Table of Contents**ALTRA HOLDINGS, INC.****Notes to Unaudited Condensed Consolidated Interim Financial Statements****Dollars in thousands, unless otherwise noted**

As of January 1, 2007 the Company had \$2.3 million of unrecognized tax benefits of which \$1.2 million, if recognized would reduce the Company's effective tax rate and \$0.9 million would result in a decrease in goodwill.

As a result of the acquisition of TB Wood's completed during the second quarter, the Company increased its unrecognized tax benefits by approximately \$3.3 million. At June 30, 2007, the Company had \$6.1 million of unrecognized tax benefits of which \$1.7 million if recognized would reduce the Company's effective tax rate and \$4.2 million would result in a decrease to goodwill.

Included in the balance of unrecognized tax benefits are amounts related to proposed tax filing positions currently under review by foreign taxing authorities. The Company expects this review to be completed by December 31, 2007 however it is unable to estimate the impact on its unrecognized tax benefits as of June 30, 2007.

The Company and its subsidiaries file consolidated and separate income tax returns in the U.S. federal jurisdiction as well as in various state and foreign jurisdictions. In the normal course of business, the Company is subject to examination by taxing authorities in all of these jurisdictions. With the exception of certain foreign jurisdictions, the Company is no longer subject to income tax examinations for years before 2003 in these major jurisdictions. Additionally, the Company has indemnification agreements with the sellers of the Colfax and Hay Hall entities which provide for reimbursement to the Company for payments made in satisfaction of tax liabilities relating to pre-acquisition periods.

The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense in the condensed consolidated statements of operations. At January 1, 2007 and June 30, 2007, the Company had \$0.3 million and \$1.6 million of accrued interest and penalties, respectively.

Table of Contents**ALTRA HOLDINGS, INC.****Notes to Unaudited Condensed Consolidated Interim Financial Statements****Dollars in thousands, unless otherwise noted****10. Long-Term Debt*****Revolving Credit Agreement***

The Company maintains a \$30 million revolving borrowings facility with a commercial bank (the Revolving Credit Agreement) through its wholly owned subsidiary Altra Industrial Motion, Inc. (Altra Industrial). The Revolving Credit Agreement is subject to certain limitations resulting from the requirement of the Company to maintain certain levels of collateralized assets, as defined in the Revolving Credit Agreement. The Company may use up to \$10.0 million of its availability under the Revolving Credit Agreement for standby letters of credit issued on its behalf, the issuance of which will reduce the amount of borrowings that would otherwise be available to the Company. The Company may re-borrow any amounts paid to reduce the amount of outstanding borrowings; however, all borrowings under the Revolving Credit Agreement must be repaid in full as of November 30, 2010.

Substantially all of the Company's assets have been pledged as collateral against outstanding borrowings under the Revolving Credit Agreement. The Revolving Credit Agreement requires the Company to maintain a minimum fixed charge coverage ratio (when availability under the line falls below \$12.5 million) and imposes customary affirmative covenants and restrictions on the Company. The Company was in compliance with all requirements of the Revolving Credit Agreement at June 30, 2007.

There were no borrowings under the Revolving Credit Agreement at June 30, 2007 and December 31, 2006, however, as of both dates, the lender had issued \$3.0 million of outstanding letters of credit on behalf of the Company.

In April 2007, Altra Industrial amended the Revolving Credit Agreement. The interest rate on any outstanding borrowings on the line of credit were reduced to the lenders Prime Rate plus 25 basis points or LIBOR plus 175 basis points. The rate on all outstanding letters of credit were reduced to 1.5% and .25% on any unused availability under the Revolving Credit Agreement. All borrowings under the amended plan must be repaid by November 30, 2010.

TB Wood's Revolving Credit Agreement

As part of the TB Wood's acquisition, the Company refinanced the existing line of credit agreement with a commercial bank. The Company refinanced \$13.0 million of debt associated with TB Wood's line of credit in connection with the acquisition and \$6.5 million in letters credit. As of June 30, 2007, there was \$12.2 million outstanding on the TB Wood's Credit Agreement, including \$6.5 million of outstanding letters of credit. There are no additional borrowings available under this agreement.

