1.	Telefónica Financial Highlights for the period January March 2013	

Table of Contents

FINANCIAL HIGHLIGHTS

Revenues totalled 14,141 million euros, down 1.6% year-on-year in organic terms:

Telefónica Latinoamérica accounted for 51% of consolidated revenues (+2.7 p.p. year-on-year), maintaining a strong organic year-on-year growth of 6.8% and reinforcing its leadership in high-value customers in the region, with a growing weight of contract and smartphones.

Revenues in reported terms (-8.8% year-on-year) reflected the impact of exchange rate fluctuations (-5.5 p.p.), mainly due to the devaluation in Venezuela, and the changes in the perimeter of consolidation (-1.8 p.p.).

Stabilization of OIBDA year-on-year (-0.1% in organic terms) for the second quarter in a row:

OIBDA totalled 4,567 million euros, reflecting the solid execution and sustainability of the Company's transformational initiatives.

Organic OIBDA margin expanded by 0.5 p.p. compared with the first quarter of 2012, sustaining the year-on-year improvement trend for the second consecutive quarter.

Sustained increase of operating cash flow (OIBDA-CapEx) (+9.6% year-on-year in organic terms), maintaining the year-on-year growth trend started the previous quarter.

CapEx (1,941 million euros), which included 695 million euros of spectrum acquisition, was mainly devoted to growth areas (3G and 4G networks, fibre), which accounted for 82% of total investment.

Basic earnings per share stood at 0.20 euros (+22.2% year-on-year).

Net income totalled 902 million euros, up 20.6% year-on-year (1,069 million euros in underlying terms, -7.9% year-on-year).

Net debt stood at 51,809 million euros at the end of the quarter and included both non-recurring (devaluation in Venezuela, spectrum payment in the UK, sale of treasury stock), and seasonal impacts (the recurrent negative working capital performance in the first quarter). The leverage ratio stood at 2.44 times.

Thanks to the proactive management of our asset portfolio, post-closing events after the third quarter allowed to reduce net debt further by 653 million euros to 51,156 million euros and the leverage ratio to 2.41 times.

Telefónica's proactive refinancing policy has enabled to raise nearly 7,000 million euros year to date, so debt maturities are currently covered beyond 2014.

Edgar Filing: TELEFONICA S A - Form 6-K

First-quarter results are in line with the Company's internal estimates, allowing to reiterate financial and operating targets for 2013.

Continuous progressive stabilisation in our key markets:

Brazil became Telefónica's first market by revenues in the quarter and continued to strengthen its leadership thanks to its differential quality in the mobile market (+17% in contract customers and +88% in smartphones). Revenues grew 3.0% to 3,263 million euros in the first quarter and OIBDA margin stood at 32.3% (+0.3 p.p. year-on-year in organic terms) despite the intense commercial activity associated with high-value customers.

In **Spain**, Movistar Fusión kept a strong commercial momentum in the quarter, with 47% of gross adds incorporating new mobile or broadband services, and reached 1.7 million clients at the end of March. Total revenues, excluding handset sales, maintained previous quarters' trend and fell 11.4% year-on-year, while the margin continued to reflect the Company's deep transformation and stood at 47.0% (+5.1 p.p. year-on-year in organic terms).

In the **UK**, contract accesses growth remained strong (+9% year-on-year), underpinned by new customers' acquisition and churn contention. Smartphone penetration stood at 47% of mobile customers in March. Mobile service revenues improved for the second consecutive quarter, falling 2.9% year-on-year excluding the impact of regulation. OIBDA grew 3.1% year-on-year thanks to efficiency gains and the OIBDA margin expanded 1.6 p.p. to 21.1%.

In **Germany** contract customer growth stood at 7%, supported by the sharp growth in smartphones, which accounted for 28% of the mobile customer base (+7 p.p. year-on-year). Mobile service revenues rose 0.5% year-on-year excluding the interconnection rates cuts, while the OIBDA margin expanded 0.5 p.p. to 23.9% in the quarter.

Comments from César Alierta, Executive Chairman

Table of Contents

In the first quarter of 2013 we continued with the transformation process underway by the Company, significantly advancing in different priority projects, which are reflected in the progressive business stabilisation and the higher degree of diversification, along with the continuous improvement of our financial position.

Latin America contributed with over 50% of group revenues for the second quarter in a row and Brazil became Telefónica's main market in terms of revenue contribution for the first time, highlighting the advance in our business diversification. At the same time, we further progressed in the launching of new businesses through Telefónica Digital.

The transformation process also impacted the traditional business, where we continued progressing in adapting the commercial model moving away from a subsidy-based model towards a more sustainable model based on quality and differential offers which increase loyalty of our customer base. The implementation of this new commercial model is complemented by the drive of simplification, both in processes and products and services, which delivered very positive results in the quarter.

All these factors are reflected in the steady improvement of key financials, with stable OIBDA year-on-year in organic terms for the second consecutive quarter while operating cash flow (OIBDA-CapEx) posted double-digit year-on-year growth. In addition, the Company continued to implement initiatives aimed at improving financial flexibility, as evidenced by the proactive asset portfolio management .

- **Reconciliation included in the excel spreadsheets.**

Notes:

- *OIBDA and OI are presented before brand fees and management fees.*
- *OIBDA margin calculated as OIBDA over revenues.*
- *2012 and 2013 reported figures include the hyperinflationary adjustments in Venezuela in both years.*
- *Other companies & eliminations include the results of Atento in the first quarter of 2012.*
- *CapEx includes 695 million euros from the spectrum acquired in the first quarter of 2013: 671 million euros in United Kingdom and 24 million euros in Uruguay. In the first quarter of 2012 it includes 5 million euros from the spectrum acquired in Nicaragua.*
- *From January 1st, 2013, Tuenti is included in the consolidation perimeter of T. España. Before it was included within Other companies and eliminations of Telefónica Group. As a consequence, the results of T. España, T. Europe and Other companies and Eliminations of Telefónica Group have been restated for the fiscal year 2012. As this is an intragroup change, Telefónica consolidated results for 2012 are not affected.*
- **Organic growth / 2013 guidance:** *Assumes constant exchange rates as of 2012 (average Fx in 2012), excludes hyperinflationary accounting in Venezuela and considers constant perimeter of consolidation. In OIBDA and OI terms excludes write-downs, capital gains/losses from companies disposals, tower sales and material non-recurring impacts. CapEx excludes spectrum acquisition. 2012 adjusted bases exclude: capital gains/losses from companies disposals (capital gains/losses from China Unicom, Atento, Hispasat and Rumbo), impairment of T. Ireland, homogeneous perimeter (2012 adjusted figures exclude results of Atento, Rumbo and small changes in T. Digital perimeter and homogeneous accounting treatment of Joint Ventures) tower sales and change in contractual commercial model for contract handsets in Chile.*
