**ALLIANCE GAMING CORPORATION AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**Three Months Ended September 30, 2001 and 2002**

**1. BASIS OF PRESENTATION**

The accompanying unaudited interim condensed consolidated financial statements reflect all normal recurring adjustments, that management believes are necessary to present fairly the financial position, results of operations and cash flows of Alliance Gaming Corporation ( Alliance or the Company ) for the respective periods presented. The results of operations for an interim period are not necessarily indicative of the results, which may be expected for any other interim period, or for the year as a whole. The accompanying unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes in the Company's annual report on Form 10-K for the year ended June 30, 2002. All intercompany accounts and transactions have been eliminated in consolidation.

The accompanying condensed consolidated financial statements at June 30, 2002, were derived from audited consolidated financial statements, but do not include all disclosures required under generally accepted accounting principles. Certain reclassifications have been made to conform to the current year presentation.

**2. INVENTORIES**

Inventories are stated at the lower of cost, determined on a first-in, first-out basis, or market. Cost elements included for work-in-process and finished goods include raw materials, freight, direct labor and manufacturing overhead.

Inventories, net of reserves, consist of the following (in 000 s):

	June 30, 2002	Sept. 30, 2002
Raw materials	\$ 17,158	\$ 18,849
Work-in-process	936	3,635
Finished goods	24,903	23,059
	<u>          </u>	<u>          </u>
Total inventories	\$ 42,997	\$ 45,543
	<u>          </u>	<u>          </u>

**3. DEBT**

Long-term debt consists of the following (in 000 s):

	June 30, 2002	Sept. 30, 2002
Term loan facility	\$ 189,525	\$ 189,050
10% Senior Subordinated Notes due 2007, net of unamortized discount of \$416 and \$396	149,584	149,604
Other subordinated debt	2,495	1,995
Other, primarily secured by related equipment	660	482
	<u>          </u>	<u>          </u>
	342,264	341,131
Less current maturities	4,116	3,970
	<u>          </u>	<u>          </u>
Long-term debt, less current maturities	\$ 338,148	\$ 337,161
	<u>          </u>	<u>          </u>

## Edgar Filing: ALLIANCE GAMING CORP - Form 10-Q

The Company's debt structure consists primarily of a \$190 million term loan facility and a \$25 million revolving credit facility (which can be increased by \$15 million at the Company's discretion) (collectively referred to herein as the "bank facility") and \$150 million Senior Subordinated Notes. The term loan has an interest rate of LIBOR plus 3.25% (or 5.4% as of September 30, 2002), has a 1% per year mandatory principal amortization, and a 5.5 year maturity. The revolving credit facility commitment decreases ratably over its 5 year commitment. As of

**Table of Contents**

**ALLIANCE GAMING CORPORATION AND SUBSIDIARIES  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**Three Months Ended September 30, 2001 and 2002**

September 30, 2002, there were no borrowings outstanding on the revolving credit facility. The bank facility loan contains certain customary financial and operational covenants.

The bank facility is collateralized by substantially all domestic property and is guaranteed by each domestic subsidiary of the U.S. Borrower and German Subsidiaries (both as defined), other than the entity that holds the Company's interest in its Louisiana and Mississippi operations, and secured by both a U.S. and German Pledge Agreement (both as defined). The bank facility contains a number of maintenance covenants and other significant covenants that, among other things, restrict the ability of the Company and the ability of certain of its subsidiaries to dispose of assets, incur additional indebtedness, pay dividends or make other distributions, enter into certain acquisitions, repurchase equity interests or subordinated indebtedness, issue or sell equity interests of the Company's subsidiaries, engage in mergers or acquisitions, or engage in certain transactions with subsidiaries and affiliates, and that otherwise restrict corporate activities. As of September 30, 2002, we are in compliance with these covenants.

