NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in millions, except per share data)

Note 1 - Financial Statement Presentation

We have prepared our accompanying unaudited Condensed Consolidated Financial Statements (“Financial Statements”) in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”) for interim financial information. Accordingly, they do not include all of the information and footnotes required by Generally Accepted Accounting Principles in the United States (“GAAP”) for complete financial statements. Therefore, we suggest that the accompanying Financial Statements be read in conjunction with the Consolidated Financial Statements included in our annual report on Form 10-K for the fiscal year ended December 28, 2013 (“2013 Form 10-K”). Except as disclosed herein, there has been no material change in the information disclosed in our Consolidated Financial Statements included in the 2013 Form 10-K.

YUM! Brands, Inc. and Subsidiaries (collectively referred to herein as “YUM” or the “Company”) comprises primarily the worldwide operations of KFC, Pizza Hut and Taco Bell (collectively the “Concepts”). References to YUM throughout these Notes to our Financial Statements are made using the first person notations of “we,” “us” or “our.”

YUM now consists of five reporting segments:

- YUM China (“China” or “China Division”) includes all operations in mainland China.
- YUM India (“India” or “India Division”) includes our operations in India, Bangladesh, Nepal and Sri Lanka.
- The KFC Division includes all operations of the KFC concept outside of China Division and India Division.
- The Pizza Hut Division includes all operations of the Pizza Hut concept outside of China Division and India Division.
- The Taco Bell Division includes all operations of the Taco Bell concept outside of India Division.

Previously, our reporting segments consisted of YUM Restaurants International, the United States, China and India. In the first quarter of 2014 we changed our management reporting structure to align our global operations outside of China and India by brand. As a result, our YUM Restaurants International and United States reporting segments were combined, and we began reporting this information by three new reporting segments: KFC Division, Pizza Hut Division and Taco Bell Division. China and India remain separate reporting segments. This new structure is designed to drive greater global brand focus, enabling us to more effectively share know-how and accelerate growth. While our consolidated results have not been impacted, we have restated our comparable segment information for consistent presentation.

YUM’s fiscal year ends on the last Saturday in December. The first three quarters of each fiscal year consist of 12 weeks and the fourth quarter consists of 16 weeks. Our subsidiaries operate on similar fiscal calendars except that China, India and certain other international subsidiaries operate on a monthly calendar with two months in the first quarter, three months in the second and third quarters and four months in the fourth quarter. International businesses within our KFC, Pizza Hut and Taco Bell divisions close approximately one month earlier to facilitate consolidated reporting.

Our preparation of the accompanying Financial Statements in conformity with GAAP requires us to make estimates and assumptions that affect reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the Financial Statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

The accompanying Financial Statements include all normal and recurring adjustments considered necessary to present fairly, when read in conjunction with our 2013 Form 10-K, our financial position as of March 22, 2014, and the results

of our operations, comprehensive income and cash flows for the quarters ended March 22, 2014 and March 23, 2013. Our results of operations, comprehensive income and cash flows for these interim periods are not necessarily indicative of the results to be expected for the full year.

Our significant interim accounting policies include the recognition of certain advertising and marketing costs, generally in proportion to revenue, and the recognition of income taxes using an estimated annual effective tax rate.

We have reclassified certain items in the Financial Statements for the prior periods to be comparable with the classification for the quarter ended March 22, 2014. These reclassifications had no effect on previously reported Net Income - YUM! Brands, Inc.

Note 2 - Earnings Per Common Share (“EPS”)

	Quarter ended	
	2014	2013
Net Income – YUM! Brands, Inc.	\$399	\$337
Weighted-average common shares outstanding (for basic calculation)	447	455
Effect of dilutive share-based employee compensation	9	10
Weighted-average common and dilutive potential common shares outstanding (for diluted calculation)	456	465

Diluted EPS	\$0.87	\$0.72
Unexercised employee stock options and stock appreciation rights (in millions) excluded from the diluted EPS computation ^(a)	6.1	4.5

^(a) These unexercised employee stock options and stock appreciation rights were not included in the computation of diluted EPS because to do so would have been antidilutive for the periods presented.

Note 3 - Shareholders' Equity

Under the authority of our Board of Directors, we repurchased shares of our Common Stock during the quarters ended as indicated below. All amounts exclude applicable transaction fees.

Authorization Date	Shares Repurchased (thousands)		Dollar Value of Shares Repurchased		Remaining Dollar Value of Shares that may be Repurchased
	2014	2013	2014	2013	2014

Note 5 - Supplemental Balance Sheet Information

Accounts and Notes Receivable, net

The Company's receivables are primarily generated as a result of ongoing business relationships with our franchisees and licensees as a result of royalty and lease agreements. Trade receivables consisting of royalties from franchisees and licensees are generally due within 30 days of the period in which the corresponding sales occur and are classified as Accounts and notes receivable on our Condensed Consolidated Balance Sheets.

Property, plant and equipment, gross	\$7,850	\$7,850	
Accumulated depreciation and amortization	(3,472) (3,391)

Property, plant and equipment, net	\$4,378	\$4,459
------------------------------------	---------	---------

9

Assets held for sale at March 22, 2014 and December 28, 2013 total \$13 million and \$16 million, respectively, and are included in Prepaid expenses and other current assets on our Condensed Consolidated Balance Sheets.

Noncontrolling Interests

Noncontrolling interests primarily include the ownership interests of minority shareholders of the entities that operate the KFCs in Beijing and Shanghai, China. The redeemable noncontrolling interest comprises the 7% ownership interest in Little Sheep that continues to be held by the Little Sheep founding shareholders, and is classified outside of permanent equity on our Condensed Consolidated Balance Sheets due to redemption rights held by the founding Little Sheep shareholders. A reconciliation of the beginning and ending carrying amount of the equity attributable to noncontrolling interests is as follows:

	Noncontrolling Interests	Redeemable Noncontrolling Interest
Balance at December 28, 2013	\$63	\$39
Net Income (loss) – noncontrolling interests	1	(1)
Dividends declared	(4)	—
Balance at March 22, 2014	\$60	\$38

Note 6 - Income Taxes

	Quarter ended			
	2014		2013	
Income taxes	\$139		\$120	
Effective tax rate	25.9	%	26.4	%

Our effective tax rate was lower than the expected U.S. federal statutory rate of 35% primarily due to the majority of our income being earned outside of the U.S. where tax rates are generally lower than the U.S. rate.

Our effective tax rate for the quarter ended March 22, 2014 was lower than the prior year primarily due to the favorable impact of tax law changes in certain jurisdictions.

