Cautionary Statements Concerning Forward-Looking Statements

This annual report on Form 10-K (this Annual Report), together with other statements and information publicly disseminated by Lexington Corporate Properties Trust (the Company) contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and include this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations, are generally identifiable by use of the words believes, expects, intends, anticipates, estimates, projects, or similar expressions. Readers should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond the Company's control and which could materially affect actual results, performances or achievements. In particular, among the factors that could cause actual results to differ materially from current expectations include, but are not limited to, (i) the failure to continue to qualify as a real estate investment trust, (ii) changes in general business and economic conditions, (iii) competition, (iv) increases in real estate construction costs, (v) changes in interest rates, (vi) changes in accessibility of debt and equity capital markets and other risks inherent in the real estate business, including, but not limited to, tenant defaults, potential liability relating to environmental matters, the availability of suitable acquisition opportunities and illiquidity of real estate investments, (vii) changes in governmental laws and regulations, and (viii) increases in operating costs. The Company undertakes no obligation to publicly release the results of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereof or to reflect occurrence of unanticipated events. Accordingly, there is no assurance that the Company's expectations will be realized.

Item 1. Business

General

The Company is a self-managed and self-administered Maryland statutory real estate investment trust that acquires, owns and manages a geographically diverse portfolio of net leased office, industrial and retail properties and provides investment advisory and asset management services to institutional investors in the net lease area. Net leases are generally characterized as leases in which the tenant bears all or substantially all of the costs and/or cost increases for real estate taxes, utilities, insurance and ordinary repairs. The Company's predecessor was organized in October 1993 and merged into the Company on December 31, 1997.

As of December 31, 2005, the Company's real property portfolio consisted of 189 properties or interests therein located in 39 states, including warehousing, distribution and manufacturing facilities, office buildings and retail properties containing an aggregate 40.2 million net rentable square feet of space. In addition, Lexington Realty Advisors, Inc. (LRA), a wholly-owned taxable REIT subsidiary, manages two properties for an unaffiliated third party. The Company's properties are generally subject to triple net leases. Of the Company's 189 properties, 16 provide for operating expense stops and one is subject to a modified gross lease. As of December 31, 2005, 98.3% of net rentable square feet were subject to a lease.

The Company manages its real estate and credit risk through geographic, industry, tenant and lease maturity diversification. For the year ended December 31, 2005, the fifteen largest tenants/guarantors, which occupied 48 properties, represented 37.8% of trailing twelve month base rent, including the Company's proportionate share of base rent from non-consolidated entities, properties held for sale and properties sold through the respective date of sale. As of December 31, 2004 and 2003, the fifteen largest tenants/guarantors represented 43.5% and 46.1% of trailing twelve month base rent, respectively, including the Company's proportionate share of base rent from non-consolidated entities, properties held for sale and properties sold through date of sale. In 2005, 2004 and 2003, no tenant/guarantor represented greater than 10% of annual base rent.

Table of Contents

Objectives and Strategy

The Company's primary objectives are to increase funds from operations, cash available for distribution per share to its shareholders, and net asset value per share. The Company believes that funds from operations enhances an investor's understanding of its financial condition, results of operations and cash flows. The Company believes that funds from operations is an appropriate, but limited, measure of the performance of an equity REIT. Funds from operations is defined in the April 2002 White Paper issued by the National Association of Real Estate Investment Trusts, Inc. as net income (or loss) computed in accordance with generally accepted accounting principles (GAAP), excluding gains (or losses) from sales of property, plus real estate depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. The Company includes in the calculation of funds from operations the dilutive effect of the deemed conversion of its outstanding exchangeable notes (in 2001) which were redeemed by the Company in 2001 and the Series C Cumulative Convertible Preferred Shares in 2005 and 2004. Funds from operations should not be considered an alternative to net income as an indicator of operating performance or to cash flows from operating activities as determined in accordance with GAAP, or as a measure of liquidity to other consolidated income or cash flow statement data as determined in accordance with GAAP. In an effort to achieve the Company's primary objectives, management focuses on:

acquiring portfolios and individual net lease properties from third parties, completing sale/leaseback transactions and acquiring build-to-suit properties;

entering into strategic co-investment programs which generate higher equity returns than direct investments due to acquisition, asset management and debt placement fees, a promoted interest and in some cases increased leverage levels;

managing assets through lease extensions, revenue enhancing property expansions, opportunistic property sales and redeployment of assets;

refinancing existing indebtedness at lower average interest rates and increasing the Company's access to capital to finance property acquisitions and expansions; and

entering into third party advisory contracts to generate advisory fee revenue.

Acquisition Strategies

The Company seeks to enhance its net lease property portfolio through acquisitions of general purpose, efficient, well-located properties in growing markets. Management has diversified the Company's portfolio by geographical location, tenant industry segment, lease term expiration and property type. Management believes that such diversification should help insulate the Company from regional recession, industry specific downturns and price fluctuations by property type. Prior to effecting any acquisitions, management analyzes the (i) property's design, construction quality, efficiency, functionality and location with respect to the immediate sub-market, city and region; (ii) lease integrity with respect to term, rental rate increases, corporate guarantees and property maintenance provisions; (iii) present and anticipated conditions in the local real estate market; and (iv) prospects for selling or re-leasing the property on favorable terms in the event of a vacancy. Management also evaluates each potential tenant's financial strength, growth prospects, competitive position within its respective industry and a property's strategic location and function within a tenant's operations or distribution systems. Management believes that its comprehensive underwriting process is critical to the assessment of long-term profitability of any investment by the Company.

Acquisitions of Portfolio and Individual Net Lease Properties. The Company seeks to acquire portfolio and individual properties that are leased to creditworthy tenants under long-term net leases. Management believes there is significantly less competition for the acquisition of property portfolios containing a number of net leased properties located in more than one geographic region. Management also believes that the Company's geographical diversification, acquisition experience and access to capital will allow it to compete effectively for the acquisition of such net leased properties.

Table of Contents

The Company is structured as an umbrella partnership REIT (UPREIT), and a substantial portion of its business is conducted through its operating partnerships, Lepercq Corporate Income Fund L.P., Lepercq Corporate Income Fund II L.P. and Net 3 Acquisition L.P. The operating partnership structure enables the Company to acquire properties by issuing to a property owner, as a form of consideration in exchange for the property, interests in the Company's operating partnerships (OP Units). Management believes that this structure facilitates the Company's ability to raise capital and to acquire portfolio and individual properties by enabling the Company to structure transactions which may defer tax gains for a contributor of property. During 2005, the Company issued 352,244 OP Units in exchange for all of the outstanding partnership interests in Westport View Corporate Center L.P., a Delaware limited partnership and the beneficiary of an escrow account with a qualified intermediary holding \$7.7 million in remaining cash proceeds from the sale of an investment property.

Sale/ Leaseback Transactions. The Company seeks to acquire portfolio and individual net lease properties in sale/leaseback transactions. The Company selectively pursues sale/leaseback transactions with creditworthy sellers/tenants with respect to properties that are integral to the sellers' /tenants' ongoing operations.

Build-to-Suit Properties. The Company seeks to acquire, generally after construction has been completed, build-to-suit properties that are entirely pre-leased to their intended corporate users before construction. As a result, the Company generally does not assume the risk associated with the construction phase of a project.

Competition. Through our predecessor entities the Company has been in the net lease business for over 30 years and has established close relationships with a large number of major corporate tenants and maintains a broad network of contacts including developers, brokers and lenders. In addition, management is associated with and/or participates in many industry organizations. Notwithstanding these relationships, there are numerous commercial developers, real estate companies, financial institutions and other investors with greater financial resources that compete with the Company in seeking properties for acquisition and tenants who will lease space in these properties. The Company's competitors include other REITs, pension funds, private companies and individuals.

Co-Investment Programs

Lexington Acquiport Company, LLC. In 1999, the Company entered into a joint venture agreement with The Comptroller of the State of New York as Trustee of the Common Retirement Fund (CRF). The joint venture entity, Lexington Acquiport Company, LLC (LAC), was created to acquire high quality office and industrial real estate properties net leased to investment and non-investment grade single tenant users. The Company and CRF committed to make equity contributions to LAC of up to \$50 million and \$100 million, respectively. LAC has completed its acquisition program and no more investments will be made unless to complete a tax-free exchange. In addition, LAC financed a portion of acquisition costs through the use of non-recourse mortgages. As of December 31, 2005, LAC owned 10 properties. LAC also has an investment in an \$11.0 million participating note which was used to partially fund the purchase of a 327,325 square foot office property in Houston, Texas for \$34.8 million. The Company and CRF also purchased a property for \$22.7 million directly as partners and therefore, it is not owned by LAC. The purchase price was partially funded through a \$19.2 million non-recourse mortgage maturing in 2021.

LRA has a management agreement with LAC and the separate partnership whereby LRA will perform certain services for a fee relating to the acquisition and management of the investments.

Lexington Acquiport Company II, LLC. In December 2001, the Company and CRF announced the formation of Lexington Acquiport Company II, LLC (LAC II). The Company and CRF have committed to make equity contributions to LAC II of up to \$50.0 million and \$150.0 million, respectively, to purchase up to \$560.0 million in single tenant office and industrial properties net leased to investment and non-investment grade tenants. As of December 31, 2005, \$135.1 million has been funded. LRA, in addition to earning acquisition and asset management fees, earns a fee for all mortgage debt directly placed. During 2005, LAC II acquired four properties (two from the Company) for an aggregate capitalized cost of \$181.9 million

Table of Contents

(\$52.1 million for properties transferred from the Company at cost). These acquisitions were partially funded by the use of \$124.2 million non-recourse mortgages, which bear interest at fixed rates ranging from 5.2% to 5.9% and mature at various dates ranging from 2013 and 2020.

The Company is required to first offer to LAC II 50% of the Company's opportunities to acquire office and industrial properties generally requiring a minimum investment of \$15.0 million, which are net leased primarily to investment grade tenants for a minimum term of ten years, are available for immediate delivery and satisfy other specified investment criteria. Only if CRF elects not to approve LAC II's pursuit of an acquisition opportunity may the Company pursue the opportunity directly.

Lexington/Lion Venture L.P. In October 2003, the Company entered into a joint venture agreement with CLPF-LXP/ Lion Venture GP, LLC (Clarion). The joint venture entity Lexington/ Lion Venture L.P. (LION), was created to acquire high quality single tenant office, industrial and retail properties net leased to investment and non-investment grade tenants. The Company and Clarion initially committed to make equity contributions to LION of up to \$30.0 million and \$70.0 million, respectively. In 2004, the Company and Clarion increased their equity commitment by \$25.7 million and \$60.0 million, respectively. As of December 31, 2005, \$187.3 million of the commitments had been funded which completed the equity commitment obligations of each partner. In addition, LION finances a portion of the acquisitions through the use of non-recourse mortgages. During 2005, LION made three acquisitions for an aggregate capitalized cost of \$92.4 million, of which \$54.8 million was funded through non-recourse mortgages, which bear interest at fixed rates, ranging from 5.0% to 5.6% and mature at various dates ranging from 2012 to 2019.

LRA has a management agreement with LION whereby LRA will perform certain services for a fee relating to acquisition, financing and management of the LION investments.

Triple Net Investment Company LLC. In June 2004, the Company entered into a joint venture agreement with the Utah State Retirement Investment Fund (Utah). The joint venture entity, Triple Net Investment Company LLC (TNI), was created to acquire high quality single tenant office and industrial properties net leased to non-investment grade tenants. The Company and Utah initially committed to fund equity contributions to TNI of \$15.0 million and \$35.0 million, respectively. In December 2004, the Company and Utah increased their equity commitment by \$21.4 million and \$50.0 million, respectively. As of December 31, 2005, \$83.0 million of the commitments has been funded. In addition, TNI finances a portion of acquisition costs through the use of non-recourse mortgages. During 2005, TNI made three acquisitions for an aggregate capitalized cost of \$126.8 million, of which \$83.3 million was funded through non-recourse mortgages, which bear interest at fixed rates ranging from 5.1% to 5.2% and mature at various dates ranging in 2012 and 2013.

LRA has a management agreement with TNI whereby LRA performs certain services for a fee relating to acquisition, financing and management of the TNI investments.

The Company is required to first offer to Utah all of the Company's opportunities (other than the opportunities it is required to offer LAC II) to acquire office and industrial properties requiring a minimum investment of \$8.0 million to \$30.0 million, which are net leased to non-investment grade tenants for a minimum term of at least seven years, are generally available for immediate delivery and satisfy other specified investment criteria. Only if Utah elects and any overlapping co-investment program with a similar exclusively right elects, not to approve the joint venture's pursuit of an acquisition opportunity may the Company pursue the opportunity directly.

Lexington Columbia L.L.C. In 1999, the Company also formed a joint venture, Lexington Columbia L.L.C. (Lex Columbia), to own a property net leased to Blue Cross Blue Shield of South Carolina, Inc. The Company has a 40% interest in Lex Columbia and LRA entered into a management agreement with Lex Columbia with similar terms as the management agreement with the above mentioned joint venture programs.

Lexington Florence LLC. In January 2002, the Company sold a 77.3% interest in its Florence, South Carolina property net leased to Washington Mutual Home Loans, Inc., along with the proportionate share of

Table of Contents

mortgage debt for \$4.6 million in proceeds. During 2004, the Company repurchased the entire 77.3% interest it did not own in this property for \$6.1 million.

Oklahoma City, Oklahoma TIC. In 2005, the Company sold, at cost, a 60% tenancy in common interest in its Oklahoma City, Oklahoma property net leased primarily to AT&T Wireless Services Inc., which it acquired during 2005, for \$4.0 million in cash and the assumption of \$8.8 million in non-recourse mortgage debt.

Lexington Strategic Asset Corp. In 2005, the Company contributed four properties (three of which were subject to non-recourse mortgages aggregating \$21.3 million) to Lexington Strategic Asset Corp. (LSAC) in exchange for 3,319,600 shares of common stock of LSAC valued at \$10.00 per share. In addition, LSAC sold 6,738,000 shares of common stock, at \$10.00 per share, generating net proceeds, after offering costs and expenses, of \$61.6 million. Due to the Company's ownership percentage (approximately 32% of the fully diluted outstanding common shares) in LSAC, the Company's investment in LSAC is accounted for under the equity method. LRA earns an advisory fee, including a promoted interest, for its management of LSAC. Certain officers of the Company have been granted the right to 40% of all promoted interest earned by LRA. Also, these officers purchased an aggregate of 220,000 shares of common stock of LSAC at its formation for \$0.1 million and they purchased an additional 100,000 shares of common stock in the offering for \$1.0 million. During 2005, LSAC acquired an additional two properties for an aggregate capitalized cost of \$25.0 million. In addition, LSAC obtained a \$10.1 million non-recourse mortgage note, secured by one of the properties contributed by the Company, which bears interest at 5.46% and matures in 2020.

The Company adopted a conflicts policy with respect to the Company and LSAC. Under the conflicts policy the Company is required to first offer to LSAC, subject to the first offer rights of LAC II and TNI, all of the Company's opportunities to acquire (i) general purpose real estate net leased to unrated or below investment grade credit tenants, (ii) net leased special purpose real estate located in the United States, such as medical buildings, theaters, hotels and auto dealerships, (iii) net leased properties located in the Americas outside of the United States with rent payments denominated in United States dollars which are typically leased to U.S. companies, (iv) specialized facilities in the United States supported by net leases or other contracts where a significant portion of the facility's value is in equipment or other improvements, such as power generation assets and cell phone towers, and (v) net leased equipment and major capital assets that are integral to the operations of LSAC's tenants and LSAC's real estate investments. To the extent that a specific investment opportunity, which is not otherwise subject to a first offer obligation to LAC II or TNI, is determined to be suitable to the Company and LSAC, the investment opportunity will be allocated to LSAC. Where full allocation to LSAC is not reasonably practicable (for example, if LSAC does not have sufficient capital), the Company may allocate a portion of the investment to itself after determining in good faith that such allocation is fair and reasonable. The Company will apply the foregoing allocation procedures between LSAC and any investment funds or programs, companies or vehicles or other entities that the Company controls which have overlapping investment objectives with LSAC.

Internal Growth; Effectively Managing Assets

Tenant Relations and Lease Compliance. The Company maintains close contact with its tenants in order to understand their future real estate needs. The Company monitors the financial, property maintenance and other lease obligations of its tenants through a variety of means, including periodic reviews of financial statements and physical inspections of the properties. The Company performs annual inspections of those properties where it has an ongoing obligation with respect to the maintenance of the property and for all properties during each of the last three years immediately prior to a scheduled lease expiration. Biannual physical inspections are undertaken for all other properties.

Extending Lease Maturities. The Company seeks to extend its leases in advance of their expiration in order to maintain a balanced lease rollover schedule and high occupancy levels. During 2005, the Company entered into 12 lease extensions for leases scheduled to expire at various dates ranging from 2005 to 2020, for an average 6.0 years and 2 leases (one expiring in 2012 and a second in 2016) for vacant space.

Table of Contents

Revenue Enhancing Property Expansions. The Company undertakes expansions of its properties based on tenant requirements or marketing opportunities. The Company believes that selective property expansions can provide it with attractive rates of return and actively seeks such opportunities.

Property Sales. Subject to regulatory requirements, the Company sells properties when management believes that the return realized from selling a property will exceed the expected return from continuing to hold such property.

Access to Capital and Refinancing Existing Indebtedness

Capital Markets. During 2005 and 2004, the Company completed common share offerings of 2.5 million and 6.9 million shares, respectively, raising aggregate net proceeds of \$60.7 million and \$144.0 million, respectively. During 2005, the Company issued 400,000 cumulative convertible preferred shares, which were subject to an underwriters over-allotment option, at \$50 per share and a dividend rate of 6.50%, raising net proceeds of \$19.5 million. During 2004, the Company issued 2.7 million cumulative convertible preferred shares at \$50 per share and a dividend rate of 6.50%, raising net proceeds of \$131.1 million. Currently these 3.1 million preferred shares are convertible into 5.8 million common shares.

Non-Recourse Mortgage Financing. During 2005, the Company, including its non-consolidated entities, obtained \$840.3 million in non-recourse mortgage financings on properties at a fixed weighted average interest rate of 5.2%. The proceeds of the financings were used to partially fund acquisitions.

During 2004, the Company, including its non-consolidated entities, obtained and/or assumed \$699.1 million in non-recourse mortgage financings on properties at a fixed weighted average interest rate (including imputed interest rates) of 5.8%. The proceeds of the financings were used to partially fund acquisitions and repay existing indebtedness.

As a result of the Company's financing activities, the weighted average fixed interest rate on the Company's outstanding indebtedness has been reduced from approximately 6.6% as of December 31, 2004, to approximately 6.0% as of December 31, 2005.

Credit Facility. During 2005, the Company replaced its \$100 million unsecured revolving credit facility with a new \$200 million unsecured revolving credit facility which bears interest at a rate of LIBOR plus 120-170 basis points depending on the leverage (as defined) of the Company and matures in June 2008. The credit facility contains customary financial covenants including restrictions on the level of indebtedness, amount of variable rate debt to be borrowed and net worth maintenance provisions. As of December 31, 2005, the Company was in compliance with all covenants, no borrowings were outstanding on the facility, \$198.5 million was available to be borrowed and \$1.5 million in letters of credit were outstanding.

Common Share Repurchases. In September 1998, the Company's Board of Trustees approved a funding limit for the repurchase of 1.0 million common shares/ OP Units, and authorized any repurchase transactions within that limit. In November 1998, the Company's Board of Trustees approved an additional 1.0 million common shares/ OP Units for repurchase, thereby increasing the funding limit to 2.0 million common shares/ OP Units available for repurchase. From September 1998 to March 2005, the Company repurchased approximately 1.4 million common shares/ OP Units at an average price of \$10.62 per share/OP Unit. In November 2005, the Company's Board of Trustees increased the remaining amount of common shares/ OP Units eligible for repurchase, so that an aggregate of 2.0 million common shares/ OP Units are available for repurchase under the Company's share repurchase program. No common share/ OP Unit repurchases have been made under this increased share repurchase program.