The Senior Subordinated Notes bear interest at 10%, are due in 2007, and are general unsecured obligations of the Company, ranking subordinate in right of payment to all Senior Debt (as defined) of the Company, including indebtedness under the bank facility. The Senior Subordinated Notes are fully and unconditionally guaranteed on a joint and several senior subordinated basis by all existing and future domestic Restricted Subsidiaries of the Company, subject to certain exceptions including the partially-owned entities through which its Mississippi casino and Louisiana route operations are conducted. The Subsidiary Guarantees are general unsecured obligations of the Guarantors, ranking subordinate in right of payment to all Senior Debt of the Guarantors. The Company will be able to designate other current or future subsidiaries as Unrestricted Subsidiaries under certain circumstances. Unrestricted Subsidiaries will not be required to issue a Subsidiary Guarantee and will not be subject to many of the restrictive covenants set forth in the Indenture pursuant to which the Senior Subordinated Notes were issued. The Indenture for the Company's Senior Subordinated Notes contains various covenants, including limitations on incurrence of additional indebtedness, on restricted payments and on dividend and payment restrictions on subsidiaries. The Senior Subordinated Notes may be redeemed beginning in August 2002 at 105%, which decreases ratably over the remaining term. Upon the occurrence of a Change of Control (as defined), the holders of the Senior Subordinated Notes will have the right to require the Company to purchase their notes at a price equal to 101% of the aggregate principal amount thereof, plus accrued and unpaid interest to the date of purchase. As of September 30, 2002, we are also in compliance with the covenants contained in the Indenture for the Senior Subordinated Notes.

**4. INCOME TAXES**

Beginning July 1, 2002, the Company began recognizing Federal income tax expense based on 35% of pre-tax domestic income and state income taxes at a rate of approximately 2% of domestic income. There was no tax benefit recorded for the operating loss generated in Germany. For the prior year quarter ended September 30, 2001, substantially all of the Company's taxable income was offset against Federal net operating loss carry forwards. This reduced the Company's tax expense from approximately \$3.5 million to approximately \$138,000.

	<hr/>	<hr/>
Diluted earnings per share	\$ 0.16	\$ 0.13
	<hr/>	<hr/>

**6. SEGMENT AND GEOGRAPHICAL INFORMATION**

The Company operates in four business segments: (i) Gaming Equipment and Systems designs, manufactures and distributes gaming machines and computerized monitoring systems for gaming machines; (ii) Wall Machines and Amusement Games designs, manufactures and distributes wall-mounted gaming machines and distributes third party manufactured amusement games; (iii) Route Operations owns and manages a significant installed base of gaming machines; and (iv) Casino Operations owns and operates two regional casinos. The accounting policies of these segments are consistent with Company s policies for the Consolidated Financial Statements.

The tables below present information as to the Company s revenues, intersegment revenues and operating income (loss) (in 000 s):

	Three Months Ended September 30,	
	2001	2002
<b>Revenues:</b>		
Gaming equipment and systems	\$ 45,315	\$ 63,539
Wall machines and amusement games	12,661	10,566
Route operations	53,800	54,837

Casino operations	5,867	5,015
Corporate	(2,698)	(2,779)
	\$ 14,861	\$ 18,221

The Company has operations based primarily in the United States and Germany. The German operation's customers are a diverse group of operators of wall machines and amusement games at arcades, hotels, restaurants and taverns, primarily in Germany. Gaming Equipment and Systems' customers are primarily casinos and gaming machine distributors in the United States and abroad. Receivables of the German operations and Gaming Equipment and Systems are generally collateralized by the related equipment.

The table below presents information as to the Company's revenues and operating income (loss) by geographic region (in \$000's):

**8. UNAUDITED CONSOLIDATING FINANCIAL STATEMENTS**

The following unaudited condensed consolidating financial statements are presented to provide certain financial information regarding guaranteeing and non-guaranteeing subsidiaries in relation to the Company's Senior Subordinated Notes (see note 2). The financial information presented includes Alliance Gaming Corporation (the Parent) and its wholly-owned guaranteeing subsidiaries (together the Parent and Guaranteeing Subsidiaries), and the non-guaranteeing subsidiaries Video Services, Inc., United Gaming Rainbow, BGI Australia Pty. Limited, Bally Gaming de Puerto Rico, Inc., and Alliance Automaten GmbH & Co. KG (the subsidiary that holds the Company's German interests) (together the Non-Guaranteeing Subsidiaries). The notes to consolidating financial statements should be read in conjunction with these consolidating financial statements.

