NOTES TO CONDENSED FINANCIAL STATEMENTS

June 30, 2013

(In millions, except per share data – Unaudited)

The accompanying unaudited financial statements have been prepared in accordance with Article 10 of Regulation S-X and do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The year-end condensed balance sheet data was derived from audited financial statements, but do not include all disclosures required by accounting principles generally accepted in the United States of America (GAAP). In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Certain reclassifications have been made to the prior year financial statements to conform to the current presentation. The Company has evaluated subsequent events, see Note 14. Operating results for any quarter are not necessarily indicative of the results for any other quarter or for the full year. These statements should be read in conjunction with the financial statements and notes thereto for Energizer Holdings, Inc. (the Company) for the year ended September 30, 2012 included in the Annual Report on Form 10-K dated November 20, 2012.

Note 1 – Segment note

Operations for the Company are managed via two segments - Personal Care (Wet Shave, Skin Care, Feminine Care and Infant Care) and Household Products (Battery and Portable Lighting). Segment performance is evaluated based on segment operating profit, exclusive of general corporate expenses, share-based compensation costs, costs associated with restructurings including the previously announced 2013 Restructuring Plan, acquisition integration or business realignment activities, and amortization of intangible assets. Financial items, such as interest expense and income, are managed on a global basis at the corporate level. The exclusion from segment results of charges could be other acquisition transaction and integration costs, and substantially all restructuring and realignment costs, reflects how management evaluates segment performance.

The Company's operating model includes a combination of stand-alone and combined business functions between the Personal Care and Household Products businesses, varying by country and region of the world. Shared functions include product warehousing and distribution, various transaction processing functions, and in most countries, a combined sales force and management. The Company applies a fully allocated cost basis, in which shared business functions are allocated between the segments. Such allocations are estimates, and do not represent the costs of such services if performed on a stand-alone basis.

For the quarter and nine months ended June 30, 2013, the Company recorded pre-tax expense of \$22.7 and \$109.1, respectively, related to its 2013 restructuring. These costs are reported on a separate line in the Consolidated Statements of Earnings and Comprehensive Income (Condensed). In addition, pre-tax costs of \$2.1 and \$3.2 were recorded for the quarter and nine months of fiscal 2013, respectively, associated with certain information technology enablement activities related to our restructuring initiatives, and these costs are included in SG&A on the Statement of Earnings and Comprehensive Income (Condensed). Finally pre-tax costs of \$4.7, for both the quarter and nine months ended June 30, 2013, associated with obsolescence charges related to the exit of certain non-core product lines as part of our restructuring are included in cost of products sold on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). These information technology costs and non-core inventory obsolescence charges are considered part of the total project costs incurred for our restructuring initiative. See Note 2 for further information.

In the first quarter of fiscal 2013, the Company approved and communicated changes to its U.S. pension plan, which is the most significant of the Company's pension obligations. Effective January 1, 2014, the pension benefit earned to date by active participants under the legacy Energizer U.S. pension plan will be frozen and future service benefits will

no longer be accrued under this retirement program. For the nine months ended June 30, 2013, the Company recorded a non-cash, pre-tax curtailment gain of \$37.4 as a result of this plan change. The pension curtailment gain is reported on a separate line in the Consolidated Statements of Earnings and Comprehensive Income (Condensed). See Note 7 for further information. In addition, see Note 14 for further information on an additional curtailment gain expected in the fiscal fourth quarter of 2013.

For the quarter and nine months ended June 30, 2012, our prior Household Products restructuring activities generated pre-tax expense of \$0.5 and pre-tax income of \$7.2, respectively, due to the gain on the sale of our

former battery manufacturing facility in Switzerland, which was shut down in fiscal 2011. This gain was partially offset by \$5.6 of additional restructuring costs in the nine month period. See Note 2 for further information.

For the nine months ended June 30, 2013, the Company recorded expense of \$6.1 related to the devaluation of its net monetary assets in Venezuela as a result of accounting for the translation of this affiliate under the accounting rules governing a highly inflationary economy. The net monetary assets in Venezuela were valued using the revised official exchange rate of 6.30 Venezuelan Bolivar Fuerte to one U.S. dollar at June 30, 2013. The devaluation impact, which was included in Other financing items, net on the Consolidated Statements of Earnings and Comprehensive Income (Condensed), was not considered in the evaluation of segment profit. However, normal operating results in Venezuela, such as sales, gross profit and operating profit, have and may further be negatively impacted by translating at less favorable exchange rates and by the impact of unfavorable economic conditions in the country. These operating results remain part of the reported segment totals. The negative segment impacts of the Venezuela devaluation and the unfavorable economic impact on operating results are discussed separately when considered relevant and material to understanding the year-over-year comparatives.

Segment sales and profitability for the quarter and nine months ended June 30, 2013 and 2012, respectively, are presented below.

	For the quarter ended June 30,		For the nine months ended June 30,	
	2013	2012	2013	2012

Infant Care	39.6	42.8	128.2	133.5
Other personal care products	13.5	12.7	40.4	34.9
Total net sales	\$1,111.5	\$1,124.1	\$3,399.9	\$3,424.0

Note 2 – Restructuring

2013 Restructuring

In November 2012, the Company's Board of Directors authorized an enterprise-wide restructuring plan and delegated authority to the Company's management to determine the final actions with respect to this plan.

The restructuring plan is expected to reduce the global workforce by more than 10%, or approximately 1,500 colleagues, and includes efforts to:

- Rationalize and streamline operations facilities in the Household Products Division;
- Consolidate G&A functional support across the organization;
- Streamline the Household Products Division product portfolio to enable increased focus on our core battery and portable lighting business;
- Streamline the marketing organization within our Household Products division;
- Optimize our go-to-market strategies and organization structures within our international markets;
- Reduce overhead spending, including changes to benefit programs and other targeted spending reductions; and
- Create a center-led purchasing function to drive procurement savings.

The Company believes savings from the restructuring project should generate increased cash flow and should improve key operating metrics, including gross margin and overheads as a percent of sales. In addition, we expect that a portion of the gross savings will be reinvested in the business to increase investment in brand building and innovation to drive future growth, and enable investments in information technology systems to improve capabilities and reduce costs.

The Company believes that a substantial portion of the actions necessary to achieve the targeted savings should be completed by the end of fiscal 2014 and the total on-going savings are expected to be fully realized in fiscal 2015.

For the quarter and nine months ended June 30, 2013, the Company recorded pre-tax expense of \$22.7 and \$109.1, respectively, of charges related to the 2013 Restructuring Plan including:

- Non-cash asset impairment charges of \$19.3 for the nine months ended June 30, 2013 and accelerated depreciation charges of \$7.3 and \$17.1 for the quarter and nine months ended June 30, 2013, respectively, (collectively for the nine months, \$36.4) related primarily to anticipated plant closures,
- Severance and related benefit costs of \$6.7 and \$38.0 for the quarter and nine months ended June 30, 2013, respectively, associated with staffing reductions that have been identified to date, and

Consulting, program management and other charges associated with the restructuring of \$8.7 and \$34.7 for the quarter and nine months ended June 30, 2013, respectively.

The 2013 restructuring costs are reported on a separate line in the Consolidated Statements of Earnings and Comprehensive Income (Condensed). In addition, pre-tax costs of \$2.1 and \$3.2, for the quarter and nine months ended June 30, 2013, respectively, associated with certain information technology enablement activities related to our restructuring initiatives were included in SG&A on the Statement of Earnings and Comprehensive Income

(Condensed). Additionally, pre-tax costs of \$4.7, for both the quarter and nine months ended June 30, 2013, associated with obsolescence charges related to the exit of certain non-core product lines as part of our restructuring are included in cost of products sold on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). The information technology costs and non-core inventory obsolescence charges are considered part of the total project costs incurred for our restructuring initiative.

A summary of the estimated remaining costs for the 2013 restructuring, which will be incurred for the remainder of fiscal 2013 and in fiscal 2014 is as follows. Total, as well as category ranges, are subject to change based on final restructuring decisions.

- ▲ Approximately \$65-\$70 related to plant closure and accelerated depreciation charges,
- ▲ Approximately \$20-\$30 related to severance and related benefit costs,
- ▲ Approximately \$20-\$25 related to consulting and program management, and
- ▲ Approximately \$5-\$10 related to other exit costs.

In addition, the Company expects to incur incremental investments in capital expenditures over the next 15 months, primarily related to IT enablement of certain restructuring initiatives.

As stated above, the Company does not include the 2013 restructuring costs in the results of its reportable segments. The estimated pre-tax impact of allocating such charges to segment results would have been as follows:

Non-cash impairment and accelerated depreciation charges of approximately \$7 and \$36 for the quarter and nine months ended June 30, 2013, respectively, would be fully allocated to our Household Products segment. Severance and related benefit costs of approximately \$7 and \$32 for the quarter and nine months ended June 30, 2013, respectively, would be allocated to our Household Products segment. Charges of approximately \$0 and \$5 for the quarter and nine months ended June 30, 2013, respectively, would be allocated to our Personal Care segment. The remaining charges of approximately \$0 and \$1 for the quarter and nine months ended June 30, 2013, respectively would be allocated to Corporate. As certain headcount provides services to both segments, charges for severance and related benefits for such headcount requires an allocation. Consulting, program management and other exit costs of approximately \$7 and \$24 for the quarter and nine months ended June 30, 2013, respectively, would be allocated to our Household Products segment. Charges of approximately \$1 and \$7 for the quarter and nine months ended June 30, 2013, respectively, would be allocated to our Personal Care segment. The remaining charges of approximately \$1 and \$4 for the quarter and nine months ended June 30, 2013, respectively, would be allocated to Corporate.

The following table summarizes the 2013 Restructuring activity for the first nine months of fiscal 2013.

	October 1, 2012	Charge to Income	Utilized		June 30, 2013	
			Other (a)	Cash		Non-Cash
Severance & Termination Related Costs	\$—	\$38.0	\$(0.3)	\$(23.4)	\$—	\$14.3
Asset Impairment/Accelerated Depreciation	—	36.4	—	—	(36.4)	—
Other Related Costs	—	34.7	—	(29.7)	—	5.0
Total	\$—	\$109.1	\$(0.3)	\$(53.1)	\$(36.4)	\$19.3

(a) Includes the impact of currency translation.

Prior Household Products Restructuring

For the quarter and nine months ended June 30, 2012, our prior Household Products restructuring activities generated pre-tax expense of \$0.5 and pre-tax income of \$7.2, respectively. The prior period year to date pre-tax income was due

to the gain on the sale of our former battery manufacturing facility in Switzerland, which was shut down in fiscal 2011, which was approximately \$13. This gain was offset by additional restructuring costs of \$5.6. These costs, net of the gain on the sale of the former manufacturing facility in fiscal 2012, are included as a separate line item on the Consolidated Statements of Earnings and Comprehensive Income (Condensed).

Note 3 - Venezuela

Effective January 1, 2010 and continuing through the third quarter of fiscal 2013, the financial statements for our Venezuela subsidiary are consolidated under the rules governing the translation of financial information in a highly inflationary economy based on the use of the blended National Consumer Price Index in Venezuela. Under GAAP, an economy is considered highly inflationary if the cumulative inflation rate for a three year period meets or exceeds 100 percent. If a subsidiary is considered to be in a highly inflationary economy, the financial statements of the subsidiary must be re-measured into our reporting currency (U.S. dollar) and future exchange gains and losses from the re-measurement of monetary assets and liabilities are reflected in current earnings, rather than exclusively in the equity section of the balance sheet, until such times as the economy is no longer considered highly inflationary.

