Notes to Consolidated Financial Statements (unaudited)

1. Accounting Policies

These financial statements should be read in conjunction with the financial statement disclosures in our 2014 Form 10-K. We use the same accounting policies in preparing quarterly and annual financial statements. All adjustments necessary for a fair presentation of quarterly operating results are reflected herein and are of a normal, recurring nature. Certain prior-year amounts have been reclassified to conform to the current year presentation. Unless otherwise noted, amounts presented within the Notes to Consolidated Financial Statements refer to our continuing operations.

Due to the seasonal nature of our business, quarterly revenues, expenses, earnings and cash flows are not necessarily indicative of the results that may be expected for the full year.

2. Pharmacies and Clinics Transaction

On June 12, 2015, we entered into an asset purchase agreement with CVS Pharmacy, Inc. (CVS) to sell our pharmacy and clinic businesses for cash consideration of approximately \$1.9 billion. The closing of the transaction is subject to regulatory approval and other customary conditions. Either party will be permitted to terminate the agreement if the closing has not occurred on or before March 15, 2016 (or September 15, 2016 solely in the event that, as of March 15, 2016, all conditions other than regulatory approval have been satisfied or waived). Following the closing, CVS will operate the pharmacy and clinic businesses in our stores on a long term basis.

The agreement includes the sale of inventory and other assets. These currently held-for-sale assets have been classified as follows.

3. Canada Exit

Background

On January 15, 2015, Target Canada Co. and certain other wholly owned subsidiaries of Target (collectively Canada Subsidiaries), comprising substantially all of our Canadian operations and our historical Canadian Segment, filed for protection (the Filing) under the Companies' Creditors Arrangement Act (CCAA) with the Ontario Superior Court of Justice in Toronto (the Court) and were deconsolidated. The Canada Subsidiaries are executing a liquidation through the CCAA process.

^(a) For the three and nine months ended October 31, 2015, pretax exit costs related to our ongoing support of the liquidation process and other professional fees. For the nine months ended October 31, 2015, pretax exits costs also included an increase to our accrual for the estimated probable losses related to claims that may be asserted against us, primarily under guarantees of certain leases.

Recorded Assets and Liabilities

Assets and Liabilities of Discontinued Operations

(millions)	October 31, 2015	January 31, 2015		November 1, 2014

			Capital lease obligations	\$1,198
Accrued liabilities	\$297	\$296	Accounts payable and other liabilities	600
Total liabilities	\$297	\$296	Total liabilities	\$1,798

Accrued liabilities include estimated probable losses related to claims that may be asserted against us, primarily under guarantees of certain leases. The beneficiaries of those guarantees may seek damages or other related relief as a result of our exit from Canada. Our probable loss estimate is based on the expectation that claims will be asserted against us and negotiated settlements will be reached, and not on any determination that it is probable we would be found liable were these claims to be litigated. Our estimates involve significant judgment and are based on currently available information, an assessment of the validity of certain claims and estimated payments by the Canada Subsidiaries. We are not able to reasonably estimate a range of possible losses in excess of the accrual because there are significant

factual and legal issues to be resolved. We believe that it is reasonably possible that future changes to our estimates of loss and the ultimate amount paid on these claims could be material to our results of operations in future periods. Any such losses would be reported in discontinued operations.

Receivables from the Canada Subsidiaries primarily relate to loans made to fund the operations of the Canada Subsidiaries and receivables generated in the ordinary course of business prior to deconsolidation. To assess recoverability, we estimated the fair value of the underlying net assets of the Canada Subsidiaries available for distribution to their creditors in relation to the estimated creditor claims and the priority of these claims. Our estimates involve significant judgment and are based on currently available

7

information, an assessment of the validity of certain claims and estimated payments by the Canada Subsidiaries. Our ultimate recovery is subject to the final liquidation value of the Canada Subsidiaries.

On November 23, 2015, we reached a settlement with an entity that controls guaranteed leases representing approximately 30 percent of the recorded accrual. Under the settlement terms, this entity has subrogated to us their claims against the Canada Subsidiaries. The settlement amount is materially consistent with our previously recorded accrual.

