

GOODYEAR TIRE & RUBBER CO /OH/
Form 10-Q
July 29, 2015

SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended June 30, 2015

Commission File Number: 1-1927

THE GOODYEAR TIRE & RUBBER COMPANY
(Exact Name of Registrant as Specified in Its Charter)

Ohio 34-0253240
(State or Other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)

200 Innovation Way, Akron, Ohio 44316-0001
(Address of Principal Executive Offices) (Zip Code)

(330) 796-2121
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

Number of Shares of Common Stock, 269,398,559
Without Par Value, Outstanding at June 30, 2015:

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1. ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared by The Goodyear Tire & Rubber Company (the "Company," "Goodyear," "we," "us" or "our") in accordance with Securities and Exchange Commission rules and regulations and generally accepted accounting principles in the United States of America ("US GAAP") and in the opinion of management contain all adjustments (including normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for the periods presented. The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2014 (the "2014 Form 10-K").

We are a party to shareholder agreements concerning certain of our less-than-wholly-owned consolidated subsidiaries. Under the terms of certain of these agreements, the minority shareholders have the right to require us to purchase their ownership interests in the respective subsidiaries if there is a change in control of Goodyear, a bankruptcy of Goodyear, or other circumstances. Accordingly, we have reported the minority equity in those subsidiaries outside of shareholders' equity.

Operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results expected in subsequent quarters or for the year ending December 31, 2015.

Recently Issued Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued an accounting standards update with new guidance on simplifying the measurement of inventory. Inventory within the scope of this update is required to be measured at the lower of its cost or net realizable value, with net realizable value being the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The standards update is effective prospectively for fiscal years and interim periods beginning after December 15, 2016, with early adoption permitted. We are currently assessing the impact of adopting this standards update on our consolidated financial statements.

In April 2015, the FASB issued an accounting standards update with new guidance on whether a cloud computing arrangement includes a software license and the accounting for such an arrangement. If a cloud computing arrangement includes a software license, then the software license element of the arrangement should be accounted for consistently with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the agreement should be accounted for as a service contract. The standards update is effective for fiscal years and interim periods beginning after December 15, 2015, with early adoption permitted. The adoption of this standards update is not expected to have a material impact on our consolidated financial statements.

In April 2015, the FASB issued an accounting standards update with new guidance on the presentation of debt issuance costs that requires all costs incurred to issue debt to be presented on the balance sheet as a direct deduction from the carrying value of the associated debt liability, consistent with the presentation of a debt discount. The standards update is effective for fiscal years and interim periods beginning after December 15, 2015, with early adoption permitted. The adoption of this standards update will not have a material impact on our consolidated financial statements.

In August 2014, the FASB issued an accounting standards update with new guidance on management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. Management must evaluate whether it is probable that known conditions or events, considered in the aggregate, would raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued. If such conditions or events are identified, the standard requires management's mitigation plans to alleviate the doubt or a statement of the substantial doubt about

the entity's ability to continue as a going concern to be disclosed in the financial statements. The standards update is effective for fiscal years and interim periods beginning after December 15, 2016, with early adoption permitted. The adoption of this standards update is not expected to impact our consolidated financial statements.

In May 2014, the FASB issued an accounting standards update with new guidance on recognizing revenue from contracts with customers. The standards update outlines a single comprehensive model for entities to utilize to recognize revenue when it transfers goods or services to customers in an amount that reflects the consideration that will be received in exchange for the goods and services. Additional disclosures will also be required to enable users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. On July 9, 2015, the FASB deferred the effective date of this standards update to fiscal years beginning after December 15, 2017, with early adoption permitted on the original effective date

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

of fiscal years beginning after December 15, 2016. We are currently evaluating our significant contracts and assessing any impact of adopting this standards update on our consolidated financial statements.

Recently Adopted Accounting Standards

Effective January 1, 2015, we adopted an accounting standards update providing new guidance on the requirements for reporting a discontinued operation. The standards update allows only those disposals representing a strategic shift in operations with a major effect on the entity's operations and financial results to be reported as a discontinued operation. It also allows companies to have significant continuing involvement and continuing cash flows with the discontinued operations. Additional disclosures are also required for discontinued operations and individually material disposal transactions that do not meet the definition of a discontinued operation. The adoption of this standards update did not impact our consolidated financial statements.

Reclassifications and Adjustments

Certain items previously reported in specific financial statement captions have been reclassified to conform to the current presentation.

NOTE 2. COSTS ASSOCIATED WITH RATIONALIZATION PROGRAMS

In order to maintain our global competitiveness, we have implemented rationalization actions over the past several years to reduce high-cost manufacturing capacity and associate headcount. Rationalization actions initiated in the second quarter of 2015 included a plan to close our Wolverhampton, U.K. mixing and retreading facility and to transfer the production to other manufacturing facilities in Europe, Middle East and Africa ("EMEA") and a plan to transfer consumer tire production from our manufacturing facility in Wittlich, Germany to other manufacturing facilities in EMEA. We also initiated plans for selling, administrative and general expense ("SAG") headcount reductions in North America and EMEA.

The following table shows the roll-forward of our liability between periods:

(In millions)	Associate- Related Costs	Other Exit and Non-cancelable Lease Costs	Total
Balance at December 31, 2014	\$ 117	\$ 2	\$ 119
2015 Charges	51	12	63
Reversed to the Statements of Operations	—	—	—
Incurred, Net of Foreign Currency Translation of \$(9) million and \$0 million, respectively ⁽¹⁾	(61) (13) (74
Balance at June 30, 2015	\$ 107	\$ 1	\$ 108

⁽¹⁾ Incurred in the first six months of 2015 of \$74 million excludes \$20 million of rationalization payments for labor claims relating to a previously closed facility in Greece. Refer to Note 3.

The accrual balance of \$108 million at June 30, 2015 is expected to be substantially utilized within the next 12 months, and includes \$46 million related to the plan to exit the farm tire business in EMEA and the closure of one of our manufacturing facilities in Amiens, France and \$27 million related to the plan to close our Wolverhampton, U.K. mixing and retreading facility.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table shows net rationalization charges included in Income before Income Taxes:

(In millions)	Three Months Ended		Six Months Ended	
	June 30, 2015	2014	June 30, 2015	2014
Current Year Plans				
Associate Severance and Other Related Costs	\$35	\$5	\$35	\$9
Other Exit and Non-Cancelable Lease Costs	1	—	1	1
Current Year Plans - Net Charges	\$36	\$5	\$36	\$10
Prior Year Plans				
Associate Severance and Other Related Costs	\$6	\$10	\$16	\$45
Pension Curtailment Gain	(1) (2) (1) (22
Other Exit and Non-Cancelable Lease Costs	5	11	11	32
Prior Year Plans - Net Charges	10	19	26	55
Total Net Charges	\$46	\$24	\$62	\$65
Asset Write-off and Accelerated Depreciation Charges	\$—	\$2	\$2	\$3

Substantially all of the new charges for the three and six months ended June 30, 2015 and 2014 related to future cash outflows. Net current year plan charges for the three and six months ended June 30, 2015 include charges of \$27 million related to the plan to close our Wolverhampton, U.K. mixing and retreading facility.

