QUESTIONS AND ANSWERS ABOUT THE PROPOSALS

The following are answers to some questions that you, as a stockholder of China Recycling Energy Corporation, may have regarding the other matters being considered at the Special Meeting. We urge you to read carefully the remainder of this proxy statement and the documents incorporated herein by reference because the information in this section does not provide all the information that might be important to you with respect to the other matters being considered at the Special Meeting. Additional important information is also contained in the annexes to and the documents incorporated by reference into this proxy statement.

Q: Why am I receiving this proxy statement?

A: The board of directors of CREG is soliciting your proxy to vote at the Special Meeting because you owned shares of our common stock at the close of business on October 12, 2018, the “**Record Date**” for the Special Meeting, and are therefore entitled to vote at the Special Meeting. This proxy statement, along with a proxy card or a voting instruction card, is being mailed to stockholders on or about October 15, 2018. CREG has made these materials available to you on the Internet, and CREG has delivered printed proxy materials to you or sent them to you by e-mail. This proxy statement summarizes the information that you need to know in order to cast your vote at the Special Meeting. You do not need to attend the Special Meeting in person to vote your shares of CREG common stock.

Q: When and where will the Special Meeting be held?

A: The Special Meeting will be held at 10:00 a.m., local time, on Wednesday, November 21, 2018, at the Company’s offices at 4/F, Tower C, Rong Cheng Yun Gu Building, Keji 3rd Road, Yanta District, Xi’an City, Shaanxi Province, 710075 China.

Q: On what matters will I be voting?

A: CREG’s stockholders are being asked to consider and vote upon the following proposals:

- (1) To approve an amendment to the Articles of Incorporation of CREG, as amended, which would increase the amount of authorized shares of common stock, par value \$0.001 per share, of CREG from 20,000,000 to 80,000,000 and authorize 35,000,000 preferred shares (the “Amendment”);
- (2) To approve the issuance of an aggregate 2,600,000 shares of CREG’s common stock, par value \$0.001 per share, and 17,376,950 shares of CREG’s preferred stock, par value \$0.001 per share, pursuant to an Equity Purchase Agreement between the Shanghai TCH Energy Technology Co., Ltd., CREG’s wholly-owned subsidiary, and Mr.

Jinhua Wang (the “Share Issuance”); and

- (3) To approve a proposal to grant discretionary authority to the Company’s Chief Executive Officer to adjourn the Special Meeting for the purpose of soliciting additional proxies to approval Proposals 1 and 2.

CREG will hold the Special Meeting to consider and vote upon these proposals. This proxy statement contains important information about matters to be acted upon at the Special Meeting. Stockholders should read it carefully. The vote of stockholders is important.

In order to complete the Share Issuance, CREG stockholders must vote to approve the Amendment and the Share Issuance, and all other requirements for the Company to complete the Share Issuance must be fulfilled.

Q: How does CREG's board of directors recommend that I vote on the proposals to be voted upon at the Special Meeting?

A: The CREG board of directors recommends that CREG stockholders vote or give instruction to vote:

“FOR” the amendment to the Articles of Incorporation of CREG, as amended, which would increase the amount of authorized shares of common stock, par value \$0.001 per share, of CREG from 20,000,000 to 80,000,000 and authorize 35,000,000 preferred shares (the “Amendment”);

“FOR” the issuance of an aggregate 2,600,000 shares of CREG's common stock, par value \$0.001 per share, and 17,376,950 shares of CREG's preferred stock, par value \$0.001 per share, pursuant to an Equity Purchase Agreement between the Shanghai TCH Energy Technology Co., Ltd., CREG's wholly-owned subsidiary, and Mr. Jinhua Wang; and

“FOR” the grant of discretionary authority to the Company's Chief Executive Officer to adjourn the Special Meeting for the purpose of soliciting additional proxies to approval Proposals 1 and 2.

Q: How do I vote?

A: After you have carefully read this proxy statement and have decided how you wish to vote your shares of CREG common stock, please vote your shares promptly.

Stockholders of Record

If your shares of CREG common stock are registered directly in your name with CREG's transfer agent, Securities Transfer Corporation, you are the stockholder of record of those shares and these proxy materials have been mailed to you by the Company. You may vote your shares by mail or in person at the Special Meeting. Your vote authorizes Guohua Ku, Chairman and Chief Executive Officer of the Company, and Adeline Gu, Chief Financial Officer and Secretary of the Company, as your proxy, with the power to appoint her substitute, to represent and vote your shares as you directed.

Beneficial Owners

If your shares of CREG common stock are held in a stock brokerage account, by a bank, broker or other nominee, you are considered the beneficial owner of shares held in street name and these proxy materials are being forwarded to you by your bank, broker or nominee that is considered the holder of record of those shares. As the beneficial owner, you

have the right to direct your bank, broker, trustee or nominee on how to vote your shares signing and returning a proxy card. Your bank, broker, trustee or nominee will send you instructions for voting your shares. Please note that you may not vote shares held in street name by returning a proxy card directly to CREG or by voting in person at the Special Meeting unless you provide a “legal proxy,” which you must obtain from your broker, bank or nominee. Further, brokers, banks and nominees who hold shares of CREG common stock on your behalf may not give a proxy to CREG to vote those shares without specific instructions from you.

