**RUTH S HOSPITALITY GROUP, INC. AND SUBSIDIARIES**

Notes to Condensed Consolidated Financial Statements

(dollar amounts in thousands, except share and per share data)

**(1) Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements of Ruth s Hospitality Group, Inc. and its subsidiaries (together, the Company ) as of June 27, 2010, and December 27, 2009, and for the quarter and twenty-six weeks ended June 27, 2010 and June 28, 2009, have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission ( SEC ).

The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments), which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. The interim results of operations for the fiscal quarters ended June 27, 2010 and June 28, 2009 are not necessarily indicative of the results that may be achieved for the full year. Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended December 27, 2009.

The Company operates on a 52 or 53-week fiscal year ending on the last Sunday in December. The fiscal quarters ended June 27, 2010 and June 28, 2009 each contained 13 weeks and are referred to herein as the second quarter of fiscal 2010 and the second quarter of fiscal 2009, respectively.

***Estimates***

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reporting of revenue and expenses during the period to prepare these condensed consolidated financial statements in conformity with U.S. generally accepted accounting principles. Significant items subject to such estimates and assumptions include the carrying amount of property and equipment, goodwill, franchise rights, trademarks, obligations related to workers compensation and medical insurance, and lease obligations. Actual results could differ from those estimates.

***Principles of Consolidation***

The consolidated financial statements include the financial statements of Ruth s Hospitality Group, Inc. and its wholly owned subsidiaries. All significant inter-company balances and transactions have been eliminated in consolidation.

***Reclassifications***

Certain prior year amounts related to sales discounts (see Note 14) have been reclassified to conform to the current year presentation. These reclassifications had no effect on previously reported net income.

***Newly Adopted Accounting Pronouncements***

Effective December 28, 2009, the Company adopted amendments in Accounting Standards Update 2010-06 ( ASU 2010-06 ) requiring new fair value disclosures. Entities are required to separately disclose significant transfers into and out of Level 1 and Level 2 measurements in the fair value hierarchy and describe the reasons for the transfers. Entities are also required to provide information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of Level 3 fair value measurements. In addition, entities must provide fair value measurement disclosures for each class of assets and liabilities, and disclosures about the valuation techniques used in determining fair value for Level 2 or Level 3 measurements. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the gross basis reconciliation for the Level 3 fair value measurements, which is effective for fiscal years beginning after December 15, 2010. The adoption of ASU 2010-06 did not have a material impact on the Company s consolidated financial statements. There were no transfers between Level 1 and Level 2 measurements in the fair value hierarchy during the second fiscal quarter of 2010.

***Recent Accounting Pronouncements for Future Application***

Accounting standards that have been issued by the FASB or other standard-setting bodies that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

**(2) Private Placement and Rights Offering**

On February 12, 2010, the Company completed its sale of \$25 million of the Company's newly-created Series A 10% Redeemable Convertible Preferred Stock (the Preferred Stock) to Bruckmann, Rosser, Sherrill & Co. III, L.P. and BRS Coinvestor III, L.P. (collectively, BRS) in a private placement transaction. The Company received proceeds of \$23.2 million, net of approximately \$1.8 million in closing and issuance costs. On February 12, 2010, the Company also closed its rights offering and sold 10,147,451 shares of the Company's common stock, at a subscription price of \$2.50 per share, for an aggregate purchase price of

---

## **Table of Contents**

approximately \$25.4 million. The Company received proceeds of \$23.3 million, net of approximately \$2.1 million in closing and issuance costs.

The Company applied approximately \$44.3 million of the net proceeds from the rights offering and the private placement, together with cash on hand, to reduce its outstanding borrowings under its existing credit facility. Upon the application of those net proceeds, and the satisfaction of other agreed-upon conditions, a credit agreement amendment that the Company entered into with the lenders under its existing credit facility became effective (see Note 4).