Advisory Contracts

In addition to the contracts discussed above, in August 2000, LRA entered into an advisory and asset management agreement to invest and manage an equity commitment of up to \$50.0 million on behalf of a private investment fund. The investment program could, depending on leverage utilized, acquire up to \$140.0 million in single tenant, net leased office, industrial and retail properties in the United States. LRA earns acquisition fees (90 basis points of total acquisition costs), annual asset management fees (30 basis

Table of Contents

points of gross asset value) and a promoted interest of 16% of the return in excess of an internal rate of return of 10% earned by the private investment fund. The investment fund made no purchases in 2005 or 2004.

Other

Environmental Matters. Under various federal, state and local environmental laws, statutes, ordinances, rules and regulations, an owner of real property may be liable for the costs of removal or remediation of certain hazardous or toxic substances at, on, in or under such property as well as certain other potential costs relating to hazardous or toxic substances. These liabilities may include government fines and penalties and damages for injuries to persons and adjacent property. Such laws often impose liability without regard to whether the owner knew of, or was responsible for, the presence or disposal of such substances. Although generally the Company's tenants are primarily responsible for any environmental damage and claims related to the leased premises, in the event of the bankruptcy or inability of a tenant of such premises to satisfy any obligations with respect to such environmental liability, the Company may be required to satisfy such obligations. In addition, the Company as the owner of such properties may be held directly liable for any such damages or claims irrespective of the provisions of any lease.

From time to time, in connection with the conduct of the Company's business, and prior to the acquisition of any property from a third party or as required by the Company's financing sources, the Company authorizes the preparation of Phase I and, when necessary, Phase II environmental reports with respect to its properties. Based upon such environmental reports and management's ongoing review of its properties, as of the date of this Annual Report, management is not aware of any environmental condition with respect to any of the Company's properties which management believes would be reasonably likely to have a material adverse effect on the Company's financial condition and/or results of operations. There can be no assurance, however, that (i) the discovery of environmental conditions, the existence or severity of which were previously unknown, (ii) changes in law, (iii) the conduct of tenants or (iv) activities relating to properties in the vicinity of the Company's properties, will not expose the Company to material liability in the future. Changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures or may otherwise adversely affect the operations of the Company's tenants, which would adversely affect the Company's financial condition and/or results of operations, including funds from operations.

Employees. As of December 31, 2005, the Company had 52 employees.

Industry Segments. The Company operates in one industry segment, investment in single tenant, net leased real properties.

Website. The Company's website is located at www.lxp.com. The Company makes available free of charge through its web site its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to these reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after it electronically files such materials with the Securities and Exchange Commission. The Company also has made available on its website copies of its current Audit Committee Charter, Compensation Committee Charter, Nominating and Corporate Governance Committee Charter, Code of Business Conduct and Ethics, and Corporate Governance Guidelines. In the event of any changes to these charters or the code or the guidelines, changed copies will also be made available on its web site.

Principal Executive Offices. The Company's principal executive offices are located at One Penn Plaza, Suite 4015, New York, New York 10119-4015; our telephone number is (212) 692-7200. The Company also maintains regional offices in Chicago, Illinois and Dallas, Texas.

NYSE CEO Certification. The Chief Executive Officer of the Company made an unqualified certification to the New York Stock Exchange with respect to the Company's compliance with the New York Stock Exchange corporate governance listing standards in June 2005.

Table of Contents

Item 1A. Risk Factors

Set forth below are material factors that may adversely affect our business and operations. All references to the Company, we, our and us in this Item 1A mean Lexington Corporate Properties Trust and all entities owned by us, including non-consolidated entities, except where it is made clear that the term means only the parent company.

Risks involved in single tenant leases. We focus our acquisition activities on real properties that are net leased to single tenants. Therefore, the financial failure of, or other default by, a single tenant under its lease is likely to cause a significant reduction in the operating cash flow generated by the property leased to that tenant and might decrease the value of that property.

In March 2006, Dana Corporation, a tenant in 10 of the Company's properties (including one in a non-consolidated entity) as of December 31, 2005, declared Chapter 11 bankruptcy. As of December 31, 2005 the aggregate net carrying cost of the 9 consolidated properties was \$144.6 million, aggregate non-recourse mortgages encumbering these properties was \$82.8 million and scheduled cash rent due in 2006 is \$12.5 million. The aggregate carrying cost of the 1 non-consolidated property was \$24.0 million, the non-recourse mortgage encumbering the property was \$14.3 million and scheduled cash rent in 2006 is \$2.4 million. The Company has a 30% interest in this non-consolidated entity.

Dependence on major tenants. Revenues from several of our tenants and/or their guarantors constitute a significant percentage of our base rental revenues. As of December 31, 2005, our 15 largest tenants/guarantors, which occupied 48 properties, represented approximately 37.8% of our base rental revenue for the year ended December 31, 2005, including our proportionate share of base rental revenue from non-consolidated entities and base rental revenue recognized from properties sold through the respective date of sale. The default, financial distress or bankruptcy of any of the tenants of these properties could cause interruptions in the receipt of lease revenues from these tenants and/or result in vacancies, which would reduce our revenues and increase operating costs until the affected property is re-let, and could decrease the ultimate sales value of that property. Upon the expiration or other termination of the leases that are currently in place with respect to these properties, we may not be able to re-lease the vacant property at a comparable lease rate or without incurring additional expenditures in connection with the re-leasing.

Leverage. We have incurred, and expect to continue to incur, indebtedness (secured and unsecured) in furtherance of our activities. Neither our declaration of trust nor any policy statement formally adopted by our board of trustees limits either the total amount of indebtedness or the specified percentage of indebtedness that we may incur. Accordingly, we could become more highly leveraged, resulting in increased risk of default on our obligations and in an increase in debt service requirements which could adversely affect our financial condition and results of operations and our ability to pay distributions. Our current unsecured revolving credit facility contains cross-default provisions to our other material indebtedness (as defined therein). In the event of a default on such other material indebtedness, our indebtedness under our current unsecured revolving credit facility could be accelerated. Depending upon the amount of indebtedness under our current unsecured revolving credit facility, such an acceleration could have a material adverse impact on our financial condition and results of operations. Our current unsecured revolving credit facility also contains various covenants which limit the amount of secured, unsecured and variable-rate indebtedness we may incur and restricts the amount of capital we may invest in specific categories of assets in which we may otherwise want to invest.

Risks relating to interest rate increases. We have exposure to market risks relating to increases in interest rates due to our variable-rate debt. An increase in interest rates may increase our costs of borrowing on existing variable-rate indebtedness, leading to a reduction in our net income. As of December 31, 2005, we had outstanding \$11.9 million in variable-rate indebtedness which represents 1.0% of our total mortgages and notes payable. The level of our variable-rate indebtedness, along with the interest rate associated with such variable-rate indebtedness, may change in the future and materially affect our interest costs and net income.

In addition, our interest costs on our fixed-rate indebtedness can increase if we are required to refinance our fixed-rate indebtedness at maturity at higher interest rates.

Table of Contents

Risks associated with refinancing. A significant number of our properties are subject to mortgage notes with balloon payments due at maturity. As of December 31, 2005, the scheduled balloon payments for our consolidated properties for the next five calendar years are as follows:

2006 \$11.9 million;
2007 \$0;
2008 \$59.0 million;
2009 \$47.7 million; and
2010 \$56.6 million.

As of December 31, 2005, none of our joint venture properties require a balloon payment prior to 2009, at which time \$69.0 million (of which our proportionate share is \$23.6 million) will become due. In 2010, balloon payments due for our joint venture properties aggregate \$61.6 million (of which our proportionate share is \$20.5 million).

Our ability to make the scheduled balloon payments will depend upon the amount available under our unsecured revolving credit facility and our ability either to refinance the related mortgage debt or to sell the related property.

Our ability to accomplish these goals will be affected by various factors existing at the relevant time, such as the state of the national and regional economies, local real estate conditions, available mortgage rates, the lease terms of the mortgaged properties, our equity in the mortgaged properties, our financial condition, the operating history of the mortgaged properties and tax laws. If we are unable to obtain sufficient financing to fund the scheduled non-recourse balloon payments or to sell the related property at a price that generates sufficient proceeds to pay the scheduled non-recourse balloon payments, we would lose our entire investment in the related property.

On January 5, 2006, we announced that we informed the holder of the non-recourse mortgage on one of our properties located in Milpitas, California that we will no longer make debt service payments as a result of a vacancy caused by the expiration of the lease on this property in December 2005. As a result of this decision, we recorded an impairment charge of approximately \$12.1 million in the fourth quarter of 2005, which is equal to the difference between this property's net book value (approximately \$17.3 million) and our estimate of the property's fair market value (approximately \$5.2 million). We intend to convey this property to the lender in a deed-in-lieu of foreclosure to satisfy the mortgage. Any adjustment made to the approximately \$11.1 million owed by us, which is net of \$0.9 million in escrow deposits, will be recognized as a debt satisfaction gain in the period it occurs.

Uncertainties relating to lease renewals and re-letting of space. Upon the expiration of current leases for space located in our properties, we may not be able to re-let all or a portion of that space, or the terms of re-letting (including the cost of concessions to tenants) may be less favorable to us than current lease terms. If we are unable to re-let promptly all or a substantial portion of the space located in our properties or if the rental rates we receive upon re-letting are significantly lower than current rates, our net income and ability to make expected distributions to our shareholders will be adversely affected due to the resulting reduction in rent receipts and increase in our property operating costs. There can be no assurance that we will be able to retain tenants in any of our properties upon the expiration of their leases.

Defaults on cross-collateralized properties. As of December 31, 2005, the mortgages on three sets of two properties, for an aggregate of six properties, are cross-collateralized: (1) Canton, Ohio and Spartansburg, South Carolina leased to Best Buy Co. Inc., (2) 730 N. Black Branch Road, Elizabethtown, Kentucky and 750 N. Black Branch Road, Elizabethtown, Kentucky leased to Dana Corporation, and (3) Dry Ridge, Kentucky and Owensboro, Kentucky leased to Dana Corporation. To the extent that any of our properties are cross-collateralized, any default by us under the mortgage note relating to one property will result in a default under the financing arrangements relating to any other property that also provides security for that mortgage note or is cross-collateralized with such mortgage note.

Table of Contents

Possible liability relating to environmental matters. Under various federal, state and local environmental laws, statutes, ordinances, rules and regulations, as an owner of real property, we may be liable for the costs of removal or remediation of certain hazardous or toxic substances at, on, in or under our properties, as well as certain other potential costs relating to hazardous or toxic substances. These liabilities may include government fines and penalties and damages for injuries to persons and adjacent property. These laws may impose liability without regard to whether we knew of, or were responsible for, the presence or disposal of those substances. This liability may be imposed on us in connection with the activities of an operator of, or tenant at, the property. The cost of any required remediation, removal, fines or personal or property damages and our liability therefore could exceed the value of the property and/or our aggregate assets. In addition, the presence of those substances, or the failure to properly dispose of or remove those substances, may adversely affect our ability to sell or rent that property or to borrow using that property as collateral, which, in turn, would reduce our revenues and ability to make distributions.

A property can also be adversely affected either through physical contamination or by virtue of an adverse effect upon value attributable to the migration of hazardous or toxic substances, or other contaminants that have or may have emanated from other properties. Although our tenants are primarily responsible for any environmental damages and claims related to the leased premises, in the event of the bankruptcy or inability of any of our tenants to satisfy any obligations with respect to the property leased to that tenant, we may be required to satisfy such obligations. In addition, we may be held directly liable for any such damages or claims irrespective of the provisions of any lease.

From time to time, in connection with the conduct of our business, and prior to the acquisition of any property from a third party or as required by our financing sources, we authorize the preparation of Phase I environmental reports and, when necessary, Phase II environmental reports, with respect to our properties. Based upon these environmental reports and our ongoing review of our properties, as of the date of this Annual Report, we are not aware of any environmental condition with respect to any of our properties that we believe would be reasonably likely to have a material adverse effect on us.

There can be no assurance, however, that the environmental reports will reveal all environmental conditions at our properties or that the following will not expose us to material liability in the future:

the discovery of previously unknown environmental conditions;

changes in law;

activities of tenants; or

activities relating to properties in the vicinity of our properties.

Changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures or may otherwise adversely affect the operations of our tenants, which could adversely affect our financial condition or results of operations, including funds from operations.

Uninsured loss. We carry comprehensive liability, fire, extended coverage and rent loss insurance on most of our properties, with policy specifications and insured limits that we believe are customary for similar properties.

However, with respect to those properties where the leases do not provide for abatement of rent under any circumstances, we generally do not maintain rent loss insurance. In addition, there are certain types of losses, such as losses resulting from wars, terrorism or certain acts of God that generally are not insured because they are either uninsurable or not economically insurable.

Should an uninsured loss or a loss in excess of insured limits occur, we could lose capital invested in a property, as well as the anticipated future revenues from a property, while remaining obligated for any mortgage indebtedness or other financial obligations related to the property. Any loss of these types would adversely affect our financial condition.

Table of Contents

Risks relating to terrorism. Future terrorist attacks such as the attacks which occurred in New York City, Pennsylvania and Washington, D.C. on September 11, 2001, and the military conflicts such as the military actions taken by the United States and its allies in Afghanistan and Iraq, could have a material adverse effect on general economic conditions, consumer confidence and market liquidity.

Among other things, it is possible that interest rates may be affected by these events. An increase in interest rates may increase our costs of borrowing on existing variable-rate indebtedness, leading to a reduction in our net income. These types of terrorist acts could also result in significant damages to, or loss of, our properties.

We and our tenants may be unable to obtain adequate insurance coverage on acceptable economic terms for losses resulting from acts of terrorism. Our lenders may require that we carry terrorism insurance even if we do not believe this insurance is necessary or cost effective. We may also be prohibited under the applicable lease from passing all or a portion of the cost of such insurance through to the tenant. Should an act of terrorism result in an uninsured loss or a loss in excess of insured limits, we could lose capital invested in a property, as well as the anticipated future revenues from a property, while remaining obligated for any mortgage indebtedness or other financial obligations related to the property. Any loss of these types would adversely affect our financial condition.

Competition. There are numerous commercial developers, real estate companies, financial institutions and other investors with greater financial resources than we have that compete with us in seeking properties for acquisition and tenants who will lease space in our properties. Due to our focus on net lease properties located throughout the United States, and because most competitors are locally and/or regionally focused, we do not encounter the same competitors in each market. Our competitors include other REITs, financial institutions, insurance companies, pension funds, private companies and individuals. This competition may result in a higher cost for properties that we wish to purchase.

Failure to maintain effective internal controls could have a material adverse effect on our business, operating results and share price. Section 404 of the Sarbanes-Oxley Act of 2002 requires annual management assessments of the effectiveness of our internal controls over financial reporting and a report by our independent registered public accounting firm addressing these assessments.

If we fail to maintain the adequacy of our internal controls, as such standards may be modified, supplemented or amended from time to time, we may not be able to ensure that we can conclude on an ongoing basis that we have effective internal controls over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act of 2002. Moreover, effective internal controls, particularly those related to revenue recognition, are necessary for us to produce reliable financial reports and to maintain our qualification as a REIT and are important to helping prevent financial fraud. If we cannot provide reliable financial reports or prevent fraud, our business and operating results could be harmed, our REIT qualification could be jeopardized, investors could lose confidence in our reported financial information, and the trading price of our shares could drop significantly.

Interest rate fluctuations. It is likely that the public valuation of our common shares will be related primarily to the earnings that we derive from rental income with respect to our properties and not from the underlying appraised value of the properties themselves. As a result, interest rate fluctuations and capital market conditions can affect the market value of our common shares. For instance, if interest rates rise, the market price of our common shares may decrease because potential investors seeking a higher dividend yield than they would receive from our common shares may sell our common shares in favor of higher rate interest-bearing securities.

Inability to carry out our growth strategy. Our growth strategy is based on the acquisition and development of additional properties, including acquisitions through co-investment programs such as joint ventures. In the context of our business plan, development generally means an expansion or renovation of an existing property or the acquisition of a newly constructed property. We typically provide a developer with a commitment to acquire a property upon completion of construction of a property and commencement of rent from the tenant. Our plan to grow through the acquisition and development of new properties could be

Table of Contents

adversely affected by trends in the real estate and financing businesses. The consummation of any future acquisitions will be subject to satisfactory completion of our extensive valuation analysis and due diligence review and to the negotiation of definitive documentation. We cannot be sure that we will be able to implement our strategy because we may have difficulty finding new properties at attractive prices that meet our investment criteria, negotiating with new or existing tenants or securing acceptable financing. If we are unable to carry out our strategy, our financial condition and results of operations could be adversely affected.

Acquisitions of additional properties entail the risk that investments will fail to perform in accordance with expectations, including operating and leasing expectations. Redevelopment and new project development are subject to numerous risks, including risks of construction delays, cost overruns or force majeure events that may increase project costs, new project commencement risks such as the receipt of zoning, occupancy and other required governmental approvals and permits, and the incurrence of development costs in connection with projects that are not pursued to completion.

We anticipate that some of our acquisitions and developments will be financed using the proceeds of periodic equity or debt offerings, lines of credit or other forms of secured or unsecured financing that will result in a risk that permanent financing for newly acquired projects might not be available or would be available only on disadvantageous terms. If permanent debt or equity financing is not available on acceptable terms to refinance acquisitions undertaken without permanent financing, further acquisitions may be curtailed or cash available for distribution may be adversely affected.

Concentration of ownership by certain investors. As of December 31, 2005, E. Robert Roskind, the Chairman of our board of trustees, owned or controlled (including through trusts with respect to which he is a beneficiary) 712,567 common shares and 1,651,486 operating partnership units which are convertible, on a one-to-one basis, into our common shares, representing approximately 3.71% of our fully-diluted outstanding voting securities.

In 1999, we entered into a joint venture agreement with The Comptroller of the State of New York as trustee of The Common Retirement Fund, or CRF, to acquire properties. This joint venture and a separate partnership established by the partners has made investments in 13 (one of which was sold in 2005) properties for an aggregated capitalized cost of \$409.1 million and no additional investments will be made unless they are made pursuant to a tax-free exchange. We have a 33¹/₃% equity interest in this joint venture. In December 2001, we formed a second joint venture with CRF to acquire additional properties in an aggregate amount of up to approximately \$560.0 million. We have a 25% equity interest in this joint venture.

Under these joint venture agreements, CRF has the right to sell its equity position in the joint ventures to us. In the event CRF exercises its right to sell its equity interest in either joint venture to us, we may, at our option, either issue common shares to CRF for the fair market value of CRF's equity position, based upon a formula contained in the respective joint venture agreement, or pay cash to CRF equal to 110% of the fair market value of CRF's equity position. We have the right not to accept any property in the joint ventures (thereby reducing the fair market value of CRF's equity position) that does not meet certain underwriting criteria. In addition, the joint venture agreements contain a mutual buy-sell provision in which either CRF or we can force the sale of any property.

In October 2003, we entered into a joint venture agreement with CLPF-LXP/Lion Venture GP, LLC, or Clarion, which was expanded in September 2004, to acquire properties in an aggregate amount of up to approximately \$460.0 million. This joint venture has made investments in 16 properties for an aggregate capitalized cost of \$458.7 and no additional investments will be made unless they are made pursuant to a tax-free exchange or upon the mutual agreement of Clarion and us. We have a 30% equity interest in this joint venture. Under the joint venture agreement, Clarion has the right to sell its equity position in the joint venture to us. In the event Clarion exercises its right to sell its equity interest in the joint venture to us, we may, at our option, either issue common shares to Clarion for the fair market value of Clarion's equity position, based upon a formula contained in the partnership agreement, or pay cash to Clarion equal to 100% of the fair market value of Clarion's equity position. We have the right not to accept any property in the joint venture (thereby reducing the fair market value of Clarion's equity position) that does not meet certain underwriting

Table of Contents

criteria. In addition, the joint venture agreement contains a mutual buy-sell provision in which either Clarion or we can force the sale of any property.

