LANDAMERICA FINANCIAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands of dollars except per share amounts)

1. Interim Financial Information

The unaudited consolidated financial information included in this report has been prepared in conformity with the accounting principles and practices reflected in the consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2000 filed with the Securities and Exchange Commission under the Securities Exchange Act of 1934. This report should be read in conjunction with the aforementioned Form 10-K. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of this information have been made. The results of operations for the interim periods are not necessarily indicative of results for a full year.

2. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share:

Edgar Filing: LANDAMERICA FINANCIAL GROUP INC - Form 10-Q

Three Months End

	=====
Basic earnings (loss) per common share	\$ 0.43
	=====
Diluted earnings (loss) per common share	\$ 0.36
	=====

8

In accordance with accounting principles generally accepted in the United States, the effect of dilutive securities was excluded from the calculation of the diluted loss per common share in the first quarter of 2000 as such inclusion would result in antidilution.

3. Commitments and Contingencies

For additional information, see Pending Legal Proceedings on pages F-29 through F-31 and Legal Proceedings on pages 13 through 15 of the Form 10-K for the year ended December 31, 2000, and Legal Proceedings on page 13 of this Form 10-Q.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Operating Revenues

The Company reported operating revenue for the quarter ended March 31, 2001 of \$426.1 million, which was an increase of 8.2% over the \$393.8 million reported in the comparable quarter of 2000. The overall increase is the result of increased volumes of residential resale and refinancing transactions, reflecting a favorable interest rate environment which began in December 2000. Direct revenues grew 23.6% from \$164.9 million in the first quarter of 2000 to \$203.8 million in the first quarter of 2001. Due to the time lag in reporting, agency revenue was down slightly in the first quarter of 2001 compared to 2000.

The open order count registered for the first quarter of 2001 was almost 66.2% ahead of the count registered for the fourth quarter of 2000 and 48.6% ahead of the first quarter of 2000. In addition, the March order count was the strongest since October 1998, when the Company experienced its all time high, monthly open order count.

Investment Income

Investment income was \$12.9 million in the first quarter of 2001 compared to \$12.8 million in the first quarter of 2000. The increase was attributable to the effects of a larger investment base offset by slightly reduced yields.

Expenses

Operating expenses for the first quarter of 2001 totaled \$428.2 million compared to \$409.7 million in the first quarter of 2000. Agents' commissions decreased \$3.7 million between the 2000 and 2001 quarters in direct relation to the decrease in agency revenue. Salary and related expenses were \$140.9 million in the first quarter of 2001 compared to \$121.0 million for the 2000 period which constitutes an increase of \$19.8 million or 16%. This increase was due to an increase in variable compensation associated with the increase in direct revenue and the inclusion of recent acquisitions in the current quarter. Average same store staffing levels decreased to 7,900 in the 2001 quarter from 8,200 in the first quarter of 2000.

The provision for policy and contract claims decreased \$0.7 million from the first quarter of 2000 to the first quarter of 2001 as a result of recognition of continued improvement in the Company's loss experience.

Net Income

The Company reported a net income of \$6.6 million, or \$0.36 per share on a diluted basis, for the quarter ended March 31, 2001, compared to a net loss of \$2.1 million, or \$0.30 per share on a diluted basis, for the quarter ended March 31, 2000. The 2001 first quarter results included a \$0.3 million, or \$0.01 per diluted share net of tax loss from the sale of investments.

In accordance with generally accepted accounting principles, the effect of dilutive securities was excluded from the calculation of the diluted loss per common share in the first quarter of 2000 as such inclusion would result in antidilution.

Liquidity and Capital Resources

Cash used in operating activities for the three months ended March 31, 2001 was \$11.1 million. As of March 31, 2001, the Company held cash and invested cash of \$97.3 million and fixed maturity securities of \$816.5 million.

In addition, the Company has \$32 million available under a credit facility which was unused at March 31, 2001.

The Company believes that it will have sufficient liquidity and capital resources to meet both its short and long term capital needs.

Interest Rate Risk

The following table provides information about the Company's financial instruments that are sensitive to changes in interest rates. For investment securities, the table presents principal cash flows and related weighted interest rates by expected maturity dates. Actual cash flows could differ from the expected amounts.

Interest Rate Sensitivity
Principal Amount by Expected Maturity
Average Interest Rate
(dollars in thousands)

	2001 ----	2002 ----	2003 ----	2004 ----	2005 ----
Assets:					
Taxable available-for-sale securities:					
Book value	\$ 9,129	\$ 32,146	\$ 41,112	\$ 31,941	\$ 48,435
Average yield	6.8%	6.3%	6.1%	7.1%	7.0%
Non-taxable available-for-sale securities:					
Book value	1,269	7,928	16,041	20,771	29,566
Average yield	4.4%	4.4%	5.0%	4.8%	4.6%
Preferred stock:					
Book value	-	-	-	-	-
Average yield	-	-	-	-	-

The Company also has long-term debt of \$205.5 million bearing interest at 6.79% at March 31, 2001. A 0.25% change in the interest rate would affect income before income taxes by approximately \$0.5 million annually.

Forward-Looking and Cautionary Statements

Certain information contained in this Form 10-Q includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Among other things, these statements relate to the financial condition, results of operation and business of the Company. In addition, the Company and its representatives may from time to time make written or oral forward-looking statements, including statements contained in other filings with the Securities and Exchange Commission and in its reports to shareholders. These forward-looking statements are generally identified by phrases such as "the Company expects," "the Company believes" or words of similar import. These forward-looking statements involve certain risks and uncertainties and other factors that may cause the actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Further, any such statement is specifically qualified in its entirety by the following cautionary statements.

In connection with the title insurance industry in general, factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include the following: (i) the costs of producing title evidence are relatively high, whereas premium revenues are subject to regulatory and competitive restraints; (ii) real estate activity levels have historically been cyclical and are influenced by such factors as interest rates and the condition of the overall economy; (iii) the value of the Company's investment portfolio is subject to fluctuation based on similar factors; (iv) the title insurance industry may be exposed to substantial claims by large classes of claimants and (v) the industry is regulated by state laws that require the maintenance of minimum levels of capital and surplus and that restrict the amount of dividends that may be paid by the Company's insurance subsidiaries without prior regulatory approval.

The Company cautions that the foregoing list of important factors is not exclusive. The Company does not undertake to update any forward-looking statement that may be made from time to time by or on behalf of the Company.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The information required by this Item is set forth under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations - Interest Rate Risk" in Item 2 of this report.