Net prior year plan charges for the three and six months ended June 30, 2015 include charges of \$7 million and \$19 million, respectively, for associate severance and idle plant costs related to the closure of one of our manufacturing facilities in Amiens, France and our exit from the farm business in EMEA. In addition, net prior year plan charges for the three and six months ended June 30, 2014 include charges of \$14 million and \$64 million, respectively, for associate severance and idle plant costs, partially offset by a pension curtailment gain of \$2 million and \$22 million, respectively, related to the closure of one of our manufacturing facilities in Amiens, France. Net charges for the three and six months ended June 30, 2014 included reversals of \$2 million and \$5 million, respectively, for actions no longer needed for their originally intended purposes.

Approximately 500 associates will be released under plans initiated in 2015, of which approximately 100 associates have been released as of June 30, 2015. In the first six months of 2015, approximately 100 associates were released under plans initiated in prior years, primarily related to our exit from the farm tire business in EMEA and the closure of one of our manufacturing facilities in Amiens, France. In total, approximately 500 associates remain to be released under rationalization plans. At June 30, 2015, approximately 800 former associates of the closed Amiens, France manufacturing facility have asserted wrongful termination or other claims against us. Refer to Note 12.

NOTE 3. OTHER (INCOME) EXPENSE

Miscellaneous	—	7	5	12
	\$17	\$8	\$(111) \$176

- 7-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Royalty income in the second quarter of 2015 was \$10 million, compared to \$9 million in the second quarter of 2014. Royalty income in the first six months of 2015 and 2014 was \$175 million and \$18 million, respectively. Royalty income is derived primarily from licensing arrangements related to divested businesses. Royalty income in the first six months of 2015 included a one-time pre-tax gain of \$155 million on the recognition of deferred income resulting from the termination of a licensing agreement associated with the sale of our former Engineered Products business ("Veyance"). The licensing agreement was terminated following the acquisition of Veyance by Continental AG in January 2015.

Net foreign currency exchange losses in the second quarter of 2015 were \$13 million, primarily related to Venezuela, compared to net gains of \$2 million in the second quarter of 2014. Net losses in the first six months of 2015 and 2014 were \$29 million and \$151 million, respectively. Net foreign currency exchange losses in the first six months of 2014 included a net remeasurement loss of \$157 million in Venezuela resulting from the devaluation of the Venezuelan bolivar fuerte against the U.S. dollar. Foreign currency exchange also reflects net gains and losses resulting from the effect of exchange rate changes on various foreign currency transactions worldwide.

Effective January 24, 2014, Venezuela's exchange rate applicable to the settlement of certain transactions, including payments of dividends and royalties, changed to an auction-based floating rate, the Complementary System of Foreign Currency Administration ("SICAD") rate, which was 11.4 and 12.8 bolivares fuertes to the U.S. dollar at January 24, 2014 and June 30, 2015, respectively.

We are required to remeasure our bolivar-denominated monetary assets and liabilities at the rate expected to be available for future dividend remittances by our Venezuelan subsidiary. Therefore, in the first six months of 2014 we recorded a net remeasurement loss of \$157 million using the then-applicable SICAD rate. All bolivar-denominated monetary assets and liabilities were remeasured at 12.8 and 12.0 bolivares fuertes to the U.S. dollar at June 30, 2015 and December 31, 2014, respectively.

The official exchange rate for imports of essential goods, such as certain raw materials needed for the production of tires, remained at 6.3 bolivares fuertes to the U.S. dollar; however, the previously existing subsidy exchange rate of 4.3 bolivares fuertes to the U.S. dollar was eliminated and, accordingly, we derecognized \$11 million of previously recognized subsidy receivables as part of the \$157 million remeasurement loss in the first six months of 2014.

We also recorded a subsidy receivable at January 24, 2014 of \$50 million related to certain U.S. dollar-denominated payables that were expected to be settled at the official exchange rate of 6.3 bolivares fuertes to the U.S. dollar for essential goods, based on ongoing approvals for importation of such goods. In the fourth quarter of 2014, we entered into an agreement with the Venezuelan government to settle \$85 million of U.S. dollar-denominated payables at the SICAD rate that we previously had expected to be settled at the official exchange rate for imports of essential goods of 6.3 bolivares fuertes to the U.S. dollar and, accordingly, derecognized the remaining subsidy receivable of \$45 million. As of June 30, 2015, we have received payments of \$7 million under this agreement. Going forward, subsidies received from the government related to certain U.S. dollar-denominated payables settled at the official exchange rate for imports of essential goods of 6.3 bolivares fuertes to the U.S. dollar will only be recognized in cost of goods sold ("CGS") upon receipt.

Interest income in the second quarter of 2015 was \$4 million, compared to interest income of \$13 million in the second quarter of 2014. Interest income in the first six months of 2015 and 2014 was \$9 million and \$19 million, respectively. Interest income consisted primarily of amounts earned on cash deposits. Interest income in the three and six months ended June 30, 2014 included \$9 million earned on the settlement of indirect tax claims in Latin America. Miscellaneous expense in the six months ended June 30, 2015 included charges of \$4 million and in the three and six months ended June 30, 2014 included charges of \$10 million and \$17 million, respectively, for labor claims related to a previously closed facility in Greece. These claims have been settled and we do not expect any additional charges. Also included in Other (Income) Expense are financing fees and financial instruments expense consisting of the amortization of deferred financing fees, commitment fees and charges incurred in connection with financing transactions; general and product liability — discontinued products expense which includes charges for claims against us

related primarily to asbestos personal injury claims, net of probable insurance recoveries; and net gains and losses on asset sales.

NOTE 4. DISSOLUTION OF GLOBAL ALLIANCE WITH SUMITOMO RUBBER INDUSTRIES

On June 4, 2015, we entered into a Framework Agreement (the “Agreement”) with Sumitomo Rubber Industries, Ltd. (“SRI”). Pursuant to the terms and subject to the conditions set forth in the Agreement, we and SRI have agreed to dissolve the global alliance between the two companies.

The Agreement provides that: (1) we will acquire SRI’s 25% interest in Goodyear Dunlop Tires Europe B.V. (“GDTE”) and SRI’s 75% interest in Nippon Goodyear Ltd. (“NGY”); (2) we will sell to SRI our 75% interest in Goodyear Dunlop Tires North America, Ltd. (“GDTNA”), as well as the Huntsville, Alabama test track used by GDTNA, and our 25% interest in Dunlop Goodyear Tires

(Unaudited)

Ltd. (“DGT”); (3) we will acquire control of the Dunlop-related trademarks for tire-related businesses in North America but will grant SRI an exclusive license to develop, manufacture and sell Dunlop tires for motorcycles and for Japanese original equipment manufacturers operating in North America; and (4) SRI will obtain exclusive rights to sell Dunlop-brand tires in those countries that were previously non-exclusive under the global alliance, including Russia, Turkey and certain countries in Africa.

