CITY NATIONAL CORPORATION

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. City National Corporation (the Corporation) is the holding company for City National Bank (the Bank). In light of the fact that the Bank comprises substantially all of the business of the Corporation, references to the Company mean the Corporation and the Bank together.

2. The results of operations reflect the interim adjustments, all of which are of a normal recurring nature and which, in the opinion of management, are necessary for a fair presentation of the results for the interim period presented. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2003. The results for the 2004 interim periods are not necessarily indicative of the results expected for the full year.

3. Trading account securities are stated at market value. Investments not classified as trading securities are classified as securities available-for-sale and recorded at fair value. Unrealized holding gains or losses for securities available-for-sale, net of taxes are excluded from net income and are reported as other comprehensive income included as a separate component of shareholders' equity.

4. Certain prior periods' data have been reclassified to conform to current period presentation.

5. Reserves established as purchase price adjustments for the February 29, 2000 acquisition of The Pacific Bank N.A. and for the February 28, 2002 acquisition of Civic BanCorp of \$0.6 million for exit costs relating to surplus space remain as of June 30, 2004.

6. The following table provides information about purchases by the Company during the quarter ended June 30, 2004 of equity securities that are registered by the Company pursuant to Section 12 of the Exchange Act.

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Unit)	Total number of Shares (or Units) Purchased as Part of Publicly Announced Plans	Maximum Number of Shares that May Yet Be Purchased Under the Plans
---------------	--	---	--	---

Edgar Filing: CITY NATIONAL CORP - Form 10-Q

			or Programs	or Programs
04/01/04 - 04/30/04	2,752	\$	60.81	1,016,900
05/01/04 - 05/31/04	7,949		60.07	1,009,500(2)
	10,701(1)	\$	60.26	7,400
				1,009,500

(1) We repurchased an aggregate of 7,400 shares of our common stock pursuant to a repurchase program that we publicly announced on July 15, 2003 (the Program) and we received 3,301 shares in payment of the exercise price of stock options.

(2) Our board of directors, on March 24, 2004, approved the repurchase by us of up to an aggregate of 1 million shares of our common stock pursuant to a new program to follow completion of the Program described in (1) above. Unless terminated earlier by resolution of our board of directors, the Programs will expire when we have repurchased all shares authorized for repurchase thereunder.

Basic earnings per share is based on the weighted average shares of common stock outstanding less unvested restricted shares and units. Diluted earnings per share gives effect to all dilutive potential common shares which consists of stock options and restricted shares and units that were outstanding during the period. At June 30, 2004, no stock options were antidilutive compared with 1,189,835 antidilutive stock options at June 30, 2003.

7. The Company applies APB Opinion No. 25 in accounting for stock option plans and, accordingly, no compensation cost has been recognized for its plans in the financial statements. As a practice, the Corporation's stock option grants are such that the exercise price equals the current market price of the common stock. Had the Company determined compensation cost based on the fair value at the grant date for its stock options under

Edgar Filing: CITY NATIONAL CORP - Form 10-Q

SFAS No. 123 using the Black Scholes option-pricing model, the Company's proforma net income would have been reduced to the proforma amounts indicated below:

Dollars in thousands, except for per share amounts	For the three months ended June 30,		For the six months ended June 30,	
	2004	2003	2004	2003
Net income, as reported	\$ 52,200	\$ 46,081	\$ 103,098	\$ 89,736
Proforma net income	51,387	44,529	101,562	86,717
Net income per share, basic, as reported	1.07	0.95	2.11	1.85
Proforma net income per share, basic	1.05	0.92	2.08	1.79
Net income per share, diluted, as reported	1.03	0.93	2.03	1.80
Proforma net income per share, diluted	1.01	0.90	2.00	1.74
Percentage reduction in net income per share, diluted	1.94%	3.23%	1.48%	3.33%

During the latter part of the second quarter of 2003, stock-based compensation performance awards for 2002 were granted to colleagues of the Company. These performance awards for the first time included restricted stock grants with fewer stock options, which reduced the total number of shares awarded but better aligned the interests of shareholders and colleagues. The number of shares awarded was further reduced in 2004 for stock-based compensation performance awards for 2003 when the Company took into consideration changes in the value of the Company's stock price when determining share awards. The 2004 percentage reduction in net income per share, diluted is lower because a fewer number of stock options have been awarded with a portion replaced by restricted stock awards, the cost of which is charged to noninterest expense. The Company recorded \$757,000 in expense for restricted stock awards in the second quarter of 2004 and \$1,265,000 for the first six months of 2004 compared with \$129,000 and \$129,000 for the quarter and first six months of 2003. There was no expense for restricted stock awards in the first quarter of 2003 since the first grant was not until June 2003.

The Black Scholes option-pricing model requires assumptions on expected life of the options that is based upon the pattern of exercise of options granted by the Corporation in the past; volatility based on changes in the price of the Corporation's common stock during the past 10 years, measured monthly; dividend yield and risk-free investment rate. Actual dividend payments will depend upon a number of factors, including future financial results, and may differ substantially from the assumption. The risk-free investment rate is based on the yield on 10-year U.S. Treasury Notes on the grant date.

The actual value, if any, which a grantee may realize will depend upon the difference between the option exercise price and the market price of the Corporation's common stock on the date of exercise.

8. On April 1, 2003, the Corporation acquired Convergent Capital Management LLC, a privately held Chicago-based company, and substantially all of its asset management holdings, including its majority ownership interests in eight asset management firms and minority interests in two additional firms. Combined, these 10 firms manage assets of approximately \$8.9 billion as of June 30, 2004. The purchase price was \$49.0 million, comprised of cash and the assumption of approximately \$7.5 million of debt. The acquisition resulted in \$25.8 million in customer contract intangibles, which are being amortized over 20 years, and \$21.5 million in goodwill.