In connection with the closing of these transactions, the Company entered into a Registration Rights Agreement, dated February 12, 2010, with BRS (the "Registration Rights Agreement"). Under the Registration Rights Agreement, the Company agreed to provide certain customary registration rights to the common stock issuable upon conversion of the Preferred Stock of the Company. The Company is required to file an initial shelf registration statement for the benefit of the Preferred Stock holders within nine months of the issuance of the Preferred Stock and such registration statement is required to be declared effective by the SEC prior to the first anniversary of the closing. In addition, following the first anniversary of the closing, the holder is entitled to three demand registration rights on Form S-3 and piggyback registration rights if the Company files a registration statement with respect to any shares of the Company's common stock or with respect to a public offering (subject to customary restrictions and exceptions). In addition, if the Company breaches certain of its obligations under the Registration Rights Agreement (including any of those related to the requirement to timely file registration statements and include the common stock issuable upon conversion of the Preferred Stock in any applicable registration statement), the dividend rate on the Preferred Stock will increase from 10% to 11% until the breach is cured.

### **(3) Fair Value Measurements**

Fair value is defined under Fair Value Measurements and Disclosures, FASB Accounting Standards Codification Topic 820 (Topic 820) as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. Topic 820 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels of inputs to the valuation methodology are:

Level 1 quoted prices (unadjusted) for an identical asset or liability in an active market.

Level 2 quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.

Level 3 unobservable and significant to the fair value measurement of the asset or liability.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

The carrying amount of cash and cash equivalents, receivables, prepaid expenses, accounts payable and accrued expenses and other current liabilities are a reasonable estimate of their fair values due to their short duration.

Borrowings under the senior credit facility as of June 27, 2010 have variable interest rates that reflect currently available terms and conditions for similar debt. The carrying amount of this debt is a reasonable estimate of its fair value.

The fair values of interest rate swap assets and liabilities were estimated by the Company based on information provided by the bank counterparties that is model-driven and whose inputs include the net present value of a series of cash flows on both the fixed and floating legs of the swap.

## Edgar Filing: Ruths Hospitality Group, Inc. - Form 10-Q

The Company's financial instruments measured at fair value on a recurring basis subject to the disclosure requirements of Topic 820 as of June 27, 2010 and December 27, 2009 were as follows:

	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Fair Value as of June 27, 2010 (unaudited)</b>
Interest rate swap liability	\$	\$ 241	\$	\$ 241

**Table of Contents**

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value as of December 27, 2009
Interest rate swap liability	\$	\$ 797	\$	\$ 797

In accordance with Property, Plant and Equipment Impairment or Disposal of Long-Lived Assets, FASB Accounting Standards Codification Topic 360-10 (Topic 360-10), long lived assets, such as property, plant and equipment and purchased intangibles subject to amortization are reviewed for impairment on a restaurant-by-restaurant basis whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Fair value of long-lived assets is generally determined based on the discounted future cash flows generated by these assets.

Goodwill and trademarks acquired in a purchase business combination that are determined to have an indefinite useful life are not amortized, but tested for impairment at least annually in accordance with the provisions of Intangibles Goodwill and Other, FASB Accounting Standards Codification Topic 350 (Topic 350). Goodwill and trademarks are tested annually for impairment on a reporting unit basis and more frequently if events and circumstances indicate that the asset might be impaired. For purposes of testing goodwill impairment, a reporting unit is defined as a restaurant location. For purposes of testing trademark impairment, a reporting unit is defined as a group of acquired restaurants sharing a common trade name. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value.

Franchise rights acquired prior to 2008 in a purchase business combination that are determined to have an indefinite useful life are not amortized, but tested for impairment at least annually on a reporting unit basis, which is defined as a group of reacquired restaurants, and more frequently if events and circumstances indicate that the asset might be impaired. The Company allows and expects franchisees to renew agreements indefinitely ensuring consistent cash flows. As a result, acquired franchise rights are determined to have indefinite useful lives. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value. Franchise rights acquired after 2007 are no longer considered to have indefinite useful lives and are amortized in accordance with Topic 350.

Based upon the Company's review, no impairment charges were required in the second fiscal quarter of 2010 for long-lived assets, goodwill, franchise rights and trademarks.

**(4) Long-term Debt**

On February 26, 2009, the Company signed a first amendment to its Amended and Restated Credit Facility reducing the revolving loan commitment from \$250.0 million to \$175.0 million, with additional reductions scheduled through the final maturity date of February 19, 2013. The amendment decreased the Fixed Charge Coverage Ratio and increased the maximum Consolidated Leverage Ratio, in each case beginning with the fourth quarter of 2008 and continuing through the second quarter of 2010, after which these two covenants reset to their original levels. The amendment increased the interest rates applicable to borrowings based on the Company's actual leverage ratio, ranging from 2.50% to 4.25% above the applicable LIBOR rate or, at the Company's option, from 1.25% to 3.00% above the applicable base rate. At the time of the amendment, unamortized deferred costs related to the Company's credit agreement of \$0.4 million were written off.