We will pay SRI a net amount of approximately \$271 million upon closing of the transaction. In addition, we will deliver a promissory note to GDTNA: (1) in an initial principal amount of approximately \$55 million, (2) with a maturity date three years following the date of dissolution, and (3) at an interest rate of LIBOR plus 0.1%, which initial principal amount is 25% of the outstanding amount of an intercompany loan originally made in connection with the closure of GDTNA’s manufacturing facility in Huntsville, Alabama in 2003.

The Agreement also provides that we will liquidate a technology joint venture and a purchasing joint venture and distribute the remaining assets and liabilities of those entities to us and SRI in accordance with our respective ownership interests in those entities, and that we and SRI will conduct an orderly sale of the SRI common stock held by us and the Goodyear common stock held by SRI.

We expect the transaction to close in the fourth quarter of 2015. The closing of the transaction is subject to the receipt of antitrust and other governmental and third party approvals and other customary closing conditions, including SRI’s completion of a labor agreement with the United Steelworkers union for GDTNA’s Tonawanda, New York manufacturing facility.

The assets and liabilities of GDTNA, the Huntsville, Alabama test track, and our investment in DGT have been classified as held for sale as of June 30, 2015. The carrying amount of the net assets at June 30, 2015 was \$15 million. The carrying amount of major assets and liabilities related to GDTNA included in our North America business unit at June 30, 2015 consisted of \$127 million of property, plant and equipment, \$38 million of inventories, \$26 million of accounts receivable, \$11 million of goodwill and intangible assets, \$71 million in compensation and benefit liabilities, \$66 million of accounts payable, and \$66 million of other liabilities. The carrying amount of our investment in DGT included in our Asia Pacific business unit is \$11 million.

Upon classifying the assets and liabilities related to GDTNA and our investment in DGT as held for sale, we evaluated the sale of these entities both quantitatively and qualitatively and concluded that individually and in the aggregate, the disposals did not represent a strategic shift that has, or will have, a major effect on our operations and financial results, and, accordingly, do not qualify as discontinued operations. We also concluded that neither GDTNA nor DGT were individually significant components of our operations.

NOTE 5. INCOME TAXES

In the second quarter of 2015, we recorded tax expense of \$120 million on income before income taxes of \$328 million. For the first six months of 2015, we recorded tax expense of \$243 million on income before income taxes of \$687 million. Income tax expense for the three months ended June 30, 2015 was unfavorably impacted by \$3 million of discrete tax adjustments, primarily related to the establishment a valuation allowance in EMEA. Income tax expense for the six months ended June 30, 2015 was unfavorably impacted by \$8 million of discrete tax adjustments, primarily related to an audit of prior tax years and the establishment of a valuation allowance, both in EMEA. In the second quarter of 2014, we recorded tax expense of \$60 million on income before income taxes of \$292 million. For the first six months of 2014, we recorded tax expense of \$68 million on income before income taxes of \$262 million. The increase in income taxes for the three and six months ended June 30, 2015 compared to 2014 was primarily due to recording tax expense on our U.S. income as a result of the reversal of the valuation allowance on our U.S. deferred tax assets in the fourth quarter of 2014.

We record taxes based on overall estimated annual effective tax rates. In 2014, the difference between our effective tax rate and the U.S. statutory rate was primarily attributable to maintaining a full valuation allowance on certain deferred tax assets, including those in the U.S., and charges that were not deductible for tax purposes related to the devaluation of the bolivar fuerte in Venezuela.

Our losses in various foreign taxing jurisdictions in recent periods represented sufficient negative evidence to require us to maintain a full valuation allowance against certain of our net deferred tax assets. Each reporting period we assess available positive and negative evidence and estimate if sufficient future taxable income will be generated to utilize these existing deferred tax assets. If recent positive evidence provided by the profitability in certain EMEA subsidiaries continues, it will provide us the opportunity to apply greater significance to our forecasts in assessing the need for a valuation allowance. We believe it is reasonably possible that sufficient positive evidence required to release all, or a portion, of these valuation allowances will exist within the next twelve months. This may result in a reduction of the valuation allowance by up to \$300 million.

At January 1, 2015, we had unrecognized tax benefits of \$81 million that if recognized, would have a favorable impact on our tax expense of \$65 million. We had accrued interest of \$15 million as of January 1, 2015. If not favorably settled, \$26 million of the unrecognized tax benefits and all of the accrued interest would require the use of our cash. It is reasonably possible that \$15 million

- 9-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

of our unrecognized tax benefits and \$5 million our accrued interest will be paid or favorably settled during the next 12 months. We do not expect these changes to have a significant impact on our financial position or results of operations.

Generally, years from 2010 onward are still open to examination by foreign taxing authorities. We are open to examination in Germany from 2006 onward and in the United States for 2014.

NOTE 6. EARNINGS PER SHARE

Basic earnings per share are computed based on the weighted average number of common shares outstanding. Diluted earnings per share are calculated to reflect the potential dilution that could occur if securities or other contracts were exercised or converted into common stock.

Basic and diluted earnings per common share are calculated as follows:

(In millions, except per share amounts)	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Earnings per share — basic:				
Goodyear net income	\$192	\$213	\$416	\$162
Less: Preferred stock dividends	—	—	—	7
Goodyear net income available to common shareholders	\$192	\$213	\$416	\$155
Weighted average shares outstanding	270	276	270	262
Earnings per common share — basic	\$0.71	\$0.77	\$1.54	\$0.59
Earnings per share — diluted:				
Goodyear net income	\$192	\$213	\$416	\$162
Less: Preferred stock dividends	—	—	—	—
Goodyear net income available to common shareholders	\$192	\$213	\$416	\$162
Weighted average shares outstanding	270	276	270	262
Dilutive effect of mandatory convertible preferred stock	—	—	—	14
Dilutive effect of stock options and other dilutive securities	4	5	4	5
Weighted average shares outstanding — diluted	274	281	274	281
Earnings per common share — diluted	\$0.70	\$0.76	\$1.52	\$0.58

Weighted average shares outstanding - diluted for the three and six months ended June 30, 2014 excludes approximately 1 million and 2 million equivalent shares, respectively, related to options with exercise prices greater than the average market price of our common shares (i.e., “underwater” options).