9. As previously reported, the California Franchise Tax Board (FTB) has taken the position that certain REIT and registered investment company (RIC) tax deductions will be disallowed consistent with notices issued by the State of California that stipulate that the RIC and REIT are listed transactions under California tax shelter legislation. While management continues to believe that the tax benefits realized in previous years were appropriate, the Company deemed it prudent to participate in the statutory Voluntary Compliance Initiative-Option 2, requiring payment of all California taxes and interest on these disputed 2000 through 2002 tax benefits, and permitting the Company to claim a refund for these years while avoiding certain potential penalties. The Company retains potential exposure for assertion of an accuracy-rated penalty should the FTB prevail in its position, in addition to the risk of not being successful in its refund claims for taxes and interest. As of June 30, 2004, the Company reflected a \$36.4 million net state tax receivable for the years 2000, 2001 and 2002 after giving effect to reserves for loss contingencies on the refund claims, or an equivalent of \$23.7 million after giving effect to Federal tax benefits. Although management intends to aggressively pursue its claims for REIT and RIC refunds for the 2000 to 2003 tax years, no outcome can be predicted with certainty and an adverse outcome on the refund claims could result in a loss of all or a portion of the \$23.7 million net state tax receivable after giving effect to Federal tax benefits.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

See Cautionary Statement for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995, below relating to forward-looking statements included in this report.

RESULTS OF OPERATIONS

Critical Accounting Policies

The Company's accounting policies are fundamental to understanding management's discussion and analysis of results of operations and financial condition. The Company has identified four policies as being critical because they require management to make particularly difficult, subjective and/or complex judgments about matters that are inherently uncertain and because of the likelihood that materially different amounts would be reported under different conditions or using different assumptions. These policies relate to the accounting for securities, the allowance for credit losses, derivatives and hedging activities, and stock-based performance plans. The Company, in consultation with the Audit Committee, has reviewed and approved these critical accounting policies, which are further described in Management's Discussion and Analysis and Note 1 (Summary of Significant Accounting Policies) to the Consolidated Financial Statements in the Company's 2003 Form 10-K. There have been no material changes to the Company's accounting policies since the last reporting period.

Overview

The Corporation recorded net income of \$52.2 million, or \$1.03 per common share, for the second quarter of 2004, compared with net income of \$46.1 million, or \$0.93 per share, for the second quarter of 2003.

Highlights

Average deposits were up 14 percent with average core deposits up 18 percent for the second quarter of 2004 from the second quarter a year ago due to growth throughout the bank.

Second-quarter average loans surpassed \$8.0 billion for the first time, up 3 percent from the same period last year. Period-end loan balances at June 30, 2004 of \$8.1 billion increased \$242.8 million, or 3 percent from \$7.9 billion at December 31, 2003 net of payoffs of \$98.7 million in dairy loans as a result of the Company exiting this

industry as previously announced.

No provision for credit losses was recorded for the second quarter of 2004, a result of continued strong credit quality and an adequate current level of allowance for credit losses. Recoveries slightly exceeded charge-offs for the quarter. Nonaccrual loans as of June 30, 2004, were \$41.8 million, down 40 percent from June 30, 2003, and down 2 percent from March 31, 2004.

Average securities for the second quarter of 2004 were up 25 percent from the same period a year ago due to deposit growth outpacing loan growth. Second-quarter average securities were up 4 percent from the first quarter of 2004 but period-end securities declined \$104.1 million from March 31, 2004 to June 30, 2004.

Noninterest income for the second quarter of 2004 rose 7 percent over the same period a year ago due primarily to higher trust and investment fees.

Return on Average Equity		17.07		16.33	5		16.75	2

As previously disclosed, in 2004 the Company is continuing its practice, adopted in the fourth quarter of 2003, of not recognizing tax benefits associated with its real estate investment trusts (REITS). Second-quarter 2003 results included \$2.7 million in net income, or \$0.05 per share, from tax benefits of the Company s two REITS.

Outlook

As disclosed in the Company s press release on second-quarter earnings, management continues to expect the growth of net income per share for 2004 to be approximately 8 to 10 percent higher than net income per share for 2003. This is based on current economic conditions and the current outlook for the remainder of 2004, the 25 basis point increase in interest rates effective June 30, 2004, and the updated business indicators below:

Average loan growth	4 to 6 percent
Average deposit growth	7 to 10 percent
Net interest margin	4.50 to 4.70 percent
Provision for credit losses	\$0 million to \$10 million
Noninterest income growth	6 to 8 percent
Noninterest expense growth	6 to 8 percent
Effective tax rate	36 to 38 percent

Revenues

Revenues (net interest income plus noninterest income) for the second quarter of 2004 increased 5 percent to \$180.5 million compared with \$172.2 million for the second quarter of 2003 due to higher net interest income and trust and investment fees. Revenues were up 2 percent from the first quarter of 2004.

Net Interest Income

Fully taxable-equivalent net interest income for the second quarter of 2004 was \$135.6 million, compared with \$130.8 million for the second quarter of 2003 and \$134.3 million for the first quarter of 2004. The net interest margin was 17 basis points lower than the first quarter of 2004 due primarily to investing in lower yielding, shorter term securities.

Edgar Filing: CITY NATIONAL CORP - Form 10-Q

Dollars in millions	For the three months ended			% Change	For the three months ended		% Change	
	2004	June 30,	2003		March 31, 2004			
Average Loans	\$	8,053.9	\$	7,793.9	3	\$	7,886.3	2

Average Deposits		11,121.5		9,774.9	14		10,533.5	6
Average Core Deposits		10,310.7		8,763.1	18		9,621.2	7
Fully Taxable-Equivalent Net Interest Income		135.6		130.8	4		134.3	1
Net Interest Margin		4.49%		4.79%	(6)		4.66%	(4)

Compared with the prior-year second-quarter averages, equity lines of credit rose 19 percent, residential mortgage loans rose 18 percent, commercial real estate mortgage loans rose 4 percent, real estate construction loans rose 15 percent, and commercial loans decreased 8 percent partially due to payoffs of dairy loans. Compared with the prior quarter, all categories increased except commercial loans.

