UNIVERSAL HEALTH SERVICES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) General

This Report on Form 10-Q is for the Quarterly period ended March 31, 2007. In this Quarterly Report, we, us, our and the Company refer to Universal Health Services, Inc. and its subsidiaries.

You should carefully review the information contained in this Quarterly Report, and should particularly consider any risk factors that we set forth in this Quarterly Report and in other reports or documents that we file from time to time with the Securities and Exchange Commission (the SEC). In this Quarterly Report, we state our beliefs of future events and of our future financial performance. In some cases, you can identify those so-called forward-looking statements by words such as may, will, should, expects, plans, anticipates, believes, estimates, potential, or continue or the negative of those words and other comparable words. You should be aware that those statements are only our predictions. Actual events or results may differ materially. In evaluating those statements, you should specifically consider various factors, including the risks outlined in Item 7. Management's Discussion and Analysis of Results of Operations and Financial Condition Forward Looking Statements and Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2006. Those factors may cause our actual results to differ materially from any of our forward-looking statements.

The condensed consolidated financial statements include the accounts of our majority-owned subsidiaries and partnerships and limited liability companies controlled by us, or our subsidiaries, as managing general partner or managing member. The condensed consolidated financial statements included herein have been prepared by us, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission and reflect all normal and recurring adjustments which, in our opinion, are necessary to fairly present results for the interim periods. The balance sheet at December 31, 2006 has been derived from the audited financial statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although we believe that the accompanying disclosures are adequate to make the information presented not misleading. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements, significant accounting policies and the notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2006. Certain prior year amounts have been reclassified to conform with current year financial statement presentation.

(2) Relationship with Universal Health Realty Income Trust and Related Party Transactions

Relationship with Universal Health Realty Income Trust:

At March 31, 2007, we held approximately 6.7% of the outstanding shares of Universal Health Realty Income Trust (the Trust). We serve as Advisor to the Trust under an annually renewable advisory agreement pursuant to the terms of which, we conduct the Trust's day-to-day affairs, provide administrative services and present investment opportunities. In addition, certain of our officers and directors are also officers and/or directors of the Trust. Management believes that it has the ability to exercise significant influence over the Trust, therefore we account for our investment in the Trust using the equity method of accounting. We earned an advisory fee from the Trust, which is included in net revenues in the accompanying condensed consolidated statements of income, of \$351,000 and \$347,000 during the three month periods ended March 31, 2007 and 2006, respectively. Our pre-tax share of income from the Trust was \$300,000 and \$331,000 during the three month periods ended March 31, 2007 and 2006, respectively. The carrying value of this investment was \$10.0 million at March 31, 2007 and \$10.2 million at December 31, 2006, and is included in other assets in the accompanying condensed consolidated balance sheets. The market value of this investment was \$28.2 million at March 31, 2007 and \$30.7 million at December 31, 2006.

Total rent expense under the operating leases on the hospital facilities with the Trust was \$4.0 million during each of the three month periods ended March 31, 2007 and 2006. In addition, certain of our subsidiaries are tenants in several medical office buildings owned by limited liability companies in which the Trust holds non-controlling ownership interests.

The Trust commenced operations in 1986 by purchasing certain properties from us and immediately leasing the properties back to our respective subsidiaries. Most of the leases were entered into at the time the Trust commenced operations and provided for initial terms of 13 to 15 years with up to six additional 5-year renewal terms. Each lease also provided for additional or bonus rental, as discussed below. In 1998, the lease for McAllen Medical Center was amended to provide that the last two renewal terms would also be fixed at the initial agreed upon rental. This lease amendment was in connection with certain concessions granted by us with respect to the renewal of other leases. The base rents are paid monthly and the bonus rents are computed and paid on a quarterly basis, based upon a computation that compares current quarter revenue to a

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

corresponding quarter in the base year. The leases with our subsidiaries are unconditionally guaranteed by us and are cross-defaulted with one another.

Table of Contents

Pursuant to the terms of the leases with the Trust, we have the option to renew the leases at the lease terms described above by providing notice to the Trust at least 90 days prior to the termination of the then current term. In addition, we have rights of first refusal to: (i) purchase the respective leased facilities during and for 180 days after the lease terms at the same price, terms and conditions of any third-party offer, or; (ii) renew the lease on the respective leased facility at the end of, and for 180 days after, the lease term at the same terms and conditions pursuant to any third-party offer. We also have the right to purchase the respective leased facilities at the end of the lease terms or any renewal terms at the appraised fair market value. In addition, during 2006, as part of the overall exchange and substitution transaction relating to Chalmette Medical Center, which was completed during the third quarter of 2006, as well as the early five year lease renewals on Southwest Healthcare System-Inland Valley Campus (Inland Valley), Wellington Regional Medical Center, McAllen Medical Center and The Bridgeway, the Trust agreed to amend the Master Lease to include a change of control provision. The change of control provision grants us the right, upon one month's notice should a change of control of the Trust occur, to purchase any or all of the four leased hospital properties at their appraised fair market value purchase price.

The table below details the renewal options and terms for each of our four hospital facilities leased from the Trust:

Hospital Name	Type of Facility	Annual	End of Lease Term	Renewal
		Minimum		Term
		Rent		(years)
McAllen Medical Center	Acute Care	\$ 5,485,000	December, 2011	20(a)
Wellington Regional Medical Center	Acute Care	\$ 3,030,000	December, 2011	20(b)
Southwest Healthcare System, Inland Valley Campus	Acute Care	\$ 2,597,000(d)	December, 2011	20(b)
The Bridgeway	Behavioral Health	\$ 930,000	December, 2014	10(c)

- (a) We have four 5-year renewal options at existing lease rates (through 2031).
 (b) We have two 5-year renewal options at existing lease rates (through 2021) and two 5-year renewal options at fair market value lease rates (2022 through 2031).
 (c) We have two 5-year renewal options at fair market value lease rates (2015 through 2024).
 (d) Excludes potential incremental rent, if any, on the additional real property assets in excess of \$11.0 million, being constructed at Inland Valley that were/will be transferred to the Trust as part of the asset exchange and substitution transaction completed during the third quarter of 2006.

Other Related Party Transactions:

Our Chairman of the Board of Directors and Chief Executive Officer (CEO) is a member of the Board of Directors of Broadlane, Inc. In addition, the Company and certain Directors and members of our executive management team owned approximately 6% of the outstanding shares of Broadlane, Inc. Broadlane, Inc. provides contracting and other supply chain services to us and various other healthcare organizations.

A member of our Board of Directors and member of the Executive Committee is Of Counsel to the law firm used by us as our principal outside counsel. This Board member is also the trustee of certain trusts for the benefit of our CEO and his family. This law firm also provides personal legal services to our CEO.

We invested \$3.3 million for a 25% ownership interest in an information technology company that provides laboratory information system and order management technology to many of our acute care hospitals. We also committed to pay this company a license fee which has a remaining commitment of \$6.7 million as of March 31, 2007.

(3) Other Noncurrent and Minority Interest Liabilities

Other noncurrent liabilities include the long-term portion of our professional and general liability, workers' compensation reserves, and pension liability.

As of March 31, 2007 and December 31, 2006, the minority interest liability of \$187.4 million and \$174.1 million, respectively, consists primarily of: (i) an outside ownership interest of approximately 28% in four acute care facilities located in Las Vegas, Nevada that are in operation and a fifth that is currently under construction and expected to be completed and opened during the third quarter of 2007, and; (ii) a 20% outside ownership in an acute care facility located in Washington D.C.

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

In connection with the five acute care facilities located in Las Vegas, Nevada, the outside owners have certain put rights that may require the respective limited liabilities companies (LLCs) to purchase the minority member s interests upon the occurrence of: (i) certain specified financial conditions falling below established thresholds; (ii) breach of the management contract by the managing member (a subsidiary of ours), or; (iii) if the minority member s ownership percentage is reduced to less than certain thresholds.

Table of Contents**(4) Long-term debt**

On July 28, 2006, we entered into Amendment No. 1 to our unsecured non-amortizing revolving credit agreement (Credit Agreement) which increased the commitments under the Credit Agreement by \$150 million, to \$650 million, and extended the scheduled expiration date to July 28, 2011 from the originally scheduled expiration date of March 2010. Amendment No. 1 increased the sub-limit for letters of credit to \$100 million from \$75 million. The interest rate on the borrowings is determined, at our option, as either: (i) the one, two, three or six month London Inter-Bank Offer Rate (LIBOR) plus a spread of 0.33% to 0.575%; (ii) at the higher of the Agent's prime rate or the federal funds rate plus 0.50%, or; (iii) a competitive bid rate. A facility fee ranging from 0.07% to 0.175% is required on the total commitment. The applicable margins over LIBOR and the facility fee are based upon our credit ratings from Standard & Poor's Ratings Services and Moody's Investors Service, Inc. At March 31, 2007, the applicable margin over the LIBOR rate was 0.40% and the commitment fee was .10%. There are no compensating balance requirements. On April 13, 2007, we entered into Amendment No. 2 to our Credit Agreement which increased the commitments by \$150 million, to \$800 million. As of March 31, 2007, we had \$425 million of borrowings outstanding under our revolving credit agreement, \$52 million of outstanding letters of credit and \$14 million of outstanding borrowings under a short-term credit facility which is payable on demand by the lending institution. As of March 31, 2007, after giving effect to the increased borrowing capacity resulting from Amendment No. 2 entered into in April of 2007, we had \$309 million of available borrowing capacity pursuant to the terms of our Credit Agreement (\$159 million of available borrowing capacity before Amendment No. 2).

On June 30, 2006, we issued \$250 million of senior notes (the Notes) which have a 7.125% coupon rate and mature on June 30, 2016. Interest on the Notes is payable semiannually in arrears on June 30 and December 30 of each year.

During 2001, we issued \$200 million of senior notes which have a 6.75% coupon rate and which mature on November 15, 2011. The interest on the senior notes is paid semiannually in arrears on May 15 and November 15 of each year. The senior notes can be redeemed in whole at any time and in part from time to time.

(5) Commitments and Contingencies***Professional and General Liability Claims and Property Insurance***

As of March 31, 2007, the total accrual for our professional and general liability claims was \$258 million (\$255 million net of expected recoveries), of which \$32 million is included in other current liabilities. As of December 31, 2006, the total accrual for our professional and general liability claims was \$248 million (\$245 million net of expected recoveries), of which \$32 million is included in other current liabilities. Included in other assets was \$3 million as of March 31, 2007 and \$3 million as of December 31, 2006, related to estimated expected recoveries from various state guaranty funds in connection with PHICO related professional and general liability claims payments.

Effective April 1, 2007, we have commercial property insurance policies covering catastrophic losses resulting from windstorm damage up to \$100 million per occurrence. Losses resulting from non-named windstorms are subject to a \$250,000 deductible. Losses resulting from named windstorms are subject to a 5% deductible based upon the declared value of the property. In addition, we have commercial property insurance policies covering catastrophic losses resulting from earthquake and flood damage, each subject to annual aggregate limitations of \$100 million. Earthquake losses are subject to a \$250,000 deductible for our facilities located in all states except California, Alaska and Puerto Rico. Earthquake losses sustained at facilities located in California, Alaska and Puerto Rico are subject to a 5% deductible based upon the declared value of the property. Flood losses have a \$250,000 deductible except in FEMA designated flood zones A and V (which are located in certain sections of Florida, Oklahoma and Texas) in which case the losses are subject to a \$500,000 deductible. Due to a sharp increase in property losses experienced nationwide in recent years, the cost of commercial property insurance has increased significantly. As a result, catastrophic coverage for earthquake and flood has been limited to annual aggregate losses (as opposed to per occurrence losses). Given these insurance market conditions, there can be no assurance that a continuation of these unfavorable trends, or a sharp increase in uninsured property losses sustained by us, will not have a material adverse effect on our future results of operations.

