NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Reporting Entity

HCA Holdings, Inc. is a holding company whose affiliates own and operate hospitals and related health care entities. The term *affiliates* includes direct and indirect subsidiaries of HCA Holdings, Inc. and partnerships and joint ventures in which such subsidiaries are partners. At March 31, 2014, these affiliates owned and operated 165 hospitals, 115 freestanding surgery centers and provided extensive outpatient and ancillary services. HCA Holdings, Inc.'s facilities are located in 20 states and England. The terms *Company*, *HCA*, *we*, *our* or *us*, as used herein and otherwise stated or indicated by context, refer to HCA Holdings, Inc. and its affiliates. The terms *facilities* or *hospitals* refer to entities owned and operated by affiliates of HCA and the term *employees* refers to employees of affiliates of HCA.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal and recurring nature.

The majority of our expenses are *costs of revenues* items. Costs that could be classified as general and administrative would include our corporate office costs, which were \$68 million and \$66 million for the quarters ended March 31, 2014 and 2013, respectively. Operating results for the quarter ended March 31, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. For further information, refer to the consolidated financial statements and footnotes thereto included in our annual report on Form 10-K for the year ended December 31, 2013.

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 1 INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)***Basis of Presentation (continued)*

Revenues are recorded during the period the health care services are provided, based upon the estimated amounts due from the patients and third-party payers. Third-party payers include federal and state agencies (under Medicare, Medicaid and other programs), managed care health plans (includes the health insurance exchanges, beginning with the first quarter of 2014), commercial insurance companies and employers. Estimates of contractual allowances under managed care health plans are based upon the payment terms specified in the related contractual agreements. Revenues related to uninsured patients and copayment and deductible amounts for patients who have health care coverage may have discounts applied (uninsured discounts and contractual discounts). We also record a provision for doubtful accounts related to uninsured accounts to record the net self pay revenues at the estimated amounts we expect to collect. Our revenues from third-party payers and the uninsured for the quarters ended March 31, 2014 and 2013 are summarized in the following table (dollars in millions):

	2014	Ratio	2013	Ratio
Medicare	\$ 2,125	24.1%	\$ 2,138	25.3%
Managed Medicare	899	10.2	843	10.0
Medicaid	444	5.0	332	3.9
Managed Medicaid	421	4.8	401	4.8
Managed care and other insurers	4,710	53.3	4,486	53.2
International (managed care and other insurers)	326	3.7	290	3.4
	8,925	101.1	8,490	100.6
Uninsured	388	4.4	399	4.7
Other	370	4.2	305	3.6
Revenues before provision for doubtful accounts	9,683	109.7	9,194	108.9
Provision for doubtful accounts	(851)	(9.7)	(754)	(8.9)
Revenues	\$ 8,832	100.0%	\$ 8,440	100.0%

Certain prior year amounts have been reclassified to conform to the current year presentation.

NOTE 2 ACQUISITIONS AND DISPOSITIONS

During the quarter ended March 31, 2014, we paid \$13 million to acquire a hospital and \$6 million to acquire other nonhospital health care entities. During the quarter ended March 31, 2013, we paid \$22 million to acquire nonhospital health care entities.

During the quarter ended March 31, 2014, we recognized net pretax gains of \$21 million related to sales of real estate and other investments. During the quarter ended March 31, 2013, we recognized net pretax losses of \$16 million related to sales of a hospital facility and real estate and other investments.

NOTE 3 INCOME TAXES

The IRS Examination Division began an audit of HCA Holdings, Inc.'s 2011 and 2012 federal income tax returns during the first quarter of 2014.

Edgar Filing: HCA Holdings, Inc. - Form 10-Q

Our liability for unrecognized tax benefits was \$484 million, including accrued interest of \$35 million, as of March 31, 2014 (\$462 million and \$30 million, respectively, as of December 31, 2013). Unrecognized tax

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 3 INCOME TAXES (continued)**

benefits of \$168 million (\$160 million as of December 31, 2013) would affect the effective rate, if recognized. The provision for income taxes reflects \$4 million (\$3 million, net of tax) of interest expense related to taxing authority examinations and \$18 million (\$11 million, net of tax) of reductions in interest expense related to taxing authority examinations for the quarters ended March 31, 2014 and 2013, respectively.

Depending on the completion of examinations by federal, state or international taxing authorities, the resolution of any tax disputes, or the expiration of statutes of limitation for specific taxing jurisdictions, we believe it is reasonably possible our liability for unrecognized tax benefits may significantly increase or decline within the next 12 months. However, we are currently unable to estimate the range of any possible change.

NOTE 4 EARNINGS PER SHARE

We compute basic earnings per share using the weighted average number of common shares outstanding. We compute diluted earnings per share using the weighted average number of common shares outstanding, plus the dilutive effect of outstanding stock options, stock appreciation rights and restricted share units, computed using the treasury stock method.

The following table sets forth the computation of basic and diluted earnings per share for the quarters ended March 31, 2014 and 2013 (dollars in millions, except per share amounts, and shares in thousands):

	2014	2013
Net income attributable to HCA Holdings, Inc.	\$ 347	\$ 344
Weighted average common shares outstanding	442,150	444,401
Effect of dilutive incremental shares	15,299	17,967
Shares used for diluted earnings per share	457,449	462,368
Earnings per share:		
Basic earnings per share	\$ 0.78	\$ 0.77
Diluted earnings per share	\$ 0.76	\$ 0.74

NOTE 5 INVESTMENTS OF INSURANCE SUBSIDIARIES

A summary of our insurance subsidiaries' investments at March 31, 2014 and December 31, 2013 follows (dollars in millions):

	Amortized Cost	March 31, 2014 Unrealized Amounts		Fair Value
		Gains	Losses	
Debt securities:				
States and municipalities	\$ 451	\$ 13	\$ (1)	\$ 463
Money market funds	59			59
	510	13	(1)	522
Equity securities	1	2		3

Edgar Filing: HCA Holdings, Inc. - Form 10-Q

\$ 511 \$ 15 \$ (1) 525

Amounts classified as current assets (72)

Investment carrying value \$ 453

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 5 INVESTMENTS OF INSURANCE SUBSIDIARIES (continued)**

	Amortized Cost	December 31, 2013 Unrealized Amounts		Fair Value
		Gains	Losses	
Debt securities:				
States and municipalities	\$ 404	\$ 11	\$ (3)	\$ 412
Money market funds	94			94
	498	11	(3)	506
Equity securities	2	2		4
	\$ 500	\$ 13	\$ (3)	510
Amounts classified as current assets				(62)
Investment carrying value				\$ 448

At March 31, 2014 and December 31, 2013, the investments of our insurance subsidiaries were classified as available-for-sale. Changes in temporary unrealized gains and losses are recorded as adjustments to other comprehensive income (loss).

Scheduled maturities of investments in debt securities at March 31, 2014 were as follows (dollars in millions):

	Amortized Cost	Fair Value
Due in one year or less	\$ 80	\$ 80
Due after one year through five years	226	232
Due after five years through ten years	90	94
Due after ten years	114	116
	\$ 510	\$ 522

The average expected maturity of the investments in debt securities at March 31, 2014 was 4.0 years, compared to the average scheduled maturity of 5.5 years. Expected and scheduled maturities may differ because the issuers of certain securities have the right to call, prepay or otherwise redeem such obligations prior to their scheduled maturity date.

NOTE 6 FINANCIAL INSTRUMENTS*Interest Rate Swap Agreements*

We have entered into interest rate swap agreements to manage our exposure to fluctuations in interest rates. These swap agreements involve the exchange of fixed and variable rate interest payments between two parties based on common notional principal amounts and maturity dates. Pay-fixed interest rate swaps effectively convert LIBOR indexed variable rate obligations to fixed interest rate obligations. The interest payments under these agreements are settled on a net basis. The net interest payments, based on the notional amounts in these agreements, generally match the timing of the related liabilities for the interest rate swap agreements which have been designated as cash flow hedges. The notional amounts of the swap agreements represent amounts used to calculate the exchange of cash flows and are not our assets or liabilities. Our

Edgar Filing: HCA Holdings, Inc. - Form 10-Q

credit risk related to these agreements is considered low because the swap agreements are with creditworthy financial institutions.

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 6 FINANCIAL INSTRUMENTS (continued)***Interest Rate Swap Agreements (continued)*

The following table sets forth our interest rate swap agreements, which have been designated as cash flow hedges, at March 31, 2014 (dollars in millions):

	Notional Amount	Maturity Date	Fair Value
Pay-fixed interest rate swaps	\$ 500	December 2014	\$ (4)
Pay-fixed interest rate swaps	3,000	December 2016	(229)
Pay-fixed interest rate swaps	1,000	December 2017	(40)

During the next 12 months, we estimate \$127 million will be reclassified from other comprehensive income (OCI) to interest expense.

