Note 1. Description of Business and Basis of Presentation

Description of Business

The Madison Square Garden Company (together with its subsidiaries, the “Company” or “Madison Square Garden”) is a live sports and entertainment business. The Company classifies its business interests into two reportable segments: MSG Entertainment and MSG Sports. MSG Entertainment includes live entertainment events such as concerts, family shows, performing arts and special events, which are presented or hosted in the Company’s diverse collection of venues along with live offerings through TAO Group Holdings LLC (“TAO Group”) and Boston Calling Events LLC (“BCE”). TAO Group is a hospitality group with globally-recognized entertainment dining and nightlife brands, including: TAO, Marquee, Lavo, Avenue, Beauty & Essex and Vandal. BCE produces New England’s premier live music festival, Boston Calling Music Festival. The MSG Entertainment segment also includes the Company’s original production — the Christmas Spectacular Starring the Radio City Rockettes (the “Christmas Spectacular”) — and Obscura Digital (“Obscura”), a creative studio, which the Company acquired in November 2017.

MSG Sports includes the Company’s professional sports franchises: the New York Knicks (the “Knicks”) of the National Basketball Association (the “NBA”), the New York Rangers (the “Rangers”) of the National Hockey League (the “NHL”), the Hartford Wolf Pack of the American Hockey League (the “AHL”) and the Westchester Knicks of the NBA G League (the “NBAGL”). The professional sports franchises are collectively referred to herein as “the sports teams.” For all periods presented, MSG Sports also included the New York Liberty (the “Liberty”) of the Women’s National Basketball Association (the “WNBA”), which was sold in January 2019 (see Note 19). The MSG Sports segment also includes other live sporting events, including professional boxing, college basketball, college hockey, professional bull riding, mixed martial arts, esports, tennis and college wrestling, all of which the Company promotes, produces and/or presents. In addition, the MSG Sports segment includes Counter Logic Gaming (“CLG”), a premier North American esports organization, which the Company acquired in July 2017, and Knicks Gaming, the Company’s franchise that competes in the NBA 2K League. CLG and Knicks Gaming are collectively referred to herein as “the esports teams,” and together with the sports teams, “the teams.”

The Company conducts a significant portion of its operations at venues that it either owns or operates under long-term leases. The Company owns the Madison Square Garden Arena (“The Garden”) and Hulu Theater at Madison Square Garden in New York City, the Forum in Inglewood, CA and The Chicago Theatre in Chicago. In addition, the Company leases Radio City Music Hall and the Beacon Theatre in New York City, and has a booking agreement with respect to the Wang Theatre in Boston. Additionally, TAO Group operates various restaurants, nightlife and hospitality venues under long-term leases and management contracts in New York, Las Vegas, Los Angeles, Chicago, Australia and Singapore.

The Company was incorporated on March 4, 2015 as an indirect, wholly-owned subsidiary of MSG Networks Inc. (“MSG Networks”), formerly known as The Madison Square Garden Company. On September 11, 2015, MSG Networks’ board of directors approved the distribution of all the outstanding common stock of Madison Square Garden to MSG Networks’ stockholders (the “2015 Distribution”), which occurred on September 30, 2015. See Note 1 to the consolidated financial statements included in the Company’s Annual Report on Form 10-K for the year ended June 30, 2018 for more information regarding the 2015 Distribution to its common stockholders.

Potential Spin-off Transaction

On June 27, 2018, the Company announced that its board of directors (“Board”) has authorized the Company’s management to explore a possible spin-off that would create a separately-traded public company comprised of its sports businesses, including the New York Knicks and New York Rangers professional sports franchises (the “Sports Distribution”). On October 4, 2018, in connection with the Sports Distribution, a subsidiary of the Company submitted an initial Registration Statement on Form 10 with the U.S. Securities and Exchange Commission (“SEC”) (which has

been amended). If the Company proceeds with the Sports Distribution, it would be structured as a tax-free transaction to the Company's stockholders. Upon completion of the contemplated separation, record holders of the Company's common stock would receive a pro-rata distribution, expected to be equivalent, in the aggregate, to an approximately two-thirds economic interest in the sports company. The remaining common stock, expected to be equivalent to an approximately one-third economic interest in the sports company, would be retained by the Company. There can be no assurance that the proposed transaction will be completed in the manner described above, or at all. The Company's management is working to complete the proposed transaction in the second half of calendar year 2019. Completion of the transaction would be subject to various conditions, including certain league approvals, a private letter ruling

from the Internal Revenue Service (“IRS”), receipt of a tax opinion from counsel and final Board approval. The Company will maintain the current operating structure and will continue to report the financial results of its sports business in continuing operations until the Sports Distribution is completed.

Basis of Presentation

The accompanying unaudited consolidated interim financial statements (referred to as the “Financial Statements” herein) have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission (“SEC”) for interim financial information, and should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended June 30, 2018 (“fiscal year 2018”). The Financial Statements presented in this Quarterly Report on Form 10-Q are unaudited; however, in the opinion of management, the Financial Statements reflect all adjustments, consisting solely of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods presented. The results of operations for the periods presented are not necessarily indicative of the results that might be expected for future interim periods or for the full year. The dependence of the MSG Entertainment segment on revenues from the Christmas Spectacular generally means it earns a disproportionate share of its revenues in the second quarter of the Company’s fiscal year. The dependence of the MSG Sports segment on revenues from its NBA and NHL sports teams generally means it earns a disproportionate share of its revenues in the second and third quarters of the Company’s fiscal year. This impact will be more significant as a result of the adoption of ASC Topic 606 (as defined below).

Reclassifications

Certain reclassifications have been made in order to conform to the current period’s presentation. The reclassifications primarily relate to: (i) the presentation in the consolidated statement of cash flows for the prior year period in connection with the adoption of Accounting Standards Update (“ASU”) No. 2016-18, Statement of Cash Flows: Restricted Cash, (ii) the presentation of the non-service cost components of net periodic pension and postretirement benefit cost in the consolidated statement of operations for the prior year period in connection with the adoption of ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, (iii) segregation of amounts due to promoters from deferred revenue in connection with the adoption of Accounting Standards Codification (“ASC”) Topic 606, Revenue from Contracts with Customers (Topic 606) (referred to herein as “ASC Topic 606”), and (iv) an indefinite-lived intangible asset that was previously reported under other assets. See Note 2 for further details related to the adoption of ASU No. 2016-18, ASU No. 2017-07 and ASC Topic 606.

Note 2. Accounting Policies

Principles of Consolidation

The consolidated financial statements of the Company include the accounts of The Madison Square Garden Company and its subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation. In addition, the consolidated financial statements of the Company include the accounts from TAO Group, BCE and CLG, in which the Company has controlling voting interests. The Company’s consolidation criteria are based on authoritative accounting guidance for voting interest, controlling interest or variable interest entities. TAO Group, BCE and CLG are consolidated with the equity owned by other shareholders shown as redeemable or nonredeemable noncontrolling interests in the accompanying consolidated balance sheets, and the other shareholders’ portion of net earnings (loss) and other comprehensive income (loss) shown as net income (loss) or comprehensive income (loss) attributable to redeemable or nonredeemable noncontrolling interests in the accompanying consolidated statements of operations and consolidated statements of comprehensive income (loss), respectively. See Note 2 to the consolidated financial statements included in the Company’s Annual Report on Form 10-K for the year ended June 30, 2018 for more information regarding the classification of redeemable noncontrolling interests of TAO Group. In addition, TAO

Group's results are reported on a three-month lag basis and TAO Group reports on a fiscal year reflecting the retail-based calendar (containing 4-4-5 week calendar quarters). Accordingly, the Company's results for the three months ended December 31, 2018 and 2017 include TAO Group's operating results from July 2, 2018 to September 30, 2018 and June 26, 2017 to September 24, 2017, respectively and the Company's results for the six months ended December 31, 2018 and 2017 include TAO Group's operating results from April 2, 2018 to September 30, 2018 and March 27, 2017 to September 24, 2017, respectively.

Use of Estimates

The preparation of the accompanying Financial Statements in conformity with GAAP requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amount of assets and liabilities reported, disclosures about contingent assets and liabilities, and reported amounts of revenues and expenses. Such estimates include the valuation of accounts receivable, investments, goodwill, intangible assets, other long-lived assets, tax accruals and other liabilities. In addition, estimates are used in revenue recognition, revenue sharing expense (net of escrow), luxury tax, income tax, performance and share-based compensation, depreciation and amortization, litigation matters and other matters, as well as in the valuation of contingent consideration and noncontrolling interests resulting from business combination transactions. Management believes its use of estimates in the Financial Statements are reasonable.

Management evaluates its estimates on an ongoing basis using historical experience and other factors, including the general economic environment and actions it may take in the future. The Company adjusts such estimates when facts and circumstances dictate. However, these estimates may involve significant uncertainties and judgments and cannot be determined with precision. In addition, these estimates are based on management's best judgment at a point in time and, as such, these estimates may ultimately differ from actual results. Changes in estimates resulting from weakness in the economic environment or other factors beyond the Company's control could be material and would be reflected in the Company's financial statements in future periods.

Summary of Significant Accounting Policies

The following is an update to the Company's Summary of Significant Accounting Policies disclosed in its Annual Report on Form 10-K for the year ended June 30, 2018:

Revenue Recognition

Amounts due to third-party promoters of \$89,513, which were previously reported as Deferred revenue in the accompanying consolidated balance sheet as of June 30, 2018, are now reported as Collections due to promoters in the accompanying consolidated balance sheet. In addition, see Recently Adopted Accounting Pronouncements below for disclosure related to the transitional impact of adopting ASC Topic 606 and Note 3 for other disclosure required under ASC Topic 606.

Recently Issued Accounting Pronouncements

Recently Adopted Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC Topic 605, Revenue Recognition. Subsequently, the FASB issued various updates related to ASC Topic 606 including: (i) ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, (ii) ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606), Principal versus Agent Considerations (Reporting Revenue versus Net), (iii) ASU No. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing, (iv) ASU No. 2016-12, Revenue from Contracts with Customers (Topic 606) - Narrow-Scope Improvements and Practical Expedients, and (v) ASU No. 2016-20, Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers. The Company adopted ASC Topic 606 in the first quarter of fiscal year 2019 using the modified retrospective method for those contracts with customers which were not completed as of July 1, 2018. Results for reporting periods beginning after July 1, 2018 are presented under ASC Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with the historic accounting guidance under ASC Topic 605.

As a result of the adoption of ASC Topic 606, the Company now accounts for its performance obligations under suite license arrangements as a series and as a result, the related suite license fees for all years during the license term are aggregated for each license agreement and revenue is recognized proportionately when the underlying events at The Garden take place, as opposed to previously being recognized on a straight-line basis over the fiscal year under the prior standard.

In addition, the majority of the Company's local media rights revenue is now recognized over the course of the teams' regular seasons, which reflects the Company's progress towards satisfaction of its performance obligations under such arrangements, as opposed to previously being recognized on a straight-line basis over the fiscal year under the prior standard.

(Continued)

The Company also enters into arrangements with multiple performance obligations, such as multi-year sponsorship agreements. To the extent these arrangements provide for performance obligations that are consistent over the multi-year contractual term, such performance obligations generally meet the definition of a series as provided for under the provisions of ASC Topic 606. As a result, the contractual fees for all years during the contract term are aggregated and the related revenue is recognized proportionately as the underlying performance obligations are satisfied. In general, sponsorship revenue was previously recognized by treating each year of the arrangement as a discrete contract year, and as such the stated contract price was recognized in each year.

Furthermore, the timing of certain fulfillment costs associated with performance obligations, primarily professional sports teams' operating expenses, were also similarly impacted within the fiscal year.

The adoption of ASC Topic 606 had the following impact on revenues, operating expenses and operating income for the three and six months ended December 31, 2018:

	Three Months Ended December 31, 2018		
	As reported under ASC Topic 606	Changes due to the adoption of ASC Topic 606 (a)	Amounts without adoption of ASC Topic 606

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments — Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, which addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. This standard, among other things, (i) requires equity investments, with certain exceptions, to be measured at fair value with changes in fair value recognized in net income and (ii) simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. In February 2018, the FASB issued ASU No. 2018-03, Technical Corrections and Improvements to Financial Instruments Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, which clarifies certain aspects of the guidance issued in ASU No. 2016-01. Among other things, the amendment clarifies that an entity that uses the measurement alternative for equity securities without readily determinable fair values can change its measurement approach to fair value. Once the election is made, the measurement approach is irrevocable and the entity is required to apply the selected approach to that security and all identical or similar investments of the same issuer. This change in accounting is expected to create greater volatility in the Company's miscellaneous income (expense) in the future. The primary impact of the

adoption of ASU No. 2016-01 and ASU No. 2018-03 relate to the Company's available-for-sale equity investment and resulted in unrecognized gains and losses from such investment being reflected in the Company's consolidated statements of operations beginning in fiscal year 2019. The Company adopted ASU No. 2016-01 and ASU No. 2018-03 in the first quarter of fiscal year 2019 and recorded a cumulative-effect adjustment to the balance sheet by reclassifying the balance of the Accumulated other comprehensive loss to Accumulated deficit of \$5,570 including income tax expense effect of \$3,104. See Notes 7 and 10 for more information on the Company's equity investment with readily determinable fair value in Townsquare Media, Inc. ("Townsquare").

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230). ASU No. 2016-15 addresses eight specific cash flow issues and is intended to reduce diversity in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The Company adopted this standard in the first quarter of fiscal year 2019 retrospectively. The adoption of this standard did not have an impact on the Company's consolidated financial statements.

In October 2016, the FASB issued ASU No. 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory. ASU No. 2016-16 requires the recognition of income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. The Company adopted this standard in the first quarter of fiscal year 2019 on a modified retrospective basis. The adoption of this standard did not have an impact on the Company's consolidated financial statements.

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows: Restricted Cash. The primary purpose of ASU No. 2016-18 is to reduce diversity in the classification and presentation of changes in restricted cash on the statement of cash flows. This standard requires that a statement of cash flows explains the change during the period in total cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The Company adopted this standard in the first quarter of fiscal year 2019 retrospectively and it resulted in a decrease to net cash flows provided by operating activities of \$10,668 for the six months ended December 31, 2017. See Note 6 for a reconciliation of the cash, cash equivalents and restricted cash reported in the Company's consolidated balance sheets to the amounts as reported on the consolidated statements of cash flows.

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations (Topic 805) Clarifying the Definition of a Business. The primary purpose of this ASU is to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses, which will affect many areas of accounting, including acquisitions, disposals, goodwill, and consolidation. The Company adopted this standard in the first quarter of fiscal year 2019. The adoption of this standard did not have an impact on the Company's consolidated financial statements.

In March 2017, the FASB issued ASU No. 2017-07, Compensation — Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. ASU No. 2017-07 requires employers to disaggregate the service cost component from the other components of net benefit cost and disclose by line item the amount of net benefit cost that is included in the statement of operations or capitalized in assets. The standard requires employers to report the service cost component in the same line item(s) as other compensation costs arising from services rendered by the pertinent employees during the period and to report other components of net benefit cost separately and outside the subtotal of operating income. The standard also allows only the service cost component to be eligible for capitalization. The guidance requires application on a retrospective basis for the presentation of the service cost component and the other components of net benefit cost in the statements of operations and on a prospective basis for the capitalization of the service cost component of net benefit cost in assets. The Company adopted this standard in the first quarter of fiscal year 2019 retrospectively and elected the practical expedient allowed by ASU No. 2017-07 to utilize amounts disclosed in the Company's pension plans and other postretirement benefit plan (see Note 12) for the prior comparative period as the estimation basis for applying the retrospective presentation requirements. As a result, the Company recorded a prior period adjustment in the accompanying consolidated statements of operations for the three months ended December 31, 2017 to decrease Direct operating expenses and Selling, general and administrative expenses by \$267 and \$711, respectively, which

was related to the non-service cost components of net periodic pension and postretirement benefit cost, with a corresponding adjustment of \$978 in Miscellaneous expense, net. For the six months ended December 31, 2017, the Company recorded a prior period adjustment in the accompanying consolidated statements of operations to decrease Direct operating expenses and Selling, general and administrative expenses by \$523 and \$1,465, respectively, which was related to the non-service cost components of net periodic pension and postretirement benefit cost, with a corresponding adjustment of \$1,988 in Miscellaneous expense, net.

