UNAUDITED PRO FORMA CONDENSED CONSOLIDATED FINANCIAL INFORMATION

The unaudited pro forma condensed consolidated financial statements were prepared to reflect the Merger. The Merger will be accounted for using the purchase method. The allocation of the purchase price reflected in the pro forma condensed consolidated balance sheet, and accordingly the pro forma adjustments as reflected in the pro forma condensed consolidated statements of income related to our new basis for assets acquired and liabilities assumed, is preliminary and is subject to change. We can give no assurance that when the final allocation of purchase price is completed the financial information will not change or that any change will not be material.

The unaudited pro forma condensed consolidated balance sheet at September 30, 2006 has been prepared to reflect the Merger as if the Merger occurred on September 30, 2006. The unaudited pro forma condensed consolidated statements of income for the year ended December 31, 2005 and the nine months ended September 30, 2006 have been prepared assuming the Merger occurred on January 1, 2005. The adjustments made in the pro forma condensed consolidated balance sheet have been made to reflect the Merger and the allocation of the purchase price and other costs of the Merger to the assets acquired and liabilities assumed. The adjustments made to the pro forma condensed consolidated statements of income have been made to reflect the effect of the Merger and reclassifications of certain items in Newkirk Realty Trust, Inc.'s historical financial statements in order to conform to our presentation. The following unaudited pro forma condensed consolidated statements of income do not purport to represent what our results of operations would actually have been if the Merger had in fact occurred as of January 1, 2005 or to project our results of operations for any future date or period.

The unaudited pro forma balance sheet reflects the dividend/distribution to be made by us pursuant to the Merger agreement at an amount equal to 125% of any dividend/distribution to be made by Newkirk Realty Trust, Inc. to maintain its REIT status and avoid imposition of entity-level income or excise taxes. In addition, the special dividend/distribution to be made by us equal to \$0.17 per common share/operating partnership unit is reflected in the pro forma balance sheet.

The pro forma adjustments are based on available information and on certain assumptions as set forth in the notes to the pro forma condensed consolidated financial statements that we believe are reasonable in the circumstances. The pro forma condensed consolidated financial statements and accompanying notes should be read in conjunction with our historical financial statements and related notes, the historical financial statements and related notes of Newkirk Realty Trust, Inc. and The Newkirk Master Limited Partnership and other documents filed by Lexington and The Lexington Master Limited Partnership & formerly known as The Newkirk Master Limited Partnership with the SEC from time to time.

As a result of the Merger, we believe that there will be certain cost efficiencies due to the economies of scale of having a larger number of facilities in certain markets. We are evaluating the potential cost savings; however, we are not able to quantify the amount of such savings at this time. Accordingly, no adjustments have been made to the unaudited pro forma condensed consolidated statements of income to reflect expected cost savings.

In the opinion of management, all significant adjustments necessary to reflect the effects of the Merger that can be factually supported have been made. The pro forma adjustments and the purchase price allocation as presented are based on estimates and certain information that is currently available to management. Such pro forma adjustments and the purchase price allocation could change as additional information becomes available, as estimates are refined or as additional events occur, including any change in our closing share price on the date the Merger is consummated. Management does not anticipate that there will be any significant changes in the total purchase price as presented in these unaudited pro forma condensed consolidated financial statements, other than those caused by changes in our share price. The closing share price on the date the Merger was consummated was \$22.42 per share, which would result in an increase in the allocable purchase price of approximately \$62.9 million.
