Item 7.01. Regulation FD Disclosure

On May 3, 2016, during the conference call to announce Frontier's first quarter results, Frontier presented 2016 Adjusted Free Cash Flow guidance of \$800 million - \$925 million. Frontier discussed that this Adjusted FCF is calculated after the deduction of: (1) preferred stock dividends for the last three quarters of 2016 of approximately \$160 million; and (2) full-year interest expense of \$1.34 billion - \$1.36 billion, which excludes interest expense on acquisition-related debt for the first quarter.

The preceding information shall be deemed to be furnished, not filed, and shall not be incorporated by reference into any other filing with the Securities and Exchange Commission.

This document contains forward-looking statements, related to future, not past, events. Forward-looking statements address our expected future business and financial performance and financial condition, and contain words such as expect, anticipate, intend, plan, believe, seek, see, will, would, or target. Forward-looking statements address matters that are, to different degrees, uncertain. These risks and uncertainties include, but are not limited to, the factors that are described in our filings with the U.S. Securities and Exchange Commission, including our reports on Forms 10-K and 10-Q. These risks and uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update or revise these forward-looking statements.