On April 1, 2014, all outstanding shares of mandatory convertible preferred stock automatically converted into 27,573,735 shares of common stock, net of fractional shares, at a conversion rate of 2.7574 shares of common stock per share of preferred stock.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Segment Operating Income:				
North America	\$321	\$208	\$519	\$364
Europe, Middle East and Africa	108	117	181	227
Asia Pacific	84	76	151	141
Latin America	43	59	96	101
Total Segment Operating Income	\$556	\$460	947	833
Less:				
Rationalizations	46	24	62	65
Interest expense	106	102	209	207
Other (income) expense ⁽¹⁾	17	8	(111) 176
Asset write-offs and accelerated depreciation	—	2	2	3
Corporate incentive compensation plans	22	19	35	46
Pension curtailments/settlements	—	—	—	33
Intercompany profit elimination	15	(4) 21	9
Retained expenses of divested operations	2	3	4	7
Other	20	14	38	25
Income before Income Taxes	\$328	\$292	\$687	\$262

For the six months ended June 30, 2015, Other (income) expense includes royalty income of \$155 million attributable to a one-time gain on the recognition of deferred income resulting from the termination of a licensing agreement associated with the sale of our former Engineered Products business that is not included in segment operating income. For the six months ended June 30, 2014, Other (income) expense includes a net foreign currency remeasurement loss of \$157 million related to the January 24, 2014 devaluation of the Venezuelan bolivar fuerte against the U.S. dollar.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Substantially all of the pension curtailment charges of \$33 million for the six months ended June 30, 2014 noted above related to our North America strategic business unit ("SBU"); however, such costs were not included in North America segment operating income for purposes of management's assessment of SBU operating performance. In addition, rationalizations, as described in Note 2, Costs Associated with Rationalization Programs; net (gains) losses on asset sales; and asset write-offs and accelerated depreciation are not (credited) charged to the SBUs for performance evaluation purposes, but were attributable to the SBUs as follows:

(In millions)	Three Months Ended		Six Months Ended	
	June 30, 2015	2014	June 30, 2015	2014
Rationalizations:

NOTE 8. FINANCING ARRANGEMENTS AND DERIVATIVE FINANCIAL INSTRUMENTS

At June 30, 2015, we had total credit arrangements of \$8,812 million, of which \$2,389 million were unused. At that date, 32% of our debt was at variable interest rates averaging 5.77%.

Notes Payable and Overdrafts, Long Term Debt and Capital Leases due Within One Year and Short Term Financing Arrangements

At June 30, 2015, we had short term committed and uncommitted credit arrangements totaling \$478 million, of which \$442 million were unused. These arrangements are available primarily to certain of our foreign subsidiaries through various banks at quoted market interest rates.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The following table presents amounts due within one year:

(In millions)	June 30, 2015	December 31, 2014	
Notes payable and overdrafts	\$36	\$30	
Weighted average interest rate	2.72	% 10.63	%
Long term debt and capital leases due within one year			
Other domestic and foreign debt (including capital leases)	\$321	\$148	
Weighted average interest rate	6.45	% 7.75	%
Total obligations due within one year	\$357	\$178	

Long Term Debt and Capital Leases and Financing Arrangements

At June 30, 2015, we had long term credit arrangements totaling \$8,334 million, of which \$1,947 million were unused.

The following table presents long term debt and capital leases, net of unamortized discounts, and interest rates:

(In millions)	June 30, 2015		December 31, 2014		
	Amount	Interest Rate	Amount	Interest Rate

CREDIT FACILITIES

\$2.0 billion Amended and Restated First Lien Revolving Credit Facility due 2017

Our amended and restated first lien revolving credit facility is available in the form of loans or letters of credit, with letter of credit availability limited to \$800 million. Subject to the consent of the lenders whose commitments are to be increased, we may request that the facility be increased by up to \$250 million. Our obligations under the facility are guaranteed by most of our wholly-owned U.S. and Canadian subsidiaries. Our obligations under the facility and our subsidiaries' obligations under the related guarantees are secured by first priority security interests in a variety of collateral. Amounts drawn under this facility will bear interest at LIBOR plus 150 basis points.

Availability under the facility is subject to a borrowing base, which is based primarily on eligible accounts receivable and inventory of The Goodyear Tire & Rubber Company and certain of its U.S. and Canadian subsidiaries. To the extent that our eligible accounts receivable and inventory decline, our borrowing base will decrease and the availability under the facility may decrease below \$2.0 billion. As of June 30, 2015, our borrowing base, and therefore our availability, under this facility was \$581 million below the facility's stated amount of \$2.0 billion.

The facility has customary representations and warranties including, as a condition to borrowing, that all such representations and warranties are true and correct, in all material respects, on the date of the borrowing, including representations as to no material adverse change in our financial condition since December 31, 2011. The facility also has customary defaults, including a cross-default to material indebtedness of Goodyear and our subsidiaries.

At June 30, 2015 and December 31, 2014, there were no borrowings outstanding under the first lien revolving credit facility. Letters of credit issued totaled \$373 million at June 30, 2015 and \$377 million at December 31, 2014.

\$1.2 billion Amended and Restated Second Lien Term Loan Facility due 2019

On June 16, 2015, we amended our U.S. second lien term loan facility. As a result of the amendment, the term loan now bears interest, at our option, at (i) 300 basis points over LIBOR (subject to a minimum LIBOR rate of 75 basis points) or (ii) 200 basis points over an alternative base rate (the higher of the prime rate, the federal funds rate plus 50 basis points or LIBOR plus 100 basis points). After June 16, 2015 and prior to June 16, 2016, (i) loans under the facility may not be prepaid or repaid with the proceeds of term loan indebtedness, or converted into or replaced by new term loans, bearing interest at an effective interest rate that is less than the effective interest rate then applicable to such loans and (ii) no amendment of the facility may be made that, directly or indirectly, reduces the effective interest rate applicable to the loans under the facility, in each case unless we pay a fee equal to 1.0% of the principal amount of the loans so affected.

Our obligations under our second lien term loan facility are guaranteed by most of our wholly-owned U.S. and Canadian subsidiaries and are secured by second priority security interests in the same collateral securing the \$2.0 billion first lien revolving credit facility. This facility may be increased by up to \$300 million at our request, subject to the consent of the lenders making such additional term loans.

At June 30, 2015 and December 31, 2014, the amounts outstanding under this facility were \$996 million and \$1,196 million, respectively.

€550 million Amended and Restated Senior Secured European Revolving Credit Facility due 2020

On May 12, 2015, we amended and restated our existing €400 million European revolving credit facility. Significant changes to the facility include extending the maturity to May 12, 2020, increasing the available commitments thereunder from €400 million to €550 million and decreasing the annual commitment fee by 20 basis points to 30 basis points. Loans will bear interest at LIBOR plus 175 basis points for loans denominated in U.S. dollars or pounds sterling and EURIBOR plus 175 basis points for loans denominated in euros.

Our amended and restated €550 million European revolving credit facility consists of (i) a €125 million German tranche that is available only to Goodyear Dunlop Tires Germany GmbH ("GDTG") and (ii) a €425 million all-borrower tranche that is available to GDTE, GDTG and Goodyear Dunlop Tires Operations S.A. Up to €150 million of swingline loans and €50 million in letters of credit are available for issuance under the all-borrower tranche.