Income Taxes

During the three and nine months ended October 31, 2015, we recognized net tax benefits of \$75 million and \$152 million, respectively, in discontinued operations, which primarily relate to our pretax exit costs and change in the estimated tax benefit from our investment losses in Canada. During the fourth quarter of 2014, we recognized a tax benefit of \$1,627 million in discontinued operations. The majority of the tax benefit was received in the first quarter of 2015, and we expect to use substantially all of the remainder to reduce our 2015 estimated tax payments.

4. Restructuring Initiatives

In 2015, we initiated a series of headquarters workforce reductions intended to increase organizational effectiveness and provide cost savings that can be reinvested in our growth initiatives. As a result, we recorded \$21 million and \$135 million of severance and other benefits-related charges within selling, general and administrative expenses (SG&A) during the three and nine months ended October 31, 2015, respectively. The vast majority of these expenses require cash expenditures. These costs were not included in our segment results.

7. Goodwill and Intangible Assets

We review long-lived assets for impairment when events or changes in circumstances, such as a decision to discontinue a business, indicate that the asset's carrying value may not be recoverable. We also review goodwill for impairment when events or circumstances indicate it is more likely than not the fair value of a reporting unit is below its carrying value. During the third quarter 2015, we announced our decision to wind down certain noncore operations. As a result, we recorded a \$35 million pretax impairment loss, which included approximately \$23 million of intangible assets and \$12 million of goodwill. These costs were included in SG&A on our Consolidated Statements of Operations, but were not included in our segment results.

8. Property and Equipment

We review long-lived assets for impairment when events or changes in circumstances, such as a decision to relocate or close a store, make significant software changes or discontinue projects, indicate that the asset's carrying value may not be recoverable. We recognized impairment losses during each of the periods presented, primarily resulting from discontinued projects, store closures, and completed or planned land sales.

For the nine months ended November 1, 2014, represents impairments of undeveloped land. These costs were not included in our segment results.

9. Data Breach

In the fourth quarter of 2013, we experienced a data breach in which an intruder stole certain payment card and other guest information from our network (the Data Breach). Based on our investigation, we believe that the intruder installed malware on our point-of-sale system in our U.S. stores and stole payment card data from up to approximately 40 million credit and debit card accounts of guests who shopped at our U.S. stores between November 27 and December 17, 2013. In addition, the intruder stole certain guest information, including names, mailing addresses, phone numbers or email addresses, for up to 70 million individuals.

Data Breach Related Accruals

Each of the four major payment card networks made a written claim against us regarding the Data Breach, either directly or through our acquiring banks. During the third quarter we entered into settlement agreements with two of the four payment card networks. We have resolved a claim from a third network and expect to resolve the remaining claim in the fourth quarter, both on terms consistent with our accrual.

As previously reported, we entered into a Settlement Agreement to resolve and dismiss the claims asserted on behalf of a class of guests whose information was compromised in the Data Breach. Pursuant to the Settlement Agreement, Target has agreed to pay \$10 million to class member guests, certain administrative costs associated with the settlement, and attorneys' fees and expenses to class counsel as the Court may award. That settlement received Court

approval on November 17, 2015.

Actions related to the Data Breach that remain pending are: (1) a class action brought on behalf of financial institutions; (2) one action previously filed in Canada; (3) several putative class action suits brought on behalf of shareholders; and (4) ongoing investigations by State Attorneys General and the Federal Trade Commission.

Our accrual for estimated probable losses is based on actual settlements reached to date, discussions with the remaining two payment card networks and the expectation of negotiated settlements in the pending actions. We have not based our accrual on any determination that it is probable we would be found liable for the losses we have accrued were these claims to be litigated. While our estimates may change as new information becomes available, we do not believe any adjustments will be material.

^(a) Includes expenditures and accruals for Data Breach-related costs and expected insurance recoveries as described below.

We recorded \$26 million and \$38 million of pretax Data Breach-related expenses during the three and nine months ended October 31, 2015, respectively. Along with legal and other professional services, expenses include an adjustment to the accrual in the third quarter of 2015 based on refined estimates of our probable exposure. We recorded \$12 million of pretax Data Breach-related expenses during the three months ended November 1, 2014. We recorded \$186 million of pretax Data Breach-related expenses, partially offset by expected insurance proceeds of \$46 million, for net expenses of \$140 million during the nine months ended November 1, 2014. These expenses were included in our Consolidated Statements of Operations as SG&A, but were not part of our segment results.