Period-end June 30, 2004 loans increased \$157.9 million from March 31, 2004, reflecting growth in residential mortgage, commercial real estate mortgage, and real estate construction loans.

Average securities increased 25 percent for the second quarter of 2004 compared with the same period for 2003 primarily due to deposit growth outpacing loan growth. Average securities were 4 percent higher than the first quarter of 2004. As of June 30, 2004, unrealized net loss on securities available-for-sale was \$67.4 million. The average duration of total available-for-sale securities at June 30, 2004 was 3.8 years compared with 3.4 years at December 31, 2003 and 2.3 years at June 30, 2003. The increase in duration is attributable to an increase in long and medium term interest rates.

Average deposits during the second quarter of 2004 increased 14 percent over the same period last year and were up 6 percent from the first quarter of 2004. Average core deposits represented 93 percent of the total average deposit base for the second quarter of 2004, compared with 90 percent for the second quarter of 2003 and 91 percent for the first quarter of 2004. New clients and higher client balances maintained as deposits to pay for services contributed to the year-over-year growth of deposits.

As part of the Company's long-standing asset/liability management strategy, its plain vanilla interest rate swaps hedging loans, deposits and borrowings, with a notional value of \$1.1 billion, added \$8.0 million to net interest income in the second quarter of 2004, compared with \$7.5 million in the second quarter of 2003 and \$8.3 million in the first quarter of 2004. These amounts included \$5.5 million, \$5.2 million, and \$6.0 million, respectively, for interest rate swaps qualifying as fair value hedges. Income from swaps qualifying as cash-flow hedges was \$2.5 million for the second quarter of 2004, compared with \$2.3 million for the second quarter of 2003, and \$2.3 million for the first quarter of 2004. Income from existing swaps qualifying as cash-flow hedges of loans expected to be recorded in net interest income within the next 12 months is \$3.4 million.

Interest recovered on nonaccrual and charged-off loans included in net interest income for the second quarter of 2004 was \$0.3 million, compared with \$0.4 million for the second quarter of 2003, and \$0.7 million for the first quarter of 2004.

The Bank's prime rate was 4.25 percent as of June 30, 2004, an increase of 25 basis points over last year. However, the increase became effective on June 30, 2004 and did not impact 2004 second-quarter results.

Edgar Filing: CITY NATIONAL CORP - Form 10-Q

The following table presents the components of net interest income on a fully taxable-equivalent basis for the three and six months ended June 30, 2004 and 2003. To compare the tax-exempt asset yields to taxable yields, amounts are adjusted to pre-tax equivalents based on the marginal corporate federal tax rate of 35 percent.

Edgar Filing: CITY NATIONAL CORP - Form 10-Q

Net interest income is impacted by the volume, mix, and rate of interest-earning assets and interest-bearing liabilities. The following table shows changes in net interest income on a fully taxable-equivalent basis between the second quarter and first six months of 2004 and the second quarter and first six months of 2003, as well as between the second quarter and first six months of 2003 and the second quarter and first six months of 2002.

The impact of interest rate swaps, which increases loan interest income and reduces deposit and borrowing interest expense, is included in rate changes.

Provision for Credit Losses

The Company made no provision for credit losses in the second quarter of 2004. This was attributable to the continued strong credit quality of its portfolio, low level of net charge-offs, and management's ongoing assessment of the credit quality of the portfolio, modest loan growth and an improving economic environment. Management believes the allowance for credit losses is adequate to cover risks in the portfolio at June 30, 2004. See — Allowance for Credit Losses.

Noninterest Income

Second-quarter 2004 noninterest income was 7 percent higher than the second quarter of 2003 and 4 percent higher than the first quarter of 2004 due primarily to higher trust and investment fees. As a percentage of total revenues, noninterest income was 27 percent for the second quarter of 2004, compared with 26 percent for both the second quarter of 2003 and the first quarter of 2004.

Wealth Management

Dollars in millions	At or for the three months ended June 30,			%	At or for the three months ended March 31, 2004		%
	2004	2003	Change		Change		
Trust and Investment Fee Revenue	\$ 16.7	\$ 12.2	37	\$ 15.6	7		
Brokerage and Mutual Fund Fees	9.4	9.3	1	8.7	7		
Assets Under Administration	31,749.9	26,237.3	21	30,532.3	4		
Assets Under Management (1)(2)	14,567.2	12,531.3	16	14,339.3	2		

(1) Included above in assets under administration

(2) Excludes \$3,275 and \$3,591 million of assets under management for the CCM minority owned asset managers as of June 30, 2004 and March 31, 2004, respectively

Assets under management at June 30, 2004 increased from the same period last year primarily due to new business, aided by strong relative investment performance and higher market values. Trust and investment fees increased over the second quarter of 2003 primarily due to higher balances under management or administration. Increases in market values are reflected in fee income primarily on a trailing-quarter basis. Brokerage and mutual fund fees in the second quarter increased over the first quarter of 2004 due in part to fees recognized as a co-manager of the California Economic Recovery Bond and a participant in the Puerto Rico Commonwealth General Obligation Bond issues.

Other Noninterest Income

Edgar Filing: CITY NATIONAL CORP - Form 10-Q

Cash management and deposit transaction fees increased 1 percent for the second quarter of 2004 over the same quarter last year. Compared with the first quarter of 2004, second-quarter 2004 cash management and deposit transaction fees decreased 1 percent due to annual fees recognized in arrears having been recorded in the first quarter of 2004.

International service fees for the second quarter of 2004 were essentially unchanged over the prior year quarter and decreased 2 percent from the first quarter of 2004 primarily due to lower import letters of credit fees.

Second-quarter 2004 other income was 17 percent lower than the second quarter of 2003 primarily due to lower loan product fees and 2 percent higher than the first quarter of 2004.

