to the acquisition-date excess of the historical carrying value over the fair value of acquired companies' future maintenance and service performance obligations. As the obligations are satisfied, we report our segment revenue using the historical carrying values of these obligations, which we

Table of Contents

believe better reflects our ongoing maintenance and service revenue streams, whereas GAAP revenue is reported using the obligations' acquisition-date fair values.

With the exception of goodwill and acquired intangible assets, we do not identify or allocate our assets by operating segment. Consequently, it is not practical to present assets by operating segment. There were no material changes in the allocation of goodwill and acquired intangible assets by operating segment during the nine months ended October 31, 2014 and 2013. The allocations of goodwill and acquired intangible assets by operating segment appear in Note 5, "Intangible Assets and Goodwill".

Operating results by segment for the three and nine months ended October 31, 2014 and 2013 were as follows:

(in thousands)	Three Months Ended October 31,		Nine Months Ended October 31,	
	2014	2013	2014	2013
Revenue:				
Enterprise Intelligence:				
Segment revenue	\$171,270	\$126,220	\$506,382	\$365,385

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following management's discussion and analysis is provided to assist readers in understanding our financial condition, results of operations, and cash flows. This discussion should be read in conjunction with our audited consolidated financial statements and the notes thereto included in our Annual Report on Form 10-K for the year ended January 31, 2014 and our unaudited condensed consolidated financial statements and notes thereto contained in this report. This discussion contains a number of forward-looking statements, all of which are based on our current expectations and all of which could be affected by uncertainties and risks. Our actual results may differ materially from the results contemplated in these forward-looking statements as a result of many factors including, but not limited to, those described under "Cautionary Note on Forward-Looking Statements".

## Table of Contents

### Our Business

Verint is a global leader in Actionable Intelligence solutions. Actionable Intelligence is a necessity in a dynamic world of massive information growth because it empowers organizations with crucial insights and enables decision makers to anticipate, respond, and take action. With Verint solutions and value-added services, organizations of all sizes and across many industries can make more timely and effective decisions. Today, more than 10,000 organizations in over 180 countries, including over 80 percent of the Fortune 100, use Verint solutions to improve enterprise performance and make the world a safer place.

Our Actionable Intelligence solutions help organizations address three important challenges: Customer Engagement Optimization; Security Intelligence; and Fraud, Risk, and Compliance. We help our customers capture large amounts of information from numerous data types and sources, use analytics to glean insights from the information, and leverage the resulting Actionable Intelligence to help achieve their customer engagement, enhanced security, and risk mitigation goals.

Headquartered in Melville, New York, we support our customers around the globe directly and with an extensive network of selling and support partners.

We conduct our business through three operating segments—Enterprise Intelligence, Communications Intelligence, and Video Intelligence. Organizing our business through three operating segments allows us to align our resources and domain expertise to effectively address the Actionable Intelligence market. We address the Customer Engagement Optimization market opportunity through solutions from our Enterprise Intelligence segment. We address the Security Intelligence market opportunity through solutions from our Communications Intelligence segment and Video Intelligence segment, and we address the Fraud, Risk, and Compliance market opportunity through solutions from all three operating segments.

### Recent Developments

On February 3, 2014, we completed the acquisition of KANA for net cash consideration of \$516.6 million, through the merger of KANA Software, Inc.'s parent holding company, Kay Technology Holdings, Inc. with an indirect, wholly owned subsidiary of ours, with Kay Technology Holdings, Inc. continuing as the surviving company and as our wholly owned subsidiary.

The acquisition was funded through a combination of cash on hand, \$300.0 million of incremental term loans incurred in connection with an amendment to our Credit Agreement, and \$125.0 million of borrowings under our revolving credit facility.

KANA, based in Sunnyvale, California and with global operations, is a leading provider of on-premises and cloud-based solutions which create differentiated, personalized, and integrated customer experiences for large enterprises and mid-market organizations. KANA is being integrated into our Enterprise Intelligence operating segment.

On March 31, 2014, we completed the acquisition of all of the outstanding shares of UTX, a provider of certain mobile device tracking solutions for security applications, from UTX Limited. UTX Limited was our supplier of these products to our Communications Intelligence operating segment prior to the transaction. The purchase price for UTX was \$84.2 million, including \$82.9 million of cash paid at closing. The acquisition of UTX was funded with cash on hand. UTX is based in the EMEA region.