GDTE and certain of its subsidiaries in the United Kingdom, Luxembourg, France and Germany provide guarantees to support the facility. GDTE's obligations under the facility and the obligations of its subsidiaries under the related guarantees are secured by security interests in collateral that includes, subject to certain exceptions:

- the capital stock of the principal subsidiaries of GDTE; and

- 14-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

a substantial portion of the tangible and intangible assets of GDTE and certain of its subsidiaries in the United Kingdom, Luxembourg, France and Germany, including real property, equipment, inventory, contract rights, intercompany receivables and cash accounts, but excluding accounts receivable and certain cash accounts in subsidiaries that are or may become parties to securitization or factoring transactions.

The German guarantors secure the German tranche on a first-lien basis and the all-borrower tranche on a second-lien basis. GDTE and its other subsidiaries that provide guarantees secure the all-borrower tranche on a first-lien basis and generally do not provide collateral support for the German tranche. The Company and its U.S. subsidiaries and primary Canadian subsidiary that guarantee our U.S. senior secured credit facilities described above also provide unsecured guarantees in support of the facility.

The facility contains covenants similar to those in our first lien revolving credit facility, with additional limitations applicable to GDTE and its subsidiaries. In addition, under the facility, GDTE's ratio of Consolidated Net J.V. Indebtedness to Consolidated European J.V. EBITDA for a period of four consecutive fiscal quarters is not permitted to be greater than 3.0 to 1.0 at the end of any fiscal quarter. "Consolidated Net J.V. Indebtedness" and "Consolidated European J.V. EBITDA" have the meanings given them in the facility.

The facility has customary representations and warranties including, as a condition to borrowing, that all such representations and warranties are true and correct, in all material respects, on the date of the borrowing, including representations as to no material adverse change in our business or financial condition since December 31, 2014. The facility also has customary defaults, including a cross-default to material indebtedness of Goodyear and our subsidiaries.

At June 30, 2015 and December 31, 2014, there were no borrowings outstanding under the European revolving credit facility. There were no letters of credit issued at June 30, 2015 and December 31, 2014.

Accounts Receivable Securitization Facilities (On-Balance Sheet)

GDTE and certain other of our European subsidiaries are parties to a pan-European accounts receivable securitization facility that expires in 2019. The terms of the facility provide the flexibility to designate annually the maximum amount of funding available under the facility in an amount of not less than €45 million and not more than €450 million. For the period beginning October 17, 2014 to October 15, 2015, the designated maximum amount of the facility is €380 million.

The facility involves an ongoing daily sale of substantially all of the trade accounts receivable of certain GDTE subsidiaries to a bankruptcy-remote French company controlled by one of the liquidity banks in the facility. These subsidiaries retain servicing responsibilities. Utilization under this facility is based on eligible receivable balances. The funding commitments under the facility will expire upon the earliest to occur of: (a) September 25, 2019, (b) the non-renewal and expiration (without substitution) of all of the back-up liquidity commitments, (c) the early termination of the facility according to its terms (generally upon an Early Amortisation Event (as defined in the facility), which includes, among other things, events similar to the events of default under our senior secured credit facilities; certain tax law changes; or certain changes to law, regulation or accounting standards), or (d) our request for early termination of the facility. The facility's current back-up liquidity commitments will expire on October 15, 2015. At June 30, 2015, the amounts available and utilized under this program totaled \$276 million (€246 million). At December 31, 2014, the amounts available and utilized under this program totaled \$343 million (€283 million). The program does not qualify for sale accounting, and accordingly, these amounts are included in Long Term Debt and Capital Leases.

In addition to the pan-European accounts receivable securitization facility discussed above, subsidiaries in Australia have an accounts receivable securitization program that provides up to \$65 million (85 million Australian dollars) of funding. At June 30, 2015, the amounts available and utilized under this program were \$46 million and \$22 million, respectively. At December 31, 2014, the amounts available and utilized under this program were \$43 million and \$23 million, respectively. The receivables sold under this program also serve as collateral for the related facility. We retain the risk of loss related to these receivables in the event of non-payment. These amounts are included in Long Term

Debt and Capital Leases due Within One Year.

For a description of the collateral securing the credit facilities described above as well as the covenants applicable to them, refer to the Note to the Consolidated Financial Statements No. 14, Financing Arrangements and Derivative Financial Instruments, in our 2014 Form 10-K.

Accounts Receivable Factoring Facilities (Off-Balance Sheet)

Various subsidiaries sold certain of their trade receivables under off-balance sheet programs. For these programs, we have concluded that there is generally no risk of loss to us from non-payment of the sold receivables. At June 30, 2015, the gross amount of receivables sold was \$299 million, compared to \$365 million at December 31, 2014.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Other Foreign Credit Facilities

A Chinese subsidiary has several financing arrangements in China. At June 30, 2015, these non-revolving credit facilities had total unused availability of \$80 million and can only be used to finance the expansion of our manufacturing facility in China. At June 30, 2015 and December 31, 2014, the amounts outstanding under these facilities were \$523 million and \$535 million, respectively. The facilities ultimately mature in 2023 and principal amortization begins in 2015. The facilities contain covenants relating to the Chinese subsidiary and have customary representations and warranties and defaults relating to the Chinese subsidiary's ability to perform its obligations under the facilities. At June 30, 2015 and December 31, 2014, restricted cash related to funds obtained under these credit facilities was \$12 million and \$4 million, respectively.

DERIVATIVE FINANCIAL INSTRUMENTS

We utilize derivative financial instrument contracts and nonderivative instruments to manage interest rate, foreign exchange and commodity price risks. We have established a control environment that includes policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. We do not hold or issue derivative financial instruments for trading purposes.

Foreign Currency Contracts

We enter into foreign currency contracts in order to manage the impact of changes in foreign exchange rates on our consolidated results of operations and future foreign currency-denominated cash flows. These contracts may be used to reduce exposure to currency movements affecting existing foreign currency-denominated assets, liabilities, firm commitments and forecasted transactions resulting primarily from trade purchases and sales, equipment acquisitions, intercompany loans and royalty agreements. Contracts hedging short term trade receivables and payables normally have no hedging designation.

The following table presents the fair values for foreign currency contracts not designated as hedging instruments:

(In millions)	June 30, 2015	December 31, 2014
Fair Values — asset (liability):		
Accounts receivable	\$7	\$20
Other current liabilities	(15)	(4)

At June 30, 2015 and December 31, 2014, these outstanding foreign currency derivatives had notional amounts of \$966 million and \$878 million, respectively, and were primarily related to intercompany loans. Other (Income) Expense included net transaction losses of \$28 million and gains of \$30 million for the three and six months ended June 30, 2015, respectively compared to net transaction gains of \$3 million and losses of \$5 million for the three and six months ended June 30, 2014, respectively. These amounts were substantially offset in Other (Income) Expense by the effect of changing exchange rates on the underlying currency exposures.

The following table presents fair values for foreign currency contracts designated as cash flow hedging instruments:

(In millions)	June 30, 2015	December 31, 2014
Fair Values — asset (liability):		
Accounts receivable	\$6	\$10
Other current liabilities	(1)	—

At June 30, 2015 and December 31, 2014, these outstanding foreign currency derivatives had notional amounts of \$176 million and \$157 million, respectively, and primarily related to U.S. dollar denominated intercompany transactions.