On June 23, 2010, the Company received a Revenue Agent Report ("RAR") from the Internal Revenue Service ("IRS") relating to its examination of our U.S. federal income tax returns for fiscal years 2004 through 2006. The IRS has proposed an adjustment to increase the taxable value of rights to intangibles used outside the U.S. that YUM transferred to certain of its foreign subsidiaries. The proposed adjustment would result in approximately \$700 million of additional taxes plus net interest to date of approximately \$265 million for fiscal years 2004-2006. On January 9, 2013, the Company received an RAR from the IRS for fiscal years 2007 and 2008. As expected, the IRS proposed an adjustment similar to their proposal for 2004-2006 that would result in approximately \$270 million of additional taxes plus net interest to date of approximately \$45 million for fiscal years 2007 and 2008. Furthermore, the Company expects the IRS to make similar claims for years subsequent to fiscal 2008. The potential additional taxes for 2009 through 2013, computed on a similar basis to the 2004-2008 additional taxes, would be approximately \$140 million plus net interest to date of approximately \$10 million.

We believe we have properly reported our taxable income and paid taxes consistent with all applicable laws and intend to vigorously defend our position, including through litigation, if we are unable to settle with the IRS through administrative proceedings. Based on discussions with the IRS subsequent to the Company's quarter end of March 22, 2014, the Company now believes it is reasonably possible that it will reach a settlement with the IRS on this issue during 2014. The Company may record additional reserves related to this issue as these settlement discussions

continue. However, the Company continues to believe that its full year effective tax rate will be within the previously communicated range of 26%-28%, inclusive of any additional reserves that might be recorded as a result of these settlement discussions.

While settlement discussions with the IRS continue, the final resolution of the proposed adjustments remains uncertain and there can be no assurance that a settlement will be reached. If a settlement is not reached and increases to our reserves are deemed necessary in future years due to developments related to this issue, such increases could have a material adverse effect on our operating results as they are recorded. Final resolution of this matter through either current settlement discussions or other means could require us to make significant cash payments.

Note 7 - Reportable Operating Segments

We identify our operating segments based on management responsibility, which has changed beginning the first quarter of 2014. See Note 1. We have restated our comparable segment information for consistent presentation. The following tables summarize Revenues, Operating Profit and Identifiable Assets for each of our reportable operating segments:

	Quarter ended		
	2014	2013	
Revenues			
China	\$1,379	\$1,151

Taco Bell Division	1,010	1,017	
India	101	99	
Corporate and unallocated ^(d)	728	835	
	\$8,705	\$8,695	

(a) Includes equity income from investments in unconsolidated affiliates. See Note 4.

(b) Includes franchising gains and (losses).

(c) China includes investments in 4 unconsolidated affiliates totaling \$40 million and \$53 million as of 2014 and 2013, respectively.

(d) Primarily includes cash, deferred tax assets and property, plant and equipment, net, related to our office facilities.

Note 8 - Pension Benefits

We sponsor qualified and supplemental (non-qualified) noncontributory defined benefit pension plans covering certain full-time salaried and hourly U.S. employees. The most significant of these plans, the YUM Retirement Plan, is funded. We fund our other U.S. plans as benefits are paid. The YUM Retirement Plan and our most significant non-qualified plan are closed to new salaried participants. We also sponsor various defined benefit pension plans covering certain of our non-U.S. employees, the most significant of which are in the UK. During 2013, our Pizza Hut UK plan was frozen such that existing participants can no longer earn future service credits. Our KFC UK plan was frozen to future service credits in 2011.

The components of net periodic benefit cost associated with our significant U.S. pension plans and significant international pension plans are as follows:

	U.S. Pension Plans		International Pension Plans	
	Quarter ended		2014	2013
	2014	2013	2014	2013
Service cost	\$4	\$5	\$—	\$—
Interest cost	12	13	2	2
Expected return on plan assets	(13) (14) (3) (3
Amortization of net loss	4	14	—	1
Net periodic benefit cost	\$7	\$18	\$(1) \$—
Additional loss (gain) recognized due to:				
Settlement ^(a)	\$3	\$10	\$—	\$—
Curtailment ^(b)	\$—	\$—	\$—	\$(5

(a) Losses are a result of settlement transactions from a non-funded plan which exceeded the sum of annual service and interest costs for that plan. These losses were recorded in General and administrative ("G&A") expenses.

(b) During 2013, our Pizza Hut UK Plan recorded a curtailment gain within G&A expenses as a result of terminating future service credits for all participants.

Note 9 - Fair Value Measurements

At March 22, 2014 the carrying values of cash and cash equivalents, short-term investments, accounts receivable and accounts payable approximated their fair values because of the short-term nature of these instruments. The fair value of notes receivable net of allowances and lease guarantees less subsequent amortization approximates their carrying value. The Company's debt obligations, excluding capital leases, were estimated to have a fair value of \$3.1 billion (Level 2), compared to their carrying value of \$2.8 billion. We estimated the fair value of debt using market quotes and calculations based on market rates.

The Company has interest rate swaps, foreign currency forwards and other investments that are required to be measured at fair value on a recurring basis. Interest rate swaps are used to reduce our exposure to interest rate risk and lower interest expense for a portion of our fixed-rate debt, and foreign currency forwards are used to reduce our exposure to cash flow volatility arising from foreign currency fluctuations associated with certain foreign currency denominated intercompany short-term receivables and payables. The fair value of these swaps, forwards and other

investments were not material at March 22, 2014 or December 28, 2013. In addition certain of the Company's assets, such as property, plant and equipment, goodwill and intangible assets, are measured at fair value on a non-recurring basis if determined to be impaired. During the quarter ended March 22, 2014, there were no significant assets or liabilities subject to non-recurring fair value measurements.

Note 10 - Recently Adopted Accounting Pronouncements

In March 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2013-05, Foreign Currency Matters, (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity (ASU 2013-05), to resolve a diversity in accounting for the cumulative translation adjustment of foreign currency upon derecognition of a foreign subsidiary or group of assets. ASU 2013-05 requires the parent to apply the guidance in Subtopic 830-30 to release any related cumulative translation adjustment into net income when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets within a foreign entity. Accordingly, the cumulative translation adjustment should be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. Further, ASU 2013-05 clarified that the parent should apply the guidance in Subtopic 810-10 if there is a sale of an investment in a foreign entity, including both (1) events that result in the loss of a controlling financial interest in a foreign entity and (2) events that result in an acquirer obtaining control of an acquiree in which it held an equity interest immediately before the acquisition date. Accordingly, the cumulative translation adjustment should be released into net income upon the occurrence of those events. ASU 2013-05 was effective for the Company during the quarter ended March 22, 2014. The adoption of this standard did not have a significant impact on our Condensed Consolidated Financial Statements.

