NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1: Summary of Significant Accounting Policies

Principles of Consolidation: The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial reporting and with applicable quarterly reporting regulations of the Securities and Exchange Commission (the SEC). They do not include all of the information and notes required by U.S. GAAP for complete financial statements. Therefore, these consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the C&F Financial Corporation Annual Report on Form 10-K for the year ended December 31, 2010.

The unaudited consolidated financial statements include the accounts of C&F Financial Corporation (the Corporation) and its wholly-owned subsidiary, Citizens and Farmers Bank (the Bank or C&F Bank). All significant intercompany accounts and transactions have been eliminated in consolidation. In addition, C&F Financial Corporation owns C&F Financial Statutory Trust I and C&F Financial Statutory Trust II, which are unconsolidated subsidiaries. The subordinated debt owed to these trusts is reported as a liability of the Corporation.

Nature of Operations: The Corporation is a bank holding company incorporated under the laws of the Commonwealth of Virginia. The Corporation owns all of the stock of its subsidiary, C&F Bank, which is an independent commercial bank chartered under the laws of the Commonwealth of Virginia. The Bank and its subsidiaries offer a wide range of banking and related financial services to both individuals and businesses.

The Bank has five wholly-owned subsidiaries: C&F Mortgage Corporation and Subsidiaries (C&F Mortgage), C&F Finance Company (C&F Finance), C&F Title Agency, Inc., C&F Investment Services, Inc. and C&F Insurance Services, Inc., all incorporated under the laws of the Commonwealth of Virginia. C&F Mortgage, organized in September 1995, was formed to originate and sell residential mortgages and through its subsidiaries, Hometown Settlement Services LLC and Certified Appraisals LLC, provides ancillary mortgage loan production services, such as loan settlements, title searches and residential appraisals. C&F Finance, acquired on September 1, 2002, is a regional finance company providing automobile loans. C&F Title Agency, Inc., organized in October 1992, primarily sells title insurance to the mortgage loan customers of the Bank and C&F Mortgage. C&F Investment Services, Inc., organized in April 1995, is a full-service brokerage firm offering a comprehensive range of investment services. C&F Insurance Services, Inc., organized in July 1999, owns an equity interest in an insurance agency that sells insurance products to customers of the Bank, C&F Mortgage and other financial institutions that have an equity interest in the agency. Business segment data is presented in Note 9.

Basis of Presentation: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, the allowance for indemnifications, impairment of loans, impairment of securities, the valuation of other real estate owned, the projected benefit obligation under the defined benefit pension plan, the valuation of deferred taxes, the valuation of derivative financial instruments and goodwill impairment. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, which are necessary for a fair presentation of the results of operations in these financial statements, have been made. Certain reclassifications have been made to prior period amounts to conform to the current period presentation.

Derivative Financial Instruments: The Corporation recognizes derivative financial instruments at fair value as either an other asset or other liability in the consolidated balance sheets. The derivative financial instruments have been designated as and qualify as cash flow hedges. The effective portion of the gain or loss on cash flow hedges is reported as a component of other comprehensive income, net of deferred income taxes, and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

Share-Based Compensation: Compensation expense for the second quarter and first six months of 2011 included net forfeitures of $25,000 ($15,000 after tax benefit) and net expense of $132,000 ($82,000 after tax), respectively, for restricted stock granted since 2006. As of June 30, 2011, there was $1.06 million of total unrecognized compensation expense related to unvested restricted stock that will be recognized over the remaining requisite service periods.

Recent Significant Accounting Pronouncements:

In July 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-20, Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses (ASU 2010-20). The new disclosure guidance significantly expands the existing disclosure requirements and is intended to lead to greater transparency into a company's exposure to credit losses from lending arrangements. The extensive new disclosures of information as of the end of a reporting period became effective for both interim and annual reporting periods ending after December 15, 2010. Specific items regarding activity that occurred before the issuance of the ASU, such as the allowance rollforward and modification disclosures, are required for periods beginning after December 15, 2010. The adoption of ASU 2010-20 did not have a material effect on the Corporation's consolidated financial statements. The required disclosures have been included in the Corporation's consolidated financial statements.

In December 2010, the FASB issued ASU 2010-28, When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts. The amendments in this ASU modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. For public entities, the amendments in this ASU were effective for fiscal years, and interim periods within those years, beginning after December 15, 2010. Early adoption was not permitted. The adoption of the new guidance did not have a material effect on the Corporation's consolidated financial statements.

