# XL GROUP PLC NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

#### 1. Basis of Preparation and Consolidation

Unless the context otherwise indicates, references herein to the "Company" include XL Group plc, an Irish public limited company ("XL-Ireland"), and its consolidated subsidiaries.

These unaudited consolidated financial statements include the accounts of the Company and all of its subsidiaries and have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and disclosures required by GAAP for complete financial statements. In addition, the year-end balance sheet data was derived from audited financial statements but do not include all disclosures required by GAAP. In the opinion of management, these unaudited financial statements reflect all adjustments considered necessary for a fair statement of financial position and results of operations at the end of and for the periods presented. The results of operations for any interim period are not necessarily indicative of the results for a full year. All inter-company accounts and transactions have been eliminated. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure about contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from these estimates. For further information, see Item 8, Note 2(a), "Significant Accounting Policies – Basis of Preparation and Consolidation," to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. On October 31, 2014, the Company filed a current report on Form 8-K that included recasted financial statements to reflect changes in the Company's reportable segments (the "Recast Financials"). Other than the changes to Notes 1, "General," and 4, "Segment Information," to describe the changes in the segments, the Recast Financials are identical to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

To facilitate period-to-period comparisons, certain reclassifications have been made to prior period consolidated financial statement amounts to conform to current period presentation.

### 2. Significant Accounting Policies

(a) Investments Related to Life Retrocession Arrangements written on a Funds Withheld Basis
The designated investments that support the life retrocession arrangements written on a funds withheld basis ("Life
Funds Withheld Assets") entered into in connection with the sale of our life reinsurance subsidiary are included within
"Total investments available for sale". Investment results for these assets - including interest income, unrealized gains
and losses, and gains and losses from sales - are passed directly to the reinsurer pursuant to a contractual arrangement
which is accounted for as a derivative. See Note 3, "Sale of Life Reinsurance Subsidiary," for information regarding
the reinsurance arrangement.

Changes in the fair value of the embedded derivative associated with these life retrocession arrangements are recorded in "Net realized and unrealized gains (losses) on life retrocession embedded derivative and derivative instruments - Life Funds Withheld Assets" on the consolidated statements of income. The fair value of the embedded derivative is included within "Funds withheld on life retrocession arrangements, net of future policy benefit reserves recoverable" on the consolidated balance sheets.

#### (b) Reinsurance

The Company enters into reinsurance agreements with other companies in the normal course of business. All premium and loss-related balances related to reinsurance agreements are reported on a gross basis within our consolidated balance sheets, with the exception of the life retrocession arrangements written on a funds withheld basis. The future policy benefit reserves recoverable related to these retrocession arrangements are netted against the funds withheld liability owing to the counterparty on the consolidated balance sheets due to the contractual right of offset. During the three months ended September 30, 2014, the Company recorded \$20 million, net of tax, to premiums earned and associated tax accruals, related to reinstatement premiums due under assumed reinsurance contracts arising from unpaid losses and loss expenses reported in a prior period. We evaluated the quantitative and qualitative aspects of this correction and concluded that the impact of recognizing it during this quarter is not material to the consolidated

financial statements, nor is it material to previously issued consolidated financial statements in prior periods.

## XL GROUP PLC NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

#### (c) Recent Accounting Pronouncements

In July 2013, the FASB issued an accounting standards update concerning the presentation of unrecognized tax benefits. The objective of the guidance is to improve the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The guidance seeks to reduce the diversity in practice by providing guidance on the presentation of unrecognized tax benefits to better reflect the manner in which an entity would settle, at the reporting date, any additional income taxes that would result from the disallowance of a tax position when net operating loss carryforwards, similar tax losses, or tax credit carryforwards exist. The guidance was effective for annual and interim reporting periods beginning after December 15, 2013, with both early adoption and retrospective application permitted. This guidance did not have a significant impact on the Company's financial condition, results of operations or cash flows.