As of March 31, 2007, we were party to certain off balance sheet arrangements consisting of standby letters of credit and surety bonds. Our outstanding letters of credit and surety bonds as of March 31, 2007 totaled \$89 million consisting of: (i) \$77 million related to our self-insurance programs; (ii) \$7 million consisting primarily of collateral for outstanding bonds of an unaffiliated third party and public utility, and; (iii) \$5 million of debt guarantees related to entities in which we own a minority interest.

We have a long-term contract with a third party that expires in 2012, to provide certain data processing services for our acute care and behavioral health facilities.

Legal Proceedings

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

We are subject to claims and suits in the ordinary course of business, including those arising from care and treatment afforded by our hospitals and are party to various other litigation, as outlined below.

Table of Contents

We and our South Texas Health System affiliates, which operate McAllen Medical Center, McAllen Heart Hospital, Edinburg Regional Medical Center and certain other affiliates, were served with a subpoena dated November 21, 2005, issued by the Office of Inspector General of the Department of Health and Human Services (OIG). At that time, the Civil Division of the U.S. Attorney's office in Houston, Texas indicated that the subpoena was part of an investigation under the False Claims Act of compliance with Medicare and Medicaid rules and regulations pertaining to the employment of physicians and the solicitation of patient referrals from physicians from January 1, 1999 to the date of the subpoena related to the South Texas Health System. On March 9, 2007, an additional subpoena was served upon us by the OIG requesting documents concerning the Medicare cost reports for the South Texas Health System affiliates. To the best of our knowledge, we have provided the documents requested in connection with both subpoenas and we continue to cooperate in the investigation. On February 16, 2007, our South Texas Health System affiliates were served with a search warrant in connection with what we have been advised is a related criminal investigation concerning the production of documents. At that time, the government obtained various documents and other property related to the facilities. We are unable to evaluate the existence or extent of any potential financial exposure in connection with this matter at this time.

We monitor all aspects of our business and have developed a comprehensive ethics and compliance program that is designed to meet or exceed applicable federal guidelines and industry standards. Because the law in this area is complex and constantly evolving, governmental investigation or litigation may result in interpretations that are inconsistent with industry practices, including ours. Although we believe our policies, procedures and practices comply with governmental regulations, no assurance can be given that we will not be subjected to further inquiries or actions, or that we will not be faced with sanctions, fines or penalties in connection with the investigation of our South Texas Health System affiliates. Even if we were to ultimately prevail, the government's inquiry and/or action in connection with this matter could have a material adverse effect on our future operating results.

On November 1, 2005, our management company and several of our facilities located in California, including Inland Valley Medical Center, Rancho Springs Medical Center, Del Amo Hospital and Corona Regional Medical Center (Hospitals) were named as defendants in a wage and hour lawsuit filed in Los Angeles Superior Court under the caption *Lasko-Hoellinger, et al v. UHS of Delaware, Inc., et al.* Del Amo Hospital was subsequently dismissed from the case. While two of the four original plaintiffs in that case voluntarily requested that they be dismissed as plaintiffs from that lawsuit, the remaining two plaintiffs are seeking to have the matter certified as a class action. The remaining plaintiffs are alleging, among other things, that they are entitled to recover damages from the Hospitals for missed breaks and other alleged violations of various California Labor Code sections and applicable wage orders for a period of at least one year prior to the filing of the case. The Hospitals have denied liability and are defending the case, which has not yet been certified as a class action by the court. Although we are unable to definitively determine the extent of the potential financial exposure at this time, during 2006, we recorded an estimated \$10 million pre-tax provision in connection with this matter.

On March 30, 2007, the U.S. Department of Labor filed a claim, in the United States District Court in New Haven, Connecticut, against Stonington Behavioral Health, Inc. (Stonington), a wholly-owned subsidiary that owns one of our behavioral health facilities, UHS of Delaware, Inc., and Universal Health Services, Inc., alleging that Stonington failed to pay certain employees (1) the applicable minimum wage, and (2) appropriate pay for overtime, during the period July 1, 2004 to July 1, 2006. The Department of Labor claims that such violations resulted in underpayments totaling approximately \$1.1 million to 143 employees. In addition to that amount, the Department of Labor may seek liquidated (or double) damages and applicable penalties. During the first quarter of 2007, we recorded a \$1.1 million pre-tax provision in connection with this matter.

The healthcare industry is subject to numerous laws and regulations which include, among other things, matters such as government healthcare participation requirements, various licensure and accreditations, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government action has increased with respect to investigations and/or allegations concerning possible violations of fraud and abuse and false claims statutes and/or regulations by healthcare providers. Providers that are found to have violated these laws and regulations may be excluded from participating in government healthcare programs, subjected to fines or penalties or required to repay amounts received from government for previously billed patient services. While management believes its policies, procedures and practices comply with governmental regulations, no assurance can be given that we will not be subjected to governmental inquiries or actions.

(6) Segment Reporting

Our reportable operating segments consist of acute care hospital services and behavioral health care services. The Other segment column below includes centralized services including information services, purchasing, reimbursement, accounting, taxation, legal, advertising, design and construction, and patient accounting as well as the operating results for our other operating entities including outpatient surgery and radiation centers. Also included in the Other segment column are the combined assets, as of March 31, 2006, of \$5.0 million related to the acute care facilities located in the U.S., Puerto Rico and France that are reflected as discontinued

Table of Contents

operations on our consolidated statements of income. The chief operating decision making group for our acute care hospital services and behavioral health care services is comprised of the President and Chief Executive Officer, and the lead executives of each operating segment. The lead executive for each operating segment also manages the profitability of each respective segment's various facilities. The operating segments are managed separately because each operating segment represents a business unit that offers different types of healthcare services or operates in different healthcare environments. The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies included in our Annual Report on Form 10-K for the year ended December 31, 2006.

	Three Months Ended March 31, 2007			
	Acute Care	Behavioral		Total

(7) Earnings Per Share Data (EPS) and Stock Based Compensation

Basic earnings per share are based on the weighted average number of common shares outstanding during the period. Diluted earnings per share are based on the weighted average number of common shares outstanding during the period adjusted to give effect to common stock equivalents.

Table of Contents

The following table sets forth the computation of basic and diluted earnings per share for the periods indicated (in thousands, except per share data):

	Three Months Ended	
	March 31,	
	(amounts in thousands)	
	2007	2006
Basic:		
Income from continuing operations	\$ 49,572	\$ 50,492
Less: Dividends on unvested restricted stock, net of taxes	(25)	(23)
Income from continuing operations basic	\$ 49,547	\$ 50,469
Income from discontinued operations	(64)	592
Net income basic	\$ 49,483	\$ 51,061
Diluted:		
Income from continuing operations	\$ 49,572	\$ 50,492
Less: Dividends on unvested restricted stock, net of taxes	(25)	(23)
Add: Debenture interest, net of taxes		2,457
Income from continuing operations-diluted	\$ 49,547	\$ 52,926
Income from discontinued operations	(64)	592
Net income diluted	\$ 49,483	\$ 53,518
Weighted average number of common shares	53,493	53,768
Net effect of dilutive stock options and grants based on the treasury stock method	193	161
Assumed conversion of discounted convertible debentures		6,577
Weighted average number of common shares and equivalents	53,686	60,506
Earnings Per Basic Share:		
From continuing operations	\$ 0.93	\$ 0.94
From discontinued operations		0.01
Total earnings per basic share	\$ 0.93	\$ 0.95
Earnings Per Diluted Share:		
From continuing operations	\$ 0.92	\$ 0.87
From discontinued operations		0.01
Total earnings per diluted share	\$ 0.92	\$ 0.88

Stock-Based Compensation: During the three months ending March 31, 2007 and 2006, compensation cost of \$2.4 million (\$1.5 million after-tax) and \$1.6 million (\$1.0 million after-tax), respectively, was recognized related to outstanding stock options. In addition, during the three months ended March 31, 2007 and 2006, compensation cost of \$2.2 million (\$1.3 million after-tax) and \$1.1 million (\$700,000 after-tax), respectively, was recognized related to restricted stock. As of March 31, 2007 there was \$33.7 million of unrecognized compensation cost related to unvested options and restricted stock which is expected to be recognized over the vesting period. During the first quarter of 2007, there were 12,500 stock options, net of cancellations, granted under this plan with a weighted-average grant-date fair value of \$14.26 per option and 3,125 restricted stock granted with a weighted-average grant date fair value of \$58.15 per share.

(8) Comprehensive Income

Comprehensive income or loss is recorded in accordance with the provisions of SFAS No. 130, Reporting Comprehensive Income. SFAS No. 130 establishes standards for reporting comprehensive income and its components in financial statements. Comprehensive income (loss) is comprised of net income, changes in unrealized gains or losses on derivative financial instruments and foreign currency translation adjustments.

(amounts in thousands)	Three Months Ended	
	March 31, 2007	March 31, 2006
Net income	\$ 49,508	\$ 51,084
Other comprehensive income (loss):		
Unrealized derivative gains on cash flow hedges, net of taxes	(84)	
Comprehensive income	\$ 49,424	\$ 51,084

(9) Dispositions and Acquisitions of assets and businesses*Acquisitions and divestitures during the three months ended March 31, 2007:*

During the first three months of 2007, we paid \$73 million to acquire:

certain assets of Texoma Healthcare System located in Texas, including a 234-bed acute-care hospital, a 60-bed behavioral health hospital, a 21-bed freestanding rehabilitation hospital and TexomaCare, a 34-physician group practice structured as a 501A corporation, and;

the previously leased, real property assets of a behavioral health facility located in Ohio.

Subsequent to March 31, 2007, we received regulatory approval and completed the acquisition of a 50-bed behavioral health facility located in Dover, Delaware.

Table of Contents

Also during the three months ended March 31, 2007, we received \$5 million in connection with the sale of vacant real property located in McAllen, Texas resulting in a \$2 million pre-tax gain.

Acquisition during the three months ended March 31, 2006:

During the three months ended March 31, 2006, we spent \$12 million to acquire the assets of a closed behavioral health care facility located in Florida.

(10) Dividends

A dividend of \$.08 per share or \$4.3 million in the aggregate was declared by the Board of Directors on January 25, 2007 and was paid on March 15, 2007 to shareholders of record as of March 1, 2007.

(11) Pension Plan

The following table shows the components of net periodic pension cost for our defined benefit pension plan as of March 31, 2007 and 2006 (amounts in thousands):

	Three Months Ended	
	March 31,	
	2007	2006
Service cost	\$ 336	\$ 348
Interest cost	1,091	1,100
Expected return on assets	(1,193)	(935)
Recognized actuarial loss	280	444
Net periodic pension cost	\$ 514	\$ 957

During the three months ended March 31, 2007, we made a contribution of \$5.7 million to our pension plan.

