August 04, 2017

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-37537

Houlihan Lokey, Inc.
(Exact name of registrant as specified in its charter)

Delaware 95-2770395
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification Number)

10250 Constellation Blvd.

5th Floor

Los Angeles, California 90067

(Address of principal executive offices) (Zip Code)

(310) 788-5200

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Edgar Filing: HOULIHAN LOKEY, INC. - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of August 3, 2017, the registrant had 24,834,822 shares of Class A common stock, \$0.001 par value per share, and 42,081,991 shares of Class B common stock, \$0.001 par value per share, outstanding.

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

(1) BACKGROUND

Houlihan Lokey, Inc. ("Houlihan Lokey" or "HL, Inc." also referred to as the "Company," "we," "our," or "us") is a Delaware corporation that controls the following primary subsidiaries:

Houlihan Lokey Capital, Inc., a California corporation ("HL Capital, Inc."), is a wholly owned direct subsidiary of HL, Inc. HL Capital, Inc. is registered as a broker-dealer under Section 15(b) of the Securities Exchange Act of 1934 and a member of the Financial Industry Regulatory Authority, Inc.

Houlihan Lokey Financial Advisors, Inc., a California corporation ("HL FA, Inc."), is a wholly owned direct subsidiary of HL, Inc.

Houlihan Lokey EMEA, LLP, a limited liability partnership registered in England ("HL EMEA, LLP."), is an indirect subsidiary of HL, Inc. HL EMEA, LLP is regulated by the Financial Conduct Authority in the United Kingdom ("U.K.).

On August 18, 2015, the Company successfully completed an initial public offering ("IPO") of its Class A common stock.

Prior to a corporate reorganization that was consummated immediately prior to the closing of the IPO, the Company was incorporated in California as Houlihan Lokey, Inc., a California corporation ("HL CA"), and was a wholly owned indirect subsidiary of Fram Holdings, Inc., a Delaware corporation ("Fram"), which, in turn, was a majority owned subsidiary of ORIX USA Corporation, a Delaware corporation ("ORIX USA"), with the remaining minority interest being held by Company employees ("HL Holders"). ORIX USA and the HL Holders held their interests in HL CA indirectly through their ownership of Fram. On July 24, 2015, HL CA merged with and into HL, Inc., with HL, Inc. as the surviving entity. In connection with the IPO, the HL Holders deposited their shares of HL, Inc. Class B common stock into a voting trust (the "HL Voting Trust") and own such common stock through the HL Voting Trust. Houlihan Lokey has separated from Fram and as a result, HL, Inc. common stock is held directly by ORIX USA (through ORIX HLHZ Holding, LLC, its wholly owned subsidiary), the HL Voting Trust, for the benefit of the HL Holders, non-employee directors, and public shareholders.

In addition, prior to the consummation of the IPO, the Company distributed to its existing owners a dividend of \$270.0 million, consisting of (i) a short-term note in the aggregate amount of \$197.2 million, which was repaid immediately after the consummation of the IPO, and was allocated \$94.5 million to ORIX USA and \$102.7 million to the HL Holders, (ii) a note to ORIX USA in the amount of \$45.0 million (see note 9), and (iii) certain of our non-operating assets to certain of the HL Holders (consisting of non-marketable minority equity interests in four separate businesses that ranged in carrying value from \$2.5 million to \$11.0 million, and were valued in the aggregate at approximately \$22.8 million as of June 30, 2015, together with \$5.0 million in cash to be used to complete a potential additional investment and in the administration of these assets in the future. All issued and outstanding Fram shares were converted to HL, Inc. common stock at a ratio of 10.425 shares for each share of Fram stock. Immediately following the IPO, there were two classes of authorized HL, Inc. common stock: Class A common stock and Class B common stock. The rights of the holders of Class A common stock and Class B common stock are identical, except with respect to voting and conversion rights. Each share of Class A common stock is entitled to one vote per share, and each share of Class B common stock is entitled to ten votes per share. Each share of Class B common stock may be converted into one share of Class A common stock at the option of its holder and will be automatically converted into one share of Class A common stock upon transfer thereof, subject to certain exceptions. As of June 30, 2017, there were 23,380,744 Class A shares held by the public, of which 24,250 and 1,500,000 Class A shares were held by non-employee directors and ORIX USA, respectively, 30,365,367 Class B shares held by the HL Voting Trust, and 13,210,331 Class B shares held by ORIX USA.

The Company did not receive any proceeds from the sale of its Class A common stock in the IPO. Expenses related to the corporate reorganization and IPO recorded in the consolidated statements of comprehensive income include the following:

\$3,570 and \$3,505 of compensation expenses associated with the amortization of restricted stock granted in connection with the IPO for the three-month periods ended June 30, 2017 and 2016, respectively; amortization expense of restricted stock granted in connection with the IPO is being recognized over a four and one-half year vesting period; and

Table of Contents

HOULIHAN LOKEY, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

\$2,744 and \$3,025 of compensation expenses associated with the accrual of certain deferred cash payments granted in connection with the IPO for the three-month periods ended June 30, 2017 and 2016, respectively; accrual expense of deferred cash payments granted in connection with the IPO is being recognized over a four and one-half year vesting period.

On February 14, 2017, pursuant to a registered underwritten public offering, we issued and sold 6,000,000 shares of our Class A common stock and certain of our former and current employees and members of our management (the "Selling Stockholders") sold 2,000,000 shares of our Class A common stock, in each case, at a price to the public of \$29.25 per share (the "Follow-on Offering"). On March 15, 2017, we issued and sold an additional 900,000 shares of Class A common stock and the Selling Stockholders sold an additional 300,000 shares of Class A common stock in connection with the underwriters' exercise in full of their option to purchase additional shares in the Follow-on Offering.

In connection with, and prior to, the Follow-on Offering, on February 6, 2017, we entered into a Forward Share Purchase Agreement (the "Forward Share Purchase Agreement"), with an indirect wholly owned subsidiary of ORIX USA pursuant to which we agreed to repurchase from ORIX USA on April 5, 2017 the number of shares of our Class B common stock equal to the number of shares of our Class A common stock sold by us in the Follow-on Offering (including any shares sold upon the exercise by the underwriters of their option to purchase additional shares of our Class A common stock) for a purchase price per share equal to the public offering price in the Follow-on Offering less underwriting discounts and commissions. The cash proceeds from the Follow-on Offering that were used to consummate the purchase pursuant to the Forward Share Purchase Agreement were held in an escrow account as of March 31, 2017 and presented as restricted cash as discussed in note 2. On April 5, 2017 we settled the transaction provided for in the Forward Share Purchase Agreement and acquired 6,900,000 shares of Class B common stock from ORIX USA using the net proceeds we received from the Follow-on Offering. In accordance with the terms of the Forward Share Purchase Agreement, the purchase price per share was reduced by the per share amount of the dividend paid to ORIX USA on the shares of our Class B common stock subject to the Forward Share Purchase Agreement prior to the settlement of such transaction. As the Forward Share Purchase Agreement required physical settlement by purchase of a fixed number of shares in exchange for cash, the 6,900,000 shares that were purchased are excluded from the Company's calculation of basic and diluted earnings per share in the Company's financial statements for the year ended March 31, 2017. In addition, as the agreement provides for the refund of any dividends paid during the term on the underlying Class A common stock, such shares are not classified as participating securities and the Company does not apply the two-class method for calculating its earnings per share.

The Company offers financial services and financial advice to a broad clientele located throughout the United States of America, Europe, and the Asia-Pacific region. The Company has U.S. offices in Los Angeles, Newport Beach, San Francisco, Chicago, New York City, Minneapolis, McLean (Virginia), Dallas, Houston, Miami, and Atlanta as well as foreign offices in London, Paris, Frankfurt, Madrid, Amsterdam, Tokyo, Hong Kong, and Beijing. Together, the Company and its subsidiaries form an organization that provides financial services to meet a wide variety of client needs. The Company concentrates its efforts toward the earning of professional fees with focused services across the following three business segments:

Corporate Finance provides general financial advisory services in addition to advice on mergers and acquisitions and capital markets offerings. We advise public and private institutions on a wide variety of situations, including buy-side and sell-side transactions, as well as leveraged loans, private mezzanine debt, high-yield debt, initial public offerings, follow-ons, convertibles, equity private placements, private equity, and liability management transactions, and advise financial sponsors on all types of transactions. The majority of our Corporate Finance revenues consists of fees paid upon the successful completion of the transaction or engagement ("Completion Fees"). A Corporate Finance transaction can fail to be completed for many reasons that are outside of our control. In these instances, our fees are

generally limited to the fees paid at the time an engagement letter is signed ("Retainer Fees") and in some cases fees paid during the course of the engagement ("Progress Fees") that may have been earned.

Financial Restructuring provides advice to debtors, creditors and other parties-in-interest in connection with recapitalization/deleveraging transactions implemented both through bankruptcy proceedings and through out-of-court exchanges, consent solicitations or other mechanisms, as well as in distressed mergers and acquisitions and capital markets activities. As part of these engagements, our Financial Restructuring business segment offers a wide range of advisory services to our clients, including: the structuring, negotiation, and confirmation of plans of reorganization; structuring and analysis of exchange offers; corporate viability assessment; dispute resolution and expert testimony; and procuring debtor in possession financing. Although atypical, a Financial Restructuring transaction can fail to be completed for many reasons that are outside of our control. In these instances, our fees are generally limited to the initial Retainer Fees and/or Progress Fees.