On February 12, 2010, the Company entered into a Second Amendment to the First Amended and Restated Credit Agreement. The amendment to the credit agreement reduced the revolving loan commitment to \$129.6 million, extended the scheduled maturity of the credit agreement by two years, to February 2015, and provided the Company with a less restrictive set of covenants. Specifically, the amendment provided for no financial covenant testing until the end of fiscal year 2010, provided less restrictive leverage and coverage covenants thereafter, and permanently eliminated the minimum EBITDA covenant. The amendment provided for higher interest rates under the credit facility, with interest rates based on the Company's actual leverage ratio, ranging from 3.25% to 5.00% above the applicable LIBOR rate or, at the Company's option, from 2.00% to 3.75% above the applicable base rate.

As of June 27, 2010, the Company had an aggregate of \$69 million of outstanding indebtedness under its amended credit facility at a weighted average interest rate of 4.82%. Under the amended revolving loan commitment, the Company had approximately \$57.1 million of borrowings available under its revolving credit facility, net of outstanding letters of credit of approximately \$3.5 million. The Company is required to maintain certain financial covenants and is also subject to several restrictive covenants under its borrowings. The restrictive covenants include, but are not limited to, covenants that, subject to exceptions: (1) prohibit the Company and its subsidiaries from incurring additional indebtedness and from guaranteeing obligations of others; (2) prohibit the Company and its subsidiaries from creating, incurring,

assuming or permitting to exist any lien on or with respect to any property or asset; (3) limit the Company's ability and its subsidiaries' ability to enter into joint ventures, acquisitions, and other investments; (4) prohibit the Company and its subsidiaries from directly or indirectly creating or becoming liable with respect to any contingent liabilities; and (5) restrict the Company and its subsidiaries from directly or indirectly declaring, ordering, paying, or making any restricted junior

payments. The Company's obligations under the senior credit facility are guaranteed by each of its existing and future subsidiaries and are secured by substantially all of its assets and a pledge of the capital stock of its subsidiaries. Under this amendment, the Company is not required to submit a certificate of compliance until the fourth quarter of fiscal 2010.

**(5) Redeemable Convertible Preferred Stock**

The Company issued 25,000 shares of Preferred Stock in the private placement transaction described in Note 2 for \$23.2 million, net of approximately \$1.8 million in closing and issuance costs. The Preferred Stock is classified on the balance sheet as temporary shareholders' equity as of June 27, 2010 since the shares have certain conditions that allow the holder to redeem the Preferred Stock for cash and for which redemption is not solely within the control of the Company.

Each share of the Preferred Stock has an initial liquidation preference of \$1,000. The holders of the Preferred Stock are entitled to quarterly dividends accruing at a 10% annual rate payable on the following dates: January 1, April 1, July 1 and October 1. Any unpaid dividends are added to the liquidation preference and compound on the subsequent dividend payment dates. The Preferred Stock also has certain participation features that require additional Preferred Stock dividends in the event a cash dividend or other distribution in cash has been declared on the Company's common stock. The Company's credit agreement limits the amount of dividends the Company may pay annually to \$1.0 million. During the second fiscal quarter of 2010, Preferred Stock dividends of \$0.6 million were declared and accrued as a reduction of net income available to preferred and common shareholders. The Preferred Stock cash dividend was paid on July 1, 2010.

The Preferred Stock is also convertible, under certain circumstances, into the number of shares of the Company's common stock equal to the quotient of the liquidation preference, including accrued dividends, divided by the conversion price. The conversion price was initially set at \$2.90 per share, and is subject to change based on certain customary anti-dilution provisions. Using the liquidation preference of \$25.0 million as of June 27, 2010, a conversion of Preferred Stock into the Company's common stock would result in the issuance of 8,620,690 additional common shares. The Preferred Stock is convertible at any time, at the option of the holders. The Company has the option to convert the Preferred Stock, in whole or in part, after February 12, 2012 if the closing price of the Company's common stock equals or exceeds 225% of the then applicable conversion price for a period of 20 trading days over any 30 consecutive trading day period.