For the three and six months ended December 31, 2018, the non-service cost components of net periodic pension and postretirement benefit cost included under Miscellaneous expense, net in the accompanying consolidated statements of operations was \$1,074 and \$2,151.

Recently Issued Accounting Pronouncements Not Yet Adopted

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which supersedes existing guidance on accounting for leases in ASC Topic 840, Leases. ASU No. 2016-02, among other things, (i) requires lessees to account for leases as either finance leases or operating leases and generally requires all leases to be recorded on the balance sheet, including those leases classified as operating leases under previous accounting guidance, through the recognition of right-of-use assets and corresponding lease liabilities, and (ii) requires extensive qualitative and quantitative disclosures about leasing activities. The accounting applied by a lessor is largely unchanged from that applied under previous accounting guidance. In January 2018, the FASB issued ASU No. 2018-01, Leases (Topic 842) — Land Easement Practical Expedient for Transition to Topic 842, which provides a lessee or lessor the option to not assess at transition whether existing land easements, not currently accounted for as leases under the current lease guidance, should be treated as leases under the new standard. In July 2018, the FASB issued ASU No. 2018-10, Codification Improvements to Topic 842, Leases and ASU No. 2018-11, Leases (Topic 842) Targeted improvements, which provides an additional (and optional) transition method whereby the new lease standard is applied at the adoption date and recognized as an adjustment to retained earnings. The effective date and transition requirements for ASU No. 2018-01, ASU No. 2018-10 and ASU No. 2018-11 are the same as ASU No. 2016-02. This standard, as amended, will be effective for the Company beginning in the first quarter of fiscal year 2020 and is required to be applied using the modified retrospective approach for all leases existing as of the effective date. Early adoption is permitted; however, the Company currently does not plan to adopt this standard early. The Company's evaluation of the impact this standard will have on its consolidated financial statements is ongoing. Based on efforts to date, the adoption of the standard will result in the recognition of right of use assets and lease liabilities related to the Company's operating leases.

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments — Credit Losses. ASU No. 2016-13 replaces the incurred loss impairment methodology in current U.S. GAAP with a methodology that will require the reflection of expected credit losses and will also require consideration of a broader range of reasonable and supportable information to determine credit loss estimates. For most financial instruments, the standard will require the use of a forward-looking expected loss model rather than the incurred loss model for recognizing credit losses, which will generally result in the earlier recognition of credit losses on financial instruments. This standard will be effective for the Company beginning in the first quarter of fiscal year 2021, with early adoption permitted. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, Intangibles — Goodwill and Other (Topic 350): Simplifying the Accounting for Goodwill Impairment. ASU No. 2017-04 removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. A goodwill impairment will now be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. This standard will be effective for the Company beginning in the first quarter of fiscal year 2021 and is required to be applied prospectively. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

In June 2018, the FASB issued ASU No. 2018-07, Compensation — Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting, which expands the scope of ASC Topic 718 to include all share-based payment transactions for acquiring goods and services from nonemployees. ASU No. 2018-07 specifies that ASC Topic 718 applies to all share-based payment transactions in which the grantor acquires goods and services to be used or consumed in its own operations by issuing share-based payment awards. ASU No. 2018-07 also clarifies that ASC Topic 718 does not apply to share-based payments used to effectively provide (i) financing to the issuer or

(ii) awards granted in conjunction with selling goods or services to customers as part of a contract accounted for under ASC Topic 606. This standard will be effective for the Company beginning in the first quarter of fiscal year 2020, with early adoption permitted, but no earlier than the adoption of ASC Topic 606. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

In August 2018, the FASB issued ASU No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework — Changes to the Disclosure Requirements for Fair Value Measurement as part of the FASB's broader disclosure framework project. ASU No. 2018-13 removes, modifies and adds certain disclosures providing greater focus on requirements that clearly communicate the most important information to the users of the financial statements with respect to fair value measurements. The standard is effective for the Company beginning in the first quarter of fiscal year 2021, with early adoption permitted. Most of the disclosure requirements in ASU No. 2018-13 would need to be applied on a retrospective basis except for the guidance related to (i) unrealized gains and loss included in other comprehensive income, (ii) disclosure related to range and weighted average

Level 3 unobservable inputs and (iii) narrative disclosure requirements on measurement uncertainty, which are required to be applied on a prospective basis. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

In August 2018, the FASB issued ASU No. 2018-14, Compensation-Retirement Benefits-Defined Benefit Plans — General (Subtopic 715-20): Disclosure Framework-Changes to the Disclosure Requirements for Defined Benefit Plans. ASU No. 2018-14 removes certain disclosures that are not considered cost beneficial, clarifies certain required disclosures and adds additional disclosures. The standard will be effective for the Company in the fourth quarter of fiscal year 2020, with early adoption permitted. The amendments in ASU No. 2018-14 are required to be applied retrospectively. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

In August 2018, the FASB issued ASU No. 2018-15, Intangibles — Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That is a Service Contract. ASU No. 2018-15 aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The guidance also specifies that the balance sheet, income statement, and statement of cash flows presentation of capitalized implementation costs and the related amortization should align with the presentation of the hosting (service) element of the arrangement. The standard is effective for the Company in the first quarter of fiscal year 2021, with early adoption permitted. Entities have the option to apply the guidance prospectively to all implementation costs incurred after the date of adoption or retrospectively. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

In November 2018, the FASB issued ASU No. 2018-17, Targeted Improvements to Related Party Guidance for Variable Interest Entities. ASU No. 2018-17 amends the variable interest entities (“VIE”) guidance to align the evaluation of a decision maker's or service provider's fee in assessing a variable interest with the guidance in the primary beneficiary test. Specifically, indirect interests held by a related party that is under common control will now be considered on a proportionate basis, rather than in their entirety, when assessing whether the fee qualifies as a variable interest. The proportionate basis approach is consistent with the treatment of indirect interests held by a related party under common control when evaluating the primary beneficiary of a VIE. This effectively means that when a decision maker or service provider has an interest in a related party, regardless of whether they are under common control, it will consider that related party's interest in a VIE on a proportionate basis throughout the VIE model, for both the assessment of a variable interest and the determination of a primary beneficiary. The standard will be effective for the Company in the first quarter of fiscal year 2021, with early adoption permitted. The amendments in ASU No. 2018-17 are required to be applied retrospectively. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

In November 2018, the FASB issued ASU No. 2018-18, Collaborative Arrangements (Topic 808): Clarifying the Interaction between Topic 808 and Topic 606. ASU No. 2018-18 clarifies that certain transactions between participants in a collaborative arrangement should be accounted for under ASC Topic 606 when the counterparty is a customer. In addition, ASU No. 2018-18 precludes an entity from presenting consideration from a transaction in a collaborative arrangement as revenue from contracts with customers if the counterparty is not a customer for that transaction. The standard will be effective for the Company in the first quarter of fiscal year 2021, with early adoption permitted. The amendments in ASU No. 2018-18 are required to be applied retrospectively to the date when the Company initially adopted ASC Topic 606. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

Note 3. Revenue Recognition

Contracts with Customers

All revenue recognized in the consolidated statements of operations is considered to be revenue from contracts with customers in accordance with ASC Topic 606. For the three and six months ended December 31, 2018, the Company did not have any impairment losses on receivables or contract assets arising from contracts with customers.

The Company recognizes revenue when, or as, performance obligations under the terms of a contract are satisfied, which generally occurs when, or as, control of promised goods or services are transferred to customers. Revenue is measured as the amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services (“transaction price”). To the extent the transaction price includes variable consideration, the Company estimates the amount of variable consideration that should be included in the transaction price utilizing the most likely amount to which the Company expects to be entitled. Variable consideration is included in the transaction price if, in the Company’s judgment, it is probable

Table of Contents

THE MADISON SQUARE GARDEN COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Continued)

that a significant future reversal of cumulative revenue under the contract will not occur. Estimates of variable consideration and the determination of whether to include such estimated amounts in the transaction price are based largely on an assessment of the Company's anticipated performance and all information that is reasonably available. The Company accounts for taxes collected from customers and remitted to governmental authorities on a net basis and excludes these amounts from revenues.

In addition, the Company defers certain costs to fulfill the Company's contracts with customers to the extent such costs relate directly to the contracts, are expected to generate resources that will be used to satisfy the Company's performance obligations under the contracts and are expected to be recovered through revenue generated under the contracts. Contract fulfillment costs are expensed as the Company satisfies the related performance obligations.

Arrangements with Multiple Performance Obligations

The Company has arrangements with multiple performance obligations, such as multi-year sponsorship agreements which may derive revenues for each of the Company's segments within a single arrangement. Payment terms for such arrangements can vary by contract, but payments are generally due in installments throughout the contractual term. The performance obligations included in each sponsorship agreement vary and may include various advertising benefits such as, but not limited to, signage at The Garden and the Company's other venues, digital advertising, event or property specific advertising, as well as non-advertising benefits such as suite licenses and event tickets. To the extent the Company's multi-year arrangements provide for performance obligations that are consistent over the multi-year contractual term, such performance obligations generally meet the definition of a series as provided for under the accounting guidance. If performance obligations are concluded to meet the definition of a series, the contractual fees for all years during the contract term are aggregated and the related revenue is recognized proportionately as the underlying performance obligations are satisfied.

The timing of revenue recognition for each performance obligation is dependent upon the facts and circumstances surrounding the Company's satisfaction of its respective performance obligation. The Company allocates the transaction price for such arrangements to each performance obligation within the arrangement based on the estimated relative standalone selling price of the performance obligation. The Company's process for determining its estimated standalone selling prices involves management's judgment and considers multiple factors including company specific and market specific factors that may vary depending upon the unique facts and circumstances related to each performance obligation. Key factors considered by the Company in developing an estimated standalone selling price for its performance obligations include, but are not limited to, prices charged for similar performance obligations, the Company's ongoing pricing strategy and policies, and consideration of pricing of similar performance obligations sold in other arrangements with multiple performance obligations.

The Company may incur costs such as commissions to obtain its multi-year sponsorship agreements. The Company assesses such costs for capitalization on a contract by contract basis. To the extent costs are capitalized, the Company estimates the useful life of the related contract asset which may be the underlying contract term or the estimated customer life depending on the facts and circumstances surrounding the contract. The contract asset is amortized over the estimated useful life.

Principal versus Agent Revenue Recognition

The Company reports revenue on a gross or net basis based on management's assessment of whether the Company acts as a principal or agent in the transaction. The determination of whether the Company acts as a principal or an agent in a transaction is based on an evaluation of whether the Company controls the good or service before transfer to the customer. When the Company concludes that it controls the good or service before transfer to the customer, the Company is considered a principal in the transaction and records revenue on a gross basis. When the Company concludes that it does not control the good or service before transfer to the customer but arranges for another entity to

provide the good or service, the Company acts as an agent and records revenue on a net basis in the amount it earns for its agency service.

In connection with the 2015 Distribution, the Company entered into an advertising sales representation agreement with MSG Networks. Pursuant to the agreement, the Company has the exclusive right and obligation to sell advertising on behalf of MSG Networks. The Company is entitled to and earns commission revenue as the advertisements are aired on MSG Networks. Since the Company acts as an agent, the Company recognizes the advertising commission revenue on a net basis.

The Company's revenue recognition policies that summarize the nature, amount, timing and uncertainty associated with each of the Company's revenue sources are discussed further in each respective segment discussion below.

MSG Entertainment

The Company's MSG Entertainment segment earns event related revenues principally from the sale of tickets for events that the Company produces or promotes/co-promotes, and from venue license fees charged to third-party promoters for events held at the Company's venues that MSG Entertainment does not produce or promote/co-promote. The Company's performance obligations with respect to event-related revenues from the sale of tickets, venue license fees from third-party promoters, sponsorships, concessions and merchandise are satisfied at the point of sale or as the related event occurs.

MSG Entertainment's revenues also include revenue from the license of The Garden's suites. Suite license arrangements are generally multi-year fixed-fee arrangements that include annual fee increases. Payment terms for suite license arrangements can vary by contract, but payments are generally due in installments prior to each license year. The Company's performance obligation under such arrangements is to provide the licensee with access to the suite when events occur at The Garden. The Company accounts for the performance obligation under these types of arrangements as a series and, as a result, the related suite license fees for all years during the license term are aggregated and revenue is recognized proportionately over the license period as the Company satisfies the related performance obligation. Progress toward satisfaction of the Company's annual suite license performance obligations is measured as access to the suite is provided to the licensee for each event throughout the contractual term of the license.

The Company's MSG Entertainment segment also earns revenues from the sale of advertising in the form of venue signage and other forms of sponsorship, which are not related to any specific event. The Company's performance obligations with respect to this advertising are satisfied as the related benefits are delivered over the term of the respective agreements.

Revenues from dining, nightlife and hospitality offerings through TAO Group are recognized when food, beverages and/or services are provided to the customer as that is the point in which the related performance obligation is satisfied. In addition, management fee revenues which are earned in accordance with specific venue management agreements are recorded over the period in which the management services are performed as such depicts the measure of progress toward satisfaction of the Company's venue management performance obligations.

Amounts collected in advance of the Company's satisfaction of its contractual performance obligations are recorded as a contract liability within deferred revenue and are recognized as the Company satisfies the related performance obligations. Amounts collected in advance of events for which the Company is not the promoter or co-promoter do not represent contract liabilities and are recorded as collections due to promoters on the balance sheet.

MSG Sports

The Company's professional sports teams derive event-related revenues principally from ticket sales which are recognized as the related games occur. MSG Sports revenues also include revenue from the license of The Garden's suites. Suite license arrangements are generally multi-year fixed fee arrangements that include annual fee increases. Payment terms for suite license arrangements can vary by contract, but payments are generally due in installments prior to each license year. The Company's performance obligation under such arrangements is to provide the licensee with access to the suite when events occur at The Garden. The Company accounts for the performance obligation under these types of arrangements as a series and, as a result, the related suite license fees for all years during the license term are aggregated and revenue is recognized proportionately over the license period as the Company satisfies the related performance obligation. Progress toward satisfaction of the Company's suite license performance obligations is measured as access to the suite is provided to the licensee for each event throughout the contractual term of the license.

In addition to event-related revenue, MSG Sports maintains local media rights arrangements which provide for the licensing of team-related programming to MSG Networks. MSG Sports, pursuant to the terms of the agreements, receives such rights fees in equal monthly installments throughout each license year. The transaction price under these arrangements is variable in nature as certain credit provisions exist to the extent that the teams' games are unavailable for broadcast during an individual league season. The Company estimates the transaction price at the beginning of each fiscal year, which coincides with the annual contractual term. In estimating the transaction price, the Company considers the contractually agreed upon license fees as well as qualitative considerations with respect to the number of games expected to be available for broadcast by MSG Networks over the upcoming year. The resulting transaction price is allocated entirely to the rights provided for the related contract year and revenue is recognized using an output measure of progress toward satisfaction of the Company's performance obligations within the contract year, as the underlying benefits are conveyed to the licensee.

The Company's professional sports teams also derive revenue from the distribution of league-wide national and international television contracts and other league-wide revenue sources. The transaction price for each of these revenues is based upon the expected distribution values as communicated by the applicable league. The timing of revenue recognition is dependent on the nature of the underlying performance obligation, which is generally over time. Receipt of league-wide revenues generally occurs at the time of communication or according to a specified timeline.

MSG Sports also earns revenues from the sale of advertising in the form of venue signage and sponsorships, which are not related to any specific event. The Company's performance obligations with respect to this advertising are satisfied as the related benefits are delivered over the term of the respective agreements.

The Company's MSG Sports segment also derives revenue from live sporting events not related to the Company's teams. The Company's performance obligations with respect to event-related revenues from other live sporting events, including the sale of tickets, venue license fees earned in connection with other live sporting events that the Company does not produce or promote, sponsorships, concessions and merchandise are satisfied at the point of sale or as the related event occurs.

Amounts collected in advance of the Company's satisfaction of its contractual performance obligations are recorded as a contract liability within deferred revenue and are recognized as the Company satisfies the related performance obligations. Amounts collected in advance of events for which the Company is not the promoter or co-promoter do not represent contract liabilities and are recorded as collections due to promoters on the balance sheet.

Disaggregation of Revenue

The following table disaggregates the Company's revenue by major source and reportable segment based upon the timing of transfer of goods or services to the customer for the three and six months ended December 31, 2018:

Contract Balances

The timing of revenue recognition, billings and cash collections results in billed receivables, contract assets and contract liabilities on the consolidated balance sheet. The following table provides information about contract balances from the Company's contracts with customers as of December 31, 2018 and July 1, 2018.