On June 18, 2014, we completed concurrent public offerings of 5,750,000 shares of our common stock and \$400.0 million in aggregate principal amount of 1.50% convertible senior notes due June 1, 2021 (the "Notes"). The aggregate net proceeds from the concurrent offerings were \$657.5 million, after deducting underwriters' discounts and commissions, but excluding other offering expenses. We used \$15.6 million of the net proceeds to pay the net costs of an arrangement consisting of the purchase of call options and the sale of warrants to purchase our common stock, the intent of which is to reduce the potential dilution to our common stock upon conversion of the Notes. We used the remainder of the net proceeds to repay a portion of the outstanding indebtedness under our Credit Agreement.

Further details regarding our acquisitions and our long-term debt appear in Note 4, "Business Combinations" and Note 6, "Long-Term Debt", respectively, to our condensed consolidated financial statements included under Item 1 of this report.

#### Critical Accounting Policies and Estimates

Note 1, "Summary of Significant Accounting Policies" to the audited consolidated financial statements in our Annual Report on Form 10-K for the year ended January 31, 2014 describes the significant accounting policies and methods used in the preparation of the condensed consolidated financial statements appearing in this report. The accounting policies that reflect our

Table of Contents

more significant estimates, judgments and assumptions in the preparation of our consolidated financial statements are described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Item 7 of our Annual Report on Form 10-K for the year ended January 31, 2014, and include the following:

- Revenue recognition;
- Accounting for business combinations;
- Impairment of goodwill and other intangible assets;
- Accounting for income taxes;
- Contingencies;
- Accounting for stock-based compensation;
- Accounting for cost of revenue; and
- Allowance for doubtful accounts

We did not identify any significant changes to our critical accounting policies and estimates during the nine months ended October 31, 2014.

## Results of Operations

## Seasonality and Cyclical

As is typical for many software and technology companies, our business is subject to seasonal and cyclical factors. On an organic basis, our revenue and operating income are typically highest in the fourth quarter and lowest in the first quarter. Moreover, revenue and operating income in the first quarter of a new year may be lower than in the fourth quarter of the preceding year, potentially by a significant margin on an organic basis. In addition, we generally receive a higher volume of orders in the last month of a quarter, with orders concentrated in the later part of that month. We believe that these seasonal and cyclical factors primarily reflect customer spending patterns and budget cycles, as well as the impact of incentive compensation plans for our sales personnel. While seasonal and cyclical factors such as these are common in the software and technology industry, this pattern should not be considered a reliable indicator of our future revenue or financial performance. Many other factors, including general economic conditions, may also have an impact on our business and financial results.

## Overview of Operating Results

The following table sets forth a summary of certain key financial information for the three and nine months ended October 31, 2014 and 2013:

(in thousands, except per share data)	Three Months Ended		Nine Months Ended	
	October 31,		October 31,	
	2014	2013	2014	2013
Revenue	\$282,574	\$224,314	\$816,783	\$651,547
Operating income	\$24,358	\$37,831	\$36,824	\$82,807
Net income attributable to Verint Systems Inc. common shares	\$10,670	\$22,487	\$26,348	\$30,696
Net income per common share attributable to Verint Systems Inc.:				
Basic	\$0.18	\$0.42	\$0.46	\$0.58
Diluted	\$0.17	\$0.42	\$0.45	\$0.57

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Our revenue increased approximately \$58.3 million, or 26%, to \$282.6 million in the three months ended October 31, 2014 from \$224.3

million in the three months ended October 31, 2013. In our Enterprise Intelligence segment, revenue increased approximately \$39.6 million, or 31%, to \$165.5 million in the three months ended October 31, 2014 from \$125.9 million in the three months ended October 31, 2013. The increase consisted of a \$33.5 million increase in service and support revenue and a \$6.1 million increase in product revenue. In our Communications Intelligence segment, revenue increased approximately \$21.9 million, or 31%, from \$71.1 million in the three months ended October 31, 2013 to \$93.0 million in the three months ended October 31, 2014. The increase consisted of a \$13.1 million increase in product revenue and an \$8.8 million increase in service and support revenue. In our Video Intelligence segment, revenue decreased approximately \$3.3 million, or 12%, from \$27.3 million in the three months ended October 31, 2013 to \$24.0 million in the three months ended October 31, 2014, primarily due to a decrease in product revenue. For additional details on our revenue by segment, see "—Revenue by Operating Segment". Revenue in the

Table of Contents

Americas, EMEA, and the Asia-Pacific ("APAC") region represented approximately 53%, 33%, and 14%, respectively, of our total revenue in the three months ended October 31, 2014, compared to approximately 53%, 22%, and 25%, respectively, in the three months ended October 31, 2013. The change in the percentage of revenue by geographical region in the three months ended October 31, 2014 compared to the three months ended October 31, 2013 primarily reflected the timing of revenue recognized in those regions under several large contracts, primarily in our Communications Intelligence segment. Further details of changes in revenue are provided below.