**Table of Contents****ALLIANCE GAMING CORPORATION  
FORM 10-Q****September 30, 2002****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Liquidity and Capital Resources**

As of September 30, 2002, we had \$63.5 million in cash and cash equivalents, and \$25.0 million in unborrowed availability on our revolving credit facility. In addition we had net working capital of approximately \$178.4 million, an increase of approximately \$5.3 million from June 30, 2002, which is explained in the working capital section below. Consolidated cash and cash equivalents at September 30, 2002, includes approximately \$20.5 million of cash utilized in Casino and Route Operations and held in vaults, cages or change banks. Pursuant to various state gaming regulations, we maintain restricted cash accounts to ensure availability of funds to pay wide-area progressive jackpot awards, which totaled approximately \$8.0 million at September 30, 2002.

Management believes that cash flows from operating activities, cash and cash equivalents held and the up to \$40.0 million revolving credit facility commitment will provide us with sufficient capital resources and liquidity. At September 30, 2002, we had no material commitments for capital expenditures.

**Working Capital**

The following table presents the components of consolidated working capital balance at (in \$000 s):

	June 30, 2002	Sept. 30, 2002	Change
Cash, cash equivalents, and short term investments	\$ 63,404	\$ 63,461	\$ 57
Accounts and notes receivable, net	96,832	95,593	(1,239)
Inventories, net	42,997	45,543	2,546
Deferred tax asset, net	27,605	27,605	
Other current assets	13,975	14,430	455
	<u>244,813</u>	<u>246,632</u>	<u>1,819</u>
Total current assets			
Accounts payable	15,894	17,173	1,279
Accrued liabilities	45,841	39,979	(5,862)
Jackpot liabilities	5,915	7,138	1,223
Current maturities of long-term debt	4,116	3,970	(146)
	<u>71,766</u>	<u>68,260</u>	<u>(3,506)</u>
Total current liabilities			
Net working capital	<u>\$ 173,047</u>	<u>\$ 178,372</u>	<u>\$ 5,325</u>

The primary fluctuations contributing to the increase in working capital were: (i) a net decrease in accounts receivable resulting primarily from a decrease in sales at Bally Wulff offset by an increase in sales at the Bally Gaming and Systems business units, (ii) an increase in inventory due to a larger backlog of sales, (iii) a decrease in accrued liabilities resulting from timing of revenue recognition of certain system installations, payments relating to management bonuses and interest payment on the Senior Subordinated Note and offset by an increase in progressive jackpot liabilities, (iv) an increase in accounts payable resulting from timing of payments for inventory purchases, and (v) the impact of foreign exchange fluctuations between the dollar and the euro dollar on all working capital categories.

**Table of Contents****ALLIANCE GAMING CORPORATION  
FORM 10-Q****September 30, 2002****Cash Flows**

During the three months ended September 30, 2002, we generated \$12.6 million of cash flow from operating activities, which included cash provided by accounts and notes receivable of \$1.2 million and by accounts payable of \$1.3 million, offset by cash used in inventories and accrued liabilities of \$4.5 million and \$3.9 million, respectively.

During the three months ended September 30, 2002, we used \$12.0 million of cash in investing activities resulting primarily from capital expenditures totaling \$4.3 million, costs incurred to produce participation games totaling \$4.8 million, and payments for gaming rights totaling \$2.0 million.

During the three months ended September 30, 2002, cash flow from financing activities included \$0.6 million of cash provided from the exercise of stock options, offset by principal payments on other long term debt totaling \$1.2 million.