	December 31, 2018	July 1, 2018
Accounts receivable, net ^(a)	\$ 157,310	\$ 100,725
Contract assets, current ^(b)	10,460	4,366
Deferred revenue, including non-current portion ^(c)	307,770	304,501

^(a) Accounts receivable represent the Company's unconditional rights to consideration under its contracts with customers.

Contract assets, which are reported as Other current assets in the Company's consolidated balance sheets, primarily relate to the Company's rights to consideration for goods or services transferred to the customer, for which the Company does not have an unconditional right to bill as of the reporting date. Contract assets are transferred to accounts receivable, net, once the Company's right to consideration becomes unconditional.

Deferred revenue primarily relates to the Company's receipt of consideration from a customer in advance of the Company's transfer of goods or services to that customer. Deferred revenue is reduced and the related revenue is recognized once the underlying goods or services are transferred to the customer. Revenue recognized for the six months ended December 31, 2018 relating to the deferred revenue balance as of July 1, 2018 was \$224,091.

Transaction Price Allocated to the Remaining Performance Obligations

The following table depicts the estimated revenue expected to be recognized in the future related to performance obligations that are unsatisfied (or partially unsatisfied) as of December 31, 2018. In developing the estimated revenue, the Company applies the allowable practical expedient and does not disclose information about remaining performance obligations that have original expected durations of one year or less. Additionally, the Company has elected to exclude variable consideration from its disclosure related to the remaining performance obligations under its local media rights arrangements with MSG Networks.

In connection with the Company's investment in Tribeca Enterprises, the Company provides a \$17,500 revolving credit facility to Tribeca Enterprises. Pursuant to the terms, the Tribeca Enterprises revolving credit facility will be terminated on June 30, 2021. The loan outstanding include payments-in-kind ("PIK") interest of \$2,745 and \$2,025 as of December 31, 2018 and June 30, 2018, respectively. PIK interest owed does not reduce the availability under the revolving credit facility. The \$17,500 Tribeca Enterprises revolving credit facility was fully drawn as of December 31, 2018 and June 30, 2018.

In accordance with the ASU No. 2016-01 and ASU No. 2018-03, that were adopted on July 1, 2018, the cost method accounting for equity investments was eliminated. Such investments are required to be presented at fair value. The Company has elected to account for its equity securities without readily determinable fair values that are carried at cost, adjusted for impairment and changes resulting from observable price fluctuations in orderly transactions for the identical or a similar investment of the same issuer ("Measurement Alternative"). The Company applies the Measurement Alternative, which is classified within Level III of the fair value hierarchy, on its equity investments without readily determinable fair values as of December 31, 2018 and July 1, 2018 and did not identify any adjustments.

On December 5, 2018, the Company sold its 50% interest in AMSGE (renamed The Azoff Company) joint venture for \$125,000 to The Azoff Company Holdings ("Azoff Music"). The Company recorded a gain on the sale of its interest in AMSGE of \$3,259 (net of transaction costs of \$2,251), which is reported in Earnings (loss) in equity method investments in the accompanying consolidated statements of operation for the three and six months ended December 31, 2018. The \$63,500 outstanding under the revolving credit facility previously extended by the Company to AMSGE was also converted to a subordinated term loan with a maturity date of September 20, 2021. This

subordinated term loan was assumed by The Azoff Company Equity LLC, a newly-formed holding company that owns, directly or indirectly, the investments previously owned by AMSGE. This subordinated term loan bears interest at a floating rate, which at the option of The Azoff Company Equity LLC, is either (i) a base rate plus a margin of 1.25% per annum or (ii) six-month LIBOR plus a margin of 2.25% per annum. Azoff Music directly or through its affiliates will continue to provide consulting services to the Company, including with respect to

the Forum and other venues (including MSG Spheres). See Note 10 for more information on this subordinated term loan receivable.

In July 2018, the Company acquired a 30% interest in SACO, a global provider of high-performance LED video lighting and media solutions for a total consideration of approximately \$47,244. The Company plans to utilize SACO as a preferred display technology provider for MSG Spheres and benefit from agreed upon commercial terms. The total consideration consisted of a \$42,444 payment at closing and a \$4,800 deferred payment, which was made in October 2018. As of the acquisition date, the carrying amount of the investment was greater than the Company's equity interest in the underlying net assets of SACO. As such, the Company allocated the difference to amortizable intangible assets of \$25,350 and is amortizing these intangible assets on a straight-line basis over the expected useful lives ranging from 6 to 12 years.

Summarized Financial Information of Equity Method Investees

The amounts for three and six months ended December 31, 2018 presented above include five and eight months of ^(b) results of operations, respectively, which correspond to the Company's recognition of earnings from this equity method investee.

Equity Investment with Readily Determinable Fair Value

In addition to the investments discussed above, the Company holds an investment of 3,208 shares of the common stock of Townsquare. Townsquare is a leading media, entertainment and digital marketing solutions company that is listed on the New York Stock Exchange ("NYSE") under the symbol "TSQ." In accordance with ASC Topic 321, Investments - Equity Securities, this investment is measured at readily determinable fair value and is reported under Other assets in the accompanying consolidated balance sheet as of December 31, 2018 and June 30, 2018. See Note 10 for more information on the fair value of the investment in Townsquare.

Note 8. Goodwill and Intangible Assets

the Company to Tribeca Enterprises (see Note 7). The Company did not have any material changes in its contractual obligations since the end of fiscal year 2018 other than activities in the ordinary course of business.

In connection with the TAO Group and CLG acquisitions, the Company has accrued deferred and contingent consideration as part of the purchase price allocation. See Note 10 for further details of the amount recorded in the accompanying consolidated balance sheet as of December 31, 2018.

Legal Matters

The Company is a defendant in various lawsuits. Although the outcome of these other lawsuits cannot be predicted with certainty (including the extent of available insurance, if any), management does not believe that resolution of these lawsuits will have a material adverse effect on the Company.

Note 10. Fair Value Measurements

The following table presents the Company's assets that are measured at fair value on a recurring basis, which include cash equivalents and an equity investment with readily determinable fair value:

	Fair Value Hierarchy	December 31, 2018	June 30, 2018
Assets:			
Commercial Paper	I	\$ 148,600	\$ 147,098
Money market accounts	I	244,822	151,887
Time deposits	I	685,044	891,923
Equity investment with readily determinable fair value	I	13,089	20,756
Total assets measured at fair value		\$ 1,091,555	\$ 1,211,664

All assets listed above are classified within Level I of the fair value hierarchy as they are valued using observable inputs that reflect quoted prices for identical assets in active markets. The carrying amount of the Company's commercial paper, money market accounts and time deposits approximates fair value due to their short-term maturities.

The carrying value and fair value of the Company's financial instruments reported in the accompanying consolidated balance sheets are as follows:

	December 31, 2018		June 30, 2018	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets				
Notes receivable, including interest accruals	\$ 11,904	\$ 11,904	\$ 4,116	\$ 4,116
Equity investment with readily determinable fair value ^(a)	13,089	13,089	20,756	20,756
Subordinated term loan receivable ^(b)	63,500	61,593	—	—
Liabilities				
Long-term debt, including current portion ^(c)	\$ 105,384	\$ 108,305	\$ 109,313	\$ 111,588

Aggregate cost basis for the Company's equity investment with readily determinable fair value in Townsquare, including transaction costs, was \$23,222 as of December 31, 2018. The fair value of this investment is determined based on quoted market prices in an active market at the NYSE, which is classified within Level I of the fair value hierarchy. For the three and six months ended December 31, 2018, the Company recorded an unrealized loss of \$12,031 and \$7,667, respectively, as a result of changes in the market value related to this investment. The unrealized loss is reported in Miscellaneous expense, net in the accompanying consolidated statement of operations.

(b) In connection with the sale of the Company's joint venture interest in AMSGE, the \$63,500 outstanding balance under the revolving credit facility extended by the Company to AMSGE was converted to a subordinated term loan with a maturity date of September 20, 2021. The subordinated loan was assumed by an affiliate of AMSGE. The Company's subordinated term loan receivable is classified within Level II of the fair value hierarchy as it is valued using quoted indices of similar securities for which the inputs are readily observable. See Note 7 for more information on this subordinated term loan receivable.

(c) On January 31, 2017, TAO Group Intermediate Holdings LLC ("TAOIH"), TAO Group Operating LLC ("TAOG") and certain of its subsidiaries entered into a \$110,000 senior secured five-year term loan facility. The Company's long-term debt is classified within Level II of the fair value hierarchy as it is valued using quoted indices of similar securities for which the inputs are readily observable. See Note 11 for more information on this long-term debt.

Contingent Consideration Liabilities

In connection with the TAO Group and CLG acquisitions (see Note 3 and Note 10 to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended June 30, 2018 for further details), the Company recorded certain deferred and contingent consideration liabilities at fair value as part of the preliminary purchase price allocation. As of December 31, 2018 and June 30, 2018, the fair value of deferred and contingent consideration liabilities in connection with the TAO Group and CLG acquisitions was \$8,195.

Note 11. Credit Facilities

Knicks Revolving Credit Facility

On September 30, 2016, New York Knicks, LLC ("Knicks LLC"), a wholly owned subsidiary of the Company, entered into a credit agreement (the "Knicks Credit Agreement") with a syndicate of lenders providing for a senior secured revolving credit facility of up to \$200,000 with a term of five years (the "Knicks Revolving Credit Facility") to fund working capital needs and for general corporate purposes. Amounts borrowed may be distributed to the Company except during an event of default.

The Knicks Revolving Credit Facility requires Knicks LLC to comply with a debt service ratio of 1.5:1.0 over a trailing four quarter period. As of December 31, 2018, Knicks LLC was in compliance with this financial covenant. All borrowings under the Knicks Revolving Credit Facility are subject to the satisfaction of certain customary conditions. Borrowings bear interest at a floating rate, which at the option of Knicks LLC may be either (i) a base rate plus a margin ranging from 0.00% to 0.125% per annum or (ii) LIBOR plus a margin ranging from 1.00% to 1.125% per annum. Knicks LLC is required to pay a commitment fee ranging from 0.20% to 0.25% per annum in respect of the average daily unused commitments under the Knicks Revolving Credit Facility. The Knicks Revolving Credit Facility was undrawn as of December 31, 2018.

All obligations under the Knicks Revolving Credit Facility are secured by a first lien security interest in certain of Knicks LLC's assets, including, but not limited to, (i) the Knicks LLC's membership rights in the NBA and (ii) revenues to be paid to the Knicks LLC by the NBA pursuant to certain U.S. national broadcast agreements.

Subject to customary notice and minimum amount conditions, Knicks LLC may voluntarily prepay outstanding loans under the Knicks Revolving Credit Facility at any time, in whole or in part, without premium or penalty (except for customary breakage costs with respect to Eurocurrency loans). Knicks LLC is required to make mandatory prepayments in certain circumstances, including without limitation if the maximum available amount under the Knicks Revolving Credit Facility is greater than 350% of qualified revenues.

In addition to the financial covenant described above, the Knicks Credit Agreement and the related security agreement contain certain customary representations and warranties, affirmative covenants and events of default. The Knicks Revolving Credit Facility contains certain restrictions on the ability of Knicks LLC to take certain actions as provided

in (and subject to various exceptions and baskets set forth in) the Knicks Revolving Credit Facility, including the following: (i) incurring additional indebtedness and contingent liabilities; (ii) creating liens on certain assets; (iii) making restricted payments during the continuance of an event of default under the Knicks Revolving Credit Facility; (iv) engaging in sale and leaseback transactions; (v) merging or consolidating; and (vi) taking certain actions that would invalidate the secured lenders' liens on any Knicks LLC's collateral.

Knicks Unsecured Credit Facility

On September 30, 2016, Knicks LLC entered into an unsecured revolving credit facility with a lender for an initial maximum credit amount of \$15,000 and a 364-day term (the “Knicks Unsecured Credit Facility”). Knicks LLC renewed this facility with the lender on the same terms in successive years and the facility has been renewed for a new term effective as of September 28, 2018. This facility was undrawn as of December 31, 2018.

Rangers Revolving Credit Facility

On January 25, 2017, New York Rangers, LLC (“Rangers LLC”), a wholly owned subsidiary of the Company, entered into a credit agreement (the “Rangers Credit Agreement”) with a syndicate of lenders providing for a senior secured revolving credit facility of up to \$150,000 with a term of five years (the “Rangers Revolving Credit Facility”) to fund working capital needs and for general corporate purposes. Amounts borrowed may be distributed to the Company except during an event of default.

The Rangers Revolving Credit Facility requires Rangers LLC to comply with a debt service ratio of 1.5:1.0 over a trailing four quarter period. As of December 31, 2018, Rangers LLC was in compliance with this financial covenant. All borrowings under the Rangers Revolving Credit Facility are subject to the satisfaction of certain customary conditions.

Borrowings bear interest at a floating rate, which at the option of Rangers LLC may be either (i) a base rate plus a margin ranging from 0.125% to 0.50% per annum or (ii) LIBOR plus a margin ranging from 1.125% to 1.50% per annum. Rangers LLC is required to pay a commitment fee ranging from 0.375% to 0.625% per annum in respect of the average daily unused commitments under the Rangers Revolving Credit Facility. The Rangers Revolving Credit Facility was undrawn as of December 31, 2018.

All obligations under the Rangers Revolving Credit Facility are secured by a first lien security interest in certain of Rangers LLC’s assets, including, but not limited to, (i) Rangers LLC’s membership rights in the NHL, (ii) revenues to be paid to Rangers LLC by the NHL pursuant to certain U.S. and Canadian national broadcast agreements, and (iii) revenues to be paid to Rangers LLC pursuant to local media contracts.

Subject to customary notice and minimum amount conditions, Rangers LLC may voluntarily prepay outstanding loans under the Rangers Revolving Credit Facility at any time, in whole or in part, without premium or penalty (except for customary breakage costs with respect to Eurocurrency loans). Rangers LLC is required to make mandatory prepayments in certain circumstances, including without limitation if qualified revenues are less than 17% of the maximum available amount under the Rangers Revolving Credit Facility.

In addition to the financial covenant described above, the Rangers Credit Agreement and the related security agreement contain certain customary representations and warranties, affirmative covenants and events of default. The Rangers Revolving Credit Facility contains certain restrictions on the ability of Rangers LLC to take certain actions as provided in (and subject to various exceptions and baskets set forth in) the Rangers Revolving Credit Facility, including the following: (i) incurring additional indebtedness and contingent liabilities; (ii) creating liens on certain assets; (iii) making restricted payments during the continuance of an event of default under the Rangers Revolving Credit Facility; (iv) engaging in sale and leaseback transactions; (v) merging or consolidating; and (vi) taking certain actions that would invalidate the secured lenders’ liens on any of Rangers LLC’s assets securing the obligations under the Rangers Revolving Credit Facility.

TAO Credit Facilities

On January 31, 2017, TAOIH, TAOG, and certain of its subsidiaries entered into a credit and guaranty agreement with a syndicate of lenders providing for a senior secured term loan facility of \$110,000 with a term of five years (the “TAO Term Loan Facility”) to fund, in part, the acquisition of TAO Group and a senior secured revolving credit facility of up to \$12,000 with a term of five years (the “TAO Revolving Credit Facility,” and together with the TAO Term Loan

Facility, the “TAO Credit Facilities”) for working capital and general corporate purposes of TAOG. The TAO Credit Facilities were obtained without recourse to MSG or any of its affiliates (other than TAOIH and its subsidiaries). The TAO Credit Facilities require TAOIH (i) to maintain, for the relevant TAO entities, a minimum consolidated liquidity of \$5,000 at all times, (ii) to comply with a maximum total net leverage ratio of 4.00:1.00 initially and stepping down over time to 2.50:1.00 by the first quarter of calendar year 2021 and through the remainder of the term of the TAO Credit Facilities, and (iii) to comply with a minimum fixed charge coverage ratio of 1.50:1.00 initially and stepping down over time to 1.15:1.00 by the

second quarter of calendar year 2021 and through the remainder of the term of the TAO Credit Facilities. TAOIH was in compliance with the financial covenants of the TAO Credit Facilities as of September 30, 2018 (the most recent date at which compliance was assessed under the TAO Credit Facilities). The TAO Revolving Credit Facility was undrawn as of December 31, 2018.