We enter into master netting agreements with counterparties. The amounts eligible for offset under the master netting agreements are not material and we have elected a gross presentation of foreign currency contracts in the Consolidated Balance Sheets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table presents information related to foreign currency contracts designated as cash flow hedging instruments (before tax and minority):

(In millions) (Income) Expense	Three Months Ended		Six Months Ended	
	June 30,	2014	June 30,	2014
Amounts deferred to Accumulated Other Comprehensive Loss ("AOCL")	\$ 3	\$—	\$(12) \$ 2
Amount of deferred (gain) loss reclassified from AOCL into CGS	(10) —	(15) 1
Amounts excluded from effectiveness testing	1	1	1	1

The estimated net amount of deferred gains at June 30, 2015 that is expected to be reclassified to earnings within the next twelve months is \$9 million.

The counterparties to our foreign currency contracts were considered by us to be substantial and creditworthy financial institutions that are recognized market makers at the time we entered into those contracts. We seek to control our credit exposure to these counterparties by diversifying across multiple counterparties, by setting counterparty credit limits based on long term credit ratings and other indicators of counterparty credit risk such as credit default swap spreads, and by monitoring the financial strength of these counterparties on a regular basis. We also enter into master netting agreements with counterparties when possible. By controlling and monitoring exposure to counterparties in this manner, we believe that we effectively manage the risk of loss due to nonperformance by a counterparty. However, the inability of a counterparty to fulfill its contractual obligations to us could have a material adverse effect on our liquidity, financial position or results of operations in the period in which it occurs.

NOTE 9. FAIR VALUE MEASUREMENTS

The following table presents information about assets and liabilities recorded at fair value on the Consolidated Balance Sheets at June 30, 2015 and December 31, 2014:

(In millions)	Total Carrying Value in the Consolidated Balance Sheet		Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table presents supplemental fair value information about long term fixed rate and variable rate debt, excluding capital leases, at June 30, 2015 and December 31, 2014. Long term debt with a fair value of \$4,546 million and \$4,603 million at June 30, 2015 and December 31, 2014, respectively, was estimated using quoted Level 1 market prices. The remaining long term debt approximates fair value since the terms of the financing arrangements are similar to terms that could be obtained under current lending market conditions.

(In millions)	June 30, 2015	December 31, 2014
Fixed Rate Debt:		
Carrying amount — liability	\$4,079	\$4,132
Fair value — liability	4,331	4,225
Variable Rate Debt:		
Carrying amount — liability	\$1,935	\$2,173
Fair value — liability	1,937	2,170

NOTE 10. PENSION, SAVINGS AND OTHER POSTRETIREMENT BENEFIT PLANS

We provide employees with defined benefit pension or defined contribution savings plans.

Defined benefit pension cost follows:

(In millions)	U.S. Three Months Ended June 30,		U.S. Six Months Ended June 30,	
	2015	2014	2015	2014
Service cost — benefits earned during the period	\$1	\$4	\$2	\$13
Interest cost on projected benefit obligation	60	63	121	128
Expected return on plan assets	(75) (77) (150) (157
Amortization of: — prior service cost	—	—	—	1
— net losses	26	27	54	60
Net periodic pension cost	12	17	27	45
Net curtailments/settlements/termination benefits	—	—	—	32
Total defined benefit pension cost	\$12	\$17	\$27	\$77
	Non-U.S. Three Months Ended June 30,		Non-U.S. Six Months Ended June 30,	
(In millions)	2015	2014	2015	2014
Service cost — benefits earned during the period	\$13	\$9	\$22	\$18
Interest cost on projected benefit obligation	28	34	57	68
Expected return on plan assets	(27) (31) (53) (61
Amortization of net losses	10	9	19	18
Net periodic pension cost	24	21	45	43
Net curtailments/settlements/termination benefits	1	(1) 1	(14
Total defined benefit pension cost	\$25	\$20	\$46	\$29

During the first quarter of 2014, we made contributions of \$1,167 million, including discretionary contributions of \$907 million, to fully fund our hourly U.S. pension plans. As a result, and in accordance with our master collective bargaining agreement with the United Steelworkers, the hourly U.S. pension plans were frozen to future accruals effective April 30, 2014. As a result of the accrual freezes to pension plans related to our North America SBU, we recognized curtailment charges of \$33 million in the first quarter of 2014.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In the first quarter of 2014, our largest U.K. pension plans were merged and lump sum payments were made to settle certain obligations of those plans prior to the merger, which resulted in a settlement charge of \$5 million.

In the first quarter of 2014, we also ceased production at one of our manufacturing facilities in Amiens, France and recorded curtailment gains of \$2 million and \$22 million, for the three and six months ended June 30, 2014, respectively, which are included in rationalization charges, related to the termination of employees at that facility who were participants in our France retirement indemnity plan.

We expect to contribute approximately \$50 million to \$75 million to our funded non-U.S. pension plans in 2015. For the three and six months ended June 30, 2015, we contributed \$16 million and \$32 million, respectively, to our non-U.S. plans.

The expense recognized for our contributions to defined contribution savings plans for the three months ended June 30, 2015 and 2014 was \$31 million and \$28 million, respectively, and \$64 million and \$55 million, for the six months ended June 30, 2015 and 2014, respectively.

We provide certain U.S. employees and employees at certain non-U.S. subsidiaries with health care benefits or life insurance benefits upon retirement. Other postretirement benefits credit for the three months ended June 30, 2015 and 2014 was \$(6) million and \$(4) million respectively, and \$(10) million and \$(7) million for the six months ended June 30, 2015 and 2014, respectively.

NOTE 11. STOCK COMPENSATION PLANS

Our Board of Directors granted 0.8 million stock options, 0.2 million restricted stock units and 0.2 million performance share units during the six months ended June 30, 2015 under our stock compensation plans. The weighted average exercise price per share and weighted average fair value per share of the stock option grants during the six months ended June 30, 2015 were \$27.26 and \$11.48, respectively. We estimated the fair value of the stock options using the following assumptions in our Black-Scholes model:

Expected term: 7.3 years

Interest rate: 1.83%

Volatility: 42.00%

Dividend yield: 0.88%

We measure the fair value of grants of restricted stock units and performance share units based primarily on the closing market price of a share of our common stock on the date of the grant, modified as appropriate to take into account the features of such grants. The weighted average fair value per share was \$26.42 for restricted stock units and \$28.44 for performance share units granted during the six months ended June 30, 2015.

We recognized stock-based compensation expense of \$6 million and \$10 million during the three and six months ended June 30, 2015, respectively. At June 30, 2015, unearned compensation cost related to the unvested portion of all stock-based awards was approximately \$39 million and is expected to be recognized over the remaining vesting period of the respective grants, through October 2020. We recognized stock-based compensation expense of \$5 million and \$12 million during the three and six months ended June 30, 2014, respectively.