Since the Data Breach, we have incurred \$290 million of cumulative expenses, partially offset by expected insurance recoveries of \$90 million, for net cumulative expenses of \$200 million.

Insurance Coverage

To limit our exposure to losses relating to Data Breach and other claims, we maintained \$100 million of network-security insurance coverage during the period that the Data Breach occurred, above a \$10 million deductible and with a \$50 million sublimit for settlements with the payment card networks. This coverage, and certain other customary business-insurance coverage, has reduced our exposure related to the Data Breach. We will pursue recoveries to the maximum extent available under the policies. Since the Data Breach, we have received \$35 million from our network-security insurance carriers of the \$90 million accrued.

10. Derivative Financial Instruments

Our derivative instruments primarily consist of interest rate swaps, which are used to mitigate interest rate risk. As a result of our use of derivative instruments, we have counterparty credit exposure to large global financial institutions. We monitor this concentration of counterparty credit risk on an ongoing basis. See Note 5 for a description of the fair value measurement of our derivative instruments and their classification on the Consolidated Statements of Financial Position.

As of October 31, 2015 and November 1, 2014, three interest rate swaps with notional amounts totaling \$1,250 million were designated as fair value hedges. No ineffectiveness was recognized during the three and nine months ended October 31, 2015 or November 1, 2014.

Edgar Filing: TARGET CORP - Form 10-Q

Periodic payments, valuation adjustments and amortization of gains or losses on our derivative contracts had the following effect on our Consolidated Statements of Operations:

11

The amount remaining on unamortized hedged debt valuation gains from terminated or de-designated interest rate swaps that will be amortized into earnings over the remaining lives of the underlying debt totaled \$20 million, \$34 million and \$38 million, at October 31, 2015, January 31, 2015 and November 1, 2014, respectively.

11. Share Repurchase

In June 2015, our Board of Directors authorized a \$5 billion expansion of our existing share repurchase program to \$10 billion. Under this program, we have repurchased 77.2 million shares of common stock through October 31, 2015, at an average price of \$68.86, for a total investment of \$5.3 billion.

These contracts are among the investment vehicles used to reduce our economic exposure related to our nonqualified deferred compensation plans. Note 12 provides the details of our positions in prepaid forward contracts.

^(b) All of the shares reacquired were delivered upon the noncash settlement of prepaid forward contracts which had an original cash investment of \$34 million and an aggregate market value at their settlement dates of \$35 million.

12. Pension, Postretirement Health Care and Other Benefits

Pension and Postretirement Health Care Benefits

We provide qualified defined benefit pension plans, unfunded nonqualified pension plans and certain postretirement health care benefits to eligible team members.

Effective April 1, 2016, we will discontinue the postretirement health care benefits that were offered to team members upon early retirement and prior to Medicare eligibility. This decision resulted in a \$58 million reduction in the projected postretirement health care benefit obligation and a \$43 million curtailment gain recorded in SG&A during

the three months ended October 31, 2015.

As a result of the restructuring initiatives discussed in Note 4, we remeasured the assets and liabilities of our largest pension plan as of March 9, 2015. The remeasurement resulted in a \$208 million reduction to the projected benefit obligation, primarily resulting from a 41 basis point increase in the discount rate used, and a \$47 million reduction of plan assets. Subsequent to the remeasurement, the pension plan was overfunded, with plan assets of \$3,725 million exceeding the projected benefit obligation of \$3,604 million.

12

We expect this remeasurement will reduce 2015 pension expense by \$26 million, \$8 million and \$19 million of which was recognized during the three and nine months ended October 31, 2015, respectively.

Other Benefits

We offer unfunded nonqualified deferred compensation plans to certain team members. We mitigate some of our risk of these plans through investing in vehicles, including company-owned life insurance and prepaid forward contracts in our own common stock, that offset a substantial portion of our economic exposure to the returns of these plans. These investment vehicles are general corporate assets and are marked to market with the related gains and losses recognized in the Consolidated Statements of Operations in the period they occur.

