**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**FEBRUARY 28, 2013**

**NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Organization**

Staffing 360 Solutions, Inc. (the “Company”) was incorporated in the State of Nevada on December 22, 2009, as Golden Fork Corporation (“Golden Fork”). On March 16, 2012, the Company filed a certificate of amendment to its articles of incorporation to change its name from Golden Fork to Staffing 360 Solutions, Inc.

On February 17, 2012, Alida Heyer (the “Seller”), who held the voting rights equivalent to 78.7% of the outstanding shares of common stock of the Company entered into a stock purchase agreement (the “Stock Purchase Agreement”) with TRIG Special Purpose 1, LLC, a Nevada Corporation, (the “Purchaser”) to sell to the Purchaser all her shares of the Company’s common stock, consisting of 6,000,000 shares (the “Shares”). Pursuant to the Agreement, the Purchaser paid the Seller \$240,000 for the Shares in a private transaction and the Company became a 78.7% owned subsidiary of TRIG Special Purpose 1, LLC ) (“TRIG”) and there was a change in control. The Company’s President and Director, Alfonso J. Cervantes, through his beneficial ownership of Trilogy Capital Partners, Inc. (“Trilogy Capital”), beneficially holds 50% of TRIG.

In March 2012, the Company commenced its operations in the international staffing sector pursuant to a consolidation business model. The Company anticipates initially acquiring a platform company concurrent with an Alternative Public Offering as it pursues the acquisition of a broad spectrum of staffing agencies in the IT, financial, accounting, healthcare and banking industries.

On July 31, 2012, the Company formed Staffing 360 Alliance, Inc. (“Staffing Alliance”), a wholly-owned subsidiary, incorporated in the State of Nevada for the purpose of exploring business prospects in the staffing sector. In September 2012, Alliance began operations and provides trained employees to companies who work in word processing, data entry, administrative support staff and other areas. On March 4, 2013 the name was changed to Staffing 360 Solutions, LLC.

Basis of presentation and going concern

Management acknowledges its responsibility for the preparation of the accompanying interim consolidated financial statements which reflect all adjustments, consisting of normal recurring adjustments, considered necessary in its opinion for a fair statement of its consolidated financial position and the consolidated results of its operations for the interim period presented. The accompanying unaudited consolidated financial statements for the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (the "U.S.") for interim financial information and with the instructions to Form 10-Q and Article 8-03 of Regulation S-X. Operating results for interim periods are not necessarily indicative of results that may be expected for the fiscal year as a whole.

The consolidated financial statements include the accounts of Staffing 360 Solutions, Inc. and its wholly-owned subsidiary, Staffing 360 Alliance, Inc. All intercompany balances and transactions have been eliminated in consolidation.

Through August 2012, the Company was presented as a development stage company. Activities during the development stage included organizing the business and raising capital. In September 2012, Staffing Alliance commenced operations and the Company began to generate revenues. Since the Company has a limited operating history, there is only a limited basis upon which to evaluate the Company's performance and its prospects for achieving its intended business objectives. Accordingly, these consolidated financial statements have been prepared on a going concern basis, which implies the Company will continue to meet its obligations and continue its operations for the next fiscal year. Realization value may be substantially different from carrying values as shown and these financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should Staffing 360 Solutions, Inc. is unable to continue as a going concern. As of February 28, 2013, the Company has a working capital deficiency of \$1,424,995, and has an accumulated deficit of \$1,475,475, and for the nine months ended February 28, 2013 has a net loss and net cash used in operations of \$1,210,915 and \$781,524, respectively. The continuation of the Company as a going concern is dependent upon the continued financial support from its major shareholders, the ability of the Company to obtain necessary equity financing to continue operations, and the attainment of profitable operations. These factors raise substantial doubt regarding the Company's ability to continue as a going concern.

These consolidated financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States, and are expressed in U.S. dollars. The Company's fiscal year-end is May 31.

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**FEBRUARY 28, 2013**

**NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Use of estimates

The preparation of consolidated financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net revenue and expenses in the reporting period. We regularly evaluate our estimates and assumptions related to stock-based compensation and deferred income tax assets valuation allowances. We base our estimates and assumptions on current facts, historical experience and various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by us may differ materially and adversely from our estimates. To the extent there are material differences between our estimates and the actual results, our future results of operations will be affected. Significant estimates in the nine months ended February 28, 2013 and February 29, 2012 include the valuation of deferred tax assets.