HOULIHAN LOKEY, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

Financial Advisory Services primarily provides valuations of various assets, including: companies; illiquid debt and equity securities; and intellectual property (among other assets and liabilities). These valuations are used for financial reporting, tax reporting, and other purposes. In addition, our Financial Advisory Services business segment renders fairness opinions in connection with mergers and acquisitions and other transactions, and solvency opinions in connection with corporate spin-offs and dividend recapitalizations, and other types of financial opinions in connection with other transactions. Also, our Financial Advisory Services business segment provides dispute resolution services to clients where fees are usually based on the hourly rates of our financial professionals. Lastly, our Financial Advisory Services business segment provides strategic consulting services to clients where fees are either fixed or based on the hourly rates of our consulting professionals. Unlike our Corporate Finance or Financial Restructuring segments, the fees generated in our Financial Advisory Services segment are generally not contingent on the successful completion of a transaction.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") and pursuant to the rules and regulations of the United States Securities and Exchange Commission (the "SEC") and include all information and footnotes required for consolidated financial statement presentation. The results of operations for the three months ended June 30, 2017 are not necessarily indicative of the results of operations to be expected for the year ending March 31, 2018. The unaudited interim consolidated financial statements and notes to consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended March 31, 2017.

(b) Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries where it has a controlling financial interest. All significant intercompany balances and transactions have been eliminated in consolidation.

The Company carries its investments in unconsolidated entities over which it has significant influence but does not control using the equity method, and includes its ownership share of the income and losses in other income (expenses), net in the consolidated statements of comprehensive income.

(c) Use of Estimates

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements. Management estimates and assumptions also affect the reported amounts of revenues and expenses during the reporting period, and disclosure of contingent assets and liabilities at the reporting date. These estimates and assumptions are based on management's best estimates and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which management believes to be reasonable under the circumstances. Management adjusts such estimates and assumptions when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Items subject to such estimates and assumptions include: the allowance for doubtful accounts; the valuation of deferred tax assets, goodwill, accrued expenses, and share based compensation; the allocation of goodwill and other assets across the reporting units (segments); and reserves for income tax uncertainties and other contingencies.

(d) Recognition of Revenue

Revenues consist primarily of professional service fees.

The Company and its clients enter into agreements that outline the general terms and conditions of the specific engagements. The Company performs professional services in accordance with the engagement terms on both a fixed

and contingent fee basis.

7

Table of Contents

HOULIHAN LOKEY, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

Revenues are recognized when earned and realizable. Revenues under fixed fee contracts are recognized based on management's estimates of the relative proportion of services provided through the financial reporting date to the total services required to be performed. The recognition of revenues under contingent fee contracts depends on whether the revenues relate to monthly retainers or success fees. Monthly retainers are generally recognized on a monthly basis, except in situations where there is uncertainty as to the timing of collection of the amount due. Success fees are recognized only upon substantial completion of the contingencies stipulated by the engagement agreement. In some cases, approval of the Company's fees is required from the courts or other regulatory authority; in these circumstances, the recognition of revenue is often deferred until approval is granted; however, if the fee that is going to be collected from the client is fixed and determinable, and the collectability of the fee is reasonably assured, there are instances when revenue recognition prior to such approval is appropriate.

Engagements related to Financial Advisory Services are most often structured as fixed fee contracts, and engagements related to Corporate Finance and Financial Restructuring are most often structured as contingent fee contracts.

Further, Financial Restructuring contracts are commonly subject to the applicable court's approval.

In those instances when the revenue recognized on a specific engagement exceeds both the amounts billed and the amounts collected, unbilled work-in-process is recorded. Billed receivables are recorded as accounts receivable in the accompanying consolidated balance sheets. Deferred income results when cash is received in advance of dates when revenues are recognized.

Taxes, including value added taxes, collected from customers and remitted to governmental authorities are accounted for on a net basis, and therefore, are excluded from revenue in the consolidated statements of comprehensive income.

(e) Operating Expenses

The majority of the Company's operating expenses are related to compensation for employees, which includes the amortization of the relevant portion of the Company's share-based incentive plans (note 13). Other examples of operating expenses include: travel, meals and entertainment; rent; depreciation and amortization; information technology and communications; professional fees; and other operating expenses, which include such items as office expenses, business license and registration fees, non-income-related taxes, legal expenses, related-party support services, and charitable contributions. During the three months ended June 30, 2017 and 2016, the Company received reimbursements of \$7,752 and \$7,479, respectively, from customers for out-of-pocket expenses incurred by the Company that are presented net against the related expenses in the accompanying consolidated statements of comprehensive income.

(f) Translation of Foreign Currency Transactions

The reporting currency for the consolidated financial statements of the Company is the U.S. dollar. The assets and liabilities of subsidiaries whose functional currency is other than the U.S. dollar are included in the consolidation by translating the assets and liabilities at the reporting period-end exchange rates; however, revenues and expenses are translated using the applicable exchange rates determined on a monthly basis throughout the year. Resulting translation adjustments are reported as a separate component of accumulated other comprehensive income, net of applicable taxes.

From time to time, we enter into transactions to hedge our exposure to certain foreign currency fluctuations through the use of derivative instruments or other methods. We had no foreign currency forward contracts outstanding as of June 30, 2017, and a foreign currency forward contract against the pound sterling with aggregate notional value of \$3.0 million with \$0.2 million fair value losses included in other operating expenses as of June 30, 2016.

(g) Property and Equipment

Property and equipment are stated at cost. Repair and maintenance charges are expensed as incurred and costs of renewals or improvements are capitalized at cost.

Depreciation on furniture and office equipment is provided on a straight-line basis over the estimated useful lives of the respective assets. Leasehold improvements are depreciated over the lesser of the lease term or estimated useful

life.

8

Table of Contents

HOULIHAN LOKEY, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

(h) Cash and Cash Equivalents

Cash and cash equivalents include cash held at banks and highly liquid investments with original maturities of three months or less. As of June 30, 2017 and March 31, 2017, the Company had cash balances with banks in excess of insured limits. The Company has not experienced any losses in its cash accounts and believes it is not exposed to any significant credit risk with respect to cash and cash equivalents.

(i) Restricted Cash

The following table provides a reconciliation of cash, cash equivalents, and restricted cash reported within the statement of financial position that sum to the total of the same such amounts shown in the statement of cash flows.

	June 30, 2017	March 31, 2017
Cash and cash equivalents	\$ 183,221	\$ 300,314
Restricted cash	—	192,372
Total cash, cash equivalents, and restricted cash shown in the statement of cash flows	\$ 183,221	\$ 492,686

Amounts included in restricted cash at March 31, 2017 represented those received from the issuance of shares in the Follow-on Offering and required to be set aside pursuant to the Forward Share Purchase Agreement (notes 1 and 3). The restriction lapsed when the related forward purchase liability was paid off.

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows: Restricted Cash. The amendments in this ASU requires restricted cash and restricted cash equivalents to be included with the cash and cash equivalents balances when reconciling the beginning-of-period and end-of-period amounts shown on the statements of cash flows. ASU 2016-18 is effective for interim and annual reporting periods beginning after December 15, 2017 (year ending March 31, 2019 for the Company) with early adoption permitted. The Company adopted ASU No. 2016-18 and it did not have a material impact on the Company's operating results and financial position.

(j) Investment Securities

Investment securities consists of corporate debt and certificates of deposit with original maturities over 90 days. The Company classifies its investment securities as held to maturity which are recorded at amortized cost based on the Company's positive intent and ability to hold these securities to maturity. Management evaluates whether securities held to maturity are other-than-temporarily impaired on a quarterly basis.

(k) Accounts Receivable

The allowance for doubtful accounts on receivables reflects management's best estimate of probable inherent losses determined principally on the basis of historical experience and review of uncollected revenues and is recorded through provision for bad debts in the accompanying consolidated statements of comprehensive income. Amounts deemed to be uncollectible are written off against the allowance for doubtful accounts.

(l) Income Taxes

Prior to the IPO, ORIX USA and its subsidiaries, including the Company, filed consolidated federal income tax returns and separate returns in state and local jurisdictions and did so for fiscal 2016 through the date of the IPO. The Company reported income tax expense as if it filed separate returns in all jurisdictions. Following the IPO, the Company files a consolidated federal income tax return separate from ORIX USA, as well as consolidated and separate returns in state and local jurisdictions, and the Company reports income tax expense on this basis. We account for income taxes in accordance with ASC 740, "Income Taxes," which requires the recognition of tax benefits or expenses on temporary differences between the financial reporting and tax basis of our assets and liabilities. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial reporting basis and the tax basis of the Company's assets and liabilities. The measurement of the deferred items is based on enacted tax laws and applicable tax rates. A valuation allowance related to a deferred tax asset is recorded if it is more likely than not that some portion or all of the deferred tax asset will not be realized.

Table of Contents

HOULIHAN LOKEY, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

The Company utilized a comprehensive model to recognize, measure, present, and disclose in its financial statements any uncertain tax positions that have been taken or are expected to be taken on a tax return. The impact of an uncertain tax position that is more likely than not of being sustained upon audit by the relevant taxing authority must be recognized at the largest amount that is more likely than not to be sustained. No portion of an uncertain tax position will be recognized if the position has less than a 50% likelihood of being sustained. Interest expense and penalties related to income taxes are included in the provision for income taxes in the accompanying consolidated statements of comprehensive income.

(m) Goodwill and Intangible Assets

Goodwill represents an acquired company's acquisition cost over the fair value of acquired net tangible and intangible assets. Goodwill is the net asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognized. Intangible assets identified and accounted for include tradenames and marks, backlog, developed technologies, and customer relationships. Those intangible assets with finite lives, including backlog and customer relationships, are amortized over their estimated useful lives.

When HL CA was acquired by Fram in January 2006, approximately \$392,600 of goodwill and \$192,210 of indefinite-lived intangible assets were generated and recognized. In accordance with ASC Topic 805, Business Combinations, since HL CA was wholly owned by Fram, this goodwill and all other purchase accounting-related adjustments were pushed down to the Company's reporting level. Through both foreign and domestic acquisitions made directly by HL CA and the Company since 2006, additional goodwill of approximately \$129,586, inclusive of foreign currency translations, has been recognized.