In July 2013, the FASB issued ASU No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists (ASU 2013-11), to require that in certain cases, an unrecognized tax benefit, or portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward when such items exist in the same taxing jurisdiction. ASU 2013-11 was effective for the Company during the quarter ended March 22, 2014. The adoption of this standard did not have a significant impact on our Condensed Consolidated Financial Statements.

Note 11 - Guarantees, Commitments and Contingencies

Lease Guarantees

As a result of (a) assigning our interest in obligations under real estate leases as a condition to the refranchising of certain Company restaurants; (b) contributing certain Company restaurants to unconsolidated affiliates; and (c) guaranteeing certain other leases, we are frequently contingently liable on lease agreements. These leases have varying terms, the latest of which expires in 2066. As of March 22, 2014, the potential amount of undiscounted payments we could be required to make in the event of non-payment by the primary lessees was approximately \$700 million. The present value of these potential payments discounted at our pre-tax cost of debt at March 22, 2014 was approximately \$600 million. Our franchisees are the primary lessees under the vast majority of these leases. We generally have cross-default provisions with these franchisees that would put them in default of their franchise agreement in the event of non-payment under the lease. We believe these cross-default provisions significantly reduce the risk that we will be required to make payments under these leases. Accordingly, the liability recorded for our probable exposure under such leases at March 22, 2014 was not material.

Other Franchise Guarantees

We have agreed to provide guarantees of \$44 million on behalf of franchisees for several financing programs related to specific initiatives. The total loans outstanding under these financing programs were approximately \$75 million at March 22, 2014.

Legal Proceedings

We are subject to various claims and contingencies related to lawsuits, real estate, environmental and other matters arising in the normal course of business. An accrual is recorded with respect to claims or contingencies for which a loss is determined to be probable and reasonably estimable.

In early 2013, four putative class action complaints were filed in the U.S. District Court for the Central District of California against the Company and certain executive officers alleging claims under sections 10(b) and 20(a) of the Securities Exchange Act of 1934. Plaintiffs alleged that defendants made false and misleading statements concerning the Company's current and future business and financial condition. The four complaints were subsequently consolidated and transferred to the U.S. District Court for the Western District of Kentucky. On August 5, 2013, lead plaintiff, Frankfurt Trust Investment GmbH, filed a Consolidated Class Action Complaint ("Amended Complaint") on behalf of a putative class of all persons who purchased the Company's stock between February 6, 2012 and February 4, 2013 (the "Class Period"). The Amended Complaint no longer includes allegations relating to misstatements regarding the Company's business or financial condition and instead alleges that, during the Class Period, defendants purportedly omitted information about the Company's supply chain in China, thereby inflating the prices at which the

Company's securities traded. On October 4, 2013, the Company and individual defendants filed a motion to dismiss the Amended Complaint. Briefing on the motion to dismiss is now complete. The Company denies liability and intends to vigorously defend against all claims in the Amended Complaint. A reasonable estimate of the amount of any possible loss or range of loss cannot be made at this time.

On January 24, 2013, Bert Bauman, a purported shareholder of the Company, submitted a letter demanding that the Board of Directors initiate an investigation of alleged breaches of fiduciary duties by directors, officers and employees of the Company. The breaches of fiduciary duties are alleged to have arisen primarily as a result of the failure to implement proper controls in connection with the Company's purchases of poultry from suppliers to the Company's China operations. Subsequently, similar demand letters by other purported shareholders were submitted. Those letters were referred to a special committee of the Board of Directors (the "Special Committee") for consideration. The Special Committee, upon conclusion of an independent inquiry of the matters described in the letters, unanimously determined that it is not in the best interests of the Company to pursue the claims described in the letters and, accordingly, rejected each shareholder's demand.

On May 9, 2013, Mr. Bauman filed a putative derivative action in Jefferson Circuit Court, Commonwealth of Kentucky against certain current and former officers and directors of the Company asserting breach of fiduciary duty, waste of corporate assets and unjust enrichment in connection with an alleged failure to implement proper controls in the Company's purchases of poultry from suppliers to the Company's China operations and with an alleged scheme to mislead investors about the Company's growth prospects in China. By agreement of the parties, the matter is temporarily stayed pending the outcome of the motion to dismiss the securities class action. A reasonable estimate of the amount of any possible loss or range of loss cannot be made at this time.

On February 14, 2013, Jennifer Zona, another purported shareholder of the Company, submitted a demand letter similar to the demand letters described above. On May 21, 2013, Ms. Zona filed a putative derivative action in the U.S. District Court for the Western District of Kentucky against certain officers and directors of the Company asserting claims similar to those asserted by Mr. Bauman. The case was subsequently reassigned to the same judge that the securities class action is before. On October 14, 2013, the Company filed a motion to dismiss on the basis of the Special Committee's findings. By agreement of the parties, the matter is temporarily stayed pending the outcome of the motion to dismiss the securities class action. A reasonable estimate of the amount of any possible loss or range of loss cannot be made at this time.

On May 17, 2013, Sandra Wollman, another purported shareholder of the Company, submitted a demand letter similar to the demand letters described above. On December 9, 2013, Ms. Wollman filed a putative derivative action in the U.S. District Court for the Western District of Kentucky against certain current and former officers and directors of the Company asserting claims similar to those asserted by Mr. Bauman and Ms. Zona. By agreement of the parties, the matter was consolidated with the Zona action and is temporarily stayed pending the outcome of the motion to dismiss the securities class action. A reasonable estimate of the amount of any possible loss or range of loss cannot be made at this time.

Taco Bell was named as a defendant in a number of putative class action suits filed in 2007, 2008, 2009 and 2010 alleging violations of California labor laws including unpaid overtime, failure to timely pay wages on termination, failure to pay accrued vacation wages, failure to pay minimum wage, denial of meal and rest breaks, improper wage statements, unpaid business expenses, wrongful termination, discrimination, conversion and unfair or unlawful business practices in violation of California Business & Professions Code §17200. Some plaintiffs also seek penalties for alleged violations of California's Labor Code under California's Private Attorneys General Act as well as statutory "waiting time" penalties and allege violations of California's Unfair Business Practices Act. Plaintiffs seek to represent a California state-wide class of hourly employees.