Cash and cash equivalents

The Company considers all highly liquid instruments with original maturities of three months or less when acquired, to be cash equivalents. We had no cash equivalents at February 28, 2013 or May 31, 2012.

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**FEBRUARY 28, 2013**

**NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Accounts receivable

Accounts receivable are presented net of an allowance for doubtful accounts. The Company maintains allowances for doubtful accounts for estimated losses. The Company reviews the accounts receivable on a periodic basis and makes general and specific allowances when there is doubt as to the collectability of individual balances. In evaluating the collectability of individual receivable balances, the Company considers many factors, including the age of the balance, a customer's historical payment history, its current credit-worthiness and current economic trends. Accounts are written off after exhaustive efforts at collection. At February 28, 2013 and May 31, 2012, the Company did not have any allowance for doubtful accounts.

Income taxes

The Company is governed by the Income Tax Law of the United States. The Company utilizes ASC Topic 740, "Accounting for Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

The Company applied the provisions of ASC 740-10-50, "Accounting for Uncertainty in Income Taxes", which provides clarification related to the process associated with accounting for uncertain tax positions recognized in our financial statements. Audit periods remain open for review until the statute of limitations has passed. The completion of review or the expiration of the statute of limitations for a given audit period could result in an adjustment to the Company's liability for income taxes. Any such adjustment could be material to the Company's results of operations for any given quarterly or annual period based, in part, upon the results of operations for the given period. As of February 28, 2013 and May 31, 2012, management believes the Company had no material uncertain tax positions, and will continue to evaluate for uncertain positions in the future.

Revenue recognition

In accordance with ASC Topic 605-45 “Revenue Recognition – Principal Agent Considerations”, the Company reports revenues for transactions in which it is the primary obligor on a gross basis and revenues in which it acts as an agent on a net basis, net of related costs.

Pursuant to the guidance of ASC 605 and ASC 360, the Company recognizes revenue when persuasive evidence of an arrangement exists, services have been rendered, the purchase price is fixed or determinable and collectability is reasonably assured.

Stock-based compensation

The Company accounts for stock-based instruments issued to employees in accordance with ASC Topic 718. ASC Topic 718 requires companies to recognize in the statement of operations the grant-date fair value of stock options and other equity based compensation issued to employees. The Company accounts for non-employee share-based awards in accordance with ASC Topic 505-50.

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**FEBRUARY 28, 2013**

**NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Net loss per share of common stock

Basic net loss per common share is computed by dividing net loss available to common shareholders by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. All potentially dilutive common shares were excluded from the computation of diluted shares outstanding as they would have an anti-dilutive impact on the Company's net losses. Potential dilutive securities include securities issuable upon the future conversion of convertible debt (see Note 2) and upon the attainment of certain milestones pursuant to an employment agreement (see Note 5).

Forward stock split

The Company effected a one-for-three forward stock split on April 13, 2012. All share and per share information has been retroactively adjusted to reflect this forward stock split.

Recent accounting pronouncements

Accounting standards that have been issued or proposed by FASB that do not require adoption until a future date are not expected to have a material impact on the financial statements upon adoption.

**NOTE 2 – CONVERTIBLE NOTES PAYABLE**

Pursuant to a term sheet whereby the Company is offering for sale promissory notes in the aggregate principal amount of up to \$500,000 to provide funds for expenses related to the acquisition of a privately held staffing company, the Company entered into Note Purchase Agreements and related Note Agreements (the "Note Agreements").