Derivatives Results of Operations

The following table presents the effect of our interest rate swaps on our results of operations for the quarter ended March 31, 2014 (dollars in millions):

Derivatives in Cash Flow Hedging Relationships	Amount of Loss Recognized in OCI on Derivatives, Net of Tax	Location of Loss Reclassified from Accumulated OCI into Operations	Amount of Loss Reclassified from Accumulated OCI into Operations
Interest rate swaps	\$ 6	Interest expense	\$ 33

Credit-risk-related Contingent Features

We have agreements with each of our derivative counterparties that contain a provision where we could be declared in default on our derivative obligations if repayment of the underlying indebtedness is accelerated by the lender due to our default on the indebtedness. As of March 31, 2014, we have not been required to post any collateral related to these agreements. If we had breached these provisions at March 31, 2014, we would have been required to settle our obligations under the agreements at their aggregate, estimated termination value of \$284 million.

NOTE 7 ASSETS AND LIABILITIES MEASURED AT FAIR VALUE

Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (ASC 820) emphasizes fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC 820 establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Table of Contents

HCA HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 7 ASSETS AND LIABILITIES MEASURED AT FAIR VALUE (continued)

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input significant to the fair value measurement in its entirety. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Cash Traded Investments

Our cash traded investments are generally classified within Level 1 or Level 2 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Certain types of cash traded instruments are classified within Level 3 of the fair value hierarchy because they trade infrequently and therefore have little or no price transparency. The valuation of these securities involves management's judgment, after consideration of market factors and the absence of market transparency, market liquidity and observable inputs. Our valuation models derived fair market values compared to tax-equivalent yields of other securities of similar credit worthiness and similar effective maturities.

Derivative Financial Instruments

We have entered into interest rate swap agreements to manage our exposure to fluctuations in interest rates. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. We incorporate credit valuation adjustments to reflect both our own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements.

Although we determined the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties. We assessed the significance of the impact of the credit valuation adjustments on the overall valuation of our derivative positions, and at March 31, 2014 and December 31, 2013, we determined the credit valuation adjustments were not significant to the overall valuation of our derivatives.

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 7 ASSETS AND LIABILITIES MEASURED AT FAIR VALUE (continued)***Derivative Financial Instruments (continued)*

The following tables summarize our assets and liabilities measured at fair value on a recurring basis as of March 31, 2014 and December 31, 2013, aggregated by the level in the fair value hierarchy within which those measurements fall (dollars in millions):

	March 31, 2014 Fair Value Measurements Using

Less amounts due within one year	1,041	786
	\$ 27,883	\$ 27,590

2014 Activity

During March 2014, we issued \$3.500 billion aggregate principal amount of notes, comprised of \$1.500 billion aggregate principal amount of 3.75% senior secured notes due 2019 and \$2.000 billion aggregate principal amount of 5.00% senior secured notes due 2024 and repaid at maturity all \$500 million aggregate principal amount of our outstanding 5.75% senior unsecured notes. During April 2014, we used proceeds from the March 2014 debt issuance to redeem all \$1.500 billion aggregate principal amount of our outstanding 8 1/2% senior secured notes due 2019 and all \$1.250 billion aggregate principal amount of our outstanding 7 7/8% senior secured notes due 2020. The pretax loss on retirement of debt related to these redemptions is expected to be approximately \$226 million.

2013 Activity

During March 2013, we redeemed all \$201 million aggregate principal amount of our 9 7/8% senior secured second lien notes due 2017, at a redemption price of 104.938% of the principal amount. The pretax loss on retirement of debt related to this redemption was \$17 million.

NOTE 9 CONTINGENCIES AND LEGAL CLAIM COSTS

Edgar Filing: HCA Holdings, Inc. - Form 10-Q

We operate in a highly regulated and litigious industry. As a result, various lawsuits, claims and legal and regulatory proceedings have been and can be expected to be instituted or asserted against us. We are also subject to claims and suits arising in the ordinary course of business, including claims for personal injuries or wrongful restriction

Table of Contents

HCA HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 9 CONTINGENCIES AND LEGAL CLAIM COSTS (continued)

of, or interference with, physicians' staff privileges. In certain of these actions the claimants may seek punitive damages against us which may not be covered by insurance. The resolution of any such lawsuits, claims or legal and regulatory proceedings could have a material, adverse effect on our results of operations or financial position.

Government Investigations, Claims and Litigation

Health care companies are subject to numerous investigations by various governmental agencies. Further, under the federal False Claims Act (FCA), private parties have the right to bring *qui tam*, or whistleblower, suits against companies that submit false claims for payments to, or improperly retain overpayments from, the government. Some states have adopted similar state whistleblower and false claims provisions. Certain of our individual facilities have received, and from time to time, other facilities may receive, government inquiries from, and may be subject to investigation by, federal and state agencies. Depending on whether the underlying conduct in these or future inquiries or investigations could be considered systemic, their resolution could have a material, adverse effect on our financial position, results of operations and liquidity.

As initially disclosed in 2010, the Civil Division of the Department of Justice (DOJ) has contacted the Company in connection with its nationwide review of whether, in certain cases, hospital charges to the federal government relating to implantable cardio-defibrillators (ICDs) met the CMS criteria. In connection with this nationwide review, the DOJ has indicated that it will be reviewing certain ICD billing and medical records at 95 HCA hospitals; the review covers the period from October 2003 to the present. In August 2012, HCA, along with non-HCA hospitals across the country subject to the DOJ 's review, received from the DOJ a proposed framework for resolving the DOJ 's review of ICDs. The Company is cooperating in the review. The review could potentially give rise to claims against the Company under the federal FCA or other statutes, regulations or laws. At this time, we cannot predict what effect, if any, this review or any resulting claims could have on the Company.

In July 2012, the Civil Division of the U.S. Attorney 's Office in Miami requested information on reviews assessing the medical necessity of interventional cardiology services provided at any Company facility (other than peer reviews). The Company is cooperating with the government 's request and has produced medical records associated with particular reviews at eight hospitals, located primarily in Florida. At this time, we cannot predict what effect, if any, the request or any resulting claims, including any potential claims under the federal FCA, other statutes, regulations or laws, could have on the Company.

On April 2, 2014, the UK Competition and Markets Authority (Authority) issued a final report on its investigation of the private health care market in London. It concluded, among other things, that many private hospitals face little competition in central London, and that there are high barriers to entry. As part of its remedies package, the Authority ordered HCA to sell either: (a) its London Bridge and Princess Grace hospitals; or (b) its Wellington Hospital, including the Hospital Platinum Medical Centre. It also imposed other remedial conditions on HCA and other private health care providers, including: regulation of incentives to referring physicians; increased access to information about fees and performance; and restrictions on future arrangements between private providers and NHS private patient units. HCA disagrees with the Authority 's assessment of the competitive conditions for hospitals in London, as well as its proposed divestiture remedy, and intends to appeal the decision.

Securities Class Action Litigation

On October 28, 2011, a shareholder action, Schuh v. HCA Holdings, Inc. et al., was filed in the United States District Court for the Middle District of Tennessee seeking monetary relief. The case sought to include as a class all persons who acquired the Company 's stock pursuant or traceable to the Company 's Registration Statement issued in connection with the March 9, 2011 initial public offering. The lawsuit asserted a claim under Section 11 of the Securities Act of 1933 against the Company, certain members of the board of directors, and certain underwriters in the offering. It further asserted a claim under Section 15 of the Securities Act of 1933

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)****NOTE 9 CONTINGENCIES AND LEGAL CLAIM COSTS (continued)***Securities Class Action Litigation (continued)*

against the same members of the board of directors. The action alleged various deficiencies in the Company's disclosures in the Registration Statement. Subsequently, two additional class action complaints, *Kishtah v. HCA Holdings, Inc. et al.* and *Daniels v. HCA Holdings, Inc. et al.*, setting forth substantially similar claims against substantially the same defendants were filed in the same federal court on November 16, 2011 and December 12, 2011, respectively. All three of the cases were consolidated. On May 3, 2012, the court appointed New England Teamsters & Trucking Industry Pension Fund as Lead Plaintiff for the consolidated action. On July 13, 2012, the lead plaintiff filed an amended complaint asserting claims under Sections 11 and 12(a)(2) of the Securities Act of 1933 against the Company, certain members of the board of directors, and certain underwriters in the offering. It further asserts a claim under Section 15 of the Securities Act of 1933 against the same members of the board of directors and Hercules Holdings II, LLC, a majority shareholder of the Company at the time of the initial public offering. The consolidated complaint alleges deficiencies in the Company's disclosures in the Registration Statement and Prospectus relating to: (1) the accounting for the Company's 2006 recapitalization and 2010 reorganization; (2) the Company's failure to maintain effective internal controls relating to its accounting for such transactions; and (3) the Company's Medicare and Medicaid revenue growth rates. The Company and other defendants moved to dismiss the amended complaint on September 11, 2012. The Court granted the motion in part on May 28, 2013. The action is proceeding to discovery on the remaining claims.

