CORVEL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2012

Note A Basis of Presentation and Summary of Significant Accounting Policies

The unaudited financial statements herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. The accompanying interim financial statements have been prepared under the presumption that users of the interim financial information have either read or have access to the audited financial statements for the latest fiscal year ended March 31, 2012. Accordingly, footnote disclosures which would substantially duplicate the disclosures contained in the March 31, 2012 audited financial statements have been omitted from these interim financial statements.

The Company evaluated all subsequent events or transactions through the date of filing this report. During the period subsequent to December 31, 2012, the Company repurchased 51,710 shares for \$2,279,000 for an average of \$44.06 per share. These shares were repurchased under the Company's ongoing share repurchase program described in Note C. In January, the Company entered into a three year agreement totaling \$3.5 million for desktop software licenses; the license period begins April 1, 2013.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the three and nine months ended December 31, 2012 are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2013. For further information, refer to the consolidated financial statements and footnotes for the fiscal year ended March 31, 2012 included in the Company's Annual Report on Form 10-K.

Basis of Presentation: The consolidated financial statements include the accounts of CorVel and its subsidiaries. Significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates: The preparation of financial statements in compliance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the accompanying financial statements. Actual results could differ from those estimates. Significant estimates include the values assigned to intangible assets, capitalized software development, the allowance for doubtful accounts, accrual for income taxes, share-based payments related to performance based awards, loss contingencies, estimated claims for claims administration revenue recognition, estimates used in stock options valuations, and accrual for self-insurance reserves.

Cash and Cash Equivalents: Cash and cash equivalents consist of short-term highly-liquid investment-grade interest-bearing securities with maturities of 90 days or less when purchased. The carrying amounts of the Company's financial instruments approximate their fair values at March 31, 2012 and December 31, 2012.

CORVEL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2012

Note A Basis of Presentation and Summary of Significant Accounting Policies (continued)

Fair Value of Financial Instruments: The Company applies ASC 820, Fair Value Measurements and Disclosures which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements with respect to fair value measurements of (a) nonfinancial assets and liabilities that are recognized or disclosed at fair value in the Company's Consolidated Financial Statements on a recurring basis (at least annually) and (b) all financial assets and liabilities. ASC 820 prioritizes the inputs used in measuring fair value into the following hierarchy:

Level 1 Quoted market prices in active markets for identical assets or liabilities;

Level 2 Observable inputs other than those included in Level 1 (for example, quoted prices for similar assets in active markets or quoted prices for identical assets in inactive markets); and

Level 3 Unobservable inputs reflecting management's own assumptions about the inputs used in estimating the value of the asset.

The carrying amount of the Company's financial instruments (i.e. cash, accounts receivable, accounts payable, etc.) are all Level 1 and approximate their fair values at March 31, 2012 and December 31, 2012. The Company has no Level 2 or Level 3 assets.

Goodwill: The Company accounts for its business combinations in accordance with the Financial Accounting Standards Board (FASB) ASC 805-10 through ASC 805-50 *Business Combinations* which requires that the purchase method of accounting be applied to all business combinations and addresses the criteria for initial recognition of intangible assets and goodwill. In accordance with FASB ASC 350-10 through ASC 350-30, goodwill and other intangible assets with indefinite lives are not amortized but are tested for impairment annually, or more frequently if circumstances indicate the possibility of impairment. If the carrying value of goodwill or an intangible asset exceeds its fair value, an impairment loss shall be recognized.

Revenue Recognition: The Company recognizes revenue when there is persuasive evidence of an arrangement, the services have been provided to the customer, the sales price is fixed or determinable, and collectability is reasonably assured. For the Company's services, as the Company's professional staff performs work, they are contractually permitted to bill for fees earned in fraction of an hour increments worked or by units of production. The Company recognizes revenue as the time is worked or as units of production are completed, which is when the revenue is earned and realized. Labor costs are recognized as the costs are incurred. The Company derives its revenue from the sale of Network Solutions and Patient Management services. Network Solutions and Patient Management services may be sold individually or combined. When a sale combines multiple elements, the Company accounts for multiple element arrangements in accordance with the guidance included in ASC 605-25.