NOTE 12. COMMITMENTS AND CONTINGENT LIABILITIES

Environmental Matters

We have recorded liabilities totaling \$46 million at June 30, 2015 and December 31, 2014, for anticipated costs related to various environmental matters, primarily the remediation of numerous waste disposal sites and certain properties sold by us. Of these amounts, \$9 million were included in Other Current Liabilities at June 30, 2015 and December 31, 2014. The costs include legal and consulting fees, site studies, the design and implementation of remediation plans, post-remediation monitoring and related activities, and will be paid over several years. The amount of our ultimate liability in respect of these matters may be affected by several uncertainties, primarily the ultimate cost

of required remediation and the extent to which other responsible parties contribute. We have limited potential insurance coverage for future environmental claims.

Since many of the remediation activities related to environmental matters vary substantially in duration and cost from site to site and the associated costs for each vary depending on the mix of unique site characteristics, in some cases we cannot reasonably estimate a range of possible losses. Although it is not possible to estimate with certainty the outcome of all of our environmental matters, management believes that potential losses in excess of current reserves for environmental matters, individually and in the aggregate, will not have a material adverse effect on our financial position, cash flows or results of operations.

- 19-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Workers' Compensation

We have recorded liabilities, on a discounted basis, totaling \$310 million and \$306 million, respectively, for anticipated costs related to workers' compensation at June 30, 2015 and December 31, 2014. Of these amounts, \$63 million and \$71 million was included in Current Liabilities as part of Compensation and Benefits at June 30, 2015 and December 31, 2014, respectively. The costs include an estimate of expected settlements on pending claims, defense costs and a provision for claims incurred but not reported. These estimates are based on our assessment of potential liability using an analysis of available information with respect to pending claims, historical experience, and current cost trends. The amount of our ultimate liability in respect of these matters may differ from these estimates. We periodically, and at least annually, update our loss development factors based on actuarial analyses. At June 30, 2015 and December 31, 2014, the liability was discounted using a risk-free rate of return. At June 30, 2015, we estimate that it is reasonably possible that the liability could exceed our recorded amounts by approximately \$30 million.

General and Product Liability and Other Litigation

We have recorded liabilities totaling \$336 million and \$324 million, including related legal fees expected to be incurred, for potential product liability and other tort claims, including asbestos claims, at June 30, 2015 and December 31, 2014, respectively. Of these amounts, \$48 million and \$46 million was included in Other Current Liabilities at June 30, 2015 and December 31, 2014, respectively. The amounts recorded were estimated based on an assessment of potential liability using an analysis of available information with respect to pending claims, historical experience and, where available, recent and current trends. Based upon that assessment, at June 30, 2015, we do not believe that estimated reasonably possible losses associated with general and product liability claims in excess of the amounts recorded will have a material adverse effect on our financial position, cash flows or results of operations. However, the amount of our ultimate liability in respect of these matters may differ from these estimates.

Asbestos. We are a defendant in numerous lawsuits alleging various asbestos-related personal injuries purported to result from alleged exposure to asbestos in certain products manufactured by us or present in certain of our facilities. Typically, these lawsuits have been brought against multiple defendants in state and Federal courts. To date, we have disposed of approximately 110,800 claims by defending and obtaining the dismissal thereof or by entering into a settlement. The sum of our accrued asbestos-related liability and gross payments to date, including legal costs, by us and our insurers totaled approximately \$475 million through June 30, 2015 and \$458 million through December 31, 2014.

A summary of recent approximate asbestos claims activity follows. Because claims are often filed and disposed of by dismissal or settlement in large numbers, the amount and timing of settlements and the number of open claims during a particular period can fluctuate significantly.

(Dollars in millions)	Six Months Ended June 30, 2015	Year Ended December 31, 2014
Pending claims, beginning of period	73,800	74,000
New claims filed	900	1,900
Claims settled/dismissed	(1,300) (2,100)
Pending claims, end of period	73,400	73,800
Payments (1)	\$9	\$20

(1) Represents cash payments made during the period by us and our insurers on asbestos litigation defense and claim resolution.

We periodically, and at least annually, review our existing reserves for pending claims, including a reasonable estimate of the liability associated with unasserted asbestos claims, and estimate our receivables from probable insurance recoveries. We had recorded gross liabilities for both asserted and unasserted claims, inclusive of defense

costs, totaling \$159 million and \$151 million at June 30, 2015 and December 31, 2014, respectively. We recorded a receivable related to asbestos claims of \$78 million and \$71 million at June 30, 2015 and December 31, 2014, respectively. We expect that approximately 50% of asbestos claim related losses will be recoverable through insurance during the ten-year period covered by the estimated liability. Of these amounts, \$12 million and \$13 million were included in Current Assets as part of Accounts Receivable at June 30, 2015 and December 31, 2014, respectively. The recorded receivable consists of an amount we expect to collect under coverage-in-place agreements with certain primary carriers as well as an amount we believe is probable of recovery from certain of our excess coverage insurance carriers.

- 20-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

We believe that, at December 31, 2014, we had approximately \$160 million in limits of excess level policies potentially applicable to indemnity and defense costs for asbestos products claims. We also had coverage under certain primary policies for indemnity and defense costs for asbestos products claims under remaining aggregate limits, as well as coverage for indemnity and defense costs for asbestos premises claims on a per occurrence basis pursuant to a coverage-in-place agreement.

With respect to both asserted and unasserted claims, it is reasonably possible that we may incur a material amount of cost in excess of the current reserve; however, such amounts cannot be reasonably estimated. Coverage under insurance policies is subject to varying characteristics of asbestos claims including, but not limited to, the type of claim (premise vs. product exposure), alleged date of first exposure to our products or premises and disease alleged. Depending upon the nature of these characteristics, as well as the resolution of certain legal issues, some portion of the insurance may not be accessible by us.

Brazilian Indirect Tax Assessments

In September 2011, the State of Sao Paulo, Brazil issued an assessment to us for allegedly improperly taking tax credits for value-added taxes paid to a supplier of natural rubber during the period from January 2006 to August 2008. The assessment, including interest and penalties, totals 92 million Brazilian real (approximately \$30 million). We have filed a response contesting this assessment and are defending the matter. In the event we are unsuccessful in defending the assessment, our results of operations could be materially affected.

Amiens Labor Claims

Approximately 800 former employees of the closed Amiens, France manufacturing facility have asserted wrongful termination or other claims totaling €109 million (\$122 million) against Goodyear Dunlop Tires France. We intend to vigorously defend ourselves against these claims, and any additional claims that may be asserted against us, and cannot estimate the amounts, if any, that we may ultimately pay in respect of such claims.

Other Actions

We are currently a party to various claims, indirect tax assessments and legal proceedings in addition to those noted above. If management believes that a loss arising from these matters is probable and can reasonably be estimated, we record the amount of the loss, or the minimum estimated liability when the loss is estimated using a range, and no point within the range is more probable than another. As additional information becomes available, any potential liability related to these matters is assessed and the estimates are revised, if necessary. Based on currently available information, management believes that the ultimate outcome of these matters, individually and in the aggregate, will not have a material adverse effect on our financial position or overall trends in results of operations.

