Notes to the Condensed Consolidated Financial Statements (Unaudited)

1. Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements and Notes thereto have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"). The Condensed Consolidated Financial Statements include the accounts of Aon plc and all of its controlled subsidiaries ("Aon" or the "Company"). All intercompany accounts and transactions have been eliminated. The Condensed Consolidated Financial Statements include, in the opinion of management, all adjustments (consisting of normal recurring adjustments and reclassifications) necessary to present fairly the Company's consolidated financial position, results of operations and cash flows for all periods presented.

Certain information and disclosures normally included in the financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. These Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. The results for the three and six months ended June 30, 2016 are not necessarily indicative of operating results that may be expected for the full year ending December 31, 2016.

Reclassification

Certain amounts in prior years' Condensed Consolidated Financial Statements and related notes have been reclassified to conform to the 2016 presentation.

Upon vesting of certain share-based payment arrangements, employees may elect to use a portion of the shares to satisfy tax withholding requirements, in which case Aon makes a payment to the taxing authority on the employee's behalf and remits the remaining shares to the employee. Prior to the fourth quarter of 2015, the Company presented amounts due to taxing authorities within Cash Flows From Operating Activities in the Condensed Consolidated Statements of Cash Flows. These amounts are now included in "Issuance of shares for employee benefit plans" within Cash Flows From Financing Activities. The Company believes this presentation provides greater clarity into the operating and financing activities of the Company as the substance and accounting for these transactions is that of a share repurchase. It also aligns the Company's presentation to be consistent with industry practice and share-based compensation guidance issued by the Financial Accounting Standards Board (the "FASB") in March 2016. The amount reported in Issuance of shares for employee benefit plans was \$213 million for the six months ended June 30, 2015. This amount, which was reclassified from Accounts payable and accrued liabilities and Other assets and liabilities, was \$150 million and \$63 million, respectively, for the six months ended June 30, 2015.

Changes to the presentation of the Condensed Consolidated Statements of Cash Flows for the six months ended June 30, 2015 were made related to certain line items within financing activities. In 2016, Purchases of shares from noncontrolling interests and Dividends paid to noncontrolling interests have been aggregated in a new line item titled "Noncontrolling interests and other financing activities" within financing activities. The balances held in these line items for the six months ended June 30, 2015 was \$(5) million and \$(18) million, respectively. Additionally, Restructuring reserves have been retrospectively reclassified to Other asset and liabilities. The balance held in Restructuring reserves for the six months ended June 30, 2015, was \$(19) million.

Use of Estimates

The preparation of the accompanying Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of

reserves and expenses. These estimates and assumptions are based on management's best estimates and judgments. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment. Management believes its estimates to be reasonable given the current facts available. Aon adjusts such estimates and assumptions when facts and circumstances dictate. Illiquid credit markets, volatile equity markets, and foreign currency exchange rate movements increase the uncertainty inherent in such estimates and assumptions. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Changes in estimates resulting from continuing changes in the economic environment would, if applicable, be reflected in the financial statements in future periods.

2. Accounting Principles and Practices

New Accounting Pronouncements

Credit Losses

In June 2016, the FASB issued new accounting guidance on the measurement of credit losses on financial instruments. The new guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. An entity will apply the new guidance through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective. The guidance is effective for Aon in the first quarter of 2020 and early adoption is permitted beginning in the first quarter of 2019. Aon is currently evaluating the impact that the standard will have on its Condensed Consolidated Financial Statements, as well as the method of transition and period of adoption.

Share-based Compensation

In March 2016, the FASB issued new accounting guidance on several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The new guidance requires all excess tax benefits and tax deficiencies to be recognized as income tax expense or benefit in the income statement and treated as discrete items in the reporting period. Further, excess tax benefits are required to be classified along with other income tax cash flows as an operating activity. Amendments related to the timing of when excess tax benefits are recognized, minimum statutory withholding requirements, forfeitures, and intrinsic value should be applied using a modified retrospective transition method by means of a cumulative-effect adjustment to equity as of the beginning of the period in which the guidance is adopted. Amendments related to the presentation of employee taxes paid on the statement of cash flows when an employer withholds shares to meet the minimum statutory withholding requirement should be applied retrospectively. Amendments requiring recognition of excess tax benefits and tax deficiencies in the income statement and the practical expedient for estimating expected term should be applied prospectively. An entity may elect to apply the amendments related to the presentation of excess tax benefits on the statement of cash flows using either a prospective transition method or a retrospective transition method. The guidance is effective for Aon in the first quarter of 2017 and early adoption is permitted. Aon is currently evaluating the impact that the standard will have on its Condensed Consolidated Financial Statements, as well as the method of transition and period of adoption.

Leases

In February 2016, the FASB issued new accounting guidance on leases, which requires lessees to recognize assets and liabilities for most leases. Under the new guidance, a lessee should recognize in the statement of financial position a liability to make lease payments and a right-of-use asset representing its right to use the underlying asset for the lease term. The recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed from currently effective U.S. GAAP. The new standard will be effective for the Company in the first quarter of 2019, with early application permitted. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The modified retrospective approach includes a number of optional practical expedients that entities may elect to apply. These practical expedients relate to the identification and classification of leases that commenced before the effective date, initial direct costs for leases that commenced before the effective date, and the ability to use hindsight in evaluating lessee options to extend or terminate a lease or to purchase the underlying asset. Aon is currently evaluating the impact the standard will have on its Condensed Consolidated Financial Statements, as well as the method of transition and period of adoption.

Financial Assets and Liabilities

In January 2016, the FASB issued new accounting guidance on recognition and measurement of financial assets and financial liabilities. The amendments in the new guidance make targeted improvements, which include the requirement to measure equity investments with readily determinable fair values at fair value through net income, simplification of the impairment assessment for equity investments without readily determinable fair values, adjustments to existing and additional disclosure requirements, and additional tax considerations. An entity should apply the amendments by means of a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption. The amendments related to equity securities without readily determinable fair values (including disclosure requirements) should be applied prospectively to equity investments that exist as of the date of adoption of the guidance. The guidance is effective for the Company in the first quarter of 2018 and early adoption is permitted. Aon is currently evaluating the impact that the standard will have on the its Condensed Consolidated Financial Statements, as well as the method of transition and period of adoption.

Presentation of Deferred Taxes

In November 2015, the FASB issued new accounting guidance on the balance sheet presentation of deferred taxes, which requires that deferred tax liabilities and assets be classified as non-current. Aon early adopted this guidance in the second quarter of 2016 and retrospectively applied its requirements to all periods presented. For the year ended December 31, 2015, Aon reclassified its current deferred tax positions to non-current and netted the new balances by jurisdiction, which increased Non-current deferred tax assets by \$92 million and decreased Non-current deferred tax liabilities by \$139 million on the Condensed Consolidated Statement of Financial Position.

Debt Issuance Costs

In April 2015, the FASB issued new accounting guidance on the presentation of debt issuance costs, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. This guidance will also be applied to Aon's debt issuance costs related to its line-of-credit arrangements. This guidance was effective for Aon in the first quarter of 2016, which required retrospective application to prior year comparable periods. For the year ended December 31, 2015, Aon reclassified \$4 million from Other current assets and \$33 million from Other non-current assets to Long-term debt on the Condensed Consolidated Statement of Financial Position.

Consolidations

In February 2015, the FASB issued new accounting guidance on consolidations, which will eliminate the deferral granted to investment companies from applying the variable interest entities guidance and make targeted amendments to the current consolidation guidance. The new guidance applies to all entities involved with limited partnerships or similar entities and requires re-evaluation of these entities under the revised guidance, which could change previous consolidation conclusions. The guidance was effective for the Company in the first quarter of 2016. The adoption of this guidance did not have a material impact on the Company's Condensed Consolidated Financial Statements.

Revenue Recognition

In May 2014, the FASB issued new accounting guidance on revenue from contracts with customers, which, when effective, will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The core principal of the guidance is that an entity should recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The guidance is effective for the Company in the first quarter of 2018 and early adoption is permitted beginning the first quarter of 2017. The guidance permits two methods of transition upon adoption: full retrospective and modified retrospective. Under the full retrospective method, prior periods would be restated under the new revenue standard, providing a comparable view across all periods presented. Under the modified retrospective method, prior periods would not be restated. Rather, revenues and other disclosures for pre-2018 periods would be provided in the notes to the financial statements as previously reported under the current revenue standard. Aon is currently evaluating the impact that the standard will have on the Company's Condensed Consolidated Financial Statements. The Company is also determining the appropriate method of transition to the guidance, but expects to adopt upon the effective date of January 1, 2018.

3. Cash and Cash Equivalents and Short-term Investments

Cash and cash equivalents include cash balances and all highly liquid debt instruments with initial maturities of three months or less. Short-term investments include certificates of deposit, money market funds and highly liquid debt

instruments purchased with initial maturities in excess of three months but less than one year and are carried at amortized cost, respectively, which approximates fair value.

At June 30, 2016, Cash and cash equivalents and Short-term investments were \$689 million compared to \$740 million at December 31, 2015. Of the total balances, \$87 million and \$105 million was restricted as to its use at June 30, 2016 and December 31, 2015, respectively. Included within the June 30, 2016 and December 31, 2015 balances, respectively, were £43.4 million (\$59.4 million at June 30, 2016 exchange rates) and £43.3 million (\$64.6 million at December 31, 2015 exchange rates) of operating funds required to be held by the Company in the U.K. by the Financial Conduct Authority, a U.K.-based regulator, which were included in Short-term investments.

4. Other Financial Data

5. Acquisitions and Dispositions of Businesses

Acquisitions

The number of acquisitions completed within each reportable segment is as follows:

	Three months ended June 30, 2016	Six Months Ended June 30, 2016	2015
Risk Solutions	2	1	2
HR Solutions	—	1	2
Total	2	2	4

The following table includes the aggregate consideration transferred and the preliminary value of intangible assets recorded as a result of the Company's acquisitions (in millions):

	Six months ended June 30, 2016	2015
Consideration	\$ 190	\$ 23
Intangible assets:		
Goodwill	\$ 110	\$ 16
Other intangible assets	82	1
Total	\$ 192	\$ 17

The results of operations of these acquisitions are included in the Condensed Consolidated Financial Statements as of the acquisition date. The results of operations of the Company would not have been materially different if these acquisitions had been reported from the beginning of the period in which they were acquired.

Dispositions

The number of dispositions completed within each reportable segment is as follows:

	Three months ended June 30, 2016	Six Months Ended June 30, 2015	2016	2015
Risk Solutions	2	—	3	1
HR Solutions	—	—	1	1
Total	2	—	4	2

Total pretax gains, net of losses, recognized were \$6 million and \$1 million, respectively, for the three months ended June 30, 2016 and June 30, 2015. Total pretax gains, net of losses, recognized were \$41 million and \$20 million, respectively for the six months ended June 30, 2016 and June 30, 2015. Gains and losses recognized as a result of a disposition are included in Other income in the Condensed Consolidated Statements of Income.

6. Goodwill and Other Intangible Assets

The changes in the net carrying amount of goodwill by reportable segment for the six months ended June 30, 2016 are as follows (in millions):

	Risk Solutions	HR Solutions	Total
Balance as of January 1, 2016	\$ 5,593	\$ 2,855	\$ 8,448
Goodwill related to current year acquisitions	106	4	110
Goodwill related to disposals	(7)	(26)	(33)
Goodwill related to prior year acquisitions	2	—	2
Foreign currency translation	(40)	(14)	(54)
Balance as of June 30, 2016	\$ 5,654	\$ 2,819	\$ 8,473

Other intangible assets by asset class are as follows (in millions):

	June 30, 2016			December 31, 2015		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Intangible assets with indefinite lives:

Thereafter	157	116	273
Total	\$ 479	\$ 609	\$ 1,088

7. Debt

Revolving Credit Facilities

As of June 30, 2016, Aon plc had two primary committed credit facilities outstanding: its \$400 million U.S. credit facility expiring in March 2017 (the "2017 Facility") and its \$900 million multi-currency U.S. credit facility expiring in February 2021 (the "2021 Facility").

Each of these facilities includes customary representations, warranties and covenants, including financial covenants that require Aon plc to maintain specified ratios of adjusted consolidated EBITDA to consolidated interest expense and consolidated debt to adjusted consolidated EBITDA, in each case, tested quarterly. At June 30, 2016, Aon plc did not have borrowings under either the 2017 Facility or the 2021 Facility, and was in compliance with all covenants contained therein during the six months ended June 30, 2016.

Commercial Paper

Aon Corporation, a wholly-owned subsidiary of Aon plc, has established a U.S. commercial paper program, which provides for commercial paper to be issued in an aggregate principal amount of up to \$900 million, and a European multi-currency commercial paper program, which provides for commercial paper to be issued in an aggregate principal amount of up to €300 million. The U.S. commercial paper program is fully and unconditionally guaranteed by Aon plc and the European commercial paper program is fully and unconditionally guaranteed by Aon Corporation. In the aggregate, the Company had \$241 million and \$50 million of commercial paper outstanding at June 30, 2016 and December 31, 2015, respectively, which is included in Short-term debt and current portion of long-term debt in the Company's Condensed Consolidated Statements of Financial Position. The weighted average commercial paper outstanding for the three and six months ended June 30, 2016, respectively, was \$304 million and \$240 million. The weighted average interest rate of the commercial paper outstanding for the three and six months ended June 30, 2016 was 0.59% and 0.41%, respectively.