Goodwill is reviewed annually for impairment and more frequently if potential impairment indicators exist. Goodwill is reviewed for impairment in accordance with Accounting Standards Update (ASU) No. 2011-08, Testing Goodwill for Impairment, which permits management to make a qualitative assessment of whether it is more likely than not that one of its reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If management concludes that it is not more likely than not that the fair value of the reporting unit is less than its carrying amount, then management would not be required to perform the two-step impairment test for that reporting unit. If the assessment indicates that it is more likely than not that the reporting unit's fair value is less than its carrying value, management must test further for impairment utilizing a two-step process. Step 1 compares the estimated fair value of the reporting unit with its carrying value, including goodwill. If the carrying value of the reporting unit exceeds the estimated fair value, an impairment exists and is measured in Step 2 as the excess of the recorded amount of goodwill over the implied fair value of goodwill resulting from the valuation of the reporting unit. Impairment testing of goodwill requires a significant amount of judgment in assessing qualitative factors and estimating the fair value of the reporting unit, if necessary. The fair value is determined using an estimated market value approach, which considers estimates of future after tax cash flows, including a terminal value based on market earnings multiples, discounted at an appropriate market rate. As of June 30, 2017 and 2016, management concluded that it was not more likely than not that the Company's reporting units' fair value was less than their carrying amount and no further impairment testing had been considered necessary.

Indefinite-lived intangible assets are reviewed annually for impairment in accordance with ASU 2012-02, Testing Indefinite-lived Intangible Assets for Impairment, which provides management the option to perform a qualitative assessment. If it is more likely than not that the asset is impaired, the amount that the carrying value exceeds the fair value is recorded as an impairment expense. As of June 30, 2017 and 2016, management concluded that it was not more likely than not that the fair values were less than the carrying values.

Intangible assets subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset or asset group (inclusive of other long-lived assets) be tested for possible impairment, management first compares undiscounted cash flows expected to be generated by that asset or asset group to its carrying amount. If the carrying

amount of the long-lived asset or asset group is not recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent that the carrying amount exceeds its fair value. Fair value is determined through various valuation techniques including discounted cash flow models, quoted market values and third-party independent appraisals, as considered necessary. As of and during the three months ended June 30, 2017 and 2016, no events or changes in circumstances were identified that indicated that the carrying amount of the finite-lived intangible assets were not recoverable.

(n) Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity should also disclose sufficient quantitative and qualitative information to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers, Deferral of Effective Date which deferred the effective date of the new standard to annual and interim periods within that reporting period beginning after December 15, 2017 (year ending March 31, 2019 for the Company). The new standard is to be applied using either the retrospective or cumulative-effective transition method. We are completing an implementation plan to adopt this pronouncement and as part of this plan, we are assessing the impact of the guidance on our results of operations. Based on our procedures performed to date, nothing has come to our attention that would indicate that the adoption of ASU 2014-09 will have a material impact on our financial statements, however, our assessment is ongoing. We intend to adopt ASU 2014-09 on April 1, 2018 and although we have not yet selected a transition method, the Company is currently evaluating the impact of the new standard under both transition methods, but is unable to quantify the impact on the consolidated financial statements at this time and has not made an election on the transition method. We anticipate completing our evaluation in the year ending March 31, 2018.

In February 2016, the FASB issued ASU No. 2016-02, Leases. The amendments in this ASU requires lessees to recognize right-of-use assets and lease liabilities on the balance sheet for all leases with terms longer than 12 months. For leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election by class of underlying asset not to recognize a right-of-use asset and lease liability. Additionally, when measuring assets and liabilities arising from a lease, optional payments should be included only if the lessee is reasonable certain to exercise an option to extend the lease, exercise a purchase option, or not exercise an option to terminate the lease. ASU 2016-02 is effective for interim and annual reporting periods beginning after December 15, 2018 (year ending March 31, 2020 for the Company). Early application is permitted. The Company is currently in the process of determining the impact that the updated accounting guidance will have on our consolidated financial statements. See Note 15 for a summary of our undiscounted minimum rental commitments under operating leases as of June 30, 2017. In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments. The amendments in this ASU include eight specific guidance measures for cash flow classification issues for (1) debt prepayment or debt extinguishment costs, (2) debt instruments with coupon interest rates, (3) contingent consideration payments made after a business combination, (4) settlement proceeds from insurance claims, (5) settlement proceeds from corporate-owned life insurance policies, (6) distributions received from equity method investees, (7) beneficial interests in securitization transactions, and (8) classification of cash receipts and payments that have aspects of more than one class of cash flows. ASU 2016-15 is effective for interim and annual reporting periods beginning after December 15, 2017 (year ending March 31, 2019 for the Company). This new accounting guidance will result in some changes in classification in the Consolidated Statement of Cash Flows, which the Company does not expect will be significant, and will not have a material impact on its consolidated financial position or results of operations.

In January 2017, the FASB issued ASU No. 2017-04, Intangible - Goodwill and Other: Simplifying the Test for Goodwill Impairment. The amendments in this ASU do not change the guidance on Step 1 of the goodwill impairment test but eliminates the requirement to calculate an implied goodwill value using Step 2. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value but should not exceed the total amount of goodwill allocated to that reporting unit. Also, an entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. ASU No. 2017-04 is effective for interim and annual reporting periods beginning after December 15, 2019 (year ending

March 31, 2021 for the Company) with early adoption permitted. Management does not believe this guidance will have a material impact on the consolidated financial statements and related disclosures.

(3) RELATED PARTY TRANSACTIONS

The Company provides financial advisory services to ORIX USA and its affiliates and received fees for these services totaling approximately \$238 and \$320 during the three months ended June 30, 2017 and 2016, respectively.

The Company provides certain management and administrative services for the Company's unconsolidated entities and receives fees for these services. These fees are reduced by the compensation costs incurred by the unconsolidated entities for certain administrative staff members. As a result, the Company received fees of \$172 and \$0 during the three months ended June 30, 2017 and 2016, respectively.

In connection with the IPO, ORIX USA and the Company entered into a Transition Services Agreement, pursuant to which ORIX USA provided services for Sarbanes-Oxley compliance, internal audit, and other services for specified fees. Expenses incurred by the Company related to these services were approximately \$0 and \$99 for the three month periods ended June 30, 2017 and 2016, respectively, which are included in professional fees in the accompanying consolidated statements of comprehensive income. To the extent that ORIX USA and its affiliates pay for expenses of the Company, ORIX USA is reimbursed for such payments by the Company.

The Company's receivables from affiliates includes a receivable from an affiliate of ORIX USA with an outstanding balance of \$20,136 and that bore interest at a variable rate that was approximately 2.13% as of March 31, 2016, and was repaid in full in May 2016. Interest income earned by the Company related to cash balances held by ORIX and its affiliates was approximately \$0 and \$33 for the three months ended June 30, 2017 and 2016, respectively.

In November 2015, the Company entered into a joint venture arrangement with Leonardo & Co. NV, a European-based investment banking firm ("Leonardo"), in relation to Leonardo's Italian business by means of acquisition of a minority (49%) interest. In conjunction with this transaction, a subsidiary of the Company loaned the joint venture 5,500 euro (\$6,000 as of June 30, 2017) which is included in receivables from affiliates and which bears interest at 1.5% and matures no later than November 2025. Interest income earned by the Company related to this receivable from affiliate was approximately \$23 and \$28 for the three months ended June 30, 2017 and 2016, respectively.

As described in note 1 above, in connection with, and prior to, the Follow-on Offering, on February 6, 2017, the Company entered into the Forward Share Purchase Agreement, pursuant to which the Company agreed to repurchase from ORIX USA on April 5, 2017 the number of shares of our Class B common stock equal to the number of shares of our Class A common stock sold by the Company in the Follow-on Offering (including any shares sold upon the exercise by the underwriters of their option to purchase additional shares of our Class A common stock) for a purchase price per share equal to the public offering price in the Follow-on Offering less underwriting discounts and commissions. On April 5, 2017, the Company settled the transaction provided for in the Forward Share Purchase Agreement and acquired 6,900,000 shares of Class B common stock from ORIX USA using the net proceeds we received from the Follow-on Offering and the shares were retired. In accordance with the terms of the Forward Share Purchase Agreement, the purchase price per share under the Forward Share Purchase Agreement was reduced by the per share amount of the dividend paid to ORIX USA on the shares of our Class B common stock subject to the Forward Share Purchase Agreement prior to the settlement of the transaction.

The Company paid a quarterly dividend to its shareholders, of which approximately \$2,942 and \$3,674 was paid to ORIX USA during the three months ended June 30, 2017 and 2016, respectively.

In February 2017, the Company entered into a loan agreement with Houlihan Lokey (Australia) Pty Limited, the entity operating our joint venture in Australia. The Company loaned the joint venture AUD 2,500 (\$1,900 as of June 30, 2017) which is included in receivables from affiliates and which bears interest at 2.0%. Interest income earned by the Company related to this receivable from affiliate was approximately \$9 for the three months ended June 30, 2017.

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

(4) FAIR VALUE MEASUREMENTS AND FINANCIAL INSTRUMENTS

The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. The Company determines fair value based on assumptions that market participants would use in pricing an asset or liability in the principal or most advantageous market. When considering market participant assumptions in fair value measurements, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels in accordance with ASC Topic 820, Fair Value Measurement:

Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.

Level 2 Inputs: Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.

For level 3 investments in which pricing inputs are unobservable and limited market activity exists, management's determination of fair value is based on the best information available, may incorporate management's own assumptions and involves a significant degree of judgment.

The following methods and assumptions were used by the Company in estimating fair value disclosures:

Certificates of deposit: Fair values for certificates of deposit are based upon a discounted cash flow approach.

Corporate debt securities: Fair values for corporate debt securities are based on quoted market prices. All fair value measurements are obtained from a third-party pricing service and are not adjusted by management.

The following table presents information about the Company's other financial assets, and indicate the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair values:

	June 30, 2017			
	Level I	Level II	Level III	Total
Certificates of deposit	\$—	\$10,000	\$—	\$10,000
Corporate debt securities	\$9,068	\$—	\$—	\$9,068
Total asset measured at fair value	\$9,068	\$10,000	\$—	\$19,068

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given investment is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and consideration of factors specific to the instrument.

The Company had no transfers between fair value levels during the three months ended June 30, 2017.