(12) Income Taxes

We adopted the provisions of FASB Interpretation No. 48 Accounting for Uncertainty in Income taxes, (FIN 48) effective January 1, 2007. As a result of the implementation of FIN 48, we recognized a \$12 million decrease in the liability for unrecognized tax benefits. This decrease in the liability resulted in an increase to the January 1, 2007 balance of retained earnings of approximately \$12 million. As of January 1, 2007, after implementation of FIN 48, our unrecognized tax benefits were approximately \$6 million. The amount, if recognized, that would affect the effective tax rate is approximately \$4 million.

We recognize accrued interest and penalties associated with uncertain tax positions as part of the tax provision. As of January 1, 2007, we had approximately \$1 million of accrued interest and penalties. The U.S. federal statute of limitations remains open for the 2003 and subsequent years. Foreign and U.S. state and local jurisdictions have statutes of limitations generally ranging from 3 to 4 years. The statute of limitations on certain jurisdictions could expire within the next twelve months. It is reasonably possible that the amount of unrecognized tax benefits will change during the next 12 months due to the closing of the statute of limitations and that change, if it were to occur, could have a favorable impact on our results of operations.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION
Overview

Our principal business is owning and operating, through our subsidiaries, acute care hospitals, behavioral health centers, surgical hospitals, ambulatory surgery centers and radiation oncology centers. As of March 31, 2007, we owned and/or operated or had under construction, 31 acute care hospitals (including 2 new facilities currently being constructed and 4 closed facilities located in Louisiana, as discussed below) and 110 behavioral health centers located in 32 states, Washington, DC and Puerto Rico. Since the third quarter of 2005, four of our acute care facilities in Louisiana were severely damaged and remain closed and non-operational as a result of Hurricane Katrina. As part of our ambulatory treatment centers division, we manage and/or own outright or in partnerships with physicians, 12 surgical hospitals and surgery and radiation oncology centers located in 6 states and Puerto Rico.

Net revenues from our acute care hospitals, surgical hospitals, surgery centers and radiation oncology centers accounted for 75% of our consolidated net revenues during each of the three month periods ended March 31, 2007 and 2006. Net revenues from our behavioral health care facilities accounted for 23% and 25% of our consolidated net revenues during the three month periods ended March 31, 2007 and 2006, respectively. Approximately 2% of our consolidated net revenues during the three month period ended March 31, 2007 were recorded in connection with a construction management contract pursuant to the terms of which we are building a newly constructed acute care hospital for an unrelated third party.

Services provided by our hospitals include general surgery, internal medicine, obstetrics, emergency room care, radiology, oncology, diagnostic care, coronary care, pediatric services, pharmacy services and behavioral health services. We provide capital resources as well as a variety of management services to our facilities, including central purchasing, information services, finance and control systems, facilities planning, physician recruitment services, administrative personnel management, marketing and public relations.

Forward-Looking Statements and Risk Factors

This Quarterly Report contains forward-looking statements that reflect our current estimates, expectations and projections about our future results, performance, prospects and opportunities. Forward-looking statements include, among other things, the information concerning our possible future results of operations, business and growth strategies, financing plans, expectations that regulatory developments or other matters will not have a material adverse effect on our business or financial condition, our competitive position and the effects of competition, the projected growth of the industry in which we operate, and the benefits and synergies to be obtained from our completed and any future acquisitions, and statements of our goals and objectives, and other similar expressions concerning matters that are not historical facts. Words such as may, will, should, could, would, predicts, potential, continue, expects, anticipates, future, intends, plans, projects and similar expressions, as well as statements in future tense, identify forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which, such performance or results will be achieved. Forward-looking information is based on information available at the time and/or our good faith belief with respect to future events, and is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. Such factors include, among other things, the following:

our ability to comply with existing laws and government regulations and/or changes in laws and government regulations;

possible unfavorable changes in the levels and terms of reimbursement for our charges by third party payors or government programs, including Medicare or Medicaid;

our ability to enter into managed care provider agreements on acceptable terms;

the outcome of known and unknown litigation, government investigations, and liabilities and other claims asserted against us, including the government's investigation of our South Texas Health Systems affiliates described herein;

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

national, regional and local economic and business conditions;

competition from other healthcare providers, including physician owned facilities in certain markets, including McAllen/Edinburg, Texas, the site of one of our largest acute care facilities;

technological and pharmaceutical improvements that increase the cost of providing, or reduce the demand for healthcare;

Table of Contents

our ability to attract and retain qualified personnel, nurses, physicians and other healthcare professionals and the impact on our labor expenses resulting from a shortage of nurses and other healthcare professionals;

demographic changes;

our ability to successfully integrate and improve our recent acquisitions and the availability of suitable acquisitions and divestiture opportunities;

a significant portion of our revenues is produced by a small number of our facilities;

the availability and terms of capital to fund the growth of our business;

some of our acute care facilities continue to experience decreasing inpatient admission trends;

an increase in the number of uninsured and self-pay patients treated at our acute care facilities that unfavorably impacts our ability to satisfactorily and timely collect our self-pay patient accounts;

our financial statements reflect large amounts due from various commercial and private payors and there can be no assurance that failure of the payors to remit amounts due to us will not have a material adverse effect on our future results of operations;

the ability to obtain adequate levels of general and professional liability insurance on current terms;

changes in our business strategies or development plans;

fluctuations in the value of our common stock;

other factors referenced herein or in our other filings with the Securities and Exchange Commission.

Given these uncertainties, risks and assumptions, you are cautioned not to place undue reliance on such forward-looking statements. Our actual results and financial condition could differ materially from those expressed in, or implied by, the forward-looking statements.

Forward-looking statements speak only as of the date the statements are made. We assume no obligation to publicly update any forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except as may be required by law. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by this cautionary statement.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect the amounts reported in our consolidated financial statements and accompanying notes. We consider our critical accounting policies to be those that require us to make significant judgments and estimates when we prepare our consolidated financial statements, including the following:

Revenue recognition: We record revenues and related receivables for health care services at the time the services are provided. Medicare and Medicaid revenues represented 34% and 35% of our net patient revenues during the three month periods ended March 31, 2007 and 2006, respectively. Revenues from managed care entities, including health maintenance organizations and managed Medicare and Medicaid programs accounted for 43% and 41% of our net patient revenues during the three month periods ended March 31, 2007 and 2006, respectively.

We report net patient service revenue at the estimated net realizable amounts from patients and third-party payors and others for services rendered. We have agreements with third-party payors that provide for payments to us at amounts different from our established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges and per diem payments. Estimates of contractual allowances under managed care plans are based upon the payment terms specified in the related contractual agreements. We closely monitor our historical collection rates, as well as changes in applicable laws, rules and regulations and contract terms, to assure that provisions are made using the most accurate information available. However, due to the complexities involved in these estimations, actual payments from payors may be different from the amounts we estimate and record.

Table of Contents

We estimate our Medicare and Medicaid revenues using the latest available financial information, patient utilization data, government provided data and in accordance with applicable Medicare and Medicaid payment rules and regulations. The laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation and as a result, there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term. Certain types of payments by the Medicare program and state Medicaid programs (e.g. Medicare Disproportionate Share Hospital, Medicare Allowable Bad Debts and Inpatient Psychiatric Services) are subject to retroactive adjustment in future periods as a result of administrative review and audit and our estimates may vary from the final settlements. Such amounts are included in accounts receivable, net, on our Consolidated Balance Sheets. The funding of both federal Medicare and state Medicaid programs are subject to legislative and regulatory changes. As such, we can not make any assurance that future legislation and regulations, if enacted, will not have a material impact on our future Medicare and Medicaid reimbursements.

We provide care to patients who meet certain financial or economic criteria without charge or at amounts substantially less than our established rates. Because we do not pursue collection of amounts determined to qualify as charity care, they are not reported in net revenues or in accounts receivable, net. Our acute care hospitals provided charity care and uninsured discounts, based on charges at established rates, amounting to \$127 million and \$118 million during the three month periods ended March 31, 2007 and 2006, respectively.

Provision for Doubtful Accounts: Collection of receivables from third-party payors and patients is our primary source of cash and is critical to our operating performance. Our primary collection risks relate to uninsured patients and the portion of the bill which is the patient's responsibility, primarily co-payments and deductibles. We estimate our provisions for doubtful accounts based on general factors such as payor mix, the agings of the receivables and historical collection experience. We routinely review accounts receivable balances in conjunction with these factors and other economic conditions which might ultimately affect the collectibility of the patient accounts and make adjustments to our allowances as warranted. At our acute care hospitals, third party accounts are pursued until all payment and adjustments are posted to the patient account. For those accounts with a patient balance after third party liability is finalized or accounts for uninsured patients, the patient is sent at least two statements followed by a series of collection letters. If the patient is deemed unwilling to pay, the account is written-off as bad debt and transferred to an outside collection agency for additional collection effort. Patients that express an inability to pay are reviewed for write-off as potential charity care. Our accounts receivable are recorded net of established charity care reserves of \$76 million as of March 31, 2007 and \$67 million as of December 31, 2006.

Uninsured patients that do not qualify as charity patients are extended an uninsured discount of at least 20% of total charges. During the collection process the hospital establishes a partial reserve in the allowance for doubtful accounts for self-pay balances outstanding for greater than 60 days from the date of discharge. All self-pay accounts at the hospital level are fully reserved if they have been outstanding for greater than 90 days from the date of discharge. Third party liability accounts are fully reserved in the allowance for doubtful accounts when the balance ages past 180 days from the date of discharge. Potential charity accounts are fully reserved when it is determined the patient may be unable to pay.

On a consolidated basis, we monitor our total self-pay receivables to ensure that the total allowance for doubtful accounts provides adequate coverage based on historical collection experience. At March 31, 2007 and December 31, 2006, accounts receivable are recorded net of allowance for doubtful accounts of \$111 million and \$110 million, respectively.

Self-Insured Risks: We provide for self-insured risks, primarily general and professional liability claims and workers' compensation claims, based on estimates of the ultimate costs for both reported claims and claims incurred but not reported. Estimated losses from asserted and incurred but not reported claims are accrued based on our estimates of the ultimate costs of the claims, which includes costs associated with litigating or settling claims, and the relationship of past reported incidents to eventual claims payments. All relevant information, including our own historical experience, the nature and extent of existing asserted claims and reported incidents, and independent actuarial analyses of this information, is used in estimating the expected amount of claims. We also consider amounts that may be recovered from excess insurance carriers, state guaranty funds and other sources in estimating our ultimate net liability for such risk. Our estimated self-insured reserves are reviewed and changed, if necessary, at each reporting date and changes are recognized currently as additional expense or as a reduction of expense.

In addition, we also maintain self-insured employee benefits programs for employee healthcare and dental claims. The ultimate costs related to these programs include expenses for claims incurred and paid in addition to an accrual for the estimated expenses incurred in connection with claims incurred but not yet reported.

Long-Lived Assets: We review our long-lived assets, including amortizable intangible assets, for impairment whenever events or circumstances indicate that the carrying value of these assets may not be recoverable. The assessment of possible impairment is based on our ability to recover the carrying value of our asset based on our estimate of its undiscounted future cash flow. If the analysis

Table of Contents

indicates that the carrying value is not recoverable from future cash flows, the asset is written down to its estimated fair value and an impairment loss is recognized. Fair values are determined based on estimated future cash flows using appropriate discount rates.