Notes

On March 1, 2016, Aon plc issued \$750 million of 3.875% Senior Notes due December 2025. The Company used the proceeds of the issuance for general corporate purposes.

On May 27, 2016, \$500 million of 3.125% Senior Notes issued by Aon Corporation matured and were repaid in full.

8. Income Taxes

The effective tax rate on net income was 16.4% and 17.5% for the three and six months ended June 30, 2016, respectively. The effective tax rate on net income was 12.2% and 16.8% for the three and six months ended June 30, 2015, respectively. The effective tax rate in the second quarter of 2016 was impacted by changes in the geographical distribution of income and certain discrete items. The effective tax rate in the second quarter of 2015 was impacted by the reduction in U.S. income resulting from expenses relating to legacy legal settlements.

9. Shareholders' Equity

Ordinary Shares

In April 2012, the Company's Board of Directors authorized a share repurchase program under which up to \$5.0 billion of Class A Ordinary Shares may be repurchased (the "2012 Share Repurchase Program"). In November 2014, the Company's Board of Directors authorized a new \$5.0 billion share repurchase program in addition to the existing program (the "2014 Share Repurchase Program" and, together, the "Repurchase Programs"). Under each program, shares may be repurchased through the open market or in privately negotiated transactions, from time to time, based on prevailing market conditions, and will be funded from available capital.

In the three months ended June 30, 2016, the Company did not repurchase shares under the Repurchase Programs. During the six months ended June 30, 2016, the Company repurchased 7.7 million shares at an average price per share of \$97.92 for a total cost of approximately \$750 million under the Repurchase Programs. Included in the 7.7 million shares repurchased was 0.6 million shares repurchased in March 2016 which did not settle until April 2016. These shares were settled at an average price per share of \$103.58 and a total cost of approximately \$65 million. In the three months ended June 30, 2015, the Company repurchased 3.0 million shares at an average price per share of \$100.92 for a total cost of approximately \$300 million. During the six months ended June 30, 2015, we repurchased 5.5 million shares at an average price per share of \$100.57 for a total cost of \$550 million. In August 2015, the \$5 billion of Class A Ordinary Shares authorized under the 2012 Share Repurchase Program was exhausted. At June 30, 2016, the

remaining authorized amount for share repurchase under the 2014 Share Repurchase Program was \$3.3 billion. Under the Repurchase Programs, the Company has repurchased a total of 85.7 million shares for an aggregate cost of approximately \$6.7 billion.

Net Income Per Share

Weighted average shares outstanding are as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Shares for basic earnings per share	268.0	284.5	269.9	284.3
Common stock equivalents	1.8	2.2	1.8	2.6
Shares for diluted earnings per share	269.8	286.7	271.7	286.9

Certain ordinary share equivalents may be excluded from the computation of diluted net income per share if their inclusion would be antidilutive. There were no shares and 0.3 million shares excluded from the calculation for the three and six months ended June 30, 2016 and no shares excluded from the calculation for the three and six months ended June 30, 2015.

Accumulated Other Comprehensive Loss

Changes in Accumulated other comprehensive loss by component, net of related tax, are as follows (in millions):

	Change in Fair Value of Financial Instruments	Foreign Currency Translation Adjustments	Post-Retirement Benefit Obligation (2)	Total
Balance at December 31, 2015	\$ (25)	\$ (771)	\$ (2,627)	\$(3,423)
Other comprehensive (loss) income before reclassifications, net	(14)	(138)	(234)	(386)
Amounts reclassified from accumulated other comprehensive loss:				
Amounts reclassified from accumulated other comprehensive loss	4	—	110	114
Tax benefit	(1)	—	(26)	(27)
Amounts reclassified from accumulated other comprehensive loss, net	3	—	84	87
Net current period other comprehensive (loss) income	(11)	(138)	(150)	(299)
Balance at June 30, 2016	\$ (36)	\$ (909)	\$ (2,777)	\$(3,722)

(1) Reclassifications from this category included in Accumulated other comprehensive loss are recorded in Other income, Other general expenses, and Compensation and benefits. See Note 12 "Derivatives and Hedging" for additional information regarding the Company's derivative and hedging activity.

(2) Reclassifications from this category included in Accumulated other comprehensive loss are recorded in Compensation and benefits.

In March 2016, the Company entered into an insurance contract which covers a portion of the assets within select U.K. pension schemes. The transaction resulted in a decrease in Prepaid pension assets and Accumulated other comprehensive income of \$267 million as the fair value in the insurance policies was deemed to be the present value of the current obligation.

10. Employee Benefits

The following table provides the components of the net periodic (benefit) cost recognized in the Condensed Consolidated Statements of Income in Compensation and benefits for Aon's material U.K., U.S., and other significant international pension plans located in the Netherlands and Canada (in millions):

	Three months ended June 30,

Total net periodic cost (benefit)	\$36	\$(33)	\$3	\$17	\$(5)	\$(2)

Beginning in 2016, the Company has elected to utilize a full yield curve approach in the estimation of the service and interest cost components of net periodic pension and post-retirement benefit cost for Aon's major pension and other post-retirement benefit plans by applying the specific spot rates along the yield curve used in the determination of the benefit obligation to the relevant projected cash flows. In 2015 and prior years, the Company estimated these components of net periodic pension and post-retirement benefit cost by applying a single weighted-average discount rate, derived from the yield curve used to measure the benefit obligation at the beginning of the period. The Company made this change to improve the correlation between projected benefit cash flows and the corresponding yield curve spot rates and to provide a more precise measurement of service and interest costs. This change does not affect the measurement of the projected benefit obligation as the change in the service cost and interest cost is completely offset in the actuarial (gain) loss recorded in other comprehensive income. The Company accounted for this change as a change in estimate and, accordingly, will account for it prospectively.

In March 2016, the Company announced a plan to offer a voluntary one-time lump sum payment option to certain eligible former employees under one of the Company's U.K. pension plans, that if accepted, would settle the Company's pension obligations to them. The lump sum cash payment offer closed during the second quarter of 2016. In total, lump sum payments from plan assets of £116 million (\$159 million using June 30, 2016 exchange rates) were paid. As a result of this settlement, the Company remeasured the assets and liabilities of the U.K. pension plan during the second quarter of 2016, which in aggregate resulted in a net reduction to the projected benefit obligation of £103

million (\$141 million using June 30, 2016 exchange rates) as well as a non-cash settlement charge of £42 million (\$61 million using average June 2016 exchange rate), in the second quarter of 2016.

Contributions

The Company expects to contribute approximately \$79 million, \$54 million, and \$17 million, based on exchange rates as of December 31, 2015, to its significant U.K., U.S., and other significant international pension plans, respectively, during 2016. During the three months ended June 30, 2016, contributions of \$17 million, \$6 million, and \$3 million were made to the Company's significant U.K., U.S., and other significant international pension plans, respectively. During the six months ended June 30, 2016, contributions of \$34 million, \$19 million, and \$10 million were made to the Company's significant U.K., U.S., and other significant international pension plans, respectively.

During the three months ended June 30, 2015, contributions of \$15 million, \$28 million, and \$4 million were made to the Company's significant U.K., U.S., and other significant international pension plans, respectively. During the six months ended June 30, 2015, contributions of \$34 million, \$62 million, and \$8 million were made to the Company's significant U.K., U.S., and other significant international pension plans, respectively.

11. Share-Based Compensation Plans

The following table summarizes share-based compensation expense recognized in the Condensed Consolidated Statements of Income in Compensation and benefits (in millions):

	Three months ended June 30, 2016		Six months ended June 30, 2016	
	2016	2015	2016	2015
Restricted share units ("RSUs")	\$44	\$44	\$105	\$109
Performance share awards ("PSAs")	25	28	45	49
Share options	—	—	—	—
Employee share purchase plans	2	2	6	6
Total share-based compensation expense	\$71	\$74	\$156	\$164

Restricted Share Units

A summary of the status of the Company's RSUs is as follows (shares in thousands):

	Six months ended June 30,			
	2016		2015	
	Shares	Fair Value (1)	Shares	Fair Value (1)
Non-vested at beginning of period	7,169	\$ 77	8,381	\$ 63
Granted	2,023	101	2,144	98
Vested	(2,581)	70	(3,037)	58
Forfeited	(213)	79	(130)	67
Non-vested at end of period	6,398	87	7,358	76

(1) Represents per share weighted-average fair value of award at date of grant.

Performance Share Awards

The vesting of PSAs is contingent upon meeting a cumulative level of earnings per share performance over a three-year period. The performance conditions are not considered in the determination of the grant date fair value for these awards. The fair value of PSAs is based upon the market price of an Aon ordinary share at the date of grant.

Compensation expense is recognized over the performance period based on management's estimate of the number of awards expected to vest. Compensation expense is adjusted to reflect the actual number of shares issued at the end of the programs. The actual issue of shares may range from 0-200% of the target number of PSAs granted, based on the terms of the plan and level of achievement of the related performance target. Dividend equivalents are not paid on PSAs.

Information as of June 30, 2016 regarding the Company's target PSAs granted and shares that would be issued at current performance levels for PSAs granted during the six months ended June 30, 2016 and the years ended December 31, 2015 and 2014, respectively, is as follows (shares in thousands, dollars in millions, except fair value):

	2016	2015	2014
Target PSAs granted during period	783	993	816
Weighted average fair value per share at date of grant	\$101	\$96	\$81
Number of shares that would be issued based on current performance levels	772	963	1,552
Unamortized expense, based on current performance levels	\$71	\$49	\$21

Share Options

The Company did not grant any share options during either the six months ended June 30, 2016 or the six months ended June 30, 2015.

A summary of the status of the Company's share options and related information is as follows (shares in thousands):

	Six months ended June 30,		2015	
	2016		2015	
	Shares	Weighted- Average Exercise Price	Shares	Weighted- Average Exercise Price
Beginning outstanding	837	\$ 40	2,300	\$ 32
Granted	—	—	—	—
Exercised	(271)	38	(1,388)	27
Forfeited and expired	(5)	42	(13)	39
Outstanding at end of period	561	41	899	39
Exercisable at end of period	561	41	899	39

The weighted average remaining contractual life, in years, of outstanding options was 2.4 years and 2.7 years at June 30, 2016 and 2015, respectively.

The aggregate intrinsic value represents the total pretax intrinsic value, based on options with an exercise price less than the Company's closing share price of \$109.23 as of June 30, 2016, which would have been received by the option holders had those option holders exercised their options as of that date. At June 30, 2016, the aggregate intrinsic value of options outstanding, all of which were exercisable, was \$38 million.

Other information related to the Company's share options is as follows (in millions):

	Three		Six	
	months	months	months	months
	ended	ended	ended	ended
	June 30,	June 30,	June 30,	June 30,
	2016	2015	2016	2015
Aggregate intrinsic value of stock options exercised	\$9	\$6	\$17	\$100
Cash received from the exercise of stock options	6	4	11	38
Tax benefit realized from the exercise of stock options	2	1	4	35

Unamortized deferred compensation expense, which includes both options and RSUs, amounted to \$460 million as of June 30, 2016, with a remaining weighted-average amortization period of approximately 2.0 years.

12. Derivatives and Hedging

The Company is exposed to market risks, including changes in foreign currency exchange rates and interest rates. To manage the risk related to these exposures, the Company enters into various derivative instruments that reduce these risks by creating offsetting exposures. The Company does not enter into derivative transactions for trading or speculative purposes.

Foreign Exchange Risk Management

The Company is exposed to foreign exchange risk when it earns revenues, pays expenses, enters into monetary intercompany transfers denominated in a currency that differs from its functional currency, or enters into other transactions that are denominated in a currency other than its functional currency. The Company uses foreign exchange derivatives, typically forward contracts, options and cross currency swaps, to reduce its overall exposure to the effects of currency fluctuations on cash flows. These exposures are hedged, on average, for less than two years. These derivatives are accounted for as hedges, and changes in fair value are recorded each period in Other comprehensive income (loss) in the Condensed Consolidated Statements of Comprehensive Income.

The Company also uses foreign exchange derivatives, typically forward contracts and options, to economically hedge the currency exposure of the Company's global liquidity profile, including monetary assets or liabilities that are denominated in a non-functional currency of an entity, typically on a rolling 30 day basis, but may be for up to one year in the future. These derivatives are not accounted for as hedges, and changes in fair value are recorded each period in Other income in the Condensed Consolidated Statements of Income.

The notional and fair values of derivative instruments are as follows (in millions):

	Notional Amount		Derivative Assets (1)		Derivative Liabilities (2)	
	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015
Foreign exchange contracts:						
Accounted for as hedges	\$ 808	\$ 778	\$ 16	\$ 32	\$ 12	\$ 18
Not accounted for as hedges (3)	201	280	—	—	—	—
Total	\$ 1,009	\$ 1,058	\$ 16	\$ 32	\$ 12	\$ 18

(1) Included within Other current assets (\$5 million at June 30, 2016 and \$15 million at December 31, 2015) or Other non-current assets (\$11 million at June 30, 2016 and \$17 million at December 31, 2015).

(2) Included within Other current liabilities (\$8 million at June 30, 2016 and \$13 million at December 31, 2015) or Other non-current liabilities (\$4 million at June 30, 2016 and \$5 million at December 31, 2015).

(3) These contracts typically are for 30 day durations are executed close to the last day of the most recent reporting month, thereby resulting in nominal fair values at the balance sheet date.