**Results of Operations:****General**

The following tables set forth the earnings before interest, taxes, depreciation and amortization ( EBITDA ) and operating income by business unit (in 000 s):

	Three Months Ending Sept. 30,	
	2001	2002
<b>EBITDA by Business Unit:</b>		
Bally Gaming and Systems	\$ 11,884	\$ 18,399
Wall Machines and Amusement Games	(89)	(1,676)
Route Operations	6,640	5,975
Casino Operations	6,326	5,757
Corporate Administrative Expenses	(2,176)	(2,235)
	<u>          </u>	<u>          </u>
EBITDA	\$ 22,585	\$ 26,220
	<u>          </u>	<u>          </u>
<b>Operating Income (Expense):</b>		
Bally Gaming and Systems	\$ 9,930	\$ 15,135
Wall Machines and Amusement Games	(1,358)	(1,815)
Route Operations	3,120	2,665
Casino Operations	5,867	5,015
Corporate Administrative Expenses	(2,698)	(2,779)
	<u>          </u>	<u>          </u>
Total Operating Income	\$ 14,861	\$ 18,221
	<u>          </u>	<u>          </u>

We believe that the analysis of EBITDA is a useful adjunct to operating income, net income, cash flow and other GAAP measurement. However, this information should not be construed as an alternative to net income (loss) or any other GAAP measure of performance as an indicator of our performance or to GAAP-defined cash flows generated by operating, investing and financing activities as an indicator of cash flows or a measure of liquidity. EBITDA may not be comparable to similarly titled measures reported by other companies.

**Table of Contents**

**ALLIANCE GAMING CORPORATION  
FORM 10-Q**

**September 30, 2002**

***Three Months Ended September 30, 2001 and 2002***

***Bally Gaming and Systems***

For the quarter ended September 30, 2002, the Bally Gaming and Systems business unit reported revenues of \$63.5 million, an increase of 40% compared to revenues of \$45.3 million in the prior year quarter. Gaming Products sales totaled \$33.8 million, an increase of 61% compared to \$20.9 million in the prior year quarter. New unit sales totaled 4,000 units, a 61% increase compared to 2,500 in the prior year quarter. Bally Gaming performs contract manufacturing of base gaming devices for several other gaming equipment companies, including Multimedia Games. Such base games, which generally do not contain a Bally game theme or other intellectual property, are therefore sold at reduced prices. Excluding such contract manufactured games, the average domestic new-unit selling price was \$7,100 an increase of 15% compared to the prior year quarter. Bally Systems reported revenues of \$15.3 million, an increase of 18% compared to \$13.0 million in the prior year quarter. Bally Systems reported shipments of 6,100 game monitoring units, compared to 9,200 units in the prior year quarter. Bally Systems revenues increased over the prior year quarter as the lower game monitoring units shipped was more than offset by a significantly higher average selling price per unit driven by the larger proportion of player tracking and promotion software revenues and higher levels of recurring hardware and software support revenues resulting from the larger base of installed systems. Gaming Operations reported revenues of \$14.4 million, an increase of 27% compared to \$11.4 million in the prior year quarter. The increased revenues were driven by an increase in the installed base of recurring revenue units, which totaled approximately 3,695 units as of September 30, 2002, compared to approximately 3,370 units at September 30, 2001, and an increase in the revenue per unit as a result of a 50% increase in the base of higher revenue near-area progressive games deployed.

For the quarter ended September 30, 2002, the overall gross margin percentage for Bally Gaming and Systems improved to 59% compared to 57% in the prior year quarter. The improvement was due to improved margin contribution for gaming machines sales as a result of the improved fixed cost absorption rate resulting from the increased volume of new unit sales.

The Bally Gaming and Systems business unit reported operating income of \$15.1 million, compared to an operating income of \$9.9 million in the prior year quarter. The increase in operating income resulted primarily from increases in revenues and improved margins, as well as the reduced overhead cost structure. Research and development costs totaled \$4.0 million, an increase of 30% compared to the prior year quarter.