In addition to the above described shareholder class actions, on December 8, 2011, a federal shareholder derivative action, *Sutton v. Bracken, et al.*, putatively initiated in the name of the Company, was filed in the United States District Court for the Middle District of Tennessee against certain officers and present and former directors of the Company seeking monetary relief. The action alleges breaches of fiduciary duties by the named officers and directors in connection with the accounting and earnings claims set forth in the shareholder class actions. Setting forth substantially similar claims against substantially the same defendants, an additional federal derivative action, *Schroeder v. Bracken, et al.*, was filed in the United States District Court for the Middle District of Tennessee on December 16, 2011, and a state derivative action, *Bagot v. Bracken, et al.*, was filed in Tennessee state court in the Davidson County Circuit Court on December 20, 2011. The federal derivative actions were consolidated in the Middle District of Tennessee and stayed pending developments in the shareholder class actions. The state derivative action had also been stayed pending developments in the shareholder class actions, but that stay has expired. The plaintiff in the state derivative action subsequently filed an amended complaint on September 9, 2013 that added additional allegations made in the shareholder class actions. On September 24, 2013, an additional state derivative action, *Steinberg v. Bracken, et al.*, was filed in Tennessee state court in the Davidson County Circuit Court. This action against our board of directors has been consolidated with the earlier filed state derivative action. The plaintiffs in the consolidated action filed a consolidated complaint on December 4, 2013. The Company has filed a motion to again stay the state derivative action pending developments in the class action, but the Court has not yet acted on that motion.

Health Midwest Litigation

In October 2009, the Health Care Foundation of Greater Kansas City, a nonprofit health foundation, filed suit against HCA Inc. in the Circuit Court of Jackson County, Missouri and alleged that HCA did not fund the level of capital expenditures and uncompensated care agreed to in connection with HCA's purchase of hospitals from Health Midwest in 2003. The central issue in the case was whether HCA's construction of new hospitals counted towards its \$450 million five-year capital commitments. In addition, the plaintiff alleged that HCA did not make its required capital expenditures in a timely fashion. On January 24, 2013, the Court ruled in favor of the plaintiff and awarded at least \$162 million. The Court also ordered a court-supervised accounting of HCA's capital expenditures, as well as of expenditures on charity and uncompensated care during the ten years following the purchase. The Court also indicated it would award plaintiff attorneys fees, which the parties have stipulated

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)****NOTE 9 CONTINGENCIES AND LEGAL CLAIM COSTS (continued)***Health Midwest Litigation (continued)*

are approximately \$12 million for the trial phase. HCA recorded \$175 million of legal claim costs in the fourth quarter of 2012 related to this ruling, and consistent with the judge's order, has been accruing interest on that sum at 9% per annum. On April 25, 2014, the parties stipulated to an additional \$78 million shortfall relating to the capital expenditures issue. HCA recorded \$78 million of legal claims costs in the first quarter of 2014 as a result of the stipulation, and is accruing interest on that amount at 9% per annum. Pursuant to the terms of the stipulation, the parties have preserved their respective rights to contest the judge's underlying ruling, whether through motions in the trial court or on appeal. The accounting for charity and other uncompensated care is ongoing, with hearings set to begin in the third quarter of 2014. Final judgment in the case currently is not anticipated before the fourth quarter of 2014. At this time, we cannot predict what effect, if any, the final judgment could have on the Company. HCA plans to appeal the trial court's ruling on the breach of contract claim and order for the accounting once the trial court rules on the accounting and enters judgment.

NOTE 10 CAPITAL STRUCTURE

The changes in stockholders' deficit, including changes in stockholders' deficit attributable to HCA Holdings, Inc. and changes in equity attributable to noncontrolling interests, are as follows (dollars in millions):

	Equity (Deficit) Attributable to HCA Holdings, Inc.				Equity Attributable to Noncontrolling Interests		Total
	Common Stock Shares (000)	Par Value	Capital in Excess of Par Value	Accumulated Other Comprehensive Loss	Retained Deficit

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)****NOTE 11 SEGMENT AND GEOGRAPHIC INFORMATION**

We operate in one line of business, which is operating hospitals and related health care entities. Effective January 1, 2013, we reorganized our operational groups into two geographically organized groups: the National and American Groups. The National Group includes 82 hospitals located in Alaska, California, Florida, southern Georgia, Idaho, Indiana, northern Kentucky, Nevada, New Hampshire, South Carolina, Utah and Virginia, and the American Group includes 77 hospitals located in Colorado, northern Georgia, Kansas, southern Kentucky, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee and Texas. We also operate six hospitals in England, and these facilities are included in the Corporate and other group.

Adjusted segment EBITDA is defined as income before depreciation and amortization, interest expense, losses (gains) on sales of facilities, loss on retirement of debt, legal claim costs, income taxes and net income attributable to noncontrolling interests. We use adjusted segment EBITDA as an analytical indicator for purposes of allocating resources to geographic areas and assessing their performance. Adjusted segment EBITDA is commonly used as an analytical indicator within the health care industry, and also serves as a measure of leverage capacity and debt service ability. Adjusted segment EBITDA should not be considered as a measure of financial performance under generally accepted accounting principles, and the items excluded from adjusted segment EBITDA are significant components in understanding and assessing financial performance. Because adjusted segment EBITDA is not a measurement determined in accordance with generally accepted accounting principles and is thus susceptible to varying calculations, adjusted segment EBITDA, as presented, may not be comparable to other similarly titled measures of other companies. The geographic distributions of our revenues, equity in earnings of affiliates, adjusted segment EBITDA and depreciation and amortization for the quarters ended March 31, 2014 and 2013 are summarized in the following table (dollars in millions):

	Quarter	
	2014	2013
Revenues:		
National Group	\$ 4,160	\$ 3,981
American Group	4,152	4,034

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 12 SUPPLEMENTAL CONDENSED CONSOLIDATING FINANCIAL INFORMATION**

On November 23, 2010, HCA Holdings, Inc. issued \$1.525 billion aggregate principal amount of 7³/₄% senior unsecured notes due 2021. On December 6, 2012, HCA Holdings, Inc. issued \$1.000 billion aggregate principal amount of 6.25% senior unsecured notes due 2021. These notes are senior unsecured obligations and are not guaranteed by any of our subsidiaries.

HCA Inc., a direct wholly-owned subsidiary of HCA Holdings, Inc., is the obligor under a significant portion of our other indebtedness, including our senior secured credit facilities, senior secured notes and senior unsecured notes (other than the senior unsecured notes issued by HCA Holdings, Inc.). The senior secured notes and senior unsecured notes issued by HCA Inc. are fully and unconditionally guaranteed by HCA Holdings, Inc. The senior secured credit facilities and senior secured notes are fully and unconditionally guaranteed by substantially all existing and future, direct and indirect, 100% owned material domestic subsidiaries that are Unrestricted Subsidiaries under our Indenture dated December 16, 1993 (except for certain special purpose subsidiaries that only guarantee and pledge their assets under our senior secured asset-based revolving credit facility).