Goodwill: Goodwill is reviewed for impairment at the reporting unit level on an annual basis or sooner if the indicators of impairment arise. Our judgments regarding the existence of impairment indicators are based on market conditions and operational performance of each reporting unit. We have designated September 1st as our annual impairment assessment date and performed an impairment assessment as of September 1, 2006, which indicated no impairment of goodwill. Future changes in the estimates used to conduct the impairment review, including profitability and market value projections, could indicate impairment in future periods potentially resulting in a write-off of a portion or all of our goodwill.

Income Taxes: Deferred tax assets and liabilities are recognized for the amount of taxes payable or deductible in future years as a result of differences between the tax bases of assets and liabilities and their reported amounts in the financial statements. We believe that future income will enable us to realize our deferred tax assets net of recorded valuation allowances relating to state net operating loss carryforwards and other deferred tax assets.

We operate in multiple jurisdictions with varying tax laws. We are subject to audits by any of these taxing authorities. Our tax returns have been examined by the Internal Revenue Service through the year ended December 31, 2002. We believe that adequate accruals have been provided for federal, foreign and state taxes.

Accounting for Uncertainty in Income Taxes: We adopted the provisions of FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes, (FIN 48) effective January 1, 2007. As a result of the implementation of FIN 48, we recognized a \$12 million decrease in the liability for unrecognized tax benefits. This decrease in the liability resulted in an increase to the January 1, 2007 balance of retained earnings of approximately \$12 million and a reduction in income tax payable for the same amount. As of January 1, 2007, after implementation of FIN 48, our unrecognized tax benefits were approximately \$6 million. The amount, if recognized, that would affect the effective tax rate is approximately \$4 million.

We recognize accrued interest and penalties associated with uncertain tax positions as part of the tax provision. As of January 1, 2007, we had approximately \$1 million of accrued interest and penalties. The U.S. federal statute of limitations remains open for the 2003 and subsequent years. Foreign and U.S. state and local jurisdictions have statutes of limitations generally ranging from 3 to 4 years. The statute of limitations on certain jurisdictions could expire within the next twelve months. It is reasonably possible that the amount of unrecognized tax benefits will change during the next 12 months due to the closing of the statute of limitations and that change, if it were to occur, could have a significant favorable impact on our results of operations.

Physician Guarantees and Commitments: On January 1, 2006, we adopted the FASB issued Interpretation No. 45-3, *Application of FASB Interpretation No. 45 to Minimum Revenue Guarantees Granted to a Business or Its Owners* (FIN 45-3). Under FIN 45-3, the accounting requirements of FIN 45 are effective for any new revenue guarantees issued or modified on or after January 1, 2006 and the disclosure of all revenue guarantees, regardless of whether they were recognized under FIN 45, is required for all interim and annual periods beginning after January 1, 2006.

At both March 31, 2007 and December 31, 2006, our accrued liabilities-other, and our other assets include \$9 million of estimated future payments related to physician-related contractual commitments entered into during 2006 and 2007. Including all potential financial obligations pursuant to contractual guarantees outstanding as of March 31, 2007 (including commitments entered into prior to 2006) we have \$37 million of potential future financial obligations of which \$15 million are potential obligations during 2007, \$11 million are potential obligations during 2008 and \$11 million are potential obligations during 2009 and later.

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurement (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The provisions for SFAS 157 are to be applied prospectively as of the beginning of the fiscal year in which it is initially applied, except in limited circumstances including certain positions in financial instruments that trade in active markets as well as certain financial and hybrid financial instruments initially measured under SFAS No. 133

Accounting for Derivative Instruments and Hedging Activities (SFAS No. 133) using the transaction price method. In these circumstances, the transition adjustment, measured as the difference between the carrying amounts and the fair values of those financial instruments at the date SFAS No. 157 is initially applied, shall be recognized as a cumulative-effect adjustment to the opening balance of retained earnings for the fiscal year in which SFAS No. 157 is initially applied. We do not anticipate that the adoption of SFAS No. 157 will have a material impact on our results of operations or financial position.

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115, (SFAS No. 159). SFAS No. 159 permits a company to choose to measure many financial instruments and certain other items at fair value at specified election dates. Most of the provisions in SFAS No. 159 are elective; however, it applies to all companies with available-for-sale and trading securities. A company will report unrealized gains and losses on items for which the fair value option has been elected in earnings (or another performance indicator if the company does not report earnings) at each subsequent reporting date. The fair value option: (a) may be applied instrument by instrument, with a few exceptions, such as investments otherwise accounted for by the equity method; (b) is irrevocable (unless a new election date occurs), and; (c) is applied only to entire instruments and not to portions of instruments. SFAS No. 159 is effective as of the beginning of a company's first fiscal year beginning after November 15, 2007. We are currently evaluating this statement and have not yet determined the impact of such on our results of operations or financial position.

Table of Contents**Results of Operations**

The following table summarizes our results of operations, and is used in the discussion below, for the three months ended March 31, 2007 and 2006:

	Three months ended		Three months ended	
	March 31, 2007		March 31, 2006	
	Amount	% of Revenues	Amount	% of Revenues
Net revenues	\$ 1,197,601	100.0%	\$ 1,034,289	100.0%
Operating charges:				
Salaries, wages and benefits	510,993	42.7%	442,232	42.8%
Other operating expenses	245,352	20.5%	248,101	24.0%
Supplies expense	175,358	14.6%	128,513	12.4%
Provision for doubtful accounts	99,093	8.3%	75,007	7.3%
Depreciation and amortization	43,463	3.6%	39,030	3.8%
Lease and rental expense	16,176	1.4%	16,232	1.6%
Hurricane related expenses, net	(433)	0.0%	6,904	0.7%
Hurricane insurance recoveries			(6,904)	-0.7%
Subtotal operating expenses	1,090,002	91.0%	949,115	91.8%
Income before interest expense, hurricane insurance recoveries in excess of expenses, minority interests and income taxes	107,599	9.0%	85,174	8.2%
Interest expense, net	12,722	1.1%	8,525	0.8%
Hurricane insurance recoveries in excess of expenses			(15,387)	-1.4%
Minority interests in earnings of consolidated entities	14,192	1.2%	11,177	1.1%
Income before income taxes	80,685	6.7%	80,859	7.8%
Provision for income taxes	31,113	2.6%	30,367	2.9%
Income from continuing operations	49,572	4.1%	50,492	4.9%
(Loss) income from discontinued operations, net of income taxes	(64)	0.0%	592	0.1%
Net income	\$ 49,508	4.1%	\$ 51,084	4.9%

Net revenues increased 16% or \$163 million to \$1.20 billion during the three month period ended March 31, 2007 as compared to \$1.03 billion during the comparable prior year quarter. The increase was attributable to:

a \$100 million or 10% increase in net revenues generated at acute care hospitals and behavioral health care facilities owned during both periods (which we refer to as "same facility");

\$45 million of other combined increases in revenues resulting from the acute care facility and behavioral health care facilities acquired during 2006 and 2007, and;

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

\$18 million of other combined net increases in revenues resulting primarily from the revenues during the first quarter of 2007 in connection with a construction management contract pursuant to the terms of which we are building a newly constructed acute care hospital for an unrelated third party.

Income before income taxes remained unchanged at \$81 million during each of the three month periods ended March 31, 2007 and 2006. Included in our income before income taxes during the first quarter of 2007 as compared to the comparable prior year quarter, was the following:

a decrease of \$14 million resulting from the hurricane insurance recoveries in excess of expenses recorded during the first quarter of 2006 (\$15 million pre-minority interest), as discussed below;

an increase of \$14 million (exclusive of Hurricane related expenses and recoveries) at our acute care facilities, as discussed below in Acute Care Hospital Services;

an increase of \$2 million at our behavioral health care facilities, as discussed below in Behavioral Health Services, and;

a decrease of \$2 million resulting from other combined unfavorable changes.

Net income decreased \$1 million to \$50 million during the three month period ended March 31, 2007, as compared to \$51 million during the comparable prior year quarter. The decrease in net income during the first quarter of 2007, as compared to the comparable prior year quarter, was primarily attributable to an increase in the provision for income taxes due to an increase in our effective state income tax rate.

Effective July 1, 2006, the pharmacy services for our acute care facilities were brought in-house from an outsourced vendor. As a result of this change, during the first quarter of 2007, we experienced an increase to supplies expense of approximately \$29 million or 240 basis points (calculated as a percentage of our consolidated net revenues shown above), an increase to salaries, wages and benefits expense of approximately \$11 million or 90 basis points and a decrease to other operating expenses of approximately \$42 million or 350 basis points. The transition of our pharmacy services favorably impacted our pre-tax income by approximately \$2 million during the first quarter of 2007.

Table of Contents**Acute Care Hospital Services**

The following table summarizes the results of operations for our acute care facilities on a same facility basis, and is used in the discussion below for the three months ended March 31, 2007 and 2006 (dollar amounts in thousands):

Same Facility Acute Care

	Three Months Ended			
	2007		March 31, 2006	
	\$	%	\$	%
Net revenues	\$ 855,311	100.0	\$ 769,952	100.0
Salaries, wages and benefits	326,829	38.2	291,146	37.8
Other operating expenses	157,428	18.4	184,143	23.9
Supplies expense	151,368	17.7	111,649	14.5
Provision for doubtful accounts	89,117	10.4	69,745	9.1
Depreciation and amortization	34,832	4.1	31,524	4.1
Lease and rental	10,662	1.2	11,072	1.4
Subtotal operating expenses	770,236	90.1	699,279	90.8
Income before interest expense, minority interests and income taxes	85,075	9.9	70,673	9.2
Interest expense, net	667	0.1	247	0.0
Minority interests in earnings of consolidated entities	12,926	1.5	9,828	1.3
Income before income taxes	\$ 71,482	8.4	\$ 60,598	7.9

On a same facility basis during the three month period ended March 31, 2007, as compared to the comparable prior year quarter, net revenues at our acute care hospitals increased \$85 million or 11%. Income before income taxes increased \$11 million or 18% during the first quarter of 2007 as compared to the comparable prior year quarter.

Inpatient admissions to these facilities increased 4.9% during the first quarter of 2007, as compared to the comparable 2006 quarter, while patient days increased 4.6%. The average length of patient stay at these facilities was 4.5 days during each of the three month periods ended March 31, 2007 and 2006. The occupancy rate, based on the average available beds at these facilities, was 67% during the each of the three month periods ended March 31, 2007 and 2006.

Our same facility net revenues were favorably impacted by an increase in prices charged to private payors including health maintenance organizations and preferred provider organizations. On a same facility basis, net revenue per adjusted admission (adjusted for outpatient activity) at these facilities increased 5.3% and net revenue per adjusted patient day increased 5.6% during the first quarter of 2007 over the comparable prior year quarter.

Effective July 1, 2006, the pharmacy services for our acute care facilities were brought in-house from an outsourced vendor. As a result of this change, during the first quarter of 2007, we experienced an increase to supplies expense of approximately \$29 million or 340 basis points (calculated as a percentage of our same facility acute care net revenues shown above), an increase to salaries, wages and benefits expense of approximately \$11 million or 130 basis points and a decrease to other operating expenses of approximately \$42 million or 490 basis points. The transition of our pharmacy services favorably impacted our pre-tax income by approximately \$2 million during the first quarter of 2007.