For a discussion of the rules regarding the voting of shares held by beneficial owners, please see the question below entitled “If I am a beneficial owner of shares of CREG common stock, what happens if I don’t provide voting instructions? What is discretionary voting?”

Q: What vote is required to approve each proposal?

A: The approval of each of the proposals requires the affirmative vote of a majority of the shares represented at the meeting and entitled to vote on that proposal.

Q: How many votes do I and others have?

A: You are entitled to one vote for each share of CREG common stock that you held as of the Record Date. As of the close of business on the Record Date, there were outstanding shares of CREG common stock.

Q: How will our directors and executive officers vote on the proposals at the Special Meeting?

As of the Record Date, the directors and executive officers of CREG as a group owned and were entitled to vote shares of the common stock of the Company, representing approximately % of the outstanding shares of CREG A: common stock on that date. CREG expects that its directors and executive officers will vote their shares in favor of the each of the proposals to be presented at the Special Meeting, but none of the Company's directors or executive officers has entered into any agreement obligating any of them to do so.

Q: How many shares must be present to hold the Special Meeting?

The presence of at least one-third of all of our shares of common stock issued and outstanding and entitled to vote at the Special Meeting, present in person or represented by proxy, will constitute a quorum at the Special Meeting. Both abstentions and broker non-votes (discussed further below) are counted as present for determining the presence of a quorum. Broker non-votes, however, are not counted as shares present and entitled to be voted with A: respect to the matter on which the broker has not voted. Thus, broker non-votes will not affect the outcome of any of the matters to be voted on at the Special Meeting. Generally, broker non-votes occur when shares held by a broker for a beneficial owner are not voted with respect to a particular proposal because (1) the broker has not received voting instructions from the beneficial owner and (2) the broker lacks discretionary voting power to vote such shares.

Q: If I am a beneficial owner of shares of CREG common stock, what happens if I don't provide voting instructions? What is discretionary voting?

If you are a beneficial owner and do not provide the stockholder of record with voting instructions, your shares may A: constitute "broker non-votes." A "broker non-vote" occurs when a bank, broker or other holder of record holding shares for a beneficial owner does not vote on a particular proposal because that holder does not have discretionary voting power and has not received instructions from the beneficial owner.

Under applicable regulations, if a broker holds shares on your behalf, and you do not instruct your broker how to vote those shares on a matter considered "routine," the broker may generally vote your shares for you. A "broker non-vote" occurs when a broker has not received voting instructions from you on a "non-routine" matter, in which case the broker does not have authority to vote your shares with respect to such matter. Unless you provide voting instructions to a broker holding shares on your behalf, your broker may no longer use discretionary authority to vote your shares on any of the matters to be considered at the Special Meeting. Please vote your proxy so your vote can be counted.

Q: What will happen if I return my proxy card without indicating how to vote?

A:

If you sign and return your proxy card without indicating how to vote on any particular proposal, the CREG common stock represented by your proxy will be voted in favor of each such proposal. Proxy cards that are returned without a signature will not be counted as present at the Special Meeting and cannot be voted.

Q: Can I change my vote after I have returned a proxy or voting instruction card?

A: Yes. You can change your vote at any time before your proxy is voted at the Special Meeting. You can do this in one of four ways:

you can grant a new, valid proxy bearing a later date;

you can send a signed notice of revocation;

if you are a holder of record, you can attend the Special Meeting and vote in person, which will automatically cancel any proxy previously given, or you may revoke your proxy in person, but your attendance alone will not revoke any proxy that you have previously given; or

if your shares of CREG common stock are held in an account with a broker, bank or other nominee, you must follow the instructions on the voting instruction card you received in order to change or revoke your instructions.

If you choose either of the first two methods, you must submit your notice of revocation or your new proxy to the Corporate Secretary of CREG, as specified in this proxy statement, no later than the beginning of the Special Meeting. If your shares are held in street name by your broker, bank or nominee, you should contact them to change your vote.

Q: Do I need identification to attend the Special Meeting in person?

A: Yes. Please bring proper identification, together with proof that you are a record owner of shares of CREG common stock. If your shares are held in street name, please bring acceptable proof of ownership, such as a letter from your broker or an account statement stating or showing that you beneficially owned shares of CREG common stock on the record date. Acceptable proof of ownership is either (a) a letter from your broker stating that you beneficially owned CREG stock on the Record Date or (b) an account statement showing that you beneficially owned CREG stock on the Record Date.

Q: Are CREG stockholders entitled to appraisal rights?

A: No. CREG stockholders do not have appraisal rights in connection with the proposals under consideration at the Special Meeting.

Q: What do I do if I receive more than one set of voting materials?