The TAO entities under the TAO Credit Facilities are also subject to certain limitations with respect to making capital expenditures based upon the total net leverage ratio and other factors. The restrictions on capital expenditures are subject to certain “carry-forward” provisions and other customary carve-outs.

All borrowings under the TAO Credit Facilities are subject to the satisfaction of certain customary conditions, including compliance with a maximum leverage multiple, accuracy of representations and warranties and absence of a default or event of default. Borrowings bear interest at a floating rate, which at the option of TAOG may be either (i) a base rate plus a margin ranging from 6.50% to 7.00% per annum or (ii) LIBOR plus a margin ranging from 7.50% to 8.00% per annum. TAOG is required to pay a commitment fee of 0.50% per annum in respect of the average daily unused commitments under the TAO Revolving Credit Facility. The interest rate on the TAO Credit Facilities as of September 30, 2018 was 10.25%. TAO Group made interest payments under the TAO Term Loan Facility of \$2,730 and \$2,593 for the thirteen weeks ended September 30, 2018 and September 24, 2017, respectively (the periods for which TAO Group’s operating results are recorded in the Company’s consolidated statements of operations for the three months ended December 31, 2018 and 2017). For the twenty-six weeks ended September 30, 2018 and September 24, 2017 (the periods for which TAO Group’s operating results are recorded in the Company’s consolidated statements of operations for the six months ended December 31, 2018 and 2017), TAO Group made interest payments under the TAO Term Loan Facility of \$5,489 and \$5,138, respectively.

All obligations under the TAO Credit Facilities are secured by a first lien security interest in substantially all of the applicable TAO entities’ assets, including, but not limited to, a pledge of all of the capital stock of substantially all of TAOIH’s wholly-owned domestic subsidiaries and 65% of the voting capital stock, and 100% of the non-voting capital stock, of each of its first-tier foreign subsidiaries.

Subject to customary notice and minimum amount conditions, TAOG may voluntarily prepay outstanding loans under the TAO Credit Facilities at any time, in whole or in part (subject to customary breakage costs with respect to LIBOR loans) with premiums due in respect of prepayments of the TAO Term Loan Facility or permanent reduction under the TAO Revolving Credit Facility, in each case, starting at 5.0% initially and stepping down to 0% after three years. Beginning March 31, 2018, TAOG is required to make scheduled amortization payments under the TAO Term Loan Facility in consecutive quarterly installments equal to \$688 per quarter initially, stepping up over time to \$4,125 per quarter by March 31, 2021 and through the final maturity date of the TAO Term Loan Facility with the final balance payable on such maturity date. TAOG is also required to make mandatory prepayments under the TAO Credit Facilities in certain circumstances, including, without limitation, 75% of excess cash flow, with a step-down to 50% when the total net leverage ratio is less than 2.00:1.00.

The TAO Credit Facilities contain certain restrictions on the ability of TAOG to take certain actions as provided in (and subject to various exceptions and baskets set forth in) the TAO Credit Facilities, including, without limitation, the following: (i) incurring additional indebtedness; (ii) creating liens on assets; (iii) making distributions, dividends and other restricted payments; (iv) engaging in sale and leaseback transactions; (v) merging or consolidating; (vi) making investments; and (vii) prepaying certain indebtedness.

See Note 11 to the consolidated financial statements included in the Company’s Annual Report on Form 10-K for the year ended June 30, 2018 for more information regarding the Company’s debt maturities for the TAO Term Loan Facility.

THE MADISON SQUARE GARDEN COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Continued)

During the three months ended December 31, 2018, the Company granted 449 stock options that consisted of market priced stock options and premium priced stock options, for which the exercise price was equal to a 10% premium and 25% premium from the closing stock price at the date of grant. These stock options vest ratably over four years and are being expensed on a straight-line basis over the vesting period. The maximum contractual term is 7.50 years. The Company calculated the fair value of the market priced options on the date of grant using the Black-Scholes option pricing model and the premium priced options using the Monte Carlo Simulation. The following are key assumptions used to calculate the weighted-average grant-date fair value of the stock options:

	Market Price	10% Premium	25% Premium
Weighted-average grant date fair value	\$79.99	\$69.33	\$55.64
Expected term	4.98 years	5.10 years	5.29 years
Expected volatility	22.11 %	22.11 %	22.11 %
Risk-free interest rate	3.02 %	3.11 %	3.11 %

The expected terms of the premium priced options were estimated using the simplified method but takes into account that the options are out-of-the-money at grant date and therefore likely to be exercised later. The risk-free interest rate for the premium priced options was determined using a 7.50 year rate, different from the 4.98 year rate used to determine the market priced stock options.

Note 14. Stock Repurchase Program

On September 11, 2015, the Company's board of directors authorized the repurchase of up to \$525,000 of the Company's Class A Common Stock once the shares of the Company's Class A Common Stock began "regular way" trading on October 1, 2015. Under the authorization, shares of Class A Common Stock may be purchased from time to time in accordance with applicable insider trading and other securities laws and regulations. The timing and amount of purchases will depend on market conditions and other factors.

During the three and six months ended December 31, 2018, the Company did not engage in any share repurchase activities under its share repurchase program. As of December 31, 2018, the Company had \$259,639 of availability remaining under its stock repurchase authorization.

As of July 1, 2018, upon adoption of ASU No. 2016-01, the Company recorded a transition adjustment to reclassify accumulated other comprehensive loss associated with its investment in Townsquare in the amount of (b) \$2,466 pre-tax (\$5,570, net of tax) to accumulated deficit. See Notes 2 and 10 for more information on the Company's adoption of ASU No. 2016-01 related to its investment in Townsquare and its impact on the Company's operating results for the three and six months ended December 31, 2018.

Note 16. Income Taxes

On December 22, 2017, the enactment of the Tax Cuts and Jobs Act ("TCJA") significantly changed U.S. tax law and included a reduction in the corporate federal income tax rate from 35% to 21% effective January 1, 2018.

Income tax expense for the three months ended December 31, 2018 of \$656 differs from income tax expense derived from applying the statutory federal rate of 21% to pretax income primarily due to a decrease in valuation allowance of \$30,310, state income tax expense of \$10,642, tax expense of \$1,159 relating to noncontrolling interest, and the impact of nondeductible expenses of \$2,479.

Income tax expense for the six months ended December 31, 2018 of \$1,352 differs from income tax expense derived from applying the statutory federal rate of 21% to pretax income primarily due to a decrease in valuation allowance of \$18,976, state income tax expense of \$7,547, excess tax benefit on share-based payment awards of \$5,793, tax expense of \$1,545 relating to noncontrolling interest, and tax expense of \$6,383 relating to nondeductible expenses. For the fiscal year ended June 30, 2018, the Company used a blended statutory federal income rate of 28% based upon the number of days that it will be taxed at the former rate of 35% and the number of days it will be taxed at the new rate of 21%, effective January 1, 2018.

Income tax benefit for the three months ended December 31, 2017 of \$116,832 differs from income tax expense derived from applying the blended statutory federal rate of 28% to pretax income primarily as a result of a deferred income tax benefit of \$113,494 related to the revaluation of the Company's deferred tax assets and liabilities under provisions contained in TCJA, of which (i) \$51,015 was due to the reduction of net deferred tax liabilities in connection with the lower federal income tax rate of 21%, and (ii) \$62,479 was due to a reduction in the valuation allowance attributable to the new rules, which provide that future federal net operating losses have an unlimited carry-forward period. This change with regard to future federal net operating losses allowed the Company to reduce the existing valuation allowance for a portion of its deferred tax assets for future deductible items. In addition, the Company recorded a decrease in the valuation allowance of \$27,059 related to current period activity and a tax benefit of \$3,241 resulting from a change in the state tax rate used to measure deferred taxes.

Income tax benefit for the six months ended December 31, 2017 of \$116,070 differs from income tax expense derived from applying the blended statutory federal rate of 28% to pretax income primarily as a result of a deferred income tax benefit of \$113,494 in connection with the enactment of TCJA. In addition, the Company recorded a decrease in the valuation allowance of \$24,399 related to current period activity and a tax benefit of \$3,110 resulting from a change in the state tax rate used to measure deferred taxes.

The Company was notified during the third quarter of fiscal year 2018 that the IRS was commencing an audit of the federal income tax return for the year ended June 30, 2016. The Company does not expect the audit to result in any material changes.

Note 17. Related Party Transactions

As of December 31, 2018, members of the Dolan family including trusts for members of the Dolan family (collectively, the "Dolan Family Group"), for purposes of Section 13(d) of the Securities Exchange Act of 1934, as amended, collectively beneficially own all of the Company's outstanding Class B Common Stock and own approximately 2.9% of the Company's outstanding Class A Common Stock. Such shares of the Company's Class A Common Stock and Class B Common Stock, collectively, represent approximately 71.1% of the aggregate voting

power of the Company's outstanding common stock. Members of the Dolan family are also the controlling stockholders of MSG Networks and AMC Networks Inc. ("AMC Networks").

The Company has various agreements with MSG Networks, including media rights agreements covering the Knicks and the Rangers games, an advertising sales representation agreement, and a services agreement (the “Services Agreement”). Pursuant to the Services Agreement, which is effective July 1, 2018, the Company provides certain services to MSG Networks, such as information technology, accounts payable and payroll, human resources, and other corporate functions, as well as the executive support services described below, in exchange for service fees. MSG Networks similarly provides certain services to the Company, in exchange for service fees.

Beginning in June 2016, the Company agreed to share certain executive support costs, including office space, executive assistants, security and transportation costs, for (i) the Company’s Executive Chairman with MSG Networks and (ii) the Company’s Vice Chairman with MSG Networks and AMC Networks.

On June 16, 2016, the Company entered into an arrangement with the Dolan Family Office, LLC (“DFO”), AMC Networks and MSG Networks providing for the sharing of certain expenses associated with executive office space which is available to James L. Dolan (the Executive Chairman, Chief Executive Officer and a director of the Company, the Executive Chairman and a director of MSG Networks, and a director of AMC Networks), Charles F. Dolan (the Executive Chairman and a director of AMC Networks and a director of the Company and MSG Networks), and the DFO which is controlled by Charles F. Dolan.

Effective July 1, 2018, the Company entered into various Aircraft Support Services Agreements (the “Support Agreements”), pursuant to which the Company provides certain aircraft support services to entities controlled by (i) the Company’s Executive Chairman, Chief Executive Officer and a director, (ii) Charles F. Dolan, a director of the Company, and (iii) Patrick Dolan, the son of Charles F. Dolan and brother of James L. Dolan. On December 17, 2018, the Company terminated the agreement providing services to the entity controlled by Charles F. Dolan, and entered into a new agreement with Charles F. Dolan and certain of his children, specifically: Thomas C. Dolan (a director of the Company), Deborah Dolan-Sweeney, Patrick F. Dolan, Marianne Dolan Weber (a director of the Company), and Kathleen Dolan, which provides substantially the same services as the prior agreement for a new aircraft.

In connection with the Support Agreements, the Company, through a wholly-owned subsidiary, entered into reciprocal time sharing/dry lease agreements with each of (i) Quart 2C, LLC (“Q2C”), a company controlled by the Company’s Executive Chairman, Chief Executive Officer and a director, and Kristin A. Dolan, his wife and a director of the Company, and (ii) Charles F. Dolan, a director of the Company, and Sterling Aviation, LLC, a company controlled by Charles F. Dolan (collectively, “CFD”), pursuant to which the Company has agreed from time to time to make its aircraft available to each of Q2C and CFD, and Q2C and CFD have agreed from time to time to make their aircraft available to the Company. Pursuant to the terms of the agreements, Q2C and/or CFD may lease on a non-exclusive, “time sharing” basis, the Company’s Gulfstream Aerospace G550 aircraft (the “G550 Aircraft”). On December 17, 2018, in connection with the purchase of a new aircraft (as noted above), the Company replaced the dry lease agreement with CFD with a new dry lease agreement with Sterling2k LLC, an entity owned and controlled by Deborah Dolan-Sweeney, the daughter of CFD and the sister of the Company’s Executive Chairman and Chief Executive Officer, which provides for the Company’s usage of the new aircraft.

The Company, through a wholly-owned subsidiary, and each of MSG Networks and AMC Networks are party to an aircraft time sharing agreement, pursuant to which the Company has agreed from time to time to make its aircraft available to MSG Networks and/or AMC Networks for lease on a “time sharing” basis. Additionally, the Company, MSG Networks and AMC Networks have agreed on an allocation of the costs of certain helicopter use by its shared executives.

As of December 31, 2018, BCE had \$620 of notes payable, inclusive of accrued interest. See Note 11 for further information.

The Company also has certain arrangements with a nonconsolidated affiliate. See Note 7 for more information regarding an outstanding loan provided by the Company to its nonconsolidated affiliate. Additionally, the Company entered into certain commercial agreements with its nonconsolidated affiliates in connection with MSG Sphere. As of December 31, 2018, the Company recorded approximately \$2,400 of capital expenditures in connection with services provided to the Company under these agreements.

Revenues and Operating Expenses (Credits)

The following table summarizes the composition and amounts of the transactions with the Company's affiliates, primarily MSG Networks. These amounts are reflected in revenues and operating expenses in the accompanying consolidated statements of operations for the three and six months ended December 31, 2018 and 2017:

	Three Months Ended December 31,		Six Months Ended December 31,

Revenues

Revenues from related parties primarily consist of local media rights recognized by the Company's Sports segment from the licensing of team-related programming to MSG Networks under the media rights agreements covering the Knicks and Rangers, which provide MSG Networks with exclusive media rights to team games in their local markets, as well as commissions earned in connection with the advertising sales representation agreement pursuant to which the Company has the exclusive right and obligation to sell MSG Networks' advertising availabilities. As a result of the adoption of ASC Topic 606 in the current fiscal year, the Company recorded deferred revenue of \$9,035 in the accompanying consolidated balance sheet as of December 31, 2018, related to the media rights agreements.

In addition, the Company and Tribeca Enterprises have a service agreement pursuant to which the Company provides marketing inventory, advertising sales and consulting services to Tribeca Enterprises for a fee. The Company is also a party to certain commercial arrangements with AMC Networks and its subsidiaries.

Corporate General and Administrative Expenses, net - MSG Networks

The Company's corporate overhead expenses that are charged to MSG Networks are primarily related to centralized functions, including executive compensation, finance, treasury, tax, internal audit, legal, information technology, human resources and risk management functions. Corporate general and administrative expenses, net - MSG Networks reflects charges from the Company to MSG Networks under the Services Agreement of \$2,779 and \$2,488, respectively, for the three months ended December 31, 2018 and 2017. For the six months ended December 31, 2018 and 2017, corporate general and administrative expenses, net - MSG Networks reflects charges from the Company to MSG Networks under the Services Agreement of \$5,287 and \$4,972, respectively.

Consulting Fees

On December 5, 2018, the Company's joint venture interest in AMSGE was sold to Azoff Music, which resulted in the Company no longer being an owner of AMSGE (renamed The Azoff Company). Accordingly, The Azoff Company is not a related party of the Company, and thus the related party transactions disclosed herein that relate to AMSGE were recognized prior to December 5, 2018. Prior to the sale of AMSGE, the Company paid AMSGE and its nonconsolidated affiliates for advisory and consulting services that AMSGE and its nonconsolidated affiliates provide to the Company, and for the reimbursement of certain expenses in connection with such services. In the fourth quarter of fiscal year 2016, the Company paid \$5,000 to AMSGE for work performed towards securing the right to lease property to be developed in Las Vegas. The Company began amortizing this cost during the three months ended

September 30, 2018. The carrying amount is included in other assets in the accompanying consolidated balance sheets as of December 31, 2018 and June 30, 2018.

Advertising Expenses

The Company incurs advertising expenses for services rendered by its related parties, primarily MSG Networks, most of which are related to the utilization of advertising and promotional benefits by the Company.

Other Operating Expenses, net

The Company and its related parties enter into transactions with each other in the ordinary course of business.

Amounts charged to the Company for other transactions with its related parties are net of amounts charged by the Company to the Knickerbocker Group, LLC, an entity owned by James L. Dolan, the Executive Chairman, Chief Executive Officer and a director of the Company, for office space equal to the allocated cost of such space and the cost of certain technology services. In addition, other operating expenses include net charges relating to (i) reciprocal aircraft arrangements between the Company and each of Q2C and CFD and (ii) time sharing agreements with MSG Networks and AMC Networks.