Our recorded liabilities and estimates of reasonably possible losses for the contingent liabilities described above are based on our assessment of potential liability using the information available to us at the time and, where applicable, any past experience and recent and current trends with respect to similar matters. Our contingent liabilities are subject to inherent uncertainties, and unfavorable judicial or administrative decisions could occur which we did not anticipate. Such an unfavorable decision could include monetary damages, fines or other penalties or an injunction prohibiting us from taking certain actions or selling certain products. If such an unfavorable decision were to occur, it could result in a material adverse impact on our financial position and results of operations in the period in which the decision occurs, or in future periods.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Income Tax Matters

The calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax regulations. We recognize liabilities for anticipated tax audit issues based on our estimate of whether, and the extent to which, additional taxes will be due. If we ultimately determine that payment of these amounts is unnecessary, we reverse the liability and recognize a tax benefit during the period in which we determine that the liability is no longer necessary. We also recognize income tax benefits to the extent that it is more likely than not that our positions will be sustained when challenged by the taxing authorities. We derecognize income tax benefits when based on new information we determine that it is no longer more likely than not that our position will be sustained. To the extent we prevail in matters for which liabilities have been established, or determine we need to derecognize tax benefits recorded in prior periods, our results of operations and effective tax rate in a given period could be materially affected. An unfavorable tax settlement would require use of our cash, and lead to recognition of expense to the extent the settlement amount exceeds recorded liabilities and, in the case of an income tax settlement, result in an increase in our effective tax rate in the period of resolution. A favorable tax settlement would be recognized as a reduction of expense to the extent the settlement amount is lower than recorded liabilities and, in the case of an income tax settlement, would result in a reduction in our effective tax rate in the period of resolution.

While the Company applies consistent transfer pricing policies and practices globally, supports transfer prices through economic studies, seeks advance pricing agreements and joint audits to the extent possible and believes its transfer prices to be appropriate, such transfer prices, and related interpretations of tax laws, are occasionally challenged by various taxing authorities globally. We have received various tax assessments challenging our interpretations of applicable tax laws in various jurisdictions. Although we believe we have complied with applicable tax laws, have strong positions and defenses and have historically been successful in defending such claims, our results of operations could be materially adversely affected in the case we are unsuccessful in the defense of existing or future claims.

Guarantees

We have off-balance sheet financial guarantees and other commitments totaling approximately \$7 million at June 30, 2015 and December 31, 2014. We issue guarantees to financial institutions or other entities on behalf of certain of our affiliates, lessors or customers. Normally there is no separate premium received by us as consideration for the issuance of guarantees. We also generally do not require collateral in connection with the issuance of these guarantees. If our performance under these guarantees is triggered by non-payment or another specified event, we would be obligated to make payment to the financial institution or the other entity, and would typically have recourse to the affiliate, lessor or customer. The guarantees expire at various times through 2031. We are unable to estimate the extent to which our affiliates', lessors' or customers' assets would be adequate to recover any payments made by us under the related guarantees.

NOTE 13. CAPITAL STOCK

Mandatory Convertible Preferred Stock

On April 1, 2014, all outstanding shares of mandatory convertible preferred stock automatically converted into 27,573,735 shares of common stock, net of fractional shares, at a conversion rate of 2.7574 shares of common stock per share of preferred stock.

Dividends

In the first six months of 2015, we paid cash dividends of \$32 million on our common stock. On July 15, 2015, the Board of Directors (or a duly authorized committee thereof) declared cash dividends of \$0.06 per share of common stock, or approximately \$16 million in the aggregate. The dividend will be paid on September 1, 2015 to stockholders of record as of the close of business on July 31, 2015. Future quarterly dividends are subject to Board approval.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Common Stock Repurchases

On September 18, 2013, the Board of Directors authorized \$100 million for use in our common stock repurchase program. On May 27, 2014, the Board of Directors approved an increase in that authorization to \$450 million. This program expires on December 31, 2016. We intend to repurchase shares of common stock in open market transactions in order to offset new shares issued under equity compensation programs and to provide for additional shareholder returns. During the second quarter and first six months of 2015, we repurchased 1,600,129 shares at an average price of \$31.25 per share, or \$50 million in the aggregate.

In addition, we routinely repurchase shares delivered to us by employees as payment for the exercise price of stock options and the withholding taxes due upon the exercise of the stock options or the vesting or payment of stock awards. During the second quarter of 2015, we repurchased 36,169 shares at an average price of \$29.00 per share, or \$1 million in the aggregate. During the first six months of 2015, we repurchased 75,520 shares at an average price of \$27.99 per share, or \$2 million in the aggregate.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 16. CONSOLIDATING FINANCIAL INFORMATION

Certain of our subsidiaries have guaranteed our obligations under the \$1.0 billion outstanding principal amount of 8.25% senior notes due 2020, the \$282 million outstanding principal amount of 8.75% notes due 2020, the \$900 million outstanding principal amount of 6.5% senior notes due 2021, and the \$700 million outstanding principal amount of 7% senior notes due 2022 (collectively, the “notes”). The following presents the condensed consolidating financial information separately for:

- (i) The Goodyear Tire & Rubber Company (the “Parent Company”), the issuer of the guaranteed obligations;
- (ii) Guarantor Subsidiaries, on a combined basis, as specified in the indentures related to Goodyear’s obligations under the notes;
- (iii) Non-guarantor Subsidiaries, on a combined basis;

- (iv) Consolidating entries and eliminations representing adjustments to (a) eliminate intercompany transactions between the Parent Company, the Guarantor Subsidiaries and the Non-guarantor Subsidiaries, (b) eliminate the investments in our subsidiaries, and (c) record consolidating entries; and
- (v) The Goodyear Tire & Rubber Company and Subsidiaries on a consolidated basis.

Each guarantor subsidiary is 100% owned by the Parent Company at the date of each balance sheet presented. The notes are fully and unconditionally guaranteed on a joint and several basis by each guarantor subsidiary. The guarantees of the guarantor subsidiaries are subject to release in limited circumstances only upon the occurrence of certain customary conditions. Each entity in the consolidating financial information follows the same accounting policies as described in the consolidated financial statements, except for the use by the Parent Company and guarantor subsidiaries of the equity method of accounting to reflect ownership interests in subsidiaries which are eliminated upon consolidation. Changes in intercompany receivables and payables related to operations, such as intercompany sales or service charges, are included in cash flows from operating activities. Intercompany transactions reported as investing or financing activities include the sale of the capital stock of various subsidiaries, loans and other capital transactions between members of the consolidated group.

Certain non-guarantor subsidiaries of the Parent Company are limited in their ability to remit funds to it by means of dividends, advances or loans due to required foreign government and/or currency exchange board approvals or limitations in credit agreements or other debt instruments of those subsidiaries.