A: You may receive more than one set of voting materials for the Special Meeting, including multiple copies of this proxy statement, proxy cards and/or voting instruction forms. This can occur if you hold your shares of common stock in more than one brokerage account, if you hold shares directly as a record holder and also in street name, or otherwise through a nominee, and in certain other circumstances. If you receive more than one set of voting materials, each should be voted and/or returned separately in order to ensure that all of your shares of common stock are voted.

Q: Whom should I call with questions about the Special Meeting or any of the other proposals to be presented at the Special Meeting?

A: CREG stockholders should call the Corporate Secretary at +86-29-8769-1098 with any questions. Standard long-distance charges may apply to any such calls.

Unless the context otherwise requires, the terms “CREG,” “the Company,” “we,” “us” and “our” in this prospectus refer to China Recycling Energy Corporation, our subsidiaries and consolidated entities. “China” and the “PRC” refer to the People’s Republic of China.

The Company

We are currently engaged in the recycling energy business, providing energy savings and recycling products and services. We are a leading developer of waste energy recycling projects for industrial applications in China, and we believe we are the only developer to use a Build-Operate-Transfer (“BOT”) model to provide energy saving and recovery facilities for multiple energy intensive industries in China. Our waste energy recycling projects allow customers which use substantial amounts of electricity to recapture previously wasted pressure, heat, and gas from their manufacturing processes to generate electricity. We currently offer waste energy recycling systems to companies for use in iron and steel, nonferrous metal, cement, coal and petrochemical plants. We construct our projects at our customer’s facility and the electricity produced is used on-site by the customer. While some of our competitors offer projects targeting one or two industries, we serve multiple industries.

We develop fully customized projects across several verticals to better meet customer’s energy recovery needs. Our waste pressure-to-energy solution primarily consists of the Blast Furnace Top Gas Recovery Turbine Unit (“TRT”), a system that utilizes high pressure gas emitted from the blast furnace top to drive turbine units and generate electricity. Our waste heat-to-energy solution primarily consists of heat power generation projects for applications in cement, steel, coking coal, and nonferrous metal industries, which collect the residual heat from various manufacturing processes, e.g. the entrance and exit ends of the cement rotary kilns, to generate electricity. Our waste gas-to-energy solution primarily consists of the Waste Gas Power Generation system (“WGPG”) and the Combined Cycle Power Plant (the “CCPP”). A WGPG system utilizes flammable waste gas from coal mining, petroleum exploitation, refinery processing or other sources as a fuel source to generate electricity through the use of a gas turbine. A CCPP system employs more than one power generating cycle to utilize the waste gas, which not only generates electricity by burning the flammable waste gas in a gas turbine (as a WGPG) but also uses the waste heat from burning the gas to make steam to generate additional electricity via a steam turbine.

We provide a clean-technology and energy-efficient solution aimed at reducing the air pollution and energy shortage problems in China. Our projects capture industrial waste energy to produce low-cost electricity, enabling industrial manufacturers to reduce their energy costs, lower their operating costs, and extend the life of primary manufacturing equipment. In addition, our waste energy recycling projects allow our industrial customers to reduce their reliance on China's centralized national power grid, which is prone to black-outs or brown-outs or is completely inaccessible from certain remote areas. Our projects generally produce lower carbon dioxide emissions and other pollutants, and are hence more environmentally friendly than other forms of power generation.

Since 2007, we have primarily used the BOT model to serve our customers. For each project, we design, finance, construct and install the waste energy recycling projects for our customers, operate the projects for five to twenty years, and then transfer the projects to the owners. The BOT model creates a win-win solution for both our customers and us. We provide the capital expenditure financing in exchange for attractive returns on each project; our customers can focus their capital resources on their core businesses, do not need to invest additional capitals to comply with government environmental regulations, reduce noise and emissions and reduce their energy costs. We in turn efficiently recapture our costs through the stream of lease payments.

We are in the process of transforming and expanding into an energy storage integrated solution provider. We plan to pursue disciplined and targeted expansion strategies for market areas that we currently do not serve. We are actively seeking and exploring opportunities to apply energy storage technologies to new industries or segments with high growth potential, including industrial and commercial complexes, large scale photovoltaic (PV) and wind power stations, remote islands without electricity, and smart energy cities with multi-energy supplies. By supporting and motivating all kinds of the electric power market to participant in resource development and utilization of demand response, we plan to provide services including peak shaving with compensation and frequency modulation. We intend to gradually form motor load performance for peak and low-hours, which will account for about 3% of the annual maximum power load on the demand side and to ensure the electricity supply and demand balance for situations of non-severe power shortages.