These matters were consolidated, and the consolidated case is styled In Re Taco Bell Wage and Hour Actions. The In Re Taco Bell Wage and Hour Actions plaintiffs filed a consolidated complaint in June 2009, and in March 2010 the court approved the parties' stipulation to dismiss the Company from the action. Plaintiffs filed their motion for class certification on the vacation and final pay claims in December 2010, and on September 26, 2011 the court issued its order denying the certification of the vacation and final pay claims. Plaintiffs then sought to certify four separate meal and rest break classes. On January 2, 2013, the District Court rejected three of the proposed classes but granted certification with respect to the late meal break class. The parties thereafter agreed on a list of putative class members, and the class notice and opportunity to opt out of the litigation were mailed on January 21, 2014.

Taco Bell denies liability and intends to vigorously defend against all claims in this lawsuit. We have provided for a reasonable estimate of the possible loss relating to this lawsuit. However, in view of the inherent uncertainties of litigation, there can be no assurance that this lawsuit will not result in losses in excess of those currently provided for in our Condensed Consolidated Financial Statements. A reasonable estimate of the amount of any possible loss or range of loss in excess of that currently provided for in our Condensed Consolidated Financial Statements cannot be made at this time.

On May 16, 2013, a putative class action styled *Bernardina Rodriguez v. Taco Bell Corp.* was filed in California Superior Court. The plaintiff seeks to represent a class of current and former California hourly restaurant employees alleging various violations of California labor laws including failure to provide meal and rest periods, failure to pay hourly wages, failure to provide accurate written wage statements, failure to timely pay all final wages, and unfair or unlawful business practices in violation of California Business & Professions Code §17200. This case appears to be duplicative of the *In Re Taco Bell Wage and Hour Actions* case described above. Taco Bell removed the case to federal court and, on June 25, 2013, plaintiff filed a first amended complaint to include a claim seeking penalties for alleged violations of California's Labor Code under California's Private Attorneys General Act. Taco Bell's motion to dismiss or stay the action in light of the *In Re Taco Bell Wage and Hour Actions* case was denied on October 30, 2013. In April 2014 the parties stipulated to address the sufficiency of plaintiff's legal theory as to her meal break claim before conducting full discovery. On April 23, 2014, the court approved the stipulation and set a hearing for cross-summary judgment motions on September 10, 2014.

Taco Bell denies liability and intends to vigorously defend against all claims in this lawsuit. A reasonable estimate of the amount of any possible loss or range of loss cannot be made at this time.

In December 2002, Taco Bell was named as the defendant in a class action lawsuit filed in the U.S. District Court for the Northern District of California styled *Moeller, et al. v. Taco Bell Corp.* In August 2003, plaintiffs filed an amended complaint alleging, among other things, that Taco Bell has discriminated against the class of people who use wheelchairs or scooters for mobility by failing to make its restaurants in California accessible to the class. Plaintiffs contend that queue rails and other architectural and structural elements of the Taco Bell restaurants relating to the path of travel and use of the facilities by persons with mobility-related disabilities do not comply with the U.S. Americans with Disabilities Act (the "ADA"), the Unruh Civil Rights Act (the "Unruh Act"), and the California Disabled Persons Act (the "CDPA"). Plaintiffs have requested: (a) an injunction from the District Court ordering Taco Bell to comply with the ADA and its implementing regulations; (b) that the District Court declare Taco Bell in violation of the ADA, the Unruh Act, and the CDPA; and (c) monetary relief under the Unruh Act or CDPA. Plaintiffs, on behalf of the class, are seeking the minimum statutory damages per offense of either \$4,000 under the Unruh Act or \$1,000 under the CDPA for each aggrieved member of the class. Plaintiffs contend that there may be in excess of 100,000 individuals in the class. In February 2004, the District Court granted plaintiffs' motion for class certification. The class included claims for injunctive relief and minimum statutory damages.

In May 2007, a hearing was held on plaintiffs' Motion for Partial Summary Judgment seeking judicial declaration that Taco Bell was in violation of accessibility laws as to three specific issues: indoor seating, queue rails and door opening force. In August 2007, the court granted plaintiffs' motion in part with regard to dining room seating. In addition, the court granted plaintiffs' motion in part with regard to door opening force at some restaurants (but not all) and denied the motion with regard to queue lines.

In December 2009, the court denied Taco Bell's motion for summary judgment on the ADA claims and ordered plaintiffs to select one restaurant to be the subject of a trial. Following the trial, the court issued Findings of Fact and Conclusions of Law in October 2011 ruling that plaintiffs established that classwide injunctive relief was warranted with regard to maintaining compliance as to corporate Taco Bell restaurants in California. The court declined to order injunctive relief at the time. The court also found that twelve specific items at the exemplar store were once out of compliance with applicable state and/or federal accessibility standards.

Taco Bell filed a motion to decertify the class in August 2011, and in July 2012, the court granted Taco Bell's motion to decertify the previously certified state law damages class but denied Taco Bell's motion to decertify the ADA injunctive relief class. In September 2012, the court set a discovery and briefing schedule concerning the trials of the four individual plaintiffs' state law damages claims, which the court stated will be tried before holding further proceedings regarding the possible issuance of an injunction. The court subsequently issued an order modifying its

October 2011 Findings of Facts and Conclusions of Law deleting the statement that an injunction was warranted. Plaintiffs appealed that order, and on June 24, 2013 the Ninth Circuit Court of Appeals dismissed plaintiff's appeal. On January 15, 2014, plaintiffs filed a motion seeking issuance of a classwide injunction, and Taco Bell filed a motion to dismiss both the individual and class ADA claims based on a lack of jurisdiction.

On April 24, 2014, the parties agreed to settle this matter. The parties are in the process of submitting the settlement to the court for approval. If the settlement is approved by the court, the associated cash payments will not be material.

In July 2009, a putative class action styled Mark Smith v. Pizza Hut, Inc. was filed in the U.S. District Court for the District of Colorado. The complaint alleged that Pizza Hut did not properly reimburse its delivery drivers for various automobile costs, uniforms costs, and other job-related expenses and seeks to represent a class of delivery drivers nationwide under the Fair Labor Standards Act (FLSA) and Colorado state law. In January 2010, plaintiffs filed a motion for conditional certification of a nationwide class of current and former Pizza Hut, Inc. delivery drivers. However, in March 2010, the court granted Pizza Hut's pending motion to dismiss for failure to state a claim, with leave to amend. Plaintiffs subsequently filed an amended complaint, which dropped the uniform claims but, in addition to the federal FLSA claims, asserted state-law class action claims under the laws of

sixteen different states. Pizza Hut filed a motion to dismiss the amended complaint, and plaintiffs sought leave to amend their complaint a second time. In August 2010, the court granted plaintiffs' motion to amend. Pizza Hut filed another motion to dismiss the Second Amended Complaint. In July 2011, the Court granted Pizza Hut's motion with respect to plaintiffs' state law claims but allowed the FLSA claims to go forward. Plaintiffs filed their Motion for Conditional Certification in August 2011, and the Court granted plaintiffs' motion in April 2012. The opt-in period closed on August 23, 2012, and 6,049 individuals opted in. On February 28, 2014, Pizza Hut filed a motion to decertify the collective action, along with a motion for partial summary judgment seeking an order from the Court that the FLSA does not require Pizza Hut to reimburse certain fixed costs that delivery drivers would have incurred regardless of their employment with Pizza Hut.