For the second quarter of 2004, \$0.9 million in gains on the sale of loans, assets, and debt repurchase and gains on the sale of securities were realized, compared to \$1.3 million for the second quarter of 2003 and \$0.6 million for the first quarter of 2004.

Noninterest Expense

Second-quarter 2004 noninterest expense of \$95.7 million was up 5 percent compared to \$91.3 million for the second quarter of 2003 and up 1 percent from \$94.5 million for the first quarter of 2004. The year-over-year increase primarily relates to higher staff cost including base salaries, incentives, and benefit costs including restricted stock costs. Restricted stock awards continue to replace a portion of the stock option grants that are part of the Company's equity compensation program.

For the second quarter of 2004, the efficiency ratio was 52.72 percent compared with 52.53 percent for the second quarter of 2003, and 53.39 percent for the first quarter of 2004.

Minority Interest

Minority interest consists of preferred stock dividends on the Bank's real estate investment trust subsidiaries and the minority ownership share of earnings of the Corporation's majority owned asset management firms.

Income Taxes

The second-quarter 2004 effective tax rate was 37.5 percent, compared with 36.6 percent for all of 2003. The effective tax rate reflects changes in the mix of tax rates applicable to income before tax. Quarterly comparisons with the first three quarters of 2003 were impacted by the real estate investment trust (REIT) state tax benefits which were included in net income in the first three quarters of 2003 and were reversed in the fourth quarter of 2003.

The effective tax rates differ from the applicable statutory federal tax rate due to various factors, including state taxes, tax-exempt income including interest on bank-owned life insurance, and affordable housing investments.

The Company's tax returns are being audited by the Internal Revenue Service back to 1998 and by the Franchise Tax Board of the State of California back to 1996. From time to time, there may be differences in opinions with respect to the tax treatment accorded transactions. If it becomes probable that a tax position originally taken to support amounts reported on the financial statements will not be sustained upon a challenge from a tax authority and the tax effect of this difference is reasonably estimable, such amounts will be recognized.

As previously reported, the California Franchise Tax Board (FTB) has taken the position that certain REIT and registered investment company (RIC) tax deductions will be disallowed consistent with notices issued by the State of California that stipulate that the RIC and REIT are listed transactions under California tax shelter legislation. While management continues to believe that the tax benefits realized in previous years were appropriate, the Company deemed it prudent to participate in the statutory Voluntary Compliance Initiative Option 2, requiring payment of all California taxes and interest on these disputed 2000 through 2002 tax benefits, and permitting the Company to claim a refund for these years

Edgar Filing: CITY NATIONAL CORP - Form 10-Q

while avoiding certain potential penalties. The Company retains potential exposure for assertion of an accuracy-rated penalty should the FTB prevail in its position, in addition to the risk of not being successful in its refund claims for taxes and interest. As of June 30, 2004, the Company reflected a \$36.4 million net state tax receivable for the years 2000, 2001 and 2002 after giving effect to reserves for loss contingencies on the refund claims, or an equivalent of \$23.7 million after giving effect to Federal tax benefits. Although management intends to aggressively pursue its claims for REIT and RIC refunds for the 2000 to 2003 tax years, no outcome can be predicted with certainty and an adverse outcome on the refund claims could result in a loss of all or a portion of the \$23.7 million net state tax receivable after giving effect to Federal tax benefits.

BALANCE SHEET ANALYSIS

Average assets for the second quarter of 2004 were higher than the second quarter of 2003, primarily due to an increase in average securities, loans, and federal funds sold. Total assets at June 30, 2004 increased 9 percent to \$13.5 billion from \$12.4 billion at June 30, 2003, and increased 4 percent from \$13.0 billion at December 31, 2003.

Total average interest-earning assets for the second quarter of 2004 were \$12.1 billion, an increase of 11 percent over the \$10.9 billion in total average interest-earning assets for the second quarter of 2003 and were 5 percent higher than the \$11.6 billion in average interest-earning assets for the first quarter of 2004.

Securities

Comparative period-end security portfolio balances are presented below:

Securities Available-for-Sale

Dollars in thousands	June 30, 2004		December 31, 2003		June 30, 2003	
	Cost	Fair Value	Cost	Fair Value	Cost	Fair Value
U.S. Government and federal agency	\$ 354,628	\$ 350,169	\$ 345,725	\$ 348,468	\$ 238,343	\$ 242,288
Mortgage-backed	2,765,606	2,702,740	2,561,976	2,561,997	2,257,765	2,292,818
State and Municipal	271,568	276,178	255,355	268,041	246,751	263,121
Total debt securities	3,391,802	3,329,087	3,163,056	3,178,506	2,742,859	2,798,227
Marketable equity securities	194,383	189,670	187,576	187,148	192,542	194,459
Total securities	\$ 3,586,185	\$ 3,518,757	\$ 3,350,632	\$ 3,365,654	\$ 2,935,401	\$ 2,992,686

Average securities available-for-sale continued to increase primarily due to strong deposit growth. At June 30, 2004, securities available-for-sale totaled \$3.5 billion, an increase of \$0.5 billion compared with holdings at June 30, 2003 and an increase of \$0.2 billion from December 31, 2003. At June 30, 2004, the portfolio had an unrealized net loss of \$67.4 million compared with unrealized net gain of \$15.0 million and \$57.3 million at December 31, 2003 and June 30, 2003, respectively. The average duration of total available-for-sale securities at June 30, 2004 was 3.8 years. The 3.8 duration compares with 3.4 at December 31, 2003 and 2.3 at June 30, 2003. Duration provides a measure of fair value sensitivity to changes in interest rates. This is within the investment guidelines set by the Company's Asset/Liability Committee and the interest rate risk guidelines set by the Board of Directors. See — Asset /Liability Management for a discussion of the Company's interest rate position.