Operating income was \$24.4 million in the three months ended October 31, 2014 compared to \$37.8 million in the three months ended October 31, 2013. The decrease in operating income was primarily due to a \$42.8 million increase in operating expenses, from \$114.3 million to \$157.1 million, partially offset by a \$29.3 million increase in gross profit from \$152.2 million to \$181.5 million. The increase in gross profit was primarily due to increased gross profit in our Enterprise Intelligence and Communication Intelligence segments. Despite the increase in gross profit, our overall gross margin decreased from 68% in the three months ended October 31, 2013 to 64% in the three months ended October 31, 2014 primarily due to a change in the mix of services attributable to business combinations that closed subsequent to October 31, 2013 in our Enterprise Intelligence segment. The increase in operating expenses consisted of a \$25.2 million increase in selling, general and administrative expense, a \$12.3 million increase in net research and development expenses, and a \$5.2 million increase in amortization of other acquired intangible assets. Further details of changes in operating income are provided below.

Net income attributable to Verint Systems Inc. common shares was \$10.7 million, and diluted net income per common share was \$0.17, in the three months ended October 31, 2014 compared to net income attributable to Verint Systems Inc. common shares of \$22.5 million, and diluted net income per common share of \$0.42, in the three months ended October 31, 2013. The decrease was primarily due to a \$13.4 million decrease in operating income, as described above, partially offset by a \$1.2 million decrease in our provision for income taxes, and a \$0.8 million decrease in net income attributable to noncontrolling interest, in each case, compared to the three months ended October 31, 2013. Further details of these changes are provided below.

A portion of our business is conducted in currencies other than the U.S. dollar, and therefore our revenue and operating expenses are affected by fluctuations in applicable foreign currency exchange rates as noted above. When comparing average exchange rates for the three months ended October 31, 2014 to average exchange rates for the three months ended October 31, 2013, while the U.S. dollar strengthened relative to the euro, it weakened relative to the British pound sterling and our hedged Israeli shekel rate, resulting in an overall decrease in our revenue and cost of revenue and an increase in operating expenses on a U.S. dollar-denominated basis. For the three months ended October 31, 2014, had foreign exchange rates remained unchanged from rates in effect for the three months ended October 31, 2013, our revenue would have been approximately \$1.3 million higher and our cost of revenue and operating expenses would have been approximately \$1.4 million lower, which would have resulted in a \$2.7 million increase in operating income.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Our revenue increased approximately \$165.3 million, or 25%, to \$816.8 million in the nine months ended October 31, 2014 from \$651.5 million in the nine months ended October 31, 2013. In our Enterprise Intelligence segment, revenue increased approximately \$116.4 million, or 32%, to \$481.1 million in the nine months ended October 31, 2014 from \$364.7 million in the nine months ended October 31, 2013. The increase consisted of a \$101.4 million increase in service and support revenue and a \$15.0 million increase in product revenue. In our Communications Intelligence segment, revenue increased approximately \$57.6 million, or 29%, from \$198.6 million in the nine months ended October 31, 2013 to \$256.2 million in the nine months ended October 31, 2014. The increase consisted of a \$46.7 million increase in product revenue and a \$10.9 million increase in service and support revenue. In our Video Intelligence segment, revenue decreased approximately \$8.7 million, or 10%, from \$88.2 million in the nine months ended October 31,

2013 to \$79.5 million in the nine months ended October 31, 2014, primarily due to a decrease in product revenue. For additional details on our revenue by segment, see "—Revenue by Operating Segment". Revenue in the Americas, EMEA, and the APAC region represented approximately 52%, 31%, and 17% of our total revenue, respectively, in the nine months ended October 31, 2014, compared to approximately 54%, 21%, and 25%, respectively, in the nine months ended October 31, 2013. The change in the percentage of revenue by geographical region in the nine months ended October 31, 2014 compared to the nine months ended October 31, 2013 primarily reflected the timing of revenue recognized in those regions under several large contracts, primarily in our Communications Intelligence segment. Further details of changes in revenue are provided below.

Operating income was \$36.8 million in the nine months ended October 31, 2014 compared to \$82.8 million in the nine months ended October 31, 2013. The decrease in operating income was primarily due to a \$122.8 million increase in operating expenses, from \$350.7 million to \$473.5 million, partially offset by a \$76.8 million increase in gross profit from \$433.5 million to \$510.3 million. The increase in operating expenses consisted of a \$70.4 million increase in selling, general and administrative expense, a \$36.5 million increase in net research and development expenses, and a \$15.9 million increase in

Table of Contents

amortization of other acquired intangible assets. The increase in gross profit was primarily due to increased gross profit in our Enterprise Intelligence and Communication Intelligence segments. Despite the increase in gross profit, our overall gross margin decreased from 67% in the nine months ended October 31, 2013 to 62% in the nine months ended October 31, 2014 due primarily to a change in the mix of services attributable to business combinations that closed subsequent to October 31, 2013 in our Enterprise Intelligence segment. Further details of changes in operating income are provided below.