Pursuant to the Note Agreements, on March 5, 2012, May 4, 2012, August 13, 2012, August 20, 2012, September 14, 2012 and October 4, 2012, the Company issued Notes in the principal amount of \$50,000, \$200,000 and \$70,000, \$30,000, \$50,000 and \$25,000 (the "Notes"), respectively. The Notes bear interest at the rate of 12% per annum and were due on February 20, 2013. The note holders totaling \$375,000 have extended their maturity dates to July 20, 2013 and one note holder totaling \$50,000 has extended the maturity date to June 15, 2013. Interest shall accrue and be payable on the last day of every fiscal quarter commencing on the first calendar quarter subsequent to the respective Note date and ending on the Maturity Date. The Company shall not have the right to prepay these Notes. However, within 15 days following the closing of an acquisition of a suitable platform company and prior to the extended due date, the Company will pay the Notes (principal amount and accrued but unpaid interest) by delivering to the holders shares of common stock of the Company at a common stock price equal to 50% of the following: (i) if the securities sold in the equity raise ("PIPE") consist solely of common stock, the per share price of the common stock; (ii) if the securities sold in the PIPE consist solely common stock and securities exercisable for (*e.g.* warrants) or convertible into (*e.g.* convertible preferred stock or convertible debt) or common stock, the lowest of the per share price of the common stock and the exercise or conversion price of the other securities; and (iii) if the securities sold in the PIPE consist solely of securities exercisable for or convertible into common stock, the lowest of the exercise price or conversion price of such securities.

On January 17, 2013, the Company closed a financing, by entering into a Note Purchase Agreement with an investor whereby the Company sold to the Holder a certain Promissory Note for the principal amount of \$750,000.

The Promissory Note accrues interest at a rate of 12% per annum on the aggregate principal amount, payable on July 20, 2013 (the "Maturity Date"). If the Payment Date occurs prior to the Maturity Date, the Promissory Note is subject to a mandatory conversion into shares of the Company's common stock, par value \$0.00001 per share on the later of the date on which the Company: (i) acquires an operating company in the Staffing industry, or (ii) closes the issuance and sale of equity securities in connection with the Target Acquisition. The shares of Common Stock issuable upon conversion of the Promissory Note shall equal: (i) the principal amount of the Promissory Note and the accrued interest thereon divided by (ii) 50% of the per share price at which shares of common stock were sold in the PIPE Financing. We do not have the right to prepay the Promissory Note.

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**FEBRUARY 28, 2013**

**NOTE 2 – CONVERTIBLE NOTES PAYABLE (continued)**

Since the convertible notes include an embedded conversion feature, management evaluated this feature to determine whether it meets the definition of a beneficial conversion feature (“BCF”) within the scope of ASC 470-20, “Debt with Conversion and Other Options”. The Note holders shall have the option to exchange all or a portion of the face amount of the Notes, plus any accrued and unpaid interest thereon, into the applicable dollar amount of any other securities issued by the Company in connection with the subsequent financing, at a conversion price equal to 50% of the subsequent financing offering price. In accordance with ASC 470-20, which deals with instruments containing a fixed percentage conversion feature dependent on a future event, the Company estimated the intrinsic value of the beneficial conversion features at March 5, 2012, May 4, 2012, August 13, 2012, August 20, 2012, September 14, 2012, October 4, 2012 and January 17, 2013 (the “Commitment Dates”) of \$50,000, \$200,000, \$70,000, \$30,000, \$50,000, 25,000 and \$750,000, respectively. However, these amounts will only be recorded at the date the Company enters into the subsequent financing arrangement.

For the three and nine months ended February 28, 2013, interest expense related to the convertible notes amounted to \$23,178 and \$43,525, respectively, and the Company made a payment on interest due of \$1,512 and \$4,530 during the three and nine months ended February 28, 2013, respectively. At February 28, 2013 and May 31, 2012, aggregate principal due pursuant to the Note Agreements amounted to \$1,175,000 and \$250,000. Additionally, accrued and unpaid interest under the convertible notes amounted to \$41,471 and \$2,491, respectively, and is included in accrued interest on the accompanying consolidated balance sheets.

On the same day, the Board appointed Peter J. Goldstein as the Principal Financial Officer of the Company.

Biographical information for Mr. Goldstein has previously been disclosed on the Company’s Current Report on Form 8-K, filed with the Securities and Exchange Commission on March 21, 2013.

### **Limited Operating History**

We have generated no independent financial history and have not previously demonstrated that we will be able to expand our business. Our business is subject to risks inherent in growing an enterprise, including limited capital resources and possible rejection of our business model and/or sales methods.

There is no historical financial information to base an evaluation of our performance. We began to generate revenues in October 2012. We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources and possible cost overruns.