The fair values of the financial instruments represent the amounts that would be received to sell assets or that would be paid to transfer liabilities in an orderly transaction between market participants as of a specified date. Fair value measurements maximize the use of observable inputs; however, in situations where there is little, if any, market activity for the asset or liability at the measurement date, the fair value measurement reflects the Company's own judgments about the assumptions that market participants would use in pricing the asset or liability. Those judgments are developed by the Company based on the best information available in the circumstances, including expected cash flows and appropriately risk-adjusted discount rates, as well as available observable and unobservable inputs.

The carrying value of cash and cash equivalents, restricted cash, accounts receivable, unbilled work in process, receivables from affiliates, prepaid expenses, accounts payable, accrued expenses, and deferred income approximates fair value due to the short maturity of these instruments.

The carrying value of the loan payable to affiliate, loans payable to former shareholders and an unsecured loan which is included in loan payable to non-affiliates, approximates fair value due to the variable interest rate borne by those instruments.

Table of Contents

HOULIHAN LOKEY, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

(5) INVESTMENT SECURITIES

The amortized cost, gross unrealized gains and losses, and fair value of securities held to maturity as of June 30, 2017 were as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Corporate debt securities	\$ 9,075	\$	—\$ (7)	\$9,068
Certificate of deposit	10,000	—	—	10,000
Total securities with unrealized gains	\$ 19,075	\$	—\$ (7)	\$19,068

Scheduled maturities of the Company's debt securities within the investment securities portfolio as of June 30, 2017 were as follows:

	Amortized Cost	Estimated Fair Value
Due within one year	\$ 19,075	\$ 19,068

The Company has the ability and intent to hold the corporate debt securities to maturity until a recovery of fair value is equal to an amount approximating its amortized cost, which may be at maturity, and has not incurred credit losses on such debt securities. The Company does not consider such unrealized loss positions to be other-than-temporarily impaired as of June 30, 2017.

(6) ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS RECEIVABLE

	Three Months Ended June 30,	
	2017	2016
Balance-Beginning	\$11,199	\$4,266
Provision for bad debt	614	739
Recovery of uncollectible accounts	21	1,671
Balance-Ending	\$11,834	\$6,676

(7) PROPERTY AND EQUIPMENT

Property and equipment, net of accumulated depreciation consist of the following:

	Useful Lives	June 30, 2017	March 31, 2017
Equipment	5 Years	\$7,147	\$6,731
Furniture and fixtures	5 Years	18,783	18,171
Leasehold improvements	10 Years	28,483	26,298
Computers and software	3 Years	10,544	10,319
Other	N/A	1,093	1,090
Total cost		66,050	62,609
Less accumulated depreciation		(33,943)	(32,193)
Total net book value		\$32,107	\$30,416

Additions to property and equipment during the three months ended June 30, 2017 were primarily related to costs incurred to furnish new leased office space and refurbish existing space.

Depreciation expense of approximately \$1,526 and \$1,221 was recognized during the three months ended June 30, 2017 and 2016, respectively.

(8) GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill and other intangibles consist of the following.

	Useful Lives	June 30, 2017	March 31, 2017
Goodwill	Indefinite	\$522,186	\$519,487
Tradename-Houlihan Lokey	Indefinite	192,210	192,210
Other intangible assets	Varies	14,830	14,829
Total cost		729,226	726,526
Less accumulated amortization		(11,607)	(11,183)
Total net book value (before taxes)		\$717,619	\$715,343
Deferred tax liability		(77,184)	(77,184)
Total net book value		\$640,435	\$638,159

Goodwill attributable to the Company's business segments are as follows:

Business Segments	April 1, 2017	Changes (a)	June 30, 2017
Corporate Finance	\$265,260	\$ 2,436	\$267,696
Financial Restructuring	162,512	263	162,775
Financial Advisory Services	91,715	—	91,715
Total	\$519,487	\$ 2,699	\$522,186

(a) Changes were solely related to foreign currency translation adjustments.

Amortization expense of approximately \$448 and \$1,018 was recognized for the three months ended June 30, 2017 and 2016, respectively. The estimated future amortization for amortizable intangible assets for each of the next five years are as follows:

Year Ended March 31,	
Remainder of 2018	\$ 1,027
2019	671
2020	576
2021	371
2022	157

(9) LOANS PAYABLE

In August 2015, prior to the IPO the Company paid a dividend to its shareholders, a portion of which was paid to ORIX USA in the form of a \$45.0 million note that bore interest at a rate of LIBOR plus 165 basis points or 3.39% and 3.45% as of June 30, and March 31, 2017, respectively. The Company paid interest on the note of \$62 and \$257 for the three months ended June 30, 2017 and 2016, respectively. Beginning on June 30, 2016, the Company was required to make quarterly repayments of principal in the amount of \$7.5 million, with the remaining principal amount due on the second anniversary of the completion of the IPO. The loan was repaid in full in May 2017.

In August 2015, the Company entered into a revolving line of credit with Bank of America, N.A., which allows for borrowings of up to \$75.0 million and matures in August 2017. The agreement governing this facility provides that borrowings bear interest at an annual rate of LIBOR plus 1.00%, commitment fees apply to unused amounts, and contains debt covenants which require that the Company maintain certain financial ratios. As of June 30, 2017, no principal was outstanding under the line of credit, and for the three months ended June 30, 2017 and 2016, the Company paid interest and unused commitment fees of \$57 and \$150, respectively, under the line of credit.

Table of Contents

HOULIHAN LOKEY, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

Prior to the IPO, Fram maintained certain loans payable to former shareholders consisting of unsecured notes payable which were transferred to the Company in conjunction with the IPO. The interest rate on the individual notes was 2.69% and 2.28% as of June 30, 2017 and 2016, respectively, and the maturity dates range from 2017 to 2027. The Company incurred interest expense on these notes of \$37 and \$89 during the three months ended June 30, 2017 and 2016, respectively.

In November 2015, the Company acquired the investment banking operations of Leonardo in Germany, the Netherlands, Spain, and made an investment in a 49% interest in Italy. Total consideration included an unsecured loan of 14.0 million euro payable on November 16, 2040, which is included in loan payable to non-affiliates in the accompanying consolidated balance sheets. Under certain circumstances, the note may be paid in part or in whole over a five year period in equal annual installments. This loan bears interest at an annual rate of 1.50%. In January 2017, we paid a portion of this loan in the amount of \$2.9 million. For the three months ended June 30, 2017 and 2016, the Company incurred \$47 and \$59 in interest expense on this loan, respectively.

See note 15 for aggregated 5-year maturity table on loans payable.

(10) OTHER COMPREHENSIVE INCOME AND ACCUMULATED OTHER COMPREHENSIVE LOSS

The only component of other comprehensive income relates to foreign currency translation adjustments of \$5,061 and \$(3,866) for the three months ended June 30, 2017 and 2016, respectively. The change in foreign currency translation was impacted by the vote in the U.K. to withdraw from the European Union. There will be a two-year time period in which the terms of withdrawal will be negotiated and there may be impacts on our European business that are unknown at this time. We believe the change in foreign currency translation will become more volatile, but we do not expect this to have a material impact on our operating results and financial position.

Accumulated other comprehensive loss at June 30, 2017 was comprised of the following:

Balance, April 1, 2017	\$(21,917)
Foreign currency translation adjustment	5,061
Balance, June 30, 2017	\$(16,856)

(11) INCOME TAXES

The Company's provision for income taxes was \$9,135 and \$12,542 for the three months ended June 30, 2017 and 2016, respectively. This represents effective tax rates of 18.9% and 39.3% for three months ended June 30, 2017 and 2016, respectively. The decrease in the Company's tax rate during the three month period ended June 30, 2017 relative to the same period in 2016 was primarily as a result of the adoption of ASU No. 2016-09, Compensation - Stock Compensation which resulted in a decrease to the provision for income taxes due to the vesting of share awards that were accelerated on February 14, 2017. The decrease to the provision occurred in the first quarter because the Company's tax deduction is taken during its tax year that corresponds to the tax year that the employees report the taxable income.

Table of Contents

HOULIHAN LOKEY, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

(12) NET INCOME (LOSS) PER SHARE ATTRIBUTABLE TO COMMON SHAREHOLDERS

The calculations of basic and diluted net income per share attributable to holders of shares of common stock for the three months ended June 30, 2017 and 2016 are presented below.

	Three Months Ended June 30,	
	2017	2016
Numerator:		
Net income (loss) attributable to holders of shares of common stock—basic	\$39,244	\$19,411
Net income (loss) attributable to holders of shares of common stock—diluted	\$39,244	\$19,411
Denominator:		
Weighted average shares of common stock outstanding—basic	\$62,343,589	\$60,565,671
Weighted average number of incremental shares issuable from unvested restricted stock and restricted stock units, as calculated using the treasury stock method	4,026,660	5,779,928
Weighted average shares of common stock outstanding—diluted	\$66,370,249	\$66,345,599
Net income (loss) per share attributable to holders of shares of common stock		
Basic	\$0.63	\$0.32
Diluted	\$0.59	\$0.29

(13) EMPLOYEE BENEFIT PLANS

(a) Defined Contribution Plans

The Company sponsors a 401(k) defined contribution savings plan for its domestic employees and defined contribution retirement plans for its international employees. The Company contributed approximately \$525 and \$449 during the three months ended June 30, 2017 and 2016, respectively, to these defined contribution plans.

(b) Share-Based Incentive Plans

Prior to the IPO, HL CA had no stock-based incentive compensation plans; however, during the period it was a subsidiary of Fram, certain employees of HL CA were granted restricted shares of Fram. Compensation expenses related to these shares was recorded at the HL CA level as it was related to services provided by its employees. Under its 2006 incentive plan (the "2006 Incentive Plan"), Fram granted restricted share awards to employees of the Company as a component of annual incentive pay and occasionally in conjunction with new hire employment. Under the 2006 Incentive Plan, awards typically vested after three years of service from the date of grant. Prior to the IPO, the grant-date fair value of each award was determined by Fram's board of directors using input from a third party, which used a combination of historical and forecasted results and market data. The methods used to estimate the fair value of Fram shares included the market approach and the income approach. For a further discussion related to the methods used, please see the Company's Annual Report on Form 10-K for the year ended March 31, 2017. In addition, the stock grants to employees of the Company in connection with the IPO were made under the 2006 Incentive Plan (note 1).