Overdraft Agreements

Certain of our foreign subsidiaries maintain overdraft agreements with financial institutions. There were no borrowings as of June 30, 2007 or December 31, 2006 under any of the overdraft agreements.

9% Senior Secured Notes

On November 30, 2004, Altra Industrial Motion, Inc., (Altra Industrial), a wholly owned subsidiary of the Company, issued 9% Senior Secured Notes (Senior Secured Notes), with a face value of \$165 million. Interest on the Senior Secured Notes is payable semiannually, in arrears, on June 1 and December 1 of each year, beginning June 1, 2005, at an annual rate of 9%. The effective interest rate on the Senior Secured Notes is approximately 10.0%, after consideration of the amortization of \$6.6 million related to initial offer discounts (included in long-term debt) and \$2.8 million of deferred financing costs (included in other assets). The Senior Secured Notes mature on December 1, 2011 unless previously redeemed by Altra Industrial.

The Senior Secured Notes are guaranteed by the Altra Industrial's U.S. domestic subsidiaries and are secured by a second priority lien, subject to first priority liens securing the Revolving Credit Agreement, on substantially all of the Altra Industrial's assets. The Senior Secured Notes contain numerous terms, covenants and conditions, which impose substantial limitations on Altra Industrial. Altra Industrial was in compliance with all covenants of the indenture governing the Senior Secured Notes at June 30, 2007.

In connection with the acquisition of TB Wood's on April 5, 2007, Altra Industrial completed a follow-on offering issuing an additional \$105.0 million of the Senior Secured Notes. The additional \$105.0 million has the same terms and conditions as the previously issued Senior Secured Notes. The effective interest rate on the Senior Secured Notes,

after the follow-on offering is

The effective interest rate on the Senior Notes is approximately 11.7%, after consideration of the \$2.5 million of deferred financing costs (included in other assets). The Senior Secured Notes mature on February 13, 2013.

The Senior Notes are guaranteed on a senior unsecured basis by Altra Industrial's U.S. domestic subsidiaries. The Senior Notes contain numerous terms, covenants and conditions, which impose substantial limitations on Altra Industrial. Altra Industrial was in compliance with all covenants of the indenture governing the Senior Notes at June 30, 2007.

In February 2007, using proceeds from the Company's initial public offering, Altra Industrial redeemed £11.6 million aggregate principal amount of the outstanding Senior Notes, at a redemption price of 111.25% of the principal amount of the Senior Notes, plus accrued and unpaid interest. In connection with the redemption Altra Industrial expensed \$0.8 million of deferred financing costs and incurred \$2.6 million of a pre-payment premium.

In June 2007, using proceeds from the Company's secondary public offering, Altra Industrial redeemed £5.5 million aggregate principal amount of the outstanding Senior Notes at a redemption price of 114.5% of the principal amount of the Senior Notes, plus accrued and unpaid interest. In connection with the redemption Altra Industrial expensed \$0.4 million of deferred financing costs and incurred \$0.8 million of pre-payment premium.

The remaining principal amount of the Senior Notes matures on February 13, 2013, unless previously redeemed by Altra Industrial prior to such maturity date. As of June 30, 2007, the remaining principal balance outstanding was £15.9 million, or \$31.9 million.

TB Woods has borrowed approximately \$3.0 and \$2.3 million by issuing Variable Rate Demand Revenue Bonds under the authority of the industrial development corporations of the City of San Marcos, Texas and City of Chattanooga, Tennessee, respectively. These bonds bear variable interest rates and mature in April 2024 and April 2022. The bonds were issued to finance production facilities for TB Woods manufacturing operations in those cities, and are secured by letters of credit issued under the terms of the TB Woods Revolving Credit Agreement.

Mortgage

In June 2006, the Company entered into a mortgage on its building in Heidelberg, Germany with a local bank. As of June 30, 2007 and December 31, 2006, the mortgage has a principal of 1.9 million, or \$2.6 million and 2.0 million or \$2.6 million, respectively and an interest rate of 5.75% and is payable in monthly installments over 15 years.