At the option of the Company, the Preferred Stock may be redeemed on or after February 12, 2015 without regard to the Company's stock price. The Company shall not be permitted to redeem less than all of the outstanding shares of the Preferred Stock if such partial redemption would result in the holder holding more than 0% and less than 5% of the Company's voting securities. At the option of the holders, the Preferred Stock may be redeemed on or after February 12, 2017. The redemption price per share will equal the liquidation preference, including any accrued dividends. In accordance with FASB Accounting Standards Codification (ASC) Topic 480-10-S99, the Company will accrete the carrying value of Preferred Stock to its redemption value of \$25 million from the date of issuance to the earliest redemption date, February 12, 2015. During the second fiscal quarter of 2010, the Preferred Stock carrying value increased \$0.1 million for the accretion in redemption value.

In the event of any liquidation, dissolution or winding up of the affairs of the Company, whether voluntary or involuntary, holders of the Preferred Stock are entitled to receive for each share, out of the assets of the Company or proceeds thereof (whether capital or surplus) available for distribution to shareholders of the Company, and after satisfaction of all liabilities and obligations to creditors of the Company, before any distribution of such assets or proceeds is made to or set aside for the holders of common stock, an amount equal to the greater of (i) the liquidation preference per share of the Preferred Stock plus accrued dividends and (ii) the per share amount of all cash and other property to be distributed in respect of the common stock such holder would have been entitled to had it converted such Preferred Stock immediately prior to the date fixed for such liquidation, dissolution or winding up of the Company.

The holders of shares of Preferred Stock are entitled to vote with the holders of the common stock on all matters submitted to a vote of stockholders of the Company, except as otherwise provided herein or by applicable law. Each holder of shares of Preferred Stock is entitled to the number of votes equal to the product (rounded down to the nearest number of whole shares) of one times the largest number of whole shares of common stock into which all shares of Preferred Stock held of record by such holder could then be converted at the record date for the determination of the stockholders entitled to vote on such matters or, if no such record date is established, at the date such vote is taken or any written consent of stockholders is first executed. In any case in which the holders of shares of Preferred Stock are entitled to vote as a separate series to the exclusion of the holders of the common stock, each holder of shares of Preferred Stock is entitled to one vote for each share of Preferred Stock held at the record date for the determination of the stockholders entitled to vote on such matters or, if no such record date is established, at the date such vote is taken or any written consent of shareholders is first executed. The holders of Preferred Stock have the right to veto certain actions of the Company that might dilute, or alter the rights of, the Preferred Stock.

In addition, for so long as BRS owns shares of Preferred Stock representing at least 5% of the total voting securities of the Company: (A) BRS, voting as a separate class to the exclusion of the holders of common stock, shall be entitled to elect a director to serve on the Company's Board, provided that such director is a current employee (and remains a current employee) of BRS, and (B) the Company shall not,

without the consent of BRS, increase the size of the Board of Directors to more than eight (8) persons.

**Table of Contents****(6) Stock-Based Employee Compensation**

During the second quarter of fiscal 2010, the Company issued 830,000 restricted shares to certain employees, executive officers and directors from available shares under its 2005 Equity Incentive Plan, as amended. The shares were issued with a grant date fair market value equal to \$4.31 per restricted share. The restricted share price was equal to the closing price of the stock on the date of the grants. For the director grantees, one-third of the restricted stock grant vests on each of the three anniversary dates following the grant date. For the employee and executive officer grantees, the entire stock grant vests on the third anniversary of the grant.

Under the 2000 Stock Option Plan, there are 53,777 shares of common stock issuable upon exercise of currently outstanding options as of June 27, 2010 and 675,766 shares available for future grants. No future grants are expected to be made under the 2000 Stock Option Plan.

Under the 2005 Equity Incentive Plan, as amended, there were 1,851,372 shares of common stock issuable upon exercise of currently outstanding options awards, as well as 1,118,000 of unvested restricted stock awards, as of June 27, 2010, and 442,483 shares available for future grants. Total stock compensation expense recognized for the twenty-six weeks ended June 27, 2010 and June 28, 2009 was \$0.8 million and \$1.2 million, respectively.