Following the IPO, additional awards of restricted shares have been and will be made under the Company's 2016 Incentive Award Plan (the "2016 Incentive Plan"), which became effective in August 2015. Under the 2016 Incentive Plan, it is anticipated that the Company will continue to grant cash- and equity-based incentive awards to eligible service providers in order to attract, motivate and retain the talent necessary to operate the Company's business. Equity-based incentive awards issued under the 2016 Incentive Plan generally vest over a four-year period. An aggregate of 24,250 restricted shares of Class A common stock were granted under the 2016 Incentive Plan to (i) two independent directors in August 2015 at \$21.00 per share, (ii) two independent directors in the first quarter of fiscal 2017 at \$25.21 per share, and (iii) one independent director in the first quarter of fiscal 2017 at \$23.93 per share, and (vi) three independent directors in the first quarter of fiscal 2018 at \$33.54 per share.

In March 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation. The amendments in this ASU simplify several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities and classification in the statement of cash flows. The Company adopted ASU 2016-09 in the first quarter of fiscal 2018. The changes that impacted the Company included a requirement that excess tax benefits and deficiencies be recognized as a component of provision for income taxes on the consolidated statements of comprehensive income rather than additional paid-in capital on the consolidated statements of changes in stockholders' equity as required in the previous guidance. This change also removes the impact of the excess tax benefits and deficiencies from the calculation of diluted EPS. In addition, ASU 2016-09 no longer requires a presentation of excess tax benefits and deficiencies as both an operating outflow

Table of Contents

HOULIHAN LOKEY, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

and financing inflow on the consolidated statements of cash flows. During the three-month period ended March 31, 2017, excess tax benefits of \$9,406 were recorded as deferred tax expense and benefit as an operating activity on the consolidated statements of cash flows. The adoption of ASU 2016-09 resulted in a decrease to the provision for income taxes due to the vesting of share awards that was accelerated on February 14, 2017. The decrease to the provision occurred in the first quarter of fiscal 2018 because the Company's tax deduction is delayed to its tax year that corresponds to the tax year that the employees report the taxable income.

The share awards are classified as equity awards at the time of grant unless the number of shares granted is unknown. Awards that are settleable in shares based upon a future determinable stock price are classified as a liability until the price is established and the resulting number of shares is known, at which time they are re-classified from liabilities to equity awards. Activity in equity classified share awards which relate to the 2006 Incentive Plan and the 2016 Incentive Plan during the three months ended June 30, 2017 and 2016 is as follows:

Nonvested share awards	Shares	Weighted average grant date fair value
Balance at April 1, 2016	5,903,168	\$ 18.80
Granted	1,572,821	23.42
Vested	(1,726,921)	17.49
Forfeited/Repurchased	(51,328)	20.95
Balance at June 30, 2016	5,697,740	\$ 20.46
Balance at April 1, 2017	3,626,270	\$ 22.35
Granted	1,217,605	34.82
Vested	(5,676)	15.94
Forfeited/Repurchased	(34,760)	23.87
Balance at June 30, 2017	4,803,439	\$ 25.51

Activity in liability classified share awards during the three months ended June 30, 2017 and 2016 is as follows:

Awards settleable in shares	Fair value
Balance at April 1, 2016	\$13,982
Offer to grant	1,850
Share price determined-converted to cash payments	(1,687)
Share price determined-transferred to equity grants	(4,754)
Forfeited	(82)
Balance at June 30, 2016	\$9,309
Balance at April 1, 2017	\$12,743
Offer to grant	5,450
Share price determined-converted to cash payments	(5,920)
Balance at June 30, 2017	\$12,273

Compensation expenses for the Company associated with both equity and liability classified awards totaled \$11,798 and \$11,342 for the three months ended June 30, 2017 and 2016, respectively. At June 30, 2017, there was \$122,528 of total unrecognized compensation cost related to unvested share awards granted under both the 2006 Incentive Plan and 2016 Incentive Plan. That cost is expected to be recognized over a weighted average period of 1.76 years.

On February 14, 2017, in connection with the Follow-on Offering discussed in notes 1 and 3, the Company accelerated the vesting of of certain awards that were due to vest on April 30, 2017. Under the terms of both the 2006 Incentive Plan and 2016 Incentive Plan, upon the vesting of awards, shares may be withheld to meet the minimum statutory tax withholding requirements. The Company satisfied such obligations upon vesting by retiring 704,528 shares upon the accelerated vesting of 1,907,890 shares.

Notes to Consolidated Financial Statements (unaudited)

(All tables and balances are in thousands, except share data)

(14) STOCKHOLDERS' EQUITY

(a) Class A Common Stock

In conjunction with the Company's IPO, 12,075,000 Class A shares were sold to the public by existing shareholders and 9,524 Class A shares were issued to non-employee directors. During the year ended March 31, 2017, an additional 9,200,000 Class A shares were sold to the public in the Follow-on Offering as discussed in note 1. During the three months ended June 30, 2017, an additional 5,589 shares were issued to non-employee directors and 1,516,590 shares were converted from Class B to Class A. As of June 30, 2017, there were 1,500,000 shares of Class A common shares held by ORIX USA. Each share of Class A common stock is entitled to one vote per share.

(b) Class B Common Stock

Each share of Class B common stock is entitled to ten votes per share. Each share of Class B common stock may be converted into one share of Class A common stock at the option of its holder and will be automatically converted into one share of Class A common stock upon transfer thereof, subject to certain exceptions. In April 2017, the Company repurchased 71,913 shares of Class B common stock from a single employee pursuant to a contractual arrangement entered into in connection with a prior acquisition. As of June 30, 2017, there were 30,365,367 Class B shares held by the HL Voting Trust and 13,210,331 Class B shares held by ORIX USA.

(c) Dividends

Approximately \$4,105 and \$4,858 of dividends previously declared related to unvested shares were unpaid at June 30, 2017 and 2016, respectively.

(d) Noncontrolling interests

Net income (loss) attributable to noncontrolling interests primarily represents the income (loss) associated with persons other than Houlihan Lokey that are its co-investors in a consolidated subsidiary that holds an equity method investment in an unconsolidated entity. As described in note 1, the assets associated with certain noncontrolling interests were distributed to shareholders in conjunction with a pre-IPO dividend in August 2015.

(e) Stock subscriptions receivable.

Employees of the Company periodically issued notes receivable to the Company documenting loans made by the Company to such employees for the purchase of restricted shares of the Company.

(f) Share repurchase program

In February 2017, the board of directors authorized the repurchase of up to \$50 million of the Company's Class A common stock. In May 2017, the Company entered into a stock buyback program with a third-party financial institution to purchase shares of common stock. During the three months ended June 30, 2017, the Company repurchased and retired 166,774,000 shares of its outstanding common stock at a weighted average price of \$34.26 per share, excluding commissions, for an aggregate purchase price of \$5,714.

(15) COMMITMENTS AND CONTINGENCIES

The Company has been named in various legal actions arising in the normal course of business. In the opinion of the Company, in consultation with legal counsel, the final resolutions of these matters are not expected to have a material adverse effect on the Company's financial condition, operations and cash flows.

Our obligation under the loan payable to affiliate is subordinated to our obligations under the revolving credit facility with Bank of America, N.A. The scheduled aggregate repayments of the loan payable to affiliate, the loans payable to former shareholders, and the loan payable to non-affiliates are as follows:

Year ended March 31:

Remainder of 2018	\$2,340
2019	989
2020	654
2021	575
2022	281
2023 and thereafter	12,664
Total	\$17,503

The Company also provides routine indemnifications relating to certain real estate (office) lease agreements under which it may be required to indemnify property owners for claims and other liabilities arising from the Company's use of the applicable premises. In addition, the Company guarantees the performance of its subsidiaries under certain office lease agreements. The terms of these obligations vary, and because a maximum obligation is not explicitly stated, the Company has determined that it is not possible to make an estimate of the maximum amount that it could be obligated to pay under such contracts. Based on historical experience and evaluation of specific indemnities, management believes that judgments, if any, against the Company related to such matters are not likely to have a material effect on the consolidated financial statements. Accordingly, the Company has not recorded any liability for these obligations as of June 30, 2017 or March 31, 2017.

In addition, an acquisition made in December 2012 included contingent consideration with carrying value of \$0 for both June 30, 2017 and 2016, which is included in other liabilities in the accompanying consolidated balance sheets. An acquisition made in January 2015 included contingent consideration with a carrying value of \$1,272 and \$2,505 as of June 30, 2017 and 2016, respectively, and non-contingent consideration with a carrying value of \$1,151 and \$3,268 as of June 30, 2017 and 2016, respectively, which are included in other liabilities in the accompanying consolidated balance sheets.

Straight-line rent expense under noncancelable operating lease arrangements and the related operating expenses were approximately \$7,018 and \$6,823 for the three months ended June 30, 2017 and 2016, respectively. The approximate future minimum annual noncancelable rental commitments required under these agreements with initial terms in excess of one year are as follows:

Year ended March 31:

Remainder of 2018	\$15,299
2019	20,403
2020	19,639
2021	19,545
2022	15,952
2023 and thereafter	41,152
Total	\$131,990

(16) SEGMENT AND GEOGRAPHICAL INFORMATION

The Company's reportable segments are described in note 1 and each are individually managed and provide separate services which require specialized expertise for the provision of those services. Revenues by segment represent fees earned on the various services offered within each segment. Segment profit represents each segment's profit, which consists of segment revenues, less (1) direct expenses including compensation, employee recruitment, travel, meals and entertainment, professional fees, and bad debt and (2) expenses allocated by headcount such as communications, rent, depreciation and amortization, and office expense. The corporate expense category includes costs not allocated to individual segments, including charges related to incentive compensation and share-based payments to corporate employees, as well as expenses of senior management and corporate departmental functions managed on a worldwide basis including accounting, human resources, human capital management, marketing, information technology, compliance and legal. The following tables present information about revenues, profit and assets by segment and geography.