The total change in fair value for contracts indexed to our own common stock recognized in earnings was pretax loss of \$2 million and pretax income of \$2 million for the three and nine months ended October 31, 2015, respectively, and pretax income of \$1 million and \$3 million for the three and nine months ended November 1, 2014, respectively. During the nine months ended October 31, 2015 and November 1, 2014, we made no investments in prepaid forward contracts in our own common stock. Adjusting our position in these investment vehicles may involve repurchasing shares of Target common stock when settling the forward contracts as described in Note 11. The settlement dates of these instruments are regularly renegotiated with the counterparty.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Summary

Third quarter 2015 includes the following notable items:

- GAAP earnings per share were \$0.87, including \$0.11 related to discontinued operations.
- Adjusted earnings per share from continuing operations were \$0.86.
- Third quarter comparable sales grew 1.9 percent, driven by traffic growth of 1.4 percent.
- Digital channel sales increased by 20 percent, contributing 0.4 percentage points to comparable sales growth.
- We returned \$1.3 billion to shareholders in the third quarter through dividends and share repurchase.

Sales were \$17,613 million for the three months ended October 31, 2015, an increase of \$359 million or 2.1 percent from the same period in the prior year. Operating cash flow provided by continuing operations was \$2,956 million and \$2,599 million for the nine months ended October 31, 2015 and November 1, 2014, respectively.

Earnings Per Share from Continuing Operations	Three Months Ended			Nine Months Ended		
	October 31, 2015	November 1, 2014	Change	October 31, 2015	November 1, 2014	Change
GAAP diluted earnings per share	\$0.76	\$0.82	(7.9)%	\$2.98	\$2.33	27.7 %
Adjustments	0.10	(0.04)		0.21	0.39	
Adjusted diluted earnings per share	\$0.86	\$0.79	8.6 %	\$3.18	\$2.72	16.9 %

Note: Amounts may not foot due to rounding. Adjusted diluted earnings per share from continuing operations (Adjusted EPS), a non-GAAP metric, excludes the impact of certain matters not related to our routine retail operations and the impact of our discontinued Canadian operations. Management believes that Adjusted EPS is meaningful to provide period-to-period comparisons of our operating results. A reconciliation of non-GAAP financial measures to GAAP measures is provided on page 21.

We are reporting after-tax return on invested capital (ROIC) for continuing operations as we believe ROIC provides a meaningful measure of the effectiveness of our capital allocation over time. For the trailing twelve months ended October 31, 2015, ROIC was 13.0 percent, compared with 11.2 percent for the trailing twelve months ended November 1, 2014. A reconciliation of ROIC is provided on page 22.

Pharmacies and Clinics Transaction

On June 12, 2015, we entered into an asset purchase agreement with CVS Pharmacy, Inc. (CVS) to sell our pharmacy and clinic businesses for cash consideration of approximately \$1.9 billion. The closing of the transaction is subject to regulatory approval and other customary conditions. Either party will be permitted to terminate the agreement if the closing has not occurred on or before March 15, 2016 (or September 15, 2016 solely in the event that, as of March 15, 2016, all conditions other than regulatory approval have been satisfied or waived). Following the closing, CVS will operate the pharmacy and clinic businesses in our stores under a long term operating agreement. No profit-sharing arrangement exists. CVS will make an ongoing annual, inflation-adjusted occupancy-related payment to us, starting at approximately \$20 million to \$25 million in the first year of the agreement. We also entered a development agreement with CVS through which we may jointly develop small-format stores.

Based on current estimates, we expect to record a pretax gain of approximately \$500 million to \$550 million at closing, which will be recorded outside of segment results and excluded from Adjusted EPS. We also expect to record deferred income of approximately \$800 million, which we will recognize into income evenly over the 23 year

weighted average remaining accounting useful life of our stores.

We expect to use the \$1.3 billion to \$1.4 billion of after-tax proceeds to settle the approximately \$200 million of retained pharmacy and clinic net liabilities (primarily accounts payable, net of accounts receivable) and return capital to shareholders.