Offsetting of financial assets and derivatives assets are as follows (in millions):

	Gross Amounts of Recognized Assets		Gross Amounts Offset in the Statement of Financial Position		Net Amounts of Assets Presented in the Statement of Financial Position (1)	
	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015
Derivatives accounted for as hedges:						
Foreign exchange contracts	\$ 16	\$ 32	\$(5)	\$(13)	\$ 11	\$ 19

(1) Included within Other current assets (\$2 million at June 30, 2016 and \$6 million at December 31, 2015) or Other non-current assets (\$9 million at June 30, 2016 and \$13 million at December 31, 2015).

Offsetting of financial liabilities and derivative liabilities are as follows (in millions):

	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Statement of	Net Amounts of Liabilities Presented in the
--	---	--	---

Edgar Filing: Aon plc - Form 10-Q

	Financial Position				Statement of Financial Position (1)	
Derivatives accounted for as hedges:	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015
Foreign exchange contracts	\$ 12	\$ 18	\$(5)	\$(13)	\$ 7	\$ 5

(1) Included within Other current liabilities (\$5 million at June 30, 2016 and \$4 million at December 31, 2015) or Other non-current liabilities (\$2 million at June 30, 2016 and \$1 million at December 31, 2015).

The amounts of derivative gains (losses) recognized in the Condensed Consolidated Financial Statements for the three and six months ended June 30, 2016 and 2015 are as follows (in millions):

	Location of future reclassification from Accumulated Other Comprehensive Loss			Gain (Loss) Recognized in Accumulated Other Comprehensive Loss:
	Compensation and General Benefits	Interest Expense	Other Income (Expense)	Total
Cash Flow Hedge - Foreign Exchange Contracts				
Three months ended June 30,				
2016	\$ (2)	\$ —	\$ (6)	\$ (8)
2015	1 3	—	10	14
Cash Flow Hedge - Foreign Exchange Contracts				Gain (Loss) Recognized in Accumulated Other Comprehensive Loss:
Six months ended June 30,				
2016	\$(2)	\$ (5)	\$ (11)	\$ (18)
2015	6 1	—	6	13
Cash Flow Hedge - Foreign Exchange Contracts	Gain (Loss) Reclassified from Accumulated Other Comprehensive Loss into Income (Effective Portion):			
Three months ended June 30,				
2016	\$ (1)	\$ (1)	\$ (2)	\$(4)
2015	1 (1)	(2)	5	3
Cash Flow Hedge - Foreign Exchange Contracts	Gain (Loss) Reclassified from Accumulated Other Comprehensive Loss into Income (Effective Portion):			
Six months ended June 30,				
2016	\$1	\$ (1)	\$ (3)	\$(4)
2015	1 (1)	(4)	(3)	(7)

The Company estimates that approximately \$15 million of pretax losses currently included within Accumulated other comprehensive loss will be reclassified into earnings in the next twelve months.

The amount of gain (loss) recognized in income on the ineffective portion of derivatives for the three and six months ended June 30, 2016 and 2015 was not material.

During the three and six months ended June 30, 2016, the Company recorded a loss of \$2 million and \$1 million, respectively, in Other income for foreign exchange derivatives not designated or qualifying as hedges. During the

three and six months ended June 30, 2015, the Company recorded a gain of \$2 million and \$9 million, respectively, in Other income for foreign exchange derivatives not designated or qualifying as hedges.

Net Investments in Foreign Operations Risk Management

The Company uses non-derivative financial instruments to protect the value of its investments in a number of foreign subsidiaries. Beginning in June 2016, the Company designated its Euro-denominated commercial paper issuances as a non-derivative hedge of a net investment in its European operations. The change in the carrying value of the designated portion of the Euro-denominated commercial paper due to changes in foreign currency exchange rates is recorded in Foreign currency translation adjustment, a component of Accumulated other comprehensive income (loss), offsetting the foreign currency translation adjustment of the hedged net investments that is also recorded in Accumulated other comprehensive income (loss). Any ineffective portions of net investment hedges are reclassified from Accumulated other comprehensive income (loss) into earnings during the period of change.

As of June 30, 2016, the Company has €217 million (\$241 million at June 30, 2016 exchange rates) of outstanding Euro-denominated commercial paper designated as a hedge of its net investment in its European operations. The weighted average commercial paper outstanding for June 2016 was €55 million. The associated gain recognized in Accumulated other comprehensive income (loss) related to the net investment hedge was \$4 million.

The Company did not reclassify any deferred gains or losses related to net investment hedges from Accumulated other comprehensive income (loss) to earnings during the three or six months ended June 30, 2016. In addition, the Company did not have any ineffectiveness related to net investment hedges during the three or six months ended June 30, 2016.

13. Fair Value Measurements and Financial Instruments

Accounting standards establish a three tier fair value hierarchy that prioritizes the inputs used in measuring fair values as follows:

- Level 1 — observable inputs such as quoted prices for identical assets in active markets;
- Level 2 — inputs other than quoted prices for identical assets in active markets, that are observable either directly or indirectly; and
- Level 3 — unobservable inputs in which there is little or no market data which requires the use of valuation techniques and the development of assumptions.

The following methods and assumptions are used to estimate the fair values of the Company's financial instruments:

Money market funds are carried at cost as an approximation of fair value. Based on market convention, the Company considers cost a practical and expedient measure of fair value.

Equity investments consist of domestic and international equity securities valued using the closing stock price on a national securities exchange. The Company reviews the listing of Level 1 equity securities in the portfolio and agrees the closing stock prices to a national securities exchange, and on a sample basis, independently verifies the observable inputs for Level 2 equity securities.

Fixed income investments consist of corporate and government bonds. Corporate and government bonds are valued by pricing vendors who estimate fair value using recently executed transactions and proprietary models based on observable inputs, such as interest rate spreads, yield curves and credit risk. The Company obtains a detailed understanding of the models, inputs, and assumptions used in developing prices provided by its vendors. This understanding includes discussions with valuation resources at the vendor. During these discussions, the Company uses a fair value measurement questionnaire, which is part of the Company's internal controls over financial reporting, to obtain the information necessary to assert the model, inputs and assumptions used to comply with U.S. GAAP, including disclosure requirements. The Company also obtains observable inputs from the pricing vendor and independently verifies the observable inputs, as well as assesses assumptions used for reasonableness based on relevant market conditions and internal Company guidelines. If an assumption is deemed unreasonable, based on the Company's guidelines, it is then reviewed by management and the fair value estimate provided by the vendor is adjusted, if deemed appropriate. These adjustments do not occur frequently and have historically not been material to the fair value estimates used in the Condensed Consolidated Financial Statements.

Derivatives are carried at fair value, based upon industry standard valuation techniques that use, where possible, current market-based or independently sourced pricing inputs, such as interest rates, currency exchange rates, or implied volatilities.

Debt is carried at outstanding principal balance, less any unamortized discount or premium. Fair value is based on quoted market prices or estimates using discounted cash flow analyses based on current borrowing rates for similar types of borrowing arrangements.

The following tables present the categorization of the Company's assets and liabilities that are measured at fair value on a recurring basis at June 30, 2016 and December 31, 2015 (in millions):

	Fair Value Measurements Using			
	Balance at June 30, 2016	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Money market funds (1)	\$ 1,483	\$ 1,483	\$ —	\$ —
Other investments:				
Government bonds	1	—	1	—
Equity investments	10	6	4	—
Derivatives (2):				
Foreign exchange contracts	16	—	16	—
Liabilities:				
Derivatives:				
Foreign exchange contracts	12	—	12	—

(1) Included within Fiduciary assets, Short-term investments or Cash and cash equivalents in the Condensed Consolidated Statements of Financial Position, depending on their nature and initial maturity.

(2) See Note 12 "Derivatives and Hedging" for additional information regarding the Company's derivative and hedging activity.

	Fair Value Measurements Using			
	Balance at December 31, 2015	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Money market funds (1)	\$ 1,396	\$ 1,396	\$ —	\$ —
Other investments:				
Government bonds	1	—	1	—
Equity investments	10	6	4	—
Derivatives (2):				
Foreign exchange contracts	32	—	32	—
Liabilities:				
Derivatives:				
Foreign exchange contracts	18	—	18	—

(1) Included within Fiduciary assets, Short-term investments or Cash and cash equivalents in the Condensed Consolidated Statements of Financial Position, depending on their nature and initial maturity.

(2) See Note 12 "Derivatives and Hedging" for additional information regarding the Company's derivative and hedging activity.

There were no transfers of assets or liabilities between fair value hierarchy levels in either the three or six months ended June 30, 2016 or 2015. The Company recognized no realized or unrealized gains or losses in the Condensed Consolidated Statements of Income during either the three or six months ended June 30, 2016 or 2015, related to assets and liabilities measured at fair value using unobservable inputs.

The fair value of Long-term debt is classified as Level 2 of the fair value hierarchy. The following table discloses the Company's financial instruments where the carrying amounts and fair values differ (in millions):

	June 30, 2016		December 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Long-term debt	\$5,907	\$6,448	\$5,138	\$5,386

14. Commitments and Contingencies

Legal

Aon and its subsidiaries are subject to numerous claims, tax assessments, lawsuits and proceedings that arise in the ordinary course of business, which frequently include errors and omissions ("E&O") claims. The damages claimed in these matters are or may be substantial, including, in many instances, claims for punitive, treble or extraordinary damages. While Aon maintains meaningful E&O insurance and other insurance programs to provide protection against certain losses that arise in such matters, Aon has exhausted or materially depleted its coverage under some of the policies that protect the Company and, consequently, is self-insured or materially self-insured for some claims. Accruals for these exposures, and related insurance receivables, when applicable, are included in the Condensed Consolidated Statements of Financial Position and have been recognized in Other general expenses in the Condensed Consolidated Statements of Income to the extent that losses are deemed probable and are reasonably estimable. These amounts are adjusted from time to time as developments warrant. Matters that are not probable and reasonably estimable are not accrued for in the financial statements.

We have included in the matters described below certain matters in which (1) loss is probable, (2) loss is reasonably possible; that is, more than remote but not probable, or (3) there exists the reasonable possibility of loss greater than the accrued amount. In addition, we may from time to time disclose matters for which the probability of loss could be remote but the claim amounts associated with such matters are potentially significant. The reasonably possible range of loss for the matters described below, in excess of amounts that are deemed probable and estimable and therefore already accrued, is estimated to be between \$0 and \$0.3 billion, exclusive of any insurance coverage. These estimates are based on currently available information. As available information changes, the matters for which Aon is able to estimate may change, and the estimates themselves may change. In addition, many estimates involve significant judgment and uncertainty. For example, at the time of making an estimate, Aon may only have limited information about the facts underlying the claim, and predictions and assumptions about future court rulings and outcomes may prove to be inaccurate. Although management at present believes that the ultimate outcome of all matters described below, individually or in the aggregate, will not have a material adverse effect on the consolidated financial position of Aon, legal proceedings are subject to inherent uncertainties and unfavorable rulings or other events. Unfavorable resolutions could include substantial monetary or punitive damages imposed on Aon or its subsidiaries. If unfavorable outcomes of these matters were to occur, future results of operations or cash flows for any particular quarterly or annual period could be materially adversely affected.

Current Matters

A retail insurance brokerage subsidiary of Aon was sued on September 14, 2010 in the Chancery Court for Davidson County, Tennessee, Twentieth Judicial District, at Nashville by a client, Opry Mills Mall Limited Partnership ("Opry Mills") that sustained flood damage to its property in May 2010. The lawsuit seeks \$200 million in coverage from numerous insurers with whom this Aon subsidiary placed the client's property insurance coverage. The insurers contend that only \$50 million in coverage (which has already been paid) is available for the loss because the flood event occurred on property in a high hazard flood zone. Opry Mills is seeking full coverage from the insurers for the loss and has sued this Aon subsidiary in the alternative for the same \$150 million difference on various theories of professional liability if the court determines there is not full coverage. In addition, Opry Mills seeks prejudgment interest, attorneys' fees and enhanced damages which could substantially increase Aon's exposure. In March 2015, the trial court granted partial summary judgment in favor of plaintiffs and against the insurers, holding generally that the plaintiffs are entitled to \$200 million in coverage under the language of the policies. In August 2015, a jury returned a verdict in favor of Opry Mills and against the insurers in the amount of \$204 million. Aon understands that the insurers intend to appeal both of these trial court decisions. Aon believes it has meritorious defenses and intends to vigorously defend itself against these claims.

A pensions consulting and administration subsidiary of Hewitt before its acquisition by Aon provided advisory services to the Trustees of the Philips UK pension fund and the relevant employer of fund beneficiaries. On January 2, 2014, Philips Pension Trustees Limited and Philips Electronics UK Limited (together, "Philips") sued Aon in the High Court, Chancery Division, London alleging negligence and breach of duty. The proceedings assert Philips' right to claim damages related to Philips' use of a credit default swap hedging strategy pursuant to the supply of the advisory services, which is said to have resulted in substantial damages to Philips. Philips sought approximately £189 million (\$259 million at June 30, 2016 exchange rates), plus interest and costs. In June 2015, the High Court ordered Philips to clarify several aspects of its claim. In its clarification, Philips increased the amount of its claim to £290 million (\$397 million at June 30, 2016 exchange rates), plus interest and costs. Aon believes that it has meritorious defenses and intends to vigorously defend itself against these allegations.

