Southwest's public filings with the Securities and Exchange Commission. • There is no guarantee that any of the estimates, targets or projections illustrated in these materials and any presentation of which they form a part will be achieved. Any references herein to any of the Capital Southwest's past or present investments or its past or present performance, have been provided for illustrative purposes only. It should not be assumed that these investments were or will be profitable or that any future investments by Capital Southwest will be profitable or will equal the performance of these investments. • The information contained herein has been derived from financial statements and other documents provided by the portfolio companies unless otherwise stated. • Past performance is not indicative of future results. In addition, there can be no assurance that unrealized investments will be realized at the expected multiples shown as actual realized returns will depend on, among other factors, future operating results of each of Capital Southwest's current portfolio companies, the value of the assets and economic conditions at the time of disposition, any related transaction costs, and the timing and manner of sale, all of which may differ from the assumptions on which Capital Southwest's expected returns are based. In many instances, Capital Southwest will not determine the timing or manner of sale of its portfolio companies. Page 2

Forward-Looking Statements • This presentation contains forward-looking statements relating to, among other things, the business, market conditions, financial condition and results of operations of Capital Southwest, the anticipated investment strategies and investments of Capital Southwest, and future market demand. Any statements that are not statements of historical fact are forward-looking statements. Forward-looking statements are often, but not always, preceded by, followed by, or include words such as "believe," "expect," "intend," "plan," "should" or similar words, phrases or expressions or the negative thereof. These

As of September 30, 2018, there were no investments on non-accrual status. Weighted-average annual effective yield is higher than what an investor in shares in our common stock will realize on its investment because it does not reflect our expenses or any sales load paid by an investor (3) Weighted average metrics are calculated using investment cost basis weighting (4) Includes CSWC debt investments only. Calculated as the amount of each portfolio company's debt (including CSWC's position and debt senior or pari passu to CSWC's position, but excluding debt subordinated to CSWC's position) in the capital structure divided by each portfolio company's adjusted EBITDA. Management uses this metric as a guide to evaluate relative risk of its position in each portfolio debt investment Page 10