Our business is primarily conducted through our wholly-owned subsidiaries, Sifang Holdings Co., Ltd. (“Sifang”) and Shanghai Yinghua Financial Leasing Co., Ltd (“Yinghua”); Sifang’s wholly-owned subsidiaries, Huahong New Energy Technology Co., Ltd. (“Huahong”) and Shanghai TCH; Shanghai TCH’s wholly-owned subsidiary, Xi’an TCH Energy Technology Company, Ltd (“Xi’an TCH”), Xi’an TCH’s wholly-owned subsidiaries, Erdos TCH Energy Saving Development Co., Ltd (“Erdos TCH”) and Zhongxun Energy Investment (Beijing) Co., Ltd (“Zhongxun”); and Xi’an TCH’s 90% owned subsidiary, Xi’an Zhonghong New Energy Technology Co., Ltd. (“Zhonghong”). Shanghai TCH was established as a foreign investment enterprise in Shanghai under the laws of the PRC on May 25, 2004. Xi’an TCH was incorporated in Xi’an, Shaanxi Province under the laws of the PRC in November 2007. Erdos TCH was incorporated in April 2009. Huahong was incorporated in February 2009. Xi’an Zhonghong New Energy Technology Co., Ltd. was incorporated in July 2013. Xi’an TCH owns 90% of Zhonghong. Zhonghong provides energy saving solutions and services, including constructing, selling and leasing energy saving systems and equipment to customers. Zhongxun was incorporated in March 2014, and is a wholly-owned subsidiary of Xi’an TCH.

Our Projects

We design, finance, construct, operate and eventually transfer waste energy recycling projects to meet the energy saving and recovery needs of our customers. Our waste energy recycling projects use the pressure, heat or gas, which is generated as a byproduct of a variety of industrial processes, to create electricity. The residual energy from industrial processes, which was traditionally wasted, may be captured in a recovery process and utilized by our waste energy recycling projects to generate electricity instead of burning additional fuel and additional emissions. Among a wide variety of waste-to-energy technologies and solutions, we primarily focus on waste pressure to energy systems, waste heat to energy systems and waste gas power generation systems. We do not manufacture the equipment and materials that are used in the construction of our waste energy recycling projects. Rather, we incorporate standard power generating equipment into a fully integrated onsite project for our customers.

Waste Pressure to Energy Systems

TRT is a power generating system utilizing the exhaust pressure and heat from industrial processes in the iron, steel, petrochemical, chemical and non-ferrous metals industries, often from blast furnace gases in the metal production industries. Without TRT power systems, blast furnace gas is treated by various de-pressurizing valves to decrease its pressure and temperature before the gas is transmitted to end users. No electricity is generated during the process and noise and heat pollution is released. In a TRT system, the blast furnace gas produced during the smelting process is directed through the system to decrease its pressure and temperature. The released pressure and heat is then utilized to drive the turbine unit to generate electricity, which is then transmitted back to the producer. We believe our projects are superior to those of our competitors due to the inclusion of advanced dry-type de-dusting technology, joined turbine systems, and automatic power grid synchronization.

Waste Heat to Energy Systems

Waste heat to energy systems utilize waste heat generated in industrial production to generate electricity. The waste heat is trapped to heat a boiler to create steam and power a steam turbine. Our waste heat to energy system uses waste heat from cement production and from metal production. The projects can use about 35% of the waste heat generated by the cement kiln, and generate up to 50% of the electricity needed to operate the cement plant.

Waste Gas to Energy Systems

Our Waste Gas to Energy Systems primarily include WGPG systems and CCPP systems. WGPG uses the flammable waste gases emitted from industrial production processes such as blast furnace gas, coke furnace gas, and oil gas, to power gas-fired generators to create energy. A CCPP system employs more than one power generating cycle to utilize the waste gas, which is more efficient because it not only generates electricity by burning the flammable waste gas in a gas-fired generator (WGPG) but also uses the waste heat from burning the gas to make steam to generate additional electricity via a steam generator (CCPP).

THE SPECIAL MEETING

Date, Time and Place of the Special Meeting

The special meeting of the stockholders of CREG (the “Special Meeting”) will be held at 10:00 a.m., local time, on Wednesday, November 21, 2018, at the Company’s principal executive offices at 4/F, Tower C, Rong Cheng Yun Gu Building, Keji 3rd Road, Yanta District, Xi’an City, Shaanxi Province, 710075 China.

Matters to be Voted Upon at the Special Meeting

At the Special Meeting, CREG is asking its stockholders as of the record date of October 12, 2018 (the “Record Date”) to consider and vote upon proposals:

To approve an amendment to the Articles of Incorporation of CREG, as amended, which would increase the (1) amount of authorized shares of common stock, par value \$0.001 per share, of CREG from 20,000,000 to 80,000,000 and authorize 35,000,000 preferred shares (the “Amendment”);

- To approve the issuance of an aggregate 2,600,000 shares of CREG's common stock, par value \$0.001 per share, and 17,376,950 shares of CREG's preferred stock, par value \$0.001 per share, pursuant to an Equity Purchase Agreement between the Shanghai TCH Energy Technology Co., Ltd., CREG's wholly-owned subsidiary, and Mr. Jinhua Wang (the "Share Issuance"); and
- (2)
- (3) To approve a proposal to grant discretionary authority to the Company's Chief Executive Officer to adjourn the Special Meeting for the purpose of soliciting additional proxies to approval Proposals 1 and 2.