On June 1, 2007, the International Road Transport Union ("IRU") sued Aon in the Geneva Tribunal of First Instance in Switzerland. IRU alleges, among other things, that, between 1995 and 2004, a business acquired by Aon and, later, an Aon

subsidiary (1) accepted commissions for certain insurance placements that violated a fee agreement entered between the parties and (2) negligently failed to ask certain insurance carriers to contribute to the IRU's risk management costs. IRU sought damages of approximately CHF 46 million (\$47 million at June 30, 2016 exchange rates) and \$3 million, plus legal fees and interest of approximately \$30 million. On December 2, 2014, the Geneva Tribunal of First Instance entered a judgment that accepted some, and rejected other, of IRU's claims. The judgment awarded IRU CHF 16.8 million (\$17 million at June 30, 2016 exchange rates) and \$3.1 million, plus interest and adverse costs. The entire amount of the judgment, including interest through December 31, 2014, totaled CHF 27.9 million (\$29 million at June 30, 2016 exchange rates) and \$5 million. On January 26, 2015, in return for IRU agreeing not to appeal the bulk of its dismissed claims, the Aon subsidiary agreed not to appeal a part of the judgment and to pay IRU CHF 12.8 million (\$13 million at June 30, 2016 exchange rates) and \$4.7 million without Aon admitting liability. The Aon subsidiary appealed those aspects of the judgment it retained the right to appeal. IRU did not appeal. The Geneva Appellate Court affirmed the judgment of the Geneva Tribunal of First Instance. The Geneva Appellate Court's judgment can be appealed to the Swiss Supreme Court. The Aon subsidiary's maximum liability on appeal is limited to CHF 8.7 million (\$9 million at June 30, 2016 exchange rates) and \$115,000 (plus interest and costs) beyond what the subsidiary has already paid.

A pensions consulting and administration subsidiary of Aon provided advisory services to the Trustees of the Gleeds pension fund in the United Kingdom and, on occasion, to the relevant employer of the fund. In April 2014, the High Court, Chancery Division, London found that certain governing documents of the fund that sought to alter the fund's benefit structure and that had been drafted by Aon were procedurally defective and therefore invalid. No lawsuit naming Aon as a party has been filed, although a tolling agreement has been entered. The High Court decision says that the additional liabilities in the pension fund resulting from the alleged defect in governing documents amount to approximately £45 million (\$62 million at June 30, 2016 exchange rates). In December 2014, the Court of Appeal granted the employer leave to appeal the High Court decision. The Court of Appeal hearing was set for October 2015, but has been postponed to permit the parties to discuss possible settlement. Aon believes that it has meritorious defenses and intends to vigorously defend itself against this potential claim.

On June 29, 2015, Lyttelton Port Company Limited ("LPC") sued Aon New Zealand in the Christchurch Registry of the High Court of New Zealand. LPC alleges, among other things, that Aon was negligent and in breach of contract in arranging LPC's property insurance program for the period covering June 30, 2010 to June 30, 2011. LPC contends that acts and omissions by Aon caused LPC to recover less than it otherwise would have from insurers for losses suffered in the 2010/2011 Canterbury Earthquakes. LPC claims damages of approximately NZD 184 million (\$131 million at June 30, 2016 exchange rates) plus interest and costs. Aon believes that it has meritorious defenses and intends to vigorously defend itself against these claims.

In addition, from time to time, Aon's clients may bring claims and take legal action pertaining to the performance of fiduciary responsibilities. Whether client claims and legal action related to the Company's performance of fiduciary responsibilities are founded or unfounded, if such claims and legal actions are resolved in a manner unfavorable to the Company, they may adversely affect Aon's financial results and materially impair the market perception of the Company and that of its products and services.

Guarantees and Indemnifications

In connection with the redomicile of Aon's headquarters (the "Redomestication"), the Company on April 2, 2012 entered into various agreements pursuant to which it agreed to guarantee the obligations of its subsidiaries arising under issued and outstanding debt securities. Those agreements included the (1) Amended and Restated Indenture, dated as of April 2, 2012, among Aon Corporation, Aon plc, and The Bank of New York Mellon Trust Company, N.A., as trustee (the "Trustee") (amending and restating the Indenture, dated as of September 10, 2010, between Aon Corporation and the Trustee), (2) Amended and Restated Indenture, dated as of April 2, 2012, among Aon

Corporation, Aon plc and the Trustee (amending and restating the Indenture, dated as of December 16, 2002, between Aon Corporation and the Trustee), (3) Amended and Restated Indenture, dated as of April 2, 2012, among Aon Corporation, Aon plc and the Trustee (amending and restating the Indenture, dated as of January 13, 1997, as supplemented by the First Supplemental Indenture, dated as of January 13, 1997), and (4) First Supplemental Indenture, dated as of April 2, 2012, among Aon Finance N.S. 1, ULC, as issuer, Aon Corporation, as guarantor, Aon plc, as guarantor, and Computershare Trust Company of Canada, as trustee.

The Company provides a variety of guarantees and indemnifications to its customers and others. The maximum potential amount of future payments represents the notional amounts that could become payable under the guarantees and indemnifications if there were a total default by the guaranteed parties, without consideration of possible recoveries under recourse provisions or other methods. These amounts may bear no relationship to the expected future payments, if any, for these guarantees and indemnifications. Any anticipated amounts payable are included in the Company's Condensed Consolidated Financial Statements, and are recorded at fair value.

The Company expects that, as prudent business interests dictate, additional guarantees and indemnifications may be issued from time to time.

Letters of Credit

The Company had total letters of credit ("LOCs") outstanding of approximately \$82 million at June 30, 2016, compared to \$58 million at December 31, 2015. These letters of credit cover the beneficiaries related to certain of Aon's U.S. and Canadian non-qualified pension plan schemes and secure deductible retentions for the Company's own workers compensation program. The Company has also issued LOCs to cover contingent payments for taxes and other business obligations to third parties, and other guarantees for miscellaneous purposes at its international subsidiaries.

Commitments

The Company has provided commitments to fund certain limited partnerships in which it has an interest in the event that the general partners request funding. Some of these commitments have specific expiration dates and the maximum potential funding under these commitments was \$12 million at June 30, 2016 and December 31, 2015. During the three and six months ended June 30, 2016, no significant commitments were funded.

Premium Payments

The Company has certain contractual contingent guarantees for premium payments owed by clients to certain insurance companies. The maximum exposure with respect to such contractual contingent guarantees was approximately \$89 million at June 30, 2016 compared to \$104 million at December 31, 2015.

15. Segment Information

The Company has two reportable segments: Risk Solutions and HR Solutions. Unallocated income and expenses, when combined with the operating segments and after the elimination of intersegment revenues and expenses, equal the amounts in the Condensed Consolidated Financial Statements.

Reportable operating segments have been determined using a management approach, which is consistent with the basis and manner in which Aon's chief operating decision-maker ("CODM") uses financial information for the purposes of allocating resources and evaluating performance. The CODM assesses performance based on operating income and generally accounts for inter-segment revenue as if the revenue were from third parties and at what management believes are current market prices. The Company does not present net assets by segment as this information is not reviewed by the CODM.

Risk Solutions acts as an advisor and insurance and reinsurance broker, helping clients manage their risks, via consultation, as well as negotiation and placement of insurance risk with insurance carriers through Aon's global distribution network.

HR Solutions partners with organizations to solve their most complex benefits, talent and related financial challenges, and improve business performance by designing, implementing, communicating and administering a wide range of human capital, retirement, investment management, health care, compensation and talent management strategies.

Aon's total revenue is as follows (in millions):

Three months		Six months	
ended June 30,		ended June 30,	
2016	2015	2016	2015

Edgar Filing: Aon plc - Form 10-Q

Risk Solutions	\$1,847	\$1,833	\$3,719	\$3,728
HR Solutions	931	979	1,861	1,949
Intersegment eliminations	(12)	(7)	(22)	(25)
Total revenue	\$2,766	\$2,805	\$5,558	\$5,652

25

Commissions, fees and other revenues by product are as follows (in millions):

	Three months		Six months	
	ended June 30,		ended June 30,	
	2016	2015	2016	2015
Retail brokerage	\$1,508	\$1,498	\$3,003	\$3,011
Reinsurance brokerage	334	330	706	707
Total Risk Solutions Segment	1,842	1,828	3,709	3,718
Consulting services	383	391	757	762
Outsourcing	550	599	1,110	1,203
Intrasegment	(2)	(11)	(6)	(16)
Total HR Solutions Segment	931	979	1,861	1,949
Intersegment	(12)	(7)	(22)	(25)
Total commissions, fees and other revenue	\$2,761	\$2,800	\$5,548	\$5,642

Fiduciary investment income by segment is as follows (in millions):

	Three		Six	
	months		months	
	ended		ended	
	June 30,		June 30,	
	2016	2015	2016	2015
Risk Solutions	\$ 5	\$ 5	\$10	\$10
HR Solutions	—	—	—	—
Total fiduciary investment income	\$ 5	\$ 5	\$10	\$10

A reconciliation of segment operating income before tax to income before income taxes is as follows (in millions):

	Three months		Six months	
	ended June		ended June	
	30,		30,	
	2016	2015	2016	2015
Risk Solutions	\$373	\$279	\$802	\$691
HR Solutions	75	39	142	115
Segment income before income taxes	448	318	944	806
Unallocated expenses	(43)	(41)	(89)	(88)
Interest income	3	4	5	7
Interest expense	(73)	(68)	(142)	(133)
Other income	—	1	18	43
Income before income taxes	\$335	\$214	\$736	\$635

Unallocated expenses include administrative or other costs not attributable to the operating segments, such as corporate governance costs. Interest income represents income earned primarily on operating cash balances and certain income producing securities. Interest expense represents the cost of debt obligations.

Other income consists of equity earnings, realized gains or losses on the sale of investments, gains or losses on the disposal of businesses, gains or losses on derivatives, and gains or losses on foreign currency transactions.

16. Guarantee of Registered Securities

As described in Note 14, in connection with the Redomestication, Aon plc entered into various agreements pursuant to which it agreed to guarantee the obligations of Aon Corporation arising under issued and outstanding debt securities, including the 5.00% Notes due September 2020, the 8.205% Notes due January 2027 and the 6.25% Notes due September 2040. Aon Corporation is a 100% indirectly owned subsidiary of Aon plc. All guarantees of Aon plc are full and unconditional. There are no other subsidiaries of Aon plc that are guarantors of the debt. In addition, Aon Corporation entered into an agreement pursuant to which it agreed to guarantee the obligations of Aon plc arising under the 4.250% Notes due 2042 exchanged for Aon Corporation's outstanding 8.205% Notes due January 2027 and also agreed to guarantee the obligations of Aon plc arising under the 2.8% Notes due 2021, the 4.45% Notes due 2043, the 4.00% Notes due November 2023, the 2.875% Notes due May 2026, the 3.50% Notes due June 2024, the 4.60% Notes due June 2044, the 4.75% Notes due May 2045, and the 3.875% Notes due December 2025. In each case, the guarantee of Aon Corporation is full and unconditional. There are no subsidiaries of Aon plc, other than Aon Corporation, that are guarantors of the 4.250% Notes due 2042, the 4.45% Notes due 2043, the 4.00% Notes due 2023, the 2.875% Notes due 2026, the 3.50% Notes due 2024, the 4.60% Notes due 2044, or the 4.75% Notes due 2045. As a result of the existence of these guarantees, the Company is required by Rule 3-10 of Regulation S-X to present the financial information set forth in this footnote.

The following tables set forth condensed consolidating statements of income for the three and six months ended June 30, 2016 and 2015, condensed consolidating statements of comprehensive income for the three and six months ended June 30, 2016 and 2015, condensed consolidating statements of financial position as of June 30, 2016 and December 31, 2015, and condensed consolidating statements of cash flows for the six months ended June 30, 2016 and 2015 in accordance with Rule 3-10 of Regulation S-X. The condensed consolidating financial information includes the accounts of Aon plc, the accounts of Aon Corporation, and the combined accounts of the non-guarantor subsidiaries. The condensed consolidating financial statements are presented in all periods as a merger under common control, with Aon plc presented as the parent company in all periods prior and subsequent to the Redomestication. The principal consolidating adjustments are to eliminate the investment in subsidiaries and intercompany balances and transactions.

In January 2015, Aon plc transferred its ownership of all of its directly held subsidiaries to Aon Global Holdings Limited, an intermediate holding company. The financial results of Aon Global Holdings Limited are included in the Other Non-Guarantor Subsidiaries column of the Condensed Consolidating Financial Statements. The Company has reflected the transfer of Aon Corporation from Aon plc to Aon Global Holdings Limited below for all periods presented.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

EXECUTIVE SUMMARY OF SECOND QUARTER 2016 FINANCIAL RESULTS

During the second quarter of 2016, we continued to face certain headwinds that adversely impacted our business in prior periods. In our Risk Solutions segment, these headwinds included adverse changes in foreign currency exchange rates and a negative market impact in our Reinsurance business. In our HR Solutions segment, these headwinds included price compression in our benefits administration business.

The following is a summary of our second quarter and first six months of 2016 financial results:

For the second quarter of 2016, revenue decreased \$39 million, or 1%, to \$2.8 billion compared to the prior year period due primarily to a 2% unfavorable impact from foreign currency exchange rates and a 2% decrease in commissions and fees related to net divestitures, partially offset by organic revenue growth of 3%. For the first six months ended June 30, 2016, revenue decreased 2% compared to the prior year period due primarily to a 3% unfavorable impact from foreign currency exchange rates and a 2% decrease in commissions and fees related to net divestitures, partially offset by organic revenue growth of 3%. In Risk Solutions, organic revenue growth in the second quarter and first six months of 2016 was driven by strong organic growth in Retail brokerage across both the Americas and International businesses, as well as modest growth in Reinsurance compared to the prior year periods. The HR Solutions segment for the second quarter and first six months of 2016 had modest organic growth in Consulting compared to the prior year periods.