**(7) Earnings Per Share**

For the thirteen and twenty-six weeks ended June 27, 2010, basic earnings per common share is computed under the two-class method as provided in Earnings Per Share, FASB Accounting Standards Codification Topic 260 (Topic 260). Under the two-class method, a portion of net income is allocated to participating securities, such as the Company's Preferred Stock, and therefore is excluded from the calculation of basic earnings per share allocated to common shares. Diluted earnings per common share for thirteen and twenty-six weeks ended June 27, 2010 is computed by dividing the net income available to preferred and common shareholders for the period by the weighted average number of common and potential common shares outstanding during the period.

There were no participating securities for the thirteen and twenty-six weeks ended June 28, 2009 because the Company's Preferred Stock was not issued until 2010. Basic earnings per share was calculated by dividing net income by the weighted average number of common shares outstanding during the period, while diluted earnings per share was computed by dividing the net income for the period by the weighted average number of common and potential shares outstanding during the period.

For the thirteen and twenty-six weeks ended June 27, 2010, options to purchase 894,989, and 1,408,835 shares, respectively, of the Company's common stock at weighted average exercise prices of \$13.14 and \$9.95 per share, respectively, were not included in the calculation of weighted average shares for diluted earnings per share because their effects were anti-dilutive.

For the thirteen and twenty-six weeks ended June 28, 2009, options to purchase 1,565,459, and 1,664,363 shares, respectively, of the Company's common stock at weighted average exercise prices of \$10.62 and \$10.13 per share, respectively, were not included in the calculation of weighted average shares for diluted earnings per share because their effects were anti-dilutive.

The following table sets forth the computation of basic earnings per common share:

**(9) Marketing and Advertising**

Marketing and advertising expenses were \$2.9 million and \$4.1 million for the second quarter of fiscal 2010 and the second quarter of fiscal 2009, respectively. All advertising expenses are expensed as incurred.

**Table of Contents****(10) Restructuring**

The details of the restructuring charges are as follows:

	<b>One-time termination benefits</b>	<b>Lease obligations</b>	<b>Total restructuring</b>
Accrued restructuring as of December 27, 2009	\$ 6	\$ 2,885	\$ 2,891
Payments	(6)		(6)
Adjustments		(1,683)	(1,683)
Accrued restructuring as of June 27, 2010 (unaudited)	\$	\$ 1,202	\$ 1,202

The Company has accrued lease exit costs related to locations for which a lease was signed and the Company subsequently decided not to open a restaurant. The Company recorded a \$1.7 million reduction in accrued restructuring costs during the twenty-six weeks ended June 27, 2010. The reduction in the liability included a \$0.6 million correction of an immaterial prior year error in the first quarter of fiscal 2010 and a \$0.9 million release from liability by a developer in the second quarter of fiscal 2010. The remaining accrued restructuring balance of \$1.2 million is based on management's estimate of the fair value of the lease exit costs, and is included in other current liabilities on the accompanying condensed consolidated balance sheets. However, it is reasonably possible that factors could change in the near term that would result in a change in estimate.

**(11) Income Taxes**

The effective income tax rate from continuing operations for the quarter and twenty-six weeks ended June 27, 2010 was 29.1% and 27.4%, respectively, compared to an effective income tax rate of 12.0% and 17.1% for the quarter and twenty-six weeks ended June 28, 2009. The increase in the estimated annual effective tax rate is primarily attributable to a decrease in the impact of certain tax credits and deductions due to an increase in income before income tax. Income tax expense for the twenty-six weeks ended June 27, 2010 also includes a \$0.7 million income tax benefit for the correction of an immaterial error related to certain prior year tax credits.

The Company accounts for unrecognized tax benefits in accordance with the provisions of Income Taxes, FASB Accounting Standards Codification Topic 740 (Topic 740). As of June 27, 2010, the Company's gross unrecognized tax benefits totaled approximately \$0.9 million, of which \$0.6 million, if recognized, would impact the effective tax rate. As of December 27, 2009, the Company's gross unrecognized tax benefits totaled approximately \$0.8 million, of which \$0.5 million, if recognized, would impact the effective tax rate. The Company does not anticipate there will be any material changes in the Company's unrecognized tax benefits within the next 12 months. The Company's continuing practice is to recognize interest and penalties related to uncertain tax positions in income tax expense. As of June 27, 2010 and December 27, 2009, the Company had accrued approximately \$0.2 million for the payment of interest, which is included as a component of the unrecognized tax benefit noted above.

