**Item 8.01. Other Events**

On November 9, 2009, the European Commission issued a statement of objections relating to the acquisition of Sun by Oracle Corporation. The Statement of Objections sets out the Commission's preliminary assessment regarding, and is limited to, the combination of Sun's open source MySQL database product with Oracle's enterprise database products and its potential negative effects on competition in the market for database products. The issuing of a Statement of Objections allows addressees to present arguments in response to the Commission's preliminary assessment of the competitive effects of a notified transaction. A Statement of Objections is a preparatory document that does not prejudice the European Commission's final decision. Any final decision by the European Commission is subject to appeal to the European Court of First Instance.