The following table provides the contractual remaining maturities and yields (taxable-equivalent basis) of debt securities within the securities portfolio as of June 30, 2004. Contractual maturities of mortgage-backed securities are substantially longer than their expected maturities due to scheduled and unscheduled principal payments. To compare the tax-exempt asset yields to taxable yields, amounts are adjusted to pre-tax equivalents based on the marginal corporate federal tax rate of 35 percent.

Debt Securities Available-for-Sale

Dollars in thousands	One year or less		Over 1 year thru 5 years		Over 5 years thru 10 years		Over 10 years		Total	
	Amount	Yield (%)	Amount	Yield (%)	Amount	Yield (%)	Amount	Yield (%)	Amount	Yield (%)

Dividend income included in interest income on securities in the Unaudited Consolidated Statement of Income for the second quarter of 2004 and 2003 was \$1.9 million and \$2.2 million, respectively.

Loan Portfolio

A comparative period-end loan table is presented below:

Loans

Dollars in thousands	June 30, 2004	December 31, 2003	June 30, 2003
Commercial	\$ 3,077,689	\$ 3,222,444	\$ 3,232,780
Commercial real estate mortgages	1,842,956	1,813,518	1,721,650
Residential mortgages	2,114,335	1,937,979	1,736,442
Real estate construction	782,435	637,595	653,063
Equity lines of credit	214,533	188,711	174,314
Installment	93,548	82,495	71,977
	8,125,496	7,882,742	7,590,226
Less allowance for credit losses	165,117	165,986	170,927
Total loans, net	\$ 7,960,379	\$ 7,716,756	\$ 7,419,299

Total loans at June 30, 2004 were 7 percent and 3 percent higher than total loans at June 30, 2003 and December 31, 2003, respectively. At June 30, 2004, the Company's loan portfolio included approximately \$453.1 million of loans managed in Northern California offices. In addition, the portfolio included approximately \$53.0 million in outstanding dairy loans, an industry, which as previously announced, the Company expects to exit. Due to higher milk prices, it is now anticipated that the Company can do so at minimal cost over the next six months, a shorter period than previously anticipated.

The following table presents information concerning nonaccrual loans, ORE, and restructured loans. Bank policy requires that a loan be placed on nonaccrual status if (1) either principal or interest payments are 90 days past due, unless the loan is both well secured and in process of collection, (2) full collection of interest or principal becomes uncertain, regardless of the time period involved or (3) regulators' ratings of credits suggest that the loan be placed on nonaccrual.

Nonaccrual Loans, ORE and Restructured Loans

Dollars in thousands	June 30, 2004	December 31, 2003	June 30, 2003
Nonaccrual loans:			
Commercial	\$ 34,651	\$ 37,418	\$ 55,638

Allowance for credit losses to total loans		2.03		2.11		2.25
Allowance for credit losses to nonaccrual loans		394.71		392.65		246.37
Loans past due 90 days or more on accrual status:						
Commercial	\$	153	\$	235	\$	5,225
Real estate				1,808		628
Total	\$	153	\$	2,043	\$	5,853

At June 30, 2004, approximately 25 percent of the nonperforming assets were loans to Northern California clients, and 25 percent were five dairy credits. The remaining 50 percent were loans to other borrowers with no major industry concentrations.

At June 30, 2004, there were \$38.9 million of impaired loans included in nonaccrual loans, which had an allowance of \$6.3 million allocated to them. On a comparable basis, at March 31, 2004, there were \$41.9 million of impaired loans, which had an allowance of \$5.9 million allocated to them. The assessment for impairment occurs when and while such loans are on nonaccrual, or the loan has been restructured. When a loan with unique risk characteristics has been identified as being impaired, the amount of impairment will be measured by the Company using discounted cash flows, except when it is determined that the primary (remaining) source of repayment for the loan is the operation or liquidation of the underlying collateral. In such cases, the current fair value of the collateral, reduced by costs to sell, will be used in place of discounted cash flows. As a final alternative, the observable market price of the debt may be used to assess impairment. Additionally, some impaired loans with commitments of less than \$500,000 are aggregated for the purpose of measuring impairment using historical loss factors as a means of measurement.

If the measurement of the impaired loan is less than the recorded investment in the loan (including accrued interest, net deferred loan fees or costs and unamortized premium or discount), an impairment is recognized by creating or adjusting an existing allocation of the allowance for credit losses. The Company's policy is to record cash receipts on impaired loans first as reductions in principal and then as interest income.

The following table summarizes the changes in nonaccrual loans for the three and six months ended June 30, 2004 and 2003.

Changes in Nonaccrual Loans

Dollars in thousands	For the three months ended		For the six months ended	
	June 30,		June 30,	
	2004	2003	2004	2003
Balance, beginning of period	\$ 42,733	\$ 99,738	\$ 42,273	\$ 71,357
Loans placed on nonaccrual	32,823	18,905	50,237	71,647
Charge-offs	(9,019)	(12,266)	(12,614)	(22,783)
Loans returned to accrual status	(5,483)		(11,458)	
Repayments (including interest applied to principal)	(19,221)	(37,000)	(26,605)	(50,844)
Balance, end of period	\$ 41,833	\$ 69,377	\$ 41,833	\$ 69,377

In addition to loans disclosed above as nonaccrual or restructured, management has also identified \$11.2 million of credits to 14 borrowers, including one commercial loan relationship totaling \$7.0 million, where the ability to comply with the present loan payment terms in the future is questionable. However, the inability of the borrowers to comply with repayment terms was not sufficiently probable to place the loans on nonaccrual status at June 30, 2004. This amount was determined based on analysis of information known to management about the borrowers financial condition and current economic conditions.

Management's classification of credits as nonaccrual, restructured, or problems does not necessarily indicate that the principal is uncollectable in whole or in part.