***Wall Machines and Amusement Games***

For the quarter ended September 30, 2002, Wall Machines and Amusement Games reported revenues of \$10.6 million, a 17% decrease compared to the prior year quarter. The revenues decreased as a result of a 62% decrease in new units sold offset by a 22% increase in the average selling price and a 22% increase in revenues from leased games. The Company's newest model, Sky, is performing very well, however due to competitive sales promotions, revenue recognition for an additional 1,000 Sky games placed on trial with customers during the September quarter was deferred until the December 2002 quarter. In general, the wall machines industry in Germany is experiencing a slow down that is tied to the overall slowness in the German economy, and the adverse effects of the flooding that affected large portions of the country.

The Wall Machines and Amusement Games business unit continued its leasing program whereby new wall machines and certain amusement games are leased to customers pursuant to operating leases which provide a stream of revenues and cash flows over the term of the leases which range from six months to three and one half years. As of September 30, 2002, a total of 950 machines were deployed in the leasing program compared to 990 at September 30, 2001, a decrease of 5%.

**Table of Contents**

**ALLIANCE GAMING CORPORATION  
FORM 10-Q**

**September 30, 2002**

For the quarter ended September 30, 2002, gross profit margin increased to 42% from 41% in the prior year quarter. Wall Machines and Amusement Games reported an operating loss of (\$1.8) million, compared to an operating loss of (\$1.4) million in the prior year quarter.

***Route Operations***

For the quarter ended September 30, 2002, the Route Operations business unit reported total revenues of approximately \$54.8 million, an increase of 2% compared to revenues of \$53.8 million in the prior year quarter. Revenues from the Nevada route operations increased to approximately \$51.1 million or 2% over the prior year quarter. This improvement was attributable to an increase in the average net win per gaming machine per day of 1% to \$66.65 from \$66.30 in the prior year quarter and a 2% increase in the weighted average number of gaming machines during the current quarter to 8,340 units as compared to 8,170 units in the prior year quarter. Gamblers Bonus, a cardless players club and player tracking system continued to have a favorable impact on the net win per day. As of September 30, 2002, the Gamblers Bonus product was installed in over 4,135 gaming machines at approximately 400 locations statewide or 50% of the installed base of gaming machines. Revenues from route operations in Louisiana totaled \$3.7 million, an increase of 5% compared to the prior year quarter. This increase was primarily the result of a 9% increase in the number of units deployed, offset by a decline in the net win per gaming machine per day of 5% to \$56.65 from \$59.70 in the prior year quarter.

For the quarter ended September 30, 2002, cost of revenues for Route Operations totaled as a percentage of revenues, has remained constant at 83%. For the quarter ended September 30, 2002, the Route Operations business unit reported operating income of \$2.7 million, a decrease of 15% compared to operating income of \$3.1 million in the prior year quarter.

***Casino Operations***

For the quarter ended September 30, 2002, the Casino Operations business unit reported revenues of \$17.8 million, a decrease of 2% compared to revenues of \$18.2 million in the prior year quarter. This revenue decrease is due to a 4% decrease in revenues at the Rainbow Casino offset by a 3% revenue increase at the Rail City Casino. Rainbow Casino revenue decrease was attributable to a 7% decrease in the slot machines net win per day to \$135, and by a 7% decrease in the average number of gaming machines. This decline is a result of the significant competitive pressure in the market that is growing at less than its historical norm. The Vicksburg gaming market grew approximately 3% in the September 2002 quarter compared to the prior year quarter. Early in the quarter, Rainbow commenced a number of significant remodeling projects to return the property to its competitive position. The first of these projects, consisting of a new entertainment lounge, is scheduled to open early in the December 2002 quarter. Additional projects will be completed in the March 2003 quarter. The revenue improvement at the Rail City Casino was attributable to a 5% increase in the average number of gaming machines and offset by a decrease in the average gaming machine net win per day of 2% to \$84 from \$86 in the prior year quarter. For the quarter ended September 30, 2002, the cost of revenues for Casino Operations as a percentage of revenues has remained constant at 46%.