Record Date; Shares Entitled to Vote; Quorum

Stockholders will be entitled to vote or direct votes to be cast at the Special Meeting if they owned shares of CREG common stock on the Record Date. Stockholders will have one vote for each share of CREG common stock owned at the close of business on the Record Date. If your shares are held in "street name" or are in a margin or similar account, you should contact your broker to ensure that votes related to the shares you beneficially own are properly counted. On the Record Date, there were approximately shares of CREG common stock outstanding.

A quorum of CREG stockholders is necessary to hold a valid meeting. The presence of at least one-third of all of our shares of common stock issued and outstanding and entitled to vote at the Special Meeting, present in person or represented by proxy, will constitute a quorum at the Special Meeting. Abstentions and broker non-votes will count as present for the purposes of establishing a quorum.

Vote Required; Abstentions and Broker Non-Votes

The approval of each of the proposals require the affirmative vote of a majority of the shares represented at the meeting and entitled to vote on that proposal. Abstentions and broker non-votes will have the same effect as a vote "against" each of the proposals.

Shares Held by CREG's Directors and Executive Officers

As of the Record Date, the directors and executive officers of CREG as a group owned and were entitled to vote shares of the common stock of the Company, representing approximately % of the outstanding shares of CREG common stock on that date. CREG expects that its directors and executive officers will vote their shares in favor of each of the proposals, but none of the Company's directors or executive officers has entered into any agreement obligating any of them to do so.

Voting of Proxies

If your shares are registered in your name with our transfer agent, Securities Transfer Corporation, you may cause your shares to be voted by returning a signed proxy card, or you may vote in person at the Special Meeting. Based on your proxy cards, the proxy holders will vote your shares according to your directions.

If you plan to attend the Special Meeting and wish to vote in person, you will be given a ballot at the meeting. If your shares are registered in your name, you are encouraged to vote by proxy even if you plan to attend the Special Meeting in person. If you attend the Special Meeting and vote in person, your vote by ballot will revoke any proxy previously submitted.

Voting instructions are included on your proxy card. All shares represented by properly executed proxies received in time for the Special Meeting will be voted at the Special Meeting in accordance with the instructions of the stockholder. In the event that properly executed proxies do not contain voting instructions for any given proposal, the CREG common stock represented by such proxies will be voted in favor of each such proposal.

If your shares are held in "street name" through a broker, bank or other nominee, you may vote through your broker, bank or other nominee by completing and returning the voting form provided by your broker, bank or other nominee. If you do not return your bank's, broker's or other nominee's voting form or do not attend the Special Meeting and vote in person with a proxy from your broker, bank or other nominee, it will have the same effect as if you voted "AGAINST" the proposals presented for a vote.

Revocability of Proxies

If you are a stockholder of record, you may change your vote or revoke your proxy at any time before it is voted at the Special Meeting by:

Signing another proxy card with a later date and returning it to us prior to the Special Meeting; or

Attending the Special Meeting and voting in person.

Please note that to be effective, your new proxy card, internet or telephonic voting instructions or written notice of revocation must be received by us prior to the Special Meeting. If you have submitted a proxy, your appearance at the Special Meeting, in the absence of voting in person or submitting an additional proxy or revocation, will not have the effect of revoking your prior proxy.

If you hold your shares of common stock in “street name,” you should contact your bank, broker or other nominee for instructions regarding how to change your vote. You may also vote in person at the Special Meeting if you obtain a valid “legal” proxy from your bank, broker or other nominee. Any adjournment, recess or postponement of the Special Meeting for the purpose of soliciting additional proxies will allow CREG stockholders who have already sent in their proxies to revoke them at any time prior to their use at the Special Meeting as adjourned, recessed or postponed.

Board of Directors' Recommendation

After careful consideration, the Company's board of directors recommends that you vote or give instruction to vote:

“**FOR**” the amendment to the Articles of Incorporation of CREG, as amended, which would increase the amount of authorized shares of common stock, par value \$0.001 per share, of CREG from 20,000,000 to 80,000,000 and authorize 35,000,000 preferred shares (the “Amendment”);

“**FOR**” the issuance of an aggregate 2,600,000 shares of CREG's common stock, par value \$0.001 per share, and 17,376,950 shares of CREG's preferred stock, par value \$0.001 per share, pursuant to an Equity Purchase Agreement between the Shanghai TCH Energy Technology Co., Ltd., CREG's wholly-owned subsidiary, and Mr. Jinhua Wang; and

“**FOR**” the grant of discretionary authority to the Company's Chief Executive Officer to adjourn the Special Meeting for the purpose of soliciting additional proxies to approval Proposals 1 and 2.

Solicitation of Proxies

The expense of soliciting proxies in the enclosed form will be borne by CREG. Proxies may also be solicited by some of our directors, officers and employees, personally or by telephone, facsimile, e-mail or other means of communication. No additional compensation will be paid for such services.