Net income attributable to Verint Systems Inc. common shares was \$26.3 million, and diluted net income per common share was \$0.45, in the nine months ended October 31, 2014 compared to a net income attributable to Verint Systems Inc. common shares of \$30.7 million, and diluted net income per common share of \$0.57, in the nine months ended October 31, 2013. The decrease in net income attributable to Verint Systems Inc. common shares and diluted net income per common share in the nine months ended October 31, 2014 was primarily due to decreased operating income, as described above, a \$6.1 million increase in interest expense, and a \$2.6 million increase in losses upon early retirement of debt recorded during the nine months ended October 31, 2014 compared to the nine months ended October 31, 2013. These increases to net income attributable to Verint Systems Inc. common shares were partially offset by a \$43.7 million decrease in our provision for income taxes (from \$11.9 million expense for the nine months ended October 31, 2013 to a \$31.8 million benefit for the nine months ended October 31, 2014), and a \$6.3 million increase in other income, net (from a \$5.0 million expense during the nine months ended October 31, 2013 to a \$1.3 million net benefit during the nine months ended October 31, 2014) due primarily to a \$1.5 million decrease in foreign currency losses, net, a \$1.7 million increase in gains on derivative financial instruments, net, and a \$3.1 million increase in other income, net (from a \$2.5 million net expense to a net benefit of \$0.6 million). Further details of these changes are provided below.

When comparing average exchange rates for the nine months ended October 31, 2014 to average exchange rates for the nine months ended October 31, 2013, while the U.S. dollar strengthened relative to the Australian dollar, it weakened relative to the Israeli shekel, British pound sterling and euro, resulting in an overall increase in our revenue, cost of revenue and operating expenses on a U.S. dollar-denominated basis. For the nine months ended October 31, 2014, had foreign exchange rates remained unchanged from rates in effect for the nine months ended October 31, 2013, our revenue would have been approximately \$6.8 million lower and our cost of revenue and operating expenses would have been approximately \$13.8 million lower, which would have resulted in a \$7.0 million increase in operating income.

As of October 31, 2014, we employed approximately 4,700 employees, including part-time employees and certain contractors, as compared to approximately 3,400 employees as of October 31, 2013.

## Revenue by Operating Segment

The following table sets forth revenue for each of our three operating segments for the three and nine months ended October 31, 2014 and 2013:

(in thousands)	Three Months Ended October 31,		% Change 2014 - 2013	Nine Months Ended October 31,		% Change 2014 - 2013
	2014	2013		2014	2013	
Enterprise Intelligence	\$ 165,526	\$ 125,897	31%	\$ 481,119	\$ 364,693	32%
Communications Intelligence	93,040	71,130	31%	256,165	198,633	29%
Video Intelligence	24,008	27,287	(12)%	79,499	88,221	(10)%
Total revenue	\$ 282,574	\$ 224,314	26%	\$ 816,783	\$ 651,547	25%

## Enterprise Intelligence Segment

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Enterprise Intelligence revenue increased approximately \$39.6 million, or 31%, from \$125.9 million in the three months ended October 31, 2013 to \$165.5 million in the three months ended October 31, 2014. The increase consisted of a \$33.5 million increase in service and support revenue and a \$6.1 million increase in product revenue. The \$33.5 million increase in service and support revenue was primarily due to an increase in our customer install base, both organically and through business combinations, and the related support revenue generated from this customer base during the three months ended October 31, 2014, as well as increased revenue from new service offerings in the three months ended October 31, 2014. The \$6.1 million increase in product revenue was due to an increase in product sales to new customers during the three months ended October 31, 2014. The continued growth of service revenue is attributable to various factors, including an increase in services associated with customer product upgrades, a higher component of service offerings in our standard arrangements, and our growing install base, both organically

## Table of Contents

and as a result of business combinations. The aggregate value of executed license arrangements, which comprises the majority of our product revenue, can fluctuate from quarter to quarter.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Enterprise Intelligence revenue increased approximately \$116.4 million, or 32%, from \$364.7 million in the nine months ended October 31, 2013 to \$481.1 million in the nine months ended October 31, 2014. The increase consisted of a \$101.4 million increase in service and support revenue, and an \$15.0 million increase in product revenue. The \$101.4 million increase in service and support revenue was primarily due to an increase in our customer install base, both organically and through business combinations, and the related support revenue generated from this customer base during the nine months ended October 31, 2014, as well as increased revenue from new service offerings in the nine months ended October 31, 2014. The \$15.0 million increase in product revenue was due to an increase in product sales to new customers during the three months ended October 31, 2014. The continued growth of service revenue is attributable to various factors, including an increase in services associated with customer product upgrades, a higher component of service offerings in our standard arrangements, and our growing install base, both organically and as a result of business combinations. The aggregate value of executed license arrangements, which comprises the majority of our product revenue, can fluctuate from quarter to quarter.