Operating expenses for the second quarter of 2016 were \$2.4 billion, a decrease of \$167 million, or 7%, compared to the prior year period. The decrease was primarily due to a \$176 million decrease in expense related to certain legacy litigation settlements in the prior year quarter, a \$52 million decrease in expenses related to net divestitures, a \$49 million favorable impact from foreign currency translation, and an \$11 million decrease in intangible asset amortization, partially offset by a \$62 million increase in expense related to certain pension settlements and an increase in expense to support 3% organic revenue growth. Operating expenses for the first six months of 2016 decreased by \$231 million compared to the prior year period primarily due to a \$176 million decrease in expense related to certain legacy litigation settlements in the prior year period, a \$131 million favorable impact from foreign currency exchange rates, a \$93 million decrease in expenses related to acquisitions, net of divestitures, and a \$24 million decrease in intangible asset amortization, partially offset by a \$62 million increase in expense related to certain pension settlements, \$20 million of transaction and portfolio repositioning related costs in HR Solutions associated with the sale of certain businesses, and an increase in expense to support the 3% organic growth.

Operating margin increased to 14.6% in the second quarter 2016 from 9.9% in the prior year period. Operating Margin for the first six months of 2016 was 15.4% as compared to 12.7% for the same period in 2015. The increase in operating margin from the prior year period and first six months of 2016 was driven by organic revenue growth of 3%, return on investments, and a favorable impact from changes in foreign currency exchange rates, partially offset by an increase in expense. Operating margin for Risk Solutions increased 500 basis points from 15.2% in the second quarter 2015 to 20.2% in the second quarter 2016 and 310 basis points from 18.5% for the first six months of 2015 to 21.6% for the first six months of 2016. Operating margin for HR Solutions increased 410 basis points from 4.0% in the second quarter 2015 to 8.1% in the second quarter 2016 and 170 basis points from 5.9% for the first six months of 2015 to 7.6% for the first six months of 2016.

Due to the factors set forth above, Net income attributable to Aon shareholders increased \$94 million, or 53%, to \$272 million for the second quarter 2016 compared to the second quarter 2015. During the first six months of 2016, Net income attributable to shareholders increased \$81 million or 16% , to 587 million in compared to the first six months of 2015.

Cash flow provided by operating activities was \$764 million for the first six months of 2016, an increase of \$186 million from \$578 million provided by operating activities in the first six months of 2015. The increase was driven by an increase in net income, a decrease in cash tax payments, a decline in cash paid for pension contributions, and underlying working capital improvements.

We focus on four key non-GAAP metrics that we communicate to shareholders: organic revenue, adjusted operating margins, adjusted diluted earnings per share, and free cash flow. The following is our measure of performance against these four metrics for the second quarter of 2016:

Organic revenue growth, a non-GAAP measure as defined under the caption "Review of Consolidated Results — Organic Revenue," was 3% for the second quarter and first six months of 2016, an increase over 2% organic growth in the prior year second quarter and first six months of 2015. In Risk Solutions, organic revenue growth was driven by strong growth in Retail brokerage across both the Americas and International businesses, as well as modest growth in Reinsurance organic revenue. HR Solutions had modest organic growth in Consulting.

Adjusted operating margin, a non-GAAP measure as defined under the caption "Review of Consolidated Results — Adjusted Operating Margin," was 19.3% for Aon overall, 24.9% for the Risk Solutions segment, and 12.8% for the HR Solutions segment for the second quarter 2016. Adjusted operating margin was 19.0% for Aon overall, 24.2% for the Risk Solutions segment, and 13.2% for the HR Solutions segment for the second quarter 2015. For the first six months of 2016, adjusted operating margin was 18.9% for Aon overall, 24.5% for the Risk Solutions segment, and 12.3% for the HR Solutions operating segment. For the first six months of 2015, adjusted operating margin was 18.6% for Aon overall, 23.7% for the Risk Solutions segment, and 13.2% for the HR Solutions segment. The increase in adjusted operating margin for the Risk Solutions segment in the second quarter and first six months of 2016 as compared to the prior year period primarily reflected organic revenue growth of 3%, a favorable impact from foreign currency exchange rates, and return on investments in data and analytics. In the HR Solutions segment in the second quarter of 2016, the operating margin decline was primarily driven by an increase in expense to support future growth, partially offset by organic revenue growth of 1%. For the first six months of 2016, the decrease in adjusted operating margin as compared to the prior year period was primarily driven by \$20 million of transaction and portfolio repositioning related costs associated with the sale of certain businesses and increase in expense to support future growth, partially offset by organic growth of 2%.

- Adjusted diluted earnings per share from net income attributable to Aon's shareholders, a non-GAAP measure as defined under the caption "Review of Consolidated Results — Adjusted Diluted Earnings per Share," was \$1.39 per share in the second quarter and \$2.75 per share in the first six months of 2016, compared to \$1.31 per share in the second quarter and \$2.67 per share in the first six months of 2015.

Free cash flow, a non-GAAP measure as defined under the caption "Review of Consolidated Results — Free Cash Flow," increased \$224 million, or 51%, to \$660 million from the prior year period, driven by a 32% increase in cash flow from operations and a decrease of \$38 million in capital expenditures.

REVIEW OF CONSOLIDATED RESULTS

Summary of Results

Our consolidated results of operations follow (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015

Income taxes	55	26	129	106
Net income	280	188	607	529
Less: Net income attributable to noncontrolling interests	8	10	20	23
Net income attributable to Aon shareholders	\$272	\$178	\$587	\$506

Revenue

Total revenue decreased by \$39 million, or 1%, in the second quarter 2016 compared to the second quarter 2015. This change resulted from a \$14 million increase in Risk Solutions and a \$48 million decrease in HR Solutions, excluding intersegment eliminations. The results of the Risk Solutions segment reflected 3% organic growth in commissions and fees, partially offset by a 2% unfavorable impact from foreign currency exchange rates. The decrease in revenue in the HR Solutions segment was driven by a 5% decrease in fees and commissions related to net divestitures and a 1% unfavorable impact from foreign currency exchange rates, partially offset by 1% organic revenue growth.

First the first six months of 2016, revenue decreased 2%, or \$94 million, compared to the prior year period. The change consists of a \$9 million decrease in the Risk Solutions segment and a \$88 million decrease in the HR Solutions segment. The results of the Risk Solutions segment reflected a 3% unfavorable impact from foreign currency exchange rates, partially offset by 3% organic growth in commissions and fees. The decrease in HR Solutions revenue was driven by a 5% decrease in fees and commissions related to net divestitures and a 2% unfavorable impact from foreign currency exchange rates, partially offset by 2% organic growth.

Compensation and Benefits

Compensation and benefits increased \$35 million, or 2%, in the second quarter of 2016 compared to the second quarter 2015. This increase was primarily driven by a \$62 million increase in expenses related to certain pension settlements and an increase in expense associated with 3% organic revenue growth, partially offset by a \$34 million favorable impact from foreign currency exchange rates and a \$32 million decrease in expenses related to net divestitures.

Compensation and benefits increased \$1 million compared to the first six months of 2015. The increase was primarily driven by a \$62 million increase in expenses related to certain pension settlements, \$20 million of transaction and portfolio repositioning costs primarily associated with the sale of certain businesses, and an increase in expense to support 3% organic growth, partially offset by a \$92 million favorable impact from foreign currency exchange rates and a \$61 million favorable impact related to net divestitures.

Other General Expenses

Other general expenses in the second quarter of 2016 decreased \$202 million, or 23%, compared to the second quarter 2015. This decrease was due primarily to a \$176 million decrease in expense related to certain legacy litigation settlements in the prior year quarter, a \$20 million decrease in expenses related to net divestitures, a \$15 million favorable impact from foreign currency exchange rates, and an \$11 million decrease in intangible asset amortization, partially offset by an increase in expense to support 3% organic revenue growth.

Other general expenses in the first six months of 2016 decreased \$232 million, or 15%, compared to the first six months of 2015. This decrease was due primarily to a \$176 million decrease in expense related to certain legacy litigation settlements in the prior year quarter, \$39 million favorable impact from foreign currency exchange rates, a \$32 million decrease in expenses related to net divestitures, and a \$24 million decrease in intangible asset amortization, partially offset by an increase in expense to support 3% organic revenue growth.

Interest Income

Interest income represents income earned on operating cash balances and other income-producing investments. It does not include interest earned on funds held on behalf of clients. During the second quarter 2016, interest income decreased \$1 million to \$3 million compared to the second quarter 2015. For the first six months of 2016, Interest income decreased \$2 million to \$5 million compared to the first six months of 2015.

Interest Expense

Interest expense, which represents the cost of our debt obligations, increased \$5 million during the second quarter 2016 compared to the second quarter of 2015 and increased \$9 million compared to the first six months of 2015. The increase in interest expense is due to the overlap of \$750 million of notes issued in the first quarter of 2016 for notes that matured in the second quarter of 2016.

Other Income (Expense)

Other income was immaterial for the second quarter of 2016, compared to \$1 million for the second quarter of 2015. Other income for the second quarter 2016 includes net gains on the sale of certain businesses that were offset by net losses on certain long term investments and losses on foreign currency remeasurement. Other income of \$1 million in the second quarter 2015 primarily included net gains on certain long term investments and the sale of certain businesses.

Other income was \$18 million for the first six months of 2016, compared to \$43 million for the first six months of 2015. Other income for the first six months of 2016 includes \$41 million of net gains on the sale of certain businesses, partially offset by a \$16 million net loss on foreign currency remeasurement and \$10 million of net losses on certain long term investments. Other income of \$43 million in the first six months of 2015 primarily included a \$20 million gain on the sale of businesses, and \$17 million of foreign currency remeasurement gains.

Income before Income Taxes

Income before income taxes for the second quarter of 2016 was \$335 million, a 57% increase from \$214 million in the second quarter of 2015. Income before income taxes for the first six months of 2016 was \$736 million, a 16% increase from \$635 million from the first six months of 2015.

Income Taxes

The effective tax rate on net income was 16.4% and 12.2% for the quarters ended June 30, 2016 and 2015, respectively. The effective tax rate on net income was 17.5% and 16.8% for the six months ended June 30, 2016 and 2015, respectively. The effective tax rate for the six months ended June 30, 2016 was impacted by changes in the geographical distribution of income and certain discrete items.

Net Income Attributable to Aon Shareholders

Net income attributable to Aon shareholders for the three months ended June 30, 2016 increased to \$272 million, or \$1.01 per diluted share, from \$178 million, or \$0.62 per diluted share, in the prior year period. Net income attributable to Aon shareholders for the first six months of 2016 to \$587 million, or \$2.16 per diluted share, from \$506 million, or \$1.76 per diluted share, in the prior year period.

Non-GAAP Metrics

In our discussion of consolidated results, we sometimes refer to certain non-GAAP supplemental information derived from consolidated financial information specifically related to organic revenue growth, adjusted operating margin, adjusted diluted earnings per share, free cash flow, and the impact of foreign exchange rate fluctuations on operating results.

Organic Revenue

We use supplemental information related to organic revenue to help us and our investors evaluate business growth from existing operations. Organic revenue is a non-GAAP measure and excludes the impact of foreign exchange rate changes, acquisitions, divestitures, transfers between business units, fiduciary investment income, reimbursable expenses, and certain unusual items. Supplemental information related to organic revenue growth represents a measure not in accordance with U.S. GAAP, and should be viewed in addition to, not instead of, our Condensed Consolidated Financial Statements and Notes thereto. Industry peers provide similar supplemental information about their revenue performance, although they may not make identical adjustments. Reconciliations of this non-GAAP measure, organic revenue growth percentages, to the reported Commissions, fees and other revenue growth percentages, have been provided under the "Review by Segment" caption below.

Adjusted Operating Margin

We use adjusted operating margin as a non-GAAP measure of core operating performance of our Risk Solutions and HR Solutions segments. Adjusted operating margin excludes the impact of certain items, including intangible asset amortization, because management does not believe these expenses reflect our core operating performance. This supplemental information related to adjusted operating margin represents a measure not in accordance with U.S. GAAP and should be viewed in addition to, not instead of, our Condensed Consolidated Financial Statements and Notes thereto.

A reconciliation of this non-GAAP measure to the reported operating margin is as follows (in millions):

(1) Includes unallocated expenses and the elimination of inter-segment revenue.

Adjusted Diluted Earnings per Share

We also use adjusted diluted earnings per share as a non-GAAP measure of our core operating performance. Adjusted diluted earnings per share excludes the impact of intangible asset amortization, along with related income taxes, because management does not believe these expenses are representative of our core earnings. This supplemental information related to adjusted diluted earnings per share represents a measure not in accordance with U.S. GAAP and should be viewed in addition to, not instead of, our Condensed Consolidated Financial Statements and Notes thereto.

The effective tax rates used in the U.S. GAAP financial statements were 16.4% and 12.2% for the three months ended June 30, 2016 and 2015, respectively, and 17.5% and 16.8% for the six months ended June 30, 2016 and June 30, 2015, respectively. After adjusting to exclude the applicable tax impact associated with expenses for pension settlements, the adjusted effective tax rates for the second quarter and first six months of 2016 were 17.4% and 17.9%, respectively. After adjusting to exclude the applicable tax impact associated with expenses for legacy litigation, the adjusted effective tax rates for the second quarter and first six months of 2015 were 18.0% and 18.6%, respectively.