Allowance for Credit Losses

The allowance for credit losses is maintained at a level that management deems appropriate based on a thorough analysis of numerous factors, including levels of net charge-offs and nonaccrual loans and changes in the loan portfolio. Credit quality will be influenced by underlying trends in the economy, particularly in California, and other factors that may be beyond management's control. No assurances can be given that the Company will not sustain credit losses, in any particular period, that are sizable in relation to the allowance for credit losses. Based on known

information available to it at the date of this report, management believes the allowance for credit losses is adequate to cover risks inherent in the portfolio at June 30, 2004. Subsequent evaluation of the loan portfolio, in light of factors then prevailing, will dictate the level of provisions required to maintain the adequacy of the allowance for credit losses.

The following table summarizes key statistics relating to the allowance for credit losses.

Dollars in millions	At or for the three months ended June 30,			% Change	At or for the three months ended March 31, 2004		% Change
	2004	2003			2004

Other Assets

Other assets included the following:

Dollars in thousands	June 30,		Other Assets		June 30,	
	2004		December 31,		2003	
	\$		\$		\$	
Interest rate swap mark-to-market	\$	25,405	\$	42,133	\$	70,168
Accrued interest receivable		45,521		43,980		44,543
Claim in receivership and other assets		12,151		12,151		23,285
Loans held-for-sale						3,625
Income tax refund		36,409		17,813		3,305
Other		67,810		55,708		55,687
Total other assets	\$	187,296	\$	171,785	\$	200,613

The claim in receivership and other assets were acquired in the acquisition of Pacific Bank. The reduction in 2003 was due to the claim in receivership being collected.

See — Net Interest Income for a discussion of interest rate swaps that result in the swap mark-to-market asset of \$25.4 million.

See — Income Taxes for a discussion of income tax refund of \$36.4 million.

Off Balance Sheet

In the normal course of business, the Company is a party to financial instruments with off-balance sheet risk. These financial instruments include commitments to extend credit, letters of credit, and financial guarantees. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount reflected in the consolidated balance sheet. Commitments to extend credit are agreements to lend to a client as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since a portion of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each client's creditworthiness on a case-by-case basis.

The Company had outstanding and unfunded loan commitments aggregating \$3,385.2 million at June 30, 2004. In addition, the Company had \$430.2 million outstanding in bankers' acceptances and letters of credit of which \$396.2 million relate to standby letters of credit at June 30, 2004. Substantially all of the Company's loan commitments are on a variable rate basis and are comprised of real estate and commercial loan commitments. There have been no material changes to the information provided in the Company's off balance sheet arrangements since the last reporting period.

Deposits

Deposits totaled \$11.5 billion at June 30, 2004, an increase of 13 percent compared with \$10.2 billion at June 30, 2003, and increased 5 percent over the \$10.9 billion at December 31, 2003. New clients, additional trust and escrow deposits, and a lower earnings credit on analyzed deposit accounts resulting from lower interest rates, contributed to the growth of deposits.

Demand deposits accounted for 51 percent of total deposits at June 30, 2004. Core deposits, which continued to provide substantial benefits to the Bank's cost of funds, were 93 percent of total deposits at June 30, 2004. See — Net Interest Income.

Other Borrowings

Other borrowings have declined by \$46.7 million from December 31, 2003 and \$228.0 million from June 30, 2003 to \$656.4 million at June 30, 2004 as deposits have increased.

FIRST-HALF RESULTS

First-half 2004 results of \$103.1 million, or \$2.03 per share, rose from \$89.7 million, or \$1.80 per share in the first half of 2003 attributable to the following:

Average deposits grew 13 percent and core deposits went up 17 percent.

Average loans increased by \$91.5 million, or 1 percent. Residential mortgage loans rose 14 percent, commercial real estate mortgage loans rose 4 percent, real estate construction loans rose 9 percent and commercial loans decreased 9 percent partially due to the payoff of dairy loans.

Revenues increased 6 percent attributable to the rise of both net interest income and noninterest income. Noninterest income as a percentage of total revenues was 26 percent for the first half of 2004 compared with 25 percent for the first half of 2003.

No provision for credit losses was recorded on continued strong credit quality.

Noninterest income grew 13 percent from \$84.0 million to \$94.8 million. This increase is attributable to increased trust and investment fees from higher assets under management or administration and the operations of Convergent Capital Management, LLC (CCM). CCM results were included for the entire first half of 2004 while the acquisition affected only the second quarter of 2003. The acquisition was completed on April 1, 2003.

Noninterest expense was up 8 percent from \$176.7 million to \$190.2 million partly because of the acquisition of CCM.

Edgar Filing: CITY NATIONAL CORP - Form 10-Q

First-half results included no tax benefits of the Company's two REITS. First-half 2003 results included \$5.5 million in net income, or \$0.11 per share, from tax benefits of the Company's two REITS.

CAPITAL ADEQUACY REQUIREMENT

The following table presents the regulatory standards for well capitalized institutions and the capital ratios for the Corporation and the Bank at June 30, 2004, December 31, 2003, and June 30, 2003.

	Regulatory Well Capitalized Standards	June 30, 2004	December 31, 2003	June 30, 2003
City National Corporation				
Tier 1 leverage	N/A%	7.69%	7.48%	7.17%
Tier 1 risk-based capital	6.00	11.11	10.81	10.21
Total risk-based capital	10.00	14.81	14.86	14.45
City National Bank				
Tier 1 leverage	5.00	8.13	8.01	7.74
Tier 1 risk-based capital	6.00	11.69	11.51	10.93
Total risk-based capital	10.00	15.40	15.58	15.18

Tier 1 capital ratios include the impact of \$26.0 million of preferred stock issued by real estate investment trust subsidiaries of the Bank, which is included in minority interest in consolidated subsidiaries.

Edgar Filing: CITY NATIONAL CORP - Form 10-Q

Average shareholders' equity to average assets at June 30, 2004 was 9.3 percent compared to 9.5 percent at June 30, 2003 and 9.7 percent at March 31, 2004.

Accumulated other comprehensive income was a loss of \$38.4 million compared to income of \$39.8 million and \$12.9 million as of June 30, 2003 and December 31, 2003, respectively. The decline related primarily to the impact of the increase in long and medium term interest rates on the securities portfolio during the period.