We continue to experience an increase in uninsured patients throughout our portfolio of acute care hospitals which in part, has resulted from an increase in the number of patients who are employed but do not have health insurance. We provide care to patients who meet certain financial or economic criteria without charge or at amounts substantially less than our established rates. Because we do not pursue collection of amounts determined to qualify as charity care, they are not reported in net revenues or in accounts receivable, net. Our acute care hospitals provided charity care and uninsured discounts, based on charges at established rates, amounting to \$127 million and \$118 million during the three months ended March 31, 2007 and 2006, respectively.

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

During the past several years, the operating results of our acute care facilities located in the McAllen/Edinburg, Texas market have been pressured by continued intense hospital and physician competition as a physician-owned hospital in the market has eroded a portion of our higher margin business, including cardiac procedures. In response to these competitive pressures, we have undertaken

Table of Contents

significant capital investment in the market, including Edinburg Children's Hospital, a new dedicated 120-bed children's facility, which was completed and opened in March, 2006, as well as South Texas Behavioral Health Center, a 134-bed replacement behavioral facility, which was completed and opened in late June, 2006. The financial results for the Edinburg Children's Hospital and South Texas Behavioral Health Center are included in the same facility financial results presented above. Although we experienced significant declines in inpatient volumes in this market during 2005 and 2004, patient volumes at these facilities stabilized during 2006 and during the first quarter of 2007, as we experienced an 8.0% increase in combined inpatient admissions and an 11.1% increase in combined patient days as compared to the first quarter of 2006. The increase in the combined inpatient admissions during the first quarter of 2007 resulted primarily from the opening of the Children's Hospital and Behavioral Health Center during 2006. Despite the increase in inpatient volumes, combined income before income taxes at the facilities in this market decreased \$3 million during the first quarter of 2007 as compared to the first quarter of 2006. A continuation of increased provider competition in this market, as well as additional capacity under construction by us and others, could result in additional erosion of the net revenues and financial operating results of our acute care facilities in this market. We expect the competitive pressures in the market to continue and potentially intensify if additional capacity is added to the market in future periods by our competitors.

The operating factors mentioned above have resulted in a certain degree of volatility in our income from continuing operations. Although we have undertaken actions in regards to physician recruitment and other measures as mentioned above in the McAllen/Edinburg market, the ultimate impact and timing of potential improvements in the operating results of the facilities in the market are beyond our ability to predict. A continuation of the unfavorable operating results experienced in this market and/or a continuation of the increased level of uninsured patients to our facilities and the resulting adverse trends in the provision for doubtful accounts and charity care provided, could have a material unfavorable impact on our future operating results.

The following table summarizes the results of operations for all our acute care operations during the three months ended March 31, 2007 and 2006. Included in these results, in addition to the same facility results shown above, is: (i) the financial results for the three months ended March 31, 2007 for the Texoma Healthcare System that was acquired on January 2, 2007, and; (ii) the net hurricane related expenses and insurance recoveries recorded during the three months ended March 31, 2007 and 2006 (dollar amounts in thousands).

All Acute Care Facilities

	Three Months Ended			
	2007	%	March 31, 2006	%
Net revenues	\$ 892,865	100.0	\$ 769,952	100.0

During the three months ended March 31, 2007, as compared to the comparable prior year quarter, net revenues at our acute care hospitals increased 16% or \$123 million. The increase in net revenues was primarily attributable to:

an \$85 million increase at same facility revenues, as discussed above, and;

Table of Contents

a \$38 million increase consisting of the revenues generated during the first quarter of 2007 by the Texoma Healthcare System which was acquired on January 1, 2007.

Income before income taxes remained unchanged at \$75 million during each of the quarters ended March 31, 2007 and 2006. Included in income before income taxes at our acute care hospitals during the first quarter of 2007, as compared to the comparable prior year quarter, was the following:

an increase of \$11 million generated at our acute care facilities on a same facility basis, as discussed above;

a decrease of \$14 million resulting from the hurricane insurance recoveries in excess of expenses recorded during the first quarter of 2006 (\$15 million pre-minority interest), as discussed below, and;

an increase of \$3 million resulting from the pre-tax income generated during the first quarter of 2007 by the Texoma Healthcare System.

Behavioral Health Services

The following table summarizes the results of operations for our behavioral health care facilities, on a same facility basis, and is used in the discussion below for the three months ended March 31, 2007 and 2006 (dollar amounts in thousands):

Same Facility Behavioral Health

	Three Months Ended			
	2007	March 31, %	2006	%
Net revenues	\$ 267,878	100.0	\$ 253,628	100.0
Salaries, wages and benefits	133,727	49.9	127,119	50.1
Other operating expenses	50,399	18.8	47,503	18.7
Supplies expense	15,381	5.7	14,580	5.7
Provision for doubtful accounts	6,197	2.3	5,289	2.1
Depreciation and amortization	5,722	2.1	5,660	2.2
Lease and rental	3,981	1.5	3,854	1.5
Subtotal operating expenses	215,407	80.4	204,005	80.4
Income before interest expense, minority interests and income taxes	52,471	19.6	49,623	19.6
Interest expense, net	54	0.0	101	0.0
Minority interests in earnings of consolidated entities	301	0.0	(310)	-0.1
Income before income taxes	\$ 52,116	19.5	\$ 49,832	19.6

On a same facility basis during the first quarter of 2007, as compared to the comparable 2006 quarter, net revenues at our behavioral health care facilities increased 6% or \$14 million. Income before income taxes increased \$2 million or 5% to \$52 million or 19.5% of net revenues during the three months ended March 31, 2007, as compared to \$50 million or 19.6% of net revenues during the comparable prior year quarter.

Inpatient admissions to these facilities increased 3.2% during the first quarter of 2007, as compared to the comparable 2006 quarter, while patient days increased 3.5%. The average length of patient stay at these facilities was 16.2 days during the first quarter of 2007 and 16.1 days during the first quarter of 2006. The occupancy rate, based on the average available beds at these facilities, was 78% and 79% during the three months ended March 31, 2007 and 2006, respectively.

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

On a same facility basis, net revenue per adjusted admission (adjusted for outpatient activity) at these facilities increased 2.7% and net revenue per adjusted patient day increased 2.4% during the first quarter of 2007, as compared to the first quarter of 2006.

Table of Contents

The following table summarizes the results of operations for our behavioral health care facilities, including newly acquired facilities, for the three months ended March 31, 2007 and 2006 (dollar amounts in thousands):

All Behavioral Health Care Facilities

	Three Months Ended			
	2007	%	March 31, 2006	%
Net revenues	\$ 275,712	100.0	\$ 253,628	100.0
Salaries, wages and benefits	139,066	50.4	127,183	50.1
Other operating expenses	52,312	19.0	47,617	18.8
Supplies expense	16,146	5.9	14,622	5.8

Depreciation and amortization	6,319	2.3	5,660	2.2
Lease and rental	4,024	1.5	3,855	1.5
Subtotal operating expenses	224,172	81.3	204,226	80.5
Income before interest expense, minority interests and income taxes	51,540	18.7	49,402	19.5
Interest expense, net	109	0.0	101	0.0
Minority interests in earnings of consolidated entities	301	0.1	(310)	-0.1
Income before income taxes	\$ 51,130	18.5	\$ 49,611	19.6

During the first quarter of 2007, as compared to the comparable prior year quarter, net revenues at our behavioral health care facilities (including newly acquired or recently opened facilities), increased 9% or \$22 million. The increase in net revenues was attributable to

a \$14 million increase in same facility revenues, as discussed above, and;

\$8 million of revenues generated at facilities recently acquired or opened.

Income before income taxes increased \$1 million or 3% to \$51 million or 18.5% of net revenues during the first quarter of 2007, as compared to \$50 million or 19.6% of net revenues during the first quarter of 2006. The increase in income before income taxes at our behavioral health facilities was attributable to:

a \$2 million increase at our behavioral health facilities owned for more than a year, as discussed above, and;

\$1 million of combined losses, net of income, generated at facilities recently acquired or opened

Sources of Revenue

Overview: We receive payments for services rendered from private insurers, including managed care plans, the federal government under the Medicare program, state governments under their respective Medicaid programs and directly from patients.

Hospital revenues depend upon inpatient occupancy levels, the medical and ancillary services and therapy programs ordered by physicians and provided to patients, the volume of outpatient procedures and the charges or negotiated payment rates for such services. Charges and reimbursement rates for inpatient routine services vary depending on the type of services provided (e.g., medical/surgical, intensive care or

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

behavioral health) and the geographic location of the hospital. Inpatient occupancy levels fluctuate for various reasons, many of which are beyond our control. The percentage of patient service revenue attributable to outpatient services has generally increased in recent years, primarily as a result of advances in medical technology that allow more services to be provided on an outpatient basis, as well as increased pressure from Medicare, Medicaid and private insurers to reduce hospital stays and provide services, where possible, on a less expensive outpatient basis. We believe that our experience with respect to our increased outpatient levels mirrors the general trend occurring in the health care industry and we are unable to predict the rate of growth and resulting impact on our future revenues.

Patients are generally not responsible for any difference between customary hospital charges and amounts reimbursed for such services under Medicare, Medicaid, some private insurance plans, and managed care plans, but are responsible for services not covered by such plans, exclusions, deductibles or co-insurance features of their coverage. The amount of such exclusions, deductibles and co-insurance has generally been increasing each year. Indications from recent federal and state legislation are that this trend will continue. Collection of amounts due from individuals is typically more difficult than from governmental or business payers and we continue to experience an increase in uninsured and self-pay patients which unfavorably impacts the collectibility of our patient accounts thereby increasing our provision for doubtful accounts and charity care provided.

Table of Contents

The following table shows the approximate percentages of net patient revenue on a combined basis for our acute care and behavioral health facilities during the three month period ended March 31, 2007 and 2006 (excludes sources of revenues for all periods presented for divested facilities which are reflected as discontinued operations in our Consolidated Financial Statements). Net patient revenue is defined as revenue from all sources after deducting contractual allowances and discounts from established billing rates, which we derived from various sources of payment for the years indicated.

Acute Care and Behavioral Health Facilities Combined

Medicare: Medicare is a federal program that provides certain hospital and medical insurance benefits to persons aged 65 and over, some disabled persons and persons with end-stage renal disease. All of our acute care hospitals and many of our behavioral health centers are certified as providers of Medicare services by the appropriate governmental authorities. Amounts received under the Medicare program are generally significantly less than a hospital's customary charges for services provided.

Table of Contents

Under the Medicare program, for inpatient services, our general acute care hospitals receive reimbursement under a prospective payment system (PPS). Under inpatient PPS, hospitals are paid a predetermined fixed payment amount for each hospital discharge. The fixed payment amount is based upon each patient's diagnosis related group (DRG). Every DRG is assigned a payment rate based upon the estimated intensity of hospital resources necessary to treat the average patient with that particular diagnosis. The DRG payment rates are based upon historical national average costs and do not consider the actual costs incurred by a hospital in providing care. This DRG assignment also affects the predetermined capital rate paid with each DRG. The DRG and capital payment rates are adjusted annually by the predetermined geographic adjustment factor for the geographic region in which a particular hospital is located and are weighted based upon a statistically normal distribution of severity.