Householding of Special Meeting Materials

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy materials with respect to two or more stockholders sharing the same address by delivering a single set of proxy materials. This process, which is commonly referred to as “householding,” potentially results in extra convenience for stockholders and cost savings for companies. The Company has adopted the SEC-approved “householding” procedure.

Upon written or oral request, the Company will deliver promptly a separate copy of the Notice of Special Meeting of Stockholders this Proxy Statement, the 2017 Annual Report on Form 10-K and any other documents incorporated herein by reference to any stockholder at a shared address to which the Company delivered a single copy of any of these documents. If, at any time, you no longer wish to participate in “householding” and would prefer to receive a

separate set of proxy materials, you may:

Send a written request to the Company's Corporate Secretary at 4/F, Tower C, Rong Cheng Yun Gu Building, Keji 3rd Road, Yanta District, Xi'an City, Shaanxi Province, 710075 China, or call +86-29-8769-1097 (standard long-distance calling charges may apply) if you are a stockholder of record; or

Notify your broker, if you hold your common shares under street name.

If you are receiving more than one copy of the proxy materials at a single address and would like to participate in householding, please contact the Company using the mailing address and phone number above. Stockholders who hold shares in street name may contact their brokerage firm, bank, broker-dealer or other similar organization to request information about householding.

PROPOSAL 1 – AMENDMENT TO THE ARTICLES OF INCORPORATION

The Company is asking you to approve the Amendment to the Articles of Incorporation of CREG, which would (i) increase the amount of authorized shares of common stock, par value \$0.001 per share ("Common Stock"), of CREG from 20,000,000 to 80,000,000 shares, and (ii) authorize 35,000,000 shares of preferred stock, par value \$0.001, the rights of which may be designated from time to time by the Company's Board of Directors. A copy of the Amendment is included as Annex A to this proxy statement.

Effects of the Increase in Authorized Shares of Common Stock

Potential uses of the additional authorized shares of Common Stock may include public or private offerings, conversions of convertible securities, issuance of stock or stock options to employees, acquisition transactions and other general corporate purposes. Increasing the authorized number of shares of the Common Stock will give us greater flexibility and will allow the Company to issue such shares, in most cases, without the expense or delay of seeking stockholder approval. The Company may issue shares of its Common Stock in connection with financing transactions and other corporate purposes which the Board of Directors believes will be in the best interest of the Company's stockholders. The additional shares of Common Stock will have the same rights as the presently authorized shares, including the right to cast one vote per share of Common Stock. Although the authorization of additional shares will not, in itself, have any effect on the rights of any holder of our Common Stock, the future issuance of additional shares of Common Stock (other than by way of a stock split or dividend) would have the effect of diluting the voting rights, and could have the effect of diluting earnings per share and book value per share, of existing stockholders.

Effects of Authorizing Shares of Preferred Stock

The Amendment will permit our Board of Directors to issue up to 35,000,000 shares of preferred stock, par value \$0.001 per share (the "Preferred Stock"), without further action by stockholders, with any rights, preferences and privileges as they may designate, including the right to approve an acquisition or other change of control. Potential uses of newly authorized Preferred Stock may include public or private offerings, conversions of convertible securities, issuance of stock or stock options to employees, acquisition transactions and other general corporate purposes. Authorizing the Preferred Stock will give us greater flexibility and will allow the Company to issue such shares, in most cases, without the expense or delay of seeking stockholder approval. The Company may issue shares of its Preferred Stock in connection with financing transactions and other corporate purposes which the Board of Directors believes will be in the best interest of the Company's stockholders. Although the authorization of the Preferred Stock will not, in itself, have any effect on the rights of any holder of our Common Stock, the future issuance of shares of Preferred Stock (other than by way of a stock split or dividend) could have the effect of diluting the voting rights, and could have the effect of diluting earnings per share and book value per share, of existing stockholders.

The Company anticipates that, following the approval of the Company's stockholders of this Proposal 1 and Proposal 2 below, its Board of Directors will designate a series of preferred stock to effect the share issuance described in Proposal 2 below. Such series of preferred stock will not have voting rights, but will have preferential dividend rights to participate in and receive a 15% premium on a per share basis for any dividends declared and paid by the Company on its Common Stock. The holder of the preferred shares (the "Holder") will have the right to convert the preferred shares into shares of Common Stock on a 1:1 basis after the six month anniversary of the issuance of the preferred shares, but the Holder may only exercise such conversion right to the extent that, after giving effect to the issuance of Common Stock after such conversion, the Holder would beneficially own less than 20% of the Company's issued and

outstanding Common Stock.

Dissenter's Rights

Our stockholders have no right under applicable state law, our Articles of Incorporation, as amended, or our Fourth Amended and Restated Bylaws to dissent from this Proposal 1.

Required Vote

Approval of the Amendment requires a quorum to be present and an affirmative vote of a majority of our common stock voted at the Special Meeting. Adoption of the Amendment is not conditioned upon the adoption of any of the other proposals.

CREG'S BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT CREG'S STOCKHOLDERS VOTE "FOR" THE APPROVAL OF THE AMENDMENT TO CREG'S ARTICLES OF INCORPORATION.