On February 13, 2013, the Venezuela government devalued the Bolivar Fuerte relative to the U.S. dollar. The revised official exchange rate for imported goods moved from 4.30 per U.S. dollar to an exchange rate of 6.30 per U.S. dollar. The Central Government also suspended the alternate currency market administered by the central bank known as SITME that made U.S. dollars available at a rate higher than the previous official rate, generally in the range of 5.5 per U.S. dollar. As access to U.S. dollars at the official exchange rate was greatly limited, the Company had been utilizing the SITME market to obtain U.S. dollars for the import of product on a regular basis. As a result, the Company had been using the higher SITME rate prior to the recent devaluation to translate its operating results and to value its net monetary assets held in local Venezuela currency.

As a result of the devaluation noted above and the elimination of the SITME market, the Company valued its net monetary assets at June 30, 2013 using the revised official rate of 6.30 per U.S. dollar. Thus, the Company recorded a devaluation charge of approximately \$6 for the nine months ended June 30, 2013, due primarily to the devaluation of local currency cash balances. This charge was included in Other financing items, net on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). In addition, operating results for the nine months ended June 30, 2013 were translated using a blended rate, which was approximately 6.0 Bolivar Fuerte per U.S. dollar, reflecting the use of the new official rate for the period following the devaluation and the previous SITME rate for the period prior to the devaluation.

At June 30, 2013, the U.S. dollar value of monetary assets, net of monetary liabilities, which would be subject to an earnings impact from translation rate movements for our Venezuela affiliate under highly inflationary accounting was approximately \$51. Further currency devaluation in Venezuela, either through official channels or via the use of alternative exchange mechanisms may result in additional devaluation of the Company's net monetary assets in Venezuela and may negatively impact the operating results of the Company's Venezuelan affiliate.

Note 4 – Share-based payments

Total compensation costs charged against income for the Company's share-based compensation arrangements were \$7.9 and \$22.4 for the quarter and nine months ended June 30, 2013, respectively, and \$11.2 and \$34.4 for the quarter and nine months ended June 30, 2012, respectively, and were recorded in selling, general and administrative expense (SG&A). The total income tax benefit recognized in the Consolidated Statements of Earnings and Comprehensive Income (Condensed) for share-based compensation arrangements was \$3.0 and \$8.4 for the quarter and nine months ended June 30, 2013, respectively, and \$4.2 and \$12.8 for the quarter and nine months ended June 30, 2012, respectively.

Restricted Stock Equivalents (RSE) - (In whole dollars and total shares)

In December 2012, the Company granted RSE awards to a group of key employees which included approximately 188,300 shares that vest ratably over four years or upon death or change of control. At the same time, the Company granted two RSE awards to a group of key executives. One grant includes approximately 94,100 shares and vests, in

most cases, on the third anniversary of the date of grant or upon death or change of control. The second grant includes approximately 205,600 shares, which vests on the date that the Company publicly releases its earnings for its 2015 fiscal year, contingent upon achievement of performance targets with respect to adjusted cumulative earnings before interest taxes depreciation and amortization (EBITDA) and adjusted return on invested capital, weighted equally, and subject to adjustment based on relative total shareholder return during the three year performance period based on a relevant group of industrial and consumer goods companies.

In addition, the terms of the performance awards provide that the awards vest upon death and in some instances upon change of control. The total performance award expected to vest will be amortized over the vesting period.

The closing stock price on the date of the grant used to determine the award estimated fair value was \$81.45. The awards that are contingent upon achievement of performance targets have a 7% fair value premium to the closing stock price on the date of the grant based on a simulation of outcomes under the relative total shareholders' return metric required by the Accounting Standards Codification ("ASC") section 718.

Note 5 – Earnings per share

Basic earnings per share is based on the average number of common shares outstanding during the period. Diluted earnings per share is based on the average number of shares used for the basic earnings per share calculation, adjusted for the dilutive effect of stock options and restricted stock equivalents.

The following table sets forth the computation of basic and diluted earnings per share for the quarter and nine months ended June 30, 2013 and 2012, respectively.

(in millions, except per share data)	Quarter Ended June 30,		Nine Months Ended June 30,	
	2013	2012	2013	2012
Numerator:				
Net earnings for basic and dilutive earnings per share	\$87.2	\$70.2	\$301.9	\$291.9
Denominator:				
Weighted-average shares - basic	62.3	65.1	62.1	65.6
Effect of dilutive securities:				
Stock options	0.1	0.2	0.1	0.2
Restricted stock equivalents	0.9	0.7	0.7	0.5
Total dilutive securities	1.0	0.9	0.8	0.7
Weighted-average shares - diluted	63.3	66.0	62.9	66.3
Basic net earnings per share	\$1.40	\$1.08	\$4.86	\$4.45
Diluted net earnings per share	\$1.38	\$1.06	\$4.80	\$4.40

At June 30, 2013, there were no shares considered anti-dilutive. At June 30, 2012, approximately 0.3 of the Company's outstanding RSEs and stock options were not included in the diluted net earnings per share calculation, for each period, because to do so would have been anti-dilutive. In the event that potentially dilutive securities are anti-dilutive on net earnings per share (i.e., have the effect of increasing EPS because the exercise price is higher than the current share price), the impact of the potentially dilutive securities is not included in the computation.

Note 6 – Goodwill and intangibles, net

The following table sets forth goodwill by segment as of October 1, 2012 and June 30, 2013.

	Household Products	Personal Care	Total
Balance at October 1, 2012	\$37.3	\$1,432.2	\$1,469.5
Cumulative translation adjustment	(0.7) 0.2	(0.5)
Balance at June 30, 2013	\$36.6	\$1,432.4	\$1,469.0

Total amortizable intangible assets other than goodwill at June 30, 2013 are as follows:

	Gross Carrying Amount	Accumulated Amortization	Net
To be amortized:			
Tradenames / Brands	\$18.8	\$12.6	\$6.2
Technology and patents	75.2	54.5	20.7
Customer-related/Other	162.2	54.1	108.1
Total amortizable intangible assets	\$256.2	\$121.2	\$135.0

The carrying amount of indefinite-lived trademarks and tradenames, substantially all of which relate to the Personal Care segment, is \$1,700.0 at June 30, 2013, a decrease of \$1.9 from September 30, 2012 due to changes in foreign currency translation rates. Estimated amortization expense for amortizable intangible assets for the remainder of fiscal 2013 and the years ending September 30, 2014, 2015, 2016, 2017, 2018 is approximately \$4.5, \$17.4, \$15.1, \$15.1, \$14.8 and \$7.2, respectively, and \$60.9 thereafter.

Goodwill and intangible assets deemed to have an indefinite life are not amortized, but reviewed annually for impairment of value or when indicators of a potential impairment are present. The Company continuously monitors changing business conditions, which may indicate that the remaining useful life of goodwill and other intangible assets may warrant revision or carrying amounts may require adjustment. As part of the fiscal 2012 testing, no impairment was indicated. However, the indicated fair values for two brands, Playtex and Wet Ones, were relatively close to the carrying values of approximately \$650 for the Playtex brand and approximately \$200 for the Wet Ones brand. We expect that the indicated fair values of these two brands to remain close to the carrying value in our 2013 impairment testing. As of June 30, 2013, there were no events or circumstances that were considered to be potential indicators of impairment for goodwill or the indefinite-lived intangible assets, but our annual testing remains in process. As in the past, we plan to complete our annual testing of fiscal 2013 in our fourth fiscal quarter, in conjunction with the completion of our annual planning cycle.

Note 7 – Pension plans and other postretirement benefits

The Company has several defined benefit pension plans covering substantially all of its employees in the United States (U.S.) and certain employees in other countries. The plans provide retirement benefits based on years of service and on earnings.

In the first quarter of fiscal 2013, the Company approved and communicated changes to its U.S. pension plan, which is the most significant of the Company's pension obligations. Effective January 1, 2014, the pension benefit earned to date by active participants under the legacy Energizer U.S. pension plan will be frozen and future service benefits will no longer be accrued under this retirement program. For the nine months ended June 30, 2013, the Company recorded a non-cash, pre-tax curtailment gain of \$37.4 (\$23.5 after-tax) as a result of this plan change. The pension curtailment gain was reported on a separate line in the Consolidated Statements of Earnings and Comprehensive Income (Condensed). In the third quarter of fiscal 2013, the Company identified an error with how that transaction was originally recorded that impacts Consolidated Comprehensive Income, certain balance sheet classifications and certain disclosures impacting the Supplemental Balance Sheet and Guarantor and Non-Guarantor Financial Information for the period ended December 31, 2012 and March 31, 2013. To correct this error, the Company has increased total liabilities by \$37.4, increased total assets by \$13.9 and decreased accumulated other comprehensive income (AOCI) in the equity section by \$23.5 as of June 30, 2013 and reflected the correction of Statement of Comprehensive Income for the nine months ended June 30, 2013. The previously reported amounts at December 31, 2012 of total liabilities and equity were also understated and overstated, respectively, by \$23.5. The previously reported amounts at March 31, 2013 of total assets were understated by \$10.8, total liabilities were understated by \$34.3, and equity was overstated by \$23.5. Comprehensive income as previously reported and as revised for the quarter ended December 31,

2012 was \$151.8 and \$128.4, respectively. Additionally, comprehensive income as previously reported and as revised for the six months ended March 31, 2013 was \$217.6 and \$194.2, respectively. The Supplemental Financial Statement Information included in Note 11 and the Guarantor and Non-Guarantor Financial Information included in Note 15 also reflect this correction. The correction had no impact on consolidated earnings before income taxes, net earnings, earnings per share or consolidated cash flows for any periods presented during fiscal 2013. The Company assessed the materiality of this item on previously issued interim financial statements for fiscal 2013 in accordance with SEC Staff Accounting

Bulletin No. 99 and No. 108, and concluded that the corrections were not material to the Condensed Consolidated Financial Statements for the first two interim periods in fiscal year 2013. The revised interim condensed financial statements for the first and second quarter of fiscal 2013 will be presented in our Form 10-Q filings in fiscal 2014.

In July 2013, the Company finalized and communicated a decision to discontinue certain post-retirement medical and life insurance benefits. The communication was provided to all eligible participants of the impacted plans and advised that the Company would discontinue all benefits associated with the impacted plans effective December 31, 2013. As a result of this action, the Company expects to record a curtailment gain in the range of \$70 to \$80 in the fourth fiscal quarter of 2013. This gain represents the combined effect of the acceleration of a prior service cost credit related to previous plan changes and the elimination of the vast majority of the currently-existing post-retirement benefit liability. The only expected liability remaining subsequent to the curtailment recognition will be an estimate of claims incurred but not paid prior to the plan being discontinued.

The Company also sponsors or participates in a number of other non-U.S. pension arrangements, including various retirement and termination benefit plans, some of which are required by local law or coordinated with government-sponsored plans, which are not significant in the aggregate and, therefore, are not included in the information presented below.

The Company's net periodic benefit cost for these plans is as follows:

	Pension		Pension	
	Quarter Ended June 30,		Nine Months Ended June 30,	
	2013	2012	2013	2012
Service cost	\$6.7	\$6.8	\$20.5	\$20.4
Interest cost	12.1	14.7	36.5	42.6
Expected return on plan assets	(16.9) (16.3) (50.7) (47.8
Amortization of prior service cost	0.1	(1.3) (0.3) (4.1
Amortization of unrecognized net loss	7.3	5.2	21.9	15.4
Settlement charge	—	0.2	0.1	2.0
Curtailment gain	—	—	(37.4) —
Net periodic benefit cost/(income)	\$9.3	\$9.3	\$(9.4) \$28.5
	Postretirement		Postretirement	
	Quarter Ended June 30,		Nine Months Ended June 30,	
	2013	2012	2013	2012
Service cost	\$0.1	\$0.1	\$0.3	\$0.4
Interest cost	0.3	0.6	1.0	1.8
Amortization of prior service cost	(0.9) (0.7) (2.8) (2.0
Amortization of unrecognized net gain	(0.5) (0.4) (1.5) (1.4
Net periodic benefit cost	\$(1.0) \$(0.4) \$(3.0) \$(1.2

Note 8 – Debt

Notes payable at June 30, 2013 and September 30, 2012 consisted of notes payable to financial institutions with original maturities of less than one year of \$280.5 and \$162.4, respectively, and had a weighted-average interest rate of 1.9% and 2.2%, respectively.