Our summarized condensed consolidating comprehensive income statements for the quarters ended March 31, 2014 and 2013, condensed consolidating balance sheets at March 31, 2014 and December 31, 2013 and condensed consolidating statements of cash flows for the quarters ended March 31, 2014 and 2013, segregating HCA Holdings, Inc. issuer, HCA Inc. issuer, the subsidiary guarantors, the subsidiary non-guarantors and eliminations, follow:

Forward-Looking Statements

This quarterly report on Form 10-Q includes certain disclosures which contain forward-looking statements. Forward-looking statements include statements regarding estimated electronic health record (EHR) incentive income and related EHR operating expenses, expected capital expenditures, expected net claim payments and all other statements that do not relate solely to historical or current facts, and can be identified by the use of words like may, believe, will, expect, project, estimate, anticipate, plan, initiative or continue. These forward-looking statements are based on our current plans and expectations and are subject to a number of known and unknown uncertainties and risks, many of which are beyond our control, which could significantly affect current plans and expectations and our future financial position and results of operations. These factors include, but are not limited to, (1) the impact of our substantial indebtedness and the ability to refinance such indebtedness on acceptable terms, (2) the effects related to the implementation of the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act (collectively, the Health Reform Law), possible delays in or complications related to implementation of the Health Reform Law, the possible enactment of additional federal or state health care reforms and possible changes to the Health Reform Law and other federal, state or local laws or regulations affecting the health care industry, (3) the effects related to the continued implementation of the sequestration spending reductions required under the Budget Control Act of 2011 (the BCA), and related legislation extending these reductions, and the potential for future deficit reduction legislation that may alter these spending reductions, which include cuts to Medicare payments, or create additional spending reductions, (4) increases in the amount and risk of collectability of uninsured accounts and deductibles and copayment amounts for insured accounts, (5) the ability to achieve operating and financial targets, and attain expected levels of patient volumes and control the costs of providing services, (6) possible changes in the Medicare, Medicaid and other state programs, including Medicaid upper payment limit (UPL) programs or Waiver Programs, that may impact reimbursements to health care providers and insurers, (7) the highly competitive nature of the health care business, (8) changes in service mix, revenue mix and surgical volumes, including potential declines in the population covered under managed care agreements, the ability to enter into and renew managed care provider agreements on acceptable terms and the impact of consumer driven health plans and physician utilization trends and practices, (9) the efforts of insurers, health care providers and others to contain health care costs, (10) the outcome of our continuing efforts to monitor, maintain and comply with appropriate laws, regulations, policies and procedures, (11) increases in wages and the ability to attract and retain qualified management and personnel, including affiliated physicians, nurses and medical and technical support personnel, (12) the availability and terms of capital to fund the expansion of our business and improvements to our existing facilities, (13) changes in accounting practices, (14) changes in general economic conditions nationally and regionally in our markets, (15) future divestitures which may result in charges and possible impairments of long-lived assets, (16) changes in business strategy or development plans, (17) delays in receiving payments for services provided, (18) the outcome of pending and any future tax audits, appeals and litigation associated with our tax positions, (19) potential adverse impact of known and unknown government investigations, litigation and other claims that may be made against us, (20) our ongoing ability to demonstrate meaningful use of certified EHR technology and recognize income for the related Medicare or Medicaid incentive payments, and (21) other risk factors described in our annual report on Form 10-K for the year ended December 31, 2013 and our other filings with the Securities and Exchange Commission. As a consequence, current plans, anticipated actions and future financial position and results of operations may differ from those expressed in any forward-looking statements made by or on behalf of HCA. You are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in this report, which forward-looking statements reflect management's views only as of the date of this report. We undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Health Care Reform

The Health Reform Law changes how health care services are covered, delivered and reimbursed through expanded coverage of uninsured individuals, reduced growth in Medicare program spending, reductions in Medicare and Medicaid Disproportionate Share Hospital (DSH) payments, and the establishment of programs in which reimbursement is tied to quality and integration. In addition, the Health Reform Law reforms certain aspects of health insurance, expands existing efforts to tie Medicare and Medicaid payments to performance and quality, and contains provisions intended to strengthen fraud and abuse enforcement. Most of the provisions of the Health Reform Law that seek to decrease the number of uninsured became effective January 1, 2014. Based on the CBO's February 2014 projection, by 2022, the Health Reform Law will expand coverage to 25 million additional individuals. This increased coverage will occur through a combination of public program expansion and private sector health insurance and other reforms. The employer mandate, which requires firms with 50 or more full-time employees to offer health insurance or pay fines, has been delayed until January 1, 2015. For employers with 50 to 99 employees, this requirement has been further delayed until January 1, 2016. In addition, a number of states have announced their intent to opt out of the Medicaid expansion, but these states could choose to implement the expansion at a later date. It is unclear how many states will ultimately decline to implement the Medicaid expansion provisions of the law.

First Quarter 2014 Operations Summary

Revenues increased to \$8.832 billion in the first quarter of 2014 from \$8.440 billion in the first quarter of 2013. Net income attributable to HCA Holdings, Inc. totaled \$347 million, or \$0.76 per diluted share, for the quarter ended March 31, 2014, compared to \$344 million, or \$0.74 per diluted share, for the quarter ended March 31, 2013. First quarter 2014 results include net gains on sales of facilities of \$21 million, or \$0.03 per diluted share, and legal claim costs of \$78 million, or \$0.11 per diluted share. First quarter 2013 results include net losses on sales of facilities of \$16 million, or \$0.02 per diluted share, and a loss on retirement of debt of \$17 million, or \$0.03 per diluted share. All per diluted share disclosures are based upon amounts net of the applicable income taxes. Shares used for diluted earnings per share were 457.4 million shares for the quarter ended March 31, 2014 and 462.4 million shares for the quarter ended March 31, 2013.

Revenues increased 4.6% on a consolidated basis and increased 3.4% on a same facility basis for the quarter ended March 31, 2014, compared to the quarter ended March 31, 2013. The increase in consolidated revenues can be attributed to the combined impact of a 3.9% increase in revenue per equivalent admission and a 0.7% increase in equivalent admissions. The same facility revenues increase resulted from the net impact of a 3.7% increase in same facility revenue per equivalent admission and a 0.3% decline in same facility equivalent admissions.

During the quarter ended March 31, 2014, consolidated admissions and same facility admissions increased 0.2% and declined 0.6%, respectively, compared to the quarter ended March 31, 2013. Inpatient surgeries increased 1.3% on a consolidated basis and 0.9% on a same facility basis during the quarter ended March 31, 2014, compared to the quarter ended March 31, 2013. Outpatient surgeries declined 0.3% on a consolidated basis and 1.7% on a same facility basis during the quarter ended March 31, 2014, compared to the quarter ended March 31, 2013. Emergency department visits increased 0.9% on a consolidated basis and declined 0.1% on a same facility basis during the quarter ended March 31, 2014, compared to the quarter ended March 31, 2013.

For the quarter ended March 31, 2014, the provision for doubtful accounts increased \$97 million, compared to the quarter ended March 31, 2013. The self-pay revenue deductions for charity care and uninsured discounts increased \$20 million and \$351 million, respectively, during the first quarter of 2014, compared to the first quarter of 2013. The sum of the provision for doubtful accounts, uninsured discounts and charity care, as a

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

First Quarter 2014 Operations Summary (continued)

percentage of the sum of revenues, provision for doubtful accounts, uninsured discounts and charity care, was 31.6% for the first quarter of 2014, compared to 30.0% for the first quarter of 2013. Same facility uninsured admissions increased 2.1% for the quarter ended March 31, 2014, compared to the quarter ended March 31, 2013.

Electronic health record incentive income declined \$9 million, from \$39 million in the first quarter of 2013 to \$30 million in the first quarter of 2014. Share based compensation expense increased \$14 million, from \$23 million in the first quarter of 2013 to \$37 million in the first quarter of 2014.

Cash flows from operating activities declined \$297 million from \$740 million for the first quarter of 2013 to \$443 million for the first quarter of 2014. The decline is related primarily to the combined impact of a \$170 million decline from changes in working capital items and \$206 million decline related to income taxes.

Results of Operations

Revenue/Volume Trends

Our revenues depend upon inpatient occupancy levels, the ancillary services and therapy programs ordered by physicians and provided to patients, the volume of outpatient procedures and the charge and negotiated payment rates for such services. Gross charges typically do not reflect what our facilities are actually paid. Our facilities have entered into agreements with third-party payers, including government programs and managed care health plans, under which the facilities are paid based upon the cost of providing services, predetermined rates per diagnosis, fixed per diem rates or discounts from gross charges. We do not pursue collection of amounts related to patients who meet our guidelines to qualify for charity care; therefore, they are not reported in revenues. We provide discounts to uninsured patients who do not qualify for Medicaid or charity care. These discounts are similar to those provided to many local managed care plans. After the discounts are applied, we are still unable to collect a significant portion of uninsured patients' accounts, and we record significant provisions for doubtful accounts (based upon our historical collection experience) related to uninsured patients in the period the services are provided.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)*Revenue/Volume Trends (continued)*

Revenues increased 4.6% from \$8.440 billion in the first quarter of 2013 to \$8.832 billion in the first quarter of 2014. Revenues are recorded during the period the health care services are provided, based upon the estimated amounts due from the patients and third-party payers. Third-party payers include federal and state agencies (under Medicare, Medicaid and other programs), managed care health plans (includes the health insurance exchanges, beginning with the first quarter of 2014), commercial insurance companies and employers. Estimates of contractual allowances under managed care health plans are based upon the payment terms specified in the related contractual agreements. Revenues related to uninsured patients and copayment and deductible amounts for patients who have health care coverage may have discounts applied (uninsured discounts and contractual discounts). We also record a provision for doubtful accounts related to uninsured accounts to record the net self pay revenues at the estimated amounts we expect to collect. Our revenues from our third-party payers, the uninsured and other revenues for the quarters ended March 31, 2014 and 2013 are summarized in the following tables (dollars in millions):