Note 18. Segment Information

The Company is comprised of two reportable segments: MSG Entertainment and MSG Sports. In determining its reportable segments, the Company assessed the guidance of ASC 280-10-50-1, which provides the definition of a reportable segment. In accordance with the FASB's guidance, the Company takes into account whether two or more operating segments can be aggregated together as one reportable segment as well as the type of discrete financial information that is available and regularly reviewed by its chief operating decision maker. The Company has evaluated this guidance and determined that there are two reportable segments. The Company allocates certain corporate costs and its performance venue operating expenses to each of its reportable segments. Allocated venue operating expenses include the non-event related costs of operating the Company's venues, and include such costs as rent for the Company's leased venues, real estate taxes, insurance, utilities, repairs and maintenance, and labor related to the overall management of the venues. Depreciation and amortization expense related to The Garden, Hulu Theater at Madison Square Garden, the Forum, and certain corporate property, equipment and leasehold improvements not allocated to the reportable segments is reported in "Corporate and Other." Additionally, the Company does not allocate any purchase accounting adjustments to the reporting segments.

The Company evaluates segment performance based on several factors, of which the key financial measure is operating income (loss) before (i) depreciation, amortization and impairments of property and equipment and intangible assets, (ii) share-based compensation expense or benefit, (iii) restructuring charges or credits, and (iv) gains or losses on sales or dispositions of businesses, which is referred to as adjusted operating income (loss), a non-GAAP measure. In addition to excluding the impact of the items discussed above, the impact of purchase accounting adjustments related to business acquisitions is also excluded in evaluating the Company's consolidated adjusted operating income (loss). Because it is based upon operating income (loss), adjusted operating income (loss) also excludes interest expense (including cash interest expense) and other non-operating income and expense items. Management believes that the exclusion of share-based compensation expense or benefit allows investors to better track the performance of the various operating units of the Company's business without regard to the settlement of an obligation that is not expected to be made in cash. The Company believes adjusted operating income (loss) is an appropriate measure for evaluating the operating performance of its business segments and the Company on a consolidated basis. Adjusted operating income (loss) and similar measures with similar titles are common performance measures used by investors and analysts to analyze the Company's performance. The Company uses revenues and adjusted operating income (loss) measures as the most important indicators of its business performance, and evaluates management's effectiveness with specific reference to these indicators.

Adjusted operating income (loss) should be viewed as a supplement to and not a substitute for operating income (loss), net income (loss), cash flows from operating activities, and other measures of performance and/or liquidity

presented in accordance with GAAP. Since adjusted operating income (loss) is not a measure of performance calculated in accordance with GAAP, this measure may not be comparable to similar measures with similar titles used by other companies. The Company has presented the components that reconcile operating income (loss), the most directly comparable GAAP financial measure, to adjusted operating income (loss). In addition, the retrospective adoption of ASU No. 2017-07 resulted in an immaterial improvement in operating income (loss) and adjusted operating income (loss) for the three and six months ended December 31, 2017 (see Note 2 for further detail).

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

This Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In this MD&A, there are statements concerning the future operating and future financial performance of The Madison Square Garden Company and its direct and indirect subsidiaries (collectively, “we,” “us,” “our,” “Madison Square Garden,” “MSG,” or the “Company”), including, luxury tax payments or receipts, higher local media rights fees, possible impacts from the timing and cost of new venue construction, the potential Sports Distribution and the adoption of ASC Topic 606. See “Part I — Item 1. Business” of our Annual Report on Form 10-K for the year ended June 30, 2018 and Note 1 to the consolidated financial statements included in “Part I — Item 1. Financial Statements” of this Quarterly Report on Form 10-Q for further discussion of the Sports Distribution. Words such as “expects,” “anticipates,” “believes,” “estimates,” “may,” “will,” “should,” “could,” “potential,” “continue,” “intends,” “plans,” and similar words and terms used in the discussion of future operating and future financial performance identify forward-looking statements. Investors are cautioned that such forward-looking statements are not guarantees of future performance, results or events and involve risks and uncertainties and that actual results or developments may differ materially from the forward-looking statements as a result of various factors. Factors that may cause such differences to occur include, but are not limited to:

- the level of our revenues, which depends in part on the popularity and competitiveness of our sports teams and the level of popularity of the Christmas Spectacular and other entertainment events which are presented in our venues;
- costs associated with player injuries, waivers or contract terminations of players and other team personnel;
- changes in professional sports teams’ compensation, including the impact of signing free agents and trades, subject to league salary caps and the impact of luxury tax;
- the level of our capital expenditures and other investments;
- general economic conditions, especially in the New York City, Los Angeles, Las Vegas and London metropolitan areas where we have business activities;
- the demand for sponsorship arrangements and for advertising;
- competition, for example, from other teams, other venues and other sports and entertainment options, including the construction of new competing venues;
- our ability to successfully design, construct, finance and operate new venues in Las Vegas, London and other markets, and the investments, costs and timing associated with those efforts, including the impact of unexpected construction delays and cost overruns;
- changes in laws, NBA or NHL rules, regulations, guidelines, bulletins, directives, policies and agreements including the leagues’ respective collective bargaining agreements (each a “CBA”) with their players’ associations, salary caps, revenue sharing, NBA luxury tax thresholds and media rights or other regulations under which we operate;
- any NBA or NHL work stoppage;
- seasonal fluctuations and other variations in our operating results and cash flow from period to period;
- the level of our expenses, including our corporate expenses;
- the successful development of new live productions or enhancements or changes to existing productions and the investments associated with such development or enhancements or changes;
- the continued popularity and success of the TAO Group restaurants and nightlife and hospitality venues, as well as its existing brands, and the ability to successfully open and operate new restaurants and nightlife and hospitality venues;
- the ability of BCE to attract attendees and performers to its festival;
- the evolution of the esports industry and its potential impact on our esports businesses;
- the acquisition or disposition of assets or businesses and/or the impact of, and our ability to successfully pursue, acquisitions or other strategic transactions;
- our ability to successfully integrate acquisitions, new venues or new businesses into our operations;

the operating and financial performance of our strategic acquisitions and investments, including those we do not control;

the costs associated with, and the outcome of, litigation and other proceedings to the extent uninsured, including litigation or other claims against companies we invest in or acquire;

the impact of governmental regulations or laws, including changes in how those regulations and laws are interpreted and the continued benefit of certain tax exemptions and the ability to maintain necessary permits or licenses;

the impact of any government plans to redesign New York City's Pennsylvania Station;

business, reputational and litigation risk if there is a loss, disclosure or misappropriation of stored personal information or other breaches of our network security;

a default by our subsidiaries under their respective credit facilities;

financial community and rating agency perceptions of our business, operations, financial condition and the industry in which we operate;

the ability of our investees and others to repay loans and advances we have extended to them;

our ownership of professional sports franchises in the NBA and NHL and certain related transfer restrictions on our common stock;

the tax free treatment of the 2015 Distribution;

whether or not we pursue and complete the Sports Distribution and, if so, its impact on our business, financial condition and results of operations; and

the factors described under "Risk Factors" in our Annual Report on Form 10-K for the year ended June 30, 2018.

We disclaim any obligation to update or revise the forward-looking statements contained herein, except as otherwise required by applicable Federal securities laws.

All dollar amounts included in the following MD&A are presented in thousands, except as otherwise noted.

Introduction

This MD&A is provided as a supplement to, and should be read in conjunction with, the Company's unaudited financial statements and accompanying notes thereto included in this Quarterly Report on Form 10-Q, as well as the Company's Annual Report on Form 10-K for the year ended June 30, 2018, to help provide an understanding of our financial condition, changes in financial condition and results of operations. Unless the context otherwise requires, all references to "we," "us," "our," "Madison Square Garden" or the "Company" refer collectively to The Madison Square Garden Company, a holding company, and its direct and indirect subsidiaries through which substantially all of our operations are actually conducted. The Company is comprised of two reportable segments: MSG Entertainment and MSG Sports. MSG Entertainment includes live entertainment events such as concerts, family shows, performing arts and special events, which are presented or hosted in the Company's diverse collection of venues along with live offerings through TAO Group and BCE. TAO Group is a hospitality group with globally-recognized entertainment dining and nightlife brands, including: TAO, Marquee, Lavo, Avenue, Beauty & Essex and Vandal. BCE produces New England's premier live music festival, Boston Calling Music Festival. The MSG Entertainment segment also includes the Company's original production — the Christmas Spectacular — and Obscura, a creative studio, which the Company acquired in November 2017.

MSG Sports includes the Company's professional sports franchises: the Knicks of the NBA, the Rangers of the NHL, the Hartford Wolf Pack of the AHL, and the Westchester Knicks of the NBAGL. For all periods presented, MSG Sports also included the Liberty of the WNBA, which was sold in January 2019. See Note 19 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q. The MSG Sports segment is also home to a broad array of other live sporting events, including professional boxing, college basketball, college hockey, professional bull riding, mixed martial arts, esports, tennis and college wrestling, all of which the Company promotes, produces and/or presents. The MSG Sports segment also includes CLG, a premier North American esports organization, which the Company acquired in July 2017, and Knicks Gaming, the Company's franchise that competes in the NBA 2K League.

Table of Contents

The Company conducts a significant portion of its operations at venues that it either owns or operates under long-term leases. The Company owns The Garden and Hulu Theater at Madison Square Garden in New York City, the Forum in Inglewood, CA and The Chicago Theatre in Chicago. In addition, the Company leases Radio City Music Hall and the Beacon Theatre in New York City, and has a booking agreement with respect to the Wang Theatre in Boston. Additionally, TAO Group operates various restaurants, nightlife and hospitality venues under long-term leases and management contracts in New York, Las Vegas, Los Angeles, Chicago, Australia and Singapore.

Factors Affecting Results of Operations

Adoption of ASC Topic 606, Revenue From Contracts With Customers

The Company's consolidated and segment operating results for the three and six months ended December 31, 2018 were impacted by the adoption of ASC Topic 606. As a result, the Company's revenues and direct operating expenses were higher by \$38,589 and \$7,117, respectively for the three months ended December 31, 2018. For the six months ended December 31, 2018, the Company's revenues were lower by \$1,769 and direct operating expenses were higher by \$2,336.

The impact of the adoption of ASC Topic 606 on MSG Entertainment's operating results resulted in a net decrease in revenues of \$8,519 for the three months ended December 31, 2018 and a net decrease in revenues of \$13,545 for the six months ended December 31, 2018, primarily associated with event-related revenues, as well as venue-related sponsorship and signage and suite license fee revenues. In addition, the adoption of ASC Topic 606 resulted in a decrease in direct operating expenses of \$11,020 for the three months ended December 31, 2018 and a decrease in direct operating expenses of \$15,715 for the six months ended December 31, 2018, primarily associated with event-related direct operating expenses.

For the MSG Sports' operating results, the adoption of ASC Topic 606 resulted in a net increase in revenues of \$47,108 for the three months ended December 31, 2018 and a net increase in revenues of \$11,776 for the six months ended December 31, 2018, primarily associated with local media rights fees from MSG Networks, season tickets-related revenues, national media rights fees from NBA and NHL, suite license fee revenue, and professional sports teams' sponsorship and signage revenues. In addition, the adoption of ASC Topic 606 resulted in a net increase in direct operating expenses of \$18,137 for the three months ended December 31, 2018 and a net increase in direct operating expenses of \$18,051 for the six months ended December 31, 2018, primarily associated with certain fulfillment costs associated with performance obligations in professional sports teams' operating expenses. Prior year period results have not been adjusted to reflect the adoption of ASC Topic 606 and, therefore, the Company's consolidated and segment operating results for the three and six months ended December 31, 2018 are not directly comparable to results for the three and six months ended December 31, 2017.

Under ASC Topic 606 the suite license revenues for the Company's MSG Entertainment and MSG Sports segments are now recognized proportionately as events at The Garden take place, as opposed to being recognized on a straight-line basis over the fiscal year under the prior standard. In addition, the majority of local media rights revenue is now recognized over the course of the regular season, as opposed to being recognized on a straight-line basis over the fiscal year under the prior standard. While this change in timing of revenue recognition resulted in an increase in local media rights revenue during the three months ended December 31, 2018 and a decrease in local media rights revenue during the six months ended December 31, 2018 as compared to the prior year period, the Company expects an increase in local media rights revenue during the three months ended March 31, 2019 and for the full fiscal year 2019.

In addition, the timing of certain fulfillment costs associated with performance obligations, primarily professional sports teams' operating expenses, were also similarly impacted within the fiscal year.

See Notes 2 and 3 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for further discussion of the adoption of ASC Topic 606.

Obscura's Operating Results

The results of operations of the Company and the MSG Entertainment segment for the three and six months ended December 31, 2018 include Obscura's results of operations from the date of acquisition, November 20, 2017. Due to the timing of the Obscura acquisition, the Company's results for the three and six months ended December 31, 2017

did not include full comparable periods of Obscura's operating results.

The following is a summary of changes in our segments' operating results for the three months ended December 31, 2018 as compared to the prior year period.

Our results for the three months ended December 31, 2018 are not directly comparable to our results for the prior year period due to the adoption of ASC Topic 606 and the timing of the Obscura acquisition. See "Factors Affecting Results of Operations" for a more detailed discussion, as well as a discussion of the expected increase in local media rights revenue during the current fiscal year.

Table of Contents

Selling, general and administrative expenses - Corporate and Other

Selling, general and administrative expenses in Corporate and Other for the three months ended December 31, 2018 increased \$4,670, or 18%, to \$30,521 as compared to the prior year period. The increase was primarily due to higher employee compensation and related benefits, driven by an increase in share-based compensation expense and costs associated with the proposed Sports Distribution. The increase was partially offset by lower costs related to the Company's business development initiatives.

Depreciation & amortization

Depreciation and amortization for the three months ended December 31, 2018 decreased \$378, or 1%, to \$30,166 as compared to the prior year period. The decrease was primarily due to certain assets being fully depreciated and amortized.

Operating loss - Corporate and Other

Operating loss in Corporate and Other for the three months ended December 31, 2018 increased \$4,046, or 9%, to \$49,506 as compared to the prior year period. The increase was due to higher selling, general and administrative expenses, as discussed above, partially offset by lower depreciation and amortization. Lower depreciation and amortization is a result of certain assets being fully depreciated and amortized. See Note 18 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for discussion of depreciation and amortization under Corporate and Other.

Earnings (loss) in equity method investments

Earnings in equity method investments for the three months ended December 31, 2018 improved \$12,095 to \$9,487 as compared to the prior year period. The year-over-year improvement is primarily due to the increase in net earnings attributable to the Company's investees, as well as a gain on the sale of the Company's interest in AMSGE during the current year period as compared to the prior year period. The year-over-year improvement was partially offset by the amortization of basis difference attributable to intangible assets for the new investments in the current year period.

Miscellaneous expense, net

Net miscellaneous expense for the three months ended December 31, 2018 increased \$11,635 to \$12,863 as compared to the prior year period. The increase was primarily due to the unrealized loss related to the Company's investment in Townsquare, partially offset by the dividends earned on the investment. As a result of the adoption of ASU No. 2016-01 during the first quarter of fiscal year 2019, the change in fair value of the investment in Townsquare is now recognized in net income. See Note 2 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for discussion of the adoption of ASU No. 2016-01.

Income taxes

See Note 16 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for discussions of the Company's income taxes.

Adjusted operating income

The following is a reconciliation of operating income to adjusted operating income:

	Three Months		Change	
	Ended			
	December 31,	December 31,	Amount	Percentage
	2018	2017		
Operating income	\$78,277	\$73,415	\$4,862	7 %

Other purchase accounting adjustments	1,735	1,133		
Adjusted operating income	\$130,393	\$119,004	\$11,389	10 %

^(a) Depreciation and amortization includes purchase accounting adjustments of \$5,466 and \$4,744 for the three months ended December 31, 2018 and 2017, respectively.

Table of Contents

Adjusted operating income for the three months ended December 31, 2018 increased \$11,389, or 10%, to \$130,393 as compared to the prior year period. The net increase is attributable to the following:

Increase in adjusted operating income of the MSG Entertainment segment	\$18,758
Decrease in adjusted operating income of the MSG Sports segment	(7,040)
Other net decreases	(207)
Inter-segment eliminations	(122)
	\$11,389

Net loss attributable to redeemable and nonredeemable noncontrolling interests

For the three months ended December 31, 2018, the Company recorded \$3,142 of net loss attributable to redeemable noncontrolling interests and \$2,489 of net loss attributable to nonredeemable noncontrolling interests as compared to \$767 of net income attributable to redeemable noncontrolling interests and \$855 of net loss attributable to nonredeemable noncontrolling interests for the three months ended December 31, 2017. These amounts represent the share of net loss from the Company's investments in TAO Group, BCE and CLG that are not attributable to the Company. In addition, the net loss attributable to redeemable and nonredeemable noncontrolling interests includes a proportional share of expenses related to purchase accounting adjustments.