The detail of long-term debt for the dates indicated is as follows:

	June 30, 2013	September 30, 2012
Private Placement, fixed interest rates ranging from 5.2% to 6.6%, due 2013 to 2017	\$ 1,040.0	\$ 1,165.0
Senior Notes, fixed interest rate of 4.7%, due 2021	600.0	600.0
Senior Notes, fixed interest rate of 4.7%, due 2022, net of discount	498.7	498.6
Term Loan - repaid in December 2012	—	106.5
Total long-term debt, including current maturities	2,138.7	2,370.1
Less current portion	140.0	231.5
Total long-term debt	\$ 1,998.7	\$ 2,138.6

The Company's total borrowings were \$2,419.2 at June 30, 2013, including \$280.5 tied to variable interest rates. The Company maintains total committed debt facilities of \$2,789.2. The Company's Amended and Restated Revolving Credit Agreement, which matures in 2016 currently provides for revolving credit loans and the issuance of letters of credit in an aggregate amount of up to \$450. Borrowings of \$80.0 and letters of credit of \$10.0 were outstanding under our revolving credit facility, leaving \$360 available as of June 30, 2013.

Under the terms of the Company's credit agreements, the ratio of the Company's indebtedness to its EBITDA, as defined in the agreements and detailed below, cannot be greater than 4.0 to 1, and may not remain above 3.5 to 1 for more than four consecutive quarters. If and so long as the ratio is above 3.5 to 1 for any period, the Company is required to pay additional interest expense for the period in which the ratio exceeds 3.5 to 1. The interest rate margin and certain fees vary depending on the indebtedness to EBITDA ratio. Under the Company's private placement note agreements, EBITDA may not be greater than 4.0 to 1; if the ratio is above 3.5 to 1 for any quarter, the Company is required to pay additional interest on the private placement notes of 0.75% per annum for each quarter until the ratio is reduced to not more than 3.5 to 1. In addition, under the credit agreements, the ratio of its current year earnings before interest and taxes (EBIT), as defined in the agreements, to total interest expense must exceed 3.0 to 1. The Company's ratio of indebtedness to its EBITDA was 2.4 to 1, and the ratio of its EBIT to total interest expense was 5.7 to 1, as of June 30, 2013. The ratios at June 30, 2013 were somewhat negatively impacted by a portion of the pre-tax charges associated with the 2013 restructuring as such charges, exclusive of those considered non-cash, reduced EBITDA as defined in the agreements. We estimate that the ratios may be negatively impacted in the near term due to anticipated restructuring charges, but we expect to remain in full compliance with the debt covenant ratios. In addition to the financial covenants described above, the credit agreements and the note purchase agreements contain customary representations and affirmative and negative covenants, including limitations on liens, sales of assets, subsidiary indebtedness, mergers and similar transactions, changes in the nature of the business of the Company and transactions with affiliates. If the Company fails to comply with the financial covenants referred to above or with other requirements of the credit agreements or private placement note agreements, the lenders would have the right to accelerate the maturity of the debt. Acceleration under one of these facilities would trigger cross defaults on other borrowings.

Under the credit agreements, EBITDA is defined as net earnings, as adjusted to add-back interest expense, income taxes, depreciation and amortization, all of which are determined in accordance with GAAP. In addition, the credit agreement allows certain non-cash charges such as stock award amortization and asset write-offs including, but not limited to, the impairment and accelerated depreciation associated with the 2013 restructuring, to be "added-back" in determining EBITDA for purposes of the indebtedness ratio. Severance and other cash charges incurred as a result of restructuring and realignment activities as well as expenses incurred in acquisition integration activities are included as reductions in EBITDA for calculation of the indebtedness ratio. In the event of an acquisition, EBITDA is calculated on a pro forma basis to include the trailing twelve-month EBITDA of the acquired company or brands.

Total debt is calculated in accordance with GAAP, but excludes outstanding borrowings under the receivable securitization program. EBIT is calculated in a fashion identical to EBITDA except that depreciation and amortization are not “added-back”. Total interest expense is calculated in accordance with GAAP.

The counterparties to long-term committed borrowings consist of a number of major financial institutions. The Company consistently monitors positions with, and credit ratings of, counterparties both internally and by using outside ratings agencies.

Advances under the Company's \$200 receivables securitization program, as amended, are not considered debt for purposes of the Company's debt compliance covenants. At June 30, 2013, there was \$182.0 outstanding under this facility.

Aggregate maturities of long-term debt, including current maturities, at June 30, 2013 are as follows: \$140.0 in one year, \$80.0 in two years, \$360.0 in three years, \$150.0 in four years, \$310.0 in five years and \$1,100.0 thereafter. At this time, the Company intends to repay only scheduled debt maturities over the course of the next fiscal year with the intent to preserve committed liquidity.

At June 30, 2013, substantially all of our cash balances were located outside the U.S. Given our extensive international operations, a significant portion of our cash is denominated in foreign currencies. We manage our worldwide cash requirements by reviewing available funds among the many subsidiaries through which we conduct our business and the cost effectiveness with which those funds can be accessed. The repatriation of cash balances from certain of our subsidiaries could have adverse tax consequences or be subject to regulatory capital requirements; however, those balances are generally available without legal restrictions to fund ordinary business operations. U.S. income taxes have not been provided on certain undistributed earnings of international subsidiaries. Our intention is to reinvest these earnings indefinitely.

Note 9 – Shareholders' Equity

Beginning in September 2000, the Company's Board of Directors has approved a series of resolutions authorizing the repurchase of shares of Energizer common stock, with no commitments by the Company to repurchase such shares. On April 30, 2012, the Board of Directors approved the repurchase of up to ten million shares. The Company did not repurchase any shares of the Company's common stock, other than a small number of shares related to the net settlement of certain stock awards for tax withholding purposes, during the nine months ended June 30, 2013. The Company has approximately 6 million shares remaining under the above noted Board authorization to repurchase its common stock in the future. Future share repurchases, if any, would be made on the open market, privately negotiated transactions or otherwise, in such amounts and at such times as the Company deems appropriate based upon prevailing market conditions, business needs and other factors.

On April 29, 2013, the Company's Board of Directors declared a dividend for the third quarter of fiscal 2013 of \$0.40 per share of Common Stock, which was paid on June 11, 2013. The dividend paid totaled \$24.9.

Subsequent to the quarter, on July 29, 2013, the Company's Board of Directors declared a dividend for the fourth quarter of fiscal 2013 of \$0.50 per share of Common Stock, which will be paid on September 10, 2013 and is expected to be approximately \$31.

On June 4, 2013, the Company retired approximately 43 million shares of its treasury stock. These shares are now authorized but unissued. In accordance with ASC section 505, the treasury stock retirement resulted in a reduction of the following on the Company's Consolidated Balance Sheet (Condensed): treasury stock by \$2,146.5, common stock by \$0.4 and retained earnings by \$2,146.1. There was no effect on the Company's total shareholders' equity as a result of the retirement.

Note 10 – Financial Instruments and Risk Management

At times, the Company enters into contractual arrangements (derivatives) to reduce its exposure to foreign currency, interest rate and commodity price risks. The section below outlines the types of derivatives that existed at June 30, 2013 and September 30, 2012 as well as the Company's objectives and strategies for holding derivative instruments.

Commodity Price Risk The Company uses raw materials that are subject to price volatility. At times, hedging instruments may be used by the Company to reduce exposure to variability in cash flows associated with future purchases of certain commodities. In September 2012, the Company discontinued hedge accounting treatment for its then existing zinc contracts and reclassified the ineffective portion of the de-designated contracts from Accumulated other comprehensive loss into income. In November 2012, all remaining zinc contracts were settled and a \$1.9 loss was included in Other financing items, net in the Consolidated Statements of Earnings and Comprehensive Income (Condensed) for the nine months ended June 30, 2013. At June 30, 2013, there were no open commodity contracts.

Foreign Currency Risk A significant portion of the Company's product cost is more closely tied to the U.S. dollar than to the local currencies in which the product is sold. As such, a weakening of currencies relative to the U.S. dollar results in margin declines unless mitigated through pricing actions, which are not always available due to the competitive and economic environments. Conversely, a strengthening in currencies relative to the U.S. dollar can improve margins. As a result, the Company has entered into a series of forward currency contracts to hedge the cash flow uncertainty of forecasted inventory purchases due to short term currency fluctuations. The Company's primary foreign affiliates, which are exposed to U.S. dollar purchases, have the Euro, the Yen, the British pound, the Canadian dollar and the Australian dollar as their local currencies. At June 30, 2013 and September 30, 2012, the Company had an unrealized pre-tax gain and unrealized pre-tax loss on these forward currency contracts accounted for as cash flow hedges of \$18.1 and \$5.9, respectively, included in Accumulated other comprehensive loss on the Consolidated Balance Sheets (Condensed). Assuming foreign exchange rates versus the U.S. dollar remain at June 30, 2013 levels over the next twelve months, approximately \$17.7 of the pre-tax gain included in Accumulated other comprehensive loss at June 30, 2013, is expected to be included in earnings over that same period. Contract maturities for these hedges extend into fiscal year 2014. There were 76 open foreign currency contracts at June 30, 2013 with a total notional value of approximately \$345.

Interest Rate Risk Through December 2012, the Company had specific interest rate risk with respect to interest expense on the Company's term loan, which was repaid by the end of the first quarter of fiscal 2013. As a result, the interest rate swap agreement in place to hedge this specific risk was settled on November 30, 2012 for a \$0.3 loss. This loss was included in interest expense in the Consolidated Statements of Earnings and Comprehensive Income (Condensed). At June 30, 2013, the Company had \$280.5 of variable rate debt outstanding, which was primarily outstanding borrowings under the Company's receivable securitization program and its Revolving Credit Agreement.

Cash Flow Hedges At June 30, 2013, the Company maintains a cash flow hedging program related to foreign currency risk. These derivative instruments have a high correlation to the underlying exposure being hedged and have been deemed highly effective for accounting purposes in offsetting the associated risk.

Derivatives not Designated in Hedging Relationships The Company holds a share option with a major financial institution to mitigate the impact of changes in certain of the Company's deferred compensation liabilities, which are tied to the Company's common stock price. This contract expires in September 2013. Period activity related to the share option is classified in the same category in the cash flow statement as the period activity associated with the Company's deferred compensation liability, which is cash flow from operations.

In addition, the Company enters into foreign currency derivative contracts which are not designated as cash flow hedges for accounting purposes to hedge existing balance sheet exposures. Any gains or losses on these contracts would be offset by corresponding exchange losses or gains on the underlying exposures; thus, they are not subject to significant market risk. There were 29 open foreign currency derivative contracts which are not designated as cash flow hedges at June 30, 2013 with a total notional value of approximately \$189.

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-Q

The following table provides estimated fair values as of June 30, 2013 and September 30, 2012, and the amounts of gains and losses on derivative instruments classified as cash flow hedges for the quarter and nine months ended June 30, 2013 and 2012.