	2014	Ratio	2013	Ratio
Medicare	\$ 2,125	24.1%	\$ 2,138	25.3%
Managed Medicare	899	10.2	843	10.0
Medicaid	444	5.0	332	3.9
Managed Medicaid	421	4.8	401	4.8
Managed care and other insurers	4,710	53.3	4,486	53.2
International (managed care and other insurers)	326	3.7	290	3.4
	8,925	101.1	8,490	100.6
Uninsured	388	4.4	399	4.7
Other	370	4.2	305	3.6
Revenues before provision for doubtful accounts	9,683	109.7	9,194	108.9
Provision for doubtful accounts	(851)	(9.7)	(754)	(8.9)
Revenues	\$ 8,832	100.0%	\$ 8,440	100.0%

Consolidated and same facility revenue per equivalent admission increased 3.9% and 3.7%, respectively, in the first quarter of 2014, compared to the first quarter of 2013. Consolidated and same facility equivalent admissions increased 0.7% and declined 0.3%, respectively, in the first quarter of 2014, compared to the first quarter of 2013. Consolidated and same facility admissions increased 0.2% and declined 0.6%, respectively, in the first quarter of 2014, compared to the first quarter of 2013. Consolidated and same facility outpatient surgeries declined 0.3% and 1.7%, respectively, in the first quarter of 2014, compared to the first quarter of 2013. Consolidated and same facility inpatient surgeries increased 1.3% and 0.9%, respectively, in the first quarter of 2014, compared to the first quarter of 2013. Consolidated and same facility emergency department visits increased 0.9% and declined 0.1%, respectively, in the first quarter of 2014, compared to the first quarter of 2013.

To quantify the total impact of and trends related to uninsured accounts, we believe it is beneficial to view the direct uninsured revenue deductions (charity care and uninsured discounts) and provision for doubtful accounts in combination, rather than each separately. At March 31, 2014, our allowance for doubtful accounts represented approximately 94% of the \$5.810 billion total patient due accounts receivable balance. The patient due accounts receivable balance represents the estimated uninsured portion of our accounts receivable. A summary of these

Table of Contents

FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)*Revenue/Volume Trends (continued)*

adjustments to revenues amounts, related to uninsured accounts, for the quarters ended March 31, 2014 and 2013 follows (dollars in millions):

	2014	Quarter Ratio	2013	Ratio
Charity care	\$ 925	23%	\$ 905	25%
Uninsured discounts	2,301	56	1,950	54
Provision for doubtful accounts	851	21	754	21
Totals	\$ 4,077	100%	\$ 3,609	100%

Same facility uninsured admissions increased by 680 admissions, or 2.1%, in the first quarter of 2014, compared to the first quarter of 2013. Same facility uninsured admissions in 2013, compared to 2012, increased 8.3% in the fourth quarter of 2013, increased 10.1% in the third quarter of 2013, increased 6.3% in the second quarter of 2013 and increased 5.4% in the first quarter of 2013.

The approximate percentages of our admissions related to Medicare, managed Medicare, Medicaid, managed Medicaid, managed care and other insurers and the uninsured for the quarters ended March 31, 2014 and 2013 are set forth in the following table.

	Quarter	
	2014	2013
Medicare	33%	33%
Managed Medicare	14	14
Medicaid	8	8
Managed Medicaid	9	9
Managed care and other insurers	28	29
Uninsured	8	7
	100%	100%

The approximate percentages of our inpatient revenues, before provision for doubtful accounts, related to Medicare, managed Medicare, Medicaid, managed Medicaid, managed care and other insurers and the uninsured for the quarters ended March 31, 2014 and 2013 are set forth in the following table.

	Quarter	
	2014	2013
Medicare	30%	32%

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)

Revenue/Volume Trends (continued)

At March 31, 2014, we had 78 hospitals in the states of Texas and Florida. During the first quarter of 2014, 56% of our admissions and 47% of our revenues were generated by these hospitals. Uninsured admissions in Texas and Florida represented 64% of our uninsured admissions during the first quarter of 2014.

We receive a significant portion of our revenues from government health programs, principally Medicare and Medicaid, which are highly regulated and subject to frequent and substantial changes. In 2011, the Centers for Medicare and Medicaid Services (CMS) approved a Medicaid waiver that allows Texas to continue receiving supplemental Medicaid reimbursement while expanding its Medicaid managed care program. Thus, Texas is operating pursuant to a Waiver Program. The Texas Waiver Program includes two primary components: the continuation of an indigent care component and the establishment of a Delivery System Reform Incentive Payment (DSRIP) component. Initiatives under the DSRIP program are designed to provide incentive payments to hospitals and other providers for their investments in delivery system reforms that increase access to health care, improve the quality of care and enhance the health of patients and families they serve. We provide indigent care services in several communities in the state of Texas, in affiliation with other hospitals. The state of Texas has been involved in efforts to increase the indigent care provided by private hospitals. As a result of additional indigent care being provided by private hospitals, public hospital districts or counties in Texas have available funds that were previously devoted to indigent care. The public hospital districts or counties are under no contractual or legal obligation to provide such indigent care. The public hospital districts or counties have elected to transfer some portion of these available funds to the state's Medicaid program. Such action is at the sole discretion of the public hospital districts or counties. It is anticipated that these contributions to the state will be matched with federal Medicaid funds. The state then may make supplemental payments to hospitals in the state for Medicaid services rendered. Hospitals receiving Medicaid supplemental payments may include those that are providing additional indigent care services. Our Texas Medicaid revenues included \$113 million (\$21 million DSRIP related and \$92 million indigent care related) and \$79 million (all indigent care related) during the first quarters of 2014 and 2013, respectively, of Medicaid supplemental payments. In addition, we receive supplemental payments in several other states. We are aware these supplemental payment programs are currently being reviewed by certain state agencies and some states have made waiver requests to CMS to replace their existing supplemental payment programs. It is possible these reviews and waiver requests will result in the restructuring of such supplemental payment programs and could result in the payment programs being reduced or eliminated. Because deliberations about these programs are ongoing, we are unable to estimate the financial impact the program structure modifications, if any, may have on our results of operations.

Electronic Health Record Incentive Payments

The American Recovery and Reinvestment Act of 2009 provides for Medicare and Medicaid incentive payments, beginning in 2011, for eligible hospitals and professionals that adopt and meaningfully use certified EHR technology. We recognize income related to Medicare and Medicaid incentive payments using a gain contingency model that is based upon when our eligible hospitals have demonstrated meaningful use of certified EHR technology for the applicable period and the cost report information for the full cost report year that will determine the final calculation of the incentive payment is available.

We recognized \$30 million and \$39 million of electronic health record incentive income, primarily related to Medicare, during the first quarters of 2014 and 2013, respectively. At March 31, 2014, we have \$53 million of deferred EHR incentive income, which represents payments received for which EHR incentive income has not been recognized.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)

Electronic Health Record Incentive Payments (continued)

We have incurred and will continue to incur both capital costs and operating expenses in order to implement our certified EHR technology and meet meaningful use requirements. These expenses are ongoing and are projected to continue over all stages of implementation of meaningful use. The timing of recognizing the expenses may not correlate with the receipt of the incentive payments and the recognition of income. We incurred \$43 million and \$26 million during the first quarters of 2014 and 2013, respectively, of operating expenses to implement our certified EHR technology and meet meaningful use.

For 2014, we estimate EHR incentive income will be recognized in the range of \$110 million to \$130 million and that related EHR operating expenses will be in the range of \$110 million to \$130 million. Actual incentive payments and EHR operating expenses could vary from these estimates due to certain factors such as availability of federal funding for both Medicare and Medicaid incentive payments and our ability to continue to demonstrate meaningful use of certified EHR technology. The failure of our ability to continue to demonstrate meaningful use of EHR technology could have a material, adverse effect on our results of operations.