The Company files consolidated and separate income tax returns in the United States Federal jurisdiction, many state jurisdictions and Puerto Rico. With few exceptions, the Company is no longer subject to U.S. Federal income tax examinations for years before 2007 and is no longer subject to state and local or Puerto Rico income tax examinations by tax authorities for years before 2005.

**(12) Discontinued Operations**

During the third quarter of fiscal 2007, the Company was notified that the replacement tenant in the Manhattan-UN, New York, location was placed in default by the landlord and as a result, the Company resumed lease payments with respect to this property during the third quarter of fiscal 2008. Payments will range from \$0.1 million to \$0.2 million in the aggregate per fiscal quarter through September 2016. The Company will attempt to sublease the property in order to recover some or all of the amounts paid with respect to the lease. As of June 27, 2010, the Company maintained a contingent lease liability related to this property, included in other current liabilities on the accompanying condensed consolidated balance sheets. The Company accounted for the exit costs in accordance with the provisions of Exit or Disposal Cost Obligations, FASB Accounting Standards Codification Topic 420 (Topic 420), which requires that such costs be expensed in the periods whereby such costs are incurred. All of the losses incurred with respect to this location are included in discontinued operations in the accompanying consolidated statements of income.

## Edgar Filing: Ruths Hospitality Group, Inc. - Form 10-Q

During the second quarter of fiscal 2009, the Company made the decision to close the company-owned Ruth's Chris Steak House restaurant in Naples, Florida. As of June 27, 2010, the Company maintained a liability for lease exit costs, included in other current liabilities on the accompanying condensed consolidated balance sheets, in accordance with the provisions of Topic 420. All of the losses incurred with respect to this location are included in discontinued operations in the accompanying consolidated statements of income.

**Table of Contents**

The Company accounts for its closed restaurants in accordance with the provisions of Topic 360-10. Therefore, when a restaurant is closed, and the restaurant is either held for sale or abandoned, the restaurant's operations are eliminated from the ongoing operations. Accordingly, the operations of such restaurants, net of applicable income taxes, are presented as discontinued operations and prior period operations of such restaurants, net of applicable income taxes, are reclassified. The loss on discontinued operations for the quarter and twenty-six weeks ended June 27, 2010, included a \$1.1 million charge for a change in estimate of lease exit costs.

Discontinued operations consist of the following:

	13 Weeks Ending		26 Weeks Ending	
	June 28, 2009 (unaudited)	June 27, 2010 (unaudited)	June 28, 2009 (unaudited)	June 27, 2010 (unaudited)

**(13) Commitments and Contingencies**

The Company is subject to various claims, legal actions and other matters arising in the normal course of business. Management does not expect disposition of these matters to have a material adverse effect on the financial position, results of operations or liquidity of the Company.

**(14) Correction to Previously Reported Amounts**

The consolidated statements of income for the thirteen and twenty-six weeks ended June 28, 2009, have been revised to correct an immaterial error in the accounting for sales discounts, which should have been recorded as a reduction of sales instead of as operating expenses.

When reviewing the previously reported quarterly condensed consolidated statement of income in comparison to those reported in the Condensed Consolidated Statements of Income (unaudited) for the second quarter ended June 28, 2009, restaurant sales decreased by \$2.3 million, other operating income increased by \$0.3 million, restaurant operating expenses decreased by \$2.1 million, marketing and advertising increased by \$0.2 million and general and administrative expenses decreased by \$0.1 million for the thirteen weeks ended June 28, 2009.

When reviewing the previously reported quarterly condensed consolidated statement of income in comparison to those reported in the Condensed Consolidated Statements of Income (unaudited) for the twenty-six weeks ended June 28, 2009, restaurant sales decreased by \$5 million, other operating income increased by \$0.7 million, restaurant operating expenses decreased by \$4.7 million, marketing and advertising increased by \$0.5 million and general and administrative expenses decreased by \$0.1 million for the twenty-six weeks ended June 28, 2009.

The reclassifications had no impact on previously reported operating income, net income or earnings per share amounts for the fiscal quarter and twenty-six weeks ended June 28, 2009.