	At June 30, 2013	For the Quarter Ended June 30, 2013		For the Nine Months Ended June 30, 2013	
	Estimated Fair Value, Asset (Liability) (1) (2)	Gain/(Loss) Recognized in OCI (3)	Gain/(Loss) Reclassified From OCI into Income (Effective Portion) (4) (5)	Gain/(Loss) Recognized in OCI (3)	Gain/(Loss) Reclassified From OCI into Income (Effective Portion) (4) (5)
Derivatives designated as Cash Flow Hedging Relationships					
Foreign currency contracts	\$18.1	\$10.1	\$ 4.5	\$28.0	\$ 4.0
Interest rate contracts	—	—	—	—	(0.3)
Total	\$18.1	\$10.1	\$ 4.5	\$28.0	\$ 3.7

	At September 30, 2012	For the Quarter Ended June 30, 2012		For the Nine Months Ended June 30, 2012	
	Estimated Fair Value, Asset (Liability) (1) (2)	Gain/(Loss) Recognized in OCI (3)	Gain/(Loss) Reclassified From OCI into Income (Effective Portion) (4) (5)	Gain/(Loss) Recognized in OCI (3)	Gain/(Loss) Reclassified From OCI into Income (Effective Portion) (4) (5)
Derivatives designated as Cash Flow Hedging Relationships					
Foreign currency contracts	\$(5.9)	\$2.0	\$ 0.6	\$(3.2)	\$ (1.9)
Commodity contracts	—	(2.5)	(1.1)	(0.2)	(2.3)
Interest rate contracts	(0.3)	0.7	(1.7)	2.3	(1.7)
Total	\$(6.2)	\$0.2	\$ (2.2)	\$(1.1)	\$ (5.9)

(1) All derivative assets are presented in other current assets or other assets.

(2) All derivative liabilities are presented in other current liabilities or other liabilities.

(3) OCI is defined as other comprehensive income.

(4) Gain/(Loss) reclassified to Income was recorded as follows: Foreign currency contracts in Other financing items, net and commodity contracts in Cost of products sold.

(5) Each of these derivative instruments had a high correlation to the underlying exposure being hedged for the periods indicated and had been deemed highly effective in offsetting associated risk.

The following table provides estimated fair values as of June 30, 2013 and September 30, 2012, and the amounts of gains and losses on derivative instruments not classified as cash flow hedges for the quarter and nine months ended June 30, 2013 and 2012, respectively.

	At June 30, 2013	For the Quarter Ended June 30, 2013	For the Nine Months Ended June 30, 2013
	Estimated Fair Value Asset (Liability)	Gain/(Loss) Recognized in Income (1)	Gain/(Loss) Recognized in Income (1)
Derivatives not designated as Cash Flow Hedging Relationships			
Share option	\$19.0	\$0.8	\$19.3
Commodity contracts	\$—	\$—	\$(1.9)
Foreign currency contracts	0.9	4.3	6.5
Total	\$19.9	\$5.1	\$23.9

	At September 30, 2012	For the Quarter Ended June 30, 2012	For the Nine Months Ended June 30, 2012
	Derivatives not designated as Cash Flow Hedging Relationships		

Edgar Filing: ENERGIZER HOLDINGS INC - Form 10-Q

Derivatives not designated as Cash Flow Hedging Relationships	Estimated Fair Value Asset (Liability)	Gain/(Loss) Recognized in Income (1)	Gain/(Loss) Recognized in Income (1)
Share option	\$2.5	\$0.8	\$6.3
Commodity contracts	1.6	—	—
Foreign currency contracts	(0.7) (1.3) (1.1
Total	\$3.4	\$(0.5) \$5.2

(1) Gain/(Loss) recognized in Income was recorded as follows: Share option in Selling, general and administrative expense and foreign currency contracts in Other financing items, net.

Fair Value Hierarchy Accounting guidance on fair value measurements for certain financial assets and liabilities requires that assets and liabilities carried at fair value be classified in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs reflecting the reporting entity's own assumptions or external inputs from inactive markets.

Under the fair value accounting guidance hierarchy, an entity is required to maximize the use of quoted market prices and minimize the use of unobservable inputs. The following table sets forth the Company's financial assets and liabilities, which are carried at fair value, as of June 30, 2013 and September 30, 2012 that are measured on a recurring basis during the period, segregated by level within the fair value hierarchy:

	Level 2 June 30, 2013	September 30, 2012	
Assets/(Liabilities) at estimated fair value:			
Deferred Compensation	\$(173.9)	\$(161.6)
Derivatives - Foreign Exchange	19.0)	(6.6)
Derivatives - Commodity	—)	1.6)
Derivatives - Interest Rate Swap	—)	(0.3)
Share Option	19.0)	2.5)
Net Liabilities at estimated fair value	\$(135.9)	\$(164.4)

At June 30, 2013 and September 30, 2012, the Company had no level 1 or level 3 financial assets or liabilities.

At June 30, 2013 and September 30, 2012, the fair market value of fixed rate long-term debt was \$2,306.4 and \$2,438.0, respectively, compared to its carrying value of \$2,138.7 and \$2,263.6, respectively. The estimated fair value of the long-term debt is estimated using yields obtained from independent pricing sources for similar types of borrowing arrangements. The estimated fair value of fixed rate long-term debt has been determined based on level 2 inputs.

Due to the nature of cash and cash equivalents and short-term borrowings, including notes payable, carrying amounts on the balance sheets approximate fair value. The estimated fair value of cash and cash equivalents and short-term borrowings have been determined based on level 2 inputs.

At June 30, 2013, the estimated fair value of foreign currency, interest rate swap and commodity contracts is the amount that the Company would receive or pay to terminate the contracts, considering first, quoted market prices of comparable agreements, or in the absence of quoted market prices, such factors as interest rates, currency exchange rates and remaining maturities. The estimated fair value of the deferred compensation liability is determined based upon the quoted market prices of the Energizer Common Stock Unit Fund as well as other investment options that are offered under the plan.

Venezuela Currency Risk See Note 3 for further information on Venezuela currency risk.

Note 12 – Recently issued accounting pronouncements

No new accounting pronouncements issued during the quarter are expected to have a material impact on the Consolidated Financial Statements.

Note 13 – Legal Proceedings/Contingencies

The Company and its subsidiaries are parties to a number of legal proceedings in various jurisdictions arising out of the operations of the Company's businesses. Many of these legal matters are in preliminary stages and involve complex issues of law and fact, and may proceed for protracted periods of time. The amount of liability, if any, from these proceedings cannot be determined with certainty. However, based upon present information, the Company believes that its liability, if any, arising from such pending legal proceedings, asserted legal claims and known potential legal claims which are likely to be asserted, are not reasonably likely to be material to the Company's financial position, results of operations, or cash flows, taking into account established accruals for estimated liabilities.

Note 14 – Subsequent Event

In July 2013, the Company finalized and communicated a decision to discontinue certain post-retirement medical and life insurance benefits. The communication was provided to all eligible participants of the impacted plans and advised that the Company would discontinue all benefits associated with the impacted plans effective December 31, 2013. As a result of this action, the Company expects to record a curtailment gain in the range of \$70 to \$80 in the fourth fiscal quarter of 2013. The only expected liability remaining subsequent to the curtailment recognition will be an estimate of claims incurred but not paid prior to the plan being discontinued.

On July 31, 2013, the Company announced an agreement to acquire the Stayfree® pad, Carefree® liner and o.b.® tampon feminine hygiene brands in the U.S., Canada and the Caribbean from members of the Johnson & Johnson Family of Consumer Companies for a purchase price of \$185, subject to a customary adjustment based on the level of inventory at the date of the closing. The sale includes all brand assets, and the manufacturing plant in Montreal, Canada, which would become part of the Company's existing Feminine Care product offerings within its Personal Care Division. Closing of the transaction is subject to customary conditions, including regulatory approval, and is expected to occur before the end of calendar 2013. The Company expects to finance the acquisition with available borrowings under its current revolving credit agreement, and available foreign cash.

Note 15 – Guarantor and Non-Guarantor Financial Information - (Unaudited)

On May 19, 2011, the Company issued \$600 principal amount of 4.7% senior notes due in May 2021 with interest payable semi-annually beginning November 2011. On May 24, 2012, the Company issued an additional \$500 principal amount of senior notes with interest payable semi-annually in May and November at an annual fixed interest rate of 4.7%, maturing in May 2022.

The notes issued in May 2011 and May 2012 (collectively the "Notes") are fully and unconditionally guaranteed on a joint and several basis by the Company's existing and future direct and indirect domestic subsidiaries that are guarantors of any of the Company's credit agreements or other indebtedness for borrowed money (the "Guarantors"). The Guarantors are 100% owned either directly or indirectly by the Company and jointly and severally guarantee the Company's obligations under the Notes and substantially all of the Company's other outstanding indebtedness. The Company's subsidiaries organized outside of the U.S. and certain domestic subsidiaries, which are not guarantors of any of the Company's other indebtedness, (collectively, the "Non-Guarantors") do not guarantee the Notes. The subsidiary guarantee with respect to the Notes is subject to release upon sale of all of the capital stock of the Subsidiary Guarantor; if the guarantee under our credit agreements and other indebtedness for borrowed money is released or discharged (other than due to payment under such guarantee); or when the requirements for legal defeasance are satisfied or the obligations are discharged in accordance with the indenture.

Set forth below are the condensed consolidating financial statements presenting the results of operations, financial position and cash flows of the Parent Company (Energizer Holdings, Inc.), the Guarantors on a combined basis, the Non-Guarantors on a combined basis and eliminations necessary to arrive at the information for the Company as reported, on a consolidated basis. Eliminations represent adjustments to eliminate investments in subsidiaries and intercompany balances and transactions between or among the Parent Company, the Guarantor and the Non-Guarantor

subsidiaries. In addition, the Company has revised certain elements of its previously filed consolidating statements as shown in the tables and revisions presented below.

(a) Trade receivables, net for the Non-Guarantors includes \$326.3 at June 30, 2013 of U.S. trade receivables sold from the Guarantors to Energizer Receivables Funding Corp ("ERF"), a 100% owned, special purpose subsidiary, which is a non-guarantor of the Notes. These receivables are used by ERF to securitize the borrowings under the Company's receivable securitization facility. The trade receivables are short-term in nature (on average less than 90 days). As payment of the receivable obligation is received from the customer, ERF remits the cash to the Guarantors in payment for the purchase of the receivables. Cost and expenses paid by ERF related to the receivable securitization facility are re-billed to the Guarantors by way of intercompany services fees.

(b) Intercompany activity includes notes that bear interest due from the Guarantors to the Parent Company. Interest rates on these notes approximate the interest rates paid by the Parent on third party debt. Additionally, other intercompany activities include product purchases between Guarantors and Non-Guarantors, charges for services provided by the parent and various subsidiaries to other affiliates within the consolidated entity and other intercompany activities in the normal course of business.

The Company revised its prior year Condensed Consolidating Statement of Earnings to eliminate the incorrect inclusion of intercompany dividends. These revisions resulted in a reduction of the Guarantors net earnings with a corresponding reduction to Eliminations. The reported net earnings of the Parent and Non-Guarantors was not impacted by this error. Additionally, the Company revised its prior year Condensed Consolidating Statement of Cash Flows to correct the presentation of certain intercompany activities between the Parent, Guarantor and Non-Guarantor subsidiaries for loans, capital contributions/returns, return on equity and repayments. These revisions resulted in offsetting amounts to certain line items and did not impact total cash flow for any of the subsidiaries presented. These revisions were included in the Company's Annual Report on Form 10-K for the year ended September 30, 2012, at which time the Company assessed the materiality of these items on previously issued interim financial statements in accordance with SEC Staff Accounting Bulletin No. 99 and No. 108, and concluded that the revisions were not material to the Condensed Consolidating Financial Statements for any period presented. The impact of these revisions is shown in the following tables.

Consolidated Statement of Earnings (Condensed) (millions)	For the Quarter Ended June 30, 2012

Energizer Holdings, Inc.