Revenue per equivalent admission	3.7		0.8	

Edgar Filing: HCA Holdings, Inc. - Form 10-Q

- (a) Represents the total number of patients admitted to our hospitals and is used by management and certain investors as a general measure of inpatient volume.
- (b) Equivalent admissions are used by management and certain investors as a general measure of combined inpatient and outpatient volume. Equivalent admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient revenues and gross outpatient revenues and then dividing the resulting amount by gross inpatient revenues. The equivalent admissions computation equates outpatient revenues to the volume measure (admissions) used to measure inpatient volume, resulting in a general measure of combined inpatient and outpatient volume.
- (c) Same facility information excludes the operations of hospitals and their related facilities which were either acquired or divested during the current and prior period.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)

Quarters Ended March 31, 2014 and 2013

Net income attributable to HCA Holdings, Inc. totaled \$347 million, or \$0.76 per diluted share, for the first quarter of 2014 compared to \$344 million, or \$0.74 per diluted share, for the first quarter of 2013. First quarter 2014 results include net gains on sales of facilities of \$21 million, or \$0.03 per diluted share, and legal claim costs of \$78 million, or \$0.11 per diluted share. First quarter 2013 results include net losses on sales of facilities of \$16 million, or \$0.02 per diluted share, and a loss on retirement of debt of \$17 million, or \$0.03 per diluted share. All per diluted share disclosures are based upon amounts net of the applicable income taxes. Shares used for diluted earnings per share were 457.4 million shares and 462.4 million shares for the quarters ended March 31, 2014 and 2013, respectively.

For the first quarter of 2014, consolidated and same facility admissions increased 0.2% and declined 0.6%, respectively, compared to the first quarter of 2013. Consolidated and same facility outpatient surgical volumes declined 0.3% and 1.7%, respectively, during the first quarter of 2014, compared to the first quarter of 2013. Consolidated and same facility inpatient surgeries increased 1.3% and 0.9%, respectively, in the first quarter of 2014, compared to the first quarter of 2013. Consolidated and same facility emergency department visits increased 0.9% and declined 0.1%, respectively, during the quarter ended March 31, 2014, compared to the quarter ended March 31, 2013.

Revenues before provision for doubtful accounts increased 5.3% for the first quarter of 2014 compared to the first quarter of 2013. The provision for doubtful accounts increased \$97 million from \$754 million in the first quarter of 2013 to \$851 million in the first quarter of 2014. The provision for doubtful accounts relates primarily to uninsured amounts due directly from patients, including copayment and deductible amounts for patients who have health care coverage. The self-pay revenue deductions for charity care and uninsured discounts increased \$20 million and \$351 million, respectively, during the first quarter of 2014, compared to the first quarter of 2013. The sum of the provision for doubtful accounts, uninsured discounts and charity care, as a percentage of the sum of revenues, the provision for doubtful accounts, uninsured discounts and charity care, was 31.6% for the first quarter of 2014, compared to 30.0% for the first quarter of 2013. At March 31, 2014, our allowance for doubtful accounts represented approximately 94% of the \$5.810 billion total patient due accounts receivable balance, including accounts, net of estimated contractual discounts, related to patients for which eligibility for Medicaid coverage or uninsured discounts was being evaluated.

Revenues increased 4.6% primarily due to the combined impact of revenue per equivalent admission growth of 3.9% and a 0.7% increase in equivalent admissions for the first quarter of 2014 compared to the first quarter of 2013. Same facility revenues increased 3.4% due to the net impact of a 3.7% increase in same facility revenue per equivalent admission and a 0.3% decline in same facility equivalent admissions for the first quarter of 2014 compared to the first quarter of 2013.

Salaries and benefits, as a percentage of revenues, were 45.9% in the first quarter of 2014 and 46.4% in the first quarter of 2013. Salaries and benefits per equivalent admission increased 2.7% in the first quarter of 2014 compared to the first quarter of 2013. Same facility labor rate increases averaged 1.9% for the first quarter of 2014 compared to the first quarter of 2013.

Supplies, as a percentage of revenues, were 17.3% in the first quarter of 2014 and 17.5% in the first quarter of 2013. Supply costs per equivalent admission increased 2.9% in the first quarter of 2014 compared to the first quarter of 2013. Supply costs per equivalent admission increased 3.2% for medical devices, 3.5% for pharmacy supplies and 2.9% for general medical and surgical items in the first quarter of 2014 compared to the first quarter of 2013.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)

Quarters Ended March 31, 2014 and 2013 (continued)

Other operating expenses, as a percentage of revenues, increased to 18.6% in the first quarter of 2014 from 18.1% in the first quarter of 2013. Other operating expenses is primarily comprised of contract services, professional fees, repairs and maintenance, rents and leases, utilities, insurance (including professional liability insurance) and nonincome taxes. Provisions for losses related to professional liability risks were \$96 million and \$80 million for the first quarters of 2014 and 2013, respectively.

We recognized \$30 million and \$39 million of electronic health record incentive income primarily related to Medicare incentives during the first quarters of 2014 and 2013, respectively.

Equity in earnings of affiliates was \$9 million and \$8 million in the first quarters of 2014 and 2013, respectively.

Depreciation and amortization increased \$23 million, from \$424 million in the first quarter of 2013 to \$447 million in the first quarter of 2014. The increase was related primarily to several construction projects being completed during the second and third quarters of 2013.

Interest expense declined from \$472 million in the first quarter of 2013 to \$460 million in the first quarter of 2014. The decline in interest expense was due to a decline in the average interest rate. Our average debt balance was \$28.547 billion for the first quarter of 2014 compared to \$28.559 billion for the first quarter of 2013. The average effective interest rate for our long term debt declined from 6.7% for the quarter ended March 31, 2013 to 6.5% for the quarter ended March 31, 2014.

During the first quarters of 2014 and 2013, we recorded net gains on sales of facilities of \$21 million and net losses on sales of facilities of \$16 million, respectively.

During March 2013, we redeemed all \$201 million aggregate principal amount of our 9⁷/₈ % senior secured second lien notes due 2017, at a redemption price of 104.938% of the principal amount. The pretax loss on retirement of debt related to this redemption was \$17 million.

We recorded \$78 million of legal claim costs during the first quarter of 2014 to increase the estimate of our legal liability in the previously disclosed lawsuit alleging we did not make the full level of capital expenditures and uncompensated care agreed to in the connection with the purchase of the hospitals from Health Midwest in 2003.

The effective tax rates were 39.4% and 36.9% for the first quarters of 2014 and 2013, respectively. The effective tax rate computations exclude net income attributable to noncontrolling interests as it relates to consolidated partnerships. Our provision for income taxes for the first quarter of 2013 was reduced by \$11 million related to a reduction in interest expense related to taxing authority examinations. Excluding the effect of this adjustment, the effective rate for the first quarter of 2013 would have been 39.0%.

Net income attributable to noncontrolling interests increased from \$94 million for the first quarter of 2013 to \$107 million for the first quarter of 2014. The increase in net income attributable to noncontrolling interests related primarily to growth in operating results of our group purchasing organization.

Liquidity and Capital Resources

Cash provided by operating activities totaled \$443 million in the first quarter of 2014 compared to \$740 million in the first quarter of 2013. The \$297 million decline in cash provided by operating activities in the first quarter of 2014 compared to the first quarter of 2013 related primarily to the combined impact of a \$170 million

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Liquidity and Capital Resources (continued)

decline from changes in working capital items and \$206 million decline related to income taxes. The combined interest payments and net tax payments in the first quarters of 2014 and 2013 were \$555 million and \$348 million, respectively. Working capital totaled \$2.986 billion at March 31, 2014 and \$2.342 billion at December 31, 2013.

Cash used in investing activities was \$409 million in the first quarter of 2014 compared to \$373 million in the first quarter of 2013. Excluding acquisitions, capital expenditures were \$400 million in the first quarter of 2014 and \$404 million in the first quarter of 2013. We expended \$13 million for the acquisition of a hospital facility and \$6 million to acquire nonhospital health care facilities during the first quarter of 2014. We expended \$22 million to acquire nonhospital health care facilities during the first quarter of 2013. Capital expenditures, excluding acquisitions, are expected to approximate \$2.2 billion in 2014. At March 31, 2014, there were projects under construction which had estimated additional costs to complete and equip over the next five years of approximately \$2.16 billion. We expect to finance capital expenditures with internally generated and borrowed funds. We received \$23 million and \$1 million from sales of health care entities and real estate and other investments during the first quarter of 2014 and 2013, respectively. We paid \$13 million and received net cash flows from our investments of \$51 million in the first quarters of 2014 and 2013, respectively.

Cash provided by financing activities totaled \$402 million during the first quarter of 2014 compared to \$478 million of cash used in financing activities during the first quarter of 2013. During the first quarter of 2014, net cash flows provided by financing activities included a net increase of \$520 million in our indebtedness, distributions to noncontrolling interests of \$87 million, payments of debt issuance costs of \$48 million, distributions to stockholders of \$7 million and receipts of \$50 million of income tax benefits for certain items (primarily related to employee exercises of stock options). During the first quarter of 2013, net cash flows used in financing activities included net debt repayments of \$351 million, distributions to noncontrolling interests of \$102 million, distributions to stockholders of \$10 million and receipts of \$36 million of income tax benefits for certain items (primarily distributions to holders of our stock options).

