ITEM 5.07. Submission of Matters to a Vote of Security Holders

On June 8, 2018, IVS Associates, Inc. (“IVS”) reported the preliminary tally of consents by shareholders with respect to the proposals that were submitted to the shareholders by certain minority shareholders on December 5, 2018. The proposals were neither supported by the management of the Registrant, nor by four of the five current directors of the Registrant. The preliminary tally is based on information prepared by IVS. Based on the preliminary tally, none of the proposals were adopted by the shareholders because the proposals did not receive consents from a majority of the shares outstanding on the February 13, 2018 record date.

As of the close of business on February 13, 2018, the record date for the consent solicitation, there were 38,997,971 shares of common stock of the Registrant (the “Common Stock”) issued and outstanding. The six proposals, none of which were approved, proposed to remove four of the five current directors, elect new directors to the Board, make three different amendments to Registrant’s existing Bylaws, and repeal prior amendments to the Bylaws. As shown below, the proposals were not approved because the number of consents received represented less than a majority of the Common Stock outstanding on the record date.