Items 2 and 3. Management's Discussion and Analysis of Financial Condition and Results of Operations, and Quantitative and Qualitative Disclosures About Market Risk

(In millions, except per share data - Unaudited)

The following discussion is a summary of the key factors management considers necessary in reviewing the Company's historical results of operations, operating segment results, and liquidity and capital resources. Statements in this Management's Discussion and Analysis of Financial Condition and Results of Operations that are not historical may be considered forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. See "Forward-Looking Statements" presented later in this section. This discussion should be read in conjunction with the accompanying unaudited financial statements and notes thereto for the quarter and nine months ended June 30, 2013 and the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2012 filed on November 20, 2012.

Non-GAAP Financial Measures

While the Company reports financial results in accordance with accounting principles generally accepted in the U.S. ("GAAP"), this discussion includes non-GAAP measures. These non-GAAP measures, such as historical and forward-looking adjusted diluted earnings per share, operating results, organic sales and other comparison changes, exclude the impact of currencies, the devaluation of the Venezuela Bolivar Fuerte, early termination of interest rate swaps, the costs associated with restructuring, certain tax items including adjustments to prior years' tax accruals, pension curtailment and certain other items as outlined in the table below are not in accordance with, nor are they a substitute for, GAAP measures. The Company believes these non-GAAP measures provide a meaningful comparison to the corresponding historical or future period and assist investors in performing analysis consistent with financial models developed by research analysts. Investors should consider non-GAAP measures in addition to, not as a substitute for, or superior to, the comparable GAAP measures.

Industry and Market Data

Unless we indicate otherwise, we base the information concerning our industry contained or incorporated by reference herein on our general knowledge of and expectations concerning the industry. Our market position, market share and industry market size is based on our estimates using our internal data and estimates, based on data from various industry analyses, our internal research and adjustments and assumptions that we believe to be reasonable. We have not independently verified data from industry analyses and cannot guarantee their accuracy or completeness. In addition, we believe that data regarding the industry, market size and our market position and market share within such industry provide general guidance but are inherently imprecise. Further, our estimates and assumptions involve risks and uncertainties and are subject to change based on various factors, including those discussed in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended September 30, 2012. These and other factors could cause results to differ materially from those expressed in the estimates and assumptions.

Retail sales for purposes of market size, market position and market share information are based on retail sales in U.S. dollars.

Forward-Looking Statements

This document contains both historical and forward-looking statements. Forward-looking statements are not based on historical facts but instead reflect our expectations, estimates or projections concerning future results or events, including, without limitation, statements regarding future company-wide or segment sales, earnings and earnings per share, investments, capital expenditures, product launches, consumer trends, the competitive environment, cost savings related to restructuring projects, and the timing of such savings, costs necessary to achieve those savings, improvements to working capital levels and the timing and savings associated with such improvements, the impact of

price increases, advertising and promotional spending, the impact of foreign currency movements, category value and future growth in our businesses. These statements generally can be identified by the use of forward-looking words or phrases such as “believe,” “expect,” “expectation,” “anticipate,” “may,” “could,” “intend,” “belief,” “estimate,” “plan,” “target,” “likely,” “will,” “should,” “forecast,” “outlook,” or other similar words or phrases. These statements are not guarantees of performance and are inherently subject to known and unknown risks, uncertainties and assumptions that are difficult to predict and could cause our actual results, performance or achievements to differ materially from those expressed in or indicated by those statements. We cannot assure you that any of our expectations, estimates or projections will be achieved. The forward-looking

statements included in this document are only made as of the date of this document and we disclaim any obligation to publicly update any forward-looking statement to reflect subsequent events or circumstances. Numerous factors could cause our actual results and events to differ materially from those expressed or implied by forward-looking statements, including, without limitation:

• General market and economic conditions;

• Market trends in the categories in which we operate;

• The success of new products and the ability to continually develop and market new products;

• Our ability to attract, retain and improve distribution with key customers;

• Our ability to continue planned advertising and other promotional spending;

• Our ability to timely execute its strategic initiatives, including restructurings, in a manner that will positively impact our financial condition and results of operations and does not disrupt our business operations;

• The impact of strategic initiatives, including restructurings, on our relationships with employees, customers and vendors;

• Our ability to maintain and improve market share in the categories in which we operate despite heightened competitive pressure;

• Our ability to improve operations and realize cost savings;

• Our ability to obtain governmental approvals for and consummate acquisitions;

• Our ability to successfully integrate acquired businesses on anticipated budgets and schedules;

• Our ability to timely realize the revenues, growth prospects, synergies and cost savings, and other benefits expected from acquisitions;

• The impact of raw material and other commodity costs;

• The impact of foreign currency exchange rates and offsetting hedges on Energizer's profitability;

• Compliance with debt covenants as well as the impact of interest and principal repayment of our existing and any future debt; or

• The impact of legislative or regulatory determinations or changes by federal, state and local, and foreign authorities, including taxing authorities.

In addition, other risks and uncertainties not presently known to us or that we consider immaterial could affect the accuracy of any such forward-looking statements. The list of factors above is illustrative, but by no means exhaustive. All forward-looking statements should be evaluated with the understanding of their inherent uncertainty. Additional risks and uncertainties include those detailed from time to time in Energizer's publicly filed documents, including its annual report on Form 10-K for the year ended September 30, 2012.

Highlights / Operating Results

Net Earnings for the quarter ended June 30, 2013 were \$87.2, or \$1.38 per diluted share, compared to \$70.2, or \$1.06 per diluted share, for the same quarter last year. Net earnings for the nine months ended June 30, 2013 were \$301.9, or \$4.80 per diluted share, compared to \$291.9 or \$4.40 per diluted share, for the nine months ended June 30, 2012.

Net earnings and diluted earnings per share (EPS) for the time periods presented were impacted by certain items related to restructuring and realignment activities, the impact of a pension curtailment gain, adjustments to reconcile prior year tax provisions to filed tax returns, currency devaluation in Venezuela and certain other

adjustments as described in the tables below. The impacts of these items on reported net earnings and reported net earnings per diluted share are provided below as a reconciliation of net earnings and net earnings per diluted share to adjusted net earnings and adjusted net earnings per diluted share, which are non-GAAP measures.

	Quarter Ended June 30,			
	Net Earnings		Diluted EPS	
	2013	2012	2013	2012
Net Earnings/Diluted EPS - GAAP (Unaudited)	\$87.2	\$70.2	\$1.38	\$1.06
Impacts, net of tax: Expense/(Income)				
2013 Restructuring and related costs (1)	19.1	—	0.30	—

Early termination of interest rate swap	—	1.1	—	0.02
Adjustments to prior years' tax accruals	(10.2) (4.2) (0.16) (0.06
Net Earnings/Diluted EPS - adjusted (Non-GAAP)	\$350.9	\$295.6	\$5.58	\$4.46

Weighted average shares - Diluted 62.9 66.3

(1) Includes pre-tax costs of \$3.2, for the nine months ended June 30, 2013, associated with certain information technology and related activities, which are included in SG&A on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). Additionally, includes pre-tax costs of \$4.7, for the nine months ended June 30, 2013, associated with obsolescence charges related to the exit of certain non-core product lines as part of our restructuring, which are included in cost of products sold on the Consolidated Statements of Earnings and Comprehensive Income (Condensed).

The following table provides a recap of the change in total net sales for the quarter and nine months ended June 30, 2013 as compared to the quarter and nine months ended June 30, 2012.

Net Sales - Total Company (In millions - Unaudited)
 Quarter and Nine Months Ended June 30, 2013

	Q3	%Chg	Nine Months	%Chg	
Net Sales - FY '12	\$1,124.1		\$3,424.0		
Organic	5.2	0.5	% 5.6	0.2	%
Impact of currency	(17.8) (1.6)% (29.7) (0.9)%
Net Sales - FY '13	\$1,111.5	(1.1)% \$3,399.9	(0.7)%

For the quarter, on a reported basis, net sales were \$1,111.5, a decrease of \$12.6, or 1.1%, as compared to the same period last year including a decrease of 1.6% due to unfavorable currencies, primarily in Asia and Latin America. Exclusive of the impact of unfavorable currencies, net sales were essentially flat for the quarter as higher volume for Household Products including increased shipments in support of promotional activities offset a modest decline in organic sales in Personal Care. The modest decline in Personal Care was due to several factors including weaker sun care shipments due to an unusually wet summer in the U.S.

For the nine months, on a reported basis, net sales were \$3,399.9, a decrease of \$24.1, or 0.7%, as compared to the same period last year due entirely to unfavorable currencies. Organically, net sales were essentially flat for the nine month period. In Household Products, net sales increased approximately 1% organically for the nine months of fiscal 2013 due to the favorable impact of incremental storm volume in the first fiscal quarter. Organically, net sales were essentially flat for Personal Care in the nine month period.

Gross margin for the quarter ended June 30, 2013, was 45.9%, down 110 basis points as compared to the prior year quarter due to the impact of unfavorable currencies and \$4.7 of obsolete inventory charges related to the exit of certain non-core product lines as part of our restructuring. Excluding the unfavorable impact of currencies and this inventory charge, gross margin was essentially flat at 47% as compared to the prior year as improved product costs in Household Products, including the favorable impact of restructuring and cost containment activities, was offset by unfavorable product mix in Personal Care.

On a year to date basis, gross margin as a percentage of net sales was 47.1%, up 10 basis points on a reported basis and up 60 basis points excluding the impact of unfavorable currencies and the inventory charge noted above, due primarily to improved product costs in Household Products.

Total selling, general and administrative expense (SG&A) was \$201.8, or 18.2% of net sales, for the current year quarter as compared to \$233.8, or 20.8% of net sales, for the prior year quarter. This decrease of \$32 in reported SG&A, or 260 basis points as a percent of net sales, was due to effective spending controls and the favorable impact of the Company's 2013 restructuring initiatives.

For the nine months ended June 30, 2013, SG&A was \$612.2, a decrease of approximately \$68 as compared to the same period last year. SG&A as a percent of net sales was 18.0% in the current fiscal year to date as compared to 19.9% in the prior fiscal nine month period, down 190 basis points, for the reasons noted previously. Included in the current year SG&A total for the nine month period is \$3.2 of expenses associated with IT initiatives related to enabling certain aspects of our restructuring initiatives.

For the quarter, advertising and sales promotion (A&P) was \$121.0, or 10.9% of net sales as compared to \$141.8 or 12.6% of net sales in the prior year quarter due to lower planned spending in the quarter and timing shifts between the

third and fourth quarters of fiscal 2013.

For the nine months, A&P was \$318.3, or 9.4% of net sales as compared to \$349.9, or 10.2% of net sales in the prior period.

Research and development (R&D) expense was \$24.2 for the quarter ended June 30, 2013 as compared to \$28.6 for the prior year quarter. This decrease was due primarily to certain restructuring initiatives primarily in

34

Household Products. These restructuring initiatives were also the driver of the nine month reduction in reported R&D, which was down approximately \$8 as compared to the same period in the prior year.

For the the quarter and nine months ended June 30, 2013, the Company recorded pre-tax expense of \$22.7 and \$109.1, respectively, of charges related to the 2013 Restructuring Plan including:

Non-cash asset impairment charges of \$19.3 for the nine months ended June 30, 2013 and accelerated depreciation charges of \$7.3 and \$17.1 for the quarter and nine months ended June 30, 2013, respectively, (collectively \$36.4 for the nine months ended) related primarily to anticipated plant closures,

Severance and related benefit costs of \$6.7 and \$38.0 associated with staffing reductions that have been identified to date, for the quarter and nine months ended June 30, 2013, respectively, and

Consulting, program management and other charges associated with the restructuring of \$8.7 and \$34.7 for the quarter and nine months ended June 30, 2013, respectively.