The following table provides information about purchases by the Company during the six months ended June 30, 2004 of equity securities that are registered by the Company pursuant of Section 12 of the Exchange Act.

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Unit)	Total number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
01/01/04 - 01/31/04	420,900	\$ 58.77	420,900	329,000
02/01/04 - 02/29/04	187,745	60.00	187,300	141,700
03/01/04 - 03/31/04	124,900	59.36	124,800	1,016,900
04/01/04 - 04/30/04	2,752	60.81		1,016,900
05/01/04 - 05/31/04	7,949	60.07	7,400	1,009,500(2)
	744,246(1) \$	59.20	740,400	1,009,500

(1) We repurchased an aggregate of 740,400 shares of our common stock pursuant to repurchase programs that we publicly announced on January 22, 2003 and July 15, 2003 (the Programs) and we received 3,846 shares in payment of the exercise price of stock options.

(2) Our board of directors, on March 24, 2004, approved the repurchase by us of up to an aggregate of 1 million shares of our common stock pursuant to a new program to follow completion of the Programs described in (1) above. Unless terminated earlier by resolution of our board of directors, the Programs will expire when we have repurchased all shares authorized for repurchase thereunder.

On July 28, 2004, the Corporation declared a regular quarterly cash dividend on common stock at a rate of \$0.32 per share to shareholders of record on August 11, 2004, payable on August 23, 2004.

LIQUIDITY MANAGEMENT

Edgar Filing: CITY NATIONAL CORP - Form 10-Q

The Company continues to manage its liquidity through the combination of core deposits, federal funds purchased, repurchase agreements, collateralized borrowing lines at the Federal Reserve Bank and the Federal Home Loan Bank of San Francisco and a portfolio of securities available-for-sale. Liquidity is also provided by maturing securities and loans.

Average core deposits and shareholders' equity comprised 87 percent of total funding of average assets in the second quarter of 2004, compared with 83 percent in the second quarter of 2003. This increase allowed the Company to decrease its use of more costly alternative funding sources. See — Net Interest Income.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

ASSET/LIABILITY MANAGEMENT

The principal objective of asset/liability management is to maximize net interest income subject to margin volatility and liquidity constraints. Margin volatility results when the rate reset (or repricing) characteristics of assets are materially different from those of the Company's liabilities. Liquidity risk results from the mismatching of asset and liability cash flows. Management chooses asset/liability strategies that promote stable earnings and reliable

funding. Interest rate risk and funding positions are kept within limits established by the Board of Directors to ensure that risk taking is managed within prudent interest rate and liquidity guidelines.

A quantitative and qualitative discussion about market risk is included on pages A-16 to A-21 of the Corporation's Form 10-K for the year ended December 31, 2003.

Net Interest Simulation: During the first half of 2004, the Company maintained a moderate asset sensitive interest rate position. Based on the balance sheet at June 30, 2004, the Company's net interest income simulation model indicates that net interest income would not be substantially adversely impacted by changes in interest rates. Assuming a static balance sheet, a gradual 100 basis point decline in interest rates over a twelve-month horizon would result in a decrease in projected net interest income of approximately 2.4 percent. The 2.4 percent at-risk amount is down from the previous two quarters, which were 2.9 percent and 3.2 percent at March 31, 2004 and December 31, 2003, respectively. A gradual 100 basis point increase in interest rates over the next 12-month period would result in an increase in projected net interest income of approximately 1.6 percent. This is down from the March 31, 2004 and December 31, 2003 results, which were 2.1 percent and 2.5 percent, respectively. Exposure remains within ALCO guidelines. The Company continues to use a variety of other tools to manage its asset sensitivity.

Present Value of Equity: The model indicates that the Present Value of Equity (PVE) is somewhat vulnerable to a sudden and substantial increase in interest rates. As of June 30, 2004, a 200 basis point increase in interest rates results in a 6.0 percent decline in PVE. This compares to a 4.1 percent decline and a 3.8 percent decline at March 31, 2004 and December 31, 2003 respectively. These measures reflect changes to our deposit longevity assumptions approved during the first quarter of 2004.

As of June 30, 2004, the Company had \$1,090.9 million of notional principal in receive fixed-pay LIBOR interest rate swaps. The Company's interest-rate risk-management instruments had a net positive fair value of \$19.3 million (\$25.4 million in positive fair values net of \$6.1 million in negative fair values) at June 30, 2004 compared with \$54.2 million positive fair value at March 31, 2004. Credit exposure represents the cost to replace, on a present value basis and at current market rates, the net positive value of all contracts for City National Corporation and each subsidiary with each counterparty that were outstanding at the end of the period, taking into consideration legal right of offset. The Company's swap agreements require collateral to mitigate the amount of credit risk if certain market value thresholds are exceeded. At June 30, City National Bank had credit exposure of \$25.4 million, and had taken delivery of securities with a total market value of \$15.3 million to cover margin requirements for this exposure. City National Corporation had delivered securities with a market value of \$4.5 million as margin for swaps with a negative market value of \$6.1 million.

At June 30, 2004, the Company's outstanding foreign exchange contracts for both those purchased as well as sold totaled \$83.6 million all with maturities less than 1 year. Total outstanding foreign exchange contracts for both those purchased as well as sold at March 31, 2004 were \$82.4 million, including \$0.8 million with maturities over 1 year. The Company enters into foreign exchange contracts with its clients and counterparty banks primarily for the purpose of offsetting or hedging for clients' transaction and economic exposures arising out of commercial transactions. The Company's policies also permit limited proprietary currency positioning. The Company actively manages its foreign exchange exposures within prescribed risk limits and controls.

ITEM 4. CONTROL AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Under SEC rules, the Company is required to maintain disclosure controls and procedures designed to ensure that information required by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. As part of the Company's system of disclosure controls and procedures, we have created a disclosure committee, which consists of certain members of the Company's senior management. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities and Exchange Act of 1934 is accumulated and communicated to

management, including the chief executive officer, chief financial officer and other members of the disclosure committee, as appropriate to allow timely decisions regarding required disclosure.