Reconciliations of this non-GAAP measure to the reported diluted earnings per share are as follows (in millions, except per share data):

	Three months ended June 30, 2016		
	U.S. GAAP	Adjustments	As Adjusted

Free Cash Flow

We use free cash flow, defined as cash flow provided by operations minus capital expenditures, as a non-GAAP measure of our core operating performance. This supplemental information related to free cash flow represents a measure not in accordance with U.S. GAAP and should be viewed in addition to, not instead of, our Condensed Consolidated Financial Statements and Notes thereto. The use of this non-GAAP measure does not imply or represent the residual cash flow for discretionary expenditures.

A reconciliation of this non-GAAP measure to cash flow provided by operations is as follows (in millions):

	Six months ended June 30,	
	2016	2015
Cash provided by operating activities - U.S. GAAP	\$764	\$578
Less: Capital expenditures	(104)	(142)
Free cash flow	\$660	\$436

Impact of Foreign Exchange Rate Fluctuations

Because we conduct business in more than 120 countries, foreign exchange rate fluctuations have a significant impact on our business. Foreign exchange rate movements may be significant and may distort true period-to-period comparisons of changes in revenue or pretax income. Therefore, to give financial statement users meaningful information about our operations, we have provided an illustration of the impact of foreign currency exchange rates on our financial results. The methodology used to calculate this impact isolates the impact of the change in currencies between periods by translating the prior year quarter's revenue, expenses, and net income using the current quarter's foreign exchange rates.

Translating prior year quarter results at current quarter foreign exchange rates, currency fluctuations had no impact and an unfavorable impact of \$0.05 on net income per diluted share during the three and six months ended June 30, 2016, respectively, and an unfavorable impact of \$0.07 and \$0.21 on adjusted net income per diluted share during the three and six months ended June 30, 2015, respectively. Currency fluctuations had no impact and an unfavorable impact of \$0.05 on adjusted net income per diluted share during the three and six months ended June 30, 2016, respectively, and an unfavorable impact of \$0.08 and \$0.22 on adjusted net income per diluted share during the three and six months ended June 30, 2015, respectively. These translations are performed for comparative and illustrative purposes only and do not impact the accounting policies or practices for amounts included in the Condensed Consolidated Financial Statements.

LIQUIDITY AND FINANCIAL CONDITION

Liquidity

Executive Summary

We believe that our balance sheet and strong cash flow provide us with adequate liquidity. Our primary sources of liquidity are cash flow from operations, available cash reserves, and debt capacity available under various credit facilities. Our primary uses of liquidity are operating expenses, capital expenditures, acquisitions, share repurchases, restructuring initiatives, pension obligations, and shareholder dividends. We believe that cash flows from operations, available credit facilities and the capital markets will be sufficient to meet our liquidity needs, including principal and interest payments on debt obligations, capital expenditures, pension contributions, and anticipated working capital requirements, for the foreseeable future.

Cash on our balance sheet includes funds available for general corporate purposes, as well as amounts restricted as to their use. Funds held on behalf of clients in a fiduciary capacity are segregated and shown together with uncollected insurance premiums in Fiduciary assets in the Condensed Consolidated Statement of Financial Position, with a corresponding amount in Fiduciary liabilities. Fiduciary funds generally cannot be used for general corporate purposes, and are not a source of liquidity for us.

Operating Activities

Net cash provided by operating activities during the six months ended June 30, 2016 increased \$186 million, or 32%, to \$764 million from the prior year period. This amount represents net income reported by the Company, as adjusted for gains or losses on sales of business, financial instruments and foreign exchange, and our non-cash expenses, which include share-based compensation, depreciation, and amortization, as well as changes in working capital that relate primarily to the timing of payments of accounts payable and accrued liabilities and collection of receivables. The increase from the prior year was primarily driven by increases in current income taxes, partially offset by reductions in pension contributions and restructuring payments, as well as working capital improvements.

Pension contributions were \$63 million for the six months ended June 30, 2016 as compared to \$104 million for the six months ended June 30, 2015. For the remainder of 2016, we expect to contribute approximately \$87 million to our pension plans, with the majority attributable to non-U.S. pension plans, which are subject to changes in foreign exchange rates.

We expect cash generated by operations for 2016 to be sufficient to service our debt and contractual obligations, finance capital expenditures, continue purchases of shares under the Repurchase Programs, and continue to pay dividends to our shareholders. Although cash from operations is expected to be sufficient to service these activities,

we have the ability to access the commercial paper markets or borrow under our credit facilities to accommodate any timing differences in cash flows. We have committed credit facilities totaling \$1.3 billion, of which all \$1.3 billion was available at June 30, 2016, and can access these facilities on a same day or next day basis. Additionally, under current market conditions, we believe that we could access capital markets to obtain debt financing for longer-term funding, if needed.

Investing Activities

Cash flow used for investing activities was \$84 million during the six months ended June 30, 2016. The primary drivers of the cash flow used for investing activities were \$104 million of capital expenditures, \$183 million of acquisitions of businesses, net of cash acquired, and \$6 million of net purchases of long-term investments, offset by \$103 million in proceeds from the sale of businesses and \$106 million in net sales of short-term investments. The gains and losses corresponding to cash flows provided by the net sales of long-term investments are recognized in Other income in the Condensed Consolidated Statements of Income.

Cash flow used for investing activities was \$201 million during the six months ended June 30, 2015. The primary drivers of the cash flow used for investing activities were \$97 million in net purchases of short-term investments, \$142 million of capital expenditures, and \$23 million of acquisitions of businesses, net of cash acquired, offset by \$52 million in proceeds from the sale of businesses and \$9 million of net proceeds from long-term investments.

Financing Activities

Cash flow used for financing activities during the six months ended June 30, 2016 was \$644 million. The primary drivers of the cash flow used for financing activities were \$750 million of share repurchases, \$169 million of dividends paid to shareholders, \$87 million in net cash payments related to issuance of shares, and \$62 million of transactions with noncontrolling interests and other financing activities, partially offset by \$424 million of issuances of debt, net of repayments.

Cash flow used for financing activities during the six months ended June 30, 2015 was \$341 million. The primary drivers of cash flow used for financing activities were \$550 million of share repurchases, \$156 million of dividends paid to shareholders, \$161 million in net cash payments related to issuance of shares, and \$23 million of transactions with noncontrolling interests and other financing activities, partially offset by \$549 million of issuances of debt, net of repayments.

As a U.K. incorporated company, we are required under U.K. law to have available "distributable reserves" to make share repurchases or pay dividends to shareholders. Distributable reserves are created through the earnings of the U.K. parent company. Distributable reserves are not linked to a U.S. GAAP reported amount (e.g., retained earnings). As of June 30, 2016 and December 31, 2015, we had distributable reserves in excess of \$2.3 billion and \$2.1 billion, respectively. We believe that we will have sufficient distributable reserves to fund shareholder dividends, if and to the extent declared, for the foreseeable future.

Cash and Investments

At June 30, 2016, our cash and cash equivalents and short-term investments were \$689 million, a decrease of \$51 million from December 31, 2015. This decrease was primarily related to \$750 million in share repurchases, \$104 million of capital expenditures, \$183 million in acquisitions of businesses, net of cash acquired, and \$169 million in dividends, partially offset by \$764 million cash provided by operations and \$424 million in proceeds from debt issuances, net of repayments. Of the total balance as of June 30, 2016, \$87 million was restricted as to its use, which was comprised of \$59 million of operating funds in the U.K., as required by the Financial Conduct Authority, and \$28 million held as collateral for various business purposes. At June 30, 2016, \$1.6 billion of cash and cash equivalents and short-term investments were held in the U.S. and overdrawn cash and cash equivalents and short-term investments of \$897 million were held in other countries. We maintain multicurrency cash pools with a third-party banks in which various Aon entities participate. Individual Aon entities are permitted to overdraw on their individual accounts provided the overall global balance does not fall below zero. At June 30, 2016, non-U.S. cash balances of one or more entities were negative; however, the overall balance was positive.

Of the total balance of Cash and cash equivalents and Short-term investments as of December 31, 2015, \$105 million was restricted as to its use, which was comprised of \$65 million of operating funds in the U.K., as required by the Financial Conduct Authority, and \$40 million held as collateral for various business purposes. At December 31, 2015, \$2.6 billion of cash and cash equivalents and short-term investments were held in the U.S. and overdrawn cash and cash equivalents and short-term investments of \$1.9 billion were held in other countries.

In our capacity as an insurance broker or agent, we collect premiums from insureds and, after deducting our commission, remit the premiums to the respective insurance underwriter. We also collect claims or refunds from

underwriters on behalf of insureds, which are then returned to the insureds. Unremitted insurance premiums and claims are held by us in a fiduciary capacity. In addition, some of our outsourcing agreements require us to hold funds on behalf of clients to pay obligations on their behalf. The levels of fiduciary assets and liabilities can fluctuate significantly, depending on when we collect premiums, claims, and refunds, make payments to underwriters and insureds, collect funds from clients and make payments on their behalf, and the movement of foreign currency exchange rates. Fiduciary assets, because of their nature, are generally invested in very liquid securities with highly-rated, credit-worthy financial institutions. In our Condensed Consolidated Statements of Financial Position, the amounts we report for Fiduciary assets and Fiduciary liabilities are equal. Our Fiduciary assets included cash and short-term investments of \$3.8 billion and \$3.4 billion at June 30, 2016 and December 31, 2015, respectively, and fiduciary receivables of \$6.4 billion and \$6.5 billion at June 30, 2016 and December 31, 2015, respectively. While we earn investment income on the fiduciary assets held in cash and investments, the cash and investments cannot be used for general corporate purposes.

As disclosed in Note 13 "Fair Value Measurements and Financial Instruments" of the Notes to the Condensed Consolidated Financial Statements, the majority of our investments carried at fair value are money market funds. Money market funds are carried at cost as an approximation of fair value. Consistent with market convention, we consider cost a practical and expedient measure of fair value. These money market funds are held throughout the world with various financial institutions. We are not aware of any market liquidity issues that would materially impact the fair value of these investments.

At June 30, 2016, our investments in money market funds had a fair value of \$1.5 billion and are reported as Short-term investments or Fiduciary assets in the Condensed Consolidated Statements of Financial Position depending on their nature.

The following table summarizes our Fiduciary assets, non-fiduciary Cash and cash equivalents, and Short-term investments at June 30, 2016 (in millions):

Asset Type	Statement of Financial Position Classification			Total
	Cash and Cash Equivalents	Short-term Investments	Fiduciary Assets	
Certificates of deposit, bank deposits or time deposits	\$ 438	\$ —	\$ 2,582	\$3,020
Money market funds	—	251	1,232	1,483
Other investments due within one year	—	—	—	—
Cash and short-term investments	438	251	3,814	4,503
Fiduciary receivables	—	—	6,387	6,387
Total	\$ 438	\$ 251	\$ 10,201	\$10,890

Share Repurchase Program

In April 2012, our Board of Directors authorized the 2012 Share Repurchase Program under which up to \$5.0 billion of Class A Ordinary Shares may be repurchased. In November 2014, our Board of Directors authorized the 2014 Share Repurchase Program pursuant to which up to \$5.0 billion may be repurchased in addition to the \$5.0 billion authorized under the 2012 Share Repurchase Program. Under each program, shares may be repurchased through the open market or in privately negotiated transactions, based on prevailing market conditions, funded from available capital.

In the second quarter of 2016, the Company did not repurchase shares. During the six months ended June 30, 2016, we repurchased 7.7 million shares at an average price per share of \$97.92 for a total cost of approximately \$750 million. Included in the 7.7 million shares repurchased were 0.6 million shares repurchased in March 2016 that did not settle until April 2016. These shares were settled at an average price per share of \$103.58 and total cost of \$65 million. In the second quarter of 2015, the Company repurchased 3.0 million shares at an average price per share of \$100.92 for a total cost of approximately \$300 million. During the six months ended June 30, 2015, we repurchased 5.5 million shares at an average price per share of \$100.57 for a total cost of approximately \$550 million.

In August 2015, the \$5 billion of Class A Ordinary Shares authorized under the 2012 Share Repurchase Program was exhausted. At June 30, 2016, the remaining authorized amount for share repurchase under the 2014 Share Repurchase Program is approximately \$3.3 billion. Under the Repurchase Programs, the Company has repurchased a total of 85.7 million shares for an aggregate cost of approximately \$6.7 billion.

For information regarding share repurchases made during the second quarter of 2016, see Part II, Item 2 — "Unregistered Sales of Equity Securities and Use of Proceeds" below.

Borrowings

Total debt at June 30, 2016 was \$6.2 billion, which represents an increase of \$458 million compared to December 31, 2015. This increase is primarily due to the issuance of \$750 million of 3.875% Senior Notes due December 2025 and an increase in commercial paper outstanding of \$191 million, partially offset by the repayment of \$500 million of 3.125% Senior Notes which matured in May 2016. Commercial paper activity during the three and six months ended June 30, 2016 included total issuances of \$1.0 billion and \$1.3 billion, respectively, compared to \$976 million and \$1.8 billion for the three and six months ended June 30, 2015, respectively. The proceeds of the commercial paper issuances were used primarily for short-term working capital needs.

On March 1, 2016, Aon plc issued \$750 million of 3.875% Senior Notes due December 2025. We used the proceeds of the issuance for general corporate purposes.