### Communications Intelligence Segment

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Communications Intelligence revenue increased approximately \$21.9 million, or 31%, from \$71.1 million in the three months ended October 31, 2013 to \$93.0 million in the three months ended October 31, 2014. The increase consisted of a \$13.1 million increase in product revenue and an \$8.8 million increase in service and support revenue. The increase in product revenue was primarily due to an increase in product deliveries to customers and an increase in progress realized during the current year on projects recognized using the percentage of completion ("POC") method, some of which commenced in the previous fiscal year. The increase in service and support revenue was primarily attributable to an increase in progress realized during the current year on projects recognized using the POC method, some of which commenced in the previous fiscal year, and an increase in revenue from software-as-a-service ("SaaS") offerings.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Communications Intelligence revenue increased approximately \$57.6 million, or 29%, from \$198.6 million in the nine months ended October 31, 2013 to \$256.2 million in the nine months ended October 31, 2014. The increase consisted of a \$46.7 million increase in product revenue and a \$10.9 million increase in service and support revenue. The increase in product revenue was primarily due to an increase in product deliveries to customers and an increase in progress realized during the current year on projects recognized using the POC method, some of which commenced in the previous fiscal year. The increase in service and support revenue was primarily attributable to the increase in progress realized during the current year on projects recognized using the percentage of completion POC method, some of which commenced in the previous fiscal year, and an increase in revenue from SaaS offerings.

### Video Intelligence Segment

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Video Intelligence revenue decreased approximately \$3.3 million, or 12%, from \$27.3 million in the three months ended October 31, 2013 to \$24.0 million in the three months ended October 31, 2014. The decrease was primarily attributable to a decrease in product deliveries to new and existing customers during the three months ended October 31, 2014 as compared to the three months ended October 31, 2013.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Video Intelligence revenue decreased approximately \$8.7 million, or 10%, from \$88.2 million in the nine months ended October 31, 2013 to \$79.5 million in the nine months ended October 31, 2014. The decrease was primarily attributable to a \$9.1 million decrease in product revenue, resulting from a decrease in product deliveries to new and existing customers during the nine months ended October 31, 2014 as compared to the nine months ended October 31, 2013.

#### Volume and Price

We sell products in multiple configurations, and the price of any particular product varies depending on the configuration of the product sold. Due to the variety of customized configurations for each product we sell, we are unable to quantify the amount of any revenue increases attributable to a change in the price of any particular product and/or a change in the number of products sold.

Table of Contents

## Revenue by Product Revenue and Service and Support Revenue

We derive and report our revenue in two categories: (a) product revenue, including licensing of software products and sale of hardware products (which include software that works together with the hardware to deliver the product's essential functionality), and (b) service and support revenue, including revenue from installation services, post-contract customer support, project management, hosting services, SaaS, product warranties, consulting services, and training services. For multiple-element arrangements for which we are unable to establish vendor-specific objective evidence of fair value for one or more elements, we use various available indicators of fair value and apply our best judgment to reasonably classify the arrangement's revenue into product revenue and service and support revenue.

The following table sets forth product revenue and service and support revenue for the three and nine months ended October 31, 2014 and 2013:

(in thousands)	Three Months Ended October 31,		% Change 2014 - 2013	Nine Months Ended October 31,		% Change 2014 - 2013
	2014	2013		2014	2013	
Product revenue	\$118,346	\$101,974	16%	\$339,657	\$287,189	18%
Service and support revenue	164,228	122,340	34%	477,126	364,358	31%
Total revenue	\$282,574	\$224,314	26%	\$816,783	\$651,547	25%

## Product Revenue

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Product revenue increased approximately \$16.3 million, or 16%, from \$102.0 million for the three months ended October 31, 2013 to \$118.3 million for the three months ended October 31, 2014, resulting from a \$13.1 million increase in our Communications Intelligence segment and a \$6.1 million increase in our Enterprise Intelligence segment, partially offset by a \$2.8 million decrease in our Video Intelligence segment.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Product revenue increased approximately \$52.5 million, or 18%, from \$287.2 million for the nine months ended October 31, 2013 to \$339.7 million for the nine months ended October 31, 2014, resulting from a \$46.7 million increase in our Communications Intelligence segment and a \$15.0 million increase in our Enterprise Intelligence segment, partially offset by a \$9.1 million decrease in our Video Intelligence segment.