In June 2004, we entered in a joint venture agreement with the Utah State Retirement Investment Fund, or Utah, which was expanded in December 2004, to acquire properties in an aggregate amount of up to approximately \$345.0 million. As of December 31, 2005, this joint venture owned 14 properties for an aggregate capitalized cost of \$241.1 million. We have a 30% equity interest in this joint venture. Under the joint venture agreement, Utah has the right to sell its equity position in the joint venture to us. This right becomes effective upon the occurrence of certain conditions. In the event Utah exercises its right to sell its equity interest in the joint venture to us, we may, at our option, either issue common shares to Utah for the fair market value of Utah's equity position, based upon a formula contained in the joint venture agreement, or pay cash to Utah equal to 100% of the fair market value of Utah's equity position. We have the right not to accept any property in the joint venture (thereby reducing the fair market value of Utah's equity position) that does not meet certain underwriting criteria. In addition, the joint venture agreement contains a mutual buy-sell provision in which either Utah or we can force the sale of any property.

Dilution of common shares. Our future growth will depend in part on our ability to raise additional capital. If we raise additional capital through the issuance of equity securities, the interests of holders of our common shares could be diluted. Likewise, our board of trustees is authorized to cause us to issue preferred shares in one or more series, the holders of which would be entitled to dividends and voting and other rights as our board of trustees determines, and which could be senior to or convertible into our common shares. Accordingly, an issuance by us of preferred shares could be dilutive to or otherwise adversely affect the interests of holders of our common shares.

Our Series C Preferred Shares may be converted by the holder, at its option, into our common shares at a current conversion rate of 1.8643 common shares per \$50.00 liquidation preference, which is equivalent to an initial conversion price of approximately \$26.82 per common share (subject to adjustment in certain events). Depending upon the number of Series C Preferred Shares being converted at one time, a conversion of Series C Preferred Shares could be dilutive to or otherwise adversely affect the interests of holders of our common shares.

Under our joint venture agreements, our joint venture partners have the right to sell their equity position in the applicable joint venture to us. In the event one of our joint venture partners exercises its right to sell its equity interest in the applicable joint venture to us, we may, at our option, either issue our common shares to the exercising joint venture partner for the fair market value of the exercising joint venture partner's equity position, based upon a formula contained in the applicable joint venture agreement, or pay cash to the exercising joint venture partner equal to either (i) 110% of the fair market value of the exercising joint venture partner's equity position with respect to our joint ventures with CRF, or (ii) 100% of the fair market value of the exercising joint venture partner's equity position with respect to Lion and Utah. An exercise by one or more of our joint venture partners and our election to satisfy an exercise with our common shares could be dilutive to or otherwise adversely affect the interests of holders of our common shares.

As of December 31, 2005, an aggregate of approximately 5,760,571 common shares are issuable upon (i) the exchange of all outstanding units of limited partnership interests in our operating partnership subsidiaries (5,720,071 common shares) and (ii) the exercise of outstanding options under our equity-based award plans (40,500 common shares). Depending upon the number of such securities exchanged or exercised at one time, an exchange or exercise of such securities could be dilutive to or otherwise adversely affect the interests of holders of our common shares.

Limited control over joint venture investments. Our joint venture investments are a significant portion of our assets and are also a significant component of our growth strategy. In particular, as of December 31, 2005, 63 of our 189 properties representing 14.6 million of our total of approximately 40.2 million net rentable square feet of space was owned by joint ventures in which we have an ownership interest ranging from 25% to 40%. For the year ended December 31, 2005, our joint venture investments accounted for approximately \$6.2 million of equity in earnings, while our gross revenues totaled approximately \$197.1 million (approximately \$5.3 million of which represents advisory fees earned from our management of the joint ventures). As

Table of Contents

of December 31, 2005, we had approximately \$2.2 billion in consolidated total assets of which \$191.1 million was investment in joint ventures. Our joint venture investments may involve risks not otherwise present for investments made solely by us, including the possibility that our joint venture partner might, at any time, become bankrupt, have different interests or goals than we do, or take action contrary to our instructions, requests, policies or objectives, including our policy with respect to maintaining our qualification as a REIT. Other risks of joint venture investments include impasse on decisions, such as a sale, because neither we nor a joint venture partner have full control over the joint venture. Also, there is no limitation under our organizational documents as to the amount of funds that may be invested in joint ventures. Our unsecured revolving credit facility restricts the amount of capital that we can invest in joint ventures.

Joint venture investments may conflict with our ability to make attractive investments. Under the terms of our active joint venture with CRF, we are required to first offer to the joint venture 50% of our opportunities to acquire office and industrial properties requiring a minimum investment of \$15.0 million which are net leased primarily to investment grade tenants for a minimum term of ten years, are available for immediate delivery and satisfy other specified investment criteria.

Similarly, under the terms of our joint venture with Utah, unless 75% of Utah's capital commitment is funded, we are required to first offer to the joint venture all of our opportunities to acquire certain office, bulk warehouse and distribution properties requiring an investment of \$8.0 million to \$30.0 million which are net leased primarily to non-investment grade tenants for a minimum term of at least nine years and satisfy other specified investment criteria, subject also to our obligation to first offer such opportunities to our joint venture with CRF.

On September 12, 2005, our board of trustees adopted a conflicts policy with respect to us and LSAC. In connection with a private offering by LSAC, we contributed to LSAC our indirect ownership interests in four real estate assets and financing deposits. In exchange, LSAC issued to us shares of its common stock having an aggregate value of approximately \$33.2 million based on the offering price in the private offering. Under the conflicts policy we are required to first offer to LSAC, subject to the first offer rights of CRF and Utah, all of our opportunities to acquire (i) general purpose real estate net leased to unrated or below investment grade credit tenants, (ii) net leased special purpose real estate located in the United States, such as medical buildings, theaters, hotels and auto dealerships, (iii) net leased properties located in the Americas outside of the United States with rent payments denominated in United States dollars which are typically leased to U.S. companies, (iv) specialized facilities in the United States supported by net leases or other contracts where a significant portion of the facility's value is in equipment or other improvements, such as power generation assets and cell phone towers, and (v) net leased equipment and major capital assets that are integral to the operations of LSAC's tenants and LSAC's real estate investments. To the extent that a specific investment opportunity, which is not otherwise subject to a first offer obligation to our joint ventures with CRF or Utah, is determined to be suitable to us and LSAC, the investment opportunity will be allocated to LSAC. Where full allocation to LSAC is not reasonably practicable (for example, if LSAC does not have sufficient capital), we may allocate a portion of the investment to ourselves after determining in good faith that such allocation is fair and reasonable. We will apply the foregoing allocation procedures between LSAC and any investment funds or programs, companies or vehicles or other entities that we control which have overlapping investment objectives with LSAC.

Only if all of our joint venture partners elect not to approve the applicable joint venture's pursuit of an acquisition opportunity or the applicable exclusivity conditions have expired may we pursue the opportunity directly. As a result of the foregoing rights of first offer, we may not be able to make attractive acquisitions directly and may only receive a minority interest in such acquisitions through our minority interest in these joint ventures.

Conflicts of interest with respect to sales and refinancings. Two of our trustees and officers own limited partnership interests in our operating partnerships and, as a result, may face different and more adverse tax consequences than our other shareholders will if we sell our properties or reduce our mortgage indebtedness on our properties. Those individuals may, therefore, have different objectives than our other shareholders regarding the appropriate pricing and timing of any sale of such properties or reduction of mortgage debt.

Table of Contents

Accordingly, there may be instances in which we may not sell a property or pay down the debt on a property even though doing so would be advantageous to our other shareholders. In the event of an appearance of a conflict of interest, the conflicted trustee or officer must recuse himself or herself from any decision making or seek a waiver of our Code of Business Conduct and Ethics.

Our ability to change our portfolio is limited because real estate investments are illiquid. Equity investments in real estate are relatively illiquid and, therefore, our ability to change our portfolio promptly in response to changed conditions will be limited. Our board of trustees may establish investment criteria or limitations as it deems appropriate, but currently does not limit the number of properties in which we may seek to invest or on the concentration of investments in any one geographic region. We could change our investment, disposition and financing policies without a vote of our shareholders.

Failure to qualify as a REIT. We believe that we have met the requirements for qualification as a REIT for federal income tax purposes beginning with our taxable year ended December 31, 1993, and we intend to continue to meet these requirements in the future. However, qualification as a REIT involves the application of highly technical and complex provisions of the Internal Revenue Code of 1986, as amended (the Code), for which there are only limited judicial or administrative interpretations. No assurance can be given that we have qualified or will remain qualified as a REIT. The Code provisions and income tax regulations applicable to REITs are more complex than those applicable to corporations. The determination of various factual matters and circumstances not entirely within our control may affect our ability to continue to qualify as a REIT. In addition, no assurance can be given that legislation, regulations, administrative interpretations or court decisions will not significantly change the requirements for qualification as a REIT or the federal income tax consequences of such qualification. If we do not qualify as a REIT, we would not be allowed a deduction for distributions to shareholders in computing our net taxable income. In addition, our income would be subject to tax at the regular corporate rates. We also could be disqualified from treatment as a REIT for the four taxable years following the year during which qualification was lost. Cash available for distribution to our shareholders would be significantly reduced for each year in which we do not qualify as a REIT. In that event, we would not be required to continue to make distributions. Although we currently intend to continue to qualify as a REIT, it is possible that future economic, market, legal, tax or other considerations may cause us, without the consent of the shareholders, to revoke the REIT election or to otherwise take action that would result in disqualification.

Distribution requirements imposed by law limit our flexibility. To maintain our status as a REIT for federal income tax purposes, we are generally required to distribute to our shareholders at least 90% of our taxable income for that calendar year. Our taxable income is determined with regard to the deduction for dividends paid and by excluding net capital gains. To the extent that we satisfy the distribution requirement, but distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed income. In addition, we will incur a 4% nondeductible excise tax on the amount, if any, by which our distributions in any year are less than the sum of (i) 85% of our ordinary income for that year, (ii) 95% of our capital gain net income for that year and (iii) 100% of our undistributed taxable income from prior years. We intend to continue to make distributions to our shareholders to comply with the distribution requirements of the Code and to reduce exposure to federal income and nondeductible excise taxes. Differences in timing between the receipt of income and the payment of expenses in determining our income and the effect of required debt amortization payments could require us to borrow funds on a short-term basis in order to meet the distribution requirements that are necessary to achieve the tax benefits associated with qualifying as a REIT.

Ownership limitations. For us to qualify as a REIT for federal income tax purposes, among other requirements, not more than 50% of the value of our capital shares may be owned, directly or indirectly, by five or fewer individuals (as defined for federal income tax purposes to include certain entities) during the last half of each taxable year, and these capital shares must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months or during a proportionate part of a shorter taxable year (in each case, other than the first such year for which a REIT election is made). Our declaration of trust includes certain restrictions regarding transfers of our capital shares and ownership limits.

Table of Contents

Actual or constructive ownership of our capital shares in excess of the share ownership limits contained in our declaration of trust would cause the violative transfer or ownership to be void or cause the shares to be transferred to a charitable trust and then sold to a person or entity who can own the shares without violating these limits. As a result, if a violative transfer were made, the recipient of the shares would not acquire any economic or voting rights attributable to the transferred shares. Additionally, the constructive ownership rules for these limits are complex and groups of related individuals or entities may be deemed a single owner and consequently in violation of the share ownership limits.

These restrictions and limits may not be adequate in all cases, however, to prevent the transfer of our capital shares in violation of the ownership limitations. The ownership limits discussed above may have the effect of delaying, deferring or preventing someone from taking control of our company, even though a change of control could involve a premium price for your common shares or otherwise be in your best interest.

Adverse legislative or regulatory tax changes. At any time, the federal income tax laws governing REITs or the administrative interpretations of those laws may be amended. Any of those new laws or interpretations may take effect retroactively and could adversely affect us or you as a shareholder. Recently enacted legislation reduces individual tax rates applicable to certain corporate dividends. REIT dividends generally would not be eligible for reduced rates (other than dividends from LSAC and other taxable REIT subsidiaries that are distributed by us) because a REIT's income generally is not subject to corporate level tax. As a result, investment in non-REIT corporations may be relatively more attractive than investment in REITs. This could adversely affect the market price of our shares.

Restrictions on a potential change of control. Our board of trustees is authorized by our declaration of trust to establish and issue one or more series of preferred shares without shareholder approval. As of the date of this Annual Report, we had outstanding 3,160,000 Series B Cumulative Redeemable Preferred Shares that we issued in June 2003 and 3,100,000 Series C Cumulative Convertible Preferred Shares that we issued in December 2004 and January 2005. Both our Series B and Series C Preferred Shares include provisions that may deter a change of control of us. The establishment and issuance of shares of our existing series of preferred shares or a future series of preferred shares could make more difficult a change of control of us.

In addition, we have entered into employment agreements with six of our executive officers which provide that, upon the occurrence of a change in control of us (including a change in ownership of more than 50% of the total combined voting power of our outstanding securities, the sale of all or substantially all of our assets, dissolution of our company, the acquisition, except from us, of 20% or more of our voting shares or a change in the majority of our board of trustees), those executive officers would be entitled to severance benefits based on their current annual base salaries and recent annual bonuses, as defined in the employment agreements. The provisions of these agreements could deter a change of control of us.

Our board of trustees may change our investment policy without shareholders' approval. Subject to our fundamental investment policy to maintain our qualification as a REIT, our board of trustees will determine our investment and financing policies, our growth strategy and our debt, capitalization, distribution, acquisition, disposition and operating policies.

Our board of trustees may revise or amend these strategies and policies at any time without a vote by our shareholders. Accordingly, our shareholders' control over changes in our strategies and policies is limited to the election of trustees, and changes made by our board of trustees may not serve the interests of our shareholders and could adversely affect our financial condition or results of operations, including our ability to distribute cash to shareholders or qualify as a REIT.

Item 1B. Unresolved Staff Comments

There are no unresolved written comments that were received from the SEC staff 180 days or more before the end of the Company's fiscal year relating to the Company's periodic or current reports under the Securities Exchange Act of 1934.

Table of Contents**Item 2. Properties****Real Estate Portfolio**

General. As of December 31, 2005, the Company owned or had interests in approximately 40.2 million square feet of rentable space in 189 office, industrial and retail properties. As of December 31, 2005, the Company's properties were 98.3% leased based upon net rentable square feet. As of December 31, 2005, the number, percentage of trailing 12 month base rent (including base rent from properties sold through date of sale, properties held for sale and the Company's proportionate share of non-consolidated entities) and square footage mix of the Company's portfolio is as follows:

	Number	Base Rent	Square Footage
Office	107	65.6%	41.8%
Industrial	59	29.7	53.4
Retail	23	4.7	4.8
	189	100.0%	100.0%

The Company's properties are generally subject to net leases; however, in certain leases the Company is responsible for roof and structural repairs. In such situations the Company performs annual inspections of the properties. Seventeen of the Company's properties (including non-consolidated entities) are subject to leases in which the landlord is responsible for a portion of the real estate taxes, utilities and general maintenance. The Company is responsible for all operating expenses of any vacant properties. As of December 31, 2005, the Company had three completely vacant properties (Milpitas, California, Dallas, Texas and Phoenix, Arizona).

The Company's tenants represent a variety of industries, including general retailing, finance and insurance, energy, transportation and logistics, automotive, technology, telecommunications and defense. For the year ended December 31, 2005, base rent, including base rent earned by non-consolidated entities, from properties held for sale, and for properties sold through date of sale, were earned from 137 tenants in 20 different industries.

Tenant Leases. A substantial portion of the Company's income consists of base rent under long-term leases. As of December 31, 2005, of the 189 properties, three are completely vacant and the remaining are subject to 202 leases.

Ground Leases. The Company has 19 properties (including three properties owned by non-consolidated entities) that are subject to long-term ground leases where a third party owns and has leased the underlying land to the Company. In each of these situations the rental payments made to the landowner are passed on to the Company's tenant. Three of these properties are economically owned through the holding of industrial revenue bonds and as such neither ground lease payments nor bond interest payments are made or received, respectively. For eight of the properties the Company has a purchase option. At the end of these long-term ground leases, unless extended or the purchase option exercised, the land together with all improvements thereon reverts to the landowner. In addition, the Company has one property in which a portion of the land, on which a portion of the parking lot is located, is subject to a ground lease. At expiration of the ground lease only that portion of the parking lot reverts to the landowner. These ground leases, including renewal options, expire at various dates from 2026 through 2082.

Leverage. The Company generally uses fixed rate, non-recourse mortgages to partially fund the acquisition of real estate. As of December 31, 2005, the Company had outstanding mortgages, including mortgages classified as discontinued operations, of \$1.2 billion with a weighted average interest rate of 6.0%.

Table of Contents

Table Regarding Real Estate Holdings

The table on the following pages sets forth certain information relating to the Company's real property portfolio, including non-consolidated properties, as of December 31, 2005. All the properties listed have been fully leased by tenants for the last five years, or since the date of purchase by the Company or its non-consolidated entities if less than five years, with the exception of the properties located in Philadelphia, Pennsylvania, Dallas, Texas, Milpitas, California, Hebron, Kentucky, Memphis, Tennessee, San Francisco, California and two properties located in Phoenix, Arizona. The Philadelphia, Pennsylvania has 2,842 square feet of vacant space since the Company's acquisition in 2005. During the last five years, (1) the Dallas, Texas property has been vacant since December 31, 2004, (2) the Milpitas, California property has been vacant since December 9, 2005, (3) the Hebron, Kentucky property has been vacant since April 2004 (except that 21,542 square feet was leased during 2005) and (4) the tenant at the Memphis, Tennessee property entered into a lease extension in 2005 leaving 34,359 square feet of rentable space vacant. The San Francisco, California property was acquired by a non-consolidated entity in 2005 and has 20,006 square feet vacant since the acquisition. One of the Phoenix, Arizona properties has been vacant since December 2003 and the other Phoenix, Arizona property has 49,799 square feet vacant at December 31, 2005.

- (Z) Tenant leases three separate buildings. The leases expire in 2007 and 2010.

Table of Contents**Item 3. *Legal Proceedings***

From time to time, the Company and/or its subsidiaries are involved in legal proceedings arising in the ordinary course of its business. In management's opinion, after consultation with legal counsel, the outcome of such matters is not expected to have a material adverse effect on the Company's ownership, financial condition, management or operation of its properties.

Item 4. *Submission of Matters to a Vote of Security Holders*

None.

Item 4A. *Executive Officers and Trustees of the Registrant****Executive Officers and Trustees***

The following sets forth certain information relating to the executive officers and trustees of the Company:

Name	Business Experience
<p>E. Robert Roskind Age 60</p>	<p>Mr. Roskind has served as the Chairman of the Board of Trustees since October 1993 and was Co-Chief Executive Officer of the Company until January 2003. He founded The LCP Group, L.P., a real estate advisory firm, in 1973 and has been its Chairman since 1976. Mr. Roskind spends approximately 25% of his business time on the affairs of the LCP Group L.P. and its subsidiaries; however, Mr. Roskind prioritizes his business time to address the needs of the Company ahead of the LCP Group L.P. The LCP Group, L.P. has been the general partner of various limited partnerships with which the Company has had prior dealings. Mr. Roskind received his B.S. in 1966 from the University of Pennsylvania and is a 1969 Harlan Fiske Stone Graduate of the Columbia Law School.</p>
<p>Richard J. Rouse Age 60</p>	<p>Mr. Rouse has served as Chief Investment Officer of the Company since January 2003 and as a trustee of the Company since October 1993. He served as President of the Company from October 1993 to April 1996, was Co-Chief Executive Officer of the Company from October 1993 until January 2003, and since April 1996 has served as Vice Chairman of the Board of Trustees. Mr. Rouse graduated from Michigan State University in 1968 and received his M.B.A. in 1970 from the Wharton School of Finance and Commerce of the University of Pennsylvania.</p>
<p>T. Wilson Eglin Age 41</p>	<p>Mr. Eglin has served as Chief Executive Officer of the Company since January 2003, Chief Operating Officer since October 1993, President since April 1996 and as a trustee since May 1994. He served as Executive Vice President from October 1993 to April 1996. Mr. Eglin received his B.A. from Connecticut College in 1986.</p>
<p>Patrick Carroll Age 42</p>	<p>Mr. Carroll has served as Chief Financial Officer of the Company since May 1998, Treasurer since January 1999 and Executive Vice President since January 2003. Prior to joining the Company, Mr. Carroll was, from 1993 to 1998, a Senior Manager in the real estate practice of Coopers & Lybrand L.L.P., a public accounting firm that was one of the predecessors of Pricewaterhouse Coopers LLP.</p>

Mr. Carroll received his B.B.A. from Hofstra University in 1986, his M.S. in Taxation from C.W. Post in 1995, and is a Certified Public Accountant.