**(15) Subsequent Event**

The Company has evaluated subsequent events through the date the financial statements were issued and has determined that there were no subsequent events required to be disclosed.

annual effective rate for fiscal 2010 resulting primarily from an increase in income before income tax offset by a \$0.7 million tax benefit for a correction of an immaterial error related to certain prior year tax credits.

*Income from Continuing Operations.* Income from continuing operations increased \$5.7 million, or 88.4%, to \$12.1 million in the first twenty-six weeks of fiscal 2010 from \$6.4 million in the first twenty-six weeks of fiscal 2009.

*Discontinued Operations, net of Income Tax Benefit.* Losses from discontinued operations, net of income tax benefit, increased \$0.7 million to \$1.0 million in the first twenty-six weeks of fiscal 2010 compared to \$0.3 million in the first twenty-six weeks of fiscal 2009 primarily due to a charge in estimated accrued lease exit costs. These losses relate to our former operations in New York, New York, and Naples, Florida.

**Liquidity and Capital Resources**

Our principal sources of cash during the first twenty-six weeks of fiscal 2010 were net cash provided by operating activities and proceeds from a private placement transaction and rights offering (see Note 2 to the Financial Statements). Principal uses of cash during the first twenty-six weeks of fiscal 2010 included the construction of one Mitchell's Fish Market and the reduction of debt. We expect that our principal use of cash in the future will be for capital expenditures on existing restaurants and to reduce our levels of debt.

On February 12, 2010, the Company entered into a Second Amendment to First Amended and Restated Credit Agreement. The amendment to the credit agreement reduced the revolving loan commitment to \$129.6 million, extended the scheduled maturity of the credit agreement by two years, to February 2015, and provided the Company with a less restrictive set of covenants, which the Company believes will enhance its financial and operating flexibility. Specifically, the amendment provided for no financial covenant testing until the end of fiscal year 2010, provided less restrictive leverage and coverage covenants thereafter, and permanently eliminated the minimum EBITDA covenant. The amendment provided for higher interest rates under the credit facility, with interest rates based on the Company's actual leverage ratio, ranging from 3.25% to 5.00% above the applicable LIBOR rate or, at the Company's option, from 2.00% to 3.75% above the applicable base rate.

As of June 27, 2010, the Company had an aggregate of \$69 million of outstanding indebtedness under its amended and restated credit facility at a weighted average interest rate of 4.82%. Under the amended revolving loan commitment, the Company had approximately \$57.1 million of borrowings available under its revolving credit facility, net of outstanding letters of credit of approximately \$3.5 million.

The following table presents a summary of our net cash provided by (used in) operating, investing and financing activities:

	<b>26 Weeks Ending</b>	
	<b>June 28, 2009</b>	<b>June 27, 2010</b>
	<b>(unaudited)</b>	
<b>Net cash provided by (used in):</b>		
Operating activities \$	11,833	\$ 16,046
Investing activities	(2,019)	(2,318)
Financing activities	(12,555)	(11,547)
<b>Net decrease in cash and cash equivalents \$</b>	<b>(2,741)</b>	<b>\$ 2,181</b>

Net cash provided by operating activities was \$16.1 million in the first twenty-six weeks of fiscal 2010 compared to \$11.8 million provided in the first twenty-six weeks of fiscal 2009. The increase in net cash provided by operating activities was due primarily to an increase in net income and to changes in working capital.

Net cash used in investing activities was \$2.3 million in the first twenty-six weeks of fiscal 2010, compared to \$2.0 million used in the first 26 weeks of fiscal 2009. This increase was primarily due to the opening of a new Mitchell's Fish Market in June 2010.

Net cash used in financing activities was \$11.6 million in the first twenty-six weeks of fiscal 2010, compared to net cash used in financing activities of \$12.6 million in the first twenty-six weeks of fiscal 2009. This change in cash was primarily due to the servicing of debt in the first quarter of fiscal 2010 offset against the net proceeds of the private placement and rights offering (see Note 2 to the Financial Statements). We anticipate paying quarterly cash dividends on the Preferred Stock in fiscal 2010 to the extent permitted by our credit agreement. On April 1,

## Edgar Filing: Ruths Hospitality Group, Inc. - Form 10-Q

2010, we paid a Preferred Stock cash dividend of \$0.3 million, and on July 1, 2010, we paid a Preferred Stock cash dividend of \$0.6 million.