DRG rates are adjusted by an update factor each federal fiscal year, which begins on October 1. The index used to adjust the DRG rates, known as the hospital market basket index, gives consideration to the inflation experienced by hospitals in purchasing goods and services. Generally, however, the percentage increases in the DRG payments have been lower than the projected increase in the cost of goods and services purchased by hospitals. For federal fiscal years 2006, 2005 and 2004, the update factors were 3.7%, 3.3% and 3.4%, respectively. For 2007, the update factor is 3.4%. Hospitals are allowed to receive the full basket update if they provide the Centers for Medicare and Medicaid Services (CMS) with specific data relating to the quality of services provided. We have complied fully with this requirement and intend to comply fully in future periods. Pursuant to a proposed CMS rule, which is expected to be finalized in August 2007, the update factor for 2008 would be 3.3%. In addition, CMS has proposed to institute a 2.4% reduction to the standard DRG rate update in both 2008 and 2009 to account for anticipated DRG upcoding by hospitals under the proposed severity-adjusted DRGs (referred to as Medicare Severity DRGs or MS-DRGs).

In August 2006, CMS finalized new provisions for the hospital inpatient PPS for the upcoming federal fiscal year, which includes a significant change in the manner in which it determines the underlying relative weights used to calculate the DRG payment amount. For federal fiscal year 2007, CMS has begun to phase-in the use of hospital costs rather than hospital charges for the DRG relative weight determination. This change will phase-in ratably over three years with full phase-in to be completed in federal fiscal year 2009.

In the same final rule, in federal fiscal year 2007, CMS expanded the number of Medicare DRGs from 526 to 538. As part of this DRG expansion, CMS identified 20 new DRGs involving 3 different clinical areas that attempt to significantly improve the CMS DRG system's recognition of severity of illness. The final rule also modifies 32 existing DRGs in an attempt to better capture differences in severity, and deletes 8 existing DRGs. Similarly, CMS has stated it will conduct through a research contractor an evaluation of alternative DRG severity systems and implement one of these systems, or potentially a system that CMS develops based on its own prior research, in the hope of achieving further improvements in payment accuracy by federal fiscal year 2008. Accordingly, CMS has proposed to create 745 new MS-DRGs to replace 538 current DRGs in 2008. A final rule is expected to be published in August 2007.

The final rule omitted the publication of federal fiscal year 2007 wage index values which are used to adjust hospital DRG payments based on their geographic location. The omission of these wage index values was the result of a federal court order to CMS to collect current data for the Medicare occupational mix adjustment and apply it at 100% rather than at its current weighting of 10%. Subsequently, CMS published this wage index data in September, 2006. Based upon our estimates, the impact of the standard annual wage index update and the change in occupational mix weighting will reduce our Medicare acute care inpatient net revenue by less than 0.5%.

We estimate that our federal fiscal year 2007 average DRG payment rates will increase approximately 1.50% to 1.75% when factoring in all published Medicare federal fiscal year 2007 inpatient DRG rule changes and update factors.

For the majority of outpatient hospital services, both general acute and behavioral health hospitals are paid under an outpatient PPS according to ambulatory procedure codes (APC) that group together services that are clinically related and use similar resources. Depending on the service rendered during an encounter, a patient may be assigned to a single or multiple groups. Medicare pays a set price or rate for each group, regardless of the actual costs incurred in providing care. Medicare sets the payment rate for each APC based on historical median cost data, subject to geographic modification. The APC payment rates are updated each federal fiscal year. For 2006, 2005 and 2004, the payment rate update factors were 3.7%, 3.3% and 3.4%, respectively. For 2007, the update factor is 3.4%.

We operate inpatient rehabilitation hospital units that treat Medicare patients with specific medical conditions which are excluded from the Medicare inpatient PPS DRG payment methodology. Inpatient rehabilitation facilities (IRFs) must meet a certain volume

Table of Contents

threshold each year for the number patients with these specific medical conditions, often referred to as the 75 Percent Rule. Medicare payment for IRF patients is based on a prospective case rate based on a CMS determined Case-Mix Group classification and is updated annually by CMS. CMS has temporarily reduced the IRF qualifying threshold from 75% to 50% in 2005, 60% in 2006 and 65% in 2007 before returning to the 75% threshold in 2008.

Psychiatric hospitals have traditionally been excluded from the inpatient services PPS. However, on January 1, 2005, CMS implemented a new PPS (Psych PPS) for inpatient services furnished by psychiatric hospitals under the Medicare program. This system replaced the cost-based reimbursement guidelines with a per diem PPS with adjustments to account for certain facility and patient characteristics. Psych PPS also contains provisions for Outlier Payments and an adjustment to a psychiatric hospital's base payment if it maintains a full-service emergency department. The new system is being phased-in over a three-year period. Also, CMS has included a stop-loss provision to ensure that hospitals avoid significant losses during the transition. In May 2006, CMS published its annual increase to the federal component of the Psych PPS per diem rate. This increase includes the effects of market basket updates resulting in a 4.5% increase in total payments for Rate Year 2007, covering the period of July 1, 2006 to June 30, 2007. According to the May, 2007 CMS notice, the market basket increase is 3.2% for the period of July 1, 2007 through June 30, 2008. We believe the continued phase-in of Psych PPS will have a favorable effect on our future results of operations, however, due to the three-year phase in period, we do not believe the favorable effect will have a material impact on our 2007 results of operations.

Medicaid: Medicaid is a joint federal-state funded health care benefit program that is administered by the states to provide benefits to qualifying individuals who are unable to afford care. Most state Medicaid payments are made under a PPS-like system, or under programs that negotiate payment levels with individual hospitals. Amounts received under the Medicaid program are generally significantly less than a hospital's customary charges for services provided. In addition to revenues received pursuant to the Medicare program, we receive a large portion of our revenues either directly from Medicaid programs or from managed care companies managing Medicaid. All of our acute care hospitals and most of our behavioral health centers are certified as providers of Medicaid services by the appropriate governmental authorities.

We receive a large concentration of our Medicaid revenues from Texas and significant amounts from Pennsylvania, Washington, DC and Illinois. We can provide no assurance that reductions to Medicaid revenues, particularly in the above-mentioned states, will not have a material adverse effect on our future results of operations. Furthermore, the federal government and many states are currently working to effectuate significant reductions in the level of Medicaid funding, which could adversely affect future levels of Medicaid reimbursement received by our hospitals.

In February, 2005, a Texas Medicaid State Plan Amendment went into effect for Potter County that expands the supplemental inpatient reimbursement methodology for the state's Medicaid program. This state plan amendment was approved retroactively to March, 2004. During the three month periods ended March 31, 2007 and 2006, we earned \$5 million and \$3 million, respectively, of revenue in connection with this program. For the remainder of the state fiscal year (SFY) 2007 (covering the period of January 1, 2007 through August 31, 2007), our total supplemental payments pursuant to the provisions of this program are estimated to be approximately \$8 million. During the remainder of 2007, covering a portion of the SFY2008 (covering the period of September 1, 2007 to December 31, 2007), our estimated revenues earned pursuant to this program could range from zero to \$9 million depending on the ability of the local hospital district to make Inter-Governmental Transfers (IGTs) to the state of Texas. We are unable to predict whether the hospital district will fund the IGTs at a level in SFY2008 above the minimum range.

On July 27, 2006, CMS retroactively approved to June 11, 2005, an amendment to the Texas Medicaid State Plan which permits the state of Texas to make supplemental payments to certain hospitals located in Hidalgo, Maverick and Webb counties. Our four acute care hospital facilities located in these counties are eligible to receive these supplemental Medicaid payments. This program is subject to final state rule making procedures and the local governmental agencies providing the necessary funds on an ongoing basis through inter-governmental transfers to the state of Texas. During the three month periods ended March 31, 2007 and 2006, we earned \$1.3 million and \$400,000, respectively, of revenues in connection with this program. We estimate that our hospitals will be entitled to reimbursements of approximately \$7 million annually.

In September 2005, legislation in Texas went into effect that ensures that some form of Medicaid managed care will exist in every Texas county. In addition, the Texas STAR+PLUS program, which provides an integrated acute and long-term care Medicaid managed care delivery system to elderly and disabled Medicaid beneficiaries in the Harris County service area will be expanded to seven additional service areas. Such actions could have a material unfavorable impact on the reimbursement our Texas hospitals receive.

Table of Contents

We operate two freestanding psychiatric hospitals in the Dallas, Texas region that operated under the Lone Star Select II prospective per diem payment program. We were notified by the Commission that this per diem payment program terminated on August 31, 2006. These affected facilities were paid on a TEFRA cost based payment system for September and October of 2006. Effective November 1, 2006, the Commission's payment for these hospitals is based on a prospective per diem rate based on a prior year cost report.

Managed Care: A significant portion of our net patient revenues are generated from managed care companies, which include health maintenance organizations, preferred provider organizations and managed Medicare and Medicaid programs (referred to as Medicare Part C or Medicare Advantage). In general, we expect the percentage of our business from managed care programs to continue to grow. The consequent growth in managed care networks and the resulting impact of these networks on the operating results of our facilities vary among the markets in which we operate. Typically, we receive lower payments per patient from managed care payors than we do from traditional indemnity insurers, however, during the past few years we have secured price increases from many of our commercial payors including managed care companies.

Commercial Insurance: Our hospitals also provide services to individuals covered by private health care insurance. Private insurance carriers typically make direct payments to hospitals or, in some cases, reimburse their policy holders, based upon the particular hospital's established charges and the particular coverage provided in the insurance policy. Private insurance reimbursement varies among payors and states and is generally based on contracts negotiated between the hospital and the payor.

Commercial insurers are continuing efforts to limit the payments for hospital services by adopting discounted payment mechanisms, including predetermined payment or DRG-based payment systems, for more inpatient and outpatient services. To the extent that such efforts are successful and reduce the insurers' reimbursement to hospitals and the costs of providing services to their beneficiaries, such reduced levels of reimbursement may have a negative impact on the operating results of our hospitals.

Other Sources: Our hospitals provide services to individuals that do not have any form of health care coverage. Such patients are evaluated, at the time of service or shortly thereafter, for their ability to pay based upon federal and state poverty guidelines, qualifications for Medicaid or other state assistance programs, as well as our local hospital's indigent and charity care policy. Patients without health care coverage who do not qualify for Medicaid or indigent care write-offs are offered substantial discounts in an effort to settle their outstanding account balances. In addition, effective January 1, 2006, we implemented a formal uninsured discount policy for our acute care hospitals which had the effect of lowering both our provision for doubtful accounts and net revenues but did not materially impact net income.

State Medicaid Disproportionate Share Hospital Payments: Hospitals that have an unusually large number of low-income patients (i.e., those with a Medicaid utilization rate of at least one standard deviation above the mean Medicaid utilization, or having a low income patient utilization rate exceeding 25%) are eligible to receive a disproportionate share hospital (DSH) adjustment. Congress established a national limit on DSH adjustments. Although this legislation and the resulting state broad-based provider taxes have affected the payments we receive under the Medicaid program, to date the net impact has not been materially adverse.