Table of Contents

Name	Business Experience
<p>John B. Vander Zwaag Age 48</p>	<p>Mr. Vander Zwaag has been employed by the Company since May 2003 and currently is Executive Vice President. From 1982 to 1992, he was employed by The LCP Group serving as Director of Acquisitions from 1987 to 1992. Between his employment by The LCP Group and the Company, Mr. Vander Zwaag was managing director of Chesterton Binswanger Capital Advisors (1992 – 1997) and Managing Director with Cohen Financial (1997 – 2003). He received his B.A. from Amherst College in 1979 and his M.B.A. from Columbia University in 1982.</p>
<p>Paul R. Wood Age 45</p>	<p>Mr. Wood has served as Vice President, Chief Accounting Officer and Secretary of the Company since October 1993. Mr. Wood received his B.B.A. from Adelphi University in 1982 and is a Certified Public Accountant.</p>
<p>Geoffrey Dohrmann Age 55</p>	<p>Mr. Dohrmann has served as a trustee since August 2000. Mr. Dohrmann co-founded Institutional Real Estate, Inc., a real estate-oriented publishing and consulting company in 1987 and is currently its Chairman and Chief Executive Officer. Mr. Dohrmann also belongs to the advisory boards for the National Real Estate Index, The Journal of Real Estate Portfolio Management and Center for Real Estate Enterprise Management. He is also a fellow of the Homer Hoyt Institute and holds the Counselors of Real Estate (CRE) designation.</p>
<p>Carl D. Glickman Age 79</p>	<p>Mr. Glickman has served as a trustee since May 1994. He has been President of The Glickman Organization, a real estate development and management firm, since 1953. He is on the Board of Directors of Bear Stearns Companies, Inc.</p>
<p>James Grosfeld Age 68</p>	<p>Mr. Grosfeld has served as a trustee since November 2003. He also serves as a Director of Copart, Inc., Ramco-Gershenson Properties Trust and BlackRock, Inc. He has served on the Advisory Board of the Federal National Mortgage Association and as Director of Interstate Bakeries Corporation and Addington Resources. He was Chairman and Chief Executive Officer of Pulte Home Corporation from 1974 to 1990. He received his B.A. from Amherst College in 1959 and L.L.B. from Columbia Law School in 1962.</p>
<p>Kevin W. Lynch Age 53</p>	<p>Mr. Lynch has served as a trustee from May 1996 to May 2000 and again from May 2003 to the present. Mr. Lynch co-founded and has been a Principal of The Townsend Group since 1983. The Townsend Group is the largest real estate consulting firm to institutional investors in the United States. Mr. Lynch is a frequent industry speaker and member of the Pension Real Estate Association and the National Council of Real Estate Investment Fiduciaries. He currently sits on the Real Estate Advisory Board for New York University and is a Director</p>

While the Company intends to continue paying regular quarterly dividends to holders of its common shares, future dividend declarations will be at the discretion of the Board of Trustees and will depend on the actual cash flow of the Company, its financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Code and such other factors as the Board of Trustees deems relevant. The actual cash flow available to pay dividends will be affected by a number of factors, including the revenues received from rental properties, the operating expenses of the Company, the interest and principal payments required under various borrowing agreements, the ability of lessees to meet their obligations to the Company and any unanticipated capital expenditures.

The various instruments governing the Company's unsecured revolving credit facility impose certain restrictions on the Company with regard to dividends and incurring additional debt obligations. See Management's Discussion and Analysis of Financial Condition and Results of Operations and Note 7 of the Notes to Consolidated Financial Statements included in this Annual Report on Form 10-K.

The Company does not believe that the financial covenants contained in its unsecured revolving credit facility and secured indebtedness will have any adverse impact on the Company's ability to pay dividends in the normal course of business to its common and preferred shareholders or to distribute amounts necessary to maintain its qualifications as a REIT.

The Company maintains a dividend reinvestment program pursuant to which common shareholders and operating partnership limited partners may elect to automatically reinvest their dividends and distributions to purchase common shares of the Company at a 5% discount to the market price and free of commissions and other charges. The Company may, from time to time, either repurchase common shares in the open market, or issue new common shares, for the purpose of fulfilling its obligations under the dividend reinvestment program. To date, none of the common shares issued under this program were purchased on the open market.

(1) The Company believes that Funds From Operations (FFO) enhances an investor's understanding of the Company's financial condition, results of operations and cash flows. The Company believes that FFO

37

Table of Contents

is an appropriate, but limited, measure of the performance of an equity REIT. FFO is defined in the April 2002 White Paper, issued by the National Association of Real Estate Investment Trusts, Inc. (NAREIT) as net income (or loss), computed in accordance with generally accepted accounting principles (GAAP), excluding gains (or losses) from sales of property, plus real estate depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. The Company included in the calculation of FFO the dilutive effect of the deemed conversion of (1) its outstanding exchangeable notes (in 2001) which were redeemed by the Company in 2001, (2) its convertible OP units, and (3) the Series C Cumulative Convertible Preferred Shares in 2005 and 2004. FFO should not be considered an alternative to net income as an indicator of operating performance or to cash flows from operating activities as determined in accordance with GAAP, or as a measure of liquidity to other consolidated income or cash flow statement data as determined in accordance with GAAP.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**General**

The Company, which has elected to qualify as a real estate investment trust under the Code, acquires and manages net leased commercial properties throughout the United States. The Company believes it has operated as a REIT since October 1993. As of December 31, 2005, the Company owned or had interests in 189 real estate properties encompassing 40.2 million rentable square feet. During 2005, the Company purchased 43 properties, including non-consolidated investments, for a capitalized cost of \$1.1 billion.

During 2005, the Company sold eight properties, including one in a non-consolidated entity, to unrelated third parties for a net sales price of \$74.7 million. In addition, the Company contributed seven properties to its various non-consolidated entities for \$124.7 million which approximated original cost.

As of December 31, 2005, the Company, including its non-consolidated entities, leased properties to 137 tenants in 20 different industries. The Company's revenues and cash flows are generated predominantly from property rent receipts. Growth in revenue and cash flows is directly correlated to the Company's ability to (i) acquire income producing properties and (ii) to release properties that are vacant, or may become vacant at favorable rental rates. The challenge the Company faces in purchasing properties is finding investments that will provide an attractive return without compromising the Company's real estate underwriting criteria. The Company believes it has access to acquisition opportunities due to its relationship with developers, brokers, corporate users and sellers.

The Company has experienced minimal lease turnover in the recent past, and accordingly, minimal capital expenditures. There can be no assurance that this will continue. Through 2010, the Company, including its non-consolidated entities, has 57 leases expiring which generate approximately \$72.0 million in base rent, including the Company's proportionate share of base rent from properties owned by non-consolidated entities. Releasing these properties and properties currently vacant at favorable effective rates is the primary focus of the Company.

The primary risks associated with re-tenanting properties are (i) the period of time required to find a new tenant, (ii) whether rental rates will be lower than previously received, (iii) the significant leasing costs such as commissions and tenant improvement allowances and (iv) the payment of operating costs such as real estate taxes and insurance while there is no offsetting revenue. The Company addresses these risks by contacting tenants well in advance of lease maturity to get an understanding of their occupancy needs, contacting local brokers to determine the depth of the rental market and retaining local expertise to assist in the re-tenanting of a property. As part of the acquisition underwriting process, the Company focuses on buying general purpose real estate which can be leased to other tenants without significant modification to the properties. No assurance can be given that once a property becomes vacant it will subsequently be re-let.

During 2004, the Company sold eight properties to unrelated parties for a net sales price of \$36.7 million. In addition, the Company contributed eight properties to its various non-consolidated entity programs for \$197.0 million, which approximated carrying costs. In addition, the Company was reimbursed for certain holding costs by the partners in the respective venture. During 2003, the Company sold four properties for

Table of Contents

\$11.1 million to unrelated parties, which resulted in an aggregate gain of approximately \$2.2 million. During 2003, the Company contributed two properties to LION for \$23.8 million, which approximated carrying costs.

Inflation

Certain of the Company's long-term leases on its properties contain provisions to mitigate the adverse impact of inflation on its operating results. Such provisions include clauses entitling the Company to receive (i) scheduled fixed base rent increases and (ii) base rent increases based upon the consumer price index. In addition, a majority of the Company's leases require tenants to pay operating expenses, including maintenance, real estate taxes, insurance and utilities, thereby reducing our exposure to increases in costs and operating expenses. In addition, the Company's leases are structured in a way that minimizes its responsibility for capital improvements.

Critical Accounting Policies

The Company's accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States, which require management to make estimates that affect the amounts of revenues, expenses, assets and liabilities reported. The following are critical accounting policies which are important to the portrayal of the Company's financial condition and results of operations and which require some of management's most difficult, subjective and complex judgments. The accounting for these matters involves the making of estimates based on current facts, circumstances and assumptions which could change in a manner that would materially affect management's future estimates with respect to such matters. Accordingly, future reported financial conditions and results could differ materially from financial conditions and results reported based on management's current estimates.

Purchase Accounting for Acquisition of Real Estate. The Company allocates the purchase price of real estate acquired in accordance with Statement of Financial Accounting Standards No. 141, Business Combinations (SFAS 141). SFAS 141 requires that the fair value of the real estate acquired, which includes the impact of mark-to-market adjustments for assumed mortgage debt relating to property acquisitions, is allocated to the acquired tangible assets, consisting of land, building and improvements, and identified intangible assets and liabilities, consisting of the value of above-market and below-market leases, other value of in-place leases and value of tenant relationships, based in each case on their fair values.

The fair value of the tangible assets, which includes land, building and improvements, and fixtures and equipment, of an acquired property is determined by valuing the property as if it were vacant, and the as-if-vacant value is then allocated to the tangible assets based on management's determination of relative fair values of these assets. Factors considered by management in performing these analyses include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rental revenue during the expected lease-up periods based on current market demand. Management also estimates costs to execute similar leases including leasing commissions.

In allocating the fair value of the identified intangible assets and liabilities of an acquired property, above-market and below-market in-place lease values are recorded based on the difference between the current in-place lease rent and a management estimate of current market rents. Below-market lease intangibles are recorded as part of deferred revenue and amortized into rental revenue over the non-cancelable periods of the respective leases. Above-market leases are recorded as part of intangible assets and amortized as a direct charge against rental revenue over the non-cancelable portion of the respective leases.

The aggregate value of other acquired intangible assets, consisting of in-place leases and tenant relationships, is measured by the excess of (i) the purchase price paid for a property over (ii) the estimated fair value of the property as if vacant, determined as set forth above. This aggregate value is allocated between in-place lease values and tenant relationships based on management's evaluation of the specific characteristics of each tenant's lease. The value of in-place leases and customer relationships are amortized to expense over the remaining non-cancelable periods of the respective leases.

Table of Contents

Revenue Recognition. The Company recognizes revenue in accordance with Statement of Financial Accounting Standards No. 13 Accounting for Leases, as amended (SFAS 13). SFAS 13 requires that revenue be recognized on a straight-line basis over the term of the lease unless another systematic and rational basis is more representative of the time pattern in which the use benefit is derived from the leased property. Renewal options in leases with rental terms that are lower than those in the primary term are excluded from the calculation of straight line rent, if they do not meet the criteria of a bargain renewal option. In those instances in which the Company funds tenant improvements and the improvements are deemed to be owned by the Company, revenue recognition will commence when the improvements are substantially completed and possession or control of the space is turned over to the tenant. When the Company determines that the tenant allowances are lease incentives, the Company commences revenue recognition when possession or control of the space is turned over to the tenant for tenant work to begin.

Gains on sales of real estate are recognized pursuant to the provisions of SFAS No. 66 Accounting for Sales of Real Estate, as amended (SFAS 66). The specific timing of the sale is measured against various criteria in SFAS 66 related to the terms of the transactions and any continuing involvement in the form of management or financial assistance associated with the properties. If the sales criteria are not met, the gain is deferred and the finance, installment or cost recovery method, as appropriate, is applied until the sales criteria are met.

Accounts Receivable. The Company continuously monitors collections from its tenants and would make a provision for estimated losses based upon historical experience and any specific tenant collection issues that the Company has identified. As of December 31, 2005 and 2004, the Company did not record an allowance for doubtful accounts.

Impairment of Real Estate. The Company evaluates the carrying value of all real estate held when a triggering event under Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, as amended (SFAS 144) has occurred to determine if an impairment has occurred which would require the recognition of a loss. The evaluation includes reviewing anticipated cash flows of the property, based on current leases in place, and an estimate of what lease rents will be if the property is vacant coupled with an estimate of proceeds to be realized upon sale. However, estimating market lease rents and future sale proceeds is highly subjective and such estimates could differ materially from actual results.

Depreciation is determined by the straight-line method over the remaining estimated economic useful lives of the properties.

Tax Status. The Company has made an election to qualify, and believes it is operating so as to qualify, as a REIT for federal income tax purposes. Accordingly, the Company generally will not be subject to federal income tax, provided that distributions to its shareholders equal at least the amount of its REIT taxable income as defined under Sections 856 through 860 of the Code.

The Company is now permitted to participate in certain activities from which it was previously precluded in order to maintain its qualification as a REIT, so long as these activities are conducted in entities which elect to be treated as taxable subsidiaries under the Code. LRA, Lexington Contributions Inc. (LCI) and LSAC are taxable REIT subsidiaries. As such, the Company is subject to federal and state income taxes on the income it receives from these activities.

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

Properties Held For Sale. The Company accounts for properties held for sale in accordance with SFAS 144. SFAS 144 requires that the assets and liabilities of properties that meet various criteria be presented separately in the statement of financial position, with assets and liabilities being separately stated.

Table of Contents

The operating results of these properties are reflected as discontinued operations in the income statement. Properties that do not meet the held for sale criteria of SFAS 144 are accounted for as operating properties.

Basis of Consolidation. The Company determines whether an entity for which it holds an interest should be consolidated pursuant to Financial Accounting Standards Board Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46R). If the entity is not a variable interest entity, and the Company controls the entity's voting shares or similar rights, the entity is consolidated. FIN 46R requires the Company to evaluate whether it has a controlling financial interest in an entity through means other than voting rights.

Liquidity and Capital Resources

Since becoming a public company, the Company's principal sources of capital for growth have been the public and private equity markets, selective secured indebtedness, its unsecured revolving credit facility, issuance of OP Units and undistributed funds from operations. The Company expects to continue to have access to and use these sources in the future; however, there are factors that may have a material adverse effect on the Company's access to capital sources. The Company's ability to incur additional debt to fund acquisitions is dependent upon its existing leverage, the value of the assets the Company is attempting to leverage and general economic conditions which may be outside of management's influence.

During 2005, the Company replaced its \$100 million unsecured revolving credit facility with a new \$200 million unsecured revolving credit facility which bears interest at a rate of LIBOR plus 120-170 basis points depending on the leverage (as defined) of the Company and matures in June 2008. The credit facility contains customary financial covenants including restrictions on the level of indebtedness, amount of variable rate debt to be borrowed and net worth maintenance provisions. As of December 31, 2005, the Company was in compliance with all covenants, no borrowings were outstanding on the facility, \$198.5 million was available to be borrowed and \$1.5 million in letters of credit were outstanding.

During 2005 and 2004, the Company completed common share offerings of 2.5 million and 6.9 million shares, respectively, raising aggregate net proceeds of \$60.7 million and \$144.0 million, respectively. During 2005, the Company issued 400,000 cumulative convertible preferred shares, at \$50 per share and a dividend rate of 6.50%, raising net proceeds of \$19.5 million. During 2004, the Company issued 2.7 million cumulative convertible preferred shares at \$50 per share and a dividend rate of 6.50%, raising net proceeds of \$131.1 million. Currently these 3.1 million preferred shares are convertible into 5.8 million common shares.

The Company has made equity commitments of \$192.1 million to its various joint venture programs, of which \$27.7 million is unfunded as of December 31, 2005. This amount will be funded as investments are made. In addition, the joint venture agreements provide the partners, under certain circumstances, the ability to put their interests to the Company for cash or common shares. Exercise of these put rights could require the Company to use its resources to purchase these assets instead of more favorable investment opportunities. As of December 31, 2005, the aggregate contingent commitment is approximately \$443.9 million. This assumes the Company issues common shares to settle the put and that the Company does not use its ability to block certain properties to be put to it.

Dividends. In connection with its intention to continue to qualify as a REIT for federal income tax purposes, the Company expects to continue paying regular dividends to its shareholders. These dividends are expected to be paid from operating cash flows and/or from other sources. Since cash used to pay dividends reduces amounts available for capital investments, the Company generally intends to maintain a conservative dividend payout ratio as a percentage of FFO, reserving such amounts as it considers necessary for the maintenance or expansion of properties in its portfolio, debt reduction, the acquisition of interests in new properties as suitable opportunities arise, and such other factors as the Board of Trustees considers appropriate.

Dividends paid to common shareholders increased to \$72.6 million in 2005, compared to \$65.1 million in 2004 and \$45.8 million in 2003. Preferred dividends paid were \$14.5 million, \$6.4 million and \$1.8 million in 2005, 2004 and 2003, respectively.

Table of Contents

Although the Company receives the majority of its base rent payments on a monthly basis, it intends to continue paying dividends quarterly. Amounts accumulated in advance of each quarterly distribution are invested by the Company in short-term money market or other suitable instruments.

The Company believes that cash flows from operations will continue to provide adequate capital to fund its operating and administrative expenses, regular debt service obligations and all dividend payments in accordance with REIT requirements in both the short-term and long-term. In addition, the Company anticipates that cash on hand, borrowings under its unsecured revolving credit facility, issuance of equity and debt, as well as other alternatives, will provide the necessary capital required by the Company. Cash flows from operations as reported in the Consolidated Statements of Cash Flows increased to \$112.6 million for 2005 from \$90.9 million for 2004 and \$71.8 million for 2003.

Net cash used in investing activities totaled \$650.9 million in 2005, \$202.5 million in 2004 and \$298.6 million in 2003. Cash used in investing activities related primarily to investments in real estate properties and joint ventures. Cash provided by investing activities related primarily to collection of notes receivable and proceeds from the sale of properties. Therefore, the fluctuation in investing activities relates primarily to the timing of investments and dispositions.

Net cash provided by financing activities totaled \$444.9 million in 2005, \$242.7 million in 2004 and \$229.0 million in 2003. Cash provided by financing activities during each year was primarily attributable to proceeds from equity offerings and non-recourse mortgages offset by dividend and distribution payments and debt payments.

UPREIT Structure. The Company's UPREIT structure permits the Company to effect acquisitions by issuing to a property owner, as a form of consideration in exchange for the property, OP Units in operating partnerships controlled by the Company. All outstanding OP Units are redeemable at certain times for common shares on a one-for-one basis and substantially all outstanding OP Units require the Company to pay quarterly distributions to the holders of such OP Units. The Company accounts for outstanding OP Units in a manner similar to a minority interest holder. The number of common shares that will be outstanding in the future should be expected to increase, and minority interest expense should be expected to decrease, as such OP Units are redeemed for common shares.

The following table provides certain information with respect to such OP Units as of December 31, 2005 (assuming the Company's annualized dividend rate remains at the current \$1.46 per share).

