Under the License Agreement, InPharma granted Cytogen exclusive rights for CAPHOSOL® in North America. The License Agreement also provides Cytogen with the option to acquire the rights to CAPHOSOL for the European and Asian markets.

Under Amendment No. 2 to the License Agreement, Cytogen and InPharma restructured the amounts payable by Cytogen in connection with the exercise of the option for the European and Asian marketing rights, including milestone payments and royalties based on sales levels in North America. Cytogen has engaged an investment bank to assist the Company in identifying and evaluating strategic alternatives intended to enhance the future growth potential of the Company’s pipeline and maximize shareholder value.

CAPHOSOL is an advanced electrolyte solution for the treatment of oral mucositis caused by radiation or high dose chemotherapy and dry mouth that is approved in the U.S. as a prescription medical device. Cytogen introduced CAPHOSOL to the U.S. market in March 2007.