Capital Leases

The Company leases certain equipment under capital lease arrangements, whose obligations are included in both short-term and long-term debt. As of June 30, 2007, the Company had 10,000,000 shares of undesignated Preferred Stock authorized (Preferred Stock). The Preferred Stock may be issued from time to time in one or more classes or series, the shares of each class or series to have such designations and powers, preferences, and rights, and qualifications, limitations and restrictions as determined by the Company's Board of Directors. There was no Preferred Stock issued or outstanding at June 30, 2007.

Stock-Based Compensation

The Company's Board of Directors established the 2004 Equity Incentive Plan (the Plan) that provides for various forms of stock based compensation to independent directors, officers and senior-level employees of the Company. The restricted shares of common stock issued pursuant to the plan generally vest ratably over each of the five years from the date of grant, provided, that the vesting of the restricted shares may accelerate upon the occurrence of certain liquidity events, if approved by the Board of Directors in connection with the transactions.

The Plan permits the Company to grant restricted stock to key employees and other persons who make significant contributions to the success of the Company. The restrictions and vesting schedule for restricted stock granted under the Plan are determined by the Compensation Committee of the Board of Directors. Compensation expense recorded during the year to date periods ended June 30, 2007 and 2006 was \$0.8 million (\$0.5 million net of tax) and \$0.1 million (less than \$0.1 million, net of tax), respectively and \$0.7 million (\$0.4 million, net of tax) and less than \$0.1 million in the quarter ended June 30, 2007 and 2006, respectively. Compensation expense is recognized on a straight-line basis over the vesting period.

The following table sets forth the activity of the Company's unvested restricted stock grants to date:

	Shares	Weighted-average grant date fair value
Restricted shares unvested December 31, 2006	1,620,089	\$ 3.24
Shares for which restrictions lapsed	(430,209)	\$ 4.75
Restricted shares unvested June 30, 2007	1,189,880	\$ 2.69

Total remaining unrecognized compensation cost is approximately \$2.8 million as of June 30, 2007 and will be recognized over a weighted average remaining period of three years.

Subsequent to the initial public offering restricted shares granted are valued based on the fair market value of the stock on the date of grant.

In July 2007, the Compensation Committee of the Board of Directors approved a grant to two of the Company's non-employee directors of 3,326 shares each of restricted common stock of Altra Holdings. The fair market value of the restricted shares was calculated using the total number of shares granted multiplied by the average stock price on the date of grant, of \$18.04, for a total compensation charge of approximately \$0.1 million. The shares will fully vest on March 14, 2008. The expense will be recognized on a straight-line basis over the service period.

One of the Company's directors, is an Executive of Joy Global, Inc. The Company sold approximately \$2.6 million and \$1.7 million in goods to divisions of Joy Global, Inc. during the year to date periods ended June 30, 2007 and 2006, respectively. position as an Executive of Joy Global, Inc., the Company's director has no interest in sales transactions between the Company and Joy Global, Inc.

Management Agreement

The Company entered into an advisory services agreement with Genstar Capital, L.P. (Genstar), whereby Genstar agreed to provide certain management, business strategy, consulting, financial advisory and acquisition related services to the Company. Pursuant to the agreement, the Company was required to pay to Genstar an annual consulting fee of \$1.0 million (payable quarterly, in arrears at the end of each calendar quarter), reimbursement of out-of-pocket expenses incurred in connection with the advisory services and an advisory fee of 2.0% of the aggregate consideration relating to any acquisition or dispositions completed by the Company. The Company recorded \$0.3 million in management fees, included in selling, general and administrative expenses for the quarter ended June 30, 2006 and \$0.5 million for the year to date period ended June 30, 2006. Genstar also received a one-time transaction fee of \$1.0 million for the Hay Hall acquisition and it is reflected in selling, general and administrative expenses for the year to date period ended and quarter ended June 30, 2006. In December 2006, the Genstar management agreement was terminated. There are no amounts in accruals or other liabilities payable to Genstar as of June 30, 2007.

13. Concentrations of Credit, Business Risks and Workforce

Financial instruments, which are potentially subject to concentrations of credit risk, consist primarily of trade accounts receivable. The Company manages this risk by conducting credit evaluations of customers prior to delivery or commencement of services. When the Company enters into a sales contract, collateral is normally not required from the customer. Payments are typically due within thirty days of billing. An allowance for potential credit losses is maintained, and losses have historically been within management's expectations.