The Company has carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures as of the end of the period covered by this report. The Company's management, including the Company's disclosure committee and its chief executive officer and chief financial officer, supervised and participated in the evaluation. Based on the evaluation, the chief executive officer and the chief financial officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There have not been any changes in the Company's internal control over financial reporting during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**CAUTIONARY STATEMENT FOR PURPOSES OF THE SAFE HARBOR PROVISIONS
OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995**

We have made forward-looking statements in this document that are subject to risks and uncertainties. These statements are based on the beliefs and assumptions of our management, and on information currently available to our management. Forward-looking statements include the information concerning our possible or assumed future results of operations, business and earnings outlook and statements preceded by, followed by, or that include the words will, believes, expects, anticipates, intends, plans, estimates, or similar expressions.

Our management believes these forward-looking statements are reasonable. However, you should not place undue reliance on the forward-looking statements, since they are based on current expectations. Actual results may differ materially from those currently expected or anticipated.

Forward-looking statements are not guarantees of performance. They involve risks, uncertainties, and assumptions. Our future results and shareholder values may differ materially from those expressed in these forward-looking statements. Many of the factors described below that will determine these results and values are beyond our ability to control or predict. For those statements, we claim the protection of the safe harbor contained in the Private Securities Litigation Reform Act of 1995.

Forward-looking statements speak only as of the date they are made and the Company does not undertake to update forward-looking statements to reflect circumstances or events that occur as of the date the statements are made or to update earnings guidance including the factors that influence earnings.

A number of factors, some of which are beyond the Corporation's ability to control or predict, could cause future results to differ materially from those contemplated by such forward-looking statements. These factors which include (1) the unknown economic impact of state, county, and county budget issues, (2) earthquake or other natural disasters impacting the condition of real estate collateral or business operations, (3) the effect of acquisitions and integration of acquired businesses, and (4) the impact of proposed and/or recently adopted changes in regulatory, judicial, or legislative tax treatment of business transactions, particularly recently enacted California tax legislation and the December 31, 2003 announcement by the FTB regarding the taxation of REITs and RICs could have the following consequences, any of which could negatively impact our business.

Loan delinquencies could increase;

Problem assets and foreclosures could increase;

Demand for our products and services could decline; and

Collateral for loans made by us, especially real estate, could decline in value, in turn reducing clients' borrowing power, and reducing the value of assets and collateral associated with our existing loans.

Changes in interest rates affect our profitability. We derive our income mainly from the difference or spread between the interest earned on loans, securities, and other interest-earning assets, and interest paid on deposits, borrowings, and other interest-bearing liabilities. In general, the wider the spread, the more we earn. When market rates of interest change, the interest we receive on our assets and the interest we pay on our liabilities fluctuates. This causes changes in our spread and affects our net interest income. In addition, interest rates affect how much money we lend.

Significant changes in the provision or applications of laws or regulations affecting our business could materially affect our business. The banking industry is subject to extensive federal and state regulations, and significant new laws or changes in, or repeals of, existing laws may cause results to differ materially. Also, federal monetary policy, particularly as implemented through the Federal Reserve System, significantly affects our credit conditions, primarily through open market operations in U.S. government securities, the discount rate for member bank borrowing, and bank reserve requirements. A material change in these conditions would affect our results. Parts of our business are also subject to federal and state securities laws and regulations. Significant changes in these laws and regulations would also affect our business.

We face strong competition from financial service companies and other companies that offer banking services which can negatively impact our business. Increased competition in our market may result in reduced loans and deposits. Ultimately, we may not be able to compete successfully against current and future competitors. Many competitors offer the banking services that we offer in our service area. These competitors include national, regional, and community banks. We also face competition from many other types of financial institutions, including, without limitation, savings and loans, finance companies, brokerage firms, insurance companies, credit unions, mortgage banks, and other financial intermediaries. Recently passed legislation will make it easier for other types of financial institutions to compete with us.

Our results would be adversely affected if we suffered higher than expected losses on our loans. We assume risk from the possibility that we will suffer losses because borrowers, guarantors, and related parties fail to perform under the terms of their loans. We try to minimize this risk by adopting and implementing what we believe are effective underwriting and credit policies and procedures, including how we establish and review the allowance for credit losses. We assess the likelihood of nonperformance, track loan performance, and diversify our credit portfolio. Those policies and procedures may still not prevent unexpected losses that could adversely affect our results.

PART II.

ITEM 2. CHANGES IN SECURITIES, USE OF PROCEEDS AND ISSUER PURCHASES OF EQUITY SECURITIES

The information required by this item regarding purchases by the Company during the quarter ended June 30, 2004 of equity securities that are registered with the Company pursuant to Section 12 of the Exchange Act is incorporated by reference from that portion of Part I, Item 1 of the report under Note 6.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits

No.

- | | |
|------|--|
| 31.1 | Chief Executive Officer certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to section 302 of the Sarbanes-Oxley Act of 2002 |
| 31.2 | Chief Financial Officer certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to section 302 of the Sarbanes-Oxley Act of 2002 |
| 32.0 | Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to section 906 of the Sarbanes-Oxley Act of 2002 |

(b) Report on Form 8-K

On July 6, 2004, the Corporation filed a report on Form 8-K under item 9 (Regulation FD Disclosure) of Form 8-K regarding the naming of Christopher J. Carey as Executive Vice President and Chief Financial Officer of both City National Corporation and City National Bank. Included in the report was a press release dated July 6, 2004.

On July 14, 2004 the Corporation filed a report on Form 8-K under item 9 (Regulation FD Disclosure) and item 12 (results of Operations and Financial Condition) of Form 8-K regarding the financial results for the quarter and six months ended June 30, 2004. Included in the report was a press release dated July 14, 2004.