Capital expenditures totaled \$2.3 million in the first twenty-six weeks of fiscal 2010, compared to \$2.8 million in the first twenty-six weeks of fiscal 2009. Capital expenditures in the first twenty-six weeks of fiscal 2010 resulted from \$1.2 million in maintenance capital and \$1.1 million in restaurant construction. We anticipate capital expenditures in fiscal 2010 will total approximately \$5.0 million to \$6.0 million.

### **Off-Balance Sheet Arrangements**

As of June 27, 2010, we did not have any off-balance sheet arrangements.

### **Critical Accounting Policies and Estimates**

The preparation of our financial statements requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the periods presented. Our Annual Report on Form 10-K for the fiscal year ended December 27, 2009 includes a summary of the critical accounting policies that we believe are the most important to aid in the understanding our financial results. There have been no material changes to these critical accounting policies that impacted our reported amounts of assets, liabilities, revenues or expenses during the first twenty-six weeks of fiscal 2010.

## **ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

### **Interest Rate Risk**

The Company is exposed to market risk from fluctuations in interest rates. For fixed rate debt, interest rate changes affect the fair market value of such debt but do not impact earnings or cash flows. Conversely for variable rate debt, including borrowings under the Company's senior credit facility, interest rate changes generally do not affect the fair market value of such debt, but do impact future earnings and cash flows, assuming other factors are held constant. As of June 27, 2010, the Company had \$69 million of variable rate debt of which \$25 million has been economically converted to fixed rates through the use of interest rate swaps. Holding other variables constant (such as foreign exchange rates and debt levels), a hypothetical immediate one percentage point change in interest rates would be expected to have an impact on pre-tax earnings and cash flows for the second quarter of fiscal 2010 of approximately \$0.1 million.

The Company has an interest rate swap to manage its exposure on its debt facility. By using the interest rate swap to economically hedge exposures to changes in interest rates, the Company exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes the Company, which creates credit risk for the Company. When the fair value of a derivative contract is negative, the Company owes the counterparty and, therefore, it does not possess credit risk.

Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

### **Foreign Currency Risk**

In accordance with the Company's franchise agreements relating to the Company's international locations, it receives royalties from those franchisees in U.S. dollars, and therefore it believes that fluctuations in foreign exchange rates do not present a material risk to its operations.

### **Commodity Price Risk**

The Company is exposed to market price fluctuations in beef and other food product prices. Given the historical volatility of beef and other food product prices, this exposure can impact the Company's food and beverage costs. As the Company typically sets its menu prices in advance of its beef and other food product purchases, the Company cannot quickly take into account changing costs of beef and other food items. To the extent that the Company is unable to pass the increased costs on to its guests through price increases, the Company's results of operations would be adversely affected. In fiscal 2010, the Company has negotiated set pricing for approximately 50% of its prime beef requirements, which represents 25% of its beef purchases. The Company currently does not use financial instruments to hedge its risk to market price fluctuations in other food product prices.

### **Effects of Inflation**

Components of the Company's operations are subject to inflation and include food, beverage, lease and labor costs. The Company's leases require it to pay taxes, maintenance, repairs, insurance and utilities, all of which are subject to inflationary increases. The Company believes inflation has not had a material impact on its results of operations in recent years.

**ITEM 4. CONTROLS AND PROCEDURES**  
**Evaluation of disclosure controls and procedures**

Under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer, the Company conducted an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of June 27, 2010. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of June 27, 2010 to ensure that information required to be disclosed

in reports filed or submitted by the Company under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that information required to be disclosed by the Company is accumulated and communicated to the Company's management to allow timely decisions regarding the required disclosure.

### **Changes in internal control over financial reporting**

Except as discussed below, during the fiscal quarter ending June 27, 2010, there was no change in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that in the Company's judgment has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

In response to management's evaluation of the Company's internal control over financial reporting as of December 27, 2009, which is described in the Company's Form 10-K, the Company has (i) added an independent review by a third party with significant income tax experience over the income tax provision to ensure that items are properly accounted for within the provision and (ii) refined the current internal review process to incorporate an additional analytical review in an effort to detect and correct errors earlier in the quarter and year end reporting process. The Company will also continue to take other remedial measures to strengthen the Company's controls, including providing increased training for existing accounting professionals involved with the preparation and review of the income tax provision.