We will be seeking financing in the future in order to obtain the capital required to implement our business plan. We have no assurance that future financing will be available to us on acceptable terms. If financing is not available to us on satisfactory terms, we may be unable to continue, develop or expand our operations. Equity financing could result in additional dilution to our existing shareholders.

## **Results of Operations**

*For the three and nine months ended February 28, 2013 as compared to the three and nine months ended February 29, 2012*

### *Revenues*

We began to generate revenues in October 2012. For the three and nine months ended February 28, 2013, we had revenues of \$516,441 and \$761,286, respectively from 5 customers for whom we provided temporary staffing solutions and payroll processing services.

### *Cost of revenues*

Cost of revenues includes the cost of labor and other overhead costs. For the three and nine months ended February 28, 2013, cost of revenues was \$485,844 and \$721,112, respectively.

### *Gross profit and gross margin*

Our gross profit for the three and nine months ended February 28, 2013 was \$30,597 and \$40,174, respectively, representing gross margin of 5.9% and 5.4% respectively.

*Operating expenses*

For the three months ended February 28, 2013, operating expenses amounted to \$793,561 as compared to \$16,658 for the three months ended February 29, 2012, an increase of \$776,902 or 4,664%. For the nine months ended February 28, 2013, operating expenses amounted to \$1,206,790 as compared to \$31,239 for the nine months ended February 29, 2012, an increase of \$1,175,550 or 3,763%. For the three and nine months ended February 28, 2013 and 2012, operating expenses consisted of the following:

	Three Months Ended February 28,		Nine Months Ended February 28,	
	2013	2012	2013	2012
Compensation and benefit	\$ 55,049	\$ -	\$ 114,274	\$ -
Consulting fees - related parties	352,796	500	402,004	2,000
Rent	26,525	-	29,991	-
Rent - related parties	-	500	4,500	2,000
Professional fees	309,373	13,517	554,675	16,734
Other general and administrative	49,818	2,141	101,346	10,505
Total operating expenses	\$ 793,560	\$ 16,658	\$ 1,206,790	\$ 31,239

For the three and nine months ended February 28, 2013, the increase in our operating expenses as compared to the three and nine months ended February 28, 2012 was primarily attributable to:

An increase in compensation and benefit of \$55,049 and \$114,274, respectively. In February 2012, we hired our chief executive officer pursuant to an employment agreement.

An increase in consulting fees to related parties incurred for administrative overhead services and business development services of \$352,296 and \$400,004, respectively. We expect the expense to continue to increase in the near future as we implement our business plan.

An increase in rent for office space used by us of \$26,525 and \$29,991, respectively.

An increase in rent to related parties for office space used by us of \$2,500 for the nine months ended February 28, 2013 as compared to the corresponding period of 2012.

For the three and nine months ended February 28, 2013, we incurred professional fees of \$309,373 and \$554,675, respectively, including consulting fees of \$245,295 and \$427,025 for business development services, accounting fees of \$23,250 and \$26,200, legal fees of \$30,000 and \$69,095, stock transfer fees of \$4,000 and \$16,000, and other professional fees of \$0 and \$4,520, respectively. We expect professional fees to increase substantially as we incur significant costs associated with our public company reporting requirements, costs associated with newly applicable corporate governance requirements, including requirements under the Sarbanes-Oxley Act of 2002 and other rules implemented by the Securities and Exchange Commission and professional fees in connection with our new business model.

We also experienced an increase of \$49,818 and \$101,346, respectively, in general and administrative expenses in the three and nine months ended February 28, 2013 as compared to the three and nine months ended February 29, 2012 and expect these expenses to increase in the near future as we implement our business plan.

#### *Other Expenses*

For the three and nine months ended February 28, 2013, we incurred interest expense of \$23,273 and \$43,620, respectively, related to outstanding convertible notes payable. For the three and nine months ended February 28, 2013, we incurred interest expense of \$171 and \$679, respectively, related to related parties notes payable. We did not incur interest expense in the three and nine months ended February 28, 2012.

#### *Net Loss*

As a result of the factors described above, our net losses for the three months ended February 28, 2013 and 2012 were \$786,408 and \$16,658, respectively, or a net loss per common share of \$0.10 and \$0.01 (basic and diluted), respectively. Our net losses for the nine months ended February 28, 2013 and 2012 were \$1,210,913 and \$31,239, respectively, or a net loss per common share of \$0.16 and \$0.02 (basic and diluted), respectively.