Credit related losses may occur in the event of non-performance by counterparties to financial instruments. Counterparties typically represent international or well established financial institutions.

No one customer represented 10% or more of the Company's sales for the quarters ended or year to date periods ended June 30, 2007 and 2006.

Approximately 22.8% of the Company's labor force (14.0% and 59.7% in the United States and Europe, respectively) is represented by collective bargaining agreements.

14 Geographic Information

The Company operates in a single business segment for the development, manufacturing and sales of mechanical power transmission products. The Company's chief operating decision maker reviews consolidated operating results to make decisions about allocating resources and assessing performance for the entire Company. Net sales to third parties and property, plant and equipment by geographic region are as follows (in thousands):

	Net Sales		Net Sales		Property, Plant and Equipment

The Company has not provided specific product line sales as our general purpose financial statements do not allow us to readily determine groups of similar product sales.

15. Commitments and Contingencies**General Litigation**

The Company is involved in various pending legal proceedings arising out of the ordinary course of business. None of these legal proceedings is expected to have a material adverse effect on the financial condition of the Company. With respect to these proceedings, management believes that it will prevail, has adequate insurance coverage or has established appropriate reserves to cover potential liabilities. Any costs that management estimates may be paid related to these proceedings or claims are accrued when the liability is considered probable and the amount can be reasonably estimated. There can be no assurance, however, as to the ultimate outcome of any of these matters, and if all or substantially all of these legal proceedings were to be determined adversely to the Company, there could be a material adverse effect on the financial condition of the Company.

We have been indemnified for certain pre-existing legal and environmental matters for matters prior to acquisition.

16. Restructuring, Asset Impairment and Transition Expenses

Beginning in the first quarter of 2007, the Company adopted a restructuring program intended to improve operational efficiency by reducing headcount, consolidating its operating facilities and relocating manufacturing to lower cost areas. The restructuring charges for the quarter and year to date periods ended June 30, 2007 were approximately \$0.2 million and \$1.0 million, respectively.

The Company's asset impairment and losses on sales of assets for the manufacturing consolidation program for the year to date period ended June 30, 2007 were \$0.1 million. The Company does not expect any additional asset impairment and losses on sale of assets through the completion of this program.

The Company's total transition expense for the manufacturing consolidation program for the year to date period ended and quarter ended June 30, 2007 was approximately \$0.9 million and \$0.2 million, respectively. The Company expects to incur during 2007 an additional \$0.1 million of transition costs in connection with the completion of this program.

The Company's total restructuring expense, excluding non-cash loss on disposal of fixed assets, by major component for the year to date period ended June 30, 2007 and costs that are expected to be incurred through the completion of the program, were as follows:

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion of the financial condition and results of operations of Altra Holdings, Inc. should be read together with the audited financial statements of Altra Holdings, Inc. and its Predecessor and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. The following discussion includes forward-looking statements. For a discussion of important factors that could cause actual results to differ materially from the results referred to in the forward-looking statements, see Forward-Looking Statements. in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

We are a leading multinational designer, producer and marketer of a wide range of mechanical power transmission products. Our product portfolio includes industrial clutches and brakes, enclosed gear drives, open gearing, couplings, machined-race bearings, belted drives and other related products which are sold across a wide variety of industries. Our products serve a wide variety of end markets including general industrial, material handling, mining, power generation, transportation, automotive and turf and garden. We primarily sell our products to OEMs such as John Deere, Carrier and General Electric and through long-standing relationships with industrial distributors such as Motion Industries, Applied Industrial Technologies, Kaman Industrial Technologies, Bearing Distributions, Inc. and W.W. Grainger.

Recent Acquisition

On April 5, 2007, the Company completed its acquisition of TB Wood's Corporation (TB Wood's) pursuant to a cash tender offer for all of the outstanding shares of TB Wood's common stock for \$24.80 per share. This was followed by a short form merger (the Merger) of Forest Acquisition Corporation, the Company's indirect wholly-owned subsidiary, with and into TB Wood's. This resulted in TB Wood's becoming a wholly-owned indirect subsidiary of the Company. In connection with the merger, all remaining outstanding shares of TB Wood's common stock (other than those held by shareholders who properly perfect dissenters' rights under Delaware law), were converted into the right to receive the same \$24.80 cash price per share paid in the tender offer (net of the holder without interest and less any required withholding taxes).

