CAMTEK RELEASES PRELIMINARY Q1 2006 GUIDANCE OF \$20-23 MILLION

nd

Audited Full Year 2005 Results will be released on Thursday, March 2

MIGDAL HA EMEK, Israel, January 5, 2006 Camtek Ltd. (NASDAQ: CAMT, TASE: CAMT) today announced that it expects to recognize revenues in the range of \$20-23 million in the first quarter of 2006. This preliminary guidance is based on the current backlog and prospects for Camtek's Falcon systems, which indicate another strong quarter, and on the assumption that the PCB market remains at a similar level as in the fourth quarter of 2005.

Mr. Rafi Amit, Camtek's CEO commented, "We are very pleased with the recent momentum in our business driven by the success of the Falcon. The strong growth in sales of Falcon in the fourth quarter of 2005, as well as our current backlog and prospects, form the basis for our high confidence entering 2006."

Camtek also announced that it will release its fourth quarter and annual 2005 audited results on Thursday, March 2nd before the market opens.

ABOUT CAMTEK LTD.

With headquarters in Migdal Ha Emek Israel, Camtek Ltd., designs, develops, manufactures, and markets automatic optical inspection systems and related products. Camtek's automatic inspection systems are used to enhance both production processes and yield for manufacturers in the printed circuit board industry, the high density interconnect substrate industry and the semiconductor manufacturing and packaging industry. This press release is available at www.camtek.co.il.

This press release may contain projections or other forward-looking statements regarding future events or the future performance of the Company. These statements are only predictions and may change as time passes. We do not assume any obligation to update that information. Actual events or results may differ materially from those projected, including as a result of changing industry and market trends, reduced demand for our products, the timely development of our new products and their adoption by the market, increased competition in the industry, price reductions as well as due to risks identified in the documents filed by the Company with the SEC.