	Three Months Ended	
	June 30,	
	2017	2016
Revenues by segment:		
Corporate Finance	\$123,999	\$96,036

(17) SUBSEQUENT EVENTS

The Company has evaluated subsequent events from the consolidated balance sheet date through the date at which the consolidated financial statements were available to be issued. As a result of that evaluation, we have determined that there were no additional subsequent events requiring disclosure in the financial statements, except as noted below.

On July 25, 2017, the Company's Board of Directors declared a quarterly cash dividend of \$0.20 per share of common stock, payable on September 15, 2017 to shareholders of record on September 1, 2017.

On July 28, 2017, the Company amended the credit agreement governing its revolving credit facility to, among other things, extend the maturity date of the revolving credit facility to August 18, 2019 (or if such date is not a business day, the immediately preceding business day).

On July 20, 2017 the Board of Directors of the Company adopted an Amended and Restated 2016 Incentive Award Plan and submitted it for shareholder approval at the Annual Meeting to be held on September 19, 2017.

On July 28, 2017 the Company, Houlihan Lokey (Australia) Pty Limited (HL Australia), Houlihan Lokey (Australia) Nominees Pty Limited and certain executives and executive entities agreed to an Amended Put and Call Option deed, and on the same date the Company exercised the call option whereby all the outstanding Class B1 shares of HL Australia were acquired by the Company and as such HL Australia is now a wholly-owned subsidiary of the Company.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The following discussion should be read together with our consolidated financial statements and the related notes that appear elsewhere in this Quarterly Report on Form 10-Q. We have made statements in this discussion that are forward-looking statements. In some cases, you can identify these statements by forward-looking words such as “may,” “might,” “will,” “should,” “expects,” “plans,” “anticipates,” “could,” “targets,” “projects,” “contemplates,” “believes,” “estimates,” “predicts,” “potential” or “continue,” the negative of these terms or other similar expressions. These forward-looking statements, which are subject to risks, uncertainties, and assumptions about us, may include projections of our future financial performance, based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements, including but not limited to the factors listed under the heading “Cautionary Note Regarding Forward-Looking Statements” in our Annual Report on Form 10-K for the year ended March 31, 2017. Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of any of these forward-looking statements. These forward-looking statements speak only as of the date of this filing. You should not rely upon forward-looking statements as a prediction of future events. We are under no duty to and we do not undertake any obligation to update or review any of these forward-looking statements after the date of this filing to conform our prior statements to actual results or revised expectations whether as a result of new information, future developments or otherwise.

Key Financial Measures

Fee Revenue

Fee revenue reflects revenues from our Corporate Finance ("CF") , Financial Restructuring ("FR"), and Financial Advisory Services ("FAS") business segments that substantially consist of fees for advisory services.

Revenue for all three business segments is recognized when earned and realizable. The amount and timing of the fees paid vary by the type of engagement. In general, advisory fees are paid at the time an engagement letter is signed ("Retainer Fees"), during the course of the engagement ("Progress Fees"), or upon the successful completion of a transaction or engagement ("Completion Fees"). Retainer Fees are generally recognized on a monthly basis, except in situations where there is uncertainty as to the timing of collection of the amount due. Progress Fees are recognized based on management’s estimates of the relative proportion of services provided through the financial reporting date to the total services required to be performed. Completion Fees are recognized only upon substantial completion of the contingencies stipulated by the engagement agreement. In some cases, approval of our fees is required from the courts or other regulatory authority; in these circumstances, the recognition of revenue is often deferred until approval is granted. However, if the fee that is going to be collected from the client is fixed and determinable, and the collectability of the fee is reasonably assured, there are instances when revenue recognition prior to such approval is appropriate under GAAP. In instances when the revenue recognized on a specific engagement exceeds the amounts billed, unbilled work-in-process is recorded. Billed receivables are recorded as accounts receivable in the consolidated balance sheets. See note 2 included in Part I, Item 1 of this Form 10-Q for a more detailed discussion.

Corporate Finance provides general financial advisory services in addition to advice on mergers and acquisitions and capital markets offerings. We advise public and private institutions on a wide variety of situations, including buy-side and sell-side transactions, as well as leveraged loans, private mezzanine debt, high-yield debt, initial public offerings, follow-ons, convertibles, equity private placements, private equity, and liability management transactions, and advise financial sponsors on all types of transactions. The majority of our Corporate Finance revenues consists of Completion

Fees. A Corporate Finance transaction can fail to be completed for many reasons that are outside of our control. In these instances, our fees are generally limited to Retainer Fees and in some cases Progress Fees that may have been earned.

Financial Restructuring provides advice to debtors, creditors and other parties-in-interest in connection with recapitalization/deleveraging transactions implemented both through bankruptcy proceedings and through out-of-court exchanges, consent solicitations or other mechanisms, as well as in distressed mergers and acquisitions and capital markets activities. As part of these engagements, our Financial Restructuring business segment offers a wide range of advisory services to our clients, including: the structuring, negotiation, and confirmation of plans of reorganization; structuring and analysis of exchange offers; corporate viability assessment; dispute resolution and expert testimony; and procuring debtor in possession financing. Although atypical, a Financial Restructuring transaction can fail to be completed for many reasons that are outside of our control. In these instances, our fees are generally limited to the initial Retainer Fees and/or Progress Fees.

Table of Contents

Financial Advisory Services primarily provides valuations of various assets, including: companies; illiquid debt and equity securities; and intellectual property (among other assets and liabilities). These valuations are used for financial reporting, tax reporting, and other purposes. In addition, our Financial Advisory Services business segment renders fairness opinions in connection with mergers and acquisitions and other transactions, and solvency opinions in connection with corporate spin-offs and dividend recapitalizations, and other types of financial opinions in connection with other transactions. Also, our Financial Advisory Services business segment provides dispute resolution services to clients where fees are usually based on the hourly rates of our financial professionals. Lastly, our Financial Advisory Services business segment provides strategic consulting services to clients where fees are either fixed or based on the hourly rates of our consulting professionals. Unlike our Corporate Finance or Financial Restructuring segments, the fees generated in our Financial Advisory Services segment are generally not contingent on the successful completion of a transaction.

Operating Expenses

Our operating expenses are classified as employee compensation and benefits expenses and non-compensation expenses; headcount is the primary driver of our operating expenses. Expenses are recorded on the consolidated statements of comprehensive income, net of any expenses reimbursed by clients.

Employee Compensation and Benefits Expense. Our employee compensation and benefits expense, which accounts for the majority of our operating expenses, is determined by management based on revenues earned, headcount, the competitiveness of the prevailing labor market, and anticipated compensation expectations of our employees. These factors may fluctuate, and as a result, our employee compensation and benefits expense may fluctuate materially in any particular period. Accordingly, the amount of employee compensation and benefits expense recognized in any particular period may not be consistent with prior periods or indicative of future periods.

Our employee compensation and benefits expense consists of base salary, payroll taxes, benefits, annual incentive compensation payable as cash bonus awards, deferred cash bonus awards, and the amortization of equity-based bonus awards. Base salary and benefits are paid ratably throughout the year. Our annual equity-based bonus awards include fixed share compensation awards and fixed dollar awards as a component of the annual bonus awards for certain employees. These equity awards are generally subject to annual vesting requirements over a three- or four-year period beginning at the date of grant, which occurs in the first quarter of each fiscal year; accordingly, expenses are amortized over the stated vesting period. In most circumstances, the unvested portion of these awards is subject to forfeiture should the employee depart from the Company. Cash bonuses, which are accrued monthly, are discretionary and dependent upon a number of factors including the Company's performance and are generally paid in the first quarter of each year with respect to prior year performance. Generally, a portion of the cash bonus is also deferred and paid in the third quarter of the fiscal year in which the bonus is awarded.

In managing employee compensation and benefits expense, we focus on the following: (i) the ratio of our employee compensation and benefits to fee revenue ("Compensation Ratio"), (ii) the ratio of cash compensation and benefits plus deferred stock compensation with respect to the applicable year less any forfeitures of unvested deferred stock that occurred during the applicable year to fee revenue ("Awarded Compensation Ratio") and, (iii) for periods commencing on October 1, 2015, the Awarded Compensation Ratio, excluding certain equity and cash grants awarded in connection with our IPO ("Adjusted Awarded Compensation Ratio"). We believe adjusted awarded employee compensation and benefits reflect the actual compensation cost more accurately than the GAAP measure of compensation cost, which includes applicable-period cash compensation and the amortization of deferred incentive compensation principally attributable to prior periods' deferred compensation. We target an Adjusted Awarded Compensation Ratio of approximately 65% to 66%. However, if we identify opportunities to grow fee revenue through significant expansion, to position our business during challenging market conditions for future growth or for other reasons, our Adjusted Awarded Compensation Ratio may increase to a level in excess of this target range.

Non-Compensation Expenses. The balance of our operating expenses includes costs for travel, meals and entertainment, rent, depreciation and amortization, information technology and communications, professional fees, other operating expenses and provision for bad debts. We refer to all of these expenses as non-compensation expenses. A portion of our non-compensation expenses fluctuate in response to changes in headcount. Reimbursed client expenses are netted against non-compensation expenses.

Other Income (Expenses), net

Other income (expenses), net includes (i) interest income earned on non-marketable and investment securities, cash and cash equivalents, loans receivables from affiliates and employee loans, (ii) interest expense and/or gains or losses associated with our Revolving Credit Facility (defined herein), the loan payable to affiliate and loans payable to former shareholders, (iii) interest expense on the loan payable to non-affiliates, (iv) equity income and/or gains or losses from funds and partnership interests where we have more than a minor ownership interest or more than minor influence over operations but do not have a controlling interest and are not the primary beneficiary, (v) net income from investments in unconsolidated entities, which primarily represents the income associated with persons other than Houlihan Lokey that are our co-investors in a consolidated subsidiary that holds an equity method investment in an unconsolidated entity, and (vi) gains associated with the reduction of earnout liabilities.