15

Had this transaction closed prior to this year, our reported sales, cost of goods sold, and SG&A expense for the nine months ended October 31, 2015 would have been lower by approximately \$3.3 billion, \$2.6 billion and \$0.7 billion, respectively, with no notable effect on EBITDA and EBIT. This transaction is expected to be accretive to EPS in every period following the closing, and should add 50 basis points or more to ROIC over time. In addition, due to the lower sales base, we expect the transaction to have a favorable impact on our EBITDA and EBIT margin rates.

Refer to Note 2 of the Financial Statements for additional information about the transaction.

Comparable sales is a measure that highlights the performance of our existing stores and digital channel sales by measuring the change in sales for a period over the comparable, prior-year period of equivalent length. Comparable sales include all sales, except sales from stores open less than 13 months, digital acquisitions operating less than one year, stores that have been closed and digital acquisitions that we no longer operate. Comparable sales measures vary across the retail industry. As a result, our comparable sales calculation is not necessarily comparable to similarly titled measures reported by other companies.

The collective interaction of a broad array of macroeconomic, competitive and consumer behavioral factors, as well as sales mix, and transfer of sales to new stores makes further analysis of sales metrics infeasible.

17

We monitor the percentage of sales that are paid for using REDcards (REDcard Penetration) because our internal analysis has indicated that a meaningful portion of the incremental purchases on REDcards are also incremental sales for Target, with the remainder representing a shift in tender type. Guests receive a 5 percent discount on virtually all purchases when they use a REDcard at Target.

Gross Margin Rate

For the three and nine months ended October 31, 2015, our gross margin rate was 29.4 percent and 30.2 percent compared with 29.5 percent and 29.8 percent in the comparable period last year. For the quarter, the decrease was primarily due to higher digital channel sales and other items, including pharmacy reimbursement pressure, partially offset by a favorable category sales mix. Year-to-date, the increase was primarily due to lower promotional activity relative to the highly promotional period in 2014 following the Data Breach and favorable category sales mix, partially offset by the impact of increased digital channel sales.

Selling, General and Administrative Expense Rate

For the three and nine months ended October 31, 2015, our SG&A expense rate was 20.7 percent and 20.2 percent, respectively, decreasing from 21.1 percent and 20.5 percent in the comparable period last year. The quarter and year-to-date decrease primarily resulted from cost saving initiatives and reduced marketing expense, partially offset by increased incentive compensation. For the quarter, the decrease was also partially offset by higher stores hourly payroll and payment card-related expenses due to the roll-out of chip-enabled REDcards.

Other Performance Factors

Consolidated Selling, General and Administrative Expenses

We recorded certain selling, general and administrative expenses outside of the segment. For the three and nine months ended October 31, 2015, these expenses included \$39 million of impairments, \$21 million and \$135 million, respectively, of restructuring costs, and \$26 million and \$38 million, respectively, of Data Breach-related costs. For the three months ended November 1, 2014, these expenses included \$12 million of Data Breach-related costs. For the nine months ended November 1, 2014, these expenses included \$140 million of Data Breach-related costs (net of expected insurance proceeds), \$16 million of impairments, and \$13 million of costs related to plans to convert existing co-branded REDcards to MasterCard co-branded chip-and-PIN cards in 2015 to support the accelerated transition to chip-and-PIN-enabled REDcards. Additional information about these items is provided within the Reconciliation of Non-GAAP Financial Measures to GAAP Measures on page 21.

Net Interest Expense

Net interest expense from continuing operations was \$151 million and \$455 million for the three and nine months ended October 31, 2015, respectively, compared to \$146 million and \$730 million for the three and nine months ended November 1, 2014, respectively. Net interest expense for the nine months ended November 1, 2014 included a loss on early retirement of debt of \$285 million.

Provision for Income Taxes

Our effective income tax rate from continuing operations for the three and nine months ended October 31, 2015 was 34.3 percent and 34.6 percent, respectively, compared with 30.6 percent and 32.9 percent for the three and nine months ended November 1, 2014. The increase was primarily due to the favorable resolution of various tax matters during the three and nine months ended November 1, 2014. The resolution of income tax matters reduced tax expense by \$0 million and \$8 million for the three and nine months ended October 31, 2015, respectively, compared with \$30 million and \$31 million for the same periods in the prior year.