Redeemable for common shares:	Total Number of OP Units	Affiliate OP Units	Current Annualized Per OP Unit Distribution	Total Current Annualized Distribution (\$000)
At any time	3,476,236	1,404,015	\$ 1.46	\$ 5,075
At any time	1,199,652	65,874	1.08	1,296

Affiliate OP Units, which are included in total OP Units, represent OP Units held by the Chairman of the Company, E. Robert Roskind (including his affiliates) and the Vice Chairman and Chief Investment Officer of the

Company, Richard J. Rouse.

Table of Contents**Financing**

Revolving Credit Facility. The Company's \$200.0 million unsecured revolving credit facility, which expires June 2008, bears interest at 120-170 basis points over LIBOR depending on the leverage (as defined) of the Company. The credit facility contains customary financial covenants including restrictions on the level of indebtedness, amount of variable debt to be borrowed and net worth maintenance provisions. As of December 31, 2005, the Company was in compliance with all covenants, no borrowings were outstanding and \$198.5 million was available to be borrowed. The Company has four letters of credit outstanding under the facility aggregating \$1.5 million issued in accordance with provisions in certain non-recourse mortgages.

Debt Service Requirements. The Company's principal liquidity needs are the payment of interest and principal on outstanding indebtedness. As of December 31, 2005, a total of 98 of the Company's 126 consolidated properties were subject to outstanding mortgages which had an aggregate principal amount of \$1.2 billion, including properties included in discontinued operations. As of December 31, 2005, the weighted average interest rate on the Company's outstanding debt was approximately 6.0%. The scheduled principal amortization payments for the next five years are as follows: \$27.8 million in 2006, \$35.7 million in 2007, \$30.5 million in 2008, \$31.6 million in 2009 and \$30.5 million in 2010. Approximate balloon payment amounts, having a weighted average interest rate of 7.3%, due the next five years are as follows: \$11.9 million in 2006, \$0 in 2007, \$59.0 million in 2008, \$47.7 million in 2009 and \$56.6 million in 2010. The ability of the Company to make such balloon payments will depend upon its ability to refinance the mortgage related thereto, sell the related property, have available amounts under its unsecured revolving credit facility or access other capital. The ability of the Company to accomplish such goals will be affected by numerous economic factors affecting the real estate industry, including the availability and cost of mortgage debt at the time, the Company's equity in the mortgaged properties, the financial condition of the Company, the operating history of the mortgaged properties, the then current tax laws and the general national, regional and local economic conditions.

The Company expects to continue to use property specific, non-recourse mortgages as it believes that by properly matching a debt obligation, including the balloon maturity risk, with a lease expiration the Company's cash-on-cash returns increase and the exposure to residual valuation risk is reduced. In December 2005, the Company informed the lender for its Milpitas, California property that it will no longer make debt service payments and its intention is to complete a deed-in-lieu of foreclosure to satisfy the mortgage. The Company recorded a \$12.1 million impairment charge in 2005 relating to this property.

Other

Lease Obligations. Since the Company's tenants generally bear all or substantially all of the cost of property operations, maintenance and repairs, the Company does not anticipate significant needs for cash for these costs. For seventeen of the properties, the Company has a level of property operating expense responsibility. The Company generally funds property expansions with additional secured borrowings, the repayment of which is funded out of rental increases under the leases covering the expanded properties. To the extent there is a vacancy in a property, the Company would be obligated for all operating expenses, including real estate taxes and insurance. As of December 31, 2005, three properties were fully vacant.

The Company's tenants pay the rental obligations on ground leases either directly to the fee holder or to the Company as increased rent. The annual ground lease rental payment obligations for each of the next five years is \$1.2 million in 2006, \$1.2 million in 2007, \$1.2 million in 2008, \$1.2 million in 2009 and \$1.0 million in 2010. These amounts do not include payments due under bond leases in which a right of offset exists between the lease obligation of the Company and the debt service due to the Company.

Table of Contents*Step Down Renewals*

The leases on the following properties contain renewal options, exercisable by the tenant, with rents per square foot less than that paid in 2005. The Company does not believe that any of these renewal options are bargain renewal options, and, accordingly, the renewal periods are excluded from straight-line rent calculations.

Property Location	Tenant (Guarantor)	Rentable Square Feet	Annual Rent per Net Rentable Square Foot 2005	Renewal Option Term and Renewal Net Rent per Square Foot
295 Chipeta Way Salt Lake City, UT	Northwest Pipeline Corp.	295,000	\$ 27.66	10/01/09 - 09/15/18: \$11.73 plus base cost component (\$.06) adjusted by CPI, plus (\$.03)

Table of Contents

Contractual Obligations. The following summarizes the Company's principal contractual obligations as of December 31, 2005 (\$000 s):

	2006	2007	2008	2009	2010	2011 and thereafter	Total(3)
Mortgages payable - normal amortization	\$ 27,804	\$ 35,657	\$ 30,481	\$ 31,621	\$ 30,517	\$ 160,733	\$ 316,813
Mortgages payable - balloon maturities	11,870		58,969	47,681	56,558	678,669	853,747
Purchase obligations	48,785						48,785
Credit facility(2)							
Operating lease obligations(1)	1,856	1,851	1,823	1,225	995	12,140	19,890
	\$ 90,315	\$ 37,508	\$ 91,273	\$ 80,527	\$ 88,070	\$ 851,542	\$ 1,239,235

- (1) Includes ground lease payments and office rent. Amounts disclosed through 2008 include rent for the Company's principal executive office which is fixed through 2008 and adjusted to fair market value as determined at January 2009. Therefore, the amounts for 2009 and thereafter do not include principal executive office rent.
- (2) The Company has \$1,521 in outstanding letters of credit.
- (3) The Company has approximately \$27,700 of unfunded equity commitments to joint ventures. In addition, the joint venture agreements provide the partners, under certain circumstances, the ability to put their interest to the Company for cash or common shares. The aggregate contingent commitment as of December 31, 2005 is approximately \$443,882 to be issued in common shares.

Capital Expenditures. Due to the net lease structure, the Company does not incur significant expenditures in the ordinary course of business to maintain its properties. However, as leases expire, the Company expects to incur costs in extending the existing tenant leases or re-tenanting the properties. The amounts of these expenditures can vary significantly depending on tenant negotiations, market conditions and rental rates. These expenditures are expected to be funded from operating cash flows or borrowings on the unsecured revolving credit facility. As of December 31, 2005, the Company had entered into binding letters of intent to purchase two properties upon completion of (i) construction and commencement of rent from the tenants and/or (ii) the seller fulfilling its contractual obligation concerning certain deliverables. As of December 31, 2005 the aggregate estimated obligation was \$48.8 million.

Shares Repurchase. In September 1998, the Company's Board of Trustees approved a funding limit for the repurchase of 1.0 million common shares/OP Units, and authorized any repurchase transactions within that limit. In November 1998, the Company's Board of Trustees approved an additional 1.0 million common shares/OP Units for repurchase, thereby increasing the funding limit to 2.0 million common shares/OP Units available for repurchase. From September 1998 to March 2005, the Company has repurchased approximately 1.4 million common shares/OP Units at an average price of \$10.62 per share/OP Unit. In November 2005, the Company's Board of Trustees increased the remaining amount of common shares/OP Units eligible for repurchase, so that an aggregate of 2.0 million common shares/OP Units are available for repurchase under the Company's share repurchase program. No common share/OP Unit repurchases have been made under this increased share repurchase program.

Comparison of 2005 to 2004

Changes in the results of operations for the Company are primarily due to the growth of its portfolio and costs associated with such growth. Of the increase in total gross revenues in 2005 of \$53.8 million, \$47.8 million is attributable to increases in rental revenue. The remaining \$6.0 million increase in gross revenues in 2005 was attributable to an increase in tenant reimbursements of \$5.5 million and a \$0.5 million increase in advisory fees. The increase in interest and amortization expense of \$20.2 million is due to increased leverage incurred relating to acquisitions and has been partially offset by interest savings resulting from scheduled principal amortization payments, lower interest rates and mortgage satisfactions. The increase in

Table of Contents

depreciation and amortization of \$32.0 million is due primarily to the growth in real estate and intangibles due to property acquisitions. The Company's general and administrative expenses increased by \$3.7 million primarily due to greater professional service fees (\$0.4 million), personnel costs (\$2.0 million), terminated deal costs (\$0.3 million), technology costs (\$0.3 million), insurance (\$0.2 million) and rent (\$0.2 million). The increase in property operating expenses of \$12.7 million is due primarily to incurring property level operating expenses for properties in which the Company has operating expense responsibility and an increase in vacancy. Debt satisfaction charges decreased by \$4.5 million due to the payoff of certain mortgages in 2005 which resulted in a net gain. Impairment charges increased by \$8.5 million due to an impairment of one property in 2005 of \$12.1 million compared to an impairment charge in 2004 aggregating \$3.6 million. The impairment charge in 2005 was recorded when the Company decided that it would no longer continue making debt service payments on a mortgage encumbering a property and would deliver the property to the lender as a deed in lieu of foreclosure to satisfy the mortgage. The Company incurred a \$2.9 million write-off of assets relating to the bankruptcy of a tenant in its Dallas, Texas property in 2004. Non-operating income decreased \$1.8 million primarily due to the decrease in reimbursement of certain costs from non-consolidated entities and a reduction of interest earned. The provision for income taxes decreased \$1.3 million due to decreased earnings in taxable REIT subsidiaries primarily due to fewer properties held in the taxable REIT subsidiaries. Minority interest expense decreased by \$0.3 million due to the decrease in earnings at the partnership level. Equity in earnings of non-consolidated entities decreased \$1.0 million due to a decrease in net income of non-consolidated entities, related primarily to increased depreciation. Net income decreased primarily due to the impact of items discussed above offset by an increase in total discontinued operations of \$5.0 million. The total discontinued operations income increase was comprised of an increase in gains on sale of properties of \$6.1 million, an increase in debt satisfaction charges of \$0.7 million, a reduction in impairment charges of \$2.0 million and a reduction in income from discontinued operations of \$2.4 million. Net income allocable to common shareholders decreased due to the items discussed above plus an increase in preferred dividends of \$9.5 million resulting from the issuance of preferred shares.

Any increase in net income in future periods will be closely tied to the level of acquisitions made by the Company. Without acquisitions, which in addition to generating rental revenue, generate acquisition, debt placement and asset management fees when such properties are acquired by joint venture or advisory programs, growth in net income is dependent on index adjusted rents, percentage rents, reduced interest expense on amortizing mortgages and by controlling variable overhead costs. However, there are many factors beyond management's control that could offset these items including, without limitation, increased interest rates of debt and tenant monetary defaults.

Comparison of 2004 to 2003

Changes in the results of operations for the Company are primarily due to the growth of its portfolio and costs associated with such growth. Of the increase in total gross revenues in 2004 of \$37.4 million, \$32.7 million is primarily attributable to increases in rental revenue. The remaining \$4.7 million increase in gross revenues in 2004 was attributable to an increase in tenant reimbursements of \$1.2 million and a \$3.5 million increase in advisory fees. The increase in interest and amortization expense of \$10.7 million is due to increased leverage incurred relating to acquisitions and has been partially offset by interest savings resulting from scheduled principal amortization payments, lower interest rates and mortgage satisfactions. The increase in depreciation and amortization of \$12.8 million is due, primarily to the growth in real estate and intangibles due to property acquisitions. The Company's general and administrative expenses increased by \$4.2 million primarily due to greater professional service fees (\$1.2 million), personnel costs (\$1.2 million), severance costs for a former officer (\$0.5 million), trustee fees (\$0.3 million) and investor relations/financial reporting (\$0.2 million). The Company incurred a \$2.9 million write-off of assets relating to the bankruptcy of the tenant in its Dallas, Texas property in 2004. The increase in property operating expenses of \$3.2 million is due primarily to incurring property level operating expenses for properties in which the Company has operating expense responsibility and an increase in vacancy. Debt satisfaction charges decreased by \$7.4 million due to the payoff of certain mortgages in 2003. Non-operating income increased \$1.8 million primarily due to reimbursement of certain costs from non-consolidated entities and greater interest earned. The provision for income taxes increased by \$0.9 million due to increased earnings in taxable REIT subsidiaries. Minority

Table of Contents

interest expense decreased by \$1.0 million due to the decrease in earnings at the partnership level. Equity in earnings of non-consolidated entities increased \$1.5 million due to an increase in assets owned and net income of non-consolidated entities. Net income increased primarily due to the impact of items discussed above plus a \$0.3 million increase in the total discontinued operations income. The total discontinued operations income increase was comprised of an increase in gains on sales of properties of \$3.3 million, an increase in impairment charges of \$2.8 million, a reduction in income from discontinued operations of \$0.3 million and a reduction in debt satisfaction charges of \$0.1 million. Net income allocable to common shareholders increased due to the items discussed above offset by an increase in preferred dividends of \$3.6 million resulting from the issuance of preferred shares in 2004 and 2003.

Environmental Matters. Based upon management's ongoing review of its properties, management is not aware of any environmental condition with respect to any of the Company's properties, which would be reasonably likely to have a material adverse effect on the Company. There can be no assurance, however, that (i) the discovery of environmental conditions, which were previously unknown, (ii) changes in law, (iii) the conduct of tenants or (iv) activities relating to properties in the vicinity of the Company's properties, will not expose the Company to material liability in the future. Changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures or may otherwise adversely affect the operations of the Company's tenants, which would adversely affect the Company's financial condition and results of operations.

Funds From Operations

The Company believes that funds from operations (FFO) enhances an investor's understanding of the Company's financial condition, results of operations and cash flows. The Company believes that FFO is an appropriate, but limited, measure of the performance of an equity REIT. FFO is defined in the April 2002 White Paper, issued by the National Association of Real Estate Investment Trusts, Inc. (NAREIT) as net income (or loss), computed in accordance with generally accepted accounting principles (GAAP), excluding gains (or losses) from sales of property, plus real estate depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. The Company included in the calculation of FFO the dilutive effect of the deemed conversion of its convertible OP Units and Series C Cumulative Convertible Preferred Shares. FFO should not be considered an alternative to net income as an indicator of operating performance or to cash flows from operating activities as determined in accordance with GAAP, or as a measure of liquidity to other consolidated income or cash flow statement data as determined in accordance with GAAP.

The following table reflects the calculation of the Company's FFO and cash flow activities for each of the years in the three year period ended December 31, 2005 (\$000):

	2005	2004	2003
Net income allocable to common shareholders-basic	\$ 16,260	\$ 37,862	\$ 30,257
Depreciation and amortization	71,044	39,894	27,634
Minority interests' share of net income	1,910	2,570	4,039
Amortization of leasing commissions	547	647	812
Joint venture adjustment - depreciation	17,632	7,559	3,951
Preferred dividend - Series C	10,075	585	
Gain on sale of properties	(11,578)	(5,475)	(2,191)
Gain on sale of properties-joint ventures	(1,740)		
Funds From Operations	\$ 104,150	\$ 83,642	\$ 64,502
Cash flows from operating activities	\$ 112,559	\$ 90,860	\$ 71,815
Cash flows used in investing activities	(650,879)	(202,549)	(298,553)
Cash flows from financing activities	444,878	242,723	228,986

Recently Issued Accounting Standards

In May 2003, the FASB issued Statement No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity, as amended, (SFAS 150). SFAS 150 establishes standards for the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. SFAS 150 also includes required disclosures for financial instruments within its scope. For the Company, SFAS 150 was effective for instruments entered into or modified after May 31, 2003 and otherwise was effective as of January 1, 2004, except for mandatorily redeemable financial instruments. SFAS 150 has been deferred indefinitely for certain types of mandatorily redeemable financial instruments. The adoption of the required portions of SFAS 150 had no impact on the Company.

In December 2004, the FASB issued Statement No. 123, (revised 2004) Share-Based Payment (SFAS 123R), which supersedes Accounting Principals Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance. SFAS 123R establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. SFAS 123R focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS 123R requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. The cost will be recognized over the period in which an employee is required to provide services in exchange for the award. SFAS 123R is effective for fiscal years beginning after January 1, 2006, based on new rules issued by the Securities and Exchange Commission. The impact of adopting this statement will result in the elimination of \$11,401 of deferred compensation and additional paid-in-capital from shareholders' equity. The adoption will not have a material impact on the Company's results of operations.

In December 2004, the FASB issued Statement No. 153, Exchange of Non-monetary Assets – an amendment of APB Opinion No. 29 (SFAS 153). The guidance in APB Opinion No. 29, Accounting for Non-monetary Transactions, is based on the principle that exchanges of non-monetary assets should be measured based on the fair value of the assets exchanged. The guidance in that opinion, however, included certain exceptions to that principle. SFAS 153 amends APB Opinion No. 29 to eliminate the exception for non-monetary assets that do not have commercial substance. A non-monetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS 153 is effective for non-monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The impact of adopting this statement did not have a material impact on the Company's financial position or results of operations.

In March 2005, the FASB issued Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations – an Interpretation of SFAS Statement No. 143 (FIN 47). FIN 47 clarifies the timing of liability recognition for legal obligations associated with the retirement of a tangible long-lived asset when the timing and/or method of settlement are conditional on a future event. FIN 47 is effective for fiscal years ending after December 15, 2005. The application of FIN 47 did not have a material impact on the Company's consolidated financial position or results of operations.

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections (SFAS 154) which replaces APB Opinions No. 20 Accounting Changes and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements – An Amendment of APB Opinion No. 28. SFAS 154 provides guidance on the accounting for and reporting of accounting changes and error corrections. It establishes retrospective application as the required method for reporting a change in accounting principle and the reporting of a correction of an error. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The impact of adopting this statement is not expected to have a material impact on the Company's financial position or results of operations.

In June 2005, the FASB ratified the Emerging Issues Task Force's (EITF) consensus on EITF 04-05, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights. EITF 04-05 provides a framework for

Table of Contents

determining whether a general partner controls, and should consolidate, a limited partnership or a similar entity. It was effective after June 29, 2005, for all newly formed limited partnerships and for any pre-existing limited partnerships that modify their partnership agreements after that date. General partners of all other limited partnerships will apply the consensus no later than the beginning of the first reporting period in fiscal years beginning after December 15, 2005. The impact of the adoption of EITF 04-05 is not expected to have a material impact on the Company's financial position or results of operations.

In 2005, the EITF released Issue No. 05-6, Determining the Amortization Period for Leasehold Improvements (EITF 05-6), which clarifies the period over which leasehold improvements should be amortized. EITF 05-6 requires all leasehold improvements to be amortized over the shorter of the useful life of the assets, or the applicable lease term, as defined. The applicable lease term is determined on the date the leasehold improvements are acquired and includes renewal periods for which exercise is reasonably assured. EITF 05-06 was effective for leasehold improvements acquired in reporting periods beginning after June 29, 2005. The impact of the adoption of EITF 05-6 did not have a material impact on the Company's financial position or results of operations.

Off-Balance Sheet Arrangements

Non-Consolidated Real Estate Entities. As of December 31, 2005, the Company has investments in various real estate entities with varying structures. These investments include the Company's 33 1/3% non-controlling interest in Lexington Acquiport Company, LLC; its 25% non-controlling interest in Lexington Acquiport Company II, LLC; its 40% non-controlling interest in Lexington Columbia LLC; its 30% non-controlling interest in Lexington/Lion Venture L.P.; its 30% non-controlling interest in Triple Net Investment Company LLC; its 33 1/3% non-controlling interest in Lexington Durham Limited Partnership; its 32.3% non-controlling interest in Lexington Strategic Asset Corp. and through Oklahoma City, its 40% non-controlling tenancy in common interest in real property. The properties owned by these entities are financed with individual non-recourse mortgage loans. Non-recourse mortgage debt is generally defined as debt whereby the lenders' sole recourse with respect to borrower defaults is limited to the value of the property collateralized by the mortgage. The lender generally does not have recourse against any other assets owned by the borrower or any of the members of the borrower, except for certain specified expectations listed in the particular loan documents. These exceptions generally relate to limited circumstances including breaches of material representations.