For additional information see "— Revenue by Operating Segment".

## Service and Support Revenue

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Service and support revenue increased approximately \$41.9 million, or 34%, from \$122.3 million for the three months ended October 31, 2013 to \$164.2 million for the three months ended October 31, 2014. This increase was primarily attributable to an increase of \$33.5 million in our Enterprise Intelligence segment and an \$8.8 million increase in our Communications Intelligence segment, partially offset by a \$0.5 million decrease in our Video Intelligence segment.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Service and support revenue increased approximately \$112.7 million, or 31%, from \$364.4 million for the nine months ended October 31, 2013 to \$477.1 million for the nine months ended October 31, 2014, resulting from a \$101.4 million increase in our Enterprise Intelligence segment, a \$10.9 million increase in our Communications Intelligence segment, and a \$0.4 million increase in our Video Intelligence segment.

For additional information see "— Revenue by Operating Segment".

#### Cost of Revenue

The following table sets forth cost of revenue by product and service and support, as well as amortization of acquired technology and backlog for the three and nine months ended October 31, 2014 and 2013:

43

---

Table of Contents

(in thousands)	Three Months Ended October 31,			Nine Months Ended October 31,		
	2014	2013	% Change 2014 - 2013	2014	2013	% Change 2014 - 2013
Cost of product revenue	\$32,925	\$33,322	(1)%	\$104,524	\$94,584	11%
Cost of service and support revenue	60,082	36,900	63%	178,939	115,568	55%
Amortization of acquired technology and backlog	8,096	1,935	*	23,018	7,920	*
Total cost of revenue	\$101,103	\$72,157	40%	\$306,481	\$218,072	41%

\* Percentage is not meaningful.

We exclude certain costs of product revenue and certain costs of service and support revenue, including shared support costs, stock-based compensation, and asset impairment charges, among others, from the calculations of our operating segment gross margins.

#### Cost of Product Revenue

Cost of product revenue primarily consists of hardware material costs and royalties due to third parties for software components that are embedded in our software solutions. When revenue is deferred, we also defer hardware material costs and third-party software royalties and recognize those costs over the same period that the product revenue is recognized. Cost of product revenue also includes amortization of capitalized software development costs, employee compensation and related expenses associated with our global operations, facility costs, and other allocated overhead expenses. In our Communications Intelligence segment, cost of product revenue also includes employee compensation and related expenses, contractor and consulting expenses, and travel expenses, in each case for resources dedicated to project management and associated product delivery.

Our product gross margins are impacted by the mix of products that we sell from period to period. As with many other technology companies, our software products tend to have higher gross margins than our hardware products.

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Cost of product revenue decreased approximately 1% from \$33.3 million in the three months ended October 31, 2013 to \$32.9 million in the three months ended October 31, 2014. Our overall product gross margins increased to 72% in the three months ended October 31, 2014 from 67% in the three months ended October 31, 2013. Product gross margins in our Enterprise Intelligence segment increased from 91% in the three months ended October 31, 2013 to 94% in the three months ended October 31, 2014 primarily due to a continued decrease in hardware sales as part of our product offering. Product gross margins in our Communications Intelligence segment increased from 58% in the three months ended October 31, 2013 to 62% in the three months ended October 31, 2014 primarily due to a change in product mix. Product gross margins in our Video Intelligence segment increased from 56% in the three months ended October 31, 2013 to 57% in the three months ended October 31, 2014 due to a change in product mix.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Cost of product revenue increased approximately 11% from \$94.6 million in the nine months ended October 31, 2013 to \$104.5 million in the nine months ended October 31, 2014. Our overall product gross margins increased to 69% in the nine months ended October 31, 2014 from 67% in the nine months ended October 31, 2013. Product gross margins in our Enterprise Intelligence segment increased from 92% in the nine months ended October 31, 2013 to 94% in the nine months ended October 31, 2014 primarily due to a continued decrease in hardware sales as part of our product offering. Product gross margins in our Communications Intelligence segment increased from 55% in the nine months ended October 31, 2013 to 60% in the nine months ended October 31, 2014 primarily due to a change in product mix.

Product gross margins in our Video Intelligence segment increased from 58% in the nine months ended October 31, 2013 to 60% in the nine months ended October 31, 2014 due to a change in product mix.

#### Cost of Service and Support Revenue

Cost of service and support revenue primarily consists of employee compensation and related expenses, contractor costs, and travel expenses relating to installation, training, consulting, and maintenance services. Cost of service and support revenue also includes stock-based compensation expenses, facility costs, and other overhead expenses. In accordance with GAAP and our accounting policy, the cost of revenue associated with the services is generally expensed as incurred in the period in which the services are performed, with the exception of certain transactions accounted for under the POC method.

