Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period to which the information in this form applies:

Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to  
 December 31, 2017.

**Introduction:**

Varian Medical Systems, Inc. is a Delaware corporation originally incorporated in 1948 as Varian Associates, Inc. Varian Medical Systems, Inc. and subsidiaries are referred to herein as the “Company.”

The Company is the world’s leading manufacturer of medical devices and software for treating cancer and other medical conditions with radiotherapy, stereotactic radiosurgery, stereotactic body radiotherapy, brachytherapy and proton therapy. Our mission is to combine the ingenuity of people with the power of data and technology to achieve new victories against cancer. To meet this challenge, we offer comprehensive solutions for fighting cancer.

**Item 1.01. Conflict Minerals Disclosure and Report**

The Company has concluded in good faith that during 2017,

- a) The Company has manufactured and contracted to manufacture products as to which “conflict minerals” (as defined in Section 1, Item 1.01 (d) (3) of Form SD) are necessary to the functionality or production of such products.

Based on a “reasonable country of origin inquiry”, the Company knows or has reason to believe that a portion of its necessary conflict minerals originated or may have originated in the Democratic Republic of the Congo or an adjoining country (collectively, sometimes referred to as the “Covered Countries”). Further the Company has determined that smelters and refiners identified as sourcing from the Covered Countries have been audited by the Responsible Minerals Initiative (RMI) and validated as “compliant”.

The Company’s reasonable country of origin inquiry employed a combination of measures to determine whether the necessary conflict minerals in any of the Company’s products originated from the Covered Countries. The Company’s primary means of determining country of origin of necessary conflict minerals was by conducting a supply-chain survey with direct vendors using the Responsible Business Alliance/Global e-Sustainability Initiative (RBA/GeSI) Conflict Minerals Reporting Template. The Company surveyed its direct vendors that were determined to have or had a high likelihood of containing tin, tantalum, tungsten or gold in their products. Additionally, the Company used the RMI website (<http://www.responsiblemineralsinitiative.org/>), smelter company websites, and other online tools to provide additional country of origin information.

Below is a summary of the information collected from all supply-chain survey respondents.

<b>Conflict Mineral</b>	<b>Countries of Origin</b>
Gold	Benin, Bolivia, Burkina Faso, Canada, Chile, Colombia, Ecuador, Eritrea, Ghana, Guatemala, Guinea, Guyana, Honduras, Mali, Nicaragua, Panama, Peru, Russian Federation, Senegal, Togo, United States, South Africa