Critical Accounting Policies

The preparation of our condensed consolidated financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make judgments, assumptions and estimates that affect our reported amounts of assets, revenues and expenses, as well as related disclosure of contingent assets and liabilities. Management believes there have been no significant changes in our critical accounting policies since December 31, 2006. See the discussion of critical accounting policies in our Annual Report on Form 10-K for the year ended December 31, 2006.

Recent Accounting Pronouncements

In June 2006, the FASB issued FASB Interpretation No. (FIN) 48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109, which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Company adopted FIN 48 on January 1, 2007. See Note 8 to the condensed consolidated financial statements for the impact of adoption of this pronouncement.

Non-GAAP Financial Measures

The discussion of EBITDA (earnings before interest, income taxes, depreciation and amortization) included in the discussion of Results of Operations below is being provided because management considers EBITDA to be an important measure of financial performance. Among other things, management believes that EBITDA provides useful information for our investors because it is useful for trending, analyzing and benchmarking the performance and value of our business. Management also believes that EBITDA is useful in assessing current performance compared with our historical performance because significant line items within our statements of operations such as depreciation, amortization and interest expense are significantly impacted by acquisitions. Internally, EBITDA is used as a financial measure to assess the operating performance and is an important measure in our incentive compensation plans.

Table of Contents

EBITDA has important limitations, and should not be considered in isolation or as a substitute for analysis of our results as reported under generally accepted accounting principles in the United States (GAAP). For example, EBITDA does not reflect:

cash expenditures, or future requirements, for capital expenditures or contractual commitments;

changes in, or cash requirements for, working capital needs;

the significant interest expense, or the cash requirements necessary to service interest or principal payments, on debts;

tax distributions that would represent a reduction in cash available to us; and

any cash requirements for assets being depreciated and amortized that may have to be replaced in the future.

EBITDA is not a recognized measurement under GAAP, and when analyzing our operating performance, investors should use EBITDA in addition to, and not as an alternative for, operating income and net income (each as determined in accordance with GAAP). Because not all companies use identical calculations, our presentation of EBITDA may not be comparable to similarly titled measures of other companies. The amounts shown for EBITDA also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.

To compensate for the limitations of EBITDA we utilize several GAAP measures to review our performance. These GAAP measures include, but are not limited to, net income, operating income, cash provided by (used in) operations, cash provided by (used in) investing activities and cash provided by (used in) financing activities. These important GAAP measures allow our management to, among other things, review and understand our uses of cash period to period, compare our operations with competitors on a consistent basis and understand the revenues and expenses matched to each other for the applicable reporting period. We believe that the use of these GAAP measures, supplemented by the use of EBITDA, allows us to have a greater understanding of our performance and allows us to adapt to changing trends and business opportunities.

Quarter Ended June 30, 2007 Compared with Quarter Ended June 30, 2006

Net sales. Net sales increased by \$43.4 million, or 36.2%, from \$119.8 million for the quarter ended June 30, 2006 to \$163.1 million for the quarter ended June 30, 2007. The increase in sales was primarily due to the inclusion of TB Wood s which contributed \$29.8 million. Without including the impact of Hay Hall, acquired February 10, 2006, Warner Linear, acquired May 18, 2006 and TB Wood s acquired April 5, 2007, sales increased 10.6%. The remaining increase was driven by price increases, new product initiatives, continued strength in key late cycle markets, defense applications and global clutch brake sales.

Table of Contents

Gross profit. Gross profit increased by \$13.6 million, or 42.2%, from \$32.3 million (26.9% of net sales), for the quarter ended June 30, 2006 to \$45.9 million (28.1% of net sales) for the same period of 2007. The increase is primarily due to the inclusion of TB Wood s during the second quarter 2007, additional low cost country material sourcing and implementation of productivity improvements at recently acquired businesses.