Discontinued Operations

Income from discontinued operations, net of tax, was \$73 million and \$37 million for the three and nine months ended October 31, 2015. During the three and nine months ended October 31, 2015, we changed the estimated tax benefit from our investment losses in Canada. In addition, we incurred costs related to our ongoing support of the liquidation process and other professional fees, and for the nine months ended October 31, 2015, we increased our accrual for the

estimated probable losses related to claims that may be asserted against us, primarily under guarantees of certain leases.

On November 23, 2015, we reached a settlement with an entity that controls guaranteed leases representing approximately 30 percent of the recorded accrual. Under the settlement terms, this entity has subrogated to us their claims against the Canada Subsidiaries. The settlement amount is materially consistent with our previously recorded accrual.

See Note 3 of the Financial Statements for information regarding our Canada exit.

Reconciliation of Non-GAAP Financial Measures to GAAP Measures

To provide additional transparency, we have disclosed non-GAAP adjusted diluted earnings per share from continuing operations (Adjusted EPS). This metric excludes restructuring costs, net expenses related to the 2013 data breach and other matters presented below. We believe this information is useful in providing period-to-period comparisons of the results of our continuing operations. This measure is not in accordance with, or an alternative for, generally accepted accounting principles in the United States. The most comparable GAAP measure is diluted earnings per share from continuing operations. Adjusted EPS should not be considered in isolation or as a substitution for analysis of our results as reported under GAAP. Other companies may calculate Adjusted EPS differently than we do, limiting the usefulness of the measure for comparisons with other companies. Prior year amounts have been revised to present Adjusted EPS on a continuing operations basis.

Note: Amounts may not foot due to rounding. Beginning with the first quarter 2015, we no longer exclude the reduction of the beneficial interest asset from Adjusted EPS because it is no longer meaningful. For comparison purposes, prior year Adjusted EPS has been revised.

^(a) Refer to Note 4 in the Financial Statements for more information on restructuring costs.

^(b) Refer to Note 9 in the Financial Statements for more information on Data Breach-related costs.

^(c) Refer to Note 7 and Note 8 in the Financial Statements for more information on impairments.

^(d) Expense related to converting the co-branded card program to MasterCard.

We have also disclosed after-tax return on invested capital for continuing operations (ROIC), which is a ratio based on GAAP information, with the exception of adjustments made to capitalize operating leases. Operating leases are capitalized as part of the ROIC calculation to control for differences in capital structure between us and our competitors. We believe this metric provides a meaningful measure of the effectiveness of our capital allocation over time. Other companies may calculate ROIC differently than we do, limiting the usefulness of the measure for comparisons with other companies.

(b) See the following Reconciliation of Capitalized Operating Leases table for the adjustments to our GAAP total rent expense to obtain the hypothetical capitalization of operating leases and related operating lease interest.

(c) Calculated using the effective tax rate for continuing operations, which was 34.1% and 33.1% for the trailing twelve months ended October 31, 2015 and November 1, 2014.

(d) Calculated as eight times our trailing twelve months rent expense.

(e) Average based on the invested capital at the end of the current period and the invested capital at the end of the prior period.

Analysis of Financial Condition

Liquidity and Capital Resources

Our cash and cash equivalents balance was \$1,977 million at October 31, 2015, compared with \$718 million for the same period in 2014. Our investment policy is designed to preserve principal and liquidity of our short-term investments. This policy allows investments in large money market funds or in highly rated direct short-term instruments that mature in 60 days or less. We also place certain dollar limits on our investments in individual funds or instruments.

Cash Flows

Operations during the first nine months of 2015 were funded by internally generated funds. Operating cash flow provided by continuing operations was \$2,956 million for the nine months ended October 31, 2015 compared with \$2,599 million for the same period in 2014. These cash flows, combined with our prior year-end cash position, allowed us to invest in the business, pay dividends and repurchase shares under our share repurchase program.

Share Repurchases

In June 2015, our Board of Directors authorized a \$5 billion expansion of our existing share repurchase program to \$10 billion. Under this program, we have repurchased 77.2 million shares of common stock through October 31, 2015, at an average price of \$68.86, for a total investment of \$5.3 billion.