The Company invests in entities with third parties to increase portfolio diversification, reduce the amount of equity invested in any one property and to increase returns on equity due to the realization of advisory fees. See footnote 6 to the condensed consolidated financial statements for summary combined balance sheet and income statement data relating to these entities.

In addition, the Company has issued \$1.5 million in letters of credit.

Item 7A. Quantitative and Qualitative Disclosure about Market Risk

The Company's exposure to market risk relates to its debt. As of December 31, 2005 and 2004, the Company's variable rate indebtedness represented 1.0% and 1.8%, respectively, of total mortgages and notes payable. During 2005 and 2004, this variable rate indebtedness had a weighted average interest rate of 6.0% and 3.6%, respectively. Had the weighted average interest rate been 100 basis points higher the Company's net income would have been reduced by \$0.3 million and \$0.3 million in 2005 and 2004, respectively. As of December 31, 2005 and 2004, the Company's fixed rate debt, including discontinued operations, was \$1,158.7 million and \$752.2 million, respectively, which represented 99.0% and 98.2%, respectively, of total long-term indebtedness. The weighted average interest rate as of December 31, 2005 of fixed rate debt was 6.0%, which is approximately 82 basis points higher than the weighted average fixed rate debt obtained by the Company during 2005. The weighted average interest rate as of December 31, 2004 of fixed rate debt was 6.6%. With no fixed rate debt maturing until 2008, the Company believes it has limited market risk exposure to rising interest rates as it relates to its fixed rate debt obligations. However, had the fixed interest rate been higher by 100 basis points, the Company's net income would have been reduced by \$10.3 million and \$6.5 million, for years ended December 31, 2005 and 2004, respectively.

**MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROLS
OVER FINANCIAL REPORTING**

Management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control system was designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation and fair presentation of published financial statements in accordance with U.S. generally accepted accounting principles.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

In assessing the effectiveness of the Company's internal control over financial reporting, management used as guidance the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Based upon the assessment performed, management believes that the Company's internal controls over financial reporting are effective as of December 31, 2005. In addition, KPMG LLP, the Company's independent registered public accounting firm, has issued an unqualified attestation report on management's assessment of the Company's internal controls over financial reporting which is included on page 53.

Report of Independent Registered Public Accounting Firm

The Shareholders

Lexington Corporate Properties Trust:

We have audited management's assessment, included in the accompanying *Management's Annual Report on Internal Controls Over Financial Reporting*, that Lexington Corporate Properties Trust (the Company) maintained effective internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that the Company maintained effective internal control over financial reporting as of December 31, 2005, is fairly stated, in all material respects, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statements and financial statement schedule as listed in the accompanying index, and our report dated March 10, 2006 expressed an unqualified opinion on those consolidated financial statements and financial statement schedule.

Report of Independent Registered Public Accounting Firm

The Shareholders

Lexington Corporate Properties Trust:

We have audited the accompanying consolidated financial statements of Lexington Corporate Properties Trust and subsidiaries (the Company) as listed in the accompanying index. In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule as listed in the accompanying index. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lexington Corporate Properties Trust and subsidiaries as of December 31, 2005 and 2004, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2005, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 10, 2006 expressed an unqualified opinion on management's assessment of, and the effective operation of, internal control over financial reporting.

Notes to Consolidated Financial Statements
(\$000 except per share amounts)**

(1) The Company

Lexington Corporate Properties Trust (the Company) is a self-managed and self-administered Maryland statutory real estate investment trust (REIT) that acquires, owns, and manages a geographically diversified portfolio of net leased office, industrial and retail properties and provides investment advisory and asset management services to institutional investors in the net lease area. As of December 31, 2005, the Company owned or had interests in 189 properties in 39 states. The real properties owned by the Company are generally subject to triple net leases to corporate tenants, however sixteen provide for operating expense stops and one is subject to a modified gross lease. As of December 31, 2004, the Company owned or had interests in 154 properties in 37 states.

The Company believes it has qualified as a REIT under the Internal Revenue Code of 1986, as amended (the Code). Accordingly, the Company will not be subject to federal income tax, provided that distributions to its shareholders equal at least the amount of its REIT taxable income as defined under the Code. The Company is permitted to participate in certain activities from which it was previously precluded in order to maintain its qualification as a REIT, so long as these activities are conducted in entities which elect to be treated as taxable REIT subsidiaries (TRS) under the Code. As such, the TRS will be subject to federal income taxes on the income from these activities.

The Company's Board of Trustees authorized the Company to repurchase, from time to time, up to 2.0 million common shares and/or operating partnership units (OP Units) in its three controlled operating partnership subsidiaries, depending on market conditions and other factors. As of December 31, 2005, the Company repurchased approximately 1.4 million common shares/ OP Units at an average price of approximately \$10.62 per common share/ OP Unit. In November 2005, the Board of Trustees authorized the repurchase of up to a maximum of 2.0 million additional common shares/OP Units. No repurchases have been made under this authorization.

(2) Summary of Significant Accounting Policies

Basis of Presentation and Consolidation. The Company's consolidated financial statements are prepared on the accrual basis of accounting. The financial statements reflect the accounts of the Company and its controlled subsidiaries, including Lepercq Corporate Income Fund L.P. (LCIF), Lepercq Corporate Income Fund II L.P. (LCIF II), Net 3 Acquisition L.P. (Net 3), Lexington Realty Advisors, Inc. (LRA), Lexington Contributions, Inc. (LCI) and Six Penn Center L.P. LRA and LCI are wholly owned taxable REIT subsidiaries, and the Company is the sole unitholder of the general partner and the majority limited partner of each of LCIF, LCIF II, Net 3 and Six Penn Center L.P. The Company determines whether an entity for which it holds an interest should be consolidated pursuant to Financial Accounting Standards Board (FASB) Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46R). FIN 46R requires the Company to evaluate whether it has a controlling financial interest in an entity through means other than voting rights. If the entity is not a variable interest entity and the Company controls the entity's voting shares or similar rights, the entity is consolidated.

Earnings Per Share. Basic net income per share is computed by dividing net income reduced by preferred dividends, if applicable, by the weighted average number of common shares outstanding during the period. Diluted net income per share amounts are similarly computed but include the effect, when dilutive, of in-the-money common share options, OP Units, put options of certain partners' interests in non-consolidated entities and convertible preferred shares.

Recently Issued Accounting Standards.

FASB Statement No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity, as amended, (SFAS 150), was issued in May 2003. SFAS 150 establishes standards for the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. SFAS 150 also includes required disclosures for financial instruments within its scope. For the Company, SFAS 150 was effective for instruments entered into or modified after May 31, 2003 and otherwise was effective as of January 1, 2004, except for mandatorily redeemable financial instruments. SFAS 150 has been deferred indefinitely for certain types of mandatorily redeemable financial instruments. The adoption of the required portions of SFAS 150 had no impact on the Company.

In December 2004, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 123, (revised 2004) Share-Based Payment (SFAS 123R), which supersedes Accounting Principals Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance. SFAS 123R establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. SFAS 123R focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS 123R requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. The cost will be recognized over the period in which an employee is required to provide services in exchange for the award. SFAS 123R is effective for fiscal years beginning after January 1, 2006, based on new rules issued by the Securities and Exchange Commission. The impact of adopting this statement will result in the elimination of \$11,401 of deferred compensation and additional paid-in-capital from the Consolidated Statements of Changes in Shareholders' Equity. The adoption will not have a material impact on the Company's results of operations.

In December 2004, the FASB issued Statement No. 153, Exchange of Non-monetary Assets an amendment of APB Opinion No. 29 (SFAS 153). The guidance in APB Opinion No. 29, Accounting for Non-monetary Transactions, is based on the principle that exchanges of non-monetary assets should be measured based on the fair value of the assets exchanged. The guidance in that opinion, however, included certain exceptions to that principle. SFAS 153 amends APB Opinion No. 29 to eliminate the exception for non-monetary assets that do not have commercial substance. A non-monetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS 153 is effective for non-monetary asset exchanges, occurring in fiscal periods beginning after June 15, 2005. The impact of adopting this statement did not have a material impact on the Company's financial position or results of operations.

In March 2005, the FASB issued Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations an Interpretation of SFAS Statement No. 143 (FIN 47). FIN 47 clarifies the timing of liability recognition for legal obligations associated with the retirement of a tangible long-lived asset when the timing and/or method of settlement are conditional on a future event. FIN 47 is effective for fiscal years ending after December 15, 2005. The application of FIN 47 did not have a material impact on the Company's consolidated financial position or results of operations.

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections (SFAS 154) which replaces APB Opinions No. 20 Accounting Changes and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements An Amendment of APB Opinion No. 28. SFAS 154 provides guidance on the accounting for and reporting of accounting changes and error corrections. It establishes retrospective application as the required method for reporting a change in accounting principle and

Table of Contents

**LEXINGTON CORPORATE PROPERTIES TRUST
AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)**

the reporting of a correction of an error. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The impact of adopting this statement is not expected to have a material impact on the Company's financial position or results of operations.

In June 2005, the FASB ratified the Emerging Issues Task Force's (EITF) consensus on EITF 04-05, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights. EITF 04-05 provides a framework for determining whether a general partner controls, and should consolidate, a limited partnership or a similar entity. It was effective after June 29, 2005, for all newly formed limited partnerships and for any pre-existing limited partnerships that modify their partnership agreements after that date. General partners of all other limited partnerships will apply the consensus no later than the beginning of the first reporting period in fiscal years beginning after December 15, 2005. The impact of the adoption of EITF 04-05 is not expected to have a material impact on the Company's financial position or results of operations.

In 2005, the EITF released Issue No. 05-6, Determining the Amortization Period for Leasehold Improvements (EITF 05-6), which clarifies the period over which leasehold improvements should be amortized. EITF 05-6 requires all leasehold improvements to be amortized over the shorter of the useful life of the assets, or the applicable lease term, as defined. The applicable lease term is determined on the date the leasehold improvements are acquired and includes renewal periods for which exercise is reasonably assured. EITF 05-06 was effective for leasehold improvements acquired in reporting periods beginning after June 29, 2005. The impact of the adoption of EITF 05-6 did not have a material impact on the Company's financial position or results of operations.

Use of Estimates. Management has made a number of estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses to prepare these consolidated financial statements in conformity with generally accepted accounting principles. The most significant estimates made include the recoverability of accounts receivable (primarily related to straight-line rents), allocation of property purchase price to tangible and intangible assets, the determination of impairment of long-lived assets and the useful lives of long-lived assets. Actual results could differ from those estimates.

Purchase Accounting for Acquisition of Real Estate. The fair value of the real estate acquired, which includes the impact of mark-to-market adjustments for assumed mortgage debt related to property acquisitions, is allocated to the acquired tangible assets, consisting of land, building and improvements, and identified intangible assets and liabilities, consisting of the value of above-market and below-market leases, other value of in-place leases and value of tenant relationships, based in each case on their fair values.

The fair value of the tangible assets of an acquired property (which includes land, building and improvements and fixtures and equipment) is determined by valuing the property as if it were vacant, and the as-if-vacant value is then allocated to land, building and improvements based on management's determination of relative fair values of these assets. Factors considered by management in performing these analyses include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rental revenue during the expected lease-up periods based on current market demand. Management also estimates costs to execute similar leases including leasing commissions.

In allocating the fair value of the identified intangible assets and liabilities of an acquired property, above-market and below-market in-place lease values are recorded based on the difference between the current in-place lease rent and a management estimate of current market rents. Below-market lease intangibles are

Table of Contents

**LEXINGTON CORPORATE PROPERTIES TRUST
AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)**

recorded as part of deferred revenue and amortized into rental revenue over the non-cancelable periods of the respective leases. Above-market leases are recorded as part of intangible assets and amortized as a direct charge against rental revenue over the non-cancelable portion of the respective leases.

The aggregate value of other acquired intangible assets, consisting of in-place leases and tenant relationships, is measured by the excess of (i) the purchase price paid for a property over (ii) the estimated fair value of the property as if vacant, determined as set forth above. This aggregate value is allocated between in-place lease values and tenant relationships based on management's evaluation of the specific characteristics of each tenant's lease. The value of in-place leases and customer relationships are amortized to expense over the remaining non-cancelable periods of the respective leases.

Revenue Recognition. The Company recognizes revenue in accordance with Statement of Financial Accounting Standards No. 13 Accounting for Leases, as amended (SFAS 13). SFAS 13 requires that revenue be recognized on a straight-line basis over the term of the lease unless another systematic and rational basis is more representative of the time pattern in which the use benefit is derived from the leased property. Renewal options in leases with rental terms that are lower than those in the primary term are excluded from the calculation of straight line rent if they do not meet the criteria of a bargain renewal option. In those instances in which the Company funds tenant improvements and the improvements are deemed to be owned by the Company, revenue recognition will commence when the improvements are substantially completed and possession or control of the space is turned over to the tenant. When the Company determines that the tenant allowances are lease incentives, the Company commences revenue recognition when possession or control of the space is turned over to the tenant for tenant work to begin.

Gains on sales of real estate are recognized pursuant to the provisions of Statement of Financial Accounting Standards No. 66 Accounting for Sales of Real Estate, as amended (SFAS 66). The specific timing of the sale is measured against various criteria in SFAS 66 related to the terms of the transactions and any continuing involvement in the form of management or financial assistance associated with the properties. If the sales criteria are not met, the gain is deferred and the finance, installment or cost recovery method, as appropriate, is applied until the sales criteria are met.

Accounts Receivable. The Company continuously monitors collections from its tenants and would make a provision for estimated losses based upon historical experience and any specific tenant collection issues that the Company has identified. As of December 31, 2005 and 2004, the Company did not record an allowance for doubtful accounts.

Impairment of Real Estate. The Company evaluates the carrying value of all real estate held when a triggering event under Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, as amended (SFAS 144) has occurred to determine if an impairment has occurred which would require the recognition of a loss. The evaluation includes reviewing anticipated cash flows of the property, based on current leases in place, coupled with an estimate of proceeds to be realized upon sale. However, estimating future sale proceeds is highly subjective and such estimates could differ materially from actual results.

Depreciation is determined by the straight-line method over the remaining estimated economic useful lives of the properties. The Company generally depreciates buildings and building improvements over periods ranging from 8 to 40 years, land improvements from 15 to 20 years, and fixtures and equipment from 5 to 16 years.

Only costs incurred to third parties in acquiring properties are capitalized. No internal costs (rents, salaries, overhead) are capitalized. Expenditures for maintenance and repairs are charged to operations as incurred. Significant renovations which extend the useful life of the properties are capitalized.

Table of Contents

**LEXINGTON CORPORATE PROPERTIES TRUST
AND CONSOLIDATED SUBSIDIARIES**
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)

Properties Held For Sale. The Company accounts for properties held for sale in accordance with SFAS 144. SFAS 144 requires that the assets and liabilities of properties that meet various criteria in SFAS 144 be presented separately in the Consolidated Balance Sheets, with assets and liabilities being separately stated. The operating results of these properties are reflected as discontinued operations in the Consolidated Statements of Income. Properties that do not meet the held for sale criteria of SFAS 144 are accounted for as operating properties.

Investments in non-consolidated entities. The Company accounts for its investments in less than 50% owned entities under the equity method, unless pursuant to FIN 46R consolidation is required.

Deferred Expenses. Deferred expenses consist primarily of debt and leasing costs. Debt costs are amortized using the straight-line method, which approximates the interest method, over the terms of the debt instruments and leasing costs are amortized over the term of the related lease.

Deferred Compensation. Deferred compensation consists of the value of non-vested common shares issued by the Company to employees. The deferred compensation is amortized ratably over the vesting period which generally is five years. Certain common shares vest only when certain performance based measures are met.

Tax Status. The Company has made an election to qualify, and believes it is operating so as to qualify, as a REIT for federal income tax purposes. Accordingly, the Company generally will not be subject to federal income tax, provided that distributions to its shareholders equal at least the amount of its REIT taxable income as defined under Sections 856 through 860 of the Code.

The Company is now permitted to participate in certain activities from which it was previously precluded in order to maintain its qualification as a REIT, so long as these activities are conducted in entities which elect to be treated as taxable REIT subsidiaries under the Code. LRA and LCI are taxable REIT subsidiaries. As such, the Company is subject to federal and state income taxes on the income from these activities.

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

A summary of the average taxable nature of the Company's common dividends for each of the years in the three year period ended December 31, 2005, is as follows:

	2005	2004	2003

Cash and Cash Equivalents. The Company considers all highly liquid instruments with maturities of three months or less from the date of purchase to be cash equivalents.

Common Share Options. The Company has elected to continue to account for its option plan under the recognition provisions of Accounting Principles Board Opinion No. 25 Accounting for Stock Issued to Employees. Accordingly, no compensation cost has been recognized in the Consolidated Statements of Income with regard to options granted.

Common share options granted generally vest ratably over a four-year term and expire five years from the date of grant. The following table illustrates the effect on net income and earnings per share if the fair value based method had been applied to all outstanding common share option awards in each period:

	2005	2004	2003
Net income allocable to common shareholders, as reported basic	\$ 16,260	\$ 37,862	\$ 30,257
Add: Stock based employee compensation expense included in reported net income			
Deduct: Total stock based employee compensation expense determined under fair value based method for all awards	6	255	509
Pro forma net income basic	\$ 16,254	\$ 37,607	\$ 29,748
Net income per share basic			
Basic as reported	\$ 0.33	\$ 0.81	\$ 0.89
Basic pro forma	\$ 0.33	\$ 0.81	\$ 0.87
Net income allocable to common shareholders, as reported diluted	\$ 16,260	\$ 41,615	\$ 30,257
Add: Stock based employee compensation expense included in reported net income			
Deduct: Total stock based employee compensation expense determined under fair value based method for all awards	6	255	509
Pro forma net income diluted	\$ 16,254	\$ 41,360	\$ 29,748
Net income per share diluted			
Diluted as reported	\$ 0.33	\$ 0.80	\$ 0.88
Diluted pro forma	\$ 0.33	\$ 0.79	\$ 0.87

The value of common share options issued in 2003 was estimated to be \$2.42. There were no common share options issued in 2005 and 2004. Effective January 1, 2006, the Company adopted the provisions of SFAS 123R.

Environmental Matters. Under various federal, state and local environmental laws, statutes, ordinances, rules and regulations, an owner of real property may be liable for the costs of removal or remediation of certain hazardous or toxic substances at, on, in or under such property as well as certain other potential costs relating to hazardous or toxic substances. These liabilities may include government fines and penalties and damages for injuries to persons and adjacent property. Such laws often impose liability without regard to whether the owner knew of, or was responsible for, the presence or disposal of such substances. Although the Company's tenants are primarily responsible for any environmental damage and claims related to the leased premises, in the event of the bankruptcy or inability of the tenant of such premises to satisfy any obligations with respect to such environmental liability, the Company may be required to satisfy any obligations. In addition, the Company as the owner of such properties may be held directly liable for any such damages or claims irrespective of the provisions of any lease. As of December 31, 2005, the

Company is not aware of any environmental matter that could have a material impact on the financial statements.

Segment Reporting. The Company operates in one industry segment, investment in single tenant, net leased real properties.

Reclassifications. Certain amounts included in prior years' financial statements have been reclassified to conform with the current year presentation including reclassifying certain income statement captions for properties held for sale as of December 31, 2005 and properties sold during 2005, which are presented as discontinued operations.