Selling, general and administrative expenses. Selling, general and administrative expenses increased by \$6.0 million, or 31.2%, from \$19.1 million for the quarter ended June 30, 2006 to \$25.1 million for the quarter ended June 30, 2007. The increase in selling, general and administrative expenses is primarily due to the inclusion of TB Wood s and Warner Linear for the full quarter ended June 30, 2007, additional amortization of intangible assets associated with the TB Wood s acquisition and increased costs associated with being a public company, partially offset by the termination of the management advisory fee agreement.

Research and development expenses. Research and development expenses increased \$0.9 million or 71.1% from \$1.3 million to \$2.2 million. The increase in research and development expense is due to the inclusion of TB Wood s in the quarter ended June 30, 2007.

Restructuring During the first quarter of 2007, we initiated a restructuring program intended to improve operational efficiency by reducing headcount, consolidating our operating facilities and relocating manufacturing to lower cost areas. We recorded approximately \$0.2 million of restructuring expense in the second quarter of 2007.

EBITDA. To reconcile net income to EBITDA for the quarter ended June 30, 2007, we added back to net income \$2.8 million provision of income taxes, \$10.7 million of interest expense and \$6.1 million of depreciation and amortization expenses. To reconcile net income to EBITDA for the quarter ended June 30, 2006, we added back to net income \$1.7 million provision of income taxes, \$6.4 million of interest expense and \$3.8 million of depreciation and amortization expenses. Taking into account the foregoing adjustments, our resulting EBITDA was \$24.4 million for the quarter ended June 30, 2007 and \$15.6 million for the quarter ended June 30, 2006. The increase is due to the acquisition of TB Wood s and Warner Linear, price increases, volume, and cost savings measures.

Interest expense. We recorded interest expense of \$10.7 million during the quarter ended June 30, 2007, which was an increase of \$4.3 million, from the quarter ended June 30, 2006. The increase was due to \$2.4 million of interest associated with the Senior Secured Notes that were issued in the second quarter of 2007, the \$1.6 million pre-payment premium and the \$0.3 million amortization of deferred financing costs associated with the pay-down of the Senior Notes. For a description of the Senior Notes please see Note 10 to our Condensed Consolidated Financial Statements in Item I of this Form 10-Q.

Provision for income taxes. The provision for income taxes was \$2.8 million, or 36.8%, of income before taxes, for the quarter ended June 30, 2007, versus a provision of \$1.7 million, or 32.1%, of income before taxes, for the quarter ended June 30, 2006. The 2007 provision as a percentage of income before taxes was higher than that of 2006, primarily due to a greater proportion of taxable income in jurisdictions having higher statutory tax rates. Additionally, the Company s overall estimated effective tax rate for all of 2006 was lower than the rate recorded in the first quarter of 2006 and therefore the second quarter rate was driven down to get the year to date effective rate at the estimated full year rate.

Year to Date Ended June 30, 2007 Compared with Year to Date Ended June 30, 2006

Net sales. Net sales increased by \$61.3 million, or 26.1%, from \$234.6 million for the year to date period ended June 30, 2006 to \$295.8 million for the year to date period ended June 30, 2007. Without including the impact of Hay Hall, acquired February 10, 2006 Warner Linear, acquired May 18, 2006, and TB Wood s acquired April 5, 2007, sales increased 9.4%. The increase is due to price increases, new product initiatives, continued strength in key late cycle markets, defense applications and global clutch brake sales.

Gross profit. Gross profit increased by \$19.8 million, or 30.9%, from \$64.1 million (27.3% of net sales), for the year to date period ended June 30, 2006 to \$84.0 million (28.4% of net sales) for the same period of 2007. The increase is primarily due to the inclusion of Hay Hall, TB Wood s and Warner Linear for the full year to date period ended June 30, 2007, additional low cost country material sourcing and implementation of productivity improvements at recently acquired businesses.

Selling, general and administrative expenses. Selling, general and administrative expenses increased by \$8.1 million, or 21.3%, from \$37.8 million for the year to date period ended June 30, 2006 to \$45.9 million for the

year to date period ended June 30, 2007. The increase in selling, general and administrative expenses is primarily due to the inclusion of TB Woods, Hay Hall and Warner

Linear for the full year to date period ended June 30, 2007, additional amortization of intangible assets associated with the TB Woods acquisition and increased costs associated with being a public company, partially offset by the termination of the management advisory fee agreement.