During the three and nine months ended October 31, 2015, we repurchased 12.1 million and 27.3 million shares of our common stock, respectively, for a total investment of \$942 million (\$77.87 per share) and \$2,182 million (\$79.84 per share), respectively. We did not repurchase any shares on the open market during the nine months ended November 1, 2014. However, as described in Note 11 to the Financial Statements, we reacquired 0.6 million shares upon the noncash settlement of prepaid forward contracts related to nonqualified deferred compensation plans. We did not repurchase any shares during the three months ended November 1, 2014.

Dividends

We paid dividends totaling \$352 million (\$0.56 per share) and \$1,017 million (\$1.60 per share) for the three and nine months ended October 31, 2015, respectively, and \$330 million (\$0.52 per share) and \$874 million (\$1.38 per share) for the three and nine months ended November 1, 2014, respectively, a per share increase of 7.7 and 15.9 percent, respectively. We declared dividends totaling \$348 million (\$0.56 per share) in third quarter 2015, a per share increase of 7.7 percent over the \$330 million (\$0.52 per share) of declared dividends during the third quarter of 2014. We have paid dividends every quarter since our 1967 initial public offering, and it is our intent to continue to do so in the future.

Short-term and Long-term Financing

Our financing strategy is to ensure liquidity and access to capital markets, to manage our net exposure to floating interest rate volatility and to maintain a balanced spectrum of debt maturities. Within these parameters, we seek to minimize our borrowing costs. Our ability to access the long-term debt and commercial paper markets has provided us with ample sources of liquidity. Our continued access to these markets depends on multiple factors including the condition of debt capital markets, our operating performance and maintaining strong credit ratings. As of October 31, 2015 our credit ratings were as follows:

Edgar Filing: TARGET CORP - Form 10-Q

Credit Ratings	Moody's	Standard and Poor's	Fitch
Long-term debt	A2	A	A-
Commercial paper	P-1	A-1	F2

If our credit ratings were lowered, our ability to access the debt markets and our cost of funds and other terms for new debt issuances could be adversely impacted. Each of the credit rating agencies reviews its rating periodically and there is no guarantee our current credit ratings will remain the same as described above.

As a measure of our financial condition, we monitor our ratio of pretax earnings from continuing operations before fixed charges to fixed charges. Fixed charges include interest expense and the interest portion of rent expense. For the first nine months of 2015 our ratio of earnings from continuing operations to fixed charges was 6.38x compared with 5.05x for the first nine months of 2014.

See Exhibit (12) for a description of how the gain on sale of our U.S. credit card receivables portfolio and loss on early retirement of debt affected the 2014, 2013 and 2012 calculations.

We have additional liquidity through a committed \$2.25 billion revolving credit facility that expires in October 2018. No balances were outstanding at any time during 2015 or 2014.

Most of our long-term debt obligations contain covenants related to secured debt levels. In addition to a secured debt level covenant, our credit facility also contains a debt leverage covenant. We are, and expect to remain, in compliance with these covenants. Additionally, at October 31, 2015, no notes or debentures contained provisions requiring acceleration of payment upon a debt rating downgrade, except that certain outstanding notes allow the note holders to put the notes to us if within a matter of months of each other we experience both (i) a change in control; and (ii) our long-term debt ratings are either reduced and the resulting rating is noninvestment grade, or our long-term debt ratings are placed on watch for possible reduction and those ratings are subsequently reduced and the resulting rating is noninvestment grade.

We believe our sources of liquidity will continue to be adequate to maintain operations, finance anticipated expansion and strategic initiatives, fund obligations incurred as a result of our exit from Canada, fund obligations incurred as a result of the Data Breach and any related future technology enhancements, pay dividends and execute purchases under our share repurchase program for the foreseeable future. We continue to anticipate ample access to commercial paper and long-term financing.

Contractual Obligations and Commitments

As of the date of this report, there were no material changes to our contractual obligations and commitments outside the ordinary course of business since January 31, 2015 as reported in our 2014 Form 10-K.

New Accounting Pronouncements

We do not expect any recently issued accounting pronouncements will have a material effect on our financial statements.