In April 2014, the FASB issued an accounting standards update intended to improve financial reporting by changing key criteria used to evaluate whether disposal transactions meet the definition of discontinued operations. Under the guidance only those disposals of components of an entity - either by sale or otherwise - which represent strategic shifts that have, or will have, a major effect on an entity's operations and financial results would qualify for reporting as discontinued operations. Disposals that are considered to be routine in nature can no longer be reported as discontinued operations. However, a disposal may now qualify for discontinued operations reporting even if the disposed component's operations and cash flows are not eliminated from on-going operations of the disposing entity, or if post-disposal, the disposing entity still has significant continuing involvement in the component's operations. The standard also establishes both additional disclosure requirements and expanded disclosures regarding on-going involvement an entity may have with a discontinued operation after its disposal. The guidance is effective prospectively for all public company disposals (or component reclassifications to held-for-sale) that occur within annual periods beginning on or after December 15, 2014. Early adoption is permitted, but only for disposals (or component reclassifications to held-for-sale) that have not been reported in financial statements issued or available for issuance prior to the effective date. This guidance is not expected to have a significant impact on the Company's financial condition, results of operations or cash flows.

### 3. Sale of Life Reinsurance Subsidiary

On May 1, 2014, XL Insurance (Bermuda) Ltd ("XLIB") entered into a sale and purchase agreement with GreyCastle Holdings Ltd. ("GreyCastle") providing for the sale of 100% of the common shares of XL Life Reinsurance (SAC) Ltd ("XLLR") (subsequent to the transaction XLLR changed its name to GreyCastle Life Reinsurance (SAC) Ltd), a wholly-owned subsidiary of XLIB, to GreyCastle for \$570 million in cash. This transaction was completed on May 30, 2014. As a result of the transaction, XLLR reinsures the majority of the Company's life reinsurance business via 100% quota share reinsurance (the "Life Retro Arrangements"). This transaction covers a substantial portion of the Company's life reinsurance reserves. The Company announced the run-off of its life reinsurance business in 2009. The run-off life reinsurance business, including the business subject to the transaction, was previously reported within the Company's Life operations segment. Subsequent to the transaction, the Company no longer considers the Life operations to be a separate operating segment and the results of the life run-off business are reported within "Corporate and Other." See Note 5, "Segment Information" for further information. In addition, certain securities within fixed maturities were reclassified from held to maturity to available for sale in conjunction with this transaction. See Note 6, "Investments," for further information.

All of the reclassified securities are included within Life Funds Withheld Assets, along with certain other available for sale securities as defined in the sale and purchase agreement. The Life Funds Withheld Assets are managed pursuant to agreed investment guidelines that meet the contractual commitments of the XL ceding companies and applicable laws and regulations. All of the investment results associated with the Life Funds Withheld Assets ultimately accrue to GreyCastle. Because the Company no longer shares in the risks and rewards of the underlying performance of the supporting invested assets, disclosures within the financial statement notes included herein separate the Life Funds Withheld Assets from the rest of the Company's investments.

At May 30, 2014, gross future policy benefit reserves relating to the Life operations were approximately \$5.2 billion. Subsequent to the completion of this transaction the Company retained approximately \$0.4 billion of these reserves, and recorded a reinsurance recoverable from XLLR of \$4.8 billion. Under the terms of the transaction, the Company continues to own, on a funds withheld basis, assets supporting the Life Retro Arrangements consisting of cash, fixed maturity securities and accrued interest. Based upon the right of offset, the funds withheld liability owing to GreyCastle is recorded net of future policy benefit reserves recoverable, and is included within "Funds withheld on life retrocession arrangements, net of future policy benefit reserves recoverable" on the unaudited consolidated balance sheets. The transaction resulted in an overall after-tax U.S. GAAP net loss of \$621.3 million recorded in the three months ended June 30, 2014.

## XL GROUP PLC NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

At September 30, 2014, gross future policy benefit reserves relating to the run-off life operations were approximately \$5.0 billion, of which the Company retained approximately \$0.4 billion, after consideration of its future policy benefit reserves recoverable from XLLR of \$4.6 billion. The net funds withheld liability included within "Funds withheld on life retrocession arrangements, net of future policy benefit reserves recoverable" was \$0.9 billion. The Company continued to own \$5.5 billion of assets supporting the Life Retro Arrangements.