Upon meeting certain conditions and serving a disproportionately high share of Texas' and South Carolina's low income patients, five of our facilities located in Texas and one facility located in South Carolina received additional reimbursement from each state's DSH fund. The Texas and South Carolina programs have been renewed for each state's 2007 fiscal years (covering the period of September 1, 2006 through August 31, 2007 for Texas and October 1, 2006 through September 30, 2007 for South Carolina). Although neither state has definitively quantified the amount of DSH funding our facilities will receive during the SFY2007, both states have indicated the allocation criteria will be similar to the methodology used in previous years. Included in our financial results was an aggregate of \$9 million and \$8 million during the three month periods ended March 31, 2007 and 2006, respectively. Failure to renew these DSH programs beyond their scheduled termination dates, failure of our hospitals that currently receive DSH payments to qualify for future DSH funds under these programs, or reductions in reimbursements, could have a material adverse effect on our future results of operations.

In February 2003, the United States Department of Health and Human Services (HHS) Office of Inspector General (OIG) published a report indicating that Texas Medicaid may have overpaid Texas hospitals for DSH payments. To date, no actions to follow up on this report have had any material impact on our Texas hospitals.

Sources of Revenues and Health Care Reform: Given increasing budget deficits, the federal government and many states are currently considering additional ways to limit increases in levels of Medicare and Medicaid funding, which could also adversely affect future payments received by our hospitals. In addition, the uncertainty and fiscal pressures placed upon the federal government as a result of, among other things, the ongoing military engagement in Iraq, the War on Terrorism, economic recovery stimulus packages,

Table of Contents

responses to natural disasters, such as Hurricane Katrina, the continuing expansion of a Medicare drug benefit and the federal budget deficit in general may affect the availability of federal funds to provide additional relief in the future. We are unable to predict the effect of future policy changes on our operations.

In addition to statutory and regulatory changes to the Medicare and each of the state Medicaid programs, our operations and reimbursement may be affected by administrative rulings, new or novel interpretations and determinations of existing laws and regulations, post-payment audits, requirements for utilization review and new governmental funding restrictions, all of which may materially increase or decrease program payments as well as affect the cost of providing services and the timing of payments to our facilities. The final determination of amounts we receive under the Medicare and Medicaid programs often takes many years, because of audits by the program representatives, providers' rights of appeal and the application of numerous technical reimbursement provisions. We believe that we have made adequate provisions for such potential adjustments. Nevertheless, until final adjustments are made, certain issues remain unresolved and previously determined allowances could become either inadequate or more than ultimately required.

Finally, we expect continued third-party efforts to aggressively manage reimbursement levels and cost controls. Reductions in reimbursement amounts received from third-party payors could have a material adverse effect on our financial position and our results of operations.

Other Operating Results

Combined net revenues from our surgical hospitals, ambulatory surgery centers and radiation oncology centers were \$8 million during each of the three month periods ended March 31, 2007 and 2006. Combined income before income taxes from these entities was \$1 million and \$2 million during the three months ended March 31, 2007 and 2006, respectively.

Interest expense was \$13 million during the three months ended March 31, 2007 and \$9 million during the three months ended March 31, 2006. The increase in interest expense during the first quarter of 2007, as compared to the comparable prior year quarter, was primarily due to an increase in the average outstanding borrowings.

The effective tax rate was 38.6% and 37.6% during the three month periods ended March 31, 2007 and 2006, respectively. The increase in the effective tax rate during the first quarter of 2007, as compared to the comparable prior year quarter, was primarily due to an increase in the effective state income tax rate.

Discontinued Operations

The following table shows the combined results of operations for the facilities reflected as discontinued operations on our consolidated statements of income for the three months periods ended March 31, 2007 and 2006 (amounts in thousands):

	Three Months Ended	
	March 31,	
	2007	2006
(Loss) income from discontinued operations, net of income taxes		
Net revenues	\$	\$ 204
(Loss) income from operations	(102)	940
Income tax benefit (provision)	38	(348)
 (Loss) income from discontinued operations, net of income taxes	 \$ (64)	 \$ 592

Impact of Hurricane Katrina

In August, 2005, our facilities listed below were severely damaged from Hurricane Katrina. Since the Hurricane, all facilities remain closed and non-operational as we continue to evaluate the likely recovery period for the surrounding communities.

Methodist Hospital located in New Orleans, Louisiana consisting of Methodist Hospital (Methodist), a six-story, 306-bed acute-care facility and Lakeland Medical Pavilion (Lakeland), a two-story, 54-bed acute-care facility.

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

Chalmette Medical Center located in Chalmette, Louisiana consisting Chalmette Medical Center (Chalmette), a two-story, 138-bed acute-care facility and Virtue Street Pavilion, a one-story, 57-bed facility providing physical rehabilitation, skilled nursing and inpatient behavioral health services.

Since these facilities have been closed since Hurricane Katrina, no revenues are reflected in our consolidated statements of income for the post-hurricane period.

Table of Contents

Prior to December, 2006, Methodist and Lakeland were owned by a limited liability company (LLC) in which we held a 90% ownership interest while the remaining 10% interest was held by an unaffiliated third-party. Pursuant to the terms of the LLC agreement, the third-party, minority member had certain put rights which they elected to exercise in December, 2006. The exercise of this put right required us to purchase the minority member's interest for \$14.8 million which was paid during the first quarter of 2007 and, as stipulated in the LLC agreement, consisted of the minority member's initial contribution in each facility. The gain resulting from this transaction, which was recorded during the fourth quarter of 2006, did not have a material impact on our 2006 results of operations.

Included in our financial results for the three month period ended March 31, 2006 was a combined after-tax charge of \$4.1 million (\$6.9 million pre-tax and pre-minority interest) consisting primarily of expenses incurred in connection with remediation of the hurricane-damaged properties including removal of damaged property and debris and sealing of the buildings to prevent further weather-related deterioration. Also included in our financial results for the three month period ended March 31, 2006 was \$13.1 million of after-tax, hurricane related insurance recoveries (\$22.3 million pre-tax and pre-minority interest).

Professional and General Liability Claims and Property Insurance

As of March 31, 2007, the total accrual for our professional and general liability claims was \$258 million (\$255 million net of expected recoveries), of which \$32 million is included in other current liabilities. As of December 31, 2006, the total accrual for our professional and general liability claims was \$248 million (\$245 million net of expected recoveries), of which \$32 million is included in other current liabilities. Included in other assets was \$3 million as of March 31, 2007 and \$3 million as of December 31, 2006, related to estimated expected recoveries from various state guaranty funds in connection with PHICO related professional and general liability claims payments.

Effective April 1, 2007, we have commercial property insurance policies covering catastrophic losses resulting from windstorm damage up to \$100 million per occurrence. Losses resulting from non-named windstorms are subject to a \$250,000 deductible. Losses resulting from named windstorms are subject to a 5% deductible based upon the declared value of the property. In addition, we have commercial property insurance policies covering catastrophic losses resulting from earthquake and flood damage, each subject to annual aggregate limitations of \$100 million. Earthquake losses are subject to a \$250,000 deductible for our facilities located in all states except California, Alaska and Puerto Rico. Earthquake losses sustained at facilities located in California, Alaska and Puerto Rico are subject to a 5% deductible based upon the declared value of the property. Flood losses have a \$250,000 deductible except in FEMA designated flood zones A and V (which are located in certain sections of Florida, Oklahoma and Texas) in which case the losses are subject to a \$500,000 deductible. Due to a sharp increase in property losses experienced nationwide in recent years, the cost of commercial property insurance has increased significantly. As a result, catastrophic coverage for earthquake and flood has been limited to annual aggregate losses (as opposed to per occurrence losses). Given these insurance market conditions, there can be no assurance that a continuation of these unfavorable trends, or a sharp increase in uninsured property losses sustained by us, will not have a material adverse effect on our future results of operations.

Liquidity

Net cash provided by operating activities

Net cash provided by operating activities was \$99 million during the three months ended March 31, 2007 and \$110 million during the comparable prior year quarter. The \$11 million net decrease was primarily attributable to the following:

a favorable change of \$20 million due to an increase in net income plus or minus the adjustments to reconcile net income to net cash provided by operating activities (depreciation and amortization, accretion of discount on convertible debentures, gains on sales of assets and hurricane insurance recoveries);

an unfavorable change of \$9 million in accounts receivable partially due to a \$6 million increase in construction contract receivables recorded in connection with our management of a newly constructed acute care facility for an unaffiliated third-party;

an unfavorable change of \$17 million in other working capital accounts, partially due to an unfavorable change in accrued compensation, and;

\$5 million of other combined net unfavorable changes.

Our days sales outstanding (DSO), are calculated by dividing our quarterly net revenue by the number of days in the three month period. The result is divided into the accounts receivable balance at March 31st of each year to obtain the DSO. Our DSO were 50 days at March 31, 2007 and 48 days at March 31, 2006.

Net cash provided by/used in investing activities

During the three month period ended March 31, 2007, we used \$182 million of net cash in investing activities as compared to \$67 million of net cash provided by investing activities during the three months ended March 31, 2006.

Table of Contents

During the first three months of 2007, we used \$182 million of net cash in investing activities as follows:

spent \$99 million to finance capital expenditures at our facilities, including construction costs related to a new 170-bed acute care hospital in Las Vegas, Nevada that is scheduled to be completed and opened during the third quarter of 2007, a new 171-bed acute care hospital located in Palmdale, California that is scheduled to be completed and opened during the fourth quarter of 2008, a newly constructed replacement behavioral health care facility located in Chicago, Illinois that is scheduled to be completed and opened during the second quarter of 2007 and a major renovation to our 319-bed acute care facility located in Bradenton, Florida that is scheduled to be completed and opened during the second quarter of 2007;

spent \$73 million to acquire: (i) certain assets of Texoma Healthcare System located in Texas, including a 234-bed acute-care hospital, a 60-bed behavioral health hospital, a 21-bed freestanding rehabilitation hospital and TexomaCare, a 34-physician group practice structured as a 501A corporation, and; (ii) the previously leased, real property assets of a behavioral health facility located in Ohio;

spent \$15 million to acquire the remaining 10% minority ownership interest in a limited liability company (LLC) that owns Methodist Hospital and Lakeland Medical Pavilion located in Louisiana that were severely damaged and closed as a result of Hurricane Katrina. Pursuant to the terms of the LLC agreement, the third-party, minority member had certain put rights which they elected to exercise in December, 2006 requiring us to purchase their ownership interest at the minority member's initial contribution in each facility, and;

received \$5 million in connection with the sale of vacant real property located in McAllen, Texas.

During the first three months of 2006, we used \$67 million of net cash in investing activities as follows:

spent \$83 million to finance capital expenditures at our facilities, including construction costs related to a new 170-bed acute care hospital in Las Vegas, Nevada, a new 104-bed replacement acute care hospital in Eagle Pass, Texas, a new 120-bed children's hospital in Edinburg, Texas and a new 134-bed replacement behavioral health care facility in McAllen, Texas;

spent \$12 million to acquire the assets of a closed behavioral health care facility located in Florida, and;

received \$28 million of commercial insurance proceeds in connection with damage sustained from Hurricane Katrina.