On May 27, 2016, \$500 million of 3.125% Senior Notes issued by Aon Corporation matured and were repaid.

Credit Facilities

As of June 30, 2016, Aon plc had two primary committed credit facilities outstanding: its \$400 million U.S. credit facility expiring in March 2017 (the "2017 Facility") and its \$900 million multi-currency U.S. credit facility originally expiring in February 2020. Effective February 2, 2016, the \$900 million multi-currency U.S. credit facility terms were extended for one year and will now expire on February 2, 2021 (the "2021 Facility"). Each of these facilities is intended to support our commercial paper obligations and our general working capital needs. In addition, each of these facilities includes customary representations, warranties and covenants, including financial covenants that require us to maintain specified ratios of adjusted consolidated EBITDA to consolidated interest expense and consolidated debt to adjusted consolidated EBITDA, tested quarterly. At June 30, 2016, we had no borrowings under, and were in compliance with, these financial covenants and all other covenants contained in the 2017 Facility and the 2021 Facility during the three and six months ended June 30, 2016.

Our total debt-to-EBITDA ratio at June 30, 2016 and 2015 based on a rolling twelve months is calculated as follows:

	For the twelve months ended June 30,	
	2016	2015
Net income	1,500	1,311
Interest expense	282	265
Income taxes	290	295
Depreciation of fixed assets	230	233
Amortization of intangible assets	290	338
Total EBITDA	2,592	2,442
 Total Debt	 6,158	 6,061

Total debt-to-EBITDA ratio 2.4 2.5

We use EBITDA, as defined by our financial covenants, as a non-GAAP measure. This supplemental information related to EBITDA represents a measure not in accordance with U.S. GAAP and should be viewed in addition to, not instead of, our Consolidated Financial Statements and Notes thereto.

Shelf Registration Statement

On September 3, 2015, we filed a shelf registration statement with the SEC, registering the offer and sale from time to time of an indeterminate amount of, among other securities, debt securities, preference shares, Class A Ordinary Shares and convertible securities. Our ability to access the market as a source of liquidity is dependent on investor demand, market conditions and other factors.

Rating Agency Ratings

The major rating agencies' ratings of our debt at July 29, 2016 appear in the table below.

	Ratings		
	Senior Long-term Debt	Commercial Paper	Outlook
Standard & Poor's	A-	A-2	Stable

Edgar Filing: Aon plc - Form 10-Q

Moody's Investor Services	Baa2	P-2	Stable
Fitch, Inc.	BBB+	F-2	Stable

A downgrade in the credit ratings of our senior debt and commercial paper could increase our borrowing costs, reduce or eliminate our access to capital, reduce our financial flexibility, increase our commercial paper interest rates, or restrict our access to the commercial paper market altogether, and/or impact future pension contribution requirements.

Letters of Credit and Other Guarantees

We had total LOCs outstanding of approximately \$82 million at June 30, 2016, compared to \$58 million at December 31, 2015. These letters of credit cover the beneficiaries related to certain of our U.S. and Canadian non-qualified pension plan schemes and secure deductible retentions for our own workers compensation program. We also have issued LOCs to cover contingent payments for taxes and other business obligations to third parties, and other guarantees for miscellaneous purposes at our international subsidiaries.

We have certain contractual contingent guarantees for premium payments owed by clients to certain insurance companies. The maximum exposure with respect to such contractual contingent guarantees was approximately \$89 million at June 30, 2016, compared to \$104 million at December 31, 2015.

We have provided commitments to fund certain limited partnerships in which we have an interest in the event that the general partners request funding. Some of these commitments have specific expiration dates and the maximum potential funding under these commitments was \$12 million at June 30, 2016 and December 31, 2015, respectively. During the three and six months ended June 30, 2016, we did not fund any significant commitments.

Other Liquidity Matters

We do not have significant exposure related to off-balance sheet arrangements. Our cash flows from operations, borrowing availability and overall liquidity are subject to risks and uncertainties. See "Information Concerning Forward-Looking Statements" below.

Financial Condition

At June 30, 2016, our net assets were \$5.6 billion, representing total assets minus total liabilities, a decrease from \$6.2 billion at December 31, 2015. The decrease was due primarily to \$750 million of share repurchases, \$169 million of dividend payments, and an increase of \$299 million in Accumulated other comprehensive loss related primarily to foreign currency translation adjustment and post-retirement benefit obligations, partially offset by Net income of \$607 million for the six months ended June 30, 2016. Working capital increased by \$454 million to \$1,104 million from December 31, 2015.

Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss increased \$299 million to \$3,722 million at June 30, 2016 as compared to \$3,423 million at December 31, 2015, which was primarily driven by the following:

- negative net foreign currency translation adjustments of \$138 million, which are attributable to the strengthening of the U.S. dollar against certain foreign currencies,
- an increase of \$150 million in net post-retirement benefit obligations, and
- net financial instrument losses of \$11 million.

REVIEW BY SEGMENT

General

We serve clients through the following segments:

-

Risk Solutions acts as an advisor and insurance and reinsurance broker, helping clients manage their risks, via consultation, as well as negotiation and placement of insurance risk with insurance carriers through our global distribution network.

HR Solutions partners with organizations to solve their most complex benefits, talent and related financial challenges, and improve business performance by designing, implementing, communicating and administering a wide range of human capital, retirement, investment management, health care, compensation and talent management strategies.

Risk Solutions

(millions, except percentage data)	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Revenue	\$1,847	\$1,833	\$3,719	\$3,728
Operating income	373	279	802	691
Operating margin	20.2	% 15.2	% 21.6	% 18.5

The demand for property and casualty insurance generally rises as the overall level of economic activity increases and generally falls as such activity decreases, affecting both the commissions and fees generated by our brokerage business. The economic activity that impacts property and casualty insurance is described as exposure units, and is most closely correlated with employment levels, corporate revenue and asset values. During the first six months of 2016, pricing was modestly negative on average globally, and we still consider this a "soft market." In a soft market, premium rates flatten or decrease, along with commission revenues, due to increased competition for market share among insurance carriers or increased underwriting capacity. Changes in premiums have a direct and potentially material impact on the insurance brokerage industry, as commission revenues are generally based on a percentage of the premiums paid by insureds.

Additionally, continuing into the second quarter of 2016, we faced difficult conditions as a result of continued weakness in the global economy and the repricing of credit risk. Weak economic conditions in many markets around the globe have reduced our customers' demand for our retail brokerage and reinsurance brokerage products, which have had a negative impact on our operational results.

Risk Solutions generated approximately 67% of our consolidated total revenues in the second quarter. Revenues are generated primarily through fees paid by clients, commissions and fees paid by insurance and reinsurance companies, and investment income on funds held on behalf of clients. Our revenues vary from quarter to quarter throughout the year as a result of the timing of our clients' policy renewals, the net effect of new and lost business, the timing of services provided to our clients, and the income we earn on investments, which is heavily influenced by short-term interest rates.

We operate in a highly competitive industry and compete with many retail insurance brokerage and agency firms, as well as with individual brokers, agents, and direct writers of insurance coverage. Specifically, we address the highly specialized product development and risk management needs of commercial enterprises, professional groups, insurance companies, governments, health care providers, and non-profit groups, among others; provide Affinity products for professional liability, life, disability income, and personal lines for individuals, associations, and businesses; provide products and services via Inpoint; provide reinsurance services to insurance and reinsurance companies and other risk assumption entities by acting as brokers or intermediaries on all classes of reinsurance; provide capital management transaction and advisory products and services, including mergers and acquisitions and other financial advisory services, capital raising, contingent capital financing, insurance-linked securitizations and derivative applications; provide managing underwriting to independent agents and brokers as well as corporate clients; provide risk consulting, actuarial, loss prevention, and administrative services to businesses and consumers; and manage captive insurance companies.

Revenue

Commissions, fees and other revenue for Risk Solutions were as follows (in millions):

Three months ended June 30,		Six months ended June 30,	
2016	2015	2016	2015

Retail brokerage:

Americas	\$830	\$837	\$1,538	\$1,550
International (1)	678	661	1,465	1,461
Total retail brokerage	1,508	1,498	3,003	3,011
Reinsurance brokerage	334	330	706	707
Total	\$1,842	\$1,828	\$3,709	\$3,718

(1) Includes the U.K., Europe, Middle East, Africa and Asia Pacific.

Commissions, fees and other revenue for Risk Solutions increased \$14 million, or 1%, in the second quarter 2016 compared to the second quarter 2015. The increase in revenue was driven by 3% organic growth, partially offset by a 2% unfavorable

impact from foreign currency exchange rates. During the first six months of 2016, Commissions, fees, and other revenue decreased \$9 million, as compared to the first six months of 2015 due to a 3% unfavorable impact from foreign currency exchange rates, offset by 3% organic growth.

Reconciliation of organic revenue growth to reported commissions, fees and other revenue growth for 2016 versus 2015 is as follows:

Three months ended June 30, 2016	Percent Change	Less: Currency Impact	Less: Acquisitions, Divestitures & Other	Organic Revenue
Retail brokerage:				
Americas	(1)%	(3)%	— %	2 %
International (1)	3	(2)	(1)	6
Total retail brokerage	1	(3)	—	4
Reinsurance brokerage	1	—	—	1
Total	1 %	(2)%	— %	3 %
Six months ended June 30,	Percent Change	Less: Currency Impact	Less: Acquisitions, Divestitures & Other	Organic Revenue
Retail brokerage:				
Americas	(1)%	(3)%	(1)%	3 %
International (1)	—	(4)	(1)	5
Total retail brokerage	—	(4)	—	4
Reinsurance brokerage	—	(1)	—	1
Total	— %	(3)%	— %	3 %

(1) Includes the U.K., Europe, Middle East, Africa and Asia Pacific.

Retail brokerage Commissions, fees and other revenue increased 1% in the second quarter of 2016 driven by 4% organic revenue growth, partially offset by a 3% unfavorable impact from foreign currency exchange rates. For the first six months of 2016, commissions, fees, and other revenue remained flat, as 4% organic revenue growth was offset by a 4% unfavorable impact from foreign currency exchange rates.

Americas Commissions, fees and other revenue decreased 1% in both the second quarter and first six months of 2016, reflecting 2% growth in organic revenue that was more than offset by a 3% unfavorable impact from foreign currency exchange rates for the second quarter of 2016. For the first six months of 2016, the decrease in revenue was driven by a 3% unfavorable impact from foreign currency exchange rates and a 1% decrease in commissions and fees related to net divestitures, partially offset by 3% growth in organic revenue. Organic revenue growth of 2% and 3% in the three and six months ended June 30, 2016, respectively, was driven by strong growth in Affinity and modest growth in Latin America and US Retail.

International Commissions, fees and other revenue increased 3% in the second quarter 2016, driven by 6% organic revenue growth, partially offset by a 2% unfavorable impact from foreign currency exchange rates and a 1% decrease in commissions and fees related to net divestitures. For the first six months of 2016, commissions, fees, and other revenue remained flat as organic growth of 5% was offset by a 4% unfavorable impact from foreign currency exchange rates and a 1% decrease in commissions and fees related to net divestitures. Strong organic revenue growth in both periods was driven by continued growth across Asia and the Pacific, as well as solid growth in continental Europe driven by both new business generation and management of the renewal book portfolio.

Reinsurance brokerage Commissions, fees and other revenue increased 1% in the second quarter of 2016, as compared to the prior year period, driven by 1% organic revenue growth. For the first six months of 2016, commissions, fees, and other revenue was flat as compared to the prior year period, as 1% organic revenue growth was offset by a 1% unfavorable impact from foreign currency exchange rates. Organic revenue growth for both the second quarter and first six months of 2016 was driven primarily by growth in facultative placements and net new business generation in treaty placements, partially offset by an unfavorable market impact.

Operating Income

Operating income for the second quarter 2016 increased \$94 million, or 34%, from the second quarter of 2015 to \$373 million in the first quarter of 2016, and operating income margin increased from 15.2% in the first quarter of 2015 to 20.2% in the first quarter of 2016. For the first six months of 2016, operating income increased \$111 million, or 16%, to \$802 million. The increase in both periods was driven primarily by solid organic revenue growth and return on investments in data and analytics across the portfolio, as well as a decrease in expense related to certain legacy litigation.

HR Solutions

(millions, except percentage data)	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Revenue	\$931	\$979	\$1,861	\$1,949
Operating income	75	39	142	115
Operating margin	8.1 %	4.0 %	7.6 %	5.9 %

Our HR Solutions segment generated approximately 34% of our consolidated total revenues in the second quarter of 2016 and provides a broad range of human capital services, as follows:

Retirement specializes in global actuarial services, defined contribution consulting, tax and ERISA consulting, and pension administration.

Compensation focuses on compensatory advisory/counsel including: compensation planning design, executive reward strategies, salary survey and benchmarking, market share studies and sales force effectiveness, with special expertise in the financial services and technology industries.

Strategic Human Capital delivers advice to complex global organizations on talent, change and organizational effectiveness issues, including talent strategy and acquisition, executive on-boarding, performance management, leadership assessment and development, communication strategy, workforce training and change management.

Investment consulting advises public and private companies, other institutions and trustees on developing and maintaining investment programs across a broad range of plan types, including defined benefit plans, defined contribution plans, endowments and foundations.

Benefits Administration applies our human resource expertise primarily through defined benefit (pension), defined contribution (401(k)), and health and welfare administrative services. Our model replaces the resource-intensive processes once required to administer benefit plans with more efficient, effective, and less costly solutions.