***Net Interest Expense and Income Taxes***

Interest expense (net of interest income) for the quarter ended September 30, 2002, totaled \$6.4 million, and compared to the net interest expense of \$7.3 million in the prior year quarter. The decrease is a result of a lower interest rate on the bank credit facility.

The Company recorded an income tax provision of \$5.1 million in the quarter ended September 30, 2002, compared to a provision of \$0.1 million in the prior year quarter. For the quarter ended September 30, 2001, the domestic earnings were offset against net operating loss carry forwards resulting in no Federal income tax expense. On a proforma basis, by applying a 35% Federal income tax rate to the domestic earnings (excluding the loss from Bally Wulff in Germany which can not yet be benefited for Federal income tax purposes) tax expense would have been approximately \$3.4 million. Beginning in the September 2002 quarter, we began recognizing Federal income tax expense based on 35% of pre-tax domestic income. Consistent with the prior year, we recorded state income taxes at a rate of approximately 2% of domestic income, and there was no tax benefit recorded for the operating loss generated in Germany.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

***Currency Rate Fluctuations***

We derive revenues from our non-U.S. subsidiaries, all of which revenues are denominated in their local currencies, and their results are affected by changes in the relative values of non-U.S. currencies and the U.S. dollar. Most of the currencies in countries in which we have foreign operations strengthened versus the U.S. dollar in 2001 and 2002, which resulted in assets and liabilities denominated in local currencies being translated into more dollars. We do not currently utilize hedging instruments.

***Market risks***

During the normal course of our business, we are routinely subjected to a variety of market risks, examples of which include, but are not limited to, interest and currency rate movements, collectibility of accounts and notes receivable, and recoverability of residual values on leased assets. We constantly assess these risks and have established policies and practices designed to protect against the adverse effects of these and other potential exposures. Although we do not anticipate any material losses in these risk areas, no assurances can be made that material losses will not be incurred in these areas in the future.

We have performed a sensitivity analysis of our financial instruments, which consist of our cash and cash equivalents and debt. We have no derivative financial instruments. In performing the sensitivity analysis, we define risk of loss as the hypothetical impact on earnings, of changes in the market interest rates or currency exchange rates.

The results of the sensitivity analysis at September 30, 2002, are as follows:

**Interest Rate Risk:**

We had total debt as of September 30, 2002, of \$341.1 million, of which \$190.0 million are Term Loans with interest rates tied to LIBOR. These Term Loans are broken into individual loans with varying terms from one to six months. The interest rate for each loan is set on the borrowing date and is effective for the term outstanding. If the LIBOR rates were to increase or decrease by 100 basis points, with all other factors remaining constant, earnings would decrease or increase by approximately \$0.5 million on a pre-tax basis.

**Foreign Currency Exchange Rate Risk:**

Our German subsidiaries currently utilize the euro dollars as our functional currency. Prior to January 2002, the German deutschemark was used. A 10% fluctuation in the exchange rate against the U.S. dollar, would result in a corresponding change in earnings reported in the consolidated group, of approximately \$0.2 million. Such a change in the German euro dollar would result in a charge to accumulated other comprehensive income (loss), which is a component of stockholder's equity, of approximately \$3.5 million, all other factors remaining constant.

**ITEM 4. DISCLOSURE CONTROLS AND PROCEDURES**

(a) Evaluation of disclosure controls and procedures. Within the 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's President and Chief Executive Officer and the Company's Sr. Vice President, Chief Financial Officer and Treasurer of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the Company's President and Chief Executive Officer and the Company's Sr. Vice President, Chief Financial Officer and Treasurer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filing.

(b) Changes in internal control. No significant changes were made in the Company's internal controls or in the other factors that could significantly affect these controls subsequent to the date of their evaluation.

**PART II**

**ITEM 1. Legal Proceedings**

There have been no material changes in any legal proceedings since filing of the Company's annual report on Form 10-K for the fiscal year ended June 30, 2002.

CERTIFICATIONS

I, Robert L. Miodunski, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Alliance Gaming Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
  - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the Evaluation Date); and
  - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
  - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