The impact of the Life Retro Arrangements on the Company's results since the completion of the transaction on May 30, 2014 were as follows:

Impact of Life Retro Arrangements	Three months ended September 30,	May 30 to September 30,	,
(U.S. dollars in thousands)	2014	2014	
Underwriting profit (loss) (1)	\$3,711	\$3,711	
Net investment income - Life Funds Withheld Assets	56,474	75,639	
Net realized gains (losses) on investments sold - Life Funds Withheld Assets	2,022	2,646	
OTTI on investments - Life Funds Withheld Assets	(7,494	) (16,265	)
Exchange (gains) losses	2,062	2,062	
Other income and expenses	124	105	
Net realized and unrealized gains (losses) on life retrocession embedded derivative and derivative instruments - Life Funds Withheld Assets	(201,264	) (218,810	)
Net income (loss)	\$(144,365)	) \$(150,912	)
Change in net unrealized gains (losses) on investments - Life Funds Withheld Assets, net of tax	93,921	106,218	
Change in adjustments related to future policy benefit reserves, net of tax	51,286	51,286	
Change in cumulative translation adjustment - Life Funds Withheld Assets, net of tax	2,869	(2,881	)
Comprehensive income (loss)	\$3,711	\$3,711	

The underwriting profit of \$3.7 million relates to a premium adjustment during the three months ended September 30, 2014 relating to the Life Retro Arrangements transaction which was completed on May 30, 2014. Excluding this transaction related impact the changes to other comprehensive income relating to the Life Retro Arrangements was \$148.1 million and \$154.6 million for the three and nine months ended September 30, 2014, respectively. As shown in the table above, although the Company's net income (loss) is subject to variability related to the Life Retro Arrangements, there is minimal impact on the company's comprehensive income in any period. The life retrocession embedded derivative value includes the interest income, unrealized gains and losses, and realized gains and losses from sales on the Life Funds Withheld Assets subsequent to May 30, 2014.

## XL GROUP PLC NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

#### 4. Fair Value Measurements

Fair value is defined as the amount that would be received for the sale of an asset or paid to transfer a liability (an exit price), in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the factors that market participants would use in valuing the asset or liability. Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurements. The Company reviews the fair value hierarchy classification on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy.

The fair values for available for sale investments are generally sourced from third parties. The fair value of fixed income securities is based upon quoted market values where available, "evaluated bid" prices provided by third party pricing services ("pricing services") where quoted market values are not available, or by reference to broker quotes where pricing services do not provide coverage for a particular security. While the Company receives values for the majority of the investment securities it holds from pricing services, it is ultimately management's responsibility to determine whether the values received and recorded in the financial statements are representative of appropriate fair value measurements.

The Company performs regular reviews of the prices received from its third party valuation sources to assess if the prices represent a reasonable estimate of the fair value. This process is completed by investment and accounting personnel who are independent of those responsible for obtaining the valuations. The approaches taken by the Company include, but are not limited to, annual reviews of the controls of the external parties responsible for sourcing valuations, which are subjected to automated tolerance checks, quarterly reviews of the valuation sources and dates, and monthly reconciliations between the valuations provided by our external parties and valuations provided by our third party investment managers at a portfolio level.

Where broker quotes are the primary source of the valuations, sufficient information regarding the specific inputs utilized by the brokers is generally not available to support a Level 2 classification. The Company obtains the majority of broker quoted values from third party investment managers who perform independent verifications of these valuations using pricing matrices based upon information gathered by market traders. In addition, for the majority of these securities, the Company compares the broker quotes to independent valuations obtained from third party pricing vendors, which may also consist of broker quotes, to assess if the prices received represent a reasonable estimate of the fair value.

As discussed in Note 2(a), "Significant Accounting Policies - Investments Related to Life Retrocession Arrangements written on a Funds Withheld Basis," under the Life Retro Arrangements, all of the investment results associated with the Life Funds Withheld Assets ultimately accrue to GreyCastle. Because the Company no longer shares in the risks and rewards of the underlying performance of the Life Funds Withheld Assets, the financial statements and accompanying notes included herein separately report the Life Funds Withheld Assets from the rest of the Company's investments.

For further information, see Item 8, Note 2(b), "Significant Accounting Policies - Fair Value Measurements," to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.