We are a highly leveraged company with significant debt service requirements. Our debt totaled \$28.924 billion at March 31, 2014. Our interest expense was \$460 million for the first quarter of 2014 and \$472 million for the first quarter of 2013. The decline in interest expense was due to the decline in the average interest rate.

In addition to cash flows from operations, available sources of capital include amounts available under our senior secured credit facilities (\$4.442 billion and \$1.992 billion available as of March 31, 2014 and April 30, 2014, respectively) and anticipated access to public and private debt markets.

During March 2014, we issued \$3.500 billion aggregate principal amount of notes, comprised of \$1.500 billion aggregate principal amount of 3.75% senior secured notes due 2019 and \$2.000 billion aggregate principal amount of 5.00% senior secured notes due 2024 and repaid at maturity all \$500 million aggregate principal amount of our outstanding 5.75% senior unsecured notes. During April 2014, we used proceeds from the March 2014 debt issuance to redeem all \$1.500 billion aggregate principal amount of our outstanding 8 1/2% senior secured notes due 2019 and all \$1.250 billion aggregate principal amount of our outstanding 7 7/8% senior secured notes due 2020. The pretax loss on retirement of debt related to these redemptions is expected to be approximately \$226 million.

During March 2013, we redeemed all \$201 million aggregate principal amount of our 9 7/8% senior secured second lien notes due 2017, at a redemption price of 104.938% of the principal amount. The pretax loss on retirement of debt related to this redemption was \$17 million.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Liquidity and Capital Resources (continued)

Investments of our professional liability insurance subsidiaries, to maintain statutory equity and pay claims, totaled \$525 million and \$510 million at March 31, 2014 and December 31, 2013, respectively. An insurance subsidiary maintained net reserves for professional liability risks of \$315 million at both March 31, 2014 and December 31, 2013. Our facilities are insured by a 100% owned insurance subsidiary for losses up to \$50 million per occurrence; however, this coverage is subject to a \$5 million per occurrence self-insured retention. Net reserves for the self-insured professional liability risks retained were \$972 million and \$940 million at March 31, 2014 and December 31, 2013, respectively. Claims payments, net of reinsurance recoveries, during the next 12 months are expected to approximate \$328 million. We estimate that approximately \$256 million of the expected net claim payments during the next 12 months will relate to claims subject to the self-insured retention.

Management believes that cash flows from operations, amounts available under our senior secured credit facilities and our anticipated access to public and private debt markets will be sufficient to meet expected liquidity needs during the next 12 months.

Market Risk

We are exposed to market risk related to changes in market values of securities. The investments in debt and equity securities of our 100% owned insurance subsidiaries were \$522 million and \$3 million, respectively, at March 31, 2014. These investments are carried at fair value, with changes in unrealized gains and losses being recorded as adjustments to other comprehensive income. At March 31, 2014, we had a net unrealized gain of \$14 million on the insurance subsidiaries' investment securities.

We are exposed to market risk related to market illiquidity. Investments in debt and equity securities of our 100% owned insurance subsidiaries could be impaired by the inability to access the capital markets. Should the 100% owned insurance subsidiaries require significant amounts of cash in excess of normal cash requirements to pay claims and other expenses on short notice, we may have difficulty selling these investments in a timely manner or be forced to sell them at a price less than what we might otherwise have been able to in a normal market environment. We may be required to recognize other-than-temporary impairments on our investment securities in future periods should issuers default on interest payments or should the fair market valuations of the securities deteriorate due to ratings downgrades or other issue-specific factors.

We are also exposed to market risk related to changes in interest rates, and we periodically enter into interest rate swap agreements to manage our exposure to these fluctuations. Our interest rate swap agreements involve the exchange of fixed and variable rate interest payments between two parties, based on common notional principal amounts and maturity dates. The notional amounts of the swap agreements represent balances used to calculate the exchange of cash flows and are not our assets or liabilities. Our credit risk related to these agreements is considered low because the swap agreements are with creditworthy financial institutions. The interest payments under these agreements are settled on a net basis. These derivatives have been recognized in the financial statements at their respective fair values. Changes in the fair value of these derivatives, which are designated as cash flow hedges, are included in other comprehensive income, and changes in the fair value of derivatives which have not been designated as hedges are recorded in operations.

With respect to our interest-bearing liabilities, approximately \$1.080 billion of long-term debt at March 31, 2014 was subject to variable rates of interest, while the remaining balance in long-term debt of \$27.844 billion at March 31, 2014 was subject to fixed rates of interest. Both the general level of interest rates and, for the senior secured credit facilities, our leverage affect our variable interest rates. Our variable debt is comprised primarily of amounts outstanding under the senior secured credit facilities. Borrowings under the senior secured credit facilities bear interest at a rate equal to an applicable margin plus, at our option, either (a) a base rate determined

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Liquidity and Capital Resources (continued)

Market Risk (continued)

by reference to the higher of (1) the federal funds rate plus 0.50% and (2) the prime rate of Bank of America or (b) a LIBOR rate for the currency of such borrowing for the relevant interest period. The applicable margin for borrowings under the senior secured credit facilities may fluctuate according to a leverage ratio. The average effective interest rate for our long-term debt declined from 6.7% for the quarter ended March 31, 2013 to 6.5% for the quarter ended March 31, 2014.

The estimated fair value of our total long-term debt was \$30.541 billion at March 31, 2014. The estimates of fair value are based upon the quoted market prices for the same or similar issues of long-term debt with the same maturities. Based on a hypothetical 1% increase in interest rates, the potential annualized reduction to future pretax earnings would be approximately \$11 million. To mitigate the impact of fluctuations in interest rates, we generally target a portion of our debt portfolio to be maintained at fixed rates.

Our international operations and the related market risks associated with foreign currencies are currently insignificant to our results of operations and financial position.

IRS Examinations

The IRS Examination Division began an audit of HCA Holdings, Inc.'s 2011 and 2012 federal income tax returns during the first quarter of 2014.

Management believes HCA Holdings, Inc. and its affiliates properly reported taxable income and paid taxes in accordance with applicable laws and agreements established with the IRS and final resolution of any disputes will not have a material, adverse effect on our results of operations or financial position. However, if payments due upon final resolution of any issues exceed our recorded estimates, such resolutions could have a material, adverse effect on our results of operations or financial position.

Uninsured	17		8	27
Total	52%		14%	34%

- (a) Licensed beds are those beds for which a facility has been granted approval to operate from the applicable state licensing agency.
- (b) Represents the average number of licensed beds, weighted based on periods owned.
- (c) Represents the average number of patients in our hospital beds each day.
- (d) Represents the total number of patients admitted to our hospitals and is used by management and certain investors as a general measure of inpatient volume.
- (e) Equivalent admissions are used by management and certain investors as a general measure of combined inpatient and outpatient volume. Equivalent admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient revenues and gross outpatient revenues and then dividing the resulting amount by gross inpatient revenues. The equivalent admissions computation equates outpatient revenues to the volume measure (admissions) used to measure inpatient volume resulting in a general measure of combined inpatient and outpatient volume.
- (f) Represents the average number of days admitted patients stay in our hospitals.
- (g) Represents the number of patients treated in our emergency rooms.
- (h) Represents the number of surgeries performed on patients who were not admitted to our hospitals. Pain management and endoscopy procedures are not included in outpatient surgeries.
- (i) Represents the number of surgeries performed on patients who have been admitted to our hospitals. Pain management and endoscopy procedures are not included in inpatient surgeries.
- (j) Revenues per day is calculated by dividing the revenues for the quarter by the days in the quarter. Days revenues in accounts receivable is then calculated as accounts receivable, net of allowance for doubtful accounts, at the end of the quarter divided by the revenues per day. Revenues used in this computation are net of the provision for doubtful accounts.
- (k) Gross patient revenues are based upon our standard charge listing. Gross charges/revenues typically do not reflect what our hospital facilities are paid. Gross charges/revenues are reduced by contractual adjustments, discounts and charity care to determine reported revenues.
- (l) Represents the percentage of patient revenues related to patients who are not admitted to our hospitals.
- (m) Accounts receivable aging data is based upon consolidated gross accounts receivable of \$10.921 billion (each 1% is equivalent to approximately \$109 million of gross accounts receivable).

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information called for by this item is provided under the caption "Market Risk" under Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

HCA's chief executive officer and chief financial officer have reviewed and evaluated the effectiveness of HCA's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this quarterly report. Based on that evaluation, the chief executive officer and chief financial officer have concluded HCA's disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

During the period covered by this report, there have been no changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We operate in a highly regulated and litigious industry. As a result, various lawsuits, claims and legal and regulatory proceedings have been and can be expected to be instituted or asserted against us. The resolution of any such lawsuits, claims or legal and regulatory proceedings could materially and adversely affect our results of operations and financial position in a given period.