Table of Contents

Results of Consolidated Operations

The following is a discussion of our results of operations for the three months ended June 30, 2017 and 2016. For a more detailed discussion of the factors that affected the revenues and the operating expenses of our Corporate Finance, Financial Restructuring and Financial Advisory Services business segments in these periods, see Part I, Item 2 of this Form 10-Q under the heading “Business Segments” below.

(\$ in thousands)	Three Months Ended		
	2017	2016	Change
Fee revenue	\$217,491	\$180,774	20 %
Operating expenses:			
Employee compensation and benefits	145,509	121,804	19 %
Non-compensation expenses	25,109	26,109	(4)%
Total operating expenses	170,618	147,913	15 %
Operating income	46,873	32,861	43 %
Other income (expenses), net	1,506	(908) NM
Income before provision for income taxes	48,379	31,953	51 %
Provision for income taxes	9,135	12,542	(27)%
Net income attributable to Houlihan Lokey, Inc.	\$39,244	\$19,411	102 %

NM = not meaningful

Three Months Ended June 30, 2017 versus June 30, 2016

Fee revenue was \$217.5 million for the three months ended June 30, 2017, compared with \$180.8 million for the three months ended June 30, 2016, representing an increase of 20%. For the three months ended June 30, 2017, Corporate Finance revenues increased 29%, Financial Restructuring revenues increased 5% and Financial Advisory Services revenues increased 21%, compared with the three months ended June 30, 2016.

Operating expenses were \$170.6 million for the three months ended June 30, 2017, compared with \$147.9 million for the three months ended June 30, 2016, an increase of 15%. Employee compensation and benefits expenses, as a component of operating expenses, were \$145.5 million for the three months ended June 30, 2017, compared with \$121.8 million for the three months ended June 30, 2016, an increase of 19%. The increase in employee compensation and benefits expenses was primarily due to the growth in revenues for the quarter. The Compensation Ratio was 66.9% for the three months ended June 30, 2017, compared with 67.4% for the three months ended June 30, 2016.

Non-compensation expenses, as a component of operating expenses, were \$25.1 million for the three months ended June 30, 2017 and \$26.1 million for the three months ended June 30, 2016. Non-compensation expenses decreased as a result of lower general operating expenses during the three months ended June 30, 2017. Acquisition-related amortization of intangible assets are a component of non-compensation expenses and were \$0.4 million for the three months ended June 30, 2017 and \$1.0 million for the three months ended June 30, 2016.

Other income (expenses), net were \$1.5 million for the three months ended June 30, 2017 and \$(0.9) million for the three months ended June 30, 2016, primarily as a result of a gain related to the reduction of an earnout liability in the current period, in addition to an improvement in the financial results for our joint ventures, lower interest expense as a result of the extinguishment of the ORIX note, and higher interest income on cash balances.

The provision for income taxes for the three months ended June 30, 2017 was \$9.1 million, which reflected an effective tax rate of 18.9%. The provision for income taxes for the three months ended June 30, 2016 was \$12.5 million, which reflected an effective tax rate of 39.3%. The decrease in the effective tax rate was primarily the result of the adoption of ASU No. 2016-09, Compensation - Stock Compensation which resulted in a decrease to the provision for income taxes due to the vesting of share awards that was accelerated on February 14, 2017. The decrease to the provision occurred in the first quarter because the Company’s tax deduction is taken during its tax year that corresponds to the tax year that the employees report the taxable income.

Table of Contents

Business Segments

The following table presents revenues, expenses and contributions from our continuing operations by business segment. The revenues by segment represents each segment's revenues, and the profit by segment represents profit for each segment before corporate expenses, other income (expenses), net, and income taxes.

(\$ in thousands)	Three Months Ended		
	June 30,		
	2017	2016	Change

Number of Closed Transactions/Fee Events⁽⁴⁾

Corporate Finance	52	48	8 %
Financial Restructuring	18	10	80 %
Financial Advisory Services	550	463	19 %

NM = not meaningful

We adjust the compensation expenses for a business segment in situations where an employee assigned to one (1) business segment is performing work in another business segment, and we want to adequately reflect the compensation expenses in the business segment where the revenue is being booked.

Corporate expenses represent expenses that are not allocated to individual business segments such as Office of the (2) Executives, accounting, information technology, compliance, legal, marketing, human capital management and human resources.

(3) As of period end.

(4) Fee Events applicable to FAS only; a Fee Event includes any engagement that involves revenue activity during the measurement period with a revenue minimum of \$1,000.

Three Months Ended June 30, 2017 versus June 30, 2016

Corporate Finance

Revenues for Corporate Finance were \$124.0 million for the three months ended June 30, 2017, compared with \$96.0 million for the three months ended June 30, 2016, representing an increase of 29%. The increase in revenues was driven by an increase in the number of closed transactions, as well as an increase in average transaction fees on closed deals.

CF closed 52 transactions in the three months ended June 30, 2017, versus 48 transactions in the three months ended June 30, 2016.

Segment profit for Corporate Finance was \$41.6 million for the three months ended June 30, 2017, compared with \$23.4 million for the three months ended June 30, 2016. Profitability increased as a result of a decrease in employee compensation and benefits expenses as a percentage of revenues and a decrease in non-compensation expenses as a percentage of revenues.

Table of Contents

Financial Restructuring

Revenues for Financial Restructuring were \$59.0 million for the three months ended June 30, 2017, compared with \$56.3 million for the three months ended June 30, 2016, representing an increase of 5%. The increase in revenues was driven by an increase in the number of closed transactions partially offset by a decline in average transaction fee on closed deals. FR closed 18 transactions in the three months ended June 30, 2017 versus 10 transactions in the three months ended June 30, 2016.

Segment profit for Financial Restructuring was \$10.7 million for the three months ended June 30, 2017, compared with \$16.7 million for the three months ended June 30, 2016, a decrease of 36%. Profitability decreased primarily as a result of an increase in employee compensation and benefits expenses as a percentage of revenues, partially offset by a decrease in non-compensation expenses as a percentage of revenues.

Financial Advisory Services

Revenues for Financial Advisory Services were \$34.5 million for the three months ended June 30, 2017, compared with \$28.4 million for the three months ended June 30, 2016, representing an increase of 21%. The increase in revenues was primarily the result of strong performance by the transaction opinion, transaction advisory services and portfolio valuation product lines. FAS generated 550 fee events in the three months ended June 30, 2017, versus 463 fee events for the three months ended June 30, 2016.

Segment profit for Financial Advisory Services was \$8.5 million for the three months ended June 30, 2017, compared with \$6.7 million for the three months ended June 30, 2016. Profitability increased primarily as a result of higher revenues.

Corporate Expenses

Corporate expenses were \$13.9 million for the three months ended June 30, 2017, compared with \$14.0 million for three months ended June 30, 2016. Corporate expenses remained relatively flat primarily as a result of increased operating efficiencies with increased revenues.

Liquidity and Capital Resources

Our current assets comprise cash, short term investment securities, receivables from affiliates, income tax receivable, accounts receivable and unbilled work in process related to fees earned from providing advisory services. Our current liabilities include deferred income, accounts payable and accrued expenses, including accrued employee compensation expenses and current portion of loan obligations.

Our cash and cash equivalents include cash held at banks. We have not experienced any losses in our cash accounts. We maintain moderate levels of cash on hand in support of regulatory requirements for our registered broker-dealer. At June 30, 2017, we had \$74 million of cash in foreign subsidiaries. In August 2015, prior to the consummation of the IPO, we paid a dividend to our shareholders in connection with which the receivable from ORIX USA was repaid in full. A portion of the dividend was paid to ORIX USA in the form of a \$45.0 million note (the "ORIX Note") that bears interest at an annual rate of LIBOR plus 165 basis points and is payable quarterly. Beginning on June 30, 2016, the Company began making required quarterly repayments of principal in the amount of \$7.5 million, with the remaining principal amount due on the second anniversary of the completion of the IPO. On May 23, 2017, the remaining \$15 million of the ORIX Note was repaid with interest and without penalty. Excess cash on hand in our U.K. subsidiary had been generally maintained in a receivable owned by ORIX Global Capital Ltd. ("OGC"), a U.K. subsidiary of ORIX Corporation (the "Cash Management Agreement"). OGC paid interest to us under the Cash Management Agreement at an annual rate of LIBOR plus 165 basis points, calculated and payable monthly. In May 2016, OGC notified the Company that it will no longer be accepting deposits under the agreement and repaid all outstanding amounts. In June 2017, we began investing our excess cash to generate interest income. Our excess cash may be invested from time to time in short term investments, including treasury securities, commercial paper, certificates of deposit and investment grade corporate debt securities. Please refer to note 5 for further detail.

On November 16, 2015, we issued the loan payable to non-affiliates in connection with the Leonardo transaction, which is a 14.0 million Euro note bearing interest at an annual rate of 1.50% and is payable on November 16, 2040. Under certain circumstances, the note may be paid in part or in whole over a five year period in equal annual

installments. In January 2017, we paid a portion of the loan in the amount of \$2.9 million. The remaining principal balance of the loan as of June 30, 2017 was \$12.1 million, which included foreign currency translation adjustments.

As of June 30, 2017, our unrestricted cash and cash equivalents (including marketable securities) were \$183.2 million. As of June 30, 2017, we no longer had any restricted cash. Previously, proceeds received from the issuance of shares in a secondary public offering were required to be set aside by a contractual agreement with a related party in conjunction with a forward purchase obligation. The restriction lapsed when the related forward purchase liability was paid off on April 5, 2017.

Table of Contents

Our liquidity is highly dependent upon cash receipts from clients which in turn are generally dependent upon the successful completion of transactions as well as the timing of receivable collections, which typically occurs within 60 days of billing. As of June 30, 2017, net accounts receivables were \$62.5 million. As of June 30, 2017, unbilled work in process was \$35.7 million.