2007 Expected Capital Expenditures:

During the remaining nine months of 2007, we expect to spend approximately \$350 million on capital expenditures, including expenditures for capital equipment, renovations, new projects at existing hospitals and completion of major construction projects in progress. We believe that our capital expenditure program is adequate to expand, improve and equip our existing hospitals. We expect to finance all capital expenditures and acquisitions with internally generated funds and/or additional funds, as discussed below

Net cash provided by/used in financing activities

During the three month period ended March 31, 2007, we generated \$80 million of net cash provided by financing activities as compared to \$43 million of net cash used in financing activities during the comparable three month period of 2006.

During the first three months of 2007, we generated \$80 million of net cash provided by financing activities as follows:

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

we generated \$85 million of net proceeds from additional borrowings pursuant to our \$800 million revolving credit facility and our short term credit facility which is payable on demand;

spent approximately \$3 million to repurchase approximately 57,000 shares of our Class B Common Stock;

spent \$4 million to pay quarterly cash dividends of \$.08 per share, and;

received \$2 million of capital contributions from a third-party minority member for their share of costs related to an acute care facility currently under construction.

During the first three months of 2006, we used \$43 million of net cash from financing activities as follows:

spent \$39 million of net debt repayments consisting primarily of repayments under our unsecured non-amortizing revolving credit agreement, and;

spent \$4 million to pay an \$.08 per share quarterly cash dividend;

Table of Contents

Capital Resources

Credit Facilities and Outstanding Debt Securities

On July 28, 2006, we entered into Amendment No. 1 to our unsecured non-amortizing revolving credit agreement (Credit Agreement) which increased the commitments under the Credit Agreement by \$150 million, to \$650 million, and extended the scheduled expiration date to July 28, 2011 from the originally scheduled expiration date of March, 2010. Amendment No. 1 increased the sub-limit for letters of credit to \$100 million from \$75 million. The interest rate on the borrowings is determined, at our option, as either: (i) the one, two, three or six month London Inter-Bank Offer Rate (LIBOR) plus a spread of 0.33% to 0.575%; (ii) at the higher of the Agent's prime rate or the federal funds rate plus 0.50%, or; (iii) a competitive bid rate. A facility fee ranging from 0.07% to 0.175% is required on the total commitment. The applicable margins over LIBOR and the facility fee are based upon our credit ratings from Standard & Poor's Ratings Services and Moody's Investors Service, Inc. At March 31, 2007, the applicable margin over the LIBOR rate was 0.40% and the commitment fee was .10%. There are no compensating balance requirements. On April 13, 2007, we entered into Amendment No. 2 to our Credit Agreement which increased the commitments by \$150 million, to \$800 million. As of March 31, 2007, we had \$425 million of borrowings outstanding under our revolving credit agreement, \$52 million of outstanding letters of credit and \$14 million of outstanding borrowings under a short-term credit facility which is payable on demand by the lending institution. As of March 31, 2007, after giving effect to the increased borrowing capacity resulting from Amendment No. 2 entered into in April of 2007, we had \$309 million of available borrowing capacity pursuant to the terms of our Credit Agreement (\$159 million of available borrowing capacity before Amendment No. 2).

On June 30, 2006, we issued \$250 million of senior notes (the Notes) which have a 7.125% coupon rate and mature on June 30, 2016. Interest on the Notes is payable semiannually in arrears on June 30 and December 30 of each year.

During 2001, we issued \$200 million of senior notes which have a 6.75% coupon rate and which mature on November 15, 2011. The interest on the senior notes is paid semiannually in arrears on May 15 and November 15 of each year. The senior notes can be redeemed in whole at any time and in part from time to time.

Our total debt as a percentage of total capitalization was 39% at March 31, 2007 and 37% at December 31, 2006. Covenants relating to long-term debt require maintenance of a minimum net worth, specified debt to total capital and fixed charge coverage ratios. We are in compliance with all required covenants as of March 31, 2007.

We expect to finance all capital expenditures and acquisitions, pay dividends and potentially repurchase shares of our common stock utilizing internally generated and additional funds. Additional funds may be obtained through: (i) the issuance of equity; (ii) borrowings under our existing revolving credit facility or through refinancing the existing revolving credit agreement, and/or; (iii) the issuance of other long-term debt. There can be no assurance that such additional funds will be available in the preferred amounts or from the preferred sources.

Off-Balance Sheet Arrangements

During the three months ended March 31, 2007, there have been no material changes in the off-balance sheet arrangements consisting of operating leases and standby letters of credit and surety bonds. Reference is made to Item 7. Management's Discussion and Analysis of Operations and Financial Condition Contractual Obligations and Off-Balance Sheet Arrangements, in our Annual Report on Form 10-K for the year ended December 31, 2006.

We have various obligations under operating leases or master leases for real property and under operating leases for equipment. The real property master leases are leases for buildings on or near hospital property for which we guarantee a certain level of rental income. We sublease space in these buildings and any amounts received from these subleases are offset against the expense. In addition, we lease four hospital facilities from the Trust with terms scheduled to expire in 2011 and 2014. These leases contain up to four, 5-year renewal options.

As of March 31, 2007, we were party to certain off balance sheet arrangements consisting of standby letters of credit and surety bonds. Our outstanding letters of credit and surety bonds as of March 31, 2007 totaled \$89 million consisting of: (i) \$77 million related to our self-insurance programs; (ii) \$7 million consisting primarily of collateral for outstanding bonds of an unaffiliated third party and public utility, and; (iii) \$5 million of debt guarantees related to entities in which we own a minority interest.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes in the quantitative and qualitative disclosures during the three months ended March 31, 2007. Reference is made to Item 7A. Quantitative and Qualitative Disclosures about Market Risk in our Annual Report on Form 10-K for the year ended

December 31, 2006.

Table of Contents

Item 4. Controls and Procedures

As of March 31, 2007, under the supervision and with the participation of our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), we performed an evaluation of the effectiveness of our disclosure controls and procedures, as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended (the 1934 Act). Based on this evaluation, the CEO and CFO have concluded that our disclosure controls and procedures are effective to ensure that material information is recorded, processed, summarized and reported by management on a timely basis in order to comply with our disclosure obligations under the 1934 Act and the SEC rules thereunder.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting or in other factors during the first quarter of 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to claims and suits in the ordinary course of business, including those arising from care and treatment afforded by our hospitals and are party to various other litigation, as outlined below.

We and our South Texas Health System affiliates, which operate McAllen Medical Center, McAllen Heart Hospital, Edinburg Regional Medical Center and certain other affiliates, were served with a subpoena dated November 21, 2005, issued by the Office of Inspector General of the Department of Health and Human Services (OIG). At that time, the Civil Division of the U.S. Attorney 's office in Houston, Texas indicated that the subpoena was part of an investigation under the False Claims Act of compliance with Medicare and Medicaid rules and regulations pertaining to the employment of physicians and the solicitation of patient referrals from physicians from January 1, 1999 to the date of the subpoena related to the South Texas Health System. On March 9, 2007, an additional subpoena was served upon us by the OIG requesting documents concerning the Medicare cost reports for the South Texas Health System affiliates. To the best of our knowledge, we have provided the documents requested in connection with both subpoenas and we continue to cooperate in the investigation. On February 16, 2007, our South Texas Health System affiliates were served with a search warrant in connection with what we have been advised is a related criminal investigation concerning the production of documents. At that time, the government obtained various documents and other property related to the facilities. We are unable to evaluate the existence or extent of any potential financial exposure in connection with this matter at this time.

We monitor all aspects of our business and have developed a comprehensive ethics and compliance program that is designed to meet or exceed applicable federal guidelines and industry standards. Because the law in this area is complex and constantly evolving, governmental investigation or litigation may result in interpretations that are inconsistent with industry practices, including ours. Although we believe our policies, procedures and practices comply with governmental regulations, no assurance can be given that we will not be subjected to further inquiries or actions, or that we will not be faced with sanctions, fines or penalties in connection with the investigation of our South Texas Health System affiliates. Even if we were to ultimately prevail, the government 's inquiry and/or action in connection with this matter could have a material adverse effect on our future operating results.

On November 1, 2005, our management company and several of our facilities located in California, including Inland Valley Medical Center, Rancho Springs Medical Center, Del Amo Hospital and Corona Regional Medical Center (Hospitals) were named as defendants in a wage and hour lawsuit filed in Los Angeles Superior Court under the caption *Lasko-Hoellinger, et al v. UHS of Delaware, Inc., et al*. Del Amo Hospital was subsequently dismissed from the case. While two of the four original plaintiffs in that case voluntarily requested that they be dismissed as plaintiffs from that lawsuit, the remaining two plaintiffs are seeking to have the matter certified as a class action. The remaining plaintiffs are alleging, among other things, that they are entitled to recover damages from the Hospitals for missed breaks and other alleged violations of various California Labor Code sections and applicable wage orders for a period of at least one year prior to the filing of the case. The Hospitals have denied liability and are defending the case, which has not yet been certified as a class action by the court. Although we are unable to definitively determine the extent of the potential financial exposure at this time, during 2006, we recorded an estimated \$10 million pre-tax provision in connection with this matter.

Table of Contents

On March 30, 2007, the U.S. Department of Labor filed a claim, in the United States District Court in New Haven, Connecticut, against Stonington Behavioral Health, Inc. (Stonington), a wholly-owned subsidiary that owns one of our behavioral health facilities, UHS of Delaware, Inc., and Universal Health Services, Inc., alleging that Stonington failed to pay certain employees (1) the applicable minimum wage, and (2) appropriate pay for overtime, during the period July 1, 2004 to July 1, 2006. The Department of Labor claims that such violations resulted in underpayments totaling approximately \$1.1 million to 143 employees. In addition to that amount, the Department of Labor may seek liquidated (or double) damages and applicable penalties. During the first quarter of 2007, we recorded a \$1.1 million pre-tax provision in connection with this matter.

Item 1A. Risk Factors

There have been no material changes in our risk factors from those set forth in our Annual Report on Form 10-K for the year ended December 31, 2006.

Item 2. Unregistered sales of Equity Securities and Use of Proceeds

On July 20, 2006, we announced that our Board of Directors authorized us to repurchase an additional 5 million shares on the open market under our stock repurchase program. Pursuant to the terms of our program, we purchased 57,254 shares at an average price of \$57.46 per share or \$3.3 million in the aggregate during the first quarter of 2007. As of March 31, 2007, the number of shares available for purchase was 2,018,911 shares. There is no expiration date for our stock repurchase program.

	Total Number of shares purchased	Maximum number of shares that may yet be purchased
2007 period	Total number of shares purchased	as part of publicly announced programs
January, 2007		Average price paid per share
February, 2007	1,500	Aggregate purchase price paid (in thousands)
March, 2007	55,754	2,076,165
Total January through March	57,254	2,074,665
		2,018,911

Dividends

During the quarter ended March 31, 2007, we declared and paid dividends of \$.08 per share.

Item 6. Exhibits

(a) Exhibits:

11. Statement re computation of per share earnings is set forth in Note 7 of the Notes to Condensed Consolidated Financial Statements.

31.1 Certification of the Company's Chief Executive Officer pursuant to Rule 13a-14(a)/15d-14(a) under the Securities Exchange Act of 1934.

31.2 Certification of the Company's Chief Financial Officer pursuant to Rule 13a-14(a)/15d-14(a) under the Securities Exchange Act of 1934.

Edgar Filing: UNIVERSAL HEALTH SERVICES INC - Form 10-Q

32.1 Certification of the Company's Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certification of the Company's Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