Adjusted operating income	\$101,003	\$82,245	\$18,758	23 %

The comparability of the results of operations for the three months ended December 31, 2018 to the prior year period was impacted by the new revenue recognition standard and the timing of the Obscura acquisition. See "Factors Affecting Results of Operations" for more information.

Revenues

Revenues for the three months ended December 31, 2018 increased \$45,298, or 17%, to \$316,514 as compared to the prior year period. The net increase is attributable to the following:

Increase in event-related revenues at The Garden	\$21,255
Increase in revenues from the presentation of the Christmas Spectacular	10,511
Increase in event-related revenues at The Chicago Theatre	5,857
Increase in venue-related sponsorship and signage and suite license fee revenues	5,411
Inclusion of revenues from Obscura	2,681
Increase in event-related revenues at the Beacon Theatre	2,072
Increase in event-related revenues at Radio City Music Hall, excluding the Christmas Spectacular	1,825
Decrease in event-related revenues at Hulu Theater at Madison Square Garden	(2,948)
Decrease in event-related revenues at the Forum	(1,796)
Other net increases	430
	\$45,298

The increase in event-related revenues at The Garden was primarily due to additional events held at the venue during the current year period as compared to the prior year period. The increase was partially offset by lower per event revenue during the current year period as compared to the prior year period and the impact of the new revenue recognition standard in the current year period.

The increase in revenues from the presentation of the Christmas Spectacular was primarily due to higher ticket-related revenue, mainly as a result of higher average ticket prices and an increase in average per-show paid attendance in the current year period as compared to the prior year period. The Company had 197 performances of the production in the second quarter of fiscal year 2019, the same number of performances as compared to the second quarter of fiscal year 2018. For the second quarter of fiscal year 2019, more than one million tickets were sold, representing a low-single digit percentage increase as compared to the prior year period.

The increase in event-related revenues at The Chicago Theatre was primarily due to additional events held at the venue and higher per event revenue during the current year period as compared to the prior year period.

Table of Contents

The increase in venue-related sponsorship and signage and suite license fee revenues was due to the impact of the new revenue recognition standard in the current year period and higher sponsorship and signage revenues primarily due to increased sales of existing sponsorship and signage inventory.

Revenues from Obscura are included as a result of its acquisition by the Company on November 20, 2017. The current year period includes revenues from Obscura for three months as compared to approximately one month during the prior year period. Revenues from Obscura principally consist of revenues earned for work in designing and developing next-generation immersive experiences for third parties.

The increase in event-related revenues at the Beacon Theatre was primarily due to additional events held at the venue during the current year period as compared to the prior year period.

The increase in event-related revenues at Radio City Music Hall, excluding the Christmas Spectacular, was primarily due to additional events held at the venue during the current year period as compared to the prior year period.

The decrease in event-related revenues at Hulu Theater at Madison Square Garden was primarily due to lower per event revenue and, to a lesser extent, fewer events held at the venue during the current year period as compared to the prior year period.

The decrease in event-related revenues at the Forum was primarily due to the impact of the new revenue recognition standard in the current year period. The decrease was partially offset by higher per event revenue and additional events held at the venue during the current year period as compared to the prior year period.

Direct operating expenses

Direct operating expenses for the three months ended December 31, 2018 increased \$20,049, or 14%, to \$167,014 as compared to the prior year period. The net increase is attributable to the following:

Increase in event-related direct operating expenses at The Garden	\$9,183
Increase in event-related direct operating expenses at The Chicago Theatre	4,065
Increase in direct operating expenses associated with the presentation of the Christmas Spectacular	2,835
Increase in direct operating expenses associated with entertainment dining and nightlife offerings	2,820
Inclusion of direct operating expenses from Obscura	2,460
Increase in direct operating expenses associated with venue-related sponsorship and signage and suite licenses	845
Increase in event-related direct operating expenses at Radio City Music Hall, excluding the Christmas Spectacular	634
Increase in event-related direct operating expenses at the Beacon Theatre	404
Decrease in event-related direct operating expenses at the Forum	(3,396)
Decrease in event-related direct operating expenses at Hulu Theater at Madison Square Garden	(640)
Other net increases	839
	\$20,049

The increase in event-related direct operating expenses at The Garden was due to additional events held at the venue during the current year period as compared to the prior year period. The increase was partially offset by the impact of the new revenue recognition standard and lower per event expenses during the current year period as compared to the prior year period.

The increase in event-related direct operating expenses at The Chicago Theatre was primarily due to additional events held at the venue and higher per event expenses during the current year period as compared to the prior year period.

The increase in direct operating expenses associated with the presentation of the Christmas Spectacular was primarily due to (i) higher labor costs, (ii) costs related to show enhancements, and (iii) higher marketing expenses during the current year period as compared to the prior year period.

The increase in direct operating expenses associated with entertainment dining and nightlife offerings is primarily due to certain costs reported as selling, general and administrative expenses during the prior year period and an increase in employee compensation and related benefits.

Table of Contents

Direct operating expenses from Obscura are included as a result of its acquisition by the Company on November 20, 2017. The current period includes direct operating expenses from Obscura for three months as compared to approximately one month during the prior year period. Direct operating expenses from Obscura principally consist of direct operating expenses related to designing and development costs associated with next-generation immersive experiences for third parties.

The increase in direct operating expenses associated with the venue-related sponsorship and signage and suite licenses was primarily due to increased sales of existing sponsorship inventory.

The decrease in event-related direct operating expenses at the Forum was primarily due to the impact of the new revenue recognition standard in the current year period. The decrease was partially offset by higher per event expenses and additional events held at the venue during the current year period as compared to the prior year period.

Selling, general and administrative expenses

Selling, general and administrative expenses for the three months ended December 31, 2018 increased \$7,400, or 16%, to \$52,457 as compared to the prior year period. The increase is primarily due to (i) higher venue pre-opening costs associated with entertainment dining and nightlife offerings, (ii) inclusion of Obscura's selling, general and administrative costs, (iii) higher professional fees, and (iv) an increase in employee compensation and related benefits, slightly offset by certain costs reported as direct operating expenses during the current year period as compared to being reported as selling, general and administrative expenses during the prior year period.

Operating income

Operating income for the three months ended December 31, 2018 increased \$18,442, or 25%, to \$93,274 as compared to the prior year period primarily due to an increase in revenues, partially offset by higher direct operating expenses, and to a lesser extent, an increase in selling, general and administrative expenses, as discussed above.

Adjusted operating income

Adjusted operating income for the three months ended December 31, 2018 increased \$18,758, or 23%, to \$101,003 as compared to the prior year period primarily due to an increase in revenues, partially offset by higher direct operating expenses, and to a lesser extent, an increase in selling, general and administrative expenses, as discussed above, excluding share-based compensation expense.

MSG Sports

The table below sets forth, for the periods presented, certain historical financial information and a reconciliation of operating income to adjusted operating income for the Company's MSG Sports segment.

	Three Months		Change	
	Ended		Amount	Percentage
	2018	2017		
Revenues	\$315,843	\$265,086	\$50,757	19 %
Direct operating expenses	218,714	163,496	55,218	34 %
Selling, general and administrative expenses	53,313	49,821	3,492	7 %
Depreciation and amortization	1,984	1,849	135	7 %
Operating income	\$41,832	\$49,920	\$(8,088)	(16)%
Reconciliation to adjusted operating income:				
Share-based compensation	4,818	3,905		
Depreciation and amortization	1,984	1,849		
Adjusted operating income	\$48,634	\$55,674	\$(7,040)	(13)%

The comparability of the results of operations for the three months ended December 31, 2018 to the prior year period was impacted by the adoption of the new revenue recognition standard. See "Factors Affecting Results of Operations" for more information, as well as a discussion of the expected increase in local media rights revenue during the current fiscal year.

Table of Contents

Revenues

Revenues for the three months ended December 31, 2018 increased \$50,757, or 19%, to \$315,843 as compared to the prior year period. The net increase is attributable to the following:

Increase in local media rights fees from MSG Networks	\$23,166
Increase in revenues from league distributions	8,320
Increase in event-related revenues from other live sporting events	6,538
Increase in suite license fee revenues	5,821
Increase in professional sports teams' pre/regular season ticket-related revenues	5,449
Increase in professional sports teams' sponsorship and signage revenues and ad sales commissions	4,657
Decrease in professional sports teams' pre/regular season food, beverage and merchandise sales	(4,212)
Other net increases	1,018
	\$50,757

The increase in local media rights fees from MSG Networks was primarily due to the impact of the new revenue recognition standard in the current year period, and to a lesser extent, contractual rate increases.

The increase in revenues from league distributions was primarily due to the impact of the new revenue recognition standard in the current year period.

The increase in event-related revenues from other live sporting events was primarily due to higher per event revenue as well as more events during the current year period as compared to the prior year period.

The increase in suite license fee revenue was primarily due to the impact of the new revenue recognition standard in the current year period and rate increases, partially offset by lower sales of suite products and Knicks and Rangers playing fewer games at The Garden during the current year period as compared to the prior year period.

The increase in professional sports teams' pre/regular season ticket-related revenues was primarily due to the impact of the new revenue recognition standard in the current year period, partially offset by Knicks and Rangers playing fewer games at The Garden during the current year period as compared to the prior year period. The Knicks played five fewer regular season games and Rangers played four fewer regular season games at The Garden during the current year period as compared to the prior year period.

The increase in professional sports teams' sponsorship and signage revenues and ad sales commission was primarily due to the impact of the new revenue recognition standard in the current year period and increased sales of existing sponsorship and signage inventory.

The decrease in professional sports teams' pre/regular season food, beverage and merchandise sales was due to the Knicks and Rangers playing fewer games at The Garden during the current year period as compared to the prior year period.

Direct operating expenses

Direct operating expenses for the three months ended December 31, 2018 increased \$55,218, or 34%, to \$218,714 as compared to the prior year period. The net increase is attributable to the following:

Increase in net provisions for certain team personnel transactions	\$37,996
Increase in team personnel compensation	10,755
Increase in other team operating expenses not discussed elsewhere in this table	3,493
Increase in event-related expenses associated with other live sporting events	2,787
Increase in net provisions for league revenue sharing expense (excluding playoffs) and NBA luxury tax	1,744
Decrease in professional sports teams' pre/regular season expense associated with food, beverage and merchandise sales	(1,994)
Other net increases	437
	\$55,218

Table of Contents

Net provisions for certain team personnel transactions and for league revenue sharing expense (excluding playoffs) were as follows:

	Three Months Ended December 31,		Increase
	2018	2017	
Net provisions for certain team personnel transactions	\$40,754	\$2,758	\$37,996
Net provisions for league revenue sharing expense (excluding playoffs) and NBA luxury tax	22,717	20,973	1,744

Team personnel transactions for the three months ended December 31, 2018 reflect provisions recorded for player waivers/contract terminations of \$39,167 and a player trade of \$1,587. Team personnel transactions for the three months ended December 31, 2017 reflect provisions recorded for player waivers/contract terminations.

The increase in net provisions for league revenue sharing expense (excluding playoffs) and NBA luxury tax reflects higher provisions for league revenue sharing expense of \$3,244, partially offset by higher estimated NBA luxury tax credit of \$1,500. Higher league revenue sharing expense primarily reflects the impact of the new revenue recognition standard in the current year period and higher estimated NBA and NHL revenue sharing expense for the 2018-19 season, partially offset by adjustments to prior seasons' revenue sharing expense and higher estimated net player escrow recoveries. The Knicks were not a luxury tax payer for the 2017-18 season and, therefore, received an equal share of the portion of luxury tax receipts that were distributed to non-tax paying teams. The Knicks' roster as of December 31, 2018 would not result in the team being a luxury tax payer for the 2018-19 season and the estimated luxury tax receipt is currently anticipated to be higher than the luxury tax receipt for the 2017-18 season. The actual amounts for the 2018-19 season may vary significantly from the recorded provisions based on actual operating results for each league and all teams within each league for the season and other factors.

The increase in team personnel compensation was primarily the result of earlier recognition due to the impact of the new revenue recognition standard for fulfillment costs in the current year period, slightly offset by the impact of roster changes at the Company's sports teams.

The increase in other team operating expenses was primarily the result of earlier recognition due to the impact of the new revenue recognition standard in the current year period, an increase in league assessments and other net increases, partially offset by lower day-of-event costs, primarily driven by the Knicks and Rangers playing fewer games at The Garden during the current year period as compared to the prior year period.

The increase in event-related expenses associated with other live sporting events was primarily due to higher per event expenses as well as more events during the current year period as compared to the prior year period.

The decrease in professional sports teams' pre/regular season expense associated with food, beverage and merchandise sales was primarily due to the Knicks and Rangers playing fewer games at The Garden during the current year period as compared to the prior year period.

Selling, general and administrative expenses

Selling, general and administrative expenses for the three months ended December 31, 2018 increased \$3,492, or 7%, to \$53,313 as compared to the prior year period primarily due to higher employee compensation and related benefits and an increase in corporate general and administrative costs.

Operating income

Operating income for the three months ended December 31, 2018 decreased \$8,088, or 16%, to \$41,832 as compared to the prior year period primarily due to higher direct operating expenses, and to a lesser extent, an increase in selling, general and administrative expenses, partially offset by an increase in revenues, as discussed above.

Adjusted operating income

Adjusted operating income for the three months ended December 31, 2018 decreased \$7,040, or 13%, to \$48,634 as compared to the prior year period due to higher direct operating expenses, and to a lesser extent, an increase in selling, general and administrative expenses, partially offset by an increase in revenues, as discussed above.

The following is a summary of changes in our segments' operating results for the six months ended December 31, 2018 as compared to the prior year period.

Our results for the six months ended December 31, 2018 are not directly comparable to our results for the prior year period due to the adoption of ASC Topic 606 and the timing of the Obscura acquisition. See "Factors Affecting Results of Operations" for a more detailed discussion, as well as a discussion of the expected increase in local media rights revenue during the current fiscal year.

Table of Contents

Selling, general and administrative expenses - Corporate and Other

Selling, general and administrative expenses in Corporate and Other for the six months ended December 31, 2018 increased \$9,453, or 21%, to \$54,597 as compared to the prior year period. The increase was primarily due to (i) costs associated with the proposed Sports Distribution, (ii) higher employee compensation and related benefits, driven by an increase in share-based compensation expense, and (iii) the inclusion of Obscura's selling, general and administrative costs. The increase was partially offset by lower costs related to the Company's business development initiatives.

Depreciation & amortization

Depreciation and amortization for the six months ended December 31, 2018 decreased \$1,234, or 2%, to \$59,856 as compared to the prior year period. The decrease was primarily due to certain assets being fully depreciated and amortized.

Operating loss - Corporate and Other

Operating loss in Corporate and Other for the six months ended December 31, 2018 increased \$7,799, or 9%, to \$92,873 as compared to the prior year period. The increase was primarily due to higher selling, general and administrative expenses as discussed above, partially offset by lower depreciation and amortization as a result of certain assets being fully depreciated and amortized. See Note 18 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for discussion of depreciation and amortization under Corporate and Other.

Earnings in equity method investments

Earnings in equity method investments for the six months ended December 31, 2018 increased \$17,895 to \$20,012 as compared to the prior year period. The increase was due to (i) the improvement in the net earnings attributable to the Company's investees, (ii) the gain on the sale of an AMSGE investment prior to the Company's sale of its interest in AMSGE, and (iii) a gain on the sale of the Company's interest in AMSGE during the current year period as compared to the prior year period. The increase was partially offset by the amortization of basis difference attributable to intangible assets for the new investments in the current year period.

Interest income, net

Net interest income for the six months ended December 31, 2018 increased \$2,609, or 116%, to \$4,864 as compared to the prior year period primarily due to higher interest income earned by the Company as a result of higher interest rates, partially offset by higher interest expense incurred under the TAO Term Loan Facility due to changes in interest rate.