Table of Contents

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Cost of service and support revenue increased approximately 63% from \$36.9 million in the three months ended October 31, 2013 to \$60.1 million in the three months ended October 31, 2014. Employee compensation and related expenses increased \$14.7 million due primarily to increased headcount in connection with business combinations that closed subsequent to October 31, 2013. Contractor costs, travel expense, and materials expense incurred to provide services increased \$2.7 million, \$1.4 million, and \$2.7 million, respectively, primarily due to business combinations that closed subsequent to October 31, 2013. Our overall service and support gross margins decreased from 70% in the three months ended October 31, 2013 to 63% in the three months ended October 31, 2014 primarily due to a change in the mix of services in connection with business combinations that closed subsequent to October 31, 2013 in our Enterprise Intelligence segment.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Cost of service and support revenue increased approximately 55% from \$115.6 million in the nine months ended October 31, 2013 to \$178.9 million in the nine months ended October 31, 2014. Employee compensation and related expenses increased \$39.0 million due primarily to increased headcount in connection with business combinations that closed subsequent to October 31, 2013. Contractor costs, travel expense, and materials expense incurred to provide services increased \$7.7 million, \$4.0 million, and \$7.8 million, respectively, primarily due to business combinations that closed subsequent to October 31, 2013. Our overall service and support gross margins decreased from 68% in the nine months ended October 31, 2013 to 62% in the nine months ended October 31, 2014 primarily due to a change in the mix of services in connection with business combinations that closed subsequent to October 31, 2013 in our Enterprise Intelligence segment.

Amortization of Acquired Technology and Backlog

Amortization of acquired technology and backlog consists of amortization of technology assets and customer backlog acquired in connection with business combinations.

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Amortization of acquired technology and backlog increased from \$1.9 million in the three months ended October 31, 2013 to \$8.1 million in the three months ended October 31, 2014, primarily due to an increase in amortization expense of acquired technology-based intangible assets associated with business combinations that closed subsequent to October 31, 2013.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Amortization of acquired technology and backlog increased from \$7.9 million in the nine months ended October 31, 2013 to \$23.0 million in the nine months ended October 31, 2014, primarily due to an increase in amortization expense of acquired technology-based intangible assets associated with business combinations that closed subsequent to October 31, 2013.

Further discussion regarding our business combinations appears in Note 4, "Business Combinations" to our consolidated financial statements included under Item 1 of this report.

Research and Development, Net

Research and development expenses consist primarily of personnel and subcontracting expenses, facility costs, and other allocated overhead, net of certain software development costs that are capitalized as well as reimbursements under government programs. Software development costs are capitalized upon the establishment of technological feasibility and continue to be capitalized through the general release of the related software product.

The following table sets forth research and development, net for the three and nine months ended October 31, 2014 and 2013:

(in thousands)	Three Months Ended October 31,			Nine Months Ended October 31,		
	2014	2013	% Change 2014 - 2013	2014	2013	% Change 2014 - 2013
Research and development, net	\$43,008	\$30,704	40%	\$128,408	\$91,935	40%

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Research and development, net increased approximately \$12.3 million, or 40%, from \$30.7 million in the three months ended October 31, 2013 to \$43.0 million in the three months ended October 31, 2014. The increase was primarily attributable to an \$8.8 million increase in employee compensation and related expenses due primarily to an increase in employee headcount in connection with business combinations that closed subsequent to October 31, 2013 in our Enterprise Intelligence and Communication Intelligence segments. Research and development reimbursements from government programs that were received during the three months

Table of Contents

ended October 31, 2014 decreased \$1.1 million compared to the three months ended October 31, 2013 due primarily to decreases of such reimbursements in our Enterprise Intelligence and Communications Intelligence segments. Stock-based compensation expense increased \$0.4 million increase resulting from an increase in average amounts of outstanding restricted stock units, and continued increases in our stock price, which impacts the total stock-based compensation to be recognized over the vesting periods.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Research and development, net increased approximately \$36.5 million, or 40%, from \$91.9 million in the nine months ended October 31, 2013 to \$128.4 million in the nine months ended October 31, 2014. The increase was primarily attributable to a \$29.3 million increase in employee compensation and related expenses due primarily to an increase in employee headcount in connection with business combinations that closed subsequent to October 31, 2013 in our Enterprise Intelligence and Communication Intelligence segments. Contractor expense increased approximately \$1.1 million due to increased use of contractors in our Communications Intelligence segment during the nine months ended October 31, 2014 compared to the nine months ended October 31, 2013. Stock-based compensation expense increased \$1.4 million resulting from an increase in average amounts of outstanding restricted stock units, and continued increases in our stock price, which impacts the total stock-based compensation to be recognized over the vesting periods.