#### **Liquidity and Capital Resources**

Liquidity is the ability of a company to generate funds to support its current and future operations, satisfy its obligations, and otherwise operate on an ongoing basis. We have been funding our operations through the sale of our promissory notes and from advances from our majority shareholders/officers/directors.

Through August 2012, the Company was presented as a development stage company. Activities during the development stage included organizing the business and raising capital. In September 2012, Staffing Alliance commenced operations and the Company began to generate revenues. Since the Company has a limited operating history, there is only a limited basis upon which to evaluate the Company's performance and its prospects for achieving its intended business objectives. Accordingly, these consolidated financial statements have been prepared on a going concern basis, which implies the Company will continue to meet its obligations and continue its operations for the next fiscal year. Realization value may be substantially different from carrying values as shown and these financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should Staffing 360 Solutions, Inc. is unable to continue as a going concern. As of February 28, 2013, the Company has a working capital deficiency of \$1,424,995, and has an accumulated deficit of \$1,475,475, and for the nine months ended February 28, 2013 has a net loss and net cash used in operations of \$1,210,915 and \$781,524, respectively. The continuation of the Company as a going concern is dependent upon the continued financial support from its major shareholders, the ability of the Company to obtain necessary equity financing to continue operations, and the attainment of profitable operations. These factors raise substantial doubt regarding the Company's ability to continue as a going concern.

Our primary uses of cash have been for professional fees related to our operations and financial reporting requirement and for the payment of compensation and benefits and consulting fees to related parties. All funds received have been expended in the furtherance of growing the business and implementing our business plan. The following trends are reasonably likely to result in a material decrease in our liquidity over the near to long term:

- An increase in working capital requirements to finance targeted acquisitions,
- Addition of administrative and sales personnel as the business grows,
- Increases in advertising, public relations and sales promotions for existing and new brands as we expand within existing markets or enters new markets,
- The cost of being a public company, and
- Capital expenditures to add technologies.

We are not aware of any known trends or any known demands, commitments or events that will result in our liquidity increasing or decreasing in any material way. We are not aware of any matters that would have an impact on future operations.

In October 2012, we began to generate revenues. At February 28, 2013, we had cash of \$166,593. We have funded our operations as follows:

Pursuant to a term sheet whereby we are offering for sale promissory notes in the aggregate principal amount of up to \$500,000 to provide funds for expenses related to the acquisition of a privately held staffing company, during the period from March 2012 through November 2012, we entered into Note Purchase Agreements and a related Note Agreements (the "Note Agreements"). Pursuant to the Note Agreements, we issued Notes in the aggregate principal amount of \$425,000 (the "Notes"). The Notes bear interest at the rate of 12% per annum and are due on February 20, 2013 (the "Maturity Date"). Interest shall accrue and be payable on the last day of every fiscal quarter and on the Maturity Date. We shall not have the right to prepay these Notes. However, within 15 days following the closing of an acquisition of a suitable platform company, we will pay the Notes (principal amount and accrued but unpaid interest) by delivering to the holders shares of common stock of us at a common stock price equal to 50% of the following: (i) if the securities sold in the equity raise ("PIPE") consist solely of common stock, the per share price of the common stock; (ii) if the securities sold in the PIPE consist solely common stock and securities exercisable for (e.g. warrants) or convertible into (e.g. convertible preferred stock or convertible debt) or common stock, the lowest of the per share price of the common stock and the exercise or conversion price of the other securities; and (iii) if the securities sold in the PIPE consist solely of securities exercisable for or convertible into common stock, the lowest of the exercise price or conversion price of such securities.