The 2013 restructuring costs were reported on a separate line in the Consolidated Statements of Earnings and Comprehensive Income (Condensed). In addition, pre-tax costs of \$2.1 and \$3.2, respectively, associated with certain information technology enablement activities related to our restructuring initiatives were included in SG&A on the Statement of Earnings and Comprehensive Income (Condensed) for the third fiscal quarter of 2013. Additionally, pre-tax costs of \$4.7, for both the quarter and nine months ended June 30, 2013, associated with obsolescence charges related to the exit of certain non-core product lines as part of our restructuring are included in cost of products sold on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). The information technology costs and non-core inventory obsolescence charges are considered part of the total project costs incurred for our restructuring initiative.

The Company estimates that restructuring costs for the remainder of fiscal 2013 will be in the range of \$35 to \$45. For the total project, restructuring costs are estimated to remain in the previously disclosed range of approximately \$250.

The Company estimates that it realized approximately \$30 in savings in the third fiscal quarter of 2013. At this time, the Company estimates that it will likely realize total gross restructuring savings of more than \$80 in fiscal 2013. In addition, the Company estimates that total project gross savings for the restructuring initiatives, which are expected to be fully realized by fiscal 2015, will be in the range of \$225, which is in line with the Company's prior estimate.

For the quarter and nine months ended June 30, 2012, our prior Household Products restructuring activities generated pre-tax expense of \$0.5 and pre-tax income of \$7.2, respectively. The prior period year to date pre-tax income was due to the gain on the sale of our former battery manufacturing facility in Switzerland, which was shut down in fiscal 2011, which was approximately \$13. This gain was offset by additional restructuring costs of \$5.6.

In the first fiscal quarter of 2013, the Company approved and communicated changes to its U.S. pension plan, which is the most significant of the Company's pension obligations. Effective January 1, 2014, the pension benefit earned to date by active participants under the legacy Energizer U.S. pension plans will be frozen and future service benefits will no longer be accrued under this retirement program. For the nine months ended June 30, 2013, the Company recorded a non-cash, pension curtailment gain of \$37.4 related to the decision to freeze the U.S. pension plan, which was approved and communicated to impacted colleagues during the first fiscal quarter. This pension curtailment gain was reported on a separate line item in the Consolidated Statements of Earnings and Comprehensive income (Condensed). See Note 7 for additional information. Also, see "Recent Developments" below and Note 14 to the Condensed Financial Statements for additional information regarding changes to certain post-retirement benefit plans that are expected to result in an additional curtailment gain in the fourth fiscal quarter of 2013.

The restructuring charges recorded in fiscal 2013 and 2012, as well as the non-cash pension curtailment gain noted above are presented as separate line items on the Consolidated Statements of Earnings and Comprehensive Income (Condensed).

35

Interest expense was \$32.7 and \$99.0 for the third quarter and nine month periods of fiscal 2013, down \$1.3 and up \$4.9, respectively, as compared to the prior year quarter and nine month periods. The decrease in interest expense for the quarter was due primarily to slightly lower average debt outstanding. The increase in interest expense for the nine month period in fiscal 2013 was due to a combination of higher average debt outstanding, resulting, in part, from share repurchases in fiscal 2012 and somewhat higher average rates as a result of issuing ten-year public notes that replaced the lower-rate, maturing term loan, in the third quarter of the prior fiscal year.

Other financing expense was \$1.6 and \$19.8, respectively, for the quarter and nine months ended June 30, 2013. The nine month cost in fiscal 2013 includes a charge of approximately \$6 in the second fiscal quarter due to the recent currency devaluation in Venezuela. The remaining nine month expense in fiscal 2013 was due primarily to foreign exchange losses related primarily to the strengthening of the U.S. dollar in relation to the Japanese yen and certain Latin American currencies, and a loss from the mark to market on certain commodity contracts, which were terminated in the first fiscal quarter of 2013.

For the quarter, the Company's effective tax rate was approximately 18.0%. The effective tax rate was favorably impacted in the quarter by adjustments to prior year provision estimates of approximately \$7, which reduced the effective tax rate in the current year quarter. In addition, we continue to incur restructuring costs primarily in tax jurisdictions with higher statutory tax rates, which also positively impacts the effective tax rate.

The effective tax rate for the nine months ended June 30, 2013 was 26%, inclusive of the adjustments to prior year tax provision estimates. Similar to the quarter, but to a larger extent, our nine month effective tax rate has been favorably impacted by the fact that a large portion of the costs to date associated with our 2013 restructuring initiative have been incurred in higher tax jurisdictions, which has resulted in a higher tax benefit as compared to our overall global effective tax rate. Exclusive of the tax impact of the GAAP to non-GAAP reconciling items detailed in the nine month table at the beginning of this section, the effective tax rate for the nine months was 29.2% in fiscal 2013 as compared to approximately 30% on a similar basis in the prior year. This lower comparative effective rate for the nine months of fiscal 2013 was due primarily to the change in geographic earnings mix.

Recent Developments

In July 2013, the Company finalized and communicated a decision to discontinue certain post-retirement benefits. The communication was provided to all eligible participants of the impacted plans in late July 2013. The communication advised the impacted participants that the Company would discontinue all benefits associated with the impacted plans effective December 31, 2013. As a result of this action, the Company expects to record a curtailment gain in the range of \$70 to \$80 in the fourth fiscal quarter of 2013. The only expected liability remaining subsequent to the curtailment recognition will be an estimate of claims incurred but not paid prior to the plan being discontinued.

On July 31, 2013, the Company announced an agreement to acquire the Stayfree® pad, Carefree® liner and o.b.® tampon feminine hygiene brands in the U.S., Canada and the Caribbean from members of the Johnson & Johnson Family of Consumer Companies for a purchase price of \$185, subject to a customary adjustment based on the level of inventory at the date of the closing. The sale includes all brand assets, and the manufacturing plant in Montreal, Canada, which would become part of the Company's existing Feminine Care product offerings within its Personal Care Division. Closing of the transaction is subject to customary conditions, including regulatory approval, and is expected to occur before the end of calendar 2013. The Company expects to finance the acquisition with available borrowings under its current revolving credit agreement, and available foreign cash.

Segment Results

Operations for the Company are managed via two segments - Personal Care (Wet Shave, Skin Care, Feminine Care and Infant Care) and Household Products (Battery and Lighting Products). Segment performance is evaluated based on segment operating profit, exclusive of general corporate expenses, share-based compensation costs, costs associated with most restructuring initiatives including the recently announced 2013 restructuring, acquisition integration or business realignment activities, and amortization of intangible assets. Financial items, such as interest income and expense, are managed on a global basis at the corporate level. The exclusion from segment results of charges such as other acquisition transaction and integration costs, and substantially all restructuring and realignment costs, reflects management's view on how it evaluates segment performance.

The Company's operating model includes a combination of stand-alone and combined business functions between the Personal Care and Household Products businesses, varying by country and region of the world. Shared functions include product warehousing and distribution, various transaction processing functions, and in some countries, a combined sales force and management. The Company applies a fully allocated cost basis, in which shared business functions are allocated between the segments. Such allocations are estimates, and also do not represent the costs of such services if performed on a stand-alone basis.

This structure is the basis for the Company's reportable operating segment information, as included in the tables in Note 1 to the Condensed Financial Statements for the quarter and nine months ended June 30, 2013.

For the quarter and nine months ended June 30, 2013, the Company recorded \$22.7 and \$109.1, respectively in restructuring charges related to its 2013 restructuring. The 2013 restructuring charges were reported on a separate line in the Consolidated Statements of Earnings and Comprehensive Income (Condensed). In addition, pre-tax costs of \$2.1 and \$3.2, for the quarter and nine months ended June 30, 2013, respectively, associated with certain information technology enablement activities related to our restructuring initiatives were included in SG&A on the Statement of Earnings and Comprehensive Income (Condensed). Additionally, pre-tax costs of \$4.7, for both the quarter and nine months ended June 30, 2013, associated with obsolescence charges related to the exit of certain non-core product lines as part of our restructuring, were included in cost of products sold on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). The information technology costs and non-core inventory obsolescence charges are considered part of the total project costs incurred for our restructuring initiative. See Note 2 to the Condensed Financial Statements.

For the quarter and nine months ended June 30, 2012, our prior Household Products restructuring activities generated pre-tax expense of \$0.5 and pre-tax income of \$7.2, respectively. The prior period year to date pre-tax income was due to the gain on the sale of our former battery manufacturing facility in Switzerland, which was shut down in fiscal 2011, which was approximately \$13. This gain was offset by additional restructuring costs of \$5.6. These costs, net of the gain on the sale of the former manufacturing facility in fiscal 2012, are included as a separate line item on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). See Note 2 to the Condensed Financial Statements.

Segment sales and profitability for the quarter and nine months ended June 30, 2013 and 2012, respectively, are presented below.

Personal Care

Net Sales - Personal Care (In millions - Unaudited)

Quarter and Nine Months Ended June 30, 2013

	Q3	% Chg	Nine Months	%Chg	
Net Sales - FY '12	\$673.5		\$1,889.4		
Organic	(11.7) (1.8)% (11.8) (0.6)%
Impact of currency	(12.3) (1.8)% (21.2) (1.1)%
Net Sales - FY '13	\$649.5	(3.6)% \$1,856.4	(1.7)%

For the quarter, net sales decreased 3.6% on a reported basis, with approximately one-half of the decline due to the unfavorable impact of currencies. Organic sales growth remains challenging, particularly in North America. We estimate that most of the U.S. categories in Personal Care, in which we compete, declined in value during the latest twelve week period.

From a product standpoint, the net sales change on a reported and organic basis was due primarily to the following: Wet Shave net sales decreased 1% on a reported basis, but increased about 1% organically, due to higher sales of disposable products, including the launch of Hydro disposables, partially offset by lower sales of shave preps. Sales of men's and women's systems increased slightly for the quarter as continued growth in Hydro branded systems was mostly offset by further declines in legacy systems,

• Skin Care net sales decreased approximately 7% on both a reported and organic basis due to an unusually wet weather pattern in North America, which has unfavorably impacted sun care consumption, and

• All other product categories decreased due to continued competitive activity and category softness.

For the nine months, reported net sales declined 1.7% due primarily to the unfavorable impact of currencies. Exclusive of the impact of currencies, net sales declined less than 1% due to the overall impact of competitive activity in multiple categories including wet shave and the overall category sluggishness noted above.

Segment Profit - Personal Care (In millions - Unaudited)

Quarter and Nine Months Ended June 30, 2013

	Q3	% Chg	Nine Months	%Chg	
Segment Profit - FY '12	\$109.4		\$361.2		
Operations	8.9	8.1	% 14.6	4.0	%
Impact of currency	(7.0) (6.4)% (11.9) (3.3)%
Segment Profit - FY '13	\$111.3	1.7	% \$363.9	0.7	%

Segment profit for the quarter was \$111.3, up 1.7%, inclusive of the negative impact of unfavorable currencies, most notably the weakening of the Japanese yen. Operationally, segment profit increased more than 8% in the quarter as lower gross margin due to the sales decline noted above was more than offset by lower spending.

Segment profit for the nine months was up almost 1% inclusive of the unfavorable impact of \$11.9 from currencies. Operationally, segment profit increased \$14.6 or 4.0% in the nine month period for the reasons noted above.

Household Products

Net Sales - Household Products (In millions - Unaudited)

Quarter and Nine Months Ended June 30, 2013

	Q3	% Chg	Nine Months	%Chg	
Net Sales - FY '12	\$450.6		\$1,534.6		
Organic	16.9	3.7	% 17.4	1.2	%
Impact of currency	(5.5)) (1.2)% (8.5) (0.6)%
Net Sales - FY '13	\$462.0	2.5	% \$1,543.5	0.6	%

Net sales increased 2.5% on a reported basis, and increased 3.7% organically in the quarter. The increase in organic net sales was due primarily to increased shipments versus soft prior year comparisons and higher promotional activities in the U.S., and distribution gains in Asia.