## Selling, General and Administrative Expenses

Selling, general and administrative expenses consist primarily of personnel costs and related expenses, professional fees, sales and marketing expenses, including travel, sales commissions and sales referral fees, facility costs, communication expenses, and other administrative expenses.

The following table sets forth selling, general and administrative expenses for the three and nine months ended October 31, 2014 and 2013:

(in thousands)	Three Months Ended October 31,		% Change 2014 - 2013	Nine Months Ended October 31,		% Change 2014 - 2013
	2014	2013		2014	2013	
Selling, general and administrative	\$ 102,738	\$ 77,472	33%	\$ 310,946	\$ 240,540	29%

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Selling, general and administrative expenses increased approximately \$25.2 million, or 33%, from \$77.5 million in the three months ended October 31, 2013 to \$102.7 million in the three months ended October 31, 2014. Employee compensation and related expenses increased \$8.5 million primarily due to increased employee headcount in our Enterprise Intelligence and Communications Intelligence segments, as well as an increase in employee headcount for corporate support employees. Stock-based compensation expense increased \$2.1 million due primarily to an increase in average amounts of outstanding restricted stock units, and continued increases in our stock price, which impacts the total stock-based compensation to be recognized over the vesting periods. Sales and marketing and facilities expense increased \$1.7 million and \$2.1 million, respectively, due primarily to business combinations that closed subsequent to October 31, 2013. Also contributing to the increase in selling, general, and administrative expense was a \$2.8 million increase in agent commissions expense in our Communication Intelligence segment, a \$1.7 million increase in contractor expense due primarily to increase use of contractors for corporate support activities, and an increase in the change in fair value of our obligations under contingent consideration arrangements from a \$1.9 million benefit during the three months ended October 31, 2013 to a \$0.1 million expense during the three months ended October 31, 2014, resulting in a \$2.0 million increase in selling, general, and administrative expense.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Selling, general and administrative expenses increased approximately \$70.4 million, or 29%, from \$240.5 million in the nine months ended October 31, 2013 to \$310.9 million in the nine months ended October 31, 2014. Employee compensation and related expenses increased \$29.1 million due primarily to increased employee headcount in our Enterprise Intelligence and Communications Intelligence segments, as well as an increase in employee headcount for corporate support employees. Stock-based compensation expense increased \$10.2 million due primarily to an increase in average amounts of outstanding restricted stock units, and continued increases in our stock price, which impacts the total stock-based compensation to be recognized over the vesting periods. Sales and marketing expense, travel expense, and facilities expense increased \$3.9 million, \$4.0 million, and \$5.4 million, respectively, due primarily to business combinations that closed subsequent to October 31, 2013. Also contributing to the increase in selling, general, and administrative expense was a \$7.4 million increase in agent commissions expense in our Communication Intelligence segment, and a \$3.3 million increase in contractor expense due primarily to increased use of contractors for corporate support activities. These increases were partially offset by a decrease of \$3.5 million of expenses

from special performance incentives associated with a prior period business combination included in selling, general, and administrative expenses during the nine months ended October 31, 2013 with no equivalent expenses in the nine months ended October 31, 2014.

## Amortization of Other Acquired Intangible Assets

Amortization of other acquired intangible assets consists of amortization of certain intangible assets acquired in connection with business combinations, including customer relationships, distribution networks, trade names and non-compete agreements.

The following table sets forth amortization of other acquired intangible assets for the three and nine months ended October 31, 2014 and 2013:

(in thousands)	Three Months Ended October 31,		% Change 2014 - 2013	Nine Months Ended October 31,		% Change 2014 - 2013
	2014	2013		2014	2013	
Amortization of other acquired intangible assets	\$11,367	\$6,150	85%	\$34,124	\$18,193	88%

Three Months Ended October 31, 2014 compared to Three Months Ended October 31, 2013. Amortization of other acquired intangible assets increased approximately \$5.2 million, or 85%, from \$6.2 million in the three months ended October 31, 2013 to \$11.4 million in the three months ended October 31, 2014 primarily due to amortization associated with business combinations that closed subsequent to October 31, 2013.

Nine Months Ended October 31, 2014 compared to Nine Months Ended October 31, 2013. Amortization of other acquired intangible assets increased approximately \$15.9 million, or 88%, from \$18.2 million in the nine months ended October 31, 2013 to \$34.1 million in the nine months ended October 31, 2014 primarily due to amortization associated with business combinations that closed subsequent to October 31, 2013.

Further discussion surrounding our business combinations appears in Note 4, "Business Combinations" to our consolidat