Pizza Hut denies liability and intends to vigorously defend against all claims in this lawsuit. A reasonable estimate of the amount of any possible loss or range of loss cannot be made at this time.

We are engaged in various other legal proceedings and have certain unresolved claims pending, the ultimate liability for which, if any, cannot be determined at this time. However, based upon current information and consultation with legal counsel, we expect that the final disposition of such proceedings and claims will not have a material adverse effect, individually or in the aggregate, on our Condensed Consolidated Financial Statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction and Overview

Yum! Brands, Inc. ("YUM" or the "Company") operates, franchises or licenses a worldwide system of over 40,000 restaurants in more than 125 countries and territories, primarily through the concepts of KFC, Pizza Hut and Taco Bell. These three concepts are the global leaders in the chicken, pizza and Mexican-style food categories, respectively. Of the more than 40,000 restaurants 20% are operated by the Company and 80% are operated by franchisees, licensees or unconsolidated affiliates.

The Company is focused on the following key growth strategies:

• Build Powerful Brands Through Superior Marketing, Breakthrough Innovation and Compelling Value with a Foundation Built on Winning Food and World Class Operations

• Drive Aggressive Unit Expansion Everywhere, Especially in Emerging Markets, and Build Leading Brands in Every Significant Category in China and India

• Create Industry Leading Returns Through Franchising and Disciplined Use of Capital, Maximizing Long-term Shareholder Value

YUM now consists of five reporting segments:

- YUM China ("China" or "China Division") includes all operations in mainland China.
- YUM India ("India" or "India Division") includes our operations in India, Bangladesh, Nepal and Sri Lanka.
- The KFC Division includes all operations of the KFC concept outside of China Division and India Division.
- The Pizza Hut Division includes all operations of the Pizza Hut concept outside of China Division and India Division.
- The Taco Bell Division includes all operations of the Taco Bell concept outside of India Division.

Previously, our reporting segments consisted of YUM Restaurants International, the United States, China and India. In the first quarter of 2014 we changed our management reporting structure to align our global operations outside of China and India by brand. As a result, our YUM Restaurants International and United States reporting segments were combined, and we began reporting this information by three new reporting segments: KFC Division, Pizza Hut Division and Taco Bell Division. China and India remain separate reporting segments. This new structure is designed to drive greater global brand focus, enabling us to more effectively share know-how and accelerate growth. While our consolidated results have not been impacted, we have restated our comparable segment information for consistent presentation.

This Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the unaudited Condensed Consolidated Financial Statements ("Financial Statements"), the Cautionary Note Regarding Forward-Looking Statements and our annual report on Form 10-K for the fiscal year ended December 28, 2013 ("2013 Form 10-K"). References to YUM throughout this discussion are made in first person notations of "we," "us" or "our."

We intend for this MD&A to provide the reader with information that will assist in understanding our results of operations, including performance metrics that management uses to assess the Company's performance. Throughout this MD&A, we commonly discuss the following performance metrics:

-

The Company provides certain percentage changes excluding the impact of foreign currency translation (“FX”). These amounts are derived by translating current year results at prior year average exchange rates. We believe the elimination of the foreign currency translation impact provides better year-to-year comparability without the distortion of foreign currency fluctuations.

System sales growth includes the results of all restaurants regardless of ownership, including Company-owned, franchise, unconsolidated affiliate and license restaurants that operate our concepts, except for non-company-owned restaurants for which we do not receive a sales-based royalty. Sales of franchise, unconsolidated affiliate and license restaurants generate ongoing franchise and license fees for the Company (typically at a rate of 4% to 6% of sales). Franchise, unconsolidated affiliate and license restaurant sales are not included in Company sales on the Condensed Consolidated Statements of Income; however, the franchise and license fees are included in the Company’s revenues. We believe system sales growth is useful to investors as a significant indicator of the overall strength of our business as it incorporates all of our revenue drivers, Company and franchise same-store sales as well as net unit development.

Same-store sales growth is the estimated growth in system sales of all restaurants that have been open and in the YUM system one year or more.

Company restaurant profit is defined as Company sales less expenses incurred directly by our Company restaurants in generating Company sales. Company restaurant margin as a percentage of sales is defined as Company restaurant profit divided by Company sales. Within the company restaurant margin analysis, Store portfolio actions represent the net impact of new unit openings, acquisitions, refranchising and store closures and Other primarily represents the impact of same-store sales, as well as the impact of changes in costs such as inflation/deflation.

Operating margin is defined as Operating Profit divided by Total Revenues.

In addition to the results provided in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") throughout this MD&A, the Company provides non-GAAP measurements which present operating results on a basis before items that we have deemed Special. The Company uses earnings before Special Items as a key performance measure of results of operations for the purpose of evaluating performance internally and Special Items are not included in any of our segment results. This non-GAAP measurement is not intended to replace the presentation of our financial results in accordance with GAAP. Rather, the Company believes that the presentation of earnings before Special Items provides additional information to investors to facilitate the comparison of past and present operations, excluding those items that the Company does not believe are indicative of our ongoing operations due to their size and/or nature.

All Note references herein refer to the accompanying Notes to the Financial Statements. Tabular amounts are displayed in millions of U.S. dollars except per share and unit count amounts, or as otherwise specifically identified. Percentages may not recompute due to rounding.

Results of Operations

Our ongoing earnings growth model, which includes the ongoing earnings growth rates described within each of our reportable segment sections below, is expected to generate EPS growth of at least 10% annually. Our 2014 EPS prior to Special Items is expected to grow at least 20% due in large part to our expectations that China Division Operating Profit for 2014 will grow at a rate significantly above the ongoing growth rate of 15% as indicated in the China Division discussion. Details of our 2014 Guidance by division as presented on December 2, 2013 can be found online at <http://yum.com>.

U.S. refranchising gains and losses have not historically been allocated to our segments for performance reporting (a) purposes due to the scope of our U.S. refranchising program in prior years and the volatility in gains and losses. The 2013 gains primarily relate to sales of Taco Bell restaurants in the U.S.