Government Investigations, Claims and Litigation

Health care companies are subject to numerous investigations by various governmental agencies. Further, under the federal False Claims Act ("FCA"), private parties have the right to bring *qui tam*, or "whistleblower," suits against companies that submit false claims for payments to, or improperly retain overpayments from, the government. Some states have adopted similar state whistleblower and false claims provisions. Certain of our individual facilities have received, and from time to time, other facilities may receive, government inquiries from, and may be subject to investigation by, federal and state agencies. Depending on whether the underlying conduct in these or future inquiries or investigations could be considered systemic, their resolution could have a material, adverse effect on our financial position, results of operations and liquidity.

As initially disclosed in 2010, the DOJ has contacted the Company in connection with its nationwide review of whether, in certain cases, hospital charges to the federal government relating to implantable cardio-defibrillators ("ICDs") met the CMS criteria. In connection with this nationwide review, the DOJ has indicated that it will be reviewing certain ICD billing and medical records at 95 HCA hospitals; the review covers the period from October 2003 to the present. In August 2012, HCA, along with non-HCA hospitals across the country subject to the DOJ's review, received from the DOJ a proposed framework for resolving the DOJ's review of ICDs. The Company is cooperating in the review. The review could potentially give rise to claims against the Company under the federal FCA or other statutes, regulations or laws. At this time, we cannot predict what effect, if any, this review or any resulting claims could have on the Company.

In July 2012, the Civil Division of the U.S. Attorney's Office in Miami requested information on reviews assessing the medical necessity of interventional cardiology services provided at any Company facility (other

Table of Contents

than peer reviews). The Company is cooperating with the government's request and has produced medical records associated with particular reviews at eight hospitals, located primarily in Florida. At this time, we cannot predict what effect, if any, the request or any resulting claims, including any potential claims under the federal FCA, other statutes, regulations or laws, could have on the Company.

On April 2, 2014, the UK Competition and Markets Authority (Authority) issued a final report on its investigation of the private health care market in London. It concluded, among other things, that many private hospitals face little competition in central London, and that there are high barriers to entry. As part of its remedies package, the Authority ordered HCA to sell either: (a) its London Bridge and Princess Grace hospitals; or (b) its Wellington Hospital, including the Hospital Platinum Medical Centre. It also imposed other remedial conditions on HCA and other private health care providers, including: regulation of incentives to referring physicians; increased access to information about fees and performance; and restrictions on future arrangements between private providers and NHS private patient units. HCA disagrees with the Authority's assessment of the competitive conditions for hospitals in London, as well as its proposed divestiture remedy, and intends to appeal the decision.

Securities Class Action Litigation

On October 28, 2011, a shareholder action, Schuh v. HCA Holdings, Inc. et al., was filed in the United States District Court for the Middle District of Tennessee seeking monetary relief. The case sought to include as a class all persons who acquired the Company's stock pursuant or traceable to the Company's Registration Statement issued in connection with the March 9, 2011 initial public offering. The lawsuit asserted a claim under Section 11 of the Securities Act of 1933 against the Company, certain members of the board of directors, and certain underwriters in the offering. It further asserted a claim under Section 15 of the Securities Act of 1933 against the same members of the board of directors. The action alleged various deficiencies in the Company's disclosures in the Registration Statement. Subsequently, two additional class action complaints, Kishtah v. HCA Holdings, Inc. et al. and Daniels v. HCA Holdings, Inc. et al., setting forth substantially similar claims against substantially the same defendants were filed in the same federal court on November 16, 2011 and December 12, 2011, respectively. All three of the cases were consolidated. On May 3, 2012, the court appointed New England Teamsters & Trucking Industry Pension Fund as Lead Plaintiff for the consolidated action. On July 13, 2012, the lead plaintiff filed an amended complaint asserting claims under Sections 11 and 12(a)(2) of the Securities Act of 1933 against the Company, certain members of the board of directors, and certain underwriters in the offering. It further asserts a claim under Section 15 of the Securities Act of 1933 against the same members of the board of directors and Hercules Holdings II, LLC, a majority shareholder of the Company at the time of the initial public offering. The consolidated complaint alleges deficiencies in the Company's disclosures in the Registration Statement and Prospectus relating to: (1) the accounting for the Company's 2006 recapitalization and 2010 reorganization; (2) the Company's failure to maintain effective internal controls relating to its accounting for such transactions; and (3) the Company's Medicare and Medicaid revenue growth rates. The Company and other defendants moved to dismiss the amended complaint on September 11, 2012. The Court granted the motion in part on May 28, 2013. The action is proceeding to discovery on the remaining claims.

In addition to the above described shareholder class actions, on December 8, 2011, a federal shareholder derivative action, Sutton v. Bracken, et al., putatively initiated in the name of the Company, was filed in the United States District Court for the Middle District of Tennessee against certain officers and present and former directors of the Company seeking monetary relief. The action alleges breaches of fiduciary duties by the named officers and directors in connection with the accounting and earnings claims set forth in the shareholder class actions. Setting forth substantially similar claims against substantially the same defendants, an additional federal derivative action, Schroeder v. Bracken, et al., was filed in the United States District Court for the Middle District of Tennessee on December 16, 2011, and a state derivative action, Bagot v. Bracken, et al., was filed in Tennessee state court in the Davidson County Circuit Court on December 20, 2011. The federal derivative actions were consolidated in the Middle District of Tennessee and stayed pending developments in the shareholder class actions. The state derivative action had also been stayed pending developments in the shareholder class actions, but that stay has expired. The plaintiff in the state derivative action subsequently filed an amended complaint on September 9, 2013 that added additional allegations made in the shareholder class

Table of Contents

actions. On September 24, 2013, an additional state derivative action, Steinberg v. Bracken, et al., was filed in Tennessee state court in the Davidson County Circuit Court. This action against our board of directors has been consolidated with the earlier filed state derivative action. The plaintiffs in the consolidated action filed a consolidated complaint on December 4, 2013. The Company has filed a motion to again stay the state derivative action pending developments in the class action, but the Court has not yet acted on that motion.

Health Midwest Litigation

In October 2009, the Health Care Foundation of Greater Kansas City, a nonprofit health foundation, filed suit against HCA Inc. in the Circuit Court of Jackson County, Missouri and alleged that HCA did not fund the level of capital expenditures and uncompensated care agreed to in connection with HCA's purchase of hospitals from Health Midwest in 2003. The central issue in the case was whether HCA's construction of new hospitals counted towards its \$450 million five-year capital commitments. In addition, the plaintiff alleged that HCA did not make its required capital expenditures in a timely fashion. On January 24, 2013, the Court ruled in favor of the plaintiff and awarded at least \$162 million. The Court also ordered a court-supervised accounting of HCA's capital expenditures, as well as of expenditures on charity and uncompensated care during the ten years following the purchase. The Court also indicated it would award plaintiff attorneys fees, which the parties have stipulated are approximately \$12 million for the trial phase. HCA recorded \$175 million of legal claim costs in the fourth quarter of 2012 related to this ruling, and consistent with the judge's order, has been accruing interest on that sum at 9% per annum. On April 25, 2014, the parties stipulated to an additional \$78 million shortfall relating to the capital expenditures issue. HCA recorded \$78 million of legal claims costs in the first quarter of 2014 as a result of the stipulation, and is accruing interest on that amount at 9% per annum. Pursuant to the terms of the stipulation, the parties have preserved their respective rights to contest the judge's underlying ruling, whether through motions in the trial court or on appeal. The accounting for charity and other uncompensated care is ongoing, with hearings set to begin in the third quarter of 2014. Final judgment in the case currently is not anticipated before the fourth quarter of 2014. At this time, we cannot predict what effect, if any, the final judgment could have on the Company. HCA plans to appeal the trial court's ruling on the breach of contract claim and order for the accounting once the trial court rules on the accounting and enters judgment.

General Liability and Other Claims

We are subject to claims for additional income taxes and related interest.

We are also subject to claims and suits arising in the ordinary course of business, including claims for personal injuries or for wrongful restriction of, or interference with, physicians' staff privileges. In certain of these actions the claimants have asked for punitive damages against us, which may not be covered by insurance. In the opinion of management, the ultimate resolution of these pending claims and legal proceedings will not have a material, adverse effect on our results of operations or financial position.

ITEM 1A. RISK FACTORS

Reference is made to the factors set forth under the caption "Forward-Looking Statements" in Part I, Item 2 of this Form 10-Q and other risk factors described in our annual report on Form 10-K for the year ended December 31, 2013, which are incorporated herein by reference. There have not been any material changes to the risk factors previously disclosed in our annual report on Form 10-K for the year ended December 31, 2013.