In April 2011, the FASB issued ASU 2011-02, A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring. The amendments in this ASU are intended to provide guidance to allow a creditor to determine whether a restructuring is a troubled debt restructuring (TDR) by clarifying the guidance on a creditor's evaluation of whether it has granted a concession or not and whether a debtor is experiencing financial difficulties or not. The amendments in this ASU are effective for periods beginning after June 15, 2011 and should be applied retrospectively to the beginning of the annual period of adoption. Upon adoption, the disclosure requirements promulgated in ASU 2010-20 related to TDRs will become effective. The adoption of ASU 2011-02 is not expected to have a material effect on the Corporation's consolidated financial statements.

In April 2011, the FASB issued ASU 2011-03, Transfers and Servicing – Reconsideration of Effective Control for Repurchase Agreements. The amendments in this ASU remove from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee and (2) the collateral maintenance implementation guidance related to that criterion. The amendments in this ASU are effective for the first interim or annual period beginning on or after December 15, 2011. The guidance should be applied prospectively to transactions or modification of existing transactions that occur on or after the effective date. The adoption of the new guidance is not expected to have a material effect on the Corporation's consolidated financial statements.

Table of Contents

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. This ASU is the result of joint efforts by the FASB and the International Accounting Standards Board to develop a single, converged fair value framework on how (not when) to measure fair value and what disclosures to provide about fair value measurements. The ASU is largely consistent with existing fair value measurement principles in U.S. GAAP, with many of the amendments made to eliminate unnecessary wording differences between U.S. GAAP and International Financial Reporting Standards. The amendments are effective for interim and annual periods beginning after December 15, 2011, with prospective application. The adoption of the amendments is not expected to have a material effect on the Corporation's consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income – Presentation of Comprehensive Income. The objective of this ASU is to improve the comparability, consistency and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income by eliminating the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments require that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments do not change the items that must be reported in other comprehensive income, the option for an entity to present components of other comprehensive income either net of related tax effects or before related tax effects, or the calculation or reporting of earnings per share. The amendments in this ASU should be applied retrospectively. The amendments are effective for fiscal years and interim periods within those years beginning after December 15, 2011. Early adoption is permitted because compliance with the amendments is already permitted. The amendments do not require transition disclosures. The adoption of the amendments is not expected to have a material effect on the Corporation's consolidated financial statements.

The SEC issued Final Rule No. 33-9002, Interactive Data to Improve Financial Reporting. The rule requires companies to submit financial statements in extensible business reporting language (i.e., XBRL) format with their SEC filings on a phased-in schedule. Based on this schedule, the Corporation is required to provide interactive data reports starting with the quarterly report for the period ending June 30, 2011. The rule had no effect on the Corporation's consolidated financial statements. The interactive data reports have been included in this quarterly report as Exhibit 101.

There are 40 debt securities with fair values totaling $11.98 million considered temporarily impaired at June 30, 2011. The primary cause of the temporary impairments in the Corporation's investments in debt securities was fluctuations in interest rates. During the second quarter of 2011, the municipal bond sector, which is included in the Corporation's obligations of states and political subdivisions category of securities, experienced rising securities prices given overall lower interest rates and the continued limited supply of new municipal bond issuances. The drop in supply was due to Congress not reauthorizing the Build America Bond program to continue after 2010 and reluctance on the part of municipalities to incur more debt service given the challenges many face in balancing budgets. The vast majority of the Corporation's municipal bond portfolio is made up of securities where the issuing municipalities have unlimited taxing authority to support their debt servicing obligations. At June 30, 2011, approximately 95 percent of the Corporation's obligations of states and political subdivisions, as measured by market value, were rated "A" or better by Standard & Poor's or Moody's Investors Service. Of those in a net unrealized loss position, approximately 90 percent were rated "A" or better, as measured by market value, at June 30, 2011. Because the Corporation intends to hold these investments in debt securities to maturity and it is more likely than not that the Corporation will not be required to sell these investments before a recovery of unrealized losses, the Corporation does not consider these investments to be other-than-temporarily impaired at June 30, 2011 and no other-than-temporary impairment has been recognized.

The Corporation's investment in Federal Home Loan Bank (FHLB) stock totaled $3.83 million at June 30, 2011 and $3.89 million at December 31, 2010. FHLB stock is generally viewed as a long-term investment and as a restricted investment security, which is carried at cost, because there is no market for the stock, other than the FHLBs or member institutions. Therefore, when evaluating FHLB stock for impairment, its value is based on the ultimate recoverability of the par value rather than by recognizing temporary declines in value. The Corporation does not consider this investment to be other-than-temporarily impaired at June 30, 2011 and no impairment has been recognized. FHLB stock is shown as a separate line item on the balance sheet and is not a part of the available for sale securities portfolio.