On January 17, 2013, the Company closed a financing, by entering into a Note Purchase Agreement with an investor whereby the Company sold to the Holder a certain Promissory Note for the principal amount of \$750,000. The Promissory Note accrues interest at a rate of 12% per annum on the aggregate principal amount, payable on July 20, 2013 (the "Maturity Date"). If the Payment Date occurs prior to the Maturity Date, the Promissory Note is subject to a mandatory conversion into shares of the Company's common stock, par value \$0.00001 per share on the later of the date on which the Company: (i) acquires an operating company in the Staffing industry, or (ii) closes the issuance and sale of equity securities in connection with the Target Acquisition. The shares of Common Stock issuable upon conversion of the Promissory Note shall equal: (i) the principal amount of the Promissory Note and the accrued interest thereon divided by (ii) 50% of the per share price at which shares of common stock were sold in the PIPE Financing. We do not have the right to prepay the Promissory Note

During the nine months ended February 28, 2013, we entered into various note agreements with Trilogy Capital Partners, Inc. ("Trilogy Capital"), a company majority owned by Company's president and director in the aggregate amount of \$17,000 and we made repayment of \$11,000 for these notes. These notes are unsecured, bear interest at 5.0% and are due one year from the respective note date.

During the nine months ended February 28, 2013, we entered into various note agreements with a Robert Y. Lee and Grandview Capital Corp. shareholders of TRIG in the aggregate amount of \$19,750 and we made repayment of \$27,600 for these notes. These notes are unsecured, bear interest at 5.0% and are due one year from the respective

note date.

We currently have no material commitments for capital expenditures. We must raise funds to implement our business plan in order to pursue the acquisition of a broad spectrum of staffing agencies in the IT, financial, accounting, healthcare and banking industries and for working capital. Currently, we are unable to generate positive cash flow as a result of our operations. We estimate that based on current plans and assumptions, that our available cash will not be sufficient to satisfy our cash requirements under our present operating expectations, without further financing, for up to 12 months. Currently, we do not have sufficient working capital to fund the expansion of our operations and to provide working capital necessary for our ongoing operations and obligations. We will need to raise significant additional capital to fund our operating expenses, pay our obligations, and grow our company. Therefore our future operations will be dependent on our ability to secure additional financing. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. However, the trading price of our common stock and a downturn in the U.S. equity and debt markets could make it more difficult to obtain financing through the issuance of equity or debt securities. Even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Furthermore, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. The inability to obtain additional capital will restrict our ability to grow and may reduce our ability to continue to conduct business operations. If we are unable to obtain additional financing, we will likely be required to curtail our marketing and development plans and possibly cease our operations.

We anticipate that depending on market conditions and our plan of operations, we may incur operating losses in the foreseeable future. Therefore, our auditors have raised substantial doubt about our ability to continue as a going concern.

Our liquidity may be negatively impacted by the significant costs associated with our public company reporting requirements, costs associated with newly applicable corporate governance requirements, including requirements under the Sarbanes-Oxley Act of 2002 and other rules implemented by the Securities and Exchange Commission. We expect all of these applicable rules and regulations to significantly increase our legal and financial compliance costs and to make some activities more time consuming and costly.

#### *Operating activities*

For the nine months ended February 28, 2013, net cash flows used in operating activities amounted to \$781,524 and was attributable to our net loss of \$1,210,915, and the use of cash from changes in operating assets and liabilities such as: an increase in accounts receivable of \$74,842, offset by the receipt of cash from the changes in operating assets and liabilities such as: a decrease in prepaid expenses of \$768, an increase in accounts payable of \$310,765, an increase in accounts payable – related parties of \$153,041, an increase in accrued interest of \$38,980 and an increase in accrued interest - related parties of \$679.

For the nine months ended February 28, 2012, net cash flows used in operating activities amounted to \$27,000 and was attributable to our net loss of \$31,239, offset by the add back of the non-cash item of donated services and rent expense of \$4,000, and changes in operating assets and liabilities such as: a decrease in accounts payable of \$2,562, an increase in accounts payable – related parties of \$2,801 of \$250.

#### *Financing activities*

For the nine months ended February 28, 2013, net cash flows provided by financing activities was \$929,250 and was attributable to proceeds from convertible notes payable of \$925,000, and cash received from related parties notes of \$36,750, offset by the repayment of related parties notes of \$32,500. For the nine months ended February 28, 2012, net cash flows provided by financing activities was \$27,000 and was attributable to the sale of our common stock.

#### **Contractual Obligations**

We have certain fixed contractual obligations and commitments that include future estimated payments. Changes in our business needs, cancellation provisions, changing interest rates, and other factors may result in actual payments differing from the estimates. We cannot provide certainty regarding the timing and amounts of payments. We have presented below a summary of the most significant assumptions used in our determination of amounts presented in the tables, in order to assist in the review of this information within the context of our financial position, results of operations, and cash flows.