(3) Earnings Per Share

The following is a reconciliation of numerators and denominators of the basic and diluted earnings per share computations for each of the years in the three year period ended December 31, 2005:

	2005	2004	2003
BASIC			
Income from continuing operations	\$ 18,192	\$ 35,293	\$ 24,411
Less dividends attributable to preferred shares	(16,435)	(6,945)	(3,392)
Income attributable to common shareholders from continuing operations	1,757	28,348	21,019
Total discontinued operations	14,503	9,514	9,238
Net income attributable to common shareholders	\$ 16,260	\$ 37,862	\$ 30,257
Weighted average number of common shares outstanding	49,835,773	46,551,328	34,074,935
Income per common share - basic:			
Income from continuing operations	\$ 0.04	\$ 0.61	\$ 0.62
Income from discontinued operations	0.29	0.20	0.27
Net income	\$ 0.33	\$ 0.81	\$ 0.89
DILUTED			
Income attributable to common shareholders from continuing operations - basic	\$ 1,757	\$ 28,348	\$ 21,019
Add incremental income attributable to assumed conversion of dilutive interests		2,416	
Income attributable to common shareholders from continuing operations	1,757	30,764	21,019
Income from discontinued operations	14,503	10,851	9,238
Net income attributable to common shareholders	\$ 16,260	\$ 41,615	\$ 30,257
Weighted average number of shares used in calculation of basic earnings per share	49,835,773	46,551,328	34,074,935
Add incremental shares representing:			
Shares issuable upon exercise of employee share options	66,876	131,415	202,504
Shares issuable upon conversion of dilutive interests		5,366,166	

Weighted average number of shares used in calculation of diluted earnings per common share	49,902,649	52,048,909	34,277,439
Income per common share - diluted:			
Income from continuing operations	\$ 0.04	\$ 0.59	\$ 0.61
Income from discontinued operations	0.29	0.21	0.27
Net income	\$ 0.33	\$ 0.80	\$ 0.88

(4) Investments in Real Estate and Intangible Assets

During 2005 and 2004, the Company made acquisitions, excluding acquisitions made directly by non-consolidated entities totaling \$733,830 and \$467,940, respectively. These amounts include properties purchased by the Company that were subsequently transferred to non-consolidated entities. During 2004, the Company issued a \$19,800 convertible mortgage note secured by a property in Carrollton, Texas. The note, which bore interest at 8.20%, provided for interest only payments through December 2004. In December 2004, the Company exercised its option to purchase the property by converting the note and paying \$2,190 in cash. This purchase is included in the amount above.

In 2005, the Company contributed seven properties, including intangible assets, to various non-consolidated entities for \$124,706, which approximated cost, and the non-consolidated entities assumed \$36,041 in non-recourse mortgages. The Company received a cash payment of \$55,534 relating to these contributions. In 2004, the Company contributed eight properties, including intangible assets, to various non-consolidated entities for \$196,982 which approximated cost, and the non-consolidated entities assumed \$97,641 in non-recourse debt. The Company received a cash payment of \$68,203 related to these contributions.

The Company sold to unrelated parties, seven properties in 2005, eight properties in 2004 and four properties in 2003, for aggregate net proceeds of \$41,151, \$36,651 and \$11,094, respectively, which resulted in gains in 2005, 2004 and 2003 of \$11,578, \$5,475 and \$2,191, respectively, which are included in discontinued operations. During 2004, the tenant in the Company's Dallas, Texas property filed for bankruptcy and disaffirmed the lease resulting in the Company writing-off \$2,884 of assets.

During 2005, the Company recorded an impairment charge of \$12,050 relating to one property when the property became vacant in the fourth quarter of 2005 and the Company notified the lender of its intention to cease making debt service payments on the related non-recourse mortgage. The charge was determined based upon the difference between the carrying cost of the property of \$17,253 and the estimated fair market value of \$5,203 determined by the Company based upon the estimated discounted cash flow technique. The impairment charge of \$3,584 recognized in 2004 and included in continuing operations relates to a property that was originally classified as held for sale in 2004 but was reclassified as held for investment in 2005.

For properties acquired during 2005 and owned as of December 31, 2005, the components of intangible assets and their respective weighted average lives are as follows:

	Costs	Weighted Average Life (yrs)
Lease origination costs	\$ 54,938	10.8
Customer relationships	20,796	7.9
Above - market leases	9,952	10.1
Below - market leases	1,596	7.4
	\$ 87,282	

Table of Contents

**LEXINGTON CORPORATE PROPERTIES TRUST
AND CONSOLIDATED SUBSIDIARIES**
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)

As of December 31, 2005 and 2004 the components of intangible assets are as follows:

	2005	2004
Origination costs	\$ 98,229	\$ 44,625
Customer relationships	26,416	5,620
Above-market leases	13,508	4,876
Below-market leases	3,899	2,716
	\$ 142,052	\$ 57,837

The estimated amortization expense of the above intangibles for each of the next five years is \$13,771. The liabilities related to the below-market leases are included in deferred revenue.

(5) Discontinued Operations and Assets Held For Sale

At December 31, 2005, the Company had three properties held for sale with aggregate assets of \$49,397 and liabilities, principally mortgage notes payable, aggregating \$32,145. As of December 31, 2004, the Company had four properties held for sale, with aggregate assets of \$13,216 and liabilities of \$1,688, three of which were sold in 2005 and one of which was reclassified as held for investment and depreciated. In 2005 and 2004, the Company recorded impairment charges of \$829 and \$2,791, respectively, related to discontinued operations.

The following presents the operating results for the properties sold and held for sale during the years ended December 31, 2005, 2004 and 2003:

	Year Ended December 31,		
	2005	2004	2003
Total gross revenues	\$ 7,309	\$ 11,668	\$ 13,025
Pre-tax income, including gains on sales	\$ 14,503	\$ 9,514	\$ 9,398

During 2005, the Company sold one property for an aggregate sales price of \$14,500 and provided \$11,050 in secured financing to the buyer at a rate of 5.46% which matures on August 1, 2015. The note is interest only through August 2007 and requires annual debt service payments of \$750 thereafter and a balloon payment of \$9,688 at maturity. In addition, annual real estate tax and insurance escrows are required.

(6) Investment in Non-Consolidated Entities

The Company has investments in various real estate joint ventures. The business of each joint venture is to acquire, finance, hold for investment or sell single tenant net leased real estate.

Lexington Acquiport Company, LLC (Company has 33¹/₃% interest.)

Lexington Acquiport Company, LLC (LAC), is a joint venture with the Comptroller of the State of New York as Trustee for the Common Retirement Fund (CRF). The joint venture agreement expires in December 2011. The Company and CRF originally committed to contribute up to \$50,000 and \$100,000, respectively, to invest in high quality office and industrial net leased real estate. The partners agreed that they would close the funding obligations to LAC. LRA earns annual management fees of 2% of rent collected and acquisition fees equaling 75 basis points of the purchase price of each property investment. All allocations of profit, loss and cash flows from LAC are made

one-third to the Company and two-thirds to CRF.

During 2005, LAC sold a property for net proceeds of \$23,496 which resulted in a gain of \$5,219.

67

Table of Contents

**LEXINGTON CORPORATE PROPERTIES TRUST
AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)**

Lexington Acquiport Company II, LLC (Company has 25% interest.)

During 2001, the Company and CRF announced the formation of Lexington Acquiport Company II, LLC (LAC II). The Company and CRF have committed \$50,000 and \$150,000, respectively. In addition to the fees LRA currently earns on acquisitions and asset management in LAC, LRA will also earn 50 basis points on all mortgage debt directly placed in LAC II. All allocations of profit, loss and cash flows from LAC II will be allocated 25% to the Company and 75% to CRF. As of December 31, 2005 and 2004, \$135,088 and \$76,494, respectively, had been funded by the members.

CRF can presently elect to put their equity position in LAC and LAC II to the Company. The Company has the option of issuing common shares for the fair market value of CRF's equity position (as defined) or cash for 110% of the fair market value of CRF's equity position. The per common share value of shares issued for CRF's equity position will be the greater of (i) the price of the Company's common shares on the closing date (ii) the Company's funds from operations per share (as defined) multiplied by 8.5 or (iii) \$13.40 for LAC properties and \$15.20 for LAC II properties. The Company has the right not to accept any property (thereby reducing the fair market value of CRF's equity position) that does not meet certain underwriting criteria (e.g. lease term and tenant credit). If CRF exercised this put, it is the Company's current intention to settle this amount in cash. In addition, the operating agreement contains a mutual buy-sell provision in which either partner can force the sale of any property.

During 2005, LAC II purchased four properties for a capitalized cost of \$181,867, two of which were transferred from the Company for \$52,125. LAC II partially funded these acquisitions by the use of \$124,155 in non-recourse mortgages, which bear interest at fixed rates ranging from 5.2% to 5.9% and mature at various dates ranging from 2013 to 2020.

During 2004, LAC II purchased nine properties for a capitalized cost of \$239,683, four of which were transferred from the Company for \$131,596. LAC II partially funded these acquisitions by the use of \$118,690 in non-recourse mortgages, which bear interest at fixed rates ranging from 5.3% to 6.3% and mature at various dates ranging from 2014 to 2019. In addition, LAC II borrowed \$45,800 in non-recourse mortgages, with stated interest rates ranging from 5.0% to 5.2%, from the Company for these acquisitions, which was repaid in 2005.

Lexington Columbia LLC (The Company has a 40% interest.)

Lexington Columbia LLC (Columbia) is a joint venture established December 30, 1999 with a private investor. Its sole purpose is to own a property in Columbia, South Carolina net leased to Blue Cross Blue Shield of South Carolina, Inc. through September 2009. The purchase price of the property was approximately \$42,500. In accordance with the operating agreement, net cash flows, as defined, will be allocated 40% to the Company and 60% to the other member until both parties have received a 12.5% return on capital. Thereafter cash flows will be distributed 60% to the Company and 40% to the other member.

During 2001, Columbia expanded the property by 107,894 square feet bringing the total square feet of the property to 456,304. The \$10,900 expansion was funded 40% by the Company and 60% by the other member. The tenant has leased the expansion through September 2009 for an average annual rent of \$2,000. Cash flows from the expansion will be distributed 40% to the Company and 60% to the other member.

LRA earns annual asset management fees of 2% of rents collected.

AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)**

Lexington/ Lion Venture L.P. (The Company has a 30% interest.)

Lexington/ Lion Venture L.P. (LION) was formed on October 1, 2003 by the Company and CLPF-LXP/ Lion Venture GP, LLC (Clarion), to invest in high quality single tenant net leased retail, office and industrial real estate. The limited partnership agreement provides for a ten-year term unless terminated sooner pursuant to the terms of the partnership agreement. The limited partnership agreement provided for the Company and Clarion to invest up to \$30,000 and \$70,000, respectively, and to leverage these investments up to a maximum of 60%. During 2004, the Company and Clarion increased their equity commitment by \$25,714 and \$60,000, respectively. As of December 31, 2005 and 2004, \$187,289 and \$149,641, respectively had been funded by the partners, and as of December 31, 2005, all funding requirements have been met. LRA earns acquisition and asset management fees as defined in the operating agreement. All allocation of profit, loss and cash flows are made 30% to the Company and 70% to Clarion until each partner receives a 12% internal rate of return. The Company is eligible to receive a promoted interest of 15% of the internal rate of return in excess of 12%. No promoted interest was earned in 2005 or 2004 by the Company.

Clarion can elect to put their equity position in LION to the Company. The Company has the option of issuing common shares for the fair market value of Clarion's equity position (as defined) or cash for 100% of the fair market value of Clarion's equity position. The per common share value of shares issued for Clarion's equity position will be the greater of (i) the price of the Company's common shares on the closing date (ii) the Company's funds from operations per share (as defined) multiplied by 9.5 or (iii) \$19.98. The Company has the right not to accept any property (thereby reducing the fair market value of Clarion's equity position) that does not meet certain underwriting criteria (e.g. lease term and tenant credit). If Clarion exercises this put, it is the Company's current intention to settle this amount in cash. In addition, the operating agreement contains a mutual buy-sell provision in which either partner can force the sale of any property.

During 2005, LION purchased three properties for a capitalized cost of \$92,400. These acquisitions were partially funded by \$54,780 in non-recourse mortgages which bear interest at fixed rates ranging from 5.0% to 5.6% and mature at various dates ranging from 2012 to 2019.

During 2004, LION purchased ten properties for a capitalized cost of \$291,254, one of which was transferred from the Company for \$20,727. These acquisitions were partially funded by \$173,292 in non-recourse mortgage which bear interest at fixed rates (including imputed rates) ranging from 4.8% to 6.8% and mature at various dates ranging from 2009 to 2019. Of the total mortgages incurred in 2004 of \$173,292, \$18,936 is an imputed value based on a 6.0% market rate. The face value of the mortgage was \$17,380 with a stated interest rate of 7.3%.

Triple Net Investment Company LLC (The Company has a 30% interest.)

In June 2004, the Company entered into a joint venture agreement with the State of Utah Retirement Systems (Utah). The joint venture entity, Triple Net Investment Company, LLC (TNI), was created to acquire high quality office and industrial properties net leased to investment and non-investment grade single tenant users, however TNI has acquired retail properties. The operating agreement provides for a ten-year term unless terminated sooner pursuant to the terms of the operating agreement. The Company and Utah initially committed to make equity contributions to TNI of \$15,000 and \$35,000, respectively. In December 2004, the Company and Utah increased their contribution by \$21,429 and \$50,000, respectively. As of December 31, 2005 and 2004, \$83,015 and \$39,946, respectively had been funded. In addition, TNI finances a portion of acquisition costs through the use of non-recourse mortgages. During 2005, TNI made three acquisitions aggregating \$126,781. The acquisitions were partially funded through the use of \$83,327 in non-recourse mortgages, which bear interest at fixed rates ranging from 5.1% to 5.2% and mature at various dates ranging in 2012 and 2013.

Table of Contents

**LEXINGTON CORPORATE PROPERTIES TRUST
AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)**

During 2004, TNI made eleven acquisitions aggregating \$114,506, three of which were transferred from the Company for \$45,957. The acquisitions were partially funded through the use of \$73,894 non-recourse mortgages, which bear interest at fixed rates (including imputed rates) ranging from 4.9% to 7.9% and mature at various dates ranging from 2010 to 2018. Of the total mortgages incurred in 2004 of \$73,894, \$20,585 is an imputed value based on a 6.0% market rate. The face value of the mortgages was \$18,119 with stated interest rates ranging from 8.8% to 9.4%.

Utah can elect to put their equity position in TNI to the Company. The Company has the option of issuing common shares for the fair market value of Utah's equity position (as defined) or cash for 100% of the fair market value of Utah's equity position. The per common share value of shares issued for Utah's equity position will be the greater of (i) the price of the Company's common shares on the closing date (ii) the Company's funds from operations per share (as defined) multiplied by 12.0 or (iii) \$21.87. The Company has the right not to accept any property (thereby reducing the fair market value of Utah's equity position) that does not meet certain underwriting criteria (e.g. lease term and tenant credit). If Utah exercises this put, it is the Company's current intention to settle this obligation in cash. In addition, the operating agreement contains a mutual buy-sell provision in which either partner can force the sale of any property.

Lexington Florence LLC (The Company had a 22.7% interest.)

Lexington Florence LLC (Florence) was a joint venture established in January 2002 with unaffiliated investors. Its sole purpose was to own a property in Florence, South Carolina net leased to Washington Mutual Home Loans, Inc. through June 2008. In 2002, the Company sold a 77.3% interest in Florence to the unaffiliated investors for \$4,581. The investors had the right to put their interests in Florence to the Company for OP Units in LCIF (valued at \$4,581). During 2004, the Company repurchased the 77.3% interest for \$6,137.

Oklahoma City (The Company owns a 40% tenancy in common interest in a real property.)

Oklahoma City (TIC) is a tenancy in common established in 2005. The Company sold, at cost, a 60% tenancy in common interest in one of the properties it acquired during 2005 for \$3,961 in cash and the assumption of \$8,849 in mortgage debt.

Lexington Strategic Asset Corp. (The Company has a 32.3% interest.)

Lexington Strategic Asset Corp. (LSAC) was established in 2005. During 2005, the Company contributed four properties at a carrying value of \$50,821 (three of which were subject to non-recourse mortgages of \$21,293) plus financing deposits to LSAC in exchange for 3,319,600 common shares of LSAC at a value of \$10.00 per share. In addition, LSAC sold 6,738,000 common shares, at \$10.00 per common share, generating net proceeds of \$61,595, after deducting offering costs and expenses. The mortgages bear interest at rates ranging from 5.1% to 5.3% and mature in 2015. LRA is the advisor of LSAC. LRA earns a base advisory fee of (i) 1.75% of LSAC's shareholders equity, as defined, up to \$500,000 and 1.50% of LSAC's shareholders equity in excess of \$500,000 and (ii) incentive advisory fees (promoted interest) based upon LSAC's performance. The Company granted certain officers the right to 40% of the promoted interest earned by LRA. Also, certain officers purchased 220,000 common shares of LSAC at its formation for \$110 and an additional 100,000 common shares in the offering for \$1,000. During 2005, LSAC acquired two properties for an aggregate capitalized cost of \$25,036. In addition, LSAC obtained a \$10,100 non-recourse mortgage note, secured by one property, which bears interest at 5.46% and matures in 2020.

Summarized Financial Data

Summarized combined balance sheets as of December 31, 2005 and 2004 and income statements for the years ending December 31, 2005, 2004, and 2003 for these non-consolidated entities are as follows:

	2005	2004
Real estate, net	\$ 1,384,361	\$ 1,033,801
Other assets	267,310	121,307
	\$ 1,651,671	\$ 1,155,108
Mortgage payable	\$ 993,454	\$ 659,524
Mortgages payable - the Company		45,800
Other liabilities	26,767	16,244
The Company's capital	192,466	133,381
Other partners/members capital	438,984	300,159
	\$ 1,651,671	\$ 1,155,108

	2005	2004	2003
Revenues	\$ 145,830	\$ 83,387	\$ 50,857
Expenses, net	132,878	62,764	34,353
Debt satisfaction charge	1,952		
Gain on sale of property	5,219		
Net income	\$ 16,219	\$ 20,623	\$ 16,504

The Company, through LRA, earns advisory fees from these non-consolidated entities for services related to acquisitions, asset management and debt placement. In addition, the Company earns asset management fees for advising third parties. During the years ended December 31, 2005 and 2004, the Company recognized the following fees:

Fees	2005	2004
Acquisition	\$ 2,363	\$ 3,226
Asset management	2,710	1,314
Debt placement	292	345
	\$ 5,365	\$ 4,885

In addition, the Company received \$1,240 in reimbursed costs from the partners of the non-consolidated entities during 2004.

(7) Mortgages and Notes Payable

The following table sets forth certain information regarding the Company's mortgage and notes payable as of December 31, 2005 and 2004:

Property Level Debt	Fixed Rate	2005	2004	Interest Rate	Maturity (Mo/Yr)	2006 Estimated Annual Debt Service (h)	Balloon Payment
Warren, OH(d)		\$ 11,313	\$ 16,412	7.000%	10-07	\$ 6,160	\$

Total							

- (a) Floating rate debt, 30 day LIBOR plus 400 basis points.
- (b) All property cash flows, net of interest expense are used for principal amortization.
- (c) The Company has informed the lender that it will no longer make debt service payments on this mortgage.
- (d) Amounts based upon imputed interest rates.
- (e) In 2005, the Company obtained a \$200,000 unsecured revolving credit facility, which expires June 2008, bears interest at 120-170 basis points over LIBOR depending on the amount of the Company's leverage level and has an interest rate period of one, three or six months, at the option of the Company. The credit facility is provided by Wachovia Bank, National Association, as Administrative Agent and Key Bank, N.A. as Syndication Agent. The credit facility contains various leverage, debt service coverage, net worth maintenance and other customary covenants with which the Company is in compliance as of December 31, 2005. Approximately \$198,479 was

available under this credit facility to the Company at December 31, 2005. The Company has outstanding letters of credit aggregating \$1,521. The Company pays an unused facility fee equal to 25 basis points if 50% or less of the facility is utilized and 15 basis points if greater than 50% of the facility is utilized. This facility replaced a \$100,000 facility, which bore interest at 150-250 basis points over LIBOR. The Company was in compliance with these covenants as of December 31, 2004.