Miscellaneous expense, net

Miscellaneous expense for the six months ended December 31, 2018 increased \$6,858 to \$9,096 as compared to the prior year period primarily due to the unrealized loss related to the Company's investment in Townsquare, partially offset by the dividends earned on the investment. As a result of the adoption of ASU No. 2016-01 during the first quarter of fiscal year 2019, the change in fair value of the investment in Townsquare was recognized in net income. See Note 2 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for discussion of the adoption of ASU No. 2016-01.

Income taxes

See Note 16 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for discussions of the Company's income taxes.

Adjusted operating income

The following is a reconciliation of operating income to adjusted operating income:

	Six Months Ended		Change	
	December 31, 2018	2017	Amount	Percentage
Operating income	\$27,492	\$58,920	\$(31,428)	(53)%
Share-based compensation	30,404	26,816		
Depreciation and amortization ^(a)	59,856	61,090		
Other purchase accounting adjustments	2,748	2,324		
Adjusted operating income	\$120,500	\$149,150	\$(28,650)	(19)%

^(a) Depreciation and amortization includes purchase accounting adjustments of \$9,462 and \$8,923 for the six months ended December 31, 2018 and 2017, respectively.

Adjusted operating income for the six months ended December 31, 2018 decreased \$28,650, or 19%, to \$120,500 as compared to the prior year period. The net decrease is attributable to the following:

Increase in adjusted operating income of the MSG Entertainment segment	\$9,571
Decrease in adjusted operating income of the MSG Sports segment	(32,918)
Other net decreases	(5,181)
Inter-segment eliminations	(122)
	\$(28,650)

Other net decreases were primarily due to higher professional fees and the inclusion of Obscura's selling, general and administrative costs. The increase in professional fees was due to costs associated with the proposed Sports Distribution partially offset by a decrease in costs related to the Company's business development initiatives.

Net income (loss) attributable to redeemable and nonredeemable noncontrolling interests

For the six months ended December 31, 2018, the Company recorded \$3,655 of net loss attributable to redeemable noncontrolling interests and \$3,812 of net loss attributable to nonredeemable noncontrolling interests as compared to \$133 of net income attributable to redeemable noncontrolling interests and \$1,515 of net loss attributable to nonredeemable noncontrolling interests for the six months ended December 31, 2017. These amounts represent the share of net income (loss) from the Company's investments in TAO Group, BCE, and CLG that are not attributable to the Company. In addition, the net income (loss) attributable to redeemable and nonredeemable noncontrolling interests includes a proportional share of expenses related to purchase accounting adjustments.

The comparability of the results of operations for the six months ended December 31, 2018 to the prior year period was impacted by the new revenue recognition standard and the timing of the Obscura acquisition. See "Factors Affecting Results of Operations" for more information.

Revenues

Revenues for the six months ended December 31, 2018 increased \$43,970, or 10%, to \$479,467 as compared to the prior year period. The net increase is attributable to the following:

Increase in event-related revenues at The Garden	\$15,916
Increase in revenues from the presentation of the Christmas Spectacular	10,645
Increase in venue-related sponsorship and signage and suite license fee revenues	7,635
Inclusion of revenues from Obscura	7,393
Increase in event-related revenues at The Chicago Theatre	4,246
Increase in event-related revenues at the Beacon Theatre	1,862
Increase in revenues associated with entertainment dining and nightlife offerings	1,202
Decrease in event-related revenues at Hulu Theater at Madison Square Garden	(3,613)
Decrease in event-related revenues at the Forum	(1,374)
Decrease in event-related revenues at Radio City Music Hall, excluding the Christmas Spectacular	(895)
Other net increases	953
	\$43,970

The increase in event-related revenues at The Garden was primarily due to additional events held at the venue and higher per event revenue during the current year period as compared to the prior year period. The increase was partially offset by the impact of the new revenue recognition standard in the current year period.

The increase in revenues from the presentation of the Christmas Spectacular was primarily due to higher ticket-related revenue, mainly as a result of higher average ticket prices and an increase in average per-show paid attendance in the current year period as compared to the prior year period. The Company had 197 performances of the production in the second quarter of fiscal year 2019, the same number of performances as compared to the second quarter of fiscal year 2018. For the second quarter of fiscal year 2019, more than one million tickets were sold, representing a low-single digit percentage increase as compared to the prior year period.

The increase in venue-related sponsorship and signage and suite license fee revenues was due to higher sponsorship and signage revenues primarily due to increased sales of existing sponsorship and signage inventory and the impact of the new revenue recognition standard in the current year period.

Table of Contents

Revenues from Obscura are included as a result of its acquisition by the Company on November 20, 2017. The current year period includes revenues from Obscura for six months as compared to approximately four months during the prior year period. Revenues from Obscura principally consist of revenues earned for work in designing and developing next-generation immersive experiences for third parties.

The increase in event-related revenues at The Chicago Theatre was primarily due to additional events held at the venue and higher per event revenue during the current year period as compared to the prior year period. The increase was partially offset by the impact of the new revenue recognition standard in the current year period.

The increase in event-related revenues at the Beacon Theatre was primarily due to additional events held at the venue during the current year period as compared to the prior year period.

The decrease in event-related revenues at Hulu Theater at Madison Square Garden was primarily due to lower per event revenue and, to a lesser extent, fewer events held at the venue during the current year period as compared to the prior year period.

The decrease in event-related revenues at the Forum was primarily due to the impact of the new revenue recognition standard in the current year period and lower per event revenue during the current year period as compared to the prior year period. The decrease was largely offset by additional events held at the venue during the current year period as compared to the prior year period.

The decrease in event-related revenues at Radio City Music Hall, excluding the Christmas Spectacular, was primarily due to fewer events held at the venue during the current year period as compared to the prior year period and, to a lesser extent, the impact of the new revenue recognition standard in the current year period. The decrease was largely offset by higher per event revenue during the current year period as compared to the prior year period.

Direct operating expenses

Direct operating expenses for the six months ended December 31, 2018 increased \$22,270, or 9%, to \$274,799 as compared to the prior year period. The net increase is attributable to the following:

Inclusion of direct operating expenses from Obscura	\$6,488
Increase in direct operating expenses associated with entertainment dining and nightlife offerings	6,167
Increase in event-related direct operating expenses at The Garden	3,870
Increase in event-related direct operating expenses at The Chicago Theatre	2,775
Increase in direct operating expenses associated with the presentation of the Christmas Spectacular	2,729
Increase in direct operating expenses associated with venue-related sponsorship and signage and suite licenses	1,725
Increase in venue operating costs	1,614
Increase in event-related direct operating expenses at Radio City Music Hall, excluding the Christmas Spectacular	1,113
Increase in event-related direct operating expenses at the Beacon Theatre	296
Decrease in event-related direct operating expenses at the Forum	(5,080)
Decrease in event-related direct operating expenses at Hulu Theater at Madison Square Garden	(777)
Other net increases	1,350
	\$22,270

Direct operating expenses from Obscura are included as a result of its acquisition by the Company on November 20, 2017. The current period includes direct operating expenses from Obscura for six months as compared to approximately four months during the prior year period. Direct operating expenses from Obscura principally consist of direct operating expenses related to designing and development costs associated with next-generation immersive experiences for third parties.

The increase in direct operating expenses associated with entertainment dining and nightlife offerings is primarily due to (i) certain costs reported as selling, general and administrative expenses during the prior year period, (ii) an increase in employee compensation and related benefits, and (iii) higher performer costs, inclusive of the impact from the opening of a new venue.

The increase in event-related direct operating expenses at The Garden was due to additional events held at the venue during the current year period as compared to the prior year period. The increase was partially offset by the impact of the new revenue recognition standard in the current year period.

Table of Contents

The increase in event-related direct operating expenses at The Chicago Theatre was primarily due to additional events held at the venue and higher per event expenses during the current year period as compared to the prior year period. The increase was partially offset by the impact of the new revenue recognition standard in the current year period. The increase in direct operating expenses associated with the presentation of the Christmas Spectacular was primarily due to (i) higher labor costs, (ii) costs related to show enhancements, and (iii) higher marketing expenses during the current year period as compared to the prior year period.

The increase in direct operating expenses associated with the venue-related sponsorship and signage and suite licenses was primarily due to increased sales of existing sponsorship inventory.

The increase in venue operating costs reflects higher labor costs and higher repair and maintenance costs at the Company's venues, as well as higher real estate taxes at Radio City Music Hall during the current year period as compared to the prior year period.

The increase in event-related direct operating expenses at Radio City Music Hall, excluding the Christmas Spectacular, was primarily due to higher per event expenses during the current year period as compared to the prior year period. The increase was partially offset by fewer events held at the venue during the current year period as compared to the prior year period as well as the impact of the new revenue recognition standard in the current year period.

The decrease in event-related direct operating expenses at the Forum was primarily due to the impact of the new revenue recognition standard in the current year period and lower per event expenses during the current year period as compared to the prior year period. The decrease was partially offset by additional events held at the venue during the current year period as compared to the prior year period.

Selling, general and administrative expenses

Selling, general and administrative expenses for the six months ended December 31, 2018 increased \$11,978, or 13%, to \$101,426 as compared to the prior year period. The increase is primarily due to (i) inclusion of Obscura's selling, general and administrative costs, (ii) an increase in employee compensation and related benefits, (iii) higher venue pre-opening costs associated with entertainment dining and nightlife offerings, and (iv) an increase in professional fees, slightly offset by certain costs reported as direct operating expenses during the current year period as compared to being reported as selling, general and administrative expenses during the prior year period.

Operating income

Operating income for the six months ended December 31, 2018 increased \$9,994, or 12%, to \$94,991 as compared to the prior year period due to an increase in revenues, partially offset by higher direct operating expenses, and to a lesser extent, an increase in selling, general and administrative expenses, as discussed above.

Adjusted operating income

Adjusted operating income for the six months ended December 31, 2018 increased \$9,571, or 10% to \$110,043 as compared to the prior year period due to an increase in revenues, partially offset by higher direct operating expenses, and to a lesser extent, an increase in selling, general and administrative expenses as discussed above, excluding share-based compensation expense.

Adjusted operating income	\$49,222	\$82,140	\$(32,918)	(40)	%

The comparability of the results of operations for the six months ended December 31, 2018 to the prior year period was impacted by the adoption of the new revenue recognition standard. See "Factors Affecting Results of Operations" for more information, as well as a discussion of the expected increase in local media rights revenue during the current fiscal year.

Revenues

Revenues for the six months ended December 31, 2018 increased \$25,175, or 7%, to \$371,195 as compared to the prior year period. The net increase is attributable to the following:

Increase in revenues from league distributions	\$17,365
Increase in event-related revenues from other live sporting events	6,454
Increase in professional sports teams' sponsorship and signage revenues and ad sales commissions	5,173
Increase in professional sports teams' pre/regular season ticket-related revenues	3,618
Increase in suite license fee revenues	2,468
Decrease in local media rights fees from MSG Networks	(6,014)
Decrease in professional sports teams' pre/regular season food, beverage and merchandise sales	(4,757)
Other net increases	868
	\$25,175

The increase in revenues from league distributions was primarily due to the impact of the new revenue recognition standard in the current year period and timing.

The increase in event-related revenues from other live sporting events was primarily due to higher per event revenue as well as more events during the current year period as compared to the prior year period.

The increase in professional sports teams' sponsorship and signage revenues and ad sales commission was primarily due to the impact of the new revenue recognition standard in the current year period and increased sales of existing sponsorship and signage inventory.

The increase in professional sports teams' pre/regular season ticket-related revenues was primarily due to the impact of the new revenue recognition standard in the current year period and higher average Knicks per-game revenue, partially offset by Knicks and Rangers playing fewer games at The Garden during the current year period as compared to the prior year period and lower average Rangers and Liberty per-game revenue. See Note 19 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" for a discussion of the sale of the Liberty in January 2019. The Knicks played five fewer regular season games and the Rangers played four fewer regular season games at The Garden during the current year period as compared to the prior year period.

Table of Contents

The increase in suite license fee revenue was primarily due to rate increases and the impact of the new revenue recognition standard in the current year period, partially offset by lower sales of suite products and Knicks and Rangers playing fewer games at The Garden during the current year period as compared to the prior year period. The decrease in local media rights fees from MSG Networks was primarily due to the impact of the new revenue recognition standard in the current year period, partially offset by contractual rate increases.

The decrease in professional sports teams' pre/regular season food, beverage and merchandise sales was primarily due to the Rangers, Knicks and Liberty playing fewer games at The Garden during the current year period as compared to the prior year period. See Note 19 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for a discussion of the sale of the Liberty in January 2019.

Direct operating expenses

Direct operating expenses for the six months ended December 31, 2018 increased \$53,809, or 30%, to \$234,033 as compared to the prior year period. The net increase is attributable to the following:

Increase in net provisions for certain team personnel transactions	\$ 37,229
Increase in team personnel compensation	10,888
Increase in other team operating expenses not discussed elsewhere in this table	3,040
Increase in event-related expenses associated with other live sporting events	2,547
Increase in net provisions for league revenue sharing expense (excluding playoffs) and NBA luxury tax	1,940
Decrease in professional sports teams' pre/regular season expense associated with food, beverage and merchandise sales	(2,917)
Other net increases	1,082
	\$53,809

Net provisions for certain team personnel transactions and for league revenue sharing expense (excluding playoffs) were as follows:

	Six Months		
	Ended		Increase
	December 31,		
	2018	2017	
Net provisions for certain team personnel transactions	\$40,087	\$2,858	\$37,229
Increase in net provisions for league revenue sharing expense (excluding playoffs) and NBA luxury tax	23,820	21,880	1,940

Team personnel transactions for the six months ended December 31, 2018 reflects provisions, net of recoveries recorded in the current year period associated with prior year team personnel provisions, recorded for player waivers/contract terminations of \$38,500 and a player trade of \$1,587. Team personnel transactions for the six months ended December 31, 2017 reflect provisions recorded for player waivers/contract terminations.

The increase in net provisions for league revenue sharing expense (excluding playoffs) and NBA luxury tax reflects higher provisions for league revenue sharing expense of \$3,440, partially offset by higher estimated NBA luxury tax credit of \$1,500. Higher league revenue sharing expense primarily reflects the impact of the new revenue recognition standard in the current year period and higher estimated NBA and NHL revenue sharing expense for the 2018-19 season, partially offset by adjustments to prior seasons' revenue sharing expense and higher estimated net player escrow recoveries. The Knicks were not a luxury tax payer for the 2017-18 season and, therefore, received an equal share of the portion of luxury tax receipts that were distributed to non-tax paying teams. The Knicks' roster as of December 31, 2018 would not result in the team being a luxury tax payer for the 2018-19 season and the estimated luxury tax receipt is currently anticipated to be higher than the luxury tax receipt for the 2017-18 season. The actual amounts for the 2018-19 season may vary significantly from the recorded provisions based on actual operating results for each league and all teams within each league for the season and other factors.

The increase in team personnel compensation was primarily the result of earlier recognition due to the impact of the new revenue recognition standard for fulfillment costs in the current year period, slightly offset by the impact of roster

changes at the Company's sports teams.

64

Table of Contents

The increase in other team operating expenses was primarily due to the impact of the new revenue recognition standard in the current year period, an increase in league assessments and other net increases, partially offset by lower day-of-event costs, primarily driven by the Knicks, Liberty and Rangers playing fewer games at The Garden during the current year period as compared to the prior year period. During the current year period, the majority of the Liberty's home games were played at the Westchester County Center, located in White Plains, NY. See Note 19 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for a discussion of the sale of the Liberty in January 2019.

The increase in event-related expenses associated with other live sporting events was primarily due to higher per event expenses as well as more events during the current year period as compared to the prior year period.

The decrease in professional sports teams' pre/regular season expense associated with food, beverage and merchandise sales was primarily due to the Knicks, Rangers and Liberty playing fewer games at The Garden during the current year period as compared to the prior year period. The Liberty played eight fewer games at The Garden during the current year period as compared to the prior year period, as the majority of their home games were played at the Westchester County Center, located in White Plains, NY. See Note 19 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for a discussion of the sale of the Liberty in January 2019.

Selling, general and administrative expenses

Selling, general and administrative expenses for the six months ended December 31, 2018 increased \$3,733, or 4%, to \$95,530 as compared to the prior year period primarily due to higher employee compensation and related benefits, higher marketing costs and an increase in corporate general and administrative costs.

Operating income

Operating income for the six months ended December 31, 2018 decreased \$32,538, or 46%, to \$37,706 as compared to the prior year period primarily due to higher direct operating expenses, and to a lesser extent, an increase in selling, general and administrative expenses, partially offset by an increase in revenues, as discussed above.