PROPOSAL 2 – ISSUANCE OF COMMON STOCK AND PREFERRED STOCK IN EQUITY PURCHASE TRANSACTION

Background

The key terms of the equity acquisition agreement are summarized below. A copy of the equity purchase agreement is attached as an exhibit to this proxy, and you are encouraged to review the full text of such agreement. The descriptions set forth below are not complete and are qualified in their entirety by reference to the full text of the equity purchase agreement filed herewith.

The Equity Purchase Transaction

On September 30, 2018, Shanghai TCH Energy Technology Co., Ltd. (“Xi’an TCH”), a wholly-owned subsidiary of the Company, entered into an Equity Purchase Agreement (the “Purchase Agreement”) with Mr. Jihua Wang (“Seller”), pursuant to which Xi’an TCH will acquire 20% of the outstanding equity interests (the “Acquired Interests”) of Xi’an Xinhuan Energy Co., Ltd. (“Xinhuan”).

Xinhuan was established in 2005, with its manufacturing base located in Xinfeng industrial park, Lintong district, Xi’an (covering an area of more than 100 mu, with workshops covering over 20,000 square meters). Since its establishment, Xinhuan has been focused on energy conservation and environmental protection, and has engaged in industrial waste heat power generation, new energy research and development, the production and engineering of complete sets of equipment, engineering design, engineering general contracting, investment and operating, and advisory services. Xinhuan’s clients cover a variety of industries, including metallurgy, electric power, building materials, and chemical industries with hundreds of energy saving projects and emissions reduction in several provinces and autonomous regions of China. Xinhuan owns design and manufacturing qualifications for A-class boilers, class one and two qualifications for pressure vessels, a C-class design qualification of power industry, a class three qualification of power engineering construction and a class two qualification for electromechanical installation and construction, as well as six patents and core technologies with independent intellectual property rights.

Xinhuan has the technology to integrate core equipment for energy storage systems and the capacity for the battery PACK production line. In the next three years, Xinhuan plans to build a PACK production line with an annual output of 3GWH to fully meet its energy storage project demands and expand into the international market. The energy storage management system developed by Xinhuan has been gradually put into use in existing projects. Xinhuan’s development and use of PCS, a battery energy control management system (BMS) and a smart energy management system (EMS) of the battery inverter management system of the energy storage power station shows that Xinhuan has

formed a complete set of core technology for energy storage management that will ensure the smooth development of its energy storage business. Further, Xinhuan has put its intelligent energy cloud platform into operation, which has powerful abilities to manage and make data compatible. The intelligent energy cloud platform can not only be used in energy storage projects to achieve timely and efficient management of unattended energy storage power stations, but also can be used in the distributed generation stations of new energies such as wind power, photovoltaic project docking, as well as realizing the effective combined control for large thermoelectric and hydropower stations. The platform could also build the foundation for the management of efficient energy storage power stations and eventually become the only comprehensive energy management service platform for various energies.

Pursuant to the Purchase Agreement, Xi'an TCH will purchase the Acquired Interests for an aggregate purchase price of RMB 320 million (approximately \$46.72 million) (the "Purchase Price"), which will be paid as follows: (i) in cash in the amount of RMB 60 million (approximately \$8.76 million); (ii) in the form of 2.6 million shares of the Company's Common Stock using a value of \$1.90 per share; and (iii) in the form of 17,376,950 shares of the Company's preferred stock using a value of \$1.90 per share, which such class of stock has not yet been authorized or designated. The preferred shares will have no voting rights but will have preferential dividend rights to participate in and receive a 15% premium on a per share basis for any dividends declared and paid by the Company on its Common Stock. The holder of the preferred shares (the "Holder") will have the right to convert the preferred shares into shares of the Company's Common Stock on a 1:1 basis after the six month anniversary of the issuance of the preferred shares, but the Holder may only exercise such conversion right to the extent that, after giving effect to the issuance of Common Stock after such conversion, the Holder would beneficially own less than 20% of the Company's issued and outstanding Common Stock.

The payment of the Purchase Price in the form of the 2.6 million shares of Common Stock and 17,376,950 shares of the Company's preferred stock (the "Share Payment") is contingent on the Company receiving stockholder approval for the Share Payment, and to authorize the preferred shares and increase the number of authorized shares of Common Stock, as further described in Proposal 1. The shares of common and preferred stock subject to the Share Payment will be sold and issued pursuant to the exemption from registration provided by Regulation S promulgated under the Securities Act of 1933, as amended. In the event that the Share Payment and other matters are not approved at the Special Meeting, as may be adjourned, the parties to the Purchase Agreement will negotiate another form of payment for the remaining portion of the Purchase Price.

The parties to the Purchase Agreement agreed to complete the transactions contemplated thereby within 60 days of the date of the Purchase Agreement or upon the approval of the stockholders of the Company, whichever comes later, and Seller agreed to various restrictions on, and covenants in relation to, its activities pending the completion of the sale of the Acquired Interests. The Purchase Agreement also contains customary representations and warranties, and covenants regarding the parties' cooperation.