(b) The tax benefit (expense) was determined based upon the impact of the nature, as well as the jurisdiction of the respective individual components within Special Items.

Quarter Highlights

The following quarterly highlights are variances versus the same period a year ago and exclude the impact of Special Items. System sales and Operating Profit in the quarterly highlights below exclude the impact of foreign currency translation.

Worldwide system sales grew 4%. Worldwide restaurant margin increased 3.3 percentage points to 19.2% and worldwide Operating Profit increased 22%.

Total international development was 249 new restaurants; 86% of this development occurred in emerging markets.

China Division system sales increased 17% driven by 7% unit growth and 9% same-store sales growth. Restaurant margin increased 6.8 percentage points to 23.4%. Operating Profit increased 80%.

KFC Division system sales increased 4% driven by 2% unit growth and 1% same-store sales growth. Restaurant margin decreased 0.3 percentage points to 12.9%. Operating Profit increased 4%.

Pizza Hut Division system sales were even as 2% unit growth was offset by a 2% same-store sales decline. Restaurant margin decreased 4.2 percentage points to 10.8%. Operating Profit decreased 14%.

Taco Bell Division system sales were even, as 1% unit growth was offset by a 1% same-store sales decline. Restaurant margin decreased 2.6 percentage points to 15.6%. Operating Profit decreased 16%.

Worldwide effective tax rate decreased to 25.8% from 26.0%.

Foreign currency translation negatively impacted reported Operating Profit by \$3 million.

China Division

The China Division has approximately 6,300 units, predominately KFCs and Pizza Huts which are the leading quick service and casual dining restaurant brands, respectively, in mainland China. Additionally, the Company operates a majority of the distribution system for its restaurants in China which we believe provides a significant competitive advantage. Given this strong competitive position, a growing economy and a population of 1.4 billion in mainland China, the Company is rapidly adding KFC and Pizza Hut Casual Dining restaurants, accelerating the development of Pizza Hut Home Service (home delivery), integrating the Little Sheep brand (hot pot) we acquired in 2012 and testing the additional restaurant concept of East Dawning (Chinese food). Our ongoing earnings growth model in China includes low double-digit percentage unit growth, mid-single digit same-store sales growth and moderate margin improvement, which we expect to drive Operating Profit growth of 15%.

The China Division's 2014 Operating Profit is expected to grow at a rate significantly above our 15% target due to KFC China recovering from significant sales declines in 2013. See our 2013 Form 10-K for additional discussion.

Total Revenues

The increase in Company Sales for the quarter, excluding the impact of foreign currency translation, was driven by net new unit development and same-store sales growth.

The increase in Franchise and license fees and income for the quarter, excluding the impact of foreign currency translation, was driven by same-store sales growth, refranchising and net new unit development.

Restaurant Margin

The changes in Company sales and Restaurant profit were as follows:

Income / (Expense)	Quarter ended				
	2013	Store Portfolio Actions	Other	FX	2014
Company sales	\$1,133	\$95	\$92	\$36	\$1,356
Cost of sales	(375) (27) (5) (11) (418

Restaurant profit	\$188	\$28	\$93	\$8	\$317
	16.6	%			23.4

The increase in Company sales and Restaurant profit associated with store portfolio actions was driven by net new unit development. Significant other factors impacting Company sales and/or Restaurant profit were Company same-store sales increases of 8%, labor efficiencies and lapping prior year promotional activities, partially offset by wage rate inflation of 7%.

G&A Expenses

The increase in G&A expenses for the quarter, excluding the impact of foreign currency translation, was driven by higher compensation costs due to higher headcount and wage inflation.

Operating Profit

The increase in Operating Profit for the quarter, excluding the impact of foreign currency translation, was driven by the impact of same-store sales growth, lower restaurant operating costs and net new unit development, partially offset by higher G&A expenses.

KFC Division

The KFC Division comprises approximately 14,000 units, approximately 70% of which are located outside the U.S. The KFC Division has experienced significant unit growth in emerging markets, which comprise approximately 35% and 50% of the Division's units and profits, respectively, as of the end of 2013. Additionally, 91% of the KFC Division units were operated by franchisees and licensees as of the end of 2013. Our ongoing earnings growth model for the KFC Division includes mid single-digit percentage net unit growth and same-store sales growth for our emerging markets and flat net unit growth and low single-digit same-store sales growth for our developed markets. This combined with restaurant margin improvement and leverage of our G&A structure is expected to drive annual Operating Profit growth of 10%.

The increase in Company sales for the quarter, excluding the impact of foreign currency translation, was driven by an increase in international net new unit development and the impact of the acquisition of restaurants in Turkey from an existing franchisee in April 2013, partially offset by refranchising.

The increase in Franchise and license fees and income for the quarter, excluding the impact of foreign currency translation, was driven by international net new unit development, partially offset by lapping the impact of transfer and renewal fees from a major franchise ownership change in 2013.

Restaurant Margin

The changes in Company sales and Restaurant profit were as follows:

						%

The increase in Company sales and Restaurant profit associated with store portfolio actions was driven by net new unit development and the impact of the Turkey acquisition, partially offset by refranchising. Company same-store sales were even for the quarter.

G&A Expenses

The decrease in G&A expenses for the quarter, excluding the impact of foreign currency translation, was driven by lower pension costs in the U.S., partially offset by the impact of the Turkey acquisition.

Operating Profit

Operating Profit for the quarter was negatively impacted by 4% due to lapping the impact of transfer and renewal fees from a major franchise ownership change in 2013. Excluding this renewal fee lap and the impact of foreign currency translation, the increase in Operating Profit was driven by the impact of same-store sales growth and net new unit development.

Pizza Hut Division

The Pizza Hut Division comprises approximately 13,000 units, approximately 60% of which are located in the U.S. The Pizza Hut Division operates as one brand that uses multiple distribution channels including delivery, dine-in and express (e.g. airports). Emerging markets comprise approximately 20% of both units and profits for the Division as of the end of 2013. Additionally, 94% of the Pizza Hut Division units were operated by franchisees and licensees as of the end of 2013. Our ongoing earnings growth model for the Pizza Hut Division includes mid single-digit percentage net unit growth and same-store sales growth for our emerging markets and low single-digit percentage net unit growth and same-store sales growth for our developed markets. This combined with restaurant margin improvement and leverage of our G&A structure is expected to drive annual Operating Profit growth of 8%.

The increase in Company sales for the quarter, excluding the impact of foreign currency translation, was driven by net new unit development within the U.S. and the impact of the acquisition of restaurants in Turkey from an existing franchisee in April 2013, partially offset by same-store sales declines.