Adjusted operating income

Adjusted operating income for the six months ended December 31, 2018 decreased \$32,918, or 40%, to \$49,222, as compared to the prior year period due to higher direct operating expenses, and to a lesser extent, an increase in selling, general and administrative expenses, partially offset by an increase in revenues, as discussed above.

Liquidity and Capital Resources

Overview

Our primary sources of liquidity are cash and cash equivalents, cash flows from the operations of our businesses and available borrowing capacity under our \$377,000 revolving credit facilities (see Note 11 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for a discussion of the Knicks Revolving Credit Facility, Knicks Unsecured Credit Facility, Rangers Revolving Credit Facility and TAO Credit Facilities). Our principal uses of cash include working capital-related items, capital spending (including our planned construction of large-scale venues in Las Vegas and London), investments and related loans that we may fund from time to time, repurchases of shares of the Company's Class A Common Stock, repayment of debt, and the payment of earn-out obligations and mandatory purchases from prior acquisitions. The decisions of the Company as to the use of its available liquidity will be based upon the ongoing review of the funding needs of the business, the optimal allocation of cash resources, and the timing of cash flow generation. To the extent the Company desires to access alternative sources of funding through the capital and credit markets, challenging U.S. and global economic conditions could adversely impact our ability to do so at that time.

We regularly monitor and assess our ability to meet our net funding and investing requirements. Over the next 12 months, we believe we have sufficient liquidity, including approximately \$1,228,000 in unrestricted cash and cash equivalents as of December 31, 2018, along with available borrowing capacity under our revolving credit facilities combined with operating cash flows to fund our operations, to pursue the development of the new venues discussed

below and other new business opportunities and to repurchase shares of the Company's Class A Common Stock. TAO Group's principal uses of cash include working capital related items, investments in new venues, tax-related cash distributions, interest expense payments and repayment of debt. TAO Group plans to grow its business through the opening of new venues. TAO Group regularly monitors and assesses its ability to meet its funding and investment requirements. Over the

65

next 12 months, the Company believes that TAO Group has sufficient liquidity from cash on hand, cash generated from operations and its revolving credit facility to fund its operations, service debt obligations and pursue new business opportunities.

MSG Spheres

The Company is moving forward with its venue strategy to create the “venue of the future” — which we refer to as “MSG Sphere” for its spherical shape.

We plan to build the first MSG Sphere in Las Vegas, followed by London. We continue to refine our designs to ensure we are delivering the most immersive experience for guests while maximizing the efficiencies that come with constructing two venues that will have similar key features. For Las Vegas, the Company is in the final stages of site preparation and expects to begin foundation work in February, with the goal of opening the MSG Sphere in calendar year 2021.

In London, the Company acquired land in 2017 at a cost of \$79,518, and is completing its planning application, which it expects to submit in the coming weeks. The Company plans to begin work following the receipt of all necessary approvals and the completion of construction drawings. Assuming the timely completion of those steps, the Company expects to open the London venue approximately one year after the Las Vegas venue opens.

Cost estimates for MSG Sphere Las Vegas and London have not yet been finalized as the Company continues to refine its design plans. MSG Sphere is an ambitious project that we believe will drive substantial new and enhanced revenue and adjusted operating income opportunities for the Company. Given the transformative nature of these venues, we expect that completion of these venues will require greater capital spend than would be required for a comparable sized entertainment venue.

In connection with these efforts, the Company will need to pursue additional capital beyond that which is available from cash on hand, cash flows from operations and borrowings under our revolving credit facilities. There is no assurance that we would be able to obtain such capital. The potential Sports Distribution contemplates that the Company would retain an approximate one-third interest in the sports company which, if completed, could provide the Company with an additional source of funding for its capital and other needs, including for costs associated with the design and construction of MSG Spheres. As is the case for any large scale real estate development projects, as the Company moves forward with the planning and construction for the MSG Spheres and other major new venues, the Company may face unexpected project delays and costs.

We will continue to explore additional domestic and international markets where we believe next-generation venues such as the MSG Sphere can be successful.

Revolving Credit Facilities Provided to Nonconsolidated Affiliates, Financing Agreements and Stock Repurchases
See Note 7, Note 11, Note 14 and Note 19 to the consolidated financial statements included in “Part I — Item 1. Financial Statements” of this Quarterly Report on Form 10-Q for discussions of the Company’s revolving credit facility extended to a nonconsolidated affiliate, the Company’s debt obligations and various financing agreements, and the Company’s stock repurchases, respectively.

Bilateral Letters of Credit Lines

The Company has established bilateral credit lines with a bank to issue letters of credit in support of the Company’s business operations. The Company pays fees for the letters of credit that are credited against interest income the Company receives in return from its investments in notes receivable with the same bank. As of December 31, 2018, the Company had \$11,097 of letters of credit outstanding pursuant to which fees were credited against a note investment, which included two letters of credit for \$750 pertaining to TAO Group as of September 30, 2018.

Contractual Obligations

The Company did not have any material changes in its contractual obligations since the end of fiscal year 2018 other than activities in the ordinary course of business.

Cash Flow Discussion

As of December 31, 2018, cash, cash equivalents and restricted cash totaled \$1,251,578, as compared to \$1,256,620 as of June 30, 2018. The following table summarizes the Company's cash flow activities for the six months ended December 31, 2018 and 2017:

	Six Months Ended	
	December 31,	
	2018	2017
Net cash provided by operating activities	\$28,519	\$52,599
Net cash used in investing activities	(15,878)	(143,872)
Net cash used in financing activities	(18,081)	(31,874)
Effect of exchange rates on cash, cash equivalents and restricted cash	398	12
Net decrease in cash, cash equivalents and restricted cash	\$(5,042)	\$(123,135)

Operating Activities

Net cash provided by operating activities for the six months ended December 31, 2018 decreased by \$24,080 to \$28,519 as compared to the prior year period primarily due to a decrease in net income adjusted for non-cash items, partially offset by changes in certain assets and liabilities. The decrease in net income adjusted for non-cash items include lower benefits from deferred income taxes as a result of the enactment of the TCJA in the prior year period and higher earnings in equity method investments in the current year period. The changes in certain assets and liabilities are driven by an increase in accrued and other liabilities, which includes the impact of a waiver of a player and the absence of a severance-related payment with a team executive, largely offset by (i) higher receivables in the current year period due to timing and the impact from the adoption of ASC Topic 606, (ii) the absence of a payment received in the prior year period related to a non-recurring league distribution, and (iii) lower deferred revenue primarily due to the timing of cash collections.

Investing Activities

Net cash used in investing activities for the six months ended December 31, 2018 decreased by \$127,994 to \$15,878 as compared to the prior year period primarily due to proceeds received from the sale of the Company's 50% interest in AMSGE and, to a lesser extent, lower capital expenditures in the current year period compared to the prior year period primarily associated with the purchase of land in London during the second quarter of fiscal year 2018. The decrease was partially offset by the Company's investment in SACO during the current year period.

Financing Activities

Net cash used in financing activities for the six months ended December 31, 2018 decreased by \$13,793 to \$18,081 as compared to the prior year period primarily due to (i) the non-recurrence of repurchases of shares of the Company's Class A Common Stock in the prior year period, (ii) the non-recurrence of a contingent consideration payment related to the acquisition of CLG in the prior year period, and (iii) contributions from noncontrolling interest holders in the current year period. The decrease was partially offset by higher taxes paid in lieu of shares issued for equity-based compensation in the current year period as compared to the prior year period.

Seasonality of Our Business

The dependence of the MSG Entertainment segment on revenues from the Christmas Spectacular generally means it earns a disproportionate share of its revenues and operating income in the second quarter of the Company's fiscal year. The dependence of the MSG Sports segment on revenues from its NBA and NHL sports teams generally means it earns a disproportionate share of its revenues in the second and third quarters of the Company's fiscal year. This impact has become more significant as a result of adoption of ASC Topic 606.

In addition, while it does not have a material impact on seasonality of our business, the first and third calendar quarters are seasonally lighter quarters for TAO Group as compared to its second and fourth calendar quarters. As the Company consolidates TAO Group results of operations on a three-month lag basis, the seasonally lighter quarters for TAO Group will be reflected in the second and fourth quarters of the Company's fiscal year.

Recently Issued Accounting Pronouncements and Critical Accounting Policies

Recently Issued Accounting Pronouncements

See Note 2 to the consolidated financial statements included in “Part I — Item 1. Financial Statements” of this Quarterly Report on Form 10-Q for discussion of recently issued accounting pronouncements.

Critical Accounting Policies

The following discussion has been included to provide the results of our annual impairment testing of goodwill and identifiable indefinite-lived intangible assets performed during the first quarter of fiscal year 2019. There have been no material changes to the Company’s critical accounting policies from those set forth in our Annual Report on Form 10-K for the year ended June 30, 2018 except the adoption of ASC Topic 606, Revenue from Contracts with Customers, in the first quarter of fiscal year 2019. See Note 3 to the consolidated financial statements included in “Part I — Item 1. Financial Statements” of this Quarterly Report on Form 10-Q for discussion of revenue recognition.

Goodwill

Goodwill is tested annually for impairment as of August 31st and at any time upon the occurrence of certain events or substantive changes in circumstances. The Company performs its goodwill impairment test at the reporting unit level, which is one level below the operating segment level. The Company has two operating and reportable segments, MSG Sports and MSG Entertainment, consistent with the way management makes decisions and allocates resources to the business.

For purposes of evaluating goodwill for impairment, the Company has three reporting units across its two operating segments, which are MSG Sports, MSG Entertainment and TAO Group. During the first quarter of fiscal year 2019, the Company performed its annual impairment test of goodwill and determined that there were no impairments of goodwill identified for any of its reporting units as of the impairment test date.

The goodwill balance reported on the Company’s consolidated balance sheet as of December 31, 2018 by reporting unit was as follows:

MSG Sports	\$226,955
MSG Entertainment	76,975
TAO Group	88,583
	\$392,513

The Company has the option to perform a qualitative assessment to determine if an impairment is more likely than not to have occurred. If the Company can support the conclusion that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company would not need to perform the two-step impairment test for that reporting unit. If the Company cannot support such a conclusion or the Company does not elect to perform the qualitative assessment, the first step of the goodwill impairment test is used to identify potential impairment by comparing the fair value of a reporting unit with its carrying amount, including goodwill. The estimates of the fair value of the Company’s reporting units are primarily determined using discounted cash flows and comparable market transactions. These valuations are based on estimates and assumptions including projected future cash flows, discount rates, determination of appropriate market comparables and the determination of whether a premium or discount should be applied to comparables. Significant judgments inherent in a discounted cash flow analysis include the selection of the appropriate discount rate, the estimate of the amount and timing of projected future cash flows and identification of appropriate continuing growth rate assumptions. The discount rates used in the analysis are intended to reflect the risk inherent in the projected future cash flows. If the carrying amount of a reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed to measure the amount of impairment loss, if any. The second step of the goodwill impairment test compares the implied fair value of the reporting unit’s goodwill with the carrying amount of that goodwill. If the carrying amount of the reporting unit’s goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess. The implied fair value of goodwill is determined in the same manner as the amount of goodwill that would be recognized in a business combination.

Table of Contents

The Company elected to perform the qualitative assessment of impairment for the goodwill for all of the Company's reporting units for the fiscal year 2019 annual impairment test. These assessments considered factors such as:

- macroeconomic conditions;
- industry and market considerations;
- cost factors;
- overall financial performance of the reporting units;
- other relevant company-specific factors such as changes in management, strategy or customers; and
- relevant reporting unit specific events such as changes in the carrying amount of net assets.

During the first quarter of fiscal year 2019, the Company performed its annual impairment test of goodwill and determined that there were no impairments of goodwill identified for any of its reporting units as of the impairment test date. Based on these impairment tests, the Company's reporting units had sufficient safety margins, representing the excess of the estimated fair value of each reporting unit, derived from the most recent quantitative assessments, less its respective carrying value (including goodwill allocated to each respective reporting unit). The Company believes that if the fair value of the reporting unit exceeds its carrying value by greater than 10%, a sufficient safety margin has been realized.

Identifiable Indefinite-Lived Intangible Assets

Identifiable indefinite-lived intangible assets are tested annually for impairment as of August 31st and at any time upon the occurrence of certain events or substantive changes in circumstances. The following table sets forth the amount of identifiable indefinite-lived intangible assets reported in the Company's consolidated balance sheet as of December 31, 2018 by reportable segment:

Sports franchises (MSG Sports segment)	\$ 110,564
Trademarks (MSG Entertainment segment)	62,421
Photographic related rights (MSG Sports segment)	3,000
	\$ 175,985

The Company has the option to perform a qualitative assessment to determine if an impairment is more likely than not to have occurred. In the qualitative assessment, the Company must evaluate the totality of qualitative factors, including any recent fair value measurements, that impact whether an indefinite-lived intangible asset other than goodwill has a carrying amount that more likely than not exceeds its fair value. The Company must proceed to conducting a quantitative analysis, if the Company (i) determines that such an impairment is more likely than not to exist, or (ii) forgoes the qualitative assessment entirely. Under the quantitative assessment, the impairment test for identifiable indefinite-lived intangible assets consists of a comparison of the estimated fair value of the intangible asset with its carrying value. If the carrying value of the intangible asset exceeds its fair value, an impairment loss is recognized in an amount equal to that excess.

The Company elected to perform the qualitative assessment of impairment for the indefinite-lived intangible assets for all of the Company's reporting units for the fiscal year 2019 annual impairment test. These assessments considered the events and circumstances that could affect the significant inputs used to determine the fair value of the intangible asset. Examples of such events and circumstances include:

- cost factors;
- financial performance;
- legal, regulatory, contractual, business or other factors;
- other relevant company-specific factors such as changes in management, strategy or customers;
- industry and market considerations; and
- macroeconomic conditions.

Table of Contents

During the first quarter of fiscal year 2019, the Company performed its annual impairment test of the identifiable indefinite-lived intangible assets and determined that there were no impairments identified as of the impairment test date. Based on results of the impairment tests performed, the Company's indefinite-lived intangible assets had sufficient safety margins, representing the excess of each identifiable indefinite-lived intangible asset's estimated fair value over its respective carrying value. The Company believes that if the fair value of an indefinite-lived intangible asset exceeds its carrying value by greater than 10%, a sufficient safety margin has been realized.

Contingent Consideration

See Note 10 to the consolidated financial statements included in "Part I — Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for more information regarding the fair value of the Company's deferred and contingent consideration liabilities related to the acquisitions of TAO Group and CLG.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There were no material changes to the disclosures regarding market risks in connection with our pension and postretirement plans, interest rate risk exposure, and commodity risk exposure. See Item 7A, "Quantitative and Qualitative Disclosures About Market Risk," of our Annual Report on Form 10-K for the year ended June 30, 2018. In addition, we are exposed to market risk resulting from foreign currency fluctuations, primarily to the British pound sterling through our net investment position initiated with our acquisition of land in London and funds on deposit in various bank accounts. We may evaluate and decide, to the extent reasonable and practical, to reduce the translation risk of foreign currency fluctuations by entering into foreign currency forward exchange contracts with financial institutions. If we were to enter into such hedging transactions, the market risk resulting from foreign currency fluctuations is unlikely to be entirely eliminated. We do not plan to enter into derivative financial instrument transactions for foreign currency speculative purposes.

As of December 31, 2018, a uniform hypothetical 5% fluctuation in the GBP/USD exchange rate would have resulted in a change of approximately \$15.3 million in the Company's net asset value.

Item 4. Controls and Procedures

An evaluation was carried out under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934). Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that as of December 31, 2018 the Company's disclosure controls and procedures were effective.

There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934) during the quarter ended December 31, 2018 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

The Company is a defendant in various lawsuits. Although the outcome of these other lawsuits cannot be predicted with certainty (including the extent of available insurance, if any), management does not believe that resolution of these lawsuits will have a material adverse effect on the Company.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

As of December 31, 2018, the Company had \$259,639 remaining under the \$525,000 Class A Common Stock share repurchase program authorized by the Company's board of directors on September 11, 2015. Under the authorization, shares of Class A Common Stock may be purchased from time to time in accordance with applicable insider trading and other securities laws and regulations, with the timing and amount of purchases depending on market conditions and other factors. The Company has been funding and expects to continue to fund stock repurchases through a combination of cash on hand and cash generated by operations. During the three months ended December 31, 2018, the Company did not engage in any share repurchase activity under its share repurchase program.