On a year to date basis, net sales increased approximately 1% on both a reported and organic basis. However, this result included approximately \$18 of incremental sales related to Hurricane Sandy in the first fiscal quarter of 2013. Excluding the impact of Hurricane Sandy, organic net sales were essentially flat as category unit volume declines were offset by the favorable impact of pricing in the first half of fiscal 2013.

We estimate global category value declined approximately 2% in the latest twelve weeks, in line with expectations.

Segment Profit - Household Products (In millions - Unaudited)

Quarter and Nine Months Ended June 30, 2013

	Q3	% Chg	Nine Months	%Chg	
Segment Profit - FY '12	\$69.5		\$287.4		
Operations	34.5	49.6	% 79.7	27.7	%
Impact of currency	(3.9)) (5.6)% (5.6) (1.9)%
Segment Profit - FY '13	\$100.1	44.0	% \$361.5	25.8	%

Segment profit for the quarter was \$100.1, up \$30.6, or 44.0%, versus the same quarter last year. This increase was driven by higher sales and gross margin expansion due to the favorable impact of the Company's cost containment and restructuring efforts, and a substantial decrease in overhead costs.

For the nine months ended June 30, 2013, segment profit increased \$74.1, or 25.8%, due primarily to lower product costs and reduced overhead spending and, to a lesser extent, the gross profit impact of the incremental Hurricane Sandy volume in the first fiscal quarter of 2013.

General Corporate and Other Expenses

	Quarter Ended June 30,		Nine Months Ended June 30,		
	2013	2012	2013	2012	
General corporate expenses	\$36.6	\$32.6	\$101.3	\$112.6	
Other realignment / integration	(0.1) 0.2	0.2	0.5	
Sub-total	36.5	32.8	101.5	113.1	
2013 restructuring and related costs (1)	29.5	—	117.0	—	
Pension curtailment gain	—	—	(37.4) —	
Prior Household Products restructuring	—	0.5	—	(7.2)
ASR integration	0.2	2.4	1.8	6.3	
General corporate and other expenses	\$66.2	\$35.7	\$182.9	\$112.2	
% of total net sales	6.0	% 3.2	% 5.4	% 3.3	%

(1) Includes pre-tax costs of \$2.1 and \$3.2, respectively, for the quarter and nine months ended June 30, 2013, associated with certain information technology and related activities, which are included in SG&A on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). Additionally, this includes pre-tax costs of \$4.7, for both the quarter and nine months ended June 30, 2013, associated with obsolescence charges related to the exit of certain non-core product lines as part of our restructuring, which were included in cost of products sold on the Consolidated Statements of Earnings and Comprehensive Income (Condensed).

For the quarter and nine months ended June 30, 2013, general corporate and other expenses, including integration and other realignment charges were \$36.5 and \$101.5, respectively, as compared to \$32.8 and \$113.1, respectively, for the same quarter and nine months in the prior fiscal year. The increase for the quarter was due primarily to the timing of certain corporate expenses, most notably legal and information technology costs. The decrease in the nine month period in fiscal 2013 as compared to the same period in the prior year was due primarily to lower compensation costs, effective cost containment activities, and the favorable impact of the restructuring efforts.

For the quarter and nine months ended June 30, 2013, the Company recorded \$22.7 and \$109.1, respectively in restructuring charges related to its 2013 restructuring. The 2013 restructuring charges were reported on a separate line in the Consolidated Statements of Earnings and Comprehensive Income (Condensed). In addition, pre-tax costs of \$2.1 and \$3.2, respectively, associated with certain information technology enablement activities related to our restructuring initiatives were included in SG&A on the Statement of Earnings and Comprehensive Income (Condensed) for the third fiscal quarter of 2013. Additionally, pre-tax costs of \$4.7, for both the quarter and nine months ended June 30, 2013, associated with obsolescence charges related to the exit of certain non-core product lines as part of our restructuring, which were included in cost of products sold on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). The information technology costs and non-core inventory obsolescence charges are considered part of the total project costs incurred for our restructuring initiative. See Note 2 for further information.

For the quarter and nine months ended June 30, 2012, our prior Household Products restructuring activities generated pre-tax expense of \$0.5 and pre-tax income of \$7.2, respectively. The prior period year to date pre-tax income was due to the gain on the sale of our former battery manufacturing facility in Switzerland, which was shut down in fiscal 2011, which was approximately \$13. This gain was offset by additional restructuring costs of \$5.6. These costs, net of the gain on the sale of the former manufacturing facility in fiscal 2012, are included as a separate line item on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). See Note 2 to the Condensed Financial Statements.

In the first fiscal quarter of 2013, the Company approved and communicated changes to its U.S. pension plan, which is the most significant of the Company's pension obligations. Effective January 1, 2014, the pension benefit earned to date by active participants under the legacy Energizer U.S. pension plans will be frozen and future service benefits will no longer be accrued under this retirement program. For the nine months ended June 30, 2013, the Company recorded a pension curtailment gain of \$37.4 related to the decision to freeze the U.S. pension plan, which was approved and communicated to impacted colleagues during the first quarter. This pension curtailment gain was reported on a separate line item in the Consolidated Statements of Earnings and Comprehensive income (Condensed). See Note 7 to the Condensed Financial Statements.

Liquidity and Capital Resources

Cash flow from operations increased \$123.0 for the nine months ended June 30, 2013 as compared to the same nine months in the prior fiscal year. This increase was due primarily to improved cash flow of \$106.1 from changes in current assets and liabilities used in operations ("working capital"). This change included improved days sales outstanding for receivables and improved days in inventory, both resulting from our initiative to reduce working capital, as well as higher accrued expenses in the current quarter as compared to the prior year due primarily to the timing of cash payments related to our 2013 restructuring.

Capital expenditures were \$59.3 for the nine months ended June 30, 2013 as compared to \$76.4 for the same period last year. Full year capital expenditures for normal operations are estimated to be approximately \$80 to \$90 for fiscal 2013. We expect to incur some level of incremental investments in information technology over the next 18 to 24 months to improve capabilities and to enable certain initiatives related to our 2013 restructuring. We expect these expenditures will be financed with cash flow from operations.

At June 30, 2013, substantially all of our cash balances were located outside the U.S. Given our extensive international operations, a significant portion of our cash is denominated in foreign currencies. We manage our worldwide cash requirements by reviewing available funds among the many subsidiaries through which we conduct our business and the cost effectiveness with which those funds can be accessed. The repatriation of cash balances from certain of our subsidiaries could have adverse tax consequences or be subject to regulatory capital requirements; however, those balances are generally available without legal restrictions to fund ordinary business operations. U.S. income taxes have not been provided on a significant portion of undistributed earnings of international subsidiaries. Our intention is to reinvest these earnings indefinitely.

The Company's total borrowings were \$2,419.2 at June 30, 2013, including \$280.5 tied to variable interest rates. The Company maintains total committed debt facilities of \$2,789.2. The Company's Amended and Restated Revolving Credit Agreement currently provides for revolving credit loans and the issuance of letters of credit in an aggregate amount of up to \$450. Borrowings of \$80.0 and letters of credit of \$10.0 were outstanding under our revolving credit facility, leaving \$360 available as of June 30, 2013.

On July 31, 2013, the Company announced an agreement to purchase certain feminine hygiene assets in the U.S., Canada and the Caribbean for a purchase price of \$185, subject to a customary adjustment based on the level of inventory at the time of closing. The Company expects to finance the acquisition with available borrowings under its current revolving credit agreement, and available foreign cash. Closing, which is subject to customary conditions, including regulatory approval, is expected to occur before the end of calendar 2013.

Under the terms of the Company's credit agreements, the ratio of the Company's indebtedness to its EBITDA, as defined in the agreements and detailed below, cannot be greater than 4.0 to 1, and may not remain above 3.5 to 1 for more than four consecutive quarters. If and so long as the ratio is above 3.5 to 1 for any period, the Company is required to pay additional interest expense for the period in which the ratio exceeds 3.5 to 1. The interest rate margin

and certain fees vary depending on the indebtedness to EBITDA ratio. Under the Company's private placement note agreements, EBITDA may not be greater than 4.0 to 1; if the ratio is above 3.5 to 1 for any quarter, the Company is required to pay additional interest on the private placement notes of 0.75% per annum for each quarter until the ratio is reduced to not more than 3.5 to 1. In addition, under the credit agreements, the ratio of its current year earnings before interest and taxes (EBIT), as defined in the agreements, to total interest expense must exceed 3.0 to 1. The Company's ratio of indebtedness to its EBITDA was 2.4 to 1, and the ratio of its EBIT to total interest expense was 5.7 to 1, for the nine months ended June 30, 2013. The ratios at June 30, 2013 were somewhat negatively impacted by a portion of the pre-tax charges associated with the 2013 restructuring as such charges, exclusive of those considered non-cash, reduced EBITDA as defined in the agreements. We expect the ratios to be negatively impacted in the near term due to anticipated restructuring charges, but we expect to remain

in full compliance with the debt covenant ratios. In addition to the financial covenants described above, the credit agreements and the note purchase agreements contain customary representations and affirmative and negative covenants, including limitations on liens, sales of assets, subsidiary indebtedness, mergers and similar transactions, changes in the nature of the business of the Company and transactions with affiliates. If the Company fails to comply with the financial covenants referred to above or with other requirements of the credit agreements or private placement note agreements, the lenders would have the right to accelerate the maturity of the debt. Acceleration under one of these facilities would trigger cross defaults on other borrowings.

Under the credit agreements, EBITDA is defined as net earnings, as adjusted to add-back interest expense, income taxes, depreciation and amortization, all of which are determined in accordance with GAAP. In addition, the credit agreement allows certain non-cash charges such as stock award amortization and asset write-offs including, but not limited to, the impairment and accelerated depreciation associated with the 2013 restructuring, to be “added-back” in determining EBITDA for purposes of the indebtedness ratio. Severance and other cash charges incurred as a result of restructuring and realignment activities as well as expenses incurred in acquisition integration activities are included as reductions in EBITDA for calculation of the indebtedness ratio. In the event of an acquisition, EBITDA is calculated on a pro forma basis to include the trailing twelve-month EBITDA of the acquired company or brands. Total debt is calculated in accordance with GAAP, but excludes outstanding borrowings under the receivable securitization program. EBIT is calculated in a fashion identical to EBITDA except that depreciation and amortization are not “added-back”. Total interest expense is calculated in accordance with GAAP.

The counterparties to long-term committed borrowings consist of a number of major financial institutions. The Company consistently monitors positions with, and credit ratings of, counterparties both internally and by using outside ratings agencies.

Advances under the Company's \$200 receivables securitization program, as amended, are not considered debt for purposes of the Company's debt compliance covenants. At June 30, 2013, there was \$182.0 outstanding under this facility.

On April 29, 2013, the Company's Board of Directors declared a dividend for the third quarter of fiscal 2013 of \$0.40 per share of Common Stock, which was paid on June 11, 2013. The dividend paid totaled \$24.9.

Subsequent to the quarter, on July 29, 2013, the Company's Board of Directors declared a dividend for the fourth quarter of fiscal 2013 of \$0.50 per share of Common Stock, which will be paid on September 10, 2013 and is expected to be approximately \$31.

On June 4, 2013, the Company retired approximately 43 million shares of its treasury stock. These shares are now authorized but unissued. In accordance with ASC section 505, the treasury stock retirement resulted in a reduction of the following on the Company's Consolidated Balance Sheet (Condensed): treasury stock by \$2,146.5, common stock by \$0.4 and retained earnings by \$2,146.1. There was no impact to consolidated total shareholders' equity at June 30, 2013 as a result of the retirement.