Forward-Looking Statements

This report contains forward-looking statements, which are based on our current assumptions and expectations. These statements are typically accompanied by the words “expect,” “may,” “could,” “believe,” “would,” “might,” “anticipates,” or words of similar import. The principal forward-looking statements in this report include: Our financial performance, statements regarding the adequacy of and costs associated with our sources of liquidity, the process, timing and effects of discontinuing our Canadian operations, the expected ability to recognize deferred tax assets and liabilities and the timing of such recognition, including net operating loss carryforwards and tax benefits related to discontinuing our Canadian operations, the anticipated sale of our pharmacy and clinic businesses and related gain, including the application of the proceeds from the sale and the impact on our future operations and financial performance, the expected benefits and timing of cash disbursements related to restructuring initiatives, the continued execution of our share repurchase program, our expected capital expenditures, the expected compliance with debt covenants, the expected impact of new accounting pronouncements, our intentions regarding future dividends, the expected outcome of, and adequacy of our reserves for, investigations, inquiries, claims and litigation, including those related to the Data Breach and discontinuing our Canadian operations, expected insurance recoveries, our adoption of chip-and-PIN technology, and the amount and timing of expense reduction resulting from remeasurement of our pension plan and discontinuing postretirement health care benefits.

All such forward-looking statements are intended to enjoy the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, as amended. Although we believe there is a reasonable basis for the forward-looking statements, our actual results could be materially different. The most important factors which could cause our actual results to differ from our forward-looking statements are set forth on our description of risk factors in Item 1A of our Form 10-K for the fiscal year ended January 31, 2015, which should be read in conjunction with the forward-looking statements in this report. In addition, other risks and uncertainties relating to the sale of our pharmacy and clinic businesses include those relating to the certainty around satisfying the conditions to closing the transaction, how our guests react to the transaction, the effectiveness of the ongoing relationship between us and CVS Health, and whether we will recognize the expected benefits from the transaction. Forward-looking statements speak only as of the date they are made, and we do not undertake any obligation to update any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our primary risk exposures or management of market risks from those disclosed in our Form 10-K for the fiscal year ended January 31, 2015.

Item 4. Controls and Procedures

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the third quarter of 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this quarterly report, we conducted an evaluation, under supervision and with the participation of management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended (Exchange Act). Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective. Disclosure controls and procedures are defined by Rules 13a-15(e) and 15d-15(e) of the Exchange Act as controls and other procedures that are designed to ensure that information required to be disclosed by us in reports filed with the Securities and Exchange Commission (SEC) under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

No response is required under Item 103 of Regulation S-K, which requires disclosure of legal proceedings that are material, based on an analysis of the probability and magnitude of the outcome, nor have there been any material developments for any previously reported legal proceedings. For a description of other legal proceedings, including a discussion of litigation and government inquiries related to the Data Breach, see Part 1, Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations and Note 8 of the Notes to Consolidated Financial Statements included in Part 1, Item 1, Financial Statements.

Item 1A. Risk Factors

There have been no material changes to the risk factors described in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In January 2012, our Board of Directors authorized the repurchase of \$5 billion of our common stock and in June 2015 expanded the program by an additional \$5 billion for a total authorization of \$10 billion. There is no stated expiration for the share repurchase program. Under this program, we have repurchased 77.2 million shares of common stock through October 31, 2015, at an average price of \$68.86, for a total investment of \$5.3 billion. The table below presents information with respect to Target common stock purchases made during the three months ended October 31, 2015, by Target or any "affiliated purchaser" of Target, as defined in Rule 10b-18(a)(3) under the Exchange Act.

Period	Total Number of Shares Purchased ^(a)	Average Price Paid per Share ^(a)	Total Number of Shares Purchased as Part of the Current Program ^(a)	Dollar Value of Shares that May Yet Be Purchased Under the Program

Total	12,096,045	\$77.87	12,096,045	\$4,680,899,510

^(a) The table above includes shares reacquired upon the noncash settlement of prepaid forward contracts. At October 31, 2015, we held asset positions in prepaid forward contracts for 0.4 million shares of our common stock, for a total cash investment of \$18 million, or an average per share price of \$41.13. During the third quarter, no shares were reacquired under such contracts. Refer to Note 12 of the Financial Statements for further details of these contracts.