The increase in Franchise and license fees and income for the quarter, excluding the impact of foreign currency translation, was driven by net new unit development, partially offset by same-store sales declines.

Restaurant Margin

The changes in Company sales and Restaurant profit were as follows:

Restaurant profit	\$21	\$(1)	\$(5)	\$—	\$ 15
	15.0	%			10.8 %

The changes in Company sales and Restaurant profit associated with store portfolio actions was driven by the impact of the Turkey acquisition, and net new unit development, partially offset by refranchising. Significant other factors impacting Company sales and/or Restaurant profit were increased commodity costs in the U.S. and Company same-store sales declines of 3%.

G&A Expenses

The increase in G&A expenses for the quarter, excluding the impact of foreign currency translation, was driven by lapping a pension curtailment gain in the first quarter of 2013 related to our UK pension plan, partially offset by lower U.S. pension costs and higher headcount in international markets.

Operating Profit

The decrease in Operating Profit for the quarter, excluding the impact of foreign currency translation, was driven by the impact of higher G&A expenses, commodity inflation and same-store sales declines, partially offset by net new unit development.

Taco Bell Division

The Taco Bell Division has approximately 6,000 units, the vast majority of which are in the U.S. The Company owns approximately 15% of the Taco Bell units in the U.S., where the brand has historically achieved high restaurant margins and returns. While we believe expansion of Taco Bell outside of the U.S. is a long-term growth driver, our current ongoing earnings model only includes U.S.-generated growth. Our ongoing earnings growth model for the Taco Bell Division includes low single-digit percentage net unit growth, mid-single-digit same-store sales growth and leverage of our G&A structure, which we expect to drive annual Operating Profit growth of 6%.

Total Revenues

The decrease in Company sales for the quarter, excluding the impact of foreign currency translation, was driven by refranchising and same-store sales declines, partially offset by net new unit development.

The decrease in Franchise and license fees and income for the quarter, excluding the impact of foreign currency translation, was driven by franchise incentives related to the national breakfast launch in the second quarter of 2014 and same-store sales declines, partially offset by refranchising and net new unit development.

Restaurant Margin

The changes in Company sales and Restaurant profit were as follows:

Income / (Expense)	Quarter ended				2014
	2013	Store Portfolio Actions	Other	FX	
Company sales	\$353	\$(35) \$(12) \$—	\$306

Restaurant profit	\$64	\$(3) \$(13) \$—	\$48
	18.2	%			15.6 %

The decrease in Company sales and Restaurant profit associated with store portfolio actions was driven by refranchising, partially offset by net new unit development. Significant other factors impacting Company sales and/or Restaurant profit were Company same-store sales declines of 2% and commodity inflation.

G&A Expenses

The decrease in G&A expenses for the quarter was driven by lower pension costs.

Operating Profit

Operating Profit was negatively impacted by 5% due to franchise incentives related to the national breakfast launch in the second quarter of 2014. Excluding the impact of these incentives, the decrease in Operating Profit was driven by the impact of commodity inflation and same-store sales declines.

India Division

The India Division has approximately 700 units, predominately KFCs and Pizza Huts. The Company owns approximately 50% of the KFC units and 5% of the Pizza Hut units. While we believe India is a significant long-term growth driver, our ongoing earnings model currently assumes no impact from India growth.

Corporate G&A

The decrease in Corporate G&A for the quarter was driven by lower pension costs, including the lapping of a pension settlement charge of \$10 million in the first quarter of 2013, partially offset by higher incentive compensation.

Other Unallocated

The decrease in Other unallocated for the quarter was driven by lapping \$17 million of refranchising gains in the first quarter of 2013.

Income Tax Provision

Our effective tax rate was lower than the expected U.S. federal statutory rate of 35% primarily due to the majority of our income being earned outside of the U.S. where tax rates are generally lower than the U.S. rate.

Our effective tax rate for the quarter ended March 22, 2014 was lower than the prior year primarily due to the favorable impact of tax law changes in certain jurisdictions.

On June 23, 2010 and January 9, 2013, the Company received Revenue Agent Reports from the Internal Revenue Service ("IRS") relating to its examination of our U.S. federal income tax returns for fiscal years 2004 through 2006 and 2007 through 2008, respectively. The IRS has proposed an adjustment to increase the taxable value of rights to intangibles used outside the U.S. that YUM transferred to certain of its foreign subsidiaries. The Company now believes it is reasonably possible that it will reach a settlement with the IRS on this issue in 2014. See Note 6.

Liquidity and Capital Resources

Liquidity

Net cash provided by operating activities was \$570 million in 2014 versus \$401 million in 2013. The increase was primarily driven by higher operating profit before Special Items.

Operating in the QSR industry allows us to generate substantial cash flows from the operations of our company stores and from our extensive franchise operations which require a limited YUM investment. Net cash provided by operating activities has exceeded \$2 billion annually since 2011. We expect these levels of net cash provided by operating activities to continue in the foreseeable future. However, unforeseen downturns in our business could adversely impact our cash flows from operations from the levels historically realized.

In the event our cash flows from operating activities are negatively impacted by business downturns, we believe we have the ability to temporarily reduce our discretionary spending without significant impact to our long-term business prospects. Our discretionary spending includes capital spending for new restaurants, acquisitions of restaurants from franchisees, repurchases of shares of our Common Stock and dividends paid to our shareholders.

Net cash used in investing activities was \$168 million in 2014 versus \$153 million in 2013. Lower refranchising proceeds were offset by lower capital spending.

In the quarter ended March 22, 2014, we invested \$172 million in capital spending, including \$85 million in China, \$52 million in the KFC Division, \$8 million in the Pizza Hut Division, \$22 million in the Taco Bell Division and \$3 million in India.

Net cash used in financing activities was \$237 million in 2014 versus \$259 million in 2013.

In the quarter ended March 22, 2014, we repurchased shares of our Common Stock for \$124 million. At March 22, 2014, we had remaining capacity to repurchase up to \$829 million (excluding applicable transaction fees) of our outstanding Common Stock under the November 2012 and November 2013 authorizations. See Note 3.

During the quarter ended March 22, 2014, we paid cash dividends of \$164 million. Additionally, on March 12, 2014 our Board of Directors approved a cash dividend of \$0.37 per share of Common Stock, to be distributed on May 2, 2014 to shareholders of record at the close of business on April 11, 2014. The Company targets an ongoing annual dividend payout ratio of 35% to 40% of net income.