A summary of Energizer's significant contractual obligations at June 30, 2013 is shown below:

	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term debt, including current maturities	\$2,140.0	\$140.0	\$440.0	\$150.0	\$1,410.0
Interest on long-term debt	635.5	116.3	201.9	138.7	178.6
Minimum pension funding ⁽¹⁾	88.5	26.4	35.0	27.1	—
Operating leases	126.3	25.7	35.0	25.7	39.9
Purchase obligations and other ^{(2) (3) (4)}	118.7	58.8	24.0	13.8	22.1
Total	\$3,109.0	\$367.2	\$735.9	\$355.3	\$1,650.6

1 Globally, total pension contributions for the Company in the next twelve months are estimated to be approximately \$26. The U.S. pension plans constitute 80% of the total benefit obligations and plan assets for the Company's pension plans. The estimates beyond 2013 represent future pension payments to comply with local funding requirements in the U.S. only. The projected payments beyond fiscal year 2017 are not currently determinable. The Company has estimated approximately \$4 of cash settlements associated with unrecognized tax benefits within the next year, which are included in the table above. As of June 30, 2013, the Company's Consolidated Balance Sheet reflects a liability for unrecognized tax benefits of approximately \$41. The contractual obligations

2 table above does not include this liability beyond one year. Due to the high degree of uncertainty regarding the timing of future cash outflows of liabilities for unrecognized tax benefits beyond one year, a reasonable estimate of the period of cash settlement for periods beyond the next twelve months cannot be made, and thus is not included in this table.

3 Included in the table above are approximately \$65 of fixed costs related to third party logistics contracts.

4 Included in the table above are approximately \$16 of severance and related benefit costs associated with staffing reductions that have been identified to date related to the 2013 restructuring.

Purchase obligations set forth in the table above represent contractual obligations that generally have longer terms, and are non-routine in nature. The Company also has contractual purchase obligations for future purchases, which generally extend one to three months. These obligations are primarily individual, short-term purchase orders for the purchase of routine goods and services at estimated fair value that are part of normal operations and are reflected in historical operating cash flow trends. In addition, the Company has various commitments related to service and supply contracts that contain penalty provisions for early termination. As of June 30, 2013, we do not believe such purchase obligations or termination penalties will have a significant effect on our results of operations, financial position or liquidity position in the future. As such, these obligations have been excluded from the table above.

Market Risk

Currency Rate Exposure

A significant portion of our product cost is more closely tied to the U.S. dollar and, to a lesser extent, the Euro, than to the local currencies in which the product is sold. As such, a weakening of currencies relative to the U.S. dollar and, to a lesser extent, the Euro, results in margin declines unless mitigated through pricing actions, which are not always available due to the competitive and economic environments. Conversely, strengthening of currencies relative to the U.S. dollar and, to a lesser extent, the Euro, can improve margins. This margin impact coupled with the translation of foreign operating results to the U.S. dollar, our financial reporting currency, has an impact on reported operating profits. Changes in the value of local currencies in relation to the U.S. dollar, and, to a lesser extent, the Euro, will continue to impact reported sales and segment profitability in the future, and we cannot predict the direction or magnitude of future changes.

The Company generally views its investments in foreign subsidiaries with a functional currency other than the U.S. dollar as long-term. As a result, the Company does not generally hedge these net investments. Capital structuring techniques are used to manage the net investment in foreign currencies, as necessary. Additionally, the Company attempts to limit its U.S. dollar net monetary liabilities in countries with unstable currencies.

From time to time the Company may employ foreign currency hedging techniques to mitigate potential losses in earnings or cash flows on foreign currency transactions, which primarily consist of anticipated intercompany purchase transactions and intercompany borrowings. External purchase transactions and intercompany dividends and service fees with foreign currency risk may also be hedged. The primary currencies to which the Company's foreign affiliates are exposed include the U.S. dollar, the Euro, the Yen, the British pound, the Canadian dollar and the Australian dollar.

The Company uses natural hedging techniques, such as offsetting like foreign currency cash flows and foreign currency derivatives with durations of generally one year or less, including forward exchange contracts. Certain of the foreign exchange contracts have been designated and are accounted for as cash flow hedges.

The Company enters into foreign currency derivative contracts to hedge existing balance sheet exposures. Any losses on these contracts would be fully offset by exchange gains on the underlying exposures, thus they are not subject to significant market risk. The change in estimated fair value of the foreign currency contracts for the quarter and nine months ended June 30, 2013 resulted in income of \$4.3 and \$6.5, respectively, and for the quarter and nine months ended June 30, 2012 resulted in expense of \$1.3 and \$1.1, respectively, and was recorded in Other financing items, net on the Consolidated Statements of Earnings and Comprehensive Income (Condensed). In addition, the Company has entered into a series of forward currency contracts to hedge the cash flow uncertainty of forecasted inventory purchases due to short term currency fluctuations. These transactions are accounted for as cash flow hedges. At June 30, 2013 and September 30, 2012, the Company had an unrealized pre-tax gain and pre-tax loss on these forward currency contracts accounted for as cash flow hedges of \$18.1 and \$5.9, respectively, included in Accumulated other comprehensive loss on the Consolidated Balance Sheets (Condensed). Contract maturities for these hedges extend into 2014. There were 76 open foreign currency contracts at June 30, 2013 with a total notional value of approximately \$345.

The Company has investments in Venezuelan affiliates. Venezuela is considered highly inflationary under GAAP as of January 1, 2010. In addition, the conversion of local monetary assets to U.S. dollars is restricted by the Venezuelan government. In February 2013, the Venezuelan government devalued its local currency in relation to the U.S. dollar from 4.30 per U.S. dollar to 6.30 per U.S. dollar. In addition, the Central Government also suspended the alternate currency market administered by the central bank known as SITME that made U.S. dollars available at a rate higher than the previous official rate, generally in the range of 5.50 per U.S. dollar. The Company had been utilizing the SITME market to obtain U.S. dollars for the import of product on a regular basis since the establishment of this market, since access to U.S. dollars at the official exchange rate was greatly limited. We continue to monitor this situation including the impact continued restrictions on the ability to exchange local currency for U.S. dollars may have on our future business operations. At this time, we are unable to predict with any degree of certainty how recent and future developments in Venezuela will affect our Venezuela operations, if at all. At June 30, 2013, the Company had approximately \$51 in net monetary assets in Venezuela. Due to the uncertainty of the availability of U.S. dollars at the official exchange rate, the lack of clarity on what, if any, future alternatives will be available to obtain U.S. dollars, and at what price such alternatives may offer U.S. dollars, the Company is not able to predict the amount of future imports to Venezuela or the ultimate price it will be able to convert local currency to U.S. dollars to pay for future imports. See Note 3 to the Condensed Financial Statements.

Commodity Price Exposure

The Company uses raw materials that are subject to price volatility. At times, hedging instruments may be used by the Company to reduce exposure to variability in cash flows associated with future purchases of certain commodities. In September 2012, the Company discontinued hedge accounting treatment for its then existing zinc contracts and reclassified the ineffective portion of the de-designated contracts from Accumulated other comprehensive loss into income. In November 2012, all remaining zinc contracts were settled and a \$1.9 loss was included in Other financing items, net in the Consolidated Statements of Earnings and Comprehensive Income (Condensed) for the nine months ended June 30, 2013.

Interest Rate Exposure

Through December 2012, the Company had specific interest rate risk with respect to interest expense on the Company's term loan, which was repaid by the end of the first quarter of fiscal 2013. As a result, the interest rate swap

agreement in place to hedge this specific risk was settled on November 30, 2012 for a \$0.3 loss. This loss was included in interest expense in the Consolidated Statements of Earnings and Comprehensive Income (Condensed). At June 30, 2013 the Company had \$280.5 of variable rate debt outstanding.

Stock Price Exposure

At June 30, 2013, the Company held a share option with a major financial institution to mitigate the impact of changes in certain of the Company's deferred compensation liabilities, which are tied to the Company's common stock price. This contract expires in September 2013. The fair market value of the share option was \$19.0 and \$2.5, which was included in other current assets at June 30, 2013 and September 30, 2012, respectively. The change in estimated fair value of the total share option for the quarter and nine months ended June 30, 2013 resulted in income of \$0.8 and \$19.3, respectively, and for the quarter and nine months ended June 30, 2012 resulted in income of \$0.8 and \$6.3, respectively, and was recorded in SG&A. Period activity related to the share option is classified in the same category in the Consolidated Statements of Cash Flows (Condensed) as the period activity associated with the Company's deferred compensation liability, which was cash flow from operations.

Item 4. Controls and Procedures

Energizer maintains a system of disclosure controls and procedures which are designed to ensure that information required to be disclosed by the Company in the reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and is accumulated and communicated to management, including the Company's certifying officers, as appropriate to allow timely decisions regarding required disclosure. Based on an evaluation performed, the Company's certifying officers have concluded that the disclosure controls and procedures were effective as of June 30, 2013, to provide reasonable assurance of the achievement of these objectives. Notwithstanding the foregoing, there can be no assurance that the Company's disclosure controls and procedures will detect or uncover all failures of persons within the Company and its consolidated subsidiaries to report material information otherwise required to be set forth in the Company's reports.

There was no change in the Company's internal control over financial reporting during the quarter ended June 30, 2013, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

There is no information required to be reported under any items except those indicated below.

Item 1 — Legal Proceedings

The Company and its subsidiaries are parties to a number of legal proceedings in various jurisdictions arising out of the operations of the Company's businesses. Many of these legal matters are in preliminary stages and involve complex issues of law and fact, and may proceed for protracted periods of time. The amount of liability, if any, from these proceedings cannot be determined with certainty. However, based upon present information, the Company believes that its liability, if any, arising from such pending legal proceedings, asserted legal claims and known potential legal claims which are likely to be asserted, are not reasonably likely to be material to the Company's financial position, results of operations, or cash flows, taking into account established accruals for estimated liabilities.

Item 2 — Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth the purchases of the Company's securities by the Company and any affiliated purchasers within the meaning of Rule 10b-18(a)(3) (17 CFR 240.10b-18(a)(3)) during the third quarter of fiscal year 2013.

Period	Total Number of Shares Purchased(1)	Average Price Paid per share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(2)	Maximum Number that May Yet Be Purchased Under the Plans or Programs
April 1 to 30, 2013	379	\$96.92	—	6,019,739
May 1 to 31, 2013	334	\$98.95	—	6,019,739
June 1 to 30, 2013	—	\$—	—	6,019,739

(1) 713 shares purchased during the quarter relate to the surrender to the Company of shares of common stock to satisfy tax withholding obligations in connection with the vesting of restricted stock.

On April 30, 2012, the Board of Directors approved a new share repurchase authorization for the repurchase of up to ten million shares. The Company did not repurchase any shares of the Company's common stock during the (2) quarter ended June 30, 2013, except for the small number related to the note above. The Company has approximately 6 million shares remaining on the above noted Board authorization to repurchase its common stock in the future.

Item 6 — Exhibits

See the Exhibit Index hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

EXHIBIT INDEX

The exhibits below are numbered in accordance with the Exhibit Table of Item 601 of Regulation S-K.

Exhibit No.	Description of Exhibit
3.1	Articles of Incorporation of Energizer Holdings, Inc. (incorporated by reference to Exhibit 3.1 to Amendment No. 3 to the Company's Registration Statement on Form 10 (File No. 1-15401) (filed on March 16, 2000)).
3.2	Amended Bylaws of Energizer Holdings, Inc. (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed April 27, 2011).
4.1	Second Supplemental Indenture (including the Form of Note), dated as of May 24, 2012, by and among the Company, the guarantors named therein and The Bank of New York Mellon Trust Company, N.A., as trustee (incorporated by reference to Exhibit 4.2 to the Company's Current Report on Form 8-K filed May 24, 2012).
31(i)*	Certification of periodic financial report by the Chief Executive Officer of Energizer Holdings, Inc. pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934, as amended pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31(ii)*	Certification of periodic financial report by the Chief Financial Officer of Energizer Holdings, Inc. pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934, as amended pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
