Yes  No
- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

As discussed in previous filings with the Securities and Exchange Commission, on February 12, 2009, the Registrant completed the first interim efficacy analysis of its Riquent® Phase 3 ASPEN Study and determined that continuing the study was futile. As a result, the Registrant has discontinued all research, development and clinical activities and has terminated substantially all of its workforce. Accordingly, the Registrant's operating expenses and net loss attributable to common stockholders for the year ended December 31, 2010 are expected to be substantially lower than reported for the year ended December 31, 2009. Operating expenses for the year ended December 31, 2010 are expected to be less than \$4.0 million compared to \$16.8 million for the year ended December 31, 2009. Net loss attributable to common stockholders for the year ended December 31, 2010 is expected to be less than \$5.2 million compared to a net loss attributable to common stockholders for the year ended December 31, 2009 of \$8.6 million.

Details related to the May 2010 financing were disclosed in a Form 8-K filed with the Securities and Exchange Commission on May 28, 2010.

The foregoing contains forward-looking statements regarding the Registrant's anticipated financial results for the year ended December 31, 2010, which are preliminary and subject to adjustment following completion of annual audit procedures. Actual results may differ from the estimates of preliminary results.