To the extent we have needed to repatriate international cash to fund our U.S. discretionary cash spending, including share repurchases, dividends and debt repayments, we have historically been able to do so in a tax efficient manner. If we experience an unforeseen decrease in our cash flows from our U.S. business or are unable to refinance future U.S. debt maturities, we may be required to repatriate future international earnings at tax rates higher than we have historically experienced.

Capital Resources

We fund our working capital requirements primarily through cash generated from operations, supplemented, as needed, by short-term bank borrowings. Our primary bank credit agreement comprises a \$1.3 billion syndicated senior unsecured revolving credit facility (the "Credit Facility") which matures in March 2017.

At March 22, 2014, our unused Credit Facility totaled \$1.2 billion net of outstanding letters of credit of \$57 million and outstanding borrowings of \$35 million. The interest rate for borrowings under the Credit Facility ranges from 1.00% to 1.75% over the London Interbank Offered Rate. The Credit Facility is unconditionally guaranteed by our principal domestic subsidiaries and contains financial covenants relating to maintenance of leverage and fixed-charge coverage ratios and also contains affirmative and negative covenants including, among other things, limitations on certain additional indebtedness and liens, and certain other transactions specified in the agreement. Given the Company's strong balance sheet and cash flows we were able to comply with all debt covenant requirements at March 22, 2014 with a considerable amount of cushion. Additionally, the Credit Facility contains cross-default provisions whereby our failure to make any payment on our indebtedness in a principal amount in excess of \$125 million, or the acceleration of the maturity of any such indebtedness, will constitute a default under such agreement.

The majority of our remaining long-term debt primarily comprises Senior Unsecured Notes with varying maturity dates from 2014 through 2043 and interest rates ranging from 2.38% to 6.88%. The Senior Unsecured Notes represent senior, unsecured obligations and rank equally in right of payment with all of our existing and future unsecured unsubordinated indebtedness. Amounts

outstanding under Senior Unsecured Notes were \$2.8 billion at March 22, 2014. Our Senior Unsecured Notes provide that the acceleration of the maturity of any of our indebtedness in a principal amount in excess of \$50 million will constitute a default under the Senior Unsecured Notes if such acceleration is not annulled, or such indebtedness is not discharged, within 30 days after notice.

Recently Adopted Accounting Pronouncements and New Accounting Pronouncements Not Yet Adopted

See Note 10 for further details of recently adopted accounting pronouncements.

In April 2014, the FASB issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity (ASU 2014-08), to reduce the frequency of disposals reported as discontinued operations by focusing on strategic shifts that have or will have a major effect on an entity's operations and financial results. Strategic shifts could include a disposal of a major geographical area, a major line of business, a major equity method investment or other major parts of the business. ASU 2014-08 is effective prospectively for the Company in our first quarter of fiscal 2015, with early adoption permitted. We do not believe the adoption of this standard will have a significant impact on our consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There were no material changes during the quarter ended March 22, 2014 to the disclosures made in Item 7A of the Company's 2013 Form 10-K.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as of the end of the period covered by this report. Based on the evaluation, performed under the supervision and with the participation of the Company's management, including the Chairman and Chief Executive Officer (the "CEO") and the Chief Financial Officer (the "CFO"), the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by the report.

Changes in Internal Control

There were no changes with respect to the Company's internal control over financial reporting or in other factors that materially affected, or are reasonably likely to materially affect, internal control over financial reporting during the quarter ended March 22, 2014.

Cautionary Note Regarding Forward-Looking Statements

From time to time, in both written reports and oral statements, we present "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We intend all forward-looking statements to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.

Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts. These statements often include words such as "may," "will," "estimate," "intend," "seek," "expect," "project," "anticipate,"

“believe,” “plan” or other similar terminology. These forward-looking statements are based on current expectations and assumptions and upon data available at the time of the statements and are neither predictions nor guarantees of future events or performance. The forward-looking statements are subject to risks and uncertainties, which may cause actual results to differ materially from those projected. Factors that could cause actual results and events to differ materially from our expectations and forward-looking statements include (i) the risks and uncertainties described in Management's Discussion and Analysis of Financial Condition and Results of Operations included in Part I, Item 2 and any Risk Factors in Part II, Item 1A of this report, (ii) the risks and uncertainties described in the Risk Factors included in Part I, Item 1A of our Form 10-K for the year ended December 28, 2013 and (iii) the factors described in the Management's Discussion and Analysis of Financial Condition and Results of Operations included in Part II, Item 7 of our Form 10-K for the year ended December 28, 2013. You should not place undue reliance on forward-looking statements, which speak only as of the date hereof. We are not undertaking to update any of these statements.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
YUM! Brands, Inc.:

We have reviewed the accompanying condensed consolidated balance sheet of YUM! Brands, Inc. and Subsidiaries (YUM) as of March 22, 2014 and the related condensed consolidated statements of income, comprehensive income and cash flows for the quarters ended March 22, 2014 and March 23, 2013. These condensed consolidated financial statements are the responsibility of YUM's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole.

Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of YUM as of December 28, 2013, and the related consolidated statements of income, comprehensive income, cash flows and shareholders' equity for the year then ended (not presented herein); and in our report dated February 18, 2014, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 28, 2013, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

PART II – Other Information and Signatures

Item 1. Legal Proceedings

Information regarding legal proceedings is incorporated by reference from Note 11 to the Company's Condensed Consolidated Financial Statements set forth in Part I of this report.

Item 1A. Risk Factors

We face a variety of risks that are inherent in our business and our industry, including operational, legal, regulatory and product risks. Such risks could cause our actual results to differ materially from our forward-looking statements, expectations and historical trends. There have been no material changes from the risk factors disclosed in Part I, Item 1A "Risk Factors" in our Annual Report on Form 10-K for the year ended December 28, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information as of March 22, 2014 with respect to shares of Common Stock repurchased by the Company during the quarter then ended:

Fiscal Periods	Total number of shares purchased (thousands)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs (thousands)	Approximate dollar value of shares that may yet be purchased under the plans or programs (millions)
12/29/13-1/25/14	—	N/A	—	\$953
1/26/14-2/22/14	1,117	\$72.41	1,117	\$872
2/23/14-3/22/14	579	\$74.36	579	\$829
Total	1,696	\$73.07	1,696	\$829

In November 2012, our Board of Directors authorized share repurchases through May 2014 of up to \$1 billion (excluding applicable transaction fees) of our outstanding Common Stock. For the quarter ended March 22, 2014, all share repurchases were made under this authorization.

In November 2013, our Board of Directors authorized additional share repurchases through May 2015 of up to \$750 million (excluding applicable transaction fees) of our outstanding Common Stock.