We currently maintain a revolving line of credit pursuant to a loan agreement, dated as of August 18, 2015, by and among Houlihan Lokey, certain domestic subsidiaries of Houlihan Lokey party thereto and Bank of America, N.A., which provides for a revolving line of credit of \$75.0 million (the “Revolving Credit Facility”). As of June 30, 2017, there were no outstanding borrowings under the Revolving Credit Facility. Borrowings under the Revolving Credit Facility require payments of interest at the annual rate of LIBOR plus 1.00%. The loan agreement requires compliance with certain loan covenants including but not limited to the maintenance of minimum earnings before interest, taxes, depreciation and amortization of no less than \$120 million as of the end of any quarterly 12-month period and certain leverage ratios including a consolidated leverage ratio of less than 1.50 to 1.00 and a consolidated fixed charge coverage ratio of greater than 1.25 to 1.00, as of the end of any quarterly 12-month period. As of June 30, 2017, we were and we expect to continue to be in compliance with such covenants. On July 28, 2017, we entered into a First Amendment to Credit Agreement which extended the maturity of the revolving line of credit from August 18, 2017 to August 18, 2019, and did not change any other material terms of the Revolving Credit Facility.

Cash Flows

Our operating cash flows are primarily influenced by the amount and timing of receipt of advisory fees and the payment of operating expenses, including payments of incentive compensation to our employees. We pay a significant portion of our incentive compensation during the first and third quarter of each fiscal year. A summary of our operating, investing, and financing cash flows is as follows:

(\$ in thousands)	Three Months Ended		
	June 30, 2017	2016	Change
Cash provided by (used in)			
Operating activities:			
Net income	\$39,244	\$19,411	102 %
Non-cash charges	15,815	14,176	12 %
Other operating activities	(116,014)	(101,363)	14 %
Total operating activities	(60,955)	(67,776)	(10)%
Investing activities	(23,292)	12,454	(287)%
Financing activities	(227,456)	(3,801)	NM
Effects of exchange rate changes on cash, cash equivalents, and restricted cash	2,238	(1,074)	(308)%
Decrease in cash, cash equivalents, and restricted cash	(309,465)	(60,197)	414 %
Cash, cash equivalents, and restricted cash—beginning of year	492,686	166,169	196 %
Cash, cash equivalents, and restricted cash—end of year	\$183,221	\$105,972	73 %

Three Months Ended June 30, 2017

Operating activities resulted in a net outflow of \$61.0 million primarily attributable to cash bonus payments paid in May 2017. Investing activities resulted in a net outflow of \$23.3 million primarily attributable to purchases of investment securities and capital expenditures. Financing activities resulted in a net outflow of \$227.5 million primarily related to dividends paid, a principal payment on the ORIX Note, and the settlement of the Forward Share Purchase Agreement.

Three Months Ended June 30, 2016

Operating activities resulted in a net outflow of \$67.8 million primarily attributable to cash bonus payments paid in April 2016. Investing activities resulted in a net inflow of \$12.5 million primarily attributable to decreases in receivables from affiliates in the U.K. to fund the bonus payments in the U.K., partially offset by capital expenditures.

Financing activities resulted in a net inflow of \$3.8 million primarily related to borrowings on the Revolving Credit Facility, partially offset by dividends paid and a pay down of the ORIX Note.

Table of Contents

Contractual Obligations

The aggregate amount which we are obligated to pay under Operating Leases for our office space has decreased from the amount as of March 31, 2017. At the end of our last fiscal year, the amount due was \$135.9 million and as of June 30, 2017, the amount due was \$132.0 million.

(\$ in thousands)	Payment Due by Period				
	Total	Less than 1 Year	1 to 3 Years	3 to 5 Years	More than 5 Years
Operating Leases	\$ 131,990	\$ 15,299	\$ 40,042	\$ 35,497	\$ 41,152
Loans payable to former shareholders	\$ 5,376	\$ 2,340	\$ 1,643	\$ 856	\$ 537
Loan payable to non-affiliates	\$ 12,127	\$ —	\$ —	\$ —	\$ 12,127

Off Balance Sheet Arrangements

We do not invest in any off-balance sheet vehicles that provide liquidity, capital resources, market or credit risk support, or engage in any activities that expose us to any liability that is not reflected in our consolidated financial statements except for certain stand-by letters of credit and bank guarantees with Bank of America in support of various office leases totaling approximately \$1.6 million.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements and related disclosures in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the period for which they are determined to be necessary.

There have been no material changes to the critical accounting policies disclosed in our Annual Report on Form 10-K for the year ended March 31, 2017.

Recent Accounting Developments

For a discussion of recently issued accounting developments and their impact or potential impact on our consolidated financial statements, see note 2—Summary of Significant Accounting Policies to our unaudited consolidated financial statements included elsewhere in this Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market Risk and Credit Risk

Our business is not capital intensive and we generally do not issue debt or invest in derivative instruments. As a result, we are not subject to significant market risk (including interest rate risk) or credit risk (except in relation to receivables). We maintain our cash and cash equivalents with financial institutions with high credit ratings. Although these deposits are generally not insured, management believes we are not exposed to significant credit risk due to the financial position of the depository institutions in which those deposits are held.

Our cash and cash equivalents are denominated in U.S. dollars, pounds sterling, euros, Hong Kong dollars, Chinese yuan, and Japanese yen and we face foreign currency risk in our cash balances and other assets and liabilities held in accounts outside the United States due to potential currency movements and the associated foreign currency translation accounting requirements.

Risks Related to Cash and Short Term Investments

Our cash is maintained in U.S. and non-U.S. bank accounts, and our excess cash may be invested from time to time in short term investments, including treasury securities, commercial paper, certificates of deposit and investment grade corporate debt securities. We have exposure to foreign exchange risks through all of our international affiliates.

However, we believe our cash and short term investments are not subject to any material interest rate risk, equity price risk, credit risk or other market risk. Consistent with our past practice, we expect to maintain our cash in bank accounts or such short term investments.

Table of Contents

Exchange Rate Risk

The exchange rate of the U.S. dollar relative to the currencies in the non-U.S. countries in which we operate may have an effect on the reported value of our non-U.S. dollar denominated or based assets and liabilities and, therefore, be reflected as a change in other comprehensive income. Our non-U.S. assets and liabilities that are sensitive to exchange rates consist primarily of trade payables and receivables, work in progress, and cash. For the three-month period ended June 30, 2017, the net impact of the fluctuation of foreign currencies in other comprehensive income within the consolidated statements of comprehensive income was \$5.1 million, as compared to \$(3.9) million for the same period in 2016.

In addition, the reported amounts of our revenues and expenses may be affected by movements in the rate of exchange between the currencies in the non-U.S. countries in which we operate and the United States dollar, affecting our operating results. We have analyzed our potential exposure to changes in the value of the U.S. dollar relative to the pound sterling and euro, the primary currencies of our European operations, by performing a sensitivity analysis on our net income, and determined that while our earnings are subject to fluctuations from changes in foreign currency rates, at this time we do not believe we face any material risk in this respect.

From time to time, we have entered into transactions to hedge our exposure to certain foreign currency fluctuations through the use of derivative instruments or other methods. We entered into a foreign currency forward contract against the pound sterling with aggregate notional values of \$0.0 million and \$3.0 million and with fair value representing gains (losses) included in other operating expenses of \$0.0 million and \$(0.2) million during the three months ended June 30, 2017 and 2016, respectively.

In summary, we have been impacted by changes in exchange rates and the potential impact of future currency fluctuation will increase as our international expansion continues. The magnitude of this impact will depend on the timing and volume of revenues and expenses of, and the amounts of assets and liabilities in, our foreign subsidiaries along with the timing of changes in the relative value of the U.S. dollar to the currencies of the non-U.S. countries in which we operate.

Credit Risk

We regularly review our accounts receivable and allowance for doubtful accounts by considering factors such as historical experience, credit quality, age of the accounts receivable and recoverable expense balances, and the current economic conditions that may affect a customer's ability to pay such amounts owed to us. We maintain an allowance for doubtful accounts that, in our opinion, provides for an adequate reserve to cover losses that may be incurred.

Item 4. Controls and Procedures

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating our disclosure controls and procedures, our management, including our chief executive officer and chief financial officer, recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated, as of the end of the period covered by this Quarterly Report on Form 10-Q, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based on that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of June 30, 2017.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) identified in connection with the evaluation of our internal control over financial reporting performed during the fiscal quarter ended June 30, 2017 that has materially affected, or is reasonably likely to

materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we may be subject to legal proceedings and claims in the ordinary course of business. There has been no material change in the nature of our legal proceedings from the descriptions contained in our Annual Report on Form 10-K for the fiscal year ended March 31, 2017.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K for the year ended March 31, 2017.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no unregistered sales of equity securities in the quarter ended June 30, 2017.

Purchases of Equity Securities

The following table summarizes all of the repurchases of Houlihan Lokey, Inc. equity securities during the quarter ended June 30, 2017:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number Of Shares Purchased and Retired As Part Of Publicly Announced Plans Or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
April 1, 2017 - April 30, 2017	71,913	(2)\$25.52	—	
May 1, 2017 - May 31, 2017	—	—	—	
June 1, 2017 - June 30, 2017	166,774	\$34.26	166,774	
Total	238,687	\$31.63	166,774	\$44,234,875

(1) On February 1, 2017, our board of directors approved a Class A common stock share repurchase program pursuant to which we may, from time to time, purchase shares of our Class A common stock having an aggregate purchase price of up to \$50.0 million in open market or negotiated transactions. The shares of Class A common stock repurchased through this program have been retired.

(2) Represents shares of Class B common stock repurchased from a single employee pursuant to a contractual arrangement entered into in connection with a prior acquisition.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

A list of exhibits is set forth on the Exhibit Index immediately following the signature page of this Quarterly Report on Form 10-Q, and is incorporated herein by reference.