The following tables summarize our contractual obligations as of February 28, 2013 and the effect these obligations are expected to have on our liquidity and cash flows in future periods.

Contractual obligations	Total	less than 1 year	1-3 Years	3-5 Years	5+ Years
Convertible notes payable	\$1,175,000	\$ 1,175,000	\$ -	\$ -	\$ -

### Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

### Critical Accounting Policies and Estimates

Our significant accounting policies are more fully described in Note 1 to our financial statements for the nine months ended February 28, 2013 contained herein. We believe that the following accounting policies are the most critical to aid you in fully understanding and evaluating this management discussion and analysis.

Our consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We continually evaluate our estimates, including those related to income taxes, and the valuation of equity transactions. We base our estimates on historical experience and on various other assumptions that we believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Any future changes to these estimates and assumptions could cause a material change to our reported amounts of revenues, expenses, assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

#### Revenue recognition

In accordance with ASC Topic 605-45 “Revenue Recognition – Principal Agent Considerations”, the Company reports revenues for transactions in which it is the primary obligor on a gross basis and revenues in which it acts as an agent on a net basis, net of related costs.

Pursuant to the guidance of ASC 605 and ASC 360, the Company recognizes revenue when persuasive evidence of an arrangement exists, services have been rendered, the purchase price is fixed or determinable and collectability is reasonably assured.

#### Stock-based compensation

We account for stock-based instruments issued to employees in accordance with ASC Topic 718. ASC Topic 718 requires companies to recognize in the statement of operations the grant-date fair value of stock options and other equity based compensation issued to employees. There were no options outstanding as of February 28, 2013. We account for non-employee share-based awards in accordance with ASC Topic 505-50.

## **Recent Accounting Pronouncements**

Accounting standards that have been issued or proposed by FASB that do not require adoption until a future date are not expected to have a material impact on us upon adoption.

## **Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

## **ITEM 4. CONTROLS AND PROCEDURES**

### **Item 4. Controls and Procedures.**

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act (defined below)). Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered in this report, our disclosure controls and procedures were not effective to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the required time periods and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Accordingly, management believes that the financial statements included in this report fairly present in all material respects our financial condition, results of operations and cash flows for the periods presented.

## **Changes in Internal Control Over Financial Reporting**

In addition, our management with the participation of our Principal Executive Officer and Principal Financial Officer have determined that no change in our internal control over financial reporting occurred during or subsequent to the quarter ended February 28, 2013 that has materially affected, or is (as that term is defined in Rules 13(a)-15(f) and 15(d)-15(f) of the Securities Exchange Act of 1934) reasonably likely to materially affect, our internal control over financial reporting.

## **PART II – OTHER INFORMATION**

### **Item 1. Legal Proceedings.**

From time to time, we may become involved in various lawsuits and legal proceedings, which arise, in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. We are currently not aware of any such legal proceedings or claims that we believe will have a material adverse effect on our business, financial condition or operating results.

### **Item 1A. Risk Factors.**

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

None.

**Item 3. Defaults Upon Senior Securities.**

None.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**Item 5. Other Information.**

**Change in Officers and Directors**

On June 14, 2012 Alida Heyer submitted her resignation as a member of the Board of Directors of the Company (the "Board"), effective immediately. Ms. Heyer's resignation was not a result of any disagreement with the Company or its executive officers, or any matter relating to the Company's operations, policies or practices. On June 15, 2012, the Board appointed Dimitri Villard to fill the vacancy.

On April 15, 2013, David Horin, notified the Company that he would resign from his position as Chief Financial Officer of the Company, effective immediately. Mr. Horin's resignation was not a result of any disagreement with the Company or its executive officers, or any matter relating to the Company's operations, policies or practices. On the same day, the Board appointed Peter J. Goldstein as the Principal Financial Officer of the Company.

Biographical information for Mr. Goldstein has previously been disclosed on the Company's Current Report on Form 8-K, filed with the Securities and Exchange Commission on March 21, 2013.

**Dimitri Villard, 67, Director.** Dimitri Villard has been a director of the Company since June 2012.