Research and development expenses. Research and development expenses increased \$1.0 million, or 40.4%, from \$2.5 million to \$3.5 million. The increase is mainly due to the inclusion of TB Woods in the year to date period ended June 30, 2007.

Restructuring During the first quarter of 2007, we adopted a restructuring program intended to improve operational efficiency by reducing headcount, consolidating our operating facilities and relocating manufacturing to lower cost areas. We incurred approximately \$1.0 million of restructuring expense in the year to date period ended June 30, 2007.

EBITDA. To reconcile net income to EBITDA for the year to date period ended June 30, 2007, we added back to net income \$5.1 million provision of income taxes, \$19.8 million of interest expense and \$10.6 million of depreciation and amortization expenses. To reconcile net income to EBITDA for the year to date period ended June 30, 2006, we added back to net income \$4.2 million provision of income taxes, \$12.8 million of interest expense and \$6.7 million of depreciation and amortization expenses. Taking into account the foregoing adjustments, our resulting EBITDA was \$44.1 million for the year to date period ended June 30, 2007 and \$30.6 million for the year to date period ended June 30, 2006. The increase is due to the acquisitions of TB Woods, Hay Hall and Warner Linear, price increases, volume, cost savings measures and the termination of the management advisory services agreement.

Interest expense. We recorded interest expense of \$19.8 million during the year to date period ended June 30, 2007, which was an increase of \$7.0 million, from the year to date period ended June 30, 2006. The increase was due to the interest associated with the Senior Notes being outstanding for an additional six weeks during the first quarter of 2007, the \$1.6 million pre-payment premium and \$0.3 million of amortization of deferred financing costs associated with the pay-down of the Senior Notes issued during the second quarter of 2007. The increase was partially offset by a decrease in interest on the Senior Notes after the February redemption. For a description of the Senior Notes and Senior Secured Notes, please see Note 10 to our Condensed Consolidated Financial Statements in Item I of this Form 10-Q.

Provision for income taxes. The provision for income taxes was \$5.1 million, or 37.1%, of income before taxes, for the year to date period ended June 30, 2007, versus a provision of \$4.2 million, or 37.8%, of income before taxes, for the year to date period ended June 30, 2006.

Liquidity and Capital Resources**Net Cash**

Cash and cash equivalents totaled \$34.4 million at June 30, 2007 compared to \$42.5 million at December 31, 2006. Net cash used in operating activities for the year to date period ended June 30, 2007 resulted mainly from cash provided by net income of \$8.6 million and the add-back of non-cash depreciation, amortization, stock based compensation, amortization of inventory fair value adjustment, disposal of fixed assets, loss on foreign currency, accretion of debt discount and deferred financing costs of \$14.6 million offset by a net increase in operating assets of \$11.1 million and a net decrease in operating liabilities of \$16.1 million.

Net cash used in investing activities of \$121.7 million for the year to date period ended June 30, 2007 resulted from \$117.5 million used in the purchase of TB Woods and \$4.2 million used in the purchases of property, plant and equipment primarily for investment in manufacturing equipment.

Net cash provided by financing activities of \$116.8 million for the year to date period ended June 30, 2007 consisted primarily of proceeds from the issuance of Senior Secured Notes for \$106.1 million, the proceeds from the secondary public offering for \$49.6 million and borrowings from the revolving line of credit of \$8.3 million. This was offset by the payment of debt issuance costs of \$3.4 million, payments on the revolving line of credit for \$9.1 million, the payment of \$34.0 million on the Senior Notes and payment of costs associated with the secondary public offering and initial public offering of \$0.4 million and payments of capital lease obligations of \$0.4 million.

Net cash flow used in operating activities, for the year to date period ended June 30, 2006 resulted mainly from cash provided by net income of \$6.9 million and the add-back of non-cash depreciation, amortization, accretion and deferred financing costs of \$7.9 million, stock based compensation of \$0.1 million, deferred tax expense of

\$2.2 million, non-cash amortization of \$2.3 million for

inventory step-ups recorded as part of the Hay Hall Acquisition and a net increase in operating liabilities of \$3.8 million, offset by cash used from a net increase in operating assets of \$9.5 million.