- (f) Interest only through maturity.
- (g) Satisfaction of these mortgages resulted in an aggregate charge of \$899.
- (h) For mortgages with less than twelve months to maturity, amounts represent remaining payments.
- (i) The Company has an 80.5% interest in this property.
- (j) Mortgage was refinanced in 2005.
- (k) The Company paid \$22,998 to the lender of these loans, which aggregate original balance was \$68,400, for a subordinated interest in \$30,000 of the outstanding balances. The Company gave the lender a three year call option to repurchase the subordinated interest for an amount that will give the Company a 10% return on its investment. The amount paid by the Company along with a determined value of the call

AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)**

option of \$512 has been presented as a reduction in mortgages payable. The \$512 is included in other liabilities.

(l) Mortgages are reclassified as discontinued operations in 2005.

(m) Mortgage satisfied in 2005 which resulted in a gain of \$5,087.

Certain mortgages payable have yield maintenance or defeasance requirements relating to any repayments. In addition, three sets of two properties are cross-collateralized.

Scheduled principal amortization and balloon payments for mortgages and notes payable, including mortgages payable relating to discontinued operations of \$30,589, for the next five years and thereafter are as follows:

Years ending December 31,	Scheduled Amortization	Balloon Payments	Total
2006	\$ 27,804	\$ 11,870	\$ 39,674
2007	35,657		35,657
2008	30,481	58,969	89,450
2009	31,621	47,681	79,302
2010	30,517	56,558	87,075
Thereafter	160,733	678,669	839,402
	\$ 316,813	\$ 853,747	\$ 1,170,560

(8) Leases*Lessor:*

Minimum future rental receipts under the noncancellable portion of tenant leases, including leases on properties held for sale, assuming no new or re-negotiated leases, for the next five years and thereafter are as follows:

**Year ending
December 31,**

2006	\$ 192,247
2007	185,414
2008	172,214
2009	162,725
2010	140,353
Thereafter	710,434
	\$ 1,563,387

The above minimum lease payments do not include reimbursements to be received from tenants for certain operating expenses and real estate taxes and do not include early termination payments provided for in certain leases.

Certain leases allow for the tenant to terminate the lease if the property is deemed obsolete, as defined, but must make a termination payment to the Company, as stipulated in the lease. In addition, certain leases provide the tenant

with the right to purchase the leased property at fair market value or a stipulated price.

Lessee:

The Company holds leasehold interests in seventeen properties. The ground rents on these properties are either paid directly by the tenants to the fee holder or reimbursed to the Company as additional rent. Two properties are economically owned through the holding of industrial revenue bonds and as such neither ground lease payments nor bond debt service payments are made or received, respectively. For certain of the properties, the Company has an option to purchase the land.

Minimum future rental payments under noncancellable leasehold interests, excluding leases held through industrial revenue bonds and lease payments in the future that are based upon fair market value, collectively, for the next five years and thereafter are as follows:

**Year ending

Rent expense for the leasehold interests was \$528, \$288 and \$238 in 2005, 2004 and 2003, respectively.

The Company leases its corporate headquarters. The lease expires December 2015, with rent fixed at \$599 per annum through December 2008 and will be adjusted to fair market value, as defined, thereafter. The Company is also responsible for its proportionate share of operating expense and real estate taxes. As an incentive to enter the lease the Company received a payment of \$845 which it is amortizing as a reduction of rent expense. The Company also leases a regional office until July 2010 from LION. The minimum lease payments for these offices are \$636 for 2006, \$637 for 2007, \$639 for 2008, \$41 for 2009 and \$21 for 2010. Rent expense for these offices for 2005, 2004 and 2003 was \$861, \$618 and \$557, respectively, and is included in general and administrative expenses.

(9) Minority Interests

In conjunction with several of the Company's acquisitions, property owners were issued OP Units as a form of consideration in exchange for the property. All of such interest are redeemable at certain times, only at the option of the holders, for common shares on a one-for-one basis at various dates through November 2006 and are not otherwise mandatorily redeemable by the Company. During 2005, the Company issued 352,244 OP Units for \$7,714 in cash. As of December 31, 2005, there were 5,720,071 OP Units outstanding, of which 4,784,612 were currently redeemable for common shares. Of the total OP Units outstanding, 1,716,924 are held by two executive officers of the Company. All units have stated distributions in accordance with their respective partnership agreement. To the extent that the Company's dividend per share is less than the stated distribution per unit per the applicable partnership agreement, the distributions per unit are reduced by the percentage reduction in the Company's dividend. No units have a liquidation preference. As of December 31, 2004, there were 5,408,699 OP Units outstanding.

(10) Preferred and Common Shares

During 2005 and 2004, the Company issued 2,500,000 and 6,900,000 common shares in public offerings raising \$60,722 and \$144,045 in proceeds, respectively, which was used to retire mortgage debt and fund acquisitions.

During 2005 and 2004, the Company issued 400,000 shares (which were issued pursuant to an underwriters over allotment option) and 2,700,000 shares of Series C Cumulative Convertible Preferred Stock raising net proceeds of \$19,463 and \$131,126, respectively. The shares have a dividend of \$3.25 per share per annum, have a liquidation preference of \$20,000 and \$135,000, respectively, and the Company commencing November 2009, if certain common share prices are achieved, can force conversion into common shares. In addition, each share is currently convertible into 1.8643 common shares. This conversion ratio may increase over time if the Company's common share dividend exceeds certain quarterly thresholds.

If certain fundamental changes occur, holders may require the Company, in certain circumstances, to repurchase all or part of their Series C Cumulative Convertible Preferred Stock. In addition, upon the occurrence of certain fundamental changes, the Company will under certain circumstances increase the conversion rate by a number of additional common shares or, in lieu thereof, may in certain circumstances elect to adjust the conversion rate upon the Series C Cumulative Convertible Preferred Stock becoming convertible into shares of the public acquiring or surviving company.

On or after November 16, 2009, the Company may, at the Company's option, cause the Series C Cumulative Convertible Preferred Stock to be automatically converted into that number of common shares that are issuable at the then prevailing conversion rate. The Company may exercise its conversion right only if, at certain times, the closing price of the Company's common shares equal or exceeds 125% of the then prevailing conversion price of the Series C Cumulative Convertible Preferred Stock.

Investors in the Series C Cumulative Convertible Preferred Stock generally have no voting rights, but will have limited voting rights if the Company fails to pay dividends for six or more quarters and under certain other circumstances. Upon conversion the Company may choose to deliver the conversion value to investors in cash, common shares, or a combination of cash and common shares.

During 2003, the Company issued 3,160,000 Series B Cumulative Redeemable Preferred Shares raising net proceeds of \$76,315. These shares have a dividend of \$2.0125 per share per annum, have a liquidation preference of \$79,000, have no voting rights, and are redeemable by the Company at \$25.00 per share (\$79,000) commencing June 2008.

During 2005 and 2004, holders of an aggregate of 37,200 and 114,159 OP Units redeemed such OP Units for common shares of the Company. These redemptions resulted in an increase in shareholders' equity and corresponding decrease in minority interest of \$441 and \$1,487, respectively.

During 2005 and 2004, the Company issued 276,608 and 201,029 common shares, respectively, to certain employees resulting in \$6,080 and \$4,381 of deferred compensation, respectively. These common shares generally vest ratably, primarily over a 5 year period, however in certain situations the vesting is cliff based after 5 years and in other cases vesting only occurs if certain performance criteria are met.

During 2005, 2004 and 2003, the Company issued 658,122, 551,516 and 423,035 common shares, respectively, under its dividend reinvestment plan which allows shareholders to reinvest dividends to purchase common shares at a 5% discount to its market value, as defined.

**LEXINGTON CORPORATE PROPERTIES TRUST
AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)**

In 1999, the Company issued 287,888 common shares which it had the obligation to repurchase for \$13.50 per share through December 2004. As of December 31, 2004 the obligation expired and the Company has included such shares in shareholders' equity.

(11) Benefit Plans

The Company maintains a common share option plan pursuant to which qualified and non-qualified options may be issued. Options granted under the plan generally vest over a period of one to four years and expire five years from date of grant. No compensation cost is reflected in net income as all options granted under the plan had an exercise price equal to the market value of the underlying common shares on the date of grant.

Share option activity during the years indicated is as follows:

	Number of Shares	Weighted-Average Exercise Price Per Share
Balance at December 31, 2002	1,233,057	\$ 13.39

AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)**

There are 1,230,571 options available for grant at December 31, 2005.

The Company has a 401(k) retirement savings plan covering all eligible employees. The Company will match 25% of the first 4% of employee contributions. In addition, based on its profitability, the Company may make a discretionary contribution at each fiscal year end to all eligible employees. The matching and discretionary contributions are subject to vesting under a schedule providing for 25% annual vesting starting with the first year of employment and 100% vesting after four years of employment. Approximately \$179, \$171 and \$127 of contributions are applicable to 2005, 2004 and 2003, respectively.

During 2005 and 2004, the Company issued 276,608 and 201,029 common shares, respectively, to certain employees resulting in \$6,080 and \$4,381 of deferred compensation, respectively. These common shares generally vest ratably, primarily over a 5 year period, however in certain situations the vesting is cliff based after 5 years and in other cases, vesting only occurs if certain performance criteria are met.

As of December 31, 2005 and 2004, 547,555 and 452,723 common shares were non-vested, respectively. During the years ended December 31, 2005, 2004 and 2003, 151,687, 122,813, and 100,474 common shares vested, respectively, which generated compensation expense of \$2,866, \$1,954 and \$1,389, respectively.

The Company has established a trust for certain officers in which non-vested common shares, which generally vest ratably over five years, granted for the benefit of the officers are deposited. The officers exert no control over the common shares in the trust and the common shares are available to the general creditors of the Company. As of December 31, 2005, and 2004, there were 427,531 and 784,761 common shares, respectively, in the trust.

(12) Income Taxes

The (benefit) provision for income taxes relates primarily to the taxable income of the Company's taxable REIT subsidiaries. The earnings, other than in taxable REIT subsidiaries, of the Company are not generally subject to Federal income taxes at the Company level due to the REIT election made by the Company.

Income taxes have been provided for on the asset and liability method as required by Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes. Under the asset and liability method, deferred income taxes are recognized for the temporary differences between the financial reporting basis and the tax basis of assets and liabilities.

The Company's (benefit) provision for income taxes for the years ended December 31, 2005, 2004 and 2003 is summarized as follows:

	2005	2004	2003
Current:			
Federal	\$ 222	\$ 2,249	\$
State and local	93	958	259
Deferred:			
Federal	(358)	(1,722)	
State and local	(107)	(304)	
	\$ (150)	\$ 1,181	\$ 259

Table of Contents

**LEXINGTON CORPORATE PROPERTIES TRUST
AND CONSOLIDATED SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(\$000 except per share amounts)**

Deferred tax assets of \$2,492 and \$2,026, respectively are included in other assets on the accompanying Consolidated Balance Sheets at December 31, 2005 and 2004, respectively and are realizable based upon projected future taxable income. These deferred tax assets relate primarily to differences in the timing of the recognition of income/(loss) between GAAP and tax basis of real estate investments and interest.

The income tax (benefit) provision differs from the amount computed by applying the statutory federal income tax rate to pre-tax operating income as follows (in thousands):

	2005	2004	2003
Federal (benefit) provision at statutory tax rate (34%)	\$ (96)	\$ 1,106	\$
State and local taxes, net of Federal benefit	(24)	195	
Other	(30)	(120)	259
	\$ (150)	\$ 1,181	\$ 259

(13) Commitments and Contingencies

The Company is involved in various legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity.

The Company, including its non-consolidated entities, are obligated under certain tenant leases to fund the expansion of the underlying leased properties.

The Company has entered into letters of intent to purchase, upon completion of construction and rent commencement from the tenant, two properties for an estimated aggregate obligation of \$48,785.

(14) Related Party Transactions

During 2003, the Company issued 231,763 OP Units to satisfy outstanding obligations that resulted in a gain of \$896. Of the OP Units issued, the Chairman and the Vice Chairman of the Board of Trustees of the Company received 120,662 units.

During 2003, three executive officers repaid recourse notes to the Company including accrued interest thereon, of \$2,522 by delivering to the Company 158,224 common shares.

As of December 31, 2003, the Company was obligated for \$808 resulting from the acquisition of certain properties in 1996. Of the \$808, the Chairman and the Vice Chairman of the Board of Trustees were owed \$414. During 2004, this obligation was satisfied as part of the acquisition by the Company of 100% of the partnership interests it did not already own of a partnership that owned a single tenant net leased property. The acquisition was effected through the issuance of 97,828 OP Units, of which the Chairman and the Vice Chairman of the Board of Trustees received an aggregate 27,212.

In 2002, the Company issued 34,483 common shares in respect of a 15-year, 8% interest only recourse note to the Chief Financial Officer of the Company for \$500. This note was satisfied in 2003.

All related party acquisitions, sales and loans were approved by the independent members of the Board of Trustees or the Audit Committee.

In addition, the Company earns fees from its non-consolidated investments (See note 6).

(15) Fair Market Value of Financial Instruments

Cash Equivalents, Restricted Cash, Accounts Receivable and Accounts Payable

The Company estimates that the fair value approximates carrying value due to the relatively short maturity of the instruments.

Mortgages and Notes Payable

The Company determines the fair value of these instruments based on a discounted cash flow analysis using a discount rate that approximates the current borrowing rates for instruments of similar maturities. Based on this, the Company has determined that the fair value of these instruments exceeds carrying value by \$24,440 and \$29,536 as of December 31, 2005 and 2004, respectively.

Derivative Instruments

The Company retained a third party to value the \$512 call option granted to a lender in association with its repurchase of debt instruments (See Note 7 item k).

(16) Concentration of Risk

The Company seeks to reduce its operating and leasing risks through diversification achieved by the geographic distribution of its properties, avoiding dependency on a single property and the creditworthiness of its tenants.

For the years ended December 31, 2005, 2004 and 2003, no tenant represented 10% or more of gross revenues.

(17) Supplemental Disclosure of Statement of Cash Flow Information

During 2005, 2004 and 2003, the Company paid \$65,635, \$41,179 and \$36,467, respectively, for interest and \$1,703, \$4,024 and \$282, respectively, for income taxes.

During 2005, the Company provided \$11,050 in secured financing related to the sale of a property.

During 2005, in connection with certain mortgage financings the lender withheld \$5,600 in proceeds which will be disbursed upon expansion of the mortgaged properties.

During 2005, the Company recorded a derivative obligation of \$512.

During 2004, the Company sold a property for \$4,324 and received as a part of the consideration a note receivable of \$3,488. The note was repaid in 2005.

During 2005, 2004 and 2003, holders of an aggregate of 37,200, 114,159 and 71,567 OP Units, respectively, redeemed such units for common shares of the Company. These redemptions resulted in increases in shareholders equity and corresponding decreases in minority interests of \$441, \$1,487 and \$915, respectively.

During 2004, the Company issued 97,828 OP Units valued at \$1,801 to acquire 100% of the partnership interest in a partnership it did not already own. The partnership owned a single net leased property. Of these OP Units, 27,212 were issued to the Chairman and the Vice Chairman of the Board of Trustees.

During 2003, the Company issued 231,763 OP Units to satisfy \$5,641 in outstanding obligations which resulted in a gain of \$896.

Table of Contents

During 2003, three executive officers repaid recourse notes to the Company including accrued interest thereon, of \$2,522 by delivering to the Company 158,224 common shares.

During 2005, 2004 and 2003, the Company issued 276,608, 201,029 and 336,992 common shares to certain employees and trustees resulting in \$6,080, \$4,381 and \$5,887 of deferred compensation.

During 2004, the Company assumed \$273,260 in liabilities relating to the acquisition of real estate, including the acquisition of the remaining 77.3% partnership interest it did not already own in Florence. The other assets acquired and liabilities assumed with the Florence acquisition were not material.

In 2005, 2004 and 2003, the Company contributed properties (along with non-recourse mortgage notes of \$36,041, \$97,641 and \$0, respectively) to joint venture entities for capital contributions of \$32,170, \$13,718 and \$11,649, respectively. In addition, during 2004 the Company issued mortgage notes receivable of \$45,800 relating to these contributions, which were repaid in 2005.

During 2003, LRA became a consolidated subsidiary of the Company. The assets and liabilities of LRA, which were consolidated as of January 1, 2003 and were treated as non-cash activities for the Statement of Cash Flows, were as follows:

Real estate, net	\$ 41,613

The sum of the quarterly income per common share amounts may not equal the full year amounts primarily because the computations of the weighted average number of common shares outstanding for each quarter and the full year are made independently.

(19) Subsequent Events

Subsequent to December 31, 2005, the following events occurred:

In January 2006, LSAC acquired a property, which is currently undergoing an expansion, for \$4,724. LSAC is obligated to fund the expansion of the property to a maximum of \$2,814.

In January 2006, the Company obtained a \$23,750 non-recourse mortgage, on its Dillon, South Carolina property, with an interest rate of 5.97%, which matures in 2022. The Company used the proceeds to repay the existing debt on the property of \$11,420 and incurred prepayment penalties of \$740.

In January 2006, the Company acquired a property, located in the Netherlands, for approximately \$39,394. The Company partially financed this acquisition by obtaining a non-recourse mortgage for approximately \$32,506, at a rate of 5.30% and maturing in 2011. The Company acquired this property in a joint venture structure with a third party. The Company contributed 90% of the required equity to finance the purchase of the property. Under the terms of the partnership agreement distributions shall be made monthly as follows:

90% to the Company until the Company has received a 10% interim rate of return (IRR);

80% to the Company until the Company has received a 12% IRR;

70% to the Company until the Company has received a 15% IRR;

50% to the Company thereafter.

In March 2006, LSAC obtained individual non-recourse mortgages on its Omaha, Nebraska and Tempe, Arizona properties which aggregated \$17,500. Each mortgage has an interest rate of 5.61% and matures in 2016.

In March 2006, the company sold its Countryside, Illinois property for gross proceeds of \$5,900.

In March 2006, Dana Corporation, a tenant in 10 of the Company's properties (including one in a non-consolidated entity) as of December 31, 2005, declared Chapter 11 bankruptcy. As of December 31, 2005 the aggregate net carrying cost of the 9 consolidated properties was \$144,597, aggregate non-recourse mortgages encumbering these properties was \$82,757 and scheduled cash rent due in 2006 is \$12,455. The aggregate carrying cost of the 1 non-consolidated property was \$24,029, the non-recourse mortgage encumbering the property was \$14,297 and scheduled cash rent in 2006 is \$2,444. The Company has a 30% interest in this non-consolidated entity.

Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure*

None.

Item 9A. *Controls and Procedures*

Evaluation of Disclosure Controls and Procedures

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in rule 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this annual report on Form 10-K was made under the supervision and with the participation of the Company's management, including its Chief Executive Officer and its Chief Financial Officer. Based upon this evaluation, the Company's Chief Executive Officer and its Chief Financial Officer have concluded that the Company's disclosure controls and procedures (a) are effective to ensure that information required to be disclosed by the Company in reports filed or submitted under the Exchange Act is timely recorded, processed, summarized and reported and (b) include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in reports filed or submitted under the Exchange Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and its Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Report on Internal Control Over Financial Reporting

Management's Report on Internal Control Over Financial Reporting, which appears on page 51, is incorporated herein by reference.

Changes in Internal Controls.

There have been no significant changes in the Company's internal controls over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) or in other factors that occurred during the period covered by this annual report on form 10-K that has materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.

Item 9B. *Other Information*

None.

PART III.

Item 10. *Trustees and Executive Officers of the Registrant*

The information regarding trustees and executive officers of the Company required to be furnished pursuant to this item is set forth in Item 4A of this report. All other information required to be furnished pursuant to this item will be set forth under the appropriate captions in the Proxy Statement, and is incorporated herein by reference.

Item 11. *Executive Compensation*

The information required to be furnished pursuant to this item will be set forth under the caption "Compensation of Executive Officers" in the Proxy Statement, and is incorporated herein by reference.

Item 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters*

The information required to be furnished pursuant to this item will be set forth under the captions "Principal Security Holders" and "Share Ownership of Trustees and Executive Officers" in the Proxy Statement, and is incorporated herein by reference.

Item 13. *Certain Relationships and Related Transactions*

None.

See note 6 of the Consolidated Financial Statements for transactions with non-consolidated entities.