We are seeking stockholder approval to issue 2,600,000 shares of our Common Stock and 17,376,950 shares of preferred stock to consummate the Purchase Agreement (the "Share Issuance"). If stockholder approval of Proposal 1 described herein and the Share Issuance are obtained at the Special Meeting, the Share Issuance is expected to occur promptly after the Special Meeting.

THIS PROXY STATEMENT IS NEITHER AN OFFER TO SELL NOR A SOLICITATION OF AN OFFER TO BUY ANY OF OUR SECURITIES. THE SECURITIES REFERRED TO IN THIS PROXY STATEMENT HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR ANY STATE SECURITIES LAWS, AND MAY NOT BE OFFERED OR SOLD ABSENT SUCH REGISTRATION UNDER THE SECURITIES ACT AND IN ACCORDANCE WITH APPLICABLE STATE SECURITIES LAWS OR AN EXEMPTION FROM THE REGISTRATION REQUIREMENTS THEREOF.

Board of Directors Recommendation

The Board of Directors believes the approval of this Proposal 2 by our stockholders is in the best interests of the Company and our stockholders. The Board of Directors believes that the consummation of the Purchase Agreement will enhance the Company's ability to develop energy storage technology and increase its presence in that market. To the extent that the Company is unable to consummate the Purchase Agreement because this Proposal 2 is not approved, the Board of Directors believes that the Company might lose this valuable potential acquisition and expansion opportunity and may not be able to find comparable opportunities on as favorable terms.

Reason for Stockholder Approval

Our Common Stock is listed on The NASDAQ Capital Market, and, as such, we are subject to the NASDAQ Marketplace Rules, including NASDAQ Listing Rule 5635. NASDAQ Listing Rule 5635(d) requires stockholder approval prior to the sale, issuance or potential issuance by the issuer of common stock (or securities convertible into or exercisable common stock) equal to 20% or more of the common stock or 20% or more of the voting power outstanding before the issuance for less than the greater of book or market value of the stock, in connection with a transaction other than a public offering. If the Share Issuance occurs, the total number of shares of our Common Stock sold pursuant to the Share Purchase Agreement may exceed 20% of the total number of shares of our Common Stock issued and outstanding on the date on which the Share Purchase Agreement was executed. As such, we are seeking stockholder approval for such transactions pursuant to NASDAQ Listing Rule 5635(d).

Overall Effect of the Proposal

If approved, this Proposal 2 would result in an increase by 2,600,000 shares in the number of shares of our Common Stock outstanding, and, as a result, current stockholders who are not participating in the Purchase Agreement would own a smaller percentage of our outstanding Common Stock and, accordingly, a smaller percentage interest in the voting power, liquidation value and book value of our Common Stock. The sale or resale of any of our Common Stock issued pursuant to the Purchase Agreement could cause the market price of our Common Stock to decline. Additionally, the proposed issuance of the 17,376,950 shares of preferred stock will give the holder of such preferred shares preferential dividend and liquidation rights. If the shares of preferred stock are converted into shares of our Common Stock, current stockholders would own a smaller percentage of our outstanding Common Stock and, accordingly, a smaller percentage interest in the voting power, liquidation value and book value of our Common Stock

This approval would not limit our ability to engage in a public offering, as defined by NASDAQ, or to issue or sell a number of shares of our Common Stock (including shares issuable upon conversion or exercise of convertible debt, warrants or other securities exercisable for or convertible into our Common Stock) that is less than 20% of the outstanding shares on terms that might or might not be similar to those in this Proposal 2.

Vote Required

The affirmative vote of a majority of all of the votes present or represented and entitled to vote at the Special Meeting is required to approve this Proposal 2.

CREG'S BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT CREG'S STOCKHOLDERS VOTE "FOR" THE SHARE ISSUANCE.

PROPOSAL 3 – GRANT OF DISCRETIONARY AUTHORITY TO ADJOURN THE SPECIAL MEETING

Although it is not expected, the Special Meeting may be adjourned for the purpose of soliciting additional proxies. Any such adjournment of the Special Meeting may be made without notice, other than by the announcement made at the Special Meeting, by approval of the holders of a majority of the shares of our Common Stock present in person or by proxy and entitled to vote at the Special Meeting, whether or not a quorum exists. We are soliciting proxies to grant discretionary authority to the Company’s Chief Executive Officer to adjourn the Special Meeting, if necessary, for the purpose of soliciting additional proxies in favor of Proposals 1 and 2. The Chief Executive Officer will have the discretion to decide whether or not to use the authority granted to such person pursuant to this Proposal 3 to adjourn the Special Meeting.

Vote Required

The affirmative vote of a majority of all of the votes present or represented and entitled to vote at the Special Meeting is required to approve this Proposal 3.

CREG’S BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT CREG’S STOCKHOLDERS VOTE “FOR” THE GRANT OF DISCRETIONARY AUTHORITY TO ADJOURN THE SPECIAL MEETING.