Exchanges is building and operating healthcare exchanges that provide employers with a cost effective alternative to traditional employee and retiree healthcare, while helping individuals select the insurance that best meets their needs.

Human Resource Business Processing Outsourcing ("HR BPO") provides market-leading solutions to manage employee data; administers benefits, payroll and other human resources processes; and records and manages talent, workforce and other core human resource process transactions as well as other complementary services such as flexible spending, dependent audit and participant advocacy.

Revenue

Commissions, fees and other revenue were as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Consulting services	\$383	\$391	\$757	\$762

Outsourcing	550	599	1,110	1,203
Intrasegment	(2)	(11)	(6)	(16)
Total	\$931	\$979	\$1,861	\$1,949

Commissions, fees and other revenue for HR Solutions decreased \$48 million, or 5%, in the second quarter 2016 compared to the second quarter 2015. The modest decrease in revenue reflects a 5% decrease in commissions and fees related to net divestitures and a 1% unfavorable impact from foreign exchange rates, partially offset by 1% organic growth in commissions and fees. For the first six months of 2016, revenue decreased \$88 million due to a 5% decrease in commissions and fees related to net divestitures and a 2% unfavorable impact from foreign currency exchange rates, partially offset by 2% organic growth.

Reconciliation of organic revenue growth to reported commissions, fees and other revenue growth for 2016 versus 2015 is as follows:

Three months ended June 30, 2016	Percent Change	Less: Currency Impact	Less: Acquisitions, Divestitures & Other	Organic Revenue
Consulting services	(2)%	(2)%	(1)%	1 %
Outsourcing	(8)	(1)	(7)	—
Total	(5)%	(1)%	(5)%	1 %

Six months ended June 30,	Percent Change	Less: Currency Impact	Less: Acquisitions, Divestitures & Other	Organic Revenue
Consulting services	(1)%	(2)%	(1)%	2 %
Outsourcing	(8)	(1)	(7)	—
Total	(5)%	(2)%	(5)%	2 %

Consulting services revenue decreased \$8 million, or 2%, for the second quarter of 2016 as compared to the prior year period due primarily to a 2% unfavorable impact from foreign currency exchange rates and a 1% decrease in commissions and fees related to net divestitures, partially offset by 1% organic revenue growth. For the first six months of 2016, revenue decreased \$5 million, or 1% as compared to the prior year period, as a result of a 2% unfavorable impact from foreign currency rates and a 1% decrease in commissions and fees related to net divestitures, partially offset by 2% organic growth. Organic revenue growth for both periods was driven primarily by continued growth in investment consulting, as well as growth in pension solutions.

Outsourcing revenue decreased \$49 million, or 8%, for the second quarter of 2016 as compared to the prior year period due to a 7% decrease in commissions and fees related to net divestitures and a 1% unfavorable impact from foreign currency exchange rates. For the first six months of 2016, revenue decreased \$93 million, or 8%, as a result of a 7% decrease in commissions and fees related to net divestitures, and a 1% unfavorable impact from foreign currency exchange rates. Organic revenue growth in both periods was driven primarily by continued growth in HR BPO for cloud-based solutions, offset by a modest decline in benefits administration and project-related work.

Operating Income

Operating income for the second quarter of 2016 was \$75 million, an increase of \$36 million, or 92%, from the second quarter of 2015. For the first six months of 2016, operating income was \$142 million, an increase from \$115 million in the prior year period. The increase in both the second quarter and first six months of 2016 was primarily driven by organic revenue growth, a decrease in expenses related to certain legacy litigation settlements in the prior year quarter, and expense discipline. Operating margin for the HR Solutions segment was 8.1% in the second quarter, an increase from 4.0% in 2015. For the first six months of 2016, operating margin was 7.6%, an increase from 5.9% in 2015.

Unallocated Income and Expense

A reconciliation of our operating income to income before income taxes is as follows (in millions):

	Three months ended June 30, 2016		Six months ended June 30, 2015	
Operating income (loss):				
Risk Solutions	\$373	\$279	\$802	\$691

Edgar Filing: Aon plc - Form 10-Q

HR Solutions	75	39	142	115
Unallocated	(43)	(41)	(89)	(88)
Operating income	405	277	855	718
Interest income	3	4	5	7
Interest expense	(73)	(68)	(142)	(133)
Other income	—	1	18	43
Income before income taxes	\$335	\$214	\$736	\$635

Unallocated operating expense

Unallocated operating expense includes corporate governance costs not allocated to the operating segments. Net unallocated expenses increased \$2 million to \$43 million in the second quarter 2016 as compared to the prior year period. Net unallocated expenses were \$89 million for the first six months of 2016 and \$88 million for the first six months of 2015.

Interest income, Interest expense, and Other income

For a discussion of the components of Interest income, Interest expense, and Other income, see Management's Discussion of Financial Condition and Results of Operations - Review of Consolidated Results.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

There have been no changes in our critical accounting policies, which include revenue recognition, pensions, goodwill and other intangible assets, contingencies, share-based payments, and income taxes, as discussed in our 2015 Annual Report on Form 10-K.

NEW ACCOUNTING PRONOUNCEMENTS

Note 2 "Accounting Principles and Practices" of the Notes to the Condensed Consolidated Financial Statements contains a discussion of recently issued accounting pronouncements and their impact or future potential impact on our financial results, if determinable.

INFORMATION CONCERNING FORWARD-LOOKING STATEMENTS

This report and reports we will subsequently file or furnish and have previously filed or furnished with the SEC contains certain statements related to future results, or states our intentions, beliefs and expectations or predictions for the future which are forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements relate to expectations or forecasts of future events. They use words such as "anticipate," "believe," "estimate," "expect," "forecast," "project," "intend," "plan," "probably," "potential," "looking forward," and other similar terms, and future or conditional tense verbs like "could," "may," "might," "should," "will" and "would." You can also identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. For example, we may use forward-looking statements when addressing topics such as: market and industry conditions, including competitive and pricing trends; changes in our business strategies and methods of generating revenue; the development and performance of our services and products; changes in the composition or level of our revenues; our cost structure and the outcome of cost-saving or restructuring initiatives; the outcome of contingencies; dividend policy; the expected impact of acquisitions and dispositions; pension obligations; cash flow and liquidity; expected effective tax rate; future actions by regulators; and the impact of changes in accounting rules. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from either historical or anticipated results depending on a variety of factors. Potential factors, which may be revised or supplemented in subsequent reports filed or furnished with the SEC, that could impact results include:

- general economic and political conditions in different countries in which we do business around the world;
- changes in the competitive environment;
- fluctuations in exchange and interest rates, including negative yield in some jurisdictions, that could influence revenue and expense;
- changes in global equity and fixed income markets that could affect the return on invested assets;
- changes in the funding status of our various defined benefit pension plans and the impact of any increased pension funding resulting from those changes;

- the level of our debt limiting financial flexibility;
- rating agency actions that could affect our ability to borrow funds;
- the effect of the change in global headquarters and jurisdiction of incorporation, including differences in the anticipated benefits;
- changes in estimates or assumptions on our financial statements;
- limits on our subsidiaries to make dividend and other payments to us;

the impact of lawsuits and other contingent liabilities and loss contingencies arising from errors and omissions and other claims against us;

the impact of, and potential challenges in complying with, legislation and regulation in the jurisdictions in which we operate, particularly given the global scope of our businesses and the possibility of conflicting regulatory requirements across jurisdictions in which we do business;

the impact of any investigations brought by regulatory authorities in the U.S., U.K. and other countries;

the impact of any inquiries relating to compliance with the U.S. Foreign Corrupt Practices Act and non-U.S. anti-corruption laws and with U.S. and non-U.S. trade sanctions regimes;

failure to protect intellectual property rights or allegations that we infringe on the intellectual property rights of others;

the effects of English law on our operating flexibility and the enforcement of judgments against us;

the failure to retain and attract qualified personnel;

international risks associated with our global operations;

the effect of natural or man-made disasters;

the potential of a system or network breach or disruption resulting in operational interruption or improper disclosure of personal data;

our ability to develop and implement new technology;

damage to our reputation among clients, markets or third parties;

the actions taken by third parties that perform aspects of our business operations and client services;

the extent to which we manage certain risks created in connection with the various services, including fiduciary and investments and other advisory services and business process outsourcing services, among others, that we currently provide, or will provide in the future, to clients;

our ability to grow, develop and integrate companies that it acquires or new lines of business;

changes in commercial property and casualty markets, commercial premium rates or methods of compensation;

changes in the health care system or our relationships with insurance carriers; and

our ability to implement initiatives intended to yield cost savings and the ability to achieve those cost savings.

Any or all of our forward-looking statements may turn out to be inaccurate, and there are no guarantees about our performance. The factors identified above are not exhaustive. Aon and its subsidiaries operate in a dynamic business environment in which new risks may emerge frequently. Accordingly, readers should not place undue reliance on forward-looking statements, which speak only as of the dates on which they are made. We are under no obligation (and expressly disclaim any obligation) to update or alter any forward-looking statement that we may make from time to time, whether as a result of new information, future events or otherwise. Further information about factors that could materially affect Aon, including our results of operations and financial condition, is contained in the "Risk Factors" sections in each of Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015. These factors may be revised or supplemented in subsequent Quarterly Reports on Form 10-Q or Current Reports on Form 8-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to potential fluctuations in earnings, cash flows and the fair value of certain of our assets and liabilities due to changes in interest rates and foreign exchange rates. To manage the risk from these exposures, we enter into a variety of derivative instruments. We do not enter into derivatives or financial instruments for trading or speculative purposes.

The following discussion describes our specific exposures and the strategies we use to manage these risks. There have been no changes in our critical accounting policies for financial instruments and derivatives as discussed in our 2015 Annual Report on Form 10-K.

Foreign Exchange Risk

We are subject to foreign exchange rate risk. Our primary exposures include exchange rates between the U.S. Dollar and the Euro, the British Pound, the Canadian Dollar, the Australian Dollar, and the Indian Rupee. We use over-the-counter options and forward contracts to reduce the impact of foreign currency risk to our financial statements.

Additionally, some of our non-U.S. brokerage subsidiaries receive revenues in currencies that differ from their functional currencies. Our U.K. subsidiaries earn a portion of their revenue in U.S. Dollars and Euros, but most of their expenses are incurred in British Pounds. At June 30, 2016, we have hedged approximately 45% of our U.K. subsidiaries' expected exposures to both U.S. Dollar and Euro transactions for the years ending December 31, 2016 and 2017, respectively. We generally do not hedge exposures beyond three years.

We also use forward contracts to economically hedge foreign exchange risk associated with monetary balance sheet exposures, such as inter-company notes and short-term assets and liabilities that are denominated in a non-functional currency and are subject to remeasurement.

The translated value of revenue and expense from our international brokerage operations are subject to fluctuations in foreign exchange rates. If the Company were to translate prior year results at current quarter exchange rates, diluted earnings per share would not be impacted during the three months ended June 30, 2016 and would be unfavorably impacted by approximately \$0.05 during the six months ended June 30, 2016. Further, adjusted diluted earnings per share, a non-GAAP measure as defined and reconciled under the caption "Review of Consolidated Results — Adjusted Diluted Earnings Per Share" would not be impacted during the three months ended June 30, 2016 and would be unfavorably impacted by approximately \$0.05 during the six months ended June 30, 2016 if the Company were to translate prior year results at current quarter exchange rates.

Interest Rate Risk

Our fiduciary investment income is affected by changes in international and domestic short-term interest rates. We monitor our net exposure to short-term interest rates and, as appropriate, hedge our exposure with various derivative financial instruments. This activity primarily relates to brokerage funds held on behalf of clients in the U.S. and in continental Europe. A decrease in global short-term interest rates adversely affects our fiduciary investment income.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. We have conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") as of the end of the period covered by this quarterly report of June 30, 2016. Based on this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective such that the information relating to Aon, including our consolidated subsidiaries, required to be disclosed in our Securities and Exchange Commission ("SEC") reports is recorded, processed, summarized and reported within the time periods specified in appropriate statute, SEC rules and forms, and is accumulated and communicated to Aon's management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in internal control over financial reporting. No changes in Aon's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during the quarter ended June 30, 2016 that have materially affected, or that are reasonably likely to materially affect, Aon's internal control over financial reporting.

PART II

OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 14 "Commitments and Contingencies — Legal" to the Condensed Consolidated Financial Statements contained in Part I, Item 1, which is incorporated by reference herein.

ITEM 1A. RISK FACTORS.

The risk factors set forth in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015 reflect certain risks associated with existing and potential lines of business and contain "forward-looking statements" as discussed in Part I, Item 2 of this report. Readers should consider them in addition to the other information contained in this report as our business, financial condition or results of operations could be adversely affected if any of these risks actually occur.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities.

The following information relates to the purchase of equity securities by Aon or any affiliated purchaser during each month within the second quarter of 2016:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (1)
4/1/16 - 4/30/16	—	\$ —	—	\$ 3,324,314,629
5/1/16 - 5/31/16	—	—	—	3,324,314,629
6/1/16 - 6/30/16	—	—	—	3,324,314,629
Total	—	—	—	\$ 3,324,314,629

(1) Our Board of Directors authorized the 2012 Share Repurchase Program in April 2012 and the 2014 Share Repurchase Program in November 2014. During the second quarter of 2016, we did not repurchase shares under the Share Repurchase Program.

We did not make any unregistered sales of equity in the second quarter.