Net cash used in investing activities of \$58.2 million for the quarter ended June 30, 2006 resulted from \$50.3 million used in the purchase of Hay Hall, \$3.5 million for the purchase of Bear Linear and \$4.1 million used in the purchases of property, plant and equipment primarily for investment in manufacturing equipment and for the consolidation of our IT infrastructure.

Net cash provided by financing activities of \$47.3 million for the year to date period ended June 30, 2006 resulted primarily from the proceeds of \$57.6 million from the issuance of the Senior Notes in connection with the Hay Hall Acquisition, offset primarily by payment on the subordinated notes of \$9.0 million and payment of debt issuance costs of \$1.8 million.

Liquidity

Our primary source of liquidity will be cash flow from operations and borrowings under our senior revolving credit facility. See footnote 10 to the condensed consolidated financial statements for explanation of our senior revolving credit facility. We expect that our primary ongoing requirements for cash will be for working capital, debt service, capital expenditures and pension plan funding.

We incurred substantial indebtedness in connection with the Colfax Corporation, Hay Hall and TB Woods Acquisitions. As of June 30, 2007, taking into account these transactions, we had approximately \$322.3 million of total indebtedness outstanding (including capital leases and mortgages). We expect our interest expense, arising from our existing debt, to be approximately \$31.2 million on an annual basis, through the maturity of the Senior Secured Notes, in 2011.

Our senior revolving credit facility provides for senior secured financing of up to \$30.0 million, including \$10.0 million available for letters of credit. As of June 30, 2007, there were no outstanding borrowings and \$3.0 million of outstanding letters of credit under our senior revolving credit facility.

We had \$12.2 million outstanding on the TB Woods revolving credit facility as of June 30, 2007. No additional borrowing are allowed under this agreement.

We made capital expenditures of approximately \$4.2 million and \$4.1 million in the quarters ended June 30, 2007 and June 30, 2006, respectively. These capital expenditures will support on-going business needs.

We have cash funding requirements associated with our pension plan which are estimated to be \$1.6 million during the remainder of 2007, \$3.8 million in 2008, and \$1.9 million thereafter.

Our ability to make scheduled payments of principal and interest, to fund planned capital expenditures and to meet our pension plan funding obligations will depend on our ability to generate cash in the future. Based on our current level of operations, we believe that cash flow from operations and available cash, together with available borrowings under our senior revolving credit facility will be adequate to meet our future liquidity requirements for at least the next two years. However, our ability to generate cash is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. See the section entitled *Changes in general economic conditions or the cyclical nature of our markets could harm our operations and financial performance* in our Annual Report on Form 10-K for the year ended December 31, 2006 and Form S-1 filed with the SEC on June 4, 2007 for further discussion.

We cannot assure you that our business will generate sufficient cash flow from operations, that any revenue growth or operating improvements will be realized or that future borrowings will be available under our senior secured credit facility in an amount sufficient to enable us to service our indebtedness, including the notes, or to fund our other liquidity needs. In addition, we cannot assure you that we will be able to refinance any of our indebtedness, including our senior revolving credit facility and the notes as they become due. Our ability to access capital in the long term will depend on the availability of capital markets and pricing on commercially reasonable terms at the time we are seeking funds. See *Our substantial level of indebtedness could adversely affect our financial condition, harm our ability to react to changes to our business and prevent us from fulfilling our obligations on the notes.* in our Annual Report on Form 10-K for the year ended December 31, 2006 and Form S-1 filed with the SEC on June 4, 2007 for further discussion. In addition, our ability to borrow funds under our senior revolving credit facility will depend on our ability to satisfy the financial and non-financial covenants contained in that facility.

In addition, we refinanced concurrent with the acquisition \$13.0 million of TB Wood's revolving credit agreement. Payments of \$0.8 million are due over the remainder of 2007. \$1.5 million, \$1.5 million, \$8.8 million are due in 2008, 2009 and 2010, respectively.

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Based on our evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are designed at a reasonable assurance level and are effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

There has been no change in our internal control over financial reporting (as defined in Rules 13(a)-15(f) and 15(d)-15(f) under the Exchange Act) that occurred during our fiscal quarter ended June 30, 2007, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
